INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
TRRINGO.COM LIMITED

Report on the Ind AS Financial Statements

1. We have audited the accompanying Ind AS financial statements of **Trringo. Com Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2017, the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position and financial performance of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act.

3. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

4. The Company's management is responsible for establishing and maintaining internal financial controls. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

5. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit and to express an opinion on the Company's internal financial controls over financial reporting based on our audit.

6. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

7. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act and the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement and whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

8. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Ind AS financial statements and adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

9. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements and the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

10. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

    (a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(c) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

11. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

12. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2017, and its loss for the year ended on that date.

Report on other Legal and Regulatory Requirements

13. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in term of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure A a statement on the matters specified in the paragraphs 3 and 4 of the Order.

14. As required by section 143(3) of the Act, we report that:

   a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

   b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

   c) the Balance Sheet, the Statement of Profit and Loss and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;

   d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act;

   e) On the basis of written representations received from the directors as on March 31, 2017, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017, from being appointed as a director in terms of Section 164(2) of the Act.

   f) In our opinion considering nature of business, size of operation and organizational structure of the entity, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as on March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

   g) With respect to the other matters included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended) in our opinion and to our best of our information and according to the explanations given to us:

      i. The Company does not have any pending litigations which would impact its financial position.

      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31ST MARCH, 2017

Corporate Information

Trringo.com Limited is a 100 % subsidiary of Mahindra and Mahindra Limited and incorporated on 23rd May, 2016 under the provisions of the Companies Act, 2013 (CIN:U01409MH2016PLC281449). The Company is in the business of organized farm equipment rentals through a franchisee based model.

1. Significant accounting policies

1.1 Statement of compliance

The financial statements of the Company have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015.

1.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis,presented in Indian rupees and rounded off to nearest lacs.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

1.3 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Sale of Services

Revenue from the rental services is recognised when the service is delivered and completed, all the following conditions are satisfied:

- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the services rendered;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

1.4 Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding.

1.5 Employee benefits

1.5.1 Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

1.5.2 Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

1.6 Taxation

Deferred tax assets and liabilities are recognised for future tax consequences attributable to the timing differences between taxable income and accounting income that are capable of reversal in one or more subsequent periods and are measured using tax rates enacted or substantively enacted as at the Balance Sheet date. Deferred Tax assets are not recognised unless, in the management judgment, there is virtual certainty that sufficient future taxable income will be available against which such deferred tax assets can be realized. The carrying amount of Deferred Tax is reviewed at each Balance Sheet date.

1.7 Property, plant and equipment

Furniture & Fixtures, equipment and Vehicles are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31ST MARCH, 2017

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

1.8 Intangible assets

1.8.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

1.8.2 Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

1.8.3 Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows:

IT Software	3 years

1.9 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

1.10 Financial instruments

Financial assets and financial liabilities are recognised when a Company entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

1.11 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

1.11.1 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables, other contractual rights to receive cash and other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls).

1.11.2 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

1.12 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

1.12.1 Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

1.12.2 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

NOTES TO FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31ST MARCH, 2017

2. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Capital management

The company's capital management objectives are:

– to ensure the company's ability to continue as a going concern

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Stockholders´ Meeting of MAHINDRA MÉXICO, S. DE R.L. DE C. V. (A 99% WHOLLY OWNED SUBSIDIARY OF MAHINDRA USA INC.)

Report on the Audit of the pre-operating stage financial statements.

Opinion.

We have audited the pre-operating stage financial statements of Mahindra México, S. de R. L. de C. V., (the Company), which comprise the pre-operating stage statement of financial position as at March 31, 2017, and the pre-operating stage statement of comprehensive income, pre-operating stage statement of changes in shareholders deficit and statement of cash flows for the pre-operating stage period from August 8, 2016 (incorporation date), to March 31, 2017 and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying pre-operating stage financial statements present fairly, in all material respects, the financial position of **MAHINDRA MÉXICO, S. DE R.L. DE C. V.**, as at March 31, 2017, and its financial performance and its cash flows for the period from August 8, 2016 (incorporation date), to March 31, 2017 then ended in accordance with Mexican Financial Reporting Standards (MFRSs).

Basis for Opinion.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the pre-operating stage Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants (IESBA Code)* together with the ethical requirements that are relevant to our audit of the financial statements in Mexico and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements.

Management is responsible for the preparation and fair presentation of the financial statements in accordance with MFRSs and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the pre-operating stage financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern including the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements.

Our objectives are to obtain reasonable assurance about whether the pre-operating stage financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the pre-operating stage financial statements is included in Appendix I of this auditor's report. Such description, forms part of our Independent auditor's report.

Other Matters.

As addressed in the pre-operating stage financial statements as of March 31, 2017 and for the period from August 8, 2016 (incorporation date) to March 31, 2017 and has not fulfill the main activities for which it has been stablished, therefore is considered a pre-operating stage company.

For consolidation purposes and for the convenience of the users in India a convenient translation of the financial statements as of March 31, 2017 and for the period from August 8, 2016 to March 31, 2017 has been performed. A convenient translation is used for practical purposes when an entity displays its financial statements or other financial information in a currency that is different from either its functional currency or its presentation currency simply by translating all amounts at end-of-period exchange rates. A result of making a convenience translation is that the resulting financial information does not comply with all Generally Accepted Accounting Principles. Amounts in Mexican pesos may not represent its current value in Indian rupees.

APPENDIX I

Further description of Auditor's Responsibilities for the Audit of the Pre-Operating Stage Financial Statements

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the pre-operating stage financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITORS' REPORT

Dear Sirs. Director
Mahindra do Brasil Industrial Ltda.
Dois Irmãos – RS – Brazil

Opinion

We have audited the individual financial statements of **Mahindra do Brasil Industrial Ltda.**, which comprise the balance sheet as of March 31, 2017 and the related income statements, statements of changes in stockholders' equity and cash flows for the year then ended, as well as the summary of significant accounting practices and other explanatory notes.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of **Mahindra do Brasil Industrial Ltda**. on March 31, 2017, the performance of its operations and its cash flows for the year then ended, in accordance with accounting practices adopted in Brazil.

Basis for opinion

Our audit was conducted in accordance with Brazilian and international auditing standards. Our responsibilities, in accordance with such standards, are described in the following section entitled "Auditor's Responsibilities for the Audit of Financial Statements." We are independent of the Company, in accordance with the relevant ethical principles set forth in the Professional Code of Ethics of the Accountant and the professional standards issued by the Federal Accounting Council, and we comply with the other ethical responsibilities in accordance with these standards. We believe that the audit evidence we have obtained is sufficient and appropriate to substantiate our opinion.

Emphasis

As mentioned in note nº 20, on march 31, 2017 the Company has deferred tax credits arising from equity valuation, income tax loss carry forwards and negative social contribution bases in the amount of IRN 79,250 thousand (Indian Rupees) and R$ 3.823 thousand (Brazilian Currency), which, according to studies prepared by management, it is estimated that Will be recovered within a period of up to 10 years, based on the improvement of the Company's operating and financial margin indicators to be conducted by management. The realization of these credits depends on the fulfillment of these projections and, at this moment, we can't affirm that the balances of these assets recorded in the financial statements as of march 31, 2017 will be realized by the totals presented, as they depend on the success and monitoring of the realization plan Developed by the Administration. The accounting practices establish that the maintenance of this asset depends, among other aspects, on the generation of future taxable profits for the offset of these credits. The financial statements do not include any adjustments relating to the realization and classification of asset values or to the amounts and classification of liabilities that would be required in case of failure of the measures currently in progress by management. Our opinion has no qualifications related to this matter.

Another matters

We would like to point out that the Company started operations in October 2016, which is why it is not presenting the financial statements in a comparative manner.

Management and governance responsibilities of the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices adopted in Brazil and for the internal controls that it has determined to be necessary to enable the preparation of financial statements free of material misstatement, whether caused by fraud or error.

In preparing the financial statements, management is responsible for evaluating the Company's ability to continue operating, disclosing, when applicable, matters related to its operational continuity and the use of this accounting basis in the preparation of the financial statements, unless Management intends to liquidate the Company or cease its operations, or has no realistic alternative to avoid closing the operations.

Those responsible for the governance of the Company are those responsible for supervising the process of preparing the financial statements.

Responsibilities of the auditor for the audit of the financial statements

Our objectives are to obtain reasonable assurance that the financial statements, taken as a whole, are free from material misstatement, whether caused by fraud or error, and issue an audit report containing our opinion. Reasonable security is a high level of security, but not a guarantee that the audit conducted in accordance with Brazilian and international auditing standards will always detect any relevant material misstatements. Distortions may be due to fraud or error and are considered relevant when, individually or jointly, they can influence, from a reasonable perspective, the economic decisions of the users taken based on the referred financial statements.

As part of the audit conducted in accordance with Brazilian and international auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. Besides that:

- We identify and evaluate the risks of material misstatement in the financial statements, whether caused by fraud or error, we plan and perform audit procedures in response to such risks, and we obtain audit evidence appropriate and sufficient to substantiate our opinion. The risk of not detecting material misstatement resulting from fraud is greater than that of error, since fraud may involve circumvention of internal controls, collusion, falsification, omission or false intentional representations.
- We obtain an understanding of the internal controls relevant to the audit to plan audit procedures appropriate

to the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls.

- We evaluate the adequacy of the accounting policies used and the reasonableness of the accounting estimates and respective disclosures made by management.
- We conclude on the adequacy of the management's use of the accounting basis for operational continuity and, based on the audit evidence obtained, whether there is a material uncertainty regarding events or conditions that may raise significant doubt regarding the capacity for operational continuity of the Company. If we conclude that there is material uncertainty, we should draw attention in our audit report to the respective disclosures in the financial statements or include any change in our opinion if the disclosures are inadequate. Our findings are based on the audit evidence obtained up to the date of our report. However, future events or conditions may cause the Company to no longer be in operational continuity.
- We evaluate the overall presentation, structure and content of financial statements, including disclosures, and whether the financial statements represent the related transactions and events in a manner consistent with the appropriate presentation objective.

We communicate with those responsible for governance regarding, inter alia, the planned scope, timing of the audit and significant audit findings, including any significant weaknesses in the internal controls we have identified during our work.

1. Operational Context

Mahindra do Brasil Industrial Ltda is a Brazilian company headquartered in Sao Paulo, SP, at Rua Desembargador do Vale, 800, Perdizes, with a branch located in Dois Irmaos, RS, at Rua 10 de Setembro, 1097, Downtown. The company was incorporated in 2016.

The company is primarily involved in the assembly of tractors, and the import and sale of its parts and accessories.

Its constitution took place in January 2016, but the company only started its operational activities on October 2016, when it acquired the tractor operation located in the city of Dois Irmãos - RS, which until then produced the Mahindra tractors under a licensing agreement.

Because it started operating in 2016, October, there is no basis for comparison with the prior year. For these financial statements, the period beginning on April 1 and ending on March 31 of each year was considered as the fiscal year.

The company reported a loss in the amount of R$ 2,948 (Brazilian currency) on March 31, 2017. The parent company is following the results and operations of the company and estimates that from 2019 it will present operating profit.

2. Summary of major accounting policies

The main accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied in all years presented, unless otherwise stated.

These financial statements were approved by the board of directors on March 31, 2017.

2.1 Basis for preparation

The preparation of financial statements requires the use of certain critical accounting estimates and also the exercise of judgment by management in the process of applying the Company's accounting policies. Those areas that require a higher level of judgment and are more complex, as well as the areas in which assumptions and estimates are significant for the financial statements, are disclosed in Note 2.15.

(a) Financial Statements

The financial statements were prepared in accordance with accounting practices adopted in Brazil, including pronouncements, guidelines and interpretations issued by the Accounting Pronouncements Committee (CPC) and approved by the Federal Accounting Council (CFC).

The statement of comprehensive income is not being presented because there are no amounts to be presented under this concept, ie, the result of the year is equal to the total comprehensive income.

2.2 Exchange of foreign currency

Functional currency and presentation currency

The items included in the Company's financial statements are measured using the currency of the principal economic environment in which the Company operates ("the functional currency"). The financial statements are prepared in Reais (BRL), which is the Company's functional currency, and presented in Indian rupees (INR). The tax currency conversion used was IRN 20,73 per BRL 1,00.

Foreign Currency transactions

Transactions in foreign currency are translated to the Brazilian Real by the exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate calculated on that date. Exchange rate gain or loss on monetary items is the difference between the amortized cost of the functional currency at the beginning of the period, adjusted for interest and actual payments during the period, and the amortized cost in foreign currency at the exchange rate at the end of the reporting period. Foreign currency differences resulting from the conversion are recognized in profit or loss.

2.3 Basis of Income Calculation

The results of operations are determined in accordance with the accrual basis.

2.4 Cash and Cash equivalents

They are comprised of financial resources held in cash, banks account movement and financial investments. Short-term investments are valued at cost, plus income earned through the balance sheet date. These financial instruments are used for trading and are recorded at realizable values (Note 4).

2.5 Financial Assets and Liabilities

Classification and measurement

The Company classifies its financial assets under the following categories: loans and receivables are measured at fair value through profit or loss. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets in the initial recognition.

Loans and receivables

Included in this category are receivables that are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with a maturity of more than 12 months after the balance sheet data base (these are classified in noncurrent assets). The Company's loans and receivables comprise loans, trade accounts receivable, other accounts receivable and cash and cash equivalents, other than short-term investments. Loans and receivables are recorded at amortized cost using the effective interest rate method.

Financial assets measured at fair value through profit or loss

Financial assets measured at fair value through profit or loss are financial assets held for active and frequent trading. Assets in this category are classified in current assets. Gains or losses arising from changes in the fair value of financial assets measured at fair value through profit or loss are presented in the statement of operations under "Financial income" in the period in which they occur. They refer primarily to short-term financial investments.

2.6 Non-derivative financial liabilities

The Company recognizes debt securities issued and subordinated liabilities initially on the date they are originated. All other financial liabilities are initially recognized on the trade date on which the Company becomes a party to the contractual provisions of the instrument. The Company lowers a financial liability when it has its contractual obligations withdrawn, canceled or expired.

Financial assets and liabilities are offset and the net amount is presented in the balance sheet only when the Company has the legal right to offset the amounts and intends to settle on a net basis or to realize the asset and pay the liability simultaneously. The Company has the following non-derivative financial liabilities: loans with related parties, suppliers and other accounts payable.

These financial liabilities are initially recognized at fair value plus any attributable transaction costs. After initial recognition, these financial liabilities are measured at amortized cost using the effective interest method.

2.7 Inventory

The cost of inventories is based on the weighted average principle and includes expenses incurred in the acquisition of inventories, production and processing costs and other costs incurred in bringing them to their existing locations and conditions.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and selling expenses.

2.8 Fixed Assets

(a) Classification and measurement

The Company opted to revalue the fixed assets at deemed cost on October 31, 2016. The effects of attributed cost decreased fixed assets and offset against shareholders' equity, net of tax effects (Note 9).

After the transition of CPCs, fixed asset items are measured at historical cost of acquisition or construction, less accumulated depreciation and accumulated impairment losses.

Cost includes expenses that are directly attributable to the acquisition of an asset. Purchased software that is an integral part of the functionality of an equipment is capitalized as part of that equipment.

When parts of an item of fixed assets have different useful lives, they are recorded as individual items (principal components) of fixed assets.

Gains and losses on the sale of an item of fixed assets are determined by comparing the proceeds from the sale with the book value of fixed asset and are recognized net of other income in the statement of income.

(b) Subsequent Cost

The replacement cost of a component of fixed asset is recognized in the carrying amount of the item if it is probable that the economic benefits incorporated into the component will flow to the Company and that its cost can be measured reliably. The carrying amount of the component that has been replaced by another is decreased. The maintenance costs of fixed assets are recognized in the income statement as incurred.

(c) Depreciation

Depreciation is recognized in the statement of income based on the straight-line method with respect to the estimated useful lives of each part of an item of fixed assets, since this method is the one that most closely reflects the consumption pattern of future economic benefits incorporated in the asset. Land is not depreciated.

Depreciation methods, useful lives and residual values are reviewed at each year-end and any adjustments are recognized as changes in accounting estimates.

2.9 Impairment

The Company analyzes the existence of evidence that the carrying amount of an asset will not be recovered. If evidence is identified, the Company estimates the recoverable amount of the asset. The recoverable value of an asset is the greater of: (a) its fair value less costs that would be incurred to sell it, and (b) its value in use. The value in use is equivalent to the discounted cash flows (before taxes) derived from the continuous use of the asset until the end of its useful life.

When the carrying amount of the asset exceeds its recoverable amount, the Company recognizes a reduction in the carrying amount of this asset (impairment). For the assets recorded at cost, the impairment is recorded in the income statement for the period.

If the recoverable amount of an asset is not determined individually, the recoverable value of the cash-generating unit to which the asset belongs.

2.10 Provisions

A provision is recognized based on a past event and whether the Company has a legal or constructive obligation that can be reliably estimated and it is probable that an economic resource will be required to settle the obligation. Provisions are cleared by discounting expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and liabilities specific risks.

Financial liabilities are classified as financial liabilities at fair value through profit or loss, as the case may be. The Company determines the classification of its financial liabilities at the time of its initial recognition. The Company's financial liabilities include accounts payable to suppliers, tax and labor liabilities.

2.11 Paid-in Capital

The shares are all paid up and classified as owners' equity.

The mandatory minimum dividends, when existing, as defined in the bylaws are recognized as liabilities.

2.12 Operational Revenues

Operating income from the sale of goods in the ordinary course of business is measured at the fair value of the consideration received or receivable. Operating income is recognized when there is convincing evidence that: (i) the most significant risks and benefits inherent in the ownership of the assets have been transferred to the buyer, which in the case of the Company is at the time the products are delivered to their customers; (ii) it is probable that the financial economic benefits will flow to the Company; (iii) that the associated costs and possible return of goods can be estimated reliably, (iv) that there is no continuous involvement with the goods sold, (v) and that the value Of operating revenue can be measured reliably. If discounts are likely to be granted and the amount can be measured reliably, then the discount is recognized as a reduction in operating revenue as sales are recognized.

2.13 Financial incomes and expenses

Financial income basically comprises interest income on funds invested and gains from exchange variation. Financial expenses include interest expenses on related party loans and loans and financing, as well as the respective exchange rate variations.

2.14 Income Tax and Social Contribution

Current and deferred income tax and social contribution are calculated based on the rates of 15%, plus an additional 10% on taxable income in excess of R$ 240 (Brazilian currency) for income tax and 9% on taxable income for social contribution. Their calculation considers the offsetting of tax losses and negative basis of social contribution, limited to 30% of the actual profit.

The Company has not recorded deferred income tax and social contribution assets on tax loss and negative basis due to the absence of a history of recovery of these assets.

2.15 Critical accounting estimates and judgments

Accounting estimates and judgments are continuously evaluated and are based on historical experience and other factors, including expectations of future events, which are considered reasonable for the circumstances.

Based on assumptions, the Company makes estimates regarding the future. By definition, the resulting accounting estimates will rarely equal their actual results. Estimates and assumptions that present a significant risk, with a probability of causing a material adjustment in the carrying amounts of assets and liabilities for the next fiscal year, are contemplated below:

3. Financial Risk Management

(a) Overview

The Company is exposed to the following risks arising from the use of financial instruments:

- Credit risks
- Liquidity risks
- Market risks
- Currency risk
- Operational risks

We present information on the Company's exposure to each of the risks mentioned above, the Company's objectives, policies and processes for the measurement and risk management, and the Company's capital management. Additional quantitative disclosures are included throughout these financial statements.

(b) Risk management Structure

Management has overall responsibility for the establishment and supervision of the Company's risk management structure. Risk management policies are established to identify and analyze the risks faced by the Company, to define appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are frequently reviewed to reflect changes in market conditions and in the Company's activities. The Company, through its standards and training and management procedures, has the objective of developing a disciplined and constructive control environment in which all employees understand their roles and obligations.

(c) Credit Risks

Credit risk is the risk of financial loss of the Company if a customer or counterparty in a financial instrument fails to comply with its contractual obligations, which arise mainly from customer receivables and investment securities.

Costumers receivables and other receivables

The Company's exposure to credit risk is mainly influenced by the individual characteristics of each client. However, management also considers the demographics of the customer base, including the credit risk of the region where clients operate, as these factors may have an influence on credit risk.

Management has established a credit policy in which all new customers have their credit capacity individually analyzed before the terms and conditions of payment and delivery of the Company are offered. The analysis includes external evaluations, when available, including prior analysis of the banking register made by the financial institutions themselves. Purchasing limits are set for each customer, guaranteed by financial institutions, which represent the maximum outstanding amount without requiring prior approval, these limits are periodically revised. Customers who fail to meet the established credit limit may only operate with the Company on an advance payment basis. Once the transaction is approved by the financial institution, the sale is carried out and the risk becomes entirely the financial institution.

In the monitoring of costumers' credit risk, they are grouped according to their credit characteristics, including geographic location, maturity and previous financial difficulties.

(d) Liquidity Risks

Liquidity risks is the Company's risk of finding difficulties to comply with its obligations associated with its financial liabilities that are settled with cash payments or with another financial asset. The Company's approach to liquidity management is to ensure as much as possible that it always has sufficient liquidity to meet its obligations under normal and stressful conditions without causing unacceptable losses or risks of damaging the Company's reputation.

Based on the calculation of the Liquidity indexes, the current liquidity ratio corresponds to 9.89 as of March 31, 2017, a result that shows the remaining available cash and banks for a possible liquidation of short-term obligations.

(e) Market Risks

Market risk is the risk that changes in market prices, such as exchange rates, interest rates and stock prices, may impact on the Company's earnings or the value of its holdings in financial instruments. The purpose of market risk management is to manage and control exposures to market risks, within acceptable parameters, while optimizing return.

The Company complies with financial obligations to manage market risks. All these operations are conducted within the guidelines established by the Administration.

(f) Currency Risks

The Company is subject to currency risk in purchases and loans and financing denominated in a currency other than its functional currency, the Real (R$). The currency in which these transactions are primarily denominated is the US dollar.

With respect to other monetary assets and liabilities denominated in foreign currency, the Company guarantees that its net exposure is maintained at an acceptable level to treat short-term instabilities.

(g) Operational Risks

Operational risks are the risks of direct or indirect losses arising from a variety of causes associated with Company processes, personnel, technology and infrastructure and external factors, except for credit, market and liquidity risks, such as those arising from legal and regulatory requirements and generally accepted standards of business behavior. Operating risks arise from all operations of the Company.

The Company's objective is to manage operational risks to avoid the occurrence of financial losses and damages to its reputation, as well as to seek cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The main responsibility for the development and implementation of controls to address operational risks is assigned to top management. The responsibility is supported by the development of the Company's general standards for the management of operational risks in the following areas:

- Requirements for adequate segregation of duties, including independent clearance of operations;
- Requirements for the reconciliation and monitoring of operations;
- Compliance with regulatory and legal requirements;
- Documentation of controls and procedures;
- Requirements for the periodic assessment of operational risks faced and the adequacy of controls and procedures to deal with identified risks;
- Requirements to report operational losses and corrective actions proposed;
- Development of contingency plans;
- Professional training and development;
- Ethical and commercial standards;
- Risk mitigation, including insurance when effective.

(h) Capital Management

The Management has been monitoring the loss generated by the operation in order to mitigate its causes and generate returns on capital, which the Company defines as results of operating activities divided by total owners' equity.

Owners provide advances for future capital increase when necessary and / or contributions to maintain cash flow and sustain investments, whichever is more profitable for the Company.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Hisarlar Makina Sanayi ve Ticaret A.Ş.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Hisarlar Makina Sanayi ve Ticaret A.Ş. ("the Company") and its subsidiary ("the Group"), which comprise the consolidated statement of financial position as at 31st December, 2016, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, except for the possible effects of the matters described in the 'Basis for Qualified Opinion' paragraphs,the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31st December, 2016, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Qualified Opinion

Carrying values of auxiliary equipment; moulds, welding fixtures and tooling, recorded under machinery and equipment of property, plant and equipment amount to TL 6.225.064 as at 31st December, 2015. Before 1st January, 2011, the recognition for the costs incurred for these assets were not based on actual costs that are followed-up on individual mould or fixture basis but on standard costs. Starting from 1st January, 2011, additions to these auxiliary equipment amounting to TL 7.378.008 have been recorded based at their actual costs. As the effects of the possible adjustments that may be considered to be necessary as a result of comparing the standard cost of the assets acquired before 1st January, 2011 with their actual costs could not be determined, we cannot express an opinion with regards to the carrying values of auxiliary equipment as of 31st December, 2015 and depreciation charges of auxiliary equipment for the year then ended. As of 31st December, 2016, the Company has written off these auxiliary equipment; moulds, welding fixtures and tooling with a net effect of TL 4.477.253 in the statement profit or loss. The effect of the write-off has been reflected in the statement of profit or loss for the year ended 2016; prior year financial statements have not been restated.

We were not able to observe the counting of the physical inventories as of 31st December, 2016 and 31st December, 2015. Due to nature of the Entity's inventory records and high volume of transactions, the amount of inventory which could not be tested by other alternative audit procedures and inventory balance which we couldn't observe the counting amounts to TL 21.445.325 and TL 48.059.779, as of 31st December, 2016 and 31st December, 2015, respectively. We were unable to determine whether adjustments might have been necessary in respect of the profit for the years reported in the profit or loss statements and the net cash flows from operating activities reported in the cash flow statements.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Emphasis of matter

Without qualifying our opinion, as described in Note 2 to the consolidated financial statements, we draw attention to the fact that the Group has completed the period ended 31 December 2016 with a net loss of TL 93.700.633 (31 December 2015: TL 17.144.371), total accumulated losses has reached TL 29.291.633 (31 December 2015: TL 13.292.991) and short-term liabilities has exceeded current assets by TL 196.170.644 (31 December 2015: TL 99.142.923). Together with the effect of the accumulated losses and period loss, the the sum of capital and restricted profit reserves is unsecured due to loss in accordance with Article 376 of Turkish Commercial Law. As described in Note 2 to the consolidated financial statements, this condition indicates the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern. Meanwhile, some loans of the Group are subject to certain covenants due to the contracts. According to these covenants, Group shall achieve some performance criterion and shall satisfy specific qualitative and quantitative criterion. As of 31 December 2016, the Group is in breach regarding certain loan covenants and no waiver letter is provided regarding these breaches. As explained in Note 26, some creditors also recalled their loans since the Group could not fulfill its payment obligations. In addition, as of 31 December 2016, the Group has recorded a deferred tax asset amounting to TL 13.946.744 (31 December 2015: TL 3.978.237), with the anticipation that it will be possible to reach sufficient taxable profit considering the strategic partnership agreement mentioned in Note 26. Changes in profitability in future periods may affect the recoverability of this amount.

Without qualifying our opinion, we draw attention to capitalized development costs under intangible assets and expenditures concerning in progress development projects amounting to TL 4.907.721 and TL 41.081.625 as at 31 December 2016, respectively. The Group management considers that the aforementioned assets will generate economic benefits, based on business projections that rely on certain estimations. Effect of external factors might cause changes in the realization of such estimations.

Other Matter

The financial statements presented in supplementary information (Note 28), have been prepared in Indian Rupee (INR) for presentation purpose only and it does not form part of these special purpose financial statements.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST DECEMBER, 2016

(Amounts are expressed in Turkish Lira (TL) unless otherwise stated.)

1. ORGANIZATION AND OPERATIONS OF THE GROUP

Hisarlar Makina Sanayi ve Ticaret A.Ş. (the "Company" or "Hisarlar Makina") is the parent company. The address of Hisarlar Makina's registered office is: Eskişehir - Bursa Yolu 20. km. 26550 M. Çukurhisar, Eskişehir, Turkey.

The Company was established in 1973. Following the production of the tractor safety cab in Turkey in 1974, the first serial production has started in 1977. Hisarlar Makina started its first export activities of safety cabs to Netherlands in 1985 and to Austria in 1987. Hisarlar Makina realizes export sales over Hisarlar Pazarlama. In 2006, shareholders established Hisarlar Kabin in order to carry out production of tractor safety cabs and agricultural machines within the newly established company. After this demerge, Hisarlar Makina started to specialize in the production of welded components. As of 2 January 2012, Hisarlar Makina has been remerged with Hisarlar Kabin. Hisarlar Makina's customers include manufacturers operating mainly in agriculture, construction, textile and automotive sectors. Additionally, Hisarlar Makina provides engineering support, design, prototyping, serial production, painting and final assembly to its customers.

As of 18 December 2012 the Company and its shareholders signed a loan agreement with European Bank for Reconstruction and Development ("EBRD") and Nakina Finance S.A.R.L. ("Nakina") (together the "Investors"). Depending upon this loan agreement, the shareholders of the Company has transferred 15.7% of their shares in the Company to EBRD and Nakina. According to the shareholders agreement signed between the parties, Investors have put option in order to transfer back the shares in the period starting from 1 January 2020 to 31 May 2020 when the repayments of the loans are finalized and the annual financial statements for the year ending 31 December 2019 are delivered to the Investors. The Group is experiencing liquidity problems due to the delays on its collections. Accordingly, as of 31 August 2016, the Group was unable to pay its cheques. Subsequently, some banks have recalled their loans commencing September 8th, 2016. Together with the recall of the loans, notification has been sent to all suppliers and customer in accordance with Article 89/1 of the Execution and Bankruptcy Law. Some suppliers have started to apply legal follow-up. Following all these developments, the Group was involved in the strategic partnership process and signed a Letter of Interest. During 2017, the Group has completed strategic partnership agreement with Mahindra Overseas Investment ("Mahindra"). Following the completion of this agreement, all borrowings including EBRD and Nakina loans that were subject to covenants are paid in 30 March 2017. Also Mahindra became new ultimate controlling party for the Group with 75% shares, as explained in Note 26.

The Company has acquired 90% of the shares of Hisarlar Pazarlama İthalat ve İhracat A.Ş. ("Hisarlar Pazarlama") from the shareholders of the Company on 14 August 2012. Hisarlar Pazarlama was under common control by the Company since the beginning of its operations. In addition, Hisarlar Kabin has been merged with Hisarlar Makina on 2 January 2012 as stated above.

Hisarlar Pazarlama started its operations in 2003 and operates in the import and export, marketing and market research activities of the products of Hisarlar Makina. Hisarlar Pazarlama mainly makes exports of different vehicles, machines and components to Europe and other continents of the world. Hisarlar Pazarlama's customers include firms producing agricultural machines, construction machines, material handling equipments, special purpose vehicles, textile machines, medical equipment and automotives manufacturers. The address of the Hisarlar Pazarlama's registered office is: Eskişehir - Bursa Yolu 20. km. 26550 M.Çukurhisar, Eskişehir, Turkey.

As of 31 December 2016, the Group employed 808 people (31 December 2015: 869).

<u>The approval of the financial statements:</u>

The consolidated financial statements for the 1 January-31 December 2016 period are approved by the Board of Directors and have been granted authorization to be published on the date of 26 May 2017. No authority other than General Assembly has the right to change these financial statements.

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of Presentation

The consolidated financial statements have been prepared on the historical cost basis except for the fair measurement of certain non-current assets.

In order to determine the historical cost, the fair values paid for assets are considered.

2.2 Statement of Compliance

The consolidated financial statements have been prepared in accordance International Financial Reporting Standards ("IFRS").

2.3 Going Concern Assumptions and Management Plans

The consolidated financial statements of the Group are prepared on a going concern basis, which presumes the realization of assets and settlement of liabilities in the normal course of operations and in the foreseeable future. As of 31 December 2016, the Group's short-term liabilities exceeds its current assets by TL 196.170.644(31 December 2015: TL 99.142.923) based on the accompanying consolidated financial statements. In addition, the Group has completed the period ended 31 December 2016 with a net loss of TL 93.700.633(31 December 2015: TL 17.144.371) and total accumulated losses has reached TL 29.291.633 (31 December 2015: TL 13.292.991). Together with the effect of the accumulated losses and period loss, the sum of capital and restricted profit reserves is unsecured due to loss in accordance with Article 376 of Turkish Commercial Law. As of 31 December 2016, the Group is experiencing liquidity problems due to the negative impact of the increase in foreign exchange rates on its loans and the negative operating income due to the maturity increases in sales transactions. Meanwhile, some loans of the Group are subject to certain covenants due to the contracts. According to these covenants, Group shall achieve some performance criterion and shall satisfy specific qualitative and quantitative criterion. As of 31 December 2016, the Group is in breach regarding certain loan covenants and no waiver letter is provided regarding these breaches. As explained in Note 26, some creditors also recalled their loans since the Group could not fulfill its payment obligations. The Group was involved in the strategic partnership process and signed a Letter of Interest. During 2017, the Group has completed strategic partnership agreement with Mahindra Overseas Investment ("Mahindra"). Following the completion of this agreement, all borrowings including EBRD and Nakina loans that were subject to covenants are paid in 30 March 2017. Also Mahindra became new ultimate controlling party for the Group with 75% ownership. As a result of these transactions, the Group management believes that the financial indicators of the Group will be positive and it can continue for the foreseeable future.

2.4 Functional Currency

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in Turkish Lira, which is the functional, and presentation currency of the Company and the reporting currency for the consolidated financial statements.

2.5 Comparative Information and Restatement of Prior Period Consolidated Financial Statements

Where necessary, comparative figures of the consolidated financial statements have been reclassified to conform to changes in presentation of the current period consolidated financial statements. The Group Management considered that it is appropriate to have such reclassification when they provide more relevant information to users of the consolidated financial statements. The nature, amount and reason for the reclassification are described below:

- In 2015, the Group had presented 'Blocked deposits' in the amount of TL 5.873.005 within 'Other Receivables'. In the current year the amount has been reclassified in 'Financial Investments'.
- In 2015, the Group had presented 'Income from sale of fixed asset' in the amount of TL 2.339.875 within 'Other Income From Operating Activities'. In the current year the amount has been reclassified in 'Investment Revenue'.
- In 2015, the Group had presented 'Foreign exchange gains/losses' as gross in 'Other Income From Operating Activities' and 'Other Loss From Operating Activities'. In the current year these balances are netted off amounting to TL 27.490.800.

2.6 Basis of Consolidation

As of 31 December 2016 and 31 December 2015, details of the Company's subsidiary are as follows:

	Group's proportion of ownership and voting power held (%)			
Subsidiary	**2016**	**2015**	**Place of incorporation and operation**	**Principle activity**
Hisarlar Pazarlama	90	90	Eskişehir-Eskişehir	Trading

The accompanying consolidated financial statements include the financial statements of the Company and entity controlled by the Company (its subsidiary). Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiary is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiary to bring their accounting policies into line with those used by other members of the Group.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.7 Changes in the Accounting Policies

Significant changes in accounting policies and accounting errors are applied retrospectively and prior periods financial statements are adjusted accordingly. As of 31 December 2016, the Group has changed its accounting policy regarding the measurement of plant, machinery and equipment and investment properties. This change in accounting policy was carried out by the Company's management in order to present the plant, machinery and equipment and investment properties more accurately in the accompanying financial statements within the scope of the standard "IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors".

The Group presents the effect of transition from cost method to fair value method for plant, machinery and equipment firstly in 31 December 2016 consolidated financial statements, within the scope of "IAS 16 Property, Plant and Equipment", as presented in detail Note 9.

Changes in accounting policy presented for investment properties:

The Group has moved from cost model to fair value model for the measurement of its investment properties starting from 31 December 2016. The Company has not applied this change in accounting policy retrospectively and measured its investment properties with cost model as of 31 December 2015 and fair value model as of 31 December 2016. As of 31 December 2015 the fair value of investment properties was TL 408.318. As of 31 December 2016, the amount of TL 408.318 of the TL 1.619.308, which is the positive difference between the fair value model and the cost model, is recognized in retained earnings, and presented as "the effect of change in accounting policy" in the statement of changes in equity. Remaining portion of the total positive difference between the fair value model and the cost model is recognized in the consolidated statement of profit or loss.

2.8 Changes in Accounting Estimates and Errors

If changes in accounting estimates relate only for one period, changes are applied in the current period but if changes in estimates relate more than one period, changes are applied both in the current and following periods prospectively. There is no significant change in Group's accounting estimates in current year.

2.9 New and Revised International Accounting Standards

a) Amendments to IFRSs affecting amounts reported and/or disclosures in the consolidated financial statements

None.

b) New and revised IFRSs applied with no material effect on the consolidated financial statements

IFRS 14	*Regulatory Deferral Accounts*[1]
Amendments to IFRS 11	*Accounting for Acquisition of Interests in Joint Operations*[1]
Amendments to IAS 16 and IAS 38	*Clarification of Acceptable Methods of Depreciation and Amortisation*[1]
Amendments to IAS 16 and IAS 41	*Agriculture: Bearer Plants*[1]
Amendments to IAS 27	*Equity Method in Separate Financial Statements*[1]
Annual Improvements to 2012-2014 Cycle	*IFRS 5, IFRS 7, IAS 19, IAS 34*[1]
Amendments to IAS 1	*Disclosure Initiative*[1]
Amendments to IFRS 10, IFRS 12 and IAS 28	*Investment Entities: Applying the Consolidation Exception*[1]

1 Effective for annual periods beginning on or after 1 January 2016.

IFRS 14 *Regulatory Deferral Accounts*

IFRS 14 Regulatory Deferral Accounts permits an entity, which is a first-time adopter of International Financial Reporting Standards to continue to account, with some limited changes, for 'regulatory deferral account balances' in accordance with its previous GAAP, both on initial adoption of IFRS and in subsequent financial statements.

IFRS 14 was issued by the IASB on 30 January 2014 and is applied to an entity's first annual IFRS financial statements for a period beginning on or after 1 January 2016.

Amendments to IFRS 11 *Accounting for Acquisition of Interests in Joint Operations*

This amendment requires an acquirer of an interest in a joint operation in which the activity constitutes a business to:

- apply all of the business combinations accounting principles in IFRS 3 and other IFRSs, except for those principles that conflict with the guidance in IFRS 11,
- disclose the information required by IFRS 3 and other IFRSs for business combinations.

Amendments to IAS 16 and IAS 38 *Clarification of Acceptable Methods of Depreciation and Amortisation*

This amendment clarifies that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment, and introduces a rebuttable presumption that an amortisation method that is based on the revenue generated by an activity that includes the use of an intangible asset is inappropriate, which can only be overcome in limited circumstances where the intangible asset is expressed as a measure of revenue, or when it can be demonstrated that revenue and the consumption of the economic benefits of the intangible asset are highly correlated. The amendment also adds guidance that expected future reductions in the selling price of an item that was produced using an asset could indicate the expectation of technological or commercial obsolescence of the asset, which, in turn, might reflect a reduction of the future economic benefits embodied in the asset.

Amendments to IAS 16 and IAS 41 *Agriculture: Bearer Plants*

This amendment include 'bearer plants' within the scope of IAS 16 rather than IAS 41, allowing such assets to be accounted for a property, plant and equipment and measured after initial recognition on a cost or revaluation basis in accordance with IAS 16. The amendment also introduces a definition of 'bearer plants' as a living plant that is used in the production or supply of agricultural produce, is expected to bear produce for more than one period and has a remote likelihood of being sold as agricultural produce, except for incidental scrap sales, and clarifies that produce growing on bearer plants remains within the scope of IAS 41.

Amendments to IAS 27 *Equity Method in Separate Financial Statements*

This amendment permits investments in subsidiaries, joint ventures and associates to be optionally accounted for using the equity method in separate financial statements.

Annual Improvements 2012-2014 Cycle

IFRS 5: Adds specific guidance in IFRS 5 for cases in which an entity reclassifies an asset from held for sale to held for distribution or vice versa and cases in which held-for-distribution accounting is discontinued.

IFRS 7: Additional guidance to clarify whether a servicing contract is continuing involvement in a transferred asset, and clarification on offsetting disclosures in condensed interim financial statements.

IAS 19: Clarify that the high quality corporate bonds used in estimating the discount rate for post-employment benefits should be denominated in the same currency as the benefits to be paid.

IAS 34: Clarify the meaning of 'elsewhere in the interim report' and require a cross-reference.

Amendments to IAS 1 *Disclosure Initiative*

This amendment addresses perceived impediments to prepares exercising their judgment in presenting their financial reports.

Amendments to IFRS 10, IFRS 12 and IAS 28 Investment *Entities: Applying the Consolidation Exception*

This amendment addresses issues that have arisen in the context of applying the consolidation exception for investment entities by clarifying the following points:

- The exemption from preparing consolidated financial statements for an intermediate parent entity is available to a parent entity that is a subsidiary of an investment entity, even if the investment entity measures all of its subsidiaries at fair value.
- A subsidiary that provides services related to the parent's investment activities should not be consolidated if the subsidiary itself is an investment entity.
- When applying the equity method to an associate or a joint venture, a non-investment entity investor in an investment entity may retain the fair value measurement applied by the associate or joint venture to its interests in subsidiaries.
- An investment entity measuring all of its subsidiaries at fair value provides the disclosures relating to investment entities required by IFRS 12.

c) <u>New and revised IFRSs in issue but not yet effective</u>

The Group has not applied the following new and revised IFRSs that have been issued but are not yet effective:

Amendments to IFRS 10 and IAS 28	*Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
Amendments to IAS 12	*Recognition of Deferred Tax Assets for Unrealized Losses*[1]
Amendments to IAS 7	*Disclosure Inıtiative*[1]
IFRS 9	*Financial Instruments* [2]
IFRS 15	*Revenue from Contracts with Customers* [2]
Amendments to IFRS 15	*Revenue from Contracts with Customers* [2]
Amendments to IFRS 2	*Classification and Measurement of Share-Based Payment Transactions* [2]
IFRS 16	*Leases* [3]
Amendments to IFRS 4	*Applying IFRS 9 'Financial Instruments' with IFRS 4 'Insurance Contracts'*
IFRIC 22	*Foreign Currency Transactions and Advance Consideration* [2]
Amendments to IAS 40	*Transfers of Investment Property* [2]
Annual Improvements to IFRS Standards 2014–2016 Cycle	*IFRS 1* [2]*, IFRS 12* [1]*, IAS 28* [2]

1 Effective for annual periods beginning on or after 1 January 2017.
2 Effective for annual periods beginning on or after 1 January 2018.
3 Effective for annual periods beginning on or after 1 January 2019.

Amendments to IFRS 10 and IAS 28 *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

This amendment clarifies the treatment of the sale or contribution of assets from an investor to its associate or joint venture.

Amendments to IAS 12 *Recognition of Deferred Tax Assets for Unrealized Losses*

This amendment clarifies the following aspects:

- Unrealized losses on debt instruments measured at fair value and measured at cost for tax purposes give rise to a deductible temporary difference regardless of whether the debt instrument's holder expects to recover the carrying amount of the debt instrument by sale or by use.
- The carrying amount of an asset does not limit the estimation of probable future taxable profits.
- Estimates for future taxable profits exclude tax deductions resulting from the reversal of deductible temporary differences.
- An entity assesses a deferred tax asset in combination with other deferred tax assets. Where tax law restricts the utilization of tax losses, an entity would assess a deferred tax asset in combination with other deferred tax assets of the same type.

Amendments to IAS 7 *Disclosure Inıtiative*

This amendment clarifies that entities shall provide disclosures that enable users of financial statements to evaluate changes in liabilities arising from financing activities.

IFRS 9 *Financial Instruments*

IFRS 9, issued in November 2009, introduces new requirements for the classification and measurement of financial assets. IFRS 9 is amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9 is issued in July 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a "fair value through other comprehensive income ("FVTOCI") measurement category for certain simple debt instruments.

IFRS 15 *Revenue from Contracts with Customers*

IFRS 15 provides a single, principles based five-step model to be applied to all contracts with customers.

The five steps in the model are as follows:

- Identify the contract with the customer,
- Identify the performance obligations in the contract,
- Determine the transaction price,
- Allocate the transaction price to the performance obligations in the contracts,
- Recognise revenue when the entity satisfies a performance obligation.

Amendments to IFRS 15 *Revenue from Contracts with Customers*

This amendment clarifies three aspects of the standard (identifying performance obligations, principal versus agent considerations, and licensing) and provides some transition relief for modified contracts and completed contracts.

Amendments to IFRS 2 *Classification and Measurement of Share-Based Payment Transactions*

This amendment clarifies the standard in relation to the accounting for cash-settled share-based payment transactions that include a performance condition, the classification of share-based payment transactions with net settlement features, and the accounting for modifications of share-based payment transactions from cash-settled to equity settled.

IFRS 16 *Leases*

This new standard brings most leases on-balance sheet for lessees under a single model, eliminating the distinction between operating and finance leases. Lessor accounting however remains largely unchanged and the distinction between operating and finance leases is retained. IFRS 16 supersedes IAS 17 "Leases" and related interpretations and is effective for periods beginning on or after 1 January 2019, with earlier adoption permitted if IFRS 15 'Revenue from Contracts with Customers' has also been applied.

Amendments to IFRS 4 *Applying IFRS 9 'Financial Instruments' with IFRS 4 'Insurance Contracts'*

This amendment provides optional approaches for entities that issue insurance contracts within the scope of IFRS 4, and the entities are permitted to stop applying them before the new insurance standard is applied.

IFRIC 22 *Foreign Currency Transactions and Advance Consideration*

The interpretation addresses foreign currency transactions or parts of transactions where:

- there is consideration that is denominated or priced in a foreign currency;
- the entity recognizes a prepayment asset or a deferred income liability in respect of that consideration, in advance of the recognition of the related asset, expense or income; and
- the prepayment asset or deferred income liability is non-monetary.

The Interpretations Committee came to the following conclusion:

- The date of the transaction, for the purpose of determining the exchange rate, is the date of initial recognition of the non-monetary prepayment asset or deferred income liability.
- If there are multiple payments or receipts in advance, a date of transaction is established for each payment or receipt.

Amendments to IAS 40 *Transfers of Investment Property*

The amendments to IAS 40 Investment Property:

- Amends paragraph 57 to state that an entity shall transfer a property to, or from, investment property when, and only when, there is evidence of a change in use. A change of use occurs if property meets, or ceases to meet, the definition of investment property. A change in management's intentions for the use of a property by itself does not constitute evidence of a change in use.
- The list of examples of evidence in paragraph 57(a) – (d) is now presented as a non-exhaustive list of examples instead of the previous exhaustive list.

Annual Improvements to IFRS Standards 2014–2016 Cycle

- **IFRS 1:** Deletes the short-term exemptions in paragraphs E3–E7 of IFRS 1, because they have now served their intended purpose.
- **IFRS 12:** Clarifies the scope of the standard by specifying that the disclosure requirements in the standard, except for those in paragraphs B10–B16, apply to an entity's interests listed in paragraph 5 that are classified as held for sale, as held for distribution or as discontinued operations in accordance with IFRS 5 Non-current Assets Held for Sale and Discontinued Operations.
- **IAS 28:** Clarifies that the election to measure at fair value through profit or loss an investment in an associate or a joint venture that is held by an entity that is a venture capital organisation, or other qualifying entity, is available for each investment in an associate or joint venture on an investment-by-investment basis, upon initial recognition.

The Group evaluates the effects of these standards, amendments and improvements on the consolidated financial statements.

2.10 Summary of Significant Accounting Policies

Related Parties

A related party is a person or entity that is related to the entity that is preparing its financial statements

a) A person or a close member of that person's family is related to a reporting entity if that person:
   (i) has control or joint control over the reporting entity;
   (ii) has significant influence over the reporting entity; or
   (iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.

(b) An entity is related to a reporting entity if any of the following conditions applies:
   (i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
   (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
   (iii) Both entities are joint ventures of the same third party.
   (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
   (v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
   (vi) The entity is controlled or jointly controlled by a person identified in (a).
   (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Revenue

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates, and other similar allowances.

Sale of goods:

Revenue from the sale of goods is recognized when the goods are delivered and titles have passed, at which time all the time following conditions are satisfied:

- The Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the entity; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest revenue

Interest revenue is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

Rental income

Rental income is recognized on a straight-line basis over the term of the relevant lease.

Inventories

Inventories are stated at the lower of cost or net realizable value. The cost of inventories is determined on a weighted average basis. Net realizable value represents the estimated selling price less all estimated costs of completion and costs necessary to make a sale. When the net realizable value of inventory is less than cost, the inventory is written down to the net realizable value and the expense is included in statement of income/(loss) in the period the write-down or loss occurred. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in net realizable value because of changed economic circumstances, the amount of the write-down is reversed. The reversal amount is limited to the amount of the original write-down.

Property, plant and equipment

As of 31 December 2010, land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated at cost and depreciation has been recorded for buildings. Starting from 31 December 2011, these assets are stated in the balance sheet at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. As explained in Note 2.7, starting from 31 December 2016, plant, machinery and equipment are also stated in the balance sheet at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. The fair value at the date of revaluation is the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction. Fair value determination is based on the market and cost approaches using quoted market prices for similar items when available and in some cases, using replacement cost when appropriate.

Any revaluation increase arising on the revaluation of such land, buildings and plant, machinery and equipment is credited in equity to the properties revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. A decrease in carrying amount arising on the revaluation of such land, buildings and plant, machinery and equipment is charged to profit or loss to the extent that it exceeds the balance, if any, held in the properties revaluation reserve relating to a previous revaluation of that asset.

Depreciation on revalued buildings and plant, machinery and equipment is charged to profit or loss. On the subsequent sale or retirement of a revalued property, the related revaluation surplus remaining in the properties revaluation reserve is transferred directly to retained earnings. No transfer is made from the revaluation reserve to retained earnings except when an asset is derecognized.

Properties in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognized impairment loss. Cost includes professional fees. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Freehold land is not depreciated. Motor vehicles, furniture and fixtures, and leasehold improvements are carried at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is charged so as to write off the cost or valuation of assets, other than land and properties under construction, over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

The Group as lessee

Assets held under finance leases are initially recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Group's general policy on borrowing costs.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Intangible assets

Computer software

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized over their estimated useful lives (3-5 years).

Internally-generated intangible assets – research and development expenditure

Expenditure on research activities is recognized as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognized if, and only if, all of the following have been demonstrated:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- The intention to complete the intangible asset and use or sell it;
- The ability to use or sell the intangible asset;
- How the intangible asset will generate probable future economic benefits;
- The availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- The ability to measure reliably the expenditure attributable to the intangible asset during its development

The amount initially recognized for internally-generated intangible assets is the sum of expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognized, development expenditure is charged to profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets acquired separately.

Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

Financial instruments

Financial assets

All financial assets are recognized and derecognized on a trade date where the purchase or sale of a financial asset is under a contract whose terms require delivery of the financial asset within the time frame established by the market concerned, and are initially measured at fair value, plus transaction costs except for those financial assets classified as at fair value through profit or loss, which are initially measured at fair value.

Financial assets are classified into the following specified categories: financial assets as ‘at fair value through profit or loss’ , ‘held-to-maturity investments’, ‘available-for-sale’ financial assets and ‘loans and receivables’.

Effective interest method

The effective interest method is a method of calculating the amortized cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, or, where appropriate, a shorter period.

Loans and receivables

Trade receivables, loans, and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as ‘loans and receivables’. Loans and receivables are measured at amortized cost using the effective interest method less any impairment.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits and other short-term highly liquid investments which their maturities are three months or less from date of acquisition and that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Financial liabilities

Financial liabilities at Fair value through Profit or Loss

Financial liabilities are classified as at fair value through profit or loss where the financial liability is either held for trading or it is designated as at fair value through profit or loss. Financial liabilities at fair value through profit or loss are stated at fair value, with any resultant gain or loss recognized in profit or loss. The net gain or loss recognized in profit or loss incorporates any interest paid on the financial liability.

Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

Entities under common control

90% of the shares of Hisarlar Pazarlama were acquired by the Company from the shareholders of the Company on 14 August 2012. The acquired subsidiary was under common control by the Company since the beginning of its operations and is accounted for by use of the pooling of interest method. This application is based on management judgement that this treatment is the best way to present the economic substance of the transaction because there is no independent third party involved and hence measurement of the fair value is very difficult and, therefore meets the criteria of IAS 8.10-12. IAS 8.10 states that “In the absence of a standard or an interpretation that specifically applies to a transaction, other event or condition, management shall use its judgement in developing and applying an accounting policy that result in information that is: (a) relevant to the economic decision-making needs of users; and (b) reliable, in that financial statements.

IAS 8.12 states that; in making the judgement described in paragraph 10, management may also consider the most recent pronouncement of other standard-setting bodies that use a similar conceptual framework to develop accounting standards, other accounting literature, and accepted industrial practices, to the extent that these do not conflict with the sources in paragraph 11.

Foreign currency transactions

The individual financial statements of each Group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in TL, which is the functional currency of the Group, and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than TL (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Gains and losses arising on settlement and translation of foreign currency items are included in the consolidated statement of comprehensive income.

Exchange differences are recognised in profit or loss in the period in which they arise except for:

- Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets where they are regarded as an adjustment to interest costs on those foreign currency borrowings;
- Exchange differences on transactions entered into in order to hedge certain foreign currency risks (see below for hedging accounting policies); and
- Exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur, which form part of the net investment in a foreign operation, and which are recognised in the foreign currency translation reserve and recognised in profit or loss on disposal of the net investment.

Events after the reporting period

Events after the reporting period are those events that occur between the balance sheet date and the date when the financial statements are authorized for issue, even if they occur after an announcement related with the profit for the year or public disclosure of other selected financial information.

The Group adjusts the amounts recognized in its financial statements if adjusting events occur after the balance sheet date.

Provisions, Contingent Assets and Liabilities

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Investment property

The Group has moved from cost model to fair value model for the measurement of its investment properties starting from 31 December 2016. The Company has not applied this change in accounting policy retrospectively and measured its investment properties with cost model as of 31 December 2015 and fair value model as of 31 December 2016. As of 31 December 2015 the fair value of investment properties was TL 408.318. As of 31 December 2016, the amount of TL 408.318 of the TL 1.619.308, which is the positive difference between the fair value model and the cost model, is recognized in retained earnings, and presented as “the effect of change in accounting policy” in the statement of changes in equity. Remaining portion of the total positive difference between the fair value model and the cost model is recognized in the consolidated statement of profit or loss.

Investment properties are properties held to earn rentals and/or for capital appreciation, including property under construction for such purposes. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value. Gains or losses arising from changes in the fair values of investment properties are included in the profit or loss in the year in which they arise.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from disposal. Any gain or loss arising on derecognition of the property is included in profit or loss in the period in which the property is derecognized.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property that is measured at fair value to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property that is measured at fair value, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

No assets held under operating lease have been classified as investment properties.

Taxation and deferred income taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the comprehensive income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company’s liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases which is used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilized.

Such deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realized. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Current and deferred tax for the period

Current and deferred tax are recognized as in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity.

Employment benefits

Termination and retirement benefits

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Company. Such payments are considered as being part of defined retirement benefit plan as per International Accounting Standard No. 19 (revised) "Employee Benefits" ("IAS 19").

The retirement benefit obligation recognized in the consolidated financial statements represents the present value of the defined benefit obligation. Calculated whole actuarial gains and loses are recognized in other comprehensive income.

Statement of cash flows

Current period statement of cash flows is categorized and reported as operating, investing and financing.

Share capital and dividends

Common shares are classified as equity. Dividends on common shares are recognised in equity in the period in which they are approved and declared.

2.11 Critical accounting judgments and key sources of estimation uncertainty

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is discussed below:

Useful lives of property, plant and equipment and intangible assets

The Group reviews the estimated useful lives of its property, plant and equipment and intangible assets at the end of each reporting period. The Group takes into consideration the intended use of the property, plant and equipment and intangible assets, the advancement in technology related to the particular type of property, plant and equipment as well as other factors that may require management to extend or shorten the useful lives and the assets' related depreciation.

The Group considers the useful lives of property, plant and equipment and intangible assets as described in Note 9 and 10.

Determination of fair values of property, plant and equipment

The fair values of property, plant and equipment are based on valuations, performed by independent valuers, who hold recognized and relevant professional qualifications. The valuations are based primarily on comparable fair market value of lands and, estimating costs to rebuild the building in the new economic conditions.

Internally-generated intangible assets

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognized only if the technical feasibility and the intention to complete the intangible asset, the ability to use or sell the intangible asset are demonstrated, how the intangible asset will generate probable future economic benefits is determined, adequate technical, financial and other resources to complete the development and to use or sell the intangible asset is available and the expenditure attributable to the intangible asset during its development can be reliably measured. Other development expenditures that do not meet these criteria are recognized as expense when incurred. The Group Management considers that the internally-generated intangible assets will generate economic benefits and management is confident that the carrying amount of the assets will be recovered in full.

Deferred taxes

Deferred tax assets and liabilities are recorded using substantially enacted tax rates for the effect of temporary differences between book and tax bases of assets and liabilities. Based on available evidence, both positive and negative, it is determined whether it is probable that all or a portion of the deferred tax assets will be realized. If based on the weight of all available evidence, it is the Group's belief that taxable profit will not be available sufficient to utilize some portion of these deferred tax assets, then some portion of or all of the deferred tax assets is not recognized.

Provision for unused vacation	**805.614**	1.031.434
	805.614	1.031.434

Long-term provisions for employee benefits

Under Turkish Labor Law, the Group is required to pay termination benefits to each employee who has completed certain years of service and whose employment is terminated without due cause, is called up for military service, dies or achieves the retirement age (58 for women and 60 for men).

The amount payable consists of one month's salary limited to a maximum of TL 4.297,21 (2015: TL 3.828,37) for each period of service at 31 December 2016.

Retirement pay liability is not subject to any kind of funding legally. Provision for retirement pay liability is calculated by estimating the present value of probable liability amount arising due to retirement of employees. IAS 19 *Employee Benefits* stipulates the development of company's liabilities by using actuarial valuation methods under defined benefit plans. In this direction, actuarial assumptions used in calculation of total liabilities are described as follows:

The principal assumption is that the maximum liability for each year of service will increase parallel with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as at 31 December 2016, the provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees. The provisions at the respective balance sheet dates have been calculated with the assumption of an annual inflation rate of 7% and a discount rate of 11,5%, resulting in a real discount rate of approximately 4,21% (31 December 2015: discount rate of approximately 4,72%). Estimated amount of retirement pay not paid due to voluntary leaves and retained in the Company is also taken into consideration. The rate of voluntary leaves and retained in the Company is taken between %0 for 0-15 years employee and %14,51 for more than 16 years employees. Ceilig for retirement pay is revised semi-annually. Ceiling amount of TL 4.426,16(31 December 2015: 4.092,53) which is in effect since 1 January 2017 is used in the calculation of Group's provision for retirement pay liability.

Corporate Tax

The Group is subject to Turkish corporate taxes. Provision is made in the accompanying financial statements for the estimated charge based on the Group's results for the years and periods. Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying consolidated financial statements, have been calculated on a separate-entity basis.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and deducting exempt income, non-taxable income and other incentives (previous years losses, if any, and investment incentives utilized, if preferred).

The effective tax rate in 2016 is 20% (2015: 20%).

In Turkey, advance tax returns are filed on a quarterly basis. Advance corporate income tax rate applied in 2015 is 20%. (2014: 20%). Losses can be carried forward for offset against future taxable income for up to 5 years. However, losses cannot be carried back for offset against profits from previous periods.

Furthermore, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns between 1-25 April following the close of the accounting year to which they relate. Tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years.

Income Witholding Tax

In addition to corporate taxes, companies should also calculate income withholding taxes and funds surcharge on any dividends distributed, except for companies receiving dividends who are Turkish residents and Turkish branches of foreign companies. Income withholding tax applied in between 24 April 2003 – 22 July 2006 is 10% and commencing from 22 July 2006, this rate has been changed to 15% upon the Council of Minister's' Resolution No: 2006/10731. Undistributed dividends incorporated in share capital are not subject to income withholding tax.

Withholding tax at the rate of 19,8% is still applied to investment allowances relating to investment incentive certificates obtained prior to 24 April 2003. Subsequent to this date, the investments without investment incentive certificates do not qualify for tax allowance.

Deferred tax:

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between its financial statements as reported for IFRS purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for IFRS and tax purposes and they are given below.

For calculation of deferred tax asset and liabilities, the rate of 20% (2015: 20%) is used.

24. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

a) Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The Group controls its capital using the net debt/total capital ratio. This ratio is calculated as net debt divided by the total capital amount. Net debt is calculated as total liability amount less cash and cash equivalents. Total capital is calculated as shareholders' equity plus the net debt amount as presented in the balance sheet.

As of 31 December 2016 and 31 December 2015 net debt/total capital ratio is as follows:

	1 January-31 December 2016	1 January-31 December 2015
Total Debts	**137.418.343**	172.269.048
Less: Cash and Cash Equivalents	**(971.898)**	(3.225.423)

Total Capital	**77.844.394**	176.387.369
Total Debt/Total Capital Ratio	**100%**	95,84%

b) Financial risk factors

The risks of the Group, resulted from operations, include market risk, credit risk and liquidity risk. The Group's risk management program generally seeks to minimize the effects of uncertainty in financial market on financial performance of the Group.

b.1) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. Financial instruments of the Group that will result in concentration of credit risk mainly include cash and cash equivalents and trade receivables. The Group's maximum exposure to credit risk is the same as the amounts recognized in the consolidated financial statements.

The Group has cash and cash equivalents at several financial institutions. The Group manages this risk by continuously evaluating the reliability of these financial institutions.

Credit risk arising from trade receivables is limited due to the large number of customers and the policy of the Group to limit the credit amount of customers. The Group generally prefers to collect cheques to increase the credit limits of its customers except its dealers.

b.2) Liquidity risk management

Ultimate control for liquidity risk management rests with the Board of Directors, which aims to maintain an appropriate liquidity risk management framework for the Company's short, medium and long-term funding and liquidity management requirements.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows.

The maturities of the financial liabilities determined with respect to the contracts including the expected interest payments as of 31 December 2016 and 2015 is as follows:

b.3.1) Market risk management

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. Foreign currency risk is managed through balancing the liabilities and receivables in foreign currencies.

Market risk exposures of the Group are measured using sensitivity analysis.

There has been no change to the Group's exposure to market risks or the manner in which it manages and measures the risk.

b.3.2) Foreign currency risk management

Transactions in foreign currencies expose the Group to foreign currency risk. Foreign currency risk is managed by balancing the liabilities and receivables in foreign currencies.

As of 31 December 2016 and 2015 the foreign currency denominated assets and liabilities of monetary and non-monetary items are as follows:

	31 December 2016

Net Foreign Currency Position	(544.573)	(27.073.665)	(87.612.680)

The following table details the Group's sensitivity to a 10% increase and decrease in USD, and EURO. 10% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 10% change in foreign currency rates. A negative number indicates an decrease in profit or loss.

	USD Effect		**EUR Effect**	
	2016	2015	**2016**	2015
Profit or Loss	**(81.276)**	(158.340)	**(3.140.549)**	(8.602.928)

b.3.3) Interest rate risk management

The Group is exposed to interest rate risk as entities in the Group borrow funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings. The related risks are managed through natural methods which are resulting from the netting of receivables and liabilities dependent to interest rates. The interest rates of financial assets and liabilities are stated in the related notes.

Interest rate sensitivity

The sensitivity analysis of financial instruments is presented below:

Interest Position Table

	31 December 2016	31 December 2015
Financial Instruments with Fixed Interest Rate		
Financial Borrowings	**98.737.796**	114.027.086
Other Financial Liabilities	**25.341.121**	44.755.549
Financial Instruments with Floating Interest Rate		
Financial Borrowings	**13.339.426**	13.486.413

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the balance sheet date. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the balance sheet date was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Group's:

Profit for the year ended 31 December 2016 would increase/decrease by TL 24.064 (2015: 129.781) This is mainly attributable to the Group's exposure to interest rates on its variable rate borrowings.

26. EVENTS AFTER THE REPORTING PERIOD

The Group is experiencing liquidity problems due to the delays on its collections. Accordingly, as of 31 August 2016, the Group was unable to pay its cheques. Subsequently, some banks have recalled their loans commencing September 8th, 2016. Together with the recall of the loans, notification has been sent to all suppliers and customer in accordance with Article 89/1 of the Execution and Bankruptcy Law. Some suppliers have started to apply legal follow-up. Also, as explained in Note 21 in detail, the creditors who have shares in the capital declared that they will not provide any waiver letter to the Group in case they can not achieve the required performance criterion due to the contracts. Following all these developments, the Group was involved in the strategic partnership process and signed a Letter of Interest. During 2017, the Group has completed strategic partnership agreement with Mahindra Overseas Investment ("Mahindra"). Following the completion of this agreement, all borrowings including EBRD and Nakina loans that were subject to covenants are paid in 30 March 2017. Also Mahindra became new ultimate controlling party for the Group with 75% ownership. As a result of these transactions, the Group management believes that the financial indicators of the Group will be positive and it can continue for the foreseeable future.

DIRECTOR'S REPORT FOR MAHINDRA YUEDA (YANCHENG) TRACTOR CO., LTD.

Mahindra Yueda (Yancheng) Tractor Company Ltd.(MYYTCL) is a 51:49 Foreign Joint Venture between Mahindra Overseas Investment Company (Mauritius) Ltd. and Jiangsu Yueda Investment Co. Ltd from Peoples Republic of China. MYYTCL is operational from 1st February 2009 and is located in Economic Development Zone of Yancheng city in Jiangsu Province. The Yueda Group is a well known Group in PRC with presence in various sectors of economy such as Automobiles, Tractors, Mining, Textile, Infrastructure Development and Retail. Huanghai Jinma brand of tractors manufactured at MYYTCL is well known brand across China and sold through a strong network of 250 dealers. MYYTCL produces and sells 18 HP to 135 HP tractors.

The overall tractor industry volumes reduced by 11.9% in 2016 to 270,855 tractors as compared with 2015. The domestic industry at 255,004 tractors, recorded a de-growth of 11.7% whereas the export volumes recorded a de-growth of 15.3% to reach 15,851 tractors.

MYYTCL was also affected due to above and its sales have also dropped in line with industry. Further, during the calendar year 2016, in view of extension in effective date for change in emission norms, the company continued to focus on reduction of dealer stock & receivables, by improving retails and controlled billing. By year end, the Company reduced its dealer stock by 75% and receivables by 50%.

The new emission norms – China III became operational with effect from 1st December 2016 and your company has implemented the required technical modifications. The company plans to maximize sales opportunity by channel restructuring and launch of product variants for niche requirements. With the market shift towards higher HP segments, the company continues to work on further strengthening its higher HP product portfolio.

Simultaneously, the company is working on realigning cost structure, improving margins and working capital reduction. Product mix improvement, cost reduction and supplier consolidation efforts are driving improvement in variable margins and cash flows. All these efforts will improve the company's financial stability.

AUDITOR'S REPORT

To the Board of Directors of Mahindra Yueda (Yancheng) Tractor Co., Ltd.:

We have audited the accompanying financial statements of **Mahindra Yueda (Yancheng) Tractor Co., Ltd.** ("Mahindra Yueda"), which comprise the balance sheet as at 31 December 2016, and the income statement, the statement of changes in owner's equity and the cash flow statement for the year then ended, and the notes to the financial statements.

1. *Management's responsibility for the financial statements*

   Management of Mahindra Yueda is responsible for the preparation and fair presentation of these financial statements, this responsibility includes: (1) preparing financial statements in accordance with Accounting Standards for Business Enterprises to achieve fair presentation of the financial statements; and (2) designing, implementing and maintaining internal control which is necessary to enable that the financial statements are free from material misstatement, whether due to fraud or error.

2. *Auditor's responsibility*

   Our responsibility is to express an audit opinion on these financial statements based on our audit. We conducted our audit in accordance with China Standards on Auditing. China Standards on Auditing require that we comply with the Code of Ethics for Chinese Certified Public Accountants and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

   An audit involves performing audit procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, Certified Public Accountants consider the internal control relevant to the preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

   We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

3. *Opinion*

   In our opinion, the financial statements of Mahindra Yueda present fairly, in all material respects, the financial position as of 31 December 2016, and the results of operations and cash flows for the year then ended in accordance with Accounting Standards for Business Enterprises.

4. *Other Matter*

   Without qualifying our opinion, we draw attention to the fact that the supplementary information presented in INR is solely for the convenience of users, it does not form part of the audited financial statements. We have not audited the supplementary information and, accordingly, we do not express an opinion on this supplementary information. This paragraph has no impact on the audit opinion expressed in this report.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2016

I. GENERAL

Mahindra Yueda (Yancheng) Tractor Co., Ltd. (the "Company") was a limited company incorporated in Yancheng, Jiangsu on 28 November 2008. The Company principally engages in the production, sales and after-sales service of tractors, mechanised farm implements, other farm machineries and farm machinery parts.

The Company's parent company is Mahindra Overseas Investment Company (Mauritius) Ltd. ("Mahindra Mauritius"), and the ultimate holding company is Mahindra & Mahindra Limited.

On 30 August 2015, the shareholder Jiangsu Yueda Yancheng Tractor Manufacturing Co., Ltd ("Yueda Tractor")signed an equity transfer agreement with Jiangsu Yueda Investment Co., Ltd (Yueda Investment), Yueda Tractor agreed to transfer 49% shares to Yueda Investment. All rights and obligations relating to the original joint venture arrangement are transferred to Yueda Investment. The alteration of the articles of association, appointment of board members, and jointed operation agreement has been completed before 31 December 2015.

Details of capital contributions paid by the investing parties are set out in Note VII.19.

II. STATEMENT OF COMPLIANCE WITH THE ASBE

The financial statements of the Company have been prepared in accordance with Accounting Standards for Business Enterprises, and present truly and completely, the Company's financial position as of 31 December 2016, and the Company's results of operations and cash flows for the year then ended.

III. BASIS OF PREPARATION

At 31 December 2016, the Company's accumulated losses were RMB 426,046,307.52, total current liabilities exceeded total current assets RMB 181,765,013.56. The Company's investors, Mahindra Mauritius and Yueda Investment have undertaken to provide the necessary financial support to enable the Company to continue operations, including an undertaking to provide financial support to the Company when its debts fall due, and not to demand repayment of debts owed by the Company in the foreseeable future. Accordingly, the financial statements have been prepared on a going concern basis.

IV. SIGNIFICANT ACCOUNTING POLICIES AND ACCOUNTING ESTIMATES

1. Accounting year

   The Company has adopted the calendar year as its accounting year, i.e. from 1 January to 31 December.

2. Functional currency

   RMB is the currency of the primary economic environment in which the Company operates. The functional currency of the Company is RMB.

3. Basis of accounting and principle of measurement

   The Company has adopted the accrual basis of accounting. Except for certain financial instruments which are measured at fair value, the Company has adopted the historical cost as the principle of measurement of the financial statements. Where assets are impaired, provisions for asset impairment are made in accordance with relevant requirements.

4. Cash equivalents

   Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

5. Financial Instruments

   When the Company becomes a party to the contractual provisions of a financial instrument, related financial assets or financial liabilities are recognized. Financial assets and financial liabilities are initially recognized at fair value. For financial assets and financial liabilities classified as at fair value through profit or loss, related transaction costs are charged to the profit or loss for the current period; for financial assets and financial liabilities classified as other categories, related transaction costs are included in the initial recognition amounts.

5.1 Effective interest method

The effective interest method is a method of calculating the amortized cost of a financial asset or a financial liability (or a group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period, using the effective interest rate. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial asset or financial liability or, where appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

When calculating the effective interest rate, the Company estimates future cash flows considering all contractual terms of the financial asset or financial liability (without considering future credit losses), and meanwhile considers all fees paid or received between the parties to the contract giving rise to the financial asset and financial liability that are an integral part of the effective interest rate, transaction costs, and premiums or discounts etc.

5.2 Classification, recognition and measurement of financial assets

On initial recognition, the Company's financial assets are classified into loans and receivables. All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Financial assets classified as loans and receivables by the Company include notes receivable, accounts receivable and other receivables.

Loans and receivables are subsequently measured at amortized cost using the effective interest method. Gains or losses arising from derecognition, impairment or amortization are recognized in profit or loss for the current period.

5.3 Impairment of financial assets

The Company assesses at each balance sheet date the carrying amounts of financial assets other than those at fair value through profit or loss. If there is objective evidence that a financial asset is impaired, the Company determines the amount of any impairment loss. Objective evidence that a financial asset is impaired is evidence that, arising from one or more events that occurred after the initial recognition of the asset, the estimated future cash flows of the financial asset, which can be reliably measured, have been affected.

Objective evidence that a financial asset is impaired includes evidence arising from the following events:

(1) Significant financial difficulty of the issuer or obligor;

(2) A breach of contract by the borrower, such as a default or delinquency in interest or principal payments;

(3) The Company, for economic or legal reasons relating to the borrower's financial difficulty, granting a concession to the borrower;

(4) It is becoming probable that the borrower will enter bankruptcy or other financial reorganizations;

(5) The disappearance of an active market for that financial asset because of financial difficulties of the issuer;

(6) Upon an overall assessment of a group of financial assets, observable data indicates that there is a measurable decrease in the estimated future cash flows from the group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial assets in the group, including:

   – Adverse changes in the payment status of borrowers in the group;

– National or local economic conditions that correlate with the defaults on the assets in the group;

(7) Significant changes with an adverse effect that have taken place in the technological, market, economic or legal environment in which the issuer operates, indicating that the cost of the investment in the equity instrument may not be recovered by the investor;

(8) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost;

(9) Other objective evidence indicating there is an impairment of a financial asset.

Impairment of financial assets carried at amortised cost

If financial assets carried at amortised cost are impaired, the carrying amounts of the financial assets are reduced to the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The amount of reduction is recognized as an impairment loss in profit or loss. If, subsequent to the recognition of an impairment loss on financial assets carried at amortized cost, there is objective evidence of a recovery in value of the financial assets which can be related objectively to an event occurring after the impairment is recognized, the previously recognized impairment loss is reversed. However, the reversal does not result in a carrying amount of the financial asset that exceeds what the amortized cost would have been had the impairment not been recognized at the date the impairment is reversed.

For a financial asset that is individually significant, the Company assesses the asset individually for impairment. For a financial asset that is not individually significant, the Company assesses the asset individually for impairment or includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. If the Company determines that no objective evidence of impairment exists for an individually assessed financial asset (whether significant or not), it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets for which an impairment loss is individually recognized are not included in a collective assessment of impairment.

5.4 Derecognition of financial assets

The Company derecognizes a financial asset only when: (1) the contractual rights to receive the cash flows from the financial asset expire; or (2) it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to the transferee; or (3) it transfers the financial asset, neither transfers nor retains substantially all the risks and rewards of ownership but has not retained control of the financial asset.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership of a financial asset, and it retains control of the financial asset, it recognizes the financial asset to the extent of its continuing involvement in the transferred financial asset and recognizes an associated liability. The extent of the Company's continuing involvement in the transferred asset is the extent to which it is exposed to changes in the value of the transferred asset.

For a transfer of a financial asset in its entirety that satisfies the derecognition criteria, the difference between (1) the carrying amount of the financial asset transferred; and (2) the sum of the consideration received from the transfer and any cumulative gain or loss that has been recognized in other comprehensive income, is recognized in profit or loss.

If a part of the transferred financial asset qualifies for derecognition, the carrying amount of the transferred financial asset is allocated between the part that continues to be recognized and the part that is derecognized, based on the respective fair values of those parts. The difference between (1) the carrying amount allocated to the part derecognized; and (2) the sum of the consideration received for the part derecognized and any cumulative gain or loss allocated to the part derecognized which has been previously recognized in other comprehensive income, is recognized in profit or loss.

5.5 Classification, recognition and measurement of financial liabilities

The Company classifies debt instruments into financial liabilities on the basis of the substance of the contractual arrangements and definitions of financial liability.

On initial recognition, financial liabilities are classified into other financial liabilities.

Other financial liabilities

Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with gain or loss arising from derecognition or amortization recognized in profit or loss.

5.6 Derecognition of financial liabilities

The Company derecognizes a financial liability (or part of it) only when the underlying present obligation (or part of it) is discharged. An agreement between the Company (an existing borrower) and an existing lender to replace the original financial liability with a new financial liability with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

When the Company derecognizes a financial liability or a part of it, it recognizes the difference between the carrying amount of the financial liability (or part of the financial liability) derecognized and the consideration paid (including any non-cash assets transferred or new financial liabilities assumed) in profit or loss.

5.7 Offsetting financial assets and financial liabilities

Where the Company has a legal right that is currently enforceable to set off the recognized amounts, and intends either to settle on a net basis, or to realize the financial asset and settle the financial liability simultaneously, a financial asset and a financial liability shall be offset and the net amount presented in the balance sheet. Except for the circumstances above, financial assets and financial liabilities shall be presented separately in the balance sheet and shall not be offset.

5.8 Equity instruments

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity.

No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

6. Inventories

The Company's inventories mainly include raw materials, work in progress-outsourced, work in process and finished goods. Inventories are initially measured at cost. Cost of inventories comprises all costs of purchase, costs of conversion and other expenditures incurred in bringing the inventories to their present location and condition.

Inventories are accounted for using the weighted average method upon delivery.

At the balance sheet date, inventories are measured at the lower of cost and net realizable value. If the cost of inventories is higher than the net realizable value, a provision for decline in value of inventories is made.

Net realizable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale and relevant taxes. Purpose of inventories being held and effect of the post balance sheet events shall be taken into consideration in determining the net realizable value based on the conclusive evidence available.

Provision for decline in value of inventories is made based on the excess of cost of inventory compared with its net realizable value on an item-by-item basis.

After provision for decline in value of inventories is made, if the circumstances that previously caused inventories to be written down no longer exist, resulting in the cost of inventories being higher than their net realizable value, the original provision for decline in value is reversed and the reversal in included in profit or loss for the current period.

The perpetual inventory system is adopted for stock count.

7. Fixed assets and depreciation

Fixed assets are tangible assets that are held for use in the production or supply of services, for rental to others, or for administrative purposes and have useful lives more than one accounting year. A fixed asset is recognized only when it is probable that economic benefits associated with the asset will flow to the Company and the cost of the asset can be measured reliably. Fixed assets are initially measured at cost.

If it is probable that economic benefits associated with the asset will flow to the Company and the cost of the asset can be measured reliably. Subsequent expenditures incurred for the fixed asset are included in the cost of the fixed asset. Other subsequent expenditures are recognized in profit or loss in the period in which they are incurred.

Depreciation of a fixed asset is provided over its useful life using the straight-line method since the month subsequent to the one in which it is ready for intended use. The useful life, estimated net residual value rate and annual depreciation rate of each category of fixed assets are as follows:

Classes	Useful life	Estimated net residual value rates	Annual depreciation rates
Buildings	12-40 years	2%	2.5-8.2%
Plant and machinery	10 years	2%	9.8%
Electronic equipment, furniture and fixtures	6 years	2%	16.3%
Motor vehicles	6-10 years	2%	9.8-16.3%

Estimated net residual value of a fixed asset is the estimated amount that the Company would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life.

If a fixed asset is on disposal or no future economic benefits are expected to be generated from its use or disposal, the fixed asset is derecognized. When a fixed asset is sold, transferred, retired or damaged, the amount of any proceeds on disposal of the asset net of the carrying amount and related taxes is recognized in profit or loss for the period.

The Company reviews the useful life and estimated net residual value of a fixed asset and the depreciation method applied at least at each financial year-end, and account for any change as a change in an accounting estimate.

8. Construction in progress

Cost of construction in progress is determined as the expenditure actually incurred for the construction, comprising all expenditure incurred for construction projects, capitalized borrowing costs incurred on a specific borrowing for the construction before it has reached working condition for its intended use, and other related expenses. No deprecation is provided for construction in progress. Construction in progress is transferred to a fixed asset when it is ready for intended use.

9. Intangible assets

Intangible assets include land use rights, trademark and software.

An intangible asset is measured initially at cost. When an intangible asset with a finite useful life is available for use, its original cost is amortized over its estimated useful life using the straight-line method.

For an intangible asset with a finite useful life, the Company reviews the useful life and amortization method at the end of the period, and makes adjustments when necessary.

9.1. Research and development expenditure

Expenditure on the research phase is recognized in profit or loss in the period in which it is incurred.

Expenditure on the development phase is recognized as an intangible asset only when the Company can demonstrate all of the following below. Otherwise, it is charged to profit or loss:

(1) The technical feasibility of completing the intangible asset so that it will be available for use or sale;

(2) Its intention to complete the intangible asset and use or sell it;

(3) How the intangible asset will generate economic benefits. Among other things, the Company can demonstrate the existence of a market for the output of the intangible asset or the intangible asset itself or, if it is to be used internally, the usefulness of the intangible asset;

(4) The availability of adequate technical, financial and other resources to complete the development and the ability to use or sell the intangible asset; and

(5) Its ability to measure reliably the expenditure attributable to the intangible asset during its development phase.

If the expenditure on the research phase and on the development phase cannot be identified, the expenditure incurred should be recognized in full in profit or loss for the current period.

10. Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that fixed assets, construction in progress, intangible assets with finite useful life may be impaired. If there is any indication that such assets may be impaired, recoverable amounts are estimated for such assets.

Recoverable amount is estimated on individual basis. If it is not possible to estimate the recoverable amount of an individual asset, the Company determines the recoverable amount of the asset group to which the asset belongs. The recoverable amount is the higher of an asset's or an asset group's fair value less costs to sell and the present value of the future cash flows expected to be derived from the asset group.

If the recoverable amount of an asset or an asset group is less than its carrying amount, the difference is recognized in profit or loss and provision for impairment loss of the asset is recognized accordingly.

Once an impairment loss on the above assets is recognized, it is not reversed in a subsequent period.

11. Estimated liabilities

An obligation related to a contingency is recognized as a provision when all of the following conditions are satisfied: (1) the obligation is a present obligation of the Company; (2) it is probable that an outflow of economic benefits will be required to settle the obligation; and (3) the amount of the obligation can be measured reliably.

At the balance sheet date, a provision is measured at the best estimate of the expenditure required to settle the related present obligation, taking into account the factors pertaining to a contingency such as the risks, uncertainties and time value of money.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

12. Employee benefits

In the accounting period in which an employee has rendered services, the Company recognizes the employee benefits payable for those services as a liability.

Expenditure related to payments for employees' social welfare system established by the State, including pensions, medical insurance, housing funds and other social welfare contributions, is included in the cost of related assets or profit or loss for the period in which they are incurred.

13. Revenue recognition

13.1 Revenue from the sale of goods

Revenue from the sale of goods is recognized only when all of the following conditions are satisfied: (1) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods; (2) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold; (3) the amount of revenue can be measured reliably; (4) it is probable that the associated economic benefits will flow to the Company; and (5) the associated costs incurred or to be incurred can be measured reliably.

14. Government grants

Government grants are the transfer of monetary assets from the government to the Company at no consideration. A government grant is recognized when the Company complies with the conditions attaching to the grant and when the Company is able to receive the grant.

If the government grant is a monetary asset, the government grant should be recognized by the amount received or receivable.

A government grant related to an asset is recognised as deferred income, and evenly amortised to profit or loss over the useful life of the related asset.

For a government grant related to income, if the grant is a compensation for related expenses or losses to be incurred in subsequent periods, the grant is recognized as deferred income, and recognized in profit or loss over the periods in which the related costs are recognized; if the grant is a compensation for related expenses or losses already incurred, the grant is recognized immediately in profit or loss for the current period.

15. Borrowing costs

For borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset, capitalization of such borrowing costs can commence only when all of the following conditions are satisfied: (1) expenditures for the asset are being incurred; (2) borrowing costs are being incurred; and (3) activities relating to the acquisition, construction or production of the asset that are necessary to prepare the asset for its intended use or sale have commenced. Capitalization of such borrowing costs ceases when the qualifying assets being acquired, constructed or produced become ready for their intended use or sale.

The amount of other borrowing costs incurred is recognized as expenses in the period in which they are incurred.

Where funds are borrowed under a specific-purpose borrowing, the amount of interest to be capitalized is the actual interest expense incurred on that borrowing for the period less any bank interest earned from depositing the borrowed funds before being used on the asset or any investment income on the temporary investment of those funds. Where funds are borrowed under general-purpose borrowings, the amount of interest to be capitalized on such borrowings is determined by applying a capitalization rate to the weighted average of the excess amounts of cumulative expenditure on the asset over and above the amounts of specific-purpose borrowings. The capitalization rate is the weighted average of the interest rates applicable to the general-purpose borrowings.

16. Income taxes

Income taxes include current income taxes, deferred tax assets and deferred tax liabilities.

16.1. Current income taxes

At the balance sheet date, current income tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid (or recovered) according to the requirements of tax laws.

16.2. Deferred tax assets and deferred tax liabilities

Temporary differences arising from the difference between the carrying amount of an asset or liability and its tax base, or the difference between the tax base and the carrying amount of those items that are not recognized as assets or liabilities but have a tax base that can be determined according to tax laws, are recognized as deferred tax assets and deferred tax liabilities using the balance sheet liability method.

Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets for deductible temporary differences are recognized to the extent that it is probable that taxable profits will be available against which the deductible temporary differences can be utilized. However, for temporary differences associated with the initial recognition of goodwill or the initial recognition of an asset or liability arising from a transaction that is not a business combination and does not affect neither the accounting profit nor taxable profits (or deductible losses) at the time of transaction, no deferred tax asset or liability is recognized.

For the carry forward of deductible losses and tax credits, deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which the deductible losses and tax credits can be utilized.

At the balance sheet date, deferred tax assets and liabilities are measured at the tax rates, which are expected to apply to the period in which the asset is realized or the liability is settled according to tax laws.

Current and deferred tax expenses or income are recognized in profit or loss for the current period, except when they arise from transactions or events that are directly recognized in other comprehensive income or in equity, in which case they are recognized in other comprehensive income or in equity, and when they arise from business combinations, in which case they adjust the carrying amount of goodwill.

At the balance sheet date, the carrying amount of deferred tax assets is reviewed and reduced if it is no longer probable that sufficient taxable profits will be available in the future to allow the benefit of deferred tax assets to be utilized. Any such reduction in amount is reversed when it becomes probable that sufficient taxable profits will be available.

16.3. Offset of deferred tax assets and deferred tax liabilities

When the Company has a legal right to settle on a net basis and intends either to settle on a net basis or to realize the assets and settle the liabilities simultaneously, current tax assets and current tax liabilities are offset and presented on a net basis.

When the Company has a legal right to settle current tax assets and liabilities on a net basis, and deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities which intend either to settle current tax assets and liabilities on a net basis or to realize the assets and liabilities simultaneously, in each future period in which significant amounts of deferred tax assets or liabilities are expected to be reversed, deferred tax assets and deferred tax liabilities are offset and presented on a net basis.

17. Translations of transactions denominated in foreign currencies

A foreign currency transaction is recorded, on initial recognition in the functional currency, by applying an exchange rate that approximates the actual spot exchange rate on the date of transaction.

At the balance sheet date, foreign currency monetary items are translated into RMB using the spot exchange rate at the balance sheet date. Exchange differences arising from the differences between the spot exchange rate prevailing at the balance sheet date and those spot rates used on initial recognition or at the previous balance sheet date are recognized in profit or loss for the current period.

Foreign currency non-monetary items measured at historical cost continue to be translated at the spot exchange rates at the dates of transactions, the amounts in functional currency remain unchanged. Foreign currency non-monetary items carried at fair value are translated using the spot exchange rates at the date when the fair value was determined. Differences between the translated amount and the original amount of functional currency are accounted for as changes in fair value (including changes in foreign exchange rates) and included in profit or loss for the period or owners' equity.

18. Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

18.1. The Company records operating leases as lessee

Operating lease payments are recognized on a straight-line basis over the term of the relevant lease, and are either included in the cost of related asset or charged to profit or loss for the current period. Initial direct costs incurred are charged to profit or loss for the period. Contingent rents are charged to profit or loss in the period in which they are actually incurred.

V. BASIS OF DETERMINING SIGNIFICANT ACCOUNTING POLICIES AND KEY ASSUMPTIONS AND UNCERTAINTIES IN ACCOUNTING ESTIMATES

In the application of the Company's accounting policies, which are described in Note IV, the Company is required to make judgments, estimates and assumptions about the carrying amounts of items in the financial statements that cannot be measured accurately, due to the internal uncertainty of the operating activities. These judgments, estimates and assumptions are based on historical experiences of the Company's management as well as other factors that are considered to be relevant. Actual results may differ from these estimates.

The aforementioned judgments, estimates and assumptions are reviewed regularly on a going concern basis. The effect of a change in accounting estimate is recognized in the period of the change, if the change affects that period only; or recognized in the period of the change and future periods, if the change affects both.

– Critical judgments in applying accounting policies

Useful lives of fixed assets and intangible assets

The Company reviews the useful lives of fixed assets and intangible assets at least at each financial year-end. When the re-estimation results regarding the useful lives of fixed assets and intangible assets differ from the existing estimate, the difference will affect the net book value of fixed assets and intangible assets in the period of the change.

Impairment of non-current assets

The Company evaluates evidences of impairment for non-current assets (with exception of financial assets) on balance sheet date. Impairment tests are implemented when evidences indicate book value is not fully recoverable. Impairment exists when book value of assets or asset groups exceeds recoverable value, which equals to net value derived from fair value minus disposal cost, or present value of predicted future cash flow, whichever is higher. When determining present value of predicted future cash flow, management shall predict future cash flow for assets or asset groups and apply appropriate discount rate in order to arrive at present value of future cash flow. As at 31 December 2016, balance of fixed asset impairment of the Company is RMB5,289,726.68 (as at 31 December 2015: 0), balance of intangible asset impairment of the Company is RMB15,110,777.91 (as at 31 December 2015: 0).

Provision for decline in value of inventories

The Company's inventories are measured at the lower of cost and net realizable value. If the cost of inventories is higher than the net realizable value, a provision for decline in value of inventories shall be recognized. The provision for decline in value of inventories requires judgments and estimate. If re-estimation results differ from the existing estimates, the difference will affect the net book value of inventories in the period of the change. As at 31 December 2016, balance of inventory impairment of the Company is RMB22,144,351.86 (as at 31 December 2015: RMB16,929,277.24).

Impairment of accounts receivable

The Company recognizes bad debt on the based on judgments of collectability of receivables. If there is objective evidence that account receivables could not be received, the bad debt should be recognized. The determination of bad debts requires judgments and estimates. IX. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's major financial instruments include currency funds, notes receivable, accounts receivable, other receivables, notes payable, short term loan, account payables and other payables. Details of these financial instruments are disclosed in Note VII. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

1. Risk management objectives and policies

The Company's risk management objectives are to achieve proper balance between risks and yield, minimise the adverse impacts of risks on the Company's operation performance, and maximise the benefits of the shareholders and other equity investors. Based on these risk management objectives, the Company's basic risk management strategy is to identify and analyse the industry's exposure to various risks, establish appropriate bottom line for risk tolerance, implement risk management, and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

1.1. Market risk

1.1.1. Currency risk

Currency risk is the risk that losses will occur because of changes in foreign exchange rates. The Company's exposure to the currency risk is primarily associated with USD. Except for overseas sales denominated in USD, the Company's other principal activities are denominated and settled in RMB. As at 31 December 2015, except for the following assets denominated in USD, the other assets and liabilities balances are all denominated in RMB. Those assets denominated in USD are exposed to currency risk and may influence the operating results of the Company.

	2016 RMB	2015 RMB
Currency funds	**570,538.28**	**706,806.73**

The Company closely monitors the effects of changes in the foreign exchange rates on the Company's currency risk exposures. Currently, the Company has not taken any measurements to mitigate the currency risk.

1.1.2. Interest rate risk - risk of changes in cash flow

The Company's cash flow interest risk relates primarily to variable-rate borrowings through the variable-rate bank borrowings. As at 31 December 2016, no variable-rate bank borrowing is taken by the Company (2015: RMB175,000,000.00).

1.2. Credit risk

As at 31 December 2016, the Company's maximum exposure to credit risk which will cause a financial loss to the Company due to failure to discharge an obligation by the counterparties.

In order to minimize the credit risk, the Company has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Company reviews the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the management of the Company consider that the Company's credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

The Company has adopted a policy of only dealing with creditworthy counterparties, and has no significant concentration of credit risk.

1.3. Liquidity risk

In the management of the liquidity risk, the Company monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Company's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The following is the maturity analysis for financial liabilities held by the Company which is based on undiscounted remaining contractual obligations:

	Within 1 year RMB	Undiscounted cash flows RMB	Net book value RMB
Financial liabilities:			
Short-term borrowings	314,596,758.28	314,596,758.28	310,000,000.00
Notes payable	74,187,594.20	74,187,594.20	74,187,594.20
Accounts payable	125,146,470.00	125,146,470.00	125,146,470.00
Interest payable	1,742,494.94	1,742,494.94	1,742,494.94
Other payables	46,990,375.44	46,990,375.44	46,990,375.44
	562,663,692.86	**562,663,692.86**	**558,066,934.58**

2. Fair value

Fair values of the financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions.

The management considers that the carrying amounts of financial assets and financial liabilities recorded at amortized cost in the financial statements approximate their fair values.

3. Sensitivity analysis

The Company adopts sensitivity analysis techniques to analyze how the entity's profit and loss for the period and owners' equity would have been affected by changes in the relevant risk variables that were reasonably possible. As it is unlikely that risk variables will change in an isolated manner, and the interdependence between risk variables will have significant effect on the amount ultimately influenced by the changes in a single risk variable, the following items are based on the assumption that each risk variable has changes on a stand-alone basis.

3.1 Currency risk

Where all other variables are held constant, the reasonably possible changes in the foreign exchange rate may have the following pre-tax effect on the profit or loss for the period or equity:

		2016	2015
Item	Changes in exchange rate	**Effect on profits RMB**	Effect on profits RMB
USD	5% increase against RMB	**2,852.69**	35,340.34
USD	5% decrease against RMB	**(2,852.69)**	(35,340.34)

3.2 Sensitivity analysis on interest rate risk

The sensitivity analyses below have been determined based on the exposure to interest rates for financial instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Company's profit for the year ended 31 December 2016 would decrease/increase by RMB0 (2015: RMB482,397.00). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowing.

V. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company's major financial instruments include currency funds, notes receivable, accounts receivable, other receivables, notes payable, short-term loans, account payables and other payables. Details of these financial instruments are disclosed in Note III. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

1. Risk management objectives and policies

The Company's risk management objectives are to achieve proper balance between risks and yield, minimise the adverse impacts of risks on the Company's operation performance, and maximise the benefits of the shareholders and other equity investors. Based on these risk management objectives, the Company's basic risk management strategy is to identify and analyse the industry's exposure to various risks, establish appropriate bottom line for risk tolerance, implement risk management, and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

1.1. Market risk

1.1.1. Currency risk

Currency risk is the risk that losses will occur because of changes in foreign exchange rates. The Company's exposure to the currency risk is primarily associated with USD. Except for overseas sales denominated in USD, the Company's other principal activities are denominated and settled in RMB. As at 31 December 2016, except for the following assets denominated in USD, the other assets and liabilities balances are all denominated in RMB. Those assets denominated in USD are exposed to currency risk and may influence the operating results of the Company.

	2016 INR	2015 INR
Currency funds	**5,579,864.38**	6,912,569.82

The Company closely monitors the effects of changes in the foreign exchange rates on the Company's currency risk exposures. Currently, the Company has not taken any measurements to mitigate the currency risk.

1.1.2. Interest rate risk - risk of changes in cash flow

The Company's cash flow interest risk relates primarily to variable-rate borrowings through the variable-rate bank borrowings. As at 31 December 2016, no variable-rate bank borrowing is taken by the Company (2015: INR1,711,500,000.00).

1.2. Credit risk

As at 31 December 2016, the Company's maximum exposure to credit risk which will cause a financial loss to the Company due to failure to discharge an obligation by the counterparties.

In order to minimize the credit risk, the Company has delegated a team responsible for determination of credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Company reviews the recoverable amount of each individual trade debt at each balance sheet date to ensure that adequate impairment losses are made for irrecoverable amounts. In this regard, the management of the Company consider that the Company's credit risk is significantly reduced.

The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

The Company has adopted a policy of only dealing with creditworthy counterparties, and has no significant concentration of credit risk.

1.3. Liquidity risk

In the management of the liquidity risk, the Company monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Company's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The following is the maturity analysis for financial assets and financial liabilities held by the Company which is based on undiscounted remaining contractual obligations:

	Within 1 year INR	Undiscounted cash flows INR	Net book value INR
Financial liabilities:			
Short-term borrowings	3,076,756,295.98	3,076,756,295.98	3,031,800,000.00
Notes payable	725,554,671.28	725,554,671.28	725,554,671.28
Accounts payable	1,223,932,476.60	1,223,932,476.60	1,223,932,476.60
Interest payable	17,041,600.51	17,041,600.51	17,041,600.51
Other payables	459,565,871.80	459,565,871.80	459,565,871.80
	5,502,850,916.17	**5,502,850,916.17**	**5,457,894,620.19**

2. Fair value

Fair values of the financial assets and financial liabilities are determined in accordance with generally accepted pricing models based on discounted cash flow analysis or using prices from observable current market transactions.

The management considers that the carrying amounts of financial assets and financial liabilities recorded at amortized cost in the financial statements approximate their fair values.

3. Sensitivity analysis

The Company adopts sensitivity analysis techniques to analyze how the entity's profit and loss for the period and owners' equity would have been affected by changes in the relevant risk variables that were reasonably possible. As it is unlikely that risk variables will change in an isolated manner, and the interdependence between risk variables will have significant effect on the amount ultimately influenced by the changes in a single risk variable, the following items are based on the assumption that each risk variable has changes on a stand-alone basis.

3.1. Currency risk

Where all other variables are held constant, the reasonably possible changes in the foreign exchange rate may have the following pre-tax effect on the profit or loss for the period or equity:

		2016	2015
Item	Changes in exchange rate	**Effect on profits INR**	Effect on profits INR
USD	5% increase against RMB	**27,899.31**	345,628.53
USD	5% decrease against RMB	**(27,899.31)**	(345,628.53)

3.2 Sensitivity analysis on interest rate risk

The sensitivity analyses below have been determined based on the exposure to interest rates for financial instruments at the end of the reporting period. For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Company's profit for the year ended 31 December 2016 would decrease/increase by INR 0.00(2015: INR4,717,842.66). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowing.

However, the proposed dividend was accounted for as liability as at 31st March, 2016 in accordance with the then existing Accounting Standard.

TRANSFER TO RESERVES

The Company proposes to transfer an amount of Rs. 40.0 Crores to the General Reserve, Rs. 80.1 Crores to the Statutory Reserve and Rs. 26.5 Crores to the Debenture Redemption Reserve. An amount of Rs. 2,489.0 Crores is proposed to be retained in the Statement of Profit and Loss.

DIVIDEND

Your Directors are pleased to recommend a dividend of Rs. 2.4 per Equity Share of the face value of Rs. 2 each payable to those Members whose names appear in the Register of Members as on the Book Closure date. The dividend including dividend tax will absorb a sum of Rs. 161.0 Crores [as against Rs. 271.3 Crores on account of dividend of Rs. 4 per Equity Share paid for the previous year].

DIVIDEND DISTRIBUTION POLICY

The Board of Directors of the Company at its Meeting held on 25th October, 2016, has approved and adopted the Dividend Distribution Policy of the Company, containing the requirements prescribed in Regulation 43A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015. The Policy is appended as **Annexure I** and forms part of this Annual Report.

The Dividend Distribution Policy can also be accessed on the Company's website at the web-link: **http://www.mahindrafinance.com/policies.aspx**.

During the year, an amount of Rs. 2,54,886 being the unclaimed/unpaid dividend of the Company for the Financial Year ended 31st March, 2009 was transferred in August, 2016 to the Investor Education and Protection Fund.

OPERATIONS

Rural demand continued to be sluggish in the early part of the year due to deficient monsoons in the previous two consecutive years coupled with lack of sufficient investment in infrastructure. However, the situation showed signs of impending revival with a good monsoon but faced a temporary slowdown in the third quarter due to demonetisation causing deceleration in the economic growth.

Being largely engaged in the semi-urban and rural areas of the country, many of the Company's customers earn their livelihood in cash. It is well known that over 40% of the rural population does not have a bank account and easy access to banking network as there are relatively fewer bank branches in these areas and they are few and far between. Hence most of the Company's customers prefer to repay their monthly installments in cash.

As per Gazette Notification dated 8th November, 2016 issued by the Government of India, announcing the discontinuance of Rs. 1,000 and Rs. 500 denominations of Bank Notes ("Specified Bank Notes") from 9th November, 2016 the demonetisation impact was severely felt in rural India substantially impacting business and collections of your Company. The effect of demonetisation stretched and continued almost till mid-February 2017 and the Company did see elevated levels of gross Non-Performing Assets. The effect of demonetisation was also felt severely in the sale of crops (even though the yields were good) resulting in low cash flows. Post mid-February 2017, there has been a significant improvement in the farm cash flows, which is a result of cash being released to farmers against their sale of crops to Mandis. The rural sentiments turned positive and the Company did see an improvement in its performance, both in sales as well as overall collections.

Your Company continued to offer a wide range of financial products and services to its customers during the year under review. Your Company was at the forefront of meeting the various lifecycle needs of its customers by consistently expanding its product offerings beyond vehicle financing. In order to effectively service its diversified product portfolio, the Company engages its employees with appropriate training programs.

Despite the challenging business environment, the overall disbursement registered a growth of 19% at Rs. 31,659.1 Crores as compared to Rs. 26,706.3 Crores in the previous year. Your Company was able to retain its leadership position in financing the Mahindra range of vehicles and tractors in addition to extending its lending to vehicles of other Original Equipment Manufacturers (OEMs).

Your Company yet again consolidated its position as a leading financier for Maruti vehicles in semi-urban and rural India by financing over 1,00,000 vehicles during this fiscal and also successfully emerged as the preferred financier for Hyundai, Renault and Nissan range of vehicles.

Your Company strengthened its pan-India presence with a network of 1,182 offices, which is one of the largest amongst Non-Banking Financial Companies. In addition to these offices, your Company has set up over 180 smart branches at dealerships of OEMs and works closely with dealers and customers. Your Company's nationwide network of branches and locally recruited employees have facilitated in catering to the diverse financial requirements of its customers by identifying and understanding the needs and aspirations of the people. Your Company continues to be focused in introducing technology based solutions and demonstrates effective use of its resources to enhance customer service and provide a range of financial solutions for a variety of needs. Your Company has earned the trust and confidence of its customers with its consistent, transparent and reliable services. With its strong presence covering even the most remote areas of the country, your Company is providing flexible financing opportunities to aspiring individuals to realise their dreams and helping them to 'RISE'.

Your Company has cumulatively financed over 4.7 million customers since its inception.

The Goods and Services Tax (GST), a single tax intended to replace the existing Central and State indirect taxes, is expected to be rolled-out from 1st July, 2017. The GST will have a short term volume impact as well as medium term margin impact on business and recoveries.

During the year under review, your Company continued to expand its reach in the Micro, Small and Medium Enterprises (MSME) segment. MSME Assets Under Management crossed more than Rs. 2,960 Crores during the period under review, covering 1,911 customers.

Total Income grew by 5.6% to Rs. 6,237.5 Crores for the year ended 31st March, 2017 as compared to Rs. 5,905.1 Crores for the previous year. Profit Before Tax (PBT) declined by 40.3% to Rs. 620.1 Crores as compared to Rs. 1,038.2 Crores for the previous year. Profit After Tax (PAT) declined by 40.5% to Rs. 400.2 Crores as compared to Rs. 672.6 Crores in the previous year.

During the year under review, the Assets Under Management stood at Rs. 46,776 Crores as at 31st March, 2017 as against Rs. 40,933 Crores as at 31st March, 2016, a growth of 14%.

There is no change in the nature of business of the Company during the year under review.

DISTRIBUTION OF MUTUAL FUND PRODUCTS

During the year under review, the activity of distribution of Mutual Fund Products (MFP) was carried out across 160 branches covering 23 States. As on 31st March, 2017, the amount of Assets Under Management outstanding through the Company's Advisory and Distribution Services on MFP, aggregate of institutional and retail segment, was Rs. 1,705.57 Crores and the number of clients stood at 53,785.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

A detailed analysis of the Company's performance is discussed in the Management Discussion and Analysis Report, which forms part of this Annual Report.

CORPORATE GOVERNANCE

Your Company practices a culture that is built on core values and ethical governance practices and is committed to transparency in all its dealings. A Report on Corporate Governance along with a Certificate from the Statutory Auditors of the Company regarding compliance with the conditions of Corporate Governance as stipulated in Regulations 17 to 27, clauses (b) to (i) of sub-regulation (2) of Regulation 46 and paragraphs C, D and E of Schedule V of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 are annexed to this Report.

SHARE CAPITAL

The issued, subscribed and paid-up Equity Share Capital as on 31st March, 2017 was Rs. 113.75 Crores comprising of 56,87,64,960 Equity Shares of the face value of Rs. 2 each.

There was no change in Share Capital during the year under review.

The Company has neither issued shares with differential rights as to dividend, voting or otherwise, nor has issued sweat equity, other than Employee Stock Options under the Employees' Stock Option Scheme referred to in this Report, during the year under review.

As on 31st March, 2017, none of the Directors of the Company holds instruments convertible into Equity Shares of the Company.

STOCK OPTIONS

During the year under review, on the recommendation of the Nomination and Remuneration Committee of your Company, the Trustees of the Mahindra & Mahindra Financial Services Limited Employees' Stock Option Trust have granted 2,17,400 Stock Options to Eligible Employees under the Mahindra & Mahindra Financial Services Limited Employees' Stock Option Scheme–2010 ("2010 Scheme"). No new Options have been granted under the Mahindra & Mahindra Financial Services Limited Employees' Stock Option Scheme–2005 ("2005 Scheme") [hereinafter collectively referred to as "the Schemes"]. The Company does not have any scheme to fund its employees to purchase the shares of the Company. No employee has been issued stock options during the year, equal to or exceeding 1% of the issued capital of the Company at the time of grant.

The Schemes of the Company are in compliance with the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 ("SBEB Regulations") and there were no material changes made to the said Schemes. Messrs. B. K. Khare & Co., Statutory Auditors of the Company, have certified that the abovementioned Schemes have been implemented in accordance with the SBEB Regulations, and the Resolutions passed by the Members for the 2005 Scheme and the 2010 Scheme. The Certificate would be placed at the Annual General Meeting for inspection by Members.

Voting rights on the Shares issued to employees under the aforesaid Schemes are either exercised by them directly or through their appointed proxy.

The details of the Employees' Stock Options and the Company's Employees' Stock Option Trust as required under the SBEB Regulations read with SEBI Circular CIR/CFD/POLICY CELL/2/2015 dated 16th June, 2015 have been uploaded on the Company's website and can be accessed at the web-link: **http://www.mahindrafinance.com/annual-reports.aspx**.

ECONOMY

Global

Economic activity gained some momentum in the second half of 2016, especially in advanced economies. Growth picked up in the United States as firms grew more confident about future demand and inventories started contributing positively to growth (after five quarters of drag). Growth also remained solid in the United Kingdom, where spending proved resilient in the aftermath of the June 2016 referendum in favour of leaving the European Union (Brexit). Activity surprised on the upside in Japan thanks to strong net exports, as well as in euro area countries, such as Germany and Spain, as a result of strong domestic demand. Economic performance across emerging markets and developing economies has remained mixed. Whereas China's growth remained strong, reflecting continued policy support, activity has slowed in India because of the impact of the currency exchange initiative, as well as in Brazil, which has been mired in a deep recession. Activity remained weak in fuel and non-fuel commodity exporters more generally, while geopolitical factors held back growth in parts of the Middle East and Turkey.

World growth, estimated as in the October 2016 World Economic Outlook at 3.1% in 2016, is projected to increase to 3.5% in 2017 and 3.6% in 2018 - an upward revision of 0.1 percentage point for 2017 relative to October. Together with the modest change in the forecast for the overall global growth rate, projections of the strength of economic activity across country groups have also shifted. Economic activity in advanced economies as a group is now forecast to grow by 2.0% in 2017 and 2018, 0.2 percentage point higher than expected in October 2016. Growth in the group of emerging market and developing economies is forecast to rise to 4.5% and 4.8%, respectively, in 2017 and 2018, from an estimated outturn of 4.1% in 2016.

Domestic

Economic activity has been losing momentum since second half of 2015-16 on a combination of structural and cyclical factors. On a year-on-year basis, this trajectory was dented further by the transient impact of demonetisation. Both private and government consumption demand have held up well against this slowdown, together accounting for 90% of real gross domestic product (GDP) growth in second half of 2016-17 on a weighted contribution basis. Investment demand, which had sunk into contraction in first-half, recovered from third quarter of 2016-17. Net exports have been growing strongly since third quarter of 2015-16. The same however turned negative with imports starting to expand at a higher pace than exports as domestic demand strengthened.

Headline inflation fell off its July cliff and was already traversing a declining trajectory during August to October when demonetisation hit in November. This took inflation down to 3.2%, the lowest in the history of India. In February, however, the drag from these transitory effects began to ebb and headline inflation edged up on a pickup in food and fuel price pressures. With the effects of demonetisation turning out to be short-lived and modest, discretionary consumer spending held back by demonetisation is expected to have picked up from Q4:2016-17 and will gather momentum over several quarters ahead. The recovery will also likely be aided by the reduction in banks' lending rates due to large inflows of current and savings accounts ("CASA") deposits, although the fuller transmission impact might be impeded by stressed balance sheets of banks and the tepid demand for bank credit.

The ebullient rebound in agricultural activity on the back of normal monsoon and record foodgrains production have boosted rural incomes and supported consumption. In contrast, the modest pick-up in industry in second half of 2016-17 and the slower growth in services suggests that investment demand is still sluggish.

Going forward, implementation of the Goods and Services Tax ("GST") and the measures taken in the Union Budget to boost the rural economy, infrastructure, micro, small and medium enterprises ("MSMEs") and low cost housing should help invigorate domestic demand. However, a sustained revival of investment holds the key to stepping up the pace of economic activity closer to its medium-term potential.

Finance

During the current year, the monetary policy framework ushered in amendments to the Reserve Bank of India Act, 1934 wherein the monetary policy decision is now vested in a six member monetary policy committee (MPC). Following its decision to lower the policy repo rate by 25 basis points (bps) at the time of the October 2016 Monetary Policy Report (MPR), the MPC decided to hold the policy rate in the December 2016 and February 2017 meetings of its bi-monthly schedule. The Reserve Bank of India (RBI) also changed in stance from accommodative to neutral in the bi-monthly monetary policy of February 2017.

Yields in the government securities (G-sec) market remained volatile in H2, induced by three major events. First, G-sec yields softened in October 2016 following the 25 bps policy repo rate cut by the RBI. Second, G-sec yields softened significantly after the announcement of demonetisation and the resultant surge of liquidity in the system.

The yield on the benchmark 10-year paper dropped from 6.80% on 8th November, 2016 to 6.19% on 24th November, 2016. Third, G-sec yields hardened in February 2017 and the yield curve steepened in response to the unexpected shift in the monetary policy stance of the RBI from accommodative to neutral.

During F.Y. 2016-17, the banks witnessed huge inflows post demonetisation, leading to reduction in their term deposit rates. With increasing deposits at lower rates, banks were able to reduce their Marginal Cost of Lending Rates (MCLR), which on an average declined by a cumulative 70 bps (range of 25 bps – 148 bps) since November 2016. Your Company has also received benefit of the reduction in interest rate. While the new loans are borrowed on MCLR, your Company also plans to shift its existing bank rate borrowings to MCLR as well.

Private Placement Issues of Non-Convertible Debentures

During the year under review, your Company issued secured redeemable non-convertible debentures ("NCDs") aggregating to Rs. 6,903.20 Crores on a private placement basis, in one or more series/tranches.

As specified in the respective offer documents, the funds raised from NCDs were utilised for the purpose of financing, repayment of dues of other financial institutions/Banks and for long term working capital.

Public Issuance of Non-Convertible Debentures

Your Company continues to broaden the liability mix by bringing in new instruments as well as diversifying the investor base and profile.

During the year under review, your Company successfully completed its maiden public issue of 1,00,00,000 Unsecured Subordinated Redeemable Non-Convertible Debentures ("NCDs") of face value of Rs. 1,000 each aggregating up to Rs. 1,000 Crores. The Issue was subscribed over 7 times of the Base Issue Size. This is an acknowledgment of the confidence reposed in your Company's Management by the investors and public at large and the strong credit profile of your Company over the years. The NCDs were allotted on 6th June, 2016 and listed on BSE Limited on 8th June, 2016.

The net proceeds received from the Public Issue were used for the purpose of onward lending, financing, refinancing the existing indebtedness of the Company, long term working capital requirements, issue expenses and for general corporate purposes. Details of the issue and the end use were furnished to the Audit Committee.

The Company has been regular in making payments of principal and interest on the NCDs. There are no NCDs which have not been claimed by investors or not paid by the Company after the date on which the NCDs became due for redemption.

Performance Evaluation of the Board

The Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("the Listing Regulations") stipulate the evaluation of the performance of the Board, its Committees, Individual Directors and the Chairperson.

The Company has formulated a Policy for performance evaluation of the Independent Directors, the Board, its Committees and other individual Directors which includes criteria for performance evaluation of the Non-Executive Directors and Executive Directors.

The evaluation framework for assessing the performance of Directors comprises of various key areas such as attendance at Board and Committee Meetings, quality of contribution to Board discussions and decisions, strategic insights or inputs regarding future growth of the Company and its performance, ability to challenge views in a constructive manner, knowledge acquired with regard to the Company's business/activities, understanding of industry and global trends, etc.

The evaluation involves self-evaluation by the Board Member and subsequent assessment by the Board of Directors. A member of the Board will not participate in the discussion of his/her evaluation.

Pursuant to the provisions of the Companies Act, 2013 and Regulation 17 of the Listing Regulations, the Board has carried out an annual evaluation of its own performance and the Directors individually (including Independent Directors) as well as the evaluation of the working of its Committees.

Feedback was sought by well-defined and structured questionnaires covering various aspects of the Board's functioning such as adequacy of the composition of the Board and its Committees, Board culture, areas of responsibility, execution and performance of specific duties, obligations and governance, compliance, oversight of Company's subsidiaries, etc.

A separate exercise was carried out by the Nomination and Remuneration Committee of the Board to evaluate the performance of individual Directors who were evaluated on several parameters such as level of engagement and contribution, independence of judgment safeguarding the interest of the Company and its minority shareholders and knowledge acquired with regard to the Company's business/ activities.

The performance evaluation of the Non-Independent Directors and the Board as a whole was carried out by the Independent Directors. The performance evaluation of the Chairman of the Company was also carried out by the Independent Directors, taking into account the views of the Executive Directors and Non-Executive Directors.

The performance evaluation of the Independent Directors was carried out by the entire Board excluding the Director being evaluated. Qualitative comments and suggestions of Directors were taken into consideration by the Chairman of the Board and the Chairman of the Nomination and Remuneration Committee. The Directors have expressed their satisfaction with the evaluation process.

ANNEXURE I TO THE BOARD'S REPORT FOR THE YEAR ENDED 31ST MARCH, 2017

DIVIDEND DISTRIBUTION POLICY

PREAMBLE

Regulation 43A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended by the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Second Amendment) Regulations, 2016, ["the Listing Regulations"] makes it mandatory for the top five hundred listed entities based on their market capitalization calculated as on March 31 of every financial year to formulate a Dividend Distribution Policy.

In compliance with the provisions of Regulation 43A of the Listing Regulations the Board of Directors of the Company at its meeting held on 25th October, 2016, has approved and adopted the Dividend Distribution Policy of the Company ["the Policy"]. The Policy shall come into force for accounting periods beginning from 1st April, 2016.

OBJECTIVE

The Policy establishes the principles to ascertain amounts that can be distributed to equity shareholders as dividend by the Company as well as enable the Company strike balance between pay-out and retained earnings, in order to address future needs of the Company.

This Policy aims to ensure that the Company makes rational decision with regard to the amount to be distributed to the shareholders as dividend after retaining sufficient funds for the Company's growth, to meet its long-term objective and other purposes. It lays down various parameters which shall be considered by the Board of Directors of the Company before recommendation/declaration of dividend to its shareholders.

DEFINITIONS

a. "Act" means the Companies Act, 2013 and Rules made thereunder [including any amendments or re-enactments thereof].

b. "Applicable laws" shall mean to include Companies Act, 2013 and Rules made thereunder, [including any amendments or re-enactments thereof], Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, [including any amendments or re-enactments thereof], Rules/guidelines/notifications/circulars issued by the Reserve Bank of India and any other regulation, rules, acts, guidelines as may be applicable to the distribution of dividend.

c. "Board" or "Board of Directors" shall mean Board of Directors of the Company, as constituted from time to time.

d. "Company" shall mean Mahindra & Mahindra Financial Services Limited.

e. "Dividend" includes any interim dividend; which is in conformity with Section 2(35) of the Companies Act, 2013 read with Companies (Declaration and Payment of Dividend) Rules, 2014.

f. "Financial year" shall mean the period starting from 1st day of April and ending on the 31st day of March every year,

g. "Free reserves" shall mean the free reserves as defined under Section 2 (43) of the Act.

h. "Capital to Risk Assets Ratio" (Capital Adequacy Ratio) shall mean the Percentage of Capital Funds to Risk Weighted Assets/Exposures of the Company.

DIVIDEND DISTRIBUTION PHILOSOPHY

Dividends will generally be recommended by the Board once a year, after the announcement of the full year results and before the Annual General Meeting (AGM) of the shareholders, as may be permitted by the Companies Act, 2013. The Board may also declare interim dividends as may be permitted by the Companies Act, 2013.

The Company has had a consistent dividend policy that balances the objective of appropriately rewarding shareholders through dividends and to support the future growth.

Information on dividend for the last 10 years is furnished in the Annual Report.

PARAMETERS ADOPTED WITH REGARD TO VARIOUS CLASSES OF SHARES

i) Dividend would continue to be declared on per share basis on the Equity Shares of the Company having face value of Rs. 2 each. Presently, the Authorised Share Capital of the Company is divided into Equity Shares of Rs. 2 each and Preference Shares of Rs. 100 each. At present, the issued and paid-up share capital of the Company comprises of only Equity Shares of Rs. 2 each which rank pari passu with respect to all their rights. Therefore, dividend declared will be distributed amongst all shareholders, based on their shareholding on the record date. In the event of the Company issuing any other class(es) of shares, it shall consider and specify the other parameters to be adopted with respect to such class(es) of shares.

ii) The Company shall first declare dividend on outstanding preference shares, if any, at the rate of dividend fixed at the time of issue of preference shares and thereafter, the dividend would be declared on Equity Shares.

iii) As and when the Company issues other kind of shares, the Board of Directors may suitably amend this Policy.

FACTORS FOR RECOMMENDATION/DECLARATION OF DIVIDEND

As in the past, subject to the provisions of the applicable law, the Company's dividend payout will be determined based on available financial resources, investment requirements and taking into account optimal shareholder return. Within these parameters, the Company would endeavour to maintain a total dividend pay-out ratio in the range of 20% to 30% of the annual standalone Profits after Tax (PAT) of the Company.

While determining the nature and quantum of the dividend payout, including amending the suggested payout range as above, the Board would take into account the following factors:

Internal Factors (Financial Parameters):

i. Profitable growth of the Company and specifically, profits earned during the financial year as compared with:
   a. Previous years; and
   b. Internal budgets,
ii. Cash flow position of the Company,
iii. Accumulated reserves,
iv. Capital to Risk Assets Ratio (Capital Adequacy Ratio),
v. Transfer to Statutory Reserves as per the Reserve Bank of India Act, 1934,
vi. Transfer to Debenture Redemption Reserve,
vii. Earnings stability,
viii. Future cash requirements for organic growth/expansion and/or for inorganic growth,
ix. Brand acquisitions,
x. Current and future leverage and, under exceptional circumstances, the amount of contingent liabilities,
xi. Deployment of funds in short term marketable investments,
xii. Long term investments,
xiii. Capital expenditure(s), and
xiv. The ratio of debt to equity (at net debt and gross debt level).

External Factors:

i. Business cycles,
ii. Economic environment,
iii. Cost of external financing,
iv. Applicable taxes including tax on dividend,
v. Industry outlook for the future years,
vi. Inflation rate, and
vii. Changes in the Government policies, industry specific rulings and regulatory provisions.

Apart from the above, the Board also considers past dividend history and sense of shareholders' expectations while determining the rate of dividend. The Board may additionally recommend special dividend in special circumstances.

CIRCUMSTANCES UNDER WHICH THE SHAREHOLDERS OF THE COMPANY MAY OR MAY NOT EXPECT DIVIDEND

The shareholders of the Company may not expect dividend in the below mentioned circumstances:

i. In the event of a growth opportunity where the Company may be required to allocate a significant amount of capital.
ii. In the event of higher working capital requirement for business operations or otherwise.
iii. In the event of inadequacy of cashflow available for distribution.
iv. In the event of inadequacy or absence of profits.

The Board may consider not declaring dividend or may recommend a lower payout for a given financial year, after analysing the prospective opportunities and threats or in the event of challenging circumstances such as regulatory and financial environment.

In such event, the Board will provide rationale in the Annual Report.

MANNER OF UTILISATION OF RETAINED EARNINGS

The retained earnings of the Company may be used in any of the following ways:

i. Capital expenditure for working capital,
ii. Organic and/or inorganic growth,
iii. Investment in new business(es) and/or additional investment in existing business(es),
iv. Declaration of dividend,
v. Capitalisation of shares,
vi. Buy back of shares,
vii. General corporate purposes, including contingencies,
viii. Correcting the capital structure,
ix. Any other permitted usage as per the Companies Act, 2013.

GENERAL

Due regard shall be given to the restrictions/covenants contained in any agreement entered into with the lenders of the Company or any other financial covenant as may be specified under any other arrangement/agreement, if any, before recommending or distributing dividend to the shareholders.

		3) Mahindra Asset Management Company Private Limited
		4) Mahindra Trustee Company Private Limited
2	Do the Subsidiary Company/Companies participate in the Business Responsibility (BR) Initiatives of the parent Company? If yes, then indicate the number of such subsidiary Company(s)	Yes, two Subsidiary Companies viz. Mahindra Insurance Brokers Limited and Mahindra Rural Housing Finance Limited participate in the Company's BR initiatives and are also included in the scope of its Sustainability Report. The Sustainability Reports of last 4 years are available on the Company's website at the web-link: **http://www.mahindrafinance.com/sustainability.aspx**.
3	Do any other entity/entities (e.g. suppliers, distributors etc.) that the Company does business with; participate in the BR initiatives of the Company? If yes, then indicate the percentage of such entity/entities? [Less than 30%, 30-60%, More than 60%]	Yes, the Company has developed a long lasting relationship with the Dealers of Original Equipment Manufacturers (OEMs). The Company has a Dealers' Council and organizes regular Dealer meets for engaging with these dealers. Also, customer feedback and satisfaction with the services are recorded in the form of 'Customer as Promoter Score' (CaPS). CaPS is calculated based on a question whether the dealer/customer would recommend the Company to their customers/friends. A person usually recommends a brand to someone only if he/she is satisfied with it and wants to continue being associated with the brand. Thus CaPS is a measure which takes into account both satisfaction and loyalty of a person with a brand. This feedback is utilized to create new action plans for the improvement of Company's products and services. The issues arising with the dealers are captured in CaPS survey findings which are addressed and acted upon. This results in decreased customer dissatisfaction, improved turn-around-time and better customer experience in loan funding process. The Company initiates programs to encourage adoption of sustainable business practices amongst its suppliers. Since the Company operates in the financial services sector, most of the suppliers are small scale vendors and service providers. The current reach for the program is less than 30%. Over the years the Company intends to cover more percentage of its suppliers under business responsibility programs and themes.

The Sustainability Report for FY 2015-16 can be accessed at the web-link: **http://www.mahindrafinance.com/pdf/MM_FSS_SustainabilityReport_2015_16_Final.pdf**

SECTION E: PRINCIPLE-WISE PERFORMANCE

PRINCIPLE 1

1. **Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/No. Does it extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?**

   The Company has defined a Code of Conduct to deter wrongdoings and to promote ethical practices. The Code extends to all dealings with suppliers, customers and other business partners. The Board has established two detailed sets of codes of conduct, one for Board of Directors and other for senior management and employees. The Code of Conduct for Senior Management and Employees forms an integral part of the induction of new employees.

   The Company has established robust business practices and procedures to ensure that it remains fully compliant with mandated regulations and wins the goodwill of all communities it works closely with. It achieves this through sustained efforts and robust business processes that are aimed at attaining the highest standards of corporate governance.

2. **How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management?**

   During the reporting year, 15 complaints were received from the Shareholders, all of which were attended to/resolved till date.

   The Company has different mechanisms for receiving and dealing with complaints from various stakeholders like investors, customers, employees and suppliers etc.

PRINCIPLE 2

1. **List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.**

   The Company addresses the credit requirements of its customers through its unique 'Earn & Pay' business model. The Company provides loans not for consumption, but for income generation. The Company is progressively working to provide a range of financial products and services to its customers through its nationwide distribution network. The Company's multiple businesses are a logical extension of being a facilitator of rural transformation in more ways than one. The Company creates livelihoods, provides shelter, and secures peoples' investments.

   As an integral enabler to livelihoods, the Company inspires the transformation of rural India, by helping people realise their aspirations. While the Company empowers lives of its customers, this also co-creates new opportunities with them to increase business through products portfolio as shared below.

   Vehicle loans: Utility vehicles, tractors, cars, two-wheelers, three-wheelers, commercial vehicles and construction equipment and refinance for used cars.

   SME loans: Equipment Financing, Project Financing and Working Capital Finance.

   Investments and Advisory: The Company helps customers by providing investment advisory services and a wide range of investment products.

   The Company empowers those who reside at the lower end of the social pyramid. The Company's customer base covers farmers located in remote villages of India. The Company has presence in over 3.19 lakh villages and undertakes periodic surveys to understand its customers better. These customers are largely ignored by the conventional banking system, or they are located in under-banked locations. Your Company's customers come from various walks of life, such as small traders, neo-entrepreneurs, teachers, drivers and farmers. Around 80% of its customers belong to the lower-income category and are at the bottom of the income and social pyramid.

2. **For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product (optional):**

   The Company operates in financial services sector, therefore this aspect doesn't relate to the nature of its business. However, the Company extensively monitors the energy consumption, GHG emissions and waste generation as a part of the sustainability roadmap. Also, the Company has taken initiatives on energy efficiency and renewable energy. The steps taken on conservation of energy cover installation of Solar UPS in different States and LED Lights in offices in place of CFL.

3. **Does the Company have procedures in place for sustainable sourcing (including transportation)?**

   The Company's major suppliers are small scale vendors and service providers. The Company's nature of business doesn't present opportunities for sustainable sourcing aspect in a holistic way. However, the Company focuses on engaging with local suppliers and giving them preference which helps them in generating and sustaining their business. Also, the Company encourages its suppliers and vendors to adopt sustainable practices.

4. **Has the Company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work?**

   One of the important factors while selecting suppliers of the Company is proximity to locations where it operates. Since the Company has a pan-India presence and operates across various locations in rural India, it is important to build strong partnerships with the local suppliers.

   In the last reporting year, 100% of the Company's supplies were met through local vendors and service providers. The same is also covered as one of the sustainability performance indicators at Page No. 29 in Company's last Sustainability Report available at the web-link: **http://www.mahindrafinance.com/pdf/MM_FSS_SustainabilityReport_2015_16_Final.pdf**

a) If yes, what steps have been taken to improve their capacity and capability of local and small vendors?

As a part of Company's continued engagement with local suppliers and through its emphasis on factors like quality, delivery time, etc., service levels of the suppliers have improved. Also, the Company encourages its suppliers to adopt sustainable practices and also appreciates and recognises the good practices followed by them.

5. **Does the Company have a mechanism to recycle products and waste? If yes what is the percentage of recycling of products and waste (separately as <5%, 5-10%, >10%)**

Yes. The Company has a mechanism to recycle waste produced during its business operations which majorly comprises of e-waste and stationery waste. The Company has initiated a number of initiatives on recycling of stationery waste at its main locations in India. As the Company progresses on with better monitoring and reporting of this information, such initiatives would be propagated to more locations in the coming year.

The Company disposes the hazardous waste materials (e-waste) through authorised agencies as per the applicable laws pertaining to E-Waste. 100% of hazardous waste from all major locations for the previous year was disposed off responsibly.

The non-hazardous waste is managed with the help of local vendors. Approximately 41 Tons of paper was saved in last financial year, by using of recycled paper to make boxes which saves Virgin Paper and secondly, by pulping of paper that is generated through old record destruction. These initiatives have been undertaken in collaboration with Record Management Companies.

PRINCIPLE 3

Safety:

- **Overall Safety –** As a part of the Company's initiative under the theme of "Suraksha Abhiyaan" classroom training programs were conducted at different locations and theoretical as well as practical training was imparted to the participants covering basic safety aspects like - hazard identification, mock drill, emergency evacuation, operating fire extinguishers, first aid, etc.
- **Road Safety –** In order to encourage safe driving practices amongst its employees, the Company has launched Road Safety e-learning program which covers basic safety aspect employees should be cautious of while driving vehicles. The program was launched pan-India and was driven with rigor across locations.

- **Health & Wellness –** As a focus towards health and wellbeing of its employees, the Company conducts regular health check-up and awareness sessions under the theme of 'Aarogya' program. Total 118 Programs were conducted in FY 2016-17.

Skill Up-gradation:

- **Drona Induction Program –** Through this program training is imparted to employees to perfect their functional skills as well as behavioral skills. The Company empowers them to use imagination, develop creative solution, remain flexible and motivate others to turn their ideas into results that make a difference to our business.

- **Project Arjuna –** Through Project Arjuna ,the organisation identifies high performers and high potential employees in the Operational Band. A Formal Career Conversation is done with the arjunas where their personal development Plans are captured in consultation with his/her reporting manager. Accordingly, various interventions and training are provided to them.

- **Career Advancement Plan (CAP) –** through CAP, the Company provides an opportunity to its employees working in the capacity of office boys, cashiers, etc. to leverage their potential to scale up the ladder.

- **Think Tank –** This program encourages Alternative Thinking and gives an opportunity to the young talent in the organisation to work on strategic projects sponsored by the senior management.

- **Mahindra Finance Academy –** This platform provides different kinds of certifications related to financial services to aspirants.

- **Chanakya –** The program helps develop high performing, high potential talent through a blend of various educational, vocational, general management and specialised platforms of national and international repute.

- **Manthan –** A mentorship programme for high potential employees. It connects employees to mentors in the organisation who guide, support and encourage them to perform better.

- **Chakravyu –** Formulated for high-performing managers of the Company, Chakravyu is a program that helps individuals develop a strong resolve to challenge conventions and stoke their spirit of Alternative Thinking. This three stage workshop includes Awareness, Practice and Application phases giving a holistic learning to participants.

- **Vyaas e-Learning Management (VeLM) –** Through this e-learning management system the Company has leveraged technology based platform to train employees on different business processes.

The Company has kept focus on hiring local talent in regions it operates and builds on their skill sets to do well in organisation and accelerate in their professional careers.

Percentage of employees covered as a part of different safety & skill up-gradation training in the last year are given below:

• Permanent Employees	78.32 % were covered as a part of training programs
• Permanent Women Employees	53.11% were covered as a part of training programs
• Casual/Temporary/ Contractual Employees	Company does not measure this metric
• Employees with Disabilities	Company does not measure this metric

PRINCIPLE 4

1. **Has the Company mapped its internal and external stakeholders? Yes/No**

   The Company has mapped its key stakeholders. The internal stakeholders are constituted by the employees whereas the external stakeholders are Customers, Dealers/ Original Equipment Manufacturers (OEMs), Shareholders, Regulators, Lenders and the Investors Community.

   Also, your Company's approach towards stakeholder engagement is detailed in its Sustainability Report. Refer to 'Stakeholder Engagement and Materiality' Section in Company's last Sustainability Report on Page Nos. 18-22 available at the Web-link: http://www.mahindrafinance.com/pdf/MM_FSS_SustainabilityReport_2015_16_Final.pdf

2. **Out of the above, has the Company identified the disadvantaged, vulnerable & marginalised stakeholders?**

   The Company has a CSR Committee and Sustainability Council which develops the roadmap and action plan considering expectations of different stakeholders including those which need support on multiple fronts. This includes customers and the communities which are positioned at the bottom of income and social pyramid. The Company mobilises resources to implement various programs for upliftment of these stakeholders.

3. **Are there any special initiatives taken by the Company to engage with the disadvantaged, vulnerable and marginalized stakeholders? If so, provide details thereof, in about 50 words or so.**

   The Company has taken up a number of initiatives for meeting the expectations of different stakeholders. Variety of projects are initiated under themes of healthcare, education, livelihood for youth and women to engage the beneficiaries and stakeholders. The details of the programs can be found under the CSR section of Company's

Sustainability Report and Annual Report on CSR activities available on the web-link: **http://www.mahindrafinance.com/annual-reports.aspx**

PRINCIPLE 5

1. **Does the policy of the Company on human rights cover only the Company or extend to the Group/Joint Ventures/Suppliers/Contractors/NGOs/Others?**

   The policy and approach of the organisation pertaining to Human Rights extends to different stakeholders including shareholders, investors, suppliers, customers and other business partners. The Company believes human rights are indivisible and non-negotiable. 'Dignity of the Individual' is one of the five core values of Mahindra Finance. Discrimination, forced and compulsory labour and child labour are strictly prohibited. The Company also denounces the bribery or corruption in any form and the Company's processes ensure that such practices are strictly discouraged at all levels. The Company's Human Resources department implements norms, policies and initiatives for all to imbibe and align to a common approach, which fosters a transparent, fair and growth-oriented work culture. The Company has already implemented an appropriate policy for employees to facilitate the prevention of sexual harassment, which inter alia, sensitises all employees who are part of Company's redressal mechanism and ensures that protection is offered to them by the Company. As a part of the Mahindra group, the Company adheres to the principles on human rights and labour standards set forth by the UN Global Compact:

   - **Principle 1:** Businesses should support and respect the protection of internationally proclaimed human rights;
   - **Principle 2:** Ensure that businesses are not complicit in human rights abuses;
   - **Principle 4:** The elimination of all forms of forced and compulsory labour;
   - **Principle 5:** The effective abolition of child labour;
   - **Principle 6:** The elimination of discrimination in respect of employment and occupation;

1. **Does the policy related to Principle 6 cover only the Company or extends to the Group/Joint Ventures/Suppliers/Contractors/NGOs/others**

   Yes. The Company's policy related to environmental protection as applicable for Financial Services Industry covers different sets of stakeholders. The E-waste management policy which is important to the organisation has coverage and applicability to its business partners involved in the process. The Company endeavours to integrate environmental constructs into management decision-making process. Improving eco-efficiency of Company's operations has been a part of its sustainability road map. Digitization of Company's operating procedures, products and processes has been a key initiative, which not only helps in cutting down on paper consumption but also helps to lower the carbon emissions. Compliance with laws and regulations relating to the environment has always been ensured in letter and spirit. Your Company has been reporting environmental performance in terms of absolute and specific consumption. The specific consumption is calculated by dividing the absolute consumption by the number of employees.

   Also, the Company has been listed on the Dow Jones Sustainability Index (DJSI) Emerging Market Trends for the 4th consecutive year. MMFSL is the only company, from amongst the Diversified Financial Services Companies in India, to have made it to this list. To be incorporated in the DJSI, companies are assessed and selected based on their long term Environmental Social Governance (ESG) asset management plans. Also, MMFSL got included in The Sustainability Yearbook 2017 being the only Financial Services Sector Company amongst 6 companies from India to qualify. This signifies MMFSL being amongst the top Sustainability performers in Diversified Financial Services Sector in the World based on Corporate Sustainability Assessment done by RobecoSAM.

   The Company's approach has been to make environmental disclosures transparent, and accordingly, it has been reporting disclosures and reports on its performance through the Carbon Disclosure Project (CDP) India 200 since FY 2011-12. During the reporting year, MMFSL achieved CDP Performance Band - B for the first time and this affirms that the Company is taking coordinated action on climate change issues.

Also, the Company adheres to a group wide environment policy which is revised according to its operations considering the Company being in the banking and financial services sector.

2. **Does the Company have strategies/initiatives to address global environmental issues such as climate change, global warming, etc? Y/N. If yes, please give hyperlink for webpage etc.**

The Company has undertaken various environmental initiatives that reduce emission of GHG gases in the atmosphere that contributes to the phenomena of global warming and climate change. Details of all the initiatives are available in the environment performance section of the sustainability report and also shared below. kindly refer the Page Nos. 37-38 of Company's last sustainability report available at the web-link: **http://www.mahindrafinance.com/pdf/MM_FSS_SustainabilityReport_2015_16_Final.pdf**

Conservation of Energy – Operations of the Company are not energy intensive. However, adequate measures have been initiated to reduce energy consumption. The steps taken on conservation of energy are shared below:

- Installation of solar UPS in different States.
- Replacement of conventional lighting with Light Emitting Diode (LED) lighting.

Paperless Productivity – Being a financial services institution, paper is a major resource consumed at Company's offices. In an effort to reduce its consumption, the Company has undertaken various initiatives to eliminate paper usage. Some of these initiatives are:

- The Personal Loan Application Processing (PLAP) that facilitates the capturing of personal loan enquiries at source and at every stage till approval/rejection of the application, thereby completely bypassing the use of paper-based stationery.
- Conveyance Claim Module is an integrated module to process conveyance reimbursement payments to the field force. It maintains MIS on productivity, efficiency and performance comparison in a given period of time for approving authority. It is a completely paperless process that even frees the field force from the need to maintain manual records.
- Receivables Management System in the Company has migrated to online platform and is accessible to users at any time and at any place. Also, the entire process is operational on e-platform which is completely paperless.

E-waste Management – The Company has taken a proactive approach towards handling its electronic waste. Your Company has empanelled authorised third party e-waste handlers for disposal of e-waste from its locations across India. In FY 2016-17, the Company has disposed approximately 5 Tons of e-waste which included desktops, laptops, hardware, etc.

Leveraging technology to reduce business travel

Your Company has enhanced its efforts to use video conference and tele-conference facilities. This has reduced the need for business travel and has resulted in decreased scope 3 emissions. Your Company has installed video conference facility at 30 of its major locations of operation. This has reduced travels of employees and has contributed in reduction in travel cost and saving of time as well.

Project Hariyali

Project Hariyali has been the Company's endeavour towards nurturing biodiversity. During the FY 16-17, your Company has planted 1,05,951 trees.

3. **Does the Company identify and assess potential environmental risks? Y/N**

The Company is cognizant that the human-induced climate change has become an important factor for the financial sector. The multitude of impacts from climate change include scarcity of natural resources, their escalating prices, enhanced transportation costs, additional insurance covers and expenditure on risk mitigation. Historically, the financial services sector has been involved in the management of climate variability through its provision of credit for seasonal cycles of agriculture, selection of suitable investment opportunities, and insurance against natural disasters.

4. **Does the Company have any project related to Clean Development Mechanism (CDM)? If Yes, whether any environmental compliance report is filed?**

Annexure V - A to the Board's Report for the Year ended 31st March, 2017

The Policy on Remuneration of Directors

Prelude

The Company is a non-banking financial company registered with the Reserve Bank of India, and is engaged in providing financing for new and pre-owned auto and utility vehicles, tractors, cars and commercial vehicles, providing personal loans, finance to small and medium enterprises and mutual fund distribution services.

This Policy shall be effective from the financial year 2014 - 15.

Intent of the Policy

The intent of the Remuneration Policy of Directors of Mahindra & Mahindra Financial Services Limited ("the Company") is to focus on enhancing the value and to attract and retain quality individuals with requisite knowledge and excellence as Executive and Non-Executive Directors for achieving objectives of the Company and to place the Company in a leading position.

The Nomination and Remuneration Committee (NRC) of the Board shall, while formulating the policy ensure that:

a) the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the company successfully;

b) relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and

c) remuneration to Directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

While deciding the policy on remuneration of Directors, the Committee may consider amongst other things, the duties and responsibilities cast by the Companies Act, 2013, the Listing Agreement, various Codes of Conduct, Articles of Association, restrictions on the remuneration to Directors as also the remuneration drawn by Directors of other companies in the industry, the valuable contributions and inputs from Directors based on their knowledge, experience and expertise in shaping the destiny of the Company, etc. The Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under Section 178 of the Companies Act, 2013 and principles pertaining to qualifications, positive attributes, integrity and independence of Directors, etc.

Directors

The Managing Director is an executive of the Company and draws remuneration from the Company. The Non-Executive Chairman and Independent Directors receive sitting fees for attending the meeting of the Board and the Committees thereof, as fixed by the Board of Directors from time to time, subject to statutory provisions. The Non-Executive Chairman and Independent Directors would be entitled to the remuneration under the Companies Act, 2013. Other Non-Executive Non-Independent Directors who receive remuneration from the holding company or a Group Company are not paid any sitting fees or any remuneration. In addition to the above, the Directors are entitled for reimbursement of expenses incurred in discharge of their duties.

Pursuant to the Employees Stock Option Scheme 2005 (ESOS 2005) the Company has granted Stock Options to Directors including Independent Directors. The Company has also granted Stock Options to the Managing Director and Non-Executive Non-Independent Director(s) pursuant to the Employees Stock Option Scheme 2010 (ESOS 2010). The vesting and exercise of these Options shall continue to be governed by ESOS 2005 and ESOS 2010 respectively and the terms of grant. However, as per Section 149(9) of the Companies Act, 2013, henceforth the Independent Directors will not be entitled to fresh grant of any Stock Options.

The NRC while determining the remuneration shall ensure that the level and composition of remuneration to be reasonable and sufficient to attract, retain and motivate the person to ensure the quality required to run the Company successfully. While considering the remuneration, the NRC shall also ensure a balance between fixed and performance-linked variable pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

The NRC shall consider that a successful Remuneration Policy must ensure that some part of the remuneration is linked to the achievement of corporate performance targets.

Managing Director/Executive Directors

The term of office and remuneration of Managing Director/ Executive Directors are subject to the approval of the Board of Directors, Shareholders, and Central Government, as may be required and the limits laid down under the Companies Act, 2013 from time to time.

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay, subject to the requisite approvals, remuneration to its Managing Director/Executive Directors in accordance with the provisions of Schedule V of the Companies Act, 2013.

If any Managing Director/Executive Director draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he/she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration of the Managing Director/Executive Directors reflects the overall remuneration philosophy and guiding principle of the Company. While considering the appointment and remuneration of Managing Director/Executive Directors, the NRC shall consider the industry benchmarks, merit and seniority of the person and shall ensure that the remuneration proposed to be paid is commensurate with the remuneration packages paid to similar senior level counterpart(s) in other companies.

Remuneration for Managing Director/Executive Director is designed subject to the limits laid down under the Companies Act, 2013 to remunerate them fairly and responsibly. The remuneration to the Managing Director/Executive Director comprises of salary, perquisites and performance based incentive apart from retirement benefits like Provident Fund, Superannuation, Gratuity, Leave Encashment, etc., as per Rules of the Company. Salary is paid within the range approved by the Shareholders. Increments are effective annually, as recommended/ approved by the NRC/Board.

The total remuneration will have a flexible component with a bouquet of allowances to enable the Managing Director/ Executive Director to choose the allowances as well as the quantum, based on laid down limits as per Company policy. The flexible component can be varied only once annually.

The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and performance rating of the individual.

Remuneration also aims to motivate the Personnel to deliver Company's key business strategies, create a strong performance-oriented environment and reward achievement of meaningful targets over the short and long-term.

The Managing Director/Executive Directors are entitled to customary non-monetary benefits such as company cars, health care benefits, communication facilities, etc., as per policies of the Company. The Managing Director and Executive Directors are entitled to grant of Stock Options as per the approved Stock Option Schemes of the Company from time to time.

Non-Executive Directors

The Non-Executive Directors (NEDs) are paid remuneration by way of Commission and Sitting Fees. In terms of the shareholders' approval, the Commission is paid at a rate not exceeding 1% (one percent) per annum of the profits of the Company computed in accordance with the applicable provisions of the Companies Act, 2013. The distribution of Commission amongst the NEDs shall be placed before the Board.

At present, the Company pays sitting fees to the NEDs for attending the meetings of the Board and the Committees constituted by the Board from time to time.

Disclosures

Information on the total remuneration of members of the Company's Board of Directors, Managing Director/Executive Directors and Key Managerial Personnel/Senior Management Personnel may be disclosed in the Board's Report and the Company's Annual Report/ Website as per statutory requirements laid down in this regard.

MANAGEMENT DISCUSSION AND ANALYSIS

ECONOMIC OVERVIEW

GLOBAL

The global economy expanded by 3.1% in 2016. Economic activity gained momentum in the second half of 2016, especially in advanced economies. The US economy strengthened following a sluggish start in 2016, primarily driven by strong labour markets and improved household balance sheets. The IMF in its latest World Economic Outlook has revised its projected growth upwards for the United States, reflecting the assumed fiscal policy easing and an uptick in business and consumer confidence, especially after the November elections. If this positivity persists, it will reinforce the cyclical momentum.

In Europe, industrial activity has recovered and economic expectations have risen across several large developed economies. However, it must be admitted that the geopolitical environment continues to be volatile and a matter of concern. The rising tide of protectionism across major economies may also impact global trade and commerce. Besides, there are major structural impediments (low productivity growth and high-income inequality), which continue to hinder a stronger recovery, especially over the medium term in advanced economies.

Among emerging markets and developing economies (EMDEs), the Chinese economy grew by 6.7% in 2016, marginally lower than the 6.9% growth recorded in 2015. This growth was supported by fiscal stimulus policies, encouraged by the Chinese Government, as well as by the continuation of an accommodative monetary policy. In addition, there was weaker than expected activity in some Latin American countries (Argentina, Brazil and Turkey) which faced a sharp contraction in tourism revenues. The Russian economy performed better than expected, in part reflecting firmer oil prices.

Outlook

Global growth is projected to touch 3.6% in 2018, from 3.5% in 2017. Global economic growth will fast-track in 2017 as investment, manufacturing and trade rebound. The improvement in the emerging markets and developing economies with proper investment in human and physical capital will help to facilitate the growth. Growth projections for Germany, Japan, Spain and the United Kingdom have also been estimated to be upwards, on account of a stronger than expected performance during the preceding year.

INDIA

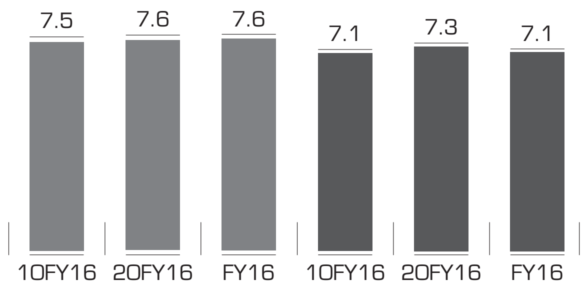
India continues to be one of the world's fastest growing economies, despite operating in a volatile global environment. The GDP for F.Y. 2016-17 touched 7.1%, demonstrating the fact that the country's economic fundamentals continue to be strong.

India also became the sixth largest manufacturing country in the world, rising from the previous ninth position, and thus retaining its bright spot in the global economic landscape. The decline in consumption in the wake of demonetisation, along with slowdown in the industrial sector has resulted in moderated growth rate towards the end of 2017. However, the agricultural sector demonstrated enhanced performance, owing to a favourable monsoon after two consecutive years of drought. The Index of Industrial Production (IIP) was largely subdued during the fiscal due to weakness in the capital goods segment. The Government of India is expected to meet its fiscal deficit target of 3.5% of GDP in 2017, as tax revenues are predicted to increase, in view of income disclosure scheme announced by the Government in 2017.

2016-17 witnessed two major developments:

- Demonetisation of two highest denomination notes. This was done with a purpose to restrain corruption, counterfeiting and to stop the use of high denomination notes for terrorist activities. Although this policy development had short-term hardships, it is expected to generate long-term benefits.
- A constitutional amendment is paving the way for the implementation of Goods and Services Tax (GST). It would replace all the indirect taxes currently in motion at all levels. Levied on manufacture, sale and consumption of goods and services at the national level, it will be a path breaking initiative on jurisdiction free assessment. It would further improve efficiency and bring down corruption while removing the geographic boundaries and enhancing the convenience of e-environment. It would considerably scale down the overall tax burden on goods, augment free movement of goods from one state to another and would also reduce paperwork to a large extent. All these would ultimately result in benefitting end-consumers and will bolster investment and growth.

GDP Growth (2011-12 base) (Y-O-Y, %)



(Estimated)

Outlook

GDP growth is expected to surpass the 7% mark in 2018, after being temporarily impacted by the government's demonetisation initiative in the initial months of 2017.

Demonetisation is likely to leave a positive impact on the economy through greater tax compliance, increased digitalisation and investments in capital formation. The projected fiscal deficit for 2017-18 is 3.2% of the GDP. The fiscal deficit target is achievable, given the expected drive in tax collection after the implementation of GST; and also greater tax compliance after demonetisation. Going ahead, the government's policy measures to boost the economy, corporate earnings and global liquidity are likely to remain the key market drivers.

INDIAN FINANCIAL SERVICES INDUSTRY

India's financial services sector plays a critical role in driving the country's economic growth by providing a wide spectrum of financial and allied services to a large consumer cross-section. In India, the market for financial services sector is still largely untapped. Digital technology, which has transformed the way business is conducted across the world, is projected to be one of the major drivers for the growth of this sector in India as well. An extensive range of financial products are increasingly being sold and delivered using the electronic platform to millions of customers in India. Greater use of digital technology is helping the sector to lower transaction cost, generate higher productivity and reach unexplored markets in the financial ecosystem.

In the current situation where the Government seeks to reduce the economy's dependence on cash, the increased focus on technology acceptance promises to take the sector on a path of rapid growth. The Government's monetary policy initiatives to rationalise interest rates, licence to foreign reinsurance, monetisation alternatives in infra and realty sectors through Real Estate Investment Trusts/Infrastructure Investment Trusts (REITs/INViTs), and focus on micro and SME finance in rural markets are likely to have a positive impact for the sector.

NBFC SECTOR

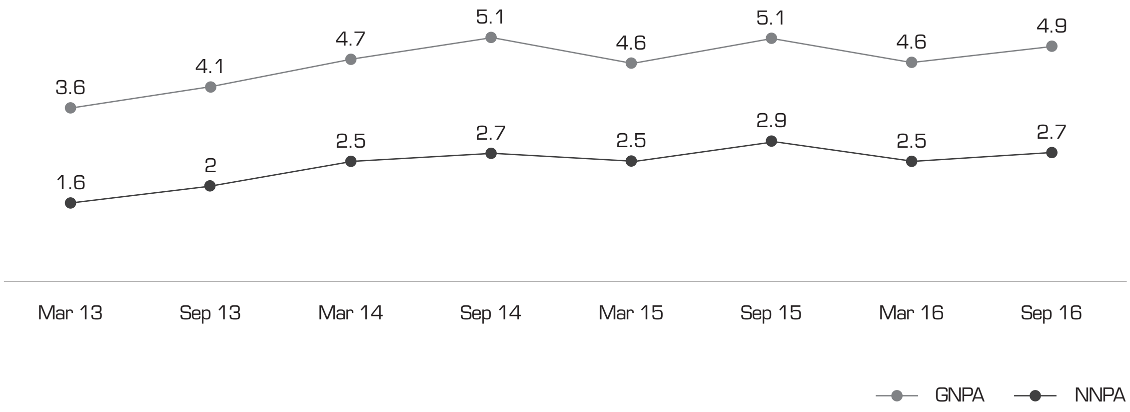
The Non-Banking Financial Companies (NBFCs) sector is integral to the Indian financial landscape. It aids in boosting financial inclusion initiative by lending services to the unbanked population in rural/ semi-urban and urban areas. It also provides services to the micro, small and medium enterprises (MSMEs) segment. Some of the reasons for the success of the sector, include cost efficiency, refined product lines and better customer services. Niche segmentation, simplified procedures and a focused credit approach are believed to be the key factors bolstering the profitability of NBFCs, making them one of the highest value creating business models within the Indian economy.

PERFORMANCE

As per the Financial Stability Report, December, 2016, the overall balance sheet size of all the NBFCs grew by 15.5% during 2015-16 and 8.5% during the first half of 2016-17.

The NBFC sector reported 10.5% growth in loans and advances at the end of September 2016 vis-à-vis 16.6% at the end of March 2016. During the first half of 2016-17, the NBFCs reported Gross Non-Performing Assets (GNPA) of 4.9%, which was 4.6% at the end of 2015-16. In terms of capital adequacy, the sector has not been able to perform well, during the preceding one and a half years. The overall capital adequacy stood at 23.1% at the end of first half of 2016-17 and 24.3% at the end of 2015-16.

Asset Quality of NBFCs



SWOT ANALYSIS

Strengths

- Distinguished financial services provider, with local talent catering to local customers
- Vast distribution network especially in rural areas and small towns, diversified product range and robust collection systems
- Simplified and prompt appraisal and disbursements
- Product innovation and superior delivery
- Ability to meet the expectations of a diverse group of investors and excellent credit ratings
- Innovative resource mobilisation techniques and prudent fund management practices

Weakness

- Regulatory restrictions - continuously evolving Government regulations may impact operations
- Uncertain economic and political environment

Opportunities

- Demographic changes and under penetration
- Large untapped rural and urban markets
- Growth in Commercial Vehicles, Passenger Vehicles and Tractors market
- Use of digital solutions for business/collections

Threats

- High cost of funds
- Rising NPAs
- Restrictions on deposit taking NBFCs
- Competition from other NBFCs and banks

GOVERNMENT INITIATIVES

- Recapitalisation of banks under Indradhanush (comprehensive plan for recapitalisation of public sector lenders, with a view to make sure they remain solvent and fully comply with the global capital adequacy norms, Basel-III) with a Rs. 10,000 crores capital outlay
- Enhanced lending under the Pradhan Mantri Mudra Yojana
- Thrust on affordable housing to boost housing finance
- National Housing Bank to refinance home loans up to Rs. 20,000

Outlook

NBFCs have emerged as substantial contributors to the country's economic growth by having access to certain deposit segments and catering to the specialised credit requirements of certain classes of borrowers. Going forward, the government's initiatives like 'Make in India', 'Start up India' and 'Digital India' are expected to bolster development in India.

For a large and diverse country like India, ensuring financial access to fuel development and entrepreneurship is critical. With the launch of government-backed schemes (such as the Pradhan Mantri Jan-Dhan Yojana [PMJDY]), there has been a substantial increase in the number of bank accounts. As traditional banks are already under stress; NBFCs would be of vital importance and can fill the necessary credit demand gap.

Therefore, the NBFCs need to be well integrated into the financial system to cater to the growing requirements of the economy. Additionally, the Indian consumer is aggressively adopting digital technology in his/her daily life. Thus, NBFCs need to rethink on their strategies to enhance their product portfolio, processes and customer experience. Besides, they also need to leverage on digital data for better credit decisions (based on analytics) and social media to serve customers better.

AUTOMOTIVE INDUSTRY

India's annual production stood at 25.31 million vehicles (including passenger vehicles, commercial vehicles, three wheelers, two wheelers and quadricycle) in 2016-17 as against 23.96 million in 2015-16, registering a growth of 5.41% on a year-on-year basis.The sales of passenger vehicles grew by 9.23% in 2016-17 over the same period last year. In the passenger vehicles segment, passenger cars, utility vehicles and vans grew by 3.85%, 29.91% and 2.37%, respectively during 2016-17 over the same period last year.

The overall commercial vehicles segment registered a growth of 4.16% in 2016-17, compared to the same period last year. Medium & Heavy Commercial Vehicles (M&HCVs) grew by 0.04% and Light Commercial Vehicles (LCVs) grew by 7.41% during 2016-17 over the same period last year.

The early part of 2016 saw a recovery trend in automobile sales. Sales were languishing due to low rural demand, following an erratic monsoon in the previous year. The ban on 10-year-old diesel vehicles in some parts of India further aggravated the situation. During the second half of 2016, the sector perceived a strong positive sentiment due to factors such as improved consumer attitude post the Seventh Pay Commission awards, normal monsoon after two successive years of deficit rainfall in most regions, lower financing costs and fuel prices.

As soon as the industry was picking up pace, demonetisation was announced by the government in November 2016. This led to de-growth in the auto industry during December 2016. The automobile market rebounded strongly after a short blip seen in sales in the immediate aftermath of the demonetisation drive. With Budget proposals to improve rural income and reduce the tax burden of lower income groups, the industry is likely to see a strong demand revival.

GST will allow seamless availability of input tax credit across the supply chain - right from manufacturer till it reaches final consumer and across the state borders. This in turn will eliminate the cascading effect of taxes in the supply chain and as a result, the product will be cost-effective. This reduction of product cost will lead to reduced price, increased demand and therefore, contribute to the growth of the business in this sector.

GOVERNMENT INITIATIVES

Some of the key initiatives undertaken by the Government of India comprise:

- Introducing a new Green Urban Transport Scheme, aimed at boosting the growth of urban transport, along low carbon path for substantial reduction in pollution
- Aiming to make India an automobile manufacturing hub through the 'Make in India' initiative, as the passenger vehicles market is projected to increase threefold i.e. 9.4 million units by 2026 (the vision is highlighted in the Auto Mission Plan [AMP] 2016-26)
- Promoting eco-friendly cars in the country i.e. CNG based vehicles, hybrid vehicles and electric vehicles (the Government has also mandated 5% ethanol blending in petrol)
- Pradhan Mantri Kaushal Kendras to be extended to 600 districts from the current level of 60 districts (100 international level skill centres will also be established; skilling will ensure availability of resources to meet the automobile sector needs)
- SANKALP programme to be launched at a cost of Rs. 4,000 crores, imparting market related training to 3.5 crores youth
- STRIVE scheme (at Rs. 2,200 crores) to impart apprenticeship training through industry cluster approach

- Incremental budget allocation of Rs. 6,000 crores, amounting to Rs. 64,900 crores in the development of highways (2,000 km of coastal connectivity through roads identified to provide better network between ports and remote villages).

HOUSING FINANCE

According to ICRA, affordable housing credit growth over the medium to long term is likely to be at around 30%, considerably higher than overall housing credit growth of 16-18%. The segment offers an encouraging growth opportunity and is likely to report reasonable returns over the long term. Given the good growth potential, the segment has become attractive

growing by **8%** and **6%**

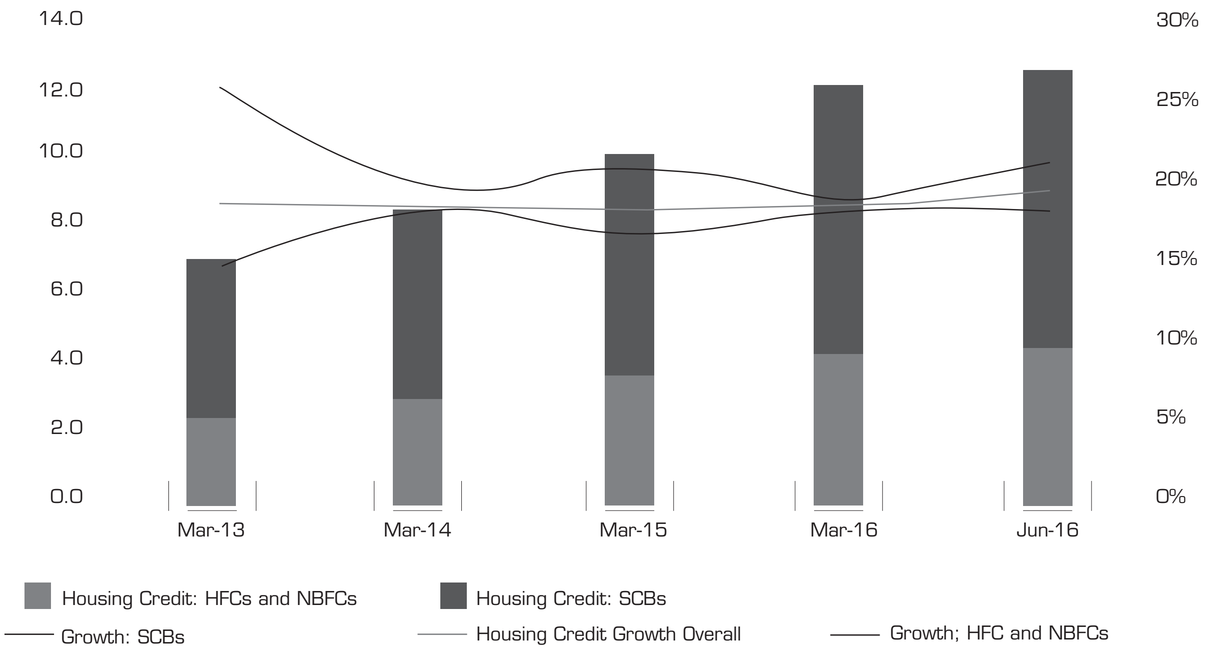
for lenders, which could lead to improved competition in the segment with new HFCs and MFIs entering this business. At the same time, prevailing HFCs are setting up dedicated verticals to cater to the affordable housing segment.

Figure 1: Housing Credit Growth

(Rs. Trillion)



With enhanced government focus on affordable housing, including initiatives such as higher allocations under the Pradhan Mantri Awas Yojana (PMAY), addition of the credit-linked subsidy scheme to loans of value upto Rs. 1.2 million, efforts are being made to address the supply side. The demand side and affordability issues are likely to expand the borrower base. Besides, the government's smart cities mission to develop 100 cities across India, and making them citizen friendly and sustainable will catalyse industry growth.

TRACTOR INDUSTRY

According to ICRA Estimates, growth is forecasted at 9-10% in tractor volumes (domestic + exports) in 2017. This growth is primarily facilitated by healthier southwest monsoon and improved farm sentiments. The growth impetus observed a pause in November, 2016, with demonetisation causing cash crunch, resulting in a decline in monthly volumes by 13% (y-o-y basis). With the waning impact of demonetisation, domestic volumes have gradually recovered, with industry volumes growing by 8% and 6%, respectively in December 2016 and January 2017 (y-o-y basis).

There has been retrieval in demand in the central and western regions, led by enhanced farm sentiments on account of estimates of improved crop production and resulting farm cash flows. The northern region continues to hold up pan-India growth. Encouragingly, Uttar Pradesh, the largest tractor market in the region has recorded strong growth. The other key markets such as Rajasthan and Punjab continue to see slow growth, as a result of weak transport and replacement demand, respectively.

The government remains dedicated towards rural development and agriculture mechanisation, a critical component in improving the state of agriculture in the country. Besides, continuous government impetus towards increasing irrigation penetration through fresh allocations will gradually reduce rainfall dependence over the long term. This, together with other factors such as increasing rural wages and shortage of farm labour is likely to encourage growth in industry volumes over the long term.

INFRASTRUCTURE AND REAL ESTATE

The real estate sector is the second largest employer, after agriculture. It constitutes almost 6% of our GDP. In India, urbanisation is the biggest growth driver for real estate, which is driven by growth in business environment in the country and it is estimated that around 10-12 million people are getting urbanised annually. Further, the government is supporting the sector with several initiatives like push to develop 100 cities into smart cities, initiatives like "Housing for all by 2022" for a growing population in rural India assisted by both financial and regulatory support for the buyers and developers.

The demand for housing is expected to remain strong, reinforced by growing population, young demographic profile (half of the population is below the age of 35), shift towards nuclear families and rapid urbanisation. With wide discrepancy in household incomes in the country and high real estate prices, which act as a deterrent for buyers, a major share of this demand will be concentrated in the low cost and affordable housing segments. A major push from the government on roads, railways, and urban infrastructure segments has also helped construction companies improve their order book position.

GOVERNMENT INITIATIVES

- The affordable housing segment has been accorded infrastructure status. Now, the builders in this segment have access to cheaper sources of funds. Affordable housing in tier 2 and 3 cities is expected to receive a major push and attract more investments.
- The government has affirmed that it will construct 1 crore rural houses by 2019. The allocation to Pradhan Mantri Awas Yojana has been increased from Rs. 15,000 crores to Rs. 23,000 crores.
- Fund allocation for development under the Smart Cities projects and AMRUT has been increased to Rs. 9,000 crores. These tailwinds will lead to enhanced activity in the sector, including a hike in funds availability, demand and employment, positively impacting the macro economy.
- The infrastructure sector has been allocated Rs. 3,96,134 crores and the highways over Rs. 60,000 crores. This will improve connectivity within cities and across the country. It will also improve living standards in residential properties on the city outskirts, due to enhanced accessibility and connectivity.
- Phasing out of The Foreign Investment Promotion Board, coupled with the passing of the Real Estate (Regulation and Development) Act, 2016 (RERA), has lent transparency and increased the prospects of FDI in the sector.
- Refinancing of Rs. 20,000 crores worth of loans by the National Housing Bank (NHB) as well as various tax incentives and sops will bring additional money into the market. Numerous industries, including real estate, would be benefited by this move. It is also projected that refinancing would eventually bring down home loan rates, propelling consumer demand across segments.

MUTUAL FUND INDUSTRY

According to Association of Mutual Funds in India (AMFI), the AUM grew from Rs. 12.3 lakh crores in March 2016 to Rs. 17.5 lakh crores in March 2017. The Quarterly Average Assets Under Management (QAAUM) also registered a quarter-on-quarter growth of 8% in the last quarter of 2017. The growth can be credited to strong retail participation and overall market gains. The financial year 2016-17 turned out to be a good year for the mutual fund industry with investors pouring in Rs. 3.4 lakh crores across categories. The net inflows in liquid, income and equity (including Equity Linked Savings Schemes or ELSS) categories have been to the tune of Rs. 1.2 lakh crores, Rs. 0.96 lakh crores, and Rs. 0.70 lakh crores, respectively.

The AUM share of top 10 players, which stood at 78.4% of the total industry AUM as of March 2016 rose to 80.6% at the end of March 2017.

RISK MANAGEMENT

MMFSL has a well-defined risk management architecture, which includes periodic reviews and close monitoring to strengthen business sustainability. The framework sets the technique for risk assessment and mitigation. It focuses on proactively managing uncertainties and volatilities to protect the interest of the Company.

The Key Business Risks and the mitigation measures adopted by the Company are as follows:

LIQUIDITY RISK

Liquidity risk arises from the absence of liquid resources, when funding loans, and repaying deposits and borrowings. The reason for this could be due to a decline in the expected collection, or incapability to raise adequate resources at a suitable price. This risk is minimised through diversified funding sources and an ability to increase liquidity through asset sales and securitisation. The Company also maintains a comprehensive amount of liquid assets and keeps access to unsecured funding as a hedge against unexpected requirements.

INTEREST RATE RISK

Movements in domestic interest rates constitute the primary source of interest rate risk. The Company evaluates and manages the interest rate risk on balance sheet through the process of asset-liability management. The Company has an Asset Liability Operating Committee comprising senior officials. The Asset Liability Committee (ALCO) of the Board of Directors lays down policies and quantifiable limits that involve assessment of various types of risks and modifications in assets and liabilities to manage such risks.

OPERATIONAL RISK

Operational risk is caused by inadequate or failed internal processes, systems, people, or caused by external events. Moreover, some of MMFSL's customers are farmers residing in rural and semi-urban areas and its results of operations are affected by risks specific to their businesses. Extreme weather conditions such as drought, insufficient rainfall or floods may potentially affect the quality and quantity of farming production in a given year, thereby adversely affecting the ability of these customers to repay their loans.

The Company's integrated technology structure, backed by its distinct credit policy, helps achieve seamless centralised operations across its pan-India network. Faster loan disbursement through quick credit appraisement has defined the operational benchmarks for the Company. Additionally, regular internal audits provide a check on deviation from any contingent operational inefficiency.

CREDIT RISK

Credit risk refers to the inability or unwillingness of the customer to meet the Company's financial obligations according to the stipulated period. The Company's effective credit management team works persistently to monitor its disbursement profile. In close collaboration with the recovery team and a strong ground workforce, the Company is well equipped in controlling the steep growth in Non-Performing Assets.

COMPETITION RISK

The Company provides loans primarily to customers residing in rural and semi-urban markets. Its primary competitors have been private unorganised lenders who typically operate in rural and semi-urban markets and, increasingly, banks and NBFCs who have entered these markets. In addition to these private unorganised lenders, due to the significant growth in vehicle financing, the Company faces competition from banks, NBFCs and housing finance companies, some of which may have superior technology, more resources, access to cheaper funding or existing office networks, have expanded their reach to rural and semi-urban markets and may have a better understanding of and relationships with customers in these markets. In addition, interest rate de-regulation and other liberalisation measures affecting the vehicle financing sector, together with increased demand for capital, have resulted in increased competition.

The Company may be unable to react effectively to these or other market developments or compete effectively with new and existing players in the increasingly competitive vehicle finance industry in India. Increasing competition may adversely affect its net interest margins, income and market share, which in turn could have a material adverse effect on the Company's financial condition and results of operations.

The Company's deep rural presence across 3.19 lakh villages in the country gives it an unparallel advantage over others. In addition, the Company's ability to secure low cost funding ensures it maintains sustainable margin levels.

REGULATORY RISK

The Company operates in rural and semi-urban areas, and most of the repayments of the loans disbursed by the Company are received in cash. The Government, in its notification dated 8th November, 2016, declared that the then existing series of bank notes issued by the RBI of Rs. 500 and Rs. 1,000 denominations will cease to be legal tender with effect from 9th November, 2016. Due to demonetisation, liquidity position of the Company's customers and their ability to repay loans borrowed from the Company was adversely affected. The Company has faced slowdown in collections which had an adverse effect on its business. Due to a decrease in repayment from customers, the Company's liquidity and ability to lend was adversely affected, which had a material adverse impact on its business, financial condition and operations.

As a deposit-taking NBFC, MMFSL is subject to regulation by Government authorities, including the RBI. The RBI, however, has not established a ceiling on the rate of interest that can be charged by NBFCs in the asset finance sector. Currently, the RBI requires that the Board of Directors of each NBFC adopts an interest rate model that takes into account relevant factors such as the cost of funds, margin and risk premium.

The Government of India has implemented a comprehensive national Goods and Services Tax (GST) regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. GST is a dual levy with state GST and central GST. GST will replace the current taxes and duties such as excise duty, service tax, countervailing duty, special additional duty of customs, VAT, CST, octroi, applicable central and state charges and cesses. Currently, indirect taxes at applicable rates are lower than the applicable rate of GST to MMFSL. Further, new goods and services, which are currently not taxed, may get taxed in the GST regime. Due to these changes in the indirect tax regime, the Company's financial condition and results of operations may be adversely affected.

Further, the Company may also be required to make changes in its IT infrastructure and other internal processes to adapt to the requirements of GST, once implemented. To ensure compliance with the requirements of the GST laws, the Company may also need to allocate additional resources, which may increase its regulatory compliance costs and divert management attention.

The Company continuously monitors the regulatory compliances. The expertise of the senior management facilitates these compliances. The Company continues its active engagement with the external environment and is investing to enhance solutions across the value chain to prepare itself for the Goods and Services Tax (GST) era.

HUMAN RESOURCE RISK

The Company depends on the services of its management team and employees. Its inability to recruit and retain them may adversely affect its business.

We are **dedicated**

WE ARE DEDICATED TO PARTNERING WITH EMPLOYEES AND STRENGTHENING OUR TALENT POOL BY PROVIDING THEM WITH GROWTH AND CAREER ENHANCEMENT OPPORTUNITIES.

The Company's future success depends substantially on the continued service and performance of members of its management team and employees. There is intense competition for experienced senior management and other qualified personnel, particularly office managers, field executives and employees with local knowledge in client procurement, loan disbursement and installment collections. Inability to hire additional or retain existing management personnel and employees, may impair the Company's ability to expand its business and adversely affect its revenue. Failure to train and motivate its employees properly may result in an increase in employee attrition rates, require additional hiring, divert management resources, adversely affect its origination and collection rates, increase the Company's exposure to high-risk credit and impose significant costs.

The Company has taken several actions to ensure that the talent pipeline for the Company is strong especially when it comes to key management positions. MMFSL also has a strong focus on ensuring that its employees are adequately trained in their job functions and on all compliance related trainings.

INFRASTRUCTURE RISK

The Company faces difficulties and incurs additional expenses in operating in rural and semi-urban markets, where infrastructure may be limited. MMFSL caters primarily to customers in rural and semi-urban markets, which may have limited infrastructure, particularly for transportation and electricity. At offices in remote areas, MMFSL may face difficulties in conducting operations, such as accessing power facilities, transporting people and equipment, implementing technology measures. MMFSL may also face increased costs in conducting its business and operations, implementing security measures and expanding its advertising. The Company cannot assure that such costs will not increase in the future as it expands its network in rural and semi-urban markets, which could adversely affect its profitability.

MMFSL has increased the number of offices from 1,167 in 2015-16 to 1,182 in 2016-17, across 26 States and five Union Territories. The aim is reaching out to people, so that their multifarious requirements can be fulfilled. Mahindra Finance enjoys strategic tie-up with automobile manufacturers, and it is widening its partnerships for superior customer experience.

INFORMATION TECHNOLOGY

Information technology has been at the core of all critical initiatives of the organisation and is a key lever for sustainable differentiation in the market. MMFSL deploys technology at the front-end for its field force, branches, distributors and end-customers. The Company's IT strategy is to deploy best of breed solutions from global IT vendors; these include off-the-shelf industry products, enterprise platforms for customer relationship, business processes, analytics, and mobility. The IT infrastructure is a combination of in-house data centre and cloud deployments, supporting high levels of service availability.

The information security posture has been enhanced through deployment of firewalls, end-user device protection, and application assessments. MMFSL leverages the in-house skills of domain knowledge in conjuction with outsourced services for application support and infrastructure management. The Company leverages technology in a forward-looking environment through constant engagement with start-ups, and experimentation of new technology solutions.

INTERNAL CONTROL

The Company has put in place an adequate internal control system to safeguard all its assets and ensure operational excellence. The system also meticulously records all transaction details and ensures regulatory compliance. The Company also has a team of internal auditors to conduct internal audit. Reputed audit firms also ensure that all transactions are correctly authorised and reported. The reports are reviewed by the Audit Committee of the Board. Wherever necessary, internal control systems are strengthened and corrective actions initiated.

CAUTIONARY STATEMENT

Certain statements in the Management Discussion and Analysis describing the Company’s objectives, predictions may be “forward-looking statements” within the meaning of applicable laws and regulations. Actual results may vary significantly from the forward looking statements contained in this document due to various risks and uncertainties. These risks and uncertainties include the effect of economic and political conditions in India, volatility in interest rates, new regulations and Government policies that may impact the Company’s business as well as its ability to implement the strategy. The Company does not undertake to update these statements.

REPORT ON CORPORATE GOVERNANCE

CORPORATE GOVERNANCE PHILOSOPHY

Your Company manages its affairs with diligence, transparency, responsibility and accountability to generate long-term value for its stakeholders on a continuous and sustainable basis thus ensuring ethical and responsible leadership both at the Board and at the Management levels.

Your Company has been following fair, transparent and ethical governance practices, essential for enhancing long-term shareholder value and retaining investor trust. The governance processes and practices ensure that the interest of all stakeholders are taken into account in a balanced and transparent manner and are firmly embedded into the culture and ethos of the organisation. This has been possible through sustained efforts and commitment to the highest standards of corporate conduct.

Your Company has an active, experienced and a well informed Board. The Board along with its Committees undertakes its fiduciary duties towards all its stakeholders with the Corporate Governance mechanism in place.

The Company is in compliance with the requirements mandated by the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ["the Listing Regulations"]. A Report on compliance with the Code of Corporate Governance as stipulated in the Listing Regulations is given below:

MEETINGS OF INDEPENDENT DIRECTORS

As stipulated by the Code of Independent Directors under the Act and the Listing Regulations, two Meetings of Independent Directors were held during the year. These Meetings were conducted informally to enable Independent Directors to discuss matters relating to Company's affairs and put forth their views without the presence of Non-Independent Directors and members of the Management.

At these Meetings, the Independent Directors reviewed the performance of Non-Independent Directors and the Board as a whole, reviewed the performance of the Chairman of the Company, taking into account the views of Executive Directors and Non-Executive Directors, assessed the quality, quantity and timeliness of the flow of information between the Management and the Board and its Committees which is necessary for the Board to effectively and reasonably perform and discharge their duties. Both these Meetings were well attended.

INFORMATION SUPPLIED TO THE BOARD

The Company sends a detailed agenda folder to each Director at least seven days before the date of the Board and Committee Meetings in accordance with the provisions of Secretarial Standard on Meetings of Board of Directors (SS-1) issued by the Council of the Institute of Company Secretaries of India and approved by the Central Government. All the agenda items are backed by necessary supporting information and documents to enable the Board to take informed decisions. A soft copy of the Board/Committee Meeting agenda is also hosted on the Board portal to provide web-based solution that functions as a document repository. To enable the Board to discharge its responsibilities effectively, the Vice-Chairman & Managing Director apprises the Board at every Meeting on the overall performance of the Company, as well as the current market conditions including the Company's business and the Regulatory scenario, followed by presentations by the Executive Director & Chief Financial Officer. A detailed Functional report is also placed before the Board at the Meetings.

The Board provides the overall strategic direction and periodically reviews strategy and business plans, annual operating and capital expenditure budgets and oversees the actions and results of the management to ensure that the long-term objectives of enhancing stakeholders' value are met. The Board also, inter-alia, reviews and considers investment and exposure limits, compliance report(s) of all laws applicable to the Company, as well as steps taken to rectify instances of non-compliances if any, review of major legal issues, minutes of Meetings of the Audit and other Committees of the Board, approval and adoption of quarterly/half-yearly/annual results, risk assessment and minimisation procedures, transactions pertaining to purchase/disposal of property(ies), major accounting provisions and write-offs, corporate restructuring, details of any joint ventures or collaboration agreement, material default in financial obligations, if any, transactions that involve substantial payment towards goodwill, brand equity or intellectual property, any issue that involves possible public or product liability claims of substantial nature, including judgment or order which may have passed strictures on the conduct of your Company, quarterly details of foreign exchange exposures and the steps taken by Management to limit the risks of adverse exchange rate movement and information on recruitment of Senior Officers just below the Board level. In addition to the above, pursuant to Regulation 24 of the Listing Regulations, the minutes of the Board Meetings of your Company's subsidiary companies and a statement of all significant transactions and arrangements entered into by the unlisted subsidiary companies are also placed before the Board.

The Chairman/Chairperson of various Board Committees brief the Board on all the important matters discussed and decided at their respective Committee Meetings.

PERFORMANCE EVALUATION OF BOARD, ITS COMMITTEES AND DIRECTORS

Pursuant to the provisions of the Act and Regulation 17 of the Listing Regulations, the Board has carried out an annual performance evaluation of its own performance, evaluation of the working of its Committees as well as performance of all the Directors individually. The Performance Evaluation of Board, its Committees and Directors has been discussed in detail in the Board's Report.

FAMILIARISATION PROGRAMME FOR INDEPENDENT DIRECTORS

The Company has adopted a structured programme for orientation of Independent Directors at the time of their joining so as to familiarise them with the Company—its operations, business, industry and environment in which it functions and the regulatory environment applicable to it. The Company updates the Board Members on a continuing basis on any significant changes therein and provides them an insight to their expected roles and responsibilities so as to be in a position to take well-informed and timely decisions and contribute significantly to the Company. Pursuant to the provisions of the Act and Regulation 25(7) of the Listing Regulations the Company has during the year conducted familiarisation programmes for its Independent Directors which included visit to Company's Branch/Regional office(s) and interaction with its customers, holding an off-site Board Meeting, detailed presentations on long term vision and strategy of the Company, its business model and operations, digitisation, Industry outlook, Goods and Services Tax, Demonetisation of Specified Bank Notes, Prevention of Insider Trading Regulations, SEBI Listing Regulations, Accounting Standards, Framework for Related Party Transactions, providing Regulatory updates at Board and Audit Committee Meetings, circulating press releases, disclosures made to Stock Exchanges, news and articles related to the Company to provide updates from time to time. Pursuant to Regulation 46 of the Listing Regulations the details of familiarisation programmes are available on the website of the Company at the web-link: **http://www.mahindrafinance.com/pdf/familiarisation-programme-for-IDs.pdf.**

REMUNERATION

Policy on Remuneration for Directors and criteria for determining qualifications, positive attributes and independence of a director

The success of an organisation in achieving good performance and good governing practices depends on its ability to attract and retain quality individuals with requisite knowledge and excellence as Executive and Non-Executive Directors.

The Nomination and Remuneration Committee ("the NRC") reviews and assesses Board composition and recommends the appointment of new Directors. In evaluating the suitability of individual Board member, the NRC shall take into account the following criteria regarding qualifications, positive attributes and also independence of director:

1. All Board appointments will be based on merit, in the context of the skills, experience, diversity, and knowledge, for the Board as a whole to be effective.

2. Ability of the candidates to devote sufficient time and attention to his/her professional obligations as Director for informed and balanced decision-making.

3. Adherence to the applicable Code of Conduct and highest level of Corporate Governance in letter and in spirit by the Directors.

Based on recommendation of the NRC, the Board will evaluate the candidate(s) and decide on the selection of the appropriate member.

Your Company has a well-defined Remuneration Policy for its Directors. The Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under section 178 of the Act and principles pertaining to qualifications, positive attributes, integrity and independence of Directors, etc. The NRC while determining the remuneration of the Directors shall ensure that the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate the person to ensure the quality required to run the Company successfully. While considering the remuneration, the NRC shall ensure a balance between fixed and performance-linked variable pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals and it shall ascertain that some part of the remuneration is linked to the achievement of corporate performance targets.

Remuneration Policy for Key Managerial Personnel and Employees

The Board and the Nomination and Remuneration Committee regularly keep track of the current and emerging market trends in terms of compensation levels and practices within the relevant industries. This information is used to review the Company's remuneration policies from time to time.

The broad structure of compensation payable to employees is as under:

- Fixed pay which has components like basic salary and other allowances/flexi pay as per the grade where the employees can chose allowances from bouquet of options.
- Variable pay (to certain grades) in the form of annual/half-yearly performance pay based on KRAs agreed.
- Incentives either monthly or quarterly based on targets in the lower grades.
- Retirals such as Provident Fund, Gratuity and Superannuation (for certain grades).
- Benefits such as car scheme, medical and dental reimbursement, loans, insurance, etc., as per grades.

The Cost to Company is reviewed annually and increment is given to eligible employees based on their position, performance and market dynamics as decided from time to time.

REMUNERATION PAID TO DIRECTORS

The eligible Non-Executive Directors are paid remuneration in the form of sitting fees and commission within the limits prescribed under the Act. The remuneration payable to eligible Non-Executive Directors is decided by the Board of Directors subject to the overall approval of Members of the Company.

The NRC while deciding the basis for determining the remuneration to the eligible Non-Executive Directors, both fixed and variable, takes into consideration various relevant factors, including the overall compensation policies of the Company pertaining to commission, current trends and practices in relevant industries, the market trends in terms of compensation levels, responsibilities undertaken by the Directors such as Chairpersonship of Committees, their contribution in enhancing stakeholders' value resulting in overall growth of the Company and such other factors as the NRC may deem fit.

The eligible Non-Executive Directors are paid commission up to a maximum of 1% of the net profits of the Company as specifically computed for this purpose. A commission of Rs.92.00 Lakhs has been provided as payable to the eligible Non-Executive Directors in the accounts for the year ended 31st March, 2017.

In addition, the eligible Non-Executive Director(s) are paid a sitting fee of Rs. 50,000 each for every Meeting of the Board, Rs. 40,000 each for every Audit Committee Meeting, Rs. 30,000 each for every Meeting of the Nomination and Remuneration Committee, Corporate Social Responsibility Committee, Stakeholders Relationship Committee, Asset Liability Committee and the Risk Management Committee respectively, and Rs. 20,000 each for every Meeting of the Committee for Strategic Investments (formerly known as "Strategy Committee for Acquisitions").

The Company has not granted Stock Options to any of its Non-Executive Directors during the year under review.

Remuneration of Executive Directors includes salary, perquisites, allowances, benefits, amenities, retirals viz. superannuation including gratuity and provident fund (fixed component) and commission and stock options (variable component). The remuneration to the Vice-Chairman & Managing Director and Executive Director & Chief Financial Officer is fixed by the NRC which is subsequently approved by the Board of Directors and Shareholders at a General Meeting/ by means of a Postal Ballot voting process.

The NRC while deciding the basis for determining the remuneration of the Executive Directors shall take into consideration the individual performance and the business performance. The business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRAs). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and performance rating of the individual.

Detailed information of Directors' remuneration for the year 2016-17 is set forth in Table 2.

Procedure for Postal Ballot

In compliance with Regulation 44 of the Listing Regulations and sections 108, 110 and other applicable provisions of the Act read with the Rules prescribed; the Company provides remote electronic voting (e-voting) facility to all its members to enable them to cast their votes electronically. The Company engages the services of Karvy Computershare Private Limited, its Registrar and Share Transfer Agents, for the purpose of providing e-voting facility to all its Members.

The Members have the option to vote either by physical ballot or e-voting. The Company dispatches the Postal Ballot Notices and Forms along with postage pre-paid business reply envelopes to its Members whose names appear on the Register of Members/list of Beneficiaries as on the cut-off date. The Postal Ballot Notice is sent to Members in electronic form to the e-mail addresses registered with their depository participants (in case of electronic shareholding)/ the Company's Registrar and Share Transfer Agents (in case of physical shareholding). The Company also publishes notice in the newspapers in English and Marathi languages declaring the details of completion of dispatch, and other requirements as mandated under the Act and applicable Rules and Secretarial Standard on General Meetings (SS-2). The Company also voluntarily publishes a notice in respect of declaration of results of the Postal Ballot in the newspapers for the information of its Members. The same are also posted on the website of the Company.

Voting rights are reckoned on the paid-up value of the shares registered in the names of the Members as on the cut-off date. Members desiring to exercise their votes by physical postal ballot forms are requested to return the forms duly completed and signed, to the scrutiniser on or before the close of voting period. Members desiring to exercise their votes by electronic mode are requested to vote before close of business hours on the last date of e-voting. The Scrutiniser submits his report to the Chairman or any other authorised Director of the Company, after the completion of scrutiny, and the consolidated results of the voting by postal ballot are accordingly declared by the Company within the stipulated time frame. The Results and the Report of the Scrutiniser are hosted on the Company's website

www.mahindrafinance.com besides being communicated to the Stock Exchanges and Registrar and Share Transfer Agents. The Results are also published in at least one English and one vernacular newspaper circulating in Maharashtra. The last date of receipt of the duly completed Postal Ballot Forms or e-voting is deemed to be the date of passing of the resolutions, if approved by the requisite majority.

Resolutions proposed to be passed by way of Postal Ballot

The Company proposes to seek the approval of the Shareholders in respect of the following Special Resolutions by way of Postal Ballot, including e-voting:

1. Increase in Borrowing limits from Rs. 55,000 crores to Rs. 60,000 crores under section 180(1)(c) of the Act and creation of charge on the assets of the Company under section 180(1)(a) of the Act.
2. Issue of Secured/Unsecured Redeemable Non-Convertible Debentures including Subordinated Debentures, in one or more series/tranches, aggregating upto Rs. 29,000 crores, on a Private Placement basis.
3. Place of keeping Registers and Index of Members, Debentureholders and copies of Annual Returns, pursuant to the provisions of section 94 of the Act.

None of the businesses proposed to be transacted in the ensuing Annual General Meeting requires the passing of a Special Resolution by way of Postal Ballot.

INDEPENDENT AUDITOR'S REPORT

To the Members of
Mahindra & Mahindra Financial Services Limited

REPORT ON THE STANDALONE FINANCIAL STATEMENTS

1. We have audited the accompanying standalone financial statements of **Mahindra & Mahindra Financial Services Limited** ("the Company"), which comprise the balance sheet as at March 31, 2017, and the statements of profit and loss and cash flow for the year then ended, and a summary of the significant accounting policies and other explanatory information.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit.

4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free from material misstatement.

6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

OPINION

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2017, and its profit and its cash flows for the period from April 1, 2016 to March 31, 2017.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

ANNEXURE II TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA & MAHINDRA FINANCIAL SERVICES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra & Mahindra Financial Services Limited** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and may not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES
TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1) Basis for preparation of financial statements:

The financial statements have been prepared in accordance with the Generally Accepted Accounting Principles (IGAAP) under the historical cost convention as a going concern and on accrual basis and in accordance with the provisions of the Companies Act, 2013 and the Accounting Standards specified under section 133 of the Companies Act, 2013 ("the Act") read with rule 7 of the Companies (Accounts) Rules 2014 (as amended).

All assets and liabilities have been classified as current and non – current as per the Company's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of services and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current/non-current classification of assets and liabilities.

Further, the Company follows prudential norms for Income Recognition, assets classification and provisioning for Non-performing assets as well as contingency provision for Standard assets as prescribed by The Reserve Bank of India (RBI) for Non-Banking Financial Companies. The Company has a policy of making additional provision on a prudential basis (refer note no. 30 of notes to the financial statements)

2) Use of estimates:

The preparation of financial statements requires the management to make estimates and assumptions considered in the reported amount of assets and liabilities (including contingent liabilities) as on the date of financial statements and the reported income and expenses during the reporting period. Management believes that the estimates used in the preparation of the financial statement are prudent and reasonable. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

3) Revenue recognition:

I. General:

Revenue is recognised as earned and accrued when it is reasonably certain that its ultimate collection will be made and the revenue is measureable.

II. Income from loans:

a) Interest Income from loan transactions is accounted for by applying the interest rate implicit in such contracts.

b) Service charges, documentation charges and other fees on loan transactions are recognised at the commencement of the contract.

c) Delayed payment charges, fee based income and Interest on trade advances, are recognised when they become measurable and when it is not unreasonable to expect their ultimate collection.

d) Income on business assets classified as Non-performing Assets, is recognised strictly in accordance with the guidelines issued by The Reserve Bank of India for Non-Banking Financial Companies. Unrealized interest recognized as income in the previous period is reversed in the month in which the asset is classified as Non-performing.

III. Subvention income:

Subvention received from manufacturers/dealers on vehicles financed is booked over the period of the contract.

IV. Income from assignment/securitization transactions:

A. Income accounted prior to the issuance of RBI Circular dated August 21, 2012 (the Circular):

i. In case of receivables assigned/securitised by the Company, the assets are de-recognised as all the rights, title, future receivables and interest thereof are assigned to the purchaser.

ii. On de-recognition, the difference between book value of the receivables assigned/securitised and consideration received as reduced by the estimated provision for loss/expenses and incidental expenses related to the transaction is recognised as gain or loss arising on assignment/securitisation.

iii. On the maturity of an underlying assignment/securitisation deal, estimated provision for loss/expenses and incidental expenses in respect of the said deal are reversed as the actual losses/expenses have already been debited to the Statement of profit and loss over the period.

B. Income accounted post the issuance of RBI Circular dated August 21, 2012 (the Circular):

i. Securitisation transactions:

a. Securitized receivables are de-recognized in the balance sheet when they are sold i.e. if they fully meet the true sale criteria.

b. Gains arising on securitisation of assets are recognised over the tenure of securities issued by Special Purpose Vehicles Trust (SPV).

c. Company's contractual rights to receive the share of future interest (i.e. interest spread) in the transferred assets from the SPV is capitalised at the present value as Interest Only (I/O) strip with a corresponding liability created for unrealised gains on loan transfer transactions. The excess interest spread on the securitisation transactions are recognised in the Statement of profit and loss only when it is redeemed in cash by the SPV. Losses, if any, are recognised upfront

ii. Assignment transactions:

a. Receivables under the assignment transactions are de-recognized in the balance sheet when they are sold subject to the portion of loan assets which is required under the Minimum Retention Criteria and reflected as Loans and Advances (refer note no. 13 and 18).

b. The amount of profit in cash on such transactions is held under an accounting head styled as "Cash profit on loan transfer transactions pending recognition" maintained on an individual transaction basis. The amortisation of cash profit arising out of loan assignment transaction is done at the end of every financial year based on the formula prescribed as per the Circular. The unamortized portion is reflected as "Other long-term liabilities"/"Other current liabilities" (refer note no. 4 and 8)

V. Income from investments:

a) Dividend from investments is accounted for as income when the right to receive dividend is established.

b) Interest income is accounted on accrual basis.

c) Interest income from investments made in structured instruments are accounted based on implicit rate built in such instruments.

4) Fixed assets, depreciation and amortization:

a) Tangible assets:

i. Tangible assets are stated at cost of acquisition (including incidental expenses), less accumulated depreciation.

ii. Assets held for sale or disposals are stated at the lower of their net book value and net realisable value.

b) Depreciation on Tangible assets:

Depreciation on tangible assets is charged on Straight Line Method (SLM) in accordance with the useful lives specified in Schedule II to the Companies Act, 2013 on a pro-rata basis except for following assets in respect of which useful life is taken as estimated by the management based on the actual usage pattern of the assets.

a) Assets costing less than Rs. 5000/- are fully depreciated in the period of purchase.

b) Vehicles used by employees are depreciated over the period of 48 months considering this period as the useful life of vehicle for the Company.

c) Repossessed assets, which are primarily used vehicles, that have been capitalised for own use are depreciated at the rate of 15% on SLM over the remaining useful life of these assets. The same have been grouped under the head 'Vehicles' forming part of Company's Tangible assets in note no. 10.

d) Residual value of the assets is considered as nil reflecting the estimate of realisable values at the end of the useful life of an asset.

c) Intangible assets:

Intangible assets are stated at cost less accumulated amortization and impairment loss, if any.

d) Amortization of Intangible assets:

Intangible assets comprises of computer software which is amortized over the estimated useful life. The maximum period for such amortization is taken as 36 months based on management's estimates of useful life.

5) Foreign exchange transactions and translations:

i. Initial recognition

Transactions in foreign currencies are recognised at the prevailing exchange rates between the reporting currency and a foreign currency on the transaction dates.

ii. Conversion

a. Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of profit and loss.

b. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

iii. Exchange differences

The Company accounts for exchange differences arising on translation/settlement of foreign currency monetary items as below:

a. Realized gains and losses on settlement of foreign currency transactions are recognised in the Statement of profit and loss.

b. Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of profit and loss.

iv. Forward exchange and other derivative contracts entered in to hedge foreign currency risk of an existing assets/ liabilities

a. In case of forward contracts with underlying assets or liabilities, the difference between the forward rate and the exchange rate which is either a premium or discount arising at the inception of a forward contract is amortised over the life of the contract. Unamortised forward premium as at the year end is reflected as Other long-term/short-term liabilities depending on the period over which the premium is amortised.

b. Any profit or loss arising on cancellation or renewal of forward exchange contracts are recognised as income or expense for the period.

c. As per the risk management policy, the Company has taken foreign currency swap to cover the risk exposure on account of foreign currency loans. These transactions are structured in such a way that the Company's foreign currency liability is crystallized at a rate of exchange prevailing on the date of taking the swap. The foreign currency loans are valued at the exchange rate prevailing on the reporting date. Foreign currency swaps are marked to market on reporting date and resultant gain or loss is charged to Statement of profit and loss.

d. Cross currency Interest rate swaps in the nature of hedge, taken to manage currency risk as well as interest rate risk on foreign currency liabilities, whereby variable interest rate in foreign currency is swapped for fixed interest rate in Indian rupees or vice-versa. Such Interest rate swaps are marked to market at each reporting date and resultant gain or loss is recognised in Statement of profit and loss.

6) Investments:

In terms of Non-Banking Financial Companies Prudential Norms (Reserve Bank) Directions, 1998, Investments held as long-term investments are generally carried at cost comprising of acquisition and incidental expenses. Long-term investments in structured instruments are carried at cost less principal repayments till reporting date. Provision for diminution in value of investments, if any, is made if in the opinion of management, such diminution is other than temporary. Any premium on acquisition is amortised over the remaining maturity of the security on a constant yield to maturity basis. Such amortisation of premium is adjusted against interest income from investments. The book value of the investments is reduced to the extent of amount amortised during the relevant accounting period.

Investments other than long-term investments are classified as current investments and valued at lower of cost or fair value.

7) Loans against assets:

Loans against assets are stated at agreement value net of instalments received less unmatured finance charges.

8) Employee benefits:

(a) Contribution to provident fund -

Company's contribution paid/payable during the year to provident fund is recognised in the Statement of profit and loss.

(b) Gratuity -

The Company provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated period mentioned under 'The Payment of Gratuity Act, 1972'. The Company accounts for liability of future gratuity benefits based on an external actuarial valuation on projected unit credit method carried out for assessing liability as at the reporting date. Actuarial gains/ losses are immediately taken to the Statement of profit and loss and are not deferred.

(c) Superannuation -

The Company makes contribution to the Superannuation scheme, a defined contribution scheme, administered by Life Insurance Corporation of India, which are charged to the Statement of profit and loss. The Company has no obligation to the scheme beyond its contributions.

(d) Leave encashment/compensated absences/sick leave -

The Company provides for the encashment/availment of leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment/availment. The liability is provided based on the number of days of unutilized leave at each balance sheet date on the basis of an independent actuarial valuation.

9) Borrowing costs:

Borrowing costs are charged to the Statement of profit and loss. Ancillary expenditure incurred in connection with the arrangement of borrowings is amortised over the tenure of the respective borrowings.

10) Current and deferred tax:

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax on timing differences, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods is accounted for using the tax rates and tax laws enacted or substantively enacted as on the balance sheet date. Deferred tax assets arising on account of unabsorbed depreciation or carry forward of tax losses are recognised only to the extent that there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Other deferred tax assets are recognised only when there is a reasonable certainty of their realisation.

11) Securities issue expenses:

Expenses incurred in connection with fresh issue of Share capital and public issue of debt securities are adjusted against Securities premium reserve as per the provisions of section 52 of the Companies Act, 2013.

12) Impairment of assets:

The carrying value of assets/cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life to their present value based on an appropriate discount factor.

13) Provisions and contingent liabilities:

Provisions are recognised when there is a present obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

14) Employee Stock Compensation Costs:

Measurement and disclosure of the Employee Share-based Payment plans is done in accordance with Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 and the Guidance Note on Accounting for Employee Share-based Payments, issued by ICAI. The Company measures compensation cost relating to employee stock options using the Intrinsic value method (i.e. excess of market value of shares over the exercise price of the option at the date of grant). Compensation cost is amortized over the vesting period of the option on a straight line basis. The options which have lapsed are reversed by a credit to Employee compensation cost, equal to the amortised portion of value of lapsed portion and credit to Deferred employee compensation cost equal the unamortised portion.

15) Lease:

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. Lease rentals in respect of assets taken on operating lease arrangements are recognized as per the terms of the lease.

16) Earnings Per Share:

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, sub-division of shares etc. that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

Your Company is in compliance with the statutory requirements in this regard. The Annual Report on the CSR activities undertaken by your Company in the Financial Year 2016-17 is appended as Annexure I to this Report.

12. Performance Evaluation of the Board

The Companies Act, 2013 states that a formal annual evaluation needs to be made by the Board of its own performance and that of its committees and individual directors. Further, Schedule IV of the Companies Act, 2013, states that the performance evaluation of independent directors shall be done by the entire Board of Directors, excluding the director being evaluated.

Well-defined and structured questionnaires are used in the evaluation process. These questionnaires were prepared after taking into consideration inputs received from the Directors and cover various aspects of the board's functioning such as adequacy of the composition of the board and its committees, board culture, areas of responsibility, execution and performance of specific duties, obligations, governance and compliance perspective, etc.

The evaluation process involves self-evaluation by each of the Board Members and subsequent assessment by the Nomination and Remuneration Committee and the Board of Directors based on the inputs received from all the Directors through the questionnaires.

In a separate meeting on independent directors, performance of non-independent directors, performance of board as a whole and performance of the chairman was evaluated, taking into account views of executive directors and non-executive directors. The same was also discussed in the board meeting, at which the performance of the board, its committees and individual directors was also discussed. Performance evaluation of independent directors was done by the entire board excluding the independent directors being evaluated.

In general, the Directors have expressed their satisfaction with the evaluation process.

13. Declaration by Independent Directors

The Company has received declarations from each Independent Director of the Company under section 149(7) of the Companies Act, 2013, that he/she meets the criteria of independence as prescribed under sub-section (6) of Section 149 of the Companies Act, 2013.

14. Directors' Responsibility Statement

Pursuant to the provisions of Section 134(5) of the Companies Act, 2013, the Board of Directors confirm that:

i. In the preparation of the annual accounts for Financial Year ended March 31, 2017, the applicable accounting standards have been followed and there are no material departures in adoption of these standards;

ii. They have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at March 31, 2017 and of the profit of the Company for the year ended on that date;

iii. They have taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of this Act for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

iv. They have prepared the annual accounts for Financial Year ended March 31, 2017 on a 'going concern' basis;

v. They devised proper systems to ensure compliance with provisions of all applicable laws and that such systems were adequate and operating effectively.

15. Company's policy on remuneration of Directors, Key Managerial Personnel and employees

The Company has adopted the following policies as required under sub-section (3) of section 178 of the Companies Act, 2013:

(i) 'Policy on Remuneration of Directors' and

(ii) 'Remuneration Policy for Key Managerial Personnel (KMPs) and Employees'.

which includes the criteria for determining qualifications, positive attributes and independence of a director.

The Nomination and Remuneration Committee while recommending the appointment of Directors considers desirable qualifications which may amongst other things include professional qualifications, skills, professional experience, background and knowledge apart from the criteria of independence as prescribed under the Companies Act, 2013. The Policy on Remuneration of Directors and Remuneration Policy for KMPs and Employees of the Company is appended as Annexure III to this Report in accordance with the provisions of sub-section (4) of section 178 of the Act. There has been no change in the policy since the last fiscal year. The remuneration paid to the directors is as per the terms laid out in the Remuneration Policy of the Company.

16. Codes of Conduct for Corporate Governance

The Board of Directors of the Company had adopted separate Codes of Conduct for Corporate Governance ("the Codes") for its Directors and Senior Management and Employees. These Codes enunciate the underlying principles governing the conduct of the Company's business and seek to reiterate the fundamental precept that good governance must and would always be an integral part of the Company's ethos. The Company has for the year under review, received declarations under the Codes from the Board Members, the Senior Management and Employees of the Company affirming compliance with the respective Codes.

The Company has adopted a Code of Conduct for its Independent Directors as laid down in the Companies Act, 2013. This code is available on the Company's website.

17. Corporate Social Responsibility

Through its various Corporate Social Responsibility ("CSR") initiatives, the Mahindra Group is enabling entire communities to 'RISE'. With a vision of transforming the lives of youth from socially weaker and economically disadvantaged sections of society, the Mahindra Group is committed to 'building possibilities' to enable them to 'RISE' above their limiting circumstances by innovatively supporting them through programs in the domains of education, health and environment.

The Company has duly constituted a CSR Committee in accordance with Section 135 of the companies Act, 2013 to assist the Board and the Company in fulfilling the corporate social responsibility objectives of the Company. The CSR Committee presently comprises of Mr. Rajeev Dubey (Chairman), Mr. Ramesh Iyer, Ms. Anjali Raina, Mr. V. Ravi and Dr. Jaideep Devare.

During the year under review, your Company contributed Rs. 136.75 lakhs towards Corporate Social Responsibility to various institutions for charitable purposes. Your Company is in compliance with the Statutory Provisions in this regard.

The CSR Policy of the Company is hosted on the Company's website https://www.mahindrainsurance.com/Social-Responsibility.aspx and a brief outline of the CSR Policy and the CSR initiatives undertaken by the Company during the year as per annexure prescribed in the Companies (Corporate Social Responsibility Policy) Rules, 2014 have been appended as Annexure I to this Report.

18. Extract of Annual Return

Pursuant to sub-section 3(a) of Section 134 and sub-section (3) of Section 92 of the Companies Act, 2013, read with Rule 12 of the Companies (Management and Administration) Rules, 2014, an extract of the Annual Return as at March 31, 2017 forms part of this Report and is appended as **Annexure II**.

19. Public Deposits

The Company has not accepted any deposits from the public or its employees during the year under review. No amount on account of principal or interest on deposits from public was outstanding as on the date of balance sheet.

20. Particulars of loans, guarantees or investments

The Company has advanced loans and advances in the nature of loans under Section 186 of the Companies Act, 2013, the details of which are mentioned in the notes to the financial statements and forms part of this Report.

Your Company has not made any loans/advances and investment which are required to be disclosed in the annual accounts of the Company pursuant to Regulation 34(3) and 53(f) of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with Schedule V, applicable to the parent Company.

21. Particulars of contracts or arrangements with related parties

All contracts/arrangements/transactions entered into by the Company during the Financial Year with related parties were in the ordinary course of business and on an arm's length basis. None of the Non-Executive Directors has any pecuniary relationships or transactions vis-à-vis the Company.

The particulars of material related party transactions refereed to under section 188(1) of the Companies Act, 2013 are given in the prescribed form AOC -2 as Annexure V and the same forms part of this report.

22. Material Changes and Commitments affecting the Financial Position of the Company

There have been no material changes and commitments, affecting the financial position of the Company which have occurred between the end of the financial year of the Company to which the financial statements relate and the date of the Report.

23. Change in the nature of business

There was no change in nature of business carried on by the Company during the year under review.

24. Risk Management

The Company has a well-defined risk management framework in place. Your Company has established procedures to periodically review risk assessment and steps taken by it to mitigate these risks. The key business risks identified by the Company and its mitigation plans are as under:

i) Competitive Risks

Overall slowdown in economic activity could have an adverse effect on the financial condition and operational results of the Company.

As the overall levels of economic activity increase, the demand for insurance generally rises, and vice-versa. This impacts both, the brokerage as well as fees, generated by the business. Softening of the insurance market i.e. downward trends in the year-over-year insurance premium charged by insurers to offer protection against the same risk, could adversely affect the business as a large portion of the earnings are brokerage which is determined as a percentage of premium charged to the customers.

Significant competitive pressures in each of the business lines

The Company competes with a large number of insurance companies and other insurance intermediaries. Some of the competitors may have or may develop a lower cost structure, adopt or provide services that gain greater market acceptance.

Large and well-established competitors may be able to respond to the need for technological changes and innovate faster, or price their services more aggressively. They may also compete hard for skilled professionals, finance acquisitions, fund internal growth and compete for customers. To respond to increased competition, we may have to lower the pricing of the services.

ii) Legal and Regulatory Risks

The Company is subject to professional indemnity claims made against it, as well as other legal proceedings, some of which, if determined against the Company, could have a material adverse effect on the financial condition or results of operations of a particular business line or the Company as a whole.

The Company traditionally has procured, and intends to continue to procure, insurance to cover professional indemnity claims and other insurance to provide protection against certain claims or losses that arise in such matters.

The business is subject to extensive regulation, which could reduce profitability, limit growth, or increase competition

The business is subject to extensive legal and regulatory oversight, including the IRDA (Insurance Brokers) Regulations, 2013 and the rules and regulations promulgated by the Insurance Regulatory and Development Authority of India (IRDAI) and a variety of other laws, rules and regulations. This legal and regulatory oversight could reduce profitability or limit growth by limiting or restricting the products or services the Company sells, by increasing the costs of legal and regulatory compliance, limiting the distribution methods by which it sells products and services, or capping the brokerage it can charge for the services, limiting the amount and form of compensation it can accept from the customers, insurers and third parties, or by subjecting the business to the possibility of legal and regulatory actions or proceedings.

Though the Company employees and authorized representatives exercise due care so not to violate these laws and regulations, there can be no assurances as regards the same.

iii) Operational and Commercial Risks

The Company's success depends on its ability to retain and attract experienced and qualified personnel, including the senior management and operating team and other professional personnel.

The business depends, to a large extent, upon the members of the senior management team and senior operating team, who possess extensive knowledge and a deep understanding of the business and strategy. The unexpected loss of services of any of the senior executives could have a disruptive effect, thereby impacting ability to manage the business effectively till such time as an able replacement is in place. The Company is constantly working to retain and attract these professionals through various people development initiatives.

Business performance and growth plans could be affected if the Company is not able to effectively apply technology in driving value for its customers through technology-based solutions or gain internal efficiencies through the effective application of technology and related tools. Conversely, investments in innovative technology-based solutions may fail to yield sufficient return to cover their investments.

The Company's success depends, in part, on its ability to apply and implement technology-based solutions that anticipate and keep pace with rapid and continuing changes in customer preferences. Response to these preferences needs to be timely and cost-effective. This also entails the business to incur considerable investment. In order to acquire and retain customers, the Company continuously strives to offer newer and cost-effective technologies to its customers, ahead of its competitors.

Other factors, outside of the Company's control.

The Company has no control over premium rates. The brokerage rates, too, are capped by the current regulations.

In addition to movements in premium rates, the ability to generate premium-based brokerage revenue may be challenged by:

- the level of compensation, as a percentage of premium, that insurers are willing to compensate brokers for placement activity, which in any case, is capped by the current regulations;
- competition from insurers seeking to sell their products directly to consumers without the involvement of an insurance broker;
- increasing willingness on the part of customers to "self-insure", which would increase competition and put pressure on pricing;
- fluctuation in the need for insurance as the economic downturn continues, as customers prioritize their need and willingness to procure insurance accordingly.

25. Auditors

The Board of Directors at its meeting held on April 14, 2014 had appointed M/s. B. K. Khare and Co., as the Statutory Auditors of the Company for a period of 5 years from the conclusion of the Annual General Meeting (AGM) held on July 14, 2014 till the conclusion of the thirty-second AGM of the Company to be held in the year 2019, subject to the ratification of their appointment by shareholders at every Annual General Meeting.

As required under the provisions of Sections 139(1) read with 141 of the Companies Act, 2013, the Company has obtained a written certificate from M/s. B. K. Khare & Co., Chartered Accountants, to the effect that their ratification of appointment, if made, would be in conformity with the criteria specified in the said sections.

Pursuant to the recommendation received from the Audit Committee, the Board has proposed the ratification of the appointment of M/s. B. K. Khare & Co., as Statutory Auditors of the Company, to the Shareholders at the forthcoming Annual General Meeting for a period of one year.

26. Accounting Standards followed by the Company

The financial statements have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The Company's financial statements for and up to the year ended March 31, 2016 were prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) and were in compliance with the Accounting Standards specified under Section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014 and the relevant provisions of the Act.

These are the Company's first financial statements prepared in accordance with Indian Accounting Standards (IndAS). The Company has applied IndAS 101, First-time Adoption of Indian Accounting Standards. An explanation of how transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 29 to the financial statements.

27. Comments on Auditors' Report

There are no qualifications, reservations or adverse remarks or disclaimers made by M/s B. K. Khare & Co., Statutory Auditors, in their report. The Auditors' Report is enclosed with the financial statements in this Annual Report.

28. Human Resources

Your Company took a number of initiatives to strengthen human resources during the year.

In pursuance of your Company's commitment to develop and retain the best available talent, your Company has been sponsoring the employees for training programmes organized by reputed faculties and professional institutions for building capabilities thereby upgrading the skill, knowledge and expertise of the employees in different operational areas.

Your Company continues to focus on building leadership capability and recognizing the team managers who provide a rewarding work environment for their teams.

Your organization also understands its responsibility towards society at large and therefore engages its employees in volunteering and implementing various social initiatives.

The organization's focus on best practices has been driven by the desire and commitment to deliver a best-in-class service experience to your Company's valued customers. Your company has endeavored to develop people capabilities to match and exceed customer expectations since the customers associated with your Company deserve the best.

Your Company strongly believes in maintaining the dignity of all employees. Discrimination and harassment of any type are strictly prohibited. Your Company has taken the necessary steps to abide by all statutory compliances and enhance awareness w.r.t. provisions of the Sexual Harrassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 ("the Act") and the Rules framed thereunder. During the year under review, there were no cases filed pursuant to the Act and Rules framed thereunder.

29. Subsidiaries

The Company does not have any subsidiary as at March 31, 2017 or during the Financial Year ended on that date.

30. Particulars regarding conservation of energy, technology absorption, and foreign exchange earnings and outgo

The particulars in respect of conservation of energy, technology absorption and foreign exchange earnings and outgo, as required under Section 134(3)(m) of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014 is given in **Annexure IV**.

31. Details of significant and material orders passed by the regulators or courts or tribunals impacting the going concern status and company's operations in future

There are no significant and material orders passed by the Regulators or Courts or Tribunal which would impact the going concern status of the Company and its future operations.

32. Details in respect of adequacy of internal financial controls with reference to the Financial Statements

Your Company has in place adequate system of internal financial controls with reference to financial statements, commensurate with the size, scale and complexity of its operations. These systems provide a reasonable assurance in respect of providing financial and operational information, complying with applicable statutes, safeguarding of assets of the Company and ensuring compliance with corporate policies.

Assessment of the internal financial controls environment of the Company was undertaken during the year which covered verification of entity level controls, process level controls and IT controls, identification, assessment and definition of key business processes and analysis of risk control matrices, etc. Reasonable Financial Controls are operative for all the business activities of the Company and no material weakness in the design or operation of any control was observed.

33. Reporting of Frauds

There are no frauds on or by the Company which were required to be reported by the Statutory Auditors of the Company to the Central Government.

34. Acknowledgements

Your Directors take this opportunity to express their deep sense of gratitude to the Insurance Regulatory and Development Authority of India (IRDAI) for their continuous support and guidance rendered to the Company. Your Directors would also like to thank Company's employees, customers, vendors and investors for their continuous support. Your Directors truly appreciate and value the contributions made by each and every member of the Company.

ANNEXURE III-A TO THE DIRECTORS' REPORT

POLICY ON REMUNERATION OF DIRECTORS

Prelude

Mahindra Insurance Brokers Limited ("Company") is a composite insurance broking company registered with the Insurance Regulatory and Development Authority of India ('IRDAI'), and is engaged in providing direct insurance broking for Corporate and Retail customers and offers a range of products for the Non-Life and Life segments. The company is also engaged in the business of reinsurance broking wherein it caters to insurance requirements of insurance companies.

This Policy shall be effective from the Financial Year 2014 - 15.

Intent of the Policy

The intent of the Remuneration Policy of Directors of the Company is to focus on enhancing the value and to attract and retain quality individuals with requisite knowledge and excellence as Executive and Non-Executive Directors for achieving objectives of the Company and to place the Company in a leading position.

The Nomination and Remuneration Committee (NRC) of the Board shall, while formulating the policy ensure that —

a) the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the company successfully;

b) relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and

c) remuneration to Directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

While deciding the policy on remuneration of Directors the Committee may consider amongst other things, the duties and responsibilities cast by the Companies Act, 2013, various Codes of Conduct, Articles of Association, restrictions on the remuneration to Directors as also the remuneration drawn by Directors of other companies in the industry, the valuable contributions and inputs from Directors based on their knowledge, experience and expertise in shaping the destiny of the Company etc. The Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under Section 178 of the Companies Act, 2013 and principles pertaining to qualifications, positive attributes, integrity and independence of Directors, etc.

Directors

The Managing Director is an executive of the Company and draws remuneration from the Company. The Non-Executive Chairman and Independent Directors may receive sitting fees for attending the meeting of the Board and the Committees thereof, if fixed by the Board of Directors from time to time subject to statutory provisions. The Non-Executive Chairman and Independent Directors would be entitled to the remuneration under the Companies Act, 2013. A Non-Executive Chairman and Non-Executive Non-Independent Directors who receive remuneration from the holding company or a Group Company will not be paid any sitting fees or any remuneration. In addition to the above, the Directors are entitled for reimbursement of expenses incurred in discharge of their duties. Payment of Remuneration to Nominee Directors shall be governed by the agreement with the Financial Institution/Bank appointing the Nominee Director and by the Articles of Association of the Company.

The Managing Director and other eligible Director(s) as per extant statutory provisions may be granted Employees Stock Options, Stock Appreciation Rights or any other Share based Employee benefits pursuant to any scheme that may be approved by the Board of Directors and shareholders of the Company subject to such other approvals as may be required.

Non-Executive Directors may be paid remuneration either by way of monthly payment or at a specified percentage of net profits of the Company or partly by one way and partly by another, subject to the provisions of Companies Act, 2013.

The NRC while determining the remuneration shall ensure that the level and composition of remuneration to be reasonable and sufficient to attract, retain and motivate the person to ensure the quality required to run the Company successfully. While considering the remuneration, the NRC shall also ensure a balance between fixed and performance-linked variable pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

The NRC shall consider that a successful Remuneration Policy must ensure that some part of the remuneration is linked to the achievement of corporate performance targets.

Managing Director/Executive Directors

The term of office and remuneration of Managing Director/ Executive Directors are subject to the approval of the Board of Directors, Shareholders, Central Government and other Statutory Authorities as may be required and the limits laid down under the Companies Act, 2013 from time to time.

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay, subject to the requisite approvals, remuneration to its Managing Director/Executive Directors in accordance with the provisions of Schedule V of the Companies Act, 2013.

If any Managing Director/Executive Director draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he/she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration of the Managing Director/Executive Directors reflects the overall remuneration philosophy and guiding principle of the Company. While considering the appointment and remuneration of Managing Director/Executive Directors, the NRC shall consider the industry benchmarks, merit and seniority of the person and shall ensure that the remuneration proposed to be paid is commensurate with the remuneration packages paid to similar senior level counterpart(s) in other companies.

Remuneration for Managing Director/Executive Director is designed subject to the limits laid down under the Companies Act, 2013 to remunerate them fairly and responsibly. The remuneration to the Managing Director/Executive Director comprises of salary, perquisites and performance based incentive apart from retirement benefits like Provident Fund, Superannuation, Gratuity, Leave Encashment, etc., as per Rules of the Company. Salary is paid within the range approved by the Shareholders. Increments are effective annually, as recommended/approved by the NRC/ Board. In terms of the shareholders' approval, the Commission may be paid to Managing Director in any Financial Year at a rate not exceeding 1/4% (one fourth percent) per annum of the profits of the Company computed in accordance with the applicable provisions of the Companies Act, 2013 as may be recommended by NRC and approved by the Board.

The total remuneration will have a flexible component with a bouquet of allowances to enable the Managing Director/Executive Director to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually.

The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and performance rating of the individual.

Remuneration also aims to motivate the Personnel to deliver Company's key business strategies, create a strong performance-oriented environment and reward achievement of meaningful targets over the short and long-term.

The Managing Director/Executive Directors are entitled to customary non-monetary benefits such as company cars, health care benefits, leave travel, communication facilities, etc., as per policies of the Company. The Managing Director and Executive Directors are entitled to grant of Stock Options as per the approved Stock Options Schemes of the Company from time to time.

Disclosures

Information on the total remuneration of members of the Company's Board of Directors, Managing Director/Executive Directors and Key Managerial Personnel/Senior Management Personnel may be disclosed in the Board's Report as per statutory requirements laid down in this regard.

ANNEXURE III-B TO THE DIRECTORS' REPORT

INDEPENDENT AUDITOR'S REPORT

To

The Members of MAHINDRA INSURANCE BROKERS LIMITED

Report on the Standalone Ind AS Financial Statements

1. We have audited the accompanying standalone Ind AS financial statements of **Mahindra Insurance Brokers Limited** ("the Company"), which comprise the balance sheet as at March 31, 2017, and the statements of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "standalone Ind AS financial statements")

Management's Responsibility for the Standalone Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014(as amended). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the company as at March 31, 2017 and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year then ended on that date.

Report on Other Legal and Regulatory Requirements

9. ANNEXURE I TO THE AUDITOR'S REPORT

Referred to in paragraph 9 of our report of even date on the standalone Ind AS financial statements of **Mahindra Insurance Brokers Limited** for the year ended March 31, 2017

1. (i) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

   (ii) The fixed assets of the Company have been physically verified by the Management during the year. The discrepancies noticed on such verification were not material and have been properly dealt with in the books of account. In our opinion, the frequency of verification is reasonable.

   (iii) According to the information and explanation given to us, no immovable property is held by the Company in its own name.

2. The Company is in the business of providing insurance broking services and consequently, does not hold any inventory. Therefore, the provisions of Clause 3(ii) of the said order are not applicable to the Company.

3. The Company has not granted any loans, secured or unsecured to companies, firms or other parties covered in the register maintained under section 189 of the Act. Accordingly, the provisions of clause (iii), (iii)(a), (iii)(b) and (iii)(c) of the Order are not applicable to the Company.

4. The Company has not granted any loans or made any investments, or provided any guarantees or security to the parties covered under Section 185. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Section 186 of the Companies Act, 2013 in respect of the loans and investments made, and guarantees and security provided by it.

5. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified. Therefore the provisions of Clause 3(v) of the Order are not applicable to the company.

6. The Central Government of India has not specified the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company.

7. (i) According to the records of the Company and information and explanations given to us, the Company is generally regular in depositing with the appropriate authorities undisputed statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Excise Duty, Service Tax, Customs Duty, Value Added Tax, and other statutory dues applicable to it with the concerned authorities.

   (ii) According to the information and explanations given to us, there are no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income tax, Sales Tax, Wealth Tax, Excise Duty, Service Tax, Customs Duty and Value Added Tax that were outstanding, at the year-end for a period of more than six months from the date they became payable.

   (iii) According to the information and explanations given to us and records of the Company examined by us, there are no dues of Income-Tax, Sales Tax, Service Tax, Excise Duty, Customs Duty and Value Added Tax and cess which have not been deposited on account of any dispute.

8. Based on the records examined by us and according to the information and explanations given to us, the Company has not borrowed any money from financial institution or banks or debenture holders during the year under audit.

9. In our opinion and according to the information and explanations given to us, during the year, no term loans were obtained by the Company. During the year, there were no moneys raised by way of initial public offer or further public offer.

10. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, except for an instance aggregating Rs. 5.03 lakhs which was subsequently recovered from the employee, on the company by its officers or employees, we have neither come across any instance of fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of such case by the Management.

11. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

12. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the provisions of Clause 3(xii) of the Order are not applicable to the Company.

13. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the standalone Ind AS financial statements as required under Accounting Standard (AS) 18, Related Party Disclosures specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

ANNEXURE II TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA INSURANCE BROKERS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Insurance Brokers Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

STATEMENT OF ACCOUNTING POLICIES FOR THE YEAR ENDED 31ST MARCH, 2017.

1 Company overview

Mahindra Insurance Brokers Limited is a Public Limited Company incorporated and domiciled in India. The Company's registered office is at Mumbai, Maharashtra, India. These financial statements correspond to the stand alone financial statements of the Company. The Company is primarily involved in the business of rendering insurance broking services.

The immediate parent Company is Mahindra & Mahindra Financial Services Limited and ultimate parent Company is Mahindra & Mahindra Limited, a company incorporated in Mumbai, India.

2 Basis of preparation

a. Statement of compliance and basis of preparation

These financial statements have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The Company's financial statements upto and for the year ended 31 March 2016 were prepared in accordance with the Standards notified under the Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act.

These are the Company's first financial statements prepared in accordance with Indian Accounting Standards (Ind AS). The Company has applied Ind AS 101, First-time Adoption of Indian Accounting Standards. An explanation of how transition to Ind AS has affected the previously reported financial position, financial performance and cash flows of the Company is provided in Note 29.

The financial statements were authorised for issue by the Company's Board of Directors on April 17, 2017.

b. Functional and presentation currency

These financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency. All amounts are rounded-off to the nearest lacs, unless otherwise indicated.

c. Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
– Certain financial assets and liabilities which are generally derivative instruments	Fair value
– Net defined benefit (asset)/liability	Fair value of plan assets less present value of defined benefit obligations

d. Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Assumptions and estimation uncertainties

Following are areas that involved a higher degree of judgement or complexity in determining the carrying amount of some assets and liabilities. Detailed information about each of these estimates and judgements that have a significant risk of resulting in material adjustment in the year ending March 31, 2017 is included in relevant notes.

- Estimation of current tax expense and payable
- Estimated useful life of property, plant and equipments
- Estimated useful life of intangible assets
- Estimation of define benefit obligation
- Impairment of trade receivables
- Recognition of revenue under percentage completion method

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

Judgements

In following areas judgements are made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements. Detailed information about each of these areas is included in relevant notes.

e. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

The Company's has established policies and procedures with respect to the measurement of fair values. The Financial Controller and person entrusted has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, including assessments that these valuations meet the requirements of Ind AS. Significant valuation issues are reported to audit committee.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

3 Significant accounting policies

a. Business combination:

Business combinations that occurred prior to 1 April 2015

In respect of such business combinations, goodwill represents the amount recognised under Company's previous accounting framework under Indian GAAP and is adjusted for reclassification of certain intangibles. All Indian GAAP balances are carried forward with minimal adjustments.

Business combinations that occurred on or after 1 April 2015

The Company accounts for all business combinations (other than common control business combinations) using the acquisition method when control is transferred to the Company. The consideration transferred for the business combination is generally measured at fair value as at the date the control is acquired (acquisition date), as are the net identifiable assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in OCI and accumulated in equity as a capital reserve if there exists clear evidence of underlying reasons for classifying the business combination as resulting in bargain purchase; otherwise the gain is recognised directly in equity as capital reserve. Transaction costs are expensed as incurred, except to the extent related to the issue of debt and equity securities.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that Contingent meets the definition of a financial instrument is classified as equity, then it is not remeasured subsequently and settlement is accounted within equity. Other contingent consideration is subsequently remeasured at fair value at each reporting date and changes in fair value of the contingent consideration are recognised in profit or loss.

Common control business combinations

Business combinations arising from transfers of interest in entities that are under control of the shareholder that controls the Company are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established. The comparative financial statements are restated. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in Company's financial statements in the same form in which they appeared in the financial statements of the acquired entity. The difference, if any, between the consideration and the amount of share capital of the acquired entity is transferred to capital reserve and is presented separately from other capital reserves.

b. Foreign currency:

Transactions in foreign currencies are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. They are deferred in equity if they relate to qualifying cash flow hedges.

Foreign exchange differences regarded as an adjustment to borrowing costs are presented in the statement of profit and loss, within finance costs. All other foreign exchange gains and losses are presented in the statement of profit and loss on a net basis within other gains/(losses).

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non- monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as FVOCI are recognised in other comprehensive income.

c. Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable. Amount disclosed as revenue are exclusive of service tax and net of revenue on policy cancellations and endorsements.

Rendering of services

Brokerage Income, Handling Charges & Broker Retainer Fees is accounted for net of service tax amount on rendition of services. Brokerage income is recognized on receiving details of the policy issued by the insurance company or receipt of brokerage whichever is earlier. The Company recognises revenue from rendering of services in proportion to the stage of completion of the transaction at the reporting date. The stage of completion is assessed based on surveys of work performed.

Dividend and interest income

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the Company, and the amount of the dividend can be measured reliably.

Interest income is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Interest income is recognised using effective interest method when it is probable that the economic benefits associated with the interest will flow to the Company, and the amount of the interest can be measured reliably. The effective interest rate is the rate that discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

d. Government grants:

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions. The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

Government grants relating to income are deferred and recognised in the profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

Government grants relating to purchase of assets are included in non-current liabilities as deferred income and are credited to profit or loss on a straight-line basis over the expected useful lives of the related assets and presented within other income.

e. Employee benefits:

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post-employment obligations

The Company operates the following post-employment schemes:- defined benefit plans such as gratuity, pension, and- defined contribution plans such as provident fund.

Gratuity and pension obligations

The liability or asset recognised in the balance sheet in respect of defined benefit pension and gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuary using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

Share-based payment arrangements

Share-based compensation benefits are provided to employees via the Company's Employee Option Plan and share-appreciation rights.

f. Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

g. Leasing:

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Certain arrangements conveys a right to use an asset in return for a payment or series of payments. At inception of the arrangement, the Company determines whether such an arrangement is or contains a lease. A specific asset is the subject of a lease if fulfillment of the arrangement is dependent on the use of that specified asset. An arrangement conveys the right to use the asset if the arrangement conveys to the Company the right to control the use of the underlying asset.

At inception or upon reassessment of the arrangement, the Company separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. The lease component is accounted as per Company's accounting policy on leasing transactions. If the Company concludes for a finance lease that it is impracticable to separate the payments reliably, an asset and a liability are recognized at an amount equal to the fair value of the underlying asset. Subsequently the liability is reduced as payments are made and an imputed finance charge on the liability is recognized using the Company's incremental borrowing rate. If the Company concludes for an operating lease that it is impracticable to separate the payments and other consideration into those for the lease and those for other elements, all payments under the arrangement are treated as lease payments.

The Company as lessor

Amounts due from lessees under finance leases are recognized as receivables at the amount of the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Company's net investment outstanding in respect of the leases.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

The Company as lessor

Assets held under finance leases are initially recognized as assets of the Company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognised immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Company's general policy on borrowing costs. Contingent rentals are recognized as expenses in the periods in which they are incurred.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

h. Taxation:

Income tax expense comprises current tax and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

Current tax

Current tax comprises expected tax payable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts and it is entended to realise the asset and settle the liability on a net basis or simultaneously.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

i. Property, plant and equipment:

Recognition and measurement

All the items classified under property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses, except for freehold land which are stated at cost less any accumulated impairment losses.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated cost of dismantling and removing the items and restoring the site on which it is located.

The cost of self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the assets to a working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located and capitalised borrowing costs.

When significant parts of an item of property, plant and equipment have different useful lives, they are depreciated for as separate items (major components) of property, plant and equipment.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other expenses in profit or loss.

Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised.

Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using straight-line method and is generally recognised in the statement of profit or loss. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Company will obtain ownership by the end of the lease term. Freehold land is not depreciated.

The estimated useful lives of items of property, plant and equipment for the current and comparative periods are as follows:

Class of asset	Year ended 31 March 2017	Year ended 31 March 2016
Plant and equipment (including Computers)	**2-25 years**	2-25 years
Office equipments	**2-10 years**	2-10 years
Furniture and fixtures	**2-10 years**	2-10 years
Vehicles	**2-10 years**	2-10 years

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. The effect of change in estimate of useful life is accounted on prospective basis

j. Investment Property:

Recognition and measurement

Investment property is property held either to earn rental income or for capital appreciation or for both. Upon initial recognition, an investment property is measured at cost. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Subsequent costs

The cost of replacing a part of an item of investment property is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised.

Depreciation

Investment properties are depreciated using the straight-line method over their estimated useful lives. Investment properties generally have a useful life of 25-40 years. Depreciation is calculated on cost of investment property less its estimated residual values over their its useful lives using straight-line method and is generally recognised in the statement of profit or loss.

The estimated useful lives of Investment Property for the current and comparative periods are as follows:

Class of asset	Year ended 31 March 2017	Year ended 31 March 2016
Buildings	**15-50**	15-50

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. The effect of change in estimate of useful life is accounted on prospective basis.

k. Intangible Assets:

Goodwill

Goodwill arising on business combination is initially measured at cost. After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

In respect business combinations that occurred prior to 1 April 2015, goodwill represents the amount recognised under Company's previous accounting framework under Indian GAAP and is adjusted for reclassification of certain intangibles.

Intangible assets acquired separately

Intangible assets acquired separately are initially measured at cost. Such intangible assets with finite useful lives are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives.

Internally-generated intangible assets - research and development

Expenditure on research activities is recognized as an expense in the period in which it is incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in profit or loss as incurred. The expenditure capitalised includes the cost of materials, direct labour, overhead costs that are directly attributable to preparing the asset for its intended use, and capitalised borrowing costs. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and any accumulated impairment losses, on the same basis as intangible assets with finite useful lives that are acquired separately.

Intangible assets acquired in a business combination

Intangible assets acquired on or after April 1, 2015 in a business combination and recognized separately from goodwill are initially recognized at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and any accumulated impairment losses, on the same basis as intangible assets with finite useful lives that are acquired separately.

Subsequent costs

Subsequent expenditure is recognised in the carrying amount of the intangible asset only when it increases the future economic benefits embodied in the specific asset to which it relates and its cost can be measured reliably. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in profit or loss as incurred.

Amortisation

Amortisation of intangible assets with finite useful lives is calculated on cost of intangible assets less their estimated residual values over their estimated useful lives using straight-line method and is generally recognised in the statement of profit or loss.

The estimated useful lives for the current and comparative periods are as follows:

Class of asset	Year ended 31 March 2017	Year ended 31 March 2016
Computer software	**1-3 years**	1-3 years

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. The effect of change in estimate of useful life is accounted on prospective basis.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

l. Impairment of assets other than financial assets:

Impairment of tangible and intangible assets other than goodwill

The Company reviews the carrying amounts of its tangible and intangible assets at the end of each reporting period, to determine whether there is any indication that those assets have impaired. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Impairment of goodwill

For the purposes of impairment testing, goodwill is allocated to each of the Company's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the business combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

m. Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

n. Financial instruments:

Recognition and initial measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

– Amortised cost;
– FVOCI - debt investment;
– FVOCI - equity investment;
– FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

– the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
– the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

– the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
–- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocable elect to present subsequent changes in the investment's fair value in other comprehensive income (designated as FVOCI - equity investment). This election is made on investment-by-investment basis.

All financial asset not classified as measured at amortised cost or FVOCI as described above are measured at fair value through profit or loss (FVTPL). This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces accounting mismatch that would otherwise arise.

Financial assets: Subsequent measurement and gains and losses

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain and loss derecognition is recognised in profit or loss.

Debt investment at FVOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

Equity investment at FVOCI are subsequently measured at fair value. Dividends are recognised as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to profit or loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. The dividends on mandatorily redeemable preference shares are recognised in profit or loss as interest expense. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

Refer policy on hedge accounting for financial liabilities designated as hedging instruments.

Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

Derivative financial instruments and hedge accounting

The Company holds derivative financial instruments to hedge its foreign currency and interest rate risk exposures. Derivatives embedded in non-derivative host contracts that are not financial assets within the scope of Ind AS 109 are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contracts and the host contracts are not measured at FVTPL.

Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss.

The Company designates certain derivatives as hedging instruments to hedge the variability in cash flows associated with highly probable forecast transactions arising from changes in foreign exchange rates and interest rates.

At inception of designated hedging relationships, the Company documents the risk management objective and strategy for undertaking the hedge. The Company also documents the economic relationship between the hedged item and the hedging instrument, including whether the changes in cash flows of the hedged item and hedging instrument are expected to offset each other.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss. and is included in the 'Other expenses' line item.

Amounts previously recognised in other comprehensive income and accumulated in equity relating to (effective portion as described above) are reclassified to profit or loss in the periods when the hedged item affects profit or loss.

However, when the hedged forecast transaction results in the recognition of a non-financial asset or a non-financial liability, the gains and losses previously recognised in other comprehensive income and accumulated in equity are removed from equity and included in the initial measurement of the cost of the non-financial asset or non-financial liability. This transfer does not affect other comprehensive income. Furthermore, if the Company expects that some or all of the loss accumulated in other comprehensive income will not be recovered in the future, that amount is immediately reclassified to profit or loss.

The Company discontinues hedge accounting only when the hedging relationship (or a part thereof) ceases to meet the qualifying criteria. This includes instances when the hedging instrument expires or is sold, terminated or exercised. The discontinuation is accounted for prospectively. Any gain or loss recognised in other comprehensive income and accumulated in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

o. Impairment of financial instruments:

The Company recognises a loss allowance for expected credit losses (ECL) on:

- Financial assets measured at amortised cost;
- Financial assets measured at FVOCI - debt investments;

The Company always recognises lifetime ECL for trade receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12 month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. 12 month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

When determining whether credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, including on historical experience and forward-looking information.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognised in OCI and carrying amount of the financial asset is not reduced in the balance sheet.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

p. Financial liabilities and equity instruments:

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by Company are recognised at the proceeds received. Transaction costs of an equity transaction are recognised as a deduction from equity.

Compound financial instruments

The component parts of compound instruments (convertible notes) issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recorded as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date. Interest related to the financial liability is recognised in profit or loss (unless it qualifies for inclusion in the cost of an asset).

Conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to [share premium/ other equity [describe]]. Where the conversion option remains unexercised at the maturity date of the convertible instrument, the balance recognised in equity will be transferred to [retained profits/ other equity [describe]]. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the lives of the convertible notes using the effective interest method.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

Investments in equity instruments at FVTOCI

On initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Group irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading (see note above).

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Group has not designated any debt instrument as at FVTPL

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Group's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Financial guarantee contracts:

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument. Financial guarantee contracts issued by a Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

Fair value hedges

Changes in fair value of the designated portion of derivatives that qualify as fair value hedges are recognised in the statement of profit and loss immediately, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk.

q. Segment Reporting:

Operating Segments are reported consistently with the internal reporting provided to the Managing Director. The highest decision making executive is responsible for allocating resources to and assessing the performance of the operating segments. The highest decision making body is Managing Director.

Capital management

The company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position. The Company is subject to minimum capital requirements as stipulated by the IRDAI (Insurance Brokers) Regulations, 2013.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company.

Trade receivables consist of institutional customers, largely insurance companies. The Company deals only with those insurance companies who have obtained an acceptable level of credit rating. The Company does not have significant credit risk exposure to any single external counterparty. Out of total outstanding 41% of the debtors are pertaining to group companies.

The credit risk on liquid funds invested in Fixed Deposits with companies and Intercorporate Deposits is limited because the counterparties are group companies.

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses.

There is no change in estimation techniques or significant assumptions during the reporting period.

The loss allowance provision is determined as follows:

				As at 31 March 2017
	Not due	**Less than 6 months past due**	**More than 6 months past due**	**Total**

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

(iv) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company invests in fixed rate instruments taking into account the current liquidity requirements. All such transactions are carried out within the guidelines set by the Board of Directors.

There has been no significant changes to the company's exposure to market risk or the methods in which they are managed or measured.

Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's/ Company's exposure to currency risk relates primarily to the Company's operating activities in reinsurance broking when transactions are denominated in a different currency from the Company's functional currency.

The Company mitigates its foreign currency risk by entering into reinsurance contracts wherein the risk is to the account of the cedant insurers or the reinsurers.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

Particulars	Currency	31-Mar-17	31-Mar-16	1-Apr-15
Trade Receivables	USD	–	–	–
	EUR	–	–	–
	GBP	–	–	–
Trade Payables	USD	–	–	–
	EUR	–	–	–
	GBP	–	–	–

Foreign Currency Sensitivity

In management's opinion, any sensitivity analysis is not representative of the inherent foreign exchange risk because the exposure is to the account of the cedant insurer or reinsurer.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company manages its interest rate risk by having a balanced portfolio of long-term as well as short-term fixed deposits with companies as well as intercorporate deposits.

Interest rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for non-derivative instruments at the end of reporting period.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans given and investments in fixed deposits effected. With all other variables held constant, the Company's profit before tax is affected through the impact on fixed rate investments and interest bearing loans as follows:

` Lakhs

	Currency	Increase/ decrease in basis points	Effect on profit before tax
31-Mar-17	**INR**	**+50**	**73.36**
	INR	**-50**	**-73.36**
31-Mar-16	INR	+100	135.94
	INR	-100	-135.94

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

The fair values of the financial assets and financial liabilities included in the level 2 categories above have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties. In the opinion of the management, the difference between the carrying value of the above stated financial assets and liabilities is not materially different from their fair value. Accordingly, the fair value and carrying amount are the same.

Note No. 24 - Segment information

The Company has determined the operating segment based of structure of reports reviewed by the Strategic Management Council. For management purposes, the Company is organised into a single business unit and has only one reportable segment namely “Insurance Broking services”. The geographical segment is based on the location of client, whether in India or outside India. The Strategic Management Council of the Company monitors the operating results of its business unit for the purpose of making decisions about resource allocation and performance assessment.

Note No. 25 - Employee benefits

(a) Defined Contribution Plan

The Company’s contribution to Provident Fund and Superannuation Fund aggregating Rs. **234.48** lacs (F-2016 : Rs. 177.32 lacs) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plans hold a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

As the plans mature, the Company intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

However, the Company believes that due to the long-term nature of the plan liabilities and the strength of the supporting group, a level of continuing equity type investments is an appropriate element of the Company’s long term strategy to manage the plans efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans’ bond holdings and interest rate hedging instruments.

Inflation risk

Some of the Company’s pension obligations are linked to inflation, and higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation). The plans hold a significant proportion of assets in index linked gilts, together with other inflation hedging instruments and also assets which are more loosely correlated with inflation. However an increase in inflation will also increase the deficit to some degree.

Life expectancy

The majority of the plan’s obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan’s liabilities. This is particularly significant in the Company’s defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

` Lakhs

Principal assumption		Changes in assumption	Impact on defined benefit obligation	
			Increase in assumption	Decrease in assumption
Discount rate	**2017**	**1%**	**(3.41)**	**3.47**

	2016	+/- 1 year	Negligible	Negligible
	2015	+/- 1 year	Negligible	Negligible

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

The Company expects to contribute Rs. 125 lacs to the gratuity trusts during the next financial year of 2018.

The Company's policy is driven by considerations of maximizing returns while ensuring credit quality of the debt instruments. The asset allocation for plan assets is determined based on investment criteria prescribed under the Indian Income Tax Act, 1961, and is also subject to other exposure limitations. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

5. Experience adjustment on plan assets [Gain/(Loss)]	(15.85)	2.85	(10.16)	(2.17)	(0.10)

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The current service cost and the net interest expense for the year are included in the employee benefits expense in profit or loss of the expense for the year.

CORPORATE GOVERNANCE

During the year under consideration, the Board of Directors approved 'fit & proper policy' for Directors and framed internal guidelines for Corporate Governance in pursuance of the provisions of Housing Finance Companies – Corporate Governance (National Housing Bank) Directions, 2016 issued by the National Housing Bank vide Notification no. NHB.HFC. CG-DIR.1/MD&CEO/2016 dated 9th February, 2017. As required under the provisions of the said directions, internal guidelines on Corporate Governance framed by the Board are available on the web site of the Company at the following link:

http://www.mahindrahomefinance.com/pdf/internal_guidelines_corporate_governance.pdf

Pursuant to aforesaid directions, declarations in the prescribed format have been received from all Directors and a Deed of Covenants, as prescribed under the said directions has been signed by all directors and the Company.

A management discussion and analysis, as required under the aforesaid directions of the National Housing Bank, is given below.

MANAGEMENT DISCUSSION AND ANALYSIS

a) **Industry Structure and developments**

A report published by KPMG ("Decoding Housing for All by 2022"), pegs the 2012 shortage of Housing units in India at 5.9 crore units (and projects it to increase to 11 crore units by 2022). Of this, the shortage in rural areas is 4 crore units (projected to increase to 6.4 crore units by 2022) while the shortage in urban areas is placed at 1.9 crore units (projected to increase to 4.6 crore units by 2022). Moreover 95 per cent of the housing shortage in urban areas is within the Economically Weaker Sections (EWS)/Lower Income Group (LIG) segments defined as households at the Bottom of the Economic Pyramid with annual household incomes of less than 3 lakhs (EWS) or 6 lakhs (LIG).

Recognizing this issue, the Government of India has set up an ambitious goal of "Housing For All by 2022", supported by schemes like Pradhan Mantri Awas Yojana (Urban) [PMAY-U] and the recently announced Pradhan Mantri Awas Yojana (Gramin) [PMAY-G], which offer incentive and subsidies to eligible beneficiaries from these underserved segments of the society. Since the large unmet demand for housing is unlikely to be met without adequate housing finance assistance, all such subsidies are being routed through formal financial institutions like Banks and Housing Finance Companies. Your Company is uniquely positioned to help in addressing this crying social need because of the reach and more importantly, the knowledge your Company has acquired about the customer segment the Company serves. Your Company will continue to focus on serving the underserved rural customers and grow the business. In addition, your Company will now begin focusing on the affordable housing segment in smaller towns and cities as well, given the large market opportunity and its experience in serving customers with incomplete income documentation and no credit history. The Government's focus on this segment and the large unmet demand would combine to make this initiative develop into another growth engine for the Company.

b) **Opportunities and Threats**

Opportunities

- Govt. thrust on housing.
- Large untapped market.
- Digitization – external and internal.
- Improving rural infrastructure.

Threats

- Market disruption through technology and/or new innovative business models.
- Competition/new entrants.

c) **Segment-wise or product-wise performance**

The Company does not have segments and operates only in one segment. The performance of the Company is covered above in the paragraph 'operations'.

d) **Outlook**

With the thrust of the Government on affordable housing and the ambitious target of 'housing for all by 2022', the outlook for the industry is buoyant. With the innate business strengths of the Company like Pedigree/Brand Image, Strong Balance Sheet, Reach, Customer base, trained and dedicated work force and insight of the market it serves, the Company is in a position to capitalize on favourable conditions and drive growth.

e) **Risks and concerns**

- People intensive nature of the industry.
- Agriculture/Weather Cycle dependent.
- No or limited banking habits of customers.

f) **Internal control systems and their adequacy**

The Company has in place an adequate internal control system to safeguard all assets and ensure operational excellence. It also has a team of Internal Auditors to conduct internal audit. Independent audit firms ensure that all transactions are correctly authorized and reported. The internal audit reports are discussed with the management and reviewed by the Audit Committee of the Board of Directors. The Audit Committee also reviews the adequacy and effectiveness of the Company's internal control environment and monitors the implementation of audit recommendations. Wherever deemed necessary, internal control systems are strengthened and corrective actions initiated.

g) **Discussion on financial performance with respect to operational performance**

The financial and operational performance is elaborated above in the paragraphs 'Financial Results' and 'Operations'.

h) **Material developments in Human Resources/Industrial Relations front, including number of people employed**

There were no material developments in Human Resource/Industrial Relations front during the year under consideration. The Company had 6,238 employees as at 31st March, 2017.

As per the Whistle Blower Policy of the Company, Employees are free to report illegal or unethical behaviour, actual or suspected fraud or violation of the Company's Codes of Conduct or Corporate Governance Policies or any improper activity, to the Chairman of the Audit Committee of the Board of Directors or Chairman of the Company or the Corporate Governance Cell.

Under the Whistle Blower Policy, confidentiality of those reporting violation(s) is protected and they are not subjected to any discriminatory practices. No personnel have been denied access to the Audit Committee.

The Whistle Blower Policy of the Company is available on the website of the Company at the Web-link: http://www.mahindrahomefinance.com/whistle-blower-policy.php

INTERNAL CONTROL SYSTEM

Your Company has in place an adequate internal control system to safeguard all assets and ensure operational excellence. It also has a team of Internal Auditors to conduct internal audit. Independent audit firms ensure that all transactions are correctly authorised and reported. The Internal Audit reports are discussed with the Management and reviewed by the Audit Committee of the Board of Directors. The Audit Committee also reviews the adequacy and effectiveness of the Company's internal control environment and monitors the implementation of audit recommendations. Wherever deemed necessary, internal control systems are strengthened and corrective actions initiated.

INTERNAL FINANCIAL CONTROL SYSTEM

Your Company has in place, adequate internal financial controls with reference to financial statements, commensurate with the size, scale and nature of its operations.

During the year under consideration, such controls were tested and no reportable material weaknesses in the design or operation were observed.

RISK MANAGEMENT

Risk Management is an integral part of the Company's business strategy. The Company has adopted a Risk Management Policy and has a well-defined risk management framework in place. Your Company has established procedures to periodically place before the Board risk assessment and minimisation procedures being followed by the Company and steps taken by it to mitigate risks. The risk management process is governed by an enterprise wide risk management framework.

Your Company has in place a Risk Management Committee comprising of the Managing Director and Senior Executives of the Company to manage the integrated risk and inform the Audit Committee from time to time the progress made in putting in place a progressive risk management system followed by the Company.

During the year under consideration, a Risk Management Committee of the Board has also been constituted pursuant to NHB regulations.

The key business risks identified by the Company and its mitigation plans are as under:

1. **Credit Risk**: Credit Risk is inherent to any lending business and the Company also faces this risk. To mitigate this, the Company has put in place stringent lending norms, has developed metrics to evaluate customer's income and insists on a thorough field investigation to check the viability of lending to a customer.

2. **People Risk**: The Company's business model is highly people centric and the Company's employees are its biggest strength. Retention of employees is hence a key focus area. Extensive training, team building and employee engagement initiatives have been adopted to mitigate this risk. The Company follows a policy of hiring locally. This ensures employees appreciate local conditions which in turn ensures superior productivity while taking credit decisions and also while servicing customers.

3. **Environmental Risk**: Cash flows of a large number of the Company's customers depend on agriculture. Environmental factors affecting crops (yields and/or prices) impact the customer's ability to repay. The Company mitigates this risk through a policy of geographical hedging. The Company engages with its customers through regular follow-up and close monitoring.

ANNEXURE II TO THE BOARD'S REPORT
POLICY ON REMUNERATION OF DIRECTORS

Prelude

The Company is a housing finance company registered with the National Housing Bank, and is engaged in providing Home Loans primarily in rural and semi-urban areas for construction or purchase of a new property or for repairs, modernization or extension of an existing home.

This Policy shall be effective from the financial year 2014 - 15.

Intent of the Policy

The intent of the Remuneration Policy of Directors of Mahindra Rural Housing Finance Limited ("the Company") is to focus on enhancing the value and to attract and retain quality individuals with requisite knowledge and excellence as Executive and Non-Executive Directors for achieving objectives of the Company and to place the Company in a leading position.

The Nomination and Remuneration Committee (NRC) of the Board shall, while formulating the policy ensure that —

a) the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the company successfully;

b) relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and

c) remuneration to Directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

While deciding the policy on remuneration of Directors, the Committee may consider amongst other things, the duties and responsibilities cast by the Companies Act, 2013, various Codes of Conduct, Articles of Association, restrictions on the remuneration to Directors as also the remuneration drawn by Directors of other companies in the industry, the valuable contributions and inputs from Directors based on their knowledge, experience and expertise in shaping the destiny of the Company etc. The Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under Section 178 of the Companies Act, 2013 and principles pertaining to qualifications, positive attributes, integrity and independence of Directors etc.

Directors

The Managing Director is an executive of the Company and draws remuneration from the Company. The Non-Executive Chairman and Independent Directors may receive sitting fees for attending the meeting of the Board and the Committees thereof, if fixed by the Board of Directors from time to time subject to statutory provisions. The Non-Executive Chairman and Independent Directors would be entitled to the remuneration under the Companies Act, 2013. A Non-Executive Non-Independent Director who receives remuneration from the Holding Company or a Group Company will not paid any sitting fees or any remuneration. In addition to the above, the Directors are entitled for reimbursement of expenses incurred in discharge of their duties. Payment of Remuneration to Nominee Directors shall be governed by the agreement with the Financial Institution/Bank appointing the Nominee Director and by the Articles of Association of the Company.

The Managing Director and other eligible Director(s) as per extant statutory provisions may be granted Employees Stock Options, Stock Appreciation Rights or any other Share based Employee benefits pursuant to any scheme that may be approved by the Board of Directors and shareholders of the Company subject to such other approvals as may be required.

Non-Executive Directors may be paid remuneration either by way of monthly payment or at a specified percentage of net profits of the Company or partly by one way and partly by another, subject to the provisions of the Companies Act, 2013.

The NRC while determining the remuneration shall ensure the level and composition of remuneration to be reasonable and sufficient to attract, retain and motivate the person to ensure the quality required to run the Company successfully. While considering the remuneration, the NRC shall also ensure a balance between fixed and performance-linked variable pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

The NRC shall consider that a successful Remuneration Policy must ensure that some part of the remuneration is linked to the achievement of corporate performance targets.

Managing Director/Executive Directors

The term of office and remuneration of Managing Director/Executive Directors are subject to the approval of the Board of Directors, shareholders, and Central Government, as may be required and the limits laid down under the Companies Act, 2013, from time to time.

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay, subject to the requisite approvals, remuneration to its Managing Director/Executive Directors in accordance with the provisions of Schedule V of the Companies Act, 2013.

If any Managing Director/Executive Director draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he/she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration of the Managing Director/Executive Directors reflects the overall remuneration philosophy and guiding principle of the Company. While considering the appointment and remuneration of Managing Director/Executive Directors, the NRC shall consider the industry benchmarks, merit and seniority of the person and shall ensure that the remuneration proposed to be paid is commensurate with the remuneration packages paid to similar senior level counterpart(s) in other companies.

Remuneration for Managing Director/Executive Director is designed subject to the limits laid down under the Companies Act, 2013 to remunerate them fairly and responsibly. The remuneration to the Managing Director/Executive Director comprises of salary, perquisites and performance based incentive apart from retirement benefits like Provident Fund, Superannuation, Gratuity, Leave Encashment etc., as per the Rules of the Company. Salary is paid within the range approved by the Shareholders. Increments are effective annually, as recommended/approved by the NRC/Board. In terms of the shareholders' approval, the Commission may be paid to Managing Director in any Financial Year at a rate not exceeding 1/4% (one fourth percent) per annum of the profits of the Company computed in accordance with the applicable provisions of the Companies Act, 2013 as may be recommended by the NRC and approved by the Board.

The total remuneration will have a flexible component with a bouquet of allowances to enable the Managing Director/ Executive Director to choose the allowances as well as the quantum based on laid down limits as per the Company policy. The flexible component can be varied only once annually.

The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal year to arrive at the BSC rating of the business and performance rating of the individual.

Remuneration also aims to motivate the Personnel to deliver Company's key business strategies, create a strong performance-oriented environment and reward achievement of meaningful targets over the short and long-term.

The Managing Director/Executive Directors are entitled to customary non-monetary benefits such as company cars, health care benefits, leave travel, communication facilities etc., as per the policies of the Company. The Managing Director and Executive Directors are entitled to grant of Stock Options as per the approved Stock Options Schemes of the Company from time to time.

Disclosures

Information on the total remuneration of members of the Company's Board of Directors, Managing Director/Executive Directors and Key Managerial Personnel/Senior Management Personnel may be disclosed in the Board's Report as per statutory requirements laid down in this regard.

ANNEXURE VI TO THE BOARD'S REPORT

Policy on Related Party Transactions

1. Prelude

Mahindra Rural Housing Finance Limited (MRHFL) is a Housing Finance company registered with the National Housing Bank, and is engaged in providing home loans primarily in rural and semi-urban areas. As part of its business activities, the Company deals with entities which are related parties.

The Companies Act, 2013 ("the Act") places a lot of emphasis on Related Party Transactions. Provisions of the Act along with the relevant Rules governing Related Party Transactions have come into effect from April 1, 2014.

Section 177(4) of the Act deals with approval or any subsequent modification of transactions of the Company with related parties by the Audit Committee.

All Related Party Transactions pursuant to section 188 of the Act which are not in the ordinary course of business and/or not on an Arms' length basis require prior approval of the Board and if such transactions cross the threshold limits prescribed under the Act, such transactions also require the approval of shareholders of the Company by ordinary resolution and the Related Parties with whom transactions are being entered shall abstain from voting on such resolution(s).

It also requires specified related party transactions to be disclosed in the Board's Report along with the justification for entering into such transactions.

As per the requirements of Notification No. NHB. HFC.CG-DIR.1/MD&CEO/2016 issued by the National Housing Bank (NHB) vide which the NHB notified the Housing Finance Companies – Corporate Governance (National Housing Bank) Directions, 2016, the company shall disclose the policy on dealing with Related Party Transactions on its website and also in the Annual Report.

2. Intent of the Policy

The Objective of this policy is to set out (a) the materiality thresholds for related party transactions and (b) the manner of dealing with the transactions between the Company and its related parties based on the Act, and any other laws and regulations as may be applicable to the Company; and (c) lay down the guiding principles and mechanism to ensure proper approval, disclosure and reporting of transactions as applicable, between the Company and any of its related parties in the best interest of the Company and its stakeholders.

3. Applicability and Legal Framework

This Policy on Related Party Transactions shall be governed by the Act read with Rules made thereunder, as may be in force from time to time and regulations, if any, of NHB in this regard. Any references to statutory provisions shall be construed as references to those provisions as amended or re-enacted or as their application is modified by other statutory provisions (whether before or after the date hereof) from time to time and shall include any provisions of which they are re-enactments (whether with or without modification).

4. Definitions

(i) **"Arm's Length basis"** means a transaction between two related parties that is conducted as if they were unrelated, so that there is no conflict of interest. [Explanation (b) to Section 188(1) of the Act].

(ii) **"Associate Company"** shall be as defined in the Act and the applicable Accounting Standards issued by the Institute of Chartered Accountants of India.

(iii) **"Audit Committee"** means the Audit Committee constituted by the Board of Directors of the Company in accordance with section 177 of the Act.

(iv) **"Board of Directors"** or **"Board"** means the Board of Directors of MRHFL, as constituted from time to time.

(v) **"Company"** or **"MRHFL"** means Mahindra Rural Housing Finance Limited.

(vi) **"Control"** shall have the same meaning as defined in the Act.

(vii) **"Key Managerial Personnel** in relation to a Company, shall be as defined in the Act.

(viii) **"Ordinary course of business"** would include usual transactions, customs and practices undertaken by the Company to conduct its business operations and activities and all such activities which the Company can undertake as per its Memorandum and Articles of Association.

(ix) **"Related Party"**, for the purpose of this Policy, with reference to the Company, shall mean a Related Party as defined in Section 2(76) of the Act.

(x) **"Related Party Transaction"** means specified transaction mentioned in clause (a) to (g) of sub-section (1) of Section 188 of the Act .

(xi) **"Relatives"** with reference to any person shall have the meaning as defined in Section 2(77) of the Act read with Clause 4 of The Companies (Specification of Definition details) Rules, 2014 from time to time.

(xii) **A "transaction"** with a related party shall be construed to include single transaction or a group of transactions in a contract.

Any other term not defined herein shall have the same meaning as defined in the Act, the Securities Contracts (Regulation) Act, 1956 or any other applicable law or regulation.

5. Policy on Related Party Transactions

All Related Party Transactions (before being entered into) must be reported to the Audit Committee for its approval in accordance with this Policy.

The Audit Committee shall periodically review this Policy and may recommend amendments to this Policy from time to time as it deems appropriate.

5.1 Identification of potential related parties and transactions

Every Director and Key Managerial Personnel will be responsible for providing a declaration containing the following information to the Company Secretary on an annual basis and whenever there is a change in the information provided:

1. Names of his/her Relatives;
2. Partnership firms in which he/she or his/her Relative is a partner;
3. Private Companies in which he/she or his/her relative is a member or Director;
4. Public Companies in which he/she is a Director and holds along with his/her Relatives more than 2% of paid up share capital;
5. Any Body Corporate whose Board of Directors, Managing Director or Manager is accustomed to act in accordance with his/her advice, directions or instructions; and
6. Persons on whose advice, directions or instructions, he/she is accustomed to act (other than advice, directions or instructions obtained from a person in professional capacity).

Each director and Key Managerial Personnel is responsible for providing Notice to the Company Secretary of any potential Related Party Transaction, including any additional information about the transaction that the Board/Audit Committee may request, for being placed before the Audit Committee and the Board.

It will be the responsibility of the Directors and KMPs to keep the Company updated immediately if there is a change in any of the declarations provided at the beginning of the year.

5.2 Approval of Related Party Transactions

5.2.1 Prior approval of Audit Committee

All Related Party Transactions of the Company, as prescribed under the Act, shall require prior approval of Audit Committee, whether at a meeting or by way of a Resolution by circulation.

The approval of the Audit Committee will be sought in the following manner:

a) All Related Party Transactions will be submitted to the Audit Committee for prior approval irrespective of whether such transactions are in the ordinary course of business and/or at arm's length or not.

b) Where the Company has entered into a master agreement with a related party, which stipulates details of every transaction like nature of the transaction, basis of pricing, credit terms etc., the prior approval once given by the Audit Committee would suffice and Audit Committee would only note the transactions that are entered into pursuant to such master agreement and will not require any further approval of the Audit Committee unless there is any change in the terms of the master agreement.

The Audit Committee may grant omnibus approval for Related Party Transactions proposed to be entered into by the Company subject to the following conditions:

a) The Audit Committee shall, after obtaining the approval of the Board of Directors, specify the criteria for granting the omnibus approval in line with the Policy on Related Party Transactions of the Company and such approval shall be applicable in respect of transactions which are repetitive in nature.

b) The criteria for making the omnibus approval shall include the following which shall be approved by the Board:-

   i. Maximum value of the transactions, in aggregate, which can be allowed under the omnibus route in a year.

   ii. The maximum value per transaction which can be allowed.

   iii. Extent and manner of disclosures to be made to the Audit Committee at the time of seeking omnibus approval.

   iv. Review, at such interval as the Audit Committee may deem fit, of the related party transaction entered into by the Company pursuant to each of the omnibus approval made.

   v. Transactions which cannot be subject to the omnibus approval by the Audit Committee.

   The Audit Committee shall consider the following factors while specifying the criteria for making omnibus approval, namely:-

   a. Repetitiveness of the transactions (in past or in future)

   b. Justification for the need of omnibus approval.

c) The Audit Committee shall satisfy itself on the need for omnibus approval and that such approval is in the interest of the Company;

d) Such omnibus approval shall specify (i) the name/s of the related party/ies (ii) nature and duration of transaction/period of transaction (iii) maximum amount of transaction that can be entered into (iv) the indicative base price/ current contracted price and the formula for variation in the price if any and (v) such other conditions as the Audit Committee may deem fit.

Provided that where the need for Related Party Transaction cannot be foreseen and aforesaid details are not available, Audit Committee may grant omnibus approval for such transactions subject to their value not exceeding Rs. one crore per transaction.

The Audit Committee shall review on a quarterly basis, the details of Related Party Transactions entered into by the Company pursuant to each of the omnibus approval given.

Such omnibus approval shall be valid for a period not exceeding one financial year and shall require fresh approval after the expiry of one financial year.

Such omnibus approval shall not be made for transactions in respect of selling or disposing of the undertaking of the Company.

Any member of the Audit Committee who has a potential interest in any Related Party Transaction will not remain present at the Meeting when such Related Party Transaction is considered.

prior approval of the Audit Committee and Approval of the Shareholders for all Related Party Transactions shall not be applicable for transactions entered into between a holding company and its wholly-owned subsidiary whose accounts are consolidated with such holding company and placed before the shareholders at the general meeting for approval.

5.2.2. Prior approval of Board of Directors under the Act

Transactions with the related parties within the scope of Section 188 of the Act, which are either not in the Ordinary Course of Business or are not at Arm's Length basis or both shall require prior approval of the Board of Directors.

Where any Director is interested in any contract or arrangement with a related party, such Director shall not be present at the meeting during discussions on the subject matter of the resolution relating to such contract or arrangement.

5.2.3 Shareholders' approval requirements:

If the following transactions are likely to exceed the thresholds prescribed under the Act, the same will require prior approval of the Board of Directors and the Shareholders:

a) Not in the ordinary course of business but at arm's length; or

b) In the ordinary course of business but not at arm's length; or

c) Not in the ordinary course of business and not at arm's length basis.

No member of the Company shall vote on Ordinary Resolution if such a member is a related party in the context of the contract or arrangement which is being considered under the Act.

Where any contract or arrangement is entered into by a director or any other employee, without obtaining the consent of the Board or approval by an Ordinary Resolution in the general meeting under sub-section (1) and if it is not ratified by the Board or, as the case may be, by the shareholders at a meeting within three months from the date on which such contract or arrangement was entered into, such contract or arrangement shall be voidable at the option of the Board and if the contract or arrangement is with a related party or any director, or is authorised by any other director, the directors concerned shall indemnify the company against any loss incurred by it (Section 188).

Approval of the shareholders in case of the transactions of which the value crosses the threshold limits prescribed under the Act, shall not be applicable for transactions entered into between a holding company and its wholly owned subsidiary whose accounts are consolidated with such holding company and placed before the shareholders at the general meeting for approval.

6. Disclosures

a) This policy shall be hosted on the Company's website at www.mahindrahomefinance.com and also disclosed in the Annual Report.

b) The Annual Report shall contain details of all transactions with related parties.

INDEPENDENT AUDITOR'S REPORT

To the Members of **MAHINDRA RURAL HOUSING FINANCE LIMITED**

Report on the Financial Statements

1. We have audited the accompanying financial statements of **Mahindra Rural Housing Finance Limited** ("the Company"), which comprise the balance sheet as at March 31, 2017, and the statements of profit and loss and cash flow for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

ANNEXURE II TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA RURAL HOUSING FINANCE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra Rural Housing Finance Limited** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO THE ACCOUNTS

Note I

NOTES FORMING PART OF THE ACCOUNTS FOR THE YEAR ENDED MARCH 31st, 2017.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1.1 Basis for preparation of financial statements

The financial statements have been prepared in accordance with the Generally Accepted Accounting Principles (IGAAP) under the historical cost convention as a going concern and on accrual basis and in accordance with the provisions of the Companies Act, 2013 and the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended).

All assets and liabilities have been classified as current and non – current as per the Company's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of services and their realization in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current – noncurrent classification of assets and liabilities.

Further, the Company follows prudential norms for Income Recognition, Assets classification and provisioning for Non-performing Assets as well as contingency provision for Standard Assets as prescribed by The National Housing Bank for Housing Finance Companies.

1.2 Use of estimates

The preparation of financial statements requires the management to make estimates and assumptions considered in the reported amount of assets and liabilities (including contingent liabilities) as on the date of financial statements and the reported income and expenses during the reporting period. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Any revision to accounting estimates is recognized prospectively in current and future periods.

1.3 REVENUE RECOGNITION

a. General

The Company follows the accrual method of accounting for its income and expenditure except delayed payment charges, service charges and fee based income which on account of uncertainty of ultimate collection are accounted on receipt basis.

Further, in accordance with the guidelines issued by The National Housing Bank for Housing Finance Companies, income on business assets classified as Non-Performing Assets, is recognized on receipt basis. Unrealised interest recognized as income in the previous period is reversed in the month in which the loan is classified as Non-performing.

b. Income from Loans

i. Interest Income from loan transactions is accounted for by applying the interest rate implicit in such contracts.

ii. Service charges and documentation charges and other fees on loan transactions are recognized at the commencement of the contract.

c. Income from Investments

i. Dividend from investments is accounted for as income when the right to receive dividend is established.

ii. Interest income is accounted on accrual basis.

1.4 FIXED ASSETS, DEPRECIATION AND AMORTIZATION

a. Tangible Assets

Tangible assets are stated at cost of acquisition (including incidental expenses), less accumulated depreciation. Assets held for sale or disposals are stated at the lower of their net book value and net realizable value.

b. Depreciation on Tangible Assets

Depreciation on fixed assets is charged on the basis of the useful life of the assets as specified in Schedule II to The Companies Act, 2013 except for:

i. Vehicles used by employees are depreciated over the maximum period of 48 months based on the useful life of vehicle for the Company.

ii. Assets costing less than Rs.5000/- are fully depreciated in the period of purchase.

c. Intangible assets

Intangible assets are stated at cost less accumulated amortization and impairment loss, if any.

d. Amortization of Intangible assets

Intangible assets comprises of computer software which is amortized over the estimated useful life. The maximum period for such amortization is taken as 36 months based on management`s estimates of useful life.

1.5 Foreign exchange transactions and translations:

a. Initial recognition:

Transactions in foreign currencies are recognised at the prevailing exchange rates between the reporting currency and a foreign currency on the transaction dates.

b. Conversion

i. Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of profit and loss.

ii. Non-monetary items, which are measured in terms of historical Cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

c. Exchange differences

The Company accounts for exchange differences arising on translation/settlement of foreign currency monetary items as below:

i. Realized gains and losses on settlement of foreign currency transactions are recognised in the Statement of profit and loss.

ii. Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of profit and loss.

1.6 INVESTMENTS

Investments held as long-term investments are carried at cost comprising of acquisition and incidental expenses less permanent diminution in value, if any. Investments other than long-term investments are classified as current investments and valued at cost or fair value whichever is less.

Provision for diminution in value of investments is made if management perceives that there is permanent diminution in value of investments or in accordance with the norms prescribed by National Housing Bank and Accounting Standard on 'Accounting for Investments' (AS 13) notified by Companies (Accounting Standards) Rules, 2006.

1.7 LOAN AGAINST ASSETS

Loan against assets are stated at agreement value net of installments received less unmatured finance charges.

1.8 SHARE ISSUE EXPENSES

Expenses incurred in connection with fresh issue of share capital are adjusted against Securities premium reserve in the year in which they are incurred.

1.9 LEASE

Lease rentals in respect of assets taken on operating lease arrangements are recognized as per the terms of the lease.

1.10 EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, sub-division of shares etc. that have changed the number of equity shares outstanding, without a corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

1.11 CURRENT AND DEFERRED TAX

Tax expense for the period, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the period. Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the provisions of the Income Tax Act, 1961.

Deferred tax on timing differences, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods is accounted for using the tax rates and tax laws enacted or substantively enacted as on the balance sheet date. Deferred tax assets arising on account of unabsorbed depreciation or carry forward of tax losses are recognised only to the extent that there is virtual certainty supported by convincing evidence that sufficient future taxable income will be available against which such deferred tax assets can be realised. Other deferred tax assets are recognised only when there is a reasonable certainty of their realisation.

1.12 EMPLOYEE BENEFITS

a. **Contribution to provident fund**
Company's contribution paid/payable during the year to provident fund and labour welfare fund are recognised in the Statement of profit and loss.

b. **Gratuity**
The Company provides for the gratuity, a defined benefit retirement plan covering all employees. The plan provides for lump sum payments to employees upon death while in employment or on separation from employment after serving for the stipulated period mentioned under 'The Payment of Gratuity Act, 1972'. The Company accounts for liability of future gratuity benefits based on an external actuarial valuation on projected unit credit method carried out for assessing liability as at the reporting date. Actuarial gains/losses are immediately taken to the Statement of profit and loss and are not deferred.

c. **Superannuation**
The Company makes contribution to the Superannuation scheme, a defined contribution scheme, administered by Life Insurance Corporation of India, which are charged to the Statement of profit and loss. The Company has no obligation to the scheme beyond its monthly contributions.

d. **Leave encashment/compensated absences/sick leave**
The Company provides for the encashment/availment of leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment/availment. The liability is provided based on the number of days of unutilized leave at each balance sheet date on the basis of an independent actuarial valuation.

1.13 BORROWING COST

Borrowing costs are charged to the Statement of profit and loss. Ancillary expenditure incurred in connection with the arrangement of borrowings is amortized over the tenure of the respective borrowings.

1.14 IMPAIRMENT OF ASSETS

The carrying value of assets/cash generating units at each balance sheet date are reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life to their present value based on an appropriate discount factor.

1.15 PROVISIONS FOR NON PERFORMING ASSETS (NPA)

Housing loans are classified into "Performing" and "Non Performing" assets in terms of guidelines laid down by the National Housing Bank. The provisioning policy of the Company covers the minimum provisioning required as per the NHB guidelines.

1.16 PROVISIONS AND CONTINGENT LIABILITIES

Provisions are recognised when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

DIVIDEND

In view of the losses incurred by the Company, your Directors do not recommend any dividend for the year under consideration.

TRANSFER TO RESERVES

In view of the losses incurred by the Company for the year under consideration, no amount has been transferred to reserves.

OPERATIONS

Your Company was incorporated with an objective to act as investment managers, consultants, advisors for mutual funds, unit trusts, venture capital funds, etc. On 4th February, 2016, your Company received license from the Securities and Exchange Board of India (SEBI) to act as an Investment Manager for the schemes of Mahindra Mutual Fund. Your Company received approval for six products during the year 2016-17. Of these six products, your Company launched the following four products in the market:

1. Mahindra Liquid Fund (an open-ended liquid scheme);
2. Mahindra Mutual Fund Kar Bachat Yojana (an open-ended ELSS scheme investing in equity securities);
3. Mahindra Mutual Fund Dhan Sanchay Yojana (an open-ended equity scheme investing in equity securities, equity derivatives and debt securities); and
4. Mahindra Mutual Fund Alp Samay Bachat Yojana (an open-ended income scheme investing in debt securities).

In addition to the above schemes, your Company also received approval for Mahindra Mutual Fund Badhat Yojana (an open-ended equity scheme investing in equity securities) as well as Mahindra Mutual Fund Bal Vikas Yojana (an open-ended balanced scheme investing in a mix of equity and debt securities). Your Company had spent the first quarter of the year in testing its systems and procedures, opening new offices as well as recruitment of additional personnel to prepare for the launch of the schemes. Your Company has opened six branches during the year and hired close to one hundred employees across the country. The Assets Under Management in these four schemes were Rs. 2,050 crores in the month of March 2017. Of these assets, Rs. 319 crores were in the two equity schemes. Your Company has empanelled more than 4,100 distributors and opened 37,814 investor accounts in these schemes. During the next year, your Company will continue to expand its product range as well as increase its engagement activities with the distributors and customers via new offices and employees across the country. Your Company managed to achieve a market share of 0.1 percent and was placed at the 31st rank among the 42 Asset Management Companies.

Your Directors would like to present the overview of the Economy and Financial Markets in general and the Mutual Fund Industry in particular.

Indian Economy

The year 2016-17 was marked by several historic economic policy developments.

A constitutional amendment paving the way for the Goods and Services Tax (GST) and withdrawal/demonetisation of specified bank notes, affecting 86 percent of the currency in circulation, were indeed transformational economic events during the year.

The second advance estimate of Gross Domestic Product (GDP) released by the Central Statistics Office in February 2017 estimated the real GDP growth (constant 2011-12 prices) in 2016-17 at 7.10 percent (7.90 percent in 2015-2016) and also a sharp deceleration in Gross Value Added (GVA) with real GVA (at basic prices) growing at 6.70 percent against 7.80 percent in 2015-2016.

Inflation measured by Consumer Price Index (CPI) remained benign, averaging around 4.50 percent during the year and the exchange rate measured against the US Dollar strongly appreciated in the last quarter and closed at around 64.85 appreciating by around 2 percent on a year-on-year basis. The country also witnessed strong Foreign Direct Investment (FDI) flows during the year which led to this appreciation.

The year also witnessed some strong policy initiatives. Codification of institutional arrangement of the monetary policy framework with the Reserve Bank of India (RBI), some changes in Bankruptcy Code and a stronger legal basis for Aadhar.

Equity Markets

It was a year of highs. The S&P BSE Sensex ended the year with gains of 16.90 percent to close at 29,620 while the NIFTY 50 closed with gains of 18.50 percent to close at 9,173. The S&P BSE midcap index rallied much more than the frontline indices and closed higher by around 33 percent during the year.

The strong rally was led predominantly by metals, commodities and energy sectors while the banks and financial sector also had a handsome contribution to this rise. The IT services sector and the pharmaceutical sector witnessed a weak bias during the year. The year also witnessed strong institutional flows with Foreign Institutional Investors (FIIs) investing record inflows of around Rs. 55,700 crores.

India, with her strong macroeconomic fundamentals and a stable political economy, continues to be a preferred destination for FIIs within the emerging market bucket. With retail financial savings in the form of mutual fund inflows too flowing into the equity markets, the equity indices are expected, amidst volatility, to remain strong.

Fixed Income Markets

The RBI cut the benchmark repo rate by 50 basis points (bps) during the financial year. However the RBI, in its February 2017 monetary policy, shifted its stance to "Neutral" from the earlier "Accommodative" bias. The twin events of BREXIT and demonetisation led to a rally in the benchmark 10 year gilt prices and its yield touched a low of 6.20 percent during the financial year. However, as the RBI shifted its stance of monetary policy (highlighting inflationary biases), the yield of the 10 year security edged higher and closed at 6.70 percent, lower by around 80 bps for the year.

Global Events

Two Global events dominated the year: Great Britain's exit from the European Union (and the event called BREXIT thereafter) and the election of Mr. Donald Trump as the US President.

While BREXIT initially caused some sell off in the equity markets and drop in bond yields, the markets quickly shrugged off the event. Mr. Trump's election and his intended policy focus on infrastructure development, immigration, healthcare and taxes provided a leg-up to the equity markets. The US Federal Reserve too raised its Fed Funds target rate range by 50 bps during the year and the US 10 year gilt hardened by around 60 bps to close at 2.40 percent.

Overview of the Mutual Fund Industry

The Mutual Fund Industry continued its robust growth during F.Y. 2016-17. The Assets under Management (AUM) as on 31st March, 2017 were Rs. 17.54 lakh crores compared to Rs. 12.32 lakh crores as on 31st March, 2016. Assets grew by 42 percent during the year. Assets have grown almost 300 percent over the last five years. During these five years, investors have reduced their preference for close-ended schemes and have moved their assets into open-ended schemes. The proportion of assets in close-ended schemes has declined to 10 percent from 23 percent over the last five years.

Net flows into mutual funds during the year were Rs. 3.43 lakh crores showing a sharp jump of 255 percent over the previous year. Inflows into balanced schemes have grown by 185 percent over the last year. Further, inflows into debt and liquid schemes also grew substantially over the last year and accounted for the major increase in net inflows over the last year.

The top ten players lost market share during this year. Their combined share of total assets fell to 74 percent from 79.5 percent last year.

The Mutual Fund Industry has been showing robust growth over the last five years. In spite of this growth, mutual fund penetration continues to remain low in terms of number of unique household accounts. Therefore, the potential for future growth is quite high and the industry will continue to attract new households from the smaller towns and cities as well as urban centres. Your Company aims to reach customers in the smaller towns by leveraging the Mahindra brand as well as distribution reach of its parent, Mahindra & Mahindra Financial Services Limited. Your Company will also leverage the traditional distributors of mutual fund products viz banks, national distributors as well as individual distributors to welcome new customers to the Mahindra family.

SHARE CAPITAL

During the year under consideration, the Authorised Share Capital of your Company was increased from Rs.76,00,00,000 (Rupees Seventy-Six Crores) divided into 7,60,00,000 (Seven Crores Sixty Lacs) Equity Shares of Rs.10 (Rupees Ten) each to Rs 110,00,00,000 (Rupees One Hundred and Ten crores) divided into 11,00,00,000 (Eleven Crores) shares of Rs. 10 (Ten) each. The increase in the Authorised Share Capital was pursuant to the approval of the Members granted at the Extraordinary General Meeting held on 21st July, 2016.

During the year under consideration, 3,04,50,000 (Three Crores Four Lakhs Fifty Thousand) Equity Shares of Rs. 10 each aggregating to Rs. 30,45,00,000 (Rupees Thirty Crores Forty Five Lakhs) were issued and allotted for cash at par on a Rights basis to the existing Shareholders of the Company. Post allotment of Equity Shares as aforesaid, the issued, subscribed and paid-up Share Capital of the Company stands at Rs. 91,00,00,000 (Rupees Ninety One Crores) comprising of 9,10,00,000 (Nine Crores Ten Lakhs) Equity Shares of Rs. 10 each, fully paid-up.

During the year under consideration, the Company has neither issued shares with differential voting rights as to dividend, voting or otherwise nor has issued any sweat equity. The Company has not formulated any Employees' Stock Option Scheme during the year under consideration. There were no Shares having voting rights not exercised directly by the employees and for the purchase of which or subscription to which, loan was given by the Company.

As on 31st March, 2017, none of the Directors of the Company hold instruments convertible into Equity Shares of the Company.

DIRECTORS

Pursuant to the provisions of Section 152 of the Companies Act, 2013, Mr. V. Ravi (DIN:00307328), Non-Executive Non-Independent Director of the Company retires by rotation at the forthcoming Annual General Meeting scheduled to be held on 14th July, 2017 and being eligible, offers himself for re-appointment.

The Central Government, vide their order dated 21st June, 2016, granted approval to the appointment of Mr. Ashutosh Bishnoi as the Managing Director & Chief Executive Officer for a period of 3 years with effect from 12th October, 2015 to 11th October, 2018 for a total remuneration of Rs. 1,20,00,000 (Rupees One Crore Twenty Lakhs only) per annum, for the period of 3 years mentioned above.

However, the Central Government, vide its notification dated 12th September, 2016, amended the provisions of Schedule V of the Companies Act, 2013, by replacing the existing section II with the new section II. As per part B of the new section II, even if, in any financial year, during the currency of the tenure of a managerial person, a company has no profits or its profits are inadequate, still no approval of the Central Government is necessary for payment of remuneration to a managerial person, if such managerial person fulfills the criteria mentioned in the said notificiation. Mr. Ashutosh Bishnoi fulfilled the prescribed criteria and hence, considering his acumen, experience and expertise and also his contribution as the Managing Director and Chief Executive Officer of the Company, the Nomination and Remuneration Committee, at its Meeting held on 21st September, 2016, recommended to the Board the revision in the remuneration payable to Mr. Ashutosh Bishnoi. The Board of Directors, approved the revision in the remuneration of Mr. Ashutosh Bishnoi, subject to the approval of the shareholders. The shareholders at their Extraordinary General Meeting held on 17th October, 2016, approved the revision in the remuneration of Mr. Ashutosh Bishnoi, as recommended by the Nomination and Remuneration Committee and approved by the Board of Directors.

ANNEXURE I TO THE BOARD'S REPORT

Policy on Remuneration of Directors and Remuneration Policy for Key Managerial Personnel and Employees of the Company

POLICY ON REMUNERATION OF DIRECTORS

Prelude

The Company is engaged as an investment manager to Mahindra Mutual Fund.

This Policy shall be effective from the Financial Year 2015 - 16.

Intent of the Policy

The intent of the Remuneration Policy of Directors of Mahindra Asset Management Company Private Limited ("the Company") is to focus on enhancing the value and to attract and retain quality individuals with requisite knowledge and excellence as Executive and Non-Executive Directors for achieving objectives of the Company and to place the Company in a leading position.

The Nomination and Remuneration Committee (NRC) of the Board shall, while formulating the policy ensure that —

a) the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate Directors of the quality required to run the company successfully;

b) relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and

c) remuneration to Directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

While deciding the policy on remuneration of Directors, the Committee may consider, amongst other things, the duties and responsibilities cast by the Companies Act, 2013, various Codes of Conduct, Articles of Association, restrictions on the remuneration to Directors as also the remuneration drawn by Directors of other companies in the industry, the valuable contributions and inputs from Directors based on their knowledge, experience and expertise in shaping the destiny of the Company etc. The Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under Section 178 of the Companies Act, 2013 and principles pertaining to qualifications, positive attributes, integrity and independence of Directors etc.

Directors

The Managing Director /Executive Director is an executive of the Company and draws remuneration from the Company. The Non-Executive and Independent Directors may receive sitting fees for attending the meetings of the Board and the Committees thereof, if fixed by the Board of Directors from time to time subject to statutory provisions.

The Non-Executive and Independent Directors would be entitled to the remuneration under the Companies Act, 2013. A Non-Executive Non-Independent Director who receives remuneration from the Holding Company or a Group Company will not be paid any sitting fees or any remuneration. In addition to the above, the Directors are entitled for reimbursement of expenses incurred in discharge of their duties. Payment of Remuneration to Nominee Directors, if any, shall be governed by the agreement with the Financial Institution/Bank appointing the Nominee Director and by the Articles of Association of the Company.

The Managing Director /Executive Director and other eligible Director(s) as per extant statutory provisions may be granted Employees Stock Options, Stock Appreciation Rights or any other Share based Employee benefits pursuant to any scheme that may be approved by the Board of Directors and Shareholders of the Company subject to such other approvals as may be required.

Non Executive Directors may be paid remuneration either by way of monthly payment or at a specified percentage of net profits of the Company or partly by one way and partly by another, subject to the provisions of the Companies Act, 2013.

The NRC while determining the remuneration shall ensure that the level and composition of remuneration is reasonable and sufficient to attract, retain and motivate the persons to ensure the quality required to run the Company successfully. While considering the remuneration, the NRC shall also ensure a balance between fixed and performance-linked variable pay reflecting short and long term performance objectives appropriate to the working of the Company and its goals.

The NRC shall consider that a successful Remuneration Policy must ensure that some part of the remuneration is linked to the achievement of corporate performance targets.

Managing Director/Executive Director

The term of office and remuneration of Managing Director/ Executive Director are subject to the approval of the Board of Directors, Shareholders and the Central Government, as may be required, and the limits laid down under the Companies Act, 2013, from time to time.

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay, subject to the requisite approvals, remuneration to its Managing Director/ Executive Director in accordance with the provisions of Schedule V of the Companies Act, 2013.

If any Managing Director /Executive Director draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he/she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration of the Managing Director/Executive Director reflects the overall remuneration philosophy and guiding principle of the Company. While considering the appointment and remuneration of Managing Director/Executive Director, the NRC shall consider the industry benchmarks, merit and seniority of the person and shall ensure that the remuneration proposed to be paid is commensurate with the remuneration packages paid to similar senior level counterpart(s) in other companies.

Remuneration for Managing Director/Executive Director is designed subject to the limits laid down under the Companies Act, 2013, to remunerate them fairly and reasonably. The remuneration to the Managing Director/Executive Director comprises of salary, perquisites and performance based incentive apart from retirement benefits like Provident Fund, Superannuation, Gratuity, Leave Encashment etc., as per the Rules of the Company. Salary is paid within the range approved by the Shareholders. Increments are effective annually, as recommended/approved by the NRC/Board. In terms of the Shareholders' approval, the Commission may be paid to Managing Director/Executive Director in any Financial Year at a rate not exceeding 1/4% (one fourth percent) per annum of the profits of the Company computed in accordance with the applicable provisions of the Companies Act, 2013 as may be recommended by NRC and approved by the Board.

The total remuneration will have a flexible component with a bouquet of allowances to enable the Managing Director/ Executive Director to choose the allowances as well as the quantum based on laid down limits as per the Company policy. The flexible component can be varied only once annually.

The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRAs). Both the BSC and KRAs are evaluated at the end of the fiscal year to arrive at the BSC rating of the business and performance rating of the individual.

Remuneration also aims to motivate the Personnel to deliver Company's key business strategies, create a strong performance-oriented environment and reward achievement of meaningful targets over the short and long-term.

The Managing Director/Executive Director is entitled to customary non-monetary benefits such as company car, health care benefits, leave travel, communication facilities, etc., as per the policies of the Company. The Managing Director/Executive Director is entitled to grant of Stock Options as per the approved Stock Options Schemes of the Company from time to time.

Disclosures

Information on the total remuneration of members of the Company's Board of Directors, Managing Director /Executive Director and Key Managerial Personnel/Senior Management Personnel may be disclosed in the Board's Report as per statutory requirements laid down in this regard.

REMUNERATION POLICY FOR KEY MANAGERIAL PERSONNEL AND EMPLOYEES

This Policy shall be effective from the Financial Year 2015 - 16.

Objective

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

Definition(s)

"Key Managerial Personnel" (KMP) as defined in section 2(51) of the Companies Act, 2013 means:

i) the Chief Executive Officer or the Managing Director or Manager;

ii) the Company Secretary;

iii) the Whole-time Director;

iv) the Chief Financial Officer; and

v) such other officer as may be prescribed.

Standard

The broad structure of compensation payable to employees is as under:

- Fixed pay which has components like basic salary & other allowances/flexi pay as per the grade where the employees can choose allowances from bouquet of options.
- Variable pay (to certain grades) in the form of annual/half yearly performance pay based on Key Result Areas agreed – as applicable.
- Incentives, either monthly or quarterly, based on targets in the lower grades.
- Retirals such as Provident Fund, Gratuity & Superannuation (for certain grades).
- Benefits such as Employee Stock Option Scheme, car scheme, medical & dental benefit, loans, insurance etc. as per grades.

Increments

Salary increase is given to eligible employees based on position, performance & market dynamics as decided from time to time.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
MAHINDRA ASSET MANAGEMENT COMPANY PRIVATE LIMITED

Report on the Standalone Financial Statements

1. We have audited the accompanying standalone financial statements of **Mahindra Asset Management Company Private Limited** ("the Company"), which comprise the balance sheet as at March 31, 2017, and the statements of profit and loss and cash flow for the period from April 1, 2016 to March 31, 2017, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit.

4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2017, and its loss and its cash flows for the period from April 1, 2016 to March 31, 2017.

Report on Other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.

10. As required by Section 143(3) of the Act, we report that:

    a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

    b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

    c. the Balance Sheet, the Statement of Profit and Loss and Cash Flow dealt with by this Report are in agreement with the books of account;

    d. In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);

    e. on the basis of written representations received from the directors as on March 31, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017, from being appointed as a director in terms of Section 164(2) of the Act.

f. With respect to the adequacy of internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure II.

g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014(as amended), in our opinion and to the best of our information and according to the explanations given to us:

  i. The Company does not have any pending litigations.

  ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses that need provision.

  iii. The Company has been in existence for a period less than seven years and hence there is no requirement to transfer any amounts to the Investor Education and Protection Fund.

  iv. The company has provided requisite disclosures in the standalone financial statements as to holdings as well as dealings in Specified Bank Notes during the period from 8th November, 2016 to 30th December, 2016. Based on audit procedures and relying on the management representation, we report that the disclosures are in accordance with books of account maintained by the company and as produced by to us by the Management. ANNEXURE II TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF MAHINDRA ASSET MANAGEMENT COMPANY PRIVATE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra Asset Management Company Private Limited** ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the period from April 1, 2016 to March 31, 2017.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the Institute of Chartered Accountants of India ("ICAI") and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by ICAI.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

CORPORATE INFORMATION

The Company, Mahindra Asset Management Company Private Limited ('the Company'), was incorporated under the Companies Act, 1956 on June 20, 2013. The company is a subsidiary of Mahindra & Mahindra Financial Services Ltd. The Company is incorporated to function as an Investment Manager to "Mahindra Mutual Fund". The Company has received a license from SEBI on 4th February 2016. The Company earned fees from investment management activities from July 2016 onwards since the launch of the first scheme of Mahindra Mutual Fund in that month. As on March 31, 2017, the Company is managing four schemes of Mahindra Mutual Fund.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1. BASIS OF PREPARATION OF ACCOUNTS

a) The financial statements have been prepared in accordance with the Generally Accepted Accounting Principles (IGAAP) under the historical cost convention as a going concern and on accrual basis and in accordance with the provisions of the Companies Act, 2013 and the Accounting Standards notified under Section 133 of the Companies Act, 2013.

b) All assets and liabilities have been classified as current and non – current as per the Company's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of services and their realisation in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current and non current classification of assets & liabilities.

2. USE OF ESTIMATES

The preparation of financial statements requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as on the date of the financial statements and the reported income and expenses during the reporting year. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Any revision to accounting estimates is recognised prospectively in current and future years.

3. INVESTMENTS

Investments held as Long –Term Investments are stated at cost comprising of acquisition and incidental expenses less permanent diminution in value, if any. Investments other than Long Term investments are classified as Current Investments and valued at cost or fair value whichever is less.

Provision for diminution in value of investments is made if management perceives that there is permanent diminution in value of investments in accordance with the Accounting Standard on 'Accounting for Investments' (AS 13) notified by Companies (Accounting Standards) Rules, 2006.

4. SEGMENT REPORTING

The Company has a single reporting segment viz investment management/advisory services. Accordingly, for the purpose of Accounting Standard 17 on segment reporting, the financial statements of the Company show the results of the Company for this single segment only.

5. REVENUE RECOGNITION

Investment Management Fees are recognised on an accrual basis and are charged to each mutual fund scheme in accordance with the terms of the Scheme Information Document of each Scheme managed by the Company.

Portfolio Management Fees and Fees for Advisory Services will be recognised on an accrual basis when the services are rendered and an enforceable right to receive the fees has arisen in accordance with the terms of the Agreement between the Company and its clients.

Dividend from investments is accounted for as income when the right to receive dividend is established.

Interest income is accounted on an accrual basis.

The difference between the cost of investments and the redemption/sale proceeds (net of expenses) is recognised in the statement of Profit and Loss. For calculation of profit/loss on investment, cost is calculated on weighted average basis.

6. SHARE ISSUE EXPENSES

Expenses incurred in connection with fresh issue of share capital is charged to Profit and Loss account in the year in which they are incurred.

7. FIXED ASSETS

Fixed assets are stated at cost of acquisition (including incidental expenses) less depreciation.

8. DEPRECIATION

Depreciation on fixed assets is calculated by the straight line method at rates determined with reference to the useful life of fixed assets and in the manner provided for in Schedule II to the Companies Act, 2013 except:

a) Motor vehicles where useful life is estimated at four years as against eight years as per Schedule II since the employees to whom these vehicles have been allotted in accordance with their terms of employment and they are entitled to change their vehicles every four years, and

b) Fixed assets having value individually less than Rs 5,000 are fully depreciated in the year of purchase.

Further, residual value for all assets is considered as zero due to the difficulty in estimating the same and in the case of motor cars, having regard to terms of employment under which these are allotted to the employees.

Accordingly, useful life of assets is estimated as follows:

Employee vehicles	–	4 Years
Computer	–	3 Years
Furniture	–	10 Years
Office Equipment	–	5 Years
Assets costing less than Rs 5,000		< 1 year

Intangible assets are stated at cost less accumulated amortization and impairment loss, if any. Intangible assets comprises of computer software which is amortized over the estimated useful life. The maximum period for such amortization is 36 months based on estimates of useful life.

9. EMPLOYEE BENEFITS

Retirement Benefits in respect of gratuity at retirement/cessation are provided for based on valuations, as on the Balance Sheet date, made by independent actuaries.

a) Defined Contribution Plans –
Company's contribution paid/payable during the year to Provident Fund, Superannuation and Labour Welfare Fund, etc are recognised in the Statement of Profit and Loss.

b) Defined Benefit Plan –
Company's liabilities towards gratuity and leave encashment is determined using the Projected Unit Credit Method which considers each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation. Actuarial gains and losses are recognised immediately in the statement of Profit and Loss as income or expense. Obligation is measured at the present value of estimated future cash flow using a discount rate that is

determined by reference to market yields at the Balance Sheet date on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the defined benefit obligation.

10. SCHEME RELATED EXPENSES

Expenses of schemes of Mahindra Mutual Fund in excess of the limits provided by the Securities and Exchange Board of India Mutual Fund Regulations, 1996 are borne by the Company and are recognised in the Statement of Profit and Loss.

11. IMPAIRMENT ASSETS

The carrying value of assets/cash generating units at each Balance Sheet date is reviewed for impairment. If any indication of impairment exists, the recoverable amount of such assets is estimated and impairment is recognised, if the carrying amount of these assets exceeds their recoverable amount.

12. TAXES ON INCOME

Current tax is determined as the amount of tax payable in respect of taxable income for the year. Deferred tax is recognised, subject to consideration of prudence, on timing differences, being the difference between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets arising on account of unabsorbed depreciation or carry forward of tax losses are recognised only to the extent that there is virtual certainty supported by convincing evidence that sufficient future tax income will be available against which such deferred tax assets can be realised.

13. PROVISIONS AND CONTINGENT LIABILITIES

a) Provision for doubtful debts is made on the basis of standard norms and also, where required, on actual evaluation.

b) Provisions are recognized in accounts in respect of present probable obligations, the amount of which can be reliably estimated. Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company.

14. EARNING PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, sub-division of shares, etc that have changed the number of outstanding equity shares, without corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average numbers of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

15. FOREIGN EXCHANGE TRANSACTIONS AND TRANSLATIONS

a) Initial recognition

Transactions in foreign currencies are recognised at the prevailing exchange rates between the reporting currency and the foreign currency on the transaction dates.

b) Conversion

i. Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognized in the Statement of Profit and Loss.

ii. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

c) Exchange differences

The Company accounts for exchange differences arising on translation/settlement of foreign currency monetary items as below:

i. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

ii. Foreign currency monetary assets and liabilities at the year-end are translated at the year end exchange rate and the resultant exchange differences are recognised in the Statement of Profit and Loss

16. BORROWING COST

Borrowing costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to the Statement of Profit and Loss. Ancillary expenditure incurred in connection with the arrangement of borrowings is amortised over the tenure of the respective borrowings

17. LEASE

Lease rentals in respect of assets taken on operating lease arrangements are recognised as per the terms of the lease.

4. Operations

Securities and Exchange Board of India vide its letter dated February 4, 2016 granted certificate of registration to 'Mahindra Mutual Fund' ("the Fund"). Your Company will be engaged as a Trustee to the Fund. Your Company has appointed Mahindra Asset Management Company Private Limited ('AMC') as the investment manager for the schemes of Mahindra Mutual Fund.

The AMC received approval for six products during the year 2016-17. Of these six products, the AMC launched the following four products in the market:

1. Mahindra Liquid Fund (An open-ended liquid scheme);
2. Mahindra Mutual Fund Kar Bachat Yojana (An open ended ELSS scheme investing in equity securities);
3. Mahindra Mutual Fund Dhan Sanchay Yojana (An open ended scheme investing in equity securities, equity derivatives and debt securities); and
4. Mahindra Mutual Fund Alp Samay Bachat Yojana (An open-ended scheme investing in debt securities).

In addition to the above schemes, the AMC also received approval for Mahindra Mutual Fund Badhat Yojana (an open-ended scheme investing in equity securities) as well as Mahindra Mutual Fund Bal Vikaas Yojana (an open-ended scheme investing in a mix of equity and debt securities). The assets under management in these four schemes were Rs. 2,050 crores in the month of March 2017. Of these assets, Rs. 319 crores were in the two equity schemes. The AMC has empanelled more than 4,100 distributors and opened 37,814 investor accounts in these schemes. The AMC managed to achieve a market share of 0.1 percent and was placed at the 31st rank out of 42 Asset Management Companies.

Your Directors would like to present an overview of the Indian Economy with the backdrop of the Equity Markets, Fixed Income Markets and Global events occurred in the Mutual Fund Industry.

5. Indian Economy

The year 2016-17 was marked by several historic economic policy developments.

A constitutional amendment paving the way for the transformational Goods and Services Tax (GST) and withdrawal/demonetisation of specified bank notes, affecting 86 percent of the currency in circulation, were indeed transformational economic events during the year.

The second advance estimates of GDP released by the Central Statistics Office in February 2017 estimated the real GDP growth (constant 2011-12 prices) in 2016-17 at 7.10 percent (7.90 percent in 2015-2016) and also a sharp deceleration in Gross Value Added (GVA) with real GVA (at basic prices) growing at 6.70 percent against 7.80 percent in 2015-2016.

Inflation measured by CPI remained benign averaging around 4.50 percent during the year and the exchange rate measured against the USD strongly appreciated in the last quarter and closed at around 64.85 appreciating by around 2 percent on a year on year basis. The country also witnessed strong FDI flows during the year which led to this appreciation.

The year also saw some strong policy initiatives: codification of the institutional arrangement of the monetary policy framework with RBI, some changes in Bankruptcy Code and a stronger legal basis for Aadhar.

6. Equity Markets

It was a year of highs: the S&P BSE Sensex ended the year with gains of 16.90 percent to close at 29620 while the NIFTY 50 closed with gains of 18.50 percent to close at 9173. The S&P BSE midcap index rallied much more than the frontline indices and closed higher by around 33 percent during the year.

The strong rally was led predominately by metals, commodities and energy sectors while the banks and financial sectors also had a handsome contribution to this rise. The IT services sector and the pharmaceutical sectors witnessed a weak bias during the year. The year also witnessed strong institutional flows with FIIs investing record inflows of around INR 55,700 crores.

India, with her strong macroeconomic fundamentals and a stable political economy, continues to be a preferred destination for FIIs within the emerging market bucket. With retail financial savings in the form of mutual fund inflows too flowing into the equity markets, the equity indices are expected, amidst volatility, to remain strong.

7. Fixed Income Markets

The Reserve Bank of India (RBI) cut the benchmark repo rates by 50 basis points (bps) during the Financial Year. However the RBI, in its February 2017 monetary policy, shifted its stance to “Neutral” from the earlier “Accommodative” bias. The twin events of BREXIT and demonetisation led to a rally in the benchmark 10 year gilt prices and its yield touched a low of 6.20 percent during the Financial Year. However, as the RBI shifted its stance of monetary policy (highlighting inflationary biases), the yield of the 10 year security edged higher and closed at 6.70 percent, lower by around 80 bps for the year.

8. Global events

Two Global events dominated the year: Great Britain’s exit from the European Union (and the event called BREXIT thereafter) and the election of Mr. Donald Trump as the US President. While BREXIT initially caused some sell off in the equity markets and drop in bond yields, the markets quickly shrugged of the event. Mr. Trump’s election and his intended policy focus on infrastructure development, immigration, healthcare and taxes provided a leg-up to the equity markets. The US Federal Reserve too raised its Fed Funds target rate range by 50 bps during the year and the US 10 year gilt hardened by around 60 bps to close at 2.40 percent.

9. Overview of the Mutual Fund Industry

The Mutual Fund Industry continued its robust growth during FY 2016-17. The Assets under Management as on March 31, 2017 were Rs. 17.54 lakh crores compared to Rs. 12.32 lakh crores as on March 31, 2016. Assets grew by 42 percent during the year. Assets have grown almost 300 percent over the last five years. During these five years, investors have reduced their preference for close-ended schemes and have moved their assets into open-ended schemes. The proportion of assets in close-ended schemes has declined to 10 percent from 23 percent over the last five years.

Net flows into mutual funds during the year were Rs. 3.43 lakh crores showing a sharp jump of 255 percent over the previous year. Inflows into balanced schemes have grown by 185 percent over the last year. Further, inflows into debt and liquid schemes also grew substantially over last year and accounted for the major increase in net inflows over last year.

The top ten players lost market share during this year. Their combined share of total assets fell to 74 percent from 79.5 percent last year.

The Mutual Fund Industry has been showing robust growth over the last five years inspite of low penetration in terms of number of unique household accounts. Therefore, the potential for future growth is quite high and the industry will continue to attract new households to the industry from the smaller towns and cities.

10. Share Capital

During the year under review, the Company has increased its Authorised Share Capital from Rs. 25,00,000 (Rupees Twenty Five Lakhs) divided into 2,50,000 (Two Lakh Fifty Thousand) Equity Shares of Rs. 10/- (Rupees Ten) each to Rs. 1,00,00,000 (Rupees One crore) divided into 10,00,000 (Ten Lakhs) Equity Shares of Rs. 10/- (Rupees Ten) each at the Extra-ordinary General Meeting held by the Company on July 21, 2016.

During the year under review, the Company allotted to existing shareholders on Rights basis 3,50,000 equity shares of Rs. 10 each aggregating to Rs. 35,00,000. Consequent upon the allotment of the Rights shares, the

Company's paid-up share capital as on March 31, 2017 stood at Rs. 50,00,000 Lakhs (as against Rs. 15,00,000 as at March 31, 2016) comprising of 5,00,000 Equity Shares of Rs. 10 each, fully paid- up.

During the year under review, the Company has neither issued shares with differential voting rights as to dividend, voting or otherwise nor has issued any sweat equity. The Company has not formulated any Employees' Stock Option Scheme during the year under review. There were no Shares having voting rights not exercised directly by the employees and for the purchase of which or subscription to which loan was given by the Company.

As on March 31, 2017, none of the Directors of the Company holds instruments convertible into Equity Shares of the Company.

11. Directors

The composition of the Board of Directors of your Company is in conformity with the provisions of the Companies Act, 2013, as amended from time to time and as per SEBI (Mutual Fund) Regulations, 1996, as amended from time to time. As on March 31, 2017, the Company has four directors. Mr. Gautam Parekh (DIN: 00365417), Dr. Narendra Mairpady (DIN: 00536905) and Mr. Debabrata Bandyopadhyay (DIN: 06972463) were appointed as Independent Directors of the Company for a period of five years with effect from September 21, 2015. These Independent Directors shall hold the office of directorship for a term of five years and none of the Independent Directors are eligible for re-appointment.

Pursuant to the provisions of Section 152 of the Companies Act, 2013, Mr. M. G. Bhide (DIN:00001826), Non-Executive Non-Independent Director of the Company retires by rotation at the forthcoming Annual General Meeting scheduled to be held on July 14, 2017 and being eligible, offers himself for re-appointment.

The Board reviews and approves strategy and oversees the actions and results of the management to ensure that the long term objectives of the enhancing stakeholders' value are met.

None of the Board of Directors holds directorships in more than 10 public companies. None of the directors are related to each other.

12. Key Managerial Personnel

As at the date of this Report, the Key Managerial Personnel of the Company, as envisaged under the provisions of Section 203 of the Companies Act, 2013, is Mr. Ravi Dayma, Company Secretary.

13. Number of Meetings of the Board

15. Meeting of Independent Directors

The Independent Directors met once during the year under review. The meeting was conducted in an informal manner without the presence of the Managing Director, the Non-Executive Non-Independent Director and any of the Key Managerial Personnel.

16. Committee of the Board

The Board of Directors of the Company at its meeting held on January 12, 2016, constituted an Audit Committee and approved the terms of reference and the role of the said Committee. This Committee was formed in order to comply with the requirements prescribed under SEBI (Mutual Fund Regulations), 1996 and circulars issued thereunder.

The Audit Committee comprises of Mr. Gautam Parekh, Dr. Narendra Mairpady and Mr. Debabrata Bandyopadhyay, Independent Directors of the Company. The Committee met twice during the year viz. October 17, 2016 and December 21, 2016. The meetings were well attended by all the Members of the Committee.

17. Directors' Responsibility Statement

Pursuant to the provisions of Section 134(5) of the Companies Act, 2013, your Directors confirm that:

i. In the preparation of the annual accounts for Financial Year ended March 31, 2017, the applicable accounting standards have been followed and there are no material departures in adoption of these standards;

ii. The Directors have selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at March 31, 2017 and of the loss of the Company for the year ended on that date;

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF MAHINDRA TRUSTEE COMPANY PRIVATE LIMITED

Report on the Standalone Financial Statements

1. We have audited the accompanying standalone financial statements of **Mahindra Trustee Company Private Limited** ("the Company"), which comprise the balance sheet as at March 31, 2017, and the statements of profit and loss and cash flow for the period from April 1, 2016 to March 31, 2017, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended). This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these standalone financial statements based on our audit.

4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2017, and its loss and its cash flows for the period from April 1, 2016 to March 31, 2017.

Report on Other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order.

10. As required by Section 143(3) of the Act, we report that:

    a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

    b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

    c. the Balance Sheet, the Statement of Profit and Loss and Cash Flow dealt with by this Report are in agreement with the books of account;

    d. in our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);

    e. on the basis of written representations received from the directors as on March 31, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2017, from being appointed as a director in terms of Section 164(2) of the Act.

f. with respect to the adequacy of internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure II.

ANNEXURE II TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF MAHINDRA TRUSTEE COMPANY PRIVATE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra Trustee Company Private Limited** ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the period from April 1, 2016 to March 31, 2017.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by the Institute of Chartered Accountants of India ("ICAI") and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by ICAI.

SIGNIFICANT ACCOUNTING POLICIES AND NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2017

CORPORATE INFORMATION

The Company, Mahindra Trustee Company Private Limited ('the Company') was incorporated under the Companies Act, 1956 on July 10, 2013. The company is a subsidiary of Mahindra & Mahindra Financial Services Ltd. The company is incorporated to function as a Trustee to the Mahindra Mutual Fund. The company has been granted a license from SEBI. The Company has entered into an Investment Management Agreement with Mahindra Asset Management Company Private Limited (Investment Manager) for managing the schemes of Mahindra Mutual Fund. During 2016-17, the Investment Manager launched four schemes of Mahindra Mutual Fund. Consequently, the Company earned trustee fees from these schemes during 2016-17.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

1) BASIS OF PREPARATION OF ACCOUNTS

a. The financial statements have been prepared in accordance with the Generally Accepted Accounting Principles (IGAAP) under the historical cost convention as a going concern and on an accrual basis and in accordance with the provisions of the Companies Act, 2013 and the Accounting Standards notified under Section 133 of the Companies Act, 2013.

b. All assets and liabilities have been classified as current and non – current as per the Company's normal operating cycle and other criteria set out in the Schedule III of the Companies Act, 2013. Based on the nature of services and their realisation in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

2) USE OF ESTIMATES

The preparation of financial statements requires the management to make estimates and assumptions considered in the reported amounts of assets and liabilities (including contingent liabilities) as on the date of the financial statements and the reported income and expenses during the reporting year. Management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Any revision to accounting estimates is recognised prospectively in current and future years.

3) SEGMENT REPORTING

The Company has a single reporting segment viz income from trusteeship services provided to the schemes of Mahindra Mutual Fund. Accordingly, for the purpose of Accounting Standard 17 on segment reporting, the financial statements of the Company show the results of the Company for this single segment only.

4) INVESTMENTS

Investments held as Long –Term Investments are stated at cost comprising of acquisition and incidental expenses less permanent diminution in value, if any. Investments other than Long Term investments are classified as current Investments and valued at cost or fair value whichever is less.

Provision for diminution in value of investments is made if management perceives that there is permanent diminution in value of investments in accordance with the Accounting Standard on 'Accounting for Investments' (AS 13) notified by Companies (Accounting Standards) Rules, 2006.

5) REVENUE RECOGNITION

Trustee Fees are recognised as revenue when the trusteeship services are performed for the schemes of Mahindra Mutual Fund.

Dividend from investments is accounted for as an income when the right to receive dividend is established.

Interest income is accounted on an accrual basis.

The difference between the cost of investments and the redemption/ sale proceeds (net of expenses) is recognised in the statement of Profit and Loss. For calculation of profit/loss on investment, cost is calculated on weighted average basis.

6) SHARE ISSUE EXPENSES

Expenses incurred in connection with fresh issue of share capital is charged to Profit and Loss account in the year in which they are incurred.

7) TAXES ON INCOME

Current tax is determined as the amount of tax payable in respect of taxable income for the year. Deferred tax is recognised, subject to consideration of prudence, on timing differences, being the difference between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax assets arising on account of unabsorbed depreciation or carry forward of tax losses are recognised only to the extent that there is virtual certainty supported by convincing evidence that sufficient future tax income will be available against which such deferred tax assets can be realised.

8) PROVISIONS AND CONTINGENT LIABILITIES

a) Provision for doubtful debts is made on the basis of standard norms and also, where required, on actual evaluation.

b) Provisions are recognised in accounts in respect of present probable obligations, the amount of which can be reliably estimated. Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence is confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company.

9) EARNINGS PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends and any attributable tax thereto for the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, sub-division of shares etc. that have changed the number of equity shares outstanding, without corresponding change in resources. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average numbers of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

RESERVES

Out of the profits available for appropriation, no amount has been transferred to any reserves for the year under review.

OPERATIONS/STATE OF THE COMPANY'S AFFAIRS

The macro-economic environment in India during 2016 - 17 showed a moderate decline. According to the provisional estimates released by the Central Statistics Office, India's Gross Value Added (GVA) growth for 2016-17 is pegged at 6.6 per cent, compared to 7.9 per cent in the previous year. On the positive side, the impact of demonetisation on economic activity was not as pronounced over a longer period of time as was initially envisaged and economic activity showed some improvement towards the end of the year. As far as the real estate sector is concerned, while the overall demand situation remained muted during the first half of the year, the same was further impacted during the November to January period. However, since then, enquiry levels improved, which if sustained can help improve the overall demand situation.

In the residential segment, the Company, along with its subsidiaries, sold 889 residential units aggregating 0.95 million square feet of saleable area in 2016-17. Construction activity was completed in six phases across three of its projects aggregating 0.93 million square feet during 2016-17, and taking the completed area to over 4.2 million square feet in the last two years. This also meant a significant increase in handovers. The Company handed over 2,254 units to its customers in 2016-17, almost three-times the 823 units handed over in the previous year.

In the integrated cities and the industrial clusters segment, over 75 acres of land leases were concluded during the year across the two operational World Cities in Jaipur and Chennai, compared to 29 acres in 2015-16. The Company expects to further benefit from the ability to market to a wider customer base at Jaipur upon conversion of the sector-specific SEZs into a multi-product SEZ. In addition, it is gearing up to launch two new industrial clusters near Chennai and Ahmedabad — in line with its strategy for growth in this segment.

Affordable housing continues to be an important growth area for the Company. Learnings from its two pilot projects at Avadi and Boisar have enabled the Company to structure a standardised model that can be scalable. The outlook in the affordable housing space is promising, especially with recent developments on the government policies front driven by the agenda of 'Housing for All'.

A more detailed account of the Company's operations is provided in the Management Discussion and Analysis Report, which forms a part of this Annual Report.

The standalone and consolidated financial statements for 2016-17 have been prepared in accordance with applicable Indian Accounting Standards (INDAS) and the corresponding figures for the previous year have been restated as per INDAS for the purpose of comparison.

The consolidated total income of your Company increased from ` 68,717 lakh in 2015-16 to ` 83,102 lakh in 2016-17. The consolidated Profit before tax (PBT) stood at ` 13,890 lakh in 2016-17 as compared to ` 13,752 lakh in 2015-16, whereas the consolidated profit after tax (PAT) and minority interest was ` 10,224 lakh in 2016-17 as compared to ` 9,170 lakh in 2015-16.

Total income of your Company as a standalone entity was ` 75,320 lakh as compared to ` 60,154 lakh in 2015-16. PBT was ` 7,055 lakh as compared to ` 11,657 lakh in 2015-16, whereas PAT was ` 4,894 lakh as compared to ` 7,828 lakh in 2015-16. Total income in 2016 -17 includes dividend income of ` 824 lakh received from its subsidiary company Mahindra World City (Jaipur) Limited. In 2015-16, the Company had received dividend income of ` 629 lakh from Mahindra World City (Jaipur) Limited and ` 178 lakh from Mahindra World City Developers Limited, subsidiaries of the Company.

No material changes and commitments have occurred after the close of the year till the close of this Report, which affects the financial position of the Company.

CORPORATE GOVERNANCE

A report on Corporate Governance along with a certificate from the Auditors of the Company regarding the compliance with the requirements of Corporate Governance as stipulated under Para E of Schedule V of the SEBI LODR forms part of this Annual Report.

SUSTAINABLE DEVELOPMENT AND BUSINESS RESPONSIBILITY REPORT

Your Company has been at the forefront of the real estate industry in India to achieve the mission of 'Transforming urban landscapes by creating sustainable communities'. The Company has done this by putting sustainability as a core agenda for the Company. The details of Company's approach to sustainability are covered in the Business Responsibility Report.

The Business Responsibility Report (BRR) for the financial year 2016-17 as required by Regulation 34(2)(f) of SEBI LODR forms part of this Annual Report.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

The Company's guiding principle for CSR is to build its relationship with stakeholders and the community at large, and contribute to their long term social good and welfare. The Company, in every financial year, in line with the new Companies Act, 2013, pledges to spend, two per cent of the average net profits made during the three immediately preceding financial years specifically towards CSR initiatives.

The Company has constituted Corporate Social Responsibility Committee comprising Mr. Arun Nanda — Non-Executive Non-Independent Director, Mr. Shailesh Haribhakti — Non Executive Independent Director and Ms. Anita Arjundas — Managing Director & CEO. The role of the Committee is to formulate and recommend a CSR policy to the Board, to recommend expenditure to be incurred on CSR activities, to monitor the CSR policy of the Company from time to time and to institute a transparent monitoring mechanism for implementation of the CSR projects or programs or activities undertaken by the Company.

The Company's CSR Policy lays out the vision, objectives and implementation mechanisms. The Company's CSR policy is available on the Company's web link at https://www.mahindralifespaces.com/media/1050/corporate-social-responsibility-csr-policy.pdf

The Company's CSR activities have traditionally focused on education, skill development, health, environment and promoting sustainable practices.

The objective of the CSR policy is to:

- Promote a unified approach to CSR to incorporate under one umbrella the diverse range of the Company's philanthropic activities, thus enabling maximum impact of the CSR initiatives;

- Ensure an increased commitment at all levels in the organisation, to operate in an economically, socially and environmentally responsible manner while recognising the interests of all its stakeholders;
- Encourage employees to participate actively in the Company's CSR and give back to the society in an organised manner through the employee volunteering programme called Employee Social Options.

The Company's commitment to CSR will be manifested by investing resources in any of the areas stipulated in Schedule VII to the Companies Act, 2013. The Company gives preference to the local area and area around it where it operates for spending the amounts earmarked for CSR activities.

Of the total budget of ` 520.59 lakh for financial year 2016-17(including ` 132.73 lakh being unspent amount of the previous year), the Company has spent ` 481.49 lakh as per the approved CSR plan for financial year 2016-17. The balance ` 39.11 lakh which was earmarked for the purpose of education, environment, Swachh Bharat and for promoting health measures remained unspent for following reasons:

DIRECTORS' RESPONSIBILITY STATEMENT

Pursuant to Section 134(5) of the Companies Act, 2013, the Directors, based on the representations received from the operating management and after due enquiry, confirm that:

(a) in the preparation of the annual accounts, the applicable accounting standards had been followed along with proper explanation relating to material departures;

(b) they had selected such accounting policies and applied them consistently and made judgments and estimates that are reasonable and prudent so as to give a true and fair view of the state of affairs of the Company at the end of the financial year 31st March, 2017 and of the profit of the Company for that period;

(c) they had taken proper and sufficient care for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 2013 for safeguarding the assets of the Company and for preventing and detecting fraud and other irregularities;

(d) they had prepared the annual accounts on a going concern basis;

(e) they had laid down internal financial controls to be followed by the Company and that such internal financial controls are adequate and are operating effectively; and

(f) they had devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

INTERNAL FINANCIAL CONTROLS

The Company has in place adequate internal financial controls with reference to the financial statements. The Audit Committee of the Board reviews the internal control systems, the adequacy of internal audit function and significant internal audit findings with the management, Internal Auditors and Statutory Auditors.

AUDIT COMMITTEE

The Audit Committee of the Company as on 31st March, 2017 comprised of three independent Directors, namely Mr. Sanjiv Kapoor, Mr. Shailesh Haribhakti, Dr. Prakash Hebalkar and one Non-Executive Non-Independent Director, Dr. Anish Shah. Mr. Sanjiv Kapoor is the Chairman of the Committee.

All members of the Audit Committee possess strong knowledge of accounting and financial management. The Chairman of the Company, the Managing Director & Chief Executive Officer, Chief Financial Officer, the Internal Auditors and Statutory Auditors are regularly invited to attend the Audit Committee Meetings. The Company Secretary is the Secretary to the Committee. The Internal Auditor reports to the Chairman of the Audit Committee. The significant audit observations and corrective actions as may be required and taken by the management are presented to the Audit Committee. The Board has accepted all recommendations made by the Audit Committee from time to time.

VIGIL MECHANISM/WHISTLE BLOWER MECHANISM

The Company has established a vigil mechanism by adopting a Whistle Blower Policy for stakeholders including directors and employees of the Company and their representative bodies to report genuine concerns in the prescribed manner to freely communicate their concerns/grievances about illegal or unethical practices in the Company, actual or suspected, fraud or violation of the Company's Code or Policies. The vigil mechanism is overseen by the Audit Committee and provides adequate safeguards against victimisation of stakeholders who use such mechanism. It provides a mechanism for stakeholders to approach the Chairman of Audit Committee or Chairman of the Company or the Corporate Governance Cell consisting of Head - Legal & Secretarial, Chief Financial Officer and Chief Ethics Officer (Head-Human Resources). During the year, no such incidence was reported and no person was denied access to the Chairman of the Audit Committee or to the Chairman of the Company or to the Corporate Governance Cell. The Whistle Blower Policy of the Company is available at web link https://www.mahindralifespaces.com/media/1318/whistle-blower policy.pdf

RISK MANAGEMENT

The Company has in place a process to inform the Board about the risk assessment and minimisation procedures. It has an appropriate risk management system in place for identification and assessment of risks, measures to mitigate them, and mechanisms for their proper and timely monitoring and reporting. Presently, Regulation 21 of the SEBI LODR with respect to Risk Management Committee is not applicable to your Company. However, the Company has constituted a "Risk Management Committee" consisting of Mr. Shailesh Haribhakti, Non-Executive Independent Director and Ms. Anita Arjundas, Managing Director & CEO of the Company, and the Chief Financial Officer, for monitoring and reviewing of the risk assessment, mitigation and risk management plan from time to time. The Board reviews implementation and monitoring of the risk management plan for the Company including identification of risks, if any, which in the opinion of the Board may threaten the existence of the Company.

AUDITORS

The Shareholders of the Company at the 17th Annual General Meeting of the Company held on 28th July, 2016, had appointed M/s. B. K. ANNEXURE 1

DIVIDEND DISTRIBUTION POLICY

The Dividend Distribution Policy ("the policy") establishes the principles to ascertain amounts that can be distributed to equity shareholders as dividend by the Company as well as to enable the Company strike a balance between pay-out and retained earnings, in order to address future needs of the Company. The policy shall come into force for accounting periods beginning from 1st April, 2016.

Dividend would continue to be declared on per share basis on the Ordinary Equity Shares of the Company having face value of ` 10 each. The Company currently has not issued any other class of shares. Therefore, dividend declared will be distributed amongst all shareholders, based on their shareholding on the record date.

Dividends will generally be recommended by the Board once a year, after the announcement of the full year results and before the Annual General Meeting (AGM) of the shareholders, out of the profits of the Company for current year or out of profits of the Company for any previous financial years or out of both, as may be permitted under the Companies Act, 2013 ("the Act").

In the event of inadequacy or absence of profits in any year, the Board may recommend to declare dividend out of the accumulated profits earned by the Company in any previous financial years and transferred to free reserves, provided such declaration of dividend shall be in accordance with the provisions of the Act and Rules framed thereunder.

The Board may also declare interim dividend as may be permitted by the Act.

The Company has a consistent dividend policy that balances the objectives of appropriately rewarding shareholders through dividends and to support the future growth.

As in the past, subject to the provisions of the applicable law, the Company's dividend payout will be determined based on available financial resources, investment requirements and taking into account optimal shareholder return. Within these parameters, the Company would endeavor to maintain a total dividend pay-out (including dividend distribution tax) ratio in the range of 20 percent to 35 percent of the annual standalone Profits after Tax (PAT) of the Company.

While determining the nature and quantum of the dividend payout, including amending the suggested payout range as above, the Board would take into account the following factors:

- Internal Factors:
  i. Profitable growth of the Company and specifically, profits earned during the financial year as compared with:
     a. Previous years and
     b. Internal budgets,
  ii. Cash flow position of the Company,
  iii. Accumulated reserves
  iv. Earnings stability
  v. Future cash requirements for organic growth/ expansion and/or for inorganic growth,
  vi. Brand acquisitions,
  vii. Current and future leverage and, under exceptional circumstances, the amount of contingent liabilities,
  viii. Deployment of funds in short term marketable investments,
  ix. Long term investments,
  x. Capital expenditure(s), and
  xi. The ratio of debt to equity (at net debt and gross debt level).
- External Factors:
  i. Business cycles,
  ii. Economic environment,
  iii. Cost of external financing,
  iv. Applicable taxes including tax on dividend,
  v. Industry outlook for the future years,
  vi. Inflation rate, and
  vii. Changes in the Government policies, industry specific rulings & regulatory provisions.

Apart from the above, the Board also considers past dividend history and sense of shareholders' expectations while determining the rate of dividend. The Board may additionally recommend special dividend in special circumstances.

The Board may consider not declaring dividend or may recommend a lower payout for a given financial year, after analyzing the prospective opportunities and threats or in the event of challenging circumstances such as regulatory and financial environment. In such an event, the Board will provide rationale in the Annual Report.

The retained earnings of the Company may be used in any of the following ways:

i. Capital expenditure for working capital,
ii. Organic and/ or inorganic growth,
iii. Investment in new business(es) and/or additional investment in existing business(es),
iv. Declaration of dividend,
v. Capitalisation of shares,
vi. Buy back of shares,
vii. General corporate purposes, including contingencies,
viii. Correcting the capital structure,
ix. Any other permitted usage as per the Companies Act, 2013.

Information on dividends paid in the last 10 years is provided in the Annual Report.

This policy may be reviewed periodically by the Board. Any changes or revisions to the policy will be communicated to shareholders in a timely manner.

The policy will be available on the Company's website at https://www.mahindralifespaces.com/media/1315/dividend-distribution-policy.pdf

The policy will also be disclosed in the Company's annual report.

ANNEXURE 4

POLICY FOR REMUNERATION OF THE DIRECTORS

PURPOSE

This Policy sets out the approach to Compensation of Directors, in Mahindra Lifespace Developers Limited.

POLICY STATEMENT

We have a well-defined Compensation policy for Directors, including the Chairman of the Company. The overall compensation philosophy guides us to focus on enhancing the value of the Company by attracting and retaining Directors for achieving objectives of the Company.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

NON-EXECUTIVE INCLUDING INDEPENDENT DIRECTORS:

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both Fixed and variable, to the Non-Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act, 2013, and Part D of Schedule II of the SEBI LODR with Stock Exchanges and such other factors as the NRC may consider deem fit for determining the compensation. The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

MANAGING DIRECTOR & CHIEF EXECUTIVE OFFICER (MD & CEO) AND EXECUTIVE DIRECTORS

Remuneration of the MD & CEO and Executive Directors reflects the overall remuneration philosophy and guiding principle of the Company. While considering the appointment and remuneration of Managing Director and Executive Directors, the NRC shall consider the industry benchmarks, merit and seniority of the person and shall ensure that the remuneration proposed to be paid is commensurate with the remuneration packages paid to similar senior level counterpart(s) in other companies. The policy aims at a balance between fixed and variable pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

The remuneration to the MD & CEO shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as per the policy of the Company from time to time and as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of appointment, the variable compensation will be determined annually by the NRC based on the performance of MD & CEO.

The term of office and remuneration of MD & CEO is subject to the approval of the Board of Directors, shareholders, and Central Government, as may be required and within the statutory limits laid down in this regard from time to time.

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay, subject to the requisite approvals, remuneration to its MD & CEO in accordance with the provisions of Schedule V of the Companies Act, 2013.

If a MD & CEO draws or receives, directly or indirectly by way of remuneration any such sum in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he/she shall refund such sum to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration for MD & CEO is designed subject to the limits laid down under the Companies Act, 2013 to remunerate him/her fairly and responsibly. The remuneration to the MD & CEO comprises of salary, perquisites and benefits as per policy of the Company and performance based incentive apart from retirement benefits like P.F., Superannuation, Gratuity, Leave Encashment, etc. as per Rules of the Company. Salary is paid within the range approved by the Shareholders. Increments are effective annually, as recommended/approved by the Nomination and Remuneration Committee/Board. The MD & CEO is entitled for grant of Stock Options as per the approved Stock Options Schemes of the Company from time to time.

DIRECTORS

The Managing Director & Chief Executive Officer is an executive of the Company and draws remuneration from the Company. The Non-Executive Chairman and Independent Directors receive sitting fees for attending the meeting of the Board and the Committees thereof, and meetings of Independent Directors, as fixed by the Board of Directors from time to time subject to statutory provisions. The Non-Executive Chairman and Independent Directors would be entitled to the remuneration under the Companies Act, 2013. A Non-Executive Non-Independent Director who receives remuneration from the holding company or any other group company is not paid any sitting fees or any remuneration. In addition to the above, the Directors are entitled for reimbursement of expenses incurred in discharge of their duties.

The Company may also grant Stock Options to the eligible employees and Directors (other than Independent Directors) in accordance with the ESOP Schemes of the Company from time to time and subject to the compliance of the applicable statutes and regulations.

DISCLOSURES

Information on the total remuneration of members of the Company's Board of Directors, Managing Director and Executive Directors and KMP/senior management personnel may be disclosed in the Board's report and the Company's annual report/website as per statutory requirements in this regard.

ANNEXURE 5

Policy on Remuneration of Key Managerial Personnel and Employees

OBJECTIVE

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

STANDARDS

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July i.e. after the salary increment exercise.
- The variable component of the remuneration will vary from 10 percent to 25 percent of the Cost-to-Company (CTC) and will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both BSC and KRA are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive and is around 60th percentile. Based on the findings of the survey and the business performance, the Sector Talent Council decides:
  a. The increment that needs to be paid for different performance ratings as well as grades;
  b. The increment for promotions and the total maximum increment;
  c. The maximum increase in compensation cost in percent and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep in tune with the market.

MANAGEMENT DISCUSSION AND ANALYSIS

Mahindra Lifespace Developers Limited ('Mahindra Lifespaces', 'MLDL' or 'the Company') is one of the leading real estate development companies in India. Over the years, the Company has created a reputation for itself by delivering an array of highly successful projects and establishing industry benchmarks in environment friendly and sustainable developments.

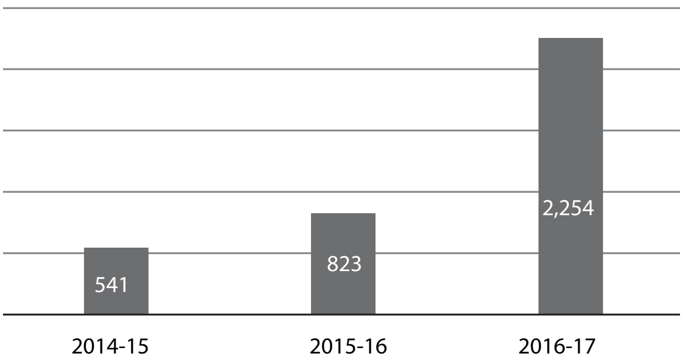
Mahindra Lifespaces, along with its subsidiary companies, is engaged in the development of residential projects (Mahindra Lifespaces) and integrated cities (Mahindra World City). Its residential offering comprises mid-premium segment housing as well as affordable housing (Happinest). This chapter presents an overview of the performance of the Company during 2016-17 and its strategy for future growth.

Performance Highlights

Strong focus on execution

In the residential space, **2016-17 saw a strong focus on execution with over 2,250 units handed over to customers. As shown in Chart A, handovers have risen considerably over the last few years.**

Chart A: Number of Units Handed Over

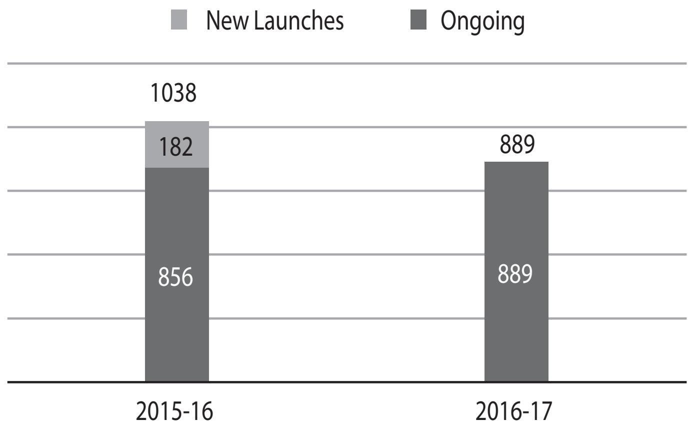


This is a direct result of reducing the project life cycle i.e. time taken from procuring land to delivery of the projects. **Around 4.2 million square feet of the total completed development of 13.87 million square feet by the Company[1], has happened in the last two years — 2015-16 and 2016-17**. The improvement in the pace of project execution and handover has been aided by building people and process capabilities as well as scalable systems in quality, safety and customer relations. These have been discussed in greater detail in the respective sections of this report.

Sustained sales performance in Residential

In the residential segment, the Company sold2 889 residential units aggregating to 0.95 million square feet of saleable area in 2016-17 compared to 1,038 units or 1.21 million square feet in 2015-16. Though this is less than what was achieved in the previous year, it is noteworthy for two reasons. **First, the Company could not launch three projects planned for launch during the year due to high court orders banning new construction in the Mumbai Metropolitan Region (MMR)[3].** As shown in Chart B, the Company's sales performance across ongoing projects alone was better than the previous year — 889 units during the year compared to 856 units in 2015-16.

Chart B: Sales (Units): Ongoing and New Lanuches



Second, sales velocity was affected in the aftermath of currency demonetisation on account of uncertainty and slowdown in economic activity due to consumer expectations of major price corrections in the property market post-demonetisation. The demand situation saw a marked improvement towards the close of the year, as enquiries climbed back to pre-demonetisation levels and sales velocity improved. Further discussion on market situation, opportunities and the Company's strategy is presented in the next section on 'Opportunities and Strategy'.

Creditable contribution from World Cities

2016-17 saw an increase in contribution from the integrated cities and the industrial clusters business. **Over 75 acres of land leases were concluded during the year across the two operational World Cities in Jaipur and Chennai, versus 29 acres in the previous year.** This was possible primarily due to the launch of the second phase of the domestic tariff area (DTA) in Jaipur after successful area reallocation and product-mix approvals. Mahindra World City (MWC), Chennai, also added around 40 acres to its saleable area that was previously not marketable due to pending approvals. Both these developments allowed the business to reach out to a larger base of potential customers.

The Company expects to further benefit from the ability to market to a wider customer base at Jaipur upon conversion of the sector-specific SEZs into a multi-product SEZ. In addition, **it is gearing up to launch two new industrial clusters near Chennai and Ahmedabad — in line with its strategy for growth in this segment.** This is discussed in greater detail in the next section on 'Opportunities and Strategy', whereas developments in the two ongoing projects are discussed in 'Operations'.

11.5 percent growth in consolidated PAT

Despite headwinds faced by the Company in the form of an adverse macroeconomic environment and regulatory events, Mahindra Lifespaces registered a creditable performance during 2016-17.

- Consolidated total revenue grew by 20.9 per cent, from ` 68,717.31 lakh in 2015-16 to ` 83,101.70 lakh in 2016-17.
- Profit before taxes (PBT) of the consolidated entity, after including share in profit from joint venture (JV) entities and associates4, stood at ` 13,890.29 lakh in 2016-17 as compared to ` 13,752.32 lakh in 2015-16.
- Consolidated profit after taxes (PAT) after minority interest was ` 10,223.72 lakh in 2016-17, a growth of 11.5 per cent over ` 9,170.32 lakh in the previous year. Diluted EPS also increased by 11.6 per cent to ` 24.85 for the consolidated entity.

Chart C provides the indicative share of operating entities 5 engaged in the Residential and Integrated Cities & Industrial Clusters (ICIC) businesses in the revenues and profits during 2016-17. Further, details of the financial performance of all operating entities is provided in the section on 'Financials'.

In the remainder of the report, we will present the operational and financial performance of the Company, which is followed by a discussion on risks and concerns and the outlook for the future. We begin with an overview of the opportunities in the current environment, and the Company's strategy for growth.

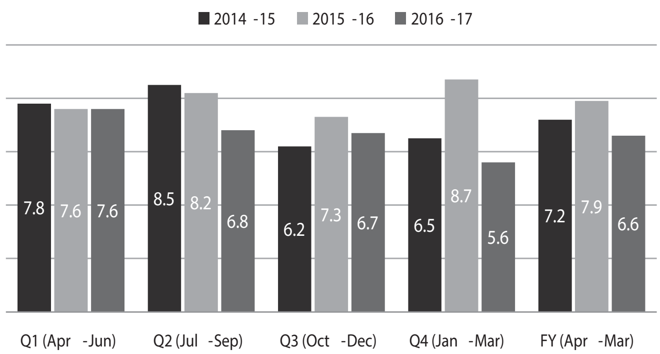
Opportunities and Strategy

2016 was another difficult year for the world economy — marked by stagnant global trade and subdued investment. However, there was some improvement towards the end of the year, which has spilled on to 2017 and is expected to continue. The first quarter of 2017 (January-March) also saw signs of stronger activity in most advanced economies and easing of recessionary conditions in commodity exporting large emerging market economies. **According to the IMF, global growth is projected to increase from 3.1 per cent in 2016 to 3.5 percent in 2017. The outlook for global trade and investments has also improved.**

On the domestic front, there was a moderate decline in macroeconomic performance in 2016-17. **According to the provisional estimates released by the Central Statistics Office (CSO) on 31 May 2017, India's Gross Value Added (GVA) growth for 2016-17 is pegged at 6.6 per cent, compared to 7.9 per cent in the previous year.** The deceleration in industrial growth was more significant, even as agriculture and higher government expenditure offsets some of the slowdown in economic activity. Construction sector, which accounts for around 8 per cent of the GDP grew at a meagre 1.7 per cent in 2016-17.

On the positive side, the quarterly estimates of GDP (See Chart D) suggest that the impact of demonetisation on economic activity was not as large as initially envisaged. The growth rate for October-December, 2016 was only 0.1 percentage points less than that of the immediately preceding quarter; and that of January-March, 2017 was 1.1 percentage points less. The contraction on account of demonetisation was not as severe as prophesied by the critics. This is in line with the Company's experience. Moreover, from February, 2017 the demand situation began to improve and enquiries started getting back to pre-demonetisation levels.

Chart D : Growth in Gross in Value Added at Basic Prices (YoY, %)



The farm sector has done well with record production of major foodgrains; and one should expect a pick-up in demand in 2017-18. The Index of Industrial Production (IIP) recovered in January, 2017 with a broad-based improvement in manufacturing. Activity in the services sector, too, is gathering pace. **The overall outlook for Indian economy is positive with the RBI expecting GVA growth to strengthen to 7.4 per cent in 2017-18.**

[1] Does not include selected projects that were completed by GESCO. Includes certain commercial developments undertaken by the Company.

[2] Sales of units includes the Company's share, partner's share in joint developments as well as sales by its subsidiaries and joint ventures.

[3] The Honourable Bombay High Court placed restrictions on: (a) granting permissions for new construction due to solid waste management issue in Mumbai, and (b) granting building height approvals in the funnel area of the airport in Mumbai. These restrictions have affected upcoming projects of all developers, not just Mahindra Lifespaces.

In addition, a stable inflationary environment is likely to keep the monetary policy stance of the RBI in the neutral zone. Besides, complete transmission of past policy rate reductions into bank lending rates is yet to take place. This transmission to lower lending rates should help encourage both consumption and investment demand from businesses. These augur well for the real estate industry.

Residential Developments

During 2016-17, the demand situation in the residential developments space remained subdued. Inventory levels increased despite drop in new launches. The luxury segment was most hit with very low absorption levels across markets. In the geographies where Mahindra Lifespaces operates, Delhi-NCR market continued to be the most affected followed by Chennai. In comparison, the demand situation was better in Mumbai, Pune, Hyderabad and Bengaluru.

Besides, demand is now driven by end-users and not investors, which has resulted in a greater preference for developers with differentiated offerings and an established track record. In line with its customer-centric approach, the Company has identified 'Joyful Homecomings' as the brand proposition around which the homeowner's experience is built and communicated. This encompasses the delivery of thoughtfully designed homes and community spaces, hassle free experiences, a portfolio of post-handover services together with the creation of a vibrant community that augments the living experience for homeowners. Mahindra Lifespaces has benefited from this differentiation strategy; and the 'Mahindra' brand — a name associated with honesty, transparency, fairness and trust — has continued to play a consistently positive, consumer-attracting role. **The Company was awarded the "Porter Prize for Excellence in Governance" in 2016.**

The Company has identified the western and southern regions as the growth corridors for its residential business. It already has projects in the Mumbai Metropolitan Region (MMR), Pune and Chennai which are in advanced stages of planning/approvals. The Company is actively seeking opportunities, in Mumbai, Pune, Bengaluru and Hyderabad to build a critical mass of projects before exploring new geographies. Equally, **the focus is on adopting quick-turnaround, asset-light models though the Joint Development or Joint Venture route — either in collaboration with land owners or through financial partners in such projects.**

In the affordable housing space, learnings from its two pilot projects at Avadi and Boisar have enabled the Company to structure a templated model that is both scalable and brings down the project cycle, thereby increasing the capital efficiency. Moreover, recent developments on the government policies front such as 'Housing for All' and the 'Pradhan Mantri Awas Yojana' have further improved the viability and outlook for the segment. Accordingly, **affordable housing continues to be an important growth area for the Company. It is currently awaiting approvals for its third project in this space.**

Integrated Cities & Industrial Clusters (ICIC)

2016-17 saw focused demand for industrial land and built-to-suit solutions from multinational companies looking to address the large Indian market. The government's manufacturing push as well as a gradual turnaround in the macroeconomic situation can further strengthen this trend in 2017-18, especially in certain manufacturing corridors.

The Company is a pioneer in the integrated business cities space, and currently has two operational integrated cities — Mahindra World City — at Chennai and Jaipur developed in a public-private partnership model with the respective State Governments. On the product mix side, expansion of the domestic tariff area (DTA) in MWC, Jaipur, through area re-allocation has already contributed to the Company's performance during the year. The conversion of sector-specific SEZs into a multi-product SEZ in Jaipur, which is expected in 2017-18, will further unlock its leasing potential. Further, the year also saw the addition of 40 acres of marketable land, in Mahindra World City, Chennai.

The Company has identified upcoming industrial destinations and corridors in the western and southern regions, where it is looking to create a network of smaller industrial clusters as part of its growth strategy for this business. **It is currently working on two such industrial parks: one, near Chennai (Tamil Nadu) in a joint venture with Sumitomo Corporation, Japan, and the other near Ahmedabad (Gujarat).**

A pre-aggregated approach to land acquisition — as successfully implemented in the project near Ahmedabad — along with a smaller footprint for the industrial clusters will significantly help to reduce the turnaround time, and thus increase capital efficiency while reducing the risk profile of these projects. These also help in improving the attractiveness of such projects to strategic and financial investors, allowing the Company to raise capital through collaborations and equity participation, such as its joint venture with Sumitomo for the project near Chennai. Smaller projects should also enable the Company to augment its product offerings by focusing on specific industrial segments that operate in these clusters.

Operations – Projects Update

Residential Developments

2016-17 saw continued focus on execution, with sustained momentum in the completion of construction and a major step-up in the number of handovers by the Company. Construction activity was completed in six phases across three of its projects aggregating to 0.93 million square feet during 2016-17 — taking the completed area to over 4.2 million square feet in the last two years. This also meant a significant increase in the handovers. **The Company handed over 2,254 units to its customers in 2016-17, almost three-times the 823 units handed over in the previous year.**

Table 1 provides a snapshot of the Company's project portfolio across different markets. As of 31st March, 2017, the Company along with its subsidiaries has completed projects covering 13.87 million square feet 6 in the residential segment, including 0.93 million square feet completed during the year. During 2016-17, the Company launched fresh inventory in four of its existing projects. **It is currently developing 3.59 million square feet and another 5.3 million square feet is available in the form of new phases of ongoing projects or fresh projects that are in different stages of planning to be launched in the near future.**

Integrated Cities & Industrial Clusters

2016-17 saw a major thrust in the acquisition of new customers and expansion by existing customers in the Mahindra World Cities resulting in a significant increase in acreages leased. Combined exports by companies at the two World Cities crossed `11,000 crore and their direct employment crossed 46,000 persons.

Mahindra World City, Chennai added two new customers and an existing client leased additional land, taking the total number of industrial customers to 64 — 26 in the SEZ and 38 in the DTA. 52 of these companies were operational as of 31st March, 2017.

The four operational residential projects at Mahindra World City, Chennai saw occupancy increase from around 700 families in the previous year to 1,100 families in 2016-17. The details of the residential projects in Mahindra World City, Chennai have already been provided in the section on Residential developments.

On the retail and social infrastructure front, a hostel for young working professionals started operations during the year. JSP Hospitals also expanded its service offering to a 30 bed, 24x7 facility including outpatient services, ambulance services and a pharmacy.

Mahindra World City, Jaipur, leased 67 acres during the year adding 7 new customers while 2 existing customers took up additional space. At the end of the year, the Company had 74 industrial customers, 45 in the SEZs and 29 in the DTA, of which 41 companies are operational and 9 have initiated development activities. An important development during the year was the completion of the economic land use plan for around 450 acres of residential, institutional and social infrastructure zone and the signing up of an anchor customer for the establishment of Bharat Skill Development University in the World City.

In the industrial clusters space, the Company, through its subsidiary, secured environmental clearances for its 264 acres project near Chennai in a joint venture with Sumitomo Corporation. It has also received in-principle approval for commencement of construction activities from the relevant authority.

The Company, through its subsidiary, also acquired around 268 acres of land near Ahmedabad in Gujarat for its second industrial cluster and has initiated the master planning for the project. It is in the process of securing necessary approvals, following which infrastructure development and launch of the project can be initiated.

Operations – Strategic Priorities

The strategic priorities of the Company have been to focus on value creation for the customer so as to increase throughput and build brand equity as well as on resourcing for scale — be it land as raw material, capital for financing growth or building capability of its human resources.

Customer Acquisition and Engagement

2016-17 was a challenging year for the residential sector with slow demand further exacerbated by a three months impact on sale owing to demonetization. Against this backdrop, the Company took several initiatives to drive sales at its projects.

The Company undertook an outreach program to increase the number of channel partners associated with it by over 20 per cent. The Company also launched a corporate outreach program covering around 60 corporates across the country with around 3 per cent of annual sales coming from corporate customers. Along with the sales outreach, the Company also worked towards ensuring greater access to its customers at any point of time. Towards this end, the capacity of the call centre was expanded by over 5 times, which enabled it to serve all time zones effectively. At the same time, online chat facilitated addressing queries on a real-time basis.

During the year, the Company introduced its brand proposition, ‘Joyful Homecomings’ as a part of its communication strategy with it target customer base. It also invested significantly in its digital and social marketing efforts to engage consumers including the use of Online Reputation Management (ORM) to listen and respond to consumers engaging with the brand in the digital space. **The Company won the prestigious “Best Real Estate Brand on Social Media” award from a well-known social media analysis and research organisation.**

In the World Cities, engagement with industry specific and country specific trade/industry bodies and dedicated road shows helped increase the outreach to potential customers. **The Company also expanded the reach and diversity of the 3rd edition of its thought leadership platform ‘Confluence’, by putting together a global platform of urban planners, practitioners, consultants, financial institutions and government stakeholders from India and across the world.**

Execution Excellence

Mahindra Lifespaces’ focus on this priority area has been to institutionalise project execution capabilities through scalable systems and processes that aid in timely delivery, quality of product and safety during construction, with the ultimate goal of adding value to our customers. It has embraced an Integrated Management System (IMS) covering three International Standards — ISO 9001:2008 (Quality Management System), ISO 14001:2004 (Environmental Management System) and OHSAS 18001:2007 (Occupational Health and Safety Management System) for both its business segments. During the year, it successfully completed IMS re-certification.

The Company’s strong quality management system has been instrumental in improving the quality of its products and processes, while enhancing the productivity of its operations to make these more competitive. **During 2016-17, the Company’s focus on delivering a ‘Zero-Snag Product’ received a major boost with the implementation of a mobile application ‘Q SCAN’. This app automates the entire home inspection process prior to handover, ensuring zero defects and seamless communication of handover readiness to the Customer Relations function.**

As mentioned earlier over 2,250 units were handed over to customers during the year. Over 60 per cent of these had zero snags identified by customers. Moreover, the Company achieved a Top 2 box score of over 80 per cent on product quality parameters on possession. **'Q SCAN' received the BestPrax Prize 2016, awarded by QIMPRO, for 'Indigenous Mobile Application'.**

The Company has an established 'Safety Policy' which underscores its commitment to prevent accidental injuries and improve the occupational health of its associates. **In line with recent developments in construction safety, it has adopted the principles of "Behaviour Based Safety Management", which internalises safe practices in the construction process itself, rather than considering it a distinct activity.**

The Company's flagship safety initiative "Safe Methods and Risk Reduction Techniques" (SMARRT) implements international best practices and aims to eliminate unsafe acts by proactive reporting of such incidents. During the year, the Company implemented several initiatives to improve processes, sensitise workers and promote safe practices. Some of these include visual identification of workers trained for working at heights, SMS campaign to workers in local languages, spot recognition programme offering cash rewards to workmen for identifying unsafe acts, conditions, reporting near misses and safe work practices.

In recognition of its efforts, Mahindra Lifespaces received the 'CIDC Vishwakarma Award' for 'Health Safety & Environment' for three of its projects: Windchimes in Bengaluru, Luminare in Gurgaon and Antheia in Pune. These awards are given by Construction Industry Development Council (CIDC), established by Planning Commission, Government of India, and the Construction Industry. **There we no accidents during 2016-17 and no man days were lost on this account. As of 31st March, 2017, the Company had 32 million safe man hours.**

During the year, the Company also initiated a large scale intervention around building a customer centric design and execution organisation that would not only be geared for significant scale but also be able to reduce the project life cycle and costs through the use of standardized, productized and technology driven solutions.

Customer Relations

The Customer Relations (CR) function at Mahindra Lifespaces endeavours to service the customers through their entire lifecycle — right from the time of booking to post-handover facilitation. Over the last few years, **focus has been on building capabilities and driving excellence in CR to achieve differentiation and ability to handle scale. These efforts have enabled the Company to efficiently handover more than 2,250 residential units during 2016-17, which is around three times the number of units handed over in the previous year.**

Several measures were taken to strengthen capabilities and processes. The Company implemented the first stage of a tech-based CRM solution, aimed at enabling a single view of the customer right from the prospecting stage to post-handover. This has already brought about considerable simplification and standardisation of systems for front line executives. Interactive learning e-modules were also introduced, which are being used both for inducting new hires as well as upgrading knowledge and skills of existing team members.

With a considerable increase in handovers in the last couple of years, another area which saw a lot of effort was post-handover services and Facility Management (FM). During the year, the Company piloted its offering of post-possession value added services in two of its projects. These services covering design and fit-outs, lighting solutions and modular kitchens were well received by the customers. **These initiatives have resulted in significant improvement in the customer satisfaction and customer as promoter scores in 2016-17.** Going forward, the focus will be on offering a complete bouquet of value added services as well as enabling digital access through a mobile application.

At Mahindra World City, Chennai, the Company initiated bio-fuel based shuttle services and launched a mobile application for the citizens. Both the World Cities continued to focus on services excellence and customer feedback through 'Coalesce' — the customer connect forum at the operations level — as well as on community building through initiative such as 'Mindquest' and the Champions League.

Land and Financial Capital

The Company has followed an approach of acquiring residential land inventory to meet the targeted sales of the next 3 to 5 years. Barring three projects that are awaiting removal of restrictions relating to construction in Mumbai, all land parcels acquired by it prior to 2015-16, have since been launched for sale and construction. With the completion of some of its projects, the Company is focused on adding more projects in the markets identified by it for its growth. **Besides the traditional outreach channels, the Company has established direct engagement with banks and other financial institutions as well as existing developers to scale up its presence in this space through asset light models of land acquisition including joint developments and joint ventures.**

During the year, the Company completed the acquisition of 268 acres near Ahmedabad in Gujarat for the development of an industrial cluster.

The Company also focused on reducing its cost of capital by re-negotiating interest rates on existing loans and prudently using options like commercial paper. The average cost of debt for the Company together with all its subsidiaries (based on consolidated financials as per IND AS), was reduced from 10.32 per cent in 2015-16 to 9.85 per cent in 2016-17.

During the year, the Company completed the regulatory approval for a ` 300 crore rights issue to its shareholders. Since then, it has completed the entire process and issued the shares to the participating shareholders. In addition to its existing platform for residential developments, the

Company has also initiated dialogue with financial institutions for platforms in its other business segments.

Human Capital

Mahindra Lifespaces recognises that its people are the key to the success of the organisation and in meeting its growth objectives. During the year, the Company continued its efforts to strengthen its HR policies and processes to attract and retain the best talent in the industry. The Company also has relationships with specialised institutions in the construction industry such as National Institute of Construction Management and Research and RICS School of Built Environment for entry level positions in project management and sales.

Catering to the learning and development needs of its associates continues to be a key focus area. **The Company regularly carries out structured training initiatives in the key functional areas such as sales and marketing, customer service and project management to meet the requirements of its associates. Each associate of Mahindra Lifespaces received an average of 36 man hours of training in 2016-17.** During the year, the Company digitised induction training for the CR function. This will be extended to other functions such as sales and projects in the future.

The Company launched its skill up-gradation program for construction workers, **'PARIVARTAN', where enrolled candidates go through intensive classroom and on-the-job training followed by a comprehensive assessment leading up to certification by Central Skill Development Council of India (CSDCI).** This initiative, which is linked to the 'Skill India Initiative' of the government, will benefit not just the Company, but the entire real estate industry. **During 2016-17, 182 workers in different trades enrolled and attended this program across 3 projects, of which 92 were successfully certified.** The Company intends to extend this programme further in 2017-18.

As a part of its flagship programme 'My Customer, My Valentine', which aims to make the organisation more customer centric, several initiatives were carried out to engage associates and reward customer centric behaviour. **The Company carries out two associate engagement surveys every year, MCARES for internal benchmarking within the Mahindra Group and the Great Place to Work survey for external benchmarking. Both surveys showed improvement in engagement levels during 2016-17.**

Mahindra Lifespaces endeavours to keep its workplaces safe, transparent and friendly for people to work in. It also has a policy which is aligned to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. It has a 'Diversity Council' with the objective of creating an inclusive environment in the workplace. **Its gender diversity as of 31st March, 2017 was 19 per cent. Mahindra Lifespaces was selected by Working Mother and AVTAR as one of the "100 Best Companies for Women in India" in 2016.**

As of 31st March, 2017, the Company together with its subsidiaries had 413 associates on its rolls. In addition, the Company had 4,245 workmen across all its sites employed by its contractors. Associate relations remained cordial during the year.

Financials

Indian Accounting Standards (IND AS) is applicable to the Company for the period commencing 1st April, 2016 as per the limit prescribed for the networth under notification issued by the Ministry of Corporate Affairs. Following the adoption of IND AS, classification of subsidiary for consolidation of accounts is now based on control and not just shareholding. As a result, four entities — Mahindra World City (Jaipur) Limited (MWCJL), Mahindra World City Developers Limited (MWDCL), Mahindra Industrial Park Chennai Limited (MIPCL) and Mahindra Bebanco Developers Limited (MBDL) — which were formerly being consolidated, will be treated as JVs. As per IND AS, for all JVs, equity method of accounting is now applicable, whereby MLDL's share of profit in joint ventures is directly credited to profit and loss account instead of proportional line-by-line consolidation.

The results for 2015-16 are also IND AS compliant to facilitate comparison. Table 3 presents the abridged profit and loss statement of Mahindra Lifespace Developers Limited.

Mahindra Lifespaces registered a creditable financial performance during 2016-17. Consolidated total revenue grew by 20.9 per cent, from ` 68,717.31 lakh in 2015-16 to ` 83,101.70 lakh in 2016-17. Total consolidated expenditure grew at 34.6 per cent during the period to ` 73,664.59 lakh in 2016-17. Most of this increase in expenditure was due to higher project and operating expenses which grew at 46.6 per cent. This was a direct result of higher project activity during the year. In contrast, employee and other costs grew at a more modest 16.2 per cent, and finance costs dropped sharply during the year. In fact, employee and finance related costs, taken together, remained stable during the year.

The performance also benefited from an improved contribution from the operating entities in the integrated cities and industrial cluster business. Profit before taxes (PBT) of the consolidated entity, after including share in profit from joint venture entities and associates, stood at ` 13,890.29 lakh in 2016-17 as compared to ` 13,752.32 lakh in 2015-16. After accounting for minority interest, the consolidated PAT of the Company was ` 10,223.71 lakh in 2016-17, a growth of 11.5 per cent over a consolidated PAT of ` 9170.32 lakh in the previous year. PBT of the standalone entity was ` 7055.21 lakh in 2016-17. Net profit (PAT) of the standalone entity was ` 4,893.65 lakh in 2016-17.

As a result, diluted EPS during the year was ` 24.85 and ` 11.90 for the consolidated and standalone entities respectively.

Under the IND AS, line-by-line consolidation is not being done for certain operating entities. Table 4 provides a summary of the financial performance of various legal entities operating in the two key businesses during 2016-17. The numbers stated in Table 4 are from standalone financials/accounts of these entities. Also, inter-company transactions have not been eliminated and a simple aggregation of numbers is shown as "Total" for entities engaged in the Residential and ICIC businesses. Hence, the "Total" of Revenues and PAT for the two businesses are indicative in nature.

As of 31st March, 2017, Mahindra Lifespaces' standalone debt equity ratio was at 0.38:1 and consolidated debt equity ratio (under IND AS based consolidation) was at 0.38:1. The liquidity situation during the year remained comfortable. Surplus funds generated during the year have been invested in credit worthy instruments, including money market instruments, mutual funds and deposits with banks.

Threats, Risks and Concerns

Mahindra Lifespaces has appropriate risk management systems in place for identification and assessment of risks, measures to mitigate them, and mechanisms for their proper and timely monitoring and reporting. Mahindra Lifespaces has a Risk Management Committee consisting of two Directors and the Chief Financial Officer, for monitoring and reviewing of the risk assessment, mitigation and risk management plan from time to time. The Board reviews implementation and monitoring of the Company's risk management plan.

Economic Risks

GDP growth saw a moderate deceleration during the year as the economy adjusted to the demonetisation of large denomination currency notes in November, 2016. Even as the situation has since improved, business confidence and investments have not improved significantly. Lending rates for business and home loans still do not reflect the reduction in policy rates by the RBI. This can have a direct impact on the performance of the real estate sector and the Company. Besides, even as there are signs of revival in the advanced economies and large commodity exporter among engaging markets, investment outlays in Indian businesses, especially those in export oriented industries, has not seen a significant rebound.

Mahindra Lifespaces is conscious of these risks and is taking measures to mitigate them. For instance, the Company's focus on both residential and integrated developments has been a significant source of comfort during periods of slow economic performance. Besides, prudent financial management has also kept it relatively insulated from the economic downturn. The Company is well placed to raise capital at competitive rates.

Operational Risks

Key operational risks include longer gestation period for procurement of land, time taken for approvals, inability to sell the project as per plan, inability to complete and deliver projects according to the schedule leading to additional cost of construction and maintenance, erosion of brand value, appointment and retention of quality contractors, inability to attract and retain talent, slow customer satisfaction, fraud and unethical practices, failure to comply with laws and regulations leading to fines, penalties and lengthy litigations.

The Company addresses these issues through a well-structured framework which identifies the desired controls and assigns ownership to monitor and mitigate the risks. It has also invested significant resources in transparent customer friendly processes and an enabling IT infrastructure, which are expected to go a long way to address some of these risks. It also has a Code of Conduct for all its associates. The Company's corporate governance policies ensure transparency in operations, timely disclosures and adherence to regulatory compliances, leading to enhanced stakeholder value.

Policy and Regulatory Risks

The real estate industry is easily affected by changes in government policies and regulations. There are considerable procedural delays with respect to approvals related to acquisition and use of land. This problem is accentuated as this industry has been traditionally quite unorganised. Unfavourable changes in the government policies and the regulatory environment may adversely impact the performance of the Company.

The Company, with its approach towards acquisition of land based on thorough due diligence and its transparent processes in developing the projects, has effectively mitigated these risks. Besides, its focus on environment friendly and sustainable practices also helps in remaining compliant with the environmental regulations.

Internal Controls

The Company has adequate internal control systems, commensurate with the size and nature of its business. The system is supported by documented policies, guidelines and procedures to monitor business and operational performance including an ERP solution, all of which are aimed at ensuring business integrity and promoting operational efficiency.

An independent internal audit firm appointed by the Company conducts periodical audits to ensure adequacy of internal control systems, adherence to management policies and compliance with the laws and regulations of the country. Their scope of work also includes internal controls on accounting, efficiency and economy of operations. The internal auditors also report on the implementation of their recommendations.

Reports of the internal auditors are regularly reviewed at the Audit Committee meetings. The Audit Committee of the Board reviews the adequacy and effectiveness of the internal control systems and suggests improvements for strengthening them.

Outlook

The outlook for the world economy improved towards the end of 2016-17 — driven by stronger activity in most advanced economies and easing of recessionary conditions in large commodity-exporting emerging market economies. Despite slower growth in 2016-17 than the year earlier, India has performed better than its peers in the emerging markets over the last few years.

While there are still downside risks, the outlook for Indian economy has improved considerably. Proposals in the Union Budget are expected to stimulate capital expenditure and rural demand; and the step-up in government spend on physical infrastructure and housing is likely to benefit the real estate industry. In addition, policy breakthroughs such as Real Estate (Regulation and Development) Act (RERA) and structural reforms like the Goods and Services Tax (GST) should not only stimulate demand, but make the sector more efficient and organised.

The RERA seeks to improve transparency and accountability in the industry thereby protecting the rights of home buyers. The key provisions of the Act include registration of projects with requisite approvals in place before launch of any project, penalties for delayed delivery, 70 percent of collection from customers to be mandatorily set aside for use in the specific project, 5 years defect liability period etc.

Mahindra Lifespaces' believes that RERA will pave the way for a stronger and robust real estate sector in India by bringing in greater uniformity in the processes followed by developers and removing trust deficit between them and the buyers. The Company is already compliant on many aspects pertaining to RERA and its level of preparedness for adherence continues to be high. It also believes that RERA will throw up opportunities for investments in green field/brown field real estate projects.

As RERA shapes a new way forward for the Real Estate industry, the introduction of Goods and Services Tax (GST) will be a significant structural reform as it will subsume a myriad of indirect taxes, eliminate their cascading impact and harmonise tax rates across the country. The benefits of GST will not be limited to better tax administration and reduction in compliance costs. In the longer run, it is also expected to bring in considerable efficiencies and stimulate demand, resulting in higher economic growth and buoyancy in tax collections.

As far as the real estate sector is concerned, the introduction of GST is expected to bring in multiple benefits: seamless credit on all inputs; streamlining of a complicated web of taxes, authorities and jurisdictions under the current regime; and greater transparency in pricing for the consumers as well as establishing better audit trails and monitoring mechanisms from the point of view of investors.

Real estate is a capital-intensive sector. Mahindra Lifespaces has a strong balance sheet and has been able to raise capital at competitive terms even during challenging times. With its focus on execution, it has been successful in attracting equity participation in both residential and industrial projects, thereby increasing efficiency in the utilisation of its risk capital. As the economic environment improves further, Mahindra Lifespaces believes that it is well-positioned to benefit from the opportunities.

Cautionary Statement

Certain statements in the Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be forward-looking statements within the meaning of applicable securities laws and regulations. Disclaimer

The Company is currently in the process of registering its ongoing projects in the applicable jurisdictions/States under the Real Estate (Regulation and Development) Act, 2016 and wherever the Rules under RERA have been notified by the respective States in which company has projects. Till such time, the projects that are required to be registered under RERA are registered, none of the images, material, projections, details, descriptions and other information that are mentioned in the Annual Report for the year 2016-17, should be deemed to be or constitute advertisements, solicitations, marketing, offer for sale, invitation to offer, or invitation to acquire, including within the purview of the RERA.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PHILOSOPHY

Mahindra Lifespaces is committed to good corporate governance and endeavors to implement the Code of Corporate Governance in its true spirit. The philosophy of the Company in relation to corporate governance is to ensure transparency in all its operations, make disclosures and enhance stakeholder value without compromising in any way on compliance with the laws and regulations. The Company believes that good governance brings about sustained corporate growth and long-term benefits for all its stakeholders.

In India, corporate governance standards for listed companies are regulated by the Securities and Exchange Board of India (SEBI) through Regulation 15(2) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR") and provisions of the Companies Act, 2013 ("the Act"). As a Company which believes in implementing corporate governance practices in letter and in spirit, the Company has adopted practices mandated by the Act and SEBI LODR and has established procedures and systems to remain compliant with it. This report provides the Company's compliance with these provisions as on 31st March, 2017.

3. FAMILIARISATION OF INDEPENDENT DIRECTORS

The details of familiarization program for Independent Directors have been disclosed on website of the Company and is available at the link: http://www.mahindralifespaces.com/investors/disclosures-sebi

4. CODES OF CONDUCT AND POLICIES

The Board of Directors of the Company has laid down two separate Codes of Conduct — one for Directors and another for Senior Management and Employees. It has also adopted Code for Independent Directors as per Schedule IV of the Act.

The Board, at its meeting held on 28th July, 2016, approved and adopted the revised Code of Conduct for Senior Management and Employees. The Code is made more user-friendly and easy to refer on an ongoing basis.

These codes are posted on the Company's website: http://www.mahindralifespaces.com/investors/disclosures-sebi

All Board Members including Independent Directors and Senior Management Personnel have affirmed compliance with the respective Codes of Conduct for the year under review. A declaration signed by Managing Director & Chief Executive Officer to this effect is annexed to this report.

In accordance with the requirement of SEBI LODR, the Company has formulated and adopted policy for determining material subsidiaries, policy on materiality of and dealing with related party transactions, policy for determining materiality for disclosures. These policies are posted on the Company's website at: http://www.mahindralifespaces.com/investors/disclosures-sebi

5. CEO /CFO CERTIFICATION

As required under Regulation 17(8) read with Part B of Schedule II of SEBI LODR, the Managing Director & Chief Executive Officer and the Chief Financial Officer of the Company have certified to the Board regarding the Financial Statements for the year ended on 31st March, 2017.

6. REMUNERATION PAID TO DIRECTORS

Remuneration Policy

The objective of the Remuneration Policy of the Company for Directors and Senior Management is to focus on enhancing the value of the Company by attracting and retaining Directors for achieving objectives of the Company and to place the Company in leading position. The Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under Section 178 of the Act and principles pertaining to qualifications, positive attributes, integrity and independence of Directors, etc.

While reviewing the Company's remuneration policies and deciding on the remuneration for Directors, the Board and the Nomination and Remuneration Committee (NRC) considers the performance of the Company, the current trends in the industry, the qualifications of the appointee(s), their experience, past performance, responsibilities shouldered by them, the Statutory provisions and other relevant factors.

The Non-Executive Chairman and Independent Directors are paid sitting fees and reimbursement of expenses incurred in attending the Board meetings, Committee meetings and meeting of Independent Directors. The Directors have voluntarily waived sitting fees for attending Corporate Social Responsibility Committee meetings. The Board determines the remuneration, if any, of Non-Executive Directors, subject to requisite approvals, if any. At the 16th Annual General Meeting of the Company held on

31st July, 2015, the shareholders had approved the payment of commission, at a rate not exceeding one percent (1 percent) per annum or such percentage as may be specified by the Act from time to time in this regard, of annual net profit of the Company computed in accordance with the provisions of the Act or Rules framed thereunder from time to time, to such Directors of the Company (other than the Managing Director and/or Whole-time Director, Executive Directors and such of the remainder as may not desire to participate) but subject to such ceiling, if any, per annum, as the Board of Directors may from time to time fix in that behalf and the same to be divided amongst them in such manner as the Board may, from time to time, determine for each of the financial years commencing from 1st April, 2015. Accordingly, the Board of Directors at its meeting held on 22nd April, 2017 has approved payment of commission to Directors.

Performance Evaluation

Pursuant to the provisions of the Act and Part D of Schedule II of SEBI LODR, evaluation of every Director's performance was done by Nomination and Remuneration Committee. The performance evaluation of Non-Independent Directors and the Board as a whole, Committees thereof and Chairman of the Company was carried out by the Independent Directors. Evaluation of Independent Directors was carried out by the entire Board of Directors, excluding the Director being evaluated. Structured questionnaires, covering various aspects of the evaluation such as adequacy of the size and composition of the Board and Committees thereof with regard to skill, experience, independence, diversity, attendance and adequacy of time given by the Directors to discharge their duties, Corporate Governance practices, etc. were circulated to the Directors for the evaluation process. The Directors expressed their satisfaction with the evaluation process.

Criteria for making payments to Non-Executive Directors

The Non-Executive Directors shall be entitled to receive remuneration by way of sitting fees, reimbursement of expenses for participation in the Board/Committee meetings and commission as detailed hereunder:

i. A Non-Executive Director shall be entitled to receive sitting fees for each meeting of the Board, Committee of the Board (except Corporate Social Responsibility Committee) and meeting of Independent Directors attended by him of such sum as may be approved by the Board of Directors within the overall limits prescribed under the Act and the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014;

Mahindra Lifespace Developers Limited - Unclaimed

Suspense Account

The unclaimed/undelivered shares lying in the possession of the Company are required to be dematerialized and transferred into a "Unclaimed Suspense Account" held by the Company. The Company had sent three reminder letters to such shareholders whose share certificates returned undelivered and hence remained unclaimed, by requesting them to update correct details viz. postal addresses, PAN details, etc. registered with the Company to avoid transfer of such unclaimed shares to the "Unclaimed Suspense Account." The Company has in March, 2014 transferred 49,854 such unclaimed shares to the "Mahindra Lifespace Developers Limited – Unclaimed Suspense Account". Any corporate benefits in terms of securities accruing on such shares viz. bonus shares, split, etc., are being and will be credited to such Demat Suspense Account. The Suspense Account is held by the Company on behalf of the allottees who are entitled for the shares and the shares held in such Suspense Account shall not be transferred in any manner whatsoever except for the purpose of delivering the shares as and when the shareholders approach the Company. The voting rights on such shares shall remain frozen as long as such shares remain in the Suspense Account. As and when the allottee approaches the Company, the Company credits the shares lying in the Suspense Account to the demat account of the allottee to the extent of the allottee's entitlement, after proper verification of the identity of the allottee.

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF MAHINDRA LIFESPACE DEVELOPERS LIMITED

Report on the Ind AS Financial Statements

1. We have audited the accompanying standalone Ind AS financial statements of MAHINDRA LIFESPACE DEVELOPERS LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March 2017, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act.

3. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

4. Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

5. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

6. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

7. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

8. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

9. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at 31st March, 2017, and its profit and cash flows for the year ended on that date.

Other Matters

10. The comparative financial information of the Company for the year ended March 31, 2016 and the transition date opening balance sheet as at April 1, 2015 prepared in accordance with Ind AS included in these Ind AS financial statements have been audited by us. The report on the comparative financial information and the opening balance sheet, dated June 6, 2016 expressed an unmodified opinion.

Report on other Legal and Regulatory Requirements

11. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure A a statement on the matters specified in the paragraphs 3 and 4 of the Order.

12. **As required by section 143(3) of the Act, we report that:**

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT
of Even Date on the Standalone Financial Statements of Mahindra Lifespace Developers Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Lifespace Developers Limited ("the Company") as of March 31, 2017 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Financial Statements as at and for the year ended 31st March, 2017

1) General Information

Mahindra Lifespace Developers Limited ("The Company") is a limited company incorporated in India. Its parent and ultimate holding company is Mahindra & Mahindra Limited.

The address of its registered office and principal place of business are disclosed in the introduction to the annual report. The Company along with its subsidiary companies is engaged in the development of residential projects and large formats developments such as integrated cities and industrial clusters.

2) Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared in accordance with Ind AS's notified under the Companies (Indian Accounting Standards) Rules, 2015.

Upto the year ended 31st March 2016, the Company prepared its financial statements in accordance with the requirements of previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006.

These are the Company's first Ind AS financial statements. The date of transition to Ind AS is 1st April 2015. Refer note 2.19 for the details of first-time adoption exemptions availed by the Company.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability, if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/ or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

2.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.4.1 Income from projects

Income from real estate sales is recognised on the transfer of all significant risks and rewards of ownership to the buyers and it is not unreasonable to expect ultimate collection and no significant uncertainty exists regarding the amount of consideration. However if, at the time of transfer substantial acts are yet to be performed under the contract, revenue is recognised on proportionate basis as the acts are performed, i.e. on the percentage of completion basis.

When the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the balance sheet under trade receivables, whereas amount not billed for work performed are included as unbilled revenue under other current assets.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when

i. All critical approvals necessary for commencement of the project have been obtained and

ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost) and

iii. when at least 10% of the sales consideration is realised and

iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

2.4.2 Income from sale of land and other rights

Revenue from sale of land and other rights are considered upon transfer of all significant risks and rewards of ownership of such real estate/property as per the terms of the contract entered into with the buyers, which generally with the firmity of the sale contracts/agreements.

2.4.3 Income from Project Management

Project Management Fees receivable on fixed period contracts is accounted over the tenure of the contract/agreement. Where the fee is linked to the input costs, revenue is recognised as a proportion of the work completed based on progress claims submitted. Where the management fee is linked to the revenue generation from the project, revenue is recognised on the percentage of completion basis.

2.4.4 Dividend and interest income

Dividend income from investment in mutual funds is recognised when the unit holder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.5 Foreign currencies

In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings; and
- exchange differences on transactions entered into in order to hedge certain foreign currency risks (see note 2.18 below for hedging accounting policies)

2.6 Borrowing costs

Borrowing costs that are directly attributable to long-term project management and development activities are capitalised as part of project cost. Other borrowing costs are recognised as expense in the period in which they are incurred.

Borrowing costs are capitalised as part of project cost when the activities that are necessary to prepare the asset for its intended use or sale are in progress. Borrowing costs are suspended from capitalisation on the project when development work on the project is interrupted for extended periods.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.7 Share-based payment transaction of the Company

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in note 26.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

Equity-settled share-based payment transactions with parties other than employees are measured at the fair value of the goods or services received, except where that fair value cannot be estimated reliably, in which case they are measured at the fair value of the equity instruments granted, measured at the date the entity obtains the goods or the counterparty renders the service.

For cash-settled share-based payments, a liability is recognised for the goods or services acquired, measured initially at the fair value of the liability. At the end of each reporting period until the liability is settled, and at the date of settlement, the fair value of the liability is remeasured, with any changes in fair value recognised in profit or loss for the year.

2.8 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.8.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.8.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.8.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.9 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation on tangible fixed assets has been provided on pro-rata basis, on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except for certain assets as indicated below:

Lease hold improvements are amortised over the period of lease/ estimated period of lease.

Plant & Machinery includes Plant and Machinery used in civil construction – Others and amortised over a period of 5 years.

Vehicles used by employees are depreciated over the period of 48 months considering this period as the useful life of the vehicle for the Company.

Sales office and the sample flat/ show unit cost at site is amortised over 5 years or the duration of the project (as estimated by management) whichever is lower.

Fixed Assets held for disposal are valued at estimated net realizable value.

2.10 Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

2.11 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.12 Inventories

Inventories are stated at lower of cost and net realisable value. The cost of construction material is determined on the basis of weighted average method. Construction Work-in-Progress includes cost of land, premium for development rights, construction costs and allocated interest & manpower costs and expenses incidental to the projects undertaken by the Company.

2.13 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.13.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.14 Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.15 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

2.15.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for fair value through other comprehensive income (FVTOCI) debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

2.15.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

2.15.3 Investments in equity instruments at fair value through other comprehensive income (FVTOCI)

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

2.15.4 Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

2.15.5 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information and also other factors like the underlying collateral security resulting in ultimate exposure which may lead to credit loss, if any.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.15.6 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

2.15.7 Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.
- For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

2.16 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.16.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.16.2 Compound financial instruments

The component parts of compound financial instruments (convertible notes) issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recognised as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound financial instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. When the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to retained earnings. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the lives of the convertible notes using the effective interest method.

2.16.2.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

2.16.2.2 Financial liabilities at Fair value through profit and loss (FVTPL)

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies, may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a Company of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognised in profit or loss. The remaining amount of change in the fair value of liability is always recognised in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the Company that are designated by the Company as at fair value through profit or loss are recognised in profit or loss.

2.16.2.3 Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

2.16.2.4 Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and

- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

2.16.2.5 Commitments to provide a loan at a below-market interest rate

Commitments to provide a loan at a below-market interest rate are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

2.16.2.6 Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in 'Other income'.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in profit or loss.

2.16.2.7 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.17 First-time adoption – mandatory exceptions and optional exemptions

2.17.1 Overall principle

The Company has prepared the opening balance sheet as per Ind AS as of 1st April, 2015 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to the certain exception and certain optional exemptions availed by the Company as detailed below.

2.17.2 Derecognition of financial assets and financial liabilities

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after 1st April, 2015 (the transition date).

2.17.3 Classification of debt instruments

The Company has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTOCI criteria based on the facts and circumstances that existed as of the transition date.

2.17.4 Impairment of financial assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

2.17.5 Assessment of embedded derivatives

The Company has assessed whether an embedded derivative is required to be separated from the host contract and accounted for as a derivative on the basis of the conditions that existed at the later of the date it first became a party to the contract and the date when there has been a change in the terms of the contract that significantly modifies the cash flows that otherwise would be required under the contract.

2.17.6 Deemed cost for property, plant and equipment, investment property, and intangible assets

The Company has not elected the exemption of previous GAAP carrying value of all its Property, Plant and Equipment, Investment Property, and Intangible Assets recognised as of 1st April 2015 (transition date) as deemed cost.

2.17.7 Determining whether an arrangement contains a lease

The Company has applied Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

3) Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the significant effect on the amounts recognised in the financial statements:

Taxes

Deferred tax assets are recognised for unused tax losses and other temporary differences leading to deferred tax assets to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Fair value disclosure on Company's investment properties

The Company's investment properties consist of two commercial properties in India, Mahindra Towers at Gurgaon and GE Plaza at Pune. Management determined that the investment properties consist of two classes of assets – office and retail – based on the nature, characteristics and risks of each property.

As at 31st March 2017 and 31st March 2016, the fair values of the Mahindra Tower, Delhi have been arrived at on the basis of a valuation carried out as on the respective dates by Gandhi & Associates, independent valuer not related to the Group. Gandhi & Associates are registered with the authority which governs the valuers in India and they have appropriate qualifications and experience in the valuation of properties in the relevant locations. The Fair value was determined using the market comparable approach based on recent market prices without any significant adjustments being made to the market observable data.

As at 31st March 2017 and 31st March 2016, the fair values of the GE Plaza, Pune have been arrived at on the basis of a valuation carried out as on the respective dates by Dixit Valuers & Engineers, independent valuer not related to the Group. Dixit Valuers & Engineers are registered with the authority which governs the valuers in India and they have appropriate qualifications and experience in the valuation of properties in the relevant locations. The Fair value was determined using the market comparable approach based on recent market prices without any significant adjustments being made to the market observable data.

Details of the Company investment's properties and information about the fair value hierarchy as at 31st March 2017, 31st March 2016 and 1st April 2015 are as follows:

The Company's investment in the equity shares of New Tirpur Area Development Corporation Limited ("NTADCL") aggregates ` 1,550.63 lakh comprising ` 50.63 lakh invested directly by the Company and ` 1,500 lakh by its wholly owned subsidiary Mahindra Infrastructure Developers Limited ("MIDL"). Other than the investment in NTADCL, MIDL has no other operations. The net worth of NTADCL and MIDL is substantially eroded.

NTADCL was exploring the option of supplying industrial water to a textile park proposed to be set up by the state government of Karnataka which would have contributed substantially to its revenues. Consequent, to the finalization of the financial statements for the year ended 31st March, 2014 it was expected that there were likely to be delays in setting up the same and the probability of the whole project being set up was significantly lower as compared to the previous year. As a result, MIDL during the year ended 31st March, 2015 had made a provision for diminution of its investment in NTADCL of ` 1,500 lakh. The Company has also made a provision for diminution of its investment in MIDL of ` 1,800 lakh and ` 50.63 lakh of its investment in NTADCL in year ending 31st March, 2015.

* During the year ended 31st March 2015, Other Loans and advances included project advances of ` 10,000 lakh pending for over 3 years relating to a project whose commencement had been delayed due to non-performance with respect to the agreed condition precedents by Vendors. The Company had taken legal action against the vendors to protect the interest of the Company where in the H'ble High Court at Mumbai had given order restraining the vendors from creating any third party rights in respect of the suit property or part with possession thereof.

* During the previous year ended 31st March, 2016, the company had received an award in terms of the consent terms filed by the Company and the Vendors before the H'ble Arbitral Tribunal and the Company had acquired the property. The Company had planned to undertake the redevelopment of the property on completion of all obligation by the Vendors. Consequently the amount of ` 10,000 lakh was transferred to Construction Work in Progress in the previous year ended 31st March, 2016.

* With the approval of the shareholders received at the 17th Annual General Meeting held on 28th July, 2016, the Company has on 27th March, 2017 sold the property in its inventory, situated at South Mumbai for a total consideration upto ` 23,721.00 lakh to a related party. The Company has received conveyance consideration of ` 17,671.00 lakh. As per the terms of settlement between the Company and the erstwhile landowners, upon completion of certain obligations by them, the Company shall pay an amount upto ` 6,050.00 lakh to the erstwhile landowners and the same shall be paid by the related party to the Company as balance consideration. The matter of determination of the factum of completion of the obligations by the erstwhile landowners is presently pending before the Hon'ble Arbitrator. The profit booked from this sale transaction will not be affected by the outcome of such arbitration.

\# The Company had entered into an agreement to acquire a parcel of land near Thane, Maharashtra, at a consideration of ` 2,000.00 lakh. While full consideration was paid, the land was not conveyed pending completion of certain formalities. The amount currently standing in the books as a current asset is ` 2,879.00 lakh. During the period, Tahsildar (Thane) has issued an order against the registered owner alleging non-adherence of certain conditions pertaining to Bombay Tenancy and Agricultural Lands Act, 1948 and changed the land records to reflect Government of Maharashtra as the holder of the land. The Company has been legally advised that the said order and the demand thereunder is grossly erroneous and not tenable.

* Construction Work in Progress represents materials at site and unbilled costs on the projects. Based on projections and estimates by the Company of the expected revenues and costs to completion, provision for losses to completion and/ or write off of costs carried to inventory are made on projects where the expected revenues are lower than the estimated costs to completion. In the opinion of the management, the net realisable value of the construction work in progress will not be lower than the costs so included therein.

\# The Company had during the year ending 31st March 2015 entered into mutually agreed consent terms with a land-owner in respect of the project, commencement of which had been delayed and in accordance with the consent terms, the Company during the year ending 31st March, 2015 completed the sale of land in relation thereto. Accordingly, the provision for losses to project completion for ` 1,023.00 lakh in respect was no longer required and reversed during the year ending 31st March 2015. Further, revenue from operations for the year ended 31st March 2015 includes ` 25,263 lakh on sale thereof, net of the advances given and interest thereon. Operating expenses included in the year ended 31st March, 2015 ` 2,263 lakh of costs incurred in relation thereto. Other income included in the year ending 31st March 2015 was ` 1,550 lakh pertaining to write back of the provision for the interest on the aforesaid advance no longer required.

Consequent to the above, construction work-in-progress of ` 765.87 lakh and short term loans and advances and interest accrued on project advances included in other current assets of ` 4,205.26 lakh and ` 2,174.98 lakh, respectively, at 31st March 2014 have been realized during the year ending 31st March 2015.

The cost of inventories recognised as an expense during the year in respect of continuing operations was ` 52,343.58 lakh (Previous year ending 31st March, 2016: ` 32,754.97 lakh)

Defect Liability Provisions:

Provision for defect liability represents present value of management's best estimate of the future outflow of economic resources that will be required for rectification of defects, if any, in respect of residential units sold or given under perpetual lease. Management estimates the related provision for future defect liability claims based on historical cost of rectifications and is adjusted regularly to reflect new information. The residential units are generally covered under the defect liability period limited to 1 - 3 years from the date of handover of residential units. It is estimated that most of these costs are likely to be incurred within two years after the reporting date.

Earnings per share from continuing operations - Basic (`)	**11.92**	19.08

Diluted earnings per share

The diluted earnings per share has been computed by dividing the Net profit after tax available for Equity shareholders by the weighted average number of equity shares, after giving dilutive effect of the outstanding Warrants, Stock options and Convertible bonds for the respective periods. Since, the effect of the conversion of Preference shares was anti-dilutive, it has been ignored.

	For the year ended 31st March 2017	For the year ended 31st March, 2016
Profit/(loss) for the year used in the calculation of basic earnings per share	**4,893.65**	7,828.05

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk . In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

CREDIT RISK

(i) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from cash and cash equivalents, investments carried at amortised cost, deposits with banks and financial institutions as well as credit exposures to customers including outstanding receivables.

Trade Receivables:

The Companys trade receivables include receivables on sale of residential flats and rent receivable. As per the Company's flat handover policy, a flat is handed over to a customer only upon payment of entire amount of consideration. The rent receivables are secured by security deposits obtained under the lease agreement. Thus, the Company is not exposed to any credit risk on receivables from sale of residential flats and rent receivables.

Balances with Banks, mutual funds and other financial assets:

For banks and financial institutions, only high rated banks/institutions are accepted. The Company holds cash and cash equivalents with bank and financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its cash and cash equivalents have low credit risk based on external credit ratings of the counterparties.

Disclose - Amount of maximum Exposure to Credit Risk of Each/Company of financial asset where impairment as per Ind AS 109 is not applied.

The Company holds mutual funds with financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its mutual funds have low credit risk based on external credit ratings of the counterparties.

For other financial assets, the Company assesses and manages credit risk based on reasonable and supportive forward looking information. The Company does not have significant credit risk exposure for these items.

LIQUIDITY RISK

(i) Liquidity risk management

The Company established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

Currency Risk

Foreign currency risk is the risk that the fair value or the future cash flows of an exposure will fluctuate because of changes in the foreign exchange rate. The Company undertakes transactions denominated in foreign currencies only for the purchases of the components which are required to carry out the construction activities. The Company manages its foreign currency risk by forward contracts that are expected to occur within a maximum 12 month from the entering of a contract.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and floating rate loans and borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Currency	Increase/ decrease in basis points	Effect on profit before tax
31-Mar-17	**INR**	**+100**	**(7.61)**

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption		Changes in assumption	Impact on defined benefit obligation – Increase in assumption	Impact on defined benefit obligation – Decrease in assumption
Discount rate	**2017**	**1.00%**	**225.44**	**305.72**
	2016	1.00%	234.04	318.32
	2015	1.00%	256.08	309.00
Salary growth rate	**2017**	**1.00%**	**291.80**	**234.25**
	2016	1.00%	300.82	244.43
	2015	1.00%	299.39	262.95

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The Company expects to contribute ` 4.23 lakh to the gratuity trusts during the next financial year of 2018.

Maturity profile of defined benefit obligation:

	2017	2016	2015
Within 1 year	**4.23**	5.59	158.88
1 - 2 year	**19.23**	9.27	39.86
2 - 3 year	**19.93**	23.48	58.92

ANNEXURE I TO THE DIRECTORS' REPORT

POLICY ON APPOINTMENT/REMOVAL OF DIRECTORS AND SENIOR MANAGEMENT PERSONNEL

I. APPOINTMENT OF DIRECTORS

- The Nomination and Remuneration Committee (NRC) of the Board of Directors (Board) of the Company reviews and assesses Board composition and recommends the appointment of new Directors. In evaluating the suitability of individual Board member, the NRC shall take into account the following criteria regarding qualifications, positive attributes and also independence of director when Independent Director is to be appointed:

    1. All Board appointments will be based on merit, in the context of the skills, experience, diversity, and knowledge, for the Board as a whole to be effective.

    2. Ability of the candidates to devote sufficient time and attention to his/her professional obligations as Director for informed and balanced decision making.

    3. Adherence to the applicable Code of Conduct and highest level of Corporate Governance in letter and in sprit by the Directors.

- Based on recommendation of the NRC, the Board will evaluate the candidate(s) and decide on the selection of the appropriate member. The Board through the Chairman or Director will interact with the new member to obtain his/her consent for joining the Board. Upon receipt of the consent, the new Director will be co-opted by the Board in accordance with the applicable provisions of the Companies Act, 2013 and Rules made thereunder.

REMOVAL OF DIRECTORS

If a Director is attracted with any disqualification as mentioned in any of the applicable Act, Rules and Regulations thereunder or due to non-adherence to the applicable policies of the Company, the NRC may recommend to the Board with reasons recorded in writing, removal of a Director subject to the compliance of the applicable statutory provisions.

SENIOR MANAGEMENT PERSONNEL

The NRC shall identify persons based on merit, experience and knowledge who may be appointed in senior management team.

Senior Management personnel are appointed or promoted and removed/relieved with the authority of Managing Director & CEO based on the business need and the suitability of the candidate. The details of the appointment made and the personnel removed one level below the Key Managerial Personnel during a quarter shall be presented to the Board.

POLICY ON THE REMUNERATION OF THE DIRECTORS, KEY MANAGERIAL PERSONNEL AND OTHER EMPLOYEES

a. Policy for Remuneration of the Directors

Purpose

This Policy sets out the approach to Compensation of Directors in Mahindra Infrastructure Developers Limited.

Policy Statement

We have a well-defined Compensation policy for Directors including the Chairman of the Company. The overall compensation philosophy which guides us is that in order to achieve global leadership and dominance in domestic markets, we need to attract and retain high performers by compensating them at levels that are broadly comparable with the median of the comparator basket while differentiating people on the basis of performance, potential and criticality for achieving competitive advantage in the business.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

NON-EXECUTIVE INCLUDING INDEPENDENT DIRECTORS:

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both fixed and variable, to the Non-Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act 2013 and such other factors as the NRC may consider deem fit for determining the compensation. The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

Executive Directors:

The remuneration to Executive Director(s) shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of their appointment, the variable compensation will be determined annually/half yearly by the NRC based on their performance.

The remuneration involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

The Company may also grant Stock Options to the Directors (other than Independent Directors and Promoter) in accordance with the ESOP Scheme of the Company, if any, and subject to the compliance of the applicable statutes and regulations.

b. Policy on Remuneration of Key Managerial Personnel and Employees

This Policy shall be effective from the financial year 2014-15.

Objective

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

Standards

– All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.

– Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.

– The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July i.e. after the salary increment exercise.

– The variable component of the remuneration will be a function of the employee's grade.

– The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.

– An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive. Based on the findings of the survey and the business performance, the Sector Talent Council decides:

  a) The increment that needs to be paid for different performance ratings as well as grades.

  b) The increment for promotions and the total maximum increment.

  c) The maximum increase in compensation cost in % and absolute.

– Compensation corrections are made in a few cases where it is outside the band or to keep it tune with the market.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
MAHINDRA INFRASTRUCTURE DEVELOPERS LIMITED

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Mahindra Infrastructure Developers Limited** ("the Company"), which comprise the Balance Sheet as at 31 March, 2017, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March, 2017, and its loss, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, we report, to the extent applicable that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March, 2017 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position.

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

   iv. The Company did not have any holdings or dealings in Specified Bank Notes as defined in the Notification S.O. 3407(E) dated the 8 November, 2016 of the Ministry of Finance, during the period from 8 November, 2016 to 30th December, 2016.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MAHINDRA INFRASTRUCTURE DEVELOPERS LIMITED

[Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Infrastructure Developers Limited ("the Company") as of 31 March, 2017 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF MAHINDRA INFRASTRUCTURE DEVELOPERS LIMITED

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of the fixed assets.

(b) The Company has a program of verification of fixed assets once in every three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. The last physical verification was carried out in March, 2015, accordingly no physical verification of fixed assets was carried out by the Management during the year.

(c) According to the information and explanations given to us and the records examined by us, we report that the building has been constructed by the Company on the leasehold land pursuant to the lease agreement dated 17 January, 2003 between Tirumala Tirupati Devasthanams and the Company, where the Company is the lessee in the agreement, however the book value of the building as at 31 March, 2017 is Rs. Nil, refer Note 26 to the Ind AS financial statements.

(ii) As expalined to us, the inventories were not physically verified during the year. The write-down of the inventory was made in the previous year and inventory is valued at Rs. Nil.

(iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013 ("the Act").

(iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 186 of the Companies Act, 2013 in respect of investments made. The Company has not granted any loans or provided guarantees and security under Sections 185 and 186 of the Act.

(v) According to the information and explanations given to us, the Company has not accepted any deposit during the year.

(vi) Having regard to the nature of the Company's business / activities, reporting under clause (vi) the Order relating to the maintenance of cost records of is not applicable.

(vii) According to the information and explanations given to us in respect of statutory dues:

(a) The Company has generally been regular in depositing undisputed statutory dues, including Income-tax, Service Tax, Cess and other material statutory dues applicable to it to the appropriate authorities.

(b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service Tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues in arrears as at 31 March, 2017 for a period of more than six months from the date they became payable.

(c) According to the records of the Company, there are no dues of Income-tax, Sales Tax, Service Tax, Duty of Customs, Duty of Excise, Value Added Tax which have not been deposited as at 31 March, 2017 on account of any dispute.

(viii) The Company has not taken any loans or borrowings from financial institutions, banks and Government or has not issued any debentures. Hence reporting under clause (viii) of the Order is not applicable to the Company.

(ix) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) or term loans and hence reporting under clause (ix) of the Order is not applicable.

(x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) According to the information and explanations given to us, there is no amount payable as a managerial remuneration under the provisions of Section 197 read with Schedule V to the Act.

(xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the CARO 2016 Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, the Company is in compliance with Sections 188 and 177 of the Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the Ind AS financial statements etc., as required by the applicable accounting standards.

(xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause (xiv) of the Order is not applicable to the Company.

(xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with him and hence provisions of Section 192 of the Act are not applicable.

(xvi) The Company is not required to be registered under Section 45-I of the Reserve Bank of India Act, 1934.

NOTES FORMING PART OF THE FINANCIAL STATEMENT S FOR THE YEAR ENDED 31ST MARCH, 2017

1. Corporate information

Mahindra Infrastructure Developers Limited ("the Company") is a public company incorporated in India on 10th May, 2001 under the provisions of erstwhile Companies Act, 1956. The registered office of the Company is located at 5th Floor, Mahindra Towers, Dr. G. M. Bhosale Marg, P. K. Kurne Chowk, Worli, Mumbai – 400 018.

The Company is in the business of development of infrastructure projects and infrastructure related services.

The Company is subsidiary of Mahindra Lifespace Developers Limited, Mumbai, a company incorporated in India. The ultimate parent company is Mahindra & Mahindra Limited.

2. Significant Accounting Policies

2.1 Statement of compliance and Basis of preparation and presentation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Rules, 2016. For all periods upto and including the financial year ended 31st March, 2016, the Company prepared its financial statements in accordance with accounting standards notified under the Section 133 of the Companies Act, 2013 (Previous GAAP) which includes standards notified under the Companies (Accounting Standards) Rules, 2006. These financial statements for the year ended 31st March, 2017 are the Company's first Ind AS financial statements. The date of transition to Ind AS is 1st April, 2015. Refer to Note No. 4 for information on how the Company adopted Ind AS.

All assets and liabilities are classified as current if it is expected to realise or settle within 12 months after the Balance Sheet date.

The financial statements are presented in Indian Rupees (`) which is also the Company's functional currency.

The financial statements were approved by the Board of Directors and authorised for issue on 20nd April, 2017.

2.2 Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use. The estimated useful lives, residual values, are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the statement of profit and loss.

Depreciation on assets (other than impaired assets) is calculated on straight line method at the rate of 11.31% p.a. which is based on useful life of about 9 years determined on the basis of technical evaluation by the Management of the Company and is different from the useful life of 15 years indicated in part C of schedule II to the Companies Act, 2013.

2.3 Impairment of assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement profit and loss.

2.4 Inventories

Inventories are stated at the lower of cost and net realisable value, whichever is lower. Cost is arrived at on first-in-first-out basis and includes overheads on absorption basis, where appropriate.

Financial assets and Liabilities

2.5 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Statement of profit or loss.

2.6 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

2.6.1 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets. With respect to trade receivables, the Company measures the loss allowances at an amount equal to lifetime expected credit losses.

2.6.2 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in the statement of profit and loss if such gain or loss would have otherwise been recognised in the statement of profit and loss on disposal of that financial asset.

2.7 Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.7.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in the statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.7.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at Fair value through profit and loss.

2.7.1.2 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between the lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

2.8 Revenue recognition

Revenue on account of sale of services is recognised under the completed service contract method to the extent it is probable that the economic benefit will flow to the Company and the revenue can be reliably measured.

Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers.

Dividend income is recognised in the statement of profit and loss when the right to receive payment is established.

Interest Income is accounted for on time proportion basis.

2.9 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.9.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.9.2 Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.9.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.9.4 Minimum Alternate Tax (MAT):

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax against which the MAT paid will be adjusted.

2.10 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.11 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit/(loss) for the year is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3. Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses, etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

4. First-time adoption – mandatory exceptions and optional exemptions

Mandatory exceptions:

Accounting Estimates

The Company's estimates in accordance with Ind AS at the date of transition are consistent with previous GAAP (after adjustments to reflect any difference in accounting policies) or are required under Ind AS but not under previous GAAP.

Derecognition of financial assets and financial liabilities

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after 1st April 2015 (the transition date).

NOTES FORMING PART OF THE FINANCIAL STATEMENT S FOR THE YEAR ENDED 31ST MARCH, 2017

Classification of debt instruments

The Company has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTOCI criteria based on the facts and circumstances that existed as of the transition date.

Impairment of financial assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

Optional exemptions:

Deemed cost for property, plant and equipment

The Company has not elected the exemption of previous GAAP carrying value of all its Property, Plant and Equipment and Intangible Assets recognised as of 1st April, 2015 (transition date) as deemed cost. Consequently, cost in respect of property, plant and equipment has been retrospectively remeasured in accordance with Ind AS.

Deemed cost for Investments in subsidiary, joint ventures and associates

The company has elected the exemption of previous GAAP carrying amount of its investments in subsidiary, joint ventures and associates as of 1st April, 2015 (transition date) considering as deemed cost.
