SAP on cloud to enable the company towards customer-centricity, sustainability, process intelligence and automation

**Mumbai, January 20, 2022:** Mahindra & Mahindra Ltd. partners with SAP to spearhead its digital transformation journey. SAP will enable Mahindra & Mahindra to successfully modernise their technology landscape and enhance their overall operations by migrating SAP to a secure managed cloud environment whilst moving to a microservices enabled open stack architecture enabled by using SAP Business Technology Platform.

*"Agility and business innovation is a priority in the changing industry dynamics and customer expectations," says **Mohit Kapoor, Group Chief Technology Officer - Mahindra & Mahindra Ltd.** "We believe that cloud is the change agent in digital transformation of the company by bringing in higher levels of intelligence and automation. SAP on cloud adopts Business Transformation as a Service approach that aligns with our ambitious digital roadmap of reimagining customer journeys by transforming the core and using Data/AI for driving customer and employee experience."*

Mahindra & Mahindra becomes a leader amongst Indian conglomerates to move their entire SAP workload to a secure managed cloud environment to

ensure a higher application-level SLA and reduce technical debt by transferring existing customisations to the cloud. Moving to the cloud will result in a shortened time to market, faster bottom-line development, more business function productivity, and a decreased risk of non-compliance.

*“Extending our support to our long-time customer, Mahindra & Mahindra is timely, as cloud migration is a growing trend in the rapidly changing business landscape,”* says **Manish Prasad, Vice President – Metal, Mining, Miscellaneous and Automotive Industry SAP India.** *“SAP’s industry centricity and processes will further drive substantial revolution for Mahindra & Mahindra’s cloud journey.”*

### **About Mahindra**
