The All-New Thar continued its relentless march to automotive folklore and clocked **75,000 bookings** just a year after its launch on Mahindra Group's 75th Anniversary on 2nd October 2020. It has breached the traditional boundaries set by off-roaders and invaded into the dreams of metro based young, urban buyers who are looking for an authentic yet sophisticated SUV experience. Not surprising that **millennials account for over 40 per cent of bookings**. Another interesting fact is that almost **50 per cent** of the bookings are for the **automatic variant** and **25 per cent** of the total bookings are for the **petrol variant**. The last generation Thar was available only with diesel engines and manual gear box option. Today, the All-New Thar is the **largest selling 4WD** vehicle in India. The sheer capability of the All-New Thar has been acknowledged in its reviews and through numerous awards. It has also forged a formidable community that loves to explore the impossible.
