The bathroom vanity designed for WEIYE received the Kapok Design Awards China. A bathroom vanity set designed for Chinese families combines affordable luxury, minimalism and refinement.

Kapok Design Awards China is one of China's most influential product design awards. Starting from 2006, it is the only annual international design award in China that is jointly certified by three authoritative international design organisations: The International Council of Societies of Industrial Design (Icsid), International Council of Design (Icograda), and International Federation of Interior Architects/Designers (IFI).
