**Mumbai, 21 December 2021:** Mahindra Logistics (MLL), one of India's largest third-party logistics (3PL) solution providers has been awarded the prestigious Great Place to Work Certification 2021 for its remarkable work in developing employee engagement and people practices. The accreditation is even more noteworthy because it was attained in the midst of a pandemic that disrupted working life. The certification is recognised as the 'Gold Standard' for workplace excellence by employees and employers all over the world. MLL successfully completed a transformational journey in 2021, driving its growth through innovation, technology, and digitisation, overcoming all obstacles. This award reaffirms MLL's commitment to putting its employees first, from technology to healthcare to safeguarding their emotional well-being.

Being recognised as a Great Place to Work underlines the company's commitment to providing a positive work environment. Employees at MLL thrive by sharing and exchanging ideas, engaging in healthy dialogue and bringing out the best to contribute to the company's success and thereby advance in their career.

MLL is known for its people-friendly policies. The company is known for its inclusive and diverse work environment. It has progressively hired

employees across all constituencies purely on the basis of their talents irrespective of their backgrounds, be it the LGBTQ community, people-with-disabilities amongst others. It is breaking the norms by bridging the gender-diversity gap and recruiting more women at shop-floors traditionally considered men's bastion. The company believes in empowering all genders and hiring without discrimination. MLL is one of the sector leaders to initiate a special initiative— '*Udaan*' – a second careers (comeback) programme that consists of a second careers internship programme for women at all levels, functions and divisions. MLL has also formulated a 'Birth and Beyond' policy encompassing the creation of a conducive work environment for women employees throughout the maternity continuum.
