INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF,
MAHINDRA HEAVY ENGINES LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Mahindra Heavy Engines Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, and the Statement of Profit and Loss, (statement of changes in equity) and Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (the "ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors Report and the related annexures, but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial Statements, including the disclosures, and whether the financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-Section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
   (e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial Statements.
   (g) In our opinion, the managerial remuneration for the year ended March 31, 2022 has been paid / provided by the Company to its directors in accordance with the provisions of Section 197 read with Schedule V to the Act.
   (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
      i. The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements – Refer Note **to the Financial Statements;
      ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
      iv. a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
      b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether,

directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. The dividend (declared/paid/declared and paid) during the year by the Company is in compliance with Section 123 of the Act.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Mahindra Heavy Engines Limited** ("the Company") as of March 31, 2022 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A Company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

1) i) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and investment properties.

ii) The Company has a regular programme for physical verification of its property, plant and equipment and investment properties by which the property, plant and equipment and investment properties are verified by the management according to a phased programme designed to cover all the items over a period of 3 years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment and investment properties. In accordance with the programme, the Company has physically verified certain property, plant and equipment and investment properties during the financial year and no material discrepancies were noticed on such verification.

iii) According to the information and explanations given to us, the Company has no immovable properties registered in its name. Accordingly, the reporting under Clause 3(i)(c) of the Order is not applicable to the Company.

iv) According to the information and explanations given to us, the Company has not revalued any of its property, plant and equipment (including Right of use assets) or intangible assets or both during the year.

v) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

2) i) According to the information and explanations given to us, the inventory comprising of raw materials, work-in-progress, finished goods, stores and spares has been physically verified at reasonable intervals by the management during the year. In our opinion, coverage and procedure of such verification is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such verification between the physical inventory and the book records.

ii) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate from banks or financial institutions on the basis of security of current assets at any point of time during the year.

3) a) According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or secured or unsecured loans to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.

4) According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Section 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

5) According to the information and explanations given to us, the Company has not accepted deposits under the provisions of sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under clause 3(v) of the order is not applicable to the Company.

6) The maintenance of cost records has been specified by the Central Government under sub-section (1) of Section 148 of the Act for the products of the Company. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended, specified by the Central Government under sub-section (1) of Section 148 of the Act and are of the opinion that, prima facie, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

7) i) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services tax, Provident Fund, Employees' State Insurance, cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

ii) According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of undisputed statutory dues in respect of Goods and Services tax, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the year for a period of more than six months from the date they became payable.

iii) According to the information and explanation given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Service Tax, Provident Fund, Employees State

Insurance, Duty of Customs, Duty of Excise, Value added tax, Cess and any other material statutory dues as at 31 March 2022, which have not been deposited on account of any dispute. The statutory dues in respect of Income Tax,Sales Tax and Service Tax as at 31 March 2022 which have not been deposited with the appropriate authorities on account of a dispute are as under.

Name of the statute	**Nature of the dues**	**Amount (Rs in Lakhs)**	**Period to which the amount relates**	**Forum where dispute is pending**
Income Tax Act, 1961	Income Tax (Including Interest)	11.14	Assessment Year 2010-11	Assessing Officer
Finance Act, 1994	Service Tax	21.74	Financial Year 2012-13 to 2016-17	Commissioner of Customs and Central Excise (Appeals)-Pune
Central Sales Tax Act, 1956	Central sales tax	826.91	Financial Year 2015-17	Deputy commissioner of state tax
MVAT Act, 2002	Valued added Tax	189.00	Financial Year 2017-18	Joint commissioner of state tax

8) According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

9) a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any loans or other borrowings during the year. Accordingly, the reporting under Clause 3(ix) (a) of the Order is not applicable to the Company.

b) According to the information and explanations given to us, the Company has not been declared a willful defaulter by any bank or financial institution or any other lender till the date of our audit report.

c) According to the information and explanation given to us, Company has not obtained any term loan during the year. Hence reporting under clause (ix) (c) is not applicable.

d) In our opinion and according to information and explanations given to us and on overall examination of the Balance sheet of the Company, we report that company has not raised any short term or long-term loan during the year. Hence reporting under clause (ix) (d) is not applicable to company.

e) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures

f) According to the information and explanations given to us and based on the audit procedures performed by us, we report that the Company has not raised any loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies. Accordingly, the reporting under Clause 3(ix)(f) of the Order is not applicable to the Company.

10) a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

b) According to the information and explanation given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

11) a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the management.

b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

c) As represented to us by the management, no whistle blower complaints were received by the Company during the year.

12) According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

13) In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act.

14) a) In our opinion and according to the information and explanations given to us and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.

b) We have considered the Internal Audit reports of the Company issued till date for the period under audit.

15) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or directors of its holding company or persons connected with them during the year and hence the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

16) a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi) of the Order is not applicable to the Company.

    b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing finance activities Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.

    c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clauses 3(xvi)(c) of the Order is not applicable to the Company.

    d) Based on the information and explanations given to us, we report that the Group has six Core Investment Companies.

17) In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.

18) There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

19) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

20) a) According to the information and explanations given to us, in respect of other than ongoing projects, the Company has no unspent amount that needs to be transferred to a Fund specified in Schedule VII to the Act in compliance with second proviso to sub-section (5) of Section 135 of the Act.

    b) According to the information and explanations given to us, in respect of ongoing projects, the Company has no unspent amount which needs to be transferred to a special account in compliance with sub-section (6) of Section 135 of the Act.

Notes to the financial statements for the year ended March 31, 2022

Mahindra Heavy Engines Limited is subsidiary of Mahindra & Mahindra Limited having Corporate Identity Number U35914MH2007PLC169753, having it's registered office at Mahindra Towers, Dr. G.M. Bhosale Marg, P.K. Kurne Road, Worli, Mumbai 400 018. The Company is in manufacturing and sales of Engines and other auto components for vehicles and Genset applications.

Note No. 1 - Significant Accounting Policies:

1.1 Statement of compliance:

The financial statements have been prepared in accordance with Ind AS as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 (the "Act").

1.2 Basis of preparation and presentation:

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. In addition, for the financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

1.3. Property, Plant & Equipment:

Property, Plant & Equipment are carried at cost less depreciation. Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of its acquisition and financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit or loss.

Depreciation is provided on straight-line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013, other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.:

Plant and Machinery	2 years, 5 years, 7 years, 8 years and 10 years
Vehicles	5 years
Roads	15 years
Assets below Rs. 5,000/-	1 year

1.4. Intangible Assets

Intangible assets acquired separately:

Intangible assets are initially recognised at cost.

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets under development

The Company expenses costs incurred during research phase to profit or loss in the year in which they are incurred. Eligible development phase expenses are initially recognised as intangible assets under development until the development phase is complete. Once the development phase is complete, the eligible development phase expenses are capitalised as intangible asset.

Technical Know-how fees:

The expenditure incurred on technical services and other project/product related expenses are amortised over the estimated period of benefit, not exceeding six years.

Software Expenditure:

The expenditure incurred is amortised over three financial years equally commencing from the year in which the expenditure is incurred.

Internally-generated intangible assets - Research and Development expenditure:

Expenditure on research activities are recognised as an expense in the period in which they are incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Product Development Expenditure:

The expenditure incurred on product development expenditure expenses are amortised over the estimated period of benefit, not exceeding five years.

Notes to the financial statements for the year ended March 31, 2022

Derecognition of intangible assets:

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

1.5. Impairment:

The carrying amounts of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment based on internal / external factors. Impairment loss is provided to the extent the carrying amount of assets exceeds their recoverable amount. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

1.6. Inventories:

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. In determining the cost of purchased materials moving average method is used. Stores, spares and tools are carried at cost or estimated net realisable value, whichever is lower.

1.7. Cash and cash equivalents (for purposes of Cash Flow Statement):

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition).

1.8. Investments:

Investments, which are readily realisable and intended to be held for not more than one year from the date on which such investments are made are classified as current investments. All other investments are classified as non-current investments.

1.9. Financial Instruments:

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial Assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial assets at Fair value through profit or loss are measured at fair value at the end of each reporting period, with any gains or losses arising on re measurement recognised in profit or loss, The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in 'Other income'.

Financial liabilities and equity instruments:

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

1.10. Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for rebates and other similar allowances.

Ind AS 115- Revenue from Contracts with Customers

Company adopted IND AS 115 - Revenue from contracts with customers w.e.f. 1st April 2018. In view of that, Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, Company apply the following five step approach:

(1) identify the contract with a customer

(2) identify the performance obligations in the contract

(3) determine the transaction price

(4) allocate the transaction price to the performance obligations in the contract

(5) recognize revenues when a performance obligation is satisfied.

The Company applies judgement to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation based on their selling price.

Interest income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding.

1.11. Goods and Services Tax:

GST duty payable on finished goods is accounted for upon transfer of goods to the customers.

1.12. Custom Duty:

Custom duty payable on imported goods is accounted for when the goods enter the Indian shores.

1.13. Government Grants and Other Incentives:

The Company, directly or indirectly through a consortium of Mahindra Group Companies, is entitled to various incentives from Government Authorities in respect of manufacturing unit located in developing region. The company accounts for it's entitlement on an accrual basis.

Government grants related to acquisition of depreciable assets are recognised as deferred revenue in the financial statements and are transferred to statement of Profit and Loss on a systematic and rational basis over the useful lives of the related assets.

1.14. Export Benefits:

Export benefits under various schemes of Government of India are accounted on accrual basis except when there is an uncertainty in respect of the entitlement.

1.15. Foreign exchange transactions:

Transactions in foreign currencies (Other than company's functional currency) are recorded at the exchange rates prevailing on the date of transaction. Monetary items are translated at the year-end rates. The exchange difference between the rate prevailing on the date of transaction and on the date of settlement as also on translation of Monetary items at the end of the year, is recognised as income or expense, as the case may be.

Notes to the financial statements for the year ended March 31, 2022

1.16. Employee Benefits:

(i) Defined Contribution Plan:

The Company's contributions paid/payable during the year to Provident Fund and Superannuation Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees.

(ii) Defined Benefit Plan / Leave encashment:

The Company's liability towards gratuity and leave encashment is determined using the projected unit credit method which considers each period of service as giving rights to an additional unit of benefit entitlement and measure each unit separately to build up the final obligation. Past services are recognised on straight line basis over the average period until the benefits become vested. Actuarial gains and losses are recognised immediately in the Statement of other comprehensive income as income or expense. Obligation is measured at the present value of estimated future cash flow using discounted rate i.e. determined by reference to the market yield at the Balance Sheet date on Government Bonds where the currency and terms of the Government Bonds are consistent with the currency and estimated terms of the defined benefit obligation.

(iii) Other Benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the period when the employee renders the service.

1.17. Borrowing Costs:

Borrowing costs that are attributable to the acquisition or construction of a qualifying asset are capitalised as part of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised as an expense in the period in which they are incurred.

1.18. Taxes on Income:

Current tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Financial statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Current and deferred tax for the year:

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

1.19. Warranty:

Provision for warranty represents present value of management's best estimate of the future outflow of economic benefits that will be required in respect of sale of certain products, the estimated cost of which is accrued at the time of sale. Management estimates the related provision for future warranty claims based on historical warranty claim information and is adjusted regularly to reflect new information.

1.20. Segment Reporting:

The Company's business activity falls within a primary business segment namely manufacturing of Engines and other auto components and there is no reportable geographical segment.

1.21. Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent liabilities are not recognised but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in the financial statements.

1.22. Critical accounting judgements and key sources of estimation uncertainty:

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, obligations relating to employee defined benefits etc. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

1.23. Ind AS 116 Leases:

Ind AS 116 is replaced the existing leases standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, onbalance sheet lessee accounting model for lessees. A lessee recognises right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard also contains enhanced disclosure requirements for lessees.

Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17. The amendment is effective for annual periods beginning on or after 01st April 19.

*Note :
The IPR (Intellectual Property Rights) was purchased from Navistar Luxembourg Intellectual Property Company, Luxembourg and expected start of production was Q-3 of F-21 related to On-Highway applications for Mahindra Truck and Buses Division. Based on internal sources of information and considering uncertainty of economic performance of an asset, IPR related to 4 Cylinder Engine was impaired during the last year which has resulted into an additional charge of Rs. 1875.43 Lakhs.

*** Note:**

Represents cost reimbursed by the company towards ESOP's granted by the holding company, Mahindra & Mahindra Limited;

Certain employees of the Company are covered by Employee Stock Option Scheme (ESOP scheme) offered by Holding Company, Mahindra & Mahindra Limited. Under the scheme, eligible employees are granted an option to purchase shares of Mahindra & Mahindra Limited, in accordance with the terms and conditions of the scheme.

The Company recognises this scheme as an equity settled share based payments arrangement in accordance with IND AS 102 - Share Based Payment. Options granted under Parent's ESOP scheme vests in

i) 5 equal instalments on the expiry of 12 Months, 24 Months, 36 Months, 48 Months and 60 Months from the date of grant. OR

ii) 4 instalments bifurcated as 20% on the expiry of 18 months, 20% on the expiry of 30 months, 30% on the expiry of 42 months and 30% on the expiry of 54 months. OR

iii) 3 instalments bifurcated as 33.33% on the expiry of 12 months, 33.33% on the expiry of 24 months and 33.34% on the expiry of 36 months.

The options may be exercised on any day over a period of 5 years from the date of vesting. Number of vested options exercisable is subject to a minimum of 50 or number of options vested whichever is lower.

Such ESOP expense in respect of employees of the Company is charged by the Ultimate Holding Company over the vesting period. The charge is based on fair value of options calculated using Black and Scholes Option Pricing Model. The fair value charge is recognized as share based payment expenses under Employee Benefit Expenses.

Capital management

The company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

The Concentration of credit risk is limited due to the fact that the customer base comprises largely of Mahindra group entities.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the table have been drawn up based on the non-discounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Rs. In Lakhs

Particulars	Less than 1 year	1 year to 3 years	3 years to 5 years	5 years and above
Non-derivative financial liabilities				
As at March 31, 2022

Variable interest rate instruments	–	–	–	–
Fixed interest rate instruments	–	–	–	–
	19,618.30	–	–	–

(iii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Rs. In Lakhs

Particulars	Less than 1 year	1 year to 3 years	3 years to 5 years	5 years and above
Non-derivative financial assets				
As at March 31, 2022				
Non-interest bearing	**35,399.62**	**12,142.00**	–	**5.25**
Variable interest rate instruments	**8,605.88**	–	–	–
Fixed interest rate instruments	**3,968.69**	**436.31**	**32.63**	**3.68**
Total	**47,974.19**	**12,578.32**	**32.63**	**8.93**
As at March 31, 2021				
Non-interest bearing	29,025.89	21,774.28	–	5.25
Variable interest rate instruments	1,552.59	–	–	–
Fixed interest rate instruments	244.17	79.95	33.49	10.52
	30,822.65	21,854.23	33.49	15.77

The amounts included above for variable interest rate instruments for both non-derivative financial assets and liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

Notes to the financial statements for the year ended March 31, 2022

MARKET RISK

Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

Rs. In Lakhs

Particulars	Currency	As at March 31, 2022	As at March 31, 2021
Trade Receivables	USD	–	0.01
	INR	–	0.46
Trade Payables	USD	**3.05**	3.33
	INR	**230.68**	245.31
	EUR	**0.57**	0.25
	INR	**47.89**	21.17
	KRW	**141.13**	–
	INR	**8.83**	–
	JPY	**4.50**	–
	INR	**2.79**	–

Of the above foreign currency exposures, the following exposures are not hedged by a derivative:

Rs. In Lakhs

Particulars	Currency	As at March 31, 2022	As at March 31, 2021
Trade Receivables	USD	–	0.01
	INR	–	0.46
Trade Payables	USD	**3.05**	3.33
	INR	**230.68**	245.31
	EUR	**0.57**	0.25
	INR	**47.89**	21.17
	KRW	**141.13**	–
	INR	**8.83**	–
	JPY	**4.50**	–
	INR	**2.79**	–

Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, EUR, and KWR exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives and embedded derivatives.

Rs. In Lakhs

Particulars	Currency	Change in rate	Effect on profit/(loss) before tax
As at March 31, 2022	**USD**	**10%**	**(23.07)**
		(10%)	**23.07**
	EUR	**10%**	**(4.79)**
		(10%)	**4.79**
	KWR	**10%**	**(0.88)**
		(10%)	**0.88**
	JPY	**10%**	**(0.28)**
		(10%)	**0.28**
As at March 31, 2021	USD	10%	(24.48)
		(10%)	24.48
	EUR	10%	(2.12)
		(10%)	2.12

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Interest rate risk

Interest rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for non-derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate loans and borrowings, as follows:

Rs. In Lakhs

Particulars	Currency	Increase/ (decrease) in basis points	Effect on profit/(loss) before tax
31-Mar-22	**INR**	**100**	**–**
	INR	**(100)**	**–**
31-Mar-21	INR	100	–
	INR	(100)	–

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Note No. 27 - Employee benefits

(a) Defined Contribution Plan

The Company makes Provident Fund and Superannuation Fund contributions to defined contribution plans for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. Amount recognised as an expense in the Statement of Profit and Loss is Rs. 131.28 Lakhs. (Previous year Rs. 133.21 Lakhs).

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

1) Liability Risks

a. Asset-Liability Mismatch Risk:

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the company is successfully able to neutralize valuations wings caused by interest rate movements. Hence companies are encouraged to adopt asset-liability management.

b. Discount Rate Risk:

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practise can have a significant impact on the defined benefit liabilities.

c. Future Salary Escalation and Inflation Risk:

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

2) Asset Risks

All plan assets are maintained in a trust fund managed by a public sector insurer viz; LIC of India. LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years.

The company has opted for a traditional fund where in all assets are invested primarily in risk averse markets. The company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claims settlement and hence 100% liquidity is ensured. Also interest rate and inflation risk are taken care of.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	As per March 31, 2022	As per March 31, 2021
Discount rate	**7.30%**	6.90%
Expected rate of salary increase		
Officers	**9.00%**	9.00%
Associates	**7.00%**	7.00%

Defined benefit plans as per actuarial valuation on 31st March, 2022

- Actual Return on plan assets in excess of the expected return	**0.08**	0.05
5. Contributions by employer (including benefit payments recoverable)	**40.00**	10.00
6. Benefit payments	**(16.06)**	(15.68)
7. Fair value of plan assets at the end of the year	**37.46**	11.80
IV. The Major categories of plan assets		
Fund managed by insurer	**100%**	100%
V. Actuarial assumptions		
1. Discount rate	**7.30%**	6.90%
2. Expected rate of return on plan assets	**6.90%**	6.85%
3. Attrition rate		
Officers	**10.00%**	10.00%
Associates	**0.00%**	0.00%
4. Medical premium inflation	**NA**	NA

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Rs. In Lakhs

Principal assumption	Year ended	Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Impact on defined benefit obligation: Decrease in assumption
Discount rate	As at March 31, 2022	1%/-1%	(399.28)	504.59
	As at March 31, 2021	1%/-1%	(366.61)	470.76
Salary growth rate	As at March 31, 2022	1%/-1%	499.04	(402.89)
	As at March 31, 2021	1%/-1%	465.33	(370.04)
Withdrawal rate	As at March 31, 2022	1%/-1%	(444.90)	450.41
	As at March 31, 2021	1%/-1%	(409.70)	417.58

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the

Notes to the financial statements for the year ended March 31, 2022

same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

The Company expects to contribute Rs.20 Lakhs to the gratuity trusts during the next financial year ending March 31, 2023.

Mortality : It is assumed that the active members of the scheme will experience in-service mortality in accordance with the Indian Assured Lives Mortality (2012-14) ultimate (IALM ult). A sample pick from this table is given below:

Age	Mortality rate
21	0.093%
22	0.094%
23	0.094%
24	0.093%
25	0.093%

Age of the members at the valuation date is taken as their nearest age at that date.

Maturity profile of defined benefit obligation:

Rs. In Lakhs

Particulars	As at March 31, 2022	As at March 31, 2021
Within 1 year	**28.28**	25.04
1 - 2 year	**32.52**	26.75
2 - 3 year	**36.65**	30.93
3 - 4 year	**40.33**	35.66
4 - 5 year	**44.31**	39.70
5 - 10 years	**320.57**	268.63

Plan Assets

The fair value of Company's pension plan asset as of March 31, 2022 is as follows:

Particulars	As at March 31, 2022	As at March 31, 2021
Asset category:		
Cash and cash equivalents	**0%**	0%
Debt instruments (quoted)	**0%**	0%
Debt instruments (unquoted)	**0%**	0%
Equity instruments (quoted)	**0%**	0%
Deposits with Insurance companies	**100%**	100%
Total	**100%**	100%

VIII. Experience Adjustments :

Rs. In Lakhs

Particulars	Gratuity as at				
	As at March 31, 2022	As at March 31, 2021	As at March 31, 2020	As at March 31, 2019	As at March 31, 2018
1. Defined Benefit Obligation	**447.04**	413.60	421.78	325.01	278.59
2. Fair value of plan assets	**37.46**	11.80	16.49	21.72	18.15
3. Surplus/(Deficit)	**(409.58)**	(401.80)	(405.29)	(303.29)	(260.44)
4. Experience adjustment on plan liabilities [(Gain)/Loss]	**(15.59)**	(85.80)	74.18	(12.26)	7.40
5. Experience adjustment on plan assets [Gain/(Loss)]	**(0.08)**	(0.05)	0.06	(1.99)	0.54

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

INDEPENDENT AUDITOR'S REPORT

To the Members of Mahindra Electric Mobility Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Mahindra Electric Mobility Limited** (the "Company"), which comprises the balance sheet as at 31 March 2022, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and its loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence obtained by us, is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Other Information

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Director's report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibilities for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management and Board of Directors.
- Conclude on the appropriateness of the management's and Board of Directors' use of the going concern basis of accounting in preparation of financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

   (B) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditor's) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   a) The Company has disclosed the impact of pending litigations as at 31 March 2022 on its financial position in its financial statements - Refer Note 18 and 36 to the financial statements.

   b) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   c) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

   d) (i) The management has represented that, to the best of its knowledge and belief, as disclosed in the note 43(b) to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.

   (ii) The management has represented, that, to the best of its knowledge and belief, as disclosed in the note 43(b) to the accounts, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Parties or provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries.

   (iii) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e) contain any material mis-statement.

   e) The Company has neither declared nor paid any dividend during the year.

(C) With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) of the Act which are required to be commented upon by us.

ANNEXURE - A TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF MAHINDRA ELECTRIC MOBILITY COMPANY LIMITED FOR THE YEAR ENDED 31 MARCH 2022

With respect to the Annexure A referred to in paragraph 1 under Report on Other Legal and Regulatory Requirements of the Independent Auditors' Report to the members of the Company on the financial statements for the year ended 31 March 2022, we report that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all Property, Plant and Equipment are verified in a phased manner over a period of three years. In accordance with this programme, certain Property, Plant and Equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification. For fixed assets lying with third parties at the year end, the Company has obtained confirmations on a sample basis and no material discrepancies were observed between the confirmations and the books of accounts.

(c) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee, and the leases agreements are duly executed in favour of the lessee) disclosed in the financial statements are held in the name of the Company.

(d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(e) According to information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

(ii) (a) The inventory, except goods-in-transit and stocks lying with third parties, has been physically verified by the management during the year. For stocks lying with third parties at the year-end, written confirmations have been obtained and for goods-in-transit subsequent evidence of receipts has been linked with inventory records. In our opinion, the frequency of such verification is reasonable, and procedures and coverage as followed by management were appropriate. No discrepancies were noticed on verification between the physical stocks and the book records that were more than 10% in the aggregate of each class of inventory.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the books of account of the Company.

(iii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any investments, provided guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties during the year. Accordingly, provisions of clauses 3(iii)(a) to 3(iii)(f) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has neither made any investments, nor has it given loans or provided guarantee or security and therefore the relevant provisions of Sections 185 and 186 of the Companies Act, 2013 ("the Act") are not applicable to the Company. Accordingly, clause 3(iv) of the Order is not applicable.

(v) The Company has not accepted any deposits or amounts which are deemed to be deposits from the public. Accordingly, clause 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Act for the products manufactured by it and services provided by it. Accordingly, clause 3(vi) of the Order is not applicable.

(vii) (a) The Company does not have liability in respect of Service tax, Duty of excise, Sales tax and Value added tax during the year since effective 1 July 2017, these statutory dues have been subsumed into Goods and Services Tax ("GST").

According to the information and explanations given to us and on the basis of our examination of the records of the Company, in our opinion amounts deducted/accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax ('GST'), Provident fund, Employees' State

Insurance, Income-Tax, Duty of Customs, Cess and other statutory dues have been regularly deposited by the Company with the appropriate authorities;

According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of Goods and Services Tax ('GST'), Provident fund, Employees' State Insurance, Income-Tax, Duty of Customs, Cess and other statutory dues were in arrears as at 31 March 2022 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, statutory dues relating to Goods and Service Tax, Provident Fund, Employees State Insurance, Income-Tax, Duty of Customs or Cess or other statutory dues which have not been deposited on account of any dispute are as follows:

Name of statue	Nature of dues	Amount (INR)	Period to which the amount relates	Forum where dispute is pending
Central Excise Act, 1944	Duty of Excise	5,142,000	AY 2009-2011	High Court of Karnataka
Central Excise Act, 1944	Duty of Customs	9,600,000	AY 2016-2017	CESTAT

(viii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not surrendered or disclosed any transactions, previously unrecorded as income in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year.

(ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not defaulted in repayment of loans and borrowings or in the payment of interest thereon to any lender.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not been declared a wilful defaulter by any bank or financial institution or government or government authority.

(c) According to the information and explanations given to us by the management, the Company has not obtained any term loans during the year. Accordingly, clause 3(ix)(c) of the Order is not applicable.

(d) According to the information and explanations given to us and on an overall examination of the balance sheet of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.

(e) The Company does not hold any investment in any subsidiary, associate or joint venture (as defined under the Act) during the year ended 31 March 2022. Accordingly, clause 3(ix)(e) and 3 (ix) (f) is not applicable.

(x) (a) The Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments). Accordingly, clause 3(x)(a) of the Order is not applicable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, clause 3(x)(b) of the Order is not applicable.

(xi) (a) Based on examination of the books and records of the Company and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the course of the audit.

(b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.

(c) We have taken into consideration the whistle blower complaints received by the Company during the year while determining the nature, timing and extent of our audit procedures.

(xii) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, the transactions with related parties are in compliance with Section 177 and 188 of the Act, where applicable, and the details of the related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) (a) Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports of the Company issued till date for the period under audit.

(xv) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected to its directors and hence, provisions of Section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) and 3(xvi)(b) of the Order are not applicable.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, clause 3(xvi)(c) of the Order is not applicable.

(d) According to the information and explanations provided to us, the Group (as per the provisions of the Core Investment Companies (Reserve Bank) Directions, 2016) has more than one CIC as part of the Group. The Group has six CICs as part of the Group.

(xvii) The Company has incurred cash losses of Rs. 2,628 Lakhs in the current financial year and Rs. 4,207 Lakhs in the immediately preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

(xix) We draw attention to Note 2.2(c) to the financial statements which explains that the Company has incurred a loss after tax of Rs. 7,052 Lakhs during the current year, incurred losses during the previous years and has resultant accumulated losses of Rs. 97,160 Lakhs as at 31 March 2022.

On the basis of the above matter as more fully explained in Note 2.2(c) to the financial statements and according to the information and explanations given to us, on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) The requirements as stipulated by the provisions of Section 135 are not applicable to the Company. Accordingly, clauses 3(xx)(a) and 3(xx)(b) of the Order are not applicable.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF MAHINDRA ELECTRIC MOBILITY COMPANY LIMITED FOR THE YEAR ENDED 31 MARCH 2022

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra Electric Mobility Limited ("the Company") as of 31 March 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk.

The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Securities premium is used to record the premium on issue of shares. The reserve shall be utilised in accordance with the provisions of section 52 of the Companies Act, 2013.

(b) Share options outstanding Account

The share options outstanding account is used to recognise the grant date fair value of options during the vesting period issued under Mahindra Electric Mobility Limited ESOP Scheme ('MEML ESOP - 2017').

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

1. Reporting Entity

Mahindra Electric Mobility Limited ('the Company') is engaged in design and manufacture of electrically powered vehicles and design and development of related technology for end use vehicles. The marketing of the vehicles is done through a network of dealers in India and abroad.

The Company is an unlisted public limited company domiciled in India and is incorporated under the provisions of the Indian Companies Act. The registered office of the Company is located at Mahindra Tower, Dr. G.M. Bhosale Marg, P.K. Kurne Chowk, Worli, Mumbai – 400018, Maharashtra.

During the year ended 31 March 2022, Mahindra & Mahindra Limited acquired equity shares of Mahindra Electric Mobility Limited from Mahindra Vehicle Manufacturers Limited and consequently became the Holding Company of Mahindra Electric Mobility Limited.

2.1. Statement of compliance

These IND AS financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013 ('the Act') and other relevant provisions of the Act as amended from time to time.

In the Board of Directors meeting held on 26 April 2022, the Board has approved to issue these IND AS financial statements to shareholders of the Company.

2.2. Basis of preparation

a) Basis of measurement

The IND AS financial statements have been prepared on the historical cost convention and on an accrual basis except for the following items:

Items	Measurement basis
Certain financial assets	Fair value/Amortized cost
Liabilities for equity-settled share-based payments	Fair value
Net defined benefit liability	Present value of defined benefit obligations

b) Functional and presentation currency

These IND AS financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

c) Going concern

The Company has incurred a loss after tax of Rs. 7,052 Lakhs during the current year, incurred losses during the previous years and has resultant accumulated losses of Rs. 97,160 Lakhs as at 31 March 2022. The Board of Directors of the Company at its meeting held on 28 May 2021 had subject to requisite approvals/ consents, approved the Scheme of Merger by Absorption of the Company with the Holding company of the Company, and their respective Shareholders ("Scheme") under sections 230 to 232 and other applicable provisions of the Companies Act, 2013. The company has filed the Scheme of Merger with the National Company Law Tribunal and the regulatory process for the said merger is in progress as on date.

The Company's management after considering the above indicators, has carried out an assessment of its going concern status and based on the below mentioned considerations, believe that the going concern assumption is appropriate:

i) the Company has received continued support for the past several years from the Holding Company. The Holding Company is committed to provide continuing financial support to the Company including meeting of its debt obligation, should the need arise for a period of at least 15 months from 25 January 2022; and

ii) the Company or as a consolidated Division of the Holding Company, is likely to scale up its operations in the 3-wheeler and 4-wheeler segments thereby generating additional cash flows to partially fund its requirements.

Also Refer Note 42 of Financial Statements.

d) Use of estimates and judgements

In preparing these IND AS financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about assumptions, estimation uncertainties and judgements that have a significant risk of resulting in a material adjustment in the year ended 31 March 2022 are included in the following notes:

Particular	Assumptions, estimation uncertainties and judgements
Note 2.3 (c)	- Intangible assets: whether the Company recognises the expenditure incurred on technology development as an intangible asset or as an operating expense.
Note 2.3 (b) and (c)	- Useful lives of Property, plant and equipment and intangible assets.
Note 2.3 (d)	- Impairment of financial assets and non-financial assets: key assumptions over expected credit losses associated with its assets carried at amortised cost. Assumption on discount rate. Key assumptions underlying recoverable value of non-financial assets.
Note 2.3 (e)	- Measurement of transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. Determining whether the performance obligation is satisfied at a point in time or over a period of time. Judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.
Note 2.3 (g)	- Measurement of defined benefit obligations: key actuarial assumptions.
Note 2.3 (k)	- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.

e) Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. Significant valuation issues, if any, are reported to the Company's Management.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

– Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

– Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

– Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

– Note 2.3 (g) - Share-based payment transactions.

– Note 2.3 (p) - Financial instruments.

2.3 Significant accounting policies

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement, if the recognition criteria, are satisfied.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent, these relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date are classified as capital advances under other non-current assets. Costs of assets not ready for use at the balance sheet date are disclosed under capital work-in-progress.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss when the Property, plant and equipment is de-recognized.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated range of useful lives of the assets as follows:

Class of assets	Management estimate of useful life in years	Useful life as per Schedule II
Factory Buildings	30	30
Plant & Machinery*	5 to 15	10 to 15
Tools & Fixtures*	8	NA
Office equipment*	3 to 5	5
Computer equipment	3 to 6	3 to 6
Furniture & Fixtures	10	10
Vehicles*	5	8
Batteries*	3 to 5	NA

Leasehold improvements are amortized over the lease term or useful lives of assets, whichever is lower.

* The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of plant and machinery, tools and fixtures, office equipment, vehicles and batteries over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

c) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost and carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

Development expenditure on an individual project is recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale;
- Its intention to complete and its ability and intention to use or sell the asset;

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

- How the asset will generate future economic benefits;
- The availability of resources to complete the asset; and
- The ability to measure reliably the expenditure during development.

During the period of development, the asset is tested for impairment annually.

Intangible assets are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

The Management estimates the useful lives for its intangible assets as follows:

Class of assets	Useful life estimated (in years)
Product development	5
Computer software	4

Derecognition

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

d) Impairment

i. Impairment of financial assets

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off.

ii. Impairment of non-financial assets

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in statement of profit and loss.

In respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

e) Revenue recognition

The Company recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer.

Step 2: Identify the performance obligation in the contract.

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Sale of goods

Revenue from the sale of goods is recognised upon transfer of control of promised goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. The Company provides normal warranty provisions for general repairs on all its products sold, in line with the industry practice. A liability is recognised at the time the product is sold.

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

Rendering of services

Arrangements with customers for development of technology and engineering services are on a fixed-price and fixed-time frame basis. Revenue from these contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognised as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenue in excess of invoicing is classified as contract assets while invoicing in excess of revenues are classified as contract liabilities (referred as deferred revenues).

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch-up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

Interest income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability.

When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

f) Foreign currency transactions

Transactions in foreign currency are translated to the functional currency at the exchange rates at the dates of the transaction or an average rate, if the average rate approximates the actual rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency using exchange rate prevalent at each Balance Sheet date.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in statement of profit and loss of the period in which the transaction is settled.

g) Employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

The Company operates a defined benefit gratuity plan which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined on the basis of on actuarial valuation at the year end, using the projected unit credit method.

Long-term compensated absences are provided for based on the actuarial valuation carried out at year-end using the projected unit credit method.

Gains and losses through re-measurements of the net defined benefit liability/(asset) are recognized in other comprehensive income and are not reclassified to profit or loss in a subsequent period. Further, as required under Ind AS compliant Schedule III, the Company transfers those amounts recognised in other comprehensive income to retained earnings.

Share based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee benefit expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service is expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that meet the related service conditions at the vesting date.

h) Leases

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor’s expected inflationary cost increases.

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

As a lessor

Lease income from operating leases, where the Company is a lessor, is recognised as income on a straight-line basis over the lease term.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of use assets and lease liabilities for leases of low value assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

i) Income taxes

Income tax comprises current and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961 is recognised as current tax in the statement of profit and loss. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets unrecognised or recognised, are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis, or their tax assets and liabilities will be realised simultaneously.

j) Earnings/(loss) per share

The basic earnings/(loss) per share (‘EPS’) is computed by dividing the net profit/(loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date. In computing dilutive earning per share, only potential equity shares that are dilutive i.e., which reduces earnings per share or increases loss per share are included.

k) Provisions and contingent liabilities

General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Warranty provision

Provisions for warranty-related costs are recognised when the product is sold, or service provided to the customer.

Initial recognition is based on historical experience. The initial estimate of warranty-related costs is revised annually.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the IND AS financial statements.

l) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost of inventories comprises purchase price, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In determining the cost, weighted average cost is used. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs to sell. The comparison of cost and net realizable value is made on an item-by-item basis.

Inventories are stated net of write down or allowances on account of obsolescence, damage or slow moving items.

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

The method of determination of cost is as follows:

- Raw materials and components – on a weighted average basis
- Stores and spares – on a weighted average basis
- Work-in-progress – raw material costs and costs of conversion
- Finished goods – raw material costs and costs of conversion
- Goods in transit – at purchase cost

The provision for inventory obsolescence is assessed periodically and is provided as considered necessary.

m) Statement of cash flows

Cash flows are reported using the indirect method, whereby net profit/(loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

n) Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

o) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

p) Financial instruments

a. Non-derivative Financial Instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at either at amortised cost, FVTPL or fair value in other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at investment level because this best reflects the way the business is managed, and information is provided to management. The information considered includes:

- the stated policies and objectives for each of such investments and the operation of those policies in practice;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g., liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL - These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit and loss.

Financial assets at amortised cost - These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in statement of profit and loss. Any gain or loss on derecognition is recognised in the statement of profit and loss.

Equity investments at FVOCI - These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to the statement of profit and loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss on derecognition is also recognised in the statement of profit and loss.

iii. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

iv. Offsetting

Financial assets and financial liabilities are offset, and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

b. Derivative financial instruments:

The Company enters into derivative financial instruments, primarily foreign exchange forward contracts to manage its borrowing exposure to foreign exchange. The counterparty for these contracts is generally a bank.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are initially recognized at fair value at the date, the contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain/loss is recognized in the Statement of profit and loss. Assets/liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

2.4 Recent Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

Ind AS 16 - Property Plant and Equipment

The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its financial statements.

Ind AS 37 - Provisions, Contingent Liabilities and Contingent Assets

The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

**** Rights Issue***

During the year, the Company allotted Nil (31 March 2021: 3,48,51,014) fully paid equity shares of face value of Rs.10 each for cash at a price of Nil (31 March 2021: Rs. 25.91) per fully paid equity share including a premium of Nil (31 March 2021: Rs. 15.91) per fully paid equity share aggregating to Rs. Nil (31 March 2021: Rs. 9,030 lakhs) pursuant to rights issue. Equity shares were issued pursuant to the rights issue approved by the Board of Directors at their meetings during the year ended 31 March 2021 on 28 July 2020 and 28 October 2020.

During the year, the Company has allotted 13,34,122 (31 March 2021: 3,75,021) shares pursuant to the options exercised by the eligible employees under the Mahindra Electric Mobility Limited ESOP Scheme ('MEML ESOP - 2017'). Also refer note 34.

b. Rights, preference and restrictions attached to:

Equity shares of Rs. 10 each

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

Share based payments

Terms attached to stock options granted to employees are described in Note 34 on 'Employee Share Based Payment Plan'.

c. Details of Equity Shares held by shareholders holding more than 5% of the aggregate shares in the Company's Issued, Subscribed and Paid-up share capital:

Discount	–	4
Total	**1,074**	2,491

***Warranties**

A provision is recognised for expected warranty claims on products sold during the last three years, based on past experience of the level of repairs and claims. It is expected that these costs will be incurred within three years after the reporting date. Assumptions used to calculate the provision for warranties are based on current sales levels and current information available about claims based on the three-year warranty period for all products sold.

During the year ended 31 March 2021, the Company had made a provision for disputes and contingencies amounting Rs. 1,796 lakhs in respect of certain technology agreement. During the year ended 31 March 2022, an out of court settlement of the claim has been done along with termination of the technology agreement and the provision created has been fully utilised towards the settlement made.

30.01 Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There have been no transfers among Level 1, Level 2 and Level 3 during the year.

The Company has not separately disclosed the fair values for financial assets and liabilities because their carrying amounts are a reasonable approximation of the fair value.

30.02 Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the risk management framework. The Company's management oversees how management monitors compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The management is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the Board.

30.03 Financial Risk Management Objective And Policies

The Company's principal financial liabilities comprise borrowings, trade payables and other liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade receivables and cash.

The Company is exposed to the following risks from its use of financial instruments:
- Credit risk
- Liquidity risk
- Market risk

The note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these Ind AS financial statements.

30.04 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from the Company's trade receivables. Credit risk arises from cash held with banks and financial institutions as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

The Company's trade and other receivables are actively monitored to review credit worthiness of the customers to whom credit terms are granted and also avoid significant concentrations of credit risks.

Given below is ageing of gross trade receivable spread by period of six months:

(Rs. in lakhs)

Particulars	31 March 2022	31 March 2021
Outstanding for more than 6 months	**1,457**	1,407
Others	**1,756**	1,210
Total:	**3,213**	2,617

The Company continuously monitors receivables from customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls.

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counter-parties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties, and does not have any significant concentration of exposures to specific industry section.

Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Information about major customers

Revenue from single customer is approximately Rs. 7,920 lakhs (31 March 2021: Rs. 6,085 lakhs) representing 18% (31 March 2021: 30%) of Company's total revenue from operations for the year ended 31 March 2022. Receivables from single customer is approximately Rs. 1,751 lakhs (31 March 2021: Rs. 716 lakhs) representing 55% (31 March 2021: 27%) of Company's total receivables as at 31 March 2022. Apart from the aforesaid single customer, the Company does not have a significant credit risk exposure to any other single counterparty.

30.05 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

Typically the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

As of 31 March 2022, the Company has a working capital of Rs. 14,607 lakhs (31 March 2021: Rs. 3,170 lakhs (Negative)) including cash and cash equivalents of Rs. 4 lakhs (31 March 2021: Rs. 247 lakhs).

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2022 and 31 March 2021:

(Rs. in lakhs)

Particulars	1 year or less	1 year to 5 years	5 years or more	Adjustments	Total
As on 31 March 2022					
Borrowings (including interest)	3,132	57,866	–	–	**60,998**
Trade Payables	9,560	–	–	–	**9,560**

Total	**21,589**	**31,918**	–	–	**53,507**

30.06 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

– **Currency risk**

Foreign Currency Exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in Foreign Currency Exchange rates. The Company's exposure to currency risk relates primarily to the Company's operating activities including anticipated sales, purchases and borrowings where the transactions are denominated in a currency other than the Company's functional currency.

Unhedged Foreign Currency Exposure as on 31 March 2022

Particulars	Receivable		Payable	
	Foreign Currency	Local Currency (Rs. in Lakhs)	Foreign Currency	Local Currency (Rs. in Lakhs)
USD	**2,720,142**	**2,060**	**1,560,610**	**1,182**

– **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is having borrowings in the form of term loans and working capital from bank. The Company is exposed to interest rate risk associated with its term loan due to floating rates of interest.

30.07 Capital Management

The objective of Company's capital management is:

- to ensure the Company's ability to continue as a going concern.
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions, requirements of the financial covenants and the risk characteristics of the underlying assets. The Company monitors capital on the basis of the carrying amount of equity including share application, securities premium and profit and loss account as presented on the face of the statement of financial position and on the basis of net debt to equity and maturity profile of overall debt portfolio of the Company.

Net debt and Equity is given in the table below

(Rs. in lakhs)

Particulars	31 March 2022	31 March 2021
Total Shareholders' Equity as reported in Balance Sheet	**18,793**	25,508
Non current borrowings (including current maturities)	**57,851**	27,534
Current borrowings	**431**	8,345
Less: Cash and cash equivalents	**(4)**	(247)
Net Debt	**58,278**	35,632
Total Capital Employed	**77,071**	61,140
Gearing Ratio	**76%**	58%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. No change were made in the objectives, policies or processes for managing capital during the year ended 31 March 2022.

31. Leases

Details of leasing arrangements

As Lessor

Operating Lease

The Company has leased out power pack batteries on operating lease for a period of up to 5 years and such assets are to be returned to the Company at the end of lease term.

Future minimum lease receipts

(Rs. in lakhs)

Particulars	31 March 2022	31 March 2021
Within one year	–	2
After one year but not more than five years	–	–
More than five years	–	–
Total	–	2

As Lessee

The Company has taken land and vehicles on lease during the year for its operation. Leases of land has a lease terms of 2 years, while motor vehicles generally have lease terms between 3 and 5 years.

In accordance with the requirements under Ind AS 116, Leases, the Company has recognized the lease liability and ROU assets at the present value of the future lease payments discounted at the incremental borrowing rate prevailing during the period. Weighted average incremental borrowing rates of 7.25% (land) and 9.25% (vehicles) have been applied to lease liabilities recognised in the balance sheet at the date of initial recognition.

The movement in carrying value of right of use assets during the year ended 31 March 2022 and 31 March 2021 is provided in Note 6.

The following is the movement in lease liabilities during the year ended 31 March, 2022 and 31 March, 2021:

(Rs. in lakhs)

Particulars	31 March 2022	31 March 2021
Balance at the beginning of the year	–	–
Addition during the year	**172**	–
Finance cost accrued during the year	**3**	–

Basic and Diluted Earnings per Share of Rs.10 each	**(1.96)**	(3.12)

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

33. Employee benefits

(a) Defined contribution plan

The Company's contribution to Provident Fund aggregating to Rs. 434 lakhs (31 March 2021: Rs. 405 lakhs) has been recognised in the Statement of Profit and Loss under the head Employee Benefits Expense.

(b) Defined benefit plan:

Gratuity

The Company operates one defined benefit plan, viz., gratuity, for its employees. Under the gratuity plan, every employee who has completed at least five years of service gets gratuity on departure at 15 days of last drawn salary for each completed year of service. The scheme is funded with an insurance company in the form of qualifying insurance policy.

Through the defined benefit plan the Company is exposed to the following risks:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plan holds a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

The Company has chosen a suitable plan with Insurance, which augurs well with the Company's long term strategy to manage the plan efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings.

Life expectancy

Increase in life expectancy will result in an increase in the plan's liabilities, as the inflationary increases result in higher sensitivity to changes in life expectancy.

Note: An entity shall disclose description of any plan amendments, curtailments and settlements.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	Actuarial Assumptions	
Particulars	**31 March 2022**	31 March 2021
Discount rate(s)	**7.11%**	6.53%
Expected rate(s) of salary increase	**7.00%**	7.00%

Fair Value of Plan Assets at the end of the year	**554**	534
IV. The Major categories of plan assets		
– Investment with insurer	**100%**	100%

The Company's policy is driven by considerations of maximizing returns. The asset allocation for plan assets is determined by the insurance company based on investment criteria prescribed by the local regulators. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

V. The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

(Rs. in lakhs)

Principal assumption	Year	Changes in assumption	Impact on defined benefit obligations: Increase in assumption	Decrease in assumption
Discount rate	**2022**	**1.00%**	**(74)**	**86**
	2021	1.00%	(79)	93
Salary growth rate	**2022**	**1.00%**	**81**	**(71)**
	2021	1.00%	82	(75)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The method and types of assumptions used in preparing the sensitivity analyses did not change compared to the previous period.

VI. Maturity profile of defined benefit obligation:

(Rs. in lakhs)

Particulars	31 March 2022	31 March 2021
Within 1 year	**52**	49
1 - 2 years	**49**	42
2 - 3 years	**48**	38
3 - 4 years	**33**	36
4 - 5 years	**26**	55
5 - 10 years	**115**	148
Above 10 years	**523**	497
Total	**846**	865

VII. Experience adjustments:

(Rs. in lakhs)

Particulars	Gratuity 31 March 2022	31 March 2021
1. Defined benefit obligation	**846**	863
2. Fair value of plan assets	**554**	534
3. Deficit	**(292)**	(329)
4. Experience adjustment on Plan Liabilities Loss	**(84)**	(55)
5. Experience adjustment on Plan Assets Gain/(Loss)	**(18)**	2

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation. The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The Company expect to contribute Rs. 102 lakhs to gratuity fund in the next financial year.

34. Employee share based payment plan

a) Description of share-based payment arrangements

The Company has the following share-based payment arrangement for employees:

Mahindra Electric Mobility Limited ESOP Scheme ('MEML ESOP - 2017')
The MEML ESOP - 2017 plan was approved by the Board of Directors pursuant to resolution passed at its meeting held on 02 November 2017 read with special resolution passed by the shareholders at the Extraordinary General Meeting held on 10 November 2017. The plan entitles the employees with a right but not an obligation to purchase or subscribe at a future date the shares underlying the option at a pre-determined price, subject to compliance with vesting conditions; all exercised options shall be settled by physical delivery of equity shares or as provided under the MEML ESOP - 2017 plan. As per the plan, holders of vested options are entitled to purchase one equity share of Rs.10 each for every option at an exercise price of Rs. 24.90 each or Rs. 25.17 or Rs. 25.48 or Rs. 25.91 each as per ESOP offer letter.

The Company has computed the fair value of the options for the purpose of accounting for the employee stock compensation expense over the vesting period of the options.

The Company has computed the fair value of the options for the purpose of accounting for the employee stock compensation expense over the vesting period of the options.

The terms and conditions related to the grant of the share options are as follows:

(No. of options)

Employees entitled	Vesting conditions	For the year ended 31 March 2022	For the year ended 31 March 2021
Specified employees	One to four years of service from grant date	**4,802,787**	9,030,753
Total share options outstanding		**4,802,787**	9,030,753

For continuing employees, the options which vest would have to be exercised within a period of 5 years from the respective dates of vesting of options. No portion of the options vested can be exercised after a period of 5 years from the date of each vesting.

The number and reconciliation of the share options under the share option plan are as follows:

Particulars	As at 31 March 2022	As at 31 March 2021
Outstanding at the beginning	**9,030,753**	9,333,000
Granted during the year	**–**	169,490
Forfeited and expired during the year	**(2,893,844)**	(96,716)
Settled during the year	**(1,334,122)**	(375,021)
Outstanding at the end	**4,802,787**	9,030,753
Exercisable at the end	**3,029,212**	3,395,379

c) The fair value per option is measured based on the Black-Scholes option pricing model, which is as below:

Measurement of fair value	Number of options	Range of fair value per option
From 1 April 2021 to 31 March 2022	**4,802,787**	**Rs.10.40 - Rs.16.70**
From 1 April 2020 to 31 March 2021	9,030,753	Rs.10.40 - Rs.16.70

The fair value per options mentioned above is calculated on the grant date using the Black-Scholes option pricing model with the following assumptions:

d) Assumptions

	For the year ended 31 March 2022	For the year ended 31 March 2021
Risk free interest rate	**4.9% - 7.99%**	4.9% - 7.99%
Dividend yield	**–**	–
Expected volatility	**42.3% - 56.1%**	42.3% - 56.1%
Expected life	**5 years**	5 years

e) During the year, the Company recorded a share based payment reversal of negative Rs. 61 lakhs (31 March 2021: Rs. 218 lakhs expense) in the Statement of Profit and Loss.

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

f) The weighted average contractual life of options granted is 7.5 years (31 March 2021: 7.5 years).

35. Segment reporting

The Company currently operates in a single reportable segment i.e., design and manufacture of electrically powered vehicles and designing and development of related technology for end use vehicles. Consequently, the requirement for a separate disclosure under Ind AS 108 - "Operating Segments" is not applicable.

36. Contingent Liabilities and Commitments

Contingent Liabilities

(Rs. in lakhs)

	Particulars	31 March 2022	31 March 2021
(a)	Central Excise/Service tax matters under dispute #	**147**	147
(b)	Bank Guarantees	**164**	113

(c) In February 2019, Hon'ble Supreme Court of India in its judgement clarified that certain special allowances should be considered to measure obligations under Employees Provident Fund Act, 1952. The Company had been legally advised that there are interpretative challenges on the application of judgement retrospectively and as such does not consider there is any probable obligations for past periods. Accordingly, based on legal advice the Company had made a provision for provident fund contribution from the date of Supreme Court order.

Commitments

(Rs. in lakhs)

	Particulars	31 March 2022	31 March 2021
(a)	Estimated amount of contracts remaining to be executed and not provided for.	**16,768**	23,559

The Company is contesting the demands and the management believes that its position will likely be upheld in the various appellate authorities/Courts and the ultimate outcome will not have a material adverse effect on the Company's financial position and results of its operations.

37. Unrecognised Deferred Tax Assets/(Liability) (Net)

(Rs. in lakhs)

Particulars	31 March 2022	31 March 2021
Deferred tax liability		
Property, Plant and Equipment	**4,134**	1,787
	4,134	1,787
Deferred Tax Assets		
On Carry Forward Business Losses, Unabsorbed Depreciation and unabsorbed capital Research & Development expenditure claimed u/s 35(1)(iv)	**22,009**	25,518
Provisions	**1,098**	1,458
	23,107	26,976
Deferred Tax Assets/(Liability) (Net) (Refer Note below)	**–**	–

Net deferred tax assets have been recognised only to the extent that the Company has sufficient taxable temporary differences or there is convincing evidence that sufficient taxable profit will be available against which such deferred tax assets can be realised.

37.01 Amount and Expiry date of Unused Tax Losses for which no Deferred Tax Assets is recognised:

(Rs. in lakhs)

40. Disclosures related to micro, small and medium enterprises

The Company has amounts due to Micro and Small Enterprises under Micro, Small and Medium Enterprises Development Act, 2006 (MSMED Act) as at 31 March 2022 and 31 March 2021.

(Rs. in lakhs)

		31 March 2022	31 March 2021
(i)	The principal amount and the interest due thereon remaining unpaid to any supplier as at the end of the year:		
	– Principal amount	**20**	23
	– Interest on the above	**1**	1
(ii)	The amount of interest paid by the Company in terms of Section 16 of the MSMED Act, 2006 along with the amount of the payment made to the supplier beyond the appointed day during each accounting year.		
(iii)	The amount of interest due and payable for the period of delay in making payment (which has been paid but beyond the appointed day during the year) but without adding the interest specified under MSMED Act, 2006.	–	–
(iv)	The amount of interest accrued and remaining unpaid at the end of each accounting year.	**1**	1
(v)	The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues as above are actually paid to the small enterprise for the purposes of disallowance as a deductible expenditure under the MSMED Act, 2006	–	–

The above disclosures are provided by the Company based on the information available with the Company in respect of the registration status of its vendors/suppliers.

41. Management's assessment on impairment of non-financial assets:

The Company tests whether Property, plant and equipment, Intangible assets, Capital work-in-progress, Right-of-use assets and Intangible assets under development have suffered any impairment on an annual basis as at 31 March every year. The recoverable amount of a cash generating unit ('CGU') is determined based on Value-In-Use calculations by forecasting the latest cash flows of next eight years and applying a growth rate beyond approved forecast period. The growth rates used in the Value-In-Use calculation reflect those inherent within the Company's budgets, which is primarily a function of the Company's cycle plan assumptions, past performance, and management expectations of future market developments through to 2029-30.The calculations use pre-tax cash flow projections based on financial budgets approved by the management. An average of the range of each assumption used is mentioned below:

Assumptions	31 March 2022	31 March 2021
Revenue growth for 8 years (31 March 2021: 9 years)	**40%**	35%
Operating EBITDA to revenue % (Average)	**10%**	10%
Discount rate	**18%**	18%
Terminal growth rate	**5%**	5%

The above discount rate is based on the Weighted Average Cost of Capital (WACC) which represents the weighted average return attributable to all the assets of the CGU. These estimates are likely to differ from future actual results of the operations and cash flows. Based on the above assessment, there has been no impairment on these assets.

42. Impact of COVID-19

The Company has taken into account all the possible impacts of COVID-19 in preparation of these financial statements, including but not limited to its assessment of liquidity and going concern assumption and recoverable values of its financial and non-financial assets. The Company has carried out this assessment based on available internal and external sources of information up to the date of approval of these financial statements and believes that the impact of COVID-19 is not material to these financial statements and expects to recover the carrying amount of its assets.

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

43. Additional Regulatory Information

a. Analytical Ratios

Ratio	Numerator	Denominator	As at 31 March 2022	As at 31 March 2021	Variance (%)	Reason for variance
a. Current ratio	Current Assets	Current Liabilities	**1.75**	0.86	103%	Refer note 1
b. Debt-equity ratio	Debt (borrowings + lease liabilities)	Shareholders equity	**3.11**	1.41	121%	Refer note 2
c. Debt service coverage ratio	Earnings available for debt service (1)	Debt Service	**(0.00)**	(0.12)	99%	Refer note 3
d. Return on equity ratio	Net profits after taxes	Average shareholder's equity	**-32%**	-41%	22%	
e. Inventory turnover ratio	Cost of goods sold	Average inventory	3.74	2.25	66%	Refer note 4
f. Trade receivables turnover ratio	Revenue from operations	Average trade receivables	**15.23**	5.49	177%	Refer note 5
g. Trade payables turnover ratio	Adjusted expenses (2)	Average trade payables	**5.17**	3.42	51%	Refer note 5
h. Net capital turnover ratio	Revenue from operations	Working capital	**3.04**	(6.45)	147%	Refer note 6
i. Net profit ratio	Net profit	Revenue from operations	**-17%**	-56%	71%	Refer note 7
j. Return on capital employed	Earning before interest and taxes	Capital employed (3)	**-7%**	-17%	60%	Refer note 7

Notes:

1. Better working capital management has resulted in an improvement in the ratio.
2. During the year, Company has taken additional Inter Corporate Deposit from Holding Company.
3. Improved operational margin has led to an improved debt service coverage ratio.
4. Increase in business volumes during the year resulting in higher COGS.
5. Increase in business volumes during the year resulting in higher revenue from operations and higher expenses.
6. Increase in business volumes during the year resulting in higher revenue from operations
7. Significant improvement in operational margin has resulted in improved net profit ratio and return on capital employed.

(1) Net Profit after taxes + Non-cash operating expenses + Interest + other adjustments like loss on sale of Fixed assets etc.

(2) Adjusted expenses refers sum of purchases and other expenses

(3) Capital Employed = Tangible Net Worth + Total Debt

INDEPENDENT AUDITOR'S REPORT

To the Members of NBS International Limited

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of NBS International Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Change in Equity and the Statement of Cash Flows for the year then ended and notes to the Ind AS financial statements, including summary of significant accounting policies and other explanatory information (hereinafter referred to as the "financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our Report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Information Other than the Financial Statements and Auditor's report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements, that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
   b) In our opinion, proper books of account as required by law have been kept by the Company so far, it appears from our examination of those books.
   c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Change in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
   e) On the basis of written representations received from the directors as on 31 March 2022 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2022, from being appointed as a director in terms of Section 164(2) of the Act.
   f) With respect to the adequacy of the internal financial controls with reference to the financial statements and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
3. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
   a) The Company has disclosed the impact of pending litigations on its financial position in its financial statements - Refer Note 31 to the financial statements.
   b) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
   c) There were no amounts required to be transferred to the Investor Education and Protection Fund by the Company.
   d) (i) The management has represented that, to the best of it's knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

      (ii) The management has represented, that, to the best of it's knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

      (iii) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (i) and (ii) above, contain any material misstatement.
   e) The Company has not declared or paid any dividend during the year and has not proposed final dividend for the year.
4. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the Company has not paid or provided remuneration to its directors during the year. Accordingly, compliance with the provision of Section 197(16) read with schedule V of the Act is not required.

ANNEXURE 'A' TO THE INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS OF NBS INTERNATIONAL LIMITED FOR THE YEAR ENDED 31 MARCH 2022

(Referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date)

1) (a) (A) The Company has maintained proper records showing full particulars including quantitative details and situation of its Property, Plant and Equipment and relevant details of Right of Use Assets.

(B) The Company has maintained proper records showing full particulars of its Intangible assets.

(b) The Company has a programme of physical verification of its Property, Plant and Equipment (including Right of Use Assets) by which all the assets are verified once in three years, which in our opinion, is reasonable having regard to size of the Company and nature of its assets. Pursuant to the programme, Property, Plant and Equipment have been verified by the Management during the year and no material discrepancies have been noticed on such verification.

(c) According to information and explanations given to us, and on the basis of our examination of the records of the Company, the Company does not have any immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee). Accordingly, reporting under clause 3(i)(c) of the Order is not applicable.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use Assets) and Intangible assets during the year.

(e) According to information and explanations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the "Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and Rules made thereunder.

2) (a) According to information and explanations given to us, the inventory has been physically verified by the management at reasonable intervals during the year and in our opinion the coverage and procedure of such verification is appropriate and no discrepancies of 10% or more in aggregate for each class of inventory were noticed on such verification by the Management.

(b) The Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets at any point of time during the year. Accordingly, the provision of clause 3(ii)(b) of the Order is not applicable to the Company.

3) According to information and explanations given to us, the Company has not made investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, reporting under clause 3(iii) of the Order are not applicable.

4) According to information and explanations given to us, the Company has not granted any loan, secured or unsecured, or provided any guarantee or security to the parties covered under section 185 of the Act during the year. With respect to investments provision of Section 186 of the Act have been complied with.

5) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits within the meaning of Sections 73 to 76 of the Act and the rules made thereunder. Accordingly, reporting under clause 3(v) of the Order are not applicable to the Company.

6) According to the information and explanations given to us, the requirement for maintenance of cost records specified by the Central Government under Section 148(1) of the Act is not applicable to the Company during the year.

7) (a) According to the information and the explanations given to us, the Company has been regular in depositing undisputed statutory dues including Goods and Services Tax, provident fund, employees' state insurance, income tax, sales tax, service tax, duty of custom, duty of excise, value added tax, cess and other statutory dues with the appropriate authorities. No undisputed amounts payable in respect of aforesaid statutory dues were outstanding as on the last day of the financial year for a period of more than six months from the date they became payable.

(b) According to information and explanations given to us, and record of the Company examined by us, there were no statutory dues referred to in sub-clause (a) that have not been deposited on account of any dispute except following:

Name of the Statue	Nature of dues	Amount* (Rs. in lakhs)	Period to which the amounts relate	Forum where dispute is pending
Income Tax Act, 1961	Income tax	93.43	FY 2011-2012	Commissioner of Income tax (Appeals)

* net of amount paid under protest Rs. 50.00 lakhs

8) According to information and explanations given to us, no unrecorded transactions have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

9) (a) According to information and explanations given to us, the Company has not defaulted in repayment of dues to any lender. Accordingly, reporting under clause 3(ix)(a) of the Order is not applicable.

(b) According to information and explanations given to us, the Company is not a declared willful defaulter by any bank or financial institution or other lender.

(c) According to information and explanations given to us, the Company has not obtained any term loan and there are no unutilised term loans at the beginning of the year. Accordingly, reporting under clause 3(ix)(c) of the Order is not applicable.

(d) According to information and explanations given to us, and overall examination of the financial statements of the Company, we report that no funds raised on short term basis have been used for long term purposes by the Company.

(e) According to information and explanations given to us, the Company did not have any subsidiary or associate or joint venture during the year. Accordingly, reporting under clause 3(ix)(e) of the Order is not applicable.

(f) According to information and explanations given to us, the Company has not raised loans during the year. Accordingly, reporting under clause 3(ix)(f) of the Order is not applicable.

10) (a) According to the information and explanations given to us, the Company has not raised moneys by way of public offer (including debt instruments) during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable.

(b) According to information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable.

11) (a) Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanation given to us, we report that no fraud by the Company or on the Company has been noticed or reported during the year.

(b) According to information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules 2014 with the Central Government, during the year and upto the date of this report.

(c) As represented to us by the management, there were no whistle blower complaints received by the Company during the year.

12) According to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, reporting under clause 3(xii) of the Order is not applicable.

13) According to the information and explanations given to us, in our opinion, transactions with related parties are in compliance with Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.

14) (a) In our opinion, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports of the Company for the period under audit.

15) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with directors or persons connected with them during the year. Accordingly, provisions of Section 192 of the Companies Act, 2013 are not applicable to the Company.

16) (a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934 (2 of 1934). Accordingly, reporting under clause 3(xvi)(a) of the Order is not applicable.

(b) According to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities.

(c) According to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India.

(d) According to the information and explanations given to us, the Group has 6 CICs.

17) According to the information and explanations given to us, the Company has not incurred any cash losses in the financial year and in the immediately preceding financial year.

18) There has been no resignation of the statutory auditors during the year. Accordingly reporting under clause 3(xviii) of the Order is not applicable.

19) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

20) According to the information and explanations given to us, the provisions of Section 135 of the Act are not applicable to the Company during the year. Accordingly, reporting under clause 3(xx) of the Order is not applicable.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS OF NBS INTERNATIONAL LIMITED FOR THE YEAR ENDED 31 MARCH 2022

(Referred to in paragraph 2(f) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to the Ind AS financial statements of NBS International Limited ("the Company") as of 31 March 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to the Ind AS financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to the Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to the Ind AS financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to the Ind AS financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls with reference to the Ind AS financial statements included obtaining an understanding of internal financial controls with reference to the Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to the Ind AS financial statements.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial controls with reference to the Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to the Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to the Ind AS Financial Statements

Because of the inherent limitations of internal financial controls with reference to the Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to the Ind AS financial statements to future periods are subject to the risk that the internal financial controls with reference to the Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls with reference to the Ind AS financial statements and such internal financial controls were operating effectively as at 31 March 2022, based on the internal financial controls with reference to the Ind AS financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended 31 March 2022

1. **Nature of Operations:**

NBS International Limited ('the Company'), a wholly owned subsidiary of Mahindra & Mahindra Limited engaged in the business of sales & servicing of motor vehicles.

2. **Significant Accounting Policies:**

a) **Statement of compliance and basis of preparation and presentation**

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended and notified under section 133 of the Companies Act, 2013 (the Act) and other relevant provisions of the Act.

These financial statements of the Company were approved by the Company's Board of Directors and authorised for issue on 21 April 2022.

The financial statements are presented in Indian Rupees (Rs.) which is also the Company's functional currency. All values are rounded to the nearest lakhs, unless otherwise indicated.

b) **Basis of measurement**

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair value or amortised cost at the end of each reporting period. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has established policies and procedures with respect to the measurement of fair values.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

— Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.

— Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

— Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

c) **Use of estimates and judgements.**

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

In the process of applying the Company's accounting policies, management has made the following judgements, estimates and assumptions which have significant risk of causing a material adjustment to the carrying amounts recognised in the financial statements:

Useful lives of property, plant and equipment and intangible assets

The Company reviews the useful lives of property, plant and equipment and intangible assets at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation expense in future periods.

Provision for doubtful trade receivables

The Company is not significantly exposed to credit risk. At present,the Company provides for credit loss/ doubtful receivables as required under Ind AS 109 'Financial Instrument' on the basis of ageing of receivables and judgement about recoverability of amount on evaluation of individual receivables.

Deferred tax assets

Deferred tax assets are recognised to the extent there is reasonable certainty that sufficient future taxable income will be available against which such deferred tax assets can be realised. Deferred tax assets in respect of carry forward of unused tax losses or unused tax credit have been recognised to the extent of available taxable temporary differences.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/ judgements about these factors could affect the reported fair value of financial instruments.

Defined benefit plans

The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increase and mortality rates, etc. Due to complexities involved in the valuation and its long term nature, a defined benefit obligation is highly sensitive to change in these assumptions. All assumptions are assumed at each reporting date.

d) **Current versus non-current classification:**

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when:

— It is expected to be realised or intended to be sold or consumed in normal operating cycle

— It is held primarily for the purpose of trading

— It is expected to be realised within twelve months after the reporting period, or

— It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

— It is expected to be settled in normal operating cycle; or

— It is held primarily for the purpose of trading; or

— It is due to be settled within twelve months after the reporting period; or

— There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

e) **Property, plant & equipment and intangibles**

Property, plant & equipment and intangible assets are carried at cost of acquisition or construction less accumulated depreciation/ amortisation and accumulated impairment losses, if any.

Cost includes the purchase price (including duties & non-refundable taxes) borrowing cost, any directly attributable cost of bringing the asset to its working condition and location for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

Depreciation/amortisation is provided on straight-line basis so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful life. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off the cost and relevant depreciation are removed from the books of accounts and resultant profit or loss, if any, is reflected in statement of profit and loss.

Assets costing less than or equal to Rs. 5,000 are depreciated fully in the year of purchase.

The management's estimate of useful lives are in accordance with Schedule II of the Companies Act,2013,other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:

Asset Class		Useful lives
(i)	Certain items of plant and machinery	1 - 15 years
(ii)	Office equipment	1 - 5 years
(iii)	Vehicles	5 years
(iii)	Intangibles – computer software	5 years

Leasehold Improvements are amortized over the period of lease or estimated period of useful life of such improvement, whichever is lower.

f) **Impairment of assets**

At the end of each reporting period, the management reviews the carrying amounts of its property, plant & equipment and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the management estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

g) **Inventories**

Inventories are measured at the lower of cost or net realisable value. The cost of inventory comprise of all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Finished goods (vehicles) cost is determined using specific identification of cost. Spare parts & accessories cost is determined using weighted average cost formula

h) **Revenue from contract with customer**

The Company derives revenues primarily from sale and servicing of motor vehicles.

Ind AS 115 "Revenue from Contracts with Customers" provides a control-based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

- Identify the contract(s) with a customer;
- Identify the performance obligations;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations; and
- Recognise revenue when or as an entity satisfies performance obligation.

Revenue from contract with customer is recognised when control of the goods or services are transferred to the customer at an amount that reflect the consideration to which the Company expects to be entitled in exchange of the goods and services. Revenue excludes amount collected on behalf of the third parties. Revenue is net of discounts, duties and GST.

Sales of goods:

Sale of spares parts and accessories of vehicles (including customized) is recognised when the title is accepted by the customer.

Sale of services:

Service income is recognized as per the terms of the contract on satisfaction of performance obligation towards rendering of such services.

Interest income:

Interest income is recognized on financial asset at amortised cost using effective interest rate method.

i) **Leases**

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116 and this may require significant judgment. The Company also uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend or terminate the lease if the Company is reasonably certain based on relevant facts and circumstances that the option to extend or terminate will be exercised. If there is a change in facts and circumstances, the expected lease term is revised accordingly.

The discount rate is generally based on the interest rate specific to the lease being evaluated or if that cannot be easily determined the incremental borrowing rate for similar term is used.

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The Company as a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and restoration cost, less any lease incentives received.

The right-of-use assets are subsequently depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. In addition, the right-of-use asset is reduced by impairment losses, if any.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. When a lease liability is remeasured, the corresponding adjustment of the lease liability is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

j) <u>Employee Benefits</u>

Short term employee benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid, if the Company has a present obligation and the amount can be estimated reliably.

Defined contribution plans – Provident fund, ESIC and Labour welfare fund

The Company's contribution paid/payable during the year to Provident fund, ESIC and Labour welfare fund are recognised in profit or loss.

Defined benefit plan - Gratuity

Company's liability towards gratuity are determined by independent actuaries, using the projected unit credit method. Past services are recognised at the earlier of the plan amendment/curtailment and the recognition of related restructuring costs/termination benefits.

Long - term compensated absences

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of expected future payments to be made in respect of services provided by employees up the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation.

Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

k) <u>Cash and Cash Equivalents</u>

Cash and cash equivalent comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

l) <u>Borrowing costs</u>

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

m) <u>Taxation</u>

Tax expense for the period comprise of current and deferred tax. Tax expense is recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(i) <u>Current Tax</u>

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) <u>Deferred Tax</u>

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities

n) <u>Provisions and Contingencies</u>

A provision is recognized when the Company has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of the obligations. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation,the provision is reversed. Provisions are not recognised for future operating losses.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events not wholly within the control of the Company.

o) <u>Financial Instruments</u>

Financial assets and financial liabilities are recognized when the company became a party to the contractual provisions of the instrument.

i) Financial Assets

Initial recognition and measurement

All financial assets are recognised initially at fair value (purchase value plus transaction costs that are attributable to the acquisition of the financial asset). Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

On initial recognition, a financial asset is classified as – measured at:

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI) – debt instruments; or
- Fair Value through Other Comprehensive Income (FVTOCI) – equity instruments; or
- Fair Value through Profit or Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

All financial assets not classified as measured at amortised cost or FVTOCI are measured at FVTPL.

Subsequent measurement

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment expenses are recognised in profit or loss. Any gain and loss on derecognition is also recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Debt investment at FVTOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognisedin Other Comprehensive Income (OCI). On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

For equity investments, the Company makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVTOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for medium or long-term strategic purpose. Dividend income received on such equity investments are recognised in profit or loss. Equity investments that are not designated to be measured at FVTOCI are designated to be measured at FVTPL. Subsequent changes in fair value are recognised in profit or loss.

Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company is recognised at the proceeds received, net of directly attributable transaction costs.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all of the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for the amount it may have to pay. If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised and the proceeds received are recognised as a collateralised borrowing.

Impairment of financial assets

The Company applies the Expected Credit Loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables and loans, the Company measures the loss allowance at an amount equal to lifetime expected credit losses. Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVTOCI, the loss allowance is recognised in OCI and is not reduced from the carrying amount of the financial asset in the balance sheet.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could stillbe subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

ii) Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Derecognition of financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

p) Earnings per share

Basic earnings per share is computed by dividing the profit/(loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit/(loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

q) Segment

Segment information is prepared in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole. The Company's business activity primarily falls within a single business segment, i.e., Automative as primarily segment. There is no geographical segment, thus there are no additional disclosures to be provided under Ind AS 108 - "Operating Segments". There have been no other reportable segments identified by chief operating decision makers.

r) New amendments issued but not effective

The Ministry of Corporate Affairs has vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends certain accounting standards. These amendments are effective from 1 April 2022. These amendments are not expected to have a material impact on the Company's financial statements.

*** Rights, preferences and restrictions attached to equity shares**

The Company has only one class of equity shares having par value of Rs. 10 per share. Each holder of equity share is entitled to one vote per share. The company declares and pays dividend in Indian Rupees. The dividend proposed by Board of Directors is subject to approval of the shareholders in the ensuing annual general meeting. Further, the Board of Directors may also announce an interim dividend which would need to be confirmed by the shareholders at the forthcoming Annual General Meeting. In the event of liquidation, the shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholdings.

(a) Defined contribution plan

The Company's contribution to provident fund aggregating Rs. 63.90 lakhs (31 March 2021 : Rs. 66.57 lakhs) has been recognised in the statement of profit or loss under the head employee benefits expense.

(b) Defined benefit plans:

Gratuity

The Company operates a defined benefit final salary gratuity plan which is open to new entrants. The gratuity benefits payable to the employees are based on the employee's service and last drawn salary at the time of leaving. The employees do not contribute towards this plan and the full cost of providing these benefits are met by the Company. There are no minimum funding requirements for a gratuity plan in India. The Company has chosen not to fund the gratuity liabilities of the plan but instead carry a provision based on actuarial valuation in its books of accounts. The only regulatory framework which applies to such plans is if the company is covered by the Payment of Gratuity Act, 1972 then the Company is bound to pay the statutory minimum gratuity as prescribed under this Act. The plan is of a final salary defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the Company that any adverse salary growth or demographic experience can result in an increase in cost of providing these benefits to employees in future. Since the benefits are lump sum in nature the plan is not subject to any longevity risks.

Defined benefit plans – as per actuarial valuation on 31 March, 2022

Note No. 27 - Financial Instruments

Capital management

The Company's capital management objectives are:

– to ensure the company's ability to continue as a going concern

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company monitors capital on the basis of the carrying amount of equity and borrowings as presented on the face of the statement of financial position.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

Financial risk management framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

Credit risk

(i) The Company's exposure to credit risk is limited to the carrying amount of financial assets recognised at the balance sheet date.

(ii) The Company continuously monitors defaults of customers and the other counterparties, identified either individually or by company and incorporates this information into its credit risk controls.

(iii) The Company's management considers that all the financial assets are not impaired for each of the reporting date under review, are of good credit quality, including those that are past due.

(iv) In respect of trade and other receivables, the company is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Concentration of credit risk to any counterparty did not exceed 10% of gross monetary assets at any time during the year.

(v) The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses. Due to immateriality company has decided not to provide for any credit losses.

Market risk

(i) Market risk is the risk that changes in market prices – such as interest rates will affect the entity's income. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. There has been no significant changes to the entity's exposure to market risk or the methods in which they are managed or measured.

Liquidity Risk

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

(Currency: Indian Rupees in Lakhs)

Particulars	Less than 1 Year Rs.	1-3 Years Rs.	3 Years to 5 Years Rs.	5 years and above Rs.
Non-derivative financial liabilities				
31-Mar-22				
-Non-interest bearing	2,860.85	35.72	43.46	–
-Fixed interest rate instruments	–	–	–	–
-Variable interest rate instruments	–	–	–	–
Total	**2,860.85**	**35.72**	**43.46**	**–**
31-Mar-21				
-Non-interest bearing	2,904.43	74.65	43.38	7.36
-Fixed interest rate instruments	–	–	–	–
-Variable interest rate instruments	–	–	–	–
Total	**2,904.43**	**74.65**	**43.38**	**7.36**

(iii) Financing arrangements

The Company had access to following undrawn borrowing facilities at the end of the reporting period:

(Currency: Indian Rupees in Lakhs)

Particulars	As at 31 March 2022 Rs.	As at 31 March 2021 Rs.
Unsecured bank overdraft facility		
- Expiring within one year	**1,500.00**	1,500.00
- Expiring beyond one year	**–**	–
	1,500.00	1,500.00

(iv) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

(Currency: Indian Rupees in Lakhs)

Particulars	Less than 1 Year Rs.	1-3 Years Rs.	3 Years to 5 Years Rs.	5 years and above Rs.
Non-derivative financial assets				
31-Mar-22				
Non-interest bearing	1,221.82	49.57	–	–
31-Mar-21				
Non-interest bearing	1,575.62	–	–	–

The amounts included above for variable interest rate instruments for both non-derivative financial assets and liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

Interest rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for both derivative and non-derivative instruments at the end of reporting period. The Company doesn't have financial liabilities bearing floating interest rate as at balance sheet date.

Note No. 28 - Fair Value Measurement

Financial assets and financial liabilities measured at fair value /measured using amortized cost

(Currency: Indian Rupees in Lakhs)

Particulars	As at 31 March 2022 Carrying amount	Fair value	As at 31 March 2021 Carrying amount	Fair value
Financial assets				
Financial assets carried at amortised cost				
– Other assets	**49.57**	**49.57**	44.06	44.06
– Trade and other receivables	**635.66**	**635.66**	646.12	646.12
– Cash and cash equivalents	**544.22**	**544.22**	423.30	423.30
Total	**1,229.45**	**1,229.45**	1,113.48	1,113.48
Financial assets carried at fair value				
– Investments	**41.94**	**41.94**	506.20	506.20
Financial liabilities				
Financial liabilities held at amortised cost				
– Trade and other payables	**2,541.68**	**2,541.68**	2,584.41	2,584.41
– Lease liability	**125.36**	**125.36**	191.78	191.78
– Other	**193.81**	**193.81**	128.25	128.25
Total	**2,860.85**	**2,860.85**	2,904.44	2,904.44

Note No. 29 - Segment information

(a) The Company's business activity falls within a single business segment viz. 'Automotive'. All other activities of the Company revolve around it's main business. Hence there are no separate reportable primary segments. Company deals into trading and servicing of vehicles.

(b) All the non-current assets of the Company are located in India.

(c) Revenue from major products and services

(Currency: Indian Rupees in Lakhs)

Particulars	As at 31 March 2022	As at 31 March 2021
Sale and Service of Vehicles	**21,816.78**	12,890.51

(d) Revenues from transactions with a single external customer does not amount to 10% or more of an entity's revenues during the year.

(e) Since there is single segment there is no difference in measurement of profit & loss and measurement of assets and liabilities.

Note No. 34 - Corporate social responsibility (CSR)

As per the provisions of Section 135 of the Companies Act, 2013, amounts required to be spent by the Company on CSR during the year is Rs. Nil (2021 Rs. Nil).

Note No. 35 - Impact of Covid-19

The Company is engaged in the business of sales and servicing of motor vehicles. The showrooms and workshops operations have been temporarily impacted during Q1 of the current year due to second wave of Covid-19 pandemic. The Company has experienced the resumption of normal activities by start of Q2. The Company, based on internal & external sources of information, has assessed that as a result of Covid-19 outbreak, there is no significant financial impact on the financial statements for the year ended March 31, 2022 as at the date of approval of these financial statements.

Note No. 36 - Code on Social Security, 2020

The Indian Parliament had approved the Code on Social Security, 2020 which could impact the contributions by the Company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft rules for the Code on Social Security, 2020 on November 13, 2020, and has invited suggestions from stakeholders which are under active consideration by the Ministry. The Company will complete its evaluation once the rules are notified and will give appropriate impact in the financial statements in the period in which the Code and related rules becomes effective.

INDEPENDENT AUDITOR'S REPORT

To the members of Mahindra Automotive Australia Pty Ltd

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Mahindra Automotive Australia Pty Ltd (the Company), which comprises the statement of financial position as at 31 March 2022, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the accompanying financial report of Mahindra Automotive Australia Pty Ltd, is in accordance with the *Corporations Act 2001*, including:

(i) Giving a true and fair view of the Company's financial position as at 31 March 2022 and of its financial performance for the year ended on that date; and

(ii) Complying with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Company in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The directors are responsible for the other information. The other information obtained at the date of this auditor's report is information included in the directors' report but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (http://www.auasb.gov.au/Home.aspx) at: http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf

This description forms part of our auditor's report.

BDO Audit Pty Ltd

Randall Bryson

Director

Brisbane,

DIRECTORS' DECLARATION FOR THE YEAR ENDED 31 MARCH 2022

In accordance with a resolution of the directors of Mahindra Automotive Australia Pty Ltd, the directors of the company declare that:

1. The financial statements and accompanying notes are in accordance with the *Corporations Act 2001* and:
   (a) comply with Australian Accounting Standards-Reduced Disclosure Requirements; and
   (b) give a true and fair view of the entity's financial position as at 31 March 2022 and of its performance for the year ended on that date.
2. In the directors' opinion, there are reasonable grounds to believe that Mahindra Automotive Australia Pty Ltd will be able to pay its debts as and when they become due and payable.

Director

Dated this 11th day of May 2022

CASH AT THE END OF THE FINANCIAL YEAR	**6**	**1,083,242**	986,019

The above Statement of Cash Flows should be read in conjunction with the attached notes.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for Mahindra Automotive Australia Pty Ltd (referred hereafter as the 'Entity' or 'Company').

The financial statements were authorised for issue on 9 May 2022 by the directors of the Company.

Basis of preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards-Reduced Disclosure Requirements of the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The company is a for profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Material accounting policies adopted in the preparation of the financial statements are presented below and have been consistently applied unless stated otherwise.

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The amounts presented in the financial statements have been rounded to the nearest dollar.

Accounting Policies

(a) Income Tax

The income tax expense for the year comprises current income tax expense and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income for the current period. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss or arising from a business combination. Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability. With respect to non-depreciable items of property, plant and equipment measured at fair value and items of investment property measured at fair value, the related deferred tax liability or deferred tax asset is measured on the basis that the carrying amount of the asset will be recovered entirely through sale. When an investment property that is depreciable is held by the entity in a business model whose objective is to consume substantially all of the economic benefits embodied in the property through use over time (rather than through sale), the related deferred tax liability or deferred tax asset is measured on the basis that the carrying amount of such property will be recovered entirely through use.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (i) a legally enforceable right of set-off exists; and (ii) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities, where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(b) Inventory

Inventory has been valued as follows:

- Finished goods are valued at the lower of cost and net realisable value.
- Raw materials are valued at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(c) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Plant and Equipment

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than its estimated recoverable amount, the carrying amount is written down immediately to its estimated recoverable amount and impairment losses recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 1(g) for details of impairment).

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are recognised as expenses in profit or loss in the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including capitalised lease assets is depreciated on a diminishing value basis over the asset's useful life to the entity commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

Plant and equipment	10% – 20%	(DV)
Furniture and fixtures	10% – 20%	(DV)
Motor vehicles	20% – 30%	(DV)
Computer equipment	20% – 40%	(DV)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in profit or loss when the item is derecognised. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

(d) Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Assets and liabilities arising from a lease are initially measured on a present value basis.

Lease Liabilities

Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Company under residual value guarantees;
- the exercise price of a purchase option if the Company is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases that relate to building premises, the entity's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received, making adjustments specific to the lease (e.g. term, country, currency and security).

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured whenever:

- The lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liabilities are remeasured by discounting the revised lease payments using a revised discount rate; and
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

Right-of-use Assets

Right-of-use assets are subject to the impairment in accordance with AASB 134: *Impairment of assets*. Any identified impairment loss is accounted for inline with the Company's "impairment of non-current assets" policy.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability, and
- any lease payments made at or before the commencement date less any lease incentives received

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Extension Options

Extension options are included in a number of building premises leases across the Company. These are used to maximise operational flexibility in terms of managing the assets used in the Company's operations. The extension and termination options held are exercisable only by the Company and not by the respective lessor. When exercising lease extensions of building premises, the Company considers the following factors:

- any termination and make-good penalties;
- value of leasehold improvements;
- cost of disruption to the business to relocate, and
- availability and cost other suitable properties.

Extension options are only included in the lease term if the lease is reasonably certain to be extended.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.

(e) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

(f) Borrowings

Borrowings are initially recognised at fair value net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the process (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of borrowings using the effective interest rate method.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

(g) Financial Assets and Liabilities

(i) Classification and measurement of financial assets

Financial assets are classified in the following measurement categories:

- Those are to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss); and
- Those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and contractual terms of the cash flows.

(ii) Impairment of financial assets

Under AASB 9 "general approach", loss allowances are measured on either of the following bases:

- 12-months Expected Credit Losses (ECLs): these are ECLs that result from possible default events within the 12 months after the reporting date; and
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of financial instrument.

The Company measures loss allowances at an amount equal to 12-month ECLs, except for loan issued balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has increased significantly since initial recognition.

When determining whether the credit risk of a financial assets has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligation to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due, but additional analysis is conducted for each such receivable and assessment is updated accordingly.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk. ECLs are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset in case of long-term assets.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. Impairment losses related to trade and other receivables are presented as part of net other operating expenses.

The accounting policies adopted for specific financial instruments are set out below:

(iii) *Cash and cash equivalents*

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short term borrowings in current liabilities on the statement of financial position.

Financial Guarantees

Where material, financial guarantees issued that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due are recognised as financial liabilities at fair value on initial recognition.

The fair value of financial guarantee contracts has been assessed using the probability weighted discounted cash flow approach. The probability has been based on:

- the likelihood of the guaranteed party defaulting during the next reporting period;
- the proportion of the exposure that is not expected to be recovered due to the guaranteed party defaulting; and
- the maximum loss exposure if the guaranteed party were to default.

Derecognition

Financial assets are derecognised when the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised when the related obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(h) Impairment of Non-current assets

Assets that have an indefinite useful life, including Goodwill is tested annually for impairment.

At each reporting date, the Company reviews the carrying amount of all other non-financial assets to determine whether there is any indication of impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates independent cash inflows (known as cash-generating units or CGUs). Goodwill arising from a business combination is allocated to CGUs that are expected to benefit from the synergies of the transaction.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised in profit or loss if the carrying amount of an asset or CGU exceeds its recoverable amount.

(i) Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of the entity is measured using the currency of the primary economic environment in which that entity operates. The financial statements are presented in Australian dollars which is the entity's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.
Exchange differences arising on the translation of monetary items are recognised in profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is directly recognised in other comprehensive income, otherwise the exchange difference is recognised in profit or loss.

Exchange differences arising on translation of foreign operations are transferred directly to the entities foreign currency translation reserve in the statement of financial position via other comprehensive income. The cumulative amount of these differences is reclassified into profit or loss in the period in which the operation is disposed of.

(j) Employee Benefits

Short-term employee benefit obligations

Provision is made for the entities obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages and salaries. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The entity's obligations for short-term employee benefits such as wages and salaries are recognised as part of current trade and other payables in the statement of financial position.

Other long-term employee benefit obligations

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service.

The entities obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the entity does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(k) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate taking into account the risks and uncertainties surrounding the obligation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

(l) Revenue and Other Income

Sales of goods revenue

Revenue from the sale of goods is recognised when the performance obligation has been satisfied and control is transferred to the customer. The performance obligation is considered to be satisfied at a point in time and control is transferred when the goods are invoiced and physically dispatched or collected.

Interest revenue

Interest revenue is recognised on a time proportional basis, taking into account the effective interest rates applicable to the financial assets.

Government subsidies

During 2021, the Company received the government wage subsidy called 'Jobkeeper'. These are recognised where there is a reasonable assurance that the grant will be received and all attached conditions are complied with.

All revenue is stated net of the amount of goods and services tax.

(m) Trade and other receivables

Trade receivables are recognised initially at the transaction price, less the expected lifetime credit losses to be recognised from initial recognition of the receivables.

The Company applies the simplified approach permitted by AASB 9, which requires expected lifetime credit losses to be recognised from initial recognition of the receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company historical credit loss experience, as well as the credit losses that are expected in the foreseeable future.

(n) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

(o) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities, which are recoverable from or payable to the ATO, are presented as operating cash flows included in receipts from customers or payments to suppliers.

(p) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(q) New or Revised Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the annual reporting period ended 31 March 2022. The Company's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the Company, are set out below.

Conceptual Framework for Financial Reporting (Conceptual Framework)

The revised Conceptual Framework is applicable to annual reporting periods beginning on or after 1 July 2021 and early adoption is permitted. The Conceptual Framework contains new definition and recognition criteria as well as new guidance on measurement that affects several Accounting Standards. Where the Company has relied on the existing framework in determining its accounting policies for transactions, events or conditions that are not otherwise dealt with under the Australian Accounting Standards, the Company may need to review such policies under the revised framework. At this time, the application of the Conceptual Framework has not had a material impact on the Company's financial statements.

AASB 2020-1 Amendments to Australian Accounting Standards-Classification of Liabilities as Current or Non-current

This standard is applicable to annual reporting periods beginning on or after 1 January 2023. There are four main changes to the classification requirements:

1. The requirement for an 'unconditional' right has been deleted from paragraph 69(d) because covenants in banking agreements would rarely result in unconditional rights.
2. The right to defer settlement must exist at the end of the reporting period. If the right to defer settlement is dependent upon the entity complying with specified conditions (covenants), the right to defer only exists at reporting date if the entity complies with those conditions at reporting date.
3. Classification is based on the right to defer settlement, and not intention (paragraph 73), and
4. If a liability could be settled by an entity transferring its own equity instruments prior to maturity (e.g. a convertible bond), classification is determined without considering the possibility of earlier settlement by conversion to equity, but only if the conversion feature is classified as equity under IAS 32.

There are also a number of amendments to standards, and interpretations which have been issued by the IASB that are effective in future accounting periods that the Group has decided not to adopt early.

The following amendments are effective for the period beginning 1 January 2022:

- Onerous Contracts – Cost of Fulfilling a Contract (Amendments to IAS 37);
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16);
- Annual Improvements to IFRS Standards 2018-2020 (Amendments to IFRS 1, IFRS 9, IFRS 16 and IAS 41); and
- References to Conceptual Framework (Amendments to IFRS 3).

The following amendments are effective for the period beginning 1 January 2023:

- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2);
- Definition of Accounting Estimates (Amendments to IAS 8); and
- Deferred Tax Related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12).

2. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The management evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

Allowances for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience and historical collection rates.

Carrying amount of inventories

In determining the amount of write-downs of inventories, management has made judgements based on the expected net realisable value. This requires certain judgements and assumptions to be made, including but not limited to historical loss experience, inventory aging and current knowledge of the goods.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

Income tax

The Company is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognises liabilities for anticipated tax audit issues based on the Company's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Impairment

The Company assesses impairment at the end of each reporting period by evaluating the conditions and events specific to the Company that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value in use calculations which incorporate various key assumptions. No impairment to be recognised at reporting date.

Employee benefits

For the purpose of measurement, AASB 119: *Employee Benefits* defines obligations for short-term employee benefits as obligations expected to be settled wholly before 12-months after the end of the annual reporting period in which the employees render the related service. As the Company expects that most employees will not use all of their annual leave entitlements in the same year in which they are earned or during the following 12 month period, obligations for annual leave entitlements are classified under AASB 119 as other long-term employee benefits.

Lease term

The Company included the renewal period as part of the lease term for leases of building premises, (i.e. three to five years per option). The Company has adopted the position that the extended lease term due to exercisable renewable options would not go beyond fifteen years, after which the Company is not reasonably certain of the factors listed in Note 1 (d).

Incremental borrowing rate

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate (IBR) is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the Company estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as credit rating).

Coronavirus (COVID-19) Pandemic

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the Company based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographical regions in which the Company operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Company unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

18. EVENTS AFTER THE REPORTING PERIOD

No matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Company, the results of those operations, or the state of affairs of the Company in future financial years.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF MAHINDRA TWO WHEELERS LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Mahindra Two Wheelers Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, and the Statement of Profit and Loss, (statement of changes in equity) and Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (the "ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors Report and the related annexures, but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial Statements, including the disclosures, and whether the financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-Section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
   (e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial Statements.
   (g) In our opinion, the managerial remuneration for the year ended March 31, 2022 has been paid / provided by the Company to its directors in accordance with the provisions of Section 197 read with Schedule V to the Act.
   (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in

our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements – Refer Note 29 to the Financial Statements;

ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. The dividend declared and paid during the year by the Company is in compliance with Section 123 of the Act.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Mahindra Two Wheelers Limited** ("the Company") as of March 31, 2022 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

1) i) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment and investment properties.

ii) The Company has a regular programme for physical verification of its property, plant and equipment and investment properties by which the property, plant and equipment and investment properties are verified by the management according to a phased programme designed to cover all the items over a period of 3 years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment and investment properties. In accordance with the programme, the Company has physically verified certain property, plant and equipment and investment properties during the year and no material discrepancies were noticed on such verification.

iii) According to the information and explanations given to us, the Company has no immoveable properties registered in its name. Accordingly, the reporting under Clause 3(i)(c) of the Order is not applicable to the Company.

iv) According to the information and explanations given to us, the Company has not revalued any of its property, plant and equipment (including Right of use assets) or intangible assets or both during the year.

v) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

2) i) According to the information and explanations given to us, the inventory comprising of traded goods, packing materials and stores and spare parts has been physically verified at reasonable intervals by the management during the year. In our opinion, coverage and procedure of such verification is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such verification between the physical inventory and the book records.

ii) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate from banks or financial institutions on the basis of security of current assets at any point of time during the year.

3) a) According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or secured or unsecured loans to companies, firms, Limited Liability Partnerships. During the year, the company has granted loans to other party, the details of which are as under –

Particulars	**Loans given during the year Rupees**
Aggregate amount during the year:	
- Subsidiaries	Nil
- Joint ventures	Nil
- Associates	Nil
- Limited liability partnership firm	Nil
- Other party	Rs 15 Crores
Balance outstanding as at the Balance Sheet date	
- Subsidiaries	Nil
- Joint ventures	Nil
- Associates	Nil
- Limited liability partnership firm	Nil
- Other party	Nil

b) According to the information and explanation given to us, the terms and conditions of the loans granted by the Company to other party is not prejudicial to the company's interest

c) According to the information and explanations given to us, the other party has been regular in repayment of principal amounts and payments of interest as per the stipulated terms.

d) According to the information and explanations given to us, loan given to other party as mentioned in paragraph (c) above, there is no amount overdue for more than 90 days.

e) According to the information and explanations given to us, the loans granted to the parties mentioned in paragraph (a) above have fallen due during the year but have not been renewed or extended nor fresh loans were granted to settle any overdues of existing loans given to the same parties.

f) According to the information and explanations given to us, the Company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment.

4) According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the

parties covered under Section 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

5) According to the information and explanations given to us, the Company has not accepted any deposits under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

6) The Central Government has not prescribed the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.

7) i) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services tax, Provident Fund, Employees' State Insurance, cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. The amounts deducted / accrued in the books of account in respect of undisputed statutory dues of Income-tax have generally been regularly deposited during the year by the Company with the appropriate authorities, though there have been slight delays in a few cases. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

ii) According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of undisputed statutory dues in respect of Goods and Services tax, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the year for a period of more than six months from the date they became payable.

iii) According to the information and explanation given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Service Tax, Provident Fund, Employees State Insurance, Sales Tax, Service Tax , Duty of Customs, Duty of Excise, Value added tax, Cess and any other material statutory dues as at 31 March 2022, which have not been deposited on account of any dispute. The statutory dues in respect of Income tax and other tax as at 31 March 22 which have not been deposited with the appropriate authorities on account of a dispute are as under

Name of the statute	Nature of dues	Amount (Rs in lakhs)	Financial year to which is it pertains	Forum where the disputes is pending
Income Tax Act, 1961	Income tax including interest	146	2014-15	DCIT
Income Tax Act 1961	Income tax including interest	441	2018-19	DCIT
Central sales tax act	C form and F form liability	778	2016-17	DC of state tax
Central sales tax Act	C Form liability	60	2017-18 Q1	Jt Commissioner appeal
West Bengal E Tax	Entry Tax demand	5	2016-17	Jt Commissioner Revisionary appeal
West Bengal CST	C form liability	153	2015-18	Jt Commissioner Appeal

8) According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

9) a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any loans or other borrowings during the year. Accordingly, the reporting under Clause 3(ix) (a) of the Order is not applicable to the Company.

b) According to the information and explanations given to us, the Company has not been declared a willful defaulter by any bank or financial institution or any other lender till the date of our audit report.

c) According to the information and explanation given to us, Company has not obtained any term loan during the year. Hence reporting under clause (ix) (c) is not applicable.

d) In our opinion and according to information and explanations given to us and on overall examination of the Balance sheet of the Company, we report that company has not raised any short term or long term loan during the year. Hence reporting under clause (ix) (d) is not applicable to company.

e) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures

10) a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

b) According to the information and explanation given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under clause 3(x)(b) of the Order is not applicable to the Company.

11) a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the management.

b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

c) As represented to us by the management, no whistle blower complaints were received by the Company during the year.

12) According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

13) In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act.

14) a) In our opinion and according to the information and explanations given to us and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.

b) We have considered the Internal Audit reports of the Company issued till date for the period under audit.

15) In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or directors of its holding company or persons connected with them during the year and hence the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

16) a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi) of the Order is not applicable to the Company.

b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing finance activities. Accordingly, the reporting under this clause is not applicable to the Company.

c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clauses 3(xvi)(c) and 3(xvi)(d) of the Order is not applicable to the Company.

d) Based on the information and explanations given to us, we report that the Group has six core Investment companies

17) In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.

18) There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

19) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period

of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

20) a) According to the information and explanations given to us, in respect of other than ongoing projects, the Company has unspent amount of Rs 8,593/- as on 31 March 22. The Company is in the process of transferring the said amount to a Fund specified in Schedule VII of the Companies Act within a period of six months of the expiry of financial year 2021-22 in compliance with second proviso to sub section (5) of section 135 of the Companies Act, 2013.

b) According to the information and explanations given to us, in respect of ongoing projects, the Company has no unspent amount which needs to be transferred to a special account in compliance with sub-section (6) of Section 135 of the Act.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2022

Note no. 1. GENERAL INFORMATION

Mahindra Two Wheelers Limited is in the business of trading in spare parts and accessories. It deals in parts required for the range of Two wheelers, passenger light motor vehicle and commercial vehicles manufactured and sold by its Holding Company, Mahindra & Mahindra Limited. The Company undertakes procurement, warehousing management, logistics and sale of spare parts and accessories. It has a network of dealers spread across India to ensure timely availability of spare parts to customers.

The Company has elected not to prepare consolidated financial statements, as Mahindra & Mahindra Limited being the Holding Company prepares consolidated financial statements at Group Level. Copies of the annual report of the Mahindra & Mahindra Limited can be obtained from the Company Secretary, Mahindra & Mahindra Limited, Mahindra Towers, Dr. G. M. Bhosale Marg, Worli, Mumbai, 400 018, India.

Note no. 2. SIGNIFICANT ACCOUNTING POLICIES

2.1 Statement of compliance:

The standalone financial statements of the Company ('financial statements') have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act), Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

2.2 Basis of preparation and presentation:

The standalone financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and / or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

1. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
2. Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
3. Level 3 inputs are unobservable inputs for the asset or liability

2.3 Revenue Recognition:

Revenue is recognised at the fair value of the consideration received or receivable. Sale are recognised, net of returns, trade discounts, VAT / Sales Tax on the transfer of risk and rewards of ownership of the products to the customers, which is generally on dispatch of goods.

Sale of goods

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

a) The Company has transferred to the buyer the significant risks and rewards of ownership of the goods;

b) The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;

c) The amount of revenue can be measured reliably;

d) It is probable that the economic benefits associated with the transaction will flow to the company; and

e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

2.4 Leases:

Ind AS 116 is replaced the existing leases standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, onbalance sheet lessee accounting model for lessees. A lessee recognises right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard also contains enhanced disclosure requirements for lessees.

Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17. The amendment is effective for annual periods beginning on or after 01st April 19.

2.5 Foreign exchange transactions:

Transactions in foreign currencies (other than company's functional currency) are recorded at the exchange rates prevailing on the date of transaction. Monetary items are re-translated at the year-end rates. The exchange difference between the rate prevailing on the date of transaction and on the date of settlement as also on re-translation of Monetary items at the end of the year, is recognised as income or expense, as the case may be.

2.6 Employee Benefits:

2.6.1 Defined contribution plan

The Company's contributions paid/payable during the year to Provident Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees.

2.6.2 Defined benefit plan/leave encashment

The Company's liability towards gratuity and leave encashment is determined using the projected unit credit method which considers each period of service as giving rights to an additional unit of benefit entitlement and measure each unit separately to build up the final obligation. Past services are recognised on straight line basis over the average period until the benefits become vested. Actuarial gains and losses are recognised immediately in the statement of other comprehensive income as income or expense. Obligation is measured at the present value of estimated future cash flow using discounted rate i.e. determined by reference to the market yield at the Balance Sheet date on Government Bonds where the currency and terms of the Government Bonds are consistent with the currency and estimated terms of the defined benefit obligation.

2.6.3 Other benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the period when the employee renders the service.

2.7 Taxes on Income:

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961 and applicable tax laws. Deferred tax is recognised on temporary differences between the carrying amounts assets and liabilities in the standalone financial statements and the corresponding tax bases used in the computation of taxable profit. Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.8 Property Plant & Equipment:

Property Plant & Equipments are carried at cost less depreciation. Cost comprises the purchase price and other attributable costs.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation on assets is calculated on Straight Line Method at the rates and in the manner prescribed in Schedule II to the Companies Act, 2013, except in respect of the following categories of assets, in whose case the useful life of the assets has been assessed as under based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.:

Vehicles	5 years
Plant & Machinery	7 years

2.9 Impairment:

The carrying amounts of assets are reviewed at each balance sheet date if there is any indication of impairment based on internal / external factors. Impairment loss is provided to the extent the carrying amount of assets exceeds their recoverable amount. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

2.10 Inventories:

Inventories comprise all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Stock -in -trade are valued at lower of cost or net realisable value after provision for obsolescence and other losses, where considered necessary. Cost is determined on the basis of weighted average method.

2.11 Product Warranty:

In respect of warranties given by the Company on sale of certain products, the estimated costs of these warranties are accrued at the time of sale on the basis of technical estimate. These estimates are established using historical information on the nature, frequency and average cost of warranty claims. The estimates for accounting of warranties are reviewed and revisions are made as required.

2.12 Financial Instruments:

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial Assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial liabilities and equity instruments: Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

<u>Investments in equity instruments at FVTOCI</u>

A financial asset is held for trading if:

1. It has been acquired principally for the purpose of selling it in the near term; or
2. on initial recognition it is part of a portfolio of identified financial instruments or a financial guarantee
3. it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee

The Company has equity investments in one entity which are not held for trading. The company has elected the FVTOCI irrevocable option for this investment (see note no 4). Fair value is determined in the manner described in note no 30. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit and loss on disposal of the investment.

Dividends on this investment in equity instruments is recognised in profit or loss when the company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in profit or loss are included in the 'Other Income' line item.

2.13 Critical accounting judgements and key sources of estimation uncertainty:

The preparation of standalone financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these standalone financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, obligations relating to employee defined benefits etc. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise."

2.14 Cash and cash equivalents (for purposes of Cash Flow Statement):

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.15 Investments:

Investments, which are readily realisable and intended to be held for not more than one year from the date on which such investments are made are classified as current investments. All other investments are classified as non current investments.

2.16 Segment Reporting:

The Company has single reportable business segment namely Automotive vehicles-related spare parts. The Company has only one reportable geographical segment.

Capital management

The company's capital management objectives are:

– to ensure the company's ability to continue as a going concern

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash & cash equivalent as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company . The Company has adopted a policy of only dealing with creditworthy counterparties, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterparty limits that are reviewed and approved by the management as and when required. The Company does not have significant credit risk exposure to any single counterparty.

The loss allowance provision is determined as follows:

As at March 31, 2022 **Rupees in Lakhs**

Particulars	Not due	Less than 6 months past due	More than 6 months past due	Total
Expected loss rate	**0%**	**0%**	**81%**	**15%**

Impairment losses recognised in the year based on lifetime expected credit losses (Net of Recovery)	**103.47**	178.05
Balance at end of the year	**461.47**	358.01

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

Rupees in Lakhs

Total	**6,486.59**	–	–	–

(iii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

Particulars	Currency	As at March 31, 2022	As at March 31, 2021
Trade Receivables	USD	**10,790.08**	85,545.59
	INR (Rupees Lakhs)	**8.17**	62.95
	EUR	**(2,244.61)**	–
	INR (Rupees Lakhs)	**–1.89**	–
Trade Payables	USD	**27,792.83**	72,551.00
	INR (Rupees Lakhs)	**21.05**	53.06
	EUR	**28,471.64**	2,488.00
	INR (Rupees Lakhs)	**24.07**	2.16

Of the above foreign currency exposures, the following exposures are not hedged by a derivative:

Particulars	Currency	As at March 31, 2022	As at March 31, 2021
Trade Receivables	USD	**10,790.08**	85,545.59
	INR (Rupees Lakhs)	**8.17**	62.95
	EUR	**(2,244.61)**	–
	INR (Rupees Lakhs)	**(1.89)**	–
Trade Payables	USD	**27,792.83**	72,551.00
	INR (Rupees Lakhs)	**21.05**	53.06
	EUR	**28,471.64**	2,488.00
	INR (Rupees Lakhs)	**24.07**	2.16

Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD and EURO exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities . The Company's exposure to foreign currency changes for all other currencies is not material.

Rupees in Lakhs

For the year ended	Currency	Change in rate	Effect on profit before tax	Effect on pre-tax equity
March 31, 2022	**USD/EURO**	**+10%**	**(3.88)**	**(3.88)**
	USD/EURO	**-10%**	**3.88**	**3.88**
March 31, 2021	USD/EURO	+10%	0.77	0.77
	USD/EURO	-10%	(0.77)	(0.77)

Notes:

1. The amount outstanding is unsecured and will be settled in cash. No guarantee has been given or received. No expense has been recognised in current or prior years for bad and doubtful debts in respect of the amounts owed by the related party.
2. Related party transactions for the period are at arm's length.

Note no. 32 - Employee benefits

(a) Defined Contribution Plan

The Company makes Provident Fund contributions to defined contribution plans for qualifying employees. Under the schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. The Company recognised Rs. 9.24 Lakhs (2021: Rs. 8.73 Lakhs) for Provident Fund contributions in the Statement of Profit and Loss. The contributions payable to these plans by the Company are at rates specified in the rules of the schemes.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested, it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

1) Liability Risks

a. Asset-Liability Mismatch Risk-

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the company is successfully able to neutralize valuation which caused by interest rate movements. Hence, companies are encouraged to adopt asset-liability management.

b. Discount Rate Risk-

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practise can have a significant impact on the defined benefit liabilities.

c. Future Salary Escalation and Inflation Risk -

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

2) Asset Risks

All plan assets are maintained in a trust fund managed by a public sector insurer viz; LIC of India.LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years.

The company has opted for a traditional fund wherein all assets are invested primarily in risk averse markets. The company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claims settlement and hence 100% liquidity is ensured. Also, interest rate and inflation risk are taken care of.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	Valuation as at	Valuation as at
	31-Mar-22	31-Mar-21
Discount rate(s)	6.30%	5.60%
Expected rate(s) of salary increase	9.00%	9.00%

Defined benefit plans – as per actuarial valuation on March 31, 2022

			Rupees in Lakhs

- Actual Return on plan assets in excess of the expected return	**(0.39)**	(0.10)
5. Contributions by employer (including benefit payments recoverable)	–	–
6. Benefit payments		
7. Fair value of plan assets at the end of the year	**51.37**	49.02

IV. The Major categories of plan assets		
Fund managed by insurer	**100.00%**	100.00%

V. Actuarial assumptions		
1. Discount rate	**6.30%**	5.60%
2. Expected rate of return on plan assets	**5.60%**	5.50%
3. Attrition rate	**20.00%**	20.00%
4. Medical premium inflation	**NA**	NA

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Rupees in Lakhs

Principal assumption	Changes in assumption	March 31, 2022 Impact on defined benefit obligation		March 31, 2021 Impact on defined benefit obligation	
		Increase in assumption	Decrease in assumption	Increase in assumption	Decrease in assumption
Discount rate	-1.00%		51.53		48.54
	1.00%	47.10		44.35	
Salary growth rate	-1.00%		47.57		44.81
	1.00%	50.98		48.00	

Rupees in Lakhs

Principal assumption	Changes in assumption	March 31, 2022 Impact on defined benefit obligation		March 31, 2021 Impact on defined benefit obligation	
		Increase in assumption	Decrease in assumption	Increase in assumption	Decrease in assumption
Withdrawal rate	-1.00%		49.47		46.67
	1.00%	48.98		46.06	

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as and when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

Mortality : It is assumed that the active members of the scheme will experience in-service mortality in accordance with the Indian Assured Lives Mortality (2012-14) ultimate (IALM ult). A sample pick from this table is given below:

Age	Mortality rate
21	0.000934
22	0.000937
23	0.000936
24	0.000933
25	0.000931

Age of the members at the valuation date is taken as their nearest age at that date.

Maturity profile of defined benefit obligation:

Particulars	March 31, 2022	March 31, 2021
Within 1 year	**9.67**	11.45
1 - 2 year	**9.15**	7.72
2 - 3 year	**12.06**	7.49
3 - 4 year	**9.28**	9.77
4 - 5 year	**6.32**	7.57
5 - 10 years	**25.75**	23.48

Plan Assets

The fair value of Company's pension plan asset as of March 31, 2022 is as follows:

Particulars	March 31, 2022	March 31, 2021
Asset category:		
Cash and cash equivalents	**0%**	0%
Debt instruments (quoted)	**0%**	0%
Debt instruments (unquoted)	**0%**	0%
Equity instruments (quoted)	**0%**	0%
Deposits with Insurance companies	**100%**	100%
Total	**100%**	100%

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Note no. 33 - Segment Reporting

The Company has single reportable business segment namely Automotive vehicles-related spare parts. All other activities of the Company revolve around its main business. Hence there are no separate reportable primary segments. The Company deals into trading of Spare parts. The Company has only one reportable geographical segment.

		Rupees in Lakhs
Geographic information	**As at March 31, 2022**	As at March 31, 2021
Revenue from external customers		
India	**26,674.59**	22,276.45
Outside India	**673.35**	496.47
Total revenue per statement of profit or loss	**27,347.94**	22,772.92

All the non-current assets of the Company are located in India.

Revenue from major products and services

The following is an analysis of the company's revenue from its major products and services:

		Rupees in Lakhs
Particulars	**As at March 31, 2022**	As at March 31, 2021
Sale of spares	27,347.94	22,772.92
Total	27,347.94	22,772.92

Revenues from transactions with a single external customer does not amounts to 10% or more of a Company's revenues during the year.

Since there is single segment there is no difference in measurement of profit & loss and measurement of assets and liabilities.

Note no. 43 - Employee stock option

Certain employees of the Company are covered by Employee Stock Option Scheme (ESOP scheme) offered by holding Company, Mahindra & Mahindra Limited. Under the scheme, eligible employees are granted an option to purchase shares of Mahindra & Mahindra Limited, in accordance with the terms and conditions of the scheme.

The Company recognises this scheme as an equity settled share based payments arrangement in accordance with IND AS 102 - Share Based Payment. Options granted under Parent's ESOP scheme vests in 4/5 instalments on expiry of 12 months, 24 months, 36 months, 48 months and 60 months from the date of grant. The options may be exercised subject to condition of minimum number of option vesting, on specified day over a period of 4/5 years from the date of vesting. Such ESOP expense in respect of employees of the Company is charged by the holding Company over the vesting period. The charge is based on fair value of options calculated using Black and Scholes Option Pricing Model. The fair value charge is recognised as share based payment expenses under Employee Benefit Expenses.

Note no. 44 - Covid -19 Impact on financials

The Company, based on internal & external sources of information including market research, economic forecast and other information, has assessed that as a result of Covid-19 outbreak, there is no significant financial impact on the financial statements for the year ended March 31, 2022 as at the date of approval of these financial statements

INDEPENDENT AUDITORS' REPORT

Based on a report originally issued in Korean

To the Shareholders and Board of Directors of
Ssangyong Motor Company

Disclaimer of Opinion

We were engaged to audit the accompanying consolidated financial statements of Ssangyong Motor Company and its subsidiaries ("the Group"), which comprise the consolidated statements of financial position as of December 31, 2021 and 2020, the consolidated statements of comprehensive income(loss), changes in equity and cash flows for the years then ended, and notes, comprising significant accounting policies and other explanatory information.

We do not express an opinion on the accompanying consolidated financial statements of the Group. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these consolidated financial statements.

Basis for Disclaimer of Opinion

The accompanying consolidated financial statements have been prepared assuming that the Group will continue as a going concern and therefore the Group's assets and liabilities are accounted for on the assumption that they can be recovered or repaid at their carrying amount through the normal course of business activities. As discussed in note 34 to the consolidated financial statements, the Group has incurred operating loss of ₩261,261 million and a net loss of ₩257,944 million during the period ended December 31, 2021. As of that date, the Group's current liabilities exceed its current assets by ₩906,757 million and total equity is (₩80,597) million which is a complete capital erosion.

The Group filed for commencement of corporate rehabilitation procedure with the Seoul Bankruptcy Court ("the court") on December 21, 2020. The court commenced rehabilitation procedures on April 15, 2021 and the Group filed a rehabilitation plan to the court on February 25, 2022. Also, the Group is resuming M&A process before the court approval of rehabilitation plan as a way of repaying the rehabilitation debts early and improving the financial structure of the Group under the Section 241 of Practice Rule of Seoul Bankruptcy Court.

These events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Whether the Group to continue as a going concern or not includes a material uncertainty that depends on whether the court approves the Group's rehabilitation plan and the final result of M&A deal and the final results of the capital reorganization plan and business improvement plan of the Group including the implementation of the rehabilitation plan after the court approval, as discussed in note 34 to the consolidated financial statement. However, we were not able to obtain sufficient appropriate audit evidence that could reasonably estimate any adjustment of assets, liabilities and related profit or loss items including whether assets are impaired and liquidity classification of liabilities, etc. that might be resulted from the outcome of this uncertainty.

Emphasis of matters

We draw attention to the following matters and our opinion is not modified in respect of these matters.

(1) Criteria for delisting met

As stated in note 36, the Group has faced a risk of being delisted from the Korea Stock Exchange, due to the disclaimer of audit opinion on the Group's consolidated financial statements as of and for the year ended December 31, 2020. The Group filed the official objection to the delisting decision on April 13, 2021 and the Korea Stock Exchange granted a grace period for improvement until April 14, 2022 as a result by the review of the Listing and Disclosure Committee on April 15, 2021.

(2) Commencement of the rehabilitation process by the Seoul Bankruptcy Court and M&A deal before court approval of rehabilitation plan

As stated in Note 35, the Group filed for commencement of corporate rehabilitation procedure with the court on December 21, 2020. The court commenced rehabilitation procedures on April 15, 2021. Also, the Group is resuming M&A process before the court approval of rehabilitation plan as a way of repaying the rehabilitation debts early and improving the financial structure of the Group under the Section 241 of Practice Rule of Seoul Bankruptcy Court.

After the end of reporting period, the Group signed an M&A contract on January 10, 2022 and the Group filed a rehabilitation plan to the court on February 25, 2022. However, immediate cancellation of M&A contract occurred on March 25, 2022. The Group will submit revised rehabilitation plan to the court after seeking a new buyer and reselling process.

Other Matter

The procedures and practices utilized in the Republic of Korea to audit such consolidated financial statements may differ from those generally accepted and applied in other countries.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with K-IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our responsibility is to audit the Group's consolidated financial statements and issue an audit's reports in accordance with Korean Standards on Auditing (KSAs). However, because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence that provide a basis for an opinion on the consolidated financial statements.

We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Republic of Korea, and we have fulfilled our ethical responsibilities in accordance with these requirements.

KPMG Samjong Accounting Corp.

Seoul, Korea
March 31, 2022

Notice to Readers

This report is effective as of March 31, 2022, the audit report date. Certain subsequent events or circumstances, which may occur between the audit report date and the time of reading this report, could have a material impact on the consolidated financial statements and notes thereto. Accordingly, the readers of the audit report should understand that the above audit report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

CONSOLIDATED STATEMENTS OF FINANCIAL POSITION AS OF DECEMBER 31, 2021 AND 2020

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2021 AND 2020

1. General Description of The Group

(1) Organization and description of business of The Group

Ssangyong Motor Company (the "Company") was incorporated on December 6, 1962, in the Republic of Korea and listed its stocks on the Korea Stock Exchange in May 1975. The Group is headquartered in Dongsak-ro, Pyeongtaek, and its factories are located in Pyeongtaek, Gyeonggi-do, and Changwon, Gyeongsangnam-do, Republic of Korea to manufacture, sell and fix multiple types of vehicle, heavy machinery and those parts.

(2) Major shareholders

As of December 31, 2021, The Group's shareholders are as follows:

Name of shareholder	Number of shares (in shares)	Percentage of ownership
Mahindra & Mahindra Ltd.	111,855,108	74.65%
Others	37,984,894	25.35%
	149,840,002	100.00%

The consolidated financial statements comprise the Group and its subsidiaries (the "Group") and the Group's interest in associates and joint ventures.

2. Basis of Preparation and Accounting Policies

(1) Basis of translating consolidated financial statements

The consolidated financial statements are expressed in Korean won and have been translated into US dollars at the rate of ₩1,185.50 to $1 on December 31, 2021, solely for the convenience of the reader. These translations should not be construed as a representation that any or all of the amounts shown could be converted into US dollars at this or any other rate.

(2) Statement of compliance

The Group has prepared its consolidated financial statements in accordance with the K-IFRS.

The consolidated financial statements as of and for the year ended December 31, 2021, were reported to the chief restructuring officer and authorized for issuance on March 23, 2022.

Some of amount in consolidated financial position as of December 31, 2020, was reclassified and modified to ensure comparability with the current period.

(1) Measurement Criteria

The accompanying consolidated financial statements have been prepared on the historical cost basis, except as described below. Historical cost is generally based on the fair value of the consideration given.

1. Derivatives instruments measured at fair value
2. Financial instruments measured at fair value through profit or loss
3. Defined benefit liabilities measured at the present value of the defined benefit obligation less the fair value of the plan assets
4. Land measured by the revaluation

2) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The Group makes estimates and assumptions concerning the future. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The significant estimates and assumptions and those which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities after the end of the reporting period are addressed below.

- Property, plant and equipment and Intangible assets: Assumptions for estimating recoverable amount for impairment test
- Provision for warranty for sale: Assumptions of expected expenditures based on warranty periods.
- Employee benefits: Actuarial assumptions.
- Trade and other receivables: Estimation of the possibility of impairment of receivables.
- Inventories: Estimation of the possibility of losses of inventories.
- Going concern assumption: Judgment on whether there is any significant uncertainty of going concern assumption.
- Lease term: the possibility of exercising the extension option.
- Deferred tax: Estimation of the feasibility of deferred tax.

From the year ended December 31, 2020, with the COVID-19 pandemic, entities are experiencing conditions often associated with a general economic downturn, and so does the Group both directly and indirectly. The impact of COVID-19 continues as of the end of the reporting period, and it is unclear how long COVID-19 would last and how much its impact would be. Therefore, uncertainties exist in estimates used to measure recoverable amounts of assets held by the Group due to COVID-19.

3) Changes in accounting policies

1 Revaluation on Lands

After initial recognition, land is recognized at a revalued amount, being its fair value at the date of the revaluation date. Revaluations shall be made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. The effect of the Group's consolidated financial statements is described Note 11.(5).

2 Others

The Group has initially adopted 'Impact of the initial application of Covid-19-Related Rent Concessions beyond June 30, 2021'(K-IFRS No. 1116 Leases) and 'Interest Rate Benchmark Reform (K-IFRS No. 1109 Financial Instruments, K-IFRS No. 1039 Financial Instruments Recognition and Measurement and K-IFRS No. 1107 Financial Instruments Disclosures) from January 1, 2021. A number of other new standards are also effective from January 1, 2021, but they do not have a material effect on the Group's consolidated financial statements.

3. Significant Accounting Policies

The significant accounting policies that we applied to the preparation of the Group's consolidated financial statements in accordance with K-IFRS are described below. Except Note 2.(2).3) Changes in accounting policies, the Group has consistently applied the accounting policies to the Group's consolidated financial statements for the years ended December 31, 2021 and 2020.

(1) New standards and interpretations not yet adopted

As of December 31, 2021, new standards which are amended and effective but not applied for annual periods beginning after 1 January 2021 are the followings. The Group decided not to early adopt the followings in preparation of the consolidated financial statements.

The following amendment standards and interpretation are not expected to have a significant impact on the Group's consolidated financial statements.

- K-IFRS No. 1117 'Insurance Contracts' (Newly adopted)
- K-IFRS No. 1001 'Presentation of Financial Statements' - Classification of Liabilities as Current or Non-current (Amendment)
- K-IFRS No. 1103 'Business Combinations' - Reference to the Conceptual Framework (Amendment)
- K-IFRS No. 1016 'Property, Plant and Equipment' – Proceeds from selling produced before operating in the manner intended by management and related the cost (Amendment)
- K-IFRS No. 1037 'Provisions, Contingent Liabilities and Contingent Assets' - Cost of Fulfilling a Contract (Amendment)

– Annual Improvements to K-IFRS Standards 2018–2020

– K-IFRS No. 1001 'Presentation of Financial Statements' and IFRS Practice Statement 2 the application of 'materiality' (Amendment)

– K-IFRS No. 1008 'Accounting Policies, Changes in Accounting Estimates and Errors' – Definition of accounting estimates (Amendment)

– K-IFRS No. 1012 'Income Taxes' – Deferred tax related to assets and liabilities arising from a single transaction

(2) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Group and the entities (including structured entities) controlled by the Group and its subsidiaries. Control is achieved when the Group 1) has the power over the investee; 2) is exposed, or has rights, to variable returns from its involvement with the investee; and 3) has the ability to use its power to affect its returns. The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

a. the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;

b. potential voting rights held by the Group, other vote holders or other parties;

c. rights arising from other contractual arrangements; and

d. any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statements of comprehensive income from the date the Group gains control to the date when the Group ceases to control the subsidiary. Profit or loss and each component of other comprehensive income are attributed to the owners of the Group and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in-line with the Group's accounting policies.

All inter-company transactions and related assets and liabilities, income and expenses are eliminated in full on consolidation. Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Group.

When the Group loses control of a subsidiary, a gain or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill) and liabilities of the subsidiary and any non-controlling interests. When assets of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognized in other comprehensive income and accumulated in equity, the amounts previously recognized in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the relevant assets (i.e., reclassified to profit or loss or transferred directly to retained earnings). The fair value of any investment retained in the former subsidiary at the date when control is lost is recognized as the fair value on initial recognition for subsequent accounting under K-IFRS No. 1039, Financial Instruments: Recognition and Measurement, or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

(3) Investments in joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement, whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment is classified as held for sale; in which case, it is accounted for in accordance with K-IFRS No. 1105, Non-Current Assets Held for Sale and Discontinued Operations. Under the equity method, an investment in an associate or a joint venture is initially recognized in the consolidated statements of financial position at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of an associate or a joint venture recognized at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss.

Upon disposal of an associate or a joint venture that results in the Group losing significant influence over that associate or joint venture, any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset in accordance with K-IFRS No. 1109. The difference between the previous carrying amount of the associate or joint venture attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognized in other comprehensive income in relation to that associate or joint venture on the same basis it would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognized in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as reclassification adjustment) when it loses significant influence over that associate or joint venture.

When the Group reduces its ownership interest in an associate or a joint venture, but continues to use the equity method, it reclassifies to profit or loss the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities. In addition, the Group applies K-IFRS No. 1105, Non-Current Assets Held for Sale and Discontinued Operations, to a portion of investment in an associate or a joint venture that meets the criteria to be classified as held for sale.

The requirements of K-IFRS No. 1109 are applied to determine whether it is necessary to recognize any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with K-IFRS No. 1036, Impairment of Assets, by comparing its recoverable amount (higher of value in use or fair value, less costs to sell) with its carrying amount, and any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized in accordance with K-IFRS No. 1036 to the extent that the recoverable amount of the investment subsequently increases.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no re-measurement to fair value upon such changes in ownership interests.

When a Group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognized in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

(4) Revenue recognition

The Group have identified distinct performance obligations for our products and merchandise contract with our customers, such as (1) sales of vehicles and merchandise, (2) transportation of vehicles, and (3) warranties. The revenue from the sale of goods under the contract is recognized when the goods are transferred to the customer and the performance obligation is transferred. In addition, the Group identified performance obligations for transportation and guarantee and deferred recognition of revenue over the time or period of performance.

Our sales contract with customers has the option of customers purchasing additional warranties. Also, depending on the sales policy, customers may be offered service warranty beyond the assurance warranty when selling a vehicle. When a customer purchases a warranty or provides a service warranty to a customer under a sales policy, sales recognition related to the performance obligations is deferred to the time the performance obligation is fulfilled and is not recognized in provision of warranties.

Transaction price of a service warranty to a customer under a sales policy is allocated by relative individual sales price that is estimated by "expected cost plus a margin approach". The consideration paid to customers defined in K-IFRS No. 1115 are recognized by deducting from related sales.

(5) Foreign currencies

The individual financial statements of each Group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each Group entity are expressed in Korean won, which is the functional currency of the entity and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

(6) Non-derivative financial assets

1) Recognition and initial measurement

Trade receivables and debt securities are recognized for the first time at the time of issue. Other financial instruments and financial liabilities are recognized only when the Group becomes a party to the financial instrument.

Except for trade receivables that do not include significant financial assets, are measured at fair value at the time of initial recognition and except for, financial assets at fair value through profit or loss or financial liabilities at fair value through profit or loss, transaction costs directly related to the acquisition of the financial asset, or the issuance of the financial liability are added to or subtracted from the fair value. Trade receivables that do not include significant financial elements are initially measured at transaction prices.

2) Classification and subsequent measurements

At initial recognition, financial assets are amortized cost, other comprehensive income - fair value debt instruments, other comprehensive income - fair value equity instruments or profit or loss - classified as measured at fair value.

Financial assets are not reclassified after initial recognition, unless the entity modifies the financial asset management model, in which case all of the financial assets impacted are reclassified on the first day of the first reporting period after the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

An assessment of whether contractual cash flows consist solely of principal and interest

The principal is defined as the fair value at the initial recognition of the financial asset. Interest consists of consideration for the time value of money, consideration for credit risk associated with the principal balance in a particular time period, as well as consideration for basic loan risk and costs (e.g., liquidity risk and operating costs) as well as profit.

When evaluating whether the contractual cash flows consist solely of payments for principal and interest, we take into account the terms and conditions of the applicable product. If a financial asset includes a contractual term that changes the timing or amount of a contractual cash flow, then the contractual terms must determine whether the contractual cash flows that may occur over the life of the financial instrument consist solely of principal payments.

When evaluating this, we consider the following:

- Conditional conditions that change the amount or timing of cash flow
- Provision to adjust contractual nominal interest rate, including variable interest rate characteristics
- Moderate repayment characteristics and maturity extension characteristics
- The terms of the contract that limit our claims for cash flows arising from a particular asset (e.g. non-property features)

A prepayment feature is consistent with solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Subsequent measurement and profit and loss

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

3) Elimination

In the event that the contractual rights to cash flows of financial assets have ceased, the Group transfers the contractual rights to receive the cash flows of the financial assets and substantially transfers the risks and rewards of ownership of the transferred financial assets. Or if the Group does not control or control the financial assets without retaining or transferring substantially all the risks and rewards of ownership.

If the Group transacts a recognized asset in its statement of financial position but holds most of the risks and rewards of ownership of the transferred asset, the transferred asset is not removed.

4) Offsetting

Financial assets and financial liabilities are offset, and the net amount presented in the statement of financial position when the Group currently has a legally enforceable right to set off the recognized amounts and there is the intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

(7) Impairment of financial assets

1) Financial instruments and contract assets

The Group recognize a loss reserve for expected credit losses on the following assets:

- Financial assets measured at amortized cost
- Debt instruments measured at fair value- Other comprehensive income
- Contractual assets as defined in K-IFRS No. 1115

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured as 12-month ECLs:

- Debt securities that are determined to have low credit risk at the reporting date; and
- Other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

The Group has elected to measure loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs. When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group assumes that the credit risk of financial assets increases significantly when the number of overdue days exceeds 30 days.

The Group considers a financial asset to be in default when:

- The borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realizing security (if any is held)
- When the number of overdue days exceeds 90 days unless there is no evidence that borrower is not a default

Total expected credit losses are the expected credit losses due to any default event that may occur during the expected life of the instrument. The expected 12-month credit loss is the total expected period that represents the expected credit loss due to a default event of a financial instrument that can occur within 12 months after the end of the reporting period (or a shorter period if the expected life of the instrument is less than 12 months) Part of credit loss.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

2) Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e., the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

3) Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The evidence that the credit of a financial asset is impaired includes the following observable information.

- Significant financial difficulty of the debtor
- A breach of contract such as a default or being more than 90 days past due
- The restructuring of a loan or advance by the Group on terms that The Group would not consider otherwise
- It is probable that the debtor will enter bankruptcy or other financial reorganization, or
- The disappearance of an active market for a security because of financial difficulties

4) Presentation of allowance for credit loss on statement of financial position

The allowance for losses on financial assets at amortized cost is deducted from the carrying amount of the asset. For debt instruments measured at FVOCI, changes in credit risk are included in profit or loss and changes in non-credit risk are recognized in other comprehensive income.

5) Write-Off

If there is no reasonable expectation of recovery of all or part of the contractual cash flows of a financial asset, the asset is removed. For individual customers, the Group assesses the timing and amount of each individual by assessing whether there is a reasonable expectation of recovery for the enterprise customer, based on historical experience with the recovery of similar assets. The Group has no expectation that the proceeds will be recovered significantly. However, deferred financial assets can be subject to collection activities in accordance with the collection procedure of the amount due.

(8) Financial liabilities and Paid-in capital

1) Paid-in capital

Common stock is classified as equity. Incremental costs directly related to capital transactions are deducted from equity as a net amount reflecting the tax effect.

Repurchase of the Group's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

2) Financial liabilities

The Group classifies financial liabilities as financial liabilities at fair value through profit or loss and other financial liabilities in accordance with the definition of the substance of contractual contracts and financial liabilities and recognizes them in the consolidated statement of financial position when becoming a party to the contract.

1) Financial liabilities at fair value through profit or loss

Financial liabilities are classified as held for trading if they are classified as held for trading, are derivatives, or are initially recognized at fair value through profit or loss. Financial liabilities at fair value through profit or loss are measured at fair value after initial recognition and changes in fair value are recognized in profit or loss. Transaction costs incurred in connection with the initial recognition are recognized in profit or loss as incurred.

2) Other financial liabilities

Non-derivative financial liabilities that are not classified as financial liabilities at fair value through profit or loss are classified as other financial liabilities. Other financial liabilities are measured initially at fair value, net of transaction costs directly attributable to the issue. Subsequently, other financial liabilities are measured at amortized cost using the effective interest method. Interest expense is recognized using the effective interest method.

3) Elimination of financial liabilities

Group only eliminates financial liabilities when the contractual obligation of the financial liability is fulfilled, cancelled or expired. The Group recognizes new financial liabilities as fair value based on new contracts and removes existing liabilities when the contractual terms of the financial liabilities change, and the cash flows change substantially. When a financial liability is derecognized, the difference between the carrying amount and the consideration paid (including any transferred non-cash assets or liabilities assumed) is recognized in profit or loss.

(9) Derivative financial instruments

Derivatives are initially recognized at fair value at the date the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. Generally, The resulting gain or loss is recognized in profit or loss immediately.

(10) Inventories

Inventories are stated at the lower of cost or net realizable value. Cost of inventories, except for those in transit, are measured under the weighted-average method and consists of the purchase price, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realizable value represents the estimated selling price for inventories, less all estimated costs of completion and costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognized as an expense (cost of sales) in the period in which the related revenue is recognized. The amount of any write-down of inventories to net realizable value and all losses of inventories is recognized as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realizable value, is recognized as a reduction in the amount of inventories recognized as an expense in the period in which the reversal occurs.

(11) Property, plant and equipment

Except for land, Property, plant and equipment are stated at cost, less subsequent accumulated depreciation and accumulated impairment losses. The cost of an item of property, plant and equipment is directly attributable to their purchase or construction, which includes any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. It also includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent costs are recognized in the carrying amount of an asset or as a consolidated asset if it is probable that future economic benefits associated with the assets will flow into the Group and the cost of an asset can be measured reliably. Routine maintenance and repairs are expensed as incurred.

The Group does not depreciate land. Depreciation expense is computed using the straight-line method based on the estimated useful lives of the assets as follows:

	Useful lives (Years)
Buildings	24~50
Structures	13~30
Machinery and equipment	10
Vehicles	6~10
Others	6~10

If each part of an item of property, plant and equipment has a cost that is significant in relation to the total cost of the item, it is depreciated separately.

The Group reviews the depreciation method, the estimated useful lives and residual values of property, plant and equipment at the end of each annual reporting period. If expectations differ from previous estimates, the changes are accounted for as a change in an accounting estimate.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on de-recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

(12) Intangible assets

1) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost, less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost, less accumulated impairment losses.

2) Internally generated intangible assets - research and development expenditure

Expenditure on research activities is recognized as an expense in the period in which it is incurred.

Expenditure arising from development (or from the development phase of an internal project) is recognized as an intangible asset if, and only if, the development project is designed to produce new or substantially improved products, and the Group can demonstrate the technical and economic feasibility and measure reliably the resources attributable to the intangible asset during its development.

The amount initially recognized for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria. Where no internally generated intangible asset can be recognized, development expenditure is recognized in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally generated intangible assets are reported at cost, less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

The useful life of amortization related to intangible assets is as follows.

	Useful lives (Years)
Development cost	5
Patents	5~10
Software	3
Other intangible assets	Indefinite

3) Derecognition of intangible assets

An intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

(13) Impairment of Non-financial assets

The carrying amounts of the Group's non-financial assets other than assets arising from biological assets, investment property, contract assets, employee benefits, inventories and deferred tax assets are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Intangible assets that have indefinite useful lives irrespective of whether there is any indication of impairment, Good will and intangible assets not yet available are tested for impairment annually by comparing their recoverable amount to their carrying amount.

The Group estimates the recoverable amount of an individual asset, if it is impossible to measure the individual recoverable amount of an asset, then the Group estimates the recoverable amount of cash-generating unit ("CGU"). A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell.

The value in use is estimated by applying a pre-tax discount rate that reflect current market assessments of the time value of money and the risks specific to the asset or CGU for which estimated future cash flows have not been adjusted, to the estimated future cash flows expected to be generated by the asset or CGU.

An impairment loss is recognized in profit or loss if the carrying amount of an asset or a CGU exceeds its recoverable amount.

Goodwill acquired in a business combination is distributed to each CGU that is expected to benefit from the synergy effect of the business combination. An impairment loss on a CGU reduces the carrying amount of goodwill allocated to the CGU first and then the carrying amount of the asset relative to the carrying amount of each of the other assets in the CGU. Impairment losses recognized for goodwill cannot be reversed in subsequent periods. At the end of each reporting period, review for indicators of a previously recognized impairment loss no longer exists or has decreased for assets other than goodwill and only if there has been a change in estimates used to determine recoverable amounts since the previous impairment was recognized. The carrying amount increased by the reversal of impairment losses shall not exceed the balance after depreciation or amortization of the carrying amount before recognition of the impairment loss in the past.

(14) Retirement benefit costs and termination benefits

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the consolidated statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are composed of service cost (including current service cost and past service cost, as well as gains and losses on curtailments and settlements), net interest expense (income) and remeasurement.

The Group presents the service cost and net interest expense (income) components in profit or loss and the remeasurement component in other comprehensive income. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognized in the consolidated statement of financial position represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of the termination benefit or when the entity recognizes any related restructuring costs.

Discretionary contributions made by employees, or third parties reduce service cost upon payment of these contributions to the plan. When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

If the contributions are not linked to services (e.g., contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset).

If contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the entity reduces service cost by attributing the contributions to periods of service using the attribution method required by K-IFRS No. 1019 paragraph 70 for the gross benefits. For the amount of contribution that is independent of the number of years of service, the entity reduces service cost in the period in which the related service is rendered.

Other long-term employee benefits that will not be paid within 12 months from the end of the reporting period in which the employee provides the relevant service are discounted to the present value of future benefits earned in return for the service provided in the current and past periods. Changes resulting from remeasurements are recognized in profit or loss in the period in which they occur.

(15) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, if it is probable that the Group will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material). The discount rate used is a pretax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage is recognized in profit or loss as borrowing cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

At the end of each reporting period, the remaining provision balance is reviewed and assessed to determine if the current best estimate is being recognized. If the existence of an obligation to transfer economic benefit is no longer probable, the related provision is reversed during the period.

(16) Lease

A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

1) As a lessor

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices.

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this in the case, then the lease is a finance lease; if not, then it is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for a major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption, then it classifies the sub-lease as an operating lease.

2) As a lessee

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to consolidated non-lease components and account for the lease and non-lease components as a single lease component. The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discounted rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise and extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use assets or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases of machinery that have a lease term of 12 months or less and lease of low-value assets, including IT equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(17) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets is substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings, pending their expenditure on qualifying assets, is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

(18) Government grants

Government grants are not recognized until there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants will be received.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

Government grants related to assets are presented in the consolidated statement of financial position by deducting the grant from the carrying amount of the asset. The related grant is recognized in profit or loss over the life of a depreciable asset as a reduced depreciation expense.

Government grants related to income are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes as expenses the related costs for which the grants are intended to compensate. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognized in profit or loss in the period in which they become receivable.

(19) Finance income and expenses

Finance income comprises interest income on funds invested. Interest income is recognized as it accrues in profit or loss, using the effective interest method.

Finance expenses comprise interest expenses on borrowings. Interest expense is recognized as it accrues in profit or loss, using the effective interest method.

(20) Earnings per share

The Group presents basic and diluted earnings per share(EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholdings of the Group by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. The Group has no dilutive potential shares, therefore diluted loss per share is equal to the basic earnings(loss) per share.

(21) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent it is probable that there will be sufficient taxable profits against which the benefits of the temporary differences can be utilized, and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if, and only if, the Group has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities that intend either to settle current tax liabilities and assets on a net basis or to realize the assets and settle the liabilities simultaneously in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3) Current and deferred taxes for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case the current and deferred taxes are also recognized in other comprehensive income or directly in equity, respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

(22) Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of K-IFRS No. 1102 Share-based payment; leasing transactions that are within the scope of K-IFRS No. 1116 Leases; and measurements that have some similarities to fair value, but are not fair value, such as net realizable value in K-IFRS No. 1002 Inventories or value in use in K-IFRS No. 1036 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

a. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

b. Level 2 inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

c. Level 3 inputs are unobservable inputs for the asset or liability.

(23) Segment information

Segment information is presented in the same format as the reporting material presented to the Group's management. The Group's management is liable for the assessment of the resources to be allocated to the business segments and the performance results of the business segments.

(24) Accounting treatment related to the Emission Rights Cap and Trade Scheme

The Group classifies the emission rights as intangible assets. Emission right allowances the government allocated free of charge are measured at ₩0, and emission right allowances purchased are measured at cost that the Group paid to purchase the allowances. If emission rights that the government allocated free of charge are sufficient to meet the obligation's arising from the emission liabilities for the current period, the emissions liabilities are measured at ₩0. However, for the emission liabilities that exceed the allowances allocated free of charge, the shortfall is measured at best estimate at the end of the reporting period.

4. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and in banks and highly liquid short-term financial instruments that may be easily converted into cash and whose risk of value fluctuation is not material.

5. Restricted Financial Instruments

Restricted financial Instruments as of December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

			Korean won			US dollar		
	Financial institution		**2021**	2020		**2021**	2020	**Description**
Cash and cash equivalents	Shinhan Bank	₩	**171,226**	36,488	$	**144**	31	Government grants
	Woori Bank and others		**10,303**	8,121,902		**9**	6,851	Pledged as collateral, etc.
Current financial instruments	Woori Bank and others		**21,275,651**	–		**17,947**	–	Pledged as collateral, etc.
Non-current financial instruments	Shinhan Bank and others		**4,000**	4,000		**3**	3	Bank account deposit
		₩	**21,461,180**	8,162,390	$	**18,103**	6,885	

6. Non-current Financial Assets

Non-current financial assets as of December 31, 2021 and 2020 are as follows:

(In thousands of won)

			2021			2020
	Ownership (%)		Acquisition cost	Net asset value	Book value	Book value
Korea Business Finance Loan(*)	**1.72**	₩	**500,000**	**752,827**	**500,000**	500,000
Korea Management Consultants Association(*)	**1.50**		**60,000**	**1,038,861**	**60,000**	60,000
		₩	**560,000**	**1,791,688**	**560,000**	560,000

(In thousands of dollar)

			2021			2020
	Ownership (%)		Acquisition cost	Net asset value	Book value	Book value
Korea Business Finance Loan(*)	**1.72**	$	**422**	**635**	**422**	422
Korea Management Consultants Association(*)	**1.50**		**50**	**876**	**50**	50
		$	**472**	**1,511**	**472**	472

(*) Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at acquisition cost.

7. Trade and Other Receivables

(1) Details of trade and other receivables as of December 31, 2021 and 2020 are as follows:

(In thousands of won)

		2021		2020	
		Current	Non-current	Current	Non-current
Trade receivables	₩	**108,910,624**	**–**	100,646,367	–

Removal		**–**	**–**	–	(12)
Ending balance	$	**368**	**3,819**	78	3,168

8. Inventories

Details of inventories as of December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
		2021	2020		**2021**	2020
Merchandises	₩	**40,739,820**	39,416,800	$	**34,366**	33,249
Finished goods		**30,820,366**	71,539,083		**25,998**	60,345
Work-in-process		**22,449,034**	23,460,664		**18,936**	19,790
Raw materials		**37,651,217**	31,948,093		**31,760**	26,949
Sub-materials		**512,165**	397,082		**432**	335
Supplies		**3,363,625**	3,253,034		**2,837**	2,744
Goods in transit		**20,200,127**	22,350,539		**17,039**	18,853
	₩	**155,736,354**	192,365,295	$	**131,368**	162,265

The Group has measured inventories at the lower of cost or net realizable value. The reversal of loss on valuation of inventories amounted to ₩ 7,071,887 thousand ($5,965 thousand) for the years ended December 31, 2021 and the loss on valuation of inventories amounted to ₩ 4,035,760 thousand ($3,404 thousand) for the years ended December 31, 2020.

9. Investments in Subsidiaries and a Joint venture

(1) Details of investment in subsidiaries and a joint venture as of December 31, 2021 are as follows:

(In thousands of won)

	Company	Location	Ownership	Closing month	Industry
Subsidiaries	Ssangyong Motor (Shanghai) Co., Ltd.(*1)	China	100%	December	Sales of automobile
	Ssangyong European Parts Center B.V.	Netherlands	100%	December	A/S and sales
	Ssangyong Australia Pty Ltd.	Australia	100%	December	Sales of automobile
Joint venture	SY Auto Capital Co., Ltd.(*2)	Korea	51%	December	Finance

(*1) The Group sold the whole shares of Ssangyong Motor(Shanghai) Co., Ltd for the year ended December 31, 2021 and was excluded from subsidiaries.

(*2) SY Auto Capital Co., Ltd was established under joint venture agreement as a joint venture since the Group has rights only to the net assets, and their legal structures of arrangements are consolidated.

(2) Changes in the carrying amounts of investments in a joint venture for the year ended December 31, 2021 are as follows:

(In thousands of won)

		2021			
		Beginning balance	**Share of profit of a joint venture**	**Changes in defined benefit plan re-measurements**	**Ending balance**
SY Auto Capital Co., Ltd.	₩	21,055,695	930,540	53,089	22,039,324

(In thousands of US dollar)

		2021			
		Beginning balance	**Share of profit of a joint venture**	**Changes in defined benefit plan re-measurements**	**Ending balance**
SY Auto Capital Co., Ltd.	$	17,761	785	45	18,591

(3) Summarized financial information of the Group's subsidiaries and joint venture as of and for the year ended December 31, 2021 and 2020 are as follows:

(In thousands of won)

		2021				
		Assets	**Liabilities**	**Equity**	**Sales**	**Net income**

(*1) The amounts of ₩ 278,800 million increased as a result of a revaluation on lands and recognized as revaluation surplus(other equity) for the year ended December 31, 2021.

(*2) Others were the amounts of ₩ 675,041 thousand from capitalized borrowing costs and the amounts of ₩ 730,187 thousand replaced from inventories to vehicles for the year ended December 31, 2021.

(*3) As of December 31, 2021, the Group is in progress of commencement for corporate rehabilitation procedure under the Debtor Rehabilitation and Bankruptcy Act of Republic of Korea and judged that there is an indication of impairment to the cash-generating unit due to continuous deterioration of competitiveness and the deterioration of the market due to the spread of COVID-19. Accordingly, the Group conducted an impairment assessment on the cash-generating unit, but the Group do not recognize any impairment loss for property, plant and equipment for the year ended December 31, 2021. The recoverable amount of the cash-generating unit in the impairment assessment was determined on the basis of its fair value less costs to sell(M&A contract price), but there is a material uncertainty in the cash flow of the M&A process. The ultimate impact of this uncertainty may differ from the amount of impairment losses the Group recognized.

(*1) ₩ 76,699 million of land, buildings, and structures located in Guro-dong, Guro-gu, Seoul, and Gamjeon-dong, Sasang-gu, Busan was sold (disposal amount: ₩ 206,250 million), recognizing the related disposal gain of ₩ 115,251 million. Meanwhile, a sales and lease back agreement were signed regarding the disposal of land, buildings and structures in Guro-dong, Guro-gu, Seoul (Notes 13).

(*2) The Group judged that there is an indication of impairment to the cash-generating unit due to continuous deterioration of competitiveness and the deterioration of the market due to the spread of COVID-19. Accordingly, the Group conducted an impairment assessment on the cash-generating unit and recognized impairment loss at ₩ 47,170 million for property, plant and equipment for the period ended March 31, 2020. The recoverable amount of the cash flow generating unit in the impairment assessment was determined on the basis of its fair value less costs to sell. Meanwhile, the Group performed an impairment assessment by calculating the value in use for the year ended December 31, 2020, but there is a material uncertainty in the cash flow of the business plan used to calculate the value in use. The ultimate impact of this uncertainty may differ from the amount of impairment losses the Group recognized.

(*3) The Group recognized ₩ 1,082 million in property, plant and equipment as impairment losses for the year ended December 31, 2020 due to the discontinuation of some development projects.

(*4) Capitalized borrowing costs in respect of construction in progress is ₩ 607,927 thousand and ₩ 160,675 thousand was transferred from inventory to vehicles during the year ended December 31, 2020. Meanwhile, the government grants of ₩ 54,838 thousand is adjusted in others.

(*1) $65 million of land, buildings, and structures located in Guro-dong, Guro-gu, Seoul, and Gamjeon-dong, Sasang-gu, Busan was sold (disposal amount: $174 million), recognizing the related disposal gain of $97 million. Meanwhile, a sales and lease back agreement was signed regarding the disposal of land, buildings and structures in Guro-dong, Guro-gu, Seoul (Notes 13).

(*2) The Group judged that there is an indication of impairment to the cash-generating unit due to continuous deterioration of competitiveness and the deterioration of the market due to the spread of COVID-19. Accordingly, the Group conducted an impairment assessment on the cash-generating unit and recognized impairment loss at $40 million for property, plant and equipment for the period ended March 31, 2020. The recoverable amount of the cash flow generating unit in the impairment assessment was determined on the basis of its fair value less costs to sell. Meanwhile, the Group performed an impairment assessment by calculating the value in use for the year ended December 31, 2020, but there is a material uncertainty in the cash flow of the business plan used to calculate the value in use. The ultimate impact of this uncertainty may differ from the amount of impairment losses the Group recognized.

(*3) The Group recognized $1 million in property, plant and equipment as impairment losses for the year ended December 31, 2020 due to the discontinuation of some development projects.

(*4) Capitalized borrowing costs in respect of construction in progress is $513 thousand and $136 thousand was transferred from inventory to vehicles during the year ended December 31, 2020. Meanwhile, the government grants of $46 thousand is adjusted in others.

(3) Details of pledged assets provided as collateral for the borrowings as of December 31, 2021 are as follows:

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
		Book value	**Collateralized amount(*)**		**Book value**	**Collateralized amount(*)**
Land	₩	**656,826,641**		$	**554,050**	
Buildings and structures		**101,065,390**	**483,890,112**		**85,251**	**408,174**
Machinery and others		**8,032**			**7**	
	₩	**757,900,063**	**483,890,112**	$	**639,308**	**408,174**

(*) ₩ 135,890,112 thousand ($114,627 thousand) was included due to the Group's provision of tax collateral related to the extension of the special consumption tax and VAT payment deadline for the year ended December 31, 2021.

(4) Capitalized borrowing costs and capitalization interest rate for the years ended December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
		2021	2020		**2021**	2020
Capitalized interest expenses(*)	₩	**1,818,829**	3,179,542	$	**1,534**	2,682
Capitalization interest rate		**2.44%**	2.95%		**2.44%**	2.95%

(*) The borrowing costs capitalized as intangible assets were ₩1,143,788 thousand ($965 thousand) and ₩2,571,615 thousand ($2,169 thousand) for the years ended December 31, 2021 and 2020, respectively.

(5) Revaluation on Lands

The Group has changed the accounting policy of the subsequent measurement of land classified as property, plant and equipment from the cost model to the revaluation model for the year ended December 31, 2021. The lands were revalued by using appraisal results which conducted by independent and expertise appraisal institution, Dae-il Appraisal Board, as of March 31, 2021. The appraisal board valued land price based on the publicly assessed land price with adjustments and reviewed reasonableness of revaluation amount by comparing appraisal results with the estimated price based on recent market transactions among the independent third parties. After deducting income tax effects, the revaluation income of ₩ 223,495 million ($189 million) was recognized as other comprehensive income as a result of a revaluation on lands for the year ended December 31, 2021.

Details of book amounts of lands both the revaluation model and the cost model as of December 31, 2021 are as follows:

(In thousands of won and in thousands of US dollar)

		Korean won			US dollar	
		Revaluation Model	**Cost Model**		**Revaluation Model**	**Cost Model**
Lands	₩	**706,978,971**	428,178,614	$	**596,355**	361,180

12. Intangible Assets

(1) Details of intangible assets as of December 31, 2021 and 2020 are as follows:

(In thousands of won)

(*1) As of December 31, 2021, the Group is in progress of commencement for corporate rehabilitation procedure under the Debtor Rehabilitation and Bankruptcy Act of Republic of Korea and judged that there is an indication of impairment to the cash-generating unit due to continuous deterioration of competitiveness and the deterioration of the market due to the spread of COVID-19. Accordingly, the Group conducted an impairment assessment on the cash-generating unit, but the Group do not recognize impairment loss for intangible assets for the year ended December 31, 2021. The recoverable amount of the cash-generating unit in the impairment assessment was determined on the basis of its fair value less costs to sell(M&A price), but there is a material uncertainty in the cash flow of the M&A process. The ultimate impact of this uncertainty may differ from the amount of impairment losses The Group recognized.

(*2) Capitalized borrowing costs in respect of other intangible assets is ₩ 1,143,788 thousand for the year ended December 31, 2021 and including exchange rate effect.

(In thousands of won)

(5) Sales and lease back

The Group liquidated the land and buildings of the factory in Guro-dong, Guro-gu, Seoul to enhance asset efficiency and financial stability for the year ended December 31, 2020. The main terms of sales and lease back transactions are as the following:

	Main terms
Type	Sales and lease back
Counterparty	PIA Guro-station PFV Co., ltd.
Transaction amount	₩180 Billion ($152 Million)
Underlying assets	Factory land and building in Guro-dong, Guro-gu, Seoul
Lease term	2 years(July 2020 ~ June 2022)
Extension option(*)	It is possible to extend the lease term up to a year (one time only) prior to 4 months by agreement between the parties.
Lessee's preemption preference	If the lessor intends to sell the lease object to a third party before the expiration of the lease term, the lessee may exercise the right to preferentially purchase the lease object (preemption preference).

(*) The lease was extended for 1 year by exercising the extension option after reporting period.

The details of the Group's recognition for the year ended December 31, 2020 due to sales and lease back transactions are as the following:

- Right-of-use asset: ₩7,300 million ($6 million) increased.
- Property, plant and equipment: ₩60,834 million ($51 million) decreased.
- Gains on disposal of PPE: ₩104,866 million ($88 million) increased.
- Lease deposit: ₩10,800 million ($9 million) increased.

14. Borrowings

(1) Details of short-term borrowings as of December 31, 2021 and 2020 are as follows:

Benefit paid by plan	(28)	28	–
Benefit paid directly	(7,430)	–	(7,430)
Ending balance	$ 323,334	(787)	322,547

(3) The components of plan assets as of December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

	Korean won		US dollar	
	2021	2020	**2021**	2020
Insurance contracts	₩ **839,832**	933,028	$ **708**	787

(4) Actuarial assumptions used related to plans as of December 31, 2021 and 2020 are as follows:

	2021	2020
Discount rate (%)	**2.80**	2.40
Rate of future salary growth (%)	**2.97**	3.97

The discount rate is the market yield at the end of the reporting year on high quality corporate bonds (AA+) that have maturity which approximates the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid. The discount rate for the calculation of the present value of defined benefit obligations is also used as expected return on plan assets.

Weighted average duration of defined benefit obligation as of December 31, 2021 and 2020 are 9.4 years and 10.5 years, respectively.

(5) The sensitivity of the defined benefit obligations to key assumptions as of December 31, 2021 is as follows:

(In thousands of won and in thousands of dollar)

	Korean won		US dollar	
	1% increase	**1% decrease**	**1% increase**	**1% decrease**
Discount rate	₩ **(29,968,389)**	33,485,336	$ **(25,279)**	28,246
Future salary growth	**32,797,523**	(29,835,582)	**27,666**	(25,167)

There is a correlation between actuarial assumptions, the above sensitivity analysis will not represent actual changes in defined benefit obligations because the assumptions will not change independently.

In the sensitivity analysis, the present value of the defined benefit obligation was measured using the predictive unit accumulation method applied to measure the defined benefit obligation in consolidated financial statements.

(6) Details of other long-term employee benefits liabilities as of December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
		2021	2020		**2021**	2020
Current	₩	**–**	1,985,709	$	**–**	1,675
Non-current		**14,687,238**	14,587,395		**12,389**	12,305
	₩	**14,687,238**	16,573,104	$	**12,389**	13,980

Since the other long-term employee benefits was suspended until June 2023 by collective agreement between labor and management, other employee benefits liabilities were reclassified as non-current liabilities as of December 31, 2021.

(7) Details of adjustment of other employee benefits liabilities as of December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
		2021	2020		**2021**	2020
Beginning balance	₩	**16,573,104**	16,253,294	$	**13,980**	13,710
Current service cost		**851,457**	868,262		**718**	732
Interest expense		**261,582**	288,298		**221**	243
Actuarial gains and losses		**(2,998,905)**	(743,720)		**(2,530)**	(627)
Benefit paid directly		**–**	(93,030)		**–**	(78)
Ending balance	₩	**14,687,238**	16,573,104	$	**12,389**	13,980

(8) Actuarial assumptions used related to other long-term employee benefits liabilities as of December 31, 2021 and 2020 are as follows:

		2021	2020
Discount rate (%)		2.40	1.70
Increase rate of gold price (%)		2.00	2.00
Increase rate of travel expense and plaque (%)		0.00	0.00
Gold price(1-don)	₩	260,869	272,429

		2021	2020
Discount rate (%)		2.40	1.70
Increase rate of gold price (%)		2.00	2.00
Increase rate of travel expense and plaque (%)		0.00	0.00
Gold price(1-don)	$	220	230

The Group applies the high-quality corporate bonds rate(AA+) consistent with the currency and expected payment period as a discount rate for calculating the present value of other long-term employee benefit liabilities.

Weighted average duration of other long-term employee benefit liabilities as of December 31, 2021 and 2020 are 4.7 years and 5.2 years, respectively.

19. Commitments and Contingencies

Details of commitments and contingencies as of December 31, 2021 are as follows:

(1) The Group carries product liability insurance for all products that it sells.

(2) As of December 31, 2021, the Group has agreements with Korea Development Bank and others for various borrowings, trading finance and others with limit of ₩354,998 million ($299 million). With regard to the overdraft from BNP Paribas, the conditions for these loans stipulate that the largest shareholder of the Group, Mahindra & Mahindra's stake in the Group must exceeds 51%.

(3) As of December 31, 2021, 4 claims as a plaintiff were filed with the claim amount of ₩3,417 million ($3 million) and 9 claims as a defendant were filed with the claims of ₩1,548 million ($1 million). The provision amounting to ₩7,888 million ($7 million) is recognized as other payable for the foregoing lawsuits and claims, since the amounts for potential loss can be estimated and management expect that it is probable that the Group will be required to incur an outflow.

(4) Details of other provisions as of December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
		2021	2020		**2021**	2020
Beginning balance	₩	**124,578,526**	27,238,937	$	**105,085**	22,977
Increase		**519,292,953**	141,957,483		**438,037**	119,745
Decrease		**(564,005,631)**	(44,617,894)		**(475,753)**	(37,636)
Ending balance	₩	**79,865,848**	**124,578,526**	$	**67,369**	**105,086**

(*) In relation to CO2 emission regulations in Korea/EU(the Act on Allocation and Trading of Greenhouse Gas Emission), the Group estimates the expenses based on shortage of fuel efficiency comparing to the standard fuel efficiency and emission quantity in excess of free-allocated emission quantity. The Group has recognized a provision of CO2 emission regulations of ₩44,439,537 thousand ($37,485 thousand) and ₩68,422,537 thousand ($57,716 thousand) as of December 31, 2021 and 2020, respectively. In addition, the Group recognized expected costs as other provisions with regard to foregoing lawsuits and sales incentive, etc.

(5) As of December 21, 2020, the Group filed for commencement of rehabilitation procedure and received a disposition of property preservation and an order of comprehensive prohibition from the courts.

(6) Details of payment guarantee provided by others as of December 31, 2021 are as follows:

(In thousands of won and in thousands of dollar)

			Guarantee amount		
Finance Institution	**Guarantee details**		**Korean won**		**US dollar**
Seoul guarantee insurance company	Performance guarantee payment	₩	**3,544,144**	$	2,990

Total deferred tax assets(liabilities)	₩	–	–	–	–

The Group recognize all deferred tax liabilities for taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized, deficits carried over on tax and tax credit carry-forwards from expected future taxable income. Deferred tax assets arising from deductible temporary differences are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future and deferred tax assets and liabilities are offset.

In circumstances where material uncertainty on the judgement to determine whether it's probable that the temporary difference will not reverse in the foreseeable future, a significant uncertainty depends on the future result of M&A deal. The deferred tax liabilities recognized by the Group may differ from the outcome of this uncertainty.

Foreign exchange translation loss		**-**	2,299		**-**	2
	₩	**16,585,505**	17,729,535	$	**13,990**	14,955

(3) Details of the Group's financial net profit or loss for the years ended December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
		2021	2020		**2021**	2020
Financial assets/ liabilities at amortized cost	₩	**(12,106,200)**	(13,949,915)	$	**(10,212)**	(11,767)
Financial assets at FVTPL		**11,000**	11,000		**9**	9
	₩	**(12,095,200)**	(13,938,915)	$	**(10,203)**	(11,758)

29. Losses per Share

(1) Basic losses per share for the years ended December 31, 2021 and 2020 are calculated as follows:

(In thousands of won and in thousands of dollar, except per share information)

		Korean won			US dollar	
		2021	2020		**2021**	2020
Loss for the year	₩	**(257,944,415)**	(504,340,967)	$	**(217,583)**	(425,424)
Loss contributed to common stocks		**(257,944,415)**	(504,340,967)		**(217,583)**	(425,424)
Weighted average number of common shares		**149,840,002**	149,840,002		**149,840,002**	149,096,397
Basic losses per share(*)	₩	**(1,721)**	(3,366)	$	**(1.45)**	(2.84)

(*) Diluted losses per share are not calculated for the years ended December 31, 2021 and 2020, because there are no dilutive shares as of December 31, 2021 and 2020.

(2) Weighted average number of common shares outstanding for the years ended December 31, 2021 and 2020 are calculated as follows:

(In shares)

	2021			
	Outstanding period	**Common shares issued**	**Weighted-average**	**Common shares outstanding**
Beginning	**2021-01-01~2021-12-31**	**149,840,002**	**365/365**	**149,840,002**
				149,840,002

	2020			
	Outstanding period	Common shares issued	Weighted-average	Common shares outstanding
Beginning	2020-01-01~2020-12-31	149,840,002	366/366	149,840,002
				149,840,002

30. Cash Flows

(1) Details of cash flows from operating activities for the years ended December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

	Korean won		US dollar	
	2021	2020	**2021**	2020
Loss for the year	₩ **(257,944,415)**	(504,340,967)	$ **(217,583)**	(425,425)
Adjustments for:

Retirement benefits		**128,778**	394,980		**109**	333

33. Financial Instruments

(1) Capital risk management

The Group manages capital risk in order to maximize shareholders' profit by maintaining sound or optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary.

The Group uses debt ratio as a capital management index and calculates the ratio as total liabilities divided by total equity on financial statements. The Group is not subject to externally enforced capital regulation.

Debt-to-equity ratio as of December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
		2021	2020		**2021**	2020
Debt (A)	₩	**1,943,566,581**	1,856,750,687	$	**1,639,448**	1,566,217
Equity (B)		**(80,596,657)**	(88,122,116)		**(67,985)**	(74,333)
Debt-to-equity ratio (A/B)(*)		**–**	–		**–**	–

(*) The debt to equity ratio was not calculated because the total equity is the negative amount as of December 31, 2021 and 2020.

(2) Details of financial assets and liabilities by category as of December 31, 2021 and 2020 are as follows:

(3) Financial risk management

The Group is exposed to credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Group operates a risk management policy and a program that performs close monitoring and responds to each risk factors.

Financial assets that are subject to the financial risk management consist of cash and cash equivalents, non-current financial assets, trade receivables, other receivables and others; financial liabilities subject to the financial risk management consist of trade payables, other payables, borrowings, and others.

1) Market risk

a. Foreign exchange risk

The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Group assesses, manages and reports, on a regular basis, the foreign exchange risk for its receivables and payables denominated in foreign currency.

The table below shows the sensitivity for each foreign currency when exchange rates change 10%. Sensitivity analysis only includes foreign currency monetary items that are not paid, and it adjusts the translation assuming exchange rate changes 10% as of December 31, 2021.

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
Currency		**10% increase**	**10% decrease**		**10% increase**	**10% decrease**
USD	₩	2,841,302	(2,841,302)	$	2,397	(2,397)
EUR		4,528,453	(4,528,453)		3,820	(3,820)
JPY		6,461	(6,461)		5	(5)
Others		2,107,765	(2,107,765)		1,778	(1,778)
	₩	9,483,981	(9,483,981)	$	8,000	(8,000)

b. Interest rate risk

Sensitivity analysis was conducted assuming floating rate debt current balance is the same during the whole reporting year. When reporting interest rate risk to management internally, 0.5% variation is used, representing management's assessment about reasonably possible fluctuations of interest rates.

If other variables are constant and the interest rate is lower or higher by 0.5% than the current rate, the Group's current income will decrease or increase in ₩1,775,812 thousand ($1,498 thousand) for the year ended December 31, 2020, due to floating rate debt's interest rate risk.

2) Credit risk

Credit risk arises from transactions in the ordinary course of business and investment activities and when a customer or a transacting party fails to perform obligations defined by respective contract terms. In order to manage the aforementioned credit risk, the Group regularly assesses credit ratings of its customers and transacting parties based on their financial status and past experiences and establishes credit limit for each customer or transacting party.

If a credit risk occurs with respect to a dealership sale, which is a major type of the Group's sales, the respective dealership bears all of the risk; the Group manages credit risk on product sales using two management index, agreed liability rate and agreed excess rate, and when the management index exceeds the agreed rate, it imposes a release restriction on the respective dealership and transfers a credit risk arising from product sales. The Group's trade receivables are usually collected within 30 days but some of the notes receivable are collected within 75 days.

The Group estimates an allowance for the receivables that are over more than 90 days, but less than one year through an individual analysis based on each transacting party; for receivables that are not subject to individual analysis, the Group estimates an allowance based on the historical loss rates.

Maximum exposure in respect of credit risk as of December 31, 2021 and 2020 are as follows:

(In thousands of won and in thousands of dollar)

		Korean won			US dollar	
		2021	2020		**2021**	2020
Trade and other receivables	₩	**164,195,963**	163,500,821	$	**138,504**	137,917
Current financial instruments		**21,275,651**	–		**17,947**	–

3) Liquidity risk

The Group has managed liquidity risk to maintain adequate level of liquidity by periodic projecting cash outflow. To manage the risks, the Group has entered into a factoring agreement with capital financial institutions.

The contractual maturities of financial liabilities as of December 31, 2021 and 2020 are as follows:

Unused amount		**–**	–		**–**	–

(*) Due to filing for commencement of corporate rehabilitation procedure, the existing loan contracts between the Group and financial institutions were cancelled as of December 31, 2021.

(4) Fair value of financial instruments

1) The Group's management deems that the differences between carrying value and fair value of financial assets and financial liabilities recognized as amortized cost on financial statements is not significant.

2) Valuation methods and assumptions applied in fair value measurement

The fair values of financial instruments (i.e., government bonds and unsecured corporate bonds) traded on active markets are determined with reference to quoted market prices. The Group uses the closing price as the quoted market price for its financial assets.

The fair values of derivatives where no active market exists or where quoted prices are not otherwise available are determined by using valuation techniques. Non-option derivatives are evaluated by discounted cash flow method using the yield curve available. Options are evaluated by option-pricing models. Foreign exchange forward contracts are determined using the yield curve derived from market interest rates with the same maturity of forward contracts. To measure interest rate swaps, the cash flows are estimated by the yield curve derived from market interest rate and discounted to calculate the present value of swaps.

3) The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, classified as Level 1, 2 or 3, based on the degree to which the fair value is observable.

Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or in indirectly (i.e. derived from prices)

Level 3 input for the asset or liability that are not based on observable market data (unobservable inputs)

No financial instruments are measured at fair value after initial recognition as of December 31, 2021 and 2020.

34. Going concern assumption

The Group's financial statements are prepared on the assumption that it will continue as going concern, and therefore our assets and liabilities are accounted for on the assumption that they can be recovered or repaid at their carrying amount through the normal course of business activities.

However, due to deteriorating financial structure, the Group has incurred operating losses of ₩261,261 million ($221 million) and net losses of ₩257,944 million ($218 million) during the reporting period. In addition, the Group's current liabilities exceed its current assets by W906,757 million ($765 million) as of the end of the reporting period.

As of December 21, 2020, the Group filed for commencement of corporate rehabilitation procedure with the Seoul Bankruptcy Court("the court") under the Debtor Rehabilitation and Bankruptcy Act of South Korea. The Group received a commencement of rehabilitation procedure on April 15, 2021 and filed rehabilitation plan on February 25, 2022 to the court. The Group is resuming M&A process before court approval of rehabilitation plan as a way of repaying the rehabilitation debts early and improving the financial structure of the Group under the Section 241 of Practice Rule of Seoul Bankruptcy Court.

In circumstances where material uncertainty on the ability to continue as a going concern, which is the basis for preparation of the financial statements, a significant uncertainty exists whether the Group will continue as going concern, it will depend on the court approval of rehabilitation plan, success of M&A deal before approval of rehabilitation plan and the implementation of the rehabilitation plan including of business improvement plan after the court approval.

As it will be difficult for the Group to continue as a going concern if the Group fails to succeed M&A deal before approval of rehabilitation plan or achieve its plan according to the final results of corporate rehabilitation procedure, the carrying amount of the Group's assets and liabilities may not be recoverable in the ordinary course of business. The consolidated financial statements do not include any adjustments of carrying amount of assets and liabilities, presentation of classification, and related profit and loss that might result from the outcome of this uncertainty.

35. Commencement of rehabilitation procedure and M&A deal before court approval of rehabilitation plan

As of December 21, 2020, the Group filed for commencement of corporate rehabilitation procedure with the Seoul Bankruptcy Court("the court") under the Debtor Rehabilitation and Bankruptcy Act of Republic of Korea. The Group received a commencement of rehabilitation procedure on April 15, 2021 and filed rehabilitation plan on February 25, 2022 to the court. The Group is resuming M&A process before court approval of rehabilitation plan as a way of repaying the rehabilitation debts early and improving the financial structure of the Group under the Section 241 of Practice Rule of Seoul Bankruptcy Court.

After the end of reporting period, the Group signed an M&A contract with a consortium led by Edison Motors with approval of Seoul Bankruptcy Court and received as down payment of ₩30.5 billion ($25.7 million, 10% of total acquisition price). Meanwhile, the M&A contract with a consortium led by Edison Motors was terminated because the buyer failed to pay the remaining payment of ₩274.3bilion ($25.7 million) by March 25, 2022(5 business days before the date of the assembly of persons designated by the court).

As a result, the received down payment of ₩30.5bilion($25.7million) will be attributed to the Group.

The Group will submit revised rehabilitation plan to the Seoul Bankruptcy Court after promptly seeking a new buyer and reselling process.

36. Delisting issue occurrence & grant a grace period for improvement by filing of objection

The Group has faced a risk of being delisted from the Korea Stock Exchange under Article 48 of KOSPI Market Listing Regulation, due to disclaimer of audit opinion on the Group's consolidated financial statements as of December 31, 2020. The Group filed official objection to delisting decision on April 13, 2021, and Korea Stock Exchange granted a grace period for improvement until April 14, 2022, as a result of the review of the Listing and Disclosure Committee on April 15, 2021.

INDEPENDENT REPORT OF THE AUDITORS OF MAHINDRA EUROPE S.R.L.

TO THE CONTROLLER OF ACCOUNTS, MAHINDRA & MAHINDRA LIMITED

Report on Fit For Consolidation Reporting Package:

We have audited the accompanying Fit for Consolidation Reporting Package of Mahindra Europe S.r.l. which comprise the Balance sheet as at 31st March 2022, the Statement of Profit and Loss and also the cash flow statement of the Company for the year ended on the same date and other reconciliations and information (all collectively referred to as the Fit For Consolidation Reporting Package). The Reporting Package is the responsibility of the Company's management. Our responsibility is to express an opinion on the Reporting Package based on our audit.

Management Responsibility for the FFC Reporting Package

The FFC Accounts Reporting Package has been prepared, on the basis of instructions received in this regard from the Controller of Accounts of Mahindra & Mahindra Limited, by the Company's management, solely for use by Mahindra & Mahindra Limited in the preparation of its consolidated financial statement in accordance with the requirements of Accounting Standard 21 'Consolidated Financial Statements' as notified under the Companies (Accounting Standards) Rules 2006 and not to report on Mahindra Europe S.r.l. as a separate entity.

Auditors' Responsibility for the FFC Reporting Package

Our responsibility is to express an opinion on the FFC Reporting Package based on our audit. We conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the FFC Reporting Package are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the FFC Reporting Package. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall FFC Reporting Package presentation. We believe that our audit provided a reasonable basis for our opinion.

Other aspects

The auditing of the accounts was carried out in the context of the situation created by the spread of the health emergency known as the COVID 19 pandemic and the related measures, including those restricting circulation, emanated by the Italian government to protect the health of its citizens. Consequently, as a result of objective situations - classifiable as force majeure - the auditing procedures envisaged by the reference professional standards have been carried out in the framework (i) of a remodelled staff organization and (ii) of different approach methods with the corporate referents and consequently of collecting the probatory elements required. The collection of information was, unless otherwise possible, carried out through the use, in the main part, of documentation in electronic format sent to us using distance communication techniques.

The Company, as is clear from the financial statement information, to which reference should be made, communicated to the sales network, made up of distributors and dealers, the termination of commercial relations with 24 months' notice. The Company justified this decision with the need to change its business model in relation to the changed market conditions and the prolonged effects of the pandemic.

Opinion

We report that the attached FFC Reporting Package are properly derived, in accordance with the instructions received from the Controller of Accounts of Mahindra & Mahindra Limited, from the Statutory Accounts of Mahindra Europe S.r.l. audited by us for the year ended 31st March 2022.

The FFC Reporting Package and our auditors report thereon is prepared solely for use by Mahindra & Mahindra Limited in the preparation and audit of its consolidated financial statement as at March 31, 2022 and should not be used for any other purpose.

We further state that, in our judgment and for the purpose as mentioned above, there are no other matters that need to be reported to you.

RB Audit Italia S.r.l.

"EURO amounts are translated for convenience into Indian Rupees at the exchange rate of Rs 84.50 = Euro 1 which is the average of the telegraphic transfer buying and selling rates quoted by the Mumbai Branch of State Bank of India on 31st March 2022".

A lakh is a unit in the Indian numering system equal to one hundred thousand (100.000).

This Financial Statement is in agreement with results of accountant records.

For The Board of Directors:

Sachin Arolkar

Chairman

Mumbai, 09th May 2022

Notes to the financial statements at 31/03/2022

Indian Rupees at the exchange rate of INR 84.50 = Eur 1

A lakh is a unit in the Indian numeric system equivalent to one hundred thousand (100.000).

Introduction

Dear Quotaholder,

The financial statements for the fiscal year ended 31/03/2022 is submitted for your verification and approval. The fiscal year FY2022 ended with a profit equal to Euro 531 / INR 0.45 Lakhs, net of taxes and after amortization and depreciation for a total of Euro 75.506 / INR 63.80 Lakhs

Area of Business

Your company carries out its activities in the sector of distribution of motor vehicles and spare parts, as official importer of Mahindra vehicles in the European markets like Italy, Spain, Slovakia, Hungary, Bulgaria & other Eastern Europe countries.

Major events occurred during the company's fiscal year

The significant events that occurred during the year are as follows:

The Company obtained the necessary type-approval extensions with related waivers from the Ministry of Transport for its entire range of vehicles, in line with the requirements of the applicable regulations. The Company obtained the renewal of the existing credit lines with Intesa Sanpaolo and Bank of America Merrill Lynch. The credit lines are mainly used to finance the import of vehicles and spare parts and to finance short-term cash flow. All credit lines are settled at market conditions and guarantee the Company adequate financial resources to run its business. The Company has renewed its agreement with Fiditalia to offer its customers retail financing options to support the sales of vehicles. During the financial year, the Company managed trade credit through the factoring company Ifitalia of the BNP Paribas Group. The global economic outlook for 2022 was severely affected by the spread of the SARS-CoV2 Covid-19 infection and the military crisis that broke out in Ukraine in late February 2022.

The Company used the FIS social shock absorbers in the period between July and December 2021 to cope with the drop in business activities that occurred during the critical phase of the pandemic in 2021.

Your Company is experiencing a rapid change in the market with a significant change in customer preferences, purchasing styles and trends in the European market. In this scenario, and also on account of the impact caused by the pandemic in the last 2 years, your company is required to re-evaluate and restructure its business model. As part of the business model restructuring process, a letter of termination of the distribution relationship was sent to distributors and dealers with two years notice. This period will allow the Company to explore the possibilities of developing a business model capable of facing the new challenges that the market requires and enable Mahindra Europe towards new goals.

Layout criteria

The criteria adopted for the preparation of the financial statements at 31/03/2022 take into account the changes introduced into Italian legislation by legislative decree 139/2015, through which EU Directive 2013/34 was implemented. As a result Legislative decree 139/2015 amended the Italian accounting principles issued by the Italian Accounting Body OIC (*Organismo Italiano di Contabilità*).

It was not feasible to calculate the cumulative past effects of the change in accounting principle and the determination of the past effects was too burdensome and therefore the new accounting principle OIC 15 and OIC 19 was not applied.

The financial statements have been drawn up in accordance with arts. 2423 of the Italian Civil Code, as appears from these Notes, which have been prepared pursuant to art. 2427 of the Italian Civil Code and are an integral part of the financial statements within the meaning and for the purposes of art. 2423.

Financial statement figures are expressed in whole Euro and INR/Lakhs by rounding off the relevant amounts to the nearest whole number. Any rounding-off differences were recorded under the item "INR/Lakhs Rounding-off reserve" included among the Shareholders' equity. Pursuant to article 2423(6) of the Italian civil code, the notes were drawn up in units of thousands of Euro and INR/Lakhs/ (in whole Euro and INR/Lakhs).

The explanatory note presents the information of the balance sheet and income statement items in the order in which the related items are indicated in the respective financial statements.

Valuation criteria

(article 2427(1)(1) of the Civil Code, OIC 12)

The valuation of the items in the financial statements was made based on general criteria of prudence and competence, on going-concern basis.

The application of the prudence principle involved the individual valuation of the elements making up the individual items or items of the assets or liabilities, to avoid offsetting between losses that should have been recognized and profits that should not be recognized as unrealized.

In compliance with the accrual principle, the effect of transactions and other events has been recognized and attributed to the year to which these transactions and events refer, and not to the year in which the related cash movements take place (collections and payments).

In application of the principle of relevance, the obligations regarding recognition, evaluation, presentation and disclosure were not respected when their observance had irrelevant effects in order to give a true and correct representation.

The consistent application of accounting principles over time ensures the comparability of the company's financial statements drawn up in different fiscal years.

The recognition and presentation of the balance sheet items was made taking into account the substance of the transaction or contract.

The Company has not made use of the right to exempt from the ordinary rules relating to business continuity.

Exceptional cases pursuant to art. 2423, fifth paragraph, of the Civil Code

(article 2423 (5) of the Civil Code)

There have been no exceptional cases that have made it necessary to resort to exceptions pursuant to art. 2423 paragraph 5 of the Civil Code.

Changes in accounting principles

The Company has not changed the accounting principles.

As regards the application of the national accounting standards OIC 15 (credits) and OIC 19 (debts), relatively

the application of the amortized cost criterion and the discounting of the expected cash flow of the correspondent nominal value of the credit / debit, the company makes use of the relevant presumptions of irrelevance for credits and debts with a maturity of less than twelve months, the effects being irrelevant with respect to the results that would be obtained with the pre-reform criteria, since the sale and purchase transactions are negotiated with deferred payments at market rates and with a negligible amount of transaction costs.

Problems of comparability and adaptation

The evaluation criteria adopted in the preparation of the financial statements closed on 31/03/2022 were the same used for the preparation of the financial statements for the previous fiscal year, therefore it was not necessary to calculate the previous cumulative effect of the change in principle.

Appraisal criteria applied

(Ref. Art. 2426, first paragraph, Civil Code)

Fixed assets

Intangible assets

These have been recorded at their historical purchase cost net of the relevant yearly amortisation charged to the individual items.

The costs relating to industrial patent rights and intellectual property rights, licenses, concessions and trademarks whose effects regard several different years are depreciated over a period of 5 business years, while the costs for the approval of vehicles are amortized over a period of 3 business years.

Software licenses were recorded in the assets and are amortized over a period of 2 business years.

Improvements to third party assets are amortized with rates depending upon the duration of the contract.

In the event that, regardless of the depreciation booked, a permanent loss of value occurs, the asset is written down accordingly. If in the following years the reasons for the write-down cease to exist, the original value, adjusted by depreciation, is restored.

The Company has not made use of the right to suspend the depreciation rates for the 2020 financial year provided for in Article 60, paragraphs 7-bis to 7-quinquies of Law Decree 104/2020 (converted by Law 126/2020).

The Company has not made use of the right to revalue intangible assets as required by Article 110 of the Law Decree 104/2020 (converted by Law 126/2020).

Tangible assets

These have been recorded at their purchase cost and are adjusted by the relevant accumulated depreciation.

The book value includes any ancillary costs and the costs incurred for the use of the asset, less any trade discounts and any significant cash discounts.

The depreciation charged to profit and loss account has been calculated on the basis of the remaining useful life of the assets, taking into account their use, destination and economic-technical life, which we believe are well reflected by the following rates, unchanged compared to the previous fiscal year and halved in the year in which the asset has entered operation:

Type of Asset	**% Depreciation**
Specific Plants & Equipments	15%
Generic Systems	10%
Electronic Machines	20%
Passenger Vehicles	25%
Commercial Vehicles	20%
Office furniture & equipments	12%
Others	10%

In the event that, regardless of the depreciation booked, a permanent loss of value occurs, the fixed assets are written down accordingly. If in the following years the reasons for the write-down cease to exist, the original value, adjusted by depreciation, is restored.

The company has not made use of the right to suspend the depreciation rates for the 2020 financial year provided for in Article 60, paragraphs 7-bis to 7-quinquies of Law Decree 104/2020.

The company has not made use of the right to revalue tangible fixed assets as required by Article 110 of Law Decree 104/2020 (converted by Law 126/2020).

Finance lease transactions

Finance lease transactions are shown in the financial statements using the net asset method, by charging the lease payments to the profit and loss account on an accruals basis. The additional information required by the law on the representation of finance lease agreements under the financial method is contained in a specific section of the notes.

The Company did not take advantage of the suspension of the payment of leasing fees as provided for in Article 56, paragraph 2, letter c), of Law Decree no. 18/2020 (converted by law no.27 of 24 April 2020), therefore the Company has not rescheduled the duration of the financial lease.

Accounts receivable

The amortised cost method was not applied since its effects are immaterial for the purpose of giving a true and fair view. Therefore, accounts receivable have been recorded at their presumed realisable value, without prejudice for the possibility to apply time discounting. The adjustment of the nominal value of receivables to the assumed realizable value is obtained through a reserve for bad debts, taking into consideration the general and industrial economic conditions and country risk.

Accounts receivable recorded in the financial statements before the fiscal year starting 1 January 2016 have been recorded at their presumed realisable value since, as provided by accounting principle OIC 15, it was decided not to apply the amortised cost method and time discounting.

The nominal value of the accounts receivable was adjusted to the presumed realisable value by a bad debt reserve, having regard also to any indicators of permanent impairment.

Accounts receivable originally due within one year and subsequently transformed into long-term receivables were recorded in the balance sheet among financial assets.

Accounts receivable are written off when the contractual rights to receive the relevant cash flows have been extinguished or when the risks in connection with the payment of the receivables have been transferred.

Accounts payable

The amortised cost method was not applied since its effects are immaterial for the purpose of giving a true and fair view. Therefore, accounts payable have been recorded at their nominal value, without prejudice for the possibility to apply time discounting.

Accounts payable recorded in the financial statements before the fiscal year starting 1 January 2016 have been recorded at their nominal value since, as provided by accounting principle OIC 19, it was decided not to apply the amortised cost method and time discounting.

Accrued income/liabilities – pre payments / deferred income

These have been determined on an accruals basis.

With regard to accrued income / liabilities and prepayments/deferred income of a duration exceeding one year, we checked the conditions for their original entry and adopted any necessary changes.

Inventory

Raw materials, auxiliary materials and finished products have been recorded at the lower of purchase or manufacturing cost and realisable value as inferred from market trend, applying the weighted average cost method for spare parts and the specific cost method for vehicles.

Production cost includes the direct and indirect costs incurred during production, which are necessary for stocks to be in the current place and conditions.

On 31/03/2022 the company has not goods-in-process and work-in-progress goods.

The value thus obtained is then adjusted by the “provision for stock obsolescence” in order to take into account those goods which are expected to be realised at a value lower than cost.

Any stocks which were written down but in respect of which in subsequent years the reasons for the write-down to their realisation value ceased to exist, were restored to their original value.

Securities

The company does not hold any securities.

Shareholdings

The company does not hold any shareholdings in subsidiary and affiliated.

The shareholdings included among current assets, which do not represent a long-term investment, have been valued at the lower of purchase cost and realisable value as inferred from market trend.

Treasury shares

The company does not hold any treasury shares.

Derivative financial instruments

The company does not hold any derivative financial instruments.

Provisions for contingent liabilities and charges

These provisions are set aside for the coverage of losses or liabilities that are certain or likely to arise, but whose amount or date of occurrence could not be determined at the year-end.

The provisions have been measured on a prudential and accruals basis and no generic funds without economic justification were created.

Any potential liabilities were carried to the financial statements and recorded in the relevant provisions as they were considered likely to arise and their amount could be reasonably estimated.

Provision for employees’ leaving indemnity (TFR)

This consists of the amounts actually accrued in favour of the employees pursuant to the law and the current collective bargaining agreements, taking into account any elements of remuneration paid on a continuous basis.

The provision includes the total payments accrued for employees at the year-end net of any advances paid, and assuming termination of their employment relationship at such date.

The provision does not include any amounts accrued starting from 1 January 2007 that have been paid into complementary pension schemes pursuant to legislative decree no. 252 dated 5 December 2005 (or transferred to the special-purpose fund managed by the Italian social security authority - INPS).

Income taxes

The provision for taxes has been set aside on an accruals basis and includes the following:

- accruals in respect of the taxes paid or to be paid for the year, determined at the current rates and in accordance with the rules in force;
- the amount of deferred tax assets or liabilities in respect of temporary differences which arose or were written off in the year;
- any adjustments to the balance of deferred taxes to account for changes in the tax rates occurred/for the introduction of the new tax during the year.

Deferred IRES assets and liabilities are calculated on the temporary differences between the assets and liabilities determined in accordance with civil code principles and the corresponding tax values, solely with regard to the company.

Current IRAP and any deferred IRAP assets and liabilities are determined solely with regard to the company.

Recognition of income

Proceeds from sales are recognised at the time of the transfer of ownership which usually coincides with the delivery or forwarding of the goods;

Financial income and income from the provision of services is recognised on an accruals basis.

Revenue and proceeds, costs and charges related to transactions in foreign currency are determined at the exchange rate in force at the date when the relevant transaction takes place.

Only the accrued portion of the income and costs related to buy/sell-back transactions, including the difference between the spot price and the forward price, is recognised.

Adjustment criteria

The company not applied the adjustment criteria.

Criteria for the translation of accounts in foreign currency

Accounts payable and receivable denominated in foreign currency and recorded at the exchange rates in force on the date of the transaction, are retranslated at the exchange rates ruling at the year-end as determined by Bank of Italy.

In particular, assets and liabilities which constitute assets and liabilities in foreign currency are recorded at the spot exchange rate ruling at the year-end and the relevant exchange gains and losses have been taken to the Profit and Loss Account under item 17bis “Exchange gains and losses”.

Any net gain deriving from the adjustment of the items in foreign currency to the year-end exchange rates is included in the result for the year and, at the time of the financial statements approval and appropriation of the operating result to the legal reserve, the part which is not offset against the loss for the year, if any, is apportioned to a reserve which is not distributable until the gain is realised.

Non-current assets and liabilities in foreign currency are recorded at the exchange rate ruling at the time of purchase.

No significant effects of the changes to the exchange rates occurred between the year-end and the financial statements preparation date. (article 2427(1) (6-bis) of the Civil Code).

Commitments, guarantees and potential liabilities

Commitments, which are not recorded in the balance sheet, consist of obligations assumed by the company vis-à-vis third parties and arising from legal arrangements with mandatory effects but not yet implemented by either party. Commitments include both commitments in respect of which both the relevant execution and amount is known (for instance, on buy/sell-back transactions) and commitments which are definitely going to be executed but whose amount is unknown (for example, agreement with a price adjustment clause). The amount of the commitments is their nominal value as inferred from the relevant documentation.

The company didn’t provide guarantees include personal guarantees and collaterals.

The Company has not made use of the right not to charge the depreciation rates for the year 2021 to the income statement, furthermore the Company has not made use of the right to obtain the revaluation of tangible fixed assets.

No review of the useful life of capital assets has been made during the financial year.

Increases and decreases refers to the purchase and sale of company vehicles.

Write-downs and reversals of write-downs made during the year

(article 2427(1)(2) and (3-bis) of the Civil Code)

No tangible fixed assets were subject to previous revaluations or devaluations.

Total revaluations of tangible assets at the year-end

(Article 2427(1)(2) of the civil code)

No monetary revaluations has been made.

Contributions toward investments

The company during the year ended 31/03/2022 has not applied for contributions toward investments.

Finance lease transactions

The company has in place one main finance lease agreements. We set out below the information regarding the lease agreements pursuant to article 2427 (1)(22) of the civil code:

- lease agreement no. 00928065/001 dated 09/06/2009;
- term of the agreement 216 months;
- asset industrial building;
- cost of the asset in INR/Lakhs 1435,06 / Euro 1.698.300
- initial higher lease payment (maxicanone) of INR/Lakhs 215,26 / Euro 254.745 made on 11/06/2009;

EUR

Description	Amount
Aggregate amount of finance leased assets at the year-end	1.035.963
Amount of depreciation that would have been charged in the year	50.949
Value adjustments and write-ups that would have been recognised in the year	(73.471)
Net present value of outstanding finance lease payments at the year-end	637.613
Financial costs accrued for the year based on the effective interest rate	28.590

Description	INR Amount
Aggregate amount of finance leased assets at the year-end	875,39
Amount of depreciation that would have been charged in the year	43,05
Value adjustments and write-ups that would have been recognised in the year	(62,08)
Net present value of outstanding finance lease payments at the year-end	538,78
Financial costs accrued for the year based on the effective interest rate	24,16

The company has not requested the suspension of the leasing installments provided for in Article 56 of Law Decree no. 18/2020.

Total	**3512,54**	**(1114,85)**	**2397,69**

Accounting policies have been applied consistently with the prior year as explained in the introduction to these notes.

The adopted assessment does not significantly differ from the one using the current cost approach.

The decrease in vehicles in stock is majorly due to sales of the KUV100 model.

The item vehicles in stock refers to cars in storage at the Ariccia headquarters, at the depository company located in Spain and at the depository company located in Livorno.

There are no commitments contractually undertaken for works and services still to be performed at year end.

The Company has not used its stock obsolescence provision.

The Company has not entered the inventory obsolescence provision but has written down the obsolete inventory spare parts (not moved for more than five years) whose realizable value is lower than cost, adjusting the inventory value in the previous year. The company didn't change the write-down during this year, considering adequate the estimated value.

Any contractual undertakings in respect of works and services to be carried out at the year-end.

EUR

Balance at 31/03/2022	Balance at 31/03/2021	Difference

Other accounts receivable	45.535	6.788	52.323	4.885	47.438
Total	4.796.584	(3.215.689)	1.580.895	1.332.989	47.438

INR

Description	Opening balance	Changes during the year	Closing balance	Due within one year	Due after more than one year
From customers	2.994,14	(2.184,99)	809,15	809,15	
From group companies	2,64	(2,64)			
From controlling companies	807,34	(554,79)	252,55	252,55	
Tax credits	41,12	19,42	60,54	60,54	
Deferred tax assets	169,40		169,40		
Other accounts receivable	38,48	5,74	44,21	4,13	40,09
Total	4.053,11	(2.717,26)	1.335,86	1126,38	40,09

The company took advantage of the possibility not to follow the amortised cost method and not to time discount accounts receivable.

Therefore, accounts receivable have been recognised at their presumed realisable value.

The item “Credits towards the Controlling company” includes the credit for repairs and services rendered on behalf or to the benefit of the parent company, as well as the costs for advertising campaigns.

The deferred tax assets of INR/Lakhs 169.40 Eur 200.468 are in connection with tax loss carryovers in an amount of INR/Lakhs 854.14 Eur 1.010.813. For a description of the reasons which make it possible to recognise the potential tax benefit in connection with the losses, please refer to the relevant paragraph of these notes.

Break-down of the accounts receivable by geographical area

The following table shows a break-down of the accounts receivable at 31/03/2022 by geographical area (article 2427(1)(6) of the Civil Code):

EUR

Accounts receivable by geographical area	From customers	From controlling companies	Tax Credit	Deffered Tax Assets	Other accounts receivable
ITALY	941.385		71.647	200.468	52.323
INDIA		298.880			
SPAIN	13.702				
SERBIA	2.490				
TOTAL	**957.577**	**298.880**	**71.647**	**200.468**	**52.323**

INR

Accounts receivable by geographical area	From customers	From controlling companies	Tax Credit	Deffered Tax Assets	Other accounts receivable
ITALY	795,47		60,54	169,40	44,21

Cash and cash equivalents	6.368	3.679	**10.047**
Total	1.152.167	(286.040)	**866.127**

INR

Description	**Opening balance**	**Changes during the year**	**Closing balance**
Bank and postal deposits	968,20	(244,81)	**723,39**
Cash and cash equivalents	5,38	3,11	**8,49**
Total	973,58	(241,70)	**731,88**

The balance reflects the cash-in-hand, cash-at-bank and cash equivalents at the year-end.

D) Accrued income/prepayments

EUR

Balance at 31/03/2022	Balance at 31/03/2021	Difference
208.768	114.021	94.747

INR

Balance at 31/03/2022	Balance at 31/03/2021	Difference
176,41	96,35	80,06

They constitute the adjustment to costs and income pertaining to more than one fiscal year, incurred and earned before actual payment or collection and calculated on an accrual basis.

The criteria adopted for the recognition and translation of items in foreign currency have been reported in the first part of these notes.

At 31/03/2022, there were no accrued income/prepayments of a duration exceeding five years.

EUR

	Prepayments	**Total**
Opening balance	114.021	**114.021**
Changes during the year	94.747	**94.747**
Closing balance	208.768	**208.768**

INR

	Prepayments	**Total**
Opening balance	96,35	**96,35**
Changes during the year	80,06	**80,06**
Closing balance	176,41	**176,41**

This item can be broken down as follows (article 2427(1)(7) of the Civil Code):

EUR

Description	**Amount**
Insurance and road tax	**10.160**
Prepaid rate for lease	**73.122**
multifunction copier rental	**293**
Software maintanance	**8.094**
Maintenance expenses	**2.760**
Transportation expenses	**109.986**
Advertisement expenses	**1.336**
Others	**3.017**
TOTAL	**208.768**

INR

Description	**Amount**
Insurance and road tax	**8,59**
Prepaid rate for lease	**61,79**
multifunction copier rental	**0,25**
Software maintanance	**6,84**
Maintenance expenses	**2,33**
Transportation expenses	**92,94**
Advertisement expenses	**1,13**
Others	**2,55**
TOTAL	**176,41**

The maxi rent paid equal to INR 215,26 / Euro 254.745 relates to the financial leasing contract of the industrial building contract in 2009, for which reference should be made to the relevant paragraph of these notes to accounts.

– Decreases					
– Reclassifications					
Current year's result				0,45	
At the current year-end	1200,87	29,16		0,45	1.230,48

The share capital amounts to Euro 1.421.151 - INR/Lakhs 1,200.87 and is made up of quotas with a nominal value of 1 Euro, held by and fully available to the sole shareholder as no burdens exist on them. At year-end the shares subscribed are paid in as the total amount of the share capital was fully paid-up.

B) Provision for contingent liabilities and charges

(article 2427(1)(4) of the Civil Code)

EUR

Balance at 31/03/2022	Balance at 31/03/2021	Difference
27.863	27.863	

INR

Balance at 31/03/2022	Balance at 31/03/2021	Difference
23,54	23,54	

EUR

	Provision for pension and similar benefits	Provision for taxes, including deferred taxes	Derivative financial instruments	Other provisions companies	Total
Value at the beginning of the year				27.863	27.863
Changes in the year:					
Increases as a result of changes in the fair value					
Decreases as a result of changes in the fair value					
Total changes					
Value at the end of the year				27.863	27.863

INR

	Provision for pension and similar benefits	Provision for taxes, including deferred taxes	Derivative financial instruments	Other provisions companies	Total
Value at the beginning of the year				23,54	23,54
Changes in the year:					
Increases as a result of changes in the fair value					
Decreases as a result of changes in the fair value					
Total changes					
Value at the end of the year				23,54	23,54

The increases are in connection with the accrual for the year, while decreases consist of amounts used in the year.

The item "Other provisions" at 31/03/2022, of INR/Lakhs 23.54 Eur 27.863 is composed as follows: (article 2427(1)(7) of the civil code).

EUR

Description	As at 31/03/2022
Fund for warranties	27.863
TOTAL	27.863

INR

Description	As at 31/03/2022
Fund for warranties	23,54
TOTAL	23,54

The accrual to these provisions was justified by the fact that (i) the other provisions were made to the Warranty fund, because it has been considered not adequate to cover contract discrepancies between what has been acknowledged by the Company and what has been received by the Parent company.

During the year, the value of the provision for warranty was reinstated for a value deemed appropriate.

C) Indemnity for Employees leaving the Company
(article 2427(1)(4) of the Civil Code)

EUR

Balance at 31/03/2022	Balance at 31/03/2021	Difference
174.820	166.594	8.226

INR

Balance at 31/03/2022	Balance at 31/03/2021	Difference
147,72	140,77	6,95

The difference can be described as follows.

EUR

	Indemnity for Employees leaving company
Value at the beginning of the year	**166.594**
Changes in the year:	
Increases as a result of changes in the fair value	**15.632**
Decrease for utilization	**(7.406)**
Total changes	**8.226**
Value at the end of the year	**174.820**

INR

	Indemnity for Employees leaving company
Value at the beginning of the year	**140,77**
Changes in the year:	
Increases as a result of changes in the fair value	**13,21**
Decrease for utilization	**(6,26)**
Total changes	**6,95**
Value at the end of the year	**147,72**

The provision consists of the amounts payable at 31/03/2022 to the employees on the company's payroll at that date, net of any advances paid.

This consists of the amounts actually accrued in favour of the employees pursuant to the law and the current collective bargaining agreements, taking into account any elements of remuneration paid on a continuous basis.

The provision includes the total amounts accrued at 31 December 2006 for employees at the year-end, net of any advances paid, and assuming termination of their employment relationship at such date.

The provision does not include any amounts accrued starting from 1 January 2007 that have been paid into complementary pension schemes pursuant to legislative decree no. 252 dated 5 December 2005 (or transferred to the special-purpose fund managed by the Italian social security authority - INPS).

During the year, the company accrued € 45.575 INR/Lakhs 38.51 for this indemnity, of which € 29.943 INR/Lakhs 25.30 transferred to the complementary pension fund and € 15.632 INR/Lakhs 13.21 to the TFR fund.

The use of Euro 7,406 refers to the liquidation of an employee who left the job during the year.

In the year after 31/03/2022 employees are not expected to receive a estimated employees' leaving indemnity as a result of incentivised dismissals and corporate reorganisation plans.

D) Accounts payable

(article 2427(1)(4) of the Civil Code)

EUR

Balance at 31/03/2022	Balance at 31/03/2021	Difference
4.024.991	8.867.756	(4.842.765)

INR

Balance at 31/03/2022	Balance at 31/03/2021	Difference
3401,12	7493,25	(4092,14)

The balance can be broken down by due date as follows (article 2427(1)(6) of the Civil Code):

EUR

	Value at the beginning of the year	Changes in the year	Value at the end of the year	Falling due within one year	Falling due after more than one year	Due after more than five years
Accounts payable to banks	5.857.031	(5.855.365)	1.666	1.666		
Accounts payable to suppliers	1.229.609	(405.974)	823.635	823.635		
Accounts payable to controlling companies	954.441	1.909.307	2.863.748	2.863.748		
Taxes payable	516.158	(400.062)	116.096	116.096		
Accounts payable to social security institutions	52.039	(1.818)	50.221	50.221		
Other accounts payable	258.478	(88.853)	169.625	169.625		
Total	**8.867.756**	**(4.842.765)**	**4.024.991**	**4.024.991**		

INR

	Value at the beginning of the year	Changes in the year	Value at the end of the year	Falling due within one year	Falling due after more than one year	Due after more than five years
Accounts payable to banks	4.949	(4.948)	1,41	1,41		
Accounts payable to suppliers	1.039	(343)	695,97	695,97		
Accounts payable to controlling companies	807	1.613	2.419,87	2.419,87		
Taxes payable	436	(338)	98,10	98,10		
Accounts payable to social security institutions	44	(2)	42,44	42,44		
Other accounts payable	218	(75)	143,33	143,33		
Total	**7.493**	**(4.092)**	**3.401,12**	**3.401,12**		

The balance of the accounts payable to banks at 31/03/2022, in an amount of INR/Lakhs 1,41 / Eur 1.666 total amount debit for credit card, corresponds to the full payable including principal amount, interest and ancillary charges which have come to maturity and can be collected.

The item "Advances" includes any advances from customers on goods and services not yet supplied or rendered; this item includes advance payments, as earnest money or otherwise, received in connection with the sale of tangible, intangible and financial fixed assets.

Accounts payable from suppliers are recognised at their nominal value of net of trade discounts; cash discounts are recorded upon payment. The nominal value of these payables has been adjusted in case of returns or allowances (invoice adjustments) by the corresponding amount agreed with the other party.

The company took advantage of the possibility not to follow the amortised cost method and/or not to time discount accounts payable since 2016.

The company adopted the following accounting policies: no time discounting of accounts payable due within one year; no time discounting of accounts payable if the effective interest rate does not significantly differ from market rate; no adoption of the amortised cost method for accounts payable due within one year, no adoption of the amortised cost method if transaction costs, commission fees and any other difference between initial value and value on expiry are of negligible amount.

With regard to the accounts payable to controlled companies and undertakings under control by the controlling companies, we note that they refer to vehicles' and spare parts' supplies under normal market conditions.

The item "Tax liabilities" only includes the actual taxes payable, while any likely tax liabilities or tax liabilities whose amount or date of occurrence is doubtful or deferred tax liabilities, are recorded in item B.2 of the liabilities section of the balance sheet (Provision for taxes).

The accounts payable falling due within one year not include accounts payable backed by covenants.

No significant changes occurred in the amount of Tax liabilities.

In the tax payables item are registered IVA debt € 100.814 INR/Lakhs 85.19 and WHT € 15.282 INR/Lakhs 12,91.

Breakdown of the accounts payable by geographical area

The following table shows a breakdown of the accounts payable at 31/03/2021 by geographical area (article 2427(1)(6) of the Civil Code).

They constitute the adjustment to costs and income calculated on an annual basis.

The criteria adopted for the recognition and translation of items in foreign currency have been reported in the first part of these notes.

At 31/03/2022, there were no accrued liabilities/deferred income of a duration exceeding five years.

Profit and loss account

For the purposes of the correct interpretation of the financial statements closed on 31/12/2022 and the assessment of their possible comparability with the financial statements for the previous year, it is highlighted that the emergency situation deriving from the SARS Covid-19 infection made it necessary the adoption of specific measures to support the activity and the workers involved, with a consequent effect on the documents making up the financial statements and in particular the Income Statement.

In detail, the Company deemed it appropriate to make use of social safety nets to deal with the fall in demand.

A) Revenue

Costs of raw materials, subsidiary materials, consumables and goods and costs of services

They are closely related to the information provided in the Directors' report and to point A (Revenue) of the Profit and loss account.

Personnel costs

This item includes all employee costs, including bonuses, promotions, cost-of-living increases, untaken holidays and the provisions made pursuant to the law and the national collective bargaining agreements.

During the financial year the Company used the following help from Government to mitigate the adverse economic effect related to Covid-19:

- Extraordinary redundancy fund (C.I.G.S.);
- Benefit from holiday season.

Depreciation of tangible assets

Depreciation has been calculated on the basis of the useful life of the assets and their contribution to the production process.

The Company accrued the depreciation related the financial year closed as at 31/03/2022.

Other write-downs of fixed assets

The item is not reflected in the present financial statements.

Write-downs of accounts receivable included among current assets and of liquid assets

The item is not reflected in the present financial statements.

Accruals to provisions for contingent liabilities and charges

The item is not reflected in the present financial statements.

Other accruals

The item is not reflected in the present financial statements.

Miscellaneous running costs

They refer to taxes other than income tax, subscriptions and other charges.

The company has not entered expenses for exceptional amount or incidence.

Pursuant to article 2427(1)(14) of the civil code, we set out below the required information on deferred tax assets and liabilities:

Deferred tax assets and liabilities

Deferred tax assets have been recorded since in the years in which the underlying deductible temporary differences are going to be reversed there is reasonable certainty that taxable income not lower than the amount of the differences to be reversed is going to be realized.

The main temporary differences that have given rise to deferred tax assets and liabilities and their effects are shown in the following table.

Recording of deferred tax assets and liabilities and relevant effects:

Pre-paid taxes were not recognized for provisions for warranties, due to the elimination of the temporary reabsorb able differences in subsequent years.

Deferred tax assets in connection with tax losses for the year or loss carryovers of prior years have been recorded since the conditions required by the accounting principles for the recognition of the future benefit were met, with particular regard to the reasonable certainty that in future the company will generate sufficient taxable income to offset the losses.

On the basis of the information available also taking into account the contents of the budget for the next financial year being approved, the directors consider the assumption of going concern to be appropriate.

Employee information

(article 2427(1)(15) of the Civil Code)

Compared to the previous year the personnel broken down by category has changed as shown below:

Staff	31/03/2022	31/03/2021	Change
Executives	**1**	1	0
Middle Manager	**2**	2	0
Employees	**7**	8	(1)
Labourers	**4**	4	0
Others	**0**	0	0
	14	**15**	**(1)**

The national collective bargaining agreement for companies in the commercial sector applies.

The decrease is due to the termination of an employee for retirement in October 2021.

Industrial relations are good and there are no litigations with employees still working or dismissed.

Information concerning the Auditor's fees

(article 2427(1)(16-bis) of the civil code)

As required by law, we set out below the amount of fees charged for services rendered by the audit company firm and by entities that are members of its network:

Description	EUR Fee
Audit of annual accounts	9.450
Total fees due to the auditor or audit company	9.450

Description	INR Fee
Audit of annual accounts	7,99
Total fees due to the auditor or audit company	7,99

The members of the Board of Directors renounced the remuneration due for the position held in the Mahindra group companies.

The independent Director's fee is Eur 5.469 INR/Lakhs 4,62.

Information on significant events which occurred after the end of the financial year

The Company has adopted measures to ensure the safety of its employees in compliance with local regulations and the activation of smart-working where possible.

The Company has also taken steps to ensure that employees are as productive as possible while fulfilling their duties to customers and other business partners, despite the company making use of the Salary Supplement Fund in the period between July and December 2021.

In light of the information provided in these notes and in the Directors' Report, the Board of Directors believes that the events relating to Covid-19 will not affect the Company's ability to continue as a going concern over the next 12 months.

Information on the company which prepares the consolidated financial statements for the larger/smaller set of companies which the company is a member of in a capacity as controlled undertaking

Appropriation of the profit for the year

We hereby suggest that the QuotaHolder appropriate the profit for the year Euro 531 INR/Lakhs 0,45 to legal reserve.

Final considerations

These financial statements, composed of the balance sheet, profit and loss account and notes, are a true and fair view of the company's state of affairs and economic result for the year and are in accordance with the underlying accounting records.

We invite the Quota Holder to approve the financial statements in their current form and all the single items, year.

The Chairman of the Board of Directors
Sachin Arolkar

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements to the shareholder of Mahindra and Mahindra South Africa Proprietary Limited

Opinion

We have audited the annual financial statements of Mahindra and Mahindra South Africa Proprietary Limited (the company) set out on pages herein, which comprise the statement of financial position as at 31 March 2022, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the annual financial statements, comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the annual financial statements present fairly, in all material respects, the financial position of Mahindra and Mahindra South Africa Proprietary Limited as at 31 March 2022, and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the annual financial statements section of our report. We are independent of the company in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of annual financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Mahindra and Mahindra South Africa Proprietary Limited annual financial statements for the year ended 31 March 2022", which includes the Directors' Report as required by the Companies Act of South Africa. The other information does not include the annual financial statements and our auditor's report thereon.

Our opinion on the annual financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the annual financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Annual Financial Statements

The directors are responsible for the preparation and fair presentation of the annual financial statements in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the Annual Financial Statements

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the annual financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the annual financial information of the entity or business activities to express an opinion on the annual financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

ACCOUNTING POLICIES

1. Significant accounting policies

The principal accounting policies applied in the preparation of these annual financial statements are set out below.

1.1 Basis of preparation

The annual financial statements have been prepared on the going concern basis in accordance with, and in compliance with, International Financial Reporting Standards ("IFRS") and International Financial Reporting Interpretations Committee ("IFRIC") interpretations issued and effective at the time of preparing these annual financial statements and the Companies Act of South Africa, as amended.

These annual financial statements comply with the requirements of the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and the Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council.

The annual financial statements have been prepared on the historic cost convention, unless otherwise stated in the accounting policies which follow and incorporate the principal accounting policies set out below. They are presented in Rands, which is the company s functional currency.

These accounting policies are consistent with the previous period.

1.2 Significant judgements and sources of estimation uncertainty

The preparation of annual financial statements in conformity with IFRS requires management, from time to time, to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Critical judgements in applying accounting policies

The critical judgements made by management in applying accounting policies, apart from those involving estimations, that have the most significant effect on the amounts recognised in the financial statements, are outlined as follows:

Lease classification

The company is party to leasing arrangements, both as a lessee and as a lessor. The treatment of leasing transactions in the annual financial statements is mainly determined by whether the lease is considered to be an operating lease or a finance lease. In making this assessment, management considers the substance of the lease, as well as the legal form, and makes a judgement about whether substantially all of the risks and rewards of ownership are transferred.

Key sources of estimation uncertainty

Impairment testing

The company reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. When such indicators exist, management determine the recoverable amount by performing value in use and fair value calculations. These calculations require the use of estimates and assumptions.

Useful lives and depreciation of property, plant and equipment

Management assess the appropriateness of the useful lives of property, plant and equipment at the end of each reporting period. The useful lives of all assets are determined based on company replacement policies for the various assets. Individual assets within these classes, which have a significant carrying amount are assessed separately to consider whether replacement will be necessary outside of normal replacement parameters.

Contract liabilities

The fair value of contract liabilities from service plans is management‘s best estimate of the company's future income and cost based on the estimated service cost that would occur for the selected models over a period of three to five years adjusted for inflation and possible price increases in parts and labour used in the service of the selected model.

Provision for warranties

Warranty provisions are management's best estimate of the company's liability (after the expected reimbursement from the manufacturer) on vehicles under two, three or five year warranties based on the current year warranty claims occurred. The cost per day calculated on those claims is used to estimate the future cost for the remaining warranty days under consideration.

The warranty provision has been discounted to present value and the incremental amount pertaining to the current financial year has been adjusted in cost of sales.

Fair value estimation

The fair values of financial instruments measured at amortised cost are disclosed should it be determined that the carrying value of these instruments do not reasonably approximate their value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities; or
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; or
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Recoverability of receivables

The company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix is based on historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current and forecast direction of conditions at the reporting date, including the time value of money, where appropriate. Management has incorporated the effect of COVID-19 into the assessment of the recoverability of trade receivables.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

Determination of net realisable value of inventory

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The write down is included in cost of sales.

1.3 Property, plant and equipment

An item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the company, and the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost. Cost includes all of the expenditure which is directly attributable to the acquisition or construction of the asset, including the capitalisation of borrowing costs on qualifying assets and adjustments in respect of hedge accounting, where appropriate.

Property, plant and equipment is subsequently stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation of an asset commences when the asset is available for use as intended by management. Depreciation is charged to write off the asset's carrying amount over its estimated useful life to its estimated residual value, using a method that best reflects the pattern in which the asset's economic benefits are consumed by the company. Leased assets are depreciated in a consistent manner over the shorter of their expected useful lives and the lease term. Depreciation is not charged to an asset if its estimated residual value exceeds or is equal to its carrying amount. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale or derecognised.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Computer equipment	Straight line	4 years
Computer software	Straight line	5 years
Furniture and fixtures	Straight line	3 years
Leasehold improvements	Straight line	3 years
Motor vehicles	Straight line	4 years
Motor vehicles - Held for rental	Straight line	4 years
Office equipment	Straight line	6 years
Plant and machinery	Straight line	3 years

The residual value, useful life and depreciation method of each asset are reviewed at the end of each reporting year. If the expectations differ from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each year is recognised in profit or loss unless it is included in the carrying amount of another asset.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its continued use or disposal. Any gain or loss arising from the derecognition of an item of property, plant and equipment, determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item, is included in profit or loss when the item is derecognised.

1.4 Financial instruments

Financial instruments held by the company are classified in accordance with the provisions of IFRS 9 Financial Instruments. Broadly, the classification possibilities, which are adopted by the company, as applicable, are as follows:

Financial assets which are debt instruments:

- Amortised cost. (This category applies only when the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on principal, and where the instrument is held under a business model whose objective is met by holding the instrument to collect contractual cash flows); or
- Fair value through other comprehensive income. (This category applies only when the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on principal, and where the instrument is held under a business model whose objective is achieved by both collecting contractual cash flows and selling the instruments); or
- Mandatorily at fair value through profit or loss. (This classification automatically applies to all debt instruments which do not qualify as at amortised cost or at fair value through other comprehensive income); or
- Designated at fair value through profit or loss. (This classification option can only be applied when it eliminates or significantly reduces an accounting mismatch).

Financial liabilities:

- Amortised cost; or
- Mandatorily at fair value through profit or loss. (This applies to contingent consideration in a business combination or to liabilities which are held for trading); or
- Designated at fair value through profit or loss. (This classification option can be applied when it eliminates or significantly reduces an accounting mismatch; the liability forms part of a group of financial instruments managed on a fair value basis; or it forms part of a contract containing an embedded derivative and the entire contract is designated as at fair value through profit or loss).

Note 28 Financial instruments and risk management presents the financial instruments held by the company based on their specific classifications.

Trade and other receivables

Classification

Trade and other receivables, excluding, when applicable, VAT and prepayments, are classified as financial assets subsequently measured at amortised cost.

They have been classified in this manner because their contractual terms give rise, on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding, and the company's business model is to collect the contractual cash flows on trade and other receivables.

Recognition and measurement

Trade and other receivables are recognised when the company becomes a party to the contractual provisions of the receivables. They are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost.

The amortised cost is the amount recognised on the receivable initially, minus principal repayments, adjusted for any loss allowance.

Application of the effective interest method

For receivables which contain a significant financing component, interest income is calculated using the effective interest method, and is included in profit or loss in finance income.

The application of the effective interest method to calculate interest income on trade receivables is dependent on the credit risk of the receivable as follows:

- The effective interest rate is applied to the gross carrying amount of the receivable, provided the receivable is not credit impaired. The gross carrying amount is the amortised cost before adjusting for a loss allowance.
- If a receivable is a purchased or originated as credit-impaired, then a credit-adjusted effective interest rate is applied to the amortised cost

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

in the determination of interest. This treatment does not change over the life of the receivable, even if it is no longer credit-impaired.

- If a receivable was not purchased or originally credit-impaired, but it has subsequently become credit-impaired, then the effective interest rate is applied to the amortised cost of the receivable in the determination of interest. If, in subsequent periods, the receivable is no longer credit impaired, then the interest calculation reverts to applying the effective interest rate to the gross carrying amount.

Trade and other receivables denominated in foreign currencies

When trade and other receivables are denominated in a foreign currency, the carrying amount of the receivables are determined in the foreign currency. The carrying amount is then translated to the Rand equivalent using the spot rate at the end of each reporting period. Any resulting foreign exchange gains or losses are recognised in profit or loss in other operating gains (losses).

Details of foreign currency risk exposure and the management thereof are provided in the financial instruments and risk management note.

Impairment

The company recognises a loss allowance for expected credit losses on trade and other receivables, excluding VAT and prepayments. The amount of expected credit losses is updated at each reporting date.

The company measures the loss allowance for trade and other receivables at an amount equal to lifetime expected credit losses (lifetime ECL), which represents the expected credit losses that will result from all possible default events over the expected life of the receivable.

Measurement and recognition of expected credit losses

The company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix is based on historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current and forecast direction of conditions at the reporting date, including the time value of money, where appropriate.

An impairment gain or loss is recognised in profit or loss with a corresponding adjustment to the carrying amount of trade and other receivables, through use of a loss allowance account. The impairment loss is included in other operating expenses in profit or loss as a movement in credit loss allowance.

Write off policy

The company writes off a receivable when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Receivables written off may still be subject to enforcement activities under the company recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Credit risk

Details of credit risk are included in the trade and other receivables note and the financial instruments and risk management note.

Derecognition

Refer to the derecognition section of the accounting policy for the policies and processes related to derecognition.

Any gains or losses arising on the derecognition of trade and other receivables is included in profit or loss in the derecognition gains (losses) on financial assets at amortised cost line item.

Trade and other payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Classification

Trade and other payables, excluding VAT and amounts received in advance, are classified as financial liabilities subsequently measured at amortised cost.

Recognition and measurement

They are recognised when the company becomes a party to the contractual provisions, and are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

If trade and other payables contain a significant financing component, and the effective interest method results in the recognition of interest expense, then it is included in profit or loss in interest expense.

Trade and other payables expose the company to liquidity risk and possibly to interest rate risk. Refer to note 28 for details of risk exposure and management thereof.

Trade and other payables denominated in foreign currencies

When trade payables are denominated in a foreign currency, the carrying amount of the payables are determined in the foreign currency. The carrying amount is then translated to the Rand equivalent using the spot rate at the end of each reporting period. Any resulting foreign exchange gains or losses are recognised in profit or loss in the other operating gains (losses).

Details of foreign currency risk exposure and the management thereof are provided in the financial instruments and risk management note.

Derecognition

Refer to the "derecognition" section of the accounting policy for the policies and processes related to derecognition.

Cash and cash equivalents

Cash and cash equivalents are stated at carrying amount which is deemed to be fair value and are subsequently measured at amortised cost.

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These are initially and subsequently recorded at fair value.

Bank overdrafts

Bank overdrafts are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Derecognition

Financial assets

The company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the company retains substantially all the risks and rewards of ownership of a transferred financial asset, the company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

Financial liabilities

The company derecognises financial liabilities when, and only when, the company obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

1.5 Tax

Current tax assets and liabilities

Current is based on taxable profit for the year.

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

Current tax liabilities (assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the tax authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities

A deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. A deferred tax asset is not recognised when it arises from the initial recognition of an asset or liability in a transaction at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

No transactions giving rise to the exceptions relating to the recognition of deferred tax liabilities and assets were concluded.

A deferred tax asset is recognised for the carry forward of unused tax losses to the extent that it is probable that future taxable profit will be available against which the unused tax losses can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Tax expenses

Current and deferred taxes are recognised as income or an expense and included in profit or loss for the period, except to the extent that the tax arises from:

- a transaction or event which is recognised, in the same or a different period, to other comprehensive income, or
- a business combination.

Current tax and deferred taxes are charged or credited to other comprehensive income if the tax relates to items that are credited or charged, in the same or a different period, to other comprehensive income.

Current tax and deferred taxes are charged or credited directly to equity if the tax relates to items that are credited or charged, in the same or a different period, directly in equity.

1.6 Leases

The company assesses whether a contract is, or contains a lease, at the inception of the contract.

A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

In order to assess whether a contract is, or contains a lease, management determine whether the asset under consideration is "identified", which means that the asset is either explicitly or implicitly specified in the contract and that the supplier does not have a substantial right of substitution throughout the period of use. Once management has concluded that the contract deals with an identified asset, the right to control the use thereof is considered. To this end, control over the use of an identified asset only exists when the company has the right to substantially all of the economic benefits from the use of the asset as well as the right to direct the use of the asset.

In circumstances where the determination of whether the contract is or contains a lease requires significant judgement, the relevant disclosures are provided in the significant judgments and sources of estimation uncertainty section of these accounting policies.

Company as lessee

A lease liability and corresponding right-of-use asset are recognised at the lease commencement date, for all lease agreements for which the company is a lessee, except for short-term leases of 12 months or less, or leases of low value assets. For these leases, the company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Details of leasing arrangements where the company is a lessee are presented in the Lease liability note.

Lease liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the company uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed lease payments, including in-substance fixed payments, less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the company under residual value guarantees;
- the exercise price of purchase options, if the company is reasonably certain to exercise the option;
- lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option; and
- penalties for early termination of a lease, if the lease term reflects the exercise of an option to terminate the lease.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability (or right-of-use asset). The related payments are recognised as an expense in the period incurred and are included in operating expenses.

The lease liability is presented as a separate line item on the Statement of Financial Position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect lease payments made. Interest charged on the lease liability is included in interest expense.

The company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) when:

- there has been a change to the lease term, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;
- there has been a change in the assessment of whether the company will exercise a purchase, termination or extension option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

- there has been a change to the lease payments due to a change in an index or a rate, in which case the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used);
- there has been a change in expected payment under a residual value guarantee, in which case the lease liability is remeasured by discounting the revised lease payments using the initial discount rate;
- a lease contract has been modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised payments using a revised discount rate.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of- use asset, or is recognised in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Right-of-use assets

Right-of-use assets are presented as a separate line item on the Statement of Financial Position.

The right-of-use asset is initially measured at cost which comprise the following:

- the initial amount of the corresponding lease liability;
- any lease payments made at or before the commencement date;
- any initial direct costs incurred;
- any estimated costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, when the company incurs an obligation to do so, unless these costs are incurred to produce inventories; and
- less any lease incentives received.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. However, if a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. Depreciation starts at the commencement date of a lease.

For right-of-use assets which are depreciated over their useful lives, the useful lives are presented in the following table:

Item	Depreciation method	Average useful life
Buildings and infrastructure	Straight line	Over the lease term

The residual value, useful life and depreciation method of each asset are reviewed at the end of each reporting year. If the expectations differ from previous estimates, the change is accounted for prospectively as a change in accounting estimate. Each part of a right-of-use asset with a cost that is significant in relation to the total cost of the asset is depreciated separately.

The depreciation charge for each year is recognised in profit or loss unless it is included in the carrying amount of another asset.

Company as lessor

Leases for which the company is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. Lease classification is made at inception and is only reassessed if there is a lease modification.

Operating leases

Lease payments from operating leases are recognised on a straight-line basis over the term of the relevant lease, or on another systematic basis if that basis is more representative of the pattern in which the benefits form the use of the underlying asset are diminished. Operating lease income is included in other operating income.

Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and are expensed over the lease term on the same basis as the lease income.

Modifications made to operating leases are accounted for as a new lease from the effective date of the modification. Any prepaid or accrued lease payments relating to the original lease are treated as part of the lease payments of the new lease.

1.7 Inventories

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the entity.

1.8 Impairment of assets

The company assesses at each end of the reporting period whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the company also:

- tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period and at the same time every period.
- tests goodwill acquired in a business combination for impairment annually.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash-generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in profit or loss.

An entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets other than goodwill may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset other than goodwill attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation other than goodwill is recognised immediately in profit or loss.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

1.9 Share capital and equity

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Ordinary shares are classified as equity.

1.10 Employee benefits

Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of profit sharing and bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

Defined contribution plans

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

1.11 Provisions and contingencies

Provisions are recognised when:

- the company has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the present value of the expenditure expected to be required to settle the obligation.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement shall be recognised when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement shall be treated as a separate asset. The amount recognised for the reimbursement shall not exceed the amount of the provision.

Provisions are not recognised for future operating losses.

If an entity has a contract that is onerous, the present obligation under the contract shall be recognised and measured as a provision.

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
  - the business or part of a business concerned;
  - the principal locations affected;
  - the location, function, and approximate number of employees who will be compensated for terminating their services;
  - the expenditures that will be undertaken; and
  - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

After their initial recognition contingent liabilities recognised in business combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised.

1.12 Revenue from contracts with customers

Revenue comprises consideration received or receivable on contracts entered into with customers for the sale of goods and services in the ordinary course of the entities' activities. The performance obligation is identified as the distinct goods and services as agreed in the contract(s). Revenue is shown net of trade discounts, volume rebates and value added tax and is recognised when the entity satisfies its' performance obligations as set out in the contracts entered into with its customers. Revenue is recognised at the amount of the transaction price that is allocated to each performance obligation and this is determined at the amount as depicted in the contract for the exchange of the goods and services. Where a contract has multiple performance obligations, the transaction price is allocated to the performance obligations in the contract by reference to their relative standalone selling prices.

The principles of IFRS 15 are applied using the following five-step model:

- Identify the contract(s) with a customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contract
- Recognise revenue when (or as) the entity satisfies a performance obligation.

Revenue streams

- Sale of spares
- Sales of vehicles
- Sale of service plan
- Sale of agricultural produce
- Sale of construction equipment
- Commission income and recoveries

Revenue is recognised when an entity satisfies a performance obligation as control is passed, either over time or at a point in time. The above revenue is recognised at a point in time, except for Service plans which is recognised over time. Service Plan is recognised by reference to the stage of completion of the transaction at the end of the reporting period.

Contract liabilities relates to Service Plan Revenue and is reflected under Liabilities in the Statement of Financial Position. Amounts not yet invoiced, for which revenue has been recognised are reflected under trade and other receivables.

Costs incurred on assembly of vehicles which do not yet meet the revenue recognition criteria are capitalised to inventories as work-in-progress and are expensed when the five principles of IFRS 15 are met

Interest is recognised, in profit or loss, using the effective interest rate method.

1.13 Cost of sales

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The related cost of providing services recognised as revenue in the current period is included in cost of sales.

1.14 Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred. No borrowing costs were capitalised to any assets during the financial year.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

1.15 Translation of foreign currencies

Foreign currency transactions

A foreign currency transaction is recorded, on initial recognition in Rands, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At the end of the reporting period:

- foreign currency monetary items are translated using the closing rate;
- non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous annual financial statements are recognised in profit or loss in the period in which they arise.

Cash flows arising from transactions in a foreign currency are recorded in Rands by applying to the foreign currency amount the exchange rate between the Rand and the foreign currency at the date of the cash flow.

1.16 Levies

IFRIC 21 addresses the issue of when to recognise a liability to pay a levy. The Interpretation defines a levy, and specifies that the obligating event that gives rise to the liability is the activity that triggers the payment of the levy, as identified by legislation. The Interpretation provides guidance on how different levy arrangements should be accounted for, in particular, it clarifies that neither economic compulsion nor the going concern basis of financial statements preparation implies that an entity has a present obligation to pay a levy that will be triggered by operating in a future period. The company has inventory stored in a bonded warehouse where duties, levies and taxes are due once the inventory leaves the bonded warehouse, or 24 months, whichever are earlier.

2. New Standards and Interpretations

2.1 Standards and interpretations effective and adopted in the current year

In the current year, the company has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• Interest Rate Benchmark Reform Phase 2: Amendments to IFRS 4	01 January 2021	The impact of the amendments is not material.
• Interest Rate Benchmark Reform Phase 2: Amendments to IFRS 7	01 January 2021	The impact of the amendments is not material.
• Interest Rate Benchmark Reform Phase 2: Amendments to IFRS 9	01 January 2021	The impact of the amendments is not material.
• Interest Rate Benchmark Reform Phase 2: Amendments to IFRS 16	01 January 2021	The impact of the amendments is not material.
• Interest Rate Benchmark Reform Phase 2: Amendments to IAS 39	01 January 2021	The impact of the amendments is not material.
• COVID 19 Related Rent Concessions Amendment to IFRS 16	01 June 2020	The impact of the amendments is not material.

2.2 Standards and interpretations not yet effective

The company has chosen not to early adopt the following standards and interpretations, which have been published and are mandatory for the company's accounting periods beginning on or after 01 April 2022 or later periods:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• Deferred tax related to assets and liabilities arising from a single transaction Amendments to IAS 12	01 January 2023	Unlikely there will be a material impact
• Disclosure of accounting policies: Amendments to IAS 1 and IFRS Practice Statement 2.	01 January 2023	Unlikely there will be a material impact
• Definition of accounting estimates: Amendments to IAS 8	01 January 2023	Unlikely there will be a material impact
• Classification of Liabilities as Current or Non Current Amendment to IAS 1	01 January 2023	Unlikely there will be a material impact
• Annual Improvement to IFRS Standards 2018 2020: Amendments to IFRS 1	01 January 2022	Unlikely there will be a material impact
• Reference to the Conceptual Framework: Amendments to IFRS 3	01 January 2022	Unlikely there will be a material impact

Property, plant and equipment encumbered as security

The property, plant and equipment have been encumbered as security per note 29.

4. **Right-of-use assets**

The company leases various buildings as the need arises. Lease contracts are typically made for fixed periods between 3 years to 5 years. Lease contracts are negotiated on an individual basis and contain a wide range of different terms and conditions.

The company does not have the option to purchase the plant at a nominal amount on completion of the lease term.

The lease contracts do not impose any covenants.

Details pertaining to leasing arrangements, where the company is lessee are presented below:

	2022			2021		
	Gross carrying amount	Accumulated depreciation	Net carrying amount	Gross carrying amount	Accumulated depreciation	Net carrying amount
Buildings and infrastructure	10,316,018	(5,311,160)	5,004,858	10,796,970	(4,213,572)	6,583,398

Reconciliation of right-of-use assets - 2022

	Opening balance	Additions	Modification	Other adjustments	Depreciation	Total
Buildings and infrastructure	**6,583,398**	**1,028,655**		**5,714**	**(2,612,909)**	**5,004,858**

Reconciliation of right-of-use assets - 2021

	Opening balance	Additions	Modification	Other adjustments	Depreciation	Total
Buildings and infrastructure	**8,214,229**		**1,423,403**	**(1,149,160)**	**(1,905,074)**	**6,583,398**

5. **Investment in subsidiary**

Name of company	% holding 2022	% Holding 2021	Carrying Amount 2022	Carrying Amount 2021
199,999 shares held in Mahindra West Africa Limited	99.99 %	99.99 %	3,014,200	3,014,200
			3,014,200	3,014,200
Impairment of investment in subsidiary			(3,014,200)	(3,014,200)

The company has a subsidiary in Nigeria named Mahindra West Africa Limited. The subsidiary used to focus on market development in the Automotive and Farm Sector apart from business development of Powerol Gensets and Heavy commercial vehicles in the Western African region. Post the COVID 19 pandemic, Mahindra India decided to discontinue their presence in the West Africa market. They terminated the service agreement in June 2020. Mahindra West Africa, thereafter, worked on relocation of its employees and cost reductions. A decision was then taken, in the prior year, by the Mahindra West Africa board of directors to voluntarily liquidate the company. The process of liquidation is ongoing. Accordingly, the investment in Mahindra West Africa Limited remains impaired.

6. **Retirement benefits**

Defined contribution plan

It is the policy of the company to provide retirement benefits to all its employees. A defined contribution provident fund which is subject to the Pensions Fund Act exists for this purpose. The scheme is funded by company and employee contributions only, which are charged to the income statement as they are incurred. The total company contributions to such scheme in 2022 was R2 273 134 (2021: R2 153 983).

The company is under no obligation to cover any unfunded benefits.

7. **Deferred tax**

Deferred tax liability

Deferred tax asset

	2022	2021
	R	R
Deferred revenue less Section 24C allowance	**994,581**	1,100,655
Lease liabilities	**1,266,213**	1,741,320
Prepaid expenses	**(69,659)**	73,776
Property, plant and equipment	**633,661**	885,994
Provisions	**28,338,469**	22,907,624
Right-of-use assets	**(1,087,131)**	(1,564,600)
Total deferred tax asset	**30,076,134**	**25,144,769**

NOTES TO FINANCIAL STATEMENTS (Contd.)

Reconciliation of deferred tax asset

	2022 R	2021 R
At beginning of year	**25,144,769**	18,923,193
Taxable / (deductible) temporary difference on interest on deferred revenue	**(106,074)**	(339,314)
Taxable / (deductible) temporary difference on lease liabilities	**(475,107)**	(286,974)
Taxable / (deductible) temporary difference on prepaid expenses	**(143,435)**	29,948
Taxable / (deductible) temporary difference on property, plant and equipment	**(252,333)**	(262,958)
Taxable / (deductible) temporary difference on provisions	**5,430,845**	6,712,859
Taxable / (deductible) temporary difference on right-of-use assets	**477,469**	368,015
	30,076,134	**25,144,769**

The deferred tax assets and the deferred tax liability relate to income tax in the same jurisdiction, and the law allows net settlement. Therefore, they have been offset in the statement of financial position.

Management expects sufficient future taxable income in the company to enable the company to realise the deferred tax asset.

8. Inventories

	2022 R	2021 R
Agricultural produce	**3,638,842**	3,912,354
Goods in transit	**118,398,481**	44,596,877

Spares	**66,990,291**	52,898,161
	539,681,715	156,410,889
Provision for write down of inventories to net realisable value - motor vehicles, spares and agricultural produce	**(12,834,719)**	(10,577,309)
	526,846,996	**145,833,580**

Inventory pledged as security

Inventories were pledged as security for overdraft facilities of the company. Refer to note 29 for full details on the facilities granted to the company.

9. Trade and other receivables

	2022 R	2021 R
Financial instruments:		
Trade receivables	**68,960,954**	41,917,990
Deposits	**3,503,159**	1,205,040
Non-financial instruments:		
Prepayments	**6,523,004**	9,120,564
VAT	**12,254,749**	420,379
Total trade and other receivables	**91,241,866**	52,663,973

Financial instrument and non-financial instrument components of trade and other receivables

	2022 R	2021 R
At amortised cost	**72,464,113**	43,123,030
Non-financial instruments	**18,777,753**	9,540,943
	91,241,866	52,663,973

Trade and other receivables pledged as security

Trade and other receivables were pledged as security for overdraft facilities of the company. Refer to note 29 for full details on the facilities granted to the company.

Exposure to credit risk

Trade receivables inherently expose the company to credit risk, being the risk that the company will incur financial loss if customers fail to make payments as they fall due.

In order to mitigate the risk the company deals with reputed banks and customers and also demands bank guarantees or purchase credit insurance where applicable.

There have been no significant changes in the credit risk management policies and processes since the prior reporting period.

The average credit period on trade receivables is 9 days (2021: 11 days). No interest is charged on outstanding trade receivables.

The Company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix has been applied to appropriate groupings of receivables based on shared credit risk characteristics. There is no material expected credit losses on application of the provision matrix for the businesses. The negative outlook and cash flow difficulties experienced by customers as a result of COVID 19 has been factored into the entity's forecasts of future conditions.

Furthermore, the company writes off a receivable where there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery. Receivables written off may still be subject to enforcement activities under the company recovery procedure, considering legal advice where appropriate. In the current year there has been no receivables that have been written-off.

Fair value of trade and other receivables

The fair value of trade and other receivables approximates their carrying amounts.

10. Cash and cash equivalents

	2022 R	2021 R
Cash and cash equivalents consist of:		
Cash on hand	**122,752**	92,033
Bank balances	**214,399,372**	234,961,925
	214,522,124	235,053,958

There is a cession amounting to R125 139 (2021: R125 139) relating to the First National Bank Account (Account number: 74865277774).

The carrying amount of cash and cash equivalents reasonably approximates its fair value.

All cash balances are placed with reputable financial institutions which have positive credit ratings. Therefore, there is no significant credit risk associated with cash and cash equivalents.

11. Share capital

	2022 R	2021 R
Authorised		
70,000,000 Ordinary shares with no par value	**70,000,000**	70,000,000
Describe any changes in authorised share capital e.g. Conversion to net present value shares.		
Reconciliation of number of shares issued:		
Reported as at 01 April 2021	**52,000,000**	52,000,000
Issued		
52,000,000 Ordinary shares with no par value	**52,000,000**	52,000,000

NOTES TO FINANCIAL STATEMENTS (Contd.)

12. Foreign currency translation reserve

The Kenya Branch operations in Shilling has been translated to ZAR based on the exchange rate. The foreign currency reserve is a result of the foreign currency translation.

	2022	2021
	R	R
Kenya Branch operations	**(16,599,699)**	(16,524,103)

13. Lease liabilities

	2022	2021
	R	R
The maturity analysis of lease liabilities is as follows:		
- within one year	**2,373,580**	2,372,851
- in second to fifth year inclusive	**3,353,498**	4,918,671
	5,727,078	7,291,522
The lease liability classification at year end is as follows:		
Non-current liabilities	**3,353,498**	4,918,671
Current liabilities	**2,373,580**	2,372,851
	5,727,078	**7,291,522**

The lease liability relates to the right-of-use assets disclosed under note 4.

The company leases various buildings as the need arises under operating leases.

Lease contracts are typically made for fixed periods between 3 years and 5 years.

Interest is based on the incremental borrowing rate of 10.25%.

An incremental borrowing rate of 9.30% was applied to leases that have been previously modified.

	2022	2021
	R	R
Analysis of movement in lease liabilities		
Balance on 01 April 2021	**7,291,522**	8,602,065
New leases	**1,028,655**	
Lease modifications		1,423,403
Foreign Currency Translation Reserve	**(15,700)**	(228,547)
Capital repayments	**(2,577,399)**	(2,505,399)
- Lease payments	**(3,163,509)**	(3,214,033)
- Interest charges	**586,110**	708,634
Balance on 31 March 2022	**5,727,078**	7,291,522

For details of the exposure to liquidity risk related to finance lease liabilities, as well as the maturity analysis of the gross amounts payable, refer to note 28.

14. Contract liabilities

	2022	2021
	R	R
Summary of contract liabilities		
Service plan	**151,991,770**	116,583,415
Reconciliation of contract liabilities		
Opening balance	**116,583,415**	106,647,706
Raised in current year	**85,447,159**	53,561,544
Revenue in current year	**(50,038,804)**	(43,625,835)
	151,991,770	116,583,415
Split between non-current and current portions		
Non-current liabilities	**101,381,860**	73,426,556
Current liabilities	**50,609,910**	43,156,859
	151,991,770	**116,583,415**

Nature: Certain vehicles are sold with a service plan. This service plan then covers certain services for a predetermined number of years and kilometres travelled. The income from these service plans is deferred and recognised as these services are performed.

Assumptions: The fair value of contract liabilities from service plans is management's best estimate of the company's future income and cost based on the estimated service cost that would occur for the selected models over a period of three to five years adjusted for inflation and possible price increases in parts and labour used in the service of the selected model.

15. Provisions

Reconciliation of provisions – 2022

	Opening balance	Additions	Utilised during the year	Change in discount factor	Total
Provision for warranty claims	**76,955,238**	**67,298,216**	**(51,559,761)**	**6,307,956**	**99,001,649**

Reconciliation of provisions – 2021

	Opening balance	Additions	Utilised during the year	Change in discount factor	Total
Provision for warranty claims	55,053,637	44,272,035	(23,854,706)	1,484,272	76,955,238
Non-current liabilities				54,025,159	45,074,838
Current liabilities				44,976,490	31,880,400
				99,001,649	**76,955,238**

Nature: This provision is raised due to the fact that certain vehicles, Gensets and Tractors sold are sold under a warranty, thus this provision estimates cost that would occur in the future for repairs under warranties.

Assumptions: Warranty provisions are managements best estimate of the company's liability (after the expected reimbursement from the manufacturer) on vehicles under two or three year warranties based on three years actual historical sales and warranty claims occurred. The arranty period for Gensets and Tractors being a twelve month period from date of sale.

Further, the warranty provision has been discounted to present value and the incremental amount pertaining to the current financial year has been adjusted in cost of sales.

NOTES TO FINANCIAL STATEMENTS (Contd.)

16. Trade and other payables

	2022	2021
	R	R
Financial instruments:		
Accrued expenses	**43,302,861**	35,405,528
Accrued leave pay	**2,903,031**	2,345,662
Other payables	**1,431,296**	1,710,349

Non taxable operations Kenya	**(341,932)**	(143,272)
Change in tax rate from 28% to 27% relating to deferred tax	**1,113,931**	
	24,340,616	10,340,771

In February 2022, numerous changes to the tax law were enacted in South Africa, including a decrease in the corporate tax rate from 28% to 27% for years of assessment ending on or after 31 March 2023. The entity therefore, recognised the deferred tax balance at 27%. This resulted in the above R1 113 931 reduction in the deferred tax asset balance.

Capital risk management

The company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

Financial risk management

Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The company's exposure to credit risk is limited to the carrying amount of financial assets recognised at the balance sheet date.

The maximum exposure to credit risk is presented in notes 9 and 10.

Liquidity risk

The company manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long term financial liabilities as well as cash outflows due in day to day business. Liquidity needs are monitored in various time bands, on a day to day and week to week basis, as well as on the basis of a rolling 30 day projection. Short term liquidity needs for a 120 day or less are identified monthly.

Funding in regards to long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities.

The company has contractual maturities which are summarised below:

31 March 2022	Current	Within 6 months	Within 1 year	2 - 5 years
Trade and other payables	485,995,113	483,817,840		
Lease liabilities contractual maturities			2,225,980	3,837,684
	485,995,113	**483,817,840**	**2,225,980**	**3,837,684**

31 March 2021	Current	Within 6 months	Within 1 year	2 - 5 years
Trade and other payables	191,140,251	189,381,005		
Lease liabilities contractual maturities			4,196,921	6,133,897
	191,140,251	**189,381,005**	**4,196,921**	**6,133,897**

The above contractual maturities reflect the gross cash flows, which may differ to the carrying values of the liabilities at the reporting date.

Foreign currency risk

Most of the company's transactions are carried out in Rands. Exposure to currency exchange rates arise from the operations in Kenya, as well as the company's overseas purchases and sea freight, which are primarily denominated in US Dollars.

Foreign currency denominated financial assets and liabilities, translated in Rands at the closing rate, are as follows:

NOTES TO FINANCIAL STATEMENTS (Contd.)

Foreign currency exposure at the end of the reporting period

		2022 R	2021 R
Assets (Included in Trade and other receivables and Cash and cash equivalents)			
Ameriworld International Limited (2022: USD 41 579; 2021: USD 227 721)		**602,836**	3,398,341
Bank balance (2022: USD 170 232 EGP 280 000 KES 1 217 113; 2021: USD 692 353 EGP 280 000 KES 63 367)		**2,841,850**	11,059,067
Mahindra and Mahindra Limited (2022: USD 490 822; 2021: USD 433954)		**7,116,134**	6,476,026
Liabilities (Included in Trade and other payables)			
Bidvest Panalpina (2022: USD 829 769; 2021: USD 135 700)		**12,030,323**	2,025,092
Deloitte India (2022: USD 10 200; USD 0)		**147,884**	
Erkunt (2022: Euro 98 798; 2021 Euro 0)	16	**1,595,126**	
Hoegh Autoliners (2022: USD 318 637; 2021: USD 96 487)		**4,619,733**	1,439,900
Mahindra and Mahindra Limited (2022: USD 443 531; 2021: USD 211 064)		**6,430,499**	3,149,768
Savino Del Bene (2022: USD 0; 2021: USD 300)			4,474

Foreign currency sensitivity

The following table illustrates the sensitivity of the net result for the year and equity in regards to the company s financial assets and financial liabilities and the US Dollar Rand exchange rate.

It assumes a +6.8% and 6.4% change of the Rand / US Dollar exchange rate for the year ended 31 March 2022 (2021: +13.56% and 9.71%). This has been determined based on the average market volatility in exchange rates in the previous 12 months. The sensitivity analysis is based on the company s foreign currency financial instruments held at balance sheet date and also takes into account forward exchange contracts that offset effects from changes in currency exchange rates.

If the Rand had weakened against the US Dollar by 6.8% (2021: 13.56%) then this would have had the following impact:

	2022 R	2021 R
Net results for the year	**974,838**	1,944,712

If the Rand had strengthened against the US Dollar by 6.4% (2021: 9.71%) then this would have had the following impact:

	2022 R	2021 R
Net results for the year	**(913,175)**	**(1,389,995)**

Exposure to foreign exchange rates vary during the year depending on the volumes of overseas transactions. Nonetheless, the analysis above is considered to be representative of the company s exposure to currency risk.

Interest rate risk

The following table illustrates the sensitivity of the net result for the year and equity to a reasonably possible change in interest rates of +2% and 2% (2021: +2% and 2%), with effect from the beginning of the year. These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on the company s financial instruments held at each balance sheet date. All other variables are held constant.

	2022	2022	2021	2021
Net results for the year	**1,426,137**	**(1,426,137)**	1,805,887	(1,805,887)

29. Banking facilities

The company avails credit facilities from ICICI Bank which has sanctioned a ZAR facility of R 100 million (2021: R 100 million with ICICI Bank) for working capital borrowings. At the year end, the company has utilised R Nil of the facility from ICICI Bank. (2021: R Nil).

The above facility has been secured as follows:

- General notarial bond on all present and future moveable assets of the Company including inventory, whether in company's showroom, warehouse or in transit but excluding book debts.
- An unrestricted cessation of all present and future book debts due or to become due.

30. Going concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business. The entity has maintained a net asset position and holds sufficient funds to finance future operations. In the current year, COVID 19 has not adversely affected the going concern status of the entity and its operations.

31. Events after the reporting period

The directors are not aware of any material event which occurred after the reporting date and up to the date of this report.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Mahindra North American Technical Center, Inc.

Opinion

We have audited the accompanying financial statements of Mahindra North American Technical Center, Inc. ('the Company') which comprise the balance sheets as of March 31, 2022, and March 31, 2021, the related statements of loss, stockholder's equity and cash flows for the years ended and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2022, and March 31, 2021, and the results of its operations and its cash flows for the years ended in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other matter

The presentation of financial information in Indian rupees in the financial statements is not a required part of the basic financial statements. We have verified the arithmetic accuracy of the presentation based upon the exchange rate provided by the Company's management. We did not audit and do not express an opinion on such information. Our opinion is not modified with respect to this matter.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the date the financial statements are issued.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO FINANCIAL STATEMENTS

NOTE A – ORGANIZATION AND NATURE OF OPERATIONS

Mahindra North American Technical Center, Inc. (hereinafter referred to as the "Company") was incorporated in the state of Delaware on December 18, 2013 and is a wholly owned subsidiary of Mahindra Automotive North America, Inc. ("MANA"). The Company engineers, designs, develops, assembles, and delivers parts and vehicles to the global automotive market, both for on and off-road use, as an Original Equipment Manufacturer ("OEM") headquartered in Auburn Hills, MI.

Ownership of the Company changed on April 30, 2017 when 100% of its stock was acquired by MANA from Mahindra USA, Inc. ("MUSA").

In Michigan, when engaged in automotive manufacturing activities, the Company does business as ("d/b/a") Mahindra Automotive North America Manufacturing ("MANAM"). MANAM produces ROXOR, an off-road side-by-side vehicle. MANAM shipped 602 vehicles during the fiscal year ended March 31, 2022.

The Company was engaged in litigation with FCA US, LLC over FCA's claims relating to unregistered "trade dress" of FCA's Jeep branded vehicles both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company's ROXOR off-road utility vehicle violated the "trade dress" of FCA's Jeep branded vehicle. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease and desist order was effective from August 11, 2020.

The cease-and desist order relates to the prohibition of marketing, sale, importation, and manufacturing of the model year 2018, 2019 and 2020 ROXOR off-road vehicle by the Company in the United States of America ("US"). The impact of the order on the operations of the Company was significant. The Company was unable to market, import, build or sell ROXORs in the US beginning on or about August 12, 2020. However, the Company could sell ROXORs in Canada since the limited exclusion order prohibited the Company from sale of its vehicles only in the US. Given the impact of the ruling on the operations, the Company did not pursue most of the opportunities since the cost incurred to sell the product would have been too high. Due to the pause in the business along with the onset of COVID-19, the Company furloughed employees and also terminated relationships with few other stakeholders. Per the cease-and desist order since the Company could not carry out marketing activities as well, it had to engage in significant efforts to modify its website and notify its marketing partners for not honoring few contracts.

During the year ended March 31, 2021, the Company performed and prepared expedited proceedings to allow a significantly re-designed ROXOR to be excluded from the cease-and desist order. On October 20, 2020, the Administrative Law Judge ("ALJ") found that the re-designed ROXOR does not violate any trade dress and recommended that the re-designed ROXOR be excluded from the cease-and desist order. On December 22, 2020, the ITC agreed with the ALJ and ruled that the re-designed ROXOR is excluded from the cease-and desist order. FCA in February 2021, shared the "notice to appeal" to the court for review of the final determination of the ITC's exclusion of re-designed ROXOR from the cease-and-desist order. FCA's appeal did not prevail per a decision from the Court of Appeals on March 09, 2022. Therefore, the ITC's decisions for allowing the sale of redesigned ROXOR remains valid.

During the year ended March 31, 2022, the Company launched the redesigned ROXOR and started selling the redesigned ROXOR from November 2021 in the United States and Canada. Before the cease-and-desist order, the Company used to sell and distribute parts and vehicles to the distributors and dealers (collectively "dealerships") through its affiliate company Mahindra Vehicle Sales and Services, Inc ("MVSS") to its customers. However, effective September 01, 2021, the Company entered into the Distribution Agreement ("the agreement") with Mahindra USA Inc. ("MAgNA") to distribute the ROXOR as well as its parts and accessories and services relating thereto (collectively with the ROXOR, the "Products") under the brand name Mahindra and/or ROXOR through MAgNA's dealership network.

Pursuant to the terms of the agreement, the Company will act as a principal in the sale transaction and the agreement includes the following provisions.

- The distribution agreement is applicable throughout the United States and Canada ("the Territory").
- The Company agrees to sell to MAgNA all of the Products, as forecasted and ordered by MAgNA at prices as determined in the terms of the agreement.
- MAgNA shall promote, advertise, merchandise, sell and service the Products in the Territory in a manner consistent with the current sales efforts utilized by MAgNA and in connection therewith.
- All Products shall be sold ex-works by the Company to a destination identified by MAgNA.
- The parties acknowledge that the Company is the exclusive owner of all Mahindra Trademarks. The Company granted MAgNA a non-transferable, royalty-free license to use Mahindra Trademarks solely in connection with the sale and distribution of the Products. MAgNA shall use Mahindra Trademarks only in accordance with the directions, standards and requirements established by the Company from time to time. MAgNA shall not be entitled to use Mahindra Trademarks on any Products other than Products sold under the agreement.
- The Company warrants the Product through limited warranties that are ultimately provided to the end customer purchaser of the Product.

The Company continues to supply the accessories and service parts to its affiliate, MVSS to honor the warranty or product liability on sales made through MVSS before the cease-and-desist order.

NOTE B – ASSET PURCHASE AGREEMENT

On September 30, 2020, the Company purchased the inventory and property and equipment from Mahindra Tractors Assembly Inc. ("MTAI" or "GenZe"). The Company also receives a royalty free license to use GenZe's trademark, patent copyright, trade secrets or proprietary rights of MTAI to the extent owned by MTAI or licensed by MTAI from third parties. The Company is also authorized to access and operate websites owned and operated by GenZe. The aggregate purchase amount paid by MANA was USD 200,000 (INR 15,144,000). When accounting for transfers of assets between entities under common control, using the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 805-50-30, the entity that receives the net assets is required to measure the recognized assets and liabilities transferred at their carrying amounts in the accounts of the transferring entity at the date of the transfer.

NOTE C – GOING CONCERN EVALUATION

Due to the cease-and desist order, the Company could not conduct any sale of ROXOR along with its kit and assemblies in the US from August 12, 2020 and had to redesign the ROXOR. The Company started selling the redesigned ROXOR effective November 2021. The Company has reported loss amounting to USD 14,270,141 (INR 1,080,535,076) and USD 25,676,942 (INR 1,944,258,048) for the years ended March 31, 2022, and March 31, 2021, respectively. This has resulted in an accumulated deficit of USD 61,847,606 (INR 4,683,100,726) as at March 31, 2022 and USD 47,577,465 (INR 3,602,565,650) as at March 31, 2021. Although, these events and condition cast significant doubt on the Company's ability to continue as a going concern, in view of the continued support from the ultimate parent company, the management considers that it is appropriate to prepare these financial statements on a going concern basis, which assumes that the Company will continue in operational existence for the foreseeable future. The Company has received funding from its parent company amounting to USD 6,350,000 (INR: 480,822,000) and USD 33,350,000 (INR 2,525,262,000) during the year ended March 31, 2022, and March 31, 2021, respectively, for meeting the cash flow requirements. To revive its operations, through the sale of redesigned ROXOR, the Company has entered into the agreement with MAgNA to sell and distribute ROXOR and its parts through MAgNA's dealership network. Additionally, the other plans of the management to mitigate the adverse effects, inter alia are as follows:

1) Reviving its business operations through organizational restructuring and right sizing.
2) New business development plans for the marketing of redesigned ROXOR and to make the Company business profitable.
3) Obtain capital financing from 'Mahindra Overseas Investment Company Mauritius Limited', the parent company, to meet near term working capital requirements.
4) Obtain a commitment from the parent company to continue to provide financial support and honor the Company's future obligations.

Based on the above mitigating factors, the financial statements have been prepared on the basis that the Company is a going concern and that no adjustments are required to the carrying value of assets and liabilities.

NOTE D – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. *Basis of preparation*

   a. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ("US GAAP") to reflect the financial position, results of operation and cash flows of the Company.

   b. The financial statements are for the fiscal years ended March 31, 2022, and March 31, 2021.

   c. Financial information in this report is in US dollars ("USD") and in Indian rupees ("INR"). For the fiscal years ended March 31, 2022, and March 31, 2021, dollar amounts are translated for convenience into Indian rupees at an exchange rate of 75.72 INR per dollar as on March 31, 2022. Within the notes to the financial statements, Indian rupee amounts are shown parenthetically following the U.S. dollar amounts.

   d. Certain reclassifications, regroupings and reworking have been made in the financial statements of prior year to conform to the classifications used in the current year. These changes had no impact on previously reported net loss or stockholder's equity.

2. *Use of estimates*

   The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affects the amounts reported in the financial statements. Significant items subject to such estimates and assumptions include the useful lives of plant, property and equipment, provision for inventory obsolescence, slow moving and non-moving items, valuation allowance for deferred tax assets and other contingencies. Management believes that the estimates used in the preparation of the financial statements are reasonable. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the financial statements.

3. *Cash and cash equivalents*

   The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate per bank of USD 250,000 (INR 18,930,000). The Company believes it is not exposed to any significant risk on cash and cash equivalents.

4. *Inventories*

   Raw materials, work in progress and finished goods inventories are stated at the lower of cost and net realizable value, with cost being determined on a weighted average basis. The measurement of inventories includes the direct cost of materials and labor as well as indirect costs (variable and fixed). A provision is made for obsolete and slow-moving raw materials, finished goods, spare parts and other supplies based on their expected future use and realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs for sale and distribution.

   The Company makes additional adjustments to its inventory reserves based on the identification of specific situations and increases its inventory reserves accordingly. As further changes in future economic or industry conditions occur, the Company will revise the estimates that were used to calculate its inventory reserves. During the year ended March 31, 2021, due to the cease and desist order, the Company was prohibited from selling its 2018, 2019 and 2020 ROXOR model in the US, and considering this the Company created additional inventory reserve.

5. *Income taxes*

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due, plus deferred taxes related primarily to differences between the basis of certain assets and liabilities for financial and tax reporting. The deferred taxes represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled, respectively.

The Company has determined whether any tax positions have met the recognition threshold and has measured the Company's exposure to those tax provisions. Management believes that the Company has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state taxing authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties from federal and state taxing authorities were recorded in the accompanying financial statements.

6. *Revenue recognition*

<u>Sale of manufactured goods</u>

The Company recognizes revenues from sale of manufactured ROXOR off-road side by side vehicles and their related accessories.

Revenue is recognized when control of the vehicles, parts or accessories have been transferred and the Company's performance obligation to the customer have been satisfied. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transfer of goods. The timing of when the Company transfers the goods to the customer may differ from the timing of the customer's payment.

When the Company gives the customer the right to return eligible goods, the Company estimates the expected returns based on an analysis of historical experiences.

During the year ended March 31, 2021, the Company sold vehicles and service parts to its customers through its affiliate company. Transfer of control, and therefore revenue recognition, generally corresponds to the date when the vehicles or service parts were made available to the customer, or when the vehicles or service parts were released to the carrier responsible for transporting them to the customer. This was also the point at which invoices were issued, with payment terms for vehicles and for service parts. For component part sales, revenue recognition was consistent with that of service parts.

However, after the launch of redesigned 2020 ROXOR, the Company decided to sell the redesigned ROXOR vehicle and its parts to the dealership through its affiliate, Mahindra USA LLC ("MAgNA") in the United States and Canada. Per the distribution agreement with MAgNA, the Company acts as a principal in the sale transaction. Pursuant to the agreement the Company will deliver the ROXOR on MAgNA's direction on ex-works basis. Transfer of control, and therefore revenue recognition, generally corresponds to the date when the vehicles or service parts were released to the carrier responsible for transporting them to the customer. This is also the point at which invoices are issued, with payment terms for vehicles and for service parts. For component part sales, revenue recognition is consistent with that of service parts.

The Company sponsors certain sales incentive programs and accrues liabilities for estimated sales promotion expenses when products are sold to the dealerships to the extent that it is probable. The cost of incentives, if any, is estimated at the inception of a contract at the expected amount that will ultimately be paid. Sales promotion incentive programs include volume incentives, cash discounts, retail financing programs, and co-operative advertising programs. Sales promotions and incentives are recognized as a reduction to sales at the time of sale to the dealership. If the estimate of the incentive changes following the sale to the customer, the change in estimate is recognized as an adjustment to revenue in the period of the change.

7. *Product warranty*

The Company provides a limited warranty for redesigned ROXOR for a period of two years or 12,000 miles whichever is lesser. The warranty reserve is established at the time of sale to the distributorship based on management's best estimate using historical rates and trends. These amounts are recorded as a liability in the balance sheet until they are ultimately paid. Accrued warranty liability was USD 177,157 (INR 13,414,328) as on March 31, 2022 (March 31, 2021: USD NIL (INR NIL)).

8. *Product liability*

The Company is subject to product liability claims in the normal course of business. Adequate insurance coverage is carried for catastrophic product liability claims. The Company self-insures product liability claims up to the purchased catastrophic insurance coverage. The estimated costs resulting from uninsured losses are charged to operating expenses when it is probable a loss has been incurred and the amount of the loss is reasonably determinable.

9. *Property, plant and equipment*

Property, plant, and equipment are stated at cost less accumulated depreciation and impairment. Cost of items of property, plant and equipment comprise cost of purchase and other costs necessarily incurred to bring it to the condition and location necessary for its intended use.

The Company depreciates property, plant and equipment over the estimated useful life using the straight-line method except for production tools. Upon retirement or disposal of assets, the cost and accumulated depreciation will be eliminated from the accounts and the resulting gain or loss will be credited or charged to operations.

The estimated useful life used to determine depreciation is:

Particulars	Useful life
Computers	3-5 years
Furniture	5-7 years
Leasehold improvements	7-15 years
Machinery & equipment	3-5 years
Tooling	3-5 years

The cost of property, plant and equipment not ready for use before such date are disclosed under capital work-in-progress.

The Company expenses all capital expenses below USD 5,000. Expenditures for maintenance and repairs are charged to expense. Property, plant and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value of the asset may not be recoverable.

10. *Intangible assets*

Intangible assets are comprised of computer software which has been recognized at cost and amortized over a period of 3 years or its estimated useful life. Subsequent expenditure is capitalized only when it increases the future economic benefit from the specific assets to which it relates.

11. *Government incentives*

The Company receives incentives from the Michigan Economic Development Corporation ("MEDC") in the form of business development grants. These grants are recognized at their fair values in the statement of loss where there is a reasonable assurance that all grant conditions have been complied with and the grant will be received.

12. *Fair value measurements and financial instruments*

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Some of Company's financial instruments, including cash and cash equivalents, accounts receivable and accounts payable are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

13. *Leases*

Accounting Standard Update ("ASU") 2016-02, Leases

The Company adopted Accounting Standards Codification 842 and all the related amendments ("new lease standard") using the modified retrospective method.

The new lease standard requires all leases to be reported on the balance sheet as operating lease right-of-use assets and lease obligations. The Company elected the practical expedients permitted under the transition guidance of the new standard that retained the lease classification and initial direct costs for any leases that existed prior to adoption of the standard.

Right-of-use assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

Certain leases include options to purchase the office equipment. The depreciable life of assets are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

The Company has entered into noncancelable operating lease agreements related to facility, office equipment, machinery and equipment and vehicles with varying terms

Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements

The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of revenue or general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in cost of revenue. Interest expense for finance leases is recognized using the effective interest method. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

14. *Accounts receivable & allowance for doubtful debts*

Accounts receivable represent amounts due related to sale of goods and services. Accounts receivables are reduced by an estimate of the amount that will ultimately be uncollectible. Management determines the allowance for doubtful accounts by a review of the outstanding amounts on a monthly basis. The allowance is determined by identifying troubled accounts, by using historical experience applied to an aging of accounts. Allowance for doubtful accounts is included in selling, general and administrative expenses in the consolidated statement of loss. The Company charges off uncollectable amounts against the reserves in the period in which it determines they are uncollectable.

15. *Commitments and contingencies*

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

NOTE E – CASH AND CASH EQUIVALENTS

The cash and cash equivalents of the Company comprise of:

	USD		INR	
	As at March 31,		As at March 31,	
Particulars	2022	2021	2022	2021
Bank balances	3,705,134	958,691	280,552,746	72,592,083
Total	3,705,134	958,691	280,552,746	72,592,083

Total	**–**	–	**–**	–

In assessing the realization of deferred tax assets, the likelihood of whether it is more likely than not that some portion or all the deferred tax assets will not be realized must be considered. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary difference becomes deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. The management believes that it is more likely than not that the deferred tax assets may not be realized and accordingly, a valuation allowance of USD 16,354,350 (INR 1,238,351,382) is recognized as at March 31, 2022 (March 31, 2021 USD 12,796,162 (INR 968,925,387).

The Company has federal net operating losses ("NOLs") carryforwards of USD 56,582,451(INR 4,284,423,190) and USD 46,140,902 (INR 3,493,789,099) as at March 31, 2022 and March 31, 2021, respectively. Out of the total NOLs of USD 56,582,451(INR 4,284,423,190), if unutilized, NOLs of USD 29,355,508(INR 2,222,799,066) will begin to expire from the year 2035, whereas the remaining NOLs will be carried forward indefinitely

The Company has state NOLs of USD 22,136,594(INR 1,676,182,898) and USD 16,738,566(INR 1,267,444,218) as at March 31, 2022 and March 31, 2021, respectively which if unutilized will begin to expire from the year 2026.

The Company recognizes the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination.

The tax years 2018, 2019 and 2020 remains subject to examination by the taxing authorities.

NOTE R – COMMITMENTS AND CONTINGENCIES

Litigation

The Company was engaged in litigation over violation of “trade dress” of FCA’s Jeep branded vehicles with FCA US, LLC both at the International Trade Commission (“ITC”) and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company’s ROXOR off-road utility vehicle violated the “trade dress” claimed by FCA. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease-and desist order was effective from August 11, 2020.

In December 2020, the Company received confirmation that they can proceed with selling the post-2020 ROXOR model. The ITC’s decision for allowing the Company to sell post-2020 ROXOR was appealed by FCA and, FCA did not prevail per a decision from the Court of Appeals on March 9, 2022.Therefore the ITC’s decisions for allowing the sale of post-2020 ROXOR remains valid. There is also a federal action which remains pending in which FCA US, LLC is seeking disgorgement of profits and a claim for false advertising relating to one commercial that displayed a military style vehicle. The matter is ongoing. The Company believes it has a strong defense against the claims. At this time, no liability has been incurred and the amount of any future loss or award associated with the Eastern District of Michigan matter cannot be estimated reasonably. Also, a final determination is yet to be made relating to a legal issue FCA has raised with the Sixth Circuit Court of appeals. Once such decision is reached, the Eastern District of Michigan action may continue with resolution of the final claims.

NOTE S – EMPLOYEE BENEFIT PLANS

The Company has voluntary 401(k) retirement plans. The Company may make annual contributions to the plans equal to a uniform percentage of participant compensation. The cost of the Company’s contributions charged to expense related to 401(k) contributions was USD 20,663 (INR 1,564,602) and USD 32,390 (INR 2,452,571) for the years ended March 31, 2022, and March 31, 2021, respectively.

NOTE T – COMMON STOCK

Common stock

The authorized share capital of the Company as of March 31, 2022, and March 31, 2021, was 5,00,000 shares and 1,000,000 shares, respectively of $ 25 each. As at March 31, 2022 and March 31, 2021, total shares issued and outstanding was 2,560,709 and 2,306,709 shares, respectively.

The Company issued 254,000 shares and 1,335,709 shares for USD 25 each for years ended March 31, 2022, and March 31, 2021, respectively.

The authorized share capital of the Company as of March 31,2022 and March 31,2021 was 100,000 shares of $ 0.10 each. As at March 31, 2022 and March 31, 2021, total shares issued and outstanding was 1,000 shares.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holder of common stock shall be entitled to receive all the remaining assets of the Company.

NOTE U – GOVERNMENT INCENTIVE AND CREDITS

Michigan Economic Development Incentive (MEDC)

The Company, during the year ended March 31, 2019, had recorded government grant incentive income received from MEDC amounting to USD 531,250 (INR 40,226,250). The Company had received this incentive on account of creation of 50 qualified jobs in State of Michigan. During the current year, the Company has additionally received USD 318,750 (INR 24,135,750). However, due to the onset of COVID and cease-and-desist order, the Company had furloughed approximately 86 employees and even terminated few employees during the year ended March 31, 2021. The Company terminated and furloughed few other employees in the current year as well on account of its plan of rightsizing and restructuring. Due to these uncertain circumstances, the management believes that it could have potentially violated the conditions stipulated based on which the Company had received the grant in the FY 2018-19 and FY 2021-22 and is currently evaluating its exposure and is in continuous discussions with the MEDC authorities. The Company has, therefore recognized an accrual to repay the amount of USD 850,000 (INR 64,362,000) and USD 531,250 (INR 40,226,250) as at March 31, 2022 and March 31, 2021 respectively for MEDC incentive received in FY 2018-19 and FY 2021-22.

Deferral of employment taxes

Section 2302 of the CARES Act provides that employers may defer the deposit and payment of the employer’s portion of Social Security taxes. The payroll tax deferral period commenced on March 27, 2020 and ended on December 31, 2020. Section 2302(a)(2) of the CARES Act provides that the deferred deposits of the employer’s share of social security tax must be 50 percent deposited by December 31, 2021, and the remaining amount must be deposited by December 31, 2022. The Company in the current year has repaid all the payroll tax deferral amounting to USD 77,529 (INR 5,870,496). The Company has deferred the employment taxes amounting to USD NIL (INR NIL) and USD 77,529 (INR 5,870,496) as on March 31, 2022, and March 31, 2021, respectively.

Employee retention credit

During the year ended March 31, 2021, the Company availed the benefit under the ERC (employee retention credit) scheme, a benefit given by the Federal government under the COVID stimulus package which allows businesses to take credit of the wages paid to employees on furlough and not working. The total ERC credit received by the Company for the years ended March 31, 2022, and March 31, 2021, amounts to USD 165,407 (INR 12,524,618) and USD 114,873 (INR 8,698,184), respectively. The Company has currently repaid all the credits availed to the IRS amounting to USD 280,280 (INR: 21,222,802). The balance outstanding as on March 31, 2022, and March 31, 2021, is USD NIL (INR NIL) and USD 114,873 (INR 8,698,184), respectively.

NOTE V – RISK AND UNCERTANITIES

The Company's future results of operations involve several risks and uncertainties. Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes; the ability to attract and retain qualified employees and the Company's ability to execute on its business plan.

NOTE W – SUBSEQUENT EVENTS

The Company evaluated all events and transactions that occurred after March 31, 2022, through the date the financial statements were issued. Based on the evaluation, the Company is not aware of any events or transactions that would require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT

Board of Directors

Mahindra Automotive North America, Inc.

Qualified opinion

We have audited the accompanying separate parent company financial statements of Mahindra Automotive North America, Inc. ("the Company") which comprise the balance sheets as of March 31, 2022, and March 31, 2021, the related statements of profit and loss, stockholder's equity and cash flows for the years then ended, and the related notes to the separate parent company financial statements.

In our opinion, except for the effects of not consolidating the wholly owned subsidiaries and except for the possible effects of the impairment adjustments to the carrying amounts as discussed in the Basis of qualified opinion paragraph, the separate parent company financial statements referred to above present fairly, in all material respects, the financial position of the Company as of March 31, 2022 and March 31, 2021 and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis of qualified opinion

As discussed in Note D. 1(a) to the separate parent company financial statements, the Company reports investment in its wholly owned subsidiaries, Mahindra North American Technical Center, Inc. and Mahindra Vehicle Sales and Service, Inc., on cost basis.

a) Accounting principles generally accepted in the United States of America require that all majority owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of these subsidiaries had been consolidated with those of the Company, total assets would have decreased by USD 131,550,756 (INR: 9,961,023,245) and USD 121,582,117 (INR: 9,206,197,900) as on March 31, 2022 and March 31, 2021, respectively; total liabilities would have increased by USD 20,149,262 (INR: 1,525,702,118) and USD 12,272,845 (INR 929,299,823) as on March 31, 2022 and March 31, 2021, respectively; stockholder's equity would have decreased by USD 151,700,018(INR:11,486,725,363) and USD 133,854,962 (INR: 10,135,497,723) as on March 31, 2022 and March 31, 2021, respectively and net loss would have been reported as USD 17,190,224 (INR: 1,301,643,761) and USD 66,556,244 (INR: 5,039,638,796) for each of the years then ended.

b) The Company has not reviewed its investments in Mahindra North American Technical Center, Inc. and Mahindra Vehicle Sales and Services, Inc as of March 31, 2022, and March 31, 2021, for impairment. We have not been able to obtain sufficient and appropriate evidence over the recoverable amounts of those investments as of March 31, 2022, and March 31, 2021. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

Other matter

The presentation of financial information in Indian rupees in the separate parent company financial statements is not a required part of the basic separate parent company financial statements. We have verified the arithmetic accuracy of the presentation based upon exchange rate provided by the Company's management. We did not audit and do not express an opinion on such information, and our opinion is not modified with respect to this matter.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the separate parent company financial statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the separate parent company financial statements

Management is responsible for the preparation and fair presentation of these separate parent company financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of separate parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate parent company financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the date the separate parent company financial statements are issued.

Auditor's responsibilities for the audit of the separate parent company financial statements

Our objectives are to obtain reasonable assurance about whether the separate parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards ("GAAS") will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the separate parent company financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the separate parent company financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the separate parent company financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the separate parent company financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

(The accompanying notes are an integral part of these separate parent company financial statements)

NOTES TO SEPARATE PARENT COMPANY FINANCIAL STATEMENTS

NOTE A - ORGANIZATION AND NATURE OF OPERATIONS

Mahindra Automotive North America, Inc. (hereinafter referred to as the "Company") was incorporated in the state of Delaware on March 27, 2017 and is a wholly owned subsidiary of Mahindra Overseas Investment Company Mauritius, Limited ("MOICML"). Both, the Company and MOICML are subsidiaries of Mahindra and Mahindra Limited ("M&M"). The Company engineers, designs, develops, assembles and delivers parts and vehicles to the global automotive market for off-road use, as an Original Equipment Manufacturer ("OEM") headquartered in Auburn Hills, MI.

The Company owns 100% of two separate business units ("Group"); Mahindra Vehicle Sales and Service, Inc. ("MVSS") which is engaged in the sales of off-road recreational vehicles and Mahindra North American Technical Centre, Inc. ("MNATC") which is involved in the manufacture of off-road vehicles as well as the development of prototype on road vehicles. The Company's vehicle brand, ROXOR, is an off-road side-by-side vehicle.

NOTE B - SUBSIDIARIES OPERATIONS

On April 30, 2017, the Company acquired all the stock of MNATC from Mahindra USA, Inc., another wholly owned subsidiary of M&M.

On January 15, 2018, MNATC began producing ROXOR vehicles from its facility in Auburn Hills, MI. In Michigan, when engaged in automotive manufacturing activities, MNATC does business as "d/b/a" Mahindra Automotive North America Manufacturing ("MANAM").

MVSS was formed on May 13, 2017 to function as the sales and distribution business unit for ROXOR. MVSS purchases the ROXORs manufactured by MANAM and wholesales them to MVSS's 363 dealerships.

The Group was engaged in litigation with FCA US, LLC over FCA's claims relating to unregistered "trade dress" of FCA's Jeep branded vehicles both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company's ROXOR off-road utility vehicle violated the "trade dress" of FCA's Jeep branded vehicle. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Group. The cease and desist order was effective from August 11, 2020.

The cease-and desist order related to the prohibition of marketing, sale, importation, and manufacturing of the model year 2018, 2019 and 2020 ROXOR off-road vehicle by the Group in the United States of America ("US"). The impact of the order on the operations of the Company was significant. The Company was unable to market, import, build or sell ROXORs in the US beginning on or about August 11, 2020. However, the Group could sell ROXORs in Canada since the limited exclusion order prohibited the Group from sale of its vehicles only in the US. Given the impact of the ruling on the operations, the Company did not pursue most of the opportunities since the cost incurred to sell the product would have been too high. Due to the pause in the business along with the onset of COVID-19, the Group furloughed employees and also terminated relationships with few other stakeholders. Per the cease-and desist order since the Group could not carry out marketing activities as well, it had to engage in significant efforts to modify its website and notify its marketing partners for not honoring few contracts.

During the year ended March 31, 2021, the Company performed and prepared expedited proceedings to allow a significantly re-designed ROXOR to be excluded from the cease-and desist order. On October 20, 2020, the Administrative Law Judge ("ALJ") found that the re-designed ROXOR does not violate any trade dress and recommended that the re-designed ROXOR be excluded from the cease-and desist order. On December 22, 2020, the ITC agreed with the ALJ and ruled that the re-designed ROXOR is excluded from the cease-and desist order. FCA in February 2021, shared the "notice to appeal" to the court for review of the final determination of the ITC's exclusion of re-designed ROXOR from the cease-and-desist order. FCA's appeal did not prevail per a decision from the Court of Appeals on March 09, 2022. Therefore, the ITC's decisions for allowing the sale of redesigned ROXOR stand.

During the year ended March 31, 2022, the Group launched the redesigned ROXOR and started selling the redesigned ROXOR from November 2021, in the United States and Canada. Before the cease-and-desist order, MANAM used to sell and distribute parts and vehicles to the distributors and dealers (collectively "dealerships") through MVSS to its customers. However, effective September 01, 2021, the Group entered into the Distribution Agreement ("the agreement") with Mahindra USA Inc. ("MAgNA") to distribute ROXOR as well as its parts and accessories and services relating thereto (collectively with the ROXOR, the "Products") under the brand name Mahindra and/or ROXOR through MAgNA's dealership network.

Pursuant to the terms of the agreement, MANAM is the principal in the sale transaction and the agreement includes the following provisions.

- The distribution agreement is applicable throughout the United States and Canada ("the Territory").
- MANAM agrees to sell to MAgNA all of the Products, as forecasted and ordered by MAgNA at prices as determined in the terms of the agreement.
- MAgNA shall promote, advertise, merchandise, sell and service the Products in the Territory in a manner consistent with the current sales efforts utilized by MAgNA and in connection therewith.
- All Products shall be sold ex-works by MANAM to a destination identified by MAgNA.
- The parties acknowledge that the Group is the exclusive owner of all Mahindra Trademarks. The Group hereby granted MAgNA a non-transferable, royalty-free license to use Mahindra Trademarks solely in connection with the sale and distribution of the Products. MAgNA shall use Mahindra Trademarks only in accordance with the directions, standards and requirements established by the Group from time to time. MAgNA shall not be entitled to use Mahindra Trademarks on any Products other than Products sold under the agreement.
- The Group warrants the Product through limited warranties that are ultimately provided to the end customer purchaser of the Product.

NOTE C - GOING CONCERN EVALUATION

Due to the cease-and desist order, the Group could not conduct any sale of ROXOR along with its kit and assemblies in the US from August 11, 2020 and had to redesign the ROXOR. The Group started selling the redesigned ROXOR effective November 2021. There is an accumulated deficit of USD 22,085,730 (INR 1,672,331,476) as at March 31, 2022 and USD 22,740,562 (INR 1,721,915,355) as at March 31, 2021. Although, these events and condition cast significant doubt on the Company's ability to continue as a going concern, in view of the continued support from the ultimate parent company, the management considers that it is appropriate to prepare these financial statements on a going concern basis, which assumes that the Company will continue in operational existence for the foreseeable future. The Company has received funding from its parent company amounting to USD 15,000,000 (INR 1,135,800,000) and USD 65,900,000 (INR: 4,989,948,000) during the years ended March 31, 2022, and March 31, 2021, respectively in the form of equity contribution, for meeting the cash flow requirements. To revive its operations, through the sale of redesigned ROXOR, the Company has entered into the agreement with MAgNA to sell and distribute ROXOR and its parts through MAgNA's dealership network. Additionally, the other plans of the management to mitigate the adverse effects, inter alia are as follows:

1) Reviving its business operations through organizational restructuring and right sizing.
2) New business development plans for the marketing of redesigned ROXOR and to make the Company business profitable.
3) Obtain capital financing from 'Mahindra Overseas Investment Company Mauritius Limited', the parent company, to meet near term working capital requirements.
4) Obtain a commitment from the parent company to continue to provide financial support and honor the Company's future obligations

Based on the above mitigating factors, the separate parent company financial statements have been prepared on the basis that the Company is a going concern and that no adjustments are required to the carrying value of assets and liabilities.

NOTE D - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. Basis of preparation

a. The accompanying separate parent company financial statements are prepared under the historical cost convention on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ('US GAAP') to reflect the financial position, results of operations and cash flows of the Company. The Company reports investment in its wholly owned subsidiary, Mahindra North American Technical Center, Inc. and Mahindra Vehicle Sales and Service, Inc., on cost basis. Accounting principles generally accepted in the United States of America require that all majority owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of these subsidiaries had been consolidated with those of the Company, total assets would have decreased by USD 131,550,756 (INR: 9,961,023,245) and USD 121,582,117 (INR: 9,206,197,900) as on March 31, 2022 and March 31, 2021, respectively; total liabilities would have increased by USD 20,149,262 (INR: 1,525,702,118) and USD 12,272,845 (INR 929,299,823) as on March 31, 2022 and March 31, 2021, respectively; stockholder's equity would have decreased by USD 151,700,018(INR:11,486,725,363) and USD 133,854,962 (INR: 10,135,497,723) as on March 31, 2022 and March 31, 2021, respectively and net loss would have been reported as USD 17,190,224 (INR: 1,301,643,761) and USD 66,556,244 (INR: 5,039,638,796) for each of the years then ended.

b. The separate parent company financial statements are for the years ended March 31, 2022, and March 31, 2021.

c. Financial information in the separate parent company financial statements is shown in U.S. dollars ("USD") and in Indian rupees ("INR"). For the fiscal years ended March 31, 2022, and March 31, 2021, dollar amounts are translated for convenience into Indian rupees at an exchange rate of 75.72 INR per dollar on March 31, 2022. Within the notes to the financial statements, Indian rupee amounts are shown parenthetically following the U.S. dollar amounts.

d. Certain reclassifications, regroupings and reworking have been made in the separate parent company financial statements of prior year to conform to the classifications used in the current year. These changes had no impact on previously reported separate parent company net loss or stockholder's equity.

2. Use of estimates

The preparation of separate parent company financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the separate parent company financial statements. Significant items subject to such estimates and assumptions include the useful lives of property and equipment, valuation allowance for deferred tax assets, and other contingencies. Management believes that the estimates used in the preparation of the separate parent company financial statements are reasonable. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the separate parent company financial statements.

3. Revenue recognition

Revenue of the Company comprise of fees for services rendered to its ultimate parent company and its subsidiaries. These fees have been accrued as the related services have been performed.

Interest on loan to its wholly owned subsidiary is presented with interest expense in the statements of profit and loss. Interest is recognized on a time proportion basis considering the amount outstanding and the applicable rate.

Revenue is recognized upon transfer of control of services promised to customers in an amount that reflects the consideration the Company expects to receive in exchange for these products or services.

4. Cash and cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate per bank of USD 250,000 (INR 18,930,000). The Company believes it is not exposed to any significant risk on cash and cash equivalents.

5. Property and equipment

Property and equipment are stated at cost less accumulated depreciation. Cost of items of property and equipment comprises cost of purchase and other costs necessarily incurred to bring it to the condition and location necessary for its intended use.

The Company depreciates property and equipment over the estimated useful life using the straight-line method. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is credited or charged to statement of loss.

The estimated useful life used to determine depreciation is:

Buildings	39-40 years
Leasehold improvements	7 years or the lease period
Furniture	5-7 years

Expenditures for maintenance and repairs are charged to statement of loss. Property and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value of the asset may not be recoverable.

The cost of property and equipment not ready for use before such date are disclosed under capital work-in-progress.

6. Intangible assets

Intangible assets comprise of computer software which has been recognized at cost and amortized over a period of estimated useful life. Subsequent expenditures are capitalized only when it increases the future economic benefit from the specific assets to which it relates.

Category	Useful life
Software	3 years

7. Income taxes

Income taxes are provided for the tax effects of transactions reported in the separate parent company financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of certain assets and liabilities for financial and tax reporting. The deferred taxes represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled, respectively.

The Company has determined whether any tax positions have met the recognition threshold and has measured the Company's exposure to those tax provisions. Management believes that the Company has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state taxing authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties from federal and state taxing authorities were recorded in the accompanying separate parent company financial statements.

8. Investments

Investments are carried at fair value. Acquisition related expenditure if any, is expensed in the year of incurring the same.

9. Unbilled receivables

Unbilled receivables represent value of services performed in accordance with the contract terms but not billed.

10. Leases

Accounting Standard Update ("ASU") 2016-02, Leases

The Company adopted Accounting Standards Codification 842 and all the related amendments ("new lease standard") using the modified retrospective method.

The new lease standard requires all leases to be reported on the balance sheet as operating lease right-of-use assets and lease obligations. The Company elected the practical expedients permitted under the transition guidance of the new standard that retained the lease classification and initial direct costs for any leases that existed prior to adoption of the standard.

Right-of-use assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

Certain leases include options to purchase the office equipment. The depreciable life of assets are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

The Company has entered into noncancelable operating lease agreements related to facility, office equipment, machinery and equipment and vehicles with varying terms

Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements

The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of revenue or general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in cost of revenue. Interest expense for finance leases is recognized using the effective interest method. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

11. ***Commitments and contingencies***

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the separate parent company financial statements.

12. ***Fair value measurements and financial instruments***

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Some of Company's financial instruments, including cash and cash equivalents, accounts receivable and accounts payable are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

NOTE E - CASH AND CASH EQUIVALENTS

The cash and cash equivalents of the Company comprise:

Particulars	USD As at March 31, 2022	USD As at March 31, 2021	INR As at March 31, 2022	INR As at March 31, 2021
Bank balances	5,258,537	4,468,003	398,176,422	338,317,187
Total	**5,258,537**	**4,468,003**	**398,176,422**	**338,317,187**

NOTE F - PREPAID EXPENSES AND OTHER CURRENT ASSETS

Prepaid expenses and other current assets comprise the following:

Particulars	USD As at March 31, 2022	USD As at March 31, 2021	INR As at March 31, 2022	INR As at March 31, 2021
Prepaid software license fee	30,451	–	2,305,750	–
Prepaid insurance	153,286	207,322	11,606,816	15,698,422
Prepaid others	875	–	66,255	–
Prepaid rent	–	9,166	–	694,050
Unbilled revenue	–	316,863	–	23,992,866
Total	**184,612**	**533,351**	**13,978,821**	**40,385,338**

NOTE G - INVESTMENT IN SUBSIDIARIES

Investments comprise the following:

Particulars	USD As at March 31, 2022	USD As at March 31, 2021	INR As at March 31, 2022	INR As at March 31, 2021
Investment in MNATC, Inc.	64,027,729	57,677,729	4,848,179,640	4,367,357,640
Investment in MVSS, Inc.	86,865,770	82,515,770	6,577,476,104	6,248,094,104
Total	**150,893,499**	**140,193,499**	**11,425,655,744**	**10,615,451,744**

NOTE H - INVESTMENT

Financial asset	Fair value as at March 31, 2022 USD	Fair value as at March 31, 2021 USD	Fair value as at March 31, 2022 INR	Fair value as at March 31, 2021 INR	Fair value hierarchy
Investment	1,080,000	750,000	81,777,600	56,790,000	Level 3

Valuation technique(s) used and key input(s): Discounted cash flow method

Key inputs-financial projections - These include forecasts of balance sheet, statement of profit and loss along with underlying assumptions

Significant unobservable input(s): Financial projections and discount rates to discount future cash flows

Relationship of unobservable inputs to fair value: Any change in the discount factor, financial projections, etc. would entail corresponding change in valuation of equity component

NOTE I - PROPERTY AND EQUIPMENT, NET

Property and equipment comprise the following:

Particulars	USD As at March 31, 2022	USD As at March 31, 2021	INR As at March 31, 2022	INR As at March 31, 2021
Land	1,350,000	1,350,000	102,222,000	102,222,000
Building	7,005,050	7,005,050	530,422,386	530,422,386
Furniture	62,276	62,276	4,715,539	4,715,539
Leasehold improvements	184,946	184,946	14,004,111	14,004,111
	8,602,272	8,602,272	651,364,036	651,364,036
Less: Accumulated depreciation	(799,314)	(577,174)	(60,524,056)	(43,703,615)
Property and equipment, net	**7,802,958**	**8,025,098**	**590,839,980**	**607,660,421**

Depreciation expense for the year is USD 222,140 (INR: 16,820,441) (March 31, 2021: USD 218,875 (INR: 16,573,215)).

NOTE J - INTANGIBLE ASSETS, NET

Intangible assets comprise the following:

Particulars	USD As at March 31, 2022	USD As at March 31, 2021	INR As at March 31, 2022	INR As at March 31, 2021
Software	25,000	–	1,893,000	–
Less: Accumulated amortization	–	–	–	–
Intangible assets, net	**25,000**	**–**	**1,893,000**	**–**

In the month of March 31, 2022, the Company purchased software from its affiliate company – Mahindra Tractor Assembly, Inc amounting to USD 25,000 (INR 1,893,000). Amortization expense is USD Nil for year ended March 31, 2022, and March 31, 2021, respectively.

The estimate of annual amortization expense for the following years for the intangible assets is as follows:

March 31,	USD	INR
2023	8,333	630,975
2024	8,333	630,975
2025	8,334	631,050
Total	**25,000**	**1,893,000**

NOTE K - ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accrued expenses and other current liabilities comprise the following:

Particulars	USD As at March 31, 2022	USD As at March 31, 2021	INR As at March 31, 2022	INR As at March 31, 2021
Accrued vacation	144,463	518,283	10,938,738	39,244,389

NOTE M - INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company is subject to taxation in the United States and the State of Michigan. The income tax expense is as follows:

	USD		INR	
	Year ended March 31,		Year ended March 31,	
	2022	2021	2022	2021
Deferred tax (benefit) expense	–	3,594,208	–	272,153,430
Income tax (benefit) expense	–	**3,594,208**	–	**272,153,430**

The tax effects of significant temporary differences that resulted in deferred tax assets and liabilities and a description of the items that create such differences is as follows:

	USD		INR	
	Year ended March 31,		Year ended March 31,	
	2022	2021	2022	2021
Deferred tax asset (liability)				
Net operating loss – Federal	4,473,879	4,414,393	338,762,118	334,257,838
Net operating loss - MI	288,343	194,192	21,833,332	14,704,218
Accrued vacation	33,788	113,680	2,558,427	8,607,850
Accrued merit pay	49,629	46,895	3,757,908	3,550,889
Accrued payroll tax	–	24,935	–	1,888,078
163 (j) interest limitation adj.	215,010	198,961	16,280,557	15,065,327
Lease Assets	28,131	26,159	2,130,079	1,980,759
Prepaid expenses	(57,509)	(45,474)	(4,354,581)	(3,443,291)
Fixed assets	(32,508)	(34,328)	(2,461,506)	(2,599,316)
Total	**4,998,763**	**4,939,413**	**378,506,334**	**374,012,352**
Less: valuation allowance	(4,998,763)	(4,939,413)	(378,506,334)	(374,012,352)
Total deferred tax assets	–	–	–	–

In assessing the realization of deferred tax assets, the likelihood of whether it is more likely than not that some portion or all the deferred tax assets will not be realized must be considered. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary difference become deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. The management believes that it is more likely than not that the deferred tax assets may not be realized and accordingly, a valuation allowance of USD 4,998,763 (INR 378,506,334) is recognized as at March 31, 2022 (March 31, 2021 USD 4,939,413 (INR 374,012,352)).

The Company has federal net operating losses ("NOLs") carryforwards of USD 21,304,183 (INR 1,613,152,737) and USD 21,016,332 (INR 1,591,356,659) as at March 31, 2022 and March 31, 2021, which if unutilized, will be carried forward indefinitely.

The Company has state NOLs carryforwards of USD 6,083,177 (INR 460,618,162) and USD 5,935,982 (INR 449,472,557) as at March 31, 2022 and March 31, 2021, which if unutilized will begin to expire from the year 2028.

The Company recognizes the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination.

The tax years 2018, 2019 and 2020 remains subject to examination by the taxing authorities.

NOTE N - RELATED PARTY LOAN

Loan transaction with Mahindra North American Technical Center, Inc.

The Company during the year ended March 31, 2021, provided a loan to its subsidiary, Mahindra North American Technical Center, Inc. at an interest rate of 5.00% per annum. NOTE P - COMMITMENTS AND CONTINGENCIES

Long term purchase commitment

On September 24, 2019, the Company signed a Vendor Subscription Agreement("VSA") with Icon International Inc.("ICON"), a subsidiary of Omnicom Media Group, for purchase of certain media advertising for 5 years in an amount not less than USD 2,263,022 (INR: 171,356,026) each year. In addition, the Company signed an indemnity bond amounting to USD 1,600,000 (INR: 121,152,000) with Atlantic Specialty Insurance Company which binds Mahindra Automotive North America, Inc. and its subsidiaries to purchase media advertising through ICON. If the MANA and its subsidiaries fails to place the minimum amount of advertising spend on the contract anniversary each year it will be assessed a penalty of 15% of the shortfall. ICON provides composition and consultation services at no charge for media placements. ICON's placement services include broadcast, digital, and print media advertising which will be billed to the Company at a competitive market rate. During the term of the agreement MANA and its subsidiaries agree to provide ICON with the right of first refusal on any media being placed.

Due to the cease-and desist order, the Company and its subsidiaries were prohibited to sell, market, import and manufacture the model year 2018, 2019 and 2020 ROXOR off-road vehicle in the US. Since the operations were paused and it could not carry out marketing activities, the management had decided to opt out of the long-term contracts and commitments entered by the Company along with its subsidiary. During the year ended March 31, 2021, the Company believed that it would be able to terminate the VSA by paying the penalty and thus an accrual of 625,000 (INR: 47,325,000) was created in the books of MVSS, erstwhile sales and distribution arm of ROXOR as at March 31, 2021.

However, during the year ended March 31, 2022, the Company renegotiated the VSA with ICON and extended the agreement till March 31, 2025. Based on the revised consolidated budget spend of the Company for next financial years it believes that it may not be able to meet the minimum amount of advertising spend at the end of the contract term. Thus, MVSS continues to carry the accrual amounting to USD 690,814 (INR 52,308,436) as at March 31, 2022 as its best estimate for penalty liability mentioned in the VSA.

Litigation

The Company was engaged in litigation over violation of "trade dress" of FCA's Jeep branded vehicles with FCA US, LLC both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company's ROXOR off-road utility vehicle violated the "trade dress" claimed by FCA. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease-and desist order was effective from August 11, 2020.

In December 2020, the Company received confirmation that they can proceed with selling the post-2020 ROXOR model. The ITC's decision for allowing the Company to sell post-2020 ROXOR was appealed by FCA and, FCA did not prevail per a decision from the Court of Appeals on March 9, 2022. Therefore, the ITC's decisions for allowing the sale of post-2020 ROXOR remains valid. There is also a federal action which remains pending in which FCA US, LLC is seeking disgorgement of profits and a claim for false advertising relating to one commercial that displayed a military style vehicle. The matters is ongoing. The Company believes it has strong defense against the claims. At this time, no liability has been incurred and the amount of any future loss or award associated with the Eastern District of Michigan matter cannot be estimated reasonably. Also, a final determination is yet to be made relating to a legal issue FCA has raised with the Sixth Circuit Court of appeals. Once such decision is reached, the Eastern District of Michigan action may continue with resolution of the final claims.

NOTE Q - STOCKHOLDER'S EQUITY

Common stock

The authorized share capital of the Company as of March 31, 2022 and March 31, 2021 was 8,000,000 shares and 6,700,000 shares, respectively, of $ 25 each. As at March 31, 2022 and March 31, 2021 total shares issued and outstanding was 7,417,737 and 6,817,737 shares, respectively.

The Company issued 600,000 shares and 3,067,737 shares for USD 25 each for years ended March 31, 2022 and March 31, 2021, respectively

As at March 31, 2021, the Company issued 117,737 shares in excess of the authorized capital. The Company had at a later date amended the authorized share capital to 8,000,000 shares.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holder of common stock shall be entitled to receive all the remaining assets of the Company.

NOTE R - RISKS AND UNCERTAINITIES

The Company's future results of operations involve several risks and uncertainties.

Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes; the ability to attract and retain qualified employees and the Company's ability to execute on its business plan.

Contract assets

The Company's contracts with customers with dealer agreements and purchase orders. These contracts with customers typically consist of sale of products which represent performance obligations that are satisfied upon transfer of control of the product to the customer at a point in time.

The following table provides information about contract assets as at March 31, 2022 and March 31, 2021:

	USD		INR	
	As at March 31, 2022	As at March 31, 2021	As at March 31, 2022	As at March 31, 2021
Accounts receivable	1,712,745	561,492	129,689,051	42,516,174
Unbilled receivable	–	316,863	–	23,992,866

NOTE T - EMPLOYEE BENEFIT PLANS

The Company has voluntary 401(k) retirement plans. The Company may make annual contributions to the plans equal to a uniform percentage of participant compensation. The cost of the Company's contributions charged to expense related to 401(k) contributions was USD 32,050 (INR: 2,426,826) and USD 48,747 (INR: 3,691,123) for the year ended March 31, 2022 and March 31, 2021, respectively.

NOTE U - GOVERNMENT INCENTIVE AND CREDITS

Employee retention credit

During the year ended March 31, 2021, the Company availed the benefit under the ERC (employee retention credit) scheme, a benefit given by the Federal government under the COVID stimulus package which allows businesses to take credit of the wages paid to employees on furlough and not working. The total ERC credit received by the Company for the year ended March 31, 2022, and March 31, 2021, amounts to USD 464,217 (INR 35,150,511) and USD 570,596 (INR 43,205,529), respectively. During the current year, the Company has repaid the credits that is believed to be owed to the IRS amounting to USD 928,532 (INR 70,308,443) and has recorded an accrual to pay back any remaining credits and penalties that may be owed amounting to USD 106,283 (INR 8,047,749) as of March 31, 2022, and USD 570,596 (INR 43,205,529) as of March 31, 2021.

Deferral of employment taxes

Section 2302 of the CARES Act provides that employers may defer the deposit and payment of the employer's portion of social security taxes. The payroll tax deferral period began on March 27, 2020 and ended on December 31, 2020. Section 2302(a)(2) of the CARES Act provides that the deferred deposits of the employer's share of social security tax must be 50 percent deposited by December 31, 2021, and the remaining amount must be deposited December 31, 2022. The Company in the current year has repaid all the payroll tax deferral amounting to USD 113,684 (INR 8,608,152). The Company has deferred the employment taxes amounting to USD NIL and USD 113,684(INR8,608,152) as on March 31, 2022, and March 31, 2021, respectively.

NOTE V - ADVERTISING AND MARKETING EXPENSE

Advertising costs are presented as part of selling, general and administrative expenses in the statement of loss. Advertising costs are expensed as incurred. The amount of advertising and marketing cost incurred by the Company for the year ended March 31, 2022 and March 31, 2021 is USD 46,084 (INR 3,489,480) and USD 87,376 (INR 6,616,111), respectively.

NOTE W - SUBSEQUENT EVENTS

The Company evaluated all events or transactions that occurred after March 31, 2022, up to the date of the separate parent company financial statements were issued. Based on this evaluation, the Company is not aware of any events or transactions that should require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT

Board of Directors

Mahindra Vehicle Sales and Services, Inc.

Opinion

We have audited the accompanying financial statements of Mahindra Vehicle Sales and Services, Inc. ('the Company') which comprise the balance sheets as of March 31, 2022, and March 31, 2021, and the related statements of loss, stockholder's deficit, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2022, and March 31, 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other matter

The presentation of financial information in Indian rupees in the financial statements is not a required part of the basic financial statements. We have verified the arithmetic accuracy of the presentation based upon the exchange rate provided by the Company's management. We did not audit and do not express an opinion on such information. Our opinion is not modified with respect to this matter.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a period of twelve months from the date the financial statements are issued.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOTES TO THE FINANCIAL STATEMENTS

NOTE A - ORGANIZATION AND NATURE OF OPERATIONS

Mahindra Vehicle Sales and Services, Inc. (hereinafter referred to as the "Company") was incorporated in the state of Delaware on April 19, 2017 and is a wholly owned subsidiary of Mahindra Automotive North America, Inc. ("MANA"). The Company delivers parts and vehicles primarily to the North American automotive market for off-road use.

The Company sells and distributes parts and vehicles to distributors and dealers (collectively "dealerships"), the majority of which are independently owned. As at March 31, 2022, the Company has contractual relationships in North America with approximately 363 dealerships. The only vehicle sold by the Company to dealerships is ROXOR, an off-road side-by-side vehicle manufactured by Mahindra North American Technical Center, Inc. d/b/a Mahindra Automotive North America Manufacturing ("MANAM"). During the current year, the parent company MANA, redesigned the ROXOR and launched it in the month of November 2021. However, the management decided to sell the redesigned ROXOR through its affiliate Mahindra USA LLC ("MAgNA"). During the current year, the Company conducted the transactions of catering of warranty services for the previously sold ROXOR. It also made the sales of accessory and service parts of ROXOR under warranty.

During the year ended March 31, 2021, the Company was engaged in litigation with FCA US, LLC over FCA's claims relating to unregistered "trade dress" of FCA's Jeep branded vehicles both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company's ROXOR off-road utility vehicle violated the "trade dress" of FCA's Jeep branded vehicle. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease and desist order was effective from August 11, 2020.

The cease-and desist order related to the prohibition of marketing, sale, importation and manufacturing of the model year 2018, 2019 and 2020 ROXOR off-road vehicle by the Company in the United States of America ("US"). The impact of the order on the operations of the Company was significant. The Company was unable to market, import, build or sell ROXORs in the US beginning on or about August 11, 2020. However, the Company could sell ROXORs in Canada since the limited exclusion order prohibited the Company from sale of its vehicles only in the US. Given the impact of the ruling on the operations, the Company did not pursue most of the opportunities since the cost incurred to sell the product would have been too high. Due to the pause in the business along with the onset of COVID-19, the Company furloughed employees and also terminated relationships with few other stakeholders. Per the cease-and desist order as the Company could not carry out marketing activities, it had to engage in significant efforts to modify its website and notify its marketing partners for not honoring few contracts.

During the year ended March 31, 2021, the Company performed and prepared expedited proceedings to allow a significantly re-designed ROXOR to be excluded from the cease-and desist order. On October 20, 2020, the Administrative Law Judge ("ALJ") found that the re-designed ROXOR does not violate any trade dress and recommended that the re-designed ROXOR be excluded from the cease-and desist order. On December 22, 2020, the ITC agreed with the ALJ and ruled that the re-designed ROXOR is excluded from the cease-and desist order. FCA in February 2021, shared the "notice to appeal" to the court for review of the final determination of the ITC's exclusion of re-designed ROXOR from the cease-and-desist order. FCA's appeal did not prevail per a decision from the Court of Appeals on March 09, 2022. Therefore, the ITC's decisions for allowing the sale of redesigned ROXOR remains valid.

During the current year, the Company continued catering its services of warranty and selling the accessory & service parts under the warranty agreement of ROXOR previously sold.

NOTE B - GOING CONCERN

There were no sales of redesigned ROXOR in the current year by the Company. In the month of November 2021, the parent company, Mahindra Automotive North America, Inc. ("MANA"), launched the redesigned ROXOR, and management decided to sell ROXOR through its affiliate Mahindra USA LLC ("MAgNA"). However, the Company continued catering its services of warranty and selling the accessory & service parts under the warranty agreement with its dealerships pertaining to the ROXORs previously sold. The Company has an accumulated deficit of USD 3,096,756 (INR 234,486,331) as at March 31, 2022. Although, these events and condition cast significant doubt on the Company's ability to continue as a going concern, in view of the continued support from the ultimate parent company, the management considers that it is appropriate to prepare these financial statements on a going concern basis, which assumes that the Company will continue to be in operational existence for the foreseeable future.

The Company has received funding from its parent company amounting to USD (4,350,000) (INR 329,381,978) during the current year in the form of capital contribution.

Even though the parent company has started selling redesigned ROXOR through its affiliate MAgNA, the Company will still remain in existence because of the dealership liabilities and the warranty services to be served. Based on the above factors, the financial statements have been prepared on the basis that the Company is a going concern and that no adjustments are required to the carrying value of assets and liabilities.

NOTE C - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. *Basis of preparation*
   a. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ("US GAAP") to reflect the financial position, results of operation and cash flows of the Company.
   b. The financial statements are for the fiscal years ended March 31, 2022 and March 31, 2021.
   c. Financial information in this report is in U.S. dollars ("USD") and in Indian rupees ("INR"). For the fiscal year ended March 31, 2022 and March 31, 2021, dollar amounts are translated for convenience into Indian rupees at an exchange rate of 75.72 INR per dollar on March 31, 2022. Within the notes to the financial statements, Indian rupee amounts are shown parenthetically following the U.S. dollar amounts.
   d. Certain reclassifications, regroupings and reworking have been made in the financial statements of prior year to conform to the classifications used in the current year. These changes had no impact on previously reported net loss or statement of stockholder's deficit.

2. *Use of estimates*

   The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Significant items subject to such estimates and assumptions include the useful lives of property and equipment, warranties, volume incentives, rebates, and co-operative advertising programs, valuation allowance for deferred tax assets and other contingencies. Management believes that the estimates used in the preparation of the financial statements are reasonable. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the financial statements.

3. *Operating leases*

   Accounting Standard Update ("ASU") 2016-02, Leases

   The Company adopted Accounting Standards Codification 842 and all the related amendments ("new lease standard") using the modified retrospective method.

   The new lease standard requires all leases to be reported on the balance sheet as operating lease right-of-use assets and lease obligations. The Company elected the practical expedients permitted under the transition guidance of the new standard that retained the lease classification and initial direct costs for any leases that existed prior to adoption of the standard.

   Right-of-use assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

   Certain leases include options to purchase the office equipment. The depreciable life of assets is limited by the expected lease term unless there is a transfer of title or purchase option reasonably certain of exercise.

   The Company has entered into noncancelable operating lease agreements related to facility, office equipment, machinery and equipment and vehicles with varying terms

   Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements

NOTES TO THE FINANCIAL STATEMENTS

The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of revenue or general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in cost of revenue. Interest expense for finance leases is recognized using the effective interest method. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

4. *Revenue recognition*

<u>*Sale of manufactured goods*</u>

The Company recognizes revenues from sale of manufactured ROXOR off-road side by side vehicles and their related accessories.

Revenue is recognized when control of the vehicles, parts or accessories have been transferred and the Company's performance obligation to the customers have been satisfied. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transfer of goods. The timing of when the Company transfers the goods to the customer may differ from the timing of the customer's payment.

When the Company gives the customers the right to return eligible goods, the Company estimates the expected returns based on an analysis of historical experiences.

For the year ended March 31, 2021, the Company sponsored certain sales incentive programs and accrues liabilities for estimated sales promotion expenses when products were sold to the dealerships to the extent that it was probable. The cost of incentives, if any, estimated at the inception of a contract was the expected amount that would ultimately be paid. Sales promotion incentive programs included volume incentives, cash discounts, retail financing programs, and co-operative advertising programs. Sales promotions and incentives were recognized as a reduction to sales at the time of sale to the dealership. If the estimate of the incentive changed following the sale to the customer, the change is recognized as an adjustment to revenue in the period of the change.

During the year ended March 31, 2022, Mahindra North American Technical Center, Inc. d/b/a Mahindra Automotive North America Manufacturing ("MANAM") launched and started selling the redesigned ROXOR from November 2021 in the United States of America and Canada. Before the cease-and-desist order, MANAM used to sell and distribute parts and vehicles to the distributors and dealers (collectively "dealerships") through the Company to its customers. However, effective September 01, 2021, MANAM entered into the Distribution Agreement ("the agreement") with Mahindra USA Inc. ("MAgNA") to distribute the redesigned ROXOR as well as its parts and accessories and services relating thereto (collectively with ROXOR, the "Products") under the brand name Mahindra and/or ROXOR through MAgNA's dealership network. Effective September 01, 2021, and onwards, the Company continues to honor the services of warranty and selling the accessory & service parts under the warranty agreement of the ROXORs previously sold.

The Company has determined that the customers from the sale of vehicles and service parts are generally dealers and distributors. Transfer of control, and therefore revenue recognition, generally corresponds to the date when the vehicles or service parts are made available to the customer, or when the vehicles or service parts are released to the carrier responsible for transporting them to the customer. This is also the point at which invoices are issued, with payment terms for vehicles and for service parts vary with the dealers. For component part sales, revenue recognition is consistent with that of service parts.

The Company sponsors certain sales incentive programs and accrues liabilities for estimated sales promotion expenses when products are sold to the dealerships to the extent that it is probable. The cost of incentives, if any, is estimated at the inception of a contract at the expected amount that will ultimately be paid. Sales promotion incentive programs include volume incentives, cash discounts, retail financing programs, and co-operative advertising programs. Sales promotions and incentives are recognized as a reduction to sales at the time of sale to the dealership. If the estimate of the incentive changes following the sale to the customer, the change in estimate is recognized as an adjustment to revenue in the period of the change.

Shipping and handling services

The Company also performs shipping and handling activities for its customers which is treated as a separate performance obligation as these activities are performed after the customer obtains control of the goods. The Company acts as an agent for shipping and handling services and recognizes revenue on net basis.

5. *Other income*

The Company records the following in the other income; (a) interest income and (b) liabilities written back. During the year ended March 31, 2022, the Company has recorded USD 359,309 (INR: 27,206,878) as other income on account of liabilities written back.

6. *Product warranty*

The Company provides a limited warranty for ROXOR for a period of two years or 12,000 miles whichever is lesser. The warranty reserve is established at the time of sale to the distributorship based on management's best estimate using historical rates and trends. These amounts are recorded as a liability in the balance sheet until they are ultimately paid. Accrued warranty liability was USD 1,093,502 (INR: 82,799,971) at March 31, 2022 (March 31, 2021: USD 1,149,524 (INR: 87,041,957)).

7. *Product liability*

The Company is subject to product liability claims in the normal course of business. Adequate insurance coverage is carried for catastrophic product liability claims. The Company self-insures product liability claims up to the purchased catastrophic insurance coverage. The estimated costs resulting from uninsured losses are charged to operating expenses when it is probable a loss has been incurred and the amount of the loss is reasonably determinable.

8. *Cash and cash equivalents*

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate per bank of USD 250,000 (INR: 18,930,000). The Company believes it is not exposed to any significant risk on cash and cash equivalents.

9. *Property and equipment*

Property and equipment are stated at cost less accumulated depreciation. Cost of items of property and equipment comprises cost of purchase and other costs necessarily incurred to bring it to the condition and location necessary for its intended use.

The Company depreciates property and equipment over the estimated useful life using the straight-line method. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is credited or charged to operations.

The estimated useful life used to determine depreciation is:

Computers	3 years
Vehicles	5 - 10 years

Expenditures for maintenance and repairs are charged to expense. Property and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value of the asset may not be recoverable.

10. *Intangible assets*

Intangible assets are comprised of computer software which has been recognized at cost and amortized over a period of 3 years or its estimated useful life. Subsequent expenditure is capitalized only when it increases the future economic benefit from the specific assets to which it relates.

11. *Government incentives*

The Company receives incentives from the Michigan Economic Development Corporation in the form of business development grants. These grants are recognized at their fair values in the statement of loss where there is a reasonable assurance that all grant conditions have been complied with and the grant will be received.

12. *Accounts receivable & allowance for doubtful debts*

Accounts receivable represent amounts due related to sale of goods and services. Accounts receivable are reduced by an estimate of the amount that will ultimately be uncollectible. Management determines the allowance

NOTES TO THE FINANCIAL STATEMENTS

for doubtful accounts by a review of the outstanding amounts on a monthly basis. The allowance is determined by identifying troubled accounts, by using historical experience applied to an aging of accounts. Allowance for doubtful accounts is included in selling, general and administrative expenses in the statement of loss. The Company charges off uncollectable amounts against the reserves in the period in which it determines they are uncollectable.

13. *Income taxes*

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of certain assets and liabilities for financial and tax reporting. The deferred taxes represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled, respectively.

The Company has determined whether any tax positions have met the recognition threshold and has measured the Company's exposure to those tax provisions. Management believes that the Company has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state taxing authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties from federal and state taxing authorities were recorded in the accompanying financial statements.

14. *Fair value measurements and financial instruments*

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Some of Company's financial instruments, including cash and cash equivalents, accounts receivable and accounts payable are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

15. *Commitments and contingencies*

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

NOTE D - CASH AND CASH EQUIVALENTS

The cash and cash equivalents of the Company comprise:

	USD		INR	
	As at March 31,		As at March 31,	
Particulars	**2022**	**2021**	**2022**	**2021**
Bank balances	**264,431**	480,485	**20,022,715**	36,382,324
Total	**264,431**	480,485	**20,022,715**	36,382,324

NOTE E - ACCOUNTS RECEIVABLE

Accounts receivable comprise the following:

	USD		INR	
	As at March 31,		As at March 31,

Total	**2,877,871**	4,188,873	**217,912,392**	317,181,464

* Due to the cease-and desist order (Refer Note A), the Company was unable to carry out business in the United States of America. The Company estimates the liability for buy-back and disposal to be USD NIL (INR: NIL) as at March 31, 2022. (March 31, 2021: USD 338,882 (INR: 25,660,145)).

NOTE J - SHORT TERM BORROWING – RELATED PARTY

The Company had no balance outstanding of short-term borrowing as at March 31, 2022.

During the year ended March 31, 2021, the Company obtained loan amounting to USD 21,090,000 (INR: 1,596,934,800) from MANA at an interest rate of 5.00% per annum. The entire loan amount along with interest payable as at March 31, 2021, was converted to equity.

Interest expense for the year is USD NIL (INR: NIL) (March 31, 2021: USD 635,244 (INR: 48,100,676).

NOTE K - LEASES

The Company has entered various facility and equipment operating leases with varying terms. In most circumstances, management expects that in the normal course of business, leases will be renewed or replaced by other leases

The table below presents the classification of leasing assets and liabilities as reported on the balance sheet as of March 31, 2022 and March 31, 2021.

	USD		INR	
	As at March 31,		As at March 31,	
Particulars	**2022**	**2021**	**2022**	**2021**
Assets				
Operating lease right-of-use assets	**18,193**	105,717	**1,377,574**	8,004,891
Total lease assets	**18,193**	105,717	**1,377,574**	8,004,891
Liabilities				
Current				
Operating lease liabilities	**13,677**	84,359	**1,035,622**	6,387,663
Long term				
Operating lease liabilities	**3,517**	19,639	**266,307**	1,487,065
Total lease liabilities	**17,194**	103,998	**1,301,929**	7,874,728

The table below presents the classification of lease related expenses as reported in the statements of income.

	USD		INR	
	Year ended March 31,		Year ended March 31,	
Particulars	**2022**	**2021**	**2022**	**2021**
Operating lease expense*	**215,790**	587,201	**16,339,619**	44,462,860
Total lease expense	**215,790**	587,201	**16,339,619**	44,462,860

* Operating lease expenses are included in selling, general and administrative expenses in the statements of loss. Operating lease expense includes short-term leases, variable lease costs and leases which do not meet the capitalization requirement of the Company.

Future minimum lease payments as of March 31, 2022, for operating leases having an initial or remaining non-cancellable lease term in excess of one year are as follows.

Year ended March 31	**Amount (USD)**	**Amount (INR)**
2023	14,160	1,072,195
2024	3,540	268,049
Total minimum lease payments	**17,700**	**1,340,244**
Less: interest imputed	(506)	(38,315)
Present value of lease payments	**17,194**	**1,301,929**

The following table presents the weighted-average remaining lease term and discount rates as of March 31, 2022.

Weighted-average remaining lease term (years)	
Operating leases	1.33
Weighted-average discount rate	
Operating leases	4.51%

The following table presents supplemental information for operating leases for the year ended March 31, 2022 and March 31, 2021.

Contract balance

The Company's contracts with customers are comprised of dealer agreements and purchase orders. These contracts with customers typically consist of sale of products which represent performance obligations that are satisfied upon transfer of control of the product to the customer at a point in time.

The following table provides information about contract assets and liability balances as of March 31, 2022 and March 31, 2021:

	USD		INR	
	As at March 31,		As at March 31,	
Particulars	2022	2021	2022	2021
Accounts receivable (Refer Note E)	**10,473**	163,869	**793,016**	12,408,161

NOTE M - INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company is subject to taxation in the United States of America and the State of Michigan. The Company is a member of the federal consolidated tax group of its parent company, MANA.

The provision for income tax expense (benefit) for the current year is as follows:

	USD		INR	
	Year ended March 31,		Year ended March 31,	
	2022	2021	2022	2021
Current tax expense	–	–	–	–
Deferred tax expense	–	15,061,620	–	1,140,465,866
Income tax expense	–	15,061,620	–	1,140,465,866

The tax effects of significant temporary differences that resulted in deferred tax assets and liabilities and a description of the items that create such differences is as follows:

	USD		INR	
	As at March 31,		As at March 31,	
	2022	2021	2022	2021
Deferred tax asset (liability)				
Net operating loss - Federal	**17,732,162**	17,027,047	**1,342,679,307**	1,289,287,999
Net operating loss - MI	**1,078,180**	770,378	**81,639,790**	58,333,022
Interest expense limitation	**734,765**	688,640	**55,636,406**	52,143,821
Accrued merit pay	–	41,205	–	3,120,043
Accrued warranty	**255,758**	252,139	**19,365,996**	19,091,965
Accrued vacation	–	91,594	–	6,935,498
Accrued payroll taxes	–	24,697	–	1,870,057
Bad debts	**2,125**	1,084	**160,905**	82,080
Contributions	**8,321**	7,803	**630,066**	590,843
Lease assets	**(234)**	(377)	**(17,718)**	(28,546)
Previous year incentive accrual	**182,260**	–	**13,800,727**	–
Flooring interest accrual	**468**	–	**35,437**	–
Prepaid expenses	**(993)**	(15,199)	**(75,190)**	(1,150,868)
Property and equipment	**(432)**	(10,321)	**(32,711)**	(781,506)
Valuation allowance	**(19,992,380)**	(18,878,690)	**(1,513,823,015)**	(1,429,494,408)
Total	–	–	–	–

In assessing the realization of deferred tax assets, the likelihood of whether it is more likely than not that some portion or all the deferred tax assets will not be realized must be considered. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary difference becomes deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. The management believes that it is more likely than not that the deferred tax assets may not be realized and accordingly, a valuation allowance of USD 19,992,380 (INR: 1,513,823,014) is recognized as at March 31, 2022 (March 31, 2021 USD 18,878,690 (INR: 1,429,494,408)).

The Company has federal net operation losses ("NOLs") carry forwards of USD 84,438,867 (INR: 6,393,711,009) as at March 31, 2022 (March 31, 2021: USD 81,084,911 (INR: 6,139,749,461). Out of the total NOLs of USD 84,438,867 (INR: 6,393,711,009), if unutilized, NOLs of USD 6,721,616 (INR: 508,960,764) will begin to expire from the year 2037, whereas the remaining NOLs will be carried forward indefinitely.

The Company has state net operating losses carry forwards of USD 22,746,408 (INR: 1,722,358,014) as at March 31, 2022 (March 31, 2021: USD 21,051,175 (INR: 1,593,994,971), which if unutilized will begin to expire from the year 2027.

The Company recognizes the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination.

The tax years 2018, 2019 and 2020 remain subject to examination by the taxing authorities.

NOTE O - COMMITMENT AND CONTINGENCIES

Long term purchase commitment

On September 24, 2019, MANA signed a Vendor Subscription Agreement ("VSA") with Icon International Inc. ("ICON"), a subsidiary of Omnicom Media Group, for purchase of certain media advertising for 5 years in an amount not less than USD 2,263,022 (INR: 171,356,026) each year. In addition, MANA signed an indemnity bond amounting to USD 1,600,000 (INR: 121,152,000) with Atlantic Specialty Insurance Company which binds MANA and its subsidiaries to purchase media advertising through ICON. If MANA and its subsidiaries fails to place the minimum amount of advertising spend on the contract anniversary each year it will be assessed a penalty of 15% of the shortfall. ICON provides composition and consultation services at no charge for media placements. ICON's placement services include broadcast, digital, and print media advertising which will be billed to the parent company at a competitive market rate. During the term of the agreement MANA agrees to provide ICON with the right of first refusal on any media being placed.

Due to the cease-and desist order, MANA and its subsidiaries was prohibited to sell, market, import and manufacture the model year 2018, 2019 and 2020 ROXOR off-road vehicle in the US. Since the Company's operations were paused and it could not carry out marketing activities, the management had decided to opt out of the long-term contracts and commitments entered by MANA. During the year ended March 31, 2021, MANA believed that it would be able to terminate the VSA by paying the penalty and thus an accrual of 625,000 (INR: 47,325,000) was created in the books of the Company as at March 31, 2021.

However, during the year ended March 31, 2022, MANA renegotiated the VSA with ICON and extended the agreement till March 31, 2025. Based on the revised budget spend for next financial years MANA believes that it may not be able to meet the minimum amount of advertising spend at the end of the contract term. Thus, the Company continues to carry the accrual amounting to USD 690,814 (INR: 52,308,436) as at March 31, 2022 as its best estimate for penalty liability mentioned in the VSA.

Litigation

The Company was engaged in litigation over violation of "trade dress" of FCA's Jeep branded vehicles with FCA US, LLC both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company's ROXOR off-road utility vehicle violated the "trade dress" claimed by FCA. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease-and desist order was effective from August 11, 2020.

In December 2020, the Company received confirmation that they can proceed with selling the post-2020 ROXOR model. The ITC's decision for allowing the Company to sell post-2020 ROXOR was appealed by FCA and, FCA did not prevail per a decision from the Court of Appeals on March 9, 2022. Therefore, the ITC's decisions for allowing the sale of post-2020 ROXOR remains valid.

NOTES TO THE FINANCIAL STATEMENTS

There is also a federal action which remains pending in which FCA US, LLC is seeking disgorgement of profits and a claim for false advertising relating to one commercial that displayed a military style vehicle. The matter is ongoing. The Company believes it has strong defense against the claims. At this time, no liability has been incurred and the amount of any future loss or award associated with the Eastern District of Michigan matter cannot be estimated reasonably. Also, a final determination is yet to be made relating to a legal issue FCA has raised with the Sixth Circuit Court of appeals. Once such decision is reached, the Eastern District of Michigan action may continue with resolution of the final claims.

NOTE P - RISK AND UNCERTANITIES

The Company's future results of operations involve several risks and uncertainties. Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes and the Company's ability to execute on its business plan. Also, there was a significant decline in revenue in the current year as there were no sale of ROXOR through the Company which limits the operations of the Company.

NOTE Q - ADVERTISING AND MARKETING EXPENSE

Advertising costs are presented as part of selling, general and administrative expenses in the statements of loss. Advertising costs are expensed as incurred. The amount of advertising and marketing cost incurred by the Company for the year ended March 31, 2022 and March 31, 2021 is USD 1,208,502 (INR: 91,507,771) and USD 3,416,071 (INR: 258,664,896) respectively.

NOTE R - COMMON STOCK

Common stock

The authorized share capital of the Company as of March 31, 2022, and March 31, 2021 was 5,000,000 and 3,000,000 shares of $ 25 each respectively. As at March 31, 2022 and March 31, 2021 total shares issued and outstanding was 3,474,631 and 3,300,631 shares, respectively.

The Company issued 174,000 shares and 847,190 shares for USD 25 each for years ended March 31, 2022 and March 31, 2021, respectively.

As at March 31, 2021, the Company has issued 300,631 shares in excess of the authorized capital and it amended the authorized capital to 5,00,000 shares in the current year.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holder of common stock shall be entitled to receive all the remaining assets of the Company.

NOTE S - EMPLOYEE BENEFIT PLANS

The Company has voluntary 401(k) retirement plans covering substantially all employees. The Company may make annual contributions to the plans equal to a uniform percentage of participant compensation. The cost of the Company's contributions charged to expense related to 401(k) contributions was USD 11,959 (INR: 905,535) and USD 55,351 (INR: 4,191,178) for the year ended March 31, 2022, and year ended March 31, 2021, respectively.

NOTE T - GOVERNMENT INCENTIVE AND CREDITS

Employee retention credit

During the year, the Company availed the benefit under the ERC (employee retention credit) scheme, a benefit given by the Federal government under the COVID stimulus package which allows businesses to take credit of the wages paid to employees on furlough and not working. The total ERC credit received by the Company for the year ended March 31, 2022 amounts to USD 237,578 (INR: 17,989,406) and USD 351,982 (INR: 26,652,077) for the year ended March 31, 2021. The Company has currently repaid the credits that is believed to be owed to the IRS amounting to USD 588,328 (INR: 44,548,196) and has recorded an accrual to pay back any remaining credits and penalties that may be owed amounting to USD 1,232 (INR: 93,287) as of March 31, 2022 and USD 351,982 (INR: 26,652,077) as of March 31, 2021.

Deferral of employment taxes

Section 2302 of the CARES Act provides that employers may defer the deposit and payment of the employer's portion of Social Security taxes. The payroll tax deferral period commenced on March 27, 2020 and ended on December 31, 2020. Section 2302(a)(2) of the CARES Act provides that the deferred deposits of the employer's share of social security tax must be 50 percent deposited by December 31, 2021, and the remaining amount must be deposited

December 31, 2022. The Company in the current year has repaid all the payroll tax deferral amounting to USD 112,587 (INR: 8,525,088). The Company has deferred the employment taxes amounting to USD NIL (INR: NIL) as on March 31, 2022, and USD 112,587 (INR: 8,525,088) as on March 31,2021, respectively.

NOTE U - SUBSEQUENT EVENTS

The Company evaluated all events and transactions that occurred after March 31, 2022 through the date the financial statements were issued. Based on the evaluation, the Company is not aware of any events or transactions that would require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT

Audit Opinions

We have audited the annual financial statements of Automobili Pininfarina GmbH, Munich, which comprise the balance sheet as at 31 March 2022, and the statement of profit and loss for the financial year from 1 April 2021 to 31 March 2022, and notes to the financial statements, including the presentation of the recognition and measurement policies. In addition, we have audited the management report of Automobili Pininfarina GmbH, Munich, for the financial year from 1 April 2021 to 31 March 2022.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to business corporations and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 March 2022 and of its financial performance for the financial year from 1 April 2021 to 31 March 2022 in compliance with German Legally Required Accounting Principles, and
- the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and riskwwwquirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in accordance with the requirements of German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the annual financial statements and on the management report.

Responsibilities of the Executive Directors for the Annual Financial Statements and the Management Report

The executive directors are responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to business corporations and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles. In addition, the executive directors are responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, the executive directors are responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive directors are responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our audit opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with section 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.

- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an audit opinion on the effectiveness of these systems of the Company.
- Evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disclosures.
- Conclude on the appropriateness of the executive directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective audit opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with German law, and the view of the Company's position it provides.
- Perform audit procedures on the prospective information presented by the executive directors in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate audit opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS

General details relating to the financial statements

The company was formed based on the articles of association dated 05 February 2018.

The financial statements have been prepared in accordance with the provisions of the German Commercial Code [*Handelsgesetzbuch - HGB*] applicable to business corporations and the Limited Liability Companies Act [*GmbH-Gesetz - GmbHG*].

According to the size classes defined in Sec. 267 Commercial Code [*Handelsgesetzbuch – HGB*] the company falls into the category of a medium-sized corporation.

As in the prior year, the statement of profit and loss for the financial year 2021/2022 is prepared according to the nature of expense method pursuant to Section 275 (2) HGB.

The exemption options for medium-sized corporations pursuant to Sections 286 and 288 (2) HGB were exercised in part.

Details relating to the identification of the company according to the Court of Registration

Business name acc. to Court of Registration:	Automobili Pininfarina GmbH
Registered office acc. to Court of Registration:	Munich
Register entry:	Commercial Register
Registrar of Companies:	Munich Local Court
Register number:	HRB 239596

Details relating to accounting policies

Accounting and valuation principles

Purchased intangible fixed assets are recognised at acquisition cost and, if they have a limited life, are amortized subject to straight-line depreciation.

Internally generated assets are valued at manufacturing cost according to Sec. 255 (2a) HGB, i.e. included as assets in the balance sheet with the expenses incurred as of development. After completion and from the beginning of sales, they are amortised over the expected useful life using the straight-line method. The expected useful life is determined based on the sales period of the developed vehicles. The Company did not make use of the option regarding the capitalisation of costs according to Sec. 255 (2) sentence 3 HGB.

The Company does not engage in basic research. Hence, a separation of research and development is not required. Occasionally, feasibility studies are conducted before the development of a vehicle which are not capitalised. After completion of the feasibility study, development costs recorded if the following criteria are fulfilled:

- It is very probable that the planned intangible asset is created
- The development costs can be attributed reliably to the specific intangible asset
- No prohibition within the sense of Sec. 248 (2) sentence 2 HGB

The Company starts capitalising the development costs as soon as these criteria are met.

Property plant and equipment were recognised at acquisition costs subject to straight-line depreciation. Straight-line regular depreciation was applied pro rata temporis in accordance with the expected useful life.

Low-value assets with acquisition costs of up to EUR 800 are expensed as incurred in the year of their acquisition, assuming that it is disposed of in the year of acquisition.

Financial assets were valued at acquisition cost.

If the value of fixed assets as determined based on the principles mentioned above is expected to exceed the fair value as of reporting date permanently, this is taken into account by an impairment.

Inventories were recognised at acquisition and manufacturing costs in conformity with the lower of cost or market principle.

Receivables and other assets are valued at nominal value and reflect all identifiable risks.

Prepayments and accrued income include expenditures before the reporting date representing costs for a certain time after this date.

The option for recognising an asset for deferred tax assets according to Sec. 274 (1) sentence 2 HGB was not exercised.

Other provisions were created for all identifiable risks and contingent liabilities and are recognised at the settlement amount required, according to prudent commercial judgement.

Assets and liabilities denominated in foreign currencies are translated at the closing rate on the reporting date in accordance with Sec. 256a HGB.

Liabilities were reported at the settlement amount.

In contrast to the prior year, the surplus of deferred taxes pursuant to Section 274 (1) sentence 2 is not recognised. For the purpose of uniform accounting, the option was exercised within the Mahindra & Mahindra Group. If the option had been exercised the same way in the prior year, the balance sheet total would have amounted to EUR 41,488,426.45 and the net loss for the year to EUR 89,610,559.02.

Notes to the balance sheet

Development of assets for individual fixed assets items.

The depreciation applicable to the individual items for the financial year can be derived from the development of assets.

STATEMENT OF MOVEMENT OF FIXED ASSETS FOR FINANCIAL YEAR 2021/22

NOTES TO THE FINANCIAL STATEMENTS

Research and development

The development expenditure incurred in the financial year was capitalised. It concerns the internally generated intangible assets described in the following. In the financial year, no research costs incurred.

Internally generated intangible assets

Expenses for internally generated intangible assets were capitalised at their manufacturing costs in the amount of EUR 13,164,190.35. The manufacturing costs amount to a total of EUR 115,130,790.59 (prior year: EUR 101,966,600.24).

Due to a permanent impairment within the sense of Sec. 253 (3) sentence 5 HGB as of reporting date, a extraordinary amortization of internally generated intangible assets in the amount of EUR 40,530,790.59 was recognised.

As of reporting date, capitalised internally generated intangible assets therefore amount to EUR 0.00 (prior year: EUR 27,366,600.24).

Property, plant and equipment

Due to a permanent impairment within the sense of Sec. 253 (3) sentence 5 HGB as of reporting date, a extraordinary amortization of property, plant and equipment in the amount of EUR 1,269,209.41 was recognised.

Other liabilities - Customer advances

Contributions by customers are recognised as other liabilities. The contributions do not constitute advances within the sense of German Commercial Law as they do not relate to a binding order. Advances made amount to a total of EUR 939,574.00 (prior year: EUR 1,479,269.13). Other liabilities include liabilities to affiliated companies in the amount of EUR 1,005,578.49 (prior year: EUR 509,966.00).

Share capital

The Company's share capital registered in the Commercial Register and fully paid up as of 31/03/2022 amounts to EUR 150,000,000.00. EUR 16,900,000.00 of an additional capital increase in the amount of EUR 20,000,000.00 in the past financial year were already paid in but not yet registered.

Authorized capital

The nominal amount of the authorised capital (resolutions of general meeting on 07/07/2020 with addendum dated 08/07/2020) was EUR 37,299,938.00. The authorized capital is completely utilised as of 31/03/2022.

As of registration in the Commercial Register as of 06/04/2022, the nominal amount of the authorized capital (resolution of general meeting as of 13/09/2021) was EUR 25,000,000.00. The authorised capital may be used until 06/04/2027 by issuance of new shares once or multiple times up to the nominal amount.

Amount not available for distribution

The total amount not available for distribution in accordance with Sec. 268 (8) HGB is EUR 0.00 (prior year: EUR 27,366,600.24).

Notes on provisions

Other provisions amount to a total of EUR 4,226,054.31 (prior year: EUR 2,308,237.78). They mainly include provisions for outstanding invoices and provisions for personnel.

Remaining maturities

Payables due within one year amount to EUR 10,442,788.17 (prior year: EUR 12,048,469.92). Trade payables and other assets have a remaining maturity of up to one year (EUR 1,934,405.09, prior year: EUR 1,555,940.16).

Deferred taxes

Deferred tax assets mainly result from tax loss carryforwards and are valued at a tax rate of 32.975 % in Germany. The deferred taxes for Italy are valued at a tax rate of 24.00 % for the Italian branch and mainly result from the valuation of provisions.

Notes to the income statement

Notes on income and expenses in exceptional amounts or of exceptional incidence

Expenses in exceptional amounts or of exceptional incidence significant within the meaning of Sec. 285 No. 31 HGB include in detail:

- Advertising costs of different service providers in the amount of EUR 423,198.42 (prior year: EUR 824,469.17)
- Event expenses in the amount of EUR 1,560,546.24 (prior year: EUR 797,323.41)
- External services in the amount of EUR 2,315,682.61 (prior year: EUR 713,468.80)
- Impairment of internally generated intangible assets in the amount of EUR 40,530,790.59 (prior year: EUR 74,600,000.00), and property, plant and equipment in the amount of EUR 1,269,209.41 (prior year: EUR 0.00)

Income from currency translation is recorded in the statement of profit and loss under "Gross profit" in the amount of EUR 53,018.13 (prior year: EUR 75,831.82). Expenses from currency translation are recorded separately under "Other operating expenses" in the amount of EUR 63,743.43 (prior year: EUR 37,779.27).

Other disclosures

Average number of staff employed in the financial year

The average number of staff employed by the company during the financial year was 104.5 (prior year: 108.5).

	2022	**2021**
DESIGN & ENIGNEERING	**76.75**	77.75
OTHER DEPARTMENTS	**27.75**	30.75
Total	**104.5**	108.5

Other financial obligations

Other financial obligations within the meaning of Section 285 no. 3a HGB result from leasing contracts in the amount of EUR 122,698.74 and rent payments from long-term contracts in the amount of EUR 462,986.85.

Names of the managing directors

During the reporting year, the management of the company was in the hands of the following persons:

Director: Svantesson, Per Erland, CEO *19/05/1960

In accordance with Sec. 286 (4) HGB, the Company did not disclose the information pursuant to section 285 no. 9 characters a) and b) HGB.

Information on shareholding in other companies of at least 20 percent of the shares

In accordance with Sec. 285 No. 11 HGB, the following companies are included:

Company name, place of business	**Share**	**Profit or loss**	**Equity**
		EUR	**EUR**
Automobili Pininfarina Americas Inc. Delaware	100 %	-9,746.59	7,712.62

Group affiliation

Automobili Pininfarina GmbH (based in: Munich) prepares consolidated financial statements for the smallest group of companies.

NOTES TO THE FINANCIAL STATEMENTS

Mahindra & Mahindra Limited prepares consolidated financial statements for the largest group of companies. The consolidated financial statements are available on the homepage of the parent company (https://www.mahindra.com/investors/ reports-and-filings).

Suggestion of the appropriation of profits

In accordance with the shareholders, the Company proposes the following appropriation of profits:

The net loss for the financial year amounts to EUR 61,718,972.94. It is carried forward to the next year.

Signature of management

Munich, 02 May 2022 Per Svantesson

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Automobili Pininfarina Americas Inc.

Opinion

We have audited the accompanying financial statements of Automobili Pininfarina Americas Inc. (the "Company"), which comprise of the balance sheets as of March 31, 2022 and March 31, 2021, and the related statements of (loss) profit, stockholder's equity and cash flows for the years then ended and the related notes to the financial statements.

In our opinion, financial statements referred to above present fairly, in all material respects, the financial position of the Company, as of March 31, 2022 and March 31, 2021, and the results of its operations and the cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of management for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

KNAV P.A.

Notes to Financial Statements

NOTE A – NATURE OF OPERATIONS

Automobili Pininfarina Americas Inc. (herein after referred to as "APA" or "the Company") was converted to a Delaware corporation on January 23, 2019 through the conversion of a Delaware Limited Liability Company, under the name of Harkey Acquisition, LLC. The Company is a wholly owned subsidiary of Automobili Pininfarina GmbH (hereinafter referred to as "the Parent Company").

The Parent Company acquired 100% membership interest of Harkey Acquisition, LLC (hereinafter referred to as "the LLC") on January 15, 2019 from Oakland Standard Co., LLC ("the Seller"). No capital contribution was made by the Seller in the LLC. Post acquisition, a plan of conversion to a Corporation was adopted and the LLC was converted and renamed as "Automobili Pininfarina Americas Inc.".

The Company is engaged directly or indirectly in designing, developing, manufacturing, selling, distributing, servicing and promoting automobiles globally (including electric vehicles) and spare parts as well as all activities in connection thereto.

The Company is in the start-up phase. The Parent Company plans to manufacture and distribute, directly or indirectly, to retail customers, a luxury vehicle known as the Battista. Distribution in the United States of America will be through the Company. In lieu of the above, the Company entered into contracts with customers pursuant to which the Company will sell to the customer a Batistta, built to standard specifications with special customizations ordered by the customer.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. *Basis of preparation*

   a) The accompanying financial statements are prepared under the historical cost convention on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ('US GAAP') to reflect the financial position, results of operations and cash flows of the Company.

   b) The financial statements are for the years April 01, 2021 to March 31, 2022 and April 01, 2020 to March 31, 2021. All amounts are stated in United States Dollars, unless specified otherwise.

2. *Use of estimates*

   The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The management's estimates for realization of deferred tax assets and accruals at the balance sheet date represent certain of these particularly sensitive estimates. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Any revision in accounting estimates are recognized prospectively in the current and future periods.

3. *Cash and cash equivalents*

   Cash equivalents consist of highly liquid investments with a maturity of three months or less on the date of purchase. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to $ 250,000 for each insured bank for each account per depositor.

4. *Leases*

   Lease rent expenses on operating leases are charged to expense over the lease term. Certain operating lease agreements may provide for scheduled rent increases over the lease term. Rent expense for such leases is recognized on a straight-line basis over the lease term.

5. *Income taxes*

   In accordance with the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 740 "Income Taxes," income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The deferred tax asset is reduced by a valuation allowance if it is more likely than not that some portion or all of the asset will not be realized. All deferred tax assets and liabilities, along with any related valuation allowance, are classified as non-current on the balance sheet.

6. *Fair value measurements and financial instruments*

   Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels, which are directly related to the amount of subjectivity, associated with the inputs to the valuation of these assets or liabilities are as follows:

Notes to Financial Statements

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

The Company's financial instruments consist of cash and cash equivalents and other current liabilities. The estimated fair value of cash and cash equivalents and other current liabilities approximate their carrying amounts due to the short-term nature of these instruments. None of these instruments is held for trading purposes.

7. *Commitments and contingencies*

Liabilities for loss contingencies arising from claims, assessments, litigations, fines, penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

8. *Recently issued accounting standard not yet adopted*

In February 2016, the FASB issued Accounting Standards Update ("ASU") No. 2016-02, Leases. Under the new guidance, lessees are required to recognize a right-of-use asset and a lease liability on the balance sheet for all leases, other than those that meet the definition of a short-term lease. This update will establish a lease asset and lease liability by lessees for those leases classified as operating under current GAAP. Leases will be classified as either operating or finance under the new guidance. Operating leases will result in straight-line expense in the income statement, similar to current operating leases, and finance leases will result in more expense being recognized in the earlier years of the lease term, similar to current capital leases. This ASU is effective for the Company beginning April 01, 2022. The Company is currently evaluating the impact of this standard on its financial statements.

NOTE C – ADVANCES FROM CUSTOMERS

The Company has entered into contracts with multiple customers, wherein the Company will sell a luxury vehicle Batistta ("the vehicle") to the customers. The vehicle will be manufactured by the Parent Company and sold to the Company. The Company in turn will sell the vehicle to the customers through a dealer. Pursuant to the aforesaid arrangement the customer will pay advances on milestone basis to the Company. As of March 31, 2022, the advances received from customer amounted to $ 7,579,910 (March 31, 2021: $ 599,960).

NOTE D – OTHER CURRENT LIABILITIES

Other current liabilities include the following:

	As of	
	March 31, 2022	March 31, 2021
Professional fees	**4,150**	4,150
Accured taxes	**1,025**	1,180
Bank service fees	**550**	490
Total	**5,725**	5,820

NOTE E – COMMITMENTS AND CONTINGENCIES

Premises

On July 31, 2019, the Company entered into a sub-lease arrangement with Issimi Inc. (herein after referred to as "Sub-lessor"). The lease arrangement consisted of approximately 600 square feet of warehouse space and 210 square feet of office space for a period of 2 years commencing from October 1, 2019. In accordance with the agreement, the Company shall share all the common area operating expenses with the Sub-lessor in addition to the lease rentals of $ 2,025 per month. The lease rentals for the year ended March 31, 2020 amounted to $ 12,150. The common area operating expenses for the year ended March 31, 2020 amounted to $ 1,725.

On October 1, 2020, the agreement was terminated with the Sub-lessor and accordingly, the provisions pertaining to the lease obligations and related payments amounting to $ 13,875 were reversed during the year ended March 31, 2021.

NOTE F – INCOME TAXES

For the year ended March 31, 2022, the Company will file federal and state tax returns as per regulations applicable to Chapter C corporations in the United States.

The components of the provision for income taxes are as follows:

	Year ended	
	March 31, 2022	March 31, 2021
Current taxes		
Federal tax (benefit) expense	**(155)**	380
State	**800**	1,600
Provision for income taxes	**645**	1,980

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's net deferred income taxes are as follows:

Notes to Financial Statements

	As of March 31, 2022	March 31, 2021
Non-current deferred tax assets		
Net operating losses	**563**	336
Startup costs	**5,975**	3,799
Total deferred tax assets	**6,538**	4,135
Net deferred taxes	**6,538**	4,135
Less: deferred tax asset valuation allowance	**(6,538)**	(4,135)
Total	**–**	–

Realization of net deferred tax assets is dependent upon generation of sufficient taxable income in future years, benefit from the reversal of taxable temporary differences and tax planning strategies. Management assesses the available positive and negative evidence to estimate whether sufficient future taxable income will be generated to permit use of the existing deferred tax assets. The amount of net deferred tax assets considered realizable is subject to adjustment in future periods if estimates of future taxable income change.

Based on the current year and previous year losses, the management believes that it is more likely than not that the deferred tax assets may not be realized during forseeable future and accordingly, a valuation allowance of $ 6,538 and $ 4,135 has been recorded as of March 31, 2022 and March 31, 2021, resepctively.

No deferred tax assets were recognized as of March 31, 2022 and March 31, 2021.

The Company has federal net operating losses of $ 2,679 and $ 1,601 as of March 31, 2022 and March 31, 2021, respectively.

Accounting for uncertain tax position

The Company recognizes the benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority. The Company has no unrecognized tax positions as of March 31, 2022 and March 31, 2021.

The tax years of 2018 and 2020 remain subject to examination by the taxing authorities.

NOTE G – RELATED PARTY TRANSACTION

Related party with whom transactions have taken place during the year:

- Automobili Pininfarina GmbH- the Parent Company

NOTE H – COMMON STOCK

Common stock authorized, issued and outstanding

The authorized share capital of the Company consists of 2,000 common shares of par value $ 25 each as of March 31, 2022.

During the year ended March 31, 2022 the Company issued 560 common shares of par value $ 25 each.

Common stock issued as of March 31, 2022 was 1,600 shares of $ 25 each. (March 31, 2021: 1,040 shares of $ 25 each).

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holders of common stock shall be entitled to receive all of the remaining assets of the Company, after distribution of all preferential amounts, if any. Such amounts will be in proportion to the number of equity shares held by the shareholders.

NOTE I – FAIR VALUE MEASUREMENT

Financial assets and liabilities held by the Company are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

NOTE J – RISK AND UNCERTAINTIES

The Company has evaluated the possible effect of COVID – 19 on the financial statement of the Company and believes that the current COVID-19 scenario is not/will not materially impact the Company for the year ended on March 31, 2022. The Company will continue to monitor developments to identify significant uncertainties surrounding COVID-19 and its impact on performance of the Company for future periods.

NOTE K – SUBSEQUENT EVENTS

The Company evaluated all events and transactions that occurred after March 31, 2022 through April 16, 2022, the date the financial statements are issued. Based on the evaluation, the Company is not aware of any events or transactions that would require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF

MAHINDRA BANGLADESH PVT. LTD.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Mahindra Bangladesh Pvt. Ltd.** ("the Company"), which comprise the statement of financial position as at 31 March 2022, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2022, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act 1994, we also report the following:

(a) we have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;

(b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books; and

(c) the statement of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account.

NOTES TO THE FINANCIAL STATEMENTS

1. Reporting entity

Mahindra Bangladesh Pvt. Ltd. ("the Company") was incorporated as a private limited Company on 12 September 2019 under the Companies Act, 1994. It is a subsidiary of Mahindra & Mahindra Ltd, a Company registered in India. The registered office of the company is at 4th Floor, Taj Casilina, SW (1) 4, 25 Gulshan Avenue Dhaka - 1212 Bangladesh.

The principal activities of the Company are to carry on the businesses of trading, distributing, supplying, storing, exporting, importing, servicing, repairing, manufacturing, developing, assembling, leasing, selling on hire-purchase or instalment systems, research & development, of all kinds of passenger, transportation and utility vehicles including but not limited to tankers, tractors, agricultural machinery, multi-utility vehicles, trailers, lorries, trucks, buses, motor cars, motor cycles, three-wheelers or other motor vehicles of all kinds and descriptions.

2. Basis of accounting

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs). They were authorised for issue by the Company's board of directors on ....

These financial period of the Company covers 1 year from 1 April to 31 March and is followed consistently. Comparative information has been disclosed for all numerical, narrative and descriptive information where it is relevant for understanding of the current year financial statements. Comparative figures have been rearranged/reclassified wherever considered necessary, to ensure better comparability with the current year financial statements and to comply with relevant IFRSs.

Details of the company's accounting policies are included in Note 24.

3. Functional and presentation currency

These financial statements are presented in Bangladesh Taka (Taka/Tk), which is the company's functional currency. All amounts have been rounded to the nearest taka, unless otherwise indicated.

4. Use of estimates and judgments

In preparing financial statements, management has made judgments and estimates that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

A. Judgements

Management has made no such judgement in applying accounting policies that have significant effects on the amounts recognised in the financial statements of this year.

B. Assumptions and estimation uncertainties

No significant assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2022 made by management of the Company.

5. Revenue

16. Earnings per share

A. Basic earnings per share

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

i. Profit (loss) attributable to ordinary shareholders (basic)

		For the year ended 31 March	
In Taka	Note	2022	2021
Net loss after tax for the year		**(644,927)**	(2,304,724)
Loss attributable to ordinary shareholders		**(644,927)**	(2,304,724)

ii. Weighted-average number of ordinary shares (basic)

		For the year ended 31 March	
In Taka	Note	2022	2021
Issued ordinary shares at 31 March	12	**420,001**	420,001
Weighted-average number of ordinary shares at 31 March		**420,001**	420,001
Basic earnings per share (BEPS)		**(1.54)**	(5.49)

B. Diluted earnings per share

The calculation of diluted earnings per share has been based on the following profit attributable to ordinary shareholders and weighted average number of ordinary shares outstanding.

i. Profit (loss) attributable to ordinary shareholders (basic)

		For the year ended 31 March	
In Taka	Note	2022	2021
Net loss after tax for the year		**(644,927)**	(2,304,724)
Loss attributable to ordinary shareholders		**(644,927)**	(2,304,724)

ii. Weighted-average number of ordinary shares (diluted)

		For the year ended 31 March	
In Taka		2022	2021
Issued ordinary shares at 31 March	12	**420,001**	420,001
Weighted-average number of ordinary shares at 31 March		**420,001**	420,001
Diluted earnings per share (DEPS)		**(1.54)**	(5.49)

17. Financial instruments - Fair values and risk management

A. Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

NOTES TO THE FINANCIAL STATEMENTS

In Taka	Note	Carrying amount: Fair value - hedging instruments	Mandatorily at FVTPL - Others	FVOCI - debt instruments	FVOCI - equity instruments	Financial assets at amortised cost	Other financial liabilities	Total

		–	–	–	–	–	3,566,063	3,566,063

B. Financial risk management

The Company has exposure to the following risks arising from financial instrument:

- Credit risks (See (B)(ii));
- Liquidity risks (See (B)(iii)); and
- Market risks (See (B)(iv)).

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Board oversees how management monitors compliance with risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to risks faced by the Company. The Board is assisted in its oversight role by Group Internal Audit. Group Internal Audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the Board.

ii. Credit risk

Credit risk is the risk of a financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from its customers and investments in bank deposits.

The maximum exposure to credit risk (note (a)) is represented by the carrying amount of each financial asset in the statement of financial position.

(a) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

Financial assets

In Taka	Note	31 March 2022	31 March 2021
Intercompany receivable	10	**–**	16,443,476
Interest on Fixed Deposit Receipt (FDR) receivables	10	**62,337**	28,082
Cash at bank	11	**36,912,504**	25,615,074
		36,974,841	42,086,632

(b) Ageing of financial assets

In Taka	Note	31 March 2022	31 March 2021
Intercompany receivable	10	**–**	16,443,476
Interest on Fixed Deposit Receipt (FDR) receivables	10	**62,337**	28,082
		62,337	16,471,558

The ageing of intercompany receivable and interest on Fixed Deposit Receipt (FDR) receivables at 31 March is zero to ninety days.

(c) Impairment losses

There is no impairment loss to be recognised on the any financial assets during the year.

iii. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Typically, the Company ensures that it has sufficient cash and cash equivalent to meet expected operational expenses, including the servicing of financial obligation through preparation of the cash forecast, prepared based on time line of payment of the financial obligation and accordingly arrange for sufficient liquidity/fund to make the expected payment within due date. The requirement is determined in advance through cash flows projections and credit lines facilities with banks are negotiated accordingly.

NOTES TO THE FINANCIAL STATEMENTS

The followings are the contractual maturities of non-derivative financial liabilities:

In Taka	Note	Carrying amount	Total	Contractual cash flows 2 months or less	2-12 months	1-2 years	2-5 years	More than 5 years
At 31 March 2022								
Other payables	14	–	–	–	–	–	–	–
		–	–	–	–	–	–	–

In Taka	Note	Carrying amount	Total	Contractual cash flows 2 months or less	2-12 months	1-2 years	2-5 years	More than 5 years
At 31 March 2021								
Other payables	14	28,474	28,474	28,474	–	–	–	–
		28,474	28,474	28,474	–	–	–	–

iv. Market risk

Market risk is the risk that changes in the market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of it's holdings of instruments. The objective of market risk management is to manage and control risk exposures within acceptable parameters, while optimising the return.

iv(a) Currency risk

The Company is exposed to transactional foreign currency risk to the extent that there is a mismatch between the currencies in which sales, purchases, receivables and borrowings are denominated. The company's foreign currency transactions are denominated in USD. There is no outstanding foreign currency balance as at 31 March 2022 for the Company.

18. Commitments

There is no outstanding commitments as at 31 March 2022 for the Company.

19. Contingencies

There is no contingent liabilities as at 31 March 2022 for the Company.

20. Related party disclosures

During the year, the Company carried out transactions with related parties in the normal course of business. The name of the related party and nature of the transactions have been set out below in accordance with the provisions of IAS 24 Related party disclosures.

In Taka	Country	Relationship	Transaction values for the year ended 31 March 2022	2021	Balance outstanding as 31 January 2022	2021
Administrative expenses						
Mahindra & Mahindra Ltd.	India	Parent company	–	16,443,476	–	16,443,476
Purchase of goods						
Mahindra & Mahindra Ltd.	India	Parent company	–	–	–	–
			–	16,443,476	–	16,443,476

21. Number of employees

The number of employees engaged for the whole year/ period or part thereof who received a total remuneration of Taka 36,000 and above was 1 (2021: 6).

22. Basis of measurement

These financial statements have been prepared on accrual basis following going concern concept.

23. Events after the reporting period

See accounting policy in note 24(K).

There is no significant events after balance sheet date that may affect financial statements of the Company for the year ended 31 March 2022.

24. Significant accounting policies

The Company has applied the following accounting policies to be presented in these financial statements.

Set out below is an index of the significant accounting policies, the details of which are available on the pages that follow.

A. Revenue from contract with customers

B. Foreign currency

C. Employee benefits

D. Income tax

E. Inventories

F. Financial instruments

G. Provisions

H. Share capital

I. Contingencies

J. Statement of Cash flows

K. Events after the reporting period

NOTES TO THE FINANCIAL STATEMENTS

A. Revenue from contract with customer

General information

The Company recognises as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange for goods or services when (or as) it transfers control to the customer. To achieve that core principle, the Company follows the five-step model as below :

- Identify the contract with a customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and
- Recognise revenue when (or as) the entity satisfies a performance obligation.

Considering the five steps model, the Company recognises revenue when (or as) the Company satisfies a performance obligation by transferring a promised good to a customer. Goods is considered as transfer when (or as) the customer obtains control of that goods. Then the Company recognises the net revenue from sale of goods in its financial statement.

B. Foreign currency

Transactions in foreign currencies are translated to the respective functional currencies of the Company at exchange rates at the date of the transactions. Monetary assets and liabilities in foreign currencies at the date of statement of financial position are translated into Bangladesh taka at the rate of exchange prevailing at the date of statement of financial position. The foreign currency gain or loss on monetary items is the difference between amortised cost in the functional currency at the beginning of the year which is adjusted for effective interest and payments during the year, and the amortised cost in foreign currency translated at the exchange rate at the end of the year.

C. Employee benefits

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

D. Income tax

Income tax expenses comprise current and deferred tax. Current tax and deferred tax are recognised in the profit or loss except to the extent that it relates to an item recognised directly in equity in which case it is recognised in equity.

i. Current tax

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

a) Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that effects neither accounting nor taxable profit or loss.

b) Temporary differences related to investment in subsidiaries and joint arrangements to the extent that it is probable that they will not reverse in the foreseeable future, and

c) Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it becomes probable that future taxable profits will be available against which they can be used.

Deferred tax assets and liabilities are offset if there is legally enforceable right to offset tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or the tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

E. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the above and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost to completion and selling expenses.

F. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Recognition and initial measurement

Trade receivables when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A trade receivable without a significant financing component is initially measured at the transaction price.

ii. Classification and subsequent measurement

COn initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVTPL.

Financial assets are not reclassified subsequent to their initial recognition unless the Company changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

NOTES TO THE FINANCIAL STATEMENTS

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets – Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Company's management; the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- how managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Financial assets – Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

Financial assets comprise cash and cash equivalents, trade and other receivables.

i. Cash and cash equivalents

Cash and cash equivalents comprise cash balances and all cash deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

ii. Trade and other receivables

Trade and other receivables are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

Financial liabilities

All financial liabilities are recognised initially on the transaction date at which the Company becomes a party to the contractual provisions of the liability.

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expired.

Financial liability includes trade and other payables.

iii. Trade and other payables

The Company recognises financial liabilities when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.

G. Provisions

A provision is recognised in the statement of financial position when the company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settle the present obligation at the date of statement of financial position. Where the effect of time value of money is material, the amount of provision is measured at the present value of the expenditures expected to be required to settle the obligation.

H. Share capital

Only ordinary shares are classified as equity. Incremental cost directly attributable to the issue of ordinary shares is recognised as a deduction from equity net off any tax effects.

Paid up share capital represents total amount contributed by the shareholders. Holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to vote at shareholders' meetings.

NOTES TO THE FINANCIAL STATEMENTS

I. Contingencies

i. Contingent liability

Contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent liability should not be recognised in the financial statements, but may require disclosure. A provision should be recognised in the period in which the recognition criteria of provision have been met.

ii. Contingent asset

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent asset must not be recognised. Only when the realisation of the related economic benefits is virtually certain recognition should take place. Provided that, it can be measured reliably because, at that point, the asset is no longer contingent.

J. Statement of cash flows

Cash flows from operating activities are presented under indirect method as per IAS 7: Statement of Cash Flows.

K. Events after the reporting period

Events after the date of statement of financial position that provide information about the Company's position at the date of statement of financial position are reflected in the financial statements. Events after the reporting period that are non-adjusting events are disclosed in the notes when material.

25. Going concern

The accompanying financial statements have been prepared on a going concern assumption that the Company will continue in operation over the foreseeable future. The Company has neither any intention nor any legal or regulatory compulsion to liquidate or curtail materially the scale of any of its operations. Also, the management is not aware of any other material uncertainties that may cast significant doubt upon the company's ability to continue as a going concern.

26. Standards issued but not yet effective

A number of new standards are effective for annual periods beginning after 1 April 2021 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

A. Onerous contracts – Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments specify which costs an entity includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. The amendments apply for annual reporting periods beginning on or after 1 January 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognised as an opening balance adjustment to retained earnings or other components of equity, as appropriate. The comparatives are not restated. The Company has no such onerous contract.

B. Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12)

The amendments narrow the scope of the initial recognition exemption to exclude transactions that give rise to equal and offsetting temporary differences – e.g. leases and decommissioning liabilities. The amendments apply for annual reporting periods beginning on or after 1 January 2023. For leases and decommissioning liabilities, the associated deferred tax asset and liabilities will need to be recognised from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. For all other transactions, the amendments apply to transactions that occur after the beginning of the earliest period presented. The Company has no such deferred tax on leases and decommissioning liabilities.

C. Other standards

The following new and amended standards are not expected to have a significant impact on the Company's financial statements.

- COVID-19-Related Rent Concessions (Amendment to IFRS 16).b
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16).
- Reference to Conceptual Framework (Amendments to IFRS 3).
- Classification of Liabilities as Current or Non-current (Amendments to IAS 1).
- IFRS 17 Insurance Contracts and amendments to IFRS 17 Insurance Contracts.

As per our report of same date.

Report on the audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Gromax Agri Equipment Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors Report and the related annexures, but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
   (e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.
   (f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure B. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

(g) The Company has not paid/provided any remuneration to managerial personnel as defined in the Act. Accordingly, the provisions of Section 197 of the Act related to the managerial remuneration are not applicable to the Company.

(h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

(i) The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements – Refer Note 34 to the Financial Statements;

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;

(iv) (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement; and

(v) The Company has not declared/paid/declared and paid any dividend during the year.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 1 under 'Report on other Legal and Regulatory Requirements' section of our report of even date]

i. (a) (A) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

(B) According to the information and explanations given to us, the Company has maintained proper records showing full particulars of intangible assets.

(b) The Company has a regular programme for physical verification of its property, plant and equipment by which the property, plant and equipment are verified by the management once in a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment. In accordance with the programme, the Company has physically verified property, plant and equipment during the financial year 2019-2020 and no material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us, the title deeds of immovable properties are held in the name of the Company.

(d) According to the information and explanations given to us, the Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year.

(e) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

ii. (a) According to the information and explanations given to us, the inventory comprising of raw materials, work-in-progress, finished and semi-finished goods, stores and spares,loose tools and stock-in-trade has been physically verified at reasonable intervals by the management during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed on such verification between the physical inventory and the book records.

(b) According to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from Axis Bank Limited on the basis of security of inventory and trade receivables during the year. The statements of inventory and trade receivables filed by the Company with Axis Bank Limited on a quarterly basis are materially in agreement with the unaudited books of account as certified by the management.

iii. According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.

iv. According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

v. According to the information and explanations given to us, the Company has not accepted deposits under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

vi. The Central Government has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.

vii. (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of undisputed statutory dues in respect of Goods and Services Tax, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the financial year for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Services Tax, Provident Fund, Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and any other material statutory dues as at March 31, 2022, which have not been deposited with the appropriate authorities on account of any dispute. The statutory dues in respect of Income-tax as at March 31, 2022, which have not been deposited with the appropriate authorities on account of a dispute, are as under:

Name of statute	Nature of dues	Amount (Rs. in lakhs)	Period to which amount relates	Forum where pending
The Income Tax Act, 1961	Income Tax	161.82	Assessment year 2014-2015	Commissioner of Income Tax (Appeals)

viii. According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

ix. (a) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any loans or other borrowings during the year. Accordingly, the reporting under Clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not been declared a wilful defaulter by any bank or financial institution or any other lender till the date of our audit report.

(c) According to the information and explanations given to us and based on the audit procedures performed by us, the Company has not availed any term loans during the year. Accordingly, the reporting under Clause 3(ix)(c) of the Order is not applicable to the Company.

(d) In our opinion and according to the information and explanations given to us and on an overall examination of the Balance Sheet of the Company, we report that funds raised on short-term basis have not been utilised for long- term purposes as at the Balance Sheet date.

(e) The Company does not have any subsidiaries, joint ventures or associates. Accordingly, the reporting under Clauses 3(ix)(e) and 3(ix)(f) of the Order is not applicable to the Company.

x. (a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under Clause 3(x)(b) of the Order is not applicable to the Company.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company noticed or reported during the year, nor have we been informed of any such case by the management.

(b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

(c) As represented to us by the management, no whistle blower complaints were received by the Company during the year.

xii. According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

xiii. In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the Financial Statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act.

xiv. (a) In our opinion and according to the information and explanations given to us and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the Internal Audit reports of the Company issued till date for the period under audit.

xv. According to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or directors of its holding company or persons connected with them during the year and hence, the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

xvi. (a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clauses 3(xvi)(c) and 3(xvi)(d) of the Order is not applicable to the Company.

xvii. In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.

xviii. There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

xx. According to the information and explanations given to us, the provisions of Section 135 of the Act relating to expenditure on corporate social responsibility are not applicable to the Company for the current financial year. Accordingly, the reporting under Clauses 3(xx)(a) and 3(xx)(b) of the Order is not applicable to the Company.

ANNEXURE “B” TO THE INDEPENDENT AUDITOR’S REPORT

[Referred to in paragraph 2(f) under ‘Report on other Legal and Regulatory Requirements’ section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to financial statements of **Gromax Agri Equipment Limited** (“the Company”) as of March 31, 2022 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company’s internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

All amounts are in Rupees Lakhs unless otherwise stated

Note Nos. 1 and 2 : Summary of Significant Accounting Policies

1. Corporate Information

Gujarat Tractor Corporation Limited (GTCL) a Public Limited Company domiciled in India and incorporated on 31st March, 1978 under the provisions of the Companies Act, 1956 (CIN : U34100GJ1978PLC003127) and a Government of Gujarat Undertaking. As a part of Disinvestment by Government of Gujarat, the Mahindra & Mahindra Limited. acquired 60% stake in Equity Shares of the Company in 1999-2000. The name of the Company changed to Mahindra Gujarat Tractor Limited (MGTL / the Company) in the year 2000. The name of company further changed to Gromax Agri Equipment Limited with effect from 24th August, 2017.

Currently Mahindra Group holds 60% and Government of Gujarat holds 40% Equity in the Company. The Company is mainly engaged in the Manufacture and Sale of Tractors under the brand name “Shaktimaan”, “Hindustan”, “Farm Plus”, “Trakstar” and spares of the same. The Company carries out its business activities in India and Nepal. The Factory and Registered Office of the Company is located at Vishwamitri, Vadodara, Gujarat and Sales and Distribution Offices and Yards in major States of India.

2. Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared taking into consideration all material aspects with Indian Accounting Standards (Ind-AS) notified under section 133 of the Companies Act, 2013 (the “Act”) [Companies (Indian Accounting Standards) Rules, 2015, as amended] and the other relevant provisions of the Act.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the value paid for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

The financial statements have been prepared on historical convention except Defined benefit plans.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below:

2.3 Revenue recognition

The Company has applied Ind AS 115 – ‘Revenue from Contracts with customers’ (“hereinafter referred to as Ind AS 115”), using modified retrospective approach for the purpose of transition. The application of Ind AS 115 did not have any material impact on the financial results of the Company.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances. Upon satisfaction of performance obligation which is at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods. Depending on the terms of the contract, which differs from contract to contract, the goods are sold on a reasonable credit term. The Revenue is excluding taxes and after deducting various Dealer Incentives and Discounts.

2.3.1. Sale of goods

1) Timing of recognition- Sales are recognized when control parameters as laid down in IND AS 115 are satisfied. Control means customer has accepted the product, legal title has been transferred, transfer of significant risk and rewards, right to receive the payment and transfer of physical possession. Sales are recognised at a point in time based on the revenue recognition standard.

2) Measurement of revenue:-

A) Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognises revenue when it transfers control of a product.

B) Any change resulting in increase or decrease in estimated revenue or cost are reflected in the profit or loss in the period in which the circumstances that give rise to the revision become known by Management.

C) Transaction price is the amount of consideration expected to be entitled to in exchange for transferring of goods and services excluding the amount collected from third party.

D) Revenue from sales is based on the price specified in the sales contracts, net of the estimated volume discounts and returns at the time of sale. Accumulated experience is used to estimate and provide for the discounts and returns. The volume discounts are assessed based on anticipated annual purchases

2.3.2 Royalties

Royalty revenue is recognised on an accrual basis in accordance with the substance of the relevant agreement (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably). Royalties determined on a time basis are recognised on a straight-line basis over the period of the agreement. Royalty arrangements that are based on production, sales and other measures are recognised by reference to the underlying arrangement.

2.3.3 Dividend and interest income

Dividend income from investments is recognised when the shareholder’s right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.4 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.5 Employee benefits

2.5.1 Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

2.5.2 Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

2.5.3 Contributions from employees or third parties to defined benefit plans

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan.

When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

If the contributions are not linked to services (e.g. contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset).

If contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the Company reduces service cost by attributing the contributions to periods of service using the attribution method required by Ind AS 19.70 for the gross benefits. For the amount of contribution that is independent of the number of years of service, the Company reduces service cost in the period in which the related service is rendered / reduces service cost by attributing contributions to the employees' periods of service in accordance with Ind AS 19.70.

2.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.6.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.6.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.6.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.7 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Freehold land is not depreciated.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under lease are depreciated over the lease term of the ROU (Right of use).

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

On transition to Ind AS, the company has elected to continue with the carrying value of all its property, plant and equipment recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment which will be depreciated over its remaining useful life.

2.7.1 Useful lives of tangible assets

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as prescribed in Part C of Schedule II of the Companies Act, 2013

Particulars	Life (Years)
Building -Non Factory	60
Building - Factory	30
Plant & Machineries, Jig& Fixtures and Pattern & Moulds	15
Furniture & Fixtures, Electrical Installation	10
Motor Vehicles- Cars & Tractors	8
Computer-Servers and Network	6
Office Equipment	5
Computer-End-use devices (Desktop, Laptop, Printer etc.)	3
Assets Value < Rs.5000	1

2.8 Intangible assets

2.8.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Under IND AS First time adoption Exemptions company has adopted historical cost as carrying amount for various tangible assets

2.8.2 Internally-generated intangible assets - research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

2.8.3 Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows:

Particulars	Life (Years)
Development Expenditure	5
Software	3

2.9 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Company of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.10 Inventories

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Costs of inventories are determined on a weighted average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost of raw material and traded goods comprises of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of Inventories also include all other cost incurred in bringing the inventories to their present location and condition. Cost of purchase inventory are determined after deducting rebates and discounts.

2.11 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions are not recognised for future operating losses.

2.11.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.11.2 Warranties

Provisions for the expected cost of warranty obligations under local sale of goods legislation are recognised at the date of sale of the relevant products, at the directors' best estimate of the expenditure required to settle the Company's obligation.

2.11.3 Contingent liabilities acquired in a business combination

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

2.12 Financial instruments

Financial assets and financial liabilities are recognised when a entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.12.1 Cash and cash equivalents:-

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

2.13 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.13.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

2.13.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

2.13.3 Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

2.13.4 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.14 Financial Liabilities

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.14.1 Classification of financial liabilities

The company classifies all financial liabilities as subsequently measured at amortised cost.

2.14.2 Initial recognition of financial liabilities

Financial liabilities are carried at amortised cost using the effective interest method.

2.14.3 Subsequent measurement of financial liabilities

The measurement of financial liabilities depends on their classification (Refer Note 29)

2.15 Leases

The Company has applied IND AS 116 Determining whether an Arrangement contains a Lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

2.15.1 Initial Recognition:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement. For arrangements entered into prior to April 1, 2016, the Company has determined whether the arrangement contain lease on the basis of facts and circumstances existing on the date of transition.

2.15.2 Company as a lessee:

Leases, other than short term lease and low value assets, of property, plant and equipment are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

2.16 EPS

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all years presented for any share splits and bonus shares issues including for changes effected prior to the authorization for issue of the financial statements by the Board of Directors.

2.17 Cash flow statement

The Cash Flow Statement is prepared by the indirect method set out in Ind AS 7 on Cash Flow Statements and presents cash flows by operating, investing and financing activities of the Company.

2.18 Rounding off amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2.19 Current v/s Non-Current classification:-

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

a) Expected to be realized or intended to be sold or consumed in normal operating cycle

b) Held primarily for the purpose of trading

c) Expected to be realized within twelve months after the reporting period, or

d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

a) It is expected to be settled in normal operating cycle

b) It is held primarily for the purpose of trading

c) It is due to be settled within twelve months after the reporting period, or

d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents.

The Company has identified twelve months as its operating cycle for the purpose of current and non-current classification of assets and liabilities

2.20 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2.1 to 2.18, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

Detailed information about each of these estimates and judgements included in relevant notes together with information about the basis of calculation of each different line item in the financial statements.

Areas involving judgements and estimations:

1) Provision for warranty and service coupon

2) Provision for ECL

3) Provision for Employee Benefits

Notes:

Property, plant and equipment comprise of owned and leased assets that do not meet the definition of Investment property.

Impairment losses not recognised in the year:

During the year ended on 31 March 2022, there were no impairment indicators. Hence, impairment loss has not been recognised.

Depreciation Method and Useful Life

The depreciation methods used and the useful lives or the depreciation rates used are mentioned in Note on Significant Accounting Policies.

Tangible Asset given to Co-operative Society on Hire Purchase

Certain fixed assets were transferred to various Industrial Co-operative Societies on hire purchase basis, had been reduced from the Gross Block of Fixed Assets of the Company in the year of actual transactions in past, but they still remain the property of this Company till the last instalment is paid.

Secured Loans repayable on demand from Bank

Cash Credit facilities from Banks are secured by hypothecation of entire current assets, present and future, and first charge over movable machinery.

The leases that the Company has entered with lessors towards properties used as sales offices are long term in nature and no changes in terms of those leases are expected due to the COVID-19.

	c)	Expenses accruals	**298.34**	240.62
	d)	Others	**19.40**	29.36
	Total Other Current Financial Liabilities		**2,459.55**	**2,337.63**

Note:

5,000,000 8.5% Cumulative Redeemable Preference Shares of Rs. 10 each issued solely to Government of Gujarat (GOG) as fully paid up on 23rd May, 2000 consequent upon conversion of loan of Rs. 50,000,000.

These shares were redeemable at par at the end of fours years from the date of allotment i.e. 22nd May, 2004 and the terms of the issue of the shares can be varied with the express consent of the Company and the holders of the shares at any time during the period the shares are outstanding.

The Preference Shares issued have right to receive dividend from year to year as decided by terms of Issue i.e. 8.5% per annum from the date of allotment.

The Preference share holders will not be entitled to any of the rights and privileges available to the members of the company including right to receive notice of or to attend and vote at general meeting or to receive annual reports of the company. If, however any resolution affecting the rights attached to the share is placed before the member of the Company, such resolution will first be placed before the Preference shareholders for their consideration.

Considering book losses, the Board of Directors had not declared dividend on preference share since allotment. Thus no provision was made for 8.5% dividend, amounting to Rs. 631.46 lakhs on preference shares for the period from 23rd May, 2000 (being the date of allotment) to the year ended 31st March, 2015 and additional tax thereon as per the accounting treatment under IGAAP.

Under IND AS, accrued Dividend on Preference Shares is defined as Other Current Financial Liabilities under Unpaid Dividends and are currently excluding taxes.

Note No. 17 - Provisions

Particulars	As at 31st March, 2022 Current	As at 31st March, 2022 Non-Current	As at 31st March, 2021 Current	As at 31st March, 2021 Non-Current
1. Provision for employee benefits

Note No. 26 - Disclosures under Ind AS 105

Particulars	Year Ended on 31st March, 2022	Year Ended on 31st March, 2021
Cash flows from Continued operations		
Net Cash inflows/outflows from operating activities	**214.22**	1,163.40
Net cash inflows/outflows from investing activities	**2,566.09**	(280.66)
Net cash inflows/outflows from financing activities	**(63.10)**	(1,116.95)
Net Cash inflows	**2,717.21**	(234.21)

Note No. 27 - Earnings/(loss) per Share

Particulars	Year Ended on 31st March, 2022	Year Ended on 31st March, 2021
Basic Earnings/(loss) per share		
From continuing operations	**4.99**	(0.14)
Total basic earnings/(loss) per share	**4.99**	(0.14)
Diluted Earnings/(loss) per share		
From continuing operations	**4.99**	(0.14)
Total diluted earnings/(loss) per share	**4.99**	(0.14)

Basic earnings/(loss) per share

The earnings/(loss) and weighted average number of ordinary shares used in the calculation of basic earnings/(loss) per share are as follows:

Particulars	Year Ended on 31st March, 2022	Year Ended on 31st March, 2021
Profit / (loss) for the year attributable to owners of the Company	**2,710.17**	(76.39)
Profit/(loss) used in the calculation of basic earnings/(loss) per share	**2,710.17**	(76.39)
Weighted average number of equity shares	**543.02**	543.02
Nominal value of Shares	**10.00**	10.00
Earnings/(loss) per share from continuing operations - Basic	**4.99**	(0.14)

Diluted earnings/(loss) per share

Particulars	Year Ended on 31st March, 2022	Year Ended on 31st March, 2021
Profit / (loss) for the year used in the calculation of basic earnings per share	**2,710.17**	(76.39)
Profit/(loss) used in the calculation of diluted earnings per share	**2,710.17**	(76.39)

The weighted average number of ordinary shares for the purpose of diluted earnings/(loss) per share reconciles to the weighted average number of ordinary shares used in the calculation of basic earnings/(loss) per share as follows:

Particulars	Year Ended on 31st March, 2022	Year Ended on 31st March, 2021
Weighted average number of equity shares used in the calculation of Basic EPS	**543.02**	543.02
Add:		
ESOPs	**–**	–
Convertible bonds	**–**	–
Weighted average number of equity shares used in the calculation of Diluted EPS	**543.02**	543.02

Note:

The Company reports basic and diluted earnings/(loss) per share in accordance with Ind AS 33 on Earnings per share. Basic earnings/(loss) per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period. Diluted earnings/(loss) per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all years presented for any share splits and bonus shares issues including for changes effected prior to the authorization for issue of the financial statements by the Board of Directors.

Note No. 28 - Financial Instruments

Capital management

The Company manages capital risk in order to maximize shareholders' profit by maintaining optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio and net borrowings-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary. There is no change in the overall capital risk management strategy of the Company compared to last year.

The Company uses debt ratio as a capital management index and calculates the ratio as total liabilities divided by total equity. Total liabilities and total equity are based on the amounts stated in the separate financial statements.

The Company is not subject to externally enforced capital regulation.

Debt-to-equity ratio is as follows:

Particulars	As at 31st March, 2022	As at 31st March, 2021
Debt (A)	**1,564.25**	1,553.37
Equity (B)	**4,998.07**	2,302.73
Debt Ratio (A / B)	**0.31**	0.67

Financial Risk Management Framework

The Company's activities expose it to credit risk. In order to manage the aforementioned risk, the Company operates a risk management policy and a program that performs close monitoring of and responding to risk factors.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral (As on 31 March 2022: INR 822.72 Lakhs, 31 March 2021: INR 359.10 Lakhs), where appropriate, as a means of mitigating the risk of financial loss from defaults. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee periodically.

Trade receivables consist of a large number of customers, spread across diverse geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable. In case of Exports to Nepal credit guarantee insurance cover is purchased.

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks provided by the Company. The Company's maximum exposure in this respect is the maximum amount the Company could have to pay if the guarantee is called on as at 31 March 2022, an amount of INR 6.00 Lakhs (31 March 2021: INR 266.77 Lakhs) has been recognised as contingent.

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses. The Company has taken dealer deposit and bank guarantees of Dealer which is considered as collateral and these are considered in determination of expected credit losses, where applicable.

The financial instruments of the company mainly consist of trade receivables carried at amortised cost after providing for expected credit loss based on historical credit loss experience and adjusted for forward looking information. None of the assets are marked to active market thereby relieving the company from market uncertainties arising out of COVID-19

In calculating expected credit loss, the Company has also considered other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID -19.

There is no change in estimation techniques or significant assumptions during the reporting period.

The loss allowance provision is determined as follows:

	As at 31st March 2022		
Particulars	**Less than 6 months past due**	**More than 6 months past due**	**Total**
Expected loss rate	**–**	**0.61**	**0.31**
Gross carrying amount (Unsecured)	**1,755.04**	**1,741.59**	**3,496.63**
Loss allowance provision	–	**1,067.69**	**1,067.69**

	As at 31st March 2021		
Particulars	Less than 6 months past due	More than 6 months past due	Total
Expected loss rate	–	0.67	0.29
Gross carrying amount (Unsecured)	2,154.32	1,580.42	3,734.74
Loss allowance provision	–	1,066.02	1,066.02

Reconciliation of loss allowance provision for Trade Receivables

Particulars	**As at 31st March, 2022**	As at 31st March, 2021
Balance as at beginning of the year	**1,066.02**	892.32
As per ECL in Opening Provisions	**–**	–
Impairment losses recognised in the year based on lifetime expected credit losses		
- On receivables originated in the year	**451.44**	620.64
Amounts written off during the year as uncollectible	**(449.77)**	(446.94)
Balance at end of the year	**1,067.69**	1,066.02

The loss allowance provision has changed during the period due to amounts written off as uncollectible.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
Non-derivative financial liabilities				
As at 31st March, 2022				
Non-interest bearing	**4,241.23**	–	–	–
Fixed interest rate instruments	**1,428.95**	–	–	–
Total	**5,670.17**	–	–	–
As at 31st March, 2021				
Non-interest bearing	4,794.31	–	–	–
Fixed interest rate instruments	1,386.45	–	–	–
Total	6,180.76	–	–	–

(iii) Financing arrangements

The Company had access to following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at 31st March, 2022	As at 31st March, 2021
Secured Cash Credit facility		
- Expiring within one year	**2,000.00**	2,000.00
Secured Letter of Credit facility		
- Expiring within one year	**–**	**–**
Secured Bank Guarantee facility		
- Expiring within one year	**–**	**–**
Working Capital Facilities with Bank	**2,000.00**	2,000.00
Commercial Card Facility		
Continuing Agreement till Termination	**–**	–
Credit Card Facility	**–**	–

(iv) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
Non-derivative financial assets				
As at 31st March, 2022				
Non-interest bearing	**5,341.47**	–	–	–
Total	**5,341.47**	–	–	–
As at 31st March, 2021				
Non-interest bearing	2,905.63	–	–	–
Total	2,905.63	–	–	–

(v) Unhedged Foreign Currency Exposure

Pursuant to the RBI guidelines on "Capital and Provisioning Requirements for Exposures to entities with Unhedged Foreign Currency Exposure" issued vide circular DBOD.No.BP.BC.85/21.06.200/2013-14 dated January 15, 2014, clarifications issued by RBI subsequently vide circular DBOD.No.BP.BC.116/21.06.200/2013-14 dated June 3, 2014 and RBI circular RBI/15-16/431 permitting writing of options dated June 23, 2016 The Company, as on March 31, 2022, does not have any Unhedged Foreign Currency Exposure (UFCE), as defined in the above mentioned RBI circulars.

Note No. 29 – Fair Value Measurement

Fair value of financial assets and financial liabilities that are not measured at fair value:

Particulars	As at 31st March, 2022 Carrying Amount	As at 31st March, 2022 Fair Value	As at 31st March, 2021 Carrying Amount	As at 31st March, 2021 Fair Value
Financial assets				
Financial assets carried at Amortised Cost:				
1) Trade and other receivables	**2,428.94**	**2,428.94**	2,668.72	2,668.72
2) Loans	**67.15**	**67.15**	106.97	106.97
3) Deposits and similar assets	**1,857.08**	**1,857.08**	1,737.55	1,737.55
Financial liabilities				
Financial liabilities held at amortised cost:				
1) Bank loans	**135.30**	**135.30**	166.92	166.92
2) Loans from Related Party	**–**	**–**	–	–

Note No. 30 - Segment information

Revenue from Major Geographic Location

Particulars	Year Ended on 31st March, 2022	Year Ended on 31st March, 2021
Revenue from India		
Revenue from External Customers	**17,485.13**	13,536.06
Revenue from Related Parties	**784.81**	554.88
	18,269.94	14,090.94
Outside India		
Nepal	**714.59**	663.97
Total revenue as per profit or loss	**18,984.52**	14,754.91

Revenue from major products and services

The following is an analysis of the company's revenue from continuing operations from its major products and services:

Particulars	Year Ended 31st March, 2022	Year Ended 31st March, 2021
Manufactured Goods	**18,537.88**	14,238.56
Traded Goods	**446.64**	516.35
Total	**18,984.52**	14,754.91

Extent of the reliance on its major customers:

There is no Dealer whose revenue is more then 10% as against the total turnover of the company for the Financial Year 2021-2022.

Note No. 31 - Employee benefits

(a) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plans hold a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

As the plans mature, the Company intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

However, the Company believes that due to the long-term nature of the plan liabilities and the strength of the supporting group, a level of continuing equity type investments is an appropriate element of the Company's long term strategy to manage the plans efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings and interest rate hedging instruments.

Inflation risk

Some of the Company's pension obligations are linked to inflation, and higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation). The plans hold a significant proportion of assets in index linked gilts, together with other inflation hedging instruments and also assets which are more loosely correlated with inflation. However an increase in inflation will also increase the deficit to some degree.

Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	Valuation as at	
Particulars	**31-Mar-22**	31-Mar-21
Discount rate	**6.88%**	6.90%
Expected rate of salary increase	**6.00%**	5.00%
Average Longevity	**20**	20

Defined benefit plans – as per actuarial valuation on 31st March, 2022

	Unfunded Plan Gratuity	
Particulars	**2022**	2021
Amounts recognised in comprehensive income in respect of these defined benefit plans are as follows:		
Service Cost:		
Current Service Cost	**19.64**	14.47
Net interest expense	**9.18**	8.87
Components of defined benefit costs recognised in profit or loss	**28.82**	23.33
Remeasurement on the net defined benefit liability:		
Actuarial gains and loss arising from changes in Demographic Assumptions	**2.26**	–
Actuarial gains and loss arising from changes in financial assumptions	**10.78**	(0.20)
Actuarial gains and loss arising from experience adjustments	**1.78**	3.40
Components of defined benefit costs recognised in other comprehensive income	**14.82**	3.20
Total	**43.64**	**26.53**

	Unfunded Plan Gratuity	
Particulars	**2022**	2021
I. Net Asset/(Liability) recognised in the Balance Sheet as at 31st March 2022		
1. Present value of defined benefit obligation as at 31st March 2022	**146.84**	130.97
2. Fair value of plan assets as at 31st March 2022	**–**	–
3. Surplus/(Deficit)	**146.84**	130.97
4. Current portion of the above	**29.40**	15.49
5. Non current portion of the above	**117.44**	115.48
II. Change in the obligation during the year ended 31st March 2022		
1. Present value of defined benefit obligation at the beginning of the year	**130.97**	153.31
2. *Expenses Recognised in Profit and Loss Account*		
– Current Service Cost	**19.64**	14.47
– Interest Expense (Income)	**9.18**	8.87
3. *Recognised in Other Comprehensive Income*		
Remeasurement gains/(losses)		
– Actuarial Gain (Loss) arising from:		
i. Demographic Assumptions	**2.26**	–
ii. Financial Assumptions	**10.78**	(0.20)
iii. Experience Adjustments	**1.78**	3.40
4. Benefit payments	**(27.78)**	(48.86)
5. Present value of defined benefit obligation at the end of the year	**146.84**	130.97
III. Actuarial assumptions		
1. Discount rate	**6.88%**	6.90%

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption	**Year**	**Changes in assumption**	**Impact on defined benefit obligation**	
			Increase in assumption	**Decrease in assumption**
Discount rate	**2022**	**1.00%**	**-4.77%**	**5.34%**
	2021	1.00%	-6.60%	7.70%
Salary growth rate	**2022**	**1.00%**	**5.51%**	**-5.04%**
	2021	1.00%	8.30%	-7.20%
Withdrawal Rate	**2022**	**1.00%**	**0.01%**	**-0.03%**
	2021	1.00%	0.90%	-1.00%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

Maturity profile of defined benefit obligation:

Particulars	2022	2021
Within 1 year	**30.40**	15.49
1 - 2 year	**30.73**	19.49
2 - 3 year	**21.42**	15.85
3 - 4 year	**19.23**	15.91
4 - 5 year	**12.19**	14.82
5 - 10 years	**46.06**	27.78

The Company's policy is driven by considerations of maximizing returns while ensuring credit quality of the debt instruments. The asset allocation for plan assets is determined based on investment criteria prescribed under the Indian Income Tax Act, 1961, and is also subject to other exposure limitations. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

The weighted average duration of the defined benefit obligation as at 31 March 2022 is 7.42 years (2021: 13.66 years)

Experience Adjustments :

	Gratuity				
	Period Ended				
Particulars	**2022**	2021	2020	2019	2018
1. Defined Benefit Obligation	**146.84**	130.97	153.31	162.82	199.11
2. Fair value of plan assets	**–**	–	–	–	–
3. Surplus/(Deficit)	**146.84**	130.97	153.31	162.82	199.11
4. Experience adjustment on plan liabilities [(Gain)/ Loss]	**14.82**	3.20	(1.61)	(24.44)	(2.60)
5. Experience adjustment on plan assets [Gain/(Loss)]	**–**	–	–	–	–

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The current service cost and the net interest expense for the year are included in the employee benefits expense in profit or loss of the expense for the year.

Note No. 34 - Effect of COVID-19 on Financial Statements

From December 2019, COVID-19, has spread globally, including India. This event has significantly affected economic activity globally and in India and as a result could / would impact the operations and financial results of the Company. The Company has performed an assessment of the likely impact this would have on the operations of the Company and its financial performance in the coming year.

For Financial Year 21-22 financial reporting, the Company has used the principles of prudence in applying judgments, estimates and assumptions in significant areas like inventory valuation, estimating the remaining useful life of the tangible and intangible assets, cost to complete provision for long term contracts, evaluating the long term contracts for any onerous elements, recoverability of receivables including unbilled receivables, provision for receivables under ECL model, provision for warranties, recoverability of contract assets and contract costs, projection used to test goodwill and investments for impairment, evaluation of financial implications of probable cancellations of any long term commitments, impact of cancellation or modifications to the terms of the revenue contracts, cancellation or deferment of revenue contracts, penalties due to non-fulfillment of service legal obligations, fair valuation of financial assets and liabilities etc.

The Company has considered internal and external information up to the date of approval of these financial statements including credit reports and economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets.

The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

The Company has also evaluated the cash flows for Financial Year 21-22 and based on the present estimate of the management, the Company does not foresee any impact on its ability to meet the statutory dues and creditors payment on due dates and honouring its loan repayment and forward contract contractual commitments. There has been no downgrade in ratings of the existing borrowing facilities of the Company. The Company also has undrawn sanctioned limits and this could be availed to meet the obligations. Accordingly based on the projected cash flows for the next twelve months, the management is of the view that the use of going concern assumption in preparing these financial statements is appropriate.

Note No. 35 - Contingent liabilities and commitments

Contingent liabilities (to the extent not provided for)

	Particulars	As at 31st March, 2022	As at 31st March, 2021
	Contingent liabilities		
1	Bank guarantees	**6.00**	113.40
2	Bills discounted but not matured	**–**	153.37
3	Claims against the company not acknowledged as debt	**53.20**	42.25
4	Outstanding Demand of Income Tax Against Company		
(i)	Assessment Year 2014-2015 Note: Already filed with CIT Appeals for further assessment being aggrieved with the disallowance of right bad debts claimed in the year	**161.82**	66.73
(ii)	TDS mismatch	**10.17**	10.17

5 The Company is anticipating to enter into an agreement / MoU for Settlement with various non Hire Purchase Industrial Co-Operative Societies and Ancillaries within Company's Premises, therefore may require to pay Compensation to Co-Operative Societies or its members. Amount of such Compensation is not yet quantified.

6 The Company has entered into an agreement/MoU with Private Sector Banks and NBFCs for retail funding for providing loan to customer who buy company's Tractors. The said MOU also contains a clause on loss sharing in case of default in repayment by customer or loss incurred in case of repossession of asset and its resale. Anticipated loss from these agreements/ MoUs are not quantified as of now. The Company is obtaining undertaking from its dealers to ensure no default in terms of these agreements.

INDEPENDENT AUDITOR'S REPORT

To the members of Trringo.com Limited

Report on the audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Trringo.com Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its loss and total comprehensive loss, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information Other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors Report and the related annexures, but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our

auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on other Legal and Regulatory requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this report are in agreement with the books of account.

(d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act.

(e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy of the internal financial controls with reference to Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Financial Statements.

(g) With respect to other matters to be included in auditor's report in accordance with the requirements of section 197(16) of the Act, as amended, we report that in our opinion and to the best of our information and according to the explanations given to us, the Company has not paid any remuneration to its directors during the year.

(h) With respect to the other matters to be included in the Auditors' Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

(i) The Company does not have any pending litigations which would impact its financial position;

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

(iv) (a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

(v) The Company has not declared any dividend during the year.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Trringo.com Limited** ("the Company") as of March 31, 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANEXURE B TO THE AUDITOR'S REPORT

Referred to in paragraph 1 under **Report on Other Legal and Regulatory Requirements section** of our report of even date on the financial statements of **Trringo.com Limited** for the year ended March 31, 2022

Annexure to the Auditor's Report referred to in our report of even date:

i. (a) (A) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

(a) (B) According to the information and explanations given to us, the Company has maintained proper records showing full particulars of intangible assets.

(b) According to the information and explanations given to us, certain fixed assets have been physically verified by management, which in our opinion is reasonable having regard to the size of the Company and nature of its assets. The frequency of physical verification is reasonable and no discrepancies were noticed on such verification.

(c) The Company does not have any immovable property. Accordingly, reporting under Clause 3(i)(c) of the Order is not applicable to the Company.

(d) According to the information and explanations given to us, the Company has not revalued any of its Property, Plant and Equipment (including Right of Use assets) during the year.

(e) Based on the audit procedures performed by us and according to the information, explanations and representations given to us, no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

ii. (a) Company is into service industry and does not hold any inventory, hence, reporting under Clause 3(ii)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets at any point of time during the year.

iii. (a) According to the information and explanations given to us, the Company has not made investments in or provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year. Accordingly, the reporting under Clauses 3(iii)(a) to 3(iii)(f) of the Order is not applicable to the Company.

iv. According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Sections 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

v. According to the information and explanations given to us, the Company has not accepted deposits under the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

vi. The Central Government has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.

vii. (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services tax, Provident Fund, Employees' State Insurance, Income-tax, Cess and other statutory dues have been regularly deposited during the year by the Company with the appropriate authorities.

According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of outstanding statutory dues in respect of Goods and Services tax, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other statutory dues as on the last day of the financial year for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Services Tax, Provident Fund, Employees' State Insurance, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and any other statutory dues as at 31 March 2022, which have not been deposited with the appropriate authorities on account of any dispute.

viii. According to the information and explanations given to us, there are no transactions not recorded in the books of account which have been surrendered or disclosed as income during the year in the tax assessments under the Income-tax Act, 1961. Accordingly, the reporting under Clause 3(viii) of the Order is not applicable to the Company.

ix. (a) The Company does not have any loans or borrowings. Accordingly, reporting under Clause 3(ix)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not been declared a willful defaulter by any bank or financial institution or any other lender till the date of our audit report.

(c) The Company has not raised any term loans during the year. Hence, reporting under Clause 3(ix)(c) of the Order is not applicable to the Company.

(d) In our opinion and according to the information and explanations given to us and on an overall examination of the Balance Sheet of the Company, we report that funds raised on short-term basis have not been utilised for long- term purposes as at the Balance Sheet date.

(e) According to the information and explanations given to us and on an overall examination of the Financial Statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(f) According to the information and explanations given to us and based on the audit procedures performed by us, we report that the Company has not raised any loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies. Accordingly, the reporting under Clause 3(ix)(f) of the Order is not applicable to the Company.

x. (a) According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the reporting under Clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, the reporting under Clause 3(x)(b) of the Order is not applicable to the Company.

xi. (a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of fraud by the Company or on the Company noticed or reported during the year, nor have we been informed of any such case by the management.

(b) There has been no report filed by us under sub-section (12) of Section 143 of the Act in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government. Accordingly, the reporting under Clause 3(xi)(b) of the Order is not applicable to the Company.

(c) As represented to us by the management, no whistle blower complaints were received by the Company during the year.

xii. According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

xiii. In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Section 188 of the Act. The details of such related party transactions have been disclosed in the standalone (remove if there is no consolidation) financial statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures, specified under Section 133 of the Act. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act, and accordingly, to this extent, the reporting under Clause 3(xiii) of the Order is not applicable to the Company.

xiv. The Company is not required to have any internal audit system. Accordingly, reporting under Clause 3(xiv) of the Order is not applicable to the Company.

xv. According to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with them during the year and hence, the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

xvi. (a) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) In our opinion and according to the information and explanations given to us, the Company has not conducted any Non-Banking Financial or Housing Finance activities. Accordingly, the reporting under Clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) In our opinion and according to the information and explanations given to us, the Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under Clauses 3(xvi)(c) and 3(xvi)(d) of the Order is not applicable to the Company.

Based on the information and explanations given to us and the audit procedures performed by us, we report that the Group has 3 Core Investment Companies.

xvii. In our opinion and according to the information and explanations given to us, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year. Accordingly, the reporting under Clause 3(xvii) of the Order is not applicable to the Company.

xviii. There has been no resignation of the statutory auditors during the year. Accordingly, the reporting under Clause 3(xviii) of the Order is not applicable to the Company.

xix. According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of Balance Sheet as and when they fall due within a period of one year from the Balance Sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the Balance Sheet date, will get discharged by the Company as and when they fall due.

xx. According to the information and explanations given to us, CSR is not applicable to the Company. Accordingly, reporting under Clause 3(xx) of the Order is not applicable to the Company.

xxi. According to the information and explanations given to us, company does not have any subsidiary company. Accordingly, the reporting Clause 3(xxi)of the Order is not applicable to the Company.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

1. Corporate Information

Trringo.com Limited is a 100 % subsidiary of Mahindra and Mahindra Limited and incorporated on 23rd May, 2016 under the provisions of the Companies Act, 2013 (CIN: U01409MH2016PLC281449). The Company is in the business of organized farm equipment rentals through a franchisee based model.

2. Significant accounting policies

(A) Statement of compliance

The financial statements of the Company have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended.

(B) Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis, presented in Indian rupees and rounded off to nearest lacs.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(C) Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

(D) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

(E) Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows:

IT Software	3 to 6 years

(F) Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

(G) Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

(H) Financial instruments

Financial assets and financial liabilities are recognised when a Company entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables, other contractual rights to receive cash and other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls).

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

(I) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Sale of Services

Revenue from the rental services is recognised when the service is delivered and completed, all the following conditions are satisfied:

- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the services rendered;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding.

(J) Government Grants

The Company directly or indirectly is entitled to incentives from government authorities in respect of custom hiring and service centers. The Company accounts for its entitlement as income on accrual basis.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate. When the grants relates to an asset, it is recognized as income in equal amounts over the useful life of the related asset.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2022

(K) Employee benefits

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

(L) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(M) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year:

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(N) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks & rewards of ownership to the leases. All other leases are classified as operating leases.

The Company as lessee:

The assets held under finance leases are initially recongnised as assets of the company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance expense and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policies on borrowing cost. Contingent rentals are recognized as expense in the period in which they are incurred.

Rental expense from the operating lease is generally recognized on a straight line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessors expected inflationary cost increases, such increases are recognized in the year in which such benefits accrue.

(O) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Capital management

The company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity as presented on the face of the statement of financial position.

The capital structure is monitored on the basis of debt to equity and maturity profile of overall debt portfolio of the Company.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk . In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

CREDIT RISK

Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from cash and cash equivalents, investments carried at amortised cost, deposits with banks and financial institutions as well as credit exposures to customers including outstanding receivables.

Trade Receivables:

The Companys trade receivables include receivables on sale of residential flats. As per the Company's flat handover policy, a flat is handed over to a customer only upon payment of entire amount of consideration. Thus, the Company is not exposed to any credit risk on receivables from sale of residential flats.

Balances with Banks, mutual funds and other financial assets:

For banks and financial institutions, only high rated banks/institutions are accepted. The Company holds cash and cash equivalents with bank and financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its cash and cash equivalents have low credit risk based on external credit ratings of the counterparties.

For other financial assets, the Company assesses and manages credit risk based on reasonable and supportive forward looking information. The Company does not have significant credit risk exposure for these items.

LIQUIDITY RISK

(i) *Liquidity risk management*

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) *Maturities of financial liabilities*

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Trade Payables	**15.38**		
Other Financial Liabilities	**20.37**		
Total	**35.75**	**–**	–

(iii) *Maturities of financial assets*

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

INDEPENDENT AUDITOR'S REPORT

To the Stockholder and the Board of Directors,

Mahindra USA, Inc.

Qualified Opinion

We have audited the accompanying separate parent company financial statements of Mahindra USA, Inc. (the "Company"), a Texas Corporation, which comprise the balance sheets as of March 31, 2022, and March 31, 2021, and the related statements of comprehensive income (loss), stockholder's equity, and cash flows for the years then ended, and the related notes to the separate parent company financial statements.

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying separate parent company financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2022, and March 31, 2021, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Qualified Opinion

As discussed in Note B.1 to the separate parent company financial statements, the Company reports its investment in its wholly owned subsidiary at cost. Accounting principles generally accepted in the United States of America require all majority-owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of the subsidiary had been consolidated with those of Mahindra USA, Inc., total assets and total liabilities and stockholder's equity would have increased by $193,809 as at March 31, 2022 (March 31, 2021: $2,385,442) and net income or loss would have increased by $NIL for the year ended March 31, 2022 (March 31, 2021: $1,139,530).

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified audit opinion.

Responsibilities of Management for the Separate Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the separate parent company financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of separate parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate parent company financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Company's ability to continue as a going concern within one year after the date that the separate parent company financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Separate Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the separate parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the separate parent company financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional scepticism throughout the audit.
- Identify and assess the risks of material misstatement of the separate parent company financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the separate parent company financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the separate parent company financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

(The accompanying notes are an integral part of these separate parent company financial statements)

NOTES TO SEPARATE PARENT COMPANY FINANCIAL STATEMENTS

NOTE A – NATURE OF OPERATIONS

Mahindra USA, Inc. (the "Company") ("MUSA") was incorporated on June 8, 1994 in the State of Texas and commenced business on March 15, 1995. The Company is owned by Mahindra and Mahindra Ltd. ("M&M"). M&M is a publicly traded corporation, headquartered in Mumbai, India, which, among other activities, manufactures farming equipment and automobiles. The Company sells tractors, parts, attachments, and accessories in North America under wholesale distribution agreements.

The Company formed a subsidiary on August 9, 2016, Mahindra Mexico S de. R.L. de. C.V. ("MML"), to assemble and sell tractors, parts, attachments and accessories in Mexico and Latin America. MML commenced commercial operations in July 2018.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. **Basis of preparation**

   a. The accompanying separate parent company financial statements (or "financial statements") are prepared under the historical cost convention on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ('US GAAP'), except for investments in its wholly owned subsidiary. The Company reported its investment in Mahindra Mexico S de. R.L. de. C.V. ("MML") using the cost basis for the reporting requirements of its ultimate parent company and shareholder; Mahindra and Mahindra Ltd.

   b. All amounts are stated in United States Dollars (USD), except as otherwise specified.

   c. The financial statements are presented for the years ended March 31, 2022 and March 31, 2021.

   d. Certain reclassifications, regroupings and reworking have been made in the financial statements of prior periods to conform to the classifications used in the current year. These changes had no impact on previously reported net loss or stockholder's equity.

2. **Use of estimates**

   The preparation of financial statements in conformity with accounting principles generally accepted in US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management's estimates for determination of useful lives for property, plant & equipment, and long-lived assets for impairment, revenue recognition, allowance for incentives and warranties, legal and tax contingencies, provision for doubtful debts, accounting for leases and inventory valuation at the balance sheet date represent certain of these particularly sensitive estimates. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates prospectively in the current and future periods.

3. **Cash and cash equivalents**

   The Company's cash and cash equivalents comprise of cash and bank balances. The Company does not have any cash equivalents. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments. Cash balances in US bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate of $250,000. The Company believes it is not exposed to any significant risk on cash and cash equivalents.

4. **Revenue recognition**

   Financial Accounting Standards Board ('FASB') issued Accounting Standards Codification ('ASC') 606 – Revenue from Contracts with Customers in May 2014. The Company early adopted the standard during the year ended March 31, 2019 using modified retrospective method of transition to change its accounting policies.

   Revenue from sale of tractors, parts, attachments and accessories is recognized when each of the following criteria is met:

   1. The Company and an independent dealer approve a contract with commercial substance.

   2. The sales price is determinable, and collectability of the payment is probable based on the terms outlined in the contract

   3. Control of the goods is transferred to the dealer when the ordered goods are invoiced to the dealer after credit approval and when the ordered items are ready for shipment.

   Transfer of control, and therefore revenue recognition is recorded at a point in time on the date when the tractors, parts, attachments or accessories are made available to the dealers.

   The Company participates in various retail sales incentives with its dealers. The Company records the estimated retail sales incentive programs offered to dealers as a reduction to revenue at the time of sale to the dealer. The estimate is based on historical data, announced incentive programs, field inventory levels, and retail sales volumes.

   <u>Revenue from sale of off-road vehicle products</u>

   During the year ended March 31, 2022, the Company entered into a distribution agreement with Mahindra North American Technical Center, Inc. ("MNATC"), its related party, for sale of off-road vehicle and its parts and accessories manufactured by MNATC, in North America. The Company recognizes revenue from sales of these off-road vehicle and its parts and accessories on net basis as it is an agent in the transaction, in accordance with 'Principal versus Agent Considerations' guidance of ASC 606. Additionally, the Company receives reimbursements including a markup of certain directly related costs and expenses from MNATC which is recognized as 'other operating revenue' on the statements of comprehensive income (loss). The Company also has an arrangement to pass through sales incentive costs and warranty claims at actuals to MNATC.

   Product warranties

   The Company establishes reserves for product warranties at the time the related sale is recognized. The Company issues product warranties under which the performance of products delivered is generally guaranteed for a certain term. The accrual for product warranties includes the expected costs of warranty obligations imposed by law or contract, as well as the expected costs for policy coverage.

5. **Accounts receivable and allowance for doubtful debts**

   Accounts receivable are stated at the amount invoiced to the dealers. The Company follows the specific identification method for recognizing allowance for doubtful debts. All amounts deemed to be uncollectible are charged against the allowance for doubtful debts in the period that determination is made. The Company charges off uncollectable amounts against the allowance for doubtful debts in the period in which it determines they are uncollectable. Allowance for doubtful debts is included in other selling, general and administrative expenses in the statements of comprehensive income/loss.

6. **Inventories**

   Inventories are stated at moving average price or net realizable value whichever is lower. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price less applicable selling expenses. The Company writes-down obsolete or otherwise unmarketable inventory to its estimated realizable value.

7. Investment in subsidiary

The Company accounts for its investment in subsidiary using the cost method. During the years ended March 31, 2022 and March 31, 2021, the Company has fully impaired the value of investment in the wholly owned subsidiary considering the series of operating losses of the subsidiary, thereby resulting in absence of an ability to recover the carrying amount of the investment.

8. Property, plant and equipment, net

Property, plant and equipment are stated at cost less accumulated depreciation and impairment. Cost of items of property, plant and equipment comprise cost of purchase, improvements and other costs necessarily incurred to bring it to the condition and location necessary for its intended use. Depreciation is provided over the useful lives of the related assets using the straight-line method for financial reporting and the modified accelerated cost recovery method for tax purposes. Leasehold improvements are amortized over the shorter of the lease term or their respective estimated useful lives.

The estimated useful life used to determine depreciation is:

Buildings and building improvements	7-10 Years
Furniture and fixtures	3-10 Years
Office equipment	3-7 Years
Computer and software	3-5 Years
Vehicles	3-5 Years

Deposits paid towards the acquisition of property, plant and equipment outstanding as of each balance sheet date and the cost of property, plant and equipment not ready for use before such date are disclosed under capital work-in-progress. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is a part of net operating loss.

Development costs related to internally generated software are capitalized once a project has progressed beyond a conceptual, preliminary stage to that of the application development stage. Costs of significant improvements on existing software for internal use, both internally developed and purchased, are also capitalized. Costs related to the preliminary project stage, data conversion and post-implementation/operation stage of an internal use software development project are expensed as incurred.

9. Leases

Accounting Standard Update ("ASU") 2016-02, Leases. On April 1, 2020, the Company early adopted Accounting Standards Codification 842 and all the related amendments ("new lease standard") using the modified retrospective method. The new lease standard requires all leases to be reported on the balance sheet as operating lease right-of-use assets and lease obligations. The Company elected the practical expedients permitted under the transition guidance of the new standard that retained the lease classification and initial direct costs for any leases that existed prior to adoption of the standard. The Company has not applied the recognition and measurement requirements of ASC 842 to certain assets on lease where the Management believes it to be immaterial.

The Company's leases are classified as operating leases, which are included in operating lease right-of-use assets and operating lease liabilities in the Company's balance sheet. Lease arrangements, which effectively transfer control of the underlying leased item, are capitalized and recognized as finance lease.

Right-of-use ("ROU") assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of revenue or general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in cost of revenue. Interest expense for finance leases is recognized using the effective interest method. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

As a result of the Company's adoption of ASC 842, the Company recognized operating lease right-of-use of assets and lease liabilities amounting to $25,351,196 as at April 1, 2020.

10. Income taxes

In accordance with the provisions of FASB ASC Topic 740 "Income Taxes," income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The deferred tax asset is reduced by a valuation allowance if it is more likely than not that some portion or all of the assets will not be realized.

11. Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency at the rates of exchange prevailing at the date of the transaction. Monetary items denominated in foreign currency remaining unsettled at the end of the year are translated at the closing rates as at the last day of the year. Gains or losses, if any, on account of exchange difference either on settlement or translation are recognized in statements of comprehensive loss, except those relating to acquisition of fixed assets which are adjusted to the cost of the respective asset.

12. Fair value measurements and financial instruments

The fair value hierarchy requires the use of observable market data when available. In instances where the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability. The following table sets forth by level within the fair value hierarchy, the Company's financial assets and liabilities that are accounted for at fair value on a recurring basis at March 31, 2022 and 2021, according to the valuation techniques the Company used to determine their fair values.

- Level 1 - Quoted prices in active markets for identical assets or liabilities.
- Level 2 - Observable inputs other than quoted prices include in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 - Unobservable inputs that are support by little or no market activity. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The fair value of the interest rate swaps is the estimated amount that the Company would receive or pay to terminate such agreements, taking into account market interest rates and the remaining time to maturities or using market inputs with mid-market pricing as a practical expedient for bid-ask spread.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and related party dues. The estimated fair value of cash, accounts receivable, accounts payable and related party dues approximate their carrying amounts due to the short-term nature of these instruments. The Company has entered into cash flow hedge so as to protect the variability of the cash flow stemming from the floating rate interest payments on facility arrangement. None of these instruments are held for trading purposes.

13. Interest rate swaps

The Company has interest rate swaps with counterparties to reduce its exposure to variability in cash flows relating to interest payments on portion of its notes payable. The Company applies hedge accounting and has designated these instruments as cash flow hedges of the risk associated with floating interest rates on designated future monthly interest payments. Management assumes the hedge is highly effective and therefore changes in the value of the hedging instrument are recorded in accumulated other comprehensive loss in the balance sheets. Any ineffectiveness is recorded in earnings. Amounts in accumulated other comprehensive loss are reclassified into earnings in the same period during which the hedged transactions affect earnings, or upon termination of the hedging relationship.

14. Derivative financial instruments

The Company has obtained floating rate borrowings which are linked to 1 months revolving LIBOR. For managing the interest rate risk arising from changes in LIBOR on such borrowings, the Company has entered into interest rate swap (IRS). The Company has designated the IRS (hedging instrument) and the floating rate financial liability (hedged item) into a hedging relationship and applies hedge accounting.

Under the terms of the IRS, the Company pays interest at the fixed rate to the swap counterparty in USD and receives the floating interest payments based on LIBOR in USD. As the critical terms of the hedged item and the hedging instrument (notional, interest periods, underlying and fixed rates) are matching and the interest cashflows are off setting, an economic relationship exists between the two. This ensures that the hedging instrument and hedged item have values that generally move in the opposite direction.

Hedge effectiveness testing is assessed at designation date of the hedging relationship, and on an ongoing basis. The ongoing assessment is performed at a minimum at each reporting date or upon a significant change in circumstances affecting the hedge effectiveness requirements, whichever comes first.

15. Advertising and marketing expenses

The Company subsidizes product advertising carried on by dealers within each dealer's local market and conducts dealer conferences. The Company also advertises in trade magazines, at trade shows and uses various other means of promotion, including product brochures and digital media to increase brand awareness and sale of products in the market. Expenditures without extended advertising value are expensed in the year accrued. The amount of advertising and marketing costs incurred by the Company for the year ended March 31, 2022, amounting to $3,717,043 (March 31, 2021: $2,203,482) is included in 'selling, general and administrative expenses' on the statement of comprehensive income/loss.

16. Shipping and handling cost

The Company generally classifies freight billed to dealers as sales revenue. Shipping and handling activities are considered to be a separate performance obligation.

17. Commitments and contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

NOTE C – CASH AND CASH EQUIVALENTS

Cash and cash equivalents include the following:

	As at	
	March 31, 2022	March 31, 2021
Balances with banks	**37,302,508**	12,263,078
Cash in hand	**–**	561
Total	**37,302,508**	12,263,639

NOTE D – ACCOUNTS RECEIVABLE, NET

Accounts receivable, net, include the following:

	As at	
	March 31, 2022	March 31, 2021
Accounts receivable from customers	**12,429,712**	21,745,766
Less: allowance for doubtful debts	**(1,740,770)**	(3,676,396)
Accounts receivable, net of allowances	**10,688,942**	18,069,370

Accounts receivable as at March 31, 2022 and March 31, 2021 are stated net of provision for doubtful debt and other allowances. The Company follows the specific identification method for recognizing allowance for doubtful debts. Accordingly, the Company maintains an allowance for doubtful debts on accounts receivable, based on present and prospective financial condition of the dealer and ageing of accounts receivable after considering historical experience and the current economic environment.

NOTE E – INVENTORIES, NET

Major classes of inventory include the following:

	As at	
	March 31, 2022	March 31, 2021
Finished goods	**50,759,755**	57,358,124
Raw materials	**80,190,642**	70,812,757
Total	**130,950,397**	128,170,881

NOTE F – PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment, and intangibles include the following:

	As at	
	March 31, 2022	March 31, 2021
Building and building improvements	**5,442,446**	5,321,012
Vehicles	**42,511**	63,467
Furniture and fixtures	**832,457**	**1,891,122**
Office equipment	**855,848**	**1,329,112**
Computers and software	**10,296,444**	**10,107,224**
Less: accumulated depreciation and amortization	**(10,995,275)**	**(9,405,319)**
Property, plant and equipment, and intangible assets	**6,474,431**	9,306,618
Capital work-in-progress	**827,339**	**55,192**
Property, plant and equipment, and intangible assets net	**7,301,770**	9,361,810

Depreciation and amortization expense for the year ended March 31, 2022, amounting to $3,475,768 (March 31, 2021: $3,242,711) is included in 'other selling, general and administrative expenses' on the statements of comprehensive income (loss).

During the years ended March 31, 2022, and March 31, 2021, capital work-in-progress of $660,003 and $1,979,651, respectively, was completed and capitalized to computer and software, building and building improvements and the other property, plant and equipment.

NOTE G – NOTES PAYABLE

As at March 31, 2022, the total loan outstanding amounts to $5,000,000. The average interest rate during the year on these loans was 2.01%. The maturity date for the loan is in June 2022. Facilities from banks do not carry any restrictive covenants. The Company has unutilized line of credit of $105,000,000.

As at March 31, 2021, the total loan outstanding amounts to $53,000,000. The average interest rate during the year on these loans was 2.7%. The maturity dates for all the loans are in April 2021 and June 2021. Facilities from banks do not carry any restrictive covenants. The Company has unutilized line of credit of $97,000,000.

As at March 31, 2022 and March 31, 2021, Company has irrevocable standby letter of credit for $12,000,000.

	As at	
	March 31, 2022	March 31, 2021
Current portion		
Notes payable	**5,000,000**	53,000,000
Total	**5,000,000**	53,000,000

NOTE H – ACCOUNTS PAYABLE

	As at	
	March 31, 2022	March 31, 2021
Trade payables	**39,735,590**	26,701,216
Total	**39,735,590**	26,701,216

NOTE I – OTHER CURRENT LIABILITIES

Other current liabilities comprise of:

	As at	
	March 31, 2022	March 31, 2021
Accrued payables	**77,270,501**	52,221,837
Current obligations under finance leases	–	10,450
Total	**77,270,501**	52,232,287

Expenses accrued for the years ending March 31, 2022, and March 31, 2021, include advertising, marketing program costs, retail rate buy-downs, cash discounts, state franchise taxes, payroll and payroll taxes, employee bonuses, salesmen and customer bonuses, legal fees, property taxes, insurance deductibles, other expenses and warranty reserves. The Company participates in various retail incentives with its dealers and has accrued for the costs of these programs in effect as of the date of these separate parent company financial statements.

NOTE J – DERIVATIVE FINANCIAL INSTRUMENTS

The following tables summarize the gross fair values of the financial instruments as of March 31, 2022, and March 31, 2021:

	As at	
	March 31, 2022	March 31, 2021
Derivatives designated as hedging instruments		
Interest rate swap	**–**	404,256
Total derivatives designated as hedging instruments	**–**	**404,256**
Total derivatives not designated as hedging instruments	**–**	–
Total derivative fair value	**–**	**404,256**

The fair value of the derivative instruments and their location in the separate parent financial statements of the Company is summarized in the table below:

	As at	
	March 31, 2022	March 31, 2021
Other current liabilities	**–**	404,256
Total	**–**	**404,256**

Gain (loss) recognition

There was no gain recognized with respect to fair value of derivative instruments not designated as hedges and ineffectiveness of designated derivative recognized in other income, net.

The following table summarizes the impact on accumulated other comprehensive income and earnings of derivative instruments designated as cash flow hedges and the amount of gain recognised in other comprehensive income for the year ended March 31, 2022 and March 31, 2021.

	Before-tax amount	**Tax (expense) or benefit**	**Net of tax Amount**
Opening balance as of March 31, 2021	404,256	–	404,256
Net losses reclassified into statement of income on completion of hedged transactions	(404,256)	–	(404,256)
Loss on cash flow hedging derivatives, net	–	–	–
Closing balance as of March 31, 2022	**–**	**–**	**–**

NOTE K – FAIR VALUE MEASUREMENT

The following table presents liabilities as of March 31, 2022 and March 31, 2021 that are measured and recognized at fair value on a recurring basis:

	Quoted price in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant other unobservable inputs (Level 3)
Balance as on March 31, 2021	–	404,256	–
Interest rate swap	–	(404,256)	–
Balance as of March 31, 2022	**–**	**–**	**–**

The fair value of the interest rate swaps is the estimated amount that the Company would receive or pay to terminate such agreements, taking into account market interest rates and the remaining time to maturities or using market inputs with mid-market pricing as a practical expedient for bid-ask spread.

NOTE L – LEASES

General description of the lease

The Company has entered into noncancelable operating lease agreements related to facility, office equipment, and vehicles with varying terms.

Non-lease components: Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements.

Package of practical expedients: The Company will not reassess whether any expired or existing contracts are leases or contain leases, the lease classification for any expired or existing leases or any initial direct costs for any expired or existing leases as of the transition date. The Company has not applied the recognition and measurement requirements of ASC 842 to certain assets on lease where the Management believes it to be immaterial.

Additional transition method: The Company adopted the standard using a modified retrospective approach, applying the standard's transition provisions at the beginning of the period of adoption and maintain previous disclosure requirements for comparative periods.

The Company used the following policies and/or assumptions in evaluating the lease population:

Lease determination: The Company considers a contract to be or to contain a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration.

Discount rate: When the lease contracts do not provide a readily determinable implicit rate, the Company uses the estimated incremental borrowing rate based on information available at the inception of the lease. The discount rate is determined by asset class.

Variable payments: The Company includes payments that are based on an index or rate within the calculation of right of use leased assets and lease liabilities, initially measured at the lease commencement date. There are variable payments in the nature of origination fees for office equipment, machinery and equipment and therefore are not treated as a part of lease payments.

Purchase options: Certain leases include options to purchase the office equipment. The depreciable life of assets are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

Renewal options: Most leases include one or more options to renew, with renewal terms that can extend the lease term from one or more years. The exercise of lease renewal options is at the Company's sole discretion.

Residual value guarantees, restrictions, or covenants: The lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Short-term leases: Leases with an initial term of 12 months or less are not recorded on the balance sheet; the Company recognizes lease expense for these leases on a straight-line basis over the lease term and expense the associated operating lease costs to administrative expenses on the statements of income.

Right of use (ROU) asset relating to capital lease of $ 293,992 as of March 31, 2022 (March 31, 2021: $661,656), is included in "property, plant and equipment, net" and lease liability relating to capital lease is NIL as of March 31, 2022 (March 31, 2021: $10,450).

The table below presents the classification of lease related expenses as reported in the statements of comprehensive income/ (loss).

	For the year ended	
Particulars	**March 31, 2022**	March 31, 2021
Amortization of ROU asset on finance lease (a)	**367,664**	370,869
Interest on capital lease liability (b)	**208**	6,522
Operating lease expense (c)	**3,600,281**	3,714,098
Total lease expense	**3,968,153**	4,091,489

(a) Amortization of ROU asset relating to capital lease is included in 'other selling, general and administrative expenses' in the statements of comprehensive income/loss.

(b) Interest on capital lease liability is included in 'finance cost' in the statement of comprehensive loss.

(c) Operating lease expenses are included in 'other selling, general and administrative expenses' in the statements of comprehensive income/loss. Operating lease expense include short-term leases, variable lease costs and leases which did not meet the capitalization requirement of the Company.

Future minimum lease payments as of March 31, 2022, for operating and capital leases having an initial or remaining non-cancelable lease term in excess of one year are as follows.

Year ended March 31,	**Operating lease**	**Capital lease**
2023, 2024 and 2025	10,407,585	–
2026 and 2027	6,614,968	–
2028 onwards	9,846,699	–
Total minimum lease payments	**26,869,253**	**–**
Less: Interest	5,490,905	–
Present value of lease payments	**21,378,348**	**–**

The following table presents the weighted-average remaining lease term and discount rates as of:

	March 31, 2022	**March 31, 2021**
Weighted-average remaining lease term (years)		
Operating leases	**7.92**	8.66
Capital leases	**–**	0.5
Weighted-average discount rate		
Operating leases	**4.5%**	4.5%
Capital leases	**–**	6.8%

The following table presents supplemental information for operating leases for the year ended March 31, 2022.

	For the year ended	
	March 31, 2022	**March 31, 2021**
Supplemental cash flow information		
Cash paid for amounts included in the measurement of lease liabilities		
Operating cash flows from operating leases	**3,590,861**	3,522,389
Financing cash flows from capital leases	**10,450**	421,074
Operating cash flows from capital leases	**208**	6,522
Non-cash lease assets obtained in exchange for new lease liabilities		
Operating leases	**41,846**	25,351,196

Long term finance lease obligation is calculated as:

	As at	
	March 31, 2022	March 31, 2021
Total finance lease obligation	**–**	10,450
Less: Current portion	**–**	(10,450)
Long term capital lease obligation	**–**	**–**

NOTE M – INCOME TAXES

The Company files state tax returns and federal tax returns at the standalone level. The components of the provision for income tax expense are as follows:

	For the year ended	
	March 31, 2022	March 31, 2021
Current taxes		
Federal	**659,622**	–
State	**306,261**	102,580
Deferred taxes		
Federal	**2,638,488**	–
State	**500,712**	–
Total	**4,105,083**	**102,580**

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

As of March 31, 2022, the Company has net deferred tax assets of $58,072,080. This is mainly attributable to three components, deferred tax on accrued dealer incentive of $7,954,607, accrued expenses of $5,664,699 and on net operating losses $38,351,173. Other components refer to deferred taxes on various other expenses, including slow moving inventory, warranty reserves and allowance for uncollectible accounts receivable. Out of total deferred tax assets, the Company has recognized deferred tax assets of $34,226,738 and created valuation allowance on the remaining balance of $23,845,342.

As of March 31, 2021, the Company has net deferred tax assets of $59,525,437. This is mainly attributable to two components, deferred tax on accrued dealer incentive of $7,022,320 and on net operating losses $42,076,331. Other components refer to deferred taxes on various expenses, including slow moving inventory, warranty reserves, allowance for uncollectible accounts receivable and other comprehensive loss related items such as cash flow hedge reserve. Out of total deferred tax assets, the Company has recognized deferred tax assets of $37,365,938 and created valuation allowance on the remaining balance of $22,159,498.

Realization of net deferred tax assets is dependent upon generation of sufficient taxable income in future years, benefit from the reversal of taxable temporary differences and tax planning strategies. Management assesses the available positive and negative evidence to estimate whether sufficient future taxable income will be generated to permit use of the existing deferred tax assets. The amount of net deferred tax assets considered realizable is subject to adjustment in future periods if estimates of future taxable income change.

Based on the evaluation of positive and negative evidences, the Company has determined that the entire amount of deferred tax assets may not be realizable in near future and accordingly created a valuation allowance of $23,845,342 and $22,159,498 as of March 31, 2022 and March 31, 2021, respectively.

The Company has federal net operating losses of $154,430,679 and $ 168,862,581 as at March 31, 2022 and March 31, 2021, respectively. These net operating losses generated will be carried forward indefinitely. The Company has state net operating loss carryforwards of approximately $95,294,621 and $ 107,138,742 as at March 31, 2022 and March 31, 2021, which if unutilized will expire based on the statutes of various states.

Accounting for uncertain tax position

The Company recognizes the benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority. The Company has no unrecognized tax positions as at March 31, 2022 and March 31, 2021.

The tax years 2018 to 2020 remain subject to examination by the taxing authorities.

NOTE N – EMPLOYEE BENEFIT PLANS

The Company adopted a 401(k)-retirement plan effective April 1, 1998. The total expense for employee retirement contribution plans for the year ended March 31, 2022 was $337,321 (March 31, 2021 – $257,343). The amounts have been included in other selling, general and administrative expenses.

NOTE O – RELATED PARTY TRANSACTIONS

The Company had transactions relating to loans, advances, issue of shares and investments with following related parties:

A. Parent Company

1. Mahindra and Mahindra Ltd.

B. Fellow Subsidiaries

1. Mahindra Integrated Business Solution Limited
2. Bristlecone India Limited
3. Bristlecone Inc.
4. Mahindra and Mahindra Financial Services Ltd
5. Mahindra Automotive Australia Pty Ltd.
6. Hisarlar Makina Sanayi Ve Ticaret A.S
7. Mahindra Vehicle Manufacturers Limited
8. Mahindra do Brasil Industrial Ltd.
9. Mahindra Overseas Investment Company Mauritius Limited
10. Mahindra Automotive North America Inc.
11. Mahindra North American Technical Center, Inc.
12. Hisarlar Makina Sanayi Ve Ticaret A.S

C. Associates

1. Mitsubishi Mahindra Agricultural Machinery Co., Ltd
2. Mahindra Finance USA, LLC

D. Subsidiary of the Company

1. Mahindra Mexico S de RL de CV

The Company purchases tractors and parts from related parties, including M&M and Mitsubishi Mahindra Agricultural Machinery Co. Ltd., on an open account, which is paid when due. Accounts payable are net of amounts the Company has paid for warranty claims and legal fees.

The Company has the following payables:

	As at	
	March 31, 2022	March 31, 2021
Mahindra and Mahindra Ltd., Farm Equipment Sector	**44,342,563**	21,082,793
Mitsubishi Mahindra Agricultural Machinery Co., Ltd	**29,888,598**	31,695,701

The Company entered into transactions with its related parties in the normal course of business. The Company's purchases of tractors and parts from M&M Ltd. and Mitsubishi Mahindra Agricultural Machinery Co. Ltd. for the years ended March 31, 2022, and March 31, 2021 were $ 179,391,802 and $ 84,826,880, respectively. The dealers of Mahindra USA, Inc. avail financing facility from Mahindra Finance USA LLC.

The Company's net revenue from sale of off-road vehicle products amounted to $201,357 and total cost and expense reimbursements amounted to $284,355, with Mahindra North American Technical Center, Inc. for the year ended March 31, 2022 (March 31, 2021: NIL).

NOTE P – FINANCIAL INSTRUMENTS AND CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Company to significant credit risk consist principally of cash and accounts receivable. Risks associated with cash are mitigated by banking with financial institutions that management believes to be of high credit quality. The Company performs ongoing credit evaluations of its dealers and maintains reserves for potential credit losses. To date, such losses have been within management's expectations.

NOTE Q – RISK AND UNCERTAINTIES

The Company's future results of operations involve several risks and uncertainties.

Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes; the ability to attract and retain qualified employees and the Company's ability to execute on its business plan.

The effects of coronavirus (COVID) and the related actions of governments and other authorities to contain COVID continue to affect the Company's operations, results, cash flows, and forecasts. The future financial effects of COVID are unknown due to many factors. The extent of the impact of coronavirus (COVID 19) outbreak on operations of the Company will depend on future developments, including the duration and spread of the outbreak, related advisories and restrictions, government actions, the impact on financial markets and the overall economy, all of which are highly uncertain and cannot be predicted.

NOTE R – ASSEMBLY AND SERVICE AGREEMENT

The Company has entered into agreements with third party assemblers for the final assembly of tractors. These agreements stipulate that assemblers are to assemble the tractors in accordance with procedures provided by the Company so that the tractors are ready for sale to dealers. The assemblers store inventory owned by the Company in a secure location.

The assemblers are paid based on a piecemeal basis at various rates depending on the respective model and related accessories. These rates are reviewed and negotiated at regular intervals.

NOTE S – STOCKHOLDER'S EQUITY

Authorized common stock

The authorized Class A common stock is 460,000,000 shares with a par value of $ 0.25 and the authorized Class B common stock is 693,750,000 shares with a par value of $0.16 as at March 31, 2022 and as at March 31, 2021.

Common stock issued

Class A common stock issued and outstanding is 456,000,000 shares at $ 0.25 par value each and Class B common stock issued and outstanding is 672,500,000 shares at $0.16 par value each.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holders of common stock shall be entitled to receive all of the remaining assets of the Company, after distribution of all preferential amounts, if any. Such amounts will be in proportion to the number of equity shares held by the shareholders.

NOTE T – SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date at which financial statements were issued. There were no subsequent events or transactions identified which require disclosure.

NOTE U – COMMITMENTS AND CONTINGENT LIABILITIES

The Company is involved in various proceedings which are considered ordinary litigation incident to its business. In management's opinion, adequate provisions have been made for the contingencies and none of the current litigation will have a materially adverse effect on the Company's financial position.

As of March 31, 2022, and March 31, 2021, the Company did not have any capital commitment outstanding.

INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS

To the
Directors of
Mahindra do Brasil Industrial Ltda.
Dois Irmãos - RS

Opinion

We have examined the financial statements of Mahindra do Brasil Industrial Ltda., which comprise the balance sheet as of March 31st, 2022 and the related statements of income, changes in equity and cash flows for the fiscal year then ended, as well as the summary of the main accounting practices and other explanatory notes.

In our opinion, the aforementioned financial statements present fairly, in all material respects, the equity and financial position of **Mahindra do Brasil Industrial Ltda.** as of March 31st, 2022, the performance of its operations and its cash flows for the fiscal year then ended, in accordance with accounting practices adopted in Brazil.

Opinion Basis

Our audit was conducted in accordance with Brazilian and international auditing standards. Our responsibilities, in accordance with such standards, are described in the following section entitled "Auditor's Responsibilities for Auditing the Financial Statements". We are independent from the company, in accordance with the relevant ethical principles set out in the Accountant's Code of Professional Ethics and in the professional standards issued by the Federal Accounting Council, and we comply with other ethical responsibilities in accordance with these standards. We believe that the audit evidence obtained is sufficient and adequate to support our opinion.

Management and governance responsibilities for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices adopted in Brazil and for the internal controls that it has determined to be necessary to enable the preparation of financial statements free of material misstatement, whether caused by fraud or error.

In preparing the financial statements, management is responsible for evaluating the Company's ability to continue operating, disclosing, when applicable, matters related to its going concern and the use of this accounting basis in the preparation of the financial statements, unless the management intends to liquidate the Company or cease operations, or has no realistic alternative to avoid closing operations.

Those responsible for the governance of the Company are those responsible for supervising the process of preparing the financial statements.

Auditor's responsibilities for auditing the financial statements

Our goals are to obtain reasonable assurance that the financial statements, taken as a whole, are free from material misstatement, whether due to fraud or error, and to issue an audit report containing our opinion. Reasonable assurance is a high level of assurance, but not a guarantee that the audit performed in accordance with Brazilian and international auditing standards always detects any material misstatements that exist. The misstatements can be due to fraud or error and are considered relevant when, individually or jointly, they can influence, within a reasonable perspective, the economic decisions of users made based on said financial statements.

As part of the audit performed in accordance with Brazilian and international auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. In addition to that:

- We identify and assess the risks of material misstatement in the financial statements, whether due to fraud or error, plan and perform audit procedures in response to such risks, and obtain sufficient and appropriate audit evidence to support our opinion. The risk of not detecting material misstatement resulting from fraud is greater than that arising from error, since fraud can involve the act of circumventing internal controls, collusion, forgery, omission or intentional misrepresentation.
- We gathered an understanding of internal controls relevant to the audit in order to plan audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.
- We assessed the adequacy of the accounting policies used and the reasonableness of the accounting estimates and respective disclosures made by management.
- We conclude on the appropriateness of the use, by management, of the accounting basis for operational continuity and, based on the audit evidence obtained, whether there is significant uncertainty in relation to events or conditions that may raise significant doubts regarding the Company's operational continuity capacity. If we conclude that material uncertainty exists, we must draw attention in our audit report to the related disclosures in the financial statements or include a modification of our opinion if the disclosures are inadequate. Our conclusions are based on the audit evidence obtained up to the date of our report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- We evaluate the overall presentation, structure and content of the financial statements, including the disclosures and whether the financial statements represent the corresponding transactions and events in a manner consistent with the purpose of proper presentation.

We communicate with those charged with governance regarding, among other aspects, the planned scope, timing of the audit and significant audit findings, including any significant deficiencies in internal controls that we identified during our work.

MANAGEMENT'S EXPLANATORY NOTES ON THE FINANCIAL STATEMENTS

FOR THE FISCAL YEARS ENDED ON MARCH 31ST, 2022 AND 2021

IN THOUSANDS BRAZILIAN REAIS

1. Operating context

Mahindra do Brasil Industrial Ltda is a company headquartered in Dois Irmãos-RS, at Rua 10 de Setembro, 1097, in Bairro Centro [Downtown Neighborhood]. The company was incorporated on January 14th, 2016.

The company's main objective is the Manufacture of Agricultural Tractors, Parts and Accessories, as well as the wholesale trade of new and used cars, vans and utility vehicles; retail sale of new cars, vans and SUVs; retail trade of used parts and accessories for motor vehicles; wholesale trade of machinery, apparatus and equipment for agricultural use; parts and pieces; maintenance and mechanical repair services for motor vehicles; installation of industrial machines; manufacture of other equipment and devices not previously specified; wholesale trade of new parts and accessories for motor vehicles; other holding companies, except holding companies; Other service activities provided primarily to companies not previously specified; body shop or bodywork and painting services for motor vehicles.

2. Summary of the main accounting policies

The main accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently in all the years presented, unless otherwise stated.

These financial statements were approved by the board on March 31st, 2022.

2.1 Base of preparation

The preparation of financial statements requires the use of certain critical accounting estimates and the exercise of judgment by management in the process of applying the Company's accounting policies. Those areas that require a higher level of judgment and are more complex, as well as areas in which assumptions and estimates are significant for the financial statements, are disclosed in Note 2.15.

(a) Financial statements

The financial statements were prepared in accordance with accounting practices adopted in Brazil, including the pronouncements, guidelines and interpretations issued by NBC TG in accordance with Laws no. 6.404/1976 and 11.638/2007.

2.2 Foreign currency conversion

Functional currency and presentation currency

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which the Company operates ("the functional currency"). The financial statements are presented in Brazilian Reais (BRL), which is the Company's functional currency.

Foreign currency transactions

Transactions in foreign currency are converted into Brazilian reais at exchange rates on the dates of the transactions. Monetary assets and liabilities denominated and calculated in foreign currencies on the reporting date are translated into the functional currency at the exchange rate calculated on that date. The foreign exchange gain or loss on monetary items is the difference between the amortized cost in the functional currency at the beginning of the period, adjusted for interest and payments effective during the period, and the amortized cost in a foreign currency at the exchange rate at the end of the reporting period. Foreign currency differences resulting from the conversion are recognized in profit or loss.

2.3 Result calculation

The result of operations is determined in accordance with the accrual basis of accounting.

2.4 Cash and cash equivalents

They are comprised of financial resources held in cash, bank accounts and financial investments. Financial investments are valued at cost, plus income earned through the balance sheet date. These financial instruments are intended for trading and are recorded at realizable values (Note 4).

2.5 Financial instruments

Classification and measurement

The Company classifies its financial assets under the following categories: loans and receivables are measured at fair value through profit or loss. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets on initial recognition.

Loans and receivables

This category includes receivables that are non-derivative financial assets with fixed or determinable payments, not quoted in an active market. They are included in current assets, except for those maturing more than 12 months after the balance sheet date (these are classified in non-current assets). The Company's receivables comprise trade accounts receivable, other accounts receivable and cash and cash equivalents, except for short-term investments. Receivables are accounted for at amortized cost, using the effective interest rate method.

Financial assets measured at fair value through profit or loss

Financial assets measured at fair value through profit or loss are financial assets held for active and frequent trading. Assets in this category are classified in current assets. Gains or losses arising from changes in the fair value of financial assets measured at fair value through profit or loss are presented in the income statement under "Financial statement" in the period in which they occur. They basically refer to short-term financial investments.

2.6 Non-derivative financial liabilities

The Company recognizes debt securities issued and subordinated liabilities initially on the date they are originated. All other financial liabilities are initially recognized on the trade date on which the Company becomes a party to the contractual provisions of the instrument. The Company writes off a financial liability when its contractual obligations are discharged, canceled or expired.

Financial assets and liabilities are offset and the net amount is presented on the balance sheet when, and only when, the Company has the legal right to offset the amounts and intends to settle on a net basis or to realize the asset and settle the passive simultaneously. The Company has the following non-derivative financial liabilities: loans with related parties, suppliers, loans and other accounts payable.

Such financial liabilities are initially recognized at fair value plus any attributable transaction costs. After initial recognition, these financial liabilities are measured at amortized cost using the effective interest method.

2.7 Inventories

The cost of inventories is based on the weighted average principle and includes expenses incurred in acquiring inventories, production and transformation costs and other costs incurred in bringing them to their existing locations and conditions.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling expenses.

MANAGEMENT'S EXPLANATORY NOTES ON THE FINANCIAL STATEMENTS

FOR THE FISCAL YEARS ENDED ON MARCH 31ST, 2022 AND 2021

IN THOUSANDS BRAZILIAN REAIS

2.8 Fixed Assets

(a) Recognition and measurement

The Company chose to revalue property, plant and equipment at deemed cost (deemed cost) on October 31, 2016. The effects of deemed cost decreased property, plant and equipment against shareholders' equity, net of tax effects (Note 10).

After the transition of the NBC TG's, property, plant and equipment items are now measured at the historical cost of acquisition or construction, less accumulated depreciation and accumulated impairment losses.

Cost includes expenses that are directly attributable to the acquisition of an asset. Purchased software that forms an integral part of the functionality of a device is capitalized as part of that device.

Gains and losses on the sale of an item of property, plant and equipment are determined by comparing the proceeds from the sale with the book value of the property, plant and equipment, and are recognized net within other income in the income statement.

(b) Subsequent costs

The replacement cost of a component of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the economic benefits embodied within the component will flow to the Company and its cost can be measured reliably. The carrying amount of the component that has been replaced by another is written off. Property, plant and equipment maintenance costs are recognized in income as incurred.

(c) Depreciation

Depreciation is recognized in profit or loss based on the straight-line method with respect to the estimated useful lives of each part of an item of property, plant and equipment, as this method is the one that most closely reflects the pattern of consumption of future economic benefits embodied in the asset.

2.9 Impairment

The Company analyzes the existence of evidence that the carrying amount of an asset will not be recovered. If evidence is identified, the Company estimates the asset's recoverable amount. The recoverable amount of an asset is the greater of: (a) its fair value less costs that would be incurred to sell it, and (b) its value in use. The value in use is equivalent to the discounted cash flows (before taxes) derived from the continuous use of the asset until the end of its useful life.

When the carrying amount of the asset exceeds its recoverable value, the Company recognizes a reduction in the carrying amount of this asset (impairment or deterioration). For assets recorded at cost, the impairment is recorded in profit or loss for the period. If the recoverable amount of an individual asset is not determined, an analysis of the recoverable amount of the cash-generating unit to which the asset belongs is performed.

2.10 Provisions

A provision is recognized, depending on a past event and if the Company has a legal or constructive obligation that can be estimated reliably and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and specific risks to the liability.

Financial liabilities are classified as financial liabilities at fair value through profit or loss, as the case may be. The Company determines the classification of its financial liabilities at the time of their initial recognition. The Company's financial liabilities include accounts payable to suppliers, tax and labor obligations.

2.11 Share capital

The shares are all paid in and classified as equity. Mandatory minimum dividends, if any, as defined in the articles of association, are recognized as a liability.

2.12 Operating income

Operating income from the sale of goods in the ordinary course of business is measured at the fair value of the consideration received or receivable. Operating income is recognized when there is convincing evidence that: i) the most significant risks and benefits inherent in the ownership of the goods have been transferred to the buyer, which in the Company's case is when the products are delivered to its customers, ii) that it is probable that the economic and financial benefits will flow to the Company, iii) that the associated costs and the possible return of goods can be estimated reliably, iv) that there is no ongoing involvement with the goods sold, v) and that the value of operating income can be measured reliably. If it is probable that discounts will be granted and the amount can be measured reliably, then the discount is recognized as a reduction in operating income as sales are recognized.

2.13 Financial income and expenses

Financial income basically comprises interest income, discounts, income from financial investments and gains from exchange variation.

Financial expenses include interest expenses, financial expenses and loans and financing, as well as the respective passive exchange variations.

2.14 Income tax and social contribution

Current and deferred income tax and social contribution are calculated based on the rates of 15%, plus an additional 10% on taxable income exceeding BRL 240 thousand for income tax and 9% on taxable income for contribution social contribution, and consider the offset of tax losses and negative basis of social contribution, limited to 30% of taxable income.

2.15 Critical accounting estimates and judgments

Accounting estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events, considered reasonable under the circumstances.

Based on assumptions, the Company makes estimates regarding the future. By definition, the resulting accounting estimates will rarely be equal to the related actual results. The estimates and assumptions that present a significant risk, likely to cause a material adjustment in the carrying amounts of assets and liabilities for the next fiscal year, are contemplated below.

3. Cash and Cash Equivalents

	03/31/2022	03/31/2021
Cash	**1**	1
Bank account movement	**669**	38
Financial investments	**9,945**	4,035
	10,615	4,074

The Company makes financial investments in large financial institutions with the purpose of generating financial income while not using the resources. Investments in Brazilian reais are made in CDBs issued by the bank and repo (repurchase) operations, the repo (repurchase) is an investment in bank leasing debentures with daily liquidity and guarantee of repurchase by the bank.

13. Contingency

The Company is a party to labor and civil proceedings. For those lawsuits whose loss was considered probable, if applicable, the respective provision for losses was fully recorded. For the possible loss, 50% of the estimated amount was provisioned.

Civil provisions refer mainly to claims before representatives, while labor provisions refer substantially to various labor claims involving former employees of the Company.

As of March 31, 2022, the Company has the amount of BRL326.6 in labor and civil lawsuits, involving risk of possible loss as classified by management and its legal advisors.

The Company maintains lawsuit No. 5016813-20.2019.4.04.7108, against the National Treasury Union, referring to the exclusion of ICMS from the PIS/COFINS calculation basis. Which in 2018 had its appeal judged in December, with the merits of the action, with publication of the Judgment in January 2019, the action has not yet become final. Management is not using the right to use these credits, considering that there are still points to be clarified about the calculation method.

14. Tax Losses and Negative Basis

The company has a balance of BRL 44,916 of tax loss carry forwards and negative basis of social contribution, these credits represent a right to set up deferred tax credits in the amount of BRL 15,271, which are not activated, based on the expectation of generating future taxable income. These credits are realized by offsetting their base, limited to 30% of taxable income in subsequent years. No tax credits were recorded on temporary tax differences, which are provision for inventory losses, provision for expected losses, provision for guarantees, miscellaneous provision and long-term provisions.

Annually, management assesses this expectation of future taxable income and, when it identifies its recoverability, it will proceed with the necessary adjustments to bring the amount of said credits recorded to their probable realizable value. Deductible temporary differences do not expire in accordance with current tax legislation.

15. Net equity

a) Share capital

On March 31, 2022, the paid-in capital stock was represented by 60,975,100 shares, with a par value of BRL 1.00 (one real) each, distributed among the partners as follows:

	03/31/2022	03/31/2021
Mahindra & Mahindra Ltd.	**60,911**	60,911
Mahindra Overseas Investment Company (Mauritius)	**64**	64
	60,975	60,975

b) Equity evaluation adjustment

The reserve for equity valuation adjustments includes adjustments for adopting the deemed cost of the asset on the transition date.

c) Destination of the results

The Company's Articles of Incorporation determines the distribution of results in the proportion that the shareholders who hold the majority of the capital stock approve. The Company did not allocate the results for this year, as it must first absorb the accumulated losses from previous periods.

16. Revenues

	03/31/2022	03/31/2021

21. Insurance

The management of the companies adopts the policy of taking out insurance for the headquarters of the Companies, whose coverage is considered sufficient by the Management and insurance agents to cover the occurrence of claims, and the management is responsible for defining the risk assumptions adopted.

22. Financial risk management

(a) Overview

The Company is exposed to the following risks arising from the use of financial instruments:

- Credit risks
- Liquidity risks
- Market risks
- Currency risks
- Operating risks

We present information on the Company's exposure to each of the aforementioned risks, the Company's objectives, policies and processes for risk measurement and management, and the Company's capital management. Additional quantitative disclosures are included throughout these financial statements.

(b) Risk management framework

Management has overall responsibility for establishing and overseeing the Company's risk management framework. Risk management policies are established to identify and analyze the risks faced by the Company, to define appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are frequently revised to reflect changes in market conditions and the Company's activities. The Company, through its training and management rules and procedures, aims to develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

(c) Credit risks

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, which arise primarily from customer receivables and investment securities.

Accounts receivable from customers and other credits

The Company's exposure to credit risk is mainly influenced by the individual characteristics of each customer. However, management also considers the demographics of the customer base, including the credit risk of the region where customers operate, as these factors can influence credit risk.

Management has established a credit policy in which all new customers have their creditworthiness analyzed individually before the Company's payment and delivery terms and conditions are offered. The analysis includes external assessments, when available, including a prior analysis of the bank records carried out by the financial institutions themselves. Purchase limits are established for each customer, guaranteed by financial institutions, which represent the maximum amount outstanding without requiring prior approval. These limits are periodically reviewed. Customers who fail to meet the established credit limit may only operate with the Company on an advance payment basis. Once the transaction is approved by the financial institution, the sale is carried out and the risk becomes entirely with the financial institution.

In monitoring customers' credit risk, they are grouped according to their credit characteristics, including geographic location, maturity and existence of previous financial difficulties.

(d) Liquidity risks

Liquidity risk is the risk in which the Company will find it difficult to meet the obligations associated with its financial liabilities that are settled with cash payments or with another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it always has sufficient liquidity to meet its maturing obligations, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Based on the calculation of the Liquidity ratios, the current liquidity ratio corresponds to 1.27 on March 31, 2022, a result that demonstrates balance in a possible settlement of short-term obligations.

(e) Market risks

Market risk is the risk that changes in market prices, such as exchange rates, interest rates and share prices, may have on the Company's earnings or the value of its holdings in financial instruments. The objective of market risk management is to manage and control exposures to market risks, within acceptable parameters, while optimizing returns.

The Company complies with financial obligations to manage market risks. All these operations are conducted within the guidelines established by Management.

(f) Currency risks

The Company is subject to currency risk in purchases, loans and financing denominated in a currency other than its functional currency, the Real (R$). The currency in which these transactions are primarily denominated is the US dollar.

With respect to other monetary assets and liabilities denominated in foreign currency, the Company ensures that its net exposure is maintained at an acceptable level to address short-term instabilities.

(g) Operating risks

Operating risks are the risks of direct or indirect losses arising from a variety of causes associated with the Company's processes, personnel, technology and infrastructure and from external factors, except credit, market and liquidity risks, such as those arising from legal and regulatory requirements and generally accepted standards of business behavior. Operating risks arise from all of the Company's operations.

The Company's objective is to manage operational risks to avoid the occurrence of financial losses and damage to its reputation, as well as to seek cost effectiveness and to avoid control procedures that restrict initiative and creativity.

Primary responsibility for the development and implementation of controls to address operational risks is assigned to senior management. Accountability is supported by the development of the Company's general standards for the management of operational risks in the following areas:

- Requirements for proper segregation of duties, including independent authorization of operations;
- Requirements for reconciliation and monitoring of operations;
- Compliance with regulatory and legal requirements;
- Documentation of controls and procedures;
- Requirements for the periodic assessment of operational risks faced and the adequacy of controls and procedures to address the identified risks;
- Requirements to report operating losses and proposed corrective actions;
- Development of contingency plans;
- Training and professional development;
- Ethical and business standards;
- Risk mitigation, including insurance where effective.

(h) Capital management

The Executive Board has been monitoring the loss generated by the operation, in order to mitigate its causes and generate returns on capital, which the Company defines as results of operating activities divided by total equity.

Shareholders provide advances for future capital increases when necessary and/or contributions to maintain cash flow and support investments, whichever is more profitable for the Company.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Erkunt Traktör Sanayii Anonim Şirketi;

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Erkunt Traktör Sanayii Anonim Şirketi (the "Company"), which comprise the statement of financial position as at December 31, 2021, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2021, and its financial performance and its cash flows for the year then ended in accordance with Turkish Financial Reporting Standards ("TFRS"s).

Basis for opinion

Our audit was conducted in accordance with the Standards on Independent Auditing (the "SIA") that are part of Turkish Standards on Auditing issued by the Public Oversight Accounting and Auditing Standards Authority (the "POA"). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We here by declare that we are independent of the Company in accordance with the Ethical Rules for Independent Auditors (the "Ethical Rules") and the ethical requirements regarding independent audit in regulations issued by POA that are relevant to our audit of the financial statements. We have also fulfilled our other ethical responsibilities in accordance with the Ethical Rules and regulations. We believe that the audit evidence we have obtained during the independent audit provides a sufficient and appropriate basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. Key audit matters were addressed in the context of our independent audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	
Recoverability of trade receivables	**How our audit addressed the key audit matter**
Trade receivables amounting to TL 378.905.119 constitute a significant portion of the assets of the Company as of December 31, 2021. Furthermore, the assessment of the recoverability of these assets involves significant level of management estimates. Such estimation includes considering the following for each customer- the amount of guarantees/collateral held, past collection performance, credit quality and aging of receivables. The outcome of such estimates is very sensitive to changes in market conditions. Therefore, recoverability of trade receivables is a key matter for our audit.	We performed the following procedures in relation to the recoverability of trade receivables: Understanding the business process for collections from customers, evaluating the operational effectiveness of controls embedded in the business process and testing of selected controls, Comparing trade receivable turnover days to the prior period Testing collections in the subsequent period from selected customers Inquiries with management in relation to any disputes with customers and written inquiries with the Company's legal counsels on outstanding litigation in relation to trade receivables Testing receivables by obtaining confirmation letters from customers and reconciling them to the Company's accounting records.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the Company audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS AS OF DECEMBER 31, 2021
(Currency – TL unless otherwise indicated)

1. Organization and nature of activities

Erkunt Traktör Sanayii Anonim Şirketi ("Erkunt" or the "Company") was established on November 12, 2013.

The main activity of the Company is the production, sales, maintenance and repair of agricultural machinery, engine and transmission units, machinery and equipment.

The registered address of Company is Organize Sanayi Bölgesi, Batı Hun Caddesi, No: 2, Sincan, Ankara.

As of December 31, 2021, the number of personnel working within the Company is 295 (December 31, 2020: 265).

2. Basis of preparation of financial statements and significant accounting policies

2.1. Basis of preparation

The Company and its subsidiary maintain its books of account and prepare its statutory financial statements in accordance with accounting principles in the Turkish Commercial Code ("TCC") and tax legislation.

The accompanying financial statements are prepared in accordance with Turkish Accounting Standards/Turkish Financial Reporting Standards ("TAS/TFRS") and its addendum and interpretations issued by Public Oversight Accounting and Auditing Standards Authority ("POA").

The financial statements are prepared in accordance with Turkish Accounting Standards for the purpose of fair presentation with booking of additional adjustments and reclassifications issued by Public Oversight Accounting and Auditing Standards Authority ("POA"). These adjustments consist of warranty provision, calculation of severance payment, useful lives and prorate of depreciation of tangible assets, provision accounting, provision of impaired inventories accounting, doubtful trade receivables and rediscount of trade payables.

Approval of financial statements

These financial statements have been approved and authorized to be published by the Board of Directors on April 8, 2022. The Board of Directors has the authority to revise the financial statements after issuance.

Functional and presentation currency

The Company's financial statements are prepared and presented in Turkish Lira ("TL"), which is the currency of the primary economic environment in which the entity operates.

Comparative information and amendments on past year financial statements

The accompanying financial statements are prepared comparatively with the previous period in order for the determination of the Company's financial position, performance, and cash flow trends. When there is a change in the presentation and reclassification of the items of the financial statements, the Company reclassifies the financial statements of the previous period to conform the comparability and discloses information related to these matters.

2.1 The new standards, amendments and interpretations

The accounting policies adopted in preparation of the financial statements as at December 31, 2021 are consistent with those of the previous financial year, except for the adoption of new and amended IFRS and IFRIC interpretations effective as of 1 January 2021 and thereafter. The effects of these standards and interpretations on the Company financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at 1 January 2021 are as follows:

- Interest Rate Benchmark Reform – Phase 2 – Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16
- Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform
- Amendments to IFRS 16 - Covid-19-Related Rent Concessions and Covid-19-Related Rent Concessions beyond 30 June 2021

ii) Standards issued but not yet effective and not early adopted

- Amendments to IFRS 10 and IAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
- Amendments to IFRS 3 – Reference to the Conceptual Framework
- Amendments to IAS 16 – Proceeds before intended use
- Amendments to IAS 37 – Onerous contracts – Costs of Fulfilling a Contract
- IFRS 17 - The new Standard for insurance contracts
- Amendments to IAS 1- Classification of Liabilities as Current and Non-Current Liabilities
- Amendments to IAS 8 - Definition of Accounting Estimates
- Amendments to IAS 1 and IFRS Practice Statement 2 - Disclosure of Accounting Policies
- Amendments to IAS 12 – Deferred Tax related to Assets and Liabilities arising from a Single Transaction
- Annual Improvements – 2018–2020 Cycle

The amendments did not have a significant impact on the financial position or performance of the Company.

2.2 Summary of significant accounting policies

The accounting policies applied in the preparation of these financial statements have been presented below.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash in banks, other cash and cash equivalents, short-term deposits, highly liquid short-term investments and investments which has insignificant risk of change in fair value with maturity less than three months.

Related parties

a) A person or a member of that person's immediate family is related to reporting entity under the following conditions:

If the person;

i. Has control or joint control over the reporting entity;

ii. Has a significant impact on the reporting entity;

iii. The reporting entity or the entity reporting the case of a member of the key management personnel of the parent company

b) In the presence of any one of the following conditions entity related to the reporting entity:

i. If a firm and reporting entity are member of the same Company.

ii. If the firm is other entity's (or other entity of a member of a Company is a member), subsidiary, or the joint venture.

iii. Both entities are joint ventures of the same third party.

iv. One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

v. The entity, reporting entity or the entity which is in relation to the reporting entity or an entity associated with operating employees reporting if the post-employment benefit plans is provided in. If the reporting entity has such a plan, the sponsoring employers are also related to the reporting entity.

vi. Entity is jointly controlled by a person identified in the event (a).

vii. (a) event (ii) the presence or a significant impact on a person's business as defined in the company (or of a parent of the entity) is a member of the key management personnel.

Trade receivables

Trade receivables are recognized at original invoice amount less an allowance for any uncollectible-amount and recorded at amortized cost. The amount of imputed interests is calculated by considering the effective interest rates in line with the maturity of the receivables. When the Company will not be able to collect its receivable, the estimation for provision for doubtful receivable is recognized. Provision is set when doubtful receivables have been identified. When the receivable become uncollectible, it is written-off.

Trade payables

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method. Maturity differences related with trade payables are presented in other income/expense from main operations.

Prepaid expenses

Prepaid expenses are the amounts generally made to suppliers and which will be transferred to expense and cost accounts in the following period or periods.

Inventories

Inventories are valued at the lower of cost or net realizable value less costs to sell. Cost is determined by the most recent purchase method. Net realizable value represents the estimated selling price less all estimated costs of completion and costs necessary to make the sale. When the net realizable value of inventory is less than cost, the inventory is written down to the net realizable value and the expense is included in statement of income in the period the write-down or loss occurred. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in net realizable value because of changed economic circumstances, the amount of the write-down is reversed. The reversal amount is limited to the amount of the original write-down.

Impairment of financial assets

The Company assesses at each balance sheet date whether a financial asset is impaired. If there is objective evidence that an impairment loss on assets carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through use of an allowance account. The amount of the loss is recognized in the statement of income. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date. Provision for impairment is provided when there is an objective evidence of non-collectability of trade receivables. Reserve is provided for the overdue uncollectible receivables. Also, portfolio reserve is provided for the not due receivables based on certain criteria. The carrying amount of the receivable is reduced through use of an allowance account. Changes in provision account are recorded under the comprehensive income statement.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

Property, plant and equipment

Property, plant and equipment is stated at cost less accumulated depreciation and accumulated impairment loss. Depreciation is provided on cost or revalued amount of property and equipment except for land and construction in progress on a straight-line basis. For the property plant and equipment that has fixed useful life, depreciation period and method is investigated at least once a year by Company management.

The depreciation periods for property, plant and equipment, which approximate the estimated economic useful lives of such assets, are as follows:

Accounts	Useful lives
Buildings	10–50
Machinery and equipment	3–15
Motor vehicles	3–6
Furniture and fixtures	2–25
Leasehold improvements	5–15

Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable and an asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The recoverable amount is the higher of the asset's fair value less cost to sell and value in use.

The costs of major renovations are included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the entity. All other repairs and maintenance are charged to the statement of profit or loss during the financial period in which they are incurred.

Gains or losses on disposals of property, plant and equipment are included in the other income and expense accounts, as appropriate.

Intangible assets

Intangible assets mainly comprise of software licenses, research and development cost and are measured initially at cost. Intangible assets are recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise; and the cost of the asset can be measured reliably. After initial recognition, intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses.

Intangible assets with finite lives are amortized on a straight-line basis over the best estimate of their useful live. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year-end.

The depreciation periods for licenses and software, which approximate the estimated economic useful lives of such assets, are as follows:

	Useful life
Licenses and software	3 – 10 year

Research and development expenses

Research expenses are recorded in the income statement in the incurred period. Expenses resulting from development activities (relating to the design and testing of new or improved products), are recorded as intangible assets when the following conditions are all met:

- It is technically feasible to complete the intangible asset so that it will be available for use;
- Management intends to complete the intangible asset and use or sell it;
- There is an ability to use or sell the intangible asset;
- It can be demonstrated how the intangible asset will generate probable future economic benefits;
- Adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available; and
- The expenditure attributable to the intangible asset during its development can be reliably measured.

Other development expenditures that do not meet these criteria are recognized as an expense as incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period. Capitalized development costs are recorded as intangible assets and amortized from the point at which the asset is ready for use on a straight-line basis over its useful life, not exceeding five years.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets:

- cash
- a contractual right to receive cash or another financial asset from another enterprise
- a contractual right to exchange financial instruments from another enterprise under conditions that are potentially favorable,
- an equity instrument of another enterprise

A financial liability that is a contractual obligation:

- to deliver cash or another financial asset to another enterprise,
- to exchange financial instruments with another enterprise under conditions that are potentially unfavorable

A financial asset or financial liability is calculated with the given (for financial asset) and uncovered (financial obligations) fair value on transaction costs by adding transaction expenses (deducting the financial liability) if any.

Fair value of financial instruments

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. It is best evidenced by a quoted market price, if one exists.

Impairment of assets

Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the statements of comprehensive income.

On the other hand; the recoverable amount of property, plant and equipment is the greater of fair value less cost to sell and value in use. Value in use is assessed by discounting future cash flows to their present value using a pre-tax discount rate that reflects current market conditions and the risks specific to the asset.

Current income taxes and deferred tax

Tax expense for the period comprises current and deferred tax. Current taxes on income comprise tax payable calculated on the basis of expected taxable income for the period using the tax rates enacted at the balance sheet date and any adjustment in taxes payable for previous periods.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred income tax is determined using tax laws that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax liabilities are recognized for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Provisions are reviewed in every period end and necessary changes performed to the best estimates of Management.

Contingent assets and liabilities

Possible assets or obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not totally within the control of the Company are disclosed as contingent assets or liabilities.

Employee benefits

Employee termination benefit

In accordance with existing social legislation in Turkey, the Company is required to make lump-sum termination indemnity payments to each employee who has completed over one year of service and whose employment is terminated due to retirement or for reasons other than resignation or misconduct.

The Company has calculated the provision for employment termination benefits using the “Projection method” and based on the Company’s past experience in personnel’s completion of service time and entitlement to employment termination rights and recognized its discounted value as of the balance sheet date. All actuarial gains and losses calculated have been reflected to the statement of other comprehensive income.

Unused vacation

Unused vacation rights accrued in the financial statements represents estimated total provision for potential liabilities related to employees’ unused vacation days and daily gross as of the balance sheet date. These amounts are reflected in the personnel expenses when incurred.

Wages and deductions

These are the amounts owed as the scope of benefits provided to employees during the period which are wages, salaries and social security contributions. These amounts are reflected in the personnel expenses when incurred.

Foreign currency transactions

Transactions in foreign currencies during the period have been translated at the exchange rates prevailing at the dates of such transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Turkish Lira at the Central Bank of the Republic of Turkey’s buying exchange rates prevailing at the balance sheet dates.

Exchange rate differences arising on reporting monetary items at rates different from those at which they were initially recorded or on the settlement of monetary items or are recognized in the comprehensive income statement in the period in which they arise. The foreign currency gain/loss related to the Company’s trade payables and receivables shown in operating income/loss account and the other foreign currency gain/loss except the Company’s operations shown in financial gain/loss account.

Revenue recognition

Company performs manufacturing and assembling of raw materials, spare parts and work-in progress of any vehicles, cars, truck, bus, tow truck, tractors, refrigerated vehicle, ambulance, forklift, railway wagon, rail vehicles, locomotives, any vehicles related with the automotive industry, all kinds of sea, air, land and rail vehicles within its own manufacturing plant and performs import, export, marketing, sales and purchasing at the same time. Agreements with customers are generally made after tenders have been won. The Company provides repair and maintenance services for the customers covered by the warranty during the period of 2 years for the vehicles for which the Company has sold. Income related to services that are not yet completed when they are billed accounted as deferred income.

Revenues are recognized on an accrual basis at the time deliveries or acceptances are made, the amount of the revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Company, at the fair value of consideration received or receivable. Net sales represent the invoiced value of goods shipped less sales returns and commission and excluding sales taxes.

Other revenues

Other revenues earned by the Company consist of rent income and interest income which is recognized on an accrual basis.

Loans

Loans are recognized initially at fair value and at directly attributable transaction costs after initial recognition. Loans are subsequently measured at amortized cost by using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the income statement over the period of the financial liabilities.

Financial leases

Assets acquired under finance lease agreements are capitalized at the inception of the lease at the fair value of the leased asset, net of grants and tax credits receivable, or at the present value of the lease payment, whichever is the lower. Lease payments are treated as comprising capital and interest elements, the capital element is treated as reducing the capitalized obligation under the lease and the interest element is charged as expense to the statement of income. Depreciation on the relevant asset is also charged to the statement of income over its useful life.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognized in the statement of income/(loss) in the period in which they are incurred. Borrowing costs include other costs related to interest and funding.

Significant accounting judgments, estimates and assumptions

The preparation of the financial statement requires Company management to make judgments, estimates and assumptions that are reflected in the measurement of income and expense in the income statement and in the carrying value of assets and liabilities in the balance sheet. The actual future results from operations may be different than those estimated. Estimates are reviewed periodically, and adjustments become necessary, they are reported in the income statement in which they become known. However, the actual results may be different than those estimated.

The key assumptions concerning the future and other key resources of estimation at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and the significant judgments with the most significant effect on amounts recognized in the financial statements are as follows:

a) Provisions for employment termination benefits have been calculated according to various actuarial assumptions (discount rate, estimated future wage increase, and rate of retirement of the employees).

b) Provision for doubtful receivables is an estimated amount that management believes to reflect for possible future losses on existing receivables that have collection risk due to current economic conditions. During the impairment test for the receivables, the debtors, other than the key accounts and related parties, are assessed with their prior year performances, their credit risk in the current market, their performance after the balance sheet date up to the issuing date of the financial statements and furthermore, the renegotiation conditions with these debtors are considered.

c) Provisions for lawsuits are determining by the management with support of Company's legal advisers that can result a cash outflow for the Company in every period at the date of preparation of financial statements.

d) The Company management made significant assumptions on the useful economic lives of the tangible assets according to experiences of technical team, especially in buildings and equipment.

e) Research expenses are recorded as expense when realized. Costs incurred in development projects (related to the design and testing of new or improved products) are recorded as intangible assets if the conditions described in Note 2.3 are met.

Statement of cash flows

Cash flow for the period shown in the cash flow statements is based on operating, investing and financing activities which are classified and reported. Cash flows generated from operating activities consist of cash flows that fare generated from the Company's main operating activities. Cash flows related to investing activities consist of the Company's cash flows used and obtained in the investment activities (asset investments & financial investments).

Cash flows related to financing activities consist of the resources used in financing activities of the Company and the repayment of these sources.

Cash and cash equivalents include cash on hand, deposits at banks, short-term deposits, highly liquid short-term investments and investments which has insignificant risk of change in fair value with maturity less than three months.

Subsequent events

The Company recognizes the subsequent events that require adjustment which provide additional information to the status of the Company at the balance sheet date on its financial statements. If non-adjusting events after the balance sheet date have certain significance, then, they are disclosed in the notes to the financial statements.

3. Cash and cash equivalents

	December 31, 2021	December 31, 2020
Cash	**22.715**	12.126
Banks:

Net book value	27,674,313			–

The recoverable amount of intangible fixed assets as of December 31, 2020 has been compared with the amounts calculated by discounting cash flows within the framework of financial budget projections covering the next five years and approved by the Company management, and it has been determined that the recoverable amount is lower than the current value. For this reason, the company has allocated a provision for impairment for the entire intangible assets.

Opening	**1,639,437**	1,310,205
Additional provisions/ (releases), net	**272,806**	329,232
December 31,	**1,912,243**	1,639,437

b) Long term provisions for employee benefits

Under the Turkish Labour Law, the Company is required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, is called up for military service, or who retires or resigns. The indemnity is one month's salary for each working year and is limited to TL 10.848,59 as of December 31, 2021 (December 31, 2020: TL 7.638,96).

The Company reflected a liability calculated using the Projected Unit Credit Method and based upon factors derived using their experience of personnel terminating their services and eligible to receive retirement pay and discounted by using the current market yield on government bonds at the statement of financial position date. This provision is calculated by expecting the present value of the future liability which will be paid for the retired personnel.

	December 31, 2021	December 31, 2020
Provision for employee termination benefits	**4,217,760**	2,575,408
Total	**4,217,760**	2,575,408

Total	**54,906,545**	17,446,779

27. Taxation

Current and deferred income tax

The tax expense for the year comprises current and deferred tax. Tax is recognised in the income statement, except to the extent that it relates to items recognised directly in equity. In such case, the tax is also recognised in shareholders' equity.

The current income tax charge is calculated in accordance with the tax laws enacted or substantively enacted at the balance sheet date in the countries where the subsidiaries and associates of the Company operate. Under the Turkish Tax Code, companies having head office or place of business in Turkey are subject to corporate tax.

Under the Turkish taxation system, tax losses can be carried forward to be offset against future taxable income for five years. Tax losses cannot retrospectively offset against the profits of previous years.

Deferred income tax is provided in full, using the liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Currently enacted tax rates are used to determine deferred income tax at the balance sheet date.

Deferred tax liabilities are recognized for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.

Provided that deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority and it is legally eligible, they may be offset against one another.

Tax amounts recognized in the income statement as of December 31, 2021 and 2020 are as follows:

	January 1 – December 31, 2021	January 1 – December 31, 2020
Current year corporate tax expenses (-)	**–**	–
Deferred tax income/ (expenses)	**18,075,573**	(16,131,651)
Total tax expenses	**18,075,573**	(16,131,651)

As of 31 December 2021 and 2020, the details of temporary differences and deferred tax assets and liabilities are as follows;

	Cumulative temporary differences		Deferred tax assets/(liabilities)	
	December 31, 2021	December 31, 2020	**December 31, 2021**	December 31, 2020

Other	**3,972,295**	(3,663,812)	**794,459**	(732,764)
Deferred tax asset/liability – net	**84,774,009**	63,052,652	**18,075,573**	15,197,058

Deferred tax liability or asset is determined by calculating the tax effects of the temporary differences between the amounts of assets and liabilities shown in the financial statements and the amounts considered in the calculation of the legal tax base according to the balance sheet method, considering. While deferred tax liabilities are calculated for all taxable temporary differences, deferred tax assets consisting of deductible temporary differences are calculated on the condition that it is highly likely to benefit from these differences by obtaining taxable profit in the future. As the company does not expect to generate taxable profit in the next 5 years in the current period, it has been evaluated that it is not possible to benefit from these differences and the deferred tax has not been recorded in the financial statements.

As of December 31, 2021, the reported tax provision is different from the amount calculated using the statutory tax rate on profit before tax. The relevant memorandum of understanding is as follows:

	2021	2020
Loss before tax	**85,491,753**	(63,570,872)
Theoretical tax charge at statutory rate (%22)	**(21,372,938)**	(13,985,592)
Current year losses on which no deferred tax assets recognized	**11,861,498)**	(12,542,933)
Non-deductible expenses	**2,391,835**	2,104,814
Tax reversals	**(11,008,587)**	9,113,523
Other	**52,619**	(821,464)
Income tax (expense)/ income for the year	**(18,075,573)**	(16,131,651)

28. Earnings per share

Earnings per share ("EPS") are determined by dividing the net comprehensive income by the weighted average number of shares that have been outstanding during the year.

Earnings per share as of December 31, 2021 and 2020:

	December 31, 2021	December 31, 2020
Net comprehensive income or loss attributable to the equity holders of the parent	**103,567,326**	(79,702,523)
Weighted average number of share certificates (piece)	**291,027**	265,000
Earnings per share, (0,001)	**284**	(301)

30. Financial instruments and nature and extent of risks arising from financial instruments

The Company's principal financial instruments are comprised of bank loan, liabilities under finance lease, other financial liabilities, cash and short-term bank deposits. The main purpose of these financial instruments is to raise finance for the Company's operations. The Company has various other financial instruments such as trade receivables and trade payables, which arise directly from its operations.

The main risks arising from the Company's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The Company management reviews and agrees policies for managing each of the risks as summarized below. The Company also monitors the market price risk arising from all financial instruments.

Capital risk management

The management of the Company considers the cost of capital and the risks associated with each class of capital. The Company's capital structure consists of payables, cash and short-term deposits, and shareholder's equity components mentioned in Note 19 such as issued capital, capital reserves, and profit reserves for its net debt to equity ratio analysis.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may incur new payables or repay the existing payables and adjust the dividend payment to shareholders or the shareholders may make a direct cash contribution of the needed working capital to the Company.

The Company follows equity by using the rate of liabilities/equity. This ratio is calculated by division of net liabilities to total equities. Net debt is calculated by excluding the cash and cash equivalents from total debt amount (financial liabilities include trade and other payables and short term and long-term other liabilities like as indicated on financial statement).

	December 31, 2021	December 31, 2020
Financial liabilities (Note 4)	**70,734,233**	121,826,318
Less: Cash and cash equivalents (Note 3)	**18,574,616**	18,629,530
Net debt	**52,159,617**	103,196,788
Total equity	**295,332,598**	94,048,142
Net debt/total equity ratio	**18%**	110%

Foreign currency risk

The Company is exposed to foreign exchange risk arising from denominated foreign currency transactions. The Company exposed to foreign exchange risk primarily to USD and EUR bank loans. These exposures are managed by balancing interest rate sensitive assets and liabilities.

The Company's net foreign currency position as of December 31, 2021 and 2020 is presented below:

In totals;	**December 31, 2021**	December 31, 2020
A. Foreign currency assets	**88,774,074**	31,665,832
B. Foreign currency liabilities	**(83,530,544)**	(47,894,462)
Net foreign exchange position (A+B)	**5,243,530**	(16,228,630)

As of December 31, 2021 and 2020, details of foreign currency positions of the Company are as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation who has invested in financial instruments. The Company manages its credit risk by restricting its transactions that are carried out by third parties and reviewing those third parties credit risks continuously.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

The Company seeks to manage its credit risk exposure through diversification of sales activities to avoid undue concentrations of risks with individuals or Companies of customers in specific locations or businesses. The maximum credit risk the Company exposure is reflected by presenting all financial assets from carrying amount on financial statements

Liquidity risk

Liquidity risk is the risk of the Company not meeting its net funding requirements. Liquidity risk is managed by cash inflows and outflows which are balanced by credit institutions in scope of the pre-determined credit limits. Remaining period to maturity as of the balance sheet date is taken into consideration when presenting the breakdown of financial liabilities according to their maturities.

The following table presents the maturity analyses of the Company's financial liabilities' contractual undiscounted cash outflows as of December 31, 2021 and 2020.

December 31, 2021

Maturities according to the agreements	**Book value**	**Total contract based cash outflow (I+II+III)**	**Up to 3 months (I)**	**3 months to 1 year (II)**	**1 to 5 years (III)**

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Erkunt Sanayi Anonim Şirketi;

A) Report on the Audit of the Financial Statements

1) Opinion

We have audited the financial statements of **Erkunt Sanayi A.Ş.** (the "Company"), which comprise the statement of financial position as at December 31, 2021, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2021, and its financial performance and its cash flows for the year then ended in accordance with the Turkish Accounting Standards ("TAS").

2) Basis for opinion

We conducted our audit in accordance with Independent Auditing Standards ("IAS"s). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Turkey, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3) Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	How key audit matters addressed in the audit
Trade Receivables Trade receivables are significant for the Company as it represents approximately 43% of the Company's total assets. The collectability of trade receivables is one of the most important elements of the Company's working capital management. The Company's management has used certain estimates and assumptions in the calculation of the provision for doubtful trade receivables related to trade receivables. Due to the reasonableness of the size of the amounts and the collectability of trade receivables, the existence and collectability of trade receivables is considered as a key audit matter.	– Evaluating the process regarding the collection follow-up of the Company's trade receivables and the operational effectiveness of the relevant internal controls. – Understanding, evaluating and testing the effectiveness of internal controls regarding financial reporting for credit risk. – Examining the aging table of receivables analytically. – Testing trade receivable balances by sending confirmation letters through sample selections. – Testing the collections made in the subsequent period through sample selections. – Testing the collaterals received for receivables by sampling and evaluating their ability to be converted to cash – Evaluating the compliance of the applied accounting policies with TFRS 9, the company's past performance, local and global practices, – Investigating the disputes and lawsuits related to the receivables in order for the auditing appropriateness of the special provisions and obtaining a confirmation letter from the legal advisors regarding the ongoing lawsuits. – Evaluating the adequacy of the explanations regarding the impairment of trade receivables and their compliance with TFRS. We also tested management's periodicity testing procedures and selected samples independently to test segments of revenue and purchases with verification of invoices. Details on trade receivables are given in Note 5.

Key audit matters	How key audit matters addressed in the audit
Property, plant and equipment As of December 31, 2021, property, plant and equipment amounting to TL 137,371,087 represents significant part of total assets in the statement of financial position. Property, plant and equipment is considered as key audit matter due to their size as of the statement of financial position date.	– The appropriateness of the estimated useful lives of the tangible assets is evaluated by considering the expected economic benefits associated with each asset. – Supporting documents for the movements of tangible assets were obtained and material accuracy tests were carried out. – Whether the depreciation methodology reflects the profile of expected future economic benefits in the best way/accurate way was evaluated and the current year depreciation expenses were tested. Details on tangible fixed assets are given in Note 10.

4) Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TASs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so Those charged with governance are responsible for overseeing the Company's financial reporting process.

5) Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with IASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with IASs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Company Management, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

B) Other legal and regulatory requirements

1) In accordance with paragraph 4 of Article 402 of the TCC, no significant matter has come to our attention that causes us to believe that the Company's bookkeeping activities for the period January 1 - December 31, 2021 and financial statements are not in compliance with laws and provisions of the Company's articles of association in relation to financial reporting.

2) In accordance with paragraph 4 of Article 402 of the TCC, the Board of Directors submitted to us the necessary explanations and provided required documents within the context of audit.

The name of the engagement partner who supervised and concluded this audit is Emir Taşar.

EXPLANATORY NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AT DECEMBER 31, 2021

(Amounts expressed in Turkish Lira ("TL"), unless otherwise indicated.)

1. Organization and operations of the Company

Erkunt Sanayi A.Ş. (the "Company") was established in 1961 and its main activity is to manufacture and trade all kinds of parts, machined parts and main products based on casting technology for automotive, tractors and construction equipment.

The Company has Casting-1 and Machining-1 facilities in Etimesgut Ankara, which is its headquarters, as well as Casting-2 established in Sincan Ankara "Organized Industrial Zone" in 1996 and Processing-2 facilities at the same location.

The Company's share capital consists of 1.512.000.000 units of shares with the nominal value of TL 0,01.

The shareholders of the Company and their shareholding structures as of December 31, 2021 and 2020 are as follows:

	December 31, 2021		**December 31, 2020**	
Shareholders	**Amount in TL**	Share (%)	Amount in TL	Share (%)
Mahindra Overseas Investment Company Ltd.	**9,633,788**	**%63.7**	9,633,788	%63.7
Erkunt Traktör Sanayii A.Ş.	**5,288,795**	**%35.0**	5,288,795	%35.0
Bürge Ceylan Kaleli	**110,950**	**%0.7**	110,950	%0.7

Other	**71,200**	**%0.5**	71,200	%0.5
Total	**15,120,000**	**100,0**	15,120,000	100,0

Total number of employees of the Company as of December 31, 2020 is 1.510 (December 31, 2019: 1.342).

2. Basis of presentation of financial statements and summary of accounting policies

2.1 Basis of presentation

The Company maintains its legal books of account and prepare its statutory financial statements ("Statutory Financial Statements") in accordance with accounting principles issued by the Turkish Commercial Code ("TCC") and tax legislation.

The accompanying financial statements of the Company have been prepared in accordance with the principles of Turkish Accounting Standards ("TAS"), as issued by the Public Oversight Accounting and Auditing Standards Authority ("POA").

Financial statements and footnotes are presented in accordance with the financial statement examples and user guide announced by the POA with the principle decision dated April 15, 2019.

The financial statements have been prepared under the historical cost convention. In determining the historical cost, generally the fair value of the price paid for the assets is taken as basis.

Functional and reporting presentation currency

The currency and functional currency of the country of residence of the Company is Turkish Lira ("TL"). The Company uses Turkish Lira ("TL") the measurement items in its financial statements.

Going concern

The Company prepared its financial statements in accordance with the going concern assumption.

Approval of the financial statements

The financial statements have been approved and authorized to be published on April 19, 2022 by the Board of Directors. The General Assembly has the authority to revise the financial statements.

2.2 Restatement and errors in the accounting policies and estimates

Any change in the accounting policies resulted from the first time adoption of a new standards, if any, is made either retrospectively or prospectively. Changes without any transition requirement, material changes in accounting policies or material errors are corrected retrospectively by restating the prior period financial statements. If changes in accounting estimates are related to only one period, they are recognized in the period applied; if changes in estimates are related to future periods, they are recognized both in the period where the change is applied and future periods prospectively.

2.3 Comparative information and restatement of financial statements with prior periods

The Company's financial statements are prepared in comparison with the previous period in order to allow for the determination of the financial position and performance trends in accordance with a new illustrative financial statements. Comparative information is reclassified when necessary and important differences are explained in order to ensure compliance with the presentation of the current period financial statements.

2.4 The new standards, amendments and interpretations

The accounting policies adopted in preparation of the financial statements as at December 31, 2021 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of 1 January 2021 and thereafter. The effects of these standards and interpretations on the Company financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at 1 January 2021 are as follows:

- Interest Rate Benchmark Reform – Phase 2 – Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16
    - Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform
    - Relief from discontinuing hedging relationships
    - Separately identifiable risk components
    - Additional disclosures

– Amendments to TFRS 16 – Covid-19-Related Rent Concessions and Covid-19-Related Rent Concessions beyond June 30, 2021

ii) Standards issued but not yet effective and not early adopted

- Amendments to TFRS 10 and TAS 28 – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture
- Amendments to TFRS 3 – Reference to the Conceptual Framework
- Amendments to TAS 16 – Proceeds before intended use
- Amendments to TAS 37 – Onerous contracts – Costs of Fulfilling a Contract
- TFRS 17 – The new Standard for insurance contracts
- Amendments to TAS 1– Classification of Liabilities as Current and Non-Current Liabilities
- Amendments to TAS 8 – Definition of Accounting Estimates
- Amendments to TAS 1 and IFRS Practice Statement 2 – Disclosure of Accounting Policies
- Amendments to TAS 12 – Deferred Tax related to Assets and Liabilities arising from a Single Transaction

Annual Improvements – 2018–2020 Cycle

Overall, the Company expects no significant impact on its balance sheet and equity.

2.5 Summary of significant accounting policies

Cash and cash equivalents

Cash and cash equivalents are cash in hand, demand deposits and other short-term investments with a maturity of 3 months or less than 3 months, which are easily convertible into cash and do not carry a significant risk of change in value (Note 3). Bank deposits with a maturity of longer than 3 months and less than 1 year are classified as short-term financial investments.

Financial insturments

Financial assets and financial liabilities are recognised in the Company's statement of financial position when the Company becomes a part of the the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis.

The Company classifies its financial assets as (a) Business model used for managing financial assets, (b) financial assets subsequently measured at amortised cost, at fair value through other comprehensive income or at fair value through profit or loss based on the characteristics of contractual cash flows. The Company reclassifies all financial assets effected from the change in the business model it uses for the management of financial assets. The reclassification of financial assets is applied prospectively from the reclassification date. In such cases, no adjustment is made to gains, losses (including any gains or losses of impairment) or interest previously recognized in the financial statements.

Classification of financial assets

Financial assets that meet the following conditions are measured subsequently at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets that meet the following conditions are measured subsequently at fair value through other comprehensive income (FVTOCI):

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are measured subsequently at fair value through profit or loss (FVTPL).

Despite the foregoing, the Company may make the following irrevocable election/designation at initial recognition of a financial asset; the Company may irrevocably elect to present subsequent changes in fair value of an equity investment in other comprehensive income if certain criteria are met.

(i) Amortised cost and effective interest method

Interest income on financial assets carried at amortized cost is calculated using the effective interest method. The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. This income is calculated by applying the effective interest rate to the gross carrying amount of the financial asset:

a) Credit-impaired financial assets when purchased or generated. For such financial assets, the Company applies the effective interest rate on the amortized cost of a financial asset based on the loan from the date of the recognition in the financial statements.

b) Non-financial assets that are impaired at the time of acquisition or generation but subsequently become a financial asset that has been impaired. For such financial assets, the Company applies the effective interest rate to the amortized cost of the asset in the subsequent reporting periods.

Interest income is recognised using the effective interest method for debt instruments measured subsequently at amortised cost and at FVTOCI.

Interest income is recognised in profit or loss and is included in the "finance income – interest income" line item.

(ii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognized in profit or loss to the extent they are not part of a designated hedging relationship.

Equity instruments designated as at FVTOCI

On initial recognition, the Company may make an irrevocable election (on an instrument-by-instrument basis) to designate investments in equity instruments as at FVTOCI. Designation at FVTOCI is not permitted if the equity investment is held for trading or if it is contingent consideration recognised by an acquirer in a business combination.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Investments in equity instruments at FVTOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the investments revaluation reserve. The cumulative gain or loss is not reclassified to profit or loss on disposal of the equity investments, instead, it is transferred to retained earnings.

Foreign exchange gains and losses

The carrying amount of financial assets that are denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period. Specifically,

- for financial assets measured at amortized cost that are not part of a designated hedging relationship, exchange differences are recognized in profit or loss;
- for debt instruments measured at FVTOCI that are not part of a designated hedging relationship, exchange differences on the amortized cost of the debt instrument are recognized in profit or loss.

Other exchange differences are recognized in other comprehensive income in the investments revaluation reserve;

- for financial assets measured at FVTPL that are not part of a designated hedging relationship, exchange differences are recognized in profit or loss and
- for equity instruments measured at FVTOCI, exchange differences are recognized in other comprehensive income in the investments revaluation reserve.

Impairment of financial assets

The Company recognizes a loss allowance for expected credit losses on investments in debt instruments that are measured at amortized cost or at FVTOCI, lease receivables, trade receivables and contract assets, as well as financial guarantee contracts. The amount of expected credit losses is updated at each Reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Company utilizes a simplified approach for trade receivables, contract assets and lease receivables that does not have significant financing component and calculates the allowance for impairment against the lifetime ECL of the related financial assets.

For all other financial instruments, the Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 month ECL.

Measurement and recognition of expected credit losses

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the expected credit losses is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate.

Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss. In addition, on derecognition of an investment in a debt instrument classified as at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is reclassified to profit or loss. In contrast, on derecognition of an investment in equity instrument which the Company has elected on initial recognition to measure at FVTOCI, the cumulative gain or loss previously accumulated in the investments revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Financial liabilities

Financial liabilities are classified as at FVTPL on initial recognition. On initial recognition of liabilities other than those that are recognised at FVTPL, transaction costs directly attributable to the acquisition or issuance thereof are also recognised in the fair value. A financial liability is subsequently classified at amortized cost except:

a) Financial liabilities at FVTPL: These liabilities including derivative instruments are subsequently measured at fair value.

b) Financial liabilities arising if the transfer of the financial asset does not meet the conditions of derecognition from the financial statements or if the ongoing relationship approach is applied: When the Company continues to present an asset based on the ongoing relationship approach, a liability in relation to this is also recognised in the financial statements. The transferred asset and the related liability are measured to reflect the rights and liabilities that the Company continues to hold. The transferred liability is measured in the same manner as the net book value of the transferred asset.

c) A contingent consideration recognized in the financial statements by the entity acquired in a business combination where TFRS 3 is applied: After initial recognition, the related contingent consideration is measured as at FVTPL.

The Entity does not reclassify any financial liability.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

Derivative financial instruments

The Company enters into a variety of derivative financial instruments to manage its exposure to interest rate and foreign exchange rate risks, including foreign exchange forward contracts, options and interest rate swaps.

Derivatives are recognized initially at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognized in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative with a positive fair value is recognized as a financial asset whereas a derivative with a negative fair value is recognized as a financial liability. Derivatives are not offset in the financial statements unless the Company has both legal right and intention to offset. A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realized or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Related parties

Parties are considered related to the Company if:

a) A person or a close member of that person's family is related to a reporting entity if that;

The related person or entity that is related to the entity preparing its financial statements (for this note will be named as reporting entity'):

(i) Has control or joint control over the reporting entity;

(ii) Has significant influence over the reporting entity; or

(iii) Is a member of the key management personnel of the reporting entity or of a parent of the reporting entity

(b) An entity is related to a reporting entity if any of the following conditions applies:

(i) The entity and the reporting entity are members of the same company (which means that each Parent, subsidiary and fellow subsidiary is related to the others).

(ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a company of which the other entity is a member).

(iii) Both entities are joint ventures of the same third party.

(iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

(v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.

(vi) The entity is controlled or jointly controlled by a person identified in (a).

(vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

A related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

Inventories

Inventories are valued at the lower of cost or net realizable value. The costs, including an appropriate portion of fixed and variable overhead expenses, are assigned to inventories held by the method most appropriate to the particular class of inventory, with the majority valued by using the monthly weighted average method. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated and carried at cost less accumulated impairment.

Properties in the course of construction for production, supply or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognized impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalized in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognized so as to write off the cost or valuation of assets, other than freehold land and properties under construction, less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

	Useful life
Building	50 years
Machinery and equipment	2-33 years
Vehicles	5 years
Furniture and fixtures	2-50 years
Leasehold improvements	4-15 years

Expenses after the capitalization are added to the cost of related asset and reflected in financial statements as a separate asset if they shall mostly provide an economic benefit and their cost is measured in a trustable manner. Property, plant and equipment are reviewed for impairment if there are conditions showing that the securities are more than amount recoverable. Assets are grouped at the lowest level which is cash-generating unit in order to determine impairment (cash-generating unit).

Carrying amount of a tangible asset and recoverable value is the one which is higher than the net sales price following the deduction of commensurable value for the sale of the asset. Useful life of assets are reviewed as of date of balance sheet and adjusted, if required.

Maintenance and repair expenses are recorded as expense to the statement of profit or loss of the related period. The Company omits the carrying values of the changed pieces occurred with respect to renovations from the balance sheet without considering whether they are subject to depreciation in an independent manner from other sections. Main renovations are subject to deprecation based on the shortest of residual life of the related tangible asset or useful life of the renovation itself.

Intangible assets

Out of the purchased intangible fixed assets, those with a finite life are presented at cost less accumulated amortization and accumulated impairment losses.

Intangible assets are amortized principally on a straight-line basis over their estimated useful lives and production amounts. The estimated useful life and amortization method are reviewed at the end of each annual reporting period, and any changes in the estimate are accounted for on a prospective basis.

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation, including property under construction for such purposes. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value.

When the use of a property changes such that it is reclassified as property, plant and equipment, its fair value at the date of reclassification becomes its cost for subsequent accounting. An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

IFRS 16 "Leases" standard

<u>Company - as a lessee</u>

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

– fixed lease payments (including in-substance fixed payments), less any lease incentives;
– variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
– the amount expected to be payable by the lessee under residual value guarantees;
– the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
– payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the statement of financial position. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made. The Company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

– The lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
– The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
– A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Company did not make any such adjustments during the periods presented.

Right-of-use assets include the initial measurement of the corresponding lease liability, lease payments incurred on or before the lease actually commences, and other direct initial costs. These assets are subsequently measured at cost less accumulated depreciation and impairment losses.

The Company applies TAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy. Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the rightof- use asset. The related payments are recognized as an expense in the period in which the event or condition that triggers those payments occurs and are included in 'Other expenses' in profit or loss.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

Revenue recognition

Company recognizes revenue when the goods or services are transferred to the customer and when performance obligation is fulfilled. Goods are counted to be transferred when the control belongs to the customer. The principal activities of the Company are production of iron and steel rolled products, alloyed and non-alloyed iron, steel and pig iron castings, cast and pressed products and their by-products.

Company recognizes revenue based on the following main principles:

a) Identification of customer contracts
b) Identification of performance obligations
c) Determination of transaction price in the contract
d) Allocation of price to performance obligations
e) Recognition of revenue when the performance obligations are fulfilled

The Company evaluates the products it has committed in each contract with customers and determines each commitment it has made to transfer the said goods or services as a separate performance obligation. Whether the performance obligation for each contract will be realized at a certain time or over time is evaluated at the beginning of the contract. If the Company realizes the transfer of control of its goods and services over time and fulfills its performance obligation over time, it measures the progress in fulfilling the performance obligation and records the revenues in the financial statements.

Employee termination benefits

According to the Turkish law, employee termination payments are made to employees in the case of retiring or involuntarily leaving. Such payments are considered as a part of defined retirement benefit plan in accordance with TAS 19 (revised) Employee Benefits ("TAS 19").

The employment termination benefit has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of employees. TAS 19 ("Employee Benefits") requires actuarial valuation methods to be developed to estimate the Company's obligation under defined benefit plans. The actuarial assumptions used in the calculation of the present value of the future probable obligation are as follows:

	December 31, 2021	December 31, 2020
Interest rate (%)	21,50	13,25
Inflation rate (%)	19,90	9,00

Provisions, contingent liabilities and contingent assets

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent liabilities and contingent assets

A possible obligation or asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company have not been recognized in these financial statements and treated as contingent liabilities and contingent assets.

Taxation and deferred income taxes

Income tax expense represents the sum of the current tax and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statement of profit or loss because it excludes items of income or expense that are taxable or deductible in future and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is determined by calculating the temporary differences between the carrying amounts of assets/liabilities in the financial statements and the corresponding tax bases, used in the computation of the taxable profit, using currently enacted tax rates.

Deferred tax liabilities are generally recognized for all taxable temporary differences where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized. Such assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized if it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period

Current and deferred tax are recognized as an expense or income in the statement of profit or loss, except when they relate to the items credited or debited directly to the equity (in this case the deferred tax related to these items is also recognized directly in the equity), or where they arise from the initial accounting of a business combination. In the case of a business combination, the tax effect is taken into account in calculating goodwill or determining the excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over cost.

Statement of cash flows

Cash flows during the period are classified and reported as operating, investing and financing activities in the statement of cash flows.

Cash flows arising from operating activities represent the cash flows that are used in or provided by the sales activities.

Cash flows arising from investment activities represent the cash flows that are used in or provided by the investing activities (direct investments and financial investments) of the Company.

Cash flows arising from financing activities represent the cash proceeds from the financing activities of the Company and the repayments of these funds.

Cash and cash equivalents comprises of the cash on hand, the demand deposits and highly liquid other short-term investments which their maturities are three months or less from the date of acquisition, are readily convertible to cash and are not subject to a significant risk of changes in value.

The translation difference that occurs due to translation from functional currency to presentation currency is shown as translation difference on cash flow statement.

Subsequent events

Subsequent events include all events that take place between the balance sheet date and the date of authorization for the release of the balance sheet, although the events occurred after the announcements related to the net profit/loss or even after the public disclosure of other selective financial information.

In the case that events occur requiring an adjustment, the Company adjusts the amounts recognized in its financial statements to reflect the adjustments after the balance sheet date. Post period end events that are not adjusting events are disclosed in the notes when material.

2.6 Critical accounting judgments, estimates and assumptions

The preparation of financial statements requires estimates and assumptions to be made regarding the amounts for the assets and liabilities at the balance sheet date, and explanations for the contingent assets and liabilities as well as the amounts of income and expenses realized in the reporting period. These estimates and assumptions are reviewed regularly, taking into account past experiences and factors expected to arise in the future under certain conditions. Uncertainty about these estimates and assumptions may require significant adjustments in the carrying values of assets and liabilities. Actual results may differ from estimates and assumptions.

Comments that may have a significant impact on the amounts reflected in the financial statements and the significant assumptions and evaluations made by considering the main sources of the estimates that may or may occur at the balance sheet date are as follows:

a) Provisions for employment termination benefits have been calculated according to the (discount rate, estimated future wage increase, and rate of retirement of the employees) based on actuarial assumptions.

b) Provisions for lawsuits are determined by the management with support of the Company's legal advisers that can result a cash outflow for the Company in every period at the date of preparation of financial statements.

c) The Company's management has made certain important assumptions based on experiences of their technical personnel in determining useful economic life of the property, plant and equipment.

d) The Company reviews its assets for any possible impairmentif there is an indication of assets cannot be sold at their book value in accordance with current developments and changing circumstances. In case of such an indication and book value of assets exceed their estimated recoverable values, assets and cash providing units are stated at estimated recoverable values. The recoverable value of assets is stated at greater of net selling price or value in use.

3. Cash and Cash Equivalents

	December 31, 2021	December 31, 2020
Cash on hand	**6,014**	12,242
Cash in banks:		
– Time deposit	**–**	1,982,000
– Demand deposit	**20,805,344**	22,826,800
Total	**20,811,358**	24,821,042

The details of the time deposits as of December 31, 2020 are as follows:

	Maturity	**Interest rate (%)**	**December 31, 2020**
Turkish Lira	Ocak 2021	**17**	**1,982,000**
Total			**1,982,000**

The currency details of the time and demand deposits as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Euro	**20,123,369**	13,541,636
British Pound	**667,211**	9,111,881
US Dollar	**10,129**	165,665
Turkish Lira	**4,635**	1,989,618
Total	**20,805,344**	24,808,800

As of December 31, 2021, there are no blockage, pledges or mortgages on cash and cash equivalents (December 31, 2020: None).

4. Financial liabilities

The details of financial liabilities as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Short-term financial liabilities:		
Short-term bank loans	**5,949,000**	7,903,316
Current portion of long-term operation lease liabilities	**2,148,102**	2,743,280
Other financial liabilities (*)	**134,312**	348,011
Total	**8,231,414**	10,994,607
Long-term financial liabilities:		
Long-term operation lease liabilities	**11,081,410**	12,105,352
Total	**11,081,410**	12,105,352

(*) Other financial liabilities consist of credit card payables.

Movements of bank loans as follows:

	2021	2020
January 1	**7,903,316**	5,220,877
Addition	**39,780,312**	100,733,176
Principal paid	**(41,734,628)**	(98,050,737)
December 31	**5,949,000**	7,903,316

5. Trade receivables and payables

a) Trade receivables

The details of trade receivables as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Trade receivables from third parties	**251,322,194**	67,685,299
Doubtful receivables	**329,806**	329,806
Trade receivables from related parties (Note 26)	**35,449,776**	25,930,754
Total	**287,101,776**	93,945,859
Minus: Provision for doubtful receivables	**(329,806)**	(329,806)
Minus: Expected credit loss		
Third parties	**(2,055,205)**	(495,947)
Related parties (Note 26)	**(251,372)**	(1,307,303)
Trade receivables, net	**284,465,393**	91,812,803

The maturity of the Company's trade receivables varies depends on the contracts signed. However, the average maturity for the trade receivables as of December 31, 2021 is 47 days (2020: 69 days). As of December 31, 2021, there was no calculation of unearned finance income as it had no significant influence on trade receivables.

The movement of the Company's provision for doubtful receivables as of December 31, 2021 and 2020 is as follows:

	2021	2020
January 1	**(329,806)**	(329,806)
Charge during the year (Note 22)	**–**	–
Provision no longer required (Note 22)	**–**	–
December 31	**(329,806)**	(329,806)

The movement of the Company's expected credit loss as of December 31, 2021 and 2020 is as follows:

	2021	2020
January 1	**(1,803,250)**	(59,465)
Charge during the year (Note 22)	**(2,306,577)**	(1,803,250)
Provision no longer required (Note 22)	**1,803,250**	59,465
December 31	**(2,306,577)**	(1,803,250)

b) Trade payables

The details of trade payables as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Trade payables to third parties	**246,219,825**	51,131,008
Trade payables to related parties (Note 26)	**1,723,441**	719,666
Total	**247,943,266**	51,850,674

The maturity of the Company's trade payables varies depends on the contracts signed. However, the average maturity for the trade payables as of December 31, 2021 is 50 days (2020: 50 days).

6. Other receivables and payables

a) Other receivables

The details of short-term other receivables as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Other receivables from third parties	**127,072**	79,090
Other receivables from related parties (Note 26)	**73,302**	46,092
Total	**200,374**	125,182

The details of long-term other receivables as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Deposits and guarantees given	**674,788**	481,305
Total	**674,788**	481,305

b) Other payables

The details of short-term other payables as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Other payables to third parties	**2,496,227**	918,621
Other payables to related parties (Note 26)	**–**	8,525
Total	**2,496,227**	927,146

The details of long-term other payables as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Other payables to related parties (Note 26)	**8,525**	–
Total	**8,525**	–

7. Inventories

The details of inventories as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Raw materials and supplies	**87,029,030**	30,621,983
Work in process	**44,197,876**	16,161,433
Finished goods	**12,591,216**	8,095,093
Goods in transit	**331,922**	239,195
Total	**144,150,044**	55,117,704

The amount of insurance cover on inventories is EUR 2,100,000 for the year ended December 31, 2021 (December 31, 2020: EUR 2.000,000).

8. Prepaid expenses and deferred income

a) Prepaid expenses

The details of short-term prepaid expenses as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Prepaid expenses for next months	**1,619,230**	1,204,657
Advances given	**1,309,507**	430,972
Other	**2,000**	100
Total	**2,930,737**	1,635,729

The details of long-term prepaid expenses as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Advances given	**3,631,711**	–
Total	**3,631,711**	–

b) Deferred income

The details of deferred income as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Income related to future months (*)	**3,047,368**	1,221,924
Advances received	**107,852**	1,235,286
Total	**3,155,220**	2,457,210

(*) Delivered duty paid ("DDP") is a delivery agreement whereby the seller assumes all of the responsibility, risk, and costs associated with transporting goods until the buyer receives or transfers them at the destination port. Income related to future months consist of sales which are not recorded as revenue due to delivery method.

9. Investment properties

Movement of investment properties and accumulated amortization for the year ended December 31, 2021 and 2020 are as follows:

	January 1, 2021	Addition	December 31, 2021
Cost:			
Building	**721,459**	**–**	**721,459**
Total cost	**721,459**	**–**	**721,459**
Accumulated depreciation:			
Buildings	**325,907**	**14,469**	**340,376**
Total accumulated depreciation	**325,907**	**14,469**	**340,376**
Book value	**395,552**		**381,083**

	January 1, 2020	Addition	December 31, 2020
Cost:			
Building	721,459	–	721,459
Total cost	721,459	–	721,459
Accumulated depreciation:			
Buildings	311,438	14,469	325,907
Total accumulated depreciation	311,438	14,469	325,907
Book value	410,021		395,552

The Company included the depreciation expenses from investment properties for the year ended December 31, 2021 amounting to TL 14,469 under the general administration expenses (2020: TL 14,469).

Investment properties consist of 3.550 m^2 of administrative buildings with an area of 15,461 m^2 in Ankara Sincan Organized Industrial Zone Batıhun Street.

10. Property, plant and equipment

Movement of property, plant and equipment and accumulated depreciation between January 1 - December 31, 2021 are as follows:

Cost	Land	Land improvements	Buildings	Plant, machinery and equipment	Vehicles	Furniture and fixtures	Other tangible fixed assets	Leasehold improvements	Construction in progress	Total
Opening Balance as of January 1, 2020	**1,386,469**	**7,433,733**	**15,069,597**	**305,543,065**	**449,371**	**9,085,034**	**5,372,183**	**348,454**	**10,203,784**	**354,891,690**
Additions	**–**	**–**	**–**	**8,266,378**	**–**	**925,933**	**200,059**	**206,558**	**42,819,377**	**52,418,306**
Disposals (-)	**–**	**–**	**–**	**(1,947,741)**	**(16,626)**	**(250,411)**	**(438,027)**	**–**	**–**	**(2,652,804)**

Short-term provision:		
Provision for unused vacation	**5,188,887**	3,766,609
Bonus provision	**4,613,429**	–
Total	**9,802,316**	3,766,609
Long-term provision:		
Provision for employee termination benefits	**39,781,255**	31,012,525
Total	**39,781,255**	31,012,525

The movements of the provision for unused vacation are as follows:

	2021	2020
January 1	**3,766,609**	1,206,456
Addition/ (used) during year, net	**1,422,278**	2,560,153
December 31	**5,188,887**	3,766,609

The movements of the provision for bonus payments are as follows:

	2021	2020
January 1	**–**	–
Addition	**4,613,429**	–
December 31	**4,613,429**	–

According to the articles of Turkish Labor Law in force, the Company have obligation to pay the legal employee termination benefits to each employee whose are 25 years of working life by completing at least one year of service, leaving for military services and deceased.

As of December 31, 2021, the amount payable consists of one month's salary limited to a maximum of TL 8,284,59 (December 31, 2020: TL 7.117,17) for each year of service. As of January 1, 2022, the employment termination benefit has been updated to a maximum of TL 10,848,59 (January 1, 2021: 7,638,96 TL).

The employment termination benefit legally is not subject to any funding requirement.

As of December 31, 2021 and 2020, movements of the provision for employee termination benefits are as follows:

	2021	2020
January 1	**31,012,525**	19,809,395
Service cost	1,478,848	1,445,110
Interest cost (Note 24)	6,667,693	2,624,745
Payments (-)	(4,783,860)	(2,636,649)
Actuarial loss	**5,406,049**	9,769,924
December 31	**39,781,255**	31,012,525

The employment termination benefit has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of employees. IAS 19 ("Employee Benefits") requires actuarial valuation methods to be developed to estimate the Company's obligation under defined benefit plans.

The actuarial assumptions used in the calculation of the present value of the future probable obligation are as follows:

	December 31, 2021	December 31, 2020
Interest rate (%)	21,50	13,20
Inflation rate (%)	16,90	9,00
Probablity of retirement (%)	93,44	92,77

The principal assumptions used in the calculation of retirement pay liability are interest rate and inflation rate. All other variables were held constant, the sensitivity analysis of the assumptions which was used for the calculation of provision for employment termination benefits as of December 31, 2021 as follows:

Sensitivity level	**Interest rate**	
Change in rate	1% increase	1% decrease
Change in employee benefits liability	(3,343,369)	3,847,047

Sensivity level	Inflation rate	
Change in rate	1% increase	1% decrease
Change in employee benefits liability	3,973,410	(3,493,580)

14. Other assets

	December 31, 2021	December 31, 2020
VAT carried forward	**33,695,212**	6,487,054
Other VAT	**186,321**	186,321
Total	**33,881,533**	6,673,375

As of December 31, 2021, the Company made an application to the tax office for the refund of the VAT amounting to TL 13,466,569.

15. Provisions, commitments and contingencies

a) Provisions

The details of provisions for litigation as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Litigation provision	**414,191**	671,036
Total	**414,191**	671,036

As of December 31, 2021 and 2020, movements of the provision for litigation are as follows:

	2021	2020
January 1	**671,036**	485,142
Charge during the year (Note 22)	**106,089**	491,946
Provision no longer required (Note 22)	**(362,934)**	(306,052)
December 31	**414,191**	671,036

b) Commitments and contingencies

The details of the collaterals, pledges and mortgages ("CPM") as of December 31, 2021 and 2020 are as follows:

	December 31, 2021	December 31, 2020
Letters of guarantees received:

Total	**128,130,552**	21,647,151

25. Taxation

	December 31, 2021	December 31, 2020
Current income tax expense	**28,595,047**	6,208,795
Less: Prepaid current income taxes	**(17,001,011)**	(4,297,033)
Tax asset/ liabilities, net	**11,594,036**	1,911,762

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding non-deductible expenses, and by deducting dividends received from resident companies, other exempt income and investment incentives utilized.

In addition to corporate taxes, companies should also calculate income withholding taxes on dividends distributed, except for the dividends distributed to fully fledged taxpayer companies receiving and declaring these dividends and to Turkish branches of foreign companies. As of December 22, 2021, with the President's Decision No. 4936, income tax withholding is applied as 10%. Undistributed dividends incorporated in share capital are not subject to the income withholding taxes.

In Turkey, a definite and distinct reconciliation procedure for tax assessment does not exist. Companies file their tax returns between 1 April - 25 April following the closing period of the related year's accounts. Tax returns and related accounting records may be examined and revised within five years.

Except for the changes in the corporate tax rate, the 75% exemption applied to the earnings generated from the sale of intangibles is reduced to 50% and the deferred tax rate to be applied based on the temporary differences arising on the revaluation of the related assets, is required to be taken into consideration as 10% instead of 5%.

Losses can be carried forward to offset the future taxable income for up to maximum 5 years. However, losses cannot be carried back to offset the profits of the previous periods, retrospectively.

Pursuant to the Provisional 7316 added with the Article 11 of the Law on Corporate Income Tax, published in the Official Gazette dated 22 April 2021 and numbered 31462, the corporate tax rate for the corporate earnings for the 2021 taxation period has been determined as 25%, and the corporate tax rate for the corporate earnings for the 2022 taxation period has been determined as 23%. With the amendment added to Article 32 of the Corporate Tax Law, these rates will be applied with a discount of 1 point to the earnings from production activities and earnings from exports. In Turkey, advance tax returns are filed on a quarterly basis. The temporary tax of 2021 has been calculated over the corporate earnings using the rate 25%, during the temporary taxation period. (December 31, 2020: 22%).

Deferred tax assets and liabilities tax rate used for calculating is 20%.

In the announcement published by the Public Oversight Accounting and Auditing Standards Authority on January 20, 2022, it is stated that TAS 29 Financial Reporting in Hyperinflationary Economies does not apply to the TFRS financial statements as of December 31, 2021, since the cumulative change in the general purchasing power of the last three years according to Consumer Price Index (CPI) is 74.41%. In this respect, financial statements as of December 31, 2021 are not adjusted for inflation in accordance with TAS 29.

Movement of deferred income tax assets and liabilities for the year ended December 31, 2021 and 2020 are as follows:

	2021	2020
January 1	**5,381,418**	1,157,046
Deferred tax expense recognized in income statement	**2,101,733**	2,270,387
Deferred tax income recognized in equity	**1,081,210**	1,953,985
December 31	**8,564,361**	5,381,418

The Company recognizes deferred tax assets and liabilities based upon the temporary differences arising between its taxable statutory financial statements and its financial statements prepared in accordance with the TFRS. These differences usually result in the recognition of income and expenses tax bases in different reporting periods in the financial statements prepared according to TFRS.

The breakdown of cumulative temporary differences and the resulting deferred tax assets/ liabilities provided using effective tax rates as of December 31, 2020 and 2021 are as follows:

	Cumulative temporary differences	Deferred tax assets/ (liabilities)	Cumulative temporary differences	Deferred tax assets/ (liabilities)
	December 31, 2021	December 31, 2021	December 31, 2020	December 31, 2020
Deferred tax asset/ (liabilities), net:

Erkunt Gayrimenkul A.Ş.	5,418	–	–	3,157,228
Total	42,853,368	82,800	2,295,077	3,157,228

27. Nature and level of risks arising from financial instruments

The primary financial instruments of the Company consist of cash and short-term deposits. The main objective of the related financial instruments is to finance Company's business activities.

a) Capital risk management

The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the equity balance.

Net financial debt calculated as total financial liabilities (including short and long-term bank borrowings) less cash and cash equivalents. This ratio is calculated as net financial debt divided by paid in capital.

	December 31, 2021	December 31, 2020
Financial liabilities	**19,312,824**	23,099,959
Less: Cash and cash equivalents	**(20,811,358)**	(24,821,042)
Net debt	**(1,498,534)**	(1,721,083)
Total paid in capital	**15,120,000**	15,120,000
Net debt/ paid in capital	**<0**	<0

b) Financial risk factors

The Company's activities expose it to a variety of financial risks: foreign exchange risk, credit risk and liquidity risk. Company Management and Board of Directors examines and approves the policies on the management of risks stated below. In addition, Company also considers the market risk of all of its financial instruments.

b.1) Credit risk management

D. Credit risk off the statement of financial position	–	–	–	–	–

(*) The factors that increase the credit reliability, such as guarantee received are not considered in the determination of the balance.

b.2) Liquidity risk management

Liquidity risk is the risk of Company not meeting its net funding requirements.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows.

Contractual Maturity Analysis December 31, 2021	**Carrying Value**	**Total Cash Outflow According To Contract (I+II+III)**	**Less Than 3 Months (I)**	**3-12 Months (II)**	**1-5 Years (III)**

AUDITOR'S REPORT

To the Annual General Meeting of Sampo-Rosenlew Oy

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Sampo-Rosenlew Oy (business identity code 0773638-7) for the year ended 31 March, 2022. The financial statements comprise the balance sheet, income statement, cash flow statement and notes.

In our opinion, the financial statements give a true and fair view of the company's financial performance and financial position in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements.

Basis for Opinion

We conducted our audit in accordance with good auditing practice in Finland. Our responsibilities under good auditing practice are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the company in accordance with the ethical requirements that are applicable in Finland and are relevant to our audit, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors and the Managing Director for the Financial Statements

The Board of Directors and the Managing Director are responsible for the preparation of financial statements that give a true and fair view in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors and the Managing Director are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting. The financial statements are prepared using the going concern basis of accounting unless there is an intention to liquidate the company or cease operations, or there is no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with good auditing practice will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with good auditing practice, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the Board of Directors' and the Managing Director's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such

disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.

– Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events so that the financial statements give a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Reporting Requirements

Other Information

The Board of Directors and the Managing Director are responsible for the other information. The other information comprises the report of the Board of Directors. Our opinion on the financial statements does not cover the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. Our responsibility also includes considering whether the report of the Board of Directors has been prepared in accordance with the applicable laws and regulations.

In our opinion, the information in the report of the Board of Directors is consistent with the information in the financial statements and the report of the Board of Directors has been prepared in accordance with the applicable laws and regulations.

If, based on the work we have performed, we conclude that there is a material misstatement of the report of the Board of Directors, we are required to report that fact. We have nothing to report in this regard.

NOTES TO THE FINANCIAL STATEMENT 31 MARCH 2022

A. Basis of preparation

1. Valuation Principles

Valuation of Fixed Assets:
Fixed assets are carried at direct purchase cost with deduction of planned depreciations. Depreciation according to plan has been computed according to either the total useful lives of the fixed assets goods or with maximum reducing balance method. The depreciation principles are given in the notes in item B(4).

Valuation of Inventories:
Inventories have been entered at the amount of the acquisition cost or at a sales price if likely to be lower than the acquisition cost. Variable manufacturing expenses of goods have been included in the acquisition costs of inventories.

Receivables and Payables in Foreign Currencies:
Receivables and payables in foreign currencies have been converted into EUR using the average exchange rates of fiscal year closing date. With minor transactions, the rate of the recording date is used.

Research and Development Expenses:
The R&D expenses are entered in the year incurred.

2. Financial Statements

Sampo-Rosenlew Oy has also branch in Sweden and joint venture in Algeria. The figures for the Swedish branch have been combined with those of Sampo-Rosenlew.

B. Notes to Profit and Loss Account

1. Sales by market

	2022	2021
Market areas

Separate Auditor’s report has today been given regarding audit performed.

INDEPENDENT AUDITORS' REPORT

To The Board Of Directors

Carnot Technologies Private Limited

Report on the Standalone Financial Statements

We have audited the accompanying Standalone Financial statements of **Carnot Technologies Private Limited**, which comprise the Balance Sheet as at March 31, 2022, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended, and a summary of the significant accounting policies and other explanatory information **(hereinafter referred to as"the standalone financial statements")**.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit. We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation and presentation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the standalone financial statements. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2022, its Loss, total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Report on other Legal and Regulation requirements

1. As required by the companies (Auditor's Report) Order, 2016, as amended, issued by the Central Government of India in term of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in the paragraph 3 and 4 of the Order.
2. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
3. The Balance sheet, the Statement of Profit and Loss, and the Cash flow Statement deal with by this report are in agreement with the books of account.
4. In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015 as amended.
5. On the basis of the written representations received from the directors as on March 31, 2022, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022, from being appointed as a director in terms of Section 164(2) of the Act.
6. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report In "Annexure B".
7. With respect to the other matters to be included in the Auditor's Reporting accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
   - I. The Company does not have pending litigation which would not impact its financial position.
   - II. The Company did not have any long term contracts including derivative contracts for which there were any material foreseeable losses.
   - III. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the company

"ANNEXURE A" TO THE INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CARNOT TECHNOLOGIES PVT LTD ON THE ACCOUNTS OF THE COMPANY FOR THE YEAR ENDED 31ST MARCH, 2022.

(i) a)(A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property Plant and equipment ;

a)(B) company is maintaining proper records showing full particulars of intangible assets.

b) The Property plant and equipment have been physically verified by the management atregular intervals; as informed to us and no material discrepancies between the books records and the physical Property plant and equipment have been noticed.

c) There are no immovable properties in the name of the company during the year under report.

d) Company has not revalued its property, plant and equipment and intangible assets during the year.

e) No proceedings have been initiated or are pending against the company for holding any benami property under the Benami Transactions (Prohibitions) Act ,1988.

(ii) a) During the year, the Inventories have been physically verified by the management. In our opinion,the frequency of verification is reasonable. Also, there are no discrepancies of 10% or more in the aggregate of each class of inventory.

b) The Company has not been sanctioned working capital limits in excess of ₹ 5 crore, in aggregate, at any points of time during the year, from banks or financial institutions on the basis of security of current assets and hence reporting under clause 3(ii)(b) of the Order is not applicable.

(iii) The Company has not made any investments in, granted any loans, secured or unsecured guarantees to companies, firms, Limited Liability partnerships or other parties covered in the Register maintained under section 189 of the Act. Accordingly, the provisions of clause 3 (iii) (a) to (f) of the Order are not applicable.

(iv) In our opinion and according to the information and explanations given to us, the company has complied with the provisions of section 185 and 186 of the Companies Act, 2013 In respect of loans, investments, guarantees, and security.

(v) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause 3(v) of the Order is not applicable.

(vi) As informed to us, the maintenance of Cost Records has not been specified by the Central Government under sub-section (1) of Section 148 of the Act, in respect of the activities carried on by the company

(vii) a) According to the information and explanations given to us and on the basis of our examination ofthe records of the company, the Company has been generally regular subject to certain delay in depositing undisputed statutory dues, including Income-Tax,Service Tax, Goods & Service Tax, Cess and other material statutory dues, as applicable, with the appropriate authorities. According to the information and explanations given to us, no undisputed amounts are payable as on March 31, 2022.

b) According to the information and explanations given to us and based on the records of company examined by us, there are no dues of Income Tax, Service Tax, Goods & Service Tax and Cess which have not been deposited on account of any disputes.

(viii) There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

(ix) a) The Company has not taken any loans or other borrowings from any lender. Hence reporting under clause 3(ix)(a) of the Order is not applicable.

b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

c) The Company has not taken any term loan during the year and there are no outstanding term loans at the beginning of the year and hence, reporting under clause 3(ix)(c) of the Order is not applicable.

d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries.

f) The Company has not raised any loans during the year and hence reporting on clause 3(ix)(f) of the Order is not applicable..

(x) a) According to the information and explanations given to us, the company has not raised moneys by way of initial public offer or further public offer including debt instruments and term Loans.

b) During the year, the Company has made a preferential allotment of 1,613 Compulsory Convertible Cumulative Preference Shares of Face Value of Rs.100 at a premium of Rs.15,391.65 each on 17th March, 2022.

(xi) a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.

c) We have taken into consideration the whistle blower complaints received by the Company during the year (and up to the date of this report), while determining the nature, timing and extent of our audit procedures.

(xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.

(xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.

(xiv) The company does not have any internal audit system in place and hence provisions of clause 3 (xiv) (a) and (xiv) (b) are not applicable.

(xv) In our opinion during the year the Company has not entered into any non-cash transactions with itsDirectors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

(xvi) a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi) (a), (b) and (c) of the Order is not applicable.

b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.

(xvii) The Company has incurred cash losses during the year amounting to Rs.1,14,08,871 and (previous year) Rs.1,66,64,630 /-

(xviii) There has been no resignation of statutory auditor during the year. The provisions of this clause are hence not applicable.

(xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) The provisions of CSR are not applicable to the company. Hence provisions of clause 3 (XX) (a) and (b) are not applicable.

(xxi) The provisions of consolidated financials and consolidated CARO report are not applicable to the company and hence the aforementioned clause is not applicable.

"ANNEXURE B" TO INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls over financial reporting of Car not technologies Private Limited as at the year March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over Financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future years are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

SIGNIFICANT ACCOUNTING POLICIES AND OTHER EXPLANATORY INFORMATION FOR THE PERIOD ENDED MARCH 31ST 2022

1 OVERVIEW

1.1 Company overview

CARNOT Technologies Pvt Ltd was incorporated in India as private limited company under the Companies Act , 2013 on 24th August, 2015. The company is engaged in the business of the following:

I. Service Sector- Technology enabled applications in different fields including automobiles products both in India & Overseas.

II. Trading Sector- Retail in information technology products and applications

1.2 Basis of Preparation of financial statement

These financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 (the “”Act””) and other relevant provisions of the Act.

The financial statements up to and for the year ended March 31, 2017 were prepared in accordance with accounting standards notified under Companies (Accounting Standards) Rules, 2006, as amended and the relevant provisions of the Act (Previous GAAP).

These are the first Ind AS financial statements of the Company prepared in accordance with Ind AS. Ind AS 101, First-time Adoption of Indian Accounting Standards has been applied for the pupose of transition to Ind AS from previous GAAP

These financial statements have been prepared on a historical cost and accrual basis.

All assets and liabilities have been classified as current or non-current as per the Company’s operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current non- current classification of assets and liabilities.

1.3 Use of Estimates

The preparation of the financial statements in conformity with IndAS requires the management to make estimates, judgments and assumptions. The seestimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets a nd liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period.The application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in the sefinancial statements have been disclosed in Note no.1.4. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements

1.4 Significant accounting policies

a. Property plant and equipment (including Capital Work-in-Progress)

All items of property, plant and equipment are stated at historical cost less depreciation. Historical cost are stated at cost of acquisition inclusive of all attributable cost of bringing the assets to their working condition, accumulated depreciation and accumulated impairment losses, if any.

Subsequent expenditure related to an item of property plant and equipment are added to its book value only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance.

The Company provides depreciation on all assets on written down value basis over its useful life of asset which is in line with Schedule II of Comapnies Act,2013.

Gains or losses arising from the retirement or disposal of property plant and equipment are determined as the difference between the net disposal proceeds and the carrying amount of the property plant and equipment and recognised as income or expense in the Statement of Profit and Loss.

Assets not yet ready for use are recognised as capital work in progress.

On transition to Ind AS, the company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

b. Intangible Assets

Intangible assets are accounted at actual cost incurred less accumulated amortisation and impairment, if any.

Intangible assets i.e. software are amortised on a straight line basis over their estimated useful life of approximately five years, so as to effectively depreciate the assets over the specified useful life.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

On transition to Ind AS, the company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the intangible assets

c. Impairment of non-financial assets

The carrying amount of the non-financial assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal /external factors. An impairment loss is recognised whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. The recoverable amount of the assets (or where applicable, that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. Impairment loss is recognised in the statement of profit and loss.

After impairment, depreciation/amortisation is provided on the revised carrying amount of the asset over its remaining useful life.

A previosuly recognised impairment loss is increased or reversed depending on changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation/amortisation if there were no impairment.

d Investments and financial assets

Classification

The company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those measured at amortised cost.

The classification depends on the entity’s business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The company reclassifies debt investments when and only when its business model for managing those assets changes.

e Inventories

The stock of raw materials and components, goods in process, finished goods and stores, spares, property under development etc. are stated at lower of cost or net realisable value (NRV).

In determining the cost of the raw materials and components FIFO method is used. Cost of goods in process and manufactured finished products includes the cost of materials, labour and other manufacturing overhead. Average cost method is used to determine cost of work in progress and finished goods.

Obsolete slow moving and defective inventories are identified at the time of physical verification of inventories and where necessary, provision is made for such inventories.(a) Traded goods, raw materials and packing materials: At cost or net realisable value, whichever is lower. (b)Process stock: At cost or estimated realisable value, whichever is lower. (c) Finished goods: At cost or net realisable value, whichever is lower and are inclusive of input tax credit thereon.

f Revenue Recognition

Revenue is recognised based on fair value of consideration receive or receivable and to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Turnover, which represents invoiced value of goods sold is recognized net of goods and service tax, trade and volume discounts or rebates, etc. The following specific recognition criteria must also be met before revenue is recognised:

Supply contracts - Sale of products

Revenue from supply contract is recognized when the substantial risk and rewards of ownership is transferred to the buyer. Revenue from product sales are shown as net of all applicable taxes and discounts.

Interest Income

Interest Income is accounted on accrual basis.

Dividend Income

Dividend is recognized when the right to receive the payment is established.

g Employee Benefits

Short term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the period when the employee renders the services. These benefits include compensated absences such as paid annual leave, bonuses and performance incentives.

ii. Long term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised as a liability at the present value of the defined benefit obligation determined actuarially by using Projected Unit Credit Method at the Balance Sheet date.

iii. Post-employment benefit plan

Payments to defined contribution retirement benefit plans are recognized as an expense when employees have rendered the service entitling them to the contribution.

The Company's contribution to the Provident Fund is remitted to provident fund authorities and are based on a fixed percentage of the eligible employee's salary and debited to Statement of Profit and Loss.

h Current and Deferred Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period.

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

i Foreign Currency Transactions

Foreign currency transactions are recorded at the exchange rates prevailing on the date of such transactions. Monetary assets and liabilities as at the Balance Sheet date are translated at the rates of exchange prevailing at the date of the Balance Sheet. Gains and losses arising on account of differences in foreign exchange rates on settlement/ translation of monetary assets and liabilities are recognised in the Statement of Profit and Loss. Non-monetary foreign currency items are carried at cost.

j Provisions and Contingent Liabilities

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

k Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss (excluding other comprehensive income) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a right issue, shares split and reserve share splits (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss (excluding other comprehensive income) for the year attributable to equity share holders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

l Cash flow statement

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

m Critical estimates and judgements

The preparation of Financial Statements in conformity with Ind AS which requires management to make estimates, assumptions and exercise judgement in applying the accounting policies that affect the reported amount of assets, liabilities and disclosure of contingent liabilities at the date of financial statements and the reported amounts of income and expenses during the year.

The Management believes that these estimates are prudent and reasonable and are based upon the Management's best knowledge of current events and actions. Actual results could differ from these estimates and differences between actual results and estimates are recognised in the periods in which the results are known or materialised.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

b). Terms/rights attached to equity shares/Preference Shares

1) The Company has only one class of equity shares having a par value of Rs 10 per share. Each holder of equity shares is entitled to one vote per share. The Company declares and pays dividends in Indian Rupees. The dividend, if proposed by the Board of Directors, is subject to the approval of the shareholders in the ensuing Annual General Meeting, except interim dividend.

   In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts, if any. The distribution will be in proportion to the number of equity shares held by the shareholders.

2) 4,480 Compulsary Convertible Participating Preference shares having par value of Rs 100/- each issued at a premium of Rs. 6,581.51/- each in FY 2016-2017 & 6,663 Compulsary Convertible Participating Preference shares having par value of Rs 100/- each issued at a premium of Rs. 8131.81- each during the financial year 2017-2018.

   Each Seed CCCPS may be converted into Equity Shares at any time at the option of the holder of that Seed CCCPS. Subject to compliance with applicable Laws, each Seed CCCPS shall automatically be converted into Equity Shares upon the earlier of (i) one day prior to the expiry of 20 years from the First Closing Date; or (ii) in connection with a IPO (or any subsequent IPO), prior to the filing of a prospectus (or equivalent document, by whatever name called) by the Company with the competent authority or such later date as may be permitted under applicable Laws.

3) 2,298 Compulsary Convertible Participating Preference shares having par value of Rs 100/- each issued at a premium of Rs. 12,954.42/- IN FY 2020-21.

   Each Seed CCCPS may be converted into Equity Shares at any time at the option of the holder of that Seed CCCPS. Subject to compliance with applicable Laws, each Seed CCCPS shall automatically be converted into Equity Shares upon the earlier of (i) one day prior to the expiry of 20 years from the First Closing Date; or (ii) in connection with a IPO (or any subsequent IPO), prior to the filing of a prospectus (or equivalent document, by whatever name called) by the Company with the competent authority or such later date as may be permitted under applicable Laws.

4) 1613 Compulsary Convertible Participating Preference shares having par value of Rs 100/- each issued at a premium of Rs. 15,391.65/- IN FY 2021-22.

   Each Seed CCCPS may be converted into Equity Shares at any time at the option of the holder of that Seed CCCPS. Subject to compliance with applicable Laws, each Seed CCCPS shall automatically be converted into Equity Shares upon the earlier of (i) one day prior to the expiry of 20 years from the First Closing Date; or (ii) in connection with a IPO (or any subsequent IPO), prior to the filing of a prospectus (or equivalent document, by whatever name called) by the Company with the competent authority or such later date as may be permitted under applicable Laws.

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Mahindra & Mahindra Financial Services Limited (the "Company"), which comprise the Balance Sheet as at 31 March 2022, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2022, and its profit and total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the *Auditor's Responsibility for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Emphasis of Matter

We draw attention to Note 2.5 to the Standalone Financial Statements in which the Company describes the continuing uncertainties arising from the COVID 19 pandemic.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Description of Key Audit Matters

Sr. No.	Key audit matter	Auditor's Response
1	Allowances for Expected Credit Losses ("ECL"): As at 31 March 2022, the carrying value of loan assets measured at amortised cost, aggregated Rs. 60,444.64 crore (net of allowance of expected credit loss Rs. 4,500.54 crore) constituting approximately 80% of the Company's total assets. Significant judgement is used in classifying these loan assets and applying appropriate measurement principles. ECL on such loan assets measured at amortised cost is a critical estimate involving greater level of management judgement. As part of our risk assessment, we determined that the ECL on such loan assets has a high degree of estimation uncertainty, with a potential range of reasonable outcomes for the Standalone Financial Statements. The elements of estimating ECL which involved increased level of audit focus are the following: • Qualitative and quantitative factors used in staging the loan assets measured at amortised cost; • Basis used for estimating Probabilities of Default ("PD"), Loss Given Default ("LGD") and Exposure at Default ("EAD") at product level with past trends;	We have examined the policies approved by the Board of Directors of the Company that articulate the objectives of managing each portfolio and their business models. We have also verified the methodology adopted for computation of ECL ("ECL Model") that addresses policies approved by the Board of Directors, procedures and controls for assessing and measuring credit risk on all lending exposures measured at amortised cost. Additionally, we have confirmed that adjustments to the output of the ECL Model is consistent with the documented rationale and basis for such adjustments and that the amount of adjustment has been approved by the Audit Committee of the Board of Directors. Our audit procedures related to the allowance for ECL included the following, among others: Testing the design and operating effectiveness of the following: • completeness and accuracy of the EAD and the classification thereof into stages consistent with the definitions applied in accordance with the policy approved by the Board of Directors including the appropriateness of the qualitative factors to be applied;

Sr. No.	Key audit matter	Auditor's Response
	• Judgements used in projecting economic scenarios and probability weights applied to reflect future economic conditions; and • Adjustments to model driven ECL results to address emerging trends. (Refer Note 2.5, 7 and 51.2 to the Standalone Financial Statements).	• completeness, accuracy and appropriateness of information used in the estimation of the PD and LGD for the different stages depending on the nature of the portfolio; and • accuracy of the computation of the ECL estimate including reasonableness of the methodology used to determine macro-economic overlays and adjustments to the output of the ECL Model. Test of details on a sample in respect of the following: • accuracy and completeness of the input data such as period of default and other related information used in estimating the PD; • the mathematical accuracy of the ECL computation by using the same input data as used by the Company; • completeness and accuracy of the staging of the loans and the underlying data based on which the ECL estimates have been computed; • evaluating the adequacy of the adjustment made to the output as per the ECL Model to ensure that the adjustment was in conformity with the amount approved by the Audit Committee of the Company.
2	Information Technology and General Controls: The Company is dependent on its Information Technology ("IT") systems due to the significant number of transactions that are processed daily across such multiple and discrete IT systems. Also, IT application controls are critical to ensure that changes to applications and underlying data are made in an appropriate manner and under controlled environments. Appropriate controls contribute to mitigating the risk of potential fraud or errors as a result of changes to applications and data. On account of the pervasive use of its IT systems, the testing of the general computer controls of the IT systems used in financial reporting was considered to be a Key Audit Matter.	With the assistance of our IT specialists, we obtained an understanding of the Company's IT applications, databases and operating systems relevant to financial reporting and the control environment. For these elements of the IT infrastructure the areas of our focus included access security (including controls over privileged access), program change controls, database management and network operations. In particular: • We tested the design, implementation, and operating effectiveness of the Company's general IT controls over the IT systems relevant to financial reporting. This included evaluation of Company's controls over segregation of duties and access rights being provisioned / modified based on duly approved requests, access for exit cases being revoked in a timely manner and access of all users being recertified during the period of audit. • We also tested key automated business cycle controls and logic for the reports generated through the IT infrastructure that were relevant for financial reporting or were used in the exercise of internal financial controls with reference to financial statements. Our tests included testing of the compensating controls or alternate procedures to assess whether there were any unaddressed IT risks that would materiality impact the Financial Statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report (including annexures thereto), Business Responsibility Statement and Management Discussion and Analysis ("MD&A") (collectively referred to as "other information"), but does not include the financial statements and our auditor's report thereon.

- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in respect of financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

   a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c. The standalone Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.

   d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.

   e. On the basis of the written representations received from the directors as on 31 March, 2022 taken on record by the Board of Directors, none of the directors are disqualified as on 31 March, 2022 from being appointed as a director in terms of Section 164(2) of the Act.

   f. With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

   g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended,

      - In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

   h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.

      ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts.

      iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

      iv. (a) The Management has represented that, to the best of it's knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

      (b) The Management has represented that, to the best of it's knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

(c) Based on the audit procedures that has been considered reasonable and appropriate in the circumstances, nothing has come to their notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

v. The final dividend proposed with respect to previous year, declared and paid by the Company during the year is in compliance with section 123 of the Act, as applicable.

As stated in Note no. 23(ii) to the standalone financial statements, the Board of Directors of the Company have proposed final dividend for the year which is subject to the approval of the members in the ensuing Annual General Meeting. The amount of the dividend proposed is in accordance with the section 123 of the Act, as applicable.

2. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls with reference to Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the Internal Financial Controls with reference to standalone financial statements of Mahindra & Mahindra Financial Services Limited (the "Company") as of March 31, 2022 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining Internal Financial Controls based on the internal control with reference to Standalone Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's Internal Financial Controls with reference to Standalone Financial Statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate Internal Financial Controls with reference to Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal Financial Controls system with reference to Standalone Financial Statements and their operating effectiveness. Our audit of Internal Financial Controls with reference to Standalone Financial Statements included obtaining an understanding of Internal Financial Controls with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A Company's Internal Financial Controls with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone Financial Statements for external purposes in accordance with generally accepted accounting principles. A Company's Internal Financial Controls with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of Internal Financial Controls with reference to Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the Internal Financial Controls with reference to Financial Statements to future periods are subject to the risk that the Internal Financial Controls with reference to Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate Internal Financial Controls system with reference to Financial Statements and such Internal Financial Controls with reference to Financial Statements were operating effectively as at March 31, 2022, based on the criteria for Internal Financial Controls with reference to Financial Statements established by the respective Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date to the members of Mahindra & Mahindra Financial Services Limited on the financial statements as at and for the year ended March 31, 2022)

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

(i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.

(b) The Property, Plant and Equipment, were physically verified during the year by the management, in accordance with a regular programme of verification, which in our opinion, provides for physical verification of all the property, plant and equipment at reasonable intervals. No material discrepancies were noticed on such verification.

(c) Based on the examination of the documents provided to us, we report that, the title deeds of all the immovable properties (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company), disclosed in the financial statements included in Property, Plant and Equipment are held in the name of the Company as at the balance sheet date.

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year. Accordingly, paragraph 3(i)(d), of the Order is not applicable to the Company.

(e) No proceedings have been initiated during the year or are pending against the Company as at 31 March 2022 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

(ii) (a) The Company is engaged primarily in lending activities and consequently does not hold any physical inventories. Accordingly, paragraph 3(ii)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of Rs. 5 crore, in aggregate, at points of time during the year, from banks on the basis of security of loans (assets). We have observed differences / reconciliation items in the quarterly returns or statements filed by the Company with such banks or financial institutions as compared to the books of account maintained by the Company. However, we have not carried out a specific audit of such statements. The details of such differences / reconciliation items are given in note no. 17 of the standalone financial statements of the Company.

(iii) As explained in note 1 to the standalone financial statements, the Company is a deposit-taking non-banking financial company ("NBFC") registered with the Reserve Bank of India ("RBI") and as a part of its business activities is engaged in the business of lending across various types of customers which include retail and SMEs.

During the year, in the ordinary course of its business, the Company has made investments in, provided guarantee / security to and granted loans and advances in the nature of loans, secured and unsecured, to companies, firms, limited liability partnerships and other parties. With respect to such investments, guarantees / security and loans and advances:

(a) The principal business of the Company is to give loans and hence reporting under clause (iii)(a) of the Order is not applicable;

(b) In our opinion, having regard to the nature of the Company's business, the investments made, guarantees provided, security given and the terms and conditions of the grant of all loans and advances in the nature of loans and guarantees provided are not prejudicial to the Company's interest;

(c) in respect of loans and advances in the nature of loans (together referred to as "loan assets"), the schedule of repayment of principal and payment of interest has been stipulated. Note 2.5(ii) to the standalone financial statements explains the Company's accounting policy relating to impairment of financial assets which include loans assets. In accordance with that policy, loan assets with balances as at 31 March 2022, aggregating Rs. 4,976.30 crore were categorised as credit impaired ("Stage 3") and Rs. 9,257.46 crore were categorised as those where the credit risk has increased significantly since initial recognition ("Stage 2"). Disclosures in respect of such loans have been provided in Note 60 to the standalone financial statements. Additionally, out of loans and advances in the nature of loans with balances as at 31 March 2022 aggregating Rs. 50,727.01 crore, where credit risk has not significantly increased since initial recognition (categorised as "Stage 1"), delinquencies in the repayment of principal and payment of interest aggregating Rs. 1,932.56 crore were also identified, albeit of less than 31 days. In all other cases, the repayment of principal and interest is regular as at 31 March 2022. Having regard to the nature of the Company's business and the volume of information involved, it is not practicable to provide an itemised list of loan assets where delinquencies in the repayment of principal and interest have been identified.

(d) The total amount overdue for more than ninety days, in respect of loans and advances in the nature of loans, as at 31 March 2022 is Rs. 2,243.83 crore. Reasonable steps are been taken by the Company for recovery of the principal and interest.

(e) The principal business of the Company is to give loans and hence reporting under clause (iii)(e) of the Order is not applicable.

(f) The Company has not granted any loans or advances in the nature of loans that were either repayable on demand or without specifying any terms or period of repayment.

(iv) The Company has not advanced loans or made investments in or provided guaranty or security to parties covered by section 185 of the Act and the provisions of Section 186 of the Act are not applicable to the Company. Hence reporting under clause 3 (iv) of the Order is not applicable.

(v) In our opinion, the Company had complied with the directives issued by the Reserve Bank of India with regards to the deposits accepted and amounts deemed to be deposits during the year. According to the information and explanations given to us, the Company being Non-banking finance company registered with RBI, provisions of section 73 to 76 or any other relevant provisions of the Companies Act, 2013 & the Companies (Acceptance of deposits) Rules, 2014, as amended, are not applicable. We are informed by the management that no order has been passed by the Company Law Board, National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal against the Company in this regard.

(vi) The maintenance of cost records has not been specified by the Central Government under Section 148(1) of the Companies Act, 2013 for the business activities carried out by the Company. Hence reporting under clause 3 (vi) of the Order is not applicable.

(vii) In respect of statutory dues:

(a) The Company has been regular in depositing undisputed statutory dues, including Goods and Service Tax, Provident Fund, Employees' State Insurance, Income-tax, Cess and other material statutory dues applicable to it, to the appropriate authorities. As explained to us, the Company does not have any dues on account of sales tax, service tax, duty of customs, duty of excise and value added tax.

There were no undisputed amounts payable in respect of Goods and Service Tax, Provident Fund, Employees' State Insurance, Income-tax, Cess and other material statutory dues in arrears as at 31st March, 2022, for a period of more than six months from the date they became payable.

(b) Details of dues of Income-tax, Value Added Tax and Service Tax Act which have not been deposited as on 31st March, 2022, on account of disputes are given below:

Name of the statute	Nature of dues	Amount Involved	Amount Unpaid	Period to which the amount relates	Forum where dispute is pending

Income Tax Act, 1961	Income Tax	4.33	2.05	2002-03	Commissioner of Income Tax (Appeals)

(viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.

(ix) (a) The Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion, term loans availed by the Company during the year, were applied by the Company for the purposes for which the loans were obtained.

(d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

(e) On an overall examination of the standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(f) The Company has not raised any loans during the year on the pledge of securities held in its subsidiaries or joint ventures or associate companies. Accordingly, paragraph 3 (ix)(f) of the Order is not applicable.

(x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable.

(b) The Company has not made preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) during the year under review and hence reporting under clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) To the best of our knowledge, no material fraud on the Company and no fraud by the Company has been noticed or reported during the year.

(b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year by the Statutory Auditors and upto the date of this report.

(c) We have taken into consideration, the whistle blower complaints received by the Company during the year and provided to us while determining the nature, timing and extent of audit procedures.

(xii) The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.

(xiii) In our opinion, the Company is in compliance with Section 188 and 177 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements, etc., as required by the applicable accounting standards.

(xiv) (a) In our opinion and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business. The company needs to enhance the coverage / scope of the internal audit in certain areas.

(b) We have taken into consideration, the reports of the Internal Auditors received by the company during the year and provided to us while determining the nature, timing and extent of audit procedures.

(xv) In our opinion, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with them and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.

(xvi) (a) The Company is required to be registered under section 45-IA of the Reserve Bank of India Act, 1934 and it has obtained the registration.

(b) The Company has conducted the Non-Banking Financial activities with a valid Certificate of Registration (CoR) from the Reserve Bank of India

(RBI) as per the Reserve Bank of India Act, 1934. The Company has not conducted any Housing Finance activities and is not required to obtain CoR for such activities from the RBI.

(c) The Company is not a Core Investment Company (CIC) and hence reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) The Group (as defined under Master Direction DNBR. PD.008/03.10.119/2016-17 - Non-Banking Financial Company - Systemically Important Non-Deposit taking Company and Deposit taking Company (Reserve Bank) Directions, 2016) has more than one CIC as part of the group. There are 6 CIC forming part of the group.

(xvii) The Company has not incurred cash losses during the financial year covered by our audit and in the immediately preceding financial year.

(xviii) During the year, consequent to the issuance of the Circular No. DoS.CO.ARG/SEC.01/08.91.001/2021-22 dated 27 April 2021, by the RBI, the predecessor auditors resigned as they had completed three continuous years as statutory auditors of the Company. The predecessor statutory auditors have confirmed to us that they were not aware of reasons as to why we should not accept the statutory audit of the Company.

(xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

(xx) (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act, 2013 in compliance with second proviso to sub-section (5) of section 135 of the said Act. Accordingly, reporting under paragraph 3(xx)(a) of the Order is not applicable for the year.

(b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount, to a Special account before the date of this report and within a period of 30 days from the end of the financial year in compliance with the provision of section 135(6) of the Act.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

for the year ended 31 March 2022

1 COMPANY INFORMATION

Mahindra & Mahindra Financial Services Limited ('the Company'), incorporated in India, is a public limited company, headquartered in Mumbai. The Company is a Non-Banking Financial Company ('NBFC') engaged in providing asset finance through its pan India branch network. The Company is registered as a Systemically Important Deposit Accepting NBFC as defined under Section 45-IA of the Reserve Bank of India ('RBI') Act, 1934 with effect from 4 September 1998. The equity shares of the Company are listed on the National Stock Exchange of India Limited ("NSE") and the BSE Limited ("BSE") in India. The Company is a subsidiary of Mahindra & Mahindra Limited.

The Company's registered office is at Gateway Building, Apollo Bunder, Mumbai 400001, India.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Statement of compliance and basis for preparation and presentation of financial statements

These standalone or separate financial statements of the Company have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 ("the Act"), and in conformity with the accounting principles generally accepted in India and other relevant provisions of the Act. Further, the Company has complied with all the directions related to Implementation of Indian Accounting Standards prescribed for Non-Banking Financial Companies (NBFCs) in accordance with the RBI notification no. RBI/2019-20/170 DOR NBFC).CC.PD.No.109/22.10.106/2019-20 dated 13 March 2020.

Any application guidance/ clarifications/ directions/ expectations issued by RBI or other regulators are implemented as and when they are issued/ applicable.

Accounting policies have been consistently applied except where a newly-issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

These standalone or separate financial statements have been approved by the Company's Board of Directors and authorized for issue on 02 May 2022.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees ('INR' or 'Rs.') which is also the Company's functional currency. All amounts are rounded-off to the nearest crore, unless indicated otherwise.

2.3 Basis of measurement

The financial statements have been prepared on a historical cost convention and on an accrual basis, except for certain financial instruments which are measured at fair values as required by relevant Ind AS.

2.4 Measurement of fair values

A number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has established policies and procedures with respect to the measurement of fair values. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.5 Use of estimates and judgements and Estimation uncertainity

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income, expenses and the disclosures of contingent assets and liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions of estimates are recognized prospectively.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were issued. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Following are areas that involved a higher degree of estimate and judgement or complexity in determining the carrying amount of some assets and liabilities.

i) Effective Interest Rate (EIR) Method

The Company recognizes interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loans given / taken. This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well as expected changes to other fee income/expense that are integral parts of the instrument.

ii) Impairment of Financial Assets

The measurement of impairment losses on loan assets and commitments, requires judgement, in estimating the amount and timing of future cash flows and recoverability of collateral values while determining the impairment losses and assessing a significant increase in credit risk.

The Company's Expected Credit Loss (ECL) calculation is the output of a complex model with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL model that are considered accounting judgements and estimates include:

- The Company's criteria for assessing if there has been a significant increase in credit risk
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL model, including the various formulae and the choice of inputs
- Selection of forward-looking macroeconomic scenarios and their probability weights, to derive the economic inputs into the ECL model
- Management overlay used in circumstances where management judges that the existing inputs, assumptions and model techniques do not capture all the risk factors relevant to the Company's lending portfolios.

It has been the Company's policy to regularly review its model in the context of actual loss experience and adjust when necessary (refer note 51).

iii) Provisions and other contingent liabilities

The Company does not recognise a contingent liability but discloses its existence in the financial statements.

Contingent assets are neither recognised nor disclosed in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognised in the period in which the change occurs.

Contingent Liabilities in respect of show cause notices are considered only when converted into demands.

The reliable measure of the estimates and judgments pertaining to litigations and the regulatory proceedings in the ordinary course of the Company's business are disclosed as contingent liabilities.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

iv) Provision for income tax and deferred tax assets:

The Company uses estimates and judgements based on the relevant rulings in the areas of allocation of revenue, costs, allowances and disallowances which is exercised while determining the provision for income tax, including the amount expected to be paid / recoverd for uncertain tax positions. A deferred tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized. Accordingly, the Company exercises its judgement to reassess the carrying amount of deferred tax assets at the end of each reporting period.

v) Defined Benefit Plans:

The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

vi) Estimation uncertainty relating to the global health pandemic from COVID-19 and current Macro-economic scenario:

The COVID-19 outbreak and its effect on the economy has impacted our customers and our performance, though the pandemic's spread remains curtailed by the roll out of vaccines through out the world. The outbreak necessitated government to respond at unprecedented levels to protect public health, local economies and livelihoods. There remains a risk of subsequent waves of infection, as evidenced by the past variants of the virus.

Economic forecasts are still subject to a varied degree of uncertainty in the current environment. Limitations of forecasts and economic models require a greater reliance on management judgement in addressing both the error inherent in economic forecasts and in assessing associated ECL outcomes.

The calculation of ECL under Ind AS 109 involves significant judgements, assumptions and estimates. The level of estimation uncertainty and judgement is moderately low during financial year due to the curtailed impact of the pandemic spread, including significant judgements relating to:

- the selection and weighting of economic scenarios, given rapidly changing economic conditions in an unprecedented manner, uncertainty as to the effect of government and RBI support measures designed to alleviate adverse economic impacts, and a wider distribution of economic forecasts than before the pandemic. The key judgements are the length of time over which the economic effects of the pandemic will occur, the speed and shape of spread and recovery. The main factors include the effectiveness of pandemic containment measures, effectiveness of vaccines, and the emergence of new variants of the virus, plus a range of geopolitical uncertainties, which together may represent a high degree of estimation uncertainty, particularly in assessing worst case scenario;
- estimating the economic effects on the scenarios on ECL, though the historical trends now include a little history post the outbreak of the pandemic that can be reflected in the models to represent the effects of the economic changes of the severity and speed brought about by the COVID-19 outbreak. Modelled assumptions and linkages between economic factors and credit losses may underestimate or overestimate ECL in these conditions, and there is significant uncertainty in the estimation of parameters such as collateral values and loss severity; and
- the identification of customers experiencing significant increases in credit risk and credit impairment, particularly where those customers have accepted payment deferrals and other reliefs designed to address short-term liquidity issues given muted default experience to date.

Judgements (including overlays) in relation to credit impairments and the impact of macro-economic risks on the credit environment, in particular those arising from the COVID-19 pandemic, are continuously discussed throughout the year. The management focused on the key assumptions, methodologies and in-model and post model adjustments applied to provisions under Ind AS 109. The economic uncertainty and unprecedented conditions not experienced since the implementation of Ind AS 109 challenged the usefulness of model outputs. While the use of judgemental overlays and post-model adjustments should ideally be limited, their extensive use was deemed appropriate during the financial year, and might likely to continue to be required in future reporting periods.

As a result of government and bank support measures, significant credit deterioration has not yet occurred. This delay increases uncertainty on the timing of the stress and the realisation of defaults. Management has applied COVID-19 specific adjustments to modelled outputs to reflect the temporary nature of ongoing government support, the uncertainty in relation to the timing of stress and the degree to which economic consensus has yet captured the range of economic uncertainty. As a result, ECL is higher than would be the case if it were based on the forecast economic scenarios alone.

The Company has developed various accounting estimates in these Financial Statements based on forecasts of economic conditions which reflect expectations and assumptions as at 31 March 2022 about future events that the management believe are reasonable in the circumstances. There is a considerable degree of judgement involved in preparing forecasts. The underlying assumptions are also subject to uncertainties which are often outside the control of the Company. Accordingly, actual economic conditions are likely to be different from those forecast since anticipated events frequently do not occur as expected, and the effect of those differences may significantly impact accounting estimates included in these financial statements.

The significant accounting estimates impacted by these forecasts and associated uncertainties are predominantly related to expected credit losses, fair value measurement, and recoverable amount assessments of non-financial assets.

The impact of the COVID-19 pandemic on each of these accounting estimates is discussed further in the relevant note to these Financial Statements. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions (refer note 51).

vii) Going Concern

COVID 19 has an adverse impact on the functioning of the financial sector companies, notwithstanding this, the financial statements of the Company are prepared on a going concern basis.

Management is of the view that it is considered appropriate to prepare these financial statements on a going concern basis as the Company expects to generate sufficient cash flows from operating activities and unused lines of credit to meet its obligations in the foreseeable future (refer note 51 and note 51.3).

2.6 Revenue recognition:

a) Recognition of interest income on loans

Interest income is recognized in Statement of profit and loss using the effective interest method for all financial instruments measured at amortized cost, debt instruments measured at FVOCI and debt instruments designated at FVTPL. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument.

The calculation of the effective interest rate includes transaction costs and fees that are an integral part of the contract. Transaction costs include incremental costs that are directly attributable to the acquisition of financial asset.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is recorded as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortized through interest income in the Statement of profit and loss.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired, the Company calculates interest income by applying the effective interest rate to the net amortized cost of the financial asset. If the financial asset cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

Additional interest and interest on trade advances, are recognized when they become measurable and when it is not unreasonable to expect their ultimate collection. Income from bill discounting is recognized over the tenure of the instrument so as to provide a constant periodic rate of return.

b) Recognition of interest income on securitized loans

The Company securitizes certain pools of loan receivables in accorance with applicable RBI guidelines. The Company, being Originator of these loan receivables, also acts as Servicer with a responsibility of collection of receivables from its borrowers and depositing the same in Collection and Payout Account maintained by the SPV Trust for making scheduled payouts to the investors in Pass Though Certificates (PTCs) issued by the SPV Trust. These securitization transactions also requires the Company to provide for first loss credit enhancement in various forms, such as corporate guarantee, cash collateral, subscription to subordinated PTCs. as credit support in the event of shortfall in collections from underlying loan contracts. By virtue of existence of credit enhancement, the Company is exposed to credit risk, being the expected losses that will be incurred on the transferred loan receivables to the extent of the credit enhancement provided.

In view of the above, the Company has retained substantially all the risks and rewards of ownership of the financial asset and thereby does not meet the recognition criteria as set out in Ind AS 109. Consideration received in this transaction is presented as "Associated liability related to Securitization transactions" and the loan receivables securitized are continued to be reflected as loan assets. These loan assets are carried at amortized cost and the interest income is recognized by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired, the Company calculates interest income by applying the effective interest rate to the net amortized cost of the financial asset. If the financial asset cures and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

c) Subvention income

Subvention income received from manufacturer / dealers at the inception of the loan contracts which is directly attributable to individual loan contracts in respect of vehicles financed is recognized in the Statement of profit and loss using the effective interest method over the tenor of such loan contracts measured at amortized cost. In case of subvention income which is subject to confirmation from manufacturer and received later than inception date is recognized in the Statement of profit and loss using straight line method over the tenor of such loan contracts.

d) Rental Income

Income from operating leases is recognized in the Statement of profit and loss on a straight-line basis over the lease term. In certain lease arrangements, variable rental charges are also recognized over and above minimum commitment charges based on usage pattern and make/model of the asset.

e) Fee and commission income :

Fee based income are recognized when they become measurable and when it is probable to expect their ultimate collection.

Commission and brokerage income earned for the services rendered are recognized as and when they are due.

f) Dividend and interest income on investments:

- Dividends are recognized in Statement of profit and loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company and the amount of the dividend can be measured reliably.
- Interest income from investments is recognized when it is certain that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

2.7 Property, Plant and Equipments (PPE)

PPE are stated at cost of acquisition (including incidental expenses), less accumulated depreciation and accumulated impairment loss, if any. Cost of acquisition consists of purchase price or construction cost which is the amount paid & the fair value of any other consideration issued, if any, to acquire the asset.

Assets held for sale or disposals are stated at the lower of their carrying amount & fair value less costs to sell.

Advances paid towards the acquisition of PPE outstanding at each balance sheet date are disclosed separately under other non-financial assets. Capital work in progress comprises the cost of PPE that are not ready for its intended use at the reporting date. Capital work-in-progress is stated at cost, net of impairment loss, if any.

Subsequent expenditure is recognized as an increase in the carrying amount of the asset when it is probable that future economic benefits deriving from the cost incurred will flow to the enterprise and the cost of the item can be measured.

Depreciation on PPE is provided on straight-line basis in accordance with the useful lives specified in Schedule II to the Companies Act, 2013 on a pro-rata basis. Depreciation methods, useful lives and residual values are reviewed in each financial year, and changes, if any, are accounted for prospectively.

In accordance with Ind AS 116 - Leases, the Right-Of-Use assets (Leasehold premises) are initially recognized at cost which comprises of initial amount of lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. These are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-Of-Use assets (Leasehold premises) are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The estimated useful lives used for computation of depreciation are as follows:

Buildings	60 years
Computers and Data processing units	3 to 6 years
Furniture and fixtures	10 years
Office equipments	5 years
Vehicles	8 years and 10 years
Vehicles under lease	Over the lease term of the respective agreements
Right-Of-Use assets (Leasehold premises)	Over the lease term of the respective agreements

Assets costing less than Rs.5000/- are fully depreciated in the period of purchase.

Vehicles provided to employees as part of Cost-To-Company (CTC) scheme are depreciated using estimated useful life of 4 years.

PPE is derecognized on disposal or when no future economic benefits are expected from its use. Assets retired from active use and held for disposal are generally stated at the lower of their carrying amount & fair value less costs to sell. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the net carrying amount of the asset) is recognized in other income / netted off from any loss on disposal in the Statement of profit and loss in the year the asset is derecognized.

2.8 Intangible assets:

Intangible assets are stated at cost less accumulated amortization and accumulated impairment loss, if any.

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in profit or loss as incurred.

Intangible assets comprises of computer software. The amortization period is lower of license period or 36 months which is based on management's estimates of useful life. Amortization is calculated using the straight line method to write down the cost of intangible assets over their amortization period.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in the Statement of Profit and Loss when the asset is derecognised.

2.9 Investments in subsidiaries, associate and joint ventures:

Investments in subsidiaries, associate and joint ventures are measured at cost less accumulated impairment, if any.

2.10 Foreign exchange transactions and translations:

a) Initial recognition

Transactions in foreign currencies are recognized at the prevailing exchange rates between the reporting currency and a foreign currency on the transaction date.

b) Conversion

Transactions in foreign currencies are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognized in Statement of profit and loss.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the Statement of profit and loss on a net basis.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Thus, translation differences on non- monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognized in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as FVOCI are recognized in other comprehensive income.

Non-monetary items that are measured at historical cost in foreign currency are not retranslated at reporting date.

2.11 Financial instruments:

a) Recognition and initial measurement -

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognized immediately in Statement of profit and loss.

b) Classification and Subsequent measurement of financial assets

On initial recognition, a financial asset is classified as measured at

- Amortized cost;
- FVOCI - debt instruments;
- FVOCI - equity instruments;
- FVTPL

Amortized cost -

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios being the level at which they are managed. The financial asset is held with the objective to hold financial asset in order to collect contractual cash flows as per the contractual terms that give rise on specified dates to cash flows that are solely payment of principal and interest ('SPPI') on the principal amount outstanding. Accordingly, the Company measures Bank balances, Loans, Trade receivables and other financial instruments that meet the SPPI criterion at amortized cost.

FVOCI - debt instruments -

The Company measures its debt instruments at FVOCI when the instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets; and the contractual terms of the financial asset meet the SPPI test.

FVOCI - equity instruments -

The Company subsequently measures all equity investments at fair value through profit or loss, unless the Company's management has elected to classify irrevocably some of its equity instruments at FVOCI, when such instruments meet the definition of Equity under Ind AS 32 Financial Instruments and are not held for trading.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in other comprehensive income. This cumulative gain or loss is not reclassified to statement of profit and loss on disposal of such instruments. Investments representing equity interest in subsidiary and associate are carried at cost less any provision for impairment.

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

All financial assets not classified as measured at amortized cost or FVOCI are measured at FVTPL. This includes all derivative financial assets.

Subsequent measurement of financial assets

Financial assets at amortized cost are subsequently measured at amortized cost using effective interest method. The amortized cost is reduced by impairment losses. Interest income, and impairment provisions are recognized in Statement of profit and loss. Any gain and loss on derecognition is recognized in Statement of profit and loss.

Debt investment at FVOCI are subsequently measured at fair value. Interest income at coupon rate and impairment provision, if any, are recognized in Statement of profit and loss. Net gains or losses on fair valuation are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to Statement of profit and loss.

For equity investments, the Company makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to Statement of profit and loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for strategic purpose. Dividend income received on such equity investments are recognized in Statement of profit and loss.

Equity investments that are not designated as measured at FVOCI are designated as measured at FVTPL and subsequent changes in fair value are recognized in Statement of profit and loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in Statement of profit and loss.

c) Financial liabilities and equity instruments:

Classification as debt or equity -

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments -

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by Company are recognized at the proceeds received. Transaction costs of an equity transaction are recognized as a deduction from equity.

Financial liabilities -

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in Statement of profit and loss. Any gain or loss on derecognition is also recognized in Statement of profit and loss.

d) Financial guarantee contracts:

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by a Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109 - Financial Instruments; and
- the amount initially recognized less, when appropriate, the cumulative amount of income recognized in accordance with the principles of Ind AS 115 - Revenue from Contracts with Customers.

e) Derecognition

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognized on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial liabilities

A financial liability is derecognized when the obligation in respect of the liability is discharged, cancelled or expires. The difference between the carrying value of the financial liability and the consideration paid is recognized in Statement of profit and loss.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value.

f) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

g) Derivative financial instruments

The Company enters into derivative financial instruments, primarily foreign exchange forward contracts, currency swaps and interest rate swaps, to manage its borrowing exposure to foreign exchange and interest rate risks.

Derivatives embedded in non-derivative host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

Derivatives are initially recognized at fair value at the date the contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain/loss is recognized in Statement of profit and loss.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when fair value is negative.

h) Impairment of financial instruments

Equity instruments are not subject to impairment under Ind AS 109.

The Company recognizes lifetime expected credit losses (ECL) when there has been a significant increase in credit risk since initial recognition and when the financial instrument is credit impaired. If the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 month ECL. The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition. 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward-looking information. (refer note 51).

Management overlay is used to adjust the ECL allowance in circumstances where management judges that the existing inputs, assumptions and model techniques do not capture all the risk factors relevant to the Company's lending portfolios. Emerging local or global macroeconomic, micro economic or political events, and natural disasters that are not incorporated into the current parameters, risk ratings, or forward looking information are examples of such circumstances. The use of management overlay may impact the amount of ECL recognized.

The Company recognizes lifetime ECL for trade advances, lease and other receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognized in OCI and carrying amount of the financial asset is not reduced in the balance sheet.

Loan contract renegotiation and modifications:

Loans are identified as renegotiated and classified as credit impaired when we modify the contractual payment terms due to significant credit distress of the borrower. Renegotiated loans remain classified as credit impaired until there is sufficient evidence to demonstrate a significant reduction in the risk of non-payment of future cash flows and retain the designation of renegotiated until maturity or derecognition.

A loan that is renegotiated is derecognised if the existing agreement is cancelled and a new agreement is made on substantially different terms, or if the terms of an existing agreement are modified such that the renegotiated loan is a substantially different financial instrument. Any new loans that arise following derecognition events in these circumstances are considered to be originated credit impaired financial asset and will continue to be disclosed as renegotiated loans.

Other than originated credit-impaired loans, all other modified loans could be transferred out of stage 3 if they no longer exhibit any evidence of being credit impaired and, in the case of renegotiated loans, there is sufficient evidence to demonstrate a significant reduction in the risk of non-payment of future cash flows over the minimum observation period, and there are no other indicators of impairment. These loans could be transferred to stage 1 or 2 based on the risk assessment mechanism by comparing the risk of a default occurring at the reporting date (based on the modified contractual terms) and the risk of a default occurring at initial recognition (based on the original, unmodified contractual terms). Any amount written off as a result of the modification of contractual terms would not be reversed.

Loan modifications that are not identified as renegotiated are considered to be commercial restructuring. Where a commercial restructuring results in a modification (whether legalised through an amendment to the existing terms or the issuance of a new loan contract) such that the Company's rights to the cash flows under the original contract have expired, the old loan is derecognised and the new loan is recognised at fair value. The rights to cash flows are generally considered to have expired if the commercial restructure is at market rates and no payment-related concession has been provided. Mandatory and general offer loan modifications that are not borrower-specific, for example market-wide customer relief programmes announced by the Regulator or other statutory body, have not been classified as renegotiated loans and so have not resulted in derecognition, but their stage allocation is determined considering all available and supportable information under our ECL impairment policy.

i) Collateral repossessed -

Based on operational requirements, the Company's policy is to determine whether a repossessed asset can be best used for its internal operations or should be sold. Assets determined to be useful for the internal operations are transferred to their relevant asset category for capitalization at their fair market value.

In the normal course of business, the Company does not physically repossess assets/properties in its loan portfolio, but engages external agents to repossess and recover funds, generally by selling at auction, to settle outstanding debt. Any surplus funds are returned to the customers/ obligors. As a result of this practice, the assets / properties under legal repossession processes are not separately recorded on the balance sheet.

j) Write offs -

The gross carrying amount of a financial asset is written off when there is no realistic prospect of further recovery. This is generally the case when the Company determines that the debtor/borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made from written off assets are netted off against the amount of financial assets written off during the year under "Bad debts and write offs" forming part of "Impairment on financial instruments" in the Statement of profit and loss.

2.12 Employee benefits:

a) Short-term employee benefits

All employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, bonus and ex-gratia. Short-term employee benefit obligations are measured on an undiscounted basis and these are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

b) Contribution to provident fund, Superannuation fund, ESIC and National Pension Scheme -

The defined contribution plans i.e. provident fund (administered through Regional Provident Fund Office), superannuation fund and employee state insurance corporation and National Pension Scheme are post-employment benefit plans under which a Company pays fixed contributions and will have no legal and constructive obligation to pay further amounts beyond its contributions. The Superannuation scheme, a defined contribution scheme, administered by Life Insurance Corporation of India and the Company has no obligation to the scheme beyond its contributions.

Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Company's contribution paid/payable during the year to provident fund, Superannuation scheme, ESIC and National Pension Scheme is recognized in the Statement of profit and loss.

c) Gratuity -

The Company's liability towards gratuity scheme is determined by independent actuaries, using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation. Past services are recognized at the earlier of the plan amendment / curtailment and recognition of related restructuring costs/termination benefits.

The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in the Statement of Profit and Loss.

When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contribution to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement gains/losses -

Remeasurement of defined benefit plans, comprising of actuarial gains / losses, return on plan assets excluding interest income are recognized immediately in the balance sheet with corresponding debit or credit to Other Comprehensive Income (OCI). Remeasurements are not reclassified to Statement of profit and loss in the subsequent period.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognised immediately in Statement of profit and Loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Remeasurement gains or losses on long-term compensated absences that are classified as other long-term benefits are recognized in Statement of profit and loss.

d) Leave encashment/compensated absences/sick leave -

The Company provides for the encashment / availment of leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment / availment. The liability is provided based on the number of days of unutilized leave at each balance sheet date on the basis of an independent actuarial valuation.

e) Employee stock options:

Equity-settled share-based payments to employees are recognized as an expense at the fair value of equity stock options at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the graded vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

2.13 Finance costs:

Finance costs include interest expense computed by applying the effective interest rate on respective financial instruments measured at Amortized cost. Financial instruments include bank term loans, non-convertible debentures, fixed deposits mobilized, commercial papers, subordinated debts and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost. Finance costs are charged to the Statement of profit and loss.

Interest expense on lease liabilities computed by applying the Company's weighted average incremental borrowing rate has been included under finance costs.

2.14 Taxation - Current and deferred tax:

Income tax expense comprises of current tax and deferred tax. It is recognized in Statement of profit and loss except to the extent that it relates to an item recognized directly in equity or in other comprehensive income.

a) Current tax:

Current tax comprises amount of tax payable in respect of the taxable income or loss for the year determined in accordance with Income Tax Act, 1961 and any adjustment to the tax payable or receivable in respect of previous years. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods.

Current tax assets and liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

Current tax is recognised in statement of profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current tax is also recognised in other comprehensive income or directly in equity respectively.

The management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

b) Deferred tax:

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequence that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary difference could be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are offset only if there is a legally enforceable right to set off current tax assets against current tax liabilities & the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax liabilities on a net basis or simultaneously.

2.15 Securities issue expenses:

Expenses incurred in connection with fresh issue of Share capital are adjusted against Securities premium.

2.16 Impairment of assets other than financial assets:

The Company reviews the carrying amounts of its tangible (including assets given on operating lease) and intangible assets at the end of each reporting period, to determine whether there is any indication that those assets have impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Recoverable amount is determined for an individual asset, unless the asset does not generate cash flows that are largely independent of those from other assets or group of assets.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount such that the increased carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognized for the asset (or cash-generating unit) in prior years. The reversal of an impairment loss is recognized in Statement of profit and loss.

2.17 Provisions:

Provisions are recognized when there is a present obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed. Provisions are not recognised for future operating losses.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

2.18 Leases:

The Company as a lessee -

As a lessee, the Company's lease asset class primarily consist of buildings or part thereof taken on lease for office premises, certain IT equipments and general purpose office equipements used for operating activities. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. The carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain hat they will be exercised.

The right-of-use assets are initially recognized at cost which comprises of initial amount of lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. These are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments that are not paid at the commencement date, discounted using the Company's incremental average borrowing rate. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

In the Balance Sheet, ROU assets have been included in property, plant and equipment and Lease liabilities have been included in Other financial liabilities and the principal portion of lease payments have been classified as financing cash flows. The Company has used a single discount rate to a portfolio of leases with similar characteristics.

Where the Company is the lessor -

At the inception of the lease, the Company classifies each of its leases as either a finance lease or an operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

The Company has given certain vehicles on lease where it has substantially retained the risks and rewards of ownership and hence these are classified as operating leases. These assets given on operating lease are included in PPE. Lease income is recognized in the Statement of profit and loss as per contractual rental unless another systematic basis is more representative of the time pattern in which the benefit derived from the leased asset is diminished. Costs including depreciation are recognized as an expense in the Statement of profit and loss. Initial direct costs are recognized immediately in Statement of profit and loss.

In accordance with Ind AS 116, Leases, the financial information have been presented in the following manner.

a) ROU assets and lease liabilities have been included within the line items "Property, plant and equipment" and "Other financial liabilities" respectively in the Balance sheet;

b) Interest expenses on the lease liability and depreciation charge for the right-to-use asset have been included within the line items "Finance costs" and "Depreciation, amortization and impairment" respectively in the statement of profit or loss;

c) Short-term lease payments and payments for leases of low-value assets, where exemption as permitted under this standard is availed, have been recognized as expense on a straight line basis over the lease term in the statement of profit or loss.

d) Cash payments for the principal of the lease liability have been presented within "financing activities" in the statement of cash flows;

Further, on application of Ind AS 116 effective from 1 April 2019, the nature of expense in the Statement of profit or loss has changed from lease rent in previous periods to depreciation cost for the ROU asset and finance cost for interest on lease liability.

The disclosures as required in accordance with Ind AS 116, Leases, are set out under note no. 42.

2.19 Cash and cash equivalents:

Cash and cash equivalents in the balance sheet comprise cash on hand, cheques and drafts on hand, balance with banks in current accounts and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

2.20 Earnings Per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, sub-division of shares etc. that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders is divided by the weighted average number of equity shares outstanding during the period, considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year.

2.21 Dividend:

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.22 New standards or amendments to the existing standards and other pronouncements:

Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On 23 March 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, applicable from 1 April 2022, as below:

Ind AS 103 – Reference to Conceptual Framework

The amendments specify that to qualify for recognition as part of applying the acquisition method, the identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Conceptual Framework for Financial Reporting under Indian Accounting Standards (Conceptual Framework) issued by the Institute of Chartered Accountants of India at the acquisition date. These changes do not significantly change the requirements of Ind AS 103. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 16 – Proceeds before intended use

The amendments mainly prohibit an entity from deducting from the cost of Property, Plant and Equipments amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, an entity will recognise such sales proceeds and related cost in profit or loss. The Company does not expect the amendments to have any significant impact in its recognition of its property, plant and equipment in its financial statements.

Ind AS 37 – Onerous Contracts - Costs of Fulfilling a Contract

The amendments specify that that the 'cost of fulfilling' a contract comprises the 'costs that relate directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts. The amendment is essentially a clarification and the Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 109 – Annual Improvements to Ind AS (2021)

The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The Company does not expect the amendment to have any significant impact in its financial statements.

Ind AS 106 – Annual Improvements to Ind AS (2021)

The amendments remove the illustration of the reimbursement of leasehold improvements by the lessor in order to resolve any potential confusion regarding the treatment of lease incentives that might arise because of how lease incentives were described in that illustration. The Company does not expect the amendment to have any significant impact in its financial statements.
