- ***Designed and developed for rice, wheat and soyabean harvesting with world-class harvesting solutions***
- ***Powered by a 101 HP fuel efficient engine, for higher acreage and higher farmer earnings & equipped with the latest GPS tracking system***

Mohali, October XX, 2021: The Swaraj Gen2 8100 EX Self-Propelled Combine Harvester, will offer paddy farmers in Punjab with enhanced productivity, performance and ease of operation, while maximizing potential grain yield, for best-in-class acreage.

Generating a power output of 101 HP, the Swaraj Gen2 8100 EX Self-Propelled Combine Harvester boasts of good ground clearance and a smaller turning radius, with a large grain tank with a capacity of 2140 litres, which is also easy to clean and service, thanks to the easily interchangeable parts. Moreover, it features five straw walkers and a sieve area of 4.72 Sq. meter, which minimizes the loss of grain.

Designed & developed to efficiently harvest rice, wheat and soyabean the new combine harvester by Swaraj will enable reaping, threshing, and winnowing of grains efficiently, with minimal grain loss and breakage.

Equipped with the latest GPS enabled tracking system, the Swaraj Gen 2 8100 EX ensures peace of mind to its owners with remote live tracking of location and performance parameter.

Commenting on the offering, Harish Chavan, CEO – Swaraj Division, M&M Ltd. said, “With a very short window for harvesting, and with agriculture increasingly becoming technology intensive, we at Swaraj are pleased to have the Swaraj Gen2 8100 EX Self-Propelled Combine Harvester being made available for the farmers, with complete on-ground sales, service and spares support at a time crucial for them. Our new product will ensure maximum productivity, quality and yield, with minimum wastage and downtime thereby ensuring maximum earnings for the farmer.”

The Swaraj Gen2 8100 EX Self-Propelled Combine Harvester is sold and serviced via Swaraj’s wide retail and service network across Punjab. The harvester is available at an attractive price with financing available from several banks and finance companies. The harvester is also made available in Haryana, Madhya Pradesh, Uttar Pradesh and Maharashtra.

The Swaraj Gen2 8100 EX Self-Propelled Combine Harvester is an addition to Swaraj’s legacy of rugged and reliable harvesters. Having launched its first harvester about four decades ago, today Swaraj is a leader in harvester technology in India with a rich product portfolio of wheeled, tracked and tractor mounted harvesters manufactured and developed in Mohali, Punjab.

About Swaraj

Swaraj Tractors, a division of Mahindra Group, is India’s second largest and fastest growing tractor brand. Established in 1974, based in Punjab, the
