ANNEXURE 4

POLICY FOR REMUNERATION OF THE DIRECTORS

PURPOSE

This Policy sets out the approach to Compensation of Directors in Mahindra Lifespace Developers Limited.

POLICY STATEMENT

We have a well-defined Compensation policy for Directors, including the Chairman of the Company. The overall compensation philosophy guides us to focus on enhancing the value of the Company by attracting and retaining Directors for achieving objectives of the Company.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

NON-EXECUTIVE INCLUDING INDEPENDENT DIRECTORS:

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both Fixed and variable, to the Non-Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act, 2013 and Part D of Schedule II of the SEBI LODR with Stock Exchanges and such other factors as the NRC may consider deem fit for determining the compensation. The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

MANAGING DIRECTOR & CHIEF EXECUTIVE OFFICER (MD & CEO) AND EXECUTIVE DIRECTORS

Remuneration of the MD & CEO and Executive Directors reflects the overall remuneration philosophy and guiding principle of the Company. While considering the appointment and remuneration of Managing Director and Executive Directors, the NRC shall consider the industry benchmarks, merit and seniority of the person and shall ensure that the remuneration proposed to be paid is commensurate with the remuneration packages paid to similar senior level counterpart(s) in other companies. The policy aims at a balance between fixed and variable pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

The remuneration to the MD & CEO shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as per the policy of the Company from time to time and as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of appointment which is also subject to annual review based on performance and responsibilities and the variable compensation will be determined annually by the NRC based on the performance of MD & CEO.

The term of office and remuneration of MD & CEO is subject to the approval of the Board of Directors, shareholders, and Central Government, as may be required and within the statutory limits laid down in this regard from time to time.

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay, subject to the requisite approvals, remuneration to its MD & CEO in accordance with the provisions of Schedule V of the Companies Act, 2013.

If a MD & CEO draws or receives, directly or indirectly by way of remuneration any such sum in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he / she shall refund such sum to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration for MD & CEO is designed subject to the limits laid down under the Companies Act, 2013 to remunerate him / her fairly and responsibly. The remuneration to the MD & CEO comprises of salary, perquisites and benefits as per policy of the Company and performance based incentive apart from retirement benefits like P.F., Superannuation, Gratuity, Leave Encashment, etc. as per Rules of the Company. Salary is paid within the range approved by the Shareholders. Increments are effective annually, as recommended / approved by the Nomination and Remuneration Committee / Board. The MD & CEO is entitled for grant of Stock Options as per the approved Stock Options Schemes of the Company from time to time.

DIRECTORS

The Managing Director & Chief Executive Officer is an executive of the Company and draws remuneration from the Company. The Non-Executive Chairman and Independent Directors receive sitting fees for attending the meeting of the Board and the Committees thereof and meeting of Independent Directors, as fixed by the Board of Directors from time to time subject to statutory provisions. The Non-Executive Chairman and Independent Directors would be entitled to the remuneration under the Companies Act, 2013. A Non-Executive Non-Independent Director who receives remuneration from the holding company or any other group company is not paid any sitting fees or any remuneration. In addition to the above, the Directors are entitled for reimbursement of expenses incurred in discharge of their duties.

The Company may also grant Stock Options to the eligible employees and Directors (other than Independent Directors) in accordance with the ESOP Schemes of the Company from time to time and subject to the compliance of the applicable statutes and regulations.

DISCLOSURES

Information on the total remuneration of members of the Company's Board of Directors, Managing Director and Executive Directors and KMP/senior management personnel may be disclosed in the Board's report and the Company's annual report / website as per statutory requirements in this regard.

ANNEXURE 5

Policy on Remuneration of Key Managerial Personnel and Employees

OBJECTIVE

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

STANDARDS

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July i.e. after the salary increment exercise.
- The variable component of the remuneration will vary from 10% to 25% of the Cost-to-Company (CTC) and will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both BSC and KRA are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive and is around 60th percentile. Based on the findings of the survey and the business performance, the Sector Talent Council decides:

  a. The increment that needs to be paid for different performance ratings as well as grades;

  b. The increment for promotions and the total maximum increment;

  c. The maximum increase in compensation cost in % and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep it tune with the market.

MANAGEMENT DISCUSSION AND ANALYSIS

Mahindra Lifespace Developers Limited ('Mahindra Lifespaces', 'MLDL' or 'the Company') is one of the leading real estate development companies in India. Over the years, the Company has created a reputation for itself by delivering an array of highly successful projects and establishing industry benchmarks in sustainable development.

Mahindra Lifespaces, along with its subsidiary companies, joint ventures (JVs) and associates, is engaged in the development of residential projects in the mid-premium and affordable housing segments, and integrated cities and industrial clusters. This chapter presents an overview of the performance of the Company during 2017-18 and its strategy for future growth.

Performance Highlights

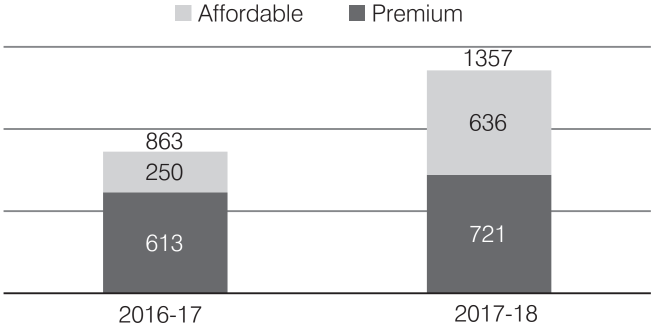
2017-18 was a significant year for the real estate industry from a regulatory standpoint with the establishment of state authorities and rules under the Real Estate (Regulation and Development) Act (RERA) and the implementation of Goods and Services Tax Act (GST).

These policy initiatives are aimed at making the sector more efficient and organised, as well as in increasing customer confidence through greater transparency and protection for home buyers. Despite the uncertainty and ambiguity in the short-term, Mahindra Lifespaces, with its transparent policies and preparedness, has smoothly transitioned to the new policy regime — which reflects through its credible performance across business segments during the year.

Strong Sales Performance in Residential

The Company sold[1] 1,357 residential units aggregating to 1.16 million square feet of saleable area in 2017-18 compared to 863 units aggregating to 0.91 million square feet in the previous year. As shown in Chart A, this improvement in sales performance was driven by a successful launch of its third affordable housing project – Happinest, Palghar in the Mumbai Metropolitan Region (MMR) and improved sales performance in its ongoing projects across the mid-premium and affordable housing segments. The Company recorded a 57 percent growth in sales volume and a 27 percent growth in area sold vis-a-vis the previous year.

Chart A: Sales (Units): Premium and Affordable Segments

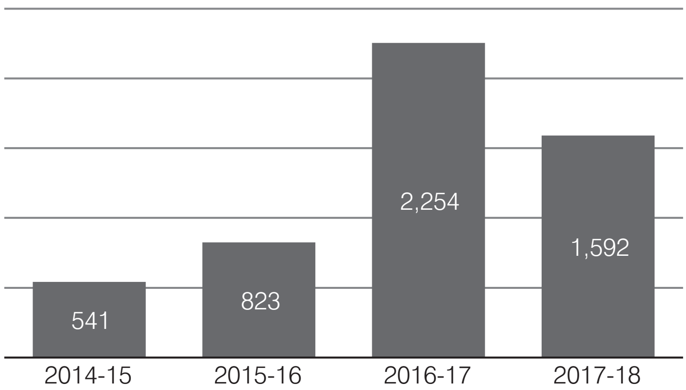


The planned launch of three new projects in the premium segment[2] had to be deferred due to high court orders banning new construction in Mumbai[3]. In addition, the launch of two projects, one each at Pune and Chennai were delayed pending approvals. The Company launched new phases in five of its existing projects – Windchimes (Bangalore), Antheia (Pune), Bloomdale (Nagpur), Happinest Avadi (Chennai) and Happinest Boisar (MMR). Sales in ongoing projects remained strong during the year with consistent efforts in the area of customer acquisition. These are discussed in greater detail in the section on 'Strategic Priorities'.

Continued Focus on Execution

The Company's focus on execution was strongly reflected through the handover of 1,592 units to customers during 2017-18 — taking the total number of units handed over in the last two years to over 3,800. This marked a significant uptick from the achievement in previous years, which can be seen in Chart B.

Chart B: Number of Units Handed Over



The Company continues to focus on reduction in cycle time of its projects. This is especially critical in the affordable housing segment, where construction efficiencies are critical to a positive project profitability and returns. **The Company's affordable housing projects in Avadi and Boisar have seen a handover of around 1,155 units to customers since the commencement of construction in 2014-15.**

Improvements in the pace of project execution and handovers have been a result of the Company's capabilities in scalable processes, customer relations and its focus on quality and safety. These have been discussed in greater detail in the respective sections of this report.

Significant Contribution from World Cities

The integrated cities and industrial clusters recorded **62 acres of land leases during the year, compared to 74 acres in the previous year. The two operational World Cities at Jaipur and Chennai contributed significantly to the Company's profits in 2017-18.** Mahindra World City (MWC) Jaipur, which improved its inventory mix during the previous year with the launch of its second DTA, has further enhanced its ability to reach a wider customer base with the amalgamation approval for its sector specific SEZs into a Multi-Product SEZ towards the end of 2017-18, that was followed by the final notification in April 2018.

[1] Sales includes the Company's share, partners' share in joint developments and sales by its subsidiaries and JVs. Sales includes commercial/retail units that are a part of its residential projects.

[2] The premium segment includes all residential projects of the Company, barring the three affordable housing projects in Avadi, Boisar and Palghar marketed as Happinest.

[3] The Bombay High Court placed restrictions on: (a) granting permissions for new construction due to solid waste management issue in Mumbai, and (b) granting building height approvals in the funnel area of the airport in Mumbai. These restrictions have affected upcoming projects of all developers, including Mahindra Lifespaces.

During the year, the Company launched its industrial clusters brand – 'ORIGINS by Mahindra World City'. The first two clusters, located near Chennai and Ahmedabad, are in various stages of planning and development. These smaller industrial clusters will have a relatively shorter project lifecycle than the existing large-format integrated cities in Chennai and Jaipur. Further details on the product offering are presented in the section on 'Opportunities and Strategy'; and details of the development activity in the first two clusters are discussed in 'Operations'.

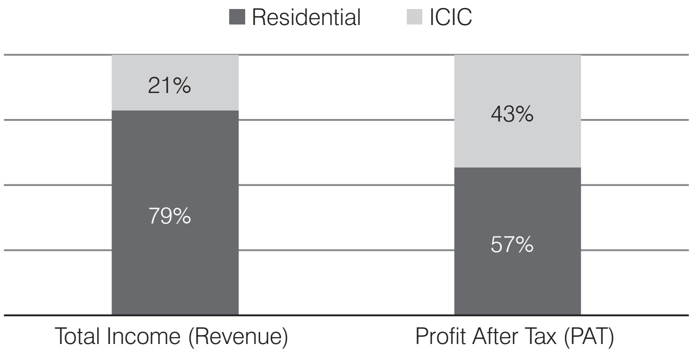
Creditable Financial Performance

2017-18 was a difficult year for the real estate industry due to a challenging macroeconomic and regulatory environment. In addition, the Company had to defer its planned launches due to regulatory issues. Despite these headwinds, Mahindra Lifespaces registered a creditable performance.

- Consolidated[4] revenue reduced from ₹ 831 crore in 2016-17 to ₹ 644 crore in 2017-18; however, operating profits (PBDIT) increased by 13.6 percent from ₹ 119 crore in 2016-17 to ₹ 135 crore in 2017-18. Operating margins improved from 14.3 percent in 2016-17 to 21 percent in 2017-18.
- Profit after taxes (PAT) of the standalone entity increased by 8.5 percent from ₹ 48.9 crore in 2016-17 to ₹ 53.1 crore in 2017-18. Consolidated profit after taxes (PAT) after non-controlling interest (NCI), stood at ₹ 101 crore in 2017-18 compared to ₹ 102 crore in 2016-17.
- Diluted EPS was ₹ 19.88 for the consolidated entity.

The indicative share of operating entities[5] engaged in the Residential and Integrated Cities & Industrial Clusters (ICIC) businesses in the revenues and profits of 2017-18 is provided in Chart C. Further, details of financial performance of all operating entities are provided in the 'Financials' section.

Chart C: Share of Businesses in Revenue & Profit



In the remainder of the report, we will present the operational and financial performance of the Company, followed by a discussion on risks and concerns and conclude with future outlook. We begin with an overview of the opportunities in the current environment, and the Company's growth strategy.

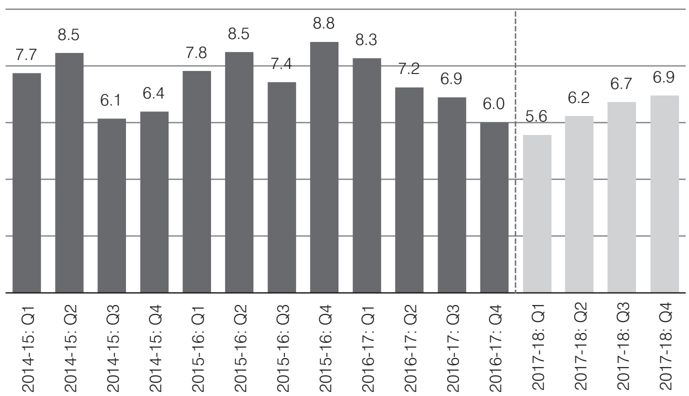
Opportunities and Growth Strategy

Turnaround in global economic performance that started in mid-2016 gathered momentum, became stronger and more broad-based in 2017. **According to the IMF, global growth is projected to increase from 3.2 percent in 2016 to 3.8 percent in 2017 — the steepest since 2011.** Growth in emerging markets and developing economies is likely to firm up, along with a modest turnaround for commodity exporters. With advanced economies continuing to perform well and being host to an environment of supportive financial conditions, the IMF expects global growth to further improve to 3.9 percent in 2018 and 2019.

India witnessed a marginal decline in macroeconomic performance in 2017-18. **According to the second advance estimates released by the Central Statistics Office (CSO) on 28th February, 2018, growth in India's Gross Value Added (GVA) for 2017-18 is estimated at 6.4 percent, compared to 7.1 percent in the previous year.** This deceleration was attributed to a decline in industrial and agricultural growth, even as the services industry grew from 7.5 percent in 2016-17 to 8.3 percent in 2017-18.

In a positive development, from the real estate industry perspective, the construction sector that accounts for around 8 percent of the GDP grew at a marginally higher 4.3 percent in 2017-18 after a lacklustre 3.7 percent and 1.3 percent in 2015-16 and 2016-17 respectively.

Chart D: Growth in Gross Value Added at Basic Prices (YoY, %)



The quarterly growth data of GVA as shown in Chart D, also depicts an upward trend in 2017-18. The Reserve Bank of India, in its first monetary policy statement released on 5th April, 2018, also assessed that demand strengthened in Q4, 2017-18 — with a strong rebound in private consumption and growth in sales of tractors and two-wheelers. This suggests that the transient negative impact of demonetisation and implementation of the Goods and Services Tax Act (GST) is over.

The manufacturing Purchasing Managers' Index (PMI) continues to be in an expansionary mode and the business sentiment measured by the RBI's Industrial Outlook Survey also improved

[4] Following the adoption of Indian Accounting Standards (IND AS) by the Company, classification of subsidiary is now based on control and not just shareholding. As a result, four entities including the two operating integrated cities in Chennai and Jaipur, which were formerly being consolidated as subsidiaries, are now treated as JVs. As per IND AS, for all JVs, equity method of accounting is applicable, whereby MLDL's share of profit in joint ventures is directly credited to profit and loss account instead of proportional line-by-line consolidation. List of these entities is provided in the section on 'Financials'.

[5] Share is computed based on the sum of standalone Income and PAT of the operating entities engaged in the two businesses. The list of these entities along with the figures on Income and PAT are provided in Table 4, in the section on 'Financials'.

in Q4, 2017-18. The investment outlook has also turned positive with sustained expansion in capital goods production and buoyancy in imports. Besides, global demand and investments have gathered steam and are likely to grow in the next couple of years.

The growth outlook for the Indian economy for 2018-19 is positive — with the RBI projecting a GDP growth of 7.4 percent in 2018-19. This has to be tempered by rising crude oil prices and their effect on the current account of India's balance of payments; plus a growth in 'core' inflation (excluding food and fuel) over the last few months, which may lead to the RBI opting for one or two rate hikes of 25 basis points each in the course of 2018-19. Despite these pitfalls, the upswing in GDP/ GVA growth is expected to continue, which will augur well for the real estate industry.

Residential Developments

The residential segment continued to have high inventory levels in key markets despite a sharp drop in new launches due to implementation of RERA. Demand remained subdued, especially in the earlier part of 2017-18, with a gradual pick-up towards the fourth quarter, as the uncertainty around GST and its impact on prices dissipated.

Delhi-NCR, one of the geographies that Mahindra Lifespaces operates in, continued to be the most affected market. In comparison, the situation was better in Mumbai, Pune, Hyderabad and Bangalore, where prices remained stable despite muted end-user demand. The Company has identified the western and southern regions as growth corridors for its residential business. It currently has projects in the Mumbai Metropolitan Region (MMR), Pune and Chennai which are in advanced stages of planning or approvals. **The Company seeks to grow its presence significantly in Mumbai, Pune and Bangalore and add to its presence in Hyderabad and NCR before exploring any other geographies.**

The luxury segment, among the various product segments, was the most affected with dismal absorption levels. The situation was relatively better for projects in the premium to mid segment range. **The Company will continue to focus its growth strategy on the mid- premium segment where it has a strong connect and equity with the target customer.**

The affordable housing segment saw maximum traction during the year, with forward strides in government policies such as 'Housing for All' and the 'Pradhan Mantri Awas Yojana', which have further improved the viability and outlook for the segment. The Company, which launched its brand 'Happinest' in this segment, in 2014-15, has three operational projects with around 1,850 homes sold. **Based on the learnings and success of its ongoing projects at Avadi and Boisar, and the recently launched project in Palghar, the Company is confident of scaling up its presence in this space as a part of its future growth strategy.**

Integrated Cities & Industrial Clusters (ICIC)

The Company is a pioneer in integrated cities space, and currently has two operational integrated cities: Mahindra World City, Chennai and Jaipur, which have been developed in a public-private partnership model with the respective State Governments. During 2017-18, there was a moderate revival in the demand for industrial land and built-to-suit solutions from companies targeting the Indian market. Demand from export-oriented manufacturing units was subdued in comparison. Besides, longer decision cycles of companies looking to lease land have resulted in fewer deals, despite growth in interest and enquiries. **The Company will focus on increasing its deal pipeline and closures in the balance inventory of industrial land in Chennai and in leveraging the enhanced product-mix at Jaipur to add more customers in its DTA and multi-product SEZ.**

As a part of its growth strategy for this business, the Company has also decided to build a network of smaller industrial clusters, branded as 'ORIGINS by Mahindra World City'. Further details on the characteristics of these projects and the brand proposition are provided in Box 1.

Box 1: 'ORIGINS by Mahindra World City'

Vision: Accelerated economic growth by creating world-class industrial ecosystems that attract investment in manufacturing and promote 'Make in India'. Address the growing need for sustainable industrial infrastructure and provide impetus to India's rising prowess as a global manufacturing and investment hub.

Product: Industrial clusters spanning 250-600 acres meeting global standards located in high growth corridors across India. Allow faster go-to-market with clear land titles, plug-and-play infrastructure, in-house expertise in operations and security along with a range of business support services such as warehousing, logistics and banking. In addition, provide value-added services such as fulfilment centres, industrial kitchens and industrial waste management.

Business Case: Shorter turnaround time increases the capital efficiency and pre-aggregated approach to land acquisition reduces the risk profile. This also improves the attractiveness of such projects to strategic and financial investors, allowing the Company to raise capital through collaborations and equity participation. Smaller projects also enable focused offerings for specific industrial segments in the clusters that they operate.

Sustainable Urbanisation: Support development beyond current urban centres by making available a holistic environment conducive to accelerated business growth. Focus on sustainability principles and incorporate environment-friendly solutions in areas such as energy efficiency, water and waste management.

The Company has identified upcoming industrial destinations and corridors in the western and southern regions to start with. **It has initiated planning / development on two projects: one, near Chennai (Tamil Nadu) in a joint venture with Sumitomo Corporation, Japan, and the other near Ahmedabad (Gujarat) with International Finance Corporation as a strategic partner.**

Operations – Projects Update

Residential Developments

2017-18 witnessed continued focus on execution, with a sustained momentum in construction completion and a major step-up in the number of handovers by the Company. Table 1 provides a snapshot of the Company's project portfolio across different markets. **As of 31st March, 2018, the Company along with its subsidiaries has completed projects covering 14.55 million square feet[6] in the residential segment, including 0.68 million square feet completed during the year.**

During 2017-18, the Company launched Happinest Palghar, its third affordable housing project, which received a tremendous response. Additionally, it launched fresh inventory in five of its existing projects. **It is currently developing 3.97 million square feet with another 4.44 million square feet available in the form of forthcoming projects - new phases of ongoing projects and new projects that are in various stages of planning, for launch in the future.**

Table 2 provides project-wise status of sales and construction completion of the Company's ongoing projects as well as information on forthcoming projects for which design development or approvals are underway. In addition to this, the Company has a landbank with a development potential aggregating around 10.44 million square feet[7], 91 percent of which is within Mahindra World City, Chennai.

Integrated Cities & Industrial Clusters

2017-18 was host to new customer acquisition as well as expansion by existing customers in the two operational Mahindra World Cities at Chennai and Jaipur. **Combined exports by companies at the two World Cities was ₹ 12,739 crore and their direct employment stood at around 50,000 persons. Mahindra World City, Jaipur was conferred the "Best PPP (Public-Private Partnership) Model" at the 'Business World Smart Cities Conclave & Awards, 2017'.**

Mahindra World City, Chennai, leased 17.6 acres during the year, adding three new customers, while two existing customers took up additional land for expansion. As a result, the total number of industrial customers increased to 66 (26 in the SEZ and 40 in the DTA). Of these, 54 companies were operational as of 31st March, 2018.

The four operational residential projects at Mahindra World City, Chennai, saw an increase in occupancy from around 1,100 families in the previous year to 1,850 families in 2017-18. Details of the residential projects in Mahindra World City, Chennai have already been provided in the section on residential developments.

On the social infrastructure front, considerable progress was made during the year with the on boarding of a new school and the expansion of the Mahindra World School and JSP Hospitals. Additionally, Mahindra World City, Chennai divested its stake in 'Canopy' — the city's retail and commercial centre — in line with the strategy to focus on its core business.

Mahindra World City, Jaipur leased 44 acres during the year, adding eight new customers, while five existing customers took up additional space. At the end of the year, the Company had 81 industrial customers — 47 in the Special Economic Zones (SEZs) and 34 in the Domestic Tariff Area (DTA). Of these, 49 companies are operational and another 10 are expected to start operations in 2018-19. The Company is currently in the process of finalising the master plan for its residential and social infrastructure area.

In an important development since the close of 2017-18, MWC Jaipur received the notification, constituting the final approval from the government, to establish a multi-product SEZ. As a result, the existing sector-specific SEZs — IT/ITeS, Engineering and Related Industries, Handicrafts, Gems & Jewellery — will be amalgamated into a composite multi-product SEZ, which will further widen the target customer base and improve the project outlook.

Origins, Chennai, is the Company's first venture in the industrial clusters space. It is a 264 acre project in North Chennai, which is being developed through its subsidiary in a JV with Sumitomo Corporation. All approvals for the project are in place and development work started in 2017-18.

Origins, Jansali, is the Company's second industrial cluster near Ahmedabad, Gujarat, with an area of 268 acres. It will be developed through its subsidiary, with International Finance Corporation as a strategic partner. The Company is in the process of securing necessary approvals for the project.

Operations – Strategic Priorities

The strategic priorities of the Company have been focused on building brand equity and shareholder value through differentiation and scale.

Customer Acquisition and Engagement

2017-18 was a tough year for the real estate sector, with sluggish demand and ambiguity due to implementation of GST and RERA. Additionally, the Company had to defer most of its new launches due to regulatory holdups. In this environment, the Company's focus was on driving sales in existing projects. Some of the key initiatives are discussed below.

Significant efforts were made during the year to improve lead quality, with increased focus on digital and referral sources. A rigorous process of enquiry tracking, aided by technology, helped increase actionable leads. This was supported by a customer-focused, upgraded contact centre, that significantly enabled direct integration with the sales function. Typical response time to enquiries came down from around 24 hours to less than 10 minutes. The Company also leveraged community events, during project milestones such as handovers, launch of club house and during festivals, to engage with the customers and generate referrals. Additionally, it also engaged pro-actively with its 700-odd channel partners during the year.

In January 2017, the Company launched 'Joyful Homecomings' as its brand proposition — the cornerstone of its communication strategy. 2017-18 saw significant activity, with all the campaigns and messaging consistent with the strategy. Social media was extensively leveraged to build the brand identity around four themes: spreading joy, transparency, environment and quality of life.

Several of the Company's campaigns saw success and social media engagement levels increased significantly during the year. These campaigns generated over 180 million Facebook and Twitter impressions and over 8 million video views during the year. **The Company's #IamGreenArmy digital campaign received the "Best Social Media Campaign of the Year" at the CMO Asia, Global Youth Marketing Forum Awards.** The campaign also received the Gold award for "Digital Marketing, Effectiveness" at Asian Customer Engagement Forum and Awards (ACEF).

Execution Excellence

Robust project execution skills are an important enabler of scale. The Company during the previous year, initiated a large scale business process re-engineering exercise – Project Udaan. During the year Udaan focused on defining the road-map for reducing cycle time of projects in the product development and construction stages. Additionally, the intervention helped define the blue print for standardisation, the decision framework for building internal capabilities vs. outsourcing and the use of technology to enable better data management and faster decision cycles. The Company implemented the standardisation framework for segment-wise product specifications by segment, for materials like pre hung doors, windows, tiles, tile fixing and water-proofing during 2017-18.

The Company's strong quality management system has been instrumental in improving the quality of its products and processes. In the previous year's annual report, we had mentioned how the Company's focus on delivering a 'Zero-Snag Product' received a major boost with the implementation of a mobile application 'Q SCAN', which automates the entire home inspection process prior to handover. This was extended to all projects in 2017-18. Post-handover feedback mechanisms were also institutionalised to enable accurate analysis and corrective action.

Mahindra Lifespaces has an established 'Safety Policy' which underscores its commitment to prevent accidental injuries and improve the occupational health of its associates. Its flagship safety initiative "Safe Methods and Risk Reduction Techniques" (SMARRT) implements international best practices and aims to eliminate unsafe acts by proactive reporting of such incidents.

The Company had no fatal accidents in the last three years and zero reportable accidents in two of the three years. It furthered its journey in safety from monitoring accidents to monitoring near misses and reducing first-aid cases. It also carried out extensive safety training workshops to improve processes, sensitise workers and promote safe practices. **In recognition of its efforts, Mahindra Lifespaces received the 'CIDC Vishwakarma Award' for 'Health Safety & Environment' for two of its projects: Vivante in Mumbai and Happinest, Boisar. These awards are given by Construction Industry Development Council (CIDC), established by the Planning Commission (now Niti Aayog) and the Construction Industry.** There was one reportable accident during 2017-18.

Customer Relations

The Customer Relations (CR) function at Mahindra Lifespaces endeavours to service its customers during the entire lifecycle, from booking to post-handover facilitation. **The Company has significantly invested in systems and process to achieve differentiation and enhance its ability to handle scale. These efforts have enabled the Company to efficiently handover a total of over 3,800 residential units in 2016-17 and 2017-18.**

In the previous year, the Company had initiated implementation of a tech-based CRM solution aimed at enabling a single view of the customer, right from the prospecting stage to post-handover. Considerable progress was made on this front during 2017-18, which enabled the roll-out of two significant initiatives to strengthen customer experience:

- "Customer Assist" — a single contact number for the customer from sales to post-handover that logs and tracks all queries until they are successfully resolved.
- "M-Life" — a mobile application for customers. Apart from enabling the complete set of transactions and enquiries during the customer's journey with the Company, it also allows them to avail value added services and connect with other homeowners in a project.

During the year, the Company also upgraded its website and to improve navigation and information content. New features such as grievance redressal, testimonials and blog were introduced and the website was enabled for e-commerce transactions, with online bookings taking place for projects in Boisar and Palghar.

With the significant increase in handovers, post-handover services and facility management (FM) have been other key areas of focus. During the year, the Company expanded its post-possession value added services that had been piloted in 2016-17 — both, in terms of number of projects and types of services. These now encompass complete interior solutions, electrical fittings, lighting solutions and modular kitchens. Going forward, the Company shall further increase the bouquet of value added services available to customers.

Land and Financial Capital

The Company is focused on adding significantly to its current portfolio of projects to meet its growth objectives. The Company sees an opportunity arising out of RERA and market conditions, to pursue asset light acquisitions through the joint-development, joint-venture and development management routes with land owners. To this end, it is enhancing its reach, access and team strength in business development to increase deal pipeline and closures. It is prioritising acquisitions in its focus markets of Mumbai, Pune and Bengaluru followed by Hyderabad and NCR.

Mahindra Lifespaces has seen increasing success in its ability to raise risk capital and scale up its presence through asset light models with credible partnerships. **During the year, the Company entered into two such partnerships. The first partnership is with International Finance Corporation (IFC), a member of the World Bank Group, for the development of multiple industrial parks across Gujarat, Rajasthan and Maharashtra.** This entails an investment commitment of USD 50 million, with the first investment in Origins, Jansali — the 268-acre industrial cluster near Ahmedabad. **The second partnership is with a fund managed by HDFC Capital Advisors Limited for projects in the affordable housing space, with** joint

commitment of ₹ 500 crore that can deliver development footprint of 5-10 million square feet. Happinest, Palghar (I & II), in the Mumbai Metropolitan Region, which has an estimated saleable area of 1.05 million square feet, is the first project to be implemented under this partnership.

The Company already has a partnership with Standard Chartered Real Estate (Singapore) Private Ltd for residential projects in the mid-premium segment. The JV company has completed investments accounting for close to 65 percent of the total joint investment commitment of ₹ 1000 crore.

During the year, the Company also focused on reducing its cost of capital by re-negotiating interest rates on existing loans and prudently using alternatives like commercial paper. **The average cost of consolidated debt reduced from 9.86 percent in 2016-17 to 9.49 percent in 2017-18.**

Human Capital

Mahindra Lifespaces recognises that its people are key to the success of the organisation and in accelerating its growth trajectory. During the year, the Company continued its efforts to strengthen its HR policies and processes to attract and retain the best talent in the industry. It enjoys relationships with specialised institutions in the construction industry such as National Institute of Construction Management and Research and RICS School of Built Environment for entry level positions in project management and sales.

The Company is focused on catering to the learning and development needs of its associates, for which it regularly carries out structured training initiatives in functional areas such as sales, marketing, customer service, and project management. During the year, it extended its e-learning platform with a programme covering product design for its sales associates. It also carried out extensive programmes on RERA and GST across the country to familiarise its people with these developments. Overall, each associate of Mahindra Lifespaces received an average of 24 manhours of training in 2017-18.

Mahindra Lifespaces endeavours to keep its workplaces safe, transparent and friendly for people to work in. It also has a policy which is aligned to the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013. The Company has a 'Diversity Council' with the objective of creating an inclusive environment in the workplace. As of 31st March, 2018, the percentage of women as full-time associates stood at 18 percent. During the year, it introduced a mentorship programme for women associates. Moreover, three of its associates graduated from an 18-month Women Leadership Programme instituted by the Mahindra Group's a Centre for Leadership Development. **During the year, Mahindra Lifespaces was selected by Working Mother and AVTAR as one of the "100 Best Companies for Women in India".**

As of 31st March, 2018, the Company together with its subsidiaries had 362 associates on its rolls. In addition, the Company had more than 4,000 workmen, across all its sites, employed by its contractors. Associate relations remained cordial during the year.

Despite a challenging macroeconomic and regulatory environment for the real estate industry, Mahindra Lifespaces registered a creditable financial performance during 2017-18.

Consolidated[8] total revenue reduced from ₹ 831 crore in 2016-17 to ₹ 644 crore in 2017-18, primarily due to decline in project activity during the year and a one time revenue of ₹ 176.71 crore through sale of land in the previous year. Even so, operating profits (PBDIT) increased by 13.6 percent from ₹ 119 crore in 2016-17 to ₹ 135 crore in 2017-18. Increase in efficiencies and ability to contain costs also resulted in an improvement in operating margins — from 14.3 percent in 2016-17 to 21 percent in 2017-18.

Share of profit from JVs and associates remained stable during the year. However, with a significant increase in financial expenses (consolidated) from ₹ 20.2 crore in 2016-17 to ₹ 41.3 crore in 2017-18, net profits of the consolidated entity were marginally lower than the previous year. Profit before taxes (PBT) of the consolidated entity, after including share in profit from JV entities and associates, stood at ₹ 134.5 crore in 2017-18 as compared to ₹ 138.9 crore in 2016-17. After accounting for non-controlling interest (NCI), the consolidated PAT of the Company was ₹ 101 crore in 2017-18, compared to ₹ 102.2 crore in the previous year.

In contrast, net profits of the standalone entity grew at a fair pace. Standalone PBT increased by 11.9 percent from ₹ 70.6 crore in 2016-17 to ₹ 78.9 crore in 2017-18, and PAT grew by 8.5 percent from ₹ 48.9 crore in 2016-17 to ₹ 53.1 crore in 2017-18.

Under IND AS, line-by-line consolidation is not followed for some of the operating entities. Table 4 provides a summary of the financial performance of legal entities operating in the two key businesses. These are drawn from standalone financial statements of these entities. Also, intercompany transactions have not been eliminated and a simple aggregation of numbers is shown as “Total” for entities engaged in the Residential and Industrial businesses. Accordingly, the “Total” of Revenues and PAT for the two businesses are indicative in nature.

As of 31st March, 2018, Mahindra Lifespaces’ standalone debt equity ratio was at 0.20:1 and consolidated debt equity ratio was at 0.22:1. The liquidity situation during the year remained comfortable. Surplus funds available from time to time have been invested in credit worthy instruments, including money market instruments, mutual funds and deposits with banks.

Threats, Risks and Concerns

Mahindra Lifespaces has appropriate risk management systems in place for identification and assessment of risks, measures to mitigate them, and mechanisms for their proper and timely monitoring and reporting. It has a Risk Management Committee consisting of two Directors and the Chief Financial Officer, for timely monitoring and review of the risk assessment, mitigation and risk management plan. The Board reviews implementation and monitoring of the Company's risk management plan.

Economic Risks

GDP growth decelerated marginally during the year. Although there are signs of a turnaround, there are still downside risks. Lending rates for business and home loans continue to be high and there are risks associated with increase in policy rates if inflation rises. These can have a direct impact on the performance of the real estate sector and the Company. Besides, even as global economic growth witnessed a significant revival, investment outlays in Indian businesses, especially those in export-oriented industries, is yet to benefit from these emerging trends.

Mahindra Lifespaces is conscious of these risks and is taking measures to mitigate them. For instance, the Company's focus on both the residential and industrial sectors has been a significant source of comfort during periods of slow economic performance. Similarly scaling up of presence in affordable housing space has mitigated risks associated with a seemingly poor outlook in the luxury housing segment. Prudent financial management has also kept the Company relatively insulated from the economic downturn. It has successfully raised risk capital through equity participation and strategic partnerships across segments, and is well placed to raise capital at competitive rates.

Operational Risks

Key operational risks include longer gestation period for land procurement, more time taken for approvals, inability to sell the project as per plan, inability to complete and deliver projects according to the schedule leading to additional cost of construction and maintenance, erosion of brand value, appointment and retention of quality contractors, inability to attract and retain talent, poor customer satisfaction, fraud and unethical practices, failure to comply with laws and regulations leading to fines, penalties and lengthy litigations.

The Company addresses these risks through a well-structured framework which identifies desired controls and assigns ownership to monitor and mitigate the risks. It has invested significant resources in transparent customer friendly processes and an enabling IT infrastructure, which are expected to effectively address some of these risks. It also has a Code of Conduct for all its associates. The Company's corporate governance policies ensure transparency in operations, timely disclosures and adherence to regulatory compliances.

Policy and Regulatory Risks

The real estate industry is easily affected by changes in government policies and regulations. There are considerable procedural delays with respect to approvals related to acquisition and use of land. Unfavourable changes in the government policies and the regulatory environment may adversely impact the performance of the Company. Inability to launch projects in MMR due to a ban in new construction by the High Court during 2016-17 and 2017-18 is one such instance.

The Company attempts to mitigate these risks through its approach towards acquisition of land based on thorough due diligence and its transparent processes in developing the projects. Besides, its focus on environment friendly and sustainable practices also help in mitigating risks associated with environmental regulations.

Internal Controls

The Company has adequate internal control systems, commensurate with the size and nature of its business. Well documented policies, guidelines and procedures to monitor business and operational performance are supported by IT systems, all of which are aimed at ensuring business integrity and promoting operational efficiency.

An independent internal audit and assurance firm appointed by the Company conducts periodical audits to ensure adequacy of internal control systems, adherence to management policies and compliance with laws and regulations. Their scope of work includes internal controls on accounting, efficiency and economy of operations. The internal auditors also report on the implementation of their recommendations.

Reports of the internal auditors are regularly reviewed at the Audit Committee meetings. The Audit Committee of the Board also reviews the adequacy and effectiveness of the internal control systems and suggests improvements, when so required.

Outlook

Global economic performance strengthened and became more broad-based in 2017. The outlook for the world economy, including trade and investments, for the next couple of years remains positive. The performance of the Indian economy also picked-up as the year progressed, and this trend is expected to continue in 2018-19, and perhaps improve further with the stabilising of major reform initiatives of the government such as the GST and tailwinds from a buoyant global economy.

As far as the real estate industry is concerned, policy breakthroughs such as Real Estate (Regulation and Development) Act (RERA) have created of level playing field and will make the sector more efficient and organised in the long run. The housing cycle has also started showing positive signs in the form of improvement in cement demand, progress in the government's affordable housing scheme, step-up in execution under the Pradhan Mantri Awas Yojana scheme and large infrastructure development projects.

Mahindra Lifespace has a proven track-record in both residential and industrial developments. In the last few years, it has expanded its presence in the residential segment with a superior delivery model and a successful foray into affordable housing. Its recent creation of smaller industrial clusters is a part of a similar strategy of widening the playing field in the industrial space. The Company has been successful in securing risk capital in its residential and industrial projects, enabling it to grow in a capital-intensive sector while maintaining a strong balance sheet.

Today, therefore, the Company is favourably placed to raise capital at competitive terms to finance its growth. At the same time, it has built strong systems and processes that enable it to scale-up execution and delivery. Mahindra Lifespaces believes that it is well-positioned to benefit from the emerging opportunities in the real estate sector in India.

CORPORATE GOVERNANCE REPORT

CORPORATE GOVERNANCE PHILOSOPHY

Mahindra Lifespaces is committed to good corporate governance and endeavors to implement the Code of Corporate Governance in its true spirit. The philosophy of the Company on corporate governance is to ensure transparency in all its operations, make disclosures, and enhance stakeholder value without compromising in any way on compliance with the laws and regulations. The Company believes that good governance brings about sustained corporate growth and long-term benefits for all its stakeholders.

In India, corporate governance standards for listed companies are regulated by Securities and Exchange Board of India (SEBI) through Regulation 15(2) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI LODR") and also by the Ministry of Corporate affairs through the Companies Act, 2013 ("the Act"). As a Company which believes in implementing corporate governance practices in letter and in spirit, the Company has adopted practices mandated by the Act and SEBI LODR and has established procedures and systems to remain compliant with it. This report provides the Company's compliance with these provisions as on 31st March, 2018.

6. REMUNERATION PAID TO DIRECTORS

Remuneration Policy

The objective of the Remuneration Policy of the Company for Directors and Senior Management is to focus on enhancing the value of the Company by attracting and retaining Directors and Senior Management for achieving objectives of the Company and to place the Company in leading position. The Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under Section 178 of the Act and principles pertaining to qualifications, positive attributes, integrity and independence of Directors, etc.

While reviewing the Company's remuneration policies and deciding on the remuneration for Directors, the Board and the Nomination and Remuneration Committee (NRC) considers performance of the Company, current trends in the industry, qualifications of the appointee(s), their experience, past performance, responsibilities shouldered by them, the Statutory provisions and other relevant factors.

The Non-Executive Chairman and Independent Directors are paid sitting fees and reimbursement of expenses incurred in attending the Board, Committee meetings and meeting of Independent Directors. The Directors have voluntarily waived sitting fees for attending meetings of Corporate Social Responsibility Committee. The Board determines the remuneration, if any, of Non-Executive Directors, subject to requisite approvals, if any. At the 16th Annual General Meeting of the Company held on 31st July, 2015, the shareholders had approved the payment of commission, at a rate not exceeding one percent (1%) per annum or such percentage as may be specified by the Act from time to time in this regard, of annual net profit of the Company computed in accordance with the provisions of the Act or Rules framed thereunder from time to time, to such Directors of the Company (other than the Managing Director and/or Whole-time Director, Executive Directors and such of the remainder as may not desire to participate) but subject to such ceiling, if any, per annum, as the Board of Directors may, from time to time, fix in this behalf and the same to be divided amongst them in such manner as the Board may, from time to time, determine for each of the financial years commencing from 1st April, 2015. Accordingly, the Board of Directors at its meeting held on 27th April, 2018 has approved payment of commission for the financial year ended on 31st March, 2018.

Performance Evaluation

Pursuant to the provisions of the Act and Part D of Schedule II of SEBI LODR, evaluation of every Director's performance was done by Nomination and Remuneration Committee. The performance evaluation of Non-Independent Directors and the Board as a whole, Committees thereof and Chairman of the Company was carried out by the Independent Directors. Evaluation of Independent Directors was carried out by the entire Board of Directors, excluding the Director being evaluated. Structured questionnaires, covering various aspects of the evaluation such as adequacy of the size and composition of the Board and Committees thereof with regard to skill, experience, independence, diversity, attendance and adequacy of time given by the Directors to discharge their duties, Corporate Governance practices, etc. were circulated to the Directors for the evaluation process. The Directors expressed their satisfaction with the evaluation process and the outcome of evaluation which reflects high level of engagement of the Board of Directors amongst its members and with the management.

Mahindra Lifespace Developers Limited - Unclaimed

Suspense Account

The unclaimed/undelivered shares lying in the possession of the Company are required to be dematerialized and transferred into a "Unclaimed Suspense Account" held by the Company. The Company had sent three reminder letters to such shareholders whose share certificates returned undelivered and hence remained unclaimed, by requesting them to update correct details viz. postal addresses, PAN details, etc. registered with the Company to avoid transfer of such unclaimed shares to the "Unclaimed Suspense Account." The Company has in March, 2014 transferred 49,854 of such unclaimed shares to the "Mahindra Lifespace Developers Limited – Unclaimed Suspense Account". Any corporate benefits in terms of securities accruing on such shares viz. bonus shares, split, etc., are being and will be credited to such Demat Suspense Account. The Suspense Account is held by the Company on behalf of the allottees who are entitled to the shares and the shares held in such Suspense Account shall not be transferred in any manner whatsoever except for the purpose of allotting/delivering the shares as and when the shareholders approach the Company. The voting rights on such shares shall remain frozen till the rightful owner claims the shares. As and when the allottee approaches the Company, the Company credits the shares lying in the Suspense Account to the demat account of the allottee to the extent of the allottee's entitlement, after proper verification of the identity of the allottee.

Section E: Principle-wise Performance

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

Ethics, transparency and accountability are the three pillars that build a successful and sustainable business. The Company has put in place comprehensive governance structures based on its core values to ensure that all associates observe the highest standards of ethical conduct and integrity.

Code of Conduct

The Company has defined the Code of Conduct for Directors as well as the Code of Conduct for senior management and associates of the Company that covers issues related to ethics, bribery, etc. The Code of Conduct for senior management and associates also covers all dealings with suppliers, customers and other business partners including joint venture partners and other stakeholders.

Stakeholder Complaints

10,481 customer complaints were received during the reporting year; of which around 75 percent were minor in nature. Ninety - nine percent of the complaints were resolved and closed during the year.

During the reporting year, 60 investor complaints were received from the shareholders, of which 59 were resolved as on 31st March, 2018 and 1 was resolved on 19th April, 2018.

Principle 2: Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle

Customer delight is every company's desire, but good companies also strive for the safety and sustainability of their products and services. Mahindra Lifespaces ensures that its product portfolio not only serves customer aspirations but is also aligned with community goals and environmental objectives. The focus of its operations is on:

- Residential Projects (Mahindra Lifespaces and Happinest)
- Integrated Cities and Industrial Clusters (Mahindra World City and Origins)

Residential projects

At Mahindra Lifespaces, the Company has institutionalised an integrated systemic approach that straddles all three stages of a building's life cycle to yield maximum resource savings.

Design stage	Construction stage	Occupancy stage
• Creating blueprints that encourage green living and manage the complex cause and effect relationships in resource efficiency • Selection of resource efficient materials as part of the structure, fixtures and fittings as well as in site infrastructure	• Use of resource efficient equipment and procedures in the construction stage • Reuse of construction waste to minimize waste management and fresh consumption	• Creating awareness among customers on the use of green buildings • Generating savings for customers through energy and water efficiency

The Company continued building quality residential spaces, by flagging off new phases in the existing projects like Antheia, Happinest-Boisar, Aqualily, Windchimes, etc. and designing / launching new projects with green features like:

Health-friendly indoors | Energy-efficient lighting | Water-efficient plumbing fixtures |Alternative building materials | Sustainable location | Rainwater harvesting | Water recycling and re-use | Organic waste treatment | Energy-efficient building envelope | Efficient daylighting and ventilation

Integrated Cities and Industrial Clusters*

Operational energy efficiency for utilities (horizontal infrastructure includes Water Supply, Sewage Treatment Plant and Street Lighting) is also an important component of the energy impact reduction strategy. The following energy efficient strategies have been implemented in these developments:

- Energy efficient pumps and motors (including Class 1 motors, implementation of vertical in-line pumps and hydro-pneumatic water distribution systems).
- Dedicated use of LED energy efficient lamps for all street lighting. Street lighting fixtures have been fitted with timer based automatic control systems.
- Water supply and treatment pumping system provided with variable speed drive to conserve energy at part load.
- Ground water recharge mechanism through rain water harvesting is an effective tool to counter the rapid decline in ground water levels, and improve water supply and quality, for neighbouring communities
- An in-house Sewage Treatment Plant (STP) and a Tertiary Treatment Plant (TTP), ensuring that the waste water generated within the project is internally recycled and treated. The treated water is used to meet the requirements of flushing, cooling, irrigation (on-site landscaping) and other non-potable uses within the site.
- Ensuring effective waste segregation on site and conversion of biodegradable waste into biofuel and compost.

* these strategies have been planned for the industrial clusters as well and will be executed as per the stages of its development.

Performance

The performance during construction is appended below, which is as reported in the Mahindra Lifespaces Sustainability Report for FY 2016-17 and FY 2017-18 (will be released shortly):

Sustainable Sourcing (including transportation)

We involve our suppliers and vendors on a consistent basis through supplier meets, to actualise the commitment to sustainable sourcing. A Green Supply Chain Management Policy is in place.

Green Supply Chain Management (GSCM) Policy: The policy has been shared with suppliers to improve their awareness about legal compliances, enhance environmental efficiencies and ensure health & safety initiatives by the suppliers.

Local sourcing: The Company procures goods and services from producers through the GSCM policy, and encourage those suppliers who:

- ensure compliance to applicable legal and other requirements which have a significant impact on health, safety and environment;
- are locally-based suppliers to minimise environmental impact;
- are low on pollution and/or use clean technology and;
- take the waste or scrap materials from project sites and recycle them to manufacture new life products

50 percent of the total building materials (by cost) procured by the Company is within a 400 km radius. This data is captured for every project and the percentage varies as per the green rating (for e.g., the total building materials procured within a 400km radius goes up to 75 percent in the case of platinum rated buildings).

During the reporting year, the company conducted Suppliers and Contractors Meet in the western region engaging its key stakeholders. Over 80 companies participated in the meet with the objective of building sustainable supply chains based on the Environment, Social and Governance (ESG) framework.

Reduction in Pollution…reduction of DG Emissions

Background: Threat of air pollution is a real and grave issue:

- 4th leading cause of death globally
- 88 percent of these deaths occur in developing nations
- Every third child in New Delhi has reduced lung function

  PM (Particulate Matter) 10, PM 2.5 are the key culprits of ambient air pollution and are responsible for major health scares
- Respiratory diseases including Asthma and Chronic Obstructive Pulmonary Disease
- Cardiovascular diseases including Stroke and Ischemic Heart Disease
- Cancer - PM 2.5 is a Class I carcinogen (WHO)
- Pre-term births - 18 percent higher likelihood

The global warming potential of PM is ~ 460 times that of CO_2

Diesel Generators that are used for power backup are a major contributor to PM2.5 in metropolitan cities - ~9 percent of PM2.5 in Chennai is from Diesel Generators.

The team brainstormed and evaluated various alternatives and came across "Chakr shield" which is a retrofit on the existing DGs to capture emissions without adverse impact. Chakr's technology met the Company's sustainability objectives and the same was installed in its DG system as a Pilot.

Methodology

Step 1: Cools the exhaust in an optimal manner to cause rapid agglomeration of soot particles

Step 2: Captures the soot particles by slowly passing the exhaust gases through contours and meshes while interacting with a solution

Step 3: Continuously cleans the meshes and contours in real time, collecting soot at the bottom in a collection bin which can be reused as branding ink

Impact on Business

Before installing Chakr Shield – PM was at 68.7

Sr. No.	Parameters	Method	Units	Results	TNPCB Limits
1	Particulate Matters (PM)	IS 11255 PART 1 1985	mg/ Nm^3	68.7	150

After installing Chakr Shield – PM is at 9.3

Sr. No.	Parameters	Method	Units	Results	TNPCB Limits
1	Particulate Matters (PM)	IS 11255 PART 1 1985	mg/ Nm^3	9.3	150

Adoption of the technology saw an 86 percent reduction in the PM. It is proposed to deploy the same across all DGs in a phased manner during 2018 - 19.

Principle 3: Businesses should promote the well-being of all employees

Employees who feel truly cared for are the key to a sustainable business. We believe they are our first customers. Our associates (that's what we call our employees) are encouraged to think independently, develop leadership skills and explore innovative ideas. We strive to foster a diverse workplace in which a wide range of individual perspectives makes us better as a whole.

Although, there are no employee associations recognised by the management, a comprehensive HR policy covers all facets of talent management. Based on the feedback received from associates, the HR policy evolves consistently.

Equal opportunity employer

Merit is the only condition to work and grow at Mahindra Lifespaces and the Company does not discriminate on the basis of caste, gender, race, religion or any other classification.

Details of Complaints:

Sr. No.	Category	No. of complaints filed during the financial year	No. of complaints pending as on end of the financial year
1.	Child labour/forced labour/involuntary labour	NIL	NIL
2.	Sexual harassment	NIL	NIL
3.	Discriminatory employment	NIL	NIL

Safety

Safety doesn't happen by accident. The Company continuously provides safety training to all its associates including contractual associates and considers safety as one of its topmost priorities.

- Permanent Associates: 100 percent (Safety induction training given to all associates*)
- Contract/ Casual/ Temporary Associates: 100 percent (Safety induction training given to all associates*)

* Associates includes male, female and differently abled

Skill upgradation

In order to keep abreast with rapid technological changes, associates need to keep learning throughout their careers. The Company invests in staying ahead on the learning curve with knowledge enablement and capability development. Some of the key elements of learning and development includes self-development platforms, high value learning programmes and digital learning platforms.

- Permanent Associates: An average of 24 hours per person of job specific and skill upgradation training has been imparted to associates
- Contract/Casual/Temporary Associates: 124 workmen were certified by National Skill Development Council (NSDC) based on Pradhan Mantri Kaushal Vikas Yojana (PMKVY) 2.0 framework, under the Company's skill upgradation initiative 'Parivartan'.

Employee data

- Total number of Permanent Associates: As of 31st March 2018, the Company together with its subsidiaries and JV companies had 436 associates on rolls. (includes Fixed Term Contract + Third Party Contract associates)
- Total number of Contractual/Casual/Temporary associates: 4,168 workmen were employed across sites by contractors (Contractual labourers on site hired by contractor)
- Number of permanent women associates: 78 associates on rolls (includes Fixed Term Contract+Third Party Contract associates)
- Number of permanent employees with disabilities: 1

Principle 4: Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalised

All stakeholders, major or minor, affect or are affected by the decisions of a Company. At Mahindra Lifespaces, the Company informs, consults and involves stakeholders so that the Company is better planned and has responsible policies, projects, programmes and services.

The Company has mapped its internal as well as external stakeholders through materiality mapping, including the disadvantaged, vulnerable and marginalised stakeholders. Engaging with its stakeholders on a consistent basis leads to better understanding of its priorities. Hence, the Company conducts the materiality mapping once every two years to help validate its prioritisation and alignment with the Company's sustainability agenda and roadmap. The Company also conducted a few years back, a social impact assessment on a pilot basis for its integrated cities business to understand and map its footprint impact on various segments of stakeholders including villagers and the neighbouring community so as to develop and use the same as a blueprint for its CSR initiatives in the short and long term.

In addition, the Company has also undertaken community development initiatives, the details of which are given in answers under Principle 8.

Principle 5: Businesses should respect and promote human rights

Human rights form the foundation of a fair society. Fundamental in nature and applicable universally, they require the rule of law as well as the empathy to understand the dignity of every human being. The Company adheres to this principle regardless of the status of any person, be it nation, location, language, religion, ethnic origin or any other form of classification.

Testimony to the Company's commitment are the policies and processes which are in place to implement and uphold human rights - Code of Conduct, CSR Policy, Prevention of Sexual Harassment Policy and Business Responsibility Policy, which covers all facets of human rights.

Principle 6: Businesses should respect, protect, and make efforts to restore the environment

With a burgeoning population and scarcity of natural resources, it has become imperative to use natural resources carefully, minimise damage to the environment, and ensure that these resources are available for the future generations. At Mahindra Lifespaces, environmental responsibility encompasses the entire gamut of our operations.

The Company's endeavour is to leverage urbanisation to accelerate progress, to trigger and cascade inclusive growth, and to ensure that both are done with minimal impact on the environment. In this regard, the Company has taken several steps to address environmental issues such as resource depletion, waste management, climate change, etc.

Responsible Urbanisation - Urboonisation

Urboonisation has helped the Company understand and cater to the needs of not just the affluent or large corporates, but also those of the aspiring middle and lower income segments. The Company continues to spearhead Urboonisation as an act of business responsibility as well as environmental stewardship.

Sustainability roadmap 2020

The Company has delineated a sustainability roadmap 2020, which is aligned with the National Action Plan on Climate Change (NAPCC). It includes all facets of environmental stewardship. For more details, please refer the link https://www.mahindralifespaces.com/about/sustainable-urbanisation

Green Design

Green architecture or green design is Mahindra Lifespaces' approach to development that minimises harmful effects on human health and the environment. With this aim in mind, we attempt to safeguard air, water and earth by choosing eco-friendly building materials and construction practices. We are committed to design and construct buildings, which are green across their lifecycle - from construction to use to end-of-life.

Some of the features of green design include:

- Energy-efficient lighting
- Water-efficient plumbing fixtures
- Alternative building materials
- Sustainable location
- Rainwater harvesting
- Water recycling and reuse
- Organic waste treatment
- Energy-efficient building envelope
- Efficient daylighting and ventilation

Mahindra TERI Centre of Excellence (COE)

With a view to improve energy efficiency in India's residential buildings sector, Mahindra Lifespaces and The Energy and Resources Institute (TERI) announced the creation of a Centre of Excellence (CoE). **The 'Mahindra TERI CoE for Sustainable Habitats' will evaluate both traditional and innovative technologies and alternative materials customized for the Indian buildings sector and climate zones to create viable, scalable, market-ready and affordable solutions.**

The Centre will bring much needed, validated knowledge about better performing materials and processes to mainstream green buildings in the country. The key focus areas of the CoE include energy and water efficiency and use of low cost green materials. Another important intended outcome of the research efforts of the CoE is to address the existing gap in available statistical datasets relevant to the Indian residential buildings sector. The research output from the CoE will be disseminated to multiple stakeholder communities via conferences, workshops, academic courses, reports, journal archives and webinars, amongst other mediums. Wider industry participation and contribution will be sought to increase capacity and reach. The CoE is located at TERI's Gual Pahari campus near Gurgaon, with research initiatives split into modules based on priority and scale.

During the year, the CoE's vision and objectives were set out, and research areas were identified. Work on the physical location of the CoE and on two modules of research activity were also initiated during the year.

Sustainable Housing Leadership Consortium (SHLC)

Mahindra Lifespaces became one of the five founding members of SHLC - a new consortium established in 2016-17 as a CEO-led think tank. Convened by International Finance Corporation (IFC), it aims to develop a low carbon roadmap for the housing industry which would also contribute towards the achievement of India's climate change goals. The key motivation is to mainstream sustainability in India's urban housing sector and support the transition to a low-carbon economy.

The objectives set for the consortium are:

- To make 100 percent of own housing portfolio sustainable by 2022 as evidenced by appropriate green building certification(s)
- To achieve 20 percent reduction in incremental variable costs for sustainable housing construction to further improve the business case for green buildings
- To provide leadership and advocacy for broader industry and government policy actions that aim to make 20 percent of India's new multi-family housing construction sustainable by 2022

During the year, SHLC identified and worked on the following four levers to enable the objectives:

Policy lever: to conduct a review of the policy landscape in India as well as globally, draw from best practices, and propose two-three key policy approaches to the government for incentivising the delivery of sustainable housing in India.

Technology lever: a comprehensive list of technologies has been identified (market ready, scalable, viable and sustainable) to help further enhance the business case for sustainable housing. The analysis of the shortlisted technologies that could be scaled up for reducing the incremental cost of building green will be completed in the next reporting year.

Consumer awareness: conducted a first-of-its-kind post occupancy evaluation (POE) of housing projects to understand the performance of green-certified projects and occupant perception. A nationwide multi-media consumer awareness campaign has also been designed to educate the Indian homebuyer about the benefits of buying green, which will be released in the next reporting year.

In addition to its approaches and initiatives, Mahindra Lifespaces also participated in the annual Clean Energy Ministerial (CEM8) in Beijing, China, and the Roundtable on 'Leveraging City-Scale Building Efficiency Action'.

The emissions/waste generated by the Company are within the permissible limits given by Central Pollution Control Board (CPCB)/ State Pollution Control Board (SPCB) for the financial year being reported. No show cause or legal notices were received from CPCB/SPCB, or that were pending as on 31st March 2018.

Principle 7: Businesses, when engaged in influencing public and regulatory policy, should do so in a responsible manner

Regulations and policies affects the way a Company conducts its business. As pioneers of green design and healthy living, the Company engages with other like-minded organisations to espouse the philosophy of sustainable urbanisation. The Company also learns from and share its expertise with various bodies to improve the quality of urban living. The Company engages with many industry bodies, some of which include:

- Confederation of Indian Industry (CII)
- Federation of Indian Chambers of Commerce and Industry (FICCI)
- Maharashtra Chamber of Housing Industry (MCHI)
- Indian Green Building Council (IGBC)
- India Business and Biodiversity Initiative (IBBI)

The Company undertakes need-based advocacy on issues pertaining to the industry, for the advancement of public good through its membership in relevant industry bodies.

Principle 8: Businesses should support inclusive growth and equitable development

Sustainable growth is accomplished by a combination of economic and equitable development, where economic progress lifts communities, which in turn feeds the economy. Mahindra Lifespaces, focusses on developing ecosystems that create a positive impact on the communities around its developments and drive interventions that positively influence society at large.

A total commitment/contribution of ₹ 601.17 lakh* was made in FY 2017-18 by the Company, its subsidiaries and JV companies towards CSR initiatives. This included community programmes and social interventions addressing key focus areas:

- Education: ₹ 299.67 lakh
- Environment: ₹ 213 lakh*
- Health: ₹ 67.90 lakh
- Community Development: ₹ 12.31 lakh
- Skill Development: ₹ 8.29 lakh

* Includes ₹ 97.20 Lakh earmarked for 'Mahindra TERI Centre of Excellence' that was not spent during the year and is to be utilised in 2018-19.

A snapshot of the Company's community based CSR initiatives under various focus areas is provided below:

- Education
  - o Vocational skill training, Mahindra World City, Jaipur (MWCJ): Till date **1,468 Students** have been trained, of which **300 Students** have been trained in 2017-18. Around 45 percent of the trained youth have been placed in MWCJ and in the campuses of clients at MWCJ.
  - o Self Help Group, Mahindra World City, Jaipur (MWCJ): Till date **1,276 women** have been trained, of which **152 women** have been trained in 2017-18.
- Health
  - o Health check-up camps: 1,750 people from communities around the Company's project sites have undergone health check-up camps including eye, dental and general check-up.
  - o Health and hygiene, Mahindra World City Chennai (MWCC): The project aims to address the health needs as well as encourage a healthy lifestyle and behaviour in the target communities of two gram panchayats near MWCC. It also aims to improve the infrastructure facilities in the Primary Health Centre at one of these villages. A baseline survey was conducted with 300 mothers who had children under the age of 5 yrs. Community-led sessions on sanitation and hygiene were conducted in 10 target communities, and 30 households in the village have been identified for partial support in individual toilet construction.
- Environment
  - o Green Army: Through the Green Army programme, the Company sensitises school children about the environment and how a more sustainable lifestyle can be led. During the year, the Company reached out to 60 schools covering more than 10,000 students and 30,000 citizens (including students' families). Till date, over 160 schools in MMR and Pune district have been covered, touching over 30,000 students and 120,000 citizens.
  - o Mahindra Hariyali: 6,200 saplings were planted during the year across locations (Delhi, Bengaluru, Chennai, Pune, Nagpur and Jaipur).
- Community Development
  - o Blackboards in local schools: With an aim to provide better quality infrastructure within the education space, the Company took the initiative to support a local tribal school in Palghar district, which is currently deprived of basic amenities like benches and blackboards. Multiple schools were visited to do a need assessment and understand the requirements of the tribal schools in the area. This initiative helped open up 12 class rooms that were closed for over 5 years due to lack of infrastructure.

    In addition to investing in resources and expertise, the Company also mobilises employee volunteers known within the Mahindra Group as Esops (Employee Social Opportunities) Volunteers. The Esops Volunteers passionately take part in, as well as lead CSR initiatives. The Company undertakes Impact Assessment Surveys to gauge the impact of its major initiatives.

    The detailed information about the Company's social initiatives will be a part of the Sustainability Report 2017-18. The report will be released shortly on the Company's website.

Principle 9: Businesses should engage with and provide value to their customers and consumers in a responsible manner

All policies and processes finally transform into products for the customer. Mahindra Lifespaces delivers innovative customer-focussed solutions that are rooted in a legacy of trust and transparency. A pioneer of the green homes movement in India, we have been ranked 4th in Asia in our category, in the '2017 GRESB Real Estate ESG (Environmental, Social and Governance) Assessment'. Our customer-centric approach includes being accessible to our customers at all times, through multiple channels of communication and using customer feedback and inputs to improve on our products and services.

Customer satisfaction surveys are also carried out by external agencies, like the 'Customer Satisfaction Study' conducted through IMRB International. Quick resolution of customer complaints is given top priority. The percentage of customer complaints and consumer cases pending as of 31st March 2018 is 1% and 86.96% respectively.

Being in the real estate business, product labels are not applicable to the Company. However, the detailing in its project brochures are in compliance with applicable laws.

There is no case filed by any stakeholder against the company regarding unfair trade practices, irresponsible advertising and/or anti-competitive behaviour during the last five years and pending, as on 31st March 2018.

INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF MAHINDRA LIFESPACE DEVELOPERS LIMITED

Report on the Standalone Ind AS Financial Statements

We have audited the accompanying standalone Ind AS financial statements of **Mahindra Lifespace Developers Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the standalone Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph "f" under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Lifespace Developers Limited ("the Company") as of 31st March, 2018 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone Financial Statement as at and for the year ended 31st March, 2018

1. General Information

Mahindra Lifespaces Developers Limited ('the Company') is a limited company incorporated in India. The equity shares of the Company is listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) and its debentures are listed on BSE. Its parent and ultimate holding company is Mahindra & Mahindra Limited.

The addresses of its registered office and principal place of business are disclosed in the introduction to the annual report. The Company along with its subsidiary companies is engaged in the development of residential projects and large formats developments such as integrated cities and industrial clusters.

2. Significant Accounting Policies

2.1 Statement of compliance and basis of preparation and presentation

The Standalone Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the Act) and other relevant provision of the act. The aforesaid financial statements have been approved by the Company's Board of Directors and authorised for issue in the meeting held on 27th April, 2018.

2.2 Basis of measurement

These financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.3 Measurement of Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these standalone financial statements is determined on such basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2 : Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 : Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.4.1 Income from Projects

Income from real estate sales is recognised on the transfer of all significant risks and rewards of ownership to the buyers and it is not unreasonable to expect ultimate collection and no significant uncertainty exists regarding the amount of consideration. However if, at the time of transfer substantial acts are yet to be performed under the contract, revenue is recognised on proportionate basis as the acts are performed, i.e. on the percentage of completion basis.

When the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the balance sheet under trade receivables, whereas amount not billed for work performed are included as unbilled revenue under other current assets.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when

i. All critical approvals necessary for commencement of the project have been obtained and;

ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost) and;

iii. when at least 10% of the sales consideration is realised and;

iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

2.4.2 Income from Sale of land and other rights

Revenue from sale of land and other rights are considered upon transfer of all significant risks and rewards of ownership of such real estate/property as per the terms of the contract entered into with the buyers, which generally are with the firmity of the sale contracts/agreements.

2.4.3 Income from Project Management

Project Management Fees receivable on fixed period contracts is accounted over the tenure of the contract/agreement. Where the fee is linked to the input costs, revenue is recognised as a proportion of the work completed based on progress claims submitted. Where the management fee is linked to the revenue generation from the project, revenue is recognised on the percentage of completion basis.

2.4.4 Dividend and interest income

Dividend income from investment in mutual funds is recognised when the unit holder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.5 Current versus non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Based on the nature of activity carried out by the company and the period between the procurement and realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 5 years for the purpose of Current – Non Current classification of assets & liabilities.

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Borrowings are classified as current if they are due to be settled within 12 months after the reporting period.

2.6 Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

2.6.1 The Company as a Lessor

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the Company's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

2.6.2 The Company as a Lessee

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

2.7 Foreign exchange transactions and translation

Transactions in foreign currencies i.e. other than the Company's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings; and
- Exchange differences on transactions entered into in order to hedge certain foreign currency risks.

2.8 Employee Benefits

2.8.1 Superannuation Fund

The Company's contribution paid/payable during the year to Superannuation Fund is recognised in profit or loss.

2.8.2 Long term Compensated Absences & Gratuity

Company's liability towards long term compensated absences are determined by independent actuaries, using the projected unit credit method.

Company's liability towards gratuity are determined by independent actuaries, using the projected unit credit method. Past services are recognised at the earlier of the plan amendment/curtailment and the recognition of related restructuring costs/termination benefits.

The obligation on long term compensated absences and defined benefit plans are measured at the present value of estimated future cash flows using a discount rate that is determined by reference to the market yields at the balance sheet date on government bonds where the currency and terms of the government bonds are consistent with the currency and estimated terms of the obligation.

2.8.3 Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. Remeasurements are not reclassified to profit or loss in subsequent period.

Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss.

2.8.4 Employee Stock Option Scheme

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

2.9 Cash and Cash Equivalents

Cash and cash equivalent in the Balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.10 Earnings per share

Basic earnings per share is computed by dividing the profit/(Loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for treasury shares, bonus issue and bonus element in a right issue to existing shareholders, share split and reverse share split.

Diluted earnings per share is computed by dividing the profit/(loss) after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for arriving the basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares including the treasury shares held by the Company to satisfy the exercise of the share options by the employees.

2.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.12 Share based payment transaction of the Company

1. Equity-settled share-based payment to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

2. At the end of each reporting period the Company revises its estimate of the No. of equity instruments expected to vest. The impact of revision of the original estimate, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate with the corresponding adjustments to the equity settled.

2.13 Income Taxes

Income Tax expense represents the sum of tax currently payable and deferred tax

2.13.1 Current tax

Current tax is determined as the amount of tax payable in respect of taxable income for the year. The Company's current tax is calculated using tax rate that has been enacted or substantially enacted by the end of the reporting period.

2.13.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.13.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.14 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Furniture & Fixtures and Office equipment's are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation on tangible fixed assets has been provided on pro-rata basis, on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except for certain assets as indicated below:

Lease hold improvements are amortised over the period of lease/ estimated period of lease.

Vehicles used by employees are depreciated over the period of 48 months considering this period as the useful life of the vehicle for the Company.

Sales office and the sample flat/ show unit cost at site is amortised over 5 years or the duration of the project (as estimated by management) whichever is lower.

Fixed Assets held for disposal are valued at estimated net realizable value.

The Company has elected to continue with the carrying value for all of its property, plant and equipment as recognised in the financial statements as at the date of transition to Ind AS i.e. 1 April, 2015, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

2.15 Intangible Assets

2.15.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

The Company has elected to continue with the carrying value of its Intangible assets as recognised in the financial statements as at the date of transition to Ind AS i.e. 1 April, 2015, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

2.15.2 Derecognition of Intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in profit or loss when the asset is derecognised.

2.15.3 Useful lives of Intangible assets

Estimated useful lives of the intangible assets are as follows:

Computer Software	5 years

2.16 Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

Investment property includes freehold/leasehold land and building. Depreciation on investment property has been provided on pro-rata basis, on the straight-line method as per the useful life of such property. Buildings are depreciated over the period of 60 years considering this period as the useful life for the Company.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

The Company has elected to continue with the carrying value of its Investment property as recognised in the financial statements as at the date of transition to Ind AS i.e. 1 April, 2015, measured as per the previous GAAP and use that as its deemed cost as at the date of transition.

2.17 Impairment of tangible and intangible asset other than Goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount, which is the higher of the value in use or fair value less cost to sell, of the asset or cash generating unit, as the case may be, is estimated and the impairment loss (if any) is recognised and the carrying amount is reduced to its recoverable amount. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.18 Inventories

Inventories are stated at lower of cost and net realisable value. The cost of construction material is determined on the basis of weighted average method. Construction Work-in-Progress includes cost of land, premium for development rights, construction costs and allocated interest & manpower costs and expenses incidental to the projects undertaken by the Company.

2.19 Provisions, contingent liabilities and contingent assets

2.19.1 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

2.19.2 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.19.3 Contingent liabilities

Contingent liability is disclosed in case of:

a) a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and

b) a present obligation arising from past events, when no reliable estimate is possible.

2.19.4 Contingent assets

Contingent assets are disclosed where an inflow of economic benefits is probable.

2.20 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.20.1 Classification and subsequent measurement

2.20.1.1 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured at either amortised cost or fair value depending on their respective classification.

On initial recognition, a financial asset is classified as - measured at:

– Amortised cost; or

– Fair Value through Other Comprehensive Income (FVTOCI) - debt investment; or

– Fair Value through Other Comprehensive Income (FVTOCI) - equity investment; or

– Fair Value Through Profit or Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

All financial assets not classified as measured at amortised cost or FVTOCI are measured at FVTPL.

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain and loss on derecognition is recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Debt investment at FVTOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in Other Comprehensive Income (OCI). On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

For equity investments, the Company makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVTOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for medium or long term strategic purpose.

Equity investments that are not designated as measured at FVTOCI are designated as measured at FVTPL and subsequent changes in fair value are recognised in profit or loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

2.20.1.2 Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company is recognised at the proceeds received, net of directly attributable transaction costs.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

2.20.2 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

2.20.3 Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.20.4 Impairment of financial assets

The Company applies the expected credit loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVTOCI, the loss allowance is recognised in OCI and is not reduced from the carrying amount of the financial asset in the balance sheet.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write- off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements based on estimates and assumptions, which have the significant effect on the amounts recognised in the financial statements:

Taxes

Deferred tax assets are recognised for temporary differences to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Basic earnings per share (₹)	**10.48**	10.99

Diluted earnings per share

The diluted earnings per share has been computed by dividing the Net profit after tax available for Equity shareholders by the weighted average number of equity shares, after giving dilutive effect of the outstanding Warrants, Stock options and Convertible bonds for the respective periods. Since, the effect of the conversion of Preference shares was anti-dilutive, it has been ignored.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk . In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

CREDIT RISK

(i) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from trade receivables, cash and cash equivalents, mutual Funds & other financial assets.

Trade Receivables:

The Company's trade receivables include receivables on sale of residential flats and rent receivable. As per the Company's flat handover policy, a flat is handed over to a customer only upon payment of entire amount of consideration. The rent receivables are secured by security deposits obtained under the lease agreement. Thus, the Company is not exposed to any credit risk on receivables from sale of residential flats and rent receivables.

Cash and Cash Equivalents, Mutual Funds & Other Financial Assets

For banks and financial institutions, only high rated banks/institutions are accepted. The Company holds cash and cash equivalents with bank and financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its cash and cash equivalents have low credit risk based on external credit ratings of the counterparties.

The Company holds mutual funds with financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its mutual funds have low credit risk based on external credit ratings of the counterparties.

For other financial assets, the Company assesses and manages credit risk based on reasonable and supportive forward looking information. The Company does not have significant credit risk exposure for these items.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

Currency Risk

Foreign currency risk is the risk that the fair value or the future cash flows of an exposure will fluctuate because of changes in the foreign exchange rate. The Company undertakes transactions denominated in foreign currencies only for the purchases of the components which are required to carry out the construction activities. The Company manages its foreign currency risk by forward contracts that are expected to occur within a maximum 12 month from the entering of a contract.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and floating rate loans and borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Currency	Increase/ decrease in basis points	Effect on profit before tax (₹ in lakh)

34 - Segment information

"The reportable segments of the Company are 'Projects, Project Management and Development' and 'Operating of Commercial Complexes'. The segments are largely organised and managed separately according to the organisation structure that is designed based on the nature of business. Operating segments are reported in a manner consistent with the internal reporting provided to the Managing Director regarded as the Chief Operating Decision Maker ("CODM").

Description of each of the reportable segments for all periods presented, is as under:

i) Projects, Project Management & Development: This Segment of the business includes income from sale of residential units across projects, project management and development in India.

ii) Operating of Commercial Complexes: This Segment of the business includes rental income from commercial properties at Gurgaon and Pune.

The CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and gross profit as the performance indicator for all of the operating segments. The measurement of each segment's revenues, expenses and assets is consistent with the accounting policies that are used in preparation of the financial statements. Segment profit represents the profit before interest and tax. Information regarding the Company's reportable segments is presented below:

Revenue from type of products and services

The operating segments are primarily based on nature of products and services and hence the Revenue from external customers of each segment is representative of revenue based on products and services.

Geographical Information

The Company operates in one reportable geographical segment i.e. "Within India". Hence, no separate geographical segment wise disclosure is applicable as per the requirements of Ind AS 108 Operating Segments.

Information about major customers

During the year ended 31st March, 2018 and 2017 respectively, revenues from transactions with a single external customer did not amount to 10 percent or more of the Company's revenues from external customers.

Segment revenue reported above represents revenue generated from external customers. There were no inter-segment sales in the current year as well as previous year.

35 - Employee benefits

(a) Defined Contribution Plan

The Company's contribution to Provident Fund and Superannuation Fund aggregating ` 304.63 lakh (31st March, 2017 : ` 347.56 lakh) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Investment risk

The present value of the defined benefit plan liability (denominated in Indian Rupee) is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	As at	
	31-Mar-18	31-Mar-17
Discount rate(s)	**7.42%**	6.68%
Expected rate(s) of salary increase	**6.00%**	6.00%

	2017	1.00%	291.80	234.25

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to previous period.

The Company expects to contribute ₹ 97.96 lakh (31st March, 2017 ₹ 4.23 Lakh) to the gratuity trusts during the next financial year.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
MAHINDRA INFRASTRUCTURE DEVELOPERS LIMITED

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of Mahindra Infrastructure Developers Limited("the Company"), which comprise the Balance Sheet as at 31st March, 2018, and the Statement of Profit and Loss, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of theseInd AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company'spreparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of theaccounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us,the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, and its Profit, total comprehensive profit, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of Sub-Section (11) of Section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

2. As required by Section 143(3) of the Act, we report, to the extent applicable that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The Balance Sheet, the Statement of Profit and Loss, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".Our report

expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position.

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA INFRASTRUCTURE DEVELOPERS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Mahindra Infrastructure Developers Limited (“the Company”) as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1. Corporate information

Mahindra Infrastructure Developers Limited ("the Company") is a public company incorporated in India on 10 May, 2001 under the provisions of erstwhile Companies Act, 1956. The registered office of the Company is located at 5th Floor, Mahindra Towers, Dr. G. M. Bhosale Marg, P. K. Kurne Chowk, Worli, Mumbai – 400 018.

The Company is in the business of development of infrastructure projects and infrastructure related services.

The Company is subsidiary of Mahindra Lifespace Developers Limited, Mumbai, a company incorporated in India. The ultimate parent company is Mahindra & Mahindra Limited.

2. Significant accounting policies

2.1 Statement of compliance and Basis of preparation and presentation

The Standalone Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 (the Act) and other relevant provision of the act. The aforesaid financial statements have been approved by the Company's Board of Directors and authorised for issue in the meeting held on 23rd April, 2018.

2.2 Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use. The estimated useful lives, residual values, are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the statement of profit and loss.

Depreciation on assets (other than impaired assets) is calculated on straight line method at the rate of 11.31% p.a. which is based on useful life of about 9 years determined on the basis of technical evaluation by the Management of the Company and is different from the useful life of 15 years indicated in part C of schedule II to the Companies Act, 2013.

2.3 Impairment of assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement profit and loss.

2.4 Inventories

Inventories are stated at the lower of cost and net realisable value, whichever is lower. Cost is arrived at on first-in-first-out basis and includes overheads on absorption basis, where appropriate.

Financial assets and liabilities

2.5 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Statement of profit or loss.

2.6 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.6.1 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets. With respect to trade receivables, the Company measures the loss allowances at an amount equal to lifetime expected credit losses.

2.6.2 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in the statement of profit and loss if such gain or loss would have otherwise been recognised in the statement of profit and loss on disposal of that financial asset.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

2.7 Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.7.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in the statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.7.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at Fair value through profit and loss.

2.7.1.2 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between the lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

2.8 Revenue recognition

Revenue on account of sale of services is recognised under the completed service contract method to the extent it is probable that the economic benefit will flow to the Company and the revenue can be reliably measured.

Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers.

Dividend income is recognised in the statement of profit and loss when the right to receive payment is established.

Interest Income is accounted for on time proportion basis.

2.9 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.9.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.9.2 Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.9.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.9.4 Minimum Alternate Tax (MAT):

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax against which the MAT paid will be adjusted.

2.10 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.11 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/(loss) for the year is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3. Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses, etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
MAHINDRA WORLD CITY (MAHARASHTRA) LIMITED

Report on the Ind AS Financial Statements

1. We have audited the accompanying financial statements of Mahindra World City (Maharashtra) Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

2. The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2018, and its loss and cash flows for the year ended on that date.

Report on other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order,2016, issued by the Central Government of India in term of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure A,a statement on the matters specified in the paragraphs 3 and 4 of the Order.
10. As required by section 143(3) of the Act, we report that:
    a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
    b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;
    c) the Balance Sheet, the Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account;
    d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);
    e) On the basis of written representations received from the directors as on March 31, 2018, taken on record by the Board of Directors, none of the directors

is disqualified as on March 31, 2018, from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure B.

g) With respect to the other matters included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended) in our opinion and to our best of our information and according to the explanations given to us:

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA WORLD CITY (MAHARASHTRA) LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra World City (Maharashtra) Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

1. Corporate information

Mahindra World City (Maharashtra) Limited("the Company") is a public company incorporated in 2005 under the provisions of erstwhile Companies Act, 1956. The registered office of the Company is located at 5th Floor, Mahindra Towers, Dr. G.M.Bhosale Marg, P.K. Kurne Chowk, Worli, Mumbai – 400 018.

The Company is in the business of development of Multi product SEZ in Maharashtra as a joint venture with Maharashtra Industrial Development Corporation (MIDC).

The Company is subsidiary of Mahindra Lifespace Developers Limited, Mumbai, a company incorporated in India. The ultimate parent company is Mahindra & Mahindra Limited.

2. Significant accounting policies

2.1 Statement of compliance and Basis of preparation and presentation

The Standalone Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 (the Act) and other relevant provision of the act. The aforesaid financial statements have been approved by the Company's Board of Directors and authorised for issue in the meeting held on 17th April, 2018.

2.2 Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use. The estimated useful lives, residual values, are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the statement of profit and loss.

Financial assets and Liabilities

2.3 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Statement of profit or loss.

2.4 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.4.1 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets. With respect to trade receivables, the Company measures the loss allowances at an amount equal to lifetime expected credit losses.

2.4.2 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in the statement of profit and loss if such gain or loss would have otherwise been recognised in the statement of profit and loss on disposal of that financial asset.

2.5 Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.5.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in the statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.5.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at Fair value through profit and loss.

2.5.1.2 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between the lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

2.6 Revenue recognition

Revenue on account of sale of services is recognised under the completed service contract method to the extent it is probable that the economic benefit will flow to the Company and the revenue can be reliably measured.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers.

Dividend income is recognised in the statement of profit and loss when the right to receive payment is established.

Interest Income is accounted for on time proportion basis.

2.7 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.7.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.7.2 Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.7.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.7.4 Minimum Alternate Tax (MAT):

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax against which the MAT paid will be adjusted.

2.8 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.9 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/(loss) for the year is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3. Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses, etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

ANNEXURE 3

POLICY FOR REMUNERATION OF THE DIRECTORS

I. Purpose

This Policy sets out the approach to Compensation of Directors in Mahindra Integrated Township Limited.

II. Policy Statement

We have a well-defined Compensation policy for Directors including the Chairman of the Company. The overall compensation philosophy which guides us is that in order to achieve global leadership and dominance in domestic markets, we need to attract and retain high performers by compensating them at levels that are broadly comparable with the median of the comparator basket while differentiating people on the basis of performance, potential and criticality for achieving competitive advantage in the business.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

III. Non-executive including independent directors:

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both Fixed and variable, to the Non Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act 2013 and such other factors as the NRC may consider deem fit for determining the compensation. The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

IV. Executive Directors:

The remuneration to Executive Director(s) shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of their appointment, the variable compensation will be determined annually / half yearly by the NRC based on their performance.

The remuneration involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

The Company may also grant Stock Options to the Directors (other than Independent Directors and Promoter) in accordance with the ESOP Scheme of the Company, if any, and subject to the compliance of the applicable statutes and regulations.

ANNEXURE 4

POLICY ON REMUNERATION OF KEY MANAGERIAL PERSONNEL AND EMPLOYEES

This Policy is effective from the financial year 2014-15.

Objective

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

Standards

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July i.e. after the salary increment exercise.
- The variable component of the remuneration will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive. Based on the findings of the survey and the business performance, the Sector Talent Council decides:
  a. The increment that needs to be paid for different performance ratings as well as grades.
  b. The increment for promotions and the total maximum increment.
  c. The maximum increase in compensation cost in % and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep it tune with the market.

ANNEXURE 5

WHISTLE BLOWER POLICY

1. **The Whistle Blower Policy is effective from 1st April 2014.**

2. **Preface**

   Mahindra Integrated Township Limited (MITL) ("the Company") is committed to conducting its business in accordance with applicable laws, rules and regulations and the highest standards of business ethics, honesty, integrity and ethical conduct. Towards this end, the Company has adopted three separate Codes of Conduct viz. for Directors, for Independent Directors and for Senior Management and Employees (collectively referred to as "Codes" or "the Codes") and various Policies under the helm of Corporate Governance which inter alia include Policy on Disaster Management, Environment & Pollution, Human Resources, Insider Trading, Investor Relations, etc. (collectively referred to as "Policies") which lays down the principles and standards that should govern the actions of the Company and its Employees. Any actual or potential violation of the Code/Policies, howsoever insignificant or perceived as such, would be a matter of serious concern for the Company. The role of the Employees/Directors in pointing out such violations of the Code/Policies cannot be undermined.

   Further, as per the provisions of sub-section 9 of section 177 of Companies Act. 2013 ("the Act" or "Act"), the company has been mandated to establish a vigil mechanism for directors and employees of the company to report to the Management, instances of unethical behaviour, actual or suspected, fraud or violation of the Company's Code or Policies.

   Accordingly, this Whistle Blower Policy ("the Policy" or "this Policy") has been formulated with a view to provide a mechanism for Directors and Employees of the Company to approach the Audit Committee.

3. **Definitions**

   The definitions of the key terms used in this Policy are given below. [Terms not defined herein below shall have the meaning assigned to them under the Codes/Policies/ Act.]

   a. "Audit Committee" means the Audit Committee constituted by the Board of Directors of the Company in accordance with Section 177 of the Companies Act, 2013 and read with Clause 49 of the Listing Agreement with the Stock Exchanges.

   b. "Codes" mean three separate Codes of Conduct viz. for Directors, for Independent Directors and for Senior Management and Employees.

   c. "Director" means a director as defined under Section 2 (34) of the Companies Act, 2013.

   d. "Employee" means every employee of the Company (whether working in India or abroad), including the Directors in the whole time employment of the Company.

   e. "Investigators" means those persons authorised, appointed, consulted or approached by the Audit Committee and the Police.

   f. "Protected Disclosure" means any communication made in good faith that discloses or demonstrates information that may evidence illegal or unethical behaviour, actual or suspected fraud or violation of the Company's Codes or Policies or any improper activity.

   g. "Subject" means a person against or in relation to whom a Protected Disclosure has been made or evidence gathered during the course of an investigation.

   h. "Whistle Blower" means a Director or Employee making a Protected Disclosure under this Policy.

4. **Scope**

   a. The Whistle Blower's role is that of a reporting party with reliable information. They are not required or expected to act as investigators or finders of facts nor would they determine the appropriate corrective or remedial action that may be warranted in a given case.

   b. Whistle Blowers should not act on their own in conducting any investigative activities, nor do they have a right to participate in any investigative activities other than as requested by the Audit Committee or the Investigator.

   c. Protected Disclosure will be appropriately dealt with by the Audit Committee.

5. **Eligibility**

   All the Directors and Employees of the Company are eligible to make Protected Disclosures under the Policy. The Protected Disclosures may be in relation to matters concerning the Company.

6. **Procedure**

   a. All Protected Disclosures should be addressed to the Audit Committee.

   b. If a protected disclosure is received by any Executive(s) of the Company other than the Audit Committee member, the same should be forwarded to the Audit Committee for further appropriate action.

   c. Appropriate care must be taken to keep the identity of the Whistle Blower(s) confidential.

   d. Protected Disclosures should be reported in writing so as to ensure a clear understanding of the issues raised, be typed in English, Hindi or in the Regional Language of the place of employment of the Whistle Blower(s).

e. The Protected Disclosure should be forwarded under a covering letter which shall bear the identity of the Whistle Blower(s). The Audit Committee shall detach the covering letter and forward only the Protected Disclosure to the Investigators for investigation.

f. Protected Disclosures should be factual and not speculative or in the nature of a conclusion, and should contain as much specific information as possible to allow for proper assessment of the nature and extent of the concern.

7. Investigation

a. All Protected Disclosures reported under this Policy would be thoroughly investigated by the Audit Committee who would investigate/oversee the investigations.

b. The Audit Committee may at their discretion, consider involving any Investigators for the purpose of investigation.

c. The decision to conduct an investigation taken by the Audit Committee is by itself not an accusation and is to be treated as a neutral fact-finding process. The outcome of the investigation may or may not support the conclusion of the Whistle Blower that an improper or unethical act was committed.

d. The identity of a Subject and the Whistle Blower would be kept confidential to the extent possible given the legitimate needs of law and the investigation.

e. Subjects would normally be informed of the allegations at the outset of a formal investigation and have opportunities for providing their inputs during the investigation.

f. Subjects shall have a duty to co-operate with the Audit Committee or any of the Investigators during investigation to the extent that such co-operation will not compromise self-incrimination protections available under the applicable laws.

g. Subjects have a right to consult with a person or persons of their choice, other than the Audit Committee.

h. Subjects have a responsibility not to interfere with the investigation. Evidence shall not be withheld, destroyed or tampered with and witnesses shall not be influenced, coached, threatened or intimidated by the Subjects.

i. Unless there are compelling reasons not to do so, Subjects would be given the opportunity to respond to material findings contained in an investigation report. No allegation of wrongdoing against a Subject shall be considered as maintainable unless there is good evidence in support of the allegation.

j. Subjects have a right to be informed of the outcome of the investigation.

k. The investigation shall be completed normally within 45 days of the receipt of the Protected Disclosure.

8. Protection

a. For the purpose of providing protection to the Whistle Blower(s), the Whistle Blower(s) should disclose his/her identity in the covering letter forwarding such Protected Disclosure.

b. The identity of the Whistle Blower(s) shall be kept confidential unless otherwise required by law, and in which case the Whistle Blower(s) would be informed accordingly.

c. No unfair treatment would be meted out to a Whistle Blower(s) by virtue of his/her having reported a Protected Disclosure under this Policy. The Company, as a Policy, condemns any kind of discrimination, harassment, victimisation or any other unfair employment practice being adopted against Whistle Blower(s). Complete protection would, therefore, be given to Whistle Blower(s) against any unfair practice like retaliation, threat or intimidation of termination/suspension of service, disciplinary action, transfer, demotion, refusal of promotion or the like including any direct or indirect use of authority to obstruct the Whistle Blower's right to continue to perform his duties/functions including making further Protected Disclosure. The Company would take steps to minimise difficulties, which the Whistle Blower(s) may experience as a result of making the Protected Disclosure.

d. A Whistle Blower(s) may report any violation of the above Clause to the Audit Committee who shall investigate into the same and advise suitable action to the Management.

e. Any other Employee assisting in the said investigation shall also be protected to the same extent as the Whistle Blower(s).

9. Disqualifications

a. While it would be ensured that genuine Whistle Blower(s) are accorded complete protection from any kind of unfair treatment as herein set out, any abuse of this protection would warrant disciplinary action.

b. Protection under this Policy would not mean protection from disciplinary action arising out of false or bogus allegations made by a Whistle Blower(s) knowing it to be false or bogus or with a mala fide intention.

c. Whistle Blower(s), who make any Protected Disclosures, which have been subsequently found to be mala fide or malicious or Whistle Blower(s) who make 3 or more Protected Disclosures, which have been subsequently found to be frivolous, baseless or reported otherwise than in good faith, would be disqualified from reporting further Protected Disclosures under this Policy and may be subject to disciplinary action.

10. Investigators

a. Investigators are required to conduct a process towards fact-finding and analysis. Investigators shall derive their authority and access rights from the Audit Committee when acting within the course and scope of their investigation.

b. Technical and other resources may be drawn upon as necessary to augment the investigation. All Investigators shall be independent and unbiased both in fact and as perceived. Investigators have a duty of fairness, objectivity, thoroughness, ethical behaviour and observance of legal and professional standards.

c. Investigations would be launched only after a preliminary review by the Audit Committee, as the case may be, which establishes that:

   i. the alleged act constitutes an improper or unethical activity or conduct; and

   ii. the allegation is supported by information specific enough to be investigated or in cases where the allegation is not supported by specific information, it is felt that the concerned matter is worthy of Management review.

11. Decision

If an investigation leads the Audit Committee to conclude that an illegal or unethical behaviour, actual or suspected fraud or violation of the Company's Codes or Policies or any improper activity has taken place/has been committed, the Audit Committee shall advise to the Management of the Company to take such disciplinary or corrective action as the Audit Committee may deem fit.

12. Reporting

A report with number of complaints received under this Policy and their outcome shall be placed before the Audit Committee on a regular basis.

13. Retention of documents

All Protected Disclosures in writing or documented alongwith the results of investigation relating thereto shall be retained by the Company for a minimum period of seven year.

14. Amendment

The Company reserves its right to amend or modify this Policy in whole or in part, at any time without assigning any reason whatsoever. However, no such amendment or modification would be binding on the Employees/ Directors unless the same is notified to the Employees/ Director.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
MAHINDRA INTEGRATED TOWNSHIP LIMITED

Report on the Ind AS Financial Statements

1. We have audited the accompanying Ind AS financial statements of **MAHINDRA INTEGRATED TOWNSHIP LIMITED**("the Company"), which comprise the balance sheet as at March 31, 2018, and the statements of profit and loss(including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as " Ind AS financial statements")

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act,read with Rule 7 of the Companies (Accounts) Rules, 2014(as amended).

   This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent;and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the company as at March 31, 2018 and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year then ended on that date.

Report on Other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA INTEGRATED TOWNSHIP LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **MAHINDRA INTEGRATED TOWNSHIP LIMITED** ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

1. General Information

The Company was incorporated on June 26, 1996.

The Company is a Co-developer, approved under Special Economic Zone Act, 2005, engaged in development of township including residential infrastructure in Mahindra World City SEZ and giving it on perpetual lease. Accordingly the Company is entitled to 100% deduction of its income under the Income Tax Act, 1961 up to Assessment year 2019-20. The level of activity carried out by the Company depends on the number of projects handled and accordingly the revenue from operations may not be comparable on a year-to-year basis.

2. Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.3.1 Construction contracts

When the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the consolidated balance sheet under trade receivables.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when

i. All critical approvals necessary for commencement of the project have been obtained and

ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost) and

iii. when at least 10% of the sales consideration is realised and

iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

2.3.2 Rendering of services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. The stage of completion of the contract is measured based on the proportion of costs incurred for rendering of the service to date relative to the estimated total costs, except where this would not be representative of the stage of completion

2.3.3 Sale of goods

Revenue from the sale of goods (i.e. residential units sold and entire consideration after the receipt of completion certificate or similar document from the concerned local authority) is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

2.3.4 Dividend and interest income

Dividend income from investment in mutual funds is recognised when the unit holder’s right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportionate basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.4 Foreign currencies

In preparing the financial statements of the Company, transactions in currencies other than the entity’s functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings; and
- exchange differences on transactions entered into in order to hedge certain foreign currency risks

2.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.6.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from ‘profit before tax’ as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company’s current tax is calculated using tax rates that have been enacted by the end of the reporting period.

2.6.2 Deferred tax

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognized as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.6.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.7 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company’s accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.8 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.9 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in-first-out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

2.10 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) because of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.11 Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.12 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.12.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the impairment policy on financial assets measured at amortised cost, refer Note 2.12.5

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

For the impairment policy on debt instruments at FVTOCI, refer Note 3.24.5

All other financial assets are subsequently measured at fair value.

2.12.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

2.12.3 Investments in equity instruments at FVTOCI

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

2.12.4 Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading (see note 2.12.3 above).

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

2.12.5 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.12.6 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

2.12.7 Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.
- For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

2.13 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

2.13.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.13.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

2.13.1.2 Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies, may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a Company of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognised in profit or loss. The remaining amount of change in the fair value of liability is always recognised in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the Company that are designated by the Company as at fair value through profit or loss are recognised in profit or loss.

2.13.1.3 Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

2.13.1.4 Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in 'Other income'.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in profit or loss.

2.13.1.5 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.14 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 1, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Defect Liability Provision:

Provision for defect liability represents present value of management's best estimate of the future outflow of economic resources that will be required in respect of residential units given under perpetual lease, the estimated cost of which is accrued during the period of construction, upon lease of units and recognition of related revenue. Management estimates the related provision for future defect liability claims based on historical cost of rectifications and is adjusted regularly to reflect new information. The residential units are generally covered under a defect liability period limited to 1 year from the date of handover of residential units. It is expected that most of these costs will be incurred within two years after the reporting date.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(i) Credit risk management

The amount of trade receivable of residential business as appearing in the balance sheet of the company shows the amount due from the customers to whom the flat has not yet been handed over to him. As per the company's flat handover policy, a flat to a customer is handed over to him only upon clearing of entire dues payable by him and not before that, since the flat is in the custody of the company and as per the terms of the agreement with the customer's, he/she can claim the right on the property only upon clearing of all the dues and proper handover of flat to him, company is not exposed to any credit loss risk. Further there has been no instance in past which shows that the company has handed over any unit to a customer with any dues pending from him and has exposed to a credit risk. In light of the above fact the company is not making any provision for expected credit loss.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

All amounts are in lakh unless otherwise stated

The amounts included above for financial guarantee contracts are the maximum amounts the Company could be forced to settle under the arrangement for the full guaranteed amount if that amount is claimed by the counterparty to the guarantee. Based on expectations at the end of the reporting period, the Company considers that it is more likely than not that such an amount will not be payable under the arrangement.

(iii) Financing arrangements

The Company had access to following undrawn borrowing facilities at the end of the reporting period:

Particulars	31-Mar-2018	31-Mar-2017
Secured Bank Overdraft facility

(iv) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

The amounts included above for variable interest rate instruments for both non-derivative financial assets and liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company uses derivatives to manage market risks. Derivatives are only used for economic hedging purposes and not as speculative investments. All such transactions are carried out within the guidelines set by the Board of Directors and Risk Management Committee.

There has been no significant changes to the company's exposure to market risk or the methods in which they are managed or measured.

Currency Risk

The Company undertakes transactions denominated only in India Rupees and hence there is no risk of foreign exchange fluctuations.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

The Company manages its interest rate risk by having a balanced portfolio of fixed and variable rate loans and borrowings. The Company's policy is to keep between 80% and 60% of its borrowings at fixed rates of interest, excluding borrowings that relate to discontinued operations. To manage this, the Company enters into interest rate swaps, in which it agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount. At 31 March 2018, after taking into account the effect of interest rate swaps, approximately 100% of the Company's borrowings are at a fixed rate of interest (31 March 2017: 93%).

Interest rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for both derivative and non-derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year. The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Currency	Increase/ decrease in basis points	Effect on profit before tax
31-Mar-18	**INR**	**+100**	**–**
	INR	**–100**	**–**
31-Mar-17	INR	+100	(5.94)

ANNEXURE 2

POLICY FOR REMUNERATION OF THE DIRECTORS

I. Purpose

This Policy sets out the approach to Compensation of Directors in Knowledge Township Limited.

II. Policy Statement

We have a well-defined Compensation policy for Directors including the Chairman of the Company. The overall compensation philosophy which guides us is that in order to achieve global leadership and dominance in domestic markets, we need to attract and retain high performers by compensating them at levels that are broadly comparable with the median of the comparator basket while differentiating people on the basis of performance, potential and criticality for achieving competitive advantage in the business.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

III. Non-Executive including Independent Directors

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both fixed and variable, to the Non-Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as Director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act, 2013 and such other factors as the NRC may consider deem fit for determining the compensation.

The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholder's resolution.

IV. Executive Directors

The remuneration to Executive Director(s) shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as approved by the Board and within the overall limits specified in the Shareholder's resolution. While the fixed compensation is determined at the time of their appointment, the variable compensation will be determined annually / half yearly by the NRC based on their performance.

The remuneration involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

The Company may also grant Stock Options to the Directors (other than Independent Directors and Promoter) in accordance with the ESOP Scheme of the Company, if any, and subject to the compliance of the applicable statutes and regulations.

ANNEXURE 3

POLICY ON REMUNERATION OF KEY MANAGERIAL PERSONNEL AND EMPLOYEES

This Policy shall be effective from the financial year 2014-15.

Objective

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

Standards

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July, i.e., after the salary increment exercise.
- The variable component of the remuneration will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive. Based on the findings of the survey and the business performance, the Sector Talent Council decides:
  a) The increment that needs to be paid for different performance ratings as well as grades.
  b) The increment for promotions and the total maximum increment.
  c) The maximum increase in compensation cost in % and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep it tune with the market.

We have audited the accompanying Ind AS financial statements of Knowledge Township Limited ("the Company"), which comprise the balance sheet as at March 31, 2018, and the statements of profit and loss(including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS financial statements")

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS)prescribed under Section 133 of the Act,read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended).

   This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent;and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF KNOWLEDGE TOWNSHIP LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Knowledge Township Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

1. General Information

The company was incorporated on August 16, 2007 and is engaged in the business of development of Knowledge City in Pune, Maharashtra. Its parent and ultimate holding company is Mahindra Lifespace Developers Ltd.

The addresses of its registered office and principal place of business are disclosed in the introduction to the annual report.

2. Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Companytakes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

2.3 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

2.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.4.1 Construction contracts

When the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the consolidated balance sheet under trade receivables.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when

i. All critical approvals necessary for commencement of the project have been obtained and

ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost) and

iii. when at least 10% of the sales consideration is realised and

iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

2.4.2 Rendering of services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. The stage of completion of the contract is measured based on the proportion of costs incurred for rendering of the service to date relative to the estimated total costs, except where this would not be representative of the stage of completion

2.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.6.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.6.2 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.7 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.8 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in-first-out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

2.9 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.9.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.10 Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.11 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

2.11.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

1.28 First-time adoption – mandatory exceptions, optional exemptions, and

2.11.2 Overall principle

The Company has prepared the opening balance sheet as per Ind AS as of 1 April 2015 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to the certain exception and certain optional exemptions availed by the Company as detailed below.

2.11.3 Derecognition of financial assets and financial liabilities

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after 1 April 2015 (the transition date).

2.11.4 Classification of debt instruments

The Company has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTOCI criteria based on the facts and circumstances that existed as of the transition date.

2.11.5 Impairment of financial assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

2.11.6 Assessment of embedded derivatives

The Company has assessed whether an embedded derivative is required to be separated from the host contract and accounted for as a derivative on the basis of the conditions that existed at the later of the date it first became a party to the contract and the date when there has been a change in the terms of the contract that significantly modifies the cash flows that otherwise would be required under the contract.

2.11.7 Deemed cost for property, plant and equipment, investment property, and intangible assets

The Company has not elected the exemption of previous GAAP carrying value of all its Property, Plant and Equipment, Investment Property, and Intangible Assets recognised as of 1 April 2015 (transition date) as deemed cost.

2.11.8 Determining whether an arrangement contains a lease

The Company has applied Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

ANNEXURE 3

POLICY FOR REMUNERATION OF THE DIRECTORS

A. PURPOSE

This Policy sets out the approach to Compensation of Directors in Mahindra Residential Developers Limited.

B. POLICY STATEMENT

We have a well-defined Compensation policy for Directors including the Chairman of the Company. The overall compensation philosophy which guides us is that in order to achieve global leadership and dominance in domestic markets, we need to attract and retain high performers by compensating them at levels that are broadly comparable with the median of the comparator basket while differentiating people on the basis of performance, potential and criticality for achieving competitive advantage in the business.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

C. NON-EXECUTIVE INCLUDING INDEPENDENT DIRECTORS:

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both Fixed and variable, to the Non Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act 2013 and such other factors as the NRC may consider deem fit for determining the compensation.

The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

D. EXECUTIVE DIRECTORS:

The remuneration to Executive Director(s) shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of their appointment, the variable compensation will be determined annually/half yearly by the NRC based on their performance.

The remuneration involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

The Company may also grant Stock Options to the Directors (other than Independent Directors and Promoter) in accordance with the ESOP Scheme of the Company, if any, and subject to the compliance of the applicable statutes and regulations.

ANNEXURE 4

POLICY ON REMUNERATION OF KEY MANAGERIAL PERSONNEL AND EMPLOYEES

This Policy is effective from the financial year 2014 - 15.

Objective

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

Standards

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July i.e. after the salary increment exercise.
- The variable component of the remuneration will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive. Based on the findings of the survey and the business performance, the Sector Talent Council decides:
  a. The increment that needs to be paid for different performance ratings as well as grades.
  b. The increment for promotions and the total maximum increment.
  c. The maximum increase in compensation cost in % and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep it tune with the market.

ANNEXURE 5

WHISTLE BLOWER POLICY

1. **The Whistle Blower Policy is effective from 1st April 2014.**

2. **Preface**

Mahindra Residential Developers Limited (MRDL) ("the Company") is committed to conducting its business in accordance with applicable laws, rules and regulations and the highest standards of business ethics, honesty, integrity and ethical conduct. Towards this end, the Company has adopted three separate Codes of Conduct viz. for Directors, for Independent Directors and for Senior Management and Employees (collectively referred to as "Codes" or "the Codes") and various Policies under the helm of Corporate Governance which inter alia include Policy on Disaster Management, Environment & Pollution, Human Resources, Insider Trading, Investor Relations, etc. (collectively referred to as "Policies") which lays down the principles and standards that should govern the actions of the Company and its Employees. Any actual or potential violation of the Code/Policies, howsoever insignificant or perceived as such, would be a matter of serious concern for the Company. The role of the Employees/Directors in pointing out such violations of the Code/Policies cannot be undermined.

Further, as per the provisions of sub-section 9 of section 177 of Companies Act. 2013 ("the Act" or "Act"), the company has been mandated to establish a vigil mechanism for directors and employees of the company to report to the Management, instances of unethical behaviour, actual or suspected, fraud or violation of the Company's Code or Policies.

Accordingly, this Whistle Blower Policy ("the Policy" or "this Policy") has been formulated with a view to provide a mechanism for Directors and Employees of the Company to approach the Audit Committee.

3. **Definitions**

The definitions of the key terms used in this Policy are given below. [Terms not defined herein below shall have the meaning assigned to them under the Codes/Policies/ Act.]

a. "Audit Committee" means the Audit Committee constituted by the Board of Directors of the Company in accordance with Section 177 of the Companies Act, 2013.

b. "Codes" mean three separate Codes of Conduct viz. for Directors, for Independent Directors and for Senior Management and Employees.

c. "Director" means a director as defined under Section 2 (34) of the Companies Act, 2013.

d. "Employee" means every employee of the Company (whether working in India or abroad), including the Directors in the whole time employment of the Company.

e. "Investigators" means those persons authorised, appointed, consulted or approached by the Audit Committee and the Police.

f. "Protected Disclosure" means any communication made in good faith that discloses or demonstrates information that may evidence illegal or unethical behaviour, actual or suspected fraud or violation of the Company's Codes or Policies or any improper activity.

g. "Subject" means a person against or in relation to whom a Protected Disclosure has been made or evidence gathered during the course of an investigation.

h. "Whistle Blower" means a Director or Employee making a Protected Disclosure under this Policy.

4. **Scope**

a. The Whistle Blower's role is that of a reporting party with reliable information. They are not required or expected to act as investigators or finders of facts nor would they determine the appropriate corrective or remedial action that may be warranted in a given case.

b. Whistle Blowers should not act on their own in conducting any investigative activities, nor do they have a right to participate in any investigative activities other than as requested by the Audit Committee or the Investigator.

c. Protected Disclosure will be appropriately dealt with by the Audit Committee.

5. **Eligibility**

All the Directors and Employees of the Company are eligible to make Protected Disclosures under the Policy. The Protected Disclosures may be in relation to matters concerning the Company.

6. **Procedure**

a. All Protected Disclosures should be addressed to the Audit Committee.

b. If a protected disclosure is received by any Executive(s) of the Company other than the Audit Committee member, the same should be forwarded to the Audit Committee for further appropriate action.

c. Appropriate care must be taken to keep the identity of the Whistle Blower(s) confidential.

d. Protected Disclosures should be reported in writing so as to ensure a clear understanding of the issues raised, be typed in English, Hindi or in the Regional Language of the place of employment of the Whistle Blower(s).

e. The Protected Disclosure should be forwarded under a covering letter which shall bear the identity of the Whistle Blower(s). The Audit Committee shall detach the covering letter and forward only the Protected Disclosure to the Investigators for investigation.

f. Protected Disclosures should be factual and not speculative or in the nature of a conclusion, and should contain as much specific information as possible to allow for proper assessment of the nature and extent of the concern.

7. Investigation

a. All Protected Disclosures reported under this Policy would be thoroughly investigated by the Audit Committee who would investigate/oversee the investigations.

b. The Audit Committee may at their discretion, consider involving any Investigators for the purpose of investigation.

c. The decision to conduct an investigation taken by the Audit Committee is by itself not an accusation and is to be treated as a neutral fact-finding process. The outcome of the investigation may or may not support the conclusion of the Whistle Blower that an improper or unethical act was committed.

d. The identity of a Subject and the Whistle Blower would be kept confidential to the extent possible given the legitimate needs of law and the investigation.

e. Subjects would normally be informed of the allegations at the outset of a formal investigation and have opportunities for providing their inputs during the investigation.

f. Subjects shall have a duty to co-operate with the Audit Committee or any of the Investigators during investigation to the extent that such co-operation will not compromise self-incrimination protections available under the applicable laws.

g. Subjects have a right to consult with a person or persons of their choice, other than the Audit Committee.

h. Subjects have a responsibility not to interfere with the investigation. Evidence shall not be withheld, destroyed or tampered with and witnesses shall not be influenced, coached, threatened or intimidated by the Subjects.

i. Unless there are compelling reasons not to do so, Subjects would be given the opportunity to respond to material findings contained in an investigation report. No allegation of wrongdoing against a Subject shall be considered as maintainable unless there is good evidence in support of the allegation.

j. Subjects have a right to be informed of the outcome of the investigation.

k. The investigation shall be completed normally within 45 days of the receipt of the Protected Disclosure.

8. Protection

a. For the purpose of providing protection to the Whistle Blower(s), the Whistle Blower(s) should disclose his/her identity in the covering letter forwarding such Protected Disclosure.

b. The identity of the Whistle Blower(s) shall be kept confidential unless otherwise required by law, and in which case the Whistle Blower(s) would be informed accordingly.

c. No unfair treatment would be meted out to a Whistle Blower(s) by virtue of his/her having reported a Protected Disclosure under this Policy. The Company, as a Policy, condemns any kind of discrimination, harassment, victimisation or any other unfair employment practice being adopted against Whistle Blower(s). Complete protection would, therefore, be given to Whistle Blower(s) against any unfair practice like retaliation, threat or intimidation of termination/suspension of service, disciplinary action, transfer, demotion, refusal of promotion or the like including any direct or indirect use of authority to obstruct the Whistle Blower's right to continue to perform his duties/functions including making further Protected Disclosure. The Company would take steps to minimise difficulties, which the Whistle Blower(s) may experience as a result of making the Protected Disclosure.

d. A Whistle Blower(s) may report any violation of the above Clause to the Audit Committee who shall investigate into the same and advise suitable action to the Management.

e. Any other Employee assisting in the said investigation shall also be protected to the same extent as the Whistle Blower(s).

9. Disqualifications

a. While it would be ensured that genuine Whistle Blower(s) are accorded complete protection from any kind of unfair treatment as herein set out, any abuse of this protection would warrant disciplinary action.

b. Protection under this Policy would not mean protection from disciplinary action arising out of false or bogus allegations made by a Whistle Blower(s) knowing it to be false or bogus or with a mala fide intention.

c. Whistle Blower(s), who make any Protected Disclosures, which have been subsequently found to be mala fide or malicious or Whistle Blower(s) who make 3 or more Protected Disclosures, which have been subsequently found to be frivolous, baseless or reported otherwise than in good faith, would be disqualified from reporting further Protected Disclosures under this Policy and may be subject to disciplinary action.

10. Investigators

a. Investigators are required to conduct a process towards fact-finding and analysis. Investigators shall derive their authority and access rights from the Audit Committee when acting within the course and scope of their investigation.

b. Technical and other resources may be drawn upon as necessary to augment the investigation. All Investigators shall be independent and unbiased both in fact and as perceived. Investigators have a duty of fairness, objectivity, thoroughness, ethical behaviour and observance of legal and professional standards.

c. Investigations would be launched only after a preliminary review by the Audit Committee, as the case may be, which establishes that:

   i. the alleged act constitutes an improper or unethical activity or conduct; and

   ii. the allegation is supported by information specific enough to be investigated or in cases where the allegation is not supported by specific information, it is felt that the concerned matter is worthy of Management review.

11. Decision

If an investigation leads the Audit Committee to conclude that an illegal or unethical behaviour, actual or suspected fraud or violation of the Company's Codes or Policies or any improper activity has taken place/has been committed, the Audit Committee shall advise to the Management of the Company to take such disciplinary or corrective action as the Audit Committee may deem fit.

12. Reporting

A report with number of complaints received under this Policy and their outcome shall be placed before the Audit Committee on a regular basis.

13. Retention of documents

All Protected Disclosures in writing or documented along with the results of investigation relating thereto shall be retained by the Company for a minimum period of seven year.

14. Amendment

The Company reserves its right to amend or modify this Policy in whole or in part, at any time without assigning any reason whatsoever. However, no such amendment or modification would be binding on the Employees/ Directors unless the same is notified to the Employees/ Director.

We have audited the accompanying Ind AS financial statements of **MAHINDRA RESIDENTIAL DEVELOPERS LIMITED** ("the Company"), which comprise the balance sheet as at March 31, 2018, and the statements of profit and loss(including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS financial statements")

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act,read with Rule 7 of the Companies (Accounts) Rules, 2014(as amended).

   This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent;and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the company as at March 31, 2018 and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year then ended on that date.

Report on Other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

10. As required by Section 143(3) of the Act, we report that:
    a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
    b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
    c. the Balance Sheet, the Statement of Profit and Loss, statement of Cash Flow and the statement of changes in equity dealt with by this Report are in agreement with the books of account;
    d. In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);
    e. On the basis of written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018, from being appointed as a director in terms of Section 164(2) of the Act.
    f. With respect to the adequacy of internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure II.
    g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014(as amended), in our opinion and to the best of our information and according to the explanations given to us:
       i. The Company does not have any pending litigations which would impact its financial position.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

1. General Information

The Company was incorporated on February 1, 2008.

The Company is a Co-developer approved under Special Economic Zone Act, 2005, engaged in development of residential infrastructure in Mahindra World City SEZ and giving it on perpetual lease. Accordingly the Company is entitled to a 100% deduction of its income under the Income Tax Act, 1961 up to Assessment year 2019-20. The level of activity carried out by the Company depends on the number of projects handled and accordingly the revenue from operations may not be comparable on a year-to-year basis.

2. Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

2.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.4.1 Construction contracts

When the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the consolidated balance sheet under trade receivables.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when

i. All critical approvals necessary for commencement of the project have been obtained and

ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost) and

iii. when at least 10% of the sales consideration is realised and

iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

2.4.2 Rendering of services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. The stage of completion of the contract is measured based on the proportion of costs incurred for rendering of the service to date relative to the estimated total costs, except where this would not be representative of the stage of completion

2.4.3 Sale of goods

Revenue from the sale of goods (i.e. residential units sold and entire consideration after the receipt of completion certificate or similar document from the concerned local authority) is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

- it is probable that the economic benefits associated with the transaction will flow to the Company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

2.4.4 Dividend and interest income

Dividend income from investment in mutual funds is recognised when the unit holder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportionate basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.5 Foreign currencies

In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise except for:

- exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings; and
- exchange differences on transactions entered into in order to hedge certain foreign currency risks (see note 2.18 below for hedging accounting policies)

2.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.6.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted by the end of the reporting period.

2.6.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.6.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.7 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.8 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.9 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in-first-out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

2.10 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.10.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.11 Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.12 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.12.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the impairment policy on financial assets measured at amortised cost, refer Note 2.12.3

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

For the impairment policy on debt instruments at FVTOCI, refer Note 2.12.3

All other financial assets are subsequently measured at fair value.

2.12.2 Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading (see note 3.24.3 above).

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

2.12.3 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.12.4 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

2.12.5 Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.
- For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

2.13 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

2.13.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.13.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

2.13.1.2 Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies, may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a Company of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognised in profit or loss. The remaining amount of change in the fair value of liability is always recognised in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the Company that are designated by the Company as at fair value through profit or loss are recognised in profit or loss.

2.13.1.3 Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

2.13.1.4 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.14 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 1, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

All amounts are in lakh unless otherwise stated

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(i) Credit risk management

The amount of trade receivable of residential business as appearing in the balance sheet of the company shows the amount due from the customers to whom the flat has not yet been handed over to him. As per the company's flat handover policy, a flat to a customer is handed over to him only upon clearing of entire dues payable by him and not before that, since the flat is in the custody of the company and as per the terms of the agreement with the customer's, he/she can claim the right on the property only upon clearing of all the dues and proper handover of flat to him, company is not exposed to any credit loss risk. Further there has been no instance in past which shows that the company has handed over any unit to a customer with any dues pending from him and has exposed to a credit risk. In light of the above fact the company is not making any provision for expected credit loss.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

The amounts included above for variable interest rate instruments for both non-derivative financial assets and liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors and Risk Management Committee.

There has been no significant changes to the company's exposure to market risk or the methods in which they are managed or measured.

Currency Risk

The Company undertakes transactions denominated only in India Rupees and hence there is no risk of foreign exchange fluctuations.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's short-term debt obligations with floating interest rates.

Interest rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Currency	Increase/ decrease in basis points	Effect on profit before tax
31-Mar-18	**INR**	**+100**	–
	INR	**–100**	–
31-Mar-17	INR	+100	(1.27)
	INR	–100	1.27

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

INDEPENDENT AUDITOR'S REPORT

To the Members of Industrial Township (Maharashtra) Limited

Report on the Ind AS Financial Statements

1. We have audited the accompanying Ind AS financial statements of **Industrial Township (Maharashtra) Limited** ("the Company"), which comprise the balance sheet as at March 31, 2018, and the statements of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS financial statements")

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended).

   This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the company as at March 31, 2018 and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year then ended on that date.

Report on Other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
10. As required by Section 143(3) of the Act, we report that:
    a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
    b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
    c. the Balance Sheet, the Statement of Profit and Loss, statement of Cash Flow and the statement of changes in equity dealt with by this Report are in agreement with the books of account;
    d. In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);
    e. On the basis of written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018, from being appointed as a director in terms of Section 164(2) of the Act.
    f. With respect to the adequacy of internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure II.
    g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014(as amended), in our opinion and to the best of our information and according to the explanations given to us:
       i. The Company does not have any pending litigations which would impact its financial position.
       ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses that need provision.
       iii. During the year, there were no amounts which were required to be transferred by the Company to the Investor Education and Protection Fund.

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF INDUSTRIAL TOWNSHIP (MAHARSHTRA) LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Industrial Township (Maharashtra) Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

1. General Information

The company was incorporated on August 16, 2007 and is engaged in the business of development of Knowledge City in Pune, Maharashtra. Its parent and holding company is Mahindra Lifespace Developers Ltd.

The addresses of its registered office and principal place of business are disclosed in the introduction to the annual report.

2. Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

2.3 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

2.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.4.1 Construction contracts

When the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the consolidated balance sheet under trade receivables.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when

i. All critical approvals necessary for commencement of the project have been obtained and

ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost) and

iii. when at least 10% of the sales consideration is realised and

iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

2.4.2 Rendering of services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. The stage of completion of the contract is measured based on the proportion of costs incurred for rendering of the service to date relative to the estimated total costs, except where this would not be representative of the stage of completion

2.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.6.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.6.2 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.7 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss

2.8 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a first-in-first-out basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

2.9 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.9.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.10 Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.11 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.12 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

2.13. First-time adoption – mandatory exceptions, optional exemptions, and

2.13.1. Overall principle

The Company has prepared the opening balance sheet as per Ind AS as of 1 April 2015 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to the certain exception and certain optional exemptions availed by the Company as detailed below.

2.13.2. Derecognition of financial assets and financial

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after 1 April 2015 (the transition date).

2.13.3. Classification of debt instruments

The Company has determined the classification of debt instruments in terms of whether they meet the amortised cost criteria or the FVTOCI criteria based on the facts and circumstances that existed as of the transition date.

2.13.4. Impairment of financial assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

2.13.5. Assessment of embedded derivatives

The Company has assessed whether an embedded derivative is required to be separated from the host contract and accounted for as a derivative on the basis of the conditions that existed at the later of the date it first became a party to the contract and the date when there has been a change in the terms of the contract that significantly modifies the cash flows that otherwise would be required under the contract.

2.13.6. Determining whether an arrangement contains a lease

The Company has applied Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
ANTHURIUM DEVELOPERS LIMITED

Report on the Ind AS Financial Statements

1. We have audited the accompanying Ind AS financial statements of Anthurium Developers Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

2. The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

5. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

6. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2018, and its profit and cash flows for the year ended on that date.

Report on other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order,2016, issued by the Central Government of India in term of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure A, a statement on the matters specified in the paragraphs 3 and 4 of the Order.

10. As required by section 143(3) of the Act, we report that:

    a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

    b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

    c) the Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), and Cash Flow Statement dealt with by this Report are in agreement with the books of account;

    d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);

    e) On the basis of written representations received from the directors as on March 31, 2018, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018, from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure B.

g) With respect to the other matters included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended) in our opinion and to our best of our information and according to the explanations given to us:

    i. The Company does not have any pending litigations which would impact its financial position.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF ANTHURIUM DEVELOPERS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Anthurium Developers Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2018

1. Corporate information

Anthurium Developers Limited ("the Company") is a public company incorporated in India on 02 June, 2010 under the provisions of erstwhile Companies Act, 1956. The registered office of the Company is located at 5th Floor, Mahindra Towers, Dr. G. M. Bhosale Marg, P. K. Kurne Chowk, Worli, Mumbai – 400 018.

The Company is engaged in the business of development of Residential complexes Ireo -Gurgaon. The Company is in the process of identifying lands for acquisition for its projects.

The Company is subsidiary of Mahindra Lifespace Developers Limited, Mumbai, a company incorporated in India. The ultimate parent company is Mahindra & Mahindra Limited.

2. Significant accounting policies

2.1 Statement of compliance and Basis of preparation and presentation

The Standalone Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 (the Act) and other relevant provision of the act. The aforesaid financial statements have been approved by the Company's Board of Directors and authorised for issue in the meeting held on 24th April, 2018.

2.2 Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use. The estimated useful lives, residual values, are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the statement of profit and loss.

Depreciation on assets (other than impaired assets) is calculated on straight line method at the rate of 11.31% p.a. which is based on useful life of about 9 years determined on the basis of technical evaluation by the Management of the Company and is different from the useful life of 15 years indicated in part C of schedule II to the Companies Act, 2013.

2.3 Impairment of assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement profit and loss.

2.4 Inventories

Inventories are stated at the lower of cost and net realisable value, whichever is lower. Cost is arrived at on first-in-first-out basis and includes overheads on absorption basis, where appropriate.

Financial assets and liabilities

2.5 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Statement of profit or loss.

2.6 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.6.1 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets. With respect to trade receivables, the Company measures the loss allowances at an amount equal to lifetime expected credit losses.

2.6.2 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in the statement of profit and loss if such gain or loss would have otherwise been recognised in the statement of profit and loss on disposal of that financial asset.

2.7 Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.7.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in the statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.7.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at Fair value through profit and loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2018

2.7.1.2 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between the lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

2.8 Revenue recognition

Revenue on account of sale of services is recognised under the completed service contract method to the extent it is probable that the economic benefit will flow to the Company and the revenue can be reliably measured.

Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers.

Dividend income is recognised in the statement of profit and loss when the right to receive payment is established.

Interest Income is accounted for on time proportion basis.

2.7 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.9 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.9.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.9.2 Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.9.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.9.4 Minimum Alternate Tax (MAT):

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax against which the MAT paid will be adjusted.

2.10 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.11 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/(loss) for the year is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3. Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses, etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

INDEPENDENT AUDITOR'S REPORT

To The Members of Industrial Cluster Private Limited

Report on the Ind AS Financial Statements

1. We have audited the accompanying Ind AS financial statements of Industrial Cluster Private Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2018, the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

2. The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

5. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

6. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2018, and its profit and cash flows for the year ended on that date.

Report on other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order,2016, issued by the Central Government of India in term of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure A, a statement on the matters specified in the paragraphs 3 and 4 of the Order.

10. As required by section 143(3) of the Act, we report that:

    a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

    b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

    c) the Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), and Cash Flow Statement dealt with by this Report are in agreement with the books of account;

    d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);

    e) On the basis of written representations received from the directors as on March 31, 2018, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018, from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure B.

g) With respect to the other matters included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended) in our opinion and to our best of our information and according to the explanations given to us:

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF INDUSTRIAL CLUSTER PRIVATE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Industrial Cluster Private Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2018

1. Corporate information

Industrial Cluster Private Limited ("the Company") is a public company incorporated in India on 29th March, 2013 under the provisions of erstwhile Companies Act, 1956. The registered office of the Company is located at 5th Floor, Mahindra Towers, Dr. G. M. Bhosale Marg, P. K. Kurne Chowk, Worli, Mumbai – 400 018.

The Company is in the business of establishing, acquiring, developing and maintaining Industrial Parks, Technology Parks, Bio-tech Parks, Software Parks, Special Economic zones, Export Processing Zones, Industrial Areas, Industrial estates, Integrated Townships, Residential and/or Commercial Complexes, Housing Facility in India and outside India.

The Company is subsidiary of Mahindra Lifespace Developers Limited, Mumbai, a company incorporated in India. The ultimate parent company is Mahindra & Mahindra Limited.

2. Significant Accounting Policies

2.1 Statement of compliance and Basis of preparation and presentation

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) Rules, 2016. For all periods upto and including the financial year ended 31st March, 2018

All assets and liabilities are classified as current if it is expected to realise or settle within 12 months after the Balance Sheet date.

The financial statements are presented in Indian Rupees (₹) which is also the Company's functional currency.

The financial statements were approved by the Board of Directors and authorised for issue on 23rd April, 2018.

2.2 Property, plant and equipment

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use. The estimated useful lives, residual values, are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed of, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the statement of profit and loss.

Depreciation on assets (other than impaired assets) is calculated on straight line method at the rate of 11.31% p.a. which is based on useful life of about 9 years determined on the basis of technical evaluation by the Management of the Company and is different from the useful life of 15 years indicated in part C of schedule II to the Companies Act, 2013.

2.3 Impairment of assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the statement profit and loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the statement profit and loss.

2.4 Inventories

Inventories are stated at the lower of cost and net realisable value, whichever is lower. Cost is arrived at on first-in-first-out basis and includes overheads on absorption basis, where appropriate.

Financial assets and Liabilities

2.5 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Statement of profit or loss.

2.6 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.6.1 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets. With respect to trade receivables, the Company measures the loss allowances at an amount equal to lifetime expected credit losses.

2.6.2 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in the statement of profit and loss if such gain

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2018

or loss would have otherwise been recognised in the statement of profit and loss on disposal of that financial asset.

2.7 Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.7.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in the statement of profit and loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.7.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at Fair value through profit and loss.

2.7.1.2 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between the lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the statement of profit and loss.

2.8 Revenue recognition

Revenue on account of sale of services is recognised under the completed service contract method to the extent it is probable that the economic benefit will flow to the Company and the revenue can be reliably measured.

Sales are recognised, net of returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers.

Dividend income is recognised in the statement of profit and loss when the right to receive payment is established.

Interest Income is accounted for on time proportion basis.

2.9 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.9.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.9.2 Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.9.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.9.4 Minimum Alternate Tax (MAT):

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax against which the MAT paid will be adjusted.

2.10 Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.11 Cash Flow Statement

Cash flows are reported using the indirect method, whereby profit/(loss) for the year is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

3. Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses, etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Capital management

The company’s capital management objectives are:

- to ensure the company’s ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF

MAHINDRA WATER UTILITIES LIMITED

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Mahindra Water Utilities Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us,the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its profit, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act,we report that:
    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra Water Utilities Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design,implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the"Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

Note 1. Corporate information:

Mahindra Water Utilities Limited (the Company) is a public company incorporated in India on August 10, 1999 under the provisions of Companies Act, 1956. The Company is engaged in operation & maintenance of water and sewage system for M/s. New Tirupur Area Development Corporation Limited, Tirupur. The Company is a subsidiary of Mahindra Infrastructure Developers Limited and the ultimate holding company is Mahindra and Mahindra Limited.

Note 2. Significant accounting policies:

2.1 Statement of compliance

The financial statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis for preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for leasing transactions that are within the scope of Ind AS 17.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Property, Plant and Equipment:

Property, Plant and Equipment held for use in supply of services or for administrative purposes, are stated in the Balance Sheet at cost less depreciation and accumulated impairment losses, if any. Costs comprise purchase price and attributable costs, if any.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives as determined by the Management, using the straight-line method. Estimated useful life as determined by the Management is in line with that prescribed in Schedule II to the Companies Act 2013. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis. Assets costing individually less than Rs. 5,000 is fully depreciated in the year of purchase.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.4 Impairment of tangible assets:

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.4 Revenue recognition:

Revenue is measured at the fair value of the consideration received or receivable.

i) Income for services is accounted for as and when services are rendered as per terms of the agreement at the contractual rate and there exists no significant uncertainty as to ultimate realisation.

ii) Dividend income from investments is recognised when the shareholder's right to receive payment has been established provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

iii) Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.5 Employee benefits

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

2.7 Lease

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease.Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

2.8 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

(i) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in the Statement of Profit and Loss except when they relate to items that are recognised in Other Comprehensive Income, in which case, the current and deferred tax are also recognised in Other Comprehensive Income.

2.9 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.10 Financial Instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

(i) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial assets at fair value through profit or loss (FVTPL)

Investments in units of Mutual Funds are classified as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the Company, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables and other contractual rights to receive cash or other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety, the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

Foreign exchange gains and losses on financial assets

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss.

(ii) Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Note 3 Critical accounting judgements and key sources of estimation uncertainty:

In the application of the Company's accounting policies, which are described in Note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

At the end of the reporting period, there were no key assumptions concerning the future period that may have had a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Trade receivables

The entire trade receivables balance as at March 31, 2018 and March 31, 2017 is due from M/s. New Tirupur Area Development Corporation Ltd., the sole client of the Company.

The average credit period on invoice for services is 30 days. No interest is charged on trade receivables.

The concentration of credit risk is high, since the entire trade receivables are due from only one client, M/s. New Tirupur Area Development Corporation Ltd.

The Company has been providing operations & maintenance services to the client on a long term contract basis. As per the operation and maintenance agreement with NTADCL, the Company has been raising invoices on NTADCL for the services rendered to them.

During the year ended March 31, 2017, the Company and NTADCL had formalised the settlement of dues and the revenue terms for future period. Per the arrangement, the dues upto March 31,2017 will be settled in quarterly installments over a period of 3 years beginning from April 1, 2017 and invoices raised from the year ended March 31, 2018 will be settled as per the normal credit period. In view of this, no loss on account of shortfall in cash is expected by the Company. As the dues are expected to be settled over a period of time, the Company has derived the expected credit loss allowance towards the time value of money for fixed fee services. The provision carried in books is adequate to meet this loss.

The Company has provided Nil in current year (Previous Year Rs. 2,372,493 /-) towards Other Re-imbursements due from NTADCL.

The Company has incurred expenses towards certain specified categories of maintenance of plant and facilities. As per the terms of the aforementioned agreement with NTADCL, the Company is entitled to reimbursement of the aforesaid expenses, which the Company has also claimed from NTADCL. The Company had received a confirmation on the payment due for such reimbursable services. However, as a matter of abundant caution, as well as pending receipt of such payments, the Company had expensed off such amounts in the previous year ended March 31, 2017 aggregating to Rs.2,403,607/- to the Statement of Profit and Loss.

Based on further negotiations/ discussions with NTADCL, the company is confident of receiving these payments and hence no further provision has been done in the current year.

Capital management

The company's capital management objectives are:

– to ensure the company's ability to continue as a going concern

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

** The Company considers that the carrying amount of these financial instruments recognised in the financials statements approximate their fair values.

Fair value of investments

Investments represent investment by the Company in units of HDFC Cash Management Fund. The closing value at the end of each accounting period represents NAV as per HDFC Cash Management Fund and hence no separate fair valuation.

Financial Risk Management Framework

The Company's activities expose it to financial risks - credit risk and liquidity risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

Credit risk management

(i) Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The company has only one client for whom the operation and maintenance services are rendered. The Company has reached a settlement with its customers and has a approved payment schedule in place and also revenue terms for the future period.

(ii) The Company has invested in units of HDFC Cash Management Fund which has the NAV of Rs.310,042 as at the end of the reporting period(Previous year Rs.297,289). HDFC has been regular in dividend payments and the credit risk on the investment is minimal.

The Company is not subject to any externally imposed capital requirements.

There is no change in estimation techniques or significant assumptions during the reporting period.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

Note 28. Employee benefits

(a) Defined Contribution Plan

The Company's contribution to Provident Fund aggregating Rs. 1,782,192 /- (2017 : Rs.1,874,922 /-) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plans hold a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

As the plans mature, the Company intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

However, the Company believes that due to the long-term nature of the plan liabilities and the strength of the supporting group, a level of continuing equity type investments is an appropriate element of the Company's long term strategy to manage the plans efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings and interest rate hedging instruments.

Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

Note: An entity shall disclose description of any plan amendments, curtailments and settlements.

6.	Benefit payments	**(56,250)**	(2,050,154)
7.	**Fair value of plan assets at the end of the year**	**7,374,778**	5,631,497
IV.	The Major categories of plan assets		
	– Insurer managed funds (Non Quoted Value)	**7,374,778**	5,631,497

Notes:

The current service cost and net interest expenses for the year is included in the "Employee benefits expenses" line item in the statement of profit and loss.

The remeasurernent of the net defined benefit liability is included in other comprehensive income.

V. The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption		**Impact on defined benefit obligation** Increase in assumption	Decrease in assumption
Discount rate	2018	5,988,048	7,508,185
	2017	4,956,828	6,247,877

Principal assumption		**Impact on defined benefit obligation** Increase in assumption	Decrease in assumption
Salary growth rate	2018	7,498,733	5,982,960
	2017	6,242,762	4,952,368

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

VI. Maturity profile of defined benefit obligation:

	2018	2017
Expected benefits for year 1	**264,559**	228,728
Expected benefits for year 2	**690,960**	238,065
Expected benefits for year 3	**258,924**	620,590
Expected benefits for year 4	**253,082**	226,001
Expected benefits for year 5	**496,729**	217,173
Expected benefits for year 6	**452,155**	439,488
Expected benefits for year 7	**806,709**	397,933
Expected benefits for year 8	**330,960**	664,574
Expected benefits for year 9	**510,671**	280,851
Expected benefits for year 10	**16,088,236**	12,359,855

VII. Plan Assets

The fair value of Company's pension plan asset as of March 31, 2018 and 2017 category are as follows:

	2018	2017
Asset category:		
Cash and cash equivalents	**–**	–
Debt instruments (quoted)	**–**	–
Debt instruments (unquoted)	**–**	–
Equity instruments (quoted)	**–**	–
Deposits with Insurance companies	**7,374,778**	5,631,497
	7,374,778	5,631,497

The Company's policy is driven by considerations of maximizing returns while ensuring credit quality of the debt instruments. The asset allocation for plan assets is determined based on investment criteria prescribed under the Indian Income Tax Act, 1961, and is also subject to other exposure limitations. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

The weighted average duration of the defined benefit obligation as at March 31, 2018 is 11.31 years (2017: 11.57 years)

VIII. Experience Adjustments:

	2018	**2017**	**Year ended 2016**	**2015**	**2014**	**2013**
			Gratuity			
1. Defined Benefit Obligation	6,684,418	5,574,480	–	4,331,427	3,473,492	3,195,772
2. Fair value of plan assets	7,374,778	5,631,497	–	5,216,027	4,029,884	3,685,244
3. Surplus/(Deficit)	690,360	57,017	–	884,600	556,392	489,472
4. Experience adjustment on plan liabilities [(Gain)/Loss]	(213,107)	1,197,367	–	(213,265)	92,472	222,262
5. Experience adjustment on plan assets [Gain/(Loss)]	(109,471)	43,622	(26,012)	63,205	90,390	28,276

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

ANNEXURE 3

Policy on remuneration of Directors

Purpose

This Policy sets out the approach to Compensation of Directors, in Mahindra World city Developers Limited

Policy Statement

We have a well-defined Compensation policy for Directors, including the Chairman of the Company. The overall compensation philosophy which guides us to focus on enhancing the value, to attract, to retain and motivate Directors for achieving objectives of the Company and to become a major player in Indian Real Estate Sector, to maintain the pioneer status in the Integrated Business City format, to be the most trusted brand in the business we operate in and focus on customer centricity through transparency, quality and on-time delivery, to be a thought leader and establish industry benchmarks in Sustainable Development.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

NON-EXECUTIVE INCLUDING INDEPENDENT DIRECTORS:

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both Fixed and variable, to the Non-Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act 2013 and such other factors as the NRC may consider deem fit for determining the compensation. The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

Manager

Remuneration of the Manager reflects the overall remuneration philosophy and guiding principle of the Company. While considering the appointment and remuneration of Manager, the NRC shall consider the industry benchmarks, merit and seniority of the person and shall ensure that the remuneration proposed to be paid is commensurate with the remuneration packages paid to similar senior level counterpart(s) in other companies. The policy aims at a balance between fixed and variable pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

The remuneration to the Manager shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as per the policy of the Company from time to time and as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of appointment, the variable compensation will be determined annually by the NRC based on the performance of Manager.

The term of office and remuneration of Manager is subject to the approval of the Board of Directors, shareholders, and Central Government, as may be required and within the statutory limits laid down in this regard from time to time.

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay, subject to the requisite approvals, remuneration to its Manager in accordance with the provisions of Schedule V of the Companies Act, 2013.

If a Manager draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he / she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration for Manager is designed subject to the limits laid down under the Companies Act, 2013 to remunerate him/her fairly and responsibly. The remuneration to the Manager comprises of salary, perquisites and benefits as per policy of the Company and performance based incentive apart from retirement benefits like P. F., Superannuation, Gratuity, Leave Encashment, etc. as per Rules of the Company. Salary is paid within the range approved by the Shareholders. Increments are effective annually, as recommended / approved by the Remuneration Committee / Board.

Directors

The Non-Executive Chairman and Independent Directors receive sitting fees for attending the meeting of the Board and the Committees thereof, as fixed by the Board of Directors from time to time subject to statutory provisions. The Non-Executive Chairman and Independent Directors would be entitled to the remuneration under the Companies Act, 2013. A Non-Executive Non-Independent Director who receives remuneration from the holding company or any other group company is not paid any sitting fees or any remuneration. In addition to the above the Directors are entitled for reimbursement of expenses incurred in discharge of their duties.

The Company may also grant Stock Options to the eligible employees and Directors (other than Independent Directors) in accordance with the ESOP Schemes of the Company from time to time and subject to the compliance of the applicable statutes and regulations.

Disclosures

Information on the total remuneration of members of the Company's Board of Directors, Manager and KMP/senior management personnel may be disclosed in the Board's report and the Company's annual report/website as per statutory requirements in this regard.

ANNEXURE 4

Policy on Remuneration of Key Managerial Personnel and Employees

This Policy is effective from the financial year 2014 - 15.

Objective

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

Standards

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July i.e. after the salary increment exercise.
- The variable component of the remuneration will vary from 10% to 25% of the Cost-to-Company (CTC) and will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive and is around 60th percentile. Based on the findings of the survey and the business performance, the Sector Talent Council decides:
  a) The increment that needs to be paid for different performance ratings as well as grades.
  b) The increment for promotions and the total maximum increment.
  c) The maximum increase in compensation cost in % and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep it in tune with the market.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF

MAHINDRA WORLD CITY DEVELOPERS LIMITED

Report on the Ind AS Financial Statements

1. We have audited the accompanying Ind AS financial statements of **MAHINDRA WORLD CITY DEVELOPERS LIMITED** ("the Company"), which comprise the balance sheet as at March 31, 2018, and the statements of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as " Ind AS financial statements")

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended).

   This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.
4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.
5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.
6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.
7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the company as at March 31, 2018 and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year then ended on that date.

Report on Other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
10. As required by Section 143(3) of the Act, we report that:
    a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
    b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
    c. the Balance Sheet, the Statement of Profit and Loss, statement of Cash Flow and the statement of changes in equity dealt with by this Report are in agreement with the books of account;
    d. In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);
    e. On the basis of written representations received from the directors as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018, from being appointed as a director in terms of Section 164(2) of the Act.
    f. With respect to the adequacy of internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure II.
    g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014(as amended), in our opinion and to the best of our information and according to the explanations given to us:
       i. The Company does not have any pending litigations which would impact its financial position.
       ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses that need provision.
       iii. During the year, there were no amounts which were required to be transferred by the Company to the Investor Education and Protection Fund.

ANNEXURE TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA WORLD CITY DEVELOPERS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **MAHINDRA WORLD CITY DEVELOPERS LIMITED** ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

1. General Information

Mahindra World City Developers Limited ("the Company") was incorporated on February 19, 1997. The Company is in the business of land development for industrial, commercial and residential use. The Company acquires land and incurs expenditure on its development and related infrastructure facilities for lease/sale. The Company also maintains the Industrial Park for which it collects operation and maintenance charges from the lessees. The Company has developed and operates an integrated business city "Mahindra World City" at Chengalpattu taluk near Chennai.

Promoted in a Public Private Partnership by the Mahindra Group and TIDCO (A Govt. of Tamil Nadu Undertaking), Mahindra World City surpasses the conventional definition of a business space - it is a business eco-system, carefully linked and integrated to function with efficiency. Mahindra World City, Chennai is India's first integrated City and Corporate India's first operational SEZ.

Etching its name on India's business map, Mahindra World City Chennai, has attracted corporate giants such as BMW, B.Braun, Capgemini, Holiday Inn Express, Infosys, BASF, Lincoln Electric, Parker Hannifin, Renault-Nissan, Tesa SE, Federal Mogul, Fujitec, NTN Corporation, Timken, TVS Group of Companies and Wipro among others.

2. Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015.

The Company prepared its financial statements up to the year ended 31st March 2016 in accordance with the requirements of previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. The Company has prepared its financial statements for the current financial year as per the requirement Ind AS. The date of transition to Ind AS is 1 April 2015.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

2.3.1 Land Lease Premium

Land lease premium is recognized as income upon creation of leasehold rights in favor of the lessee or upon an agreement to create leasehold rights with handing over of possession.

2.3.2 Income from properties

Income from properties and other assets given under operating lease is recognised based on the terms of lease agreement on a straight line basis over the non cancellable lease period.

2.3.3 Income from O&M

Income from operation & maintenance charges and water charges are recognized on an accrual basis as per terms of the agreement with the lessees.

2.3.4. Dividend and interest income

Dividend income from investment in mutual funds is recognised when the unit holder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.3.5 Leases

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. The assets given by the Company on operating leases are capitalised in the books as fixed assets. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

2.4 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.4.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.4.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.4.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.5 Inventories

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Work in progress includes cost of land and all expenditure incurred in connection with, or attributable to the project, and, being a long-term project, includes interest.

2.6 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.7 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.8 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) because of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.8.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.9 Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.10 Foreign currency transactions and translations

Foreign currency transactions are recorded at exchange rates prevailing on the date of transaction. Monetary assets / liabilities are translated at exchange rates prevailing on the date of settlement or at the year end as applicable, and gain / loss arising out of such translation is adjusted to the profit and loss account.

2.11 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

2.11.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

2.11.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

2.11.3 Financial assets at fair value through profit or loss (FVTPL)

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

2.11.4 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, and other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.11.5 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

2.12 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.12.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.12.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

2.12.1.2 Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

2.12.1.3 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.13 Employee benefits

Employee benefits include provident fund, superannuation fund, employee state insurance scheme, gratuity fund, compensated absences, long service awards and post-employment medical benefits.

The Company's contribution to provident fund are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made and when services are rendered by the employees.

Defined benefit plans

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognized in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognized immediately to the extent that the benefits are already vested and otherwise is amortized on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under:

a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and

b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

2.14. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 1, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

30. Financial Instruments

Capital management

The Company manages capital risk in order to maximize shareholders' profit by maintaining sound/optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio and net borrowings-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary. There is no change in the overall capital risk management strategy of the Company compared to last year.

The Company uses debt ratio as a capital management index and calculates the ratio as total debt divided by total equity. Total liabilities and total equity are based on the amounts stated in the financial statements.

The Company is not subject to externally enforced regulation.

Debt-to-equity ratio as of 31st March, 2018 and 31st March, 2017 is as follows:

	31-Mar-18	**31-Mar-17**

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(i) Credit risk management

The amount of trade receivable from Land leasing, Industrial park maintenance service and property leasing activities as appearing in the balance sheet of the company shows the amount due from the customers to whom the Industrial park Maintenance charges, water charges and property Lease services are provided. Company executes Land leasing agreement with customers only entire lease premium is paid by customers and hence no risk of credit loss in dues relating to Land leasing premium. Further, As per the company's policy, every customer has to deposit 3 to 6 months of Maintenance charges and/or monthly lease rentals with the company and as per the terms of the agreement with the customer's, company is entitled to adjust the pending dues against the deposits taken from customer and hence, company is not exposed to any credit loss risk. Further there has been no instance in past which shows that the company has written off any significant any dues pending and is not exposed to a credit risk. During the year to the extent where recoverability of debt is doubtful the company has made provision for expected credit loss.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

The amounts included above for variable interest rate instruments for both non-derivative financial assets and liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

There has been no significant changes to the company's exposure to market risk or the methods in which they are managed or measured.

Currency Risk

The Company undertakes transactions denominated only in India Rupees and hence there is no risk of foreign exchange fluctuations.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

Interest rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for both derivative and non-derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Year	Currency	Increase/ decrease in basis points	Effect on financials

ANNEXURE-4

REMUNERATION POLICY FOR KMPS AND EMPLOYEES

This Policy shall be effective from the financial year 2014 - 15.

Objective

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

Standards

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July i.e. after the salary increment exercise.
- The variable component of the remuneration will vary from 10% to 25% of the Cost-to-Company (CTC) and will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive and is around 60th percentile. Based on the findings of the survey and the business performance, the Sector Talent Council decides:
    - o The increment that needs to be paid for different performance ratings as well as grades.
    - o The increment for promotions and the total maximum increment.
    - o The maximum increase in compensation cost in % and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep it tune with the market.
- There are no mid-term compensation increments.

For and on behalf of the Board,

Ms. Anita Arjundas	**Ms. Sangeeta Prasad**

ANNEXURE 5

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR 2017-18

[Pursuant to Section 204(1) of the Companies Act, 2013 and Rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Mahindra World City (Jaipur) Limited,
4th Floor, 411, Neelkanth Tower,
Bhawani Singh Road, C-Scheme,
Jaipur – 302001.

(I) We have conducted the secretarial audit of the compliance of applicable statutory provisions and adherence to good corporate practices by **Mahindra World City (Jaipur) Limited** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts and statutory compliances and expressing our opinion thereon.

(II) Based on our verification of the Company's statutory registers and records, minutes books, forms and returns filed with various authorities and other records maintained by the Company and also the information and explanation provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2018 complied with various provisions of statutory enactments listed hereunder at clause (III) and that the Company has proper Board processes and compliance mechanism in place to the extent and in the manner and subject to the reporting made hereinafter.

(III) We have examined the Statutory Registers, Minutes books of the General Meetings, Board Meetings and Committee Meetings, Forms and Returns filed with various Authorities and other records maintained by the Company for the financial year ended on March 31, 2018, according to the provisions of:

1. The Companies Act, 2013 and the Rules made there under;
2. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the Rules made there under;
3. The Depositories Act, 1996 and the Regulations and Bye-laws framed there under;
4. The Indian Stamp Act, 1899
5. Service Tax Laws;
6. The Central Sales Tax Act, 1956;
7. The Rajasthan Value Added Tax Act, 2003
8. Goods and Service Tax Laws;
9. The Special Economic Zones Act, 2005;
10. Employees Provident Fund and Miscellaneous Provisions Act, 1952;

16. The Water (Prevention and Control of Pollution) Act, 1974;
17. The Air (Prevention and Control of Pollution) Act, 1974.

(IV) As observed and as per the information and explanations given to us, since the company did not receive any Foreign Direct Investment and/or External Commercial Borrowings and did not make any Overseas Direct Investment, the provisions of Foreign Exchange Management Act, 1999 and the Rules and Regulations made there under relating thereto were not applicable to the company during the year under review.

(V) Since the company is an unlisted company, the Securities and Exchange Board of India Act, 1992 ('SEBI Act') and the Rules, Regulations and guidelines made there under are not applicable to the company during the year under review.

(VI) We have also examined the compliance with applicable clauses of the Secretarial Standards issued by The Institute of Company Secretaries of India.

(VII) Based on our above mentioned examination and verification of records and information and explanation provided to us by the management, officers, employees and staff of the company, we report that during the financial year under review the Company has generally complied with the provisions of the Acts, Rules, Regulations, Guidelines, Standards etc. mentioned above.

(VIII) We further report that having regard to the size and nature of the company the Board of Directors of the Company is duly constituted with proper balance of Non-Executive Directors and Independent Directors.

(IX) We further report that keeping in view the size and nature of the company, in our opinion adequate notices were given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

(X) We further report that decisions were observed to be carried out by majority; however, we do not come across or explained with any instance of dissenting members, whose views need to be separately recorded in the minutes books as such.

(XI) We further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

(XII) We further report that during the financial year under review the Company has redeemed Non Convertible debentures and complied with necessary provisions of the Act in this regard.

(XIII) We further report that during the audit period, there were no instances of:

(i) Public/Rights/Preferential issue of shares/sweat equity;

(ii) Buy-back of securities;

(iii) Merger/amalgamation/reconstruction etc.;

(iv) Foreign technical collaborations.

Our above report is subject to the following:

1. Maintenance of Secretarial Records is the responsibility of the management of the Company. Our responsibility is to express an opinion on these secretarial records, based on our audit;

2. We have followed the audit practices and processes as were appropriate to obtain reasonable assurance about the correctness of the contents of the secretarial records. The verification was done on test check basis to ensure that correct facts are reflected in secretarial records. We believe that the processes and practices we followed, provide a reasonable basis for our opinion;

3. We have not verified the correctness and appropriateness of financial records and books of accounts of the Company;

4. Wherever required, we have obtained the Management Representation, in writing as well as verbal, about the compliance of laws, rules and regulations and happening of events etc.;

5. The Compliance of the provisions of the Corporate and other applicable laws, rules, regulations, standards etc. is the responsibility of the management. Our examination was limited to the verification of the procedures on test basis;

6. The secretarial audit report is neither an assurance as to the future viability of the Company nor of the efficacy or the effectiveness with which the management has conducted the affairs of the Company.

7. The compilation of the Secretarial Audit Report and the above mentioned contents are without any bias and/or prejudice.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
MAHINDRA WORLD CITY (JAIPUR) LIMITED

Report on the Financial Statements

We have audited the accompanying financial statements of M**ahindra World City (Jaipur) Limited** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2018, its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit on the separate financial statements, to the extent applicable that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.

   d) In our opinion, the aforesaid financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31st March, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2018 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls over financial reporting of the Company, and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report

expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

   (i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements (Refer note 32 to the financial statements).

   (ii) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses on long-term contracts. The company has not entered into any derivative contracts.

   (iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph "f" under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra World City (Jaipur) Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

1. General Information

The Company is engaged in the business of development of an Industrial park with Special Economic Zone (SEZ) and Domestic Tariff Area (DTA). The Company acquires land under lease, incurs expenditure on its development and related infrastructure facilities and gives them on a long-term lease for industrial, commercial and residential use. The Company also maintains the Industrial Park for which it collects operation and maintenance charges from the lessees.

2. Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015.

The Company prepared its financial statements up to the year ended 31st March 2016 in accordance with the requirements of previous GAAP, which includes Standards notified under the Companies (Accounting Standards) Rules, 2006. The Company has prepared its financial statements for the current financial year as per the requirement Ind AS. The date of transition to Ind AS is 1 April 2015.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company considers the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

2.3.1 Land Lease Premium

Land lease premium is recognized as income upon creation of leasehold rights in favour of the lessee or upon an agreement to create leasehold rights with handing over of possession.

2.3.2 Income from properties

Income from properties and other assets given under operating lease is recognised based on the terms of lease agreement on a straight-line basis over the non-cancellable lease period.

2.3.3 Income from O&M

Income from operation & maintenance charges and water charges are recognized on an accrual basis as per terms of the agreement with the lessees.

2.3.4 Other income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time proportionate basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.3.5 Leases

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor are recognised as operating leases. The assets given by the Company on operating leases are capitalised in the books as fixed assets. Lease rentals under operating leases are recognised in the Statement of Profit and Loss on a straight-line basis over the lease term.

2.4 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.4.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted by the end of the reporting period.

2.4.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the way the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.4.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

2.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.6 Inventories

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Work in progress includes cost of land and all expenditure incurred in connection with, or attributable to the project, and, being a long-term project, includes interest.

2.7 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.8 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties used in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.9 Investment Property:

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes).Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, Investment properties are measured in accordance with IND AS 16's requirements.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated at the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

2.10 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also, allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired. Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.11 Cash flow statement

Cash flows are reported using the indirect method, whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.12 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) because of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all the economic benefits required to settle, a provision is expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.12.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

2.13 Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.14 Foreign currency transactions and translations

Foreign currency transactions are recorded at exchange rates prevailing on the date of transaction. Monetary assets / liabilities are translated at exchange rates prevailing on the date of settlement or at the year-end as applicable, and gain / loss arising out of such translation is adjusted to the profit and loss account.

2.15 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.15.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

2.15.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

2.15.3 Investments in equity instruments at FVTOCI

On initial recognition, the Company can make an irrevocable election (on an instrument by- instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments
- that the Company manages together and has a recent actual pattern of short term
- profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or
- a financial guarantee.

2.15.4 Financial assets at fair value through profit or loss (FVTPL)

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

2.15.5 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, and other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.15.6 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

2.15.7 Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency, denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.
- For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

2.16 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

2.16.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.16.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

2.16.1.2 Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

2.16.1.3 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.17 Earnings per Share

Basic/Diluted earnings per share is computed by dividing the profit/(loss) after tax (including the post tax effect of extraordinary items, if any) and after reducing the dividend obligation (including Dividend Distribution Tax) on Preference Shares by the weighted average number of equity shares outstanding during the year.

2.18 Employee benefits

Employee benefits include provident fund, superannuation fund, employee state insurance scheme, gratuity fund, compensated absences, long service awards and post-employment medical benefits.

The Company's contribution to provident fund are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made and when services are rendered by the employees.

Defined benefit plans

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognized in the Statement of Profit and Loss in the period in which they occur. Past service cost is recognized immediately to the extent that the benefits are already vested and otherwise is amortized on a straight-line basis over the average period until the benefits become vested. The retirement benefit obligation recognized in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognized past service cost.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under:

a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and

b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

2.19 Insurance Claims:

Insurance claims are accounted for on the basis of claims admitted/expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

2.20 Service/Goods and Services tax input credit:

Service tax/Goods and Services tax input credit is accounted for in the books in the period in which the underlying service received is accounted and when there is reasonable certainty in availing / utilising the credits.

2.21 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 1, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Capital management

The Company manages capital risk in order to maximize shareholders' profit by maintaining sound/optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio and net borrowings-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary. There is no change in the overall capital risk management strategy of the Company compared to last year.

The Company uses debt equity ratio as a capital management index and calculates the ratio as total liabilities divided by total equity. Total liabilities and total equity are based on the amounts stated in the separate financial statements.

The Company is not subject to externally enforced capital regulation.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counter party defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company enteres into an agreement with each customer. The agreement has a termination clause by which the Company can terminate the agreement and secure the receivable. The trade redeivables are also reviewed by the Management regularly and necessary actions are taken in order to collect any amount outstanding from customers. Being a Develper, a unit needs certain NOC and permission in respect of commencement and operation of the business and as per the agreement signed with customer, the developer gives the equired NOC and permission after clearing the outstanding dues alongwith interest.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Customer credibility is researched before leasing the land to ensure only credit worthiness of the clients.

The credit risk on liquid funds is limited because the counterparties are banks and debt mutual funds with high credit-ratings assigned.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Operations / State of the Company's affairs

The Company's project 'Bloomdale', located at Nagpur, Maharashtra is conceived as a gated community spanning around 25.2 acres and offering a choice of midrise apartments, row houses and duplex homes. During the year, the Company launched Building 6, a new phase of the project, taking the total saleable area launched to 1.30 million square feet. 80 per cent of the total saleable area of units launched in this project have been sold till March 2018. During the year, 1,09,536 sq. ft. of building 4 was completed and handover to customers have since commenced. The project was awarded the best Real Estate project in West zone - affordable segment by CNBC Awaaz.

The dispute between the Company and the Construction Contractor M/s. B. E. Billimoria & Company Limited ("BEBL"), caused enormous delay in a few buildings and resulted in escalation in the construction cost and cost of compensation to the customers. The dispute between the Company and BEBL was pending in the Hon'ble Bombay High Court. There was also a dispute between the shareholders of the Company, BEBL and Mahindra Lifespace Developers Limited ("MLDL"), inter-alia, pertaining to the call option exercised by MLDL under the Shareholder's Agreement which was pending in the hon'ble National Company Law Tribunal (NCLT). Pursuant to the agreement arrived at between the parties, the Company, BEBL and MLDL executed a Consent Terms on 11th May, 2018 and settled all disputes and claims against each other. As per Consent Terms, the parties withdrew the respective applications / petitions filed by them in the Hon'ble Bombay High Court and NCLT. Also, BEBL transferred its 15,000 equity shares (30% stake) held by it in the Company to MLDL. The Board, at its meeting held on 28th May, 2018, approved the said transfer of shares in favour of MLDL. Accordingly, the Company has ceased to be a Joint Venture between MLDL and BEBL and has become a wholly owned subsidiary of MLDL effective 28th May, 2018.

Effective 11th May, 2018, Mr. Digant Kapadia and Mr. Jeet Kapadia, both nominated by BEBL resigned from the Board of the Company. The Company has appointed a new contractor to expedite the construction activity at Bloomdale.

Except as stated herein, no material changes and commitments have occurred after the close of the year till the close of this Report, which affects the financial position of the Company.

The financial statement for the year under review have been prepared on the basis of going concern status of the Company.

During the year under review, no revision was made with respect to previous financial statement of the Company.

Share Capital

The Authorised and Paid-up equity share capital of the Company is ₹ 5 lakh.

During the year, the Company has neither issued any shares (including equity shares with differential rights or any sweat equity shares) nor granted employee stock options. Further, there were no shares having voting rights not exercised directly by the employees for the purchase of which or subscription to which loan was given by the Company.

Non-Convertible Debentures

During the year, the Company had not issued any debentures.

Holding Company

As on 31st March, 2018, the Company was a subsidiary and joint venture Company of Mahindra Lifespace Developers Limited. Pursuant to the transfer of 15,000 Equity Shares from BEBL to MLDL, the Company has become a wholly owned subsidiary of MLDL and ceases to be a Joint Venture company. The Company continues to be a subsidiary of the ultimate holding company Mahindra & Mahindra Limited.

During the year, no company became / ceased to be subsidiary / associate or joint venture company of the Company. Therefore, the requirement of consolidated financial statement is not applicable to the Company.

(e) they had devised proper systems to ensure compliance with the provisions of all applicable laws and that such systems were adequate and operating effectively.

Internal Financial Controls

The Company has in place adequate internal financial controls with reference to the financial statements. The Audit Committee of the Board periodically reviews the internal control systems with the management and auditors.

Vigil Mechanism

As the Company does not meet the prescribed criteria given under Section 177 of the Companies Act, 2013, the requirement for establishment of vigil mechanism is currently not applicable to the Company.

Risk Management

The Company already has in place the procedure to inform the Board about the risk assessment and minimization procedures. The Company has appropriate risk management systems in place for identification and assessment of risks, measures to mitigate them, and mechanisms for their proper and timely monitoring and reporting. The Board reviews implementation and monitoring of the risk management plan for the Company including identification therein of elements of risks, if any, which in the opinion of the Board may threaten the existence of the Company.

Auditors

M/s. B. K. Khare & Co., Chartered Accountants, Mumbai (ICAI Registration No: 105102W), were appointed as auditors for a term of five consecutive years from the conclusion of 6th Annual general meeting till the conclusion of the 11th Annual General Meeting to be held in the calendar year 2019 subject to ratification of their appointment at every Annual General Meeting.

However, Section 139(1) of the Companies Act, 2013 is amended by the Companies Amendment Act, 2017 with effect from 8th May, 2018, thereby deleting the 1st proviso to the said sub-section which provides for annual ratification of the appointment of Auditors. Accordingly, the appointment of Statutory Auditors is not required to be ratified at every AGM.

As required under the provisions of Section 139 (1) and 141 of the Companies Act, 2013 read with the Companies (Accounts and Auditors) Rules, 2014, the Company has received a written consent and certificate from the above auditors, to the effect that their appointment continues to be in conformity with the limits specified in the said section.

The Auditor's Report does not contain any qualification, reservation, adverse remark or disclaimer and therefore does not call for any further comments.

The requirement of having internal auditor, cost auditor and secretarial auditor is presently not applicable to the Company. However, the Company has voluntarily appointed M/s. Ernst and Young LLP as Internal Auditors to carry out Internal Audit for the financial year 2017–18.

Particulars of loans, guarantees or investments under Section 186 of the Companies Act, 2013

In terms of Section 186(11) of the Companies Act, 2013 ("the Act") read with Schedule VI to the Act, as the Company is engaged in the business of Real Estate Development, the provision of Section 186 of the Companies Act, 2013 related to loans made, guarantees given or securities provided are not applicable to the Company. The said provisions are also not applicable to acquisition of shares if allotted in pursuance of Section 62(1)(a) of the Act.

There were no investments made by the Company attracting the provision of Section 186(1) of the Companies Act, 2013 for the year under review.

ANNEXURE 3

POLICY FOR REMUNERATION OF THE DIRECTORS

I. Purpose

This Policy sets out the approach to Compensation of Directors in Mahindra Bebanco Developers Limited.

II. Policy Statement

We have a well-defined Compensation policy for Directors including the Chairman of the Company. The overall compensation philosophy which guides us is that in order to achieve global leadership and dominance in domestic markets, we need to attract and retain high performers by compensating them at levels that are broadly comparable with the median of the comparator basket while differentiating people on the basis of performance, potential and criticality for achieving competitive advantage in the business.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

III. Non-Executive Including Independent Directors:

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both fixed and variable, to the Non Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as Director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act, 2013 and such other factors as the NRC may consider deem fit for determining the compensation. The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

IV. Executive Directors:

The remuneration to Executive Director(s) shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of their appointment, the variable compensation will be determined annually / half yearly by the NRC based on their performance.

The remuneration involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.

The Company may also grant Stock Options to the Directors (other than Independent Directors and Promoter) in accordance with the ESOP Scheme of the Company, if any, and subject to the compliance of the applicable statutes and regulations.

ANNEXURE 4

POLICY ON REMUNERATION OF KEY MANAGERIAL PERSONNEL AND EMPLOYEES

This Policy shall be effective from the financial year 2014–15.

Objective

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

Standards

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July, i.e., after the salary increment exercise.
- The variable component of the remuneration will vary from 10% to 25% of the Cost-to-Company (CTC) and will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive and is around 60th percentile. Based on the findings of the survey and the business performance, the Sector Talent Council decides:
  a) The increment that needs to be paid for different performance ratings as well as grades.
  b) The increment for promotions and the total maximum increment.
  c) The maximum increase in compensation cost in % and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep it in tune with the market.

INDEPENDENT AUDITOR'S REPORT

To the Members of Mahindra Bebanco Developers Limited

Report on the Ind AS Financial Statements

1. We have audited the accompanying Ind AS financial statements of Mahindra Bebanco Developers Limited ("the Company"), which comprise the balance sheet as at March 31, 2018, and the statements of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS financial statements")

Management's Responsibility for the Financial Statements

2. The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended).

   This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

3. Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

4. We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder.

5. We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

6. An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the standalone Ind AS financial statements.

7. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

8. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the company as at March 31, 2018 and its financial performance including other comprehensive income, its cash flows and the changes in equity for the year then ended on that date.

Report on Other Legal and Regulatory Requirements

9. As required by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure I a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

10. As required by Section 143(3) of the Act, we report that:

    a. we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;

    b. in our opinion proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;

    c. the Balance Sheet, the Statement of Profit and Loss, statement of Cash Flow and the statement of changes in equity dealt with by this Report are in agreement with the books of account;

d. In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended);

e. On the basis of written representations received from the directors as on March 31, 2017 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018, from being appointed as a director in terms of Section 164(2) of the Act.

f. With respect to the adequacy of internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure II.

g. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014(as amended), in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position.

   ii. The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses that need provision.

   iii. During the year, there were no amounts which were required to be transferred by the Company to the Investor Education and Protection Fund.

ANNEXURE TO THE AUDITOR'S REPORT

Referred to in paragraph 9 of our report of even date on the Ind AS financial statements of Mahindra Bebanco Developers Limited for the year ended March 31, 2018

1. (i) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

   (ii) The fixed assets of the Company have been physically verified by the Management during the year. The discrepancies noticed on such verification were not material and have been properly dealt with in the books of account. In our opinion, the frequency of verification is reasonable.

   (iii) The title deeds of immovable properties are held in the name of the Company.

2. (i) The management has conducted physical verification of inventory at reasonable intervals during the year.

   (ii) The procedures of physical verification of inventory followed by the management are reasonable and adequate in relation to the size of the Company and the nature of its business.

   (iii) The Company is maintaining proper records of inventory and no material discrepancies were noticed on physical verification.

3. According to the information and explanations given to us the Company has not granted any loans, secured or unsecured, to companies, firms and other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of para 3(iii) of the Order are not applicable to the Company.

4. The Company has not granted any loans or made any investments, or provided any guarantees or security to the parties covered under Section 185 and section 186 of the Companies Act, 2013. Therefore the provisions of Clause 3(iv) of the Order are not applicable to the company.

5. The Company has not accepted any deposits from the public within the meaning of Sections 73, 74, 75 and 76 of the Companies Act, 2013 and the Rules framed there under to the extent notified. Therefore the provisions of Clause 3(v) of the Order are not applicable to the company.

6. As informed to us, the maintenance of cost records has been prescribed by the Central Government under section 148(1) of the Companies Act, 2013, in respect of the activities carried on by the Company. We have broadly reviewed the books of account relating to materials, labour and other items of cost maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under section and we are of the opinion that prima facie the prescribed accounts and records have been made and maintained.

7. (i) According to the records of the Company and information and explanations given to us, the Company is generally regular in depositing with the appropriate authorities undisputed statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, Customs Duty, Value Added Tax, Goods & Service Tax and other statutory dues applicable to it with the concerned authorities. The provisions of Excise Duty are not applicable to the operations of the Company.

   (ii) According to the information and explanations given to us, there are no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Wealth Tax, Service Tax, Customs Duty, Value Added Tax and Goods & Service Tax that were outstanding, at the year-end for a period of more than six months from the date they became payable.

   (iii) According to the information and explanations given to us and records of the Company examined by us, there are no dues of Income Tax, Sales Tax, Service Tax, Customs Duty and Value Added Tax, Goods & Service and Cess Tax which have not been deposited on account of any dispute.

8. Based on the records examined by us and according to the information and explanations given to us, the Company has not borrowed any money from financial institution or banks or Government or debenture holders during the year under audit.

9. In our opinion and according to the information and explanations given to us, during the year, no term loans were obtained by the Company. During the year, there were no moneys raised by way of initial public offer or further public offer.

10. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing principles in India, and according to the information and explanations given to us, we have neither come across any instance of fraud on or by the Company, noticed or reported during the year, nor have we been informed of such case by the management.

11. No managerial remuneration has been paid or provided during the year as per the provisions of section 197 rad with Schedule V to the Companies Act, 2013.

12. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. the provisions of Clause 3(xii) of the Order are not applicable to the Company.

13. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the Ind AS financial statements as required under Accounting Standard (AS) 18, Related Party Disclosures specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

14. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company.

15. The Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.

16. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

ANNEXURE II TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA BEBANCO DEVELOPERS LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Bebanco Developers Limited ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

1. General Information

Mahindra Bebanco Developers Limited,a joint venture company between Mahindra Lifespace Developers Ltd. and B. E. Billimoria & Co Ltd incorporated in India.

The principal activity of the Company is development of residential complexes in MIHAN Nagpur.

2. Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared in accordance with Ind-AS notified under the Companies (Indian Accounting Standards) Rules, 2015.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Companyconsiders the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in thesefinancial statements is determined on such a basis, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

2.4 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.4.1 Construction contracts

When the outcome of a construction contract can be estimated reliably, revenue and costs are recognised by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs, except where this would not be representative of the stage of completion. Variations in contract work, claims and incentive payments are included to the extent that the amount can be measured reliably and its receipt is considered probable.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent of contract costs incurred that it is probable will be recoverable. Contract costs are recognised as expenses in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

When contract costs incurred to date plus recognised profits less recognised losses exceed progress billings, the surplus is shown as amounts due from customers for contract work. For contracts where progress billings exceed contract costs incurred to date plus recognised profits less recognised losses, the surplus is shown as the amounts due to customers for contract work. Amounts received before the related work is performed are included in the balance sheet, as a liability, as advances received. Amounts billed for work performed but not yet paid by the customer are included in the balance sheet under trade receivables.

Further, in accordance with the Guidance Note on Accounting for Real Estate Transactions (for entities to whom Ind AS is applicable) issued by the Institute of Chartered Accountants of India, revenues will be recognized from these real estate projects only when

i. All critical approvals necessary for commencement of the project have been obtained and

ii. the actual construction and development cost incurred is at least 25% of the total construction and development cost (without considering land cost) and

iii. when at least 10% of the sales consideration is realised and

iv. where 25% of the total saleable area of the project is secured by contracts of agreement with buyers.

2.4.2 Rendering of services

Revenue from a contract to provide services is recognised by reference to the stage of completion of the contract. The stage of completion of the contract is measured based on the proportion of costs incurred for rendering of the service to date relative to the estimated total costs, except where this would not be representative of the stage of completion

2.4.3 Sale of goods

Revenue from the sale of goods (i.e. residential units sold and entire consideration after the receipt of completion certificate or similar document from the concerned local authority) is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

- the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

2.4.4 Dividend and interest income

Dividend income from investment in mutual funds is recognised when the unit holder’s right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.6.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.6.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.6.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.7 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties during construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.8 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

2.9 Inventories

Inventories are stated at the lower of cost and net realisable value. The cost of construction material is determined on the basis of weighted average method. Construction Work-in-Progress includes cost of land, premium for development rights, construction costs and allocated interest & manpower costs and expenses incidental to the projects undertaken by the Company.

2.10 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) because of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, considering the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.11 Employee benefits provisions

Employee benefits provisions are measured and classified into long term and short-term provisions based on Actuarial valuation as per IND AS-19 as on Balance sheet date.

2.12 Financial Instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair valuethrough profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate,on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fairvalue through profit or loss are recognised immediately in profit or loss.

2.13 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.13.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of ‘Reserve for debt instruments through other comprehensive income’. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

2.13.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the “Other income” line item.

2.13.3 Investments in equity instruments at FVTOCI

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the ‘Reserve for equity instruments through other comprehensive income’. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee.

2.13.4 Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

2.13.5 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.13.6 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Companyneither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If theCompany retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

2.13.7 Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

- For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

2.14 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.14.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.14.2 Compound financial instruments

The component parts of compound financial instruments (convertible notes) issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recognised as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound financial instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. When the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to retained earnings. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

Transaction costs that relate to the issue of the convertible notes are allocated to the liability and equity components in proportion to the allocation of the gross proceeds. Transaction costs relating to the equity component are recognised directly in equity. Transaction costs relating to the liability component are included in the carrying amount of the liability component and are amortised over the lives of the convertible notes using the effective interest method.

2.14.2.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

However, financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies, financial guarantee contracts issued by the Company, and commitments issued by the Company to provide a loan at below-market interest rate are measured in accordance with the specific accounting policies set out below.

2.14.2.2 Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies, may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a Company of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on re-measurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any interest paid on the financial liability and is included in the 'Other income' line item.

However, for non-held-for-trading financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognised in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch in profit or loss, in which case these effects of changes in credit risk are recognised in profit or loss. The remaining amount of change in the fair value of liability is always recognised in profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognised in other comprehensive income are reflected immediately in retained earnings and are not subsequently reclassified to profit or loss.

Gains or losses on financial guarantee contracts and loan commitments issued by the Company that are designated by the Company as at fair value through profit or loss are recognised in profit or loss.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

2.14.2.3 Financial Liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

2.14.2.4 Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due in accordance with the terms of a debt instrument.

Financial guarantee contracts issued by the Company are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

2.14.2.5 Commitments to provide a loan at a below-market interest rate

Commitments to provide a loan at a below-market interest rate are initially measured at their fair values and, if not designated as at FVTPL, are subsequently measured at the higher of:

- the amount of loss allowance determined in accordance with impairment requirements of Ind AS 109; and
- the amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principles of Ind AS 18.

2.14.2.6 Foreign exchange gains and losses

For financial liabilities that are denominated in a foreign currency and are measured at amortised cost at the end of each reporting period, the foreign exchange gains and losses are determined based on the amortised cost of the instruments and are recognised in 'Other income'.

The fair value of financial liabilities denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of the reporting period. For financial liabilities that are measured as at FVTPL, the foreign exchange component forms part of the fair value gains or losses and is recognised in profit or loss.

2.14.2.7 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 1, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk . In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

CREDIT RISK

Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

cash and cash equivalents, investments carried at amortised cost, deposits with banks and financial institutions as well as credit exposures to customers including outstanding receivables.

Trade Receivables:

The Companys trade receivables include receivables on sale of residential flats. As per the Company's flat handover policy, a flat is handed over to a customer only upon payment of entire amount of consideration. Thus, the Company is not exposed to any credit risk on receivables from sale of residential flats.

Balances with Banks, mutual funds and other financial assets:

For banks and financial institutions, only high rated banks/institutions are accepted. The Company holds cash and cash equivalents with bank and financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its cash and cash equivalents have low credit risk based on external credit ratings of the counterparties.

For other financial assets, the Company assesses and manages credit risk based on reasonable and supportive forward looking information. The Company does not have significant credit risk exposure for these items.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and floating rate loans and borrowings.

ANNEXURE 2

Policy on remuneration of Directors

Purpose

This Policy sets out the approach to Compensation of Directors, in Mahindra Industrial Park Chennai Limited.

Policy Statement

We have a well-defined Compensation policy for Directors, including the Chairman of the Company. The overall compensation philosophy which guides us to focus on enhancing the value, to attract, to retain and motivate Directors for achieving objectives of the Company and to become a major player in Indian Real Estate Sector, to maintain the pioneer status in the Integrated Business City format , to be the most trusted brand in the business we operate in and focus on customer centricity through transparency, quality and on-time delivery, to be a thought leader and establish industry benchmarks in Sustainable Development.

In order to effectively implement this, we have built our Compensation structure by a regular annual benchmarking over the years with relevant players across the industry we operate in.

NON-EXECUTIVE INCLUDING INDEPENDENT DIRECTORS:

The Nomination and Remuneration Committee (NRC) shall decide the basis for determining the compensation, both Fixed and variable, to the Non-Executive Directors, including Independent Directors, whether as commission or otherwise. The NRC shall take into consideration various factors such as director's participation in Board and Committee meetings during the year, other responsibilities undertaken, such as membership or Chairmanship of committees, time spent in carrying out their duties, role and functions as envisaged in Schedule IV of the Companies Act 2013 and such other factors as the NRC may consider deem fit for determining the compensation. The Board shall determine the compensation to Non-Executive Directors within the overall limits specified in the Shareholders resolution.

Manager

Remuneration of the Manager reflects the overall remuneration philosophy and guiding principle of the Company. While considering the appointment and remuneration of Manager, the NRC shall consider the industry benchmarks, merit and seniority of the person and shall ensure that the remuneration proposed to be paid is commensurate with the remuneration packages paid to similar senior level counterpart(s) in other companies. The policy aims at a balance between fixed and variable pay reflecting short and long-term performance objectives appropriate to the working of the company and its goals.

The remuneration to the Manager shall be recommended by NRC to the Board. The remuneration consists of both fixed compensation and variable compensation and shall be paid as salary, commission, performance bonus, stock options (where applicable), perquisites and fringe benefits as per the policy of the Company from time to time and as approved by the Board and within the overall limits specified in the Shareholders resolution. While the fixed compensation is determined at the time of appointment, the variable compensation will be determined annually by the NRC based on the performance of Manager.

The term of office and remuneration of Manager is subject to the approval of the Board of Directors, shareholders, and Central Government, as may be required and within the statutory limits laid down in this regard from time to time.

If, in any financial year, the Company has no profits or its profits are inadequate, the Company shall pay, subject to the requisite approvals, remuneration to its Manager in accordance with the provisions of Schedule V of the Companies Act, 2013.

If a Manager draws or receives, directly or indirectly by way of remuneration any such sums in excess of the limits prescribed under the Companies Act, 2013 or without the prior sanction of the Central Government, where required, he / she shall refund such sums to the Company and until such sum is refunded, hold it in trust for the Company. The Company shall not waive recovery of such sum refundable to it unless permitted by the Central Government.

Remuneration for Manager is designed subject to the limits laid down under the Companies Act, 2013 to remunerate him / her fairly and responsibly. The remuneration to the Manager comprises of salary, perquisites and benefits as per policy of the Company and performance based incentive apart from retirement benefits like P.F., Superannuation, Gratuity, Leave Encashment, etc. as per Rules of the Company. Salary is paid within the range approved by the Shareholders. Increments are effective annually, as recommended / approved by the Remuneration Committee / Board.

Directors

The Non-Executive Chairman and Independent Directors receive sitting fees for attending the meeting of the Board and the Committees thereof, as fixed by the Board of Directors from time to time subject to statutory provisions. The Non-Executive Chairman and Independent Directors would be entitled to the remuneration under the Companies Act, 2013. A Non-Executive Non-Independent Director who receives remuneration from the holding company or any other group company is not paid any sitting fees or any remuneration. In addition to the above the Directors are entitled for reimbursement of expenses incurred in discharge of their duties.

The Company may also grant Stock Options to the eligible employees and Directors (other than Independent Directors) in accordance with the ESOP Schemes of the Company from time to time and subject to the compliance of the applicable statutes and regulations.

Disclosures

Information on the total remuneration of members of the Company's Board of Directors, Manager and KMP/ Senior management personnel may be disclosed in the Board's report and the Company's annual report as per statutory requirements in this regard.

ANNEXURE 3

Policy on Remuneration of Key Managerial Personnel and Employees

This Policy is effective from the financial year 2016-17.

Objective

To establish guidelines for remunerating employees fairly and in keeping with Statutes.

Standards

- All employees, irrespective of contract, are to be remunerated fairly and the remuneration is to be externally competitive and internally equitable. The remuneration will be paid in accordance with the laid down Statutes.
- Remuneration for on-roll employees will include a fixed or guaranteed component payable monthly; and a variable component which is based on performance and paid annually in the month of July following the fiscal.
- The fixed component of remuneration will have a flexible component with a bouquet of allowances to enable an employee to choose the allowances as well as the quantum based on laid down limits as per Company policy. The flexible component can be varied only once annually in the month of July i.e. after the salary increment exercise.
- The variable component of the remuneration will vary from 10% to 25% of the Cost-to-Company (CTC) and will be a function of the employee's grade.
- The actual pay-out of variable component of the remuneration will be a function of individual performance as well as business performance. Business performance is evaluated using a Balanced Score Card (BSC) while individual performance is evaluated on Key Result Areas (KRA). Both the BSC and KRAs are evaluated at the end of the fiscal to arrive at the BSC rating of the business and PPS rating of the individual.
- An annual compensation survey is carried out to ensure that the Company's compensation is externally competitive and is around 60th percentile. Based on the findings of the survey and the business performance, the Sector Talent Council decides:
  - a) The increment that needs to be paid for different performance ratings as well as grades.
  - b) The increment for promotions and the total maximum increment.
  - c) The maximum increase in compensation cost in % and absolute.
- Compensation corrections are made in a few cases where it is outside the band or to keep it tune with the market.

ANNEXURE 5

WHISTLE BLOWER POLICY

1. The Whistle Blower Policy is effective from 13th April 2016.

2. Preface

Mahindra Industrial Park Chennai Limited (MIPCL) ("the Company") is committed to conducting its business in accordance with applicable laws, rules and regulations and the highest standards of business ethics, honesty, integrity and ethical conduct. Towards this end, the Company has adopted three separate Codes of Conduct viz. for Directors, for Independent Directors and for Senior Management and Employees (collectively referred to as "Codes" or "the Codes") and various Policies under the helm of Corporate Governance which inter alia include Policy on Disaster Management, Environment & Pollution, Human Resources, Insider Trading, Investor Relations, etc. (collectively referred to as "Policies") which lays down the principles and standards that should govern the actions of the Company and its Employees. Any actual or potential violation of the Code/Policies, howsoever insignificant or perceived as such, would be a matter of serious concern for the Company. The role of the Employees/Directors in pointing out such violations of the Code/Policies cannot be undermined.

Further, as per the provisions of sub-section 9 of section 177 of Companies Act. 2013 ("the Act" or "Act"), the company has been mandated to establish a vigil mechanism for directors and employees of the company to report to the Management, instances of unethical behaviour, actual or suspected, fraud or violation of the Company's Code or Policies.

Accordingly, this Whistle Blower Policy ("the Policy" or "this Policy") has been formulated with a view to provide a mechanism for Directors and Employees of the Company to approach the Audit Committee.

3. Definitions

The definitions of the key terms used in this Policy are given below. [Terms not defined herein below shall have the meaning assigned to them under the Codes/Policies/ Act.]

a. "Audit Committee" means the Audit Committee constituted by the Board of Directors of the Company in accordance with Section 177 of the Companies Act, 2013 and read with Clause 49 of the Listing Agreement with the Stock Exchanges.

b. "Codes" mean three separate Codes of Conduct viz. for Directors, for Independent Directors and for Senior Management and Employees.

c. "Director" means a director as defined under Section 2 (34) of the Companies Act, 2013.

d. "Employee" means every employee of the Company (whether working in India or abroad), including the Directors in the whole time employment of the Company.

e. "Investigators" means those persons authorised, appointed, consulted or approached by the Audit Committee and the Police.

f. "Protected Disclosure" means any communication made in good faith that discloses or demonstrates information that may evidence illegal or unethical behaviour, actual or suspected fraud or violation of the Company's Codes or Policies or any improper activity.

g. "Subject" means a person against or in relation to whom a Protected Disclosure has been made or evidence gathered during the course of an investigation.

h. "Whistle Blower" means a Director or Employee making a Protected Disclosure under this Policy.

4. Scope

a. The Whistle Blower's role is that of a reporting party with reliable information. They are not required or expected to act as investigators or finders of facts nor would they determine the appropriate corrective or remedial action that may be warranted in a given case.

b. Whistle Blowers should not act on their own in conducting any investigative activities, nor do they have a right to participate in any investigative activities other than as requested by the Audit Committee or the Investigator.

c. Protected Disclosure will be appropriately dealt with by the Audit Committee.

5. Eligibility

All the Directors and Employees of the Company are eligible to make Protected Disclosures under the Policy. The Protected Disclosures may be in relation to matters concerning the Company.

6. Procedure

a. All Protected Disclosures should be addressed to the Audit Committee.

b. If a protected disclosure is received by any Executive(s) of the Company other than the Audit Committee member, the same should be forwarded to the Audit Committee for further appropriate action.

c. Appropriate care must be taken to keep the identity of the Whistle Blower(s) confidential.

d. Protected Disclosures should be reported in writing so as to ensure a clear understanding of the issues raised, be typed in English, Hindi or in the Regional Language of the place of employment of the Whistle Blower(s).

e. The Protected Disclosure should be forwarded under a covering letter which shall bear the identity of the Whistle Blower(s). The Audit Committee shall detach the covering letter and forward only the Protected Disclosure to the Investigators for investigation.

f. Protected Disclosures should be factual and not speculative or in the nature of a conclusion, and should contain as much specific information as possible to allow for proper assessment of the nature and extent of the concern.

7. Investigation

a. All Protected Disclosures reported under this Policy would be thoroughly investigated by the Audit Committee who would investigate/oversee the investigations.

b. The Audit Committee may at their discretion, consider involving any Investigators for the purpose of investigation.

c. The decision to conduct an investigation taken by the Audit Committee is by itself not an accusation and is to be treated as a neutral fact-finding process. The outcome of the investigation may or may not support the conclusion of the Whistle Blower that an improper or unethical act was committed.

d. The identity of a Subject and the Whistle Blower would be kept confidential to the extent possible given the legitimate needs of law and the investigation.

e. Subjects would normally be informed of the allegations at the outset of a formal investigation and have opportunities for providing their inputs during the investigation.

f. Subjects shall have a duty to co-operate with the Audit Committee or any of the Investigators during investigation to the extent that such co-operation will not compromise self-incrimination protections available under the applicable laws.

g. Subjects have a right to consult with a person or persons of their choice, other than the Audit Committee.

h. Subjects have a responsibility not to interfere with the investigation. Evidence shall not be withheld, destroyed or tampered with and witnesses shall not be influenced, coached, threatened or intimidated by the Subjects.

i. Unless there are compelling reasons not to do so, Subjects would be given the opportunity to respond to material findings contained in an investigation report. No allegation of wrongdoing against a Subject shall be considered as maintainable unless there is good evidence in support of the allegation.

j. Subjects have a right to be informed of the outcome of the investigation.

k. The investigation shall be completed normally within 45 days of the receipt of the Protected Disclosure.

8. Protection

a. For the purpose of providing protection to the Whistle Blower(s), the Whistle Blower(s) should disclose his/her identity in the covering letter forwarding such Protected Disclosure.

b. The identity of the Whistle Blower(s) shall be kept confidential unless otherwise required by law, and in which case the Whistle Blower(s) would be informed accordingly.

c. No unfair treatment would be meted out to a Whistle Blower(s) by virtue of his/her having reported a Protected Disclosure under this Policy. The Company, as a Policy, condemns any kind of discrimination, harassment, victimisation or any other unfair employment practice being adopted against Whistle Blower(s). Complete protection would, therefore, be given to Whistle Blower(s) against any unfair practice like retaliation, threat or intimidation of termination/suspension of service, disciplinary action, transfer, demotion, refusal of promotion or the like including any direct or indirect use of authority to obstruct the Whistle Blower's right to continue to perform his duties/functions including making further Protected Disclosure. The Company would take steps to minimise difficulties, which the Whistle Blower(s) may experience as a result of making the Protected Disclosure.

d. A Whistle Blower(s) may report any violation of the above Clause to the Audit Committee who shall investigate into the same and advise suitable action to the Management.

e. Any other Employee assisting in the said investigation shall also be protected to the same extent as the Whistle Blower(s).

9. Disqualifications

a. While it would be ensured that genuine Whistle Blower(s) are accorded complete protection from any kind of unfair treatment as herein set out, any abuse of this protection would warrant disciplinary action.

b. Protection under this Policy would not mean protection from disciplinary action arising out of false or bogus allegations made by a Whistle Blower(s) knowing it to be false or bogus or with a mala fide intention.

c. Whistle Blower(s), who make any Protected Disclosures, which have been subsequently found to be mala fide or malicious or Whistle Blower(s) who make 3 or more Protected Disclosures, which have been subsequently found to be frivolous, baseless or reported otherwise than in good faith, would be disqualified from reporting further Protected Disclosures under this Policy and may be subject to disciplinary action.

10. Investigators

a. Investigators are required to conduct a process towards fact-finding and analysis. Investigators shall derive their authority and access rights from the Audit Committee when acting within the course and scope of their investigation.

b. Technical and other resources may be drawn upon as necessary to augment the investigation. All Investigators shall be independent and unbiased both in fact and as perceived. Investigators have a duty of fairness, objectivity, thoroughness, ethical behaviour and observance of legal and professional standards.

c. Investigations would be launched only after a preliminary review by the Audit Committee, as the case may be, which establishes that:

i. the alleged act constitutes an improper or unethical activity or conduct; and

ii. the allegation is supported by information specific enough to be investigated or in cases where the allegation is not supported by specific information, it is felt that the concerned matter is worthy of Management review.

11. Decision

If an investigation leads the Audit Committee to conclude that an illegal or unethical behaviour, actual or suspected fraud or violation of the Company's Codes or Policies or any improper activity has taken place/has been committed, the Audit Committee shall advise to the Management of the Company to take such disciplinary or corrective action as the Audit Committee may deem fit.

12. Reporting

A report with number of complaints received under this Policy and their outcome shall be placed before the Audit Committee on a regular basis.

13. Retention of documents

All Protected Disclosures in writing or documented alongwith the results of investigation relating thereto shall be retained by the Company for a minimum period of seven year.

14. Amendment

The Company reserves its right to amend or modify this Policy in whole or in part, at any time without assigning any reason whatsoever. However, no such amendment or modification would be binding on the Employees/ Directors unless the same is notified to the Employees/ Director.

INDEPENDENT AUDITOR'S REPORT

To The Members of Mahindra Industrial Park Chennai Limited

Report on the Ind AS Financial Statements

We have audited the accompanying Ind AS financial statements of **Mahindra Industrial Park Chennai Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2018, and the Statement of Profit and Loss (including Other Comprehensive Income), the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Companyin accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these Ind AS financial statements based on our audit.

In conducting our audit, we have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made thereunder and the Order issued under section 143(11) of the Act.

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Ind AS financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Ind AS financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Ind AS financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the Ind AS financial statements.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us,the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Ind AS and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2018, and its loss, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit, we report, to the extent applicable that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
   d) In our opinion, the aforesaid Ind AS financial statements comply with the Indian Accounting Standards prescribed under section 133 of the Act.
   e) On the basis of the written representations received from the directors of the Company as on March 31, 2018 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2018 from being appointed as a director in terms of Section 164(2) of the Act.
   f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and

the operating effectiveness of such controls, refer to our separate Report in "Annexure A".Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position (Refer Note 29 to the financial statements)

   ii. The Company did not have any long-term contracts for which there were any material foreseeable losses. The company has not entered into any derivative contracts.

   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph "f" under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra Industrial Park Chennai Limited** ("the Company") as of March 31, 2018 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2018, based on the criteria for internal financial control over financial reportingestablished by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

1. **General information**

Mahindra Industrial Park Chennai Limited ("the Company") was incorporated on December 22, 2014. The Company is in the business of land development for industrial, commercial and residential use. The Company acquires land and incurs expenditure on its development and related infrastructure facilities for lease/sale. The Company is developing a 260-acre Industrial Park in North Chennai on NH 15.

The Company is a joint venture between Mahindra World City Developers Limited and Sumitomo Corporation SC of Japan.

2. **Significant accounting policies**

2.1 Statement of compliance

The financial statements of the Company have been prepared in accordance with IND AS notified under the Companies (Indian Accounting Standards) Rules, 2015 to comply with the Accounting Standards prescribed under Section 133 of the Companies Act, 2013 (to the extent notified and applicable). The accounting policies adopted in the preparation of the financial statements are consistent with those followed in the previous year.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

2.3.1 Land Lease Premium

Land lease premium is recognized as income upon creation of leasehold rights in favour of the lessee or upon an agreement to create leasehold rights with handing over of possession.

2.3.2 Income from sale of land

Revenue from sale is recognized upon transfer of title to the acquirer.

2.3.3 Income from O&M

Income from operation & maintenance charges and water charges are recognized on an accrual basis as per terms of the agreement with the lessees.

2.3.4 Dividend and interest income

Dividend income from investment in mutual funds is recognised when the unit holder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.4 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.4.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates applicable for the financial year.

2.4.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.4.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.5 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.6 Goods and Services Tax (GST)

GST credit on materials purchased/services availed for construction /Input services are taken into account at the time of purchase. GST input credit is accounted for in the books in the period in which the underlying service / goods received is accounted and when there is no uncertainty in availing/ utilising the credits. GST credit on purchase of capital items wherever applicable are taken into account as and when the assets are acquired. The GST credits so taken are utilised for payment of GST on sale of land. The unutilised GST credit is carried forward in the books.

2.7 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

2.8 Inventories

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Work in progress includes cost of land and all expenditure incurred in connection with, or attributable to the project, and, being a long-term project, includes interest.

2.9 Cash and cash equivalents (for purposes of Cash Flow Statement)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.10 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/ (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.11 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) because of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.11.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.12 Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.13 Foreign currency transactions and translations

Foreign currency transactions are recorded at exchange rates prevailing on the date of transaction. Monetary assets/liabilities are translated at exchange rates prevailing on the date of settlement or at the year-end as applicable, and gain/loss arising out of such translation is adjusted to the Statement of profit and loss.

2.14 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial asset

2.14.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

2.14.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

2.14.3 Financial assets at fair value through profit or loss (FVTPL)

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

2.14.4 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, and other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.14.5 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2018

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

2.15 Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.15.1 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.15.1.1 Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

2.15.1.2 Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

2.15.1.3 Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.16 Employee benefits

Employee benefits include provident fund, superannuation fund, employee state insurance scheme, gratuity fund, compensated absences, long service awards and post-employment medical benefits.

The Company's contribution to provident fund are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made and when services are rendered by the employees.

Defined benefit plans

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the Projected Unit Credit method, with actuarial valuations being carried out at each Balance Sheet date. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognized in the other comprehensive income is reflected immediately in the retained earnings and is not reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognized during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service. The cost of such compensated absences is accounted as under:

a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and

b) in case of non-accumulating compensated absences, when the absences occur.

Long-term employee benefits

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognized as a liability at the present value of the defined benefit obligation as at the Balance Sheet date.

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 1, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Total financial liabilities	90,82,98,926	65,73,30,707	**90,82,98,926**	65,73,30,707

The management assessed that the fair value of cash and cash equivalents and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

The fair values of the Company's interest-bearing borrowings are determined by using DCF method using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

23 - Fair Value Hierarchy

The following table provides the fair value measurement hierarchy of the Company's assets and liabilities

Quantitative disclosures fair value measurement hierarchy for assets as at 31 March 2018:

		Fair value measurement using			
	Date of Valuation	Quoted prices in active markets (Level 1)	Significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total

Total		–	39,38,96,496	–	39,38,96,496

The fair values of the financial assets and financial liabilities included in the level 2 category above has been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties.

There have been no transfers between Level 1 and Level 2 during year ended 31 March 2018.

24 - Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Judgements

In the process of applying the Company's accounting policies, management has made the following judgements, which have the significant effect on the amounts recognised in the financial statements:

Estimates

Taxes

Deferred tax assets are recognised for unused tax losses and other temporary differences leading to deferred tax assets to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Estimation of net realisable value for inventories

Inventories are stated at the lower of cost and net realisable value. Net realisable value of inventories under construction is assessed with reference to the market prices at the reporting date less estimated costs to complete the construction and less an estimate of the time value of money to the date of completion if material. The market prices bear reference to the recent selling prices. The costs to complete the construction are estimated by management.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

25 - Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder value.

The Company's objective when managing capital are to :

- safeguard their ability to continue as a going concern, so that they can continue to provide return for shareholders and benefits for other stakeholders and
- Maintain an optimal capital structure to reduce the weighted cost of capital.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2018

In order to maintain or adjust the capital structure , the Company may adjust the amount of dividend paid to shareholders, return capital to shareholders, issue new shares, or sell non-core assets to reduce the debt.

The Company is not subject to any externally imposed capital requirements.

Debt-to-equity ratio as of 31 March 2018 and 31 March 2017 is as follows:

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk . In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

Credit risk arises when a counterparty defaults on its contractual obligations to pay, resulting in financial loss to the Company.

Credit risk related to financial instruments

Credit risk from balances with banks and financial institutions is managed in accordance with the Company's policy. The Company has not created any Investments of surplus funds in any other instruments as of date and hence the company is not exposed to any credit risk in this respect.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.
