Basic and diluted loss per share (face value of Rs. 10 each)	**(0.23)**	(0.25)

28. Financial instruments

The carrying value and fair value of financial instruments by categories are as follows:

(Rs. in lakhs)

Particulars	Note	Carrying value As at 31 March 2020	As at 31 March 2019
Financial assets*			
Carried at cost			
Investment in an associate**	6	**35,548**	35,548
Measured at amortised cost			
Loans	7	**643**	846
Trade receivables	11	**483**	209
Cash and cash equivalents	12 (a)	**31**	221
Bank balances other than cash and cash equivalents as above	12 (b)	**–**	30
Other financial assets	8	**38**	8
Total financial assets		**36,742**	36,862

(Rs. in lakhs)

Particulars	Note	Carrying value As at 31 March 2020	As at 31 March 2019
Financial liabilities*			
Measured at amortised cost			
Borrowings	**15**	**660**	–
Trade payables	**16**	**1,412**	1,205
Other financial liabilities	**17**	**53**	114
Lease liabilities	**5**	**2,652**	–
Total financial liabilities		**4,777**	1,319

* The Company has not separately disclosed the fair values for financial assets and liabilities because their carrying amounts are a reasonable approximation of the fair value.

** Investment in equity shares in an associate company is accounted at cost as per Ind AS-27.

28.1 Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

28.2 Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Company's management oversees how management monitors compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The management is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Board.

28.3 Financial risk management objective and policies

The Company's principal financial liabilities comprise borrowings, trade payables and other financial liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, loans, trade and other receivables, cash and short-term deposits.

The Company is exposed to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these IND AS financial statements.

28.4 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises from cash held with banks and financial institutions as well as credit exposure to clients, including outstanding accounts receivable and security deposit. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

The Company's trade and other receivables are actively monitored to review credit worthiness of the customers to whom credit terms are granted and also avoid significant concentrations of credit risks.

Given below is ageing of trade receivable spread by period of six months.

(Rs. in lakhs)

Particulars	As at 31 March 2020	As at 31 March 2019
Outstanding for more than 6 months....	**23**	–
Others	**477**	209
Total:	**500**	209

The Company continuously monitors receivables from customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls. As the customer base is distributed economically and geographically, there is no concentration of credit risk.

The Company has considered possible effects that may result from COVID-19, a global pandemic, on the carrying amount of receivables. In developing the assumptions relating to the possible future uncertainties in global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts. The Company based on current estimates expects the carrying amount of the above assets will be recovered, net of provisions established.

Financial assets that are not credit impaired:-

The Company has financial assets which are in nature of cash and cash equivalents, security deposit, bank deposit, trade receivable which are not credit impaired. These are contractually agreed, and the probability of default is negligible.

Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

28.5 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. While management expects to generate cash from the operations of the Company, to mitigate liquidity risk, the Holding Company is also committed to support the operations of the Company.

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2020 and 31 March 2019:

(Rs. in lakhs)

	Less than 3 months	3 to 12 months	1 to 5 years	> 5 years	Adjustments	Total
As at 31 March 2020						
Borrowings (refer note 15)	**660**	**–**	**–**	**–**	**–**	**660**
Trade payables (refer note 16)	**1,412**	**–**	**–**	**–**	**–**	**1,412**
Other financial liabilities (refer note 17)...	**53**	**–**	**–**	**–**	**–**	**53**
Lease liabilities (refer note 5)...	**220**	**616**	**1,544**	**272**	**–**	**2,652**
Total	**2,345**	**616**	**1,544**	**272**	**–**	**4,777**

(Rs. in lakhs)

	Less than 3 months	3 to 12 months	1 to 5 years	> 5 years	Adjustments	Total
As at 31 March 2019						
Trade payables (refer note 16)...	**1,205**	**–**	**–**	**–**	**–**	**1,205**
Other financial liabilities (refer note 17)...	**69**	**45**	**–**	**–**	**–**	**114**
Total	**1,274**	**45**	**–**	**–**	**–**	**1,319**

28.6 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial investments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Company is not exposed to significant currency risk as majority of the transactions are primarily denominated in Indian Rupees ("INR"), which is the national currency of India.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have exposure to long-term debt obligations with floating interest rates and hence does not foresee any significant risk arising from interest rate fluctuation.

28.7 Capital management

The Company's capital management objectives are:

– to ensure the Company's ability to continue as a going concern.

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. The Company is not subject to externally enforced capital regulation. The Company's capital requirements are substantially met through the issue of equity to the Holding Company and the Intermediate Holding Company.

There is no change in the overall capital risk management strategy of the Company compared to last year.

29. Employee benefits

(a) Defined contribution plan

The Company's contribution to Provident Fund and Employee State Insurance aggregating Rs. 95 lakhs (2019: Rs. 87 lakhs) has been recognised in the Statement of profit and loss under the head employee benefits expense.

(b) Defined benefit plan:

Gratuity

The Company operates one defined benefit plan, viz., gratuity, for its employees. Under the gratuity plan, every employee who has completed at least five years of service gets gratuity on departure at 15 days of last drawn salary for each completed year of service. The scheme is funded with an insurance company in the form of qualifying insurance policy.

Through the defined benefit plan the Company is exposed to the following risks:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plan holds a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

The Company has chosen a suitable plan with Insurance, which augurs well with the Company's long term strategy to manage the plan efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings.

Life expectancy

Increase in life expectancy will result in an increase in the plan's liabilities, as the inflationary increases result in higher sensitivity to changes in life expectancy.

	Actuarial assumptions	
	As at 31 March 2020	As at 31 March 2019
Discount rate(s)	**6.43%**	7.52%
Expected rate(s) of salary increase	**6.00%**	10.00%
Average longevity	**Indian Assured Lives Mortality (2012-14)**	Indian Assured Lives Mortality (2012-14)

Defined benefit plan – as per actuarial valuation

	(Rs. in lakhs)	
	Funded Plan	
Particulars	**As at 31 March 2020**	As at 31 March 2019
Amounts recognized in comprehensive income in respect of these defined benefit plans are as follows:		
Service cost:		
Current service cost	**15**	16
Net interest expense	**2**	1
Components of defined benefit costs recognized in profit or loss	**17**	17

	(Rs. in lakhs)	
	Funded Plan	
Particulars	**As at 31 March 2020**	As at 31 March 2019
Remeasurement on the net defined benefit liability:		
Return on plan assets (excluding amount included in net interest expense)	**(2)**	5
Actuarial loss / (gains) arising from changes in demographic assumptions	**(8)**	15
Actuarial gains arising from changes in financial assumptions	**(68)**	(9)
Actuarial loss / (gains) arising from experience adjustments	**69**	(10)
Components of defined benefit costs recognized in other comprehensive income	**(9)**	1
	8	18
I. Net Asset recognized in the Balance Sheet		
- Present value of defined benefit obligation	**68**	73
- Fair value of plan assets	**(35)**	(48)
Surplus	**33**	25
Current portion of the above	**33**	25
II. Change in the obligation during the year		
- Present value of defined benefit obligation at the beginning of the year	**73**	69
- *Expenses Recognized in Profit and Loss*		
- Current Service Cost	**15**	17
- Interest expense	**4**	5
Remeasurement (gains)/losses		
- Actuarial (gains)	**(7)**	(4)
Benefit payments	**(17)**	(13)
Present value of defined benefit obligation at the end of the year	**68**	73
III. Change in fair value of assets during the year ended 31 March 2020		
Fair value of plan assets at the beginning of the year	**47**	**61**
Expenses Recognized in Profit and Loss Account		
- Expected return on plan assets	**3**	4
Recognized in Other Comprehensive Income		
Remeasurement losses		
- Actual Return on plan assets in excess of the expected return	**2**	(5)
Contributions by employer (including benefit payments recoverable)		
Benefit payments	**(17)**	(13)
Fair value of plan assets at the end of the year	**35**	48
IV. The major categories of plan assets		
- Investment with Insurer	**100%**	100%

The Company's policy is driven by considerations of maximizing returns. The asset allocation for plan assets is determined by the Fund Manager based on investment criteria prescribed by the local regulators. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

V. The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

			Impact on defined benefit obligation	
Principal assumption	**Year**	**Changes in assumption**	**Increase in assumption**	**Decrease in assumption**
Discount rate	**2020**	**1.00%**	**(4.42)**	**5.10**
	2019	1.00%	(5.54)	5.11
Salary growth rate	**2020**	**1.00%**	**4.70**	**(4.15)**
	2019	1.00%	4.60	(5.16)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method has been applied as when calculating the defined benefit liability recognised in the statement of financial position.

The method and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

VI. Maturity profile of defined benefit obligation:

(Rs. in lakhs)

	As at 31 March 2020	As at 31 March 2019
Within 1 year	**–**	–
1 - 2 year	**9**	9
2 - 3 year	**7**	7
3 - 4 year	**5**	6
4 - 5 year	**4**	4
5 - 10 years	**16**	17
Above 10 years	**26**	30
	68	73

Plan Assets:

The details with respect to the investment made by Fund manager (Life Insurance Corporation) into major categories of plan assets have not been disclosed, as the same has not been provided by the Fund manager to the Company.

VII. Experience adjustments:

(Rs. in lakhs)

	As at 31 March 2020	As at 31 March 2019
	Gratuity	
1. Defined Benefit Obligation	**68**	73
2. Fair value of plan assets	**(35)**	(48)
3. Surplus..	**33**	25
4. Experience adjustment on plan liabilities loss/ (gains)	**69**	(10)
5. Experience adjustment on plan assets (loss)/ gain	**(2)**	5

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation. The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

(Rs. in lakhs)

Contingent liabilities	As at 31 March 2020	As at 31 March 2019
(a) Disputed Income Tax demand*	**360**	360
(b) Central Sales Tax and Value Added Tax matters under dispute*	**158**	257

(c) In February 2019, Supreme Court of India in its judgement clarified that certain special allowances should be considered to measure obligations under Employees Provident Fund Act, 1952. The Company has been legally advised that there are interpretative challenges on the application of judgement retrospectively and as such does not consider there is any probable obligations for past periods. Accordingly, based on legal advice the Company has made a provision for provident fund contribution from the date of Supreme Court order. There is no change in the above ruling during the year.

* The Company is contesting the demands and the management believes that its position will likely be upheld in the various appellate authorities/courts and the ultimate outcome will not have a material adverse effect on the Company's financial position and results of operations.

Commitments

(Rs. in lakhs)

	As at 31 March 2020	As at 31 March 2019
Commitment relating to leases	–	158

32 Dues to micro, medium and small enterprises

The Ministry of Micro, Medium and Small Enterprises has issued an office memorandum dated 26 August 2008 which recommends that the Micro and Small enterprises should mention in their correspondence with its customers the Entrepreneurs Memorandum Number as allocated after filing of the Memorandum in accordance with the 'Micro, Small and Medium Enterprises Development Act, 2006 ('the Act'). Accordingly, the disclosure in respect of the amounts payable to such enterprises as at 31 March 2020 has been made in the IND AS financial statements based on information received and available with the Company. Further in view of the Management, the impact of interest, if any, that may be payable in accordance with the provisions of the Act is not expected to be material. The Company has not received any claim for interest from any supplier as at the balance sheet date.

The principal amount due and the interest due thereon remaining unpaid to any supplier at the end of each accounting year:

(Rs. in lakhs)

	As at 31 March 2020	As at 31 March 2019
(a) Dues remaining unpaid		
- Principle	–	–
- Interest on the above	–	–
(b) Interest paid in terms of Section 16 of the MSMED Act along with the amount of payment made to the supplier beyond the appointed day during the year.	–	–
- Principle paid beyond the appointed date	–	–
- Interest paid in terms of Section 16 of the MSMED Act	–	–
(c) Amount of interest due and payable for period of delay on payments made made beyond the appointed day during the year.	–	–
(d) Further interest due and payable even in the succeeding years, until such date when the interest due as above are actually paid to the small enterprises	–	–
(e) Amount of interest accrued and remaining unpaid	**26**	26

33 Segment information

The Company currently operates in a single reportable segment, i.e., in the business of retailing a variety of lifestyle and consumer products through its own branded stores in India. Consequently, the requirements for a separate disclosure under Ind AS 108 - "Operating Segments" is not applicable.

34 The disclosures regarding details of specified bank notes held and transacted during 8 November 2016 to 30 December 2016 has not been made in these IND AS financial statements since the requirement does not pertain to financial year ended 31 March 2020.

35 Long-term contracts

The Company does not have any long-term contracts including derivative contracts for which there are any material foreseeable losses.

36 Impact of COVID-19

The COVID-19 pandemic is rapidly spreading throughout the world. The event significantly affects the economic activity worldwide and, as a result, could affect the operations and results of the Company. The impact of the COVID-19 pandemic may be different from that estimated as at the date of approval of these financial statements and the Company continues to closely monitor any material changes to future economic conditions.

The Company's stores and offices are under nationwide lockdown since March 24, 2020. The Company is monitoring the situation closely and will resume operations in a phased manner taking into account directives from the Government. Based on the ongoing discussions with vendors and service providers, the Management is confident of obtaining regular supply of raw materials and logistics services after restarting the stores.

Management has performed a comprehensive assessment of the implications of COVID-19 on the financial statements of the Company for the year ended 31 March 2020 including specifically on the going concern assumption, impairment testing for property, plant and equipment, estimate of expected credit losses and revenue recognized during the year, net realizable value of inventory, significant estimates (including the assumptions, data, method & disclosures), and have accordingly concluded that there are no adjustments required in these financial statements. Also refer Note 2.2. (c).

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF
MAHINDRA DEFENCE SYSTEMS LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Mahindra Defence Systems Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS"), and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, but does not include the financial statements, and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books

   c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

   e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

   g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended,

      In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

   h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company does not have any pending litigations which would impact its financial position. Refer to note 40 (i) of the financial statements.

      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses. Refer to note 38 of the financial statements.

      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company. Refer to note 39 of the financial statements.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date on the financial statements for the year ended March 31, 2020 of Mahindra Defence Systems Limited

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Defence Systems Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on "the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India".

ANNEXURE "B" TO THE AUDITORS' REPORT

Referred to in paragraph 2 under 'Report on Legal and Regulatory Requirements' section of our report of even date on the financial statements for the year ended March 31, 2020 of Mahindra Defence Systems Limited

(i) In respect of its Property, plant and equipment:

   (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of the Property, plant and equipment.

   (b) The Property, plant and equipment were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the Property, plant and equipment at reasonable intervals and no material discrepancies were noticed on such verification.

   (c) Based on the examination of the registered sale deed provided to us, we report that, the title deed, comprising all the immovable properties of land and Buildings which are freehold, are held in the name of the Company as at the balance sheet date. The Company does not have any immovable properties of land and building that have been taken on lease and disclosed as property, plant and equipment in the financial statements.

(ii) The inventories were physically verified during the year by the Management at reasonable intervals other than for inventories lying with third party at the end of the year for which confirmation have been obtained in most of the cases. The discrepancies noticed on physical verification of inventories as compared to book records were not material and have been properly dealt with in the books of account.

(iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013.

(iv) The Company has not granted any loans, made investments or provided guarantees and securities and hence reporting under clause (iv) of the Order is not applicable.

(v) The Company has not accepted any deposits from the public. The Company does not have any unclaimed deposits and accordingly the provisions of Sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 are not applicable to the Company.

(vi) The maintenance of cost records has not been specified by the Central Government under Section 148(1) of the Companies Act, 2013.

(vii) According to the information and explanations given to us and the records of the Company examined by us, in respect of statutory dues:

   (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees' State Insurance, Income-tax, Customs Duty, Goods and Services Tax, cess and other material statutory dues applicable to it to the appropriate authorities.

   (b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Customs Duty, Goods and Services Tax, cess and other material statutory dues in arrears as at March 31, 2020 for a period of more than six months from the date they became payable.

   (c) There are no dues of Income-tax, Sales Tax, Service Tax, Customs Duty, Excise Duty and Value Added Tax as on March 31, 2020 on account of disputes.

(viii) The Company has not defaulted in repayment of loans or borrowings to bank. The Company has not taken any loans or borrowings from financial institutions and government and has not issued any debentures during the year.

(ix) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) or term loans and hence reporting under clause 3(ix) of the Order is not applicable.

(x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) In our opinion and according to the information and explanations given to us, the Company has provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with schedule V of the Companies Act, 2013.

(xii) The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause 3(xiv) of Order is not applicable to the Company.

(xv) In our opinion and according to the information and explanations given to us, during the year, the Company has not entered into any non-cash transactions with its directors or directors of its holding or associate company or persons connected with him and hence provisions of Section 192 of the Companies Act, 2013 are not applicable.

(xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS

1. **General Information**

Mahindra Defence Systems Limited is a Public Limited Company incorporated on July 30, 2012 under the Companies Act, 1956 ("the Act"). The Company is a subsidiary of Mahindra & Mahindra Limited. The Company is engaged in design, development, manufacture, supply, dealing, operating, trading, overhaul, repair, maintenance and service of all kinds of defence vehicle and other defence equipment including training to armed forces people through specific equipments. The Company is also engaged in business of consultancy, training, implementation, management, maintenance and audit in the areas of information security, physical security, homeland security, critical infrastructure security, IT systems & network security, applications security, web & software security, change management & training, business continuity, disaster recovery, governance, loss prevention, fraud risk management, forensics, third party assessment and other allied areas with the objective of derisking the business and mitigation of loss arising from such security risks. The address of company's registered office is Mahindra Towers, P.K. Kurne Chowk, Dr. G.M.Bhosale Marg, Worli, Mumbai-400018 and the address of its corporate office is Mahindra Towers, 1st Floor, 2-A, Bhikaji Cama Place, New Delhi- 110066.

Pursuant to the Scheme of Amalgamation ('the Scheme') referred to in Note 47, the erstwhile Mahindra Defence Naval Systems Limited, engaged in the manufacturing and selling of launchers and other components meant for defence purposes which are primarily used by Navy, has been amalgamated with the Company with effect from April 01, 2018.

2. **Basis of preparation and presentation**

2.1 Statement of Compliance

The financial statements have been prepared in accordance with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended.

The financial statements are presented in rupees and all values are rounded to the nearest lakhs except when otherwise indicated.

2.2 Accounting convention

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

2.3 Operating Cycle

Based on the nature of products/ activities of the Company and the normal time between acquisition of assets and their realization in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

3. **Significant Accounting Policies**

3.1 Revenue recognition

Revenue represents income derived from contracts for the provision of goods and services, over time or at a point in time, by the company to customers in exchange for consideration in the ordinary course of the activities.

Contract Identification

The contract between the Company and customer is identified which creates enforceable rights and obligations with defined payment terms.

Performance obligations

Upon approval by the parties to a contract, the contract is assessed to identify each promise to transfer either a distinct good or service or a series of distinct goods or services that are substantially the same and have the same pattern of transfer to the customer. Goods and services are distinct and accounted for as separate performance obligations in the contract if the customer can benefit from them either on their own or together with other resources that are readily available to the customer and they are separately identifiable in the contract.

Transaction price

At the start of the contract, the total transaction price is determined with respect to the contract. The total transaction price is allocated to the performance obligations identified in the contract in proportion to their relative stand-alone selling prices.

Revenue recognition

Revenue is recognised as performance obligations are satisfied as control of the goods and services is transferred to the customer. For each performance obligation within a contract, the company determines whether it is satisfied over time or at a point in time.

Performance obligations are satisfied over time if one of the following criteria is satisfied:

- the customer simultaneously receives and consumes the benefits provided by the Company's performance as it performs;
- the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- the Company's performance does not create an asset with an alternative use to the Company and it has an enforceable right to payment for performance completed to date.

For each performance obligation to be recognized over time, the Company recognises revenue using an input method and output method. Input method is used to recognize revenue on the basis of Percentage completion method applied on the company actual spent on the basis of resources consumed, labour hours expended, costs incurred, time elapsed or machine hours used while Output methods recognize revenue on the basis of direct measurements of the value to the customer of the goods or services transferred to date relative to the remaining goods or services promised under the contract. Revenue and attributable margin are calculated by reference to estimates of sale price and total costs.

<u>Significant financing component;</u>

In determining the transaction price, the company adjusts the promised amount of consideration for the effects of the time value of money if the timing of payments agreed to by the parties to the contract provides the customer or the company with a significant benefit of financing the transfer of goods or services to the customer.

The company recognises revenue at an amount that reflects the price that a customer would have paid for the promised goods or services if the customer had paid cash for those goods or services when (or as) they transfer to the customer (ie the cash selling price)

<u>Dividend, interest and rental income</u>

Dividend income from investments is recognized when right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the companies expected inflationary cost increases, such increases are recognized in the year in which such benefits accrue.

3.2 Leasing

Rental expense from operating leases is generally recognised on a straight line basis over the term of relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increase, such increases are recognised in the year in which such benefits accrue. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

The Company is Lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Separate lease components in the contract is accounted as Lease Income.

The Company did not need to make any adjustments to the accounting of assets held as lessor under operating leases as a result of the adoption of IND AS 116.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

The Company is Lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

ii) Transition

The Company applied Ind AS 116 initially on 1 April 2019, using the modified retrospective approach with Option 2 where an amount equal to lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease is recognised in the balance sheet as Right-of use asset immediately before the date of initial application.

The following is the summary of practical expedients elected on initial application:

Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application,

Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.

Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

The difference between the lease obligation recorded as of March 31, 2019 under Ind AS 17 disclosed under Note 25 of financial statements for the year ended March 31, 2019 and the value of the lease liability as of 01 April 2019 is primarily on account of inclusion of extension and termination options reasonably certain to be exercised, in measuring the lease liability in accordance with Ind AS 116 and discounting the lease liabilities to the present value under Ind AS 116.

3.3 Foreign currency transactions and translations

In preparing the financial statements transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

3.4 Borrowing costs

Borrowing costs directly attributable to the' acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

3.5 Employee benefits

Employee benefits include provident fund, employee state insurance scheme, gratuity, compensated absences and post-employment medical benefits.

Retirement benefit costs

Payments to defined contribution retirement benefit plans are recognised as an expense employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

Re – measurements, comprising actuarial gains and losses, the effect of changes to asset ceiling (if applicable) and the return on plan assets, is recognized in other comprehensive income in the period in which they occur. Re- measurements recognized in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the companies defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

3.6 Taxes on income

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The company current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Minimum Alternate Tax (MAT) paid as current tax expense in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as tax credit and recognised as deferred tax asset when there is reasonable certainty that the Company will pay normal income tax in the future years and future economic benefit associated with it will flow to the Company.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

3.7 Property, Plant and equipment

Property, Plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost of acquisition is inclusive of freight, duties, taxes and other incidental expenses. Subsequent expenditure relating to fixed assets is capitalized only if such expenditure results in an increase in the future benefits from such asset beyond its previously assessed standard of performance. Such assets are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Cost of acquisition is inclusive of freight, duties, taxes and other incidental expenses.

Depreciation is recognised so as to write off the cost of assets (Other than free hold land and properties under contruction less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Depreciation is charged on a pro-rata basis at the straight line method as per the useful life prescribed in Schedule II to the Companies Act, 2013, other than certain assets which are depreciated as follows:

Estimated useful life of assets are as follows:

Plant and equipment	1- 10 years
Office equipment	1- 5 years
Furniture and fixtures	1-10 years
Vehicles	5 years

The above useful life has been assessed based on internal assessment and technical advice, taking into account the nature of the asset, the estimated usage of the asset, and the operating conditions of the asset and anticipated technological changes.

An item of plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

3.8 Intangible Assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Internally-generated intangible assets – research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets

Intangible assets comprising of technical knowledge and development expenditure, etc. are amortised over a period of three years or less depending on the estimated useful life of the assets remaining as at balance sheet date. Intangible assets, comprising of software, expenditure on product design and prototypes incurred are amortised on a straight line method over a period of 5 years and 3-5 years respectively.

3.9 Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Recoverable amount is the higher of fair value less costs of disposal and value in use.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired. Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash- generating unit to which the asset belongs.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss. When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

3.10 Inventories

Inventories are stated at the lower of cost and net realisable value. Costs of inventories are determined on a moving weighted average. Finished goods and work-in-progress include appropriate proportion of overheads. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

3.11 Provisions

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

3.12 Warranties

In respect of sale of manufactured and traded goods, the estimated liability for product warranties is recorded when products are sold. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding possible future incidence based on corrective actions on product failures (except warranties backed by the supplier).

3.13 Business Combination

Business acquisitions are accounted for under the purchase method. The acquirer's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under Ind AS 103, are recognised at their fair value at the acquisition date.

Excess of purchase consideration and the acquisition date non-controlling interest over the acquisition date fair value of identifiable assets acquired and liabilities assumed is recognised as goodwill. Goodwill arising on acquisitions is reviewed for impairment annually. Where the fair values of the identifiable assets and liabilities exceed the cost of acquisition, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in other comprehensive income and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognizes the gain directly in equity as capital reserve, without routing the same through other comprehensive income.

Where it is not possible to complete the determination of fair values by the date on which the first postacquisition financial statements are approved, a provisional assessment of fair value is made and any adjustments required to those provisional fair values are finalised within 12 months of the acquisition date.

The Company makes adjustments to the provisional fair value amounts recognised at the date of acquisition to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the measurement of the amounts recognised as of that date. The Company applies the measurement period adjustments retrospectively to the financial statements to reflect the measurement period adjustments as retrospectively recorded on the date of the acquisition as if measurement period adjustments had been recorded initially at the date of acquisition.

Any non-controlling interest in an acquiree is measured at fair value or as the non-controlling interest's proportionate share of the acquiree's net identifiable assets. This accounting choice is made on a transaction by transaction basis.

Common control transactions

Acquisition expenses are charged to statement of profit and loss in line with Ind AS 103. Common control transactions A business combination involving entities or businesses under common control is a business combination in which all of the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and the control is not transitory. The transactions between entities under common control are specifically covered by Ind AS 103. Such transactions are accounted for using the pooling-of-interest method. The assets and liabilities of the acquired entity are recognised at their carrying amounts. No adjustments are made to reflect fair values, or recognise any new assets or liabilities. The only adjustments that are made are to harmonise accounting policies. The components of equity of the acquired companies are added to the same components within Company's equity. The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves. The Company's shares issued in consideration for the acquired companies are recognized from the moment the acquired companies are included in these financial statements and the financial statements of the commonly controlled entities would be combined, retrospectively, as if the transaction had occurred at the beginning of the earliest reporting period presented.

3.14 Financial instruments

Financial assets and financial liabilities are recognised when Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

3.15 Financial assets

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

Classification of financial assets

Financial instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.
- Financial instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income:
- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments.

All other financial assets are subsequently measured at fair value

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item

Financial assets at fair value through profit or loss (FVTPL)

A financial asset that meets the amortised cost criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the company right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably

De-recognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

Investment in Equity instruments

Investments in subsidiaries and joint ventures are carried at cost less accumulated impairment, if any.

3.16 Financial liabilities

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Financial liabilities

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' Line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability.

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

De-recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

3.17 Cash flow statement

Cash flows are reported using the indirect method, whereby profit/(loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

4. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company accounting policies, which are described in note 3, the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements:-

Recoverability of intangible asset under development

During the period, the Company assessed the recoverability of the intangible assets under development.

Capitalisation of cost in intangible assets under development is based on management's judgment that technological and economic feasibility is confirmed and asset under development will generate economic benefits in future. This situation is closely monitored, and adjustments made in future periods if future market activity indicates that such adjustments are appropriate.

Defined benefit plans

The cost of the defined benefit plan and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and future pension increases. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Provision and contingent liability

On an ongoing basis, Company reviews pending cases and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

Useful lives of depreciable assets and intangible assets

Management reviews the useful lives of depreciable assets and intangible assets at each reporting. As at March 31, 2020 management assessed that the useful lives represent the expected utility of the assets to the Company. Further, there is no significant change in the useful lives as compared to previous year.

Investment considered Joint venture

The Company holds 51% equity share capital of Mahindra Telephonics Integration Systems Limited (MTISL) and the remaining 49% is held by Telephonics corporation USA (TC) (Joint venture partner). Based on the joint venture agreement between the Company and TC, decisions on certain relevant activities, which are significant in nature, require the consent of both the Company and TC. Company cannot take unilateral decision on those activities

The provision of output from operations, do not go to "both the parties" as MTISL does not sell its product to the Company and hence the Company does not receive economic benefits of the assets of the operations. The outputs of the MTISL are purchased only by TC. The MTISL is generating cash to contribute to the continuity of the operations. Therefore, the director of the Company decided to classify MTISL as joint venture.

Leases

Ind AS 116 requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to the Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

4.1 Recent Accounting pronouncements

The Company has analysed it and concluded that there no recent accounting pronouncements which have material impact on the financial performance and position of the Company.

Balance at end of the year	**173.60**	121.03

Provision for warranty represent the present value of managements best estimate of the future outflow of economic benefits that will be required under the Company's obligations for warranties. The estimate has been made based on historical warranty trends and may vary as a result of new materials, altered manufacturing process or other events. It is expected that most of these costs will be incurred in the next financial year and all will have been incurred within three years after the reporting date. Assumptions used to calculate the provision for warranties were based on current sales levels and current information available about returns based on the three-year warranty period for all products sold. Further, specific waranty related cases identified by management are also covered.

Remeasurement of defined benefits obligations	**12.16**	2.48

Note No: 30 - Segment information

For management purposes, the Company is organised into business units based on its products and services to the customer and has two reportable segments, as follows:

- Defence and Homeland security
- Non Defence

The Managing Director, the chief operating decision maker (CODM), have chosen to organise the Company in to the above mentioned segments and which is also the basis for the purposes of resource allocation and assessment of segment performance. No aggregation has been done in arriving at the reportable segments of the Company.

The CODM primarily uses Earnings before Interest and Tax (EBIT) as a measure to assess the performance of the segments.

Note No. 32 - Employee benefits

(a) Defined Contribution Plan

The employees are entitled to receive benefits under the Provident Fund. Both the employee and the employer make monthly contributions to the plan at a predetermined rate of an employee's basic salary. All employees have an option to make additional voluntary contributions. These contributions are made to the fund administered and managed by the Government of India (GOI). The Company has no further obligations under the fund managed by the GOI beyond its monthly contributions which are charged to the statement of profit and loss in the period they are incurred. An amount of Rs. 250.67 Lakhs (Previous year: Rs 191.77 Lakhs) has been recognised as an expense in respect of the Company's contribution to Provident Fund deposited with the relevant authorities and has been shown under Employee benefits expenses in the Statement of Profit and Loss.

(b) Defined Benefit Plans:

Gratuity

The Company has a gratuity plan covering qualifying employees. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Post retirement medical benefits

The Company provides post retirement medical cover to select grade of employees to cover the retiring employee and their spouse upto a specified age through mediclaim policy on which the premiums are paid by the Company. The eligibility of the employee for the benefit as well as the amount of medical cover purchased is determined by the grade of the employee at the time of retirement.

Asset volatility

Through its benefits plan the Company is exposed to a number of risk, most significant of which are detailed below:-

Salary Increases

Actual salary increases will increase the Plan's liability. Increase in salary increase rate assumption in future valuations will also increase the liability.

Discount Rate

Reduction in discount rate in subsequent valuations can increase the plan's liability.

Mortality & disability

Actual deaths & disability cases proving lower or higher than assumed in the valuation can impact the liabilities

Withdrawals

Actual withdrawals proving higher or lower than assumed withdrawals and change of withdrawal rates at subsequent valuations can impact Plan's liability.

Defined benefit plans

(Amount in Rs. Lakhs)

Particulars	Un Funded Plan Gratuity		Unfunded Plans Post Medical Benefit	
	2020	2019	**2020**	2019
Amounts recognised in total comprehensive income in respect of these defined benefit plans are as follows:				
Service cost				
Current service cost	**71.03**	70.30	**19.49**	18.21
Net interest expense	**23.02**	23.91	**4.60**	4.97
Components of defined benefit costs recognised in profit or loss	**94.05**	94.21	**24.09**	23.18
Remeasurement on the net defined benefit liability				
Actuarial (gains) and loss arising from changes in financial assumptions	**(8.96)**	(31.89)	**1.45**	0.57
Actuarial (gains) and loss arising from experience adjustments	**(19.01)**	36.71	**(21.81)**	(12.49)
Actuarial (gains) and loss arising from Demographic adjustments	**0.03**	–	**(0.02)**	–
Components of defined benefit costs recognised in other comprehensive income	**(27.94)**	4.82	**(20.38)**	(11.92)
I. Net Asset/(Liability) recognised in the Balance Sheet at the end of the year				
1. Present value of defined benefit obligation at the end of the year	**373.99**	345.06	**78.68**	74.96
2. Fair value of plan assets at the end of the year		–		–
3. Surplus/(Deficit)	**(373.99)**	(345.06)	**(78.68)**	(74.96)
4. Current portion of the above	**20.80**	7.78	**0.11**	0.08
5. Non current portion of the above	**353.19**	337.28	**78.57**	74.88
II. Change in the obligation during the year ended				
1. Present value of defined benefit obligation at the beginning of the year	**345.06**	270.03	**74.96**	52.96
Pursuant to the scheme of Amalgamation (Refer Note: 47)	**–**	36.54	**–**	10.75
2. *Expenses Recognised in Profit and Loss Account*				
– Current Service Cost	**71.03**	70.30	**19.49**	18.21
– Past Service Cost	**–**	–	**–**	–
– Interest Expense (Income)	**23.02**	23.91	**4.61**	4.97
3. *Recognised in Other Comprehensive Income Remeasurement gains/ (losses)*				
– Actuarial Gain (Loss) arising from:				
i. Demographic assumptions	**0.03**	–	**(0.02)**	–
ii. Financial assumptions	**(8.96)**	(31.89)	**1.45**	0.56
iii. Experience adjustments	**(19.01)**	36.71	**(21.81)**	(12.49)
4. Benefit payments	**(37.18)**	(60.54)	**–**	–
Present value of defined benefit obligation at the end of the year	**373.99**	345.06	**78.68**	74.96

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Actuarial assumptions	**2020**	2019	**2020**	2019
1. Discount rate	6.88%	7.66%	6.88%	7.66%
2. Salary Increase	8.00	9.00	8.00	9.00
3. Attrition rate				
Up to 30 years	5.00	5.00	5.00	5.00
31 to 44 years	4.00	4.00	4.00	4.00
above 44 years	3.00	3.00	3.00	3.00
4. Medical premium inflation		–	7.50	7.50
5. In service morality	IALM (2012-14)	IALM (2006-08)	IALM (2012-14)	IALM (2006-08)

The estimate of future salary increase, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

(Amount in Rs. Lakhs)

Principal assumption		Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Impact on defined benefit obligation: Decrease in assumption
Discount rate				
	2020	**0.50%**	**(20.72)**	**22.62**
	2019	0.50%	(18.02)	19.72
Salary growth rate				
	2020	**0.50%**	**22.27**	**(20.67)**
	2019	0.50%	18.46	(16.97)
Medical Inflation rate				
	2020	**0.50%**	**(6.68)**	**6.84**
	2019	0.50%	(6.30)	6.45

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

Maturity profile of defined benefit obligation:

	2020	2019
Within 1 year	**20.80**	8.57
1 - 2 year	**32.30**	16.99
2 - 3 year	**14.54**	11.42
3 - 4 year	**13.38**	13.26
4 - 5 year	**12.79**	11.33
5 - 6 years	**16.86**	10.03
6 years onwards	**263.31**	273.45

Particulars	For the year ended March 31, 2020	For the year ended March 31, 2019	For the year ended March 31, 2018	For the year ended March 31, 2017	For the year ended March 31, 2016
Defined benefit obligation	**373.99**	345.06	270.02	278.46	130.97
Net asset/ (liability)	**(373.99)**	(345.06)	(270.02)	(278.46)	(130.97)
actuarial (gain)/ loss on obligation	**(27.94)**	4.82	(32.09)	4.07	(11.53)

Note No. 33- Financial Instruments

Capital management

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern.
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

The Company manages capital risk in order to maximize shareholders' profit by maintaining sound/optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary. There is no change in the overall capital risk management strategy of the Company compared to last year.

The Company is not subject to externally enforced capital regulation.

The following table summarises the capital of the Company:

(Amount in Rs. Lakhs)

Particulars	As at March 31, 2020	As at March 31, 2019
Share Capital	**1,672.37**	1,672.37
Other Equity	**26,999.64**	24,978.61
Total Equity	**28,672.01**	26,650.98

The following methods and assumptions were used to estimate the fair values:

The following table categorise the financial instruments measured at fair value into Level 1 to Level 3, as described below.

Level 1: This level includes financial assets that are measured by reference to quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: This level includes financial assets and liabilities, measured using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3: This level includes financial assets and liabilities measured using inputs that are not based on observable market data (unobservable inputs). Fair values are determined in whole or in part, using a valuation model based on assumptions that are neither supported by prices from observable current market transactions in the same instrument nor are they based on available market data.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

The Company manages risk through finance department, which evaluates and exercises independent control over the entire process of market risk management. The Company operates a risk management policy and a program that that performs close monitoring of and responding to each risk factors which includes management of cash resources and ensuring market risk limit and policies.

The Company does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes..

Credit Risk

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company is majorily dealing with creditworthy counterparties i.e government agencies and big companies with international repute. Company has negligible history of bad debts in the past.

Company has strong system to manage receivable. Ageing analysis is being done where monthly emails are send to marketing to minimise the risk and regular followup is done to realise the receivables.

The credit risk on fixed deposits is limited because the counterparties are banks with high credit-ratings assigned by domestic credit-agencies.

Customers are basically Government agencies, State police or Army dealing for majority of them is done on credit basis.

The age analysis of trade receivables as of the balance sheet date have been considered from the due date.

The loss allowance provision is determined as follows:

(Amount in Rs. Lakhs)
As at March 31, 2020

Particulars	Not due	Less than 6 months past due	More than 6 months past due	Total
Gross carrying amount	**3,091.57**	**2,774.47**	**1,372.13**	**7,238.17**
Loss allowance	**–**	**–**	**(208.52)**	**(208.52)**

Loss allowance	–	–	(305.21)	(305.21)
Net balance	6,024.10	4,569.28	1,680.56	12,273.94

Liquidity Risk

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

(Amount in Rs. Lakhs)

Particulars	Less than 1 Year	1-3 Years	3 -5 Years	Carrying Value
Non-derivative financial liabilities				
As at March 31, 2020				
Non - Interest Bearing				
Trade payables	**7,400.96**	**–**	**–**	**7,400.96**
Other financial liabilities	**49.49**	**–**	**–**	**49.49**

As at March 31, 2019				
Non - Interest Bearing				
Trade payables	7,778.75	–	–	7,778.75
Borrowings	912.32	–	–	912.32
Other financial liabilities	93.49	29.76	–	123.25
Total	8,784.56	29.76	–	8,814.32

(iii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

(Amount in Rs. Lakhs)

Particulars	Less than 1 Year	1-3 Years	3 -5 Years	Carrying Value
Non-derivative financial assets				
As at March 31, 2020				
Non Interest Bearing

Bank deposit kept with government authorities and bank	–	17.37	–	17.37
Total	17,061.56	1,313.03	–	18,374.59

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises one type of risk: currency risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors and Risk Management Committee.

There has been no significant changes to the Company's exposure to market risk or the methods in which they are managed or measured.

Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

(Amount in Lakhs)

Particulars	Currency	March 31, 2020	March 31, 2019
Trade receivables	USD	**1,217.42**	953.64
Trade receivables	CAD	**–**	–
Trade receivables	GBP	**155.50**	–
Advance to supplier	USD	**–**	111.39
Trade payables	USD	**71.87**	93.41
Advance from customer	GBP	**–**	0.15
Trade payables	EUR	**21.59**	17.39
Trade payables	GBP	**0.18**	–
Trade payables	AUD	**0.47**	6.07

Of the above foreing currency exposures, the following exposures are not hedged by a derivative:

(Amount in Lakhs)

Particulars	Currency	March 31, 2020	March 31, 2019
Trade receivables	USD	**1,217.42**	953.64
Advance from supplier	USD	**–**	111.39
Trade receivables	GBP	**155.50**	–
Trade payables	USD	**71.87**	93.41
Trade payables	EUR	**21.59**	17.39
Advance from customer	GBP	**0.18**	0.15
Trade payables	GBP	**0.18**	–
Trade payables	AUD	**0.47**	6.07

Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD,CAD exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities. The Company's exposure to foreign currency changes for all other currencies is not material.

(Amount in Rs. Lakhs)

Particulars	Currency	Change in rate	Effect on profit before tax
As at March 31, 2020	**USD**	**+10%**	**114.55**
	USD	**-10%**	**(114.55)**
	EUR	**+10%**	**(2.16)**
	EUR	**-10%**	**2.16**
	GBP	**+10%**	**15.53**
	GBP	**-10%**	**(15.53)**
	AUD	**+10%**	**(0.05)**
	AUD	**-10%**	**0.05**
As at March 31, 2019	USD	+10%	74.88
	USD	-10%	(74.88)
	EUR	+10%	(1.74)
	EUR	-10%	1.74
	GBP	+10%	(0.01)
	GBP	-10%	0.01
	AUD	+10%	(0.61)
	AUD	-10%	0.61

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Note No: 37 -Information in respect of Options granted under the Holding Company's Employee Stock Option Schemes ('Schemes')

The employees of the Company covered under Mahindra & Mahindra limited (Holding company) Employee Stock Option Scheme (M&M ESOS) are granted an option to purchase shares of Mahindra & Mahindra Limited in accordance with the terms and conditions of the scheme as approved by Mahindra & Mahindra Limited from time to time. Each Option entitles the holder thereof to apply for and be allotted ten Ordinary Shares of Mahindra & Mahindra Limited of Rs. 5.00 each upon payment of the exercise price during the exercise period.

The Options have been granted at the 'market price' as defined from time to time under the erstwhile Securities and Exchange Board of India (Employee Stock Option Scheme and Employee Stock Purchase Scheme) Guidelines, 1999 and Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014. The fair value of the options granted is determined using the Black Scholes Option Pricing model at the grant date.

The scheme has been recognized as cash settled share based payment scheme in accordance with Ind AS 102 – Share Based Payment. The fair value of options granted is recognized as employee benefits expense, net of reimbursements, if any. The total cost recognized during the year amounted to Rs. 4.13 Lakhs (previous year - Rs. 5.07 Lakhs). The Company consider these amounts as not material and accordingly has not provided for the disclosures.

Note No: 38- The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

Note No: 39 - There are no amounts that are due to be transferred to investor Education and Protection Fund in accordance with the relevant provisions of the Companies Act, 2013 and rules made thereunder.

Note No: 40 - Commitments (not provided for)

(Amount in Rs. Lakhs)

Particulars	As at March 31, 2020	As at March 31, 2019
(i) Contingent Liabilities		
Excise duty	–	6.83
(i) Commitments		
Estimated amount of contracts remaining to be executed on capital account and not provided for (net of advances)	**306.67**	151.48

The Company does not have any pending litigations as at March 31, 2020

Note No: 41. Research and development expenditure

(i) Debited to the statement of profit and loss -Rs 457.37 lakhs (previous year Rs. 352.52 lakhs)

(ii) Capitalization of assets and development work in progress (Net) - Rs. 126.54 lakhs (previous year: Rs. 968.57 lakhs)

Note No: 42 Corporate Social Responsibility

As per section 135 of Companies Act 2013, a CSR committee has been formed by the Company. The area for CSR activities includes projects like education, woman economic empowerment and rural development such as safe drinking water, health and education etc. (i) Gross amount required to be spent by the company during the year is Rs 29.80 Lakhs (ii) Actual Spent is Rs 29.80 Lakhs

Note No: 43 Leases

With effect from 1 April 2019, the Company has adopted Ind AS 116, 'Leases' and applied to all lease contracts existing on 1 April, 2019 using the modified retrospective method. Accordingly, the Company is not required to restate the comparative information for the previous periods. Right-of-use (ROU) assets at 1 April, 2019 for leases previously classified as operating leases were recognised and measured at an amount equal to lease liability (adjusted for any related prepayments). Also, the Company has elected not to apply the requirements of Ind AS 116 to short-term leases or low value leases.

The major impact of adopting Ind AS 116 on the Company's financial results for the year ended March 31, 2020 are as follows:

Depreciation and amortisation expenses has been increased by Rs 236 Lakhs for the year ended March 31, 2020 due to the amortization of ROU asset.

Finance costs has been increased by Rs 44 Lakhs for the year ended March 31, 2020 due to interest accrued on outstanding lease liability.

Rent has been decreased by Rs 240 Lakhs for the year ended March 31, 2020

The Company measure the lease liability of ROU assets at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate i.e. 6.14% as at April 1, 2019

Net impact on profit before tax – decrease in profits by Rs. 40 Lakhs for the year ended March 31, 2020

The Company as a lessee

i) The Company has taken building premises on lease

ii) Depreciation charge for right of use assets, addition to right of use assets and carrying amount of right of use assets at the end of the reporting period by class of underlying asset- Refer to Note 5A

iii) The following is the movement in lease liability during the year ended March 31, 2020

(Amount in Rs. Lakhs)

Particulars	For the year ended March 31, 2020	For the year ended March 31, 2019
Balance at the beginning of the year	**–**	–
Addition during the year	**826.78**	–
Finance cost accured during the year	**44.08**	–
Payment of Lease Liabilities	**240.06**	–
Balance at the end of the year	**630.80**	–

Non Current	**403.83**	–
Total	**630.80**	–

v) Expense relating to short term leases and leases of low value assets for th year ended March 31, 2020 were Rs. 253.96 Lakhs

vi) The total cash outflow for leases for the year ended March 31, 2020 were Rs. 240.06 Lakhs

vii) Maturity analysis of Lease Liabilities

(Amount in Rs. Lakhs)

Particulars	As at March 31, 2020	As at March 31, 2019
Within one year	226.97	–
Later than one year but less than five years	403.83	–
Later than five years	–	–

viii) Extension and Termination options

Extension and termination options are included in various property and equipment leases executed by the company. These are used to maximise operational flexibility in terms of managing the assets used in company's operations.

Generally, these options are exercisable mutually by both the lessor and the lessee. For the above lease there is no extension clause and details of termination clause is as follows:

1. 30 Days, if any breach of any term of agreement
2. 15 Days, if lessor, fail to any compensate, loss/cost
3. 90 days by giving a written notice.

The Company as Lessor

The Company has entered into operating lease arrangements for land and premises. These arrangements are both cancellable and non-cancellable in nature and range between one to five years. Lease rental income earned by the Company is set out in Note 21 as 'Rental income'. The future minimum lease receivables under non-cancellable operating leases are as under:

(Amount in Rs. Lakhs)

2. Contracted Assets, Contracted Liabilities & Receivables

(Amount in Rs. Lakhs)

Particulars	Opening as on April 1, 2019	Addition During the Year	Reduction During the year	Closing as on March 31, 2020	Reference
Unbilled Revenue	3,466.19	3,329.17	3,559.86	3,235.50	Note -a
Advance Billing	2,447.89	1,156.13	1,329.56	2,274.46	Note -b
Advance from Customer	3,669.53	2,008.96	3,338.52	2,339.97	Note -c
Receivables	12,273.94	32,113.01	37,357.30	7,029.65	Note -d

Note – a: Opening unbilled revenue represents the fulfilled obligation which couldnot be invoiced to the customer on opening balance sheet date due to contractual terms. Addition/reduction in unbilled revenue represent the accumulation of further unbilled obligations and invoicing of opening unbilled revenue respectively. The Closing balance represents the revenue for which contractual obligation has been fulfilled and invoicing is pending on the balance sheet date. The unbilled revenue pertains to defence as well as non defence business

Note – b: Opening Advance billing represents the unfulfilled obligation which though has been invoiced to the customer on opening balance sheet date but obligation is still to be performed. Addition/reduction in Advance billing represent the further invoicing and fulfilling performance obligations respectively. The Closing balance represents the revenue for which invoicing has been done on balance sheet date and contractual obligation has still to be fulfilled. The Advance pertains to defence business as well as non defence business

Note – c: The Advance from customer relates to the money received in advance ahead of the performance obligation to be fulfilled in future. Reduction in advance to customer represents fulfilment of contractual obligation and invoicing to the customer. Major part of advance from customer pertains from defence business.

Note - d: Account recievables represent the amount for which performance obligation has been fulfilled and revenue recognized but the money is receivable from customer.

* Revenue Recognized in the current year that was included in contracted Liability at beginning of the year (Refer Note 20)

3. Unsatisfied Contract Value

Total performance obligation remaining unsatisfied as on March 31, 2020 with timelines within which it is expected to recognize revenue.

(Amount in Rs. Lakhs)

Performance obligation	0-1 Year	1-3 Year	3-5 Yrs	Total
Unsatisfied Performance Obligation as on March 31, 2020*	31,260.18	48,813.06	13,139.23	93,212.47

* Represent unsatisfied performance obligation for major contracts entered with the customer which is to be satisfied in future as per the terms of the contract.

4. Performance Obligations over the period of time

a) When the Performance Obligation is satisfied over period of time, Input method is used to recognize revenue on the basis of Percentage completion method applied on the company actual spent on the basis of resources consumed, labour hours expended, costs incurred, time elapsed or machine hours used, as applicable. This is considered to be most appropriate method for performance obligation satisfied over period of time due to the fact that there is direct relationship between the resource consumed and the control transferred to the customer.

b) Output methods recognize revenue on the basis of direct measurements of the value to the customer of the goods or services transferred to date relative to the remaining goods or services promised under the contract. Output methods include methods such as surveys of performance completed to date, appraisals of results achieved, milestones reached, time elapsed and units produced or units delivered. This is considered to be most appropriate method due to the fact that the company performance towards completion of performance obligation can be measured more appropriately with the output.

c) Company evaluates whether to apply an input method or output method for revenue recognition. For evaluation of method to be applied, the company considers the relationship between the resource consumed and the control transferred to the customer ie input method & whether the company performance towards completion of performance obligation can be measured more appropriately with the output ie output method

5. Significant Payment term in Subcontracting project with the customer having significant financing component

Payment Milestone

Particulars	Percentage of payment for Capex	Milestone detail	Period of Milestone
1st Milestone	20%	Supply of IT equipment and furniture	Invoice + 12 weeks
2nd Milestone	20%	Inspection of successful installation of all the hardware and software	Invoice + 22 weeks
3rd Milestone	40%	Go-Live & Training	Invoice + 24 weeks
4th Milestone	20%	O & M for 5 years from Go Live	Equally spread over 5 years payable quarterly
	100%		

6. The estimated liability for product warranties is recorded when products are sold. These estimates are established using historical information on the nature, frequency and average cost of warranty claims and management estimates regarding probable future incidence based on corrective actions for product failures.

The company provides standard warranty on sale of armored vehicles, wheel assembly, Equipment for Torpedo defence systemt, Deck panels, Composite body for Mines customer based on no. of years. No warranty is provided for traded items.

Note No 46: Investment in Joint venture

1. The Company is a wholly owned subsidiary of Mahindra & Mahindra Limited which presents Consolidated Financial Statements to its Shareholders. As such the Company in view of the exemption given in paragraph 4(a) of Ind AS-110 " Consolidated Financial Statements" has decided to avail the exemption contained in the paragraph 16 of Ind AS-27 "Separate Financial Statements" for not preparing the consolidated financial statements.

2. Mahindra & Mahindra Limited, the holding Company having its registered office at Gateway Building, Apollo Bunder, Mumbai, Maharashtra- 400001, India will be preparing Consolidated Financial Statements which will comply with the applicable Ind AS for public use and would be available on the website of holding Company i.e. www. mahindra.com

3. The details of the Joint Venture of the Company are as under:

   (a) Mahindra Telephonics Integrated Systems Limited (Joint venture) in which the Company holds 51% of the equity share capital and is having its registered office at Mahindra Towers, P.K. Kurne Chowk, Dr. G.M. Bhosale Marg, Worli Mumbai, Maharashtra- 400018, India

4. In the Company's Separate Financial Statements, investments in joint ventures are carried at cost less accumulated impairment, if any.

Note No 47 Business Combination

a). The Board of Directors of Mahindra Defence Systems Limited ("the Company/the Transferee Company") in their meeting held on March 16, 2018, approved the Scheme of Amalgamation ("Merger by Absorption") between the Company and Mahindra Defence Navel Systems Limited ("the Transferor Company") and their respective Shareholders and Creditors ("the Scheme") under section 230 to 232 of Companies Act, 2013 and other applicable provisions of the Companies Act 2013 for Amalgamation of the businesses from the Transferor Company, inter alia, consisting of entire undertaking, business, activities and operations pertaining to the business and its transfer as a going concern to the Transferee Company with effect from April 1, 2018 ("Appointed Date").

b) The Scheme was sanctioned by National Company Law Tribunal, Mumbai (NCLT) vide its order dated August 22, 2019. The Scheme, which has become operative from September 18, 2019 upon filing of the certified copy of the Order of the NCLT with the Registrar of Companies in Maharashtra, is effective from April 01, 2018 (The Appointed date per the said Scheme). The Transferor Company was engaged in manufacturing and selling of launchers and other components meant for defence purposes which are primarily used by navy

c) In terms of the Scheme the amalgamation has been accounted for in accordance with the Pooling of Interest Method laid down in Appendix C of Ind AS 103 "Business Combinations of entities under common control". As per the said Scheme, the financial information in the financial statements in respect of prior period has been restated w.e.f. the Appointed Date as if the business combination occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of the combination

d) Upon the Scheme becoming effective,

(i) All the assets and liabilities recorded in the books of the Transferor Company stand transferred to and vested in the Transferor Company at their respective book values as appearing in the books of Transferor Company, as on the Appointed Date

(ii) All the reserves of the Transferor Company under different heads became corresponding reserves of the Transferee Company

(iii) The investments in the equity share capital of the Transferor Company as appearing in the books of the Company, stands cancelled. Inter-company balances including loans and advances, as applicable, is eliminated

Since the entire share capital of Transferor Company is held by the Transferee Company, no equity shares are issued by the Transferee Company.

e) Upon the Scheme becoming effective, the Authorized Share Capital of the Transferee Company stands increased without any further act, deed or thing on the part of the Transferee Company to 31,50,00,000 Equity Shares of Rs. 10/- each amounting Rs. 31,500 lakhs

Note No 48: Income Tax

On September 20, 2019, the Government of India, vide the Taxation Laws (Amendment) Ordinance 2019, inserted Section 115BAA in the Income-tax Act, 1961, which provides domestic companies an option to pay corporate tax at reduced rate effective April 01, 2019, subject to certain conditions. The Company has decided to opt for the same and accordingly provision for tax for the year ended March 31, 2020 and deferred tax as at March 31, 2020 have been determined by applying the reduced rate of tax.

Note No 49: COVID 19 Impact

As per the impact assessment of COVID-19 carried out by the Management, the Company believes that there is no significant impact of COVID-19 pandemic on the financial position and performance of the Company.

Note No 50: Previous year figures and notes there to are after considering the effect of the scheme (referred to in note 47) and have been reclassified/regrouped wherever required to confirm to the current year presentation/classification.

Note No 51: Events occurring after the reporting period: Approval of financial statements - The financial statements were authorised for issue by the Board of Directors on May 12, 2020.

INDEPENDENT AUDITORS' REPORT

To the Members of Mahindra Telephonics Integrated Systems Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Mahindra Telephonics Integrated Systems Limited ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. The annual report is not made available to us at the date of this auditor's report. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

   (A) As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

   (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position.

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

   iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.

   (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

   In our opinion and according to the information and explanations given to us, no remuneration was paid by the company to its directors during the year ended 31 March 2020. Accordingly, provisions of Section 197 of the Act are not applicable. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA TELEPHONICS INTEGRATED SYSTEMS LIMITED FOR THE YEAR ENDED 31 MARCH 2020

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) As explained to us, the Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified annually. In our opinion, this periodicity of physical verification by management is reasonable having regard to the size of the Company and the nature of its assets. As informed to us, discrepancies noticed on such verification were not material.

(c) According to the information and explanations given to us, the Company does not have any immovable properties. Accordingly, paragraph 3(i)(c) of the Order is not applicable.

(ii) Inventories have been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable having regard to the size of the Company and the nature of its business. According to the information and explanations given to us, the procedures for physical verification of inventories followed by the management during the year are reasonable and adequate in relation to the size of the Company and the nature of its business. The discrepancies noticed on verification between the physical stocks and the book records were material and have been properly adjusted in the books of account.

(iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013. Accordingly, the provisions of paragraph 3(iii) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us, the Company has not given any loan, or provided any guarantee or security or made any investment as specified under Section 185 and 186 of the Companies Act, 2013. Accordingly, paragraph 3(iv) of the Order is not applicable to the Company.

(v) As per the information and explanations given to us, the Company has not accepted any deposits as mentioned in the directives issued by the Reserve Bank of India and the provisions of Section 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules framed there under. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.

(vi) To the best of our knowledge and as explained, the Central Government has not prescribed the maintenance of cost records under Section 148(1) of the Companies Act, 2013, in respect of any activities undertaken by the Company. Accordingly, the provisions of paragraph 3(vi) of the Order are not applicable.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income tax, goods and services tax, duty of customs, cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. Dues relating to value added tax, sales tax, service tax and duty of excise are not applicable to the Company.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, value added tax, sales tax, employees' state insurance, income tax, service tax, goods and services tax, duty of customs, duty of excise, cess and other material statutory dues were in arrears as at 31 March 2020 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of income tax, sales tax, service tax, duty of customs, duty of excise, goods and services tax, and value added tax which have not been deposited on account of any dispute.

(viii) The Company did not have any dues to debenture holders or outstanding loans or borrowings from any bank, financial institution or government during the year. Accordingly, paragraph 3(viii) of the Order is not applicable.

(ix) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. Accordingly, provisions of paragraph 3(ix) of the Order are not applicable.

(x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit for the year.

(xi) According to information and explanations given to us and on the basis of our examination of the records of the Company, no managerial remuneration has been provided and paid by the Company. Accordingly, provisions of paragraph 3(xi) of the Order are not applicable.

(xii) According to the information and explanations given to us, the Company is not a nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, the transactions with the related parties are in compliance with section 188 of the

Companies Act, 2013 where applicable and the details have been disclosed in the financial statements as required by the accounting standards. Further, the provisions of Section 177 of the Companies Act, 2013 are not applicable to the Company.

(xiv) According to the information and explanation given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable.

(xv) According to information and explanations given to us and based on our examination of the records of Company, the Company has not entered into any non-cash transactions with directors or persons connected with them. Accordingly, paragraph 3(xv) of the Order is not applicable.

(xvi) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3(xvi) of the Order is not applicable.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF MAHINDRA TELEPHONICS INTEGRATED SYSTEMS LIMITED FOR THE YEAR ENDED 31 MARCH 2020.

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 1 (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra Telephonics Integrated Systems Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

(All amounts in Indian ₹ Lacs, unless otherwise stated)

1 CORPORATE INFORMATION

Mahindra Telephonics Integrated Systems Limited ("the Company") is a public Company domiciled in India and incorporated under the provisions of the Companies Act, 1956 having its registered office at MAHINDRA TOWERS, P. K. KURNE CHOWK, R. G. M. BHOSALE MARG, WORLI, MUMBAI, Mumbai City, Maharashtra - 400018. The Company is jointly held by Mahindra Defence Systems Limited and Telephonics corporation, USA.

The financial statements were authorised for issue in accordance with resolution of the Board of Directors on 24 April 2020.

1.01 Basis of preparation

These financial statements comply in all material aspects with Indian Accounting Standards (IND-AS) notified under Section 133 of the Companies Act, 2013, relevant provisions of the Companies Act, 2013 ("the Act') and other accounting principles generally accepted in India. Financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments).
- Net defined benefit (asset)/ liability- Fair value of plan assets less present value of defined benefit obligations.

1.02 Functional and presentation currency

These financial statements are presented in Indian rupees (₹), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lacs up to two place of decimal, unless otherwise indicated.

1.03 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non current.

Deferred tax assets and deferred tax liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

2 SIGNIFICANT ACCOUNTING POLICIES

2.01 Use of estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Assumptions and estimation uncertainties

Information about significant areas of estimation/uncertainty and judgements in applying accounting policies that have the most significant effect on the financial statements are as follows:-

Note 2.08: Measurement of defined benefit obligations: key actuarial assumptions;

Note 2.02 and 2.03: Measurement of useful life and residual values of property, plant and equipment and useful life of intangible assets;

Note 2.05 and 2.06: Fair value measurement of financial instruments;

Note 2.13: Judgement required to ascertain lease classification

Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19):

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of various assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including economic forecasts etc. and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these financial statements.

2.02 Property, Plant and Equipment

Property, plant and equipment including capital work in progress is stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises of purchase price, taxes, duties, freight and other incidental expenses directly attributable and related to acquisition and installation of the concerned assets and are further adjusted by the amount of CENVAT credit and VAT/GST credit availed wherever applicable. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their respective useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Capital work-in-progress includes cost of property, plant and equipment under installation/under development as at the balance sheet date.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Depreciation methods, estimated useful lives and residual value

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives and is generally recognised in the statement of profit and loss. The residual value are not more than 5% of the original cost of assets.

Depreciation on property, plant & equipment is provided on prorata basis on straight-line method using the useful lives of the assets estimated by management and in the manner prescribed in Schedule II of the Companies Act 2013. The useful life of Property, Plant and Equipment are as follows:

Assets	Useful life (in years)
Plant and Equipment:	15
Office Equipment (clubbed under plant and equipment):	5
Computers and Peripherals	3
Mobile Phones (clubbed under computer and peripherals):	2
Furniture and Fixtures:	10
Vehicles:	5
Electric Installation:	10

Vehicles and mobile phones are depreciated over the estimated useful lives of 5 years and 2 years, respectively, which are lower than those indicated in Schedule II. On the basis of technical assessment made by the management, it believes that the useful lives as given above best represent the period over which the assets are expected to be used.

Leasehold improvements are depreciated on straight line basis over the remaining lease agreement period.

2.03 Intangible assets

Separately acquired intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangibles, excluding capitalised development cost, are not capitalised and the related expenditure is reflected in Statement of Profit and Loss in the period in which the expenditure is incurred. Cost comprises the purchase price and any attributable cost of bringing the asset to its working condition for its intended use.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset is accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the Statement of Profit and Loss in the expense category consistent with the function of the intangible assets.

Gains or losses arising from disposal of the intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the assets are disposed off.

Intangible assets with finite useful life are amortised on a straight line basis over their estimated useful life as follows:

Assets	Useful life (in years)
Softwares	3/10

2.04 Foreign currencies

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency').

Foreign currency transactions are recorded on initial recognition in the functional currency, using the exchange rate prevailing at the date of transaction.

Measurement of foreign currency items at the balance sheet date

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transaction/ Non-monetary item measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

Exchange differences

Exchange differences arising on settlement or translation of monetary items are recognised as income or expense in the period in which they arise with the exception of exchange differences on gain or loss arising on translation of non-monetary items measured at fair value which is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

2.05 Financial instruments

a. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company become a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

b. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- FVTPL

Financial assets are not reclassified subsequently to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- the asset is held with in a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. On initial recognition, the Company may irrecoverably designate a financial asset that otherwise meets the requirement to be measured at amortised cost as at FVTPL if doing so eliminate or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.
Financial assets at amortised cost	These assets are subsequently measured at amortised cost at effective interest rate. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairments are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

Financial liabilities:

Financial liabilities are classified as measure at cost amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, or it is a derivative and it is designated as such on initial recognition. Financial liabilities at FVTPL and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

c. Derecognition

Financial assets

The company derecognises a financial asset when the contractual rights to cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfer assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not recognised.

Financial liabilities

The company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The company also derecognises a financial liability when its terms are modified and then cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

d. Offsetting

Financial assert and financial liabilities are offset and net amount presented in the balance sheet when and only when the Company has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

2.06 Inventories

a) Basis of valuation:

i) Inventories are valued at lower of cost and net realisable value after providing cost of obsolescence, if any. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. The comparison of cost and net realisable value is made on an item-by-item basis.

b) Method of Valuation:

i) **Cost of raw materials and components** has been determined by using moving average basis and comprises all costs of purchase, duties, taxes (other than those subsequently recoverable from tax authorities) and all other costs incurred in bringing the inventories to their present location and condition.

ii) Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

2.07 Government Grants

Government Grants are recognised at their fair value when there is reasonable assurance that the grant will be received and all the attached conditions will be complied with.

When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset.

2.08 Employee benefits

A Short-term obligations

Liabilities for salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

B Other long-term employee benefit obligations

The liabilities for earned leave and sick leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in statement of profit and loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

C Post-employment obligations

The Company operates the following post-employment schemes:

(a) defined benefit plan such as gratuity and post-employment medical benefit liability; and

(b) defined contribution plan such as provident fund

Defined benefit plans

The liability or asset recognised in the balance sheet in respect of gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in statement of profit and loss as past service cost.

Defined contribution plan

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due.

2.09 Revenue Recognition

The Company earns revenue primarily from sale of goods and rendering of maintenance services.

Effective 01 April, 2018, the Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. The Company has adopted Ind AS 115 using the cumulative effect method. The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information in the statement of profit and loss is not restated. The impact of the adoption of the standard on the financial statements of the Company is insignificant.

Revenue is recognised upon transfer of control of promised goods or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

- Revenue from the sale of goods is recognised at the point in time when control is transferred to the customer.
- Revenue from services is recognised in accordance with the terms of contract when the services are rendered and the related costs are incurred.

Revenue is measured based on the transaction price, which is the consideration as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled revenue (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Interest income is recognised on time proportion basis taking into account the amount outstanding and the applicable interest rates and is disclosed in “other income”.

2.10 Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effect of all potentially dilutive equity shares.

2.11 Taxes

Tax expense for the year comprises of current tax and deferred tax.

Current Tax

Current income tax, assets and liabilities are measured at the amount expected to be paid to or recovered from the taxation authorities in accordance with the Income Tax Act, 1961 and the Income Computation and Disclosure Standards (ICDS) enacted in India by using tax rates and the tax laws that are enacted at the reporting date.

Current income tax relating to item recognised outside the statement of profit and loss is recognised outside profit or loss (either in other comprehensive income or equity). Current tax items are recognised in correlation to the underlying transactions either in OCI or directly in equity.

Deferred Tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax assets and liabilities are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or direct in equity.

2.12 Impairment of non- financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset’s recoverable amount. An asset’s recoverable amount is the higher of an asset’s or cash-generating unit’s (CGU) fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Company’s assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. Impairment losses including impairment on inventories, are recognised in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

2.13 Leases

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Company as a lessee

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with Company’s general policy on the borrowing cost.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Lease arrangements where the risks and rewards incidental to ownership of an asset substantially vest with the lessor, are recognised as operating lease. Operating lease payments are recognised on a straight line basis over the lease term in the statement of profit and loss, unless the lease agreement explicitly states that increase is on account of inflation.

i. Leases in which the Company is a lessee under Ind AS 116, Leases

The Company's lease asset classes primarily consist of leases for buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

ii. Transition

The Company applied Ind AS 116 initially on 1 April 2019, using the modified retrospective approach with Option 2 where an amount equal to lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease is recognised in the balance sheet as Right-of use asset immediately before the date of initial application.

The following is the summary of practical expedients elected on initial application:

Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.

Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.

Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.

Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

The difference between the lease obligation recorded as of 31 March 2019 under Ind AS 17 disclosed under Note 25 of financial statements forming part of 2019 and the value of the lease liability as of 01 April 2019 is primarily on account of inclusion of extension and termination options reasonably certain to be exercised, in measuring the lease liability in accordance with Ind AS 116 and discounting the lease liabilities to the present value under Ind AS 116.

2.14 Borrowing Costs

Borrowing cost includes interest and other costs incurred in connection with the borrowing of funds and charged to Statement of Profit and Loss on the basis of effective interest rate (EIR) method. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing cost.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are recognised as expense in the period in which they occur.

2.15 Provisions and Contingent Liabilities

Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

2.16 Fair value measurement

The Company measures financial instruments at fair value at each balance sheet date.

(All amounts in Indian ₹ Lacs, unless otherwise stated)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

(i) In the principal market for asset or liability, or

(ii) In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non- financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1- Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2- Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3- Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

2.17 Cash and Cash Equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.18 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is considered to be the Board of Directors who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments.

3. Property, plant and equipment including right-of-use of assets and capital work-in-progress

v) Expense relating to short-term leases and leases of low-value assets - 31 March 2020: Rs 66.28

vi) Cash outflow for leases - 31 March 2020: Rs 137.14

vii) Maturity analysis of lease liabilities - Refer note 29 - Liquidity Risk (Other non-current financial liabilities)

25. Disclosures pursuant to Ind AS - 19 "Employee Benefits" are given below:

Contribution to Defined Contribution Plan, recognised as expense for the year is as under:

	For the year ended 31 March 2020	For the year ended 31 March 2019
Employer's Contribution towards Provident Fund (PF)*	**20.48**	20.32
Employer's Contribution towards Employee State Insurance (ESI)	**1.12**	1.76
Employer's Contribution towards Labour welfare fund	**0.27**	0.12
	21.86	22.20

Defined Benefit Plan

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. Every employee is entitled to the benefit equivalent to 15 days of total basic salary last drawn for each completed year of service.

The Company's gratuity benefit scheme is a defined benefit plan. The Company's net obligation in respect of a defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value. Any unrecognised past service costs and the fair value of any plan assets are deducted. The calculation of the Company's obligation under the plan is perforrned annually at the balance sheet date by a qualified actuary using the projected unit credit method.

The Company provides post retirement medical cover to employees for grade L1 to L5 to cover the retiring employee and their spouse upto a specified age through mediclaim policy. The eligibility of the employee for the benefit as well as the amount of the medical cover purchase is determined by the grade of the employee at the time of retirement. Medical cost increase rate is company's long term best estimate as to cost increases taking into account of inflation, other relevant factors on long term basis as provided in relevant accounting standard.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and post retirement medical cover plan and the amounts recognised in the Company's financial statements as at balance sheet date:

		Post employment medical benefits		Gratuity	
		For the year ended 31 March 2020	For the year ended 31 March 2019	**For the year ended 31 March 2020**	For the year ended 31 March 2019

Re-measurement gains/(losses) on defined benefit plans	**1.51**	11.86
	1.51	11.86

26. Segment Reporting

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Company's chief operating decision maker is the Board of Directors and the Company has only one reportable business segment i.e. defence sector.

Accordingly, the disclosure requirements of Ind AS 108 are not applicable.

Entity wide disclosure details as per Ind AS 108 on Operating segments are given below:

Information about geographical areas:

The following table shows the distribution of the Company's operating revenue by geographical location of customers, regardless of where the goods were produced/services were rendered from:

Particulars		Year ended 31 March, 2020	Year ended 31 March, 2019
Revenue from operations	India	**67.72**	172.48
	Outside India	**626.16**	765.06

The following table shows the carrying amounts of non-current segment assets by geographical area in which the assets are located:

Particulars		Year ended 31 March, 2020	Year ended 31 March, 2019
Non-current assets*	India	**1,390.97**	704.79

Total	**370.88**	**407.63**	**442.58**	463.74	230.75

The transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

28. Fair value measurements

Set out below, is a comparison by class of the carrying amounts and fair value of the Company's financial instruments:

Financial instruments by category	**Carrying Value**		**Fair Value**	
	As at 31 March, 2020	As at 31 March, 2019	**As at 31 March, 2020**	As at 31 March, 2019
Financial assets at amortised cost				
Cash and cash equivalent	**175.67**	867.12	**175.67**	867.12
Bank balances other than cash and cash equivalent	**95.01**	296.45	**95.01**	296.45
Other financial assets (current)	**4.62**	0.67	**4.62**	0.67
Loans	**20.47**	23.58	**20.47**	23.58
Trade receivables	**376.69**	335.13	**376.69**	335.13
	672.46	1,522.95	**672.46**	1,522.95

(All amounts in Indian ₹ Lacs, unless otherwise stated)

Financial instruments by category	Carrying Value		Fair Value	
	As at 31 March, 2020	As at 31 March, 2019	**As at 31 March, 2020**	As at 31 March, 2019
Financial Liabilities at amortised cost				
Borrowings	**499.20**	311.12	**499.20**	311.12
Trade Payables	**101.47**	-	**101.47**	-
Other financial liabilities	**82.16**	91.83	**82.16**	91.83
	682.83	402.95	**682.83**	402.95

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

1) The fair value of financial assets and liabilities at amortised cost is estimated by discounting future cash flows using rates currently available for debt on similar terms, credit risk and remaining maturities.

2) Long-term receivables/payables are evaluated by the Company based on parameters such as interest rates, risk factors, individual creditworthiness of the counterparty and the risk characteristics of the financed project. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.

The significant unobservable inputs used in the fair value measurement categorised within level 3 of the fair value hierarchy together with a quantitative sensitivity analysis as at 31 March 2020, are as shown below:

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities,

Level 2: other techniques for which all inputs that have a significant effect on the recorded fair value are observable, either directly or indirectly,

Level 3: techniques that use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Quantitative disclosures of fair value measurement hierarchy for assets as on March 31, 2019

	Carrying Value	Fair Value		
Assets carried at amortized cost for which fair value are disclosed	**31 March, 2020**	Level 1	Level 2	Level 3
Loans	**20.47**	–	–	20.47
Other financial assets (current)	**4.62**	–	–	4.62

Quantitative disclosures of fair value measurement hierarchy for assets as on 31 March 2018

	Carrying Value	Fair Value		
Assets carried at amortised cost for which fair value are disclosed	31 March, 2019	Level 1	Level 2	Level 3
Loans	**23.58**	–	–	23.58
Other financial assets	**0.67**	–	–	0.67

Note: The management assessed that cash and cash equivalents, bank balance other than cash and equivalent, trade receivables, trade payables, borrowings and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

29. Financial risk management objectives and policies

The Company's principal financial liabilities comprise of trade and other payables and cash credit from bank. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets includes security deposits given for rental properties taken on lease and equipment leases, trade and other receivables, and cash and cash equivalents that are derived directly from its operations.

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company is exposed market risk, credit risk and liquidity risk.

The Company's senior management oversees the management of these risks. The senior professionals working to manage the financial risks and the appropriate financial risk governance framework for the Company are accountable to the Board of Directors. This process provides assurance to Company's senior management that the Company's financial risk-taking activities are governed by appropriate policies and procedures and that financial risk are identified, measured and managed in accordance with Company policies and Company risk objective.

The Board of Directors reviews and agrees policies for managing each of these risks which are summarised as below:

(a) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprises three types of risk: currency rate risk, interest rate risk and other price risks, such as equity price risk and commodity price risk. However, since the Company is not having any borrowings and since its nature of business does not involve commodities, it is not exposed to interest rate risk and other price risk. Financial instruments affected by market risks include deposits and foreign currency receivables and payables. The sensitivity analyses in the following sections relate to the position as at 31 March 2020. The analysis excludes the impact of movements in market variables on: the carrying values of gratuity and other post-retirement obligations, provisions, and the non-financial assets and liabilities. The sensitivity of the relevant profit and loss item is the effect of the assumed changes in the respective market risks. This is based on the financial assets and financial liabilities held as of 31 March 2020.

(i) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in foreign currency). Foreign currency exchange rate exposure is party balanced by purchasing of goods from the respective countries. The Company evaluates exchange rate exposure arising from foreign currency transactions and follows establish risk management policies and plan the purchases and sales in manner with similar credit period and payment period that results in a natural hedge and cover risk arising due to volatility in the foreign currency risk.

Foreign currency risk sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rates, with all other variables held constant. The impact on the Company's loss before tax is due to changes in the fair value of monetary assets and liabilities. Foreign currency exposures recognised by the Company that have not been hedged by a derivative instrument or otherwise are as under:

Description of Currency	Currency	31 March, 2020		Impact on loss before tax and equity	
		FC	Indian Rupees	1% increase	1% decrease
United States Dollar	USD	3.24	266.90	(2.67)	2.67

Description of Currency	Currency	31 March, 2019		Impact on loss before tax and equity	
		FC	Indian Rupees	1% increase	1% decrease
United States Dollar	USD	3.79	261.55	(2.62)	2.62

Increase represents Indian Rupee becoming stronger against USD in Indian Rupee terms

(ii) Interest Rate Risk

Interest rate is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's is not exposed to the risk of changes in market interest rates since the Company's investment in fixed deposit with bank are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of change in the market interest rates.

(b) Credit Risk

Credit Risk is the risk that the counter party will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

(i) Trade Receivables

Currently, the Company is primarily engaged in supplying goods to one of its shareholder; namely Telephonics Corp. Further, for unrelated parties, the customer credit risk is managed by the Company's established policy, procedures and control relating to customer credit risk management.

An impairment analysis is performed at each reporting date on trade receivables by lifetime expected credit loss method based on provision matrix. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

(ii) Financial instruments and cash deposits

Credit risk from balances with banks is managed by the Company with the its treasury policy. Investments of surplus funds are made in bank deposits and other risk free securities. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments. The Company's maximum exposure to credit risk for the components of the balance sheet at 31 March 2019 is the carrying amounts. The Company's maximum exposure relating to financial is noted in liquidity table below. Trade Receivables and other financial assets are written off when there is no reasonable expectation of recovery, such as debtor failing to engage in the repayment plan with the Company.

(All amounts in Indian ₹ Lacs, unless otherwise stated)

	As at 31 March, 2020	As at 31 March, 2019
Financial assets for which allowance is measured using 12 months Expected Credit Loss Method (ECL)		
Cash and cash equivalent	**175.67**	867.12
Bank balances other than cash and cash equivalent	**95.01**	296.45
Loans	**20.47**	23.58
Other financial assets (current)	**4.62**	0.67
	295.77	1,187.82
Financial assets for which allowance is measured using Life time Expected Credit Loss Method (ECL)		
Trade Receivables	**376.69**	335.13
	376.69	335.13

Credit risk on cash and cash equivalents and bank deposits is limited as the Company generally invests in deposits with banks with high credit ratings assigned by domestic credit rating agencies.

The ageing analysis of trade receivables (gross of provision) has been considered from the date the invoice falls due

Particulars	As at 31 March, 2020	As at 31 March, 2019
Neither past due nor impaired	**207.34**	335.13
0 to 180 days due past due date	**169.35**	–
More than 180 days past due date	–	11.13
Total Trade Receivables (gross of provision)	**376.69**	346.26

The following table summarises the change in loss allowance measured using the life time expected credit loss model:-

	As at 31 March, 2020	As at 31 March, 2019
As at 01 April 2019	**11.13**	2.29
Provision during the year	–	11.13
Bad debts	**(11.13)**	(2.29)
As at 31 March, 2020	–	11.13

(c) Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at reasonable price. The Company's objective is to at all times maintain optimum levels of liquidity to meet its cash and liquidity requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate source of financing through the use of short term bank deposits and current account with bank. Processes and policies related to such risks are overseen by senior management. Management monitors the Company's liquidity position through rolling forecasts on the basis of expected cash flows.

Maturity profile of financial liabilities

The table below provides the details regarding the remaining contractual maturities of financial liabilities at the reporting date based on contractual undiscounted payments.

As at 31 March, 2020	Less than 1 year	1 to 5 years	Total
Trade payables	**499.20**	–	**499.20**
Lease liabilities	**101.47**	**407.39**	**508.86**
Other current financial liabilities	**82.16**	–	**82.16**
As at 31 March, 2019	Less than 1 year	1 to 5 years	Total
Trade payables	311.12	–	311.12
Other current financial liabilities	91.83	–	91.83

(All amounts in Indian ₹ Lacs, unless otherwise stated)

30. Capital Management

For the purposes of Company's capital management, capital includes equity attributable to the equity holders of the Company and all other equity reserves. The primary objective of the Company's capital management is to ensure that it maintains an efficient capital structure and maximise shareholder value. The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders or issue new shares. The Company is not subject to any externally imposed capital requirements. No changes were made in the objectives, policies or processes for managing capital during the year ended 31 March 2020 and 31 March 2019.

The Company monitors capital using gearing ratio, which is net payables divided by total capital plus net payables.

Particulars	**31 March, 2020**	31 March, 2019
Borrowings (net of cash and cash equivalent)	–	–
Net Debt	–	–
Equity	**1,337.94**	2,083.93
Total Capital	**1,337.94**	2,083.93
Capital and Net Debt	**1,337.94**	2,083.93
Gearing ratio	**0.00%**	0.00%

31. Income Taxes

		For the year ended 31 March, 2020	For the year ended 31 March, 2019
A	**Amount recognised in Statement of Profit and Loss**		
	Current tax		
	Current period (a)	–	–
	Deferred tax asset (net) (b)		
	Deferred tax asset	–	–
	Tax expense	–	–
B	**Income tax recognised in other comprehensive income**		
	Remeasurements of defined benefit liability/ (asset)		
	Before tax	**1.51**	11.86
	Tax (expense)/ benefit	–	–
	Net of tax	**1.51**	11.86

		For the year ended 31 March, 2020	For the year ended 31 March, 2019
C	**Reconciliation of effective tax rate**		
	(Loss) before tax	**(747.50)**	(674.95)
	Enacted tax rates in India	**26.00%**	26.00%
	Computed tax expense	**(194.35)**	(175.49)
	Tax effect of expenses that are not deductible for tax purposes	–	–
	Timming differences	**40.59**	9.38
	Tax on carried forward losses	**153.76**	166.11
	Income tax expense	–	–

		As at 31 March 2020	As at 31 March 2019
D	**Income tax assets and income tax liabilities**		
	Advance tax	**2.80**	4.52
		2.80	4.52
E	**Deferred tax assets (net)**		
	Deferred tax assets on account of:		
	Lease Liability	**9.03**	–
	Provision for employee benefits	**47.73**	19.32
	Carry forward business losses and unabsorbed depreciation	**954.43**	801.38
	Total deferred tax asset (A)	**1,011.18**	820.70
	Deferred tax liabilities on account of:		
	Property plant and equipment	**(9.68)**	(12.14)
	Total deferred tax liabilities (B)	**(9.68)**	(12.14)
	Net deferred tax assets/(liabilities) (A)-(B)	**1,001.50**	808.56
	Deferred tax assets recognised	–	–

The Company has significant unabsorbed depreciation and carry forward losses. Further, there exists no convincing evidence that sufficient taxable profit will be available against which such deferred tax assets can not be realised. Accordingly, the Company has recognised deferred tax assets to the extent of deferred tax liabilities.

F Movement of temporary differences

	As at 31 March 2018	Temporary Difference	Carry forward business losses and Unabsorbed depreciation	As at 31 March 2019	Temporary Difference	Carry forward business losses and Unabsorbed depreciation	**As at 31 March 2020**

Carry forward business losses and unabsorbed depreciation	628.07	–	173.31	801.38	–	153.05	**954.43**
	625.31	9.94	173.31	808.56	39.89	153.05	**1,001.50**

(All amounts in Indian ₹ Lacs, unless otherwise stated)

32. Transfer Pricing

The Company has a process of maintenance of information and documents as required by the transfer pricing regulation under sections 92-92F of the Income-Tax Act, 1961. Since the law requires existence and updating of such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation of all transactions entered into with the associated enterprises as well as deemed international transaction with un-related parties during the financial year 2019-20 and expects such records to be updated by the date as required by law. The management is of the opinion that its international transactions are at arm's length so that the aforesaid legislation will not have any material impact on the standalone financial statements, particularly on the amount of tax expense and that of provision for taxation.

33. Earnings per share

a) Basic Earnings per share

	As at 31 March, 2020	As at 31 March, 2019
Numerator for earnings per share		
Profit after taxation	**(747.50)**	(674.95)
Denominator for earnings per share		
Weighted number of equity shares outstanding during the year	**50,784,313**	50,784,313
Earnings per share-Basic (one equity share of INR 10 each)	**(1.47)**	(1.33)

The Company does not have any potential equity shares which have a dilutive impact on earnings per share, accordingly, basic and dilutive earnings per share are same.

The accompany notes form an integral part of financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of
Mahindra Emirates Vehicle Armouring FZ-L.L.C.
Ras Al Khaimah, UAE

Report on the audit of the financial statements

Opinion

We have audited the financial statements of **Mahindra Emirates Vehicle Armouring FZ-L.L.C. (the "Company")**, which comprise the statement of financial position as at 31 March 2020, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at 31 March 2020, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the other ethical requirements that are relevant to our audit of the Company's financial statements in United Arab Emirates, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 2.4 to the financial statements which states that the INR amounts in the accompanying financial statements are presented as supplementary information solely for the convenience of users of the financial statements. Such supplementary information does not form part of the financial statements. We have not audited this supplementary information and, accordingly, we do not express an opinion on this supplementary information.

Other Information

Management is responsible for the other information. The other information comprises Directors' report, which we obtained prior to the date of this auditor's report. The other information does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance or conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs and their preparation in compliance with the applicable provisions of the articles of association of the Company and UAE Federal Law No. (2) of 2015, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Report on Other Legal and Regulatory Requirements

As required by the UAE Federal Law No. (2) of 2015, we report that:

(i) we have obtained all the information we considered necessary for the purposes of our audit;

(ii) the financial statements of the Company have been prepared and comply, in all material respects, with the applicable provisions of the UAE Federal Law No. (2) of 2015;

(iii) the Company has maintained proper books of account;

(iv) the financial information included in the Directors' report is consistent with the Company's books of account;

(v) as disclosed in the note 7 to the financial statements, the Company has purchased shares during the year ended 31 March 2020;

(vi) note 9 to the financial statements of the Company discloses material related party balances, transactions and the terms under which they were conducted; and

(vii) based on the information that has been made available to us nothing has come to our attention which causes us to believe that the Company has contravened during the financial year ended 31 March 2020 any of the applicable provisions of the UAE Federal Law No. (2) of 2015 or of its Articles of Association which would materially affect its activities or its financial position as at 31 March 2020.

The accompanying notes form an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

1. General

Mahindra Emirates Vehicle Armouring FZ - L.L.C. – Ras Al Khaimah (the "Company"), is registered in the Emirate of Ras Al Khaimah, United Arab Emirates as a free zone – Limited Liability Company under the trade and industrial licences issued by Ras Al-Khaimah Economic Zone, Government of Ras Al Khaimah.

The principal activities of the Company are trading and assembling of automobiles, specialised vehicles, auto spare parts & components, auto accessories, special accessories fitting, tyres and rims and manufacturing of vehicle bodies and vehicle upholstery services.

The registered address of the Company is P.O. Box 39893, Ras Al Khaimah, United Arab Emirates.

These separate financial statements represent the results of operations, financial position, changes in equity and cash flows of the Company only as the financial statements of the Company and its subsidiary are being consolidated in Mahindra and Mahindra Ltd. (the Ultimate Holding Company). Accordingly, these financial statements do not include the financial performance and financial position of the Company's subsidiary which have been accounted for on a cost basis in these financial statements as permitted by International Accounting Standard 27 – "Separate Financial Statements".

2. Application of new and revised International Financial Reporting Standards ("IFRSs")

2.1 New and revised IFRS Standards that are effective for the current year

In the current year, the Company has applied IFRS 16 Leases (as issued by the IASB in January 2016) that is effective for annual periods that begin on or after 1 January 2019.

IFRS 16 introduces new or amended requirements with respect to lease accounting. It introduces significant changes to lessee accounting by removing the distinction between operating and finance lease and requiring the recognition of a right-of-use asset and a lease liability at commencement for all leases, except for short-term leases and leases of low value assets when such recognition exemptions are adopted. In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged. Details of these new requirements are described in Note 3. The impact of the adoption of IFRS 16 on the Company's financial statements are described below. The date of initial application of IFRS 16 for the Company is 1 April 2019. The Company has opted for the modified retrospective application permitted by IFRS 16 upon adoption of the new standard. The Company does not restate any comparative information.

a) Impact of the new definition of a lease

The Company has made use of the practical expedient available on transition to IFRS 16 not to reassess whether a contract is or contains a lease. Accordingly, the definition of a lease in accordance with IAS 17 and IFRIC 4 will continue to be applied to those leases entered or changed before 1 January 2019.

The change in definition of a lease mainly relates to the concept of control. IFRS 16 determines whether a contract contains a lease on the basis of whether the customer has the right to control the use of an identified asset for a period of time in exchange for consideration. This is in contrast to the focus on 'risks and rewards' in IAS 17 and IFRIC 4.

The Company applies the definition of a lease and related guidance set out in IFRS 16 to all lease contracts entered into or changed on or after 1 April 2019 (whether it is a lessor or a lessee in the lease contract). Management has assessed that the new definition in IFRS 16 will not significantly change the scope of contract that meet the definition of a lease for the Company.

(b) Impact on lessee accounting

(i) Former operating leases

IFRS 16 changes how the Company accounts for leases previously classified as operating leases under IAS 17, which were off balance sheet. Applying IFRS 16, for all leases (except for short term leases), the Company:

(a) Recognises right-of-use assets and lease liabilities in the statement of financial position, initially measured at the present value of the future lease payments, with the right-of-use asset adjusted by the amount of any prepaid or accrued lease payments in accordance with IFRS 16:C8(b)(ii);

(b) Recognises depreciation of right-of-use assets and interest on lease liabilities in the statement of profit or loss;

(c) Separates the total amount of cash paid into a principal portion (presented within financing activities) and interest (presented within financing activities) in the statement of cash flows.

Lease incentives (e.g. rent free period) are recognised as part of the measurement of the right-of-use assets and lease liabilities whereas under IAS 17 they resulted in the recognition of a lease incentive, amortised as a reduction of rental expenses on a straight line basis.

Under IFRS 16, right-of-use assets are tested for impairment in accordance with IAS 36.

The Company has lease for its office and manufacturing facility in the Emirate of Ras Al Khaimah. Rental contracts is made for fixed period of 10 years but may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

For lease that were classified as operating leases applying IAS 17, the Company have recognized right-of-use assets and lease liabilities respectively by applying IFRS 16.

(c) Impact on lessor accounting

IFRS 16 does not change substantially how a lessor accounts for leases. Under IFRS 16, a lessor continues to classify leases as either finance leases or operating leases and account for those two types of leases differently. However, IFRS 16 has changed and expanded the disclosures required, in particular regarding how a lessor manages the risks arising from its residual interest in leased assets.

Under IFRS 16, an intermediate lessor accounts for the head lease and the sublease as two separate contracts. The intermediate lessor is required to classify the sublease as a finance or operating lease by reference to the right-of-use asset arising from the head lease (and not by reference to the underlying asset as was the case under IAS 17).

(d) Financial impact of initial application of IFRS 16

The weighted average incremental borrowing rate applied to lease liabilities recognized in the statement of financial position on 1 April 2019 is 6%.

The following table shows lease liabilities recognized in the Statement of financial position at the date of initial application.

	Amount AED
Lease liability recognised as at 1 April 2019	5,671,249
Disclosed as:	
- Non-current liabilities	5,365,412
- Current liabilities	305,837

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020 (CONTINUED)

There were no onerous lease contracts that would have required an adjustment to the right-of-use assets at the date of initial application. The recognized right-of-use assets relate to properties:

	1 April 2019 AED
Warehouse & Office	5,830,933
Total right-of-use assets	5,830,933

2.2 New and amended IFRS applied with no material effect on the financial statements

The followings are the new and revised IFRSs with no material effect on financial statements:

New and revised IFRSs	Effective for annual periods beginning on or after
Amendments to IFRS 9 Prepayment Features with Negative Compensation The amendments to IFRS 9 clarify that for the purpose of assessing whether a prepayment feature meets the SPPI condition, the party exercising the option may pay or receive reasonable compensation for the prepayment irrespective of the reason for prepayment. In other words, prepayment features with negative compensation do not automatically fail SPPI.	1 January 2019
The amendment applies to annual periods beginning on or after 1 January 2019, with earlier application permitted. There are specific transition provisions depending on when the amendments are first applied, relative to the initial application of IFRS 9.	
Amendments to IAS 28 Investment in Associates and Joint Ventures: Relating to long-term interests in associates and joint ventures.	1 January 2019
These amendments clarify that an entity applies IFRS 9 Financial Instruments to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture but to which the equity method is not applied.	
Annual Improvements to IFRSs 2015-2017 Cycle Amendments to IFRS 3Business Combinations, IFRS 11 Joint Arrangements, IAS 12 Income Taxes and IAS 23 Borrowing Costs.	1 January 2019
The Annual Improvements include amendments to four Standards	1 January 2019
IAS 12 Income Taxes	
The amendments clarify that an entity should recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised the transactions that generated the distributable profits. This is the case irrespective of whether different tax rates apply to distributed and undistributed profits.	
IAS 23 Borrowing costs	1 January 2019
The amendments clarify that if any specific borrowing remains outstanding after the related asset is ready for its intended use or sale, that borrowing becomes part of the funds that an entity borrows generally when calculating the capitalisation rate on general borrowings.	
IFRS 3 Business Combinations	1 January 2019
The amendments to IFRS 3 clarify that when an entity obtains control of a business that is a joint operation, the entity applies the requirements for a business combination achieved in stages, including re-measuring its previously held interest (PHI) in the joint operation at fair value. The PHI to be re-measured includes any unrecognised assets, liabilities and goodwill relating to the joint operation.	
IFRS 11 Joint Arrangements	1 January 2019
The amendments to IFRS 11 clarify that when a party that participates in, but does not have joint control of, a joint operation that is a business obtains joint control of such a joint operation, the entity does not re-measure its PHI in the joint operation.	
IFRIC 23 Uncertainty over Income Tax Treatments	1 January 2019
The interpretation addresses the determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under IAS 12. It specifically considers: - Whether tax treatments should be considered collectively; - Assumptions for taxation authorities' examinations; - The determination of taxable profit (tax loss), tax bases, unused tax losses, unused tax credits and tax rates; and - The effect of changes in facts and circumstances.	

The application of these revised IFRSs has not had any material impact on the amounts reported for the current and prior years but may affect the accounting for future transactions or arrangements.

2.3 New and amended IFRSs in issue but not yet effective and not early adopted

The Company has not applied the following new and revised IFRSs that have been issued but are not yet effective.

New and revised IFRSs	Effective for annual periods beginning on or after
Definition of Material - Amendments to IAS 1 *Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors*.	1 January 2020
The new definition states that, 'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.'	

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020 (CONTINUED)

Definition of a Business – Amendments to IFRS 3 *Business Combinations*	1 January 2020
The amendments clarify that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. IASB also clarify that a business can exist without including all of the inputs and processes needed to create outputs. That is, the inputs and processes applied to those inputs must have 'the ability to contribute to the creation of outputs' rather than 'the ability to create outputs'.	
Amendments to *References to the Conceptual Framework in IFRS Standards*	1 January 2020
Amendments to References to the Conceptual Framework in IFRS Standards related IFRS 2, IFRS 3, IFRS 6, IFRS 14, IAS 1, IAS 8, IAS 34, IAS 37, IAS 38, IFRIC 12, IFRIC 19, IFRIC 20, IFRIC 22, and SIC-32 to update those pronouncements with regard to references to and quotes from the framework or to indicate where they refer to a different version of the Conceptual Framework.	
IFRS 7 Financial Instruments: Disclosures and IFRS 9 — Financial Instruments	1 January 2020
Amendments regarding pre-replacement issues in the context of the IBOR reform.	
IFRS 17 *Insurance Contracts*	1 January 2023
IFRS 17 requires insurance liabilities to be measured at a current fulfilment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. IFRS 17 supersedes IFRS 4 *Insurance Contracts* as at 1 January 2022.	
Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011) relating to the treatment of the sale or contribution of assets from and investor to its associate or joint venture.	Effective date deferred indefinitely. Adoption is still permitted.

2.4 Convenience translation

In addition to presenting the financial statements in AED, supplementary information in INR has been prepared for the convenience of users of the financial statements.

All amounts are translated from AED to INR at the closing exchange rate at 31 March 2020 INR 20.54 to 1 AED (31 March 2019: INR 18.82).

3. Summary of significant accounting policies

3.1 Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) and UAE Federal Law No. (2) of 2015.

3.2 Basis of preparation

The financial statements have been prepared on the historical cost basis, except for the revaluation of certain financial instruments, if any. Historical cost is generally based on the fair value of consideration given in exchange for assets.

The principal accounting policies adopted are set out below.

3.3 Investment in subsidiaries

A subsidiary is an enterprise that is controlled by another enterprise. Investment in subsidiaries are accounted using the cost method of accounting less identified impairment losses.

Dividends declared by subsidiaries are recognised in the statement of profit and loss and comprehensive income

3.4 Revenue recognition

Revenue recognition policy

Revenue is measured based on the consideration to which the Entity expects to be entitled in exchange for transferring goods or services to customer, excluding amounts collected on behalf of third parties. Revenue is adjusted for expected discounts and volume discounts, which are estimated based on the historical data or forecast and projections. The Entity recognises revenue when it transfers control over goods or services to its customers.

The Company is involved in the sale of goods. Revenue is recognised at point in time when control of the goods has transferred, being when the goods have been shipped to the customer's specific location. Following delivery, the customer has full control over the goods, and the primary responsibility of the goods and bears the risks of obsolescence and loss in relation to the goods. A receivable is recognised by the Entity when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Sale of services

Revenue from service income is recognised as the services are rendered. Revenue from service income is recognised over time as the customer simultaneously received and consumes the benefits provided by the Company's performance as the Company performs.

Interest Income

Interest income comprises of income on bank deposits. Interest income is recognized in profit or loss as it accrues, using the effective interest rate method.

3.5 Property and equipment

Property and equipment are stated at cost less accumulated depreciation and impairment (if any).

The cost of property and equipment is their purchase cost, together with any incidental expenses of acquisition.

Depreciation is charged as to write off the cost of property and equipment, on a straight line basis over the expected useful economic lives of the assets concerned. The useful lives used for this purpose are:

Leasehold improvements	10 years
Machinery and equipment	7-8 years
Prototype	4 years
Motor vehicles	4 years
Furniture and equipment	4 years

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the profit or loss.

3.6 Impairment of tangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash generating units, or otherwise they are allocated to

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020 (CONTINUED)

the smallest group of cash generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

3.7 Inventories

Inventories are valued at the lower of cost and net realisable value. Cost is determined on an average cost basis and includes invoiced cost, freight and handling costs. Net realisable value represents the estimated selling price less all estimated costs to be incurred in marketing, selling and distribution.

3.8 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

3.9 Employee benefits

Annual leave and leave passage

An accrual is made for estimated liability for employees' entitlement to annual leave and leave passage as a result of services rendered by eligible employees up to the reporting date.

Provision for employee's end of services benefits

Provision is made for the full amount of end of service benefits due to employees in accordance with the U.A.E. Labour Law, for their period of service up to the reporting date.

The provision relating to annual leave and leave passage is disclosed as a current liability, while that relating to end of service benefits is disclosed as a non-current liability.

3.10 Foreign currencies

For the purpose of these financial statements U.A.E Dirhams (AED) is the functional and the presentation currency of the Company.

Transactions in currencies other than AED (foreign currencies) are recorded at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences are recognised in the profit or loss in the period in which they arise.

3.11 Leasing

Operating lease payments are recognised as an expense on a straight line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

3.12 Investments in subsidiaries

Investments in subsidiaries are carried at cost in the separate statement of financial position, less accumulated impairment losses, if any.

3.13 Financial instruments

Financial instruments

Financial assets and financial liabilities are recognised in the Company's statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the statement of profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of financial assets:

The Company designated its financial assets at amortised cost.

A financial assets that meet the following conditions are measured subsequently at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Amortised cost and effective interest rate method:

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance.

The effective interest rate (EIR) is the rate that exactly discounts estimated future cash flows of the financial instrument through the expected life of

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020 (CONTINUED)

the financial instrument or, where appropriate, a shorter period, to the net carrying amount of the financial asset or financial liability. The future cash flows are estimated taking into account all the contractual terms of the instrument.

The calculation of the EIR includes all fees and points paid or received between parties to the contract that are incremental and directly attributable to the specific lending arrangement, transaction costs, and all other premiums or discounts. For financial assets at FVTPL transaction costs are recognised in profit or loss at initial recognition.

Impairment of financial assets:

The Company recognises a loss allowance for expected credit losses on cash and cash equivalents, trade and other receivables and due from related parties. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

The Company always recognises lifetime ECL for cash and cash equivalents, trade and other receivables and due from related parties. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current as well as the forecast direction of conditions at the reporting date, including time value of money where appropriate.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

The Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

The Company assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

(1) The financial instrument has a low risk of default,

(2) The borrower has a strong capacity to meet its contractual cash flow obligations in the near term, and

(3) Adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

Definition of default:

The Company employs statistical models to analyse the data collected and generate estimates of probability of default ("PD") of exposures with the passage of time. This analysis includes the identification for any changes in default rates and changes in key macro-economic factors across various geographies of the Company.

Credit-impaired financial assets:

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

a) significant financial difficulty of the issuer or the borrower;

b) a breach of contract, such as a default or past due event;

c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;

d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or

e) the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy:

The Company writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery.

Measurement and recognition of expected credit losses:

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate.

Derecognition of financial assets:

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020 (CONTINUED)

Financial liabilities and equity instruments issued by the Company

Classification as debt or equity

Debt and equity instruments are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangement and the definitions of financial liabilities and an equity instruments.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs.

Financial liabilities

Trade and other payables (other than advance from customers) and due to a related party are classified as 'other financial liabilities.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability or where appropriate, a shorter period.

Other financial liabilities

Other financial liabilities are initially measured at fair value, net of transaction costs and are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis, except for the short term payable when the recognition of interest would be immaterial.

De-recognition of financial liabilities

The Company de-recognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire.

4. Critical accounting judgements and key sources of estimation uncertainty

While applying the accounting policies as stated in Note 3, management of the Company has made certain judgements, estimates and assumptions that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognised in the period of the revision in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgments in applying the accounting policies

The critical judgements, apart from those involving estimations (see below), that management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements are given below:

Revenue recognition

Management considers recognizing revenue over time, if one of the following criteria is met, otherwise revenue will be recognized at a point in time:

a) the customer simultaneously receives and consumes the benefits provided by the Company's performance as the Company performs;

b) the Company's performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or

c) the Company's performance does not create an asset with an alternative use to the entity and the entity has an enforceable right to payment for performance completed to date.

In making their judgement, the directors considered the detailed criteria for the recognition of revenue set out in IFRS 15 and, in particular, whether the Company had transferred control of the goods to the customer.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Allowance for slow moving inventories

Management has considered the requirement for an allowance for slow moving inventories. Management estimate the allowance for slow moving and obsolete inventories on the basis of prior experience, physical condition and expected future use of such inventory. Management has determined that there is no slow moving inventory except for provision created as at 31 March 2020.

Calculation of loss allowance

When measuring ECL the Entity uses reasonable and supportable forward looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

Useful lives and residual values of property and equipment

As described in note 3, to the financial statements the Company reviews the estimated useful lives of property and equipment at the end of each annual reporting period. Management has determined that these expectations do not differ from estimates.

	3,916,304	**80,440,884**	3,785,068	71,234,980

The average credit period ranges between 60-90 days.

Before accepting any new customer, the Company assesses the potential customer's credit quality and defines credit limits by customer.

The Company measures the loss allowance for trade receivables at an amount equal to lifetime ECL. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. There has been no change in estimation techniques or significant assumptions made during the current reporting period.

The following table shows the movement in lifetime ECL that has been recognised for trade and other receivables in accordance with the simplified approach set out in IFRS 9.

22. Bank Borrowings

The Company has obtained a bank overdraft facility of AED 7 million. Bank borrowings are secured against Demand Promissory Note, letter of installment with acceleration clause, letter of continuing security, possessory pledge over plant and machinery and assignment of lease hold right on land mortgage of factory building and letter of comfort from Shareholders. At as reporting, the Company has not utilized credit facility except letter for guarantees.

23. Capital risk management

The Company manages its capital to ensure that the Company will be able to continue as a going concern while maximising the return to the Shareholder.

The capital structure of the Company consists of equity, comprising share capital and retained earnings.

24. Financial instruments

24.1 Significant accounting policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 3 to the financial statements.

	51,984,069	33,146,143

Management considers that the carrying amounts of the financial assets and financial liabilities recorded in the financial statements approximate their fair values

24.3 Financial risk management objectives

The Company's Finance Department, co-ordinates access to domestic financial markets, monitors and manages the financial risks relating to the operations of the Company through internal risk reports. These risks include market risk (including currency risk, fair value interest rate risk and price risk), credit risk and liquidity risk.

24.4 Market risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

Market risk exposures are measured using sensitivity analysis.

There has been no change to the Company's exposure to market risks or the manner in which it manages and measures the risk.

24.5 Foreign currency risk management

There are no significant exchange rate risks as substantially all financial assets and financial liabilities are denominated in Arab Emirates Dirhams or US Dollars to which the Dirham is fixed.

24.6 Interest rate risk management

The Company's exposure to interest rate risk is limited to call and short term deposits existing with banks at fixed interest rates linked to LIBOR. At 31 March 2020 bank deposits carried an interest rate in the range of 1.50% to 1.95 % per annum (31 March 2019 1.50% to 1.55% per annum).

If interest rates had been 50 basis points higher/lower throughout the year and all other variables were held constant, the Company's profit for the year ended 31 March 2020 would have increased/decreased by approximately AED 4,366 million (2018: increased/decreased by AED 31,065).

The Company's sensitivity to interest rates has not changed significantly from the prior year.

24.7 Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. As at 31 March 2019, the Company's maximum exposure to credit risk without taking into account any collateral held or other credit enhancements, which will cause a financial loss to the Company due to failure to discharge an obligation by the counterparties and financial guarantees provided by the Company arises from:

- the carrying amount of the respective recognised financial assets as stated in the statement of financial position; and
- the maximum amount the entity would have to pay if the financial guarantee is called upon, irrespective of the likelihood of the guarantee being exercised.

The credit rating information is supplied by independent rating agencies where available and, if not available, the Management uses other publicly available financial information and the Company's own trading records to rate its major customers and other debtors. The Company's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020 (CONTINUED)

31 March 2020	**Note**	**External credit ratings**	**Internal credit ratings**	**12 month or lifetime ECL**	**Gross carrying amount (AED)**	**Loss allowance (AED)**	**Net carrying amount (AED)**
Due from related parties	**9**	**N/A**	**N/A**	**Lifetime ECL**	**13,194,628**	**(48,000)**	**13,146,628**
Trade receivables	**10**	**N/A**	**N/A**	**Lifetime ECL**	**3,077,582**	**(168,679)**	**2,908,903**
Cash and bank	**11**	**BB**	**N/A**	**12-month ECL**	**3,376,230**	**–**	**3,376,230**

31 March 2019	Note	External credit ratings	Internal credit ratings	12 month or lifetime ECL	Gross carrying amount (AED)	Loss allowance (AED)	Net carrying amount (AED)
Trade receivables	**10**	N/A	N/A	Lifetime ECL	2,538,540	(36,679)	2,501,861
Cash and bank	**11**	BB	N/A	12-month ECL	6,952,479	–	6,952,479

The Company always measures the loss allowance for trade receivables at an amount equal to lifetime ECL using the simplified approach. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date. The Company has recognized a loss allowance of 1.44% against all receivables.

The following table details the risk profile of trade receivables based on the Company's provision matrix.

	Trade receivables – Days Past Due						
31 March 2020	**Not past due**	**<30**	**31-60**	**61-90**	**91-120**	**>120**	**Total**

	AED	AED	AED	AED	AED	AED	AED
Expected credit loss rate	0.1%	10.91%	10.00%	–	–	76.62%	
Estimated total gross carrying amount at default	2,301,476	1,008	219,935	–	–	16,121	2,538,540
Life time ECL	2,232	110	21,984	–	–	12,353	36,679

24.8 Liquidity risk management

Liquidity risk refers to the risk that an entity will encounter difficulty in meeting obligations associated with its financial liabilities at maturity date.

The Company manages the liquidity risk by maintaining adequate reserves, sufficient cash and cash equivalent and arranging the contributions from the Shareholders to ensure that the funds are available to meet its commitments for liabilities as they fall due. All financial assets and liabilities are expected to be matured within one year from the end of the reporting period except for the lease liability.

25. COVID–19 impact

The Company has assessed the value of assets and liabilities as at 31 March 2020 due to rapidly changing dynamics of COVID-19. The Company expects no significant delay in completing the customer orders and the completed orders will be dispatched to respective locations. The management is closely monitoring the liquidity position of the Company, which is healthy so far. Accordingly, the management anticipates no material impact on value of assets and liabilities as at 31 March 2020 due to COVID-19 and does not foresee any going concern issues.

26. Approval of the financial statements

The financial statements were approved by the Directors and authorised for issue on 19 May 2020.

INDEPENDENT AUDITOR'S REPORT

TO THE PARTNER OF MAHINDRA ARMORED VEHICLES JORDAN A LIMITED LIABILITY COMPANY AQABA - JORDAN

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Mahindra Armored Vehicles Jordan** ("the Company"), which comprise the statement of financial position as of March 31, 2020, and the statement of profit or loss and other comprehensive income, statement of changes in Shareholders' equity and statement of cash flows for the period since inception on March 31, 2019 to March 31, 2020, and a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at March 31, 2020, and its financial performance and its cash flows for the period since inception on March 31, 2019 to March 31, 2020 in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the financial statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), together with other ethical requirements that are relevant to our audit of the Company's financial statements and we have fulfilled our ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards (IFRSs), and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISA's, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the one resulting from error, as fraud may involve collusion, forgery, intentional omission, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosure are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

The Company maintain proper accounting records, duly organized and in line with the accompanying financial statements, and we recommend to be approved.

NOTES TO THE FINANCIAL STATEMENTS

1. General

a. Mahindra Armored Vehicles Jordan was established on March 31, 2019 as a limited liability company in accordance with the Aqaba Special Economic Zone law No. (31) and its amendments, and is registered under number (1219041105) with a paid-up capital of JD 5,000. The Company is located in South Aqaba Investment Park, Aqaba – Jordan.

b. The Company's main activities are manufacturing, armoring and sales of armored vehicles, bullet-proof vehicles, security vehicles, military vehicles cash in transit vehicles, police vehicles, ambulances and special-purpose vehicles.

c. The Company is 100% owned by Mahindra Emirates Vehicle Armouring FZ -LLC.

d. The accompanying financial statements have been approved by the Board of Directors on May 5, 2020.

2. Significant Accounting Policies

<u>Basis of Preparation of the Financial Statements:</u>

The accompanying financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) and related interpretations.

The financial statements are prepared under the historical cost convention.

The following are the significant accounting policies used by the Company:

<u>Functional Currency and Reporting Currency</u>

The financial statements are presented in Jordanian Dinar, which represents the functional currency of the Company.

<u>Property and Equipment</u>

Property and equipment are stated at cost less accumulated depreciation and impairment losses. Depreciation is computed according to straight-line method at useful lives ranging between 7 and 8 years for machinery and equipment and 4 years for computers and furniture and fixtures.

Whenever the expected recoverable amount of any property and equipment is less than its net book value, the carrying value is reduced to the recoverable amount and an impairment loss is taken to the statement of profit or loss and comprehensive income.

Property and equipment are derecognized when disposed off or no future benefit is expected from their use or disposal.

The useful lives of property and equipment are reviewed at the end of each year. In case the expected useful life is different from what was determined before, the change in estimate is recorded in the subsequent years, being a change in estimate.

Financial Instruments

Financial assets and financial liabilities are recognized in the Company's statement of financial position when the Company becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

<u>Financial Assets</u>

Financial assets are recognised in the Company's statement of financial position when the Company becomes a party to the contractual provisions of the instrument. Financial assets are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets (except for financial assets at fair value through statement of profit or loss and other comprehensive income) are added to or deducted from the fair value of the financial assets, as appropriate, on initial recognition.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

<u>Classification of Financial Assets</u>

Debt instruments that meet the following conditions are measured subsequently at amortised cost:

- The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows;
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All other financial assets are measured at fair value.

<u>Impairment of Financial Assets</u>

The Company recognises a loss allowance for expected credit losses on trade receivables. The amount of expected credit losses is updated at each reporting date to reflect changes in credit risk since initial recognition of the respective financial instrument.

For all other financial instruments, the Company recognises lifetime expected credit losses when there has been a significant increase in credit risk since initial recognition. Lifetime expected credit losses represent the expected credit losses that will result from all possible default events over the expected life of a financial instrument.

<u>Provision for Expected Credit Loss</u>

The Company has adopted the simplified approach to recognize expected credit losses over the life of its receivables as permitted by IFRS 9. Accordingly, non-impaired trade receivables that do not contain a significant financing component have been classified as part of stage 2 with the recognition of expected credit losses over their lifetime.

A provision for the expected credit loss should be recognized over the life of the financial instrument if the credit risk on that financial instrument increases substantially since the initial recognition and the expected credit loss is an expected weighted estimate of the present value of the credit loss. This value is measured as the present value of the difference between the cash flows due to the Company under the contract and the cash flows that the Company expects to receive arising from the expectation of several future economic scenarios, discounted at the effective interest rate of the asset.

The Company assesses whether there is objective evidence of impairment on an individual basis for each asset of individual value and collectively for other assets that are not individually significant.

Provisions for loss of credit losses are presented as a reduction of the total carrying amount of financial assets at amortized cost.

<u>Derecognition of Financial Assets</u>

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in statement of profit or loss and other comprehensive income.

<u>Financial Liabilities</u>

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at fair value through statement of profit or loss and other comprehensive income.

NOTES TO THE FINANCIAL STATEMENTS

Financial liabilities that are not (i) contingent consideration of an acquirer in a business combination, (ii) held-for-trading, or (iii) designated as at FVTPL, are measured subsequently at amortised cost using the effective interest method.

Trade and other payables classified as financial liabilities are initially measured at fair value, net of transaction costs and subsequently measured at amortised cost using the effective interest method. Interest expenses are recognised based on effective interest rate.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

Derecognition of Financial Liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised statement of profit or loss and comprehensive income.

Foreign Currency Transactions

In preparing the financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined.

Inventories

Inventories are stated at the lower of cost or net realizable value. Finished goods (vehicles) and raw materials costs are determined using the weighted average method. Net realizable value represents the estimated selling price less all estimated completion costs and costs to be incurred in marketing, selling and distribution.

Income Tax

Income tax expenses represent accrued taxes and deferred taxes.

Income tax expenses are accounted for on the basis of taxable income. Moreover, income subject to tax differs from income declared in the financial statements because the latter includes non-taxable revenue or non-deductible tax expenses in the current year but deductible in subsequent years, accumulated losses acceptable by the tax authorities, as well as unallowable and nontaxable items.

Taxes are calculated on the basis of the tax rates prescribed according to the prevailing laws, regulations, and instructions in Jordan.

Deferred taxes are taxes expected to be paid or recovered as a result of temporary timing differences between the value of the assets and liabilities in the financial statements and the value of the taxable amount. Moreover, deferred taxes are calculated according to the tax rates expected to be applied upon the settlement of tax liability and the realization of the deferred tax assets.

Deferred tax assets or liabilities are reviewed as the statement of financial position date and are reduced in case they are expected not to be utilized, upon the settlement of tax, wholly or partially.

Provisions

Provisions are recognized when the Company has liabilities as of the date of the statement of financial position arising from previous events, settlement of the liabilities is probable and the liabilities can be reliably measured.

Vacation Provision

A liability is recognized for benefits accruing to employees in respect of annual leave in the period the related service is rendered at the undiscounted amount of the benefits to be paid in exchange for that service.

Warranty Provision

Warranty provision is recognized for 1% of total cost of armor-related items installed, and conversion-related custom workmanship, including transparent armor, for the period of 2 years or 20,000km, whichever comes first.

Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position when there is legally enforceable right to offset the recognized amounts and the company intends to either settle them one net basis or to realized the assets and settle the liability simultaneously.

Impairment of Non-Financial Assets

At the reporting date, the Company assesses whether there is evidence that the asset has been impaired. If any evidence exists, or when an impairment test is required, the Company assesses the recoverable amount of the asset. The recoverable amount of the asset is the fair value of the asset or cash-generating unit less cost to sell and value in use whichever is higher and is determined for the individual asset, unless the asset does not generate substantially independent internal cash flows from those arising from other assets or assets of the company. Where the carrying amount of the asset or cash-generating unit exceeds the recoverable amount, the asset is considered to be impaired and is written down to its recoverable amount. In assessing the fair value used, future cash flows are discounted to their present fair value using a pre-tax discount rate that reflects current market assessments of the time value of funds and the risks specific to the asset. In determining fair value less cost to sell, recent transactions in the market are taken into consideration if available. If such transactions cannot be identified, the appropriate valuation model is used.

Revenue Recognition

Revenue is measured based on the consideration to which the Company expects to be entitled in exchange for transferring goods or services to customer, excluding amounts collected on behalf of third parties. Revenue is adjusted for expected discounts and volume discounts, which are estimated based on the historical data or forecast and projection. The Company recognizes revenue when it transfer control over goods or services to its customer.

The Company is involved in the sale of goods in the form of armored vehicles. Revenue is recognized at point in time when control of the goods has transferred, being when the goods have been shipped to customer's specific location. Following delivery, the customer has full control over the goods, and the primary responsibility of the goods and bears the risk of obsolescence and loss in relation to the goods. A receivable is recognised by the entity when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before payment is due.

Revenue represents the invoiced value of goods sold during the year, net of discounts and returns. Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- The Company has transferred to the buyer the significant risk and rewards of ownership of the goods;
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the entity: and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Expenses

General and administrative expenses include direct and indirect expenses that are not directly related to the cost of sales/contracts. If necessary, expenses are distributed between general and administrative expenses and sales/contract costs on a consistent basis.

NOTES TO THE FINANCIAL STATEMENTS

Lease Contracts

The Company as a lessee

The Company assesses whether the contract contains lease when starting the contract. The Company recognizes the right to use assets and the corresponding lease obligations in relation to all lease arrangements in which the lessee is in, except for short-term lease contracts (defined as leases of 12 months or less) and low-value asset leases, and for these contracts, the Company recognizes the lease payments as an operating expense on a straight-line basis over the period of the lease, unless another regular basis is more representative of the time pattern in which the economic benefits from the leased assets are utilized.

The lease obligation is initially measured at the present value of the lease payments that were not paid on the start date of the lease, deducted by using the price implicit in the lease. If this rate cannot be easily determined, the Company uses its additional expected rate.

The lease payments included in the rental obligation measurement include:

- Fixed rental payments (essentially including fixed payments), minus accrued receivable rental incentives;
- Variable rental payments that depend on an index or rate, initially measured using the indicator or the rate at the date the contract begins.
- The amount expected to be paid by the lessee under the residual value guarantees.
- The price of the exercise of purchase options, if the lessee is reasonably certain of the exercise of the options; and
- Paying the contract termination fines, if the lease reflects the exercise of the lease termination option.

Rental obligations are presented as a separate note in the consolidated statement of financial position.

Lease obligations are subsequently measured by increasing the book value to reflect the interest in the rental obligations (using the effective interest method) and by reducing the book value to reflect the rental payments paid.

The lease obligations (and a similar adjustment to the related right-to-use assets) are re-measured whenever:

- The lease term has changed or there is an event or important change in the conditions that lead to a change in the exercise of the purchase option assessment, in which case the lease obligations are re-measured by deducting the adjusted lease payment using the adjusted discount rate.
- Lease payments change due to changes in an index, rate, or change in expected payments under the guaranteed residual value, in which cases the lease obligation is re-measured by deducting the modified rental payments using a non-variable discount rate (unless the rental payments change due to a change in the floating interest rate, in this case the adjusted discount rate is used.
- The lease contract is adjusted and the lease amendment is not accounted as a separate lease, in which case the lease obligation is re-measured based on the duration of the adjusted lease contract by deducting the adjusted rental payments using the adjusted discount rate at the actual price at the date of the amendment.

Right-of-use assets are depreciated over the life of the lease or the useful life of the asset (whichever is shorter). If the lease contract transfers the ownership of the underlying asset or the cost of the right to use, which reflects that the Company expects to exercise the purchase option, then the relevant value of the right to use is depreciated over the useful life of the asset. Depreciation begins on the date the commencement of the lease.

The Company applies International Accounting Standard (36) to determine whether the value of the right to use has decreased its value and calculates any impairment losses as described in the policy of “property and equipment”.

Variable rents that are not dependent on an index or rate are not included in the measurement of lease obligations and right-of-use assets. Related payments are recognized as an expense in the period in which the event or condition that leads to these payments occurs and are included in “Other Expenditures” in the consolidated statement of profit or loss.

The Company as a lessor

The Company enters into lease contracts as a lessor in regard with some investment properties.

Leases in which the Company is the lessor are classified as operating or finance leases. In the event that the terms of the lease contract transfer all risks and rewards of ownership to the lessee, the contract is classified as a finance lease and all other leases are classified as operating leases.

When the Company is an intermediary lessor, it represents the main lease and sub-contract as two separate contracts. The sublease contract is classified as finance or operating lease by reference to the original right of use arising from the main lease.

Rental income from operating leases is recognized on a straight-line basis over the period of the relevant lease. The primary direct costs incurred in negotiating and arranging an operating lease are added to the book value of the leased asset and are recognized on a straight-line basis over the lease term.

The amounts due from the lessee under finance leases are recognized as receivables with the amount of the company’s net investment in the rental contracts. Finance lease income is allocated to accounting periods to reflect a constant periodic rate of return on the Company’s existing net investment with respect to lease contracts.

When the contract includes leasing components and other components other than leasing, the Company applies IFRS 15 to distribute the amounts received or to be received under the contract for each component.

3. Significant Accounting Judgments and Key Sources of Estimation Uncertainty

The preparation of the financial statements and application of the accounting policies require the Company’s management to make estimates and assumptions about the amounts of assets and liabilities and the disclosure of contingent liabilities. Furthermore, such estimates and assumptions affect revenue, expenses and provisions. Additionally, management of the Company is also required to estimate and assess the amounts and timing of future cash flows.

Judgments, estimates and assumptions are reviewed periodically. The effect of the change in estimates is recognized in the financial period in which the change has occurred and only if the change affects the same financial period. Moreover, the effect of the change in estimates is recognized in the financial period in which the change has occurred and in future periods in case the change affects the financial period and future financial periods.

Management believes that its estimates in the financial statements are reasonable. The key estimates used by management in applying the Company’s accounting policies that have the most significant effect on the amounts recognized in the financial statements are as follows:

Useful life of tangible assets

The management periodically re-estimates the useful life of tangible assets for the purpose of calculating the annual depreciation based on the general condition of those assets and estimated future useful lives. The impairment loss is recognized in the statement of profit or loss and comprehensive income.

Lawsuit provision

A provision is booked to meet any potential litigation obligations based on the legal study prepared by the Company’s legal counsel that identifies potential risks in the future and periodically reviews the study.

Vacation provision

Provision for employees’ annual vacation provision are charged to the statement of profit or loss and other comprehensive income according to the Company’s internal policies.

NOTES TO THE FINANCIAL STATEMENTS

Calculation of provision for expected credit losses

The management is required to use important judgments and estimates to estimate the amounts and timing of future cash flows and to estimate the risk of significant increase in credit risk for financial assets after the initial recognition and future measurements information for expected credit losses.

The expected credit loss is measured as an allowance equivalent to the expected credit loss over the life of the asset.

Provision for slow–moving inventory

Management estimates the provision for slow-moving and obsolete inventories on the basis of prior experience, physical condition and expected future use of such inventory in conformity with International Financial Reporting Standards (IFRSs).

Warranty provision

Management estimates the warranty provision on the basis of prior experience, and expected future claims in conformity with International Financial Reporting Standards (IFRSs) and according to the Company's internal policies.

4. Application of the new and revised International Financial Reporting Standards (IFRS)

New and revised IFRS in issue but not yet effective:

At the date of the financial statements, the Company has not applied the following new and revised IFRS Standards that have been issued but are not yet effective:

New and revised IFRSs	Amendments to new and revised IFRS
Definition of Material - Amendments to IAS 1 *Presentation of Consolidation Financial Statements* and IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors* ***(Effective from January 1, 2020)***	The new definition states that, 'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose consolidation financial statements make on the basis of those consolidation financial statements, which provide financial information about a specific reporting entity.'
Amendment to IFRS 3 "*Business Combinations*" ***(Effective from on January 1, 2020).***	These amendments clarify the definition of business as the International Accounting Standards Board published the Conceptual Financial Reporting Framework. This includes revised definitions of assets and liabilities as well as new guidance on measurement, derecognition, presentation and disclosure. In addition to the amended conceptual framework, the IASB issued amendments to the guidelines on the conceptual framework in the IFRS Standards, which contain amendments to IFRS 2, 3, 6 and 14 and IAS 1, 8, 34, 37 and 38) and IFRIC 12, 19, Interpretations 20 and 22 and Interpretations of the Standing Committee for the Interpretation of Standards No. 32 in order to update those statements with regard to references and quotations from the framework or to refer to a reference to Different from the conceptual framework.
Amendments to *References to the Conceptual Framework in IFRS Standards* **(Effective from January 1, 2020)**	Amendments to References to the Conceptual Framework in IFRS Standards related IFRS 2, IFRS 3, IFRS 6, IFRS 14, IAS 1, IAS 8, IAS 34, IAS 37, IAS 38, IFRIC 12, IFRIC 19, IFRIC 20, IFRIC 22, and SIC-32 to update those pronouncements with regard to references to and quotes from the framework or to indicate where they refer to a different version of the Conceptual Framework.
IFRS 17 *Insurance Contracts* ***(Effective from January 1, 2022)***	It provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. IFRS 17 supersedes IFRS 4 Insurance Contracts. IFRS 17 requires insurance liabilities to be measured at a current fulfilment value
Amendments to IFRS 10 *Consolidated Financial Statements* and *IAS 28 Investments in Associates and Joint Ventures (2011)* ***(Effective date deferred indefinitely Adoption is still permitted).***	Relating to the treatment of the sale or contribution of assets from and investor to its associate or joint venture.

Management anticipates that these new standards, interpretations and amendments will be adopted in the Company's financial statements as and when they are applicable and adoption of these new standards, interpretations and amendments may have no material impact on the financial statements of the Company in the period of initial application.

5. Cash and Cash Equivalents

This item consists of the following:

	March 31, 2020

Purchases:	JD
Mahindra Emirates Vehicle Armoring FZ -LLC *	2,542,188
	2,542,188

Other

	For the Period Since Inception on March 31, 2019 to March 31, 2020
Purchases of Property and Equipment:	JD
Mahindra Emirates Vehicle Armoring FZ -LLC*	127,188
	127,188

* Parent company.

NOTES TO THE FINANCIAL STATEMENTS

- The balance due to a related party are non-interest bearing and has no repayment schedule.
- Sales and marketing activities are carried out at the parent company level at no charges to the Company.
- The executive management salaries and remunerations for the period since inception on March 31, 2019 to March 31, 2020 amounted to JD 26,013.

13. Paid-up Capital

As of March 31, 2020, the Company's authorized and paid-up capital is JD 5,000 consisting of 5,000 shares with a par value of JD 1 per share, and is 100% owned by Mahindra Emirates Vehicle Armoring FZ -LLC.

14 Statutory Reserve

This reserve represents amounts transferred from income before tax at a rate of 10% during the period and in accordance with the Jordanian Companies Law. The statutory reserve is not available for distribution to the partner. Moreover, the transfer of such amounts may not stop before the sum of the amounts accumulated in this account becomes equal paid-up capital.

15. Tax Position

The Company is located within Aqaba Special Economic Zone in Aqaba - the Hashemite Kingdom of Jordan (ASEZA). The Company is exempted from sales and income tax as per the instruction No. 106 for the year 2016.

In the opinion of the management and the tax advisor, there is no need to record income tax provision.

16. Risk Management

a. Capital Risk Management

The Company manages its capital to ensure that it will be able to continue as going concern while maximizing the return to its partner and to comply with the local laws.

b. Liquidity Risk

Liquidity risks, also known as funding risks, represent the difficulty that the Company will encounter in making available the necessary funds to fulfill its obligations.

The Company manages liquidity risk primarily by obtaining financing from its parent company and maintaining sufficient cash at bank. The Company had the following liquidity position as of March 31, 2020:

	March 31, 2020
	JD
Current assets	**1,629,024**
Less: Current liabilities	**(1,752,197)**
(Deficit) in working capital	**(123,173)**

- Management believes that liquidity risk is minimal since the Company keeps sufficient amounts in banks to provide the needed liquidity for its short-term commitments and a major portion of its current liabilities is due to the parent company. Excluding the balance due to the related party of JD 814,253 from current liabilities, the result would be a surplus in the working capital of JD 691,080.

c. Credit Risk

Credit risk refers to the risk a counterparty will default on its contractual obligation resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and collecting payments in advance as a means of mitigating the risk of financial loss from defaults.

The Company's major financial assets consist mainly of cash on hand and at banks and some other debit balances.

The Company has concentration risk, as 100% of its sales are to three customers only.

Cash is placed at financial institutions only after careful credit evaluation of such financial institutions.

d. Foreign Currency Risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company's major foreign currency transactions are in Jordanian Dinar, AED (Emirati Dirhams) and US Dollar. Due to the fact that the Jordanian Dinar is pegged to the AED and the US Dollar, management believes that the foreign currency risk is minimal.

e. Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. Management believes that the interest rate risk is not material as it has no interest-bearing assets or liabilities.

17. Legal Cases

As of March 31, 2020, the Company was not a defendant in any legal case.

18. COVID-19 Impact

The Company has assessed the value of assets and liabilities as at 31 March 2020 due to rapidly changing dynamics of COVID-19. The Company expects no significant delay in completing the customer orders and the completed orders will be dispatched to respective locations. The management is closely monitoring the liquidity position of the Company, which is healthy so far. Accordingly, the management anticipates no material impact on value of assets and liabilities as at 31 March 2020 due to COVID-19 and does not foresee any going concern issues.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
MAHINDRA FIRST CHOICE WHEELS LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Mahindra First Choice Wheels Limited ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Information Other than the Financial Statements and Auditors' Report Thereon ("Other Information")

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Director's report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
    b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books
    c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.
    d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.
    e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.
    f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

    (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    i. The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its financial statements - Refer Note XX to the financial statements;.
    ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
    iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company;
    iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.

    (C) With respect to the matter to be included in the Auditors' Report under section 197(16):
    In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF MAHINDRA FIRST CHOICE WHEELS LIMITED FOR THE YEAR ENDED 31 MARCH 2020

With reference to the Annexure A referred to in the Independent Auditors' Report to the members of Mahindra First Choice Wheels Limited ('the Company') on the Ind AS financial statements for the year ended 31 March 2020, we report the following:

i. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) The Company has a programme of physical verification of its fixed assets by which all fixed assets are verified once in two years, pursuant to which the fixed assets were physically verified in the financial year ended 31 March 2020 and no material discrepancies were noticed on such verification.

(c) The Company does not have any immovable properties. Accordingly, paragraph (i) (c) of the Order is not applicable to the Company.

ii. The inventory has been physically verified by the management at reasonable intervals during the year. In our opinion, the frequency of such verification is reasonable. The discrepancies noticed on verification between the physical stocks and the book records were not material and have been suitably adjusted in the books of account.

iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Companies Act, 2013 ("the Act"). Accordingly, paragraphs (iii) of the Order are not applicable to the Company.

iv. In our opinion and according to the information and explanations given to us and based on the audit procedures conducted by us, the Company has complied with provisions of Section 186 of the Companies Act, 2013 in respect of making investments. According to the information and explanations given to us and based on the audit procedures conducted by us, the Company has complied with the provisions of Section 185 and 186 of the Act, with respect to granting of loans, making investment.

v. According to the information and explanations given to us, the Company has not accepted any deposit during the year and accordingly compliance with Section 73 and 76 of the Act is not applicable. According to the information and explanations given to us, there are no unclaimed deposits and accordingly the question of complying with Section 74 and 75 of the Act is not applicable.

vi. In respect of maintenance of Cost records under Section 148(1) of the Act, having regard to the nature of the Company's business/activities, reporting under paragraph (vi) of the Order is not applicable.

vii (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Provident Fund, Employees' State Insurance, Income tax, Goods and Services Tax and other material statutory dues have been generally regularly deposited during the period by the Company with the appropriate authorities. Duty of Customs, Duty of Excise and Cess are not applicable to the Company.

According to the information and explanations given to us, there are no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income tax, Goods and Services Tax and other material statutory dues that have remained outstanding for more than six months from the date it became payable. Further as informed to us, the Company did not have any dues on Sales Tax, Service tax, Value Added Tax and Cess.

(b) According to the information and explanations given to us, there are no dues of Income tax, Sales tax, Service tax, Valued added tax, Goods and Service Tax and other material statutory dues which have not been deposited with the appropriate authorities on account of any dispute, except for the following:

Name of the Statute	Nature of the Dues	Amount as per Demand (Rs. in Lakhs)	Amount Paid under protest (Rs. in Lakhs)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act, 1961	Income Tax	3.79	–	2008-2009	Commissioner of Income Tax (Appeals)
		31.08	–	2012-2013	Assistant Commissioner of Income Tax
Value Added Tax, Maharashtra	Value Added Tax	165.71	22.14	2005-2006 to 2010-2011 and 2012-2013	Joint Commissioner of Sales Tax (Appeal)
Value Added Tax, Hyderabad	Value Added Tax	45.73	39.04	2005-06 to 2008-09	Sales Tax Tribunal (Hyderabad)
Value Added Tax, Kerala	Value Added Tax	1.55	1.16	2008-09	Commercial Tax Officer
Central Sales Tax, Maharashtra	Central Sales Tax	34.77	–	2008-09	Joint Commissioner of Sales Tax (Appeal)

viii. The Company has not taken any loans or borrowings from financial institutions, banks and government or has not issued any debentures. Hence reporting under paragraph (viii) of the Order is not applicable to the Company.

ix. The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) or through term loans during the year. Hence reporting under paragraph (ix) of the Order is not applicable to the Company.

x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT – 31 MARCH 2019 (CONTD...)

us, we have neither come across any instance of fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the management.

xi. In our opinion and according to the information and explanations given to us, the Company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

xii. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company and Nidhi Rules, 2014 are not applicable to it. Accordingly, paragraph 3 (xii) of the Order is not applicable to the Company.

xiii. In our opinion and according to the information and explanations given to us, the Company has entered into transactions with the related parties in compliance with provision of Section 177 and 188 of the Act. The details of such related party transactions have been disclosed in Ind AS financial statements as required under applicable Ind AS.

xiv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3 (xiv) of the Order is not applicable to the Company.

xv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3 (xv) of the Order is not applicable to the Company.

xvi. According to the information and explanations given to us and based on our examination of the records of the Company, the Company is not required to be registered under Section 45 IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3 (xvi) of the Order is not applicable to the Company.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF MAHINDRA FIRST CHOICE WHEELS LIMITED FOR THE YEAR ENDED 31 MARCH 2020

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra First Choice Wheels Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

1. **Corporate information:**

The financial statements comprise financial statements of Mahindra First Choice Wheels Limited (“the Company”) or “MFCWL”) for the year ended 31 March 2020. The Company is an unlisted Public Company domiciled in India.

Mahindra First Choice Wheels Limited is principally engaged in the business of facilitating trading in used vehicles through its Franchise network and electronic platform and providing allied products and services, including online pricing guidance, used vehicle inspection and valuation services, yard management services and used vehicles inspection services for insurance.

2. **Significant Accounting Policies:**

2.1 **Statement of Compliance:**

These financial statements of the Company have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (“the Act”) and other relevant provisions of the Act.

2.2 **Basis of preparation and presentation:**

These financial statements of the Company have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs for the asset or liability that are not based on observable market data.

2.3 **Business combinations:**

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at fair value on acquisition date and the amount of any non-controlling interests in the acquiree. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

When the Company acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances, and pertinent conditions as at the acquisition date.

2.4 **Goodwill:**

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Company’s cash-generating units that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit or loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

Estimated impairment of goodwill

The Company tests annually goodwill for any impairment, in accordance with the above accounting policy. The recoverable amount of cash generating units is determined based on value-in-use calculations. These calculations require the use of estimates.

2.5 **Revenue recognition:**

Effective 1 April 2018, Ind AS 115 ‘Revenue from contracts with customers’ has replaced Ind AS 18’ Revenue’ and Ind AS 11 ‘Construction contracts’. The Company has applied Ind AS 115 ‘Revenue from Contracts with customers’ (“herein after referred to as Ind AS 115”) effective from 1April2018, using modified retrospective approach for the purpose of transition. Accordingly, comparatives for the previous period have not been restated. The application of Ind AS 115 did not have any material impact on the financial results of the Company. Ind AS 115 specifies a uniform, five-step model for revenue recognition, which is generally to be applied to all contracts with customers.

Sale of goods:

The Company recognizes revenue from sale of goods measured at the fair value of the consideration received or receivable, upon satisfaction of performance obligation which is at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods. Depending on the terms of the contract, which differs from contract to contract, the goods are sold on are as on able credit term. As per the terms of the contract, consideration that is variable, according to Ind AS 115, is estimated at contract inception and updated thereafter at each reporting date or until crystallisation of the amount.

Sale of Services:

i) Franchise fee - The Company recognizes revenue from the date of activation of the dealer’s account on receipt of security deposit.

ii) Commission Income - The Company recognizes revenue on receipt of seller’s confirmation for auction.

iii) Vehicle valuation fee - The Company recognizes revenue on release of valuation report.

iv) Inspection Fee - The Company recognizes revenue on release of inspection report.

v) Yard Management fees - The Company recognizes revenue on accrual basis of entry of the vehicle in the yard.

vi) Wholesale Bulk Income – The Company recognizes revenue on issue of release order of vehicle.

vii) Repo Management Service – The Company recognizes revenue on receipt of seller’s confirmation.

viii) Other Operating Income:

– Warranty income - The Company recognizes revenue on sale of warranty product of a third-party warranty service provider, with no obligations to the Company. A part of warranty income related to road side assistance is deferred over the period of warranty with the Company being the primary obligor.

– Registration Income – The Company recognizes revenue over the term of registration.

– Others – The Company recognizes revenue on satisfaction of performance obligation towards rendering of such services.

Significant financing component - Generally, the Company receives short-term advances from its customers. Using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

2.6 Dividend and interest income:

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.7 Operating lease rental income:

The income arising from operating leases is accounted on a straight-line basis over the lease terms.

The Company's policy for recognition of revenue from operating leases is described in Note No.- 2.15 below.

2.8 Foreign currencies:

In preparing the financial statements, transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

2.9 Employee benefits:

a) Short term employee benefits are recognised as an expense at the undiscounted amount in the Statement of Profit and Loss for the year in which the related service is rendered.

b) Post-employment benefits

i) Defined Contribution Plan: Provident and Family Pension Fund

The eligible employees of the Company are entitled to receive post-employment benefits in respect of provident and family pension fund, in which both employees and the Company make monthly contributions at a specified percentage of the employees' eligible salary (currently 12% of employees' eligible salary). The contributions are made to Regional Provident Fund Commissioner. Provident Fund and Family Pension Fund are classified as Defined Contribution Plans as the Company has no further obligations beyond making the contribution. The Company's contributions to Defined Contribution Plan are charged to the statement of profit and loss as incurred.

ii) Defined Benefit Plan: Gratuity (unfunded)

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service or part thereof in excess of six months. Vesting occurs upon completion of five years of service. The Company accounts the gratuity benefits payable in future based on an independent external actuarial valuation carried out at the end of the year which is determined using the Projected Unit Credit method. Actuarial gains and losses are recognised in the Other Comprehensive Income. Past service cost is recognised immediately to the extent that the benefits are already vested.

c) Other long-term employment benefits – Compensated Absences

The Company provides for encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits for future encashment/ availment. The Company makes provision for compensated absences based on an independent external actuarial valuation carried out at the end of the year.

2.10 Share-based payment arrangements:

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

2.11 Taxation:

a) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

b) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.12 <u>Property, plant and equipment</u>:

Property, plant and equipment are stated at cost less depreciation and impairment losses, if any. Costs comprise purchase price net of any trade discounts and rebates and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use and other incidental expenses directly attributable to acquisition of assets up to the date the asset is ready for its intended use.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Estimated useful life of the assets are given below:

- Leasehold improvements over the period of the lease.
- Office equipment - 2 to 5 years.
- Furniture - 10 years,
- Computers and servers - 3 to 6 years
- Vehicles - 3 years for used vehicles or 5 years for new vehicles.
- Plant and equipment - 5 to 15 years
- Electrical Fitting - 5 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.13 <u>Intangible assets:</u>

a) <u>Intangible assets acquired separately:</u>

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

b) <u>Derecognition of intangible assets</u>

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

c) <u>Useful lives of intangible assets:</u>

Estimated useful lives of the intangible assets are as follows:

Software	5 years
Website	5 years
Non-Compete Fees	Contractual Terms
Market Information	Contractual Terms
Customer Relationships	7 years
Service Provider Contracts and intellectual property	3 years

2.14 <u>Impairment of tangible and intangible assets other than goodwill:</u>

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, these assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.15 <u>Leases:</u>

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

Company as a lessee:

At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The Company presents right-of-use assets that do not meet the definition of investment property in 'property and equipment' and lease liabilities in the statement of financial position.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the term of the relevant lease.

Significant Accounting Policy

The Company has adopted Ind AS 16 'Leases' from 1 April 2019 using the modified retrospective method. Accordingly, comparatives for the year ended 31 March 2019 have not been retrospectively adjusted.

A. Definition of lease:

Previously, the Company determined at contract inception whether an arrangement was or contained a lease under 'Appendix C' to Ind AS 17 Determining whether an Arrangement contains a Lease. The Company now assesses whether a contract is or contains a lease based on the definition of a lease, as explained in significant accounting policy.

On transition to Ind AS 116, the Company elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The Company applied Ind AS 116 only to contracts that were previously identified as leases. Contracts that were not identified as leases under Ind AS 17 and 'Appendix C' were not reassessed for whether there is a lease under Ind AS 16. Therefore, the definition of a lease under Ind AS 116 was applied only to contracts entered into or changed on or after 1 April 2019.

I. Leases classified as operating lease under Ind AS 17:

Previously, the Company classified property leases as operating leases under Ind AS 17. On transition, for these leases, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Company's incremental borrowing rate as at 1 April 2019. Right-of-use assets are measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments.

The Company has tested its right-of-use assets for impairment on the date of transition and has concluded that there is no indication that the right-of-use assets are impaired.

The Company used following practical expedients when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17:

- did not recognise right-of-use assets and liabilities for leases for which the lease term ends within 12 months of the date of initial application; and
- did not recognise right-of-use assets and liabilities for leases of low value assets

II. Leases classified as finance leases under Ind AS 17

The leases which were classified as finance leases under IndAS17, the carrying amount of the right-of-use asset and the lease liability at 1 April 2019 were determined at the carrying amount of the lease asset and lease liability under Ind AS 17 immediately before transition date.

III. Impact on financial statements

On transition date the Company recognised Right-of-Use asset and lease liability, the impact is as follows:

Rs. in Lakhs

Particulars	**Amount**
Right-of-Use assets – Property, plant and equipment	1619.73
Lease liability	1619.73

2.16 Inventories:

Inventories are valued at Cost or Net Realisable Value whichever is lower.

2.17 Provisions and Contingencies:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

2.18 Financial Instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.19 Financial assets

All regular way purchases or sales of financial assets are recognised and de-recognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial assets are subsequently measured at fair value.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling it in the near term; or
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

De-recognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay.

2.20 Financial liabilities and equity instruments

a) **Classification as debt or equity**

Debt and equity instruments issued by a Company entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

b) **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

c) **Financial liabilities**

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

De-recognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

2.21 Critical accounting judgements and key sources of estimation uncertainty:

In the application of the Company's accounting policies, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Useful lives of Property, plant and equipment and intangible assets

The Company reviews the useful lives of property, plant and equipment and intangible assets at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation expense in future periods.

Depreciation on property, plant and equipment has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical evaluation, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc. Vehicles - 3 years in case of used vehicles or 5 years in case of new vehicles.

Ind AS 116 – 'Leases'

This standard will supersede Ind AS 17 'Leases'. It abolishes for lessees the previous classification of leasing agreements as either operating or finance leases. Instead, Ind AS 116 introduces a single lessee accounting model, requiring lessees to recognise assets for right to use assets and lease liability representing its obligation to make lease payments. This means that leases which were previously not reported in the Balance Sheet will have to be reported in subsequent reporting periods. The depreciation expense will include amortisation of right to use asset and finance costs will include interest expense on lease liability. Ind AS 116 also provides exception from recognition of right to use asset and lease liability where lease term is less than 12 months or leases for which underlying asset is of low value. In such cases, lease payments are recognised as an expense over lease term either on straight-line basis unless another systematic basis is representative of time pattern of the user's benefit.

Amendments to Ind AS 12 – 'Income Taxes'

The amendment relating to income tax consequences of dividend clarify that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. Further, the amendment to Appendix C specifies that when an entity is uncertain how tax laws applies to a particular transaction or circumstance until the relevant tax authorities or a court takes a decision in future and it is not probable that taxation authorities may accept entities tax position then entity is required to estimate effect of such uncertain position on income tax and deferred tax.

The Company does not expect any significant impact of the amendment on its financial statements.

Amendment to Ind AS 19 – 'Employee Benefits'

The amendment clarifies that if a plan amendment, curtailment or settlement occurs, it is mandatory that the current service cost and the net interest for the period after the re-measurement are determined using the assumptions used for the re-measurement. In addition, amendment has been included to clarify the effect of a plan amendment, curtailment or settlement on the requirements regarding the asset ceiling.

There is no impact of the amendment on the Company's financial statements.

Amendment to Ind AS 23 – 'Borrowing Cost'

The amendment clarifies borrowing costs related to specific borrowings that remain outstanding after the related qualifying asset is ready for intended use or sale should subsequently be considered as part of general borrowing costs of an entity.

The amendment does not have significant impact on the Company's financial statements.

Amendment to Ind AS 28 - 'Investments in Associates and Joint Ventures'

The amendment specifies that entity shall apply Ind AS 109 before applying Ind AS 28 to long term interests in associates and joint ventures that form part of net investment in associate and joint venture but to which equity method is not applied.

The amendment is not applicable to the Company's financial statements.

Amendment to Ind AS 103 – 'Business Combination and Ind AS 111 Joint Arrangements'

The amendment to Ind AS 103 relating to re-measurement clarifies that when an entity obtains control of a business that is a joint operation, then the entity considers such an acquisition as a business combination achieved in stages and accounts for it accordingly i.e., it re-measures previously held interests in that business.

The amendment to Ind AS 111 clarifies that when an entity obtains joint control of a business that is a joint operation, the entity does not re-measure previously held interests in that business.

These amendment are not applicable to the Company's financial statements.

Securities Premium

Balance as at the beginning and end of the year	**20,898.15**	20,898.15

During 2017-2018, the Company issued 49,41,470 shares of Rs 10 each, issued at a premium of Rs 192.37 per share. The securities premium is created on issue of equity shares. The securities premium of Rs.15.87 lakhs is on the issue of 3,17,423 equity shares in earlier years to the Trust constituted under the Employees Stock Option Scheme but not allotted to employees.

Share option outstanding account

Balance as at the beginning of the year	**57.19**	48.75
Add:- allotment of shares by ESOP Trust to employees	**8.63**	8.44
Balance at the end of year	**65.82**	57.19

The above reserve relates to share options granted by the Company to its employees under its Employee Share Option Plan (ESOP). Further information about share-based payments to its employees is set out in note 21A.

Equity-settled share-based payments to employees and others providing similar services are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company's revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share option outstaning account.

Equity instruments through other comprehensive income

	31 March 2020	31 March 2019
Balance as at the beginning of the year	**11.26**	10.65
Remeasurements of the equity instruments through other comprehensive income	**1.04**	0.61
Balance at the end of year	**12.30**	11.26

This reserve represents the cumulative gains arising on the revaluation of equity instruments measured at fair value through other comprehensive income. (FVOCI)

Remeasurements of the defined benefit plans

Balance as at the beginning of the year	**(105.66)**	(129.39)
Remeasurements of the defined benefit plans	**(18.14)**	23.73
Balance at the end of year	**(123.80)**	(105.66)

This reserve represents the cumulative gains / (losses) arising on remeasurement of the employee's defined benefit plan.

21A Employee share option plan of the company

1.1. Details of the employees share option plan of the Company

Mahindra First Choice Wheels Limited has share option schemes under which the employees have an option to subscribe for the Company's shares which have been granted to certain executives and senior employees. The share-based payment reserve is used to recognise the value of equity-settled share-based payments provided to employees, including key management personnel, as part of their remuneration.

Each employee share option converts into the equity share of the Company on exercise. No amounts are paid or payable by the recipient on receipt of the option. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of expiry.

The number of options granted is calculated in accordance with the performance-based formula approved by shareholders at the previous annual general meeting and is subject to approval by the remuneration committee. The formula rewards executives and senior employees to the extent of the Company's and the individual's achievement judged against both qualitative and quantitative criteria from various financial and customer service measures.

The Company has framed an Equity settled "Employee Stock Option Scheme (ESOS), 2010" for its employees. It has a trust viz. Mahindra First Choice Wheels Limited Employees' Stock Option Trust" (ESOS trust), which would hold the shares for the benefit of the eligible employees, including Directors of the Company and its subsidiaries. In addition to the above, the Company has also settled "Employee Stock Option Scheme (ESOS), 2015" for its employees.

The following share-based payment arrangements were in existence during the current and prior years.

22. Finance cost

24. Earnings per share

Basic and Diluted Earnings Per Share

The earnings and weighted average number of ordinary shares used in the calculation of basic earnings per share are as follows:

	31 March 2020	31 March 2019
Loss for the year	**(701.06)**	(1,459.48)
Weighted average number of equity shares used in the calculation of basic and diluted earnings per share.	**78,883,989**	78,883,989
Basic and diluted earnings per share (Face value Rs. 10/- per share)	**(0.89)**	(1.85)

25. Contingent liabilities and commitments

Claims against the Company not acknowledged as debts comprise of:

	As at 31 March 2020	As at 31 March 2019
Demands raised by Income tax department where the Company is in appeal	**34.87**	34.87
Demand raised by VAT Department where the Company is in appeal	**164.47**	798.66
Total	**199.34**	833.53

Note: In respect of above items, till the matters are finally decided, the financial effect cannot be ascertained.

In February 2019, Supreme court of India in its judgement opined on the applicability of allowances that should be considered to measure obligation under Employee Provident Fund Act, 1952. The Company has been legally advised that there are interpretative challenges on the application of judgement retrospectively and therefore has currently not considered any probable obligation for past period.

26. Financials Instruments

Capital management

The company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to maximise the shareholders value.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

CREDIT RISK

(i) Credit risk management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company's exposure are continuously monitored.

Trade Receivables

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The Company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses. The Company has taken security deposits which are considered as collateral and these are considered in determination of expected credit losses, where applicable.

Amounts pertaining to these collaterals are as given below:-

Particulars	**31 Mar 2020**	31 Mar 2019
Security Deposits from franchisees	**930.63**	1,321.98

There is no change in estimation techniques or significant assumptions during the reporting period.

The loss allowance provision is determined as follows:

31 March 2020

Particulars	**Not due**	**Less than 6 months past due**	**More than 6 months past due**	**Total**
Gross carrying amount	–	**3,263.45**	**1,239.60**	**4,503.05**
Allowance for Expected Credit Losses	–	**–**	**598.50**	**598.50**

31 March 2019

Particulars	Not due	Less than 6 months past due	More than 6 months past due	Total
Gross carrying amount	–	2,990.80	1,255.74	4,246.54
Allowance for Expected Credit Losses	–	–	909.62	909.62

In respect of other financial assets, the maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of financial assets.

Reconciliation of loss allowance provision for Trade receivables

Particulars	**31 March 2020**	31 March 2019
Balance as at beginning of the year	**909.62**	1,071.48
Impairment losses recognised in the year based on lifetime expected credit losses	**575.57**	770.66
Amounts written off during the year as uncollectible	**(886.69)**	(932.52)
Balance at end of the year	**598.51**	909.62

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which provides guidance for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by efficient management of surplus cash and by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturity profile of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

The contractual maturity is based on the earliest date on which the Company may be required to pay.

Rs in lakhs

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above

- Other employee related liabilities	419.35	–	–	–
Total	6,525.74	308.91	–	–

27. Employee benefits

(a) Defined Contribution Plan

The Company's contribution to Provident Fund aggregating Rs. 348.59 lakhs (31 March 2019: Rs.293.14 lakhs) has been recognised in the Statement of Profit and Loss.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities.

Inflation risk

Some of the Company's pension obligations are linked to inflation, and higher inflation will lead to higher liabilities. Thus, an increase in inflation will also increase the deficit to some extent.

Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	Valuation as at	
	31 March 2020	31 March 2019
Discount rate(s)	**6.65%**	7.50%
Expected rate(s) of salary increase	**10.00%**	10.00%

Defined benefit plan – as per actuarial valuation on 31 March 2020

	Unfunded Plan	
	Gratuity	
	31 March 2020	31 March 2019
Amounts recognised in comprehensive income in respect of these defined benefit plans are as follows:		
I. Amounts recognised in profit or loss		
Current Service Cost	**100.55**	98.63
Past service cost	**–**	–
Net interest expense	**28.67**	27.27
Total amount included in employee benefit expense	**129.22**	125.90
II. Amounts recognised in other comprehensive income		
Remeasurement (gain)/losses:		
Actuarial (gain)/losses arising from changes in -		
– financial assumptions	**36.78**	9.85
– experience adjustments	**(18.64)**	(6.76)
– demographic adjustments	**–**	(26.82)
Total amount recognised in other comprehensive income	**18.14**	(23.73)

Rs in lakhs

	Unfunded Plan Gratuity 31 March 2020	31 March 2019
III. Changes in the obligation		
Opening defined benefit obligation	**401.82**	362.46
Current service cost	**100.55**	98.63
Past service cost	**–**	–
Interest expense	**28.67**	27.27
Remeasurement gains / (losses) arising from changes in -		
i. Demographic Assumptions	**–**	(26.82)
ii. Financial Assumptions	**36.78**	9.85
iii. Experience Adjustments	**(18.64)**	(6.76)
Benefits paid	**(22.60)**	(62.81)
Closing defined benefit obligation	**526.58**	401.82
Current portion of the above	**45.43**	39.23
Non-Current portion of the above	**481.15**	362.59

IV. Actuarial assumptions	**31 March 2020**	31 March 2019
1. Discount rate	**6.65%**	7.50%
2. Attrition rate		
Age in Years 21-44	**18.00%**	18.00%
Age in Years 45-59	**1.00%**	1.00%
3. Medical premium inflation	**7.00%**	7.00%

SENSITIVITY ANALYSIS	**31 March 2020**		31 March 2019	
	Discount Rate	**Salary Escallation Rate**	Discount Rate	Salary Escallation Rate
Defined Benefit obligation plus 100bps	**483.77**	**567.69**	370.58	432.43
Defined Benefit obligation minus 100bps	**576.34**	**488.79**	437.97	374.05

The above sensitivities analysis have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous period in the methods and assumptions used in preparing the sensitivity analysis.

PROJECTED PLAN CASH FLOW

The table below shows the expected cash flow profile of the benefits to be paid to the current membership of the plan based on past service of the employees as at the valuation date.

Maturity Profile	**31 March 2020**	31 March 2019
Expected Benefits for Year 1	**45.43**	39.23
Expected Benefits for Year 2	**47.28**	36.97
Expected Benefits for Year 3	**46.96**	38.05
Expected Benefits for Year 4	**52.89**	41.38
Expected Benefits for Year 5	**75.51**	41.21
Expected Benefits for Year 6	**67.19**	62.25
Expected Benefits for Year 7	**42.02**	55.07
Expected Benefits for Year 8	**26.11**	32.03
Expected Benefits for Year 9	**21.30**	19.15
Expected Benefits for Year 10 and above	**664.76**	533.49

The weighted average duration of the defined benefit obligation as at 31 March 2020 is 8.75 years (31 March 2019: 8.35 years)

Experience Adjustments:	**Year Ended**				
	2020	2019	2018	2017	2016
	Gratuity				
1. Defined Benefit Obligation	**526.58**	401.82	362.46	200.42	128.99
2. Fair value of plan assets	–	–	–	–	–
3. Surplus/(Deficit)	**(526.58)**	(401.82)	(362.46)	(200.42)	(128.99)
4. Experience adjustment on plan liabilities [(Gain)/Loss]	**(18.64)**	(6.76)	23.25	10.76	11.09
5. Experience adjustment on plan assets [Gain/(Loss)]	**–**	–	–	–	–

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Rs in lakhs

28. Fair Value Measurement

Fair Valuation Techiques and Inputs used - Recurring Items

Financial assets/ financial liabilities	Fair value as at 31 March 2020	Fair value as at 31 March 2019	Fair value hierarchy	Valuation technique(s) and key input(s)	Significant unobservable input(s)	Relationship of unobservable inputs to fair value and sensitivity
1) Investment in equity instruments at amortised cost (Unquoted)	**3,045.00**	–	Level 3	Unquoted bid prices	Long term revenue growth rates.	An increase in the long-term revenue growth rates used in isolation would result in a significant increase in the fair value.
2) Investment in equity instruments at FVTOCI (Unquoted)	**13.31**	12.27	Level 3	Unquoted bid prices	Long term revenue growth rates.	An increase in the long-term revenue growth rates used in isolation would result in a significant increase in the fair value.
3) Mutual Fund Investments (Quoted)	–	501.06	Level 1	Quoted bid prices in an active market	–	–

Fair value of financial assets and financial liabilities that are not measured at fair value i.e. measured using amortised cost

The carrying value of other financial assets and liabilities represent reasonable estimate of fair value.

Fair Valued Hierarchy as at 31 March 2020

ii. The amount of interest paid by the buyer in terms of section 16 of the Micro, Small and Medium Enterprises Development Act, 2006 (27 of 2006), along with the amount of the payment made to the supplier beyond the appointed day during each accounting year	–	–
iii. The amount of interest due and payable for the period of delay in making payment (which has been paid but beyond the appointed day during the year) but without adding the interest specified under the Micro, Small and Medium Enterprises Development Act, 2006	–	–
iv. The amount of interest accrued and remaining unpaid at the end of each accounting year	–	–
v. The amount of further interest remaining due and payable even in the succeeding years, until such date when the interest dues above are actually paid to the small enterprise, for the purpose of disallowance of a deductible expenditure under section 23 of the Micro, Small and Medium Enterprises Development Act, 2006	–	–

Rs in lakhs

	31 March 2020	31 March 2019
Dues to Micro and Small Enterprises have been determined to the extent such parties have been identified on the basis of information collected by the Management. This has been relied upon by the auditors.	–	–

31. Segment Information

The Company is engaged in providing various value added services to their customers in the used vehicle segment. The information reported to the Chief Operating Decision Maker (CODM) primarily revolves around the revenue generated by each area of business, while he evaluates operational performance on an overall company basis, both from cost and profitability perspectives. Similarly the Board reviews the results from an organizational perspective as well.

Manpower, which is a critical resource, is fungible between the areas of business to maximize effectiveness. Similarly, the Company leverages its product and service delivery structures for offering a suite of services to its customers across all areas of business. Additionally, there are costs incurred towards advertisement, which is another major cost driver, such that its impact permeates across all areas of the Company's. Thus, considering the high interchangeability of its resources and processes for delivering its objective of serving the used car eco market and the fact that its results are reviewed at an organizational level, the company is a single operating segment.

32. Other matters:

In March 2020, World Health Organization declared Covid-19 as a pandemic. Escalation of Covid-19 has the potential to impact the global economic growth and business developments. The countrywide lockdown declared by Government of India covered a part of March 2020 and continued until May 2020. Whilst overall impact is still uncertain, the Company has carried out an assessment for any possible impact on performance of the Company due to the outbreak. Based on the current situation, the Company does not expect operations and performance for year ended 31 March 2021 to be significantly impacted. The Company will continue to monitor the situation as it evolves in coming months.

33. Regrouping

Previous year's figures have been regrouped / reclassified wherever necessary to correspond with the current year's classification / disclosure..

INDEPENDENT AUDITOR'S REPORT

To the Members of **MAHINDRA FIRST CHOICE SERVICES LIMITED**

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of **Mahindra First Choice Services Limited** ("the Company"), which comprise the balance sheet as at 31st March, 2020, and the statement of Profit and Loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020 and its financial performance including other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Material Uncertainty related to Going Concern

We draw attention to Note 33 in the financial statements which indicates that the Company has accumulated losses Rs. 38,335.50 lakhs and its net worth has been fully eroded. The Company has incurred cash loss during the current and previous years and Company's current liabilities exceeds its current assets as at the Balance sheet date. These conditions along with other matters set forth in Note 33 indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern. However, the financial statements of the Company have been prepared on a going concern basis for the reasons stated in the said note.

Our opinion is not modified in respect of this matter.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The company's Board of Directors is responsible for the other information. The other information comprises the Board report.

Our opinion on Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

That Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
   (e) On the basis of the written representations received from the directors as on 31st March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
   (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
      i. As at 31st March, 2020 the Company is having pending litigations with Central and various Value Added Tax authorities disclosed as contingent liability amounting Rs. 329.29 lakhs;
      ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls With reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Mahindra First Choice Services Limited** ("the Company") as of 31st March 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to financial statements issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls With reference to financial statements (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31st March, 2020, based on the internal control with reference to financial statement criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls With reference to financial statements issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE AUDITOR'S REPORT

Referred to in paragraph 1 of our report of even date on the financial statements of **Mahindra First Choice Services Limited** for the year ended 31st March 2020

Annexure to the Auditor's Report referred to in our report of even date:

I. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant & Equipment's.

(b) These Property, Plant & Equipment's were physically verified by the Management during the year at reasonable intervals and discrepancies noticed during the verification were not material and have been properly dealt with in the books of accounts.

(c) The Company has no immovable properties and hence Clause 3(i)(c) is not applicable to the Company

II. Physical verification of inventory has been conducted at reasonable intervals by the management and discrepancies noticed on physical verification by the Management have been properly adjusted in the books of account.

III. The Company has granted unsecured loan of Rs. 160 lakhs to its wholly owned subsidiary which is listed in the register maintained under section 189 of the Companies Act, 2013.

(a) According to information and explanations given to us, and having regard to management's representation that the loans are given to its wholly owned subsidiary in the interest of Company's business, the terms and conditions of repayment for the said loan is not prima facie prejudicial to the interest of the Company.

(b) The schedule of repayment of principal and payment of interest has been stipulated as per the terms of agreement.

(c) No portion of principal and interest amount of the loan is due upto 31st March, 2020.

IV. The Company has not granted any loans or made any investments or provided any guarantees or securities to the parties covered under Section 185 & 186 of the Companies Act, 2013. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the company.

V. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public. Consequently, no order has been passed by the Company Law Board or National Company Law Commission or Reserve Bank of India or any court or any other tribunal on the Company. The clause 3(v), therefore is not applicable to the Company.

VI. On facts, clause 3(vi) relating to maintenance of cost records is not applicable to the Company.

VII. (a) According to the records of the Company and information and explanations given to us, the Company is generally regular in depositing with the appropriate authorities undisputed statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, value added tax, and other statutory dues applicable to it with the appropriate authorities.

(b) According to the information and explanations given to us and records of the Company examined by us, there are no disputed dues of income tax or sales tax, wealth tax, service tax, duty of customs, duty of excise value added tax and cess which have not been deposited on account of any dispute except as disclosed below:

Name of Statute	Nature of Dues	Forum where Dispute is Pending	Amount Involved (Rs. In Lakhs)	Amount Unpaid (Rs. In Lakhs)
Central & Value added tax matter under dispute	VAT and CST payable along with Interest thereon	Various Tax Authorities	329.29	329.29

VIII. Based on the records examined by us and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to any financial institution or bank as at the Balance Sheet date.

IX. On the basis of examination of relevant records and according to the information and explanations given to us, the Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) and term loans during the year, and accordingly, Para 3(ix) of the Order is not applicable to the Company.

X. On the basis of our examination of the relevant records of the Company, carried out in accordance with generally accepted auditing practices and according to the information and explanations given to us, no material fraud by the Company or any material fraud on the Company by its officers or employees has been noticed or reported during the year.

XI. On the basis of examination of relevant records and according to the information and explanations given to us, the Company has paid or provided managerial remuneration in accordance with the provisions of Section 197 read with Schedule V to the Companies Act, 2013.

XII. The Company is not a 'Nidhi Company'; therefore, clause 3(xii) of the Companies (Auditor's Report) Order, 2016 is not applicable to the Company.

XIII. On the basis of examination of relevant records and according to the information and explanations given to us, all transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable. The Company has disclosed the details of transactions with related parties in the Financial Statements as required by the applicable accounting standards.

XIV. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under audit; therefore, clause 3(xiv) of the Companies (Auditor's Report) Order, 2016 is not applicable to the company.

XV. On the basis of examination of relevant records and according to the information and explanations given to us, in our opinion, the Company has not entered into any non-cash transactions with directors or persons connected with them.

XVI. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provision of Clause 3(xvi) of the Order are not applicable to the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

Significant accounting policies

1) Corporate information

Mahindra First Choice Services Limited (MFCSL) is a wholly owned subsidiary of Mahindra Holdings Limited. The Company has its presence across all major cities in India. The Company has multi brand vehicle service centres network comprising 504 Franchise Owned Franchise Operated (FOFO) outlets and 1 Company Owned Company Operated (COCO) outlet. The Company supplies spare parts to FOFOs through 25 distribution HUB's. The Company has developed its own brand MFC for selling a range of spares parts through its 114 distributors.

The Company has elected not to prepare consolidated financial statements in accordance with Ind AS 110 on consolidated financial statement and Companies (Accounts) Rules 2014, as amended. The immediate parent Company is Mahindra Holdings Limited and ultimate parent Company is Mahindra & Mahindra Limited, a company incorporated in Mumbai, India which is the parent of the smallest and largest group to consolidate these financial statements. Copies of the annual report of the Mahindra & Mahindra Limited can be obtained from the Company Secretary, Mahindra & Mahindra Limited, Mahindra Towers, Dr. G. M. Bhosale Marg, Worli, Mumbai, 400 018, India. List of significant investments in subsidiaries is provided in note on investments.

2) Statement of compliance

The financial statements have been prepared in accordance with Ind ASs notified under the Companies (Indian Accounting Standards) Rules, 2015.

a) Basis of accounting and preparation of financial statements:

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and /or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 on inventories or value in use in Ind AS 36 impairment of assets.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

(i) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

(ii) Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

(iii) Level 3 inputs are unobservable inputs for the asset or liability.

b) Property, plant and equipment:

Property, plant and equipment are stated at cost less depreciation and impairment losses. Costs comprise purchase price net of any trade discounts and rebates and other taxes (other than those subsequently recoverable from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use and other incidental expenses directly attributable to acquisition of assets up to the date the asset is ready for its intended use.

Depreciation is recognised so as to write off the cost of assets (other than freehold land) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Estimated useful life of the assets are given below

Category of assets	Life
Plant and machinery	
- Machinery	10 Years
- Electrical equipments and tools	06 Years
- Mobile handsets	02 Years
- Barcode system and equipment	05 Years
Furniture and fittings - movable in nature	06 Years
Vehicles	06 Years and 8 months
Office equipments	05 Years
Leasehold premises	Over the period of lease
Computers	03 Years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the Statement of Profit and Loss.

c) Intangible assets:

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Useful lives of intangible assets

Intangible assets are amortised over a period of three years on straight line method.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the Statement of Profit and Loss when the asset is derecognised.

Intangible assets under development

Expenditure on research and development eligible for capitalisation are carried as intangible assets under development where such assets are not yet ready for their intended use.

d) Impairment of tangible and intangible assets other than goodwill:

The carrying amounts of tangible and intangible assets are reviewed at each Balance Sheet date if there is any indication of impairment based on internal / external factors. Impairment loss is provided to the extent the carrying amounts of assets exceed their recoverable amount. The impairment loss is recognised as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

e) Cash and cash equivalents:

Cash and cash equivalent in the Balance Sheet comprise cash at banks and on hand and short term deposits with an original maturity upto three months, which are subject to an insignificant risk of changes in value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash and short term deposits and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the Balance Sheet.

f) Cash flow statements:

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short term balances (with an original maturity upto three months from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

Cash flows from operating activities are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of non cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

g) Foreign currencies:

In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency are recognised at the rates of exchange prevailing at the dates of transactions. At the end of each reporting period, monetory items denominated in foreign currencies are retranslated at the rates prevailing at that date.

h) Borrowing costs:

Borrowing costs are recognised in Statement of Profit and Loss in the period in which they are incurred.

i) Inventories:

Inventories are valued at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes all charges in bringing the goods to the point of sale, including octroi, freight and other levies. Cost is arrived at on weighted average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

j) Unbilled revenue:

Unbilled revenue is recognised on the cost of material issued on the sales order / job card opened pending completion of service and hence not billed at the year end.

k) Revenue recognition:

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for customer returns, rebates and other similar allowances.

Sale of goods:

Revenue from the sale of goods is recognised when the goods are delivered and titles have passed, at which time all the following conditions are satisfied:

(i) the Company has transferred to the buyer the significant risks and rewards of ownership of the goods;

(ii) the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;

(iii) the amount of revenue can be measured reliably;

(iv) it is probable that the economic benefits associated with the transaction will flow to the Company; and

(v) the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Income from services:

Income from services is recognised when services are rendered and related costs are incurred.

Franchise income:

(i) One time fees is recognised when services are rendered and related costs are incurred prior to the commencement of operations by franchise.

(ii) Monthly fees are recognised when services are rendered and related costs are incurred after the commencement of operations by franchise.

l) Dividend and interest income:

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

m) Employee benefits:

Employee benefits include provident fund, superannuation fund, employee state insurance scheme, gratuity fund, compensated absences, stock appreciation rights, employee stock option scheme and post employment medical benefits.

1. Short term employee benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

(i) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and

(ii) in case of non accumulating compensated absences, when the absences occur.

2. Long term benefits

I. Defined contribution plan

The Company's contribution to provident fund, superannuation fund and employee state insurance scheme are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made and when services are rendered by the employees.

(i) Provident and family pension fund

The eligible employees of the Company are entitled to receive post employment benefits in respect of provident and family pension fund, in which both employees and the Company make monthly contributions at a specified percentage of the employees' eligible salary (currently 12% of employees' eligible salary). The contributions are made to Regional Provident Fund Commissioner. Provident fund and family pension fund are classified as defined contribution plans as the Company has no further obligations beyond making the contribution. The Company's contribution to defined contribution plans is charged to the Statement of Profit and Loss as incurred.

(ii) Superannuation

The eligible employees of the Company are entitled to receive post employment benefits in respect of superannuation fund in which the Company makes yearly contribution at a specified percentage of the employees' eligible salary (currently 15% of employees' eligible salary). The contributions are made to the Life Insurance Corporation of India. Superannuation is classified as defined contribution plan as the Company has no further obligations beyond making the contribution. The Company's contribution to defined contribution plans are charged to the Statement of Profit and Loss as incurred.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

II. **Defined benefit plan**

For defined benefit plans in the form of gratuity fund, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at each Balance Sheet date. Actuarial gains and losses are recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised immediately to the extent that the benefits are already vested and otherwise is amortised on a straight line basis over the average period until the benefits become vested.

The retirement benefit obligation recognised in the Balance Sheet represents the present value of the defined benefit obligation as adjusted for unrecognised past service cost, as reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to past service cost, plus the present value of available refunds and reductions in future contributions to the schemes.

(i) Gratuity

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service or part thereof in excess of six months. Vesting occurs upon completion of five years of service. The Company has obtained insurance policies with the Life Insurance Corporation of India (LIC) and makes an annual contribution to LIC. The Company accounts for gratuity benefits payable in future based on an independent actuarial valuation. Remeasurements arising from defined benefit plans comprises of actuarial gains and losses on benefit obligations, the return on plan assets in excess of what has been estimated and the effect of asset ceiling, if any, in case of over funded plans. The Company recognizes these items of remeasurements immediately in other comprehensive income and all the other expenses related to defined benefit plans as employee benefit expenses in their Statement of Profit and Loss.

(ii) Compensated absences

The Company provides for encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment/ availment. The liability is provided based on the number of days of unutilised leave at each Balance Sheet date on the basis of an independent actuarial valuation.

n) Employee share based payments:

The Company has constituted an employee stock option plan by way of stock appreciation rights. For cash settled share based payments, a liability is recognised for the goods or services acquired, measured initially at the fair value of the liability. At the end of each reporting period until the liability is settled, and at the date of settlement, the fair value of the liability is remeasured, with any changes in fair value recognised in Statement of Profit and Loss for the year.

Certain employees of the Company are covered by employee stock option scheme (ESOP scheme) offered by Company. Under the scheme, eligible employees are granted an option to purchase shares of Mahindra First Choice Services Ltd, in accordance with the terms and conditions of the scheme. The Company recognises this scheme as an equity settled share based payments arrangement in accordance with IND AS 102 - Share Based Payment. Options granted under ESOP scheme vests after 4 years from the date of grant. The options may be exercised over a period of 5 years from the date of vesting. Such ESOP expense in respect of employees of the Company is charged over the vesting period. The charge is based on fair value of options calculated using Black-Scholes-Merton Option Pricing Model. The fair value charge is recognised as share based payment expenses under employee benefit expenses.

o) Taxation:

Current tax is the amount of tax payable on the taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income tax Act, 1961 and other applicable tax laws. The Companies current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

p) Provisions and contingencies:

A provision is recognised when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the notes. Contingent assets are not recognised in the financial statements.

Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

q) Leases:

The Company as lessee

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the lessor has a substantive substitution right, then the asset is not identified
- the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

- the Company as a lessee has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:
  - the Company as a lessee has the right to operate the asset; or
  - the Company as a lessee designed the asset in a way that predetermines how and for what purpose it will be used.
- This policy is applied to contracts entered into, or modified, on or after 1 April, 2019.

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at amortised cost at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using the incremental borrowing rate.

It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term

Transition

The Company has adopted Ind AS 116 using the modified retrospective approach with effect from initially applying this standard from 1 April 2019. Accordingly, the information presented for previous year ended 31 March 2019 has not been restated and continues to be reported under IAS 17.The Company has adopted modified retrospective approach where lease liability measured at present value of remaining lease payment discounted at the incremental borrowing rate at the date of initial application and right to use asset is equal to lease liability adjusted by the amount of any prepaid or accrued lease payments.

As a lessee

Operating leases

For transition, the Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Company has also used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease. Single discount rate to a portfolio of leases with similar characteristics.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-to-use asset, and finance cost for interest accrued on lease liability.

r) Financial instruments

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

s) Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial assets are subsequently measured at fair value.

Investments in equity of subsidiaries is measured at cost.

A financial asset is held for trading if :

(i) it has been acquired principally for the purpose of selling it in the near term; or

(ii) on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or

(iii) it is a derivative that is not designated and effective as a hedging instrument or a financial guarantee

Dividends on these investments in equity instruments are recognised in profit or loss when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive i.e. all cash shortfalls, discounted at the original effective interest rate (or credit adjusted effective interest rate for purchased or originated credit impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay.

t) Financial liabilities and equity instruments

Classification as debt or equity

Debt and equity instruments issued by a Company entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

3) Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Useful lives of property, plant and equipment

Depreciation on property, plant and equipment has been provided on the straight line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except in respect of the following categories of assets, in whose case the life of the assets has been assessed as under based on technical evaluation, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc:

Sr. No	Category of assets	Life
(i)	Plant and machinery	
	- Machinery	10 Years
	- Electrical equipments and tools	6 Years
	- Mobile handsets	2 Years
	- Barcode system and equipment	5 Years
(ii)	Furniture and fittings - movable in nature	6 Years
(iii)	Vehicles	6 Years and 8 months

IND AS 116 - Leases

Ind AS 116 requires lessees to determine the lease term as the non cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by lease basis and there by assesses whether its reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

4) Recent accounting pronouncements

Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

Total	**3,149.27**	3,087.87

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

A. Stock Appreciation Rights (SAR)

The details of the SARs are as under -

Grant date	Vesting date	Exercise expiry date	Reporting date	SAR Granted	SAR Exercised	SAR Lapsed	Number of SAR as on 31-3-2020
1-Aug-12	1-Aug-16	1-Aug-20	31-Mar-20	17,369,124	2,064,761	**3,385,593**	**11,918,770**
6-Aug-13	6-Aug-17	6-Aug-20	31-Mar-20	3,937,886	–	**2,336,087**	**1,601,799**
23-Oct-14	23-Oct-18	23-Oct-20	31-Mar-20	4,713,374	–	**2,800,546**	**1,912,828**
1-Aug-15	1-Aug-19	1-Aug-21	31-Mar-20	5,579,048	–	**2,337,998**	**3,241,050**
1-Apr-16	1-Apr-20	1-Apr-22	31-Mar-20	1,869,873	–	**737,370**	**1,132,503**
Total				**33,469,305**	**2,064,761**	**11,597,594**	**19,806,950**

The compensation cost of SARs granted to employees is accounted by the Company using the fair value method as below-

Grant date	Vesting date	Exercise expiry date	Reporting date	Exercise price	Fair value	Number of SARs	Employee compensation cost
1-Aug-12	1-Aug-16	1-Aug-20	31-Mar-20	10	0.40	**11,918,770**	**35.76**
6-Aug-13	6-Aug-17	6-Aug-20	31-Mar-20	10	0.40	**1,601,799**	**4.81**
23-Oct-14	23-Oct-18	23-Oct-20	31-Mar-20	10	0.40	**1,912,828**	**5.74**
1-Aug-15	1-Aug-19	1-Aug-21	31-Mar-20	13	0.47	**3,241,050**	**14.26**
1-Apr-16	1-Apr-20	1-Apr-22	31-Mar-20	13	1.45	**1,132,503**	**15.86**
Fair value as on 31st March, 2020						**19,806,950**	**76.42**
Less: Fair value as on 31st March, 2019							(156.80)
Total							**(80.39)**

The inputs used in the measurement of the fair values at grant date of the cash settled stock appreciation rights were as follows:

Particulars	Cash settled SAR 2020	2019
Exercise price (for SARs issued before 01st Aug' 15)	**Rs 10**	Rs 10
Exercise price (for SARs issued after 01st Aug' 15)	**Rs 13**	Rs 13
Expected volatility	**0.50**	0.50
Expected life (for SARs issued on 01st Aug' 12)	**8 years**	8 years
Expected life (for SARs issued on 06th Aug' 13)	**7 years**	7 years
Expected life (for SARs issued after 06th Aug' 13)	**6 years**	6 years
Expected dividends yield	**NIL**	NIL
Risk-free interest rate (based on GOI securities)	**6.50%**	7.95%

The fair value of the SARs has been measured using the Black-Scholes-Merton formula.

Since, the Company is not listed, it does not have a history of volatility of its shares. However, based on various considerations expected volatility is assumed as 0.5.

B. Employee Stock Option Plans (ESOPs)

The details of the ESOPs are as under -

Particulars	No of ESOPs Year ended 31st March, 2020	Year ended 31st March, 2019
ESOPs outstanding at the beginning of the year	**24,890,184**	21,940,636
ESOPs granted during the year	**–**	5,224,937
ESOPs surrendered and forfeited during the year	**1,661,773**	2,275,389
ESOPs outstanding at the end of the year	**23,228,411**	24,890,184

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

The compensation cost of ESOPs granted to employees is accounted by the Company using the fair value method as below-

Grant date	Vesting date	Exercise expiry date	Reporting date	Exercise price	Fair value	Number of ESOPs	Employee compensation cost
1-Aug-17	1-Aug-21	1-Aug-26	31-Mar-20	10	5.58	18,747,102	235.67
1-Aug-18	1-Aug-22	1-Aug-27	31-Mar-20	10	6.09	4,481,309	63.06
Total						**23,228,411**	**298.74**

The inputs used in the measurement of the fair values at grant date of ESOPs were as follows:

Particulars	ESOPs 2020	2019
Exercise price	**Rs 10**	Rs 10
Expected volatility	**0.50**	0.50
Expected life	**6.50 years**	6.50 years
Expected dividends yield	**NIL**	NIL
Risk-free interest rate (based on GOI securities)	**6.50%**	7.95%

The fair value of the ESOPs has been measured using the Black-Scholes-Merton formula.

Since, the Company is not listed, it does not have a history of volatility of its shares. However, based on various considerations expected volatility is assumed as 0.5.

Note No. 25 - Finance costs

Note No. 28 - Financial instruments

A) Capital management

The Company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company monitors capital on the basis of the carrying amount of equity as presented in the statement of financial position.

B) Financial risk management framework

The Company's activities expose it to a variety of financial risks, credit risk and liquidity risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

1) Credit risk

Credit risk arises when franchises, distributors, retail customers or insurance companies default on their contractual obligations to pay resulting in financial loss to the Company.

The Company has adopted a policy of dealing with creditworthy franchises and distributors and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on specific provision where applicable as follows:

(i) Franchise outstanding

The Company has a practice of collecting the security deposits from all franchises as a collateral which generally covers 4 to 5 months outstanding franchise income. The outstanding due from a franchise in excess of the corresponding security deposit is considered doubtful and a provision is made for such debts.

(ii) MFC spares distributor's outstanding

The Company has a practice of collecting security deposits from all distributors as collateral. The provision for doubtful debts has been made based on assessment of each individual distributor.

(iii) Company owned Company operated (COCO) service centre debtors

The Company is presently having one operational COCO. The company has shifted its focus from COCO business model to franchise business model. The provision for doubtful debts has been made based on assessment of each individual debtor.

The loss allowance provision on trade receivables is determined as follows:

				As at 31st March, 2020
Particulars	**Not due**	**Less than 6 months**	**More than 6 months**	**Total**
Expected loss rate	**0.0%**	**19.1%**	**86.6%**	**46.2%**
Gross carrying amount	**–**	**1,358.23**	**911.48**	**2,269.71**
Loss allowance provision	**–**	**259.43**	**788.89**	**1,048.32**

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

Particulars	Not due	Less than 6 months	More than 6 months	Total
		As at 31st March, 2019		
Expected loss rate	0.0%	16.4%	95.5%	40.1%
Gross carrying amount	–	1,268.09	543.86	1,811.95
Loss allowance provision	–	207.34	519.20	726.54

Reconciliation of loss allowance provision for trade receivables

Particulars	As at 31st March, 2020	As at 31st March, 2019
Balance as at beginning of the year	**726.54**	344.50
Impairment losses recognised in the year based on lifetime expected credit losses		
– On receivables originated in the year	**413.70**	270.12
– Other receivables	**23.00**	202.75
Amounts written off during the year as uncollectible	**(42.65)**	(49.55)
Amounts recovered during the year	**(72.27)**	(41.28)
Balance as at end of the year	**1,048.33**	726.54

The loss allowance provision has changed during the period mainly due to higher provision in franchise outstandings.

During the period, the Company has written off an amount of Rs 66.73 lakhs (Previous Year Rs 56.37 lakhs) towards trade receivable (refer note no. 26). These trade receivables are not subject to enforcement activity.

2) Liquidity risk

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by continuously monitoring forecast and actual cash flows. Further, the funding requirement as per the business plan has been approved by the Board of Directors.

(ii) Maturities of financial liabilities

The following table shows the Company's remaining contractual maturity for its non derivative financial liabilities with agreed repayment periods. The amounts disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

Particulars	Less than 1 Year	1 Year to 3 Years	3 Years to 5 Years	5 years and above
Non derivative financial liabilities				
31st March, 2020				
Non interest bearing				
– Security deposits	–	**1,313.66**	–	–

Note No. 29 - Employee benefits

(i) Defined contribution plan:

Company's contribution to provident and other funds Rs 148.90 lakhs (Previous year Rs 151.40 lakhs) has been recognised in the Statement of Profit and Loss under employee benefits expense.

(ii) Defined benefit plan:

Gratuity:

The Company has an obligation towards gratuity, a defined benefit retirement plan covering eligible employees. The plan provides a lump sum payment to vested employees at retirement, death while in employment or on termination of employment of an amount equivalent to 15 days salary payable for each completed year of service or part thereof in excess of six months. Vesting occurs upon completion of five years of service. The Company has obtained insurance policies with the Life Insurance Corporation of India (LIC) and makes an annual contribution to LIC. The Company accounts for gratuity benefits payable in future based on an independent actuarial valuation. Actuarial gains and losses are recognised in other comprehensive income.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields, if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plans hold a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

As the plans mature, the Company intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

However, the Company believes that due to the long-term nature of the plan liabilities and the strength of the supporting group, a level of continuing equity type investments is an appropriate element of the Company's long term strategy to manage the plans efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings and interest rate hedging instruments.

Inflation risk

Some of the Company's pension obligations are linked to inflation, and higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation). The plans hold a significant proportion of assets in index linked gilts, together with other inflation hedging instruments and also assets which are more loosely correlated with inflation. However an increase in inflation will also increase the deficit to some degree.

Compensated absences

The Company provides for encashment of leave or leave with pay subject to certain rules. The employees are entitled to accumulate leave subject to certain limits, for future encashment / availment. The liability is provided based on the number of days of unutilised leave at each balance sheet date on the basis of an independent actuarial valuation.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	As at 31st March, 2020	As at 31st March, 2019
Discount rate(s)	**5.50%**	6.75%
Expected rate(s) of salary increase	**8.00%**	8.00%

Defined benefit plans as per actuarial valuation

Particulars	Gratuity Funded Plan	
	Year ended 31st March, 2020	Year ended 31st March, 2019
Amounts recognised in other comprehensive income in respect of these defined benefit plans are as follows:		
Service cost		
Current service cost	**40.76**	35.70
Net interest expense	**5.47**	3.28
Components of defined benefit costs recognised in profit or loss	**46.23**	38.98
Remeasurement on the net defined benefit liability		
Return on plan assets (excluding amount included in net interest expense)	**(0.71)**	(2.22)
Actuarial (gains) / losses arising from changes in financial assumptions	**14.94**	4.85
Actuarial (gains) arising from demographic assumptions	**8.83**	–
Actuarial (gains) / losses arising from experience adjustments	**10.03**	(0.62)
Components of defined benefit costs recognised in other comprehensive income	**33.09**	2.01
Total	**79.32**	40.99

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

Particulars	Gratuity Funded Plan Year ended 31st March, 2020	Gratuity Funded Plan Year ended 31st March, 2019
I. Net asset / (liability) recognised in the Balance Sheet as at 31st March		
1. Present value of defined benefit obligation as at 31st March	**(255.52)**	(163.57)
2. Fair value of plan assets as at 31st March	**75.76**	77.52
3. Deficit	**(179.76)**	(86.05)
4. Non current portion of the above	**(179.76)**	(86.05)
II. Change in the obligation during the year ended 31st March		
1. Present value of defined benefit obligation at the beginning of the year	**163.57**	133.29
2. Expenses recognised in Profit and Loss account		
– Current service cost	**40.76**	35.70
– Interest expense	**10.01**	8.99
3. Recognised in other comprehensive income		
Remeasurement gains / (losses)		
– Actuarial gain / (loss) arising from:		
i. Demographic assumptions	**8.83**	–
ii. Financial assumptions	**14.94**	4.85
iii. Experience adjustments	**10.03**	(0.62)
4. Benefit payments	**(17.00)**	(24.42)
5. Liabilities assumed/(settled)	**24.38**	5.78
6. Present value of defined benefit obligation at the end of the year	**255.52**	163.57
III. Change in fair value of assets during the year ended 31st March		
1. Fair value of plan assets at the beginning of the year	**77.52**	84.01
2. Expenses recognised in Profit and Loss account		
– Expected return on plan assets	**4.54**	5.71
3. Recognised in other comprehensive income		
Remeasurement gains / (losses)		
– Actual return on plan assets in excess of the expected return	**0.70**	2.22
4. Contributions by employer (including benefit payments recoverable)	**10.00**	10.00
5. Benefit payments	**(17.00)**	(24.42)
6. Fair value of plan assets at the end of the year	**75.76**	77.52
IV. The Major categories of plan assets comprise:	**Insured Managed Funds**	Insured Managed Funds

V. Actuarial assumptions

Particulars	Year ended 31st March, 2020	Year ended 31st March, 2019
1. Discount rate	**5.50%**	6.75%
2. Expected rate of return on plan assets	**5.50%**	6.75%
3. Attrition rate	**21.00%**	21.00%
4. Mortality	**Rates published under Indian assured lives mortality (2012-14)**	Rates published under Indian assured lives mortality (2012-14)

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption	Year	Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Impact on defined benefit obligation: Decrease in assumption
Discount rate	**2020**	**1.0%**	**-4.73%**	**5.18%**
	2019	1.0%	-4.50%	4.92%
Salary growth rate	**2020**	**1.0%**	**4.80%**	**-4.50%**
	2019	1.0%	4.67%	-4.48%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

Maturity profile of defined benefit obligation:

Particulars	2020	2019
Expected benefits for year 1	**42.84**	30.53
Expected benefits for year 2	**41.61**	31.87
Expected benefits for year 3	**37.62**	28.18
Expected benefits for year 4	**41.26**	23.55
Expected benefits for year 5	**29.75**	19.36
Expected benefits for year 6	**23.75**	14.47
Expected benefits for year 7	**20.42**	11.67
Expected benefits for year 8	**17.48**	9.21
Expected benefits for year 9	**15.80**	6.85
Expected benefits for year 10 and above	**77.19**	62.09

Plan assets

The fair value of Company’s pension plan asset by category are as follows:

Particulars	As at 31st March, 2020	As at 31st March, 2019
Asset category:		
Deposits with Insurance companies	**100%**	100%

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

Experience Adjustments:	Period ended				
	2020	2019	2018	2017	2016
			Gratuity		
1. Defined benefit obligation	**(255.52)**	(163.57)	(133.29)	109.19	80.81
2. Fair value of plan assets	**75.76**	77.52	84.01	72.69	72.39
3. Surplus/(deficit)	**(179.76)**	(86.05)	(49.28)	(36.50)	(8.42)
4. Experience adjustment on plan liabilities [(gain)/loss]	**10.03**	(0.62)	(0.95)	1.76	0.64
5. Experience adjustment on plan assets [gain/(loss)]	**(0.71)**	(2.22)	(4.06)	2.98	(1.02)

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Note No. 31 - Current tax and Deferred tax

(i) Deferred tax assets have not been recognised in respect of following items, because it is not probable that future taxable profit will be available against which the Company can use the benefit therefrom.

Particulars	As at 31st March, 2020	As at 31st March, 2019
Deductible temporary differences (will never expire)	3,347.37	3,173.22
Unused tax losses (revenue in nature)	27,858.82	26,773.95
Total	31,206.19	29,947.17

The unrecognised tax losses carried forward expire as follows:

Expiry Year	As at 31st March, 2020	As at 31st March, 2019
Financial year 2019-20	–	1,341.61
Financial year 2020-21	2,089.39	2,089.39
Financial year 2021-22	3,709.80	3,709.80
Financial year 2022-23	4,537.09	4,537.09
Financial year 2023-24	5,109.52	5,109.52
Financial year 2024-25	4,049.60	4,049.60
Financial year 2025-26	3,122.78	3,122.78
Financial year 2026-27	2,814.16	2,814.16
Financial year 2027-28	2,426.48	–
Total	27,858.82	26,773.95

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

All amounts are in Rs lakhs unless otherwise stated

(ii) The income tax expense for the year can be reconciled to the accounting profit as follows:

Particulars		Year ended 31st March, 2020	Year ended 31st March, 2019
Loss before tax from continuing operations		**(3,110.25)**	(3,554.35)
Income tax expense calculated at rate		**25.17%**	31.20%
	(A)	**(782.79)**	(1,108.96)
Effect of expenses that is non-deductible in determining taxable profit		**144.35**	165.61
Effect of unused tax losses for which no deferred tax asset is recognised		**(638.44)**	(943.35)
	(B)	**(782.79)**	(1,108.96)
Income tax expense recognised in profit or loss (A-B)		**–**	–

Note No. 32 - Contingent liabilities and commitments

(i) Contingent liabilities

Particulars	As at 31st March, 2020	As at 31st March, 2019
Central & Value added tax matter under dispute	**329.29**	185.67

The company is contesting the demands and the management believes that its position will likely be upheld in the various appellate authorities/courts and the ultimate outcome will not have material adverse effect on the Company's financial position and results of operations.

(ii) Commitments

The estimated amount of contracts remaining to be executed on capital account and not provided for as at 31st March, 2020 is Rs 5.57 lakhs (Previous year Rs 14.25 lakhs).

Note No. 33 - Going concern

The accumulated losses of the Company stands at Rs 38,335.50 lakhs, which has exceeded its paid up equity share capital of Rs 33,000.00 lakhs. Consequently, the net worth of the company has been eroded. The Company has incurred cash losses in the current as well as in previous years.

The Company is expanding its network through the franchise route with various formats like 4 Wheelers, Xpress, 2Wheelers,etc. Currently, the Company has 504 franchises as on 31st March 20 and expects to increase the network further with various initiatives. The Company is focusing on profitability through cost controls & restructuring of the supply chain. The Bazaar Channel has reported growth in MFCS branded spares business. The Company expects to grow fast in the coming years. The board of the company has approved the strategic plan along with the required funding. Accordingly, the financial statements of the Company have been prepared on a going concern basis.

Note No. 34 - Additional disclosures

(i) Disclosures required under Section 22 of the Micro, Small and Medium Enterprises Development Act, 2006

	Particulars	Year ended 31st March, 2020	Year ended 31st March, 2019
i.	Principal amount remaining unpaid to any supplier as at the end of the accounting year	**159.90**	163.14
ii.	Interest due thereon remaining unpaid to any supplier as at the end of the accounting year	**–**	–
iii.	The amount of interest paid along with the amounts of the payment made to the supplier beyond the appointed day	**0.01**	0.77
iv.	The amount of interest due and payable for the year	**–**	–
v.	The amount of interest accrued and remaining unpaid at the end of the accounting year	**–**	–
vi.	The amount of further interest due and payable even in the succeeding year, until such date when the interest dues as above are actually paid	**–**	–

Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of information collected by the management. This has been relied upon by the auditors.

(ii) Operating segments

As the Company's business activity falls within a single business segment viz. 'providing / facilitating multi-brand vehicle services', and the services being provided in the domestic market, the disclosure requirements of IND AS - 108 "Operating Segment", are not applicable.

(iii) Expenditure in foreign currency

Expenditure in foreign currency NIL (Previous year NIL)

(iv) Covid 19

The Company has accounted significant accounting estimates which have been disclosed in the financial statements.

These includes valuation of inventory, fair valuation of financial and non-financial assets and liabilities, testing of impairment of assets, going concern assessment etc. requiring significant management judgement in estimating the same. Considering the continuing COVID-19 pandemic, the results in upcoming period may significantly vary and may affect the recoverability of assets and settlement of liabilities.

The Company, based on internal & external sources of information including market research, economic forecast and other information, has assessed that as a result of Covid-19 outbreak, there is no significant financial impact on the financial statements for the year ended March 31, 2020 as at the date of approval of these financial statements.

Note No. 35 - Fair value measurement

INDEPENDENT AUDITOR'S REPORT

To the Members of,
Mahindra Namaste Limited

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the financial statements of **Mahindra Namaste Limited** ("the Company"), which comprise the Balance sheet as at 31st March 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of changes in Equity and Statement of Cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at **March 31, 2020**, and profit/loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than Ind AS Financial Statement and Auditor's Report thereon

The company's Board of Directors is responsible for the other information. The other information comprises the information included in Company's Board report, but does not include the financial statements and our auditor's report thereon.

Our opinion on Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
   (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
   (e) On the basis of the written representations received from the directors as on **31st March, 2020** taken on record by the Board of Directors, none of the directors is disqualified as on **31st March, 2020** from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
   (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

   In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

   (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
      i. The Company does not have any pending litigations which would impact its financial position.
      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

b) The fixed assets were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals, according to the information and explanation given to us, no material discrepancies were noticed on such verification.

c) According to the information and explanations given by the management and the records examined by us company do not hold any immovable property.

(ii) The Company is engaged in the business of Training and Skilling Services and accordingly does not hold any inventories. Hence, Clause 3(ii) of the Companies (Auditor's Report) Order, 2016 is not applicable to the Company.

(iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013.

(iv) The Company has not granted any loans, made investments or provide guarantees and hence reporting under clause (iv) of the CARO 2016 is not applicable.

(v) According to the information and explanations given to us, the Company has not accepted any deposits during the year. There were no unclaimed deposits outstanding at any time during the year.

(vi) The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any of the services rendered by the Company.

(vii) According to the information and explanations given to us, in respect of statutory dues:

(a) The Company has been generally regular in depositing undisputed statutory dues, including Income-tax, Goods and Services Tax, Profession Tax and other material statutory dues applicable to it to the appropriate authorities.

(b) There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Goods and Services Tax, Customs Duty and other material statutory dues in arrears as at March 31, 2020 for a period of more than six months from the date they became payable.

(viii) On the basis of examination of relevant records and according to the information and explanations given to us, the Company has not borrowed any money from financial institution, banks, government or debenture holders.

(ix) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) or term loans and hence reporting under clause (ix) of the CARO 2016 is not applicable.

(x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) On the basis of examination of relevant records and according to the information and explanations given to us, the Company has paid managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Companies Act, 2013.

(xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the CARO 2016 Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the Ind AS financial statements as required by the applicable accounting standards.

(xiv) During the year, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause (xiv) of CARO 2016 is not applicable to the Company.

(xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with him and hence provisions of section 192 of the Companies Act, 2013 are not applicable.

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of clause (xvi) of the order are not applicable to the Company.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra Namaste Limited** ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's Internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2020

1. Corporate Information

Mahindra Namaste Limited ("MNL" or "the Company") (Formerly known as Mahindra Namaste Private Limited) was incorporated on January 2, 2010. The Company is carrying out the business of skill development, capacity building, education and training, and monitoring service in various capacities across the sectors either in India or outside India.

The address of its registered office is Mahindra Towers, P.K.Kurne Chowk, Worli, Mumbai – 400018. **Whereas books of accounts and documents are maintained at Mahindra Towers No. 17/18, Pattullous Road, Chennai – 600 002, Tamilnadu, Chennai 600 002.** These financial statements are authorized for issue by the Board of Directors on May 5, 2020. The CIN of the Company is U93000MH2010PLC198303.

2. Significant Accounting Policies

2.1 Compliance with Ind AS

The financial statements have been prepared in accordance with the Indian Accounting Standards (Ind AS), notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2018, notifying Ind AS 115 - 'Revenue from Contracts with Customers' and consequential amendments to various Ind AS standards; this standard establishes a single comprehensive model for accounting of revenue arising from contracts with customers. Ind AS 115 supersedes the revenue recognition guidance under Ind AS 11 Construction Contracts and Ind AS 18 Revenue, and the Company has adopted IND AS 115 form April 1, 2018. The application of IND AS 115 did not have material impact on the financial statements and hence the comparative information has not been restated.

2.2 Basis of preparation

The financial statements have been prepared on historical cost basis, expect for certain financial assets that are measured at fair value.

All Assets and Liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in Schedule III to the Companies Act, 2013. Based on the nature of products/services and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current-non-current classification of assets and liabilities.

2.3 Use of estimates

The preparation of the financial statements in conformity with Indian Generally Accepted Accounting Principles requires the management to make judgments, estimates and assumptions that affect the reported amounts of revenue, expense assets and liabilities and disclosure of contingent liabilities, at the end of the reporting period. Although these estimates are based on the management's best knowledge of the current events and actions, uncertainty about these assumptions and estimates could result in the outcomes requiring a material adjustment to the carrying amounts of assets and liabilities in the future periods.

2.4 Critical estimates and judgments

The preparations of the financial statements are based on use of a high degree of judgments or complexity, and of the items which are more likely to be materiality adjusted due to estimates and assumptions.

The areas involving critical estimates or judgments are:

- **Estimated useful life of intangible assets**

  Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financials impact on the company and that are believed to be reasonable under the circumstances.

2.5 Revenue recognition

Revenue is recognized at the fair value of consideration received or receivable. Revenue in respect of services is recognized on a time proportion basis. Estimates of revenues, costs or extent of progress towards completion are revised if circumstances change.

2.6 Other income

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

2.7 Foreign currencies

In preparing the financial statements of the Company, transactions in currencies other than the entity's functional currency are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date.

2.8 Employee Benefits

The Company has no employees on its payroll for the year ended **March 31, 2020**. Accordingly, there are no provident fund and other employee benefit schemes.

2.9 Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company and its subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax assets and liabilities are recognized, subject to consideration of prudence, on timing differences, being the difference between taxable incomes and accounting income, that originate in one period and are capable of reversal in one or more subsequent periods and are measured using tax rates enacted or substantively enacted as at the balance sheet date.

2.10 Impairment of Assets

The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists. The following intangible assets are tested for impairment each financial year even if there is no indication that the asset is impaired:

(a) an intangible asset that is not yet available for use; and (b) an intangible asset that is amortized over a period exceeding ten years from the date when the asset is available for use.

If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the Statement of Profit and Loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived at by discounting the future cash flows to their present value based on an appropriate discount factor.

When there is indication that an impairment loss recognized for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets such reversal is not recognized.

2.11 Provisions

A provision is recognized when the Company has a present obligation as a result of past events and it is probable that an outflow of resources will be required to settle the obligation in respect of

NOTES TO THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED MARCH 31, 2020

which a reliable estimate can be made. Provisions (excluding retirement benefits) are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates. Contingent liabilities are disclosed in the Notes. Contingent assets are not recognized in the financial statements.

2.12 Financial instruments

Financial assets and financial liabilities are recognized when a Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

2.13 Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the -marketplace.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

2.14 Trade and other payables:

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

2.15 Earnings Per Share (EPS)

The Company presents the basic and diluted EPS data for its equity shares. Basic EPS is computed by dividing the net profit for the year attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the year.

INDEPENDENT AUDITOR'S REPORT

To the Members of
Mahindra Integrated Business Solutions Private Limited

Report on the Ind AS Financial Statements

Opinion

1. We have audited the accompanying Ind AS financial statements of Mahindra Integrated Business Solutions Private Limited("the Company"), which comprise the Balance Sheet as at March 31, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement for the year then ended, and notes to the financial statements, and a summary of significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements, give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India of the state of affairs of the Company as at March 31, 2020, and its profit and cash flows for the year ended on that date.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The company's Board of Directors is responsible for the other information. The other information comprises the Board report. Our opinion on Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for Ind AS Financial Statements

5. The Company's Board of Directors is responsible for the matters in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act.

6. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Company and for preventing and detecting the frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of internal financial control, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

7. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

8. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

9. Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

    a. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis

for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

e. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

11. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on other Legal and Regulatory Requirements

13. As required by the Companies (Auditor's Report) Order,2016, issued by the Central Government of India in term of sub-section (11) of section 143 of the Act (the "Order"), and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in the Annexure A, a statement on the matters specified in the paragraphs 3 and 4 of the Order, to the extent applicable.

14. As required by section 143(3) of the Act, we report that:

a) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;

b) In our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books;

c) the Balance Sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account;

d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

e) On the basis of written representations received from the directors as on March 31, 2020, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020, from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in Annexure B.

g) In our opinion and to the best of our information and according to the explanations given to us, the Company has not paid any remuneration to its directors.

h) With respect to the other matters included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended) in our opinion and to the best of our information and according to the explanations given to us:

i. The Company does not have any pending litigations which would impact its financial position.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

Referred to in paragraph 9 of our report of even date on the accounts of Members of Mahindra Integrated Business Solutions Private Limited for the year ended March 31, 2020

1) i) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.

   ii) Fixed assets have been physically verified by the management during the year and no material discrepancies were noted on such verification.

   iii) The Company does not have immovable properties.

2) The Company does not hold any physical inventories. Accordingly, para 3(ii) of the Order is not applicable to the Company.

3) The Company has not granted any loans, secured or unsecured to companies, firms and other parties covered in the register maintained under section 189 of the Act. Hence, para 3(iii) of the Order is not applicable to the Company.

4) In our opinion and according to the information and explanations given to us, the Company has not granted loans, made investments and given guarantees as at March 31, 2020. We are informed that the Company has not given any security during the year.

5) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits under the provisions of section 73 to 76 of the Act and the Rules framed thereunder.

6) We have been informed that the Central Government has not prescribed maintenance of Cost records under section 148(1) of the Act.

7) i) According to the records of the Company, the Company has been generally regular in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Income Tax, Service Tax, Value Added Tax, GST and other statutory dues applicable to it. According to the information and explanations given to us, no undisputed amounts in respect of the above were outstanding as on March 31, 2020 for a period of more than 6 months from the date they become payable.

   ii) There are no dues of income tax, sales tax, service tax, duty of customs, GST and cess which have not been deposited on account of any dispute.

8) The Company has not taken loans from a financial institution, bank or Government during the year. The Company has not raised any money through debentures.

9) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) and term loans were applied for the purpose for which those are raised.

10) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing principles in India, and according to the information and explanations given to us, we have neither come across any instance of fraud on or by the Company, noticed or reported during the year, nor have we been informed of such case by the management.

11) According to the information and explanations given to us, the Company has not paid any remuneration to managerial personnel as defined in the Act and accordingly para 3(xi) of the Order is not applicable to the Company.

12) The Company, not being a Nidhi Company, the para 3(xii) of the Order is not applicable to the Company.

13) According to the information and explanations given to us, all transactions with related parties are in compliance with sections 177 and 188 of the Companies Act, 2013 and the details of the same have been disclosed in the financial statements as required by the applicable accounting standards.

14) The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Hence, the provisions of para 3(xiv) of the Order are not applicable to the Company.

15) According to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or persons connected with him. Hence, the provisions of para 3(xv) are not applicable to the Company.

16) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, the provisions of para 3(xvi) of the Order are not applicable to the Company.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF MAHINDRA INTEGRATED BUSINESS SOLUTIONS PRIVATE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Integrated Business Solutions Private Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

1 Company overview

Mahindra Integrated Business Solutions Private Limited is a Private Limited Company incorporated and domiciled in India on 18th January 2011 and it started its operations from 1st May 2011. The Company's registered office is at Mumbai, Maharashra, India. These financial statements correspond to the stand alone financial statments of the Company. The Company is rendering back office accounting & payroll services. Currently though a captive service provider, it intends to extend the services to corporate sector at large. During the year the Company has started rendering new activities in Customer Retention, renewal and verification, KYC fulfillment, setting up and re-organising and customer inward call center.

The immediate parent Company is Mahindra Holdings Limited. and ultimate parent Company is Mahindra & Mahindra Limited, a company incorporated in India.

2 Statement of compliance and basis for preparation

a. These financial statements have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

b. Functional and presentation currency

These financial statements are presented in Indian Rupees ('INR' or 'Rupees') which is also the Company's functional currency. All amounts are rounded-off to the nearest crore/lakhs, unless otherwise indicated.

c. Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values.

d. Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income, expenses and the disclosures of contingent assets and liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Following are areas that involved a higher degree of estimate and judgement or complexity in determining the carrying amount of some assets and liabilities.

- useful life of property, plant and equipment and intangible assets
- estimation of define benefit obligation
- provision for warranty claims
- income taxes - current and deferred taxes
- fair value of unlisted securities
- impairment of trade receivables

Detailed information about each of these estimates and judgements that have a significant risk of resulting in material adjustment within the next financial year is included in relevant notes for the above items.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

e. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The Chief Financial Officer and persons entrusted have overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values and assessments that these valuations meet the requirements of Ind AS. The methods used to determine fair value include discounted cashflow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilties.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset ot liability that are not based on observable market data (unobservable inputs).

f. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

3 Significant accounting policies

a. Operating Cycle:

Assets and Liabilities are classified as Current or Non – Current as per the provisions of the Schedule III notified under the Companies Act, 2013 and Company's normal operating cycle. Based on the nature of business and its activities, the Company has ascertained its operating cycle as twelve months for the purpose of Current & Non – Current classification of Assets & Liabilities.

b. Property, plant and equipment:

i. Property, plant and equipment are carried at their original cost less accumulated depreciation and accumulated impairment losses.

ii. Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

iii. An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

c. Intangible Assets:

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses. The useful life considered for assets in this class is 5 years.

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

d. Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

d. Investments:

Investment held as long-term investments are stated at cost comprising of acquisition and incidental expenses less permanent diminution in value, if any. Current investments are valued at the lower of cost and fair value.

e. Revenue Recognition:

i. Sale of services is recognized when the services are rendered.

ii. Revenues on time & material contracts are recognized as the related services are performed and revenues from the end of the last billing to the Balance sheet date is recognized as Unbilled revenues. The unbilled revenues primarily consists of cost which needs to be billed to client on cost plus margin basis where there is no uncertainty as to measurement or collectability of consideration.

iii. Fee based income is accounted for on achieving specified milestones as per mutual agreement.

iv. Further, revenue is recognised when there is no uncertainty as to the measurement or collectability of consideration.

v. Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding.

f. Employee Benefits:

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item ‘Employee benefits expense’. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company’s defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

g. Taxes on Income:

Tax expense comprises of both current and deferred tax only.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from ‘profit before tax’ as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company’s current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period. Provision for Current tax is measured at the amount computed under the Income Tax Act, 1961, or Book Profit computed under section 115JB, whichever is higher, and correspondingly set-off available under section 115JAA is credited to the Statement of Profit & Loss of the financial year.

MAT credit is recognised as an asset only when, and to the extent, there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which the MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note issued by the Institute of Chartered Accountants of India, the said asset is created by way of credit to the Statement of Profit and Loss and shown as MAT Credit Entitlement. The Company reviews the same at each Balance Sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent that there is no longer convincing evidence to the effect that Company will pay normal income tax during the specified period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

h. Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

i. For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.

ii. Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

i. Financial instruments

Financial assets and financial liabilities are recognised when a Company entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables, other contractual rights to receive cash and other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls).

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

j. Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks & rewards of ownership to the leases. All other leases are classified as operating leases.

The Company as lessee:

The assets held under finance leases are initially recongnised as assets of the company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance expense and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policies on borrowing cost. Contingent rentals are recognized as expense in the period in which they are incurred.

Rental expense from the operating lease is generally recognized on a straight line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessors expected inflationary cost increases, such increases are recognized in the year in which such benefits accrue.

k. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

Note No. 25 – Financial Instruments

Capital management

The company's capital management objectives are:

– to ensure the company's ability to continue as a going concern

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The capital structure is monitored on the basis of net debt to equity of the Company.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collatarel, where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company only transacts with entities that are rated the equivalent of investment grade and above. This information is supplied by independent rating agencies where available and, if not available, the Company uses other publicly available financial information and its own trading records to rate its major customers. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable.

There is no change in estimation techniques or significant assumptions during the reporting period.

The loss allowance provision is determined as follows:

As at 31 March 2020 — **Rs. In lakhs**

	Less than 6 months past due	More than 6 months past due	Total
Expected loss rate	0.0%	100.0%	3.2%
Gross carrying amount	665.54	21.90	687.44
Loss allowance provision	–	21.90	21.90

As at 31 March 2019 — Rs. In lakhs

	Less than 6 months past due	More than 6 months past due	Total

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company may be required to pay.

Rs. In lakhs

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above

(iii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk mainly comprises currency risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company uses derivatives to manage market risks. Derivatives are only used for economic hedging purposes and not as speculative investments. All such transactions are carried out within the guidelines set by the Board of Directors.

There has been no significant changes to the company's exposure to market risk or the methods in which they are managed or measured.

Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's/ Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

The Company manages its foreign currency risk by hedging transactions that are expected to occur within a maximum 12 month period for hedges of forecasted sales and purchases.

When a derivative is entered into for the purpose of being a hedge, the Company negotiates the terms of those derivatives to match the terms of the hedged exposure. For hedges of forecast transactions the derivatives cover the period of exposure from the point the cash flows of the transactions are forecasted up to the point of settlement of the resulting receivable or payable that is denominated in the foreign currency.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

Particulars	Currency	31-Mar-20	31-Mar-19
Trade Receivables	USD	**3,761.29**	12,327.00
	AUD	**2,746.64**	2,214.00
	EUR	**0.00**	22,294.00
Trade Payables	USD	**–**	–
	AUD	**–**	–

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

Of the above foreing currency exposures, the following exposures are not hedged by a derivative:

Particulars	Currency	31-Mar-20	31-Mar-19
Trade Receivables	USD	**3,761.29**	12,327.00
	AUD	**2,746.64**	2,214.00
	EUR	**–**	**22,294.00**
Trade Payables	USD	**–**	–
	AUD	**–**	–

Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD and AUD exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities. The Company's exposure to foreign currency changes for all other currencies is not material.

	Currency	Change in rate	Effect on profit before tax	Effect on pre-tax equity
31-Mar-20	USD	+10%	0.28	0.28
	USD	-10%	(0.28)	(0.28)
	AUD	+10%	0.13	0.13
	AUD	-10%	(0.13)	(0.13)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

Note No. 27 – Employee benefits

(a) Defined Contribution Plan

The Company's contribution to Provident Fund, Superannuation Fund and ESIC aggregating Rs. 71,649,675 (2019: Rs. 39,797,866) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plans hold a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

As the plans mature, the Company intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

However, the Company believes that due to the long-term nature of the plan liabilities and the strength of the supporting group, a level of continuing equity type investments is an appropriate element of the Company's long term strategy to manage the plans efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings and interest rate hedging instruments.

Inflation risk

Some of the Company's pension obligations are linked to inflation, and higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation). The plans hold a significant proportion of assets in index linked gilts, together with other inflation hedging instruments and also assets which are more loosely correlated with inflation. However an increase in inflation will also increase the deficit to some degree.

Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	Valuation as at	
	31st March 2020	31st March 2019
Discount rate(s)	**6.70%**	7.60%
Expected rate(s) of salary increase	**8.50%**	10.00%

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

Rs. In lakhs

Particulars	Funded Plan Gratuity 2020	2019
III. Change in fair value of assets during the year ended 31st March		
1. Fair value of plan assets at the beginning of the year	**185.76**	189.38
2. Add/(Less) on account of Scheme of Arrangement/ Business Transfer		
3. Expenses Recognised in Profit and Loss Account		
– Expected return on plan assets	**13.41**	16.06
4. Recognised in Other Comprehensive Income		
Remeasurement gains/ (losses)		
– Actual Return on plan assets in excess of the expected return	**(3.97)**	8.86
– Others (specify)		
5. Contributions by employer (including benefit payments recoverable)	**1.33**	–
6. Benefit payments	**(15.45)**	(28.55)
7. Fair value of plan assets at the end of the year	**181.08**	185.76
IV. The Major categories of plan assets		
– List the plan assets by category here		
Insurer Managed Fund	**181.08**	185.76
V. Actuarial assumptions		
1. Discount rate	**6.70%**	7.60%
2. Expected rate of return on plan assets	**6.70%**	7.60%

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption		Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Impact on defined benefit obligation: Decrease in assumption
Discount rate	2020	1.00%	-6.43%	7.39%
	2019	1.00%	-6.34%	7.27%
	2018	1.00%	-10.16%	12.37%
	2017	1.00%	-9.74%	11.87%
	2016	0.50%	-4.25%	4.65%
	2015	0.25%	-3.55%	5.33%
Salary growth rate	2020	1.00%	7.19%	-6.38%
	2019	1.00%	7.03%	-6.27%
	2018	1.00%	12.01%	-10.09%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

The Company expects to contribute Rs. 2,000,000 to the gratuity trusts during the next financial year.

Maturity profile of defined benefit obligation:

	2020	2019
Within 1 year	**4,753,478**	3,863,126
1 - 2 year	**2,821,317**	2,900,012
2 - 3 year	**3,212,499**	2,374,058
3 - 4 year	**2,214,548**	2,737,320
4 - 5 year	**1,533,779**	1,787,386
above 5 years	**29,179,377**	27,419,449

Plan Assets

The fair value of Company's pension plan asset as of 31 March 2019 and 2020 by category are as follows:

	2020	2019
Asset category:		
Deposits with Insurance companies	**18,107,524**	18,575,749
	100%	100%

The Company's policy is driven by considerations of maximizing returns while ensuring credit quality of the debt instruments. The asset allocation for plan assets is determined based on investment criteria prescribed under the Indian Income Tax Act, 1961, and is also subject to other exposure limitations. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

The weighted average duration of the defined benefit obligation as at 31 March 2020 is 6.88 years (2019: 6.78 years).

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The current service cost and the net interest expense for the year are included in the employee benefits expense in profit orloss of the expense for the year.

In February 2019, Supreme Court of India in its judgement clarified the applicability of allowances that should be considered to measure obligations under Employees Provident Fund Act, 1952. The Company has been legally advised that there are interpretative challenges on the application of judgement retrospectively and as such does not consider there is any probable obligations for past periods. Accordingly, based on legal advice the Company has made a provision for provident fund contribution from the date of Supreme Court order.

Note No. 29 – Additional Information to the Financial Statements

Dividend

In respect of the current year, the directors propose that a dividend of Rs 1.50 per share be paid on equity shares in August 2020. This equity dividend is subject to approval by shareholders at the Annual General Meeting and has not been included as a liability in these financial statements. The proposed equity dividend is payable to all shareholders on the Register of Members on 31st March 2019. The total estimated equity dividend to be paid is Rs 22,50,000. The payment of this dividend is estimated to result in payment of dividend tax of Rs 4,62,494 @ 15% on the amount of dividends grossed up for the related dividend distribution tax.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

Dues to Micro and Small Enterprises have been determined to the extent such parties have been identified on the basis of information collected by the Management. This has been relied upon by the auditors.

Recent accounting pronouncements

Standards issued but not yet effective

In March 2018, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2018, notifying Ind AS 115 - 'Revenue from Contracts with Customers' and consequential amendments to various Ind AS standards. The amended Rules also notified amendments to Ind AS 12 - 'Income Taxes', Ind AS 21 - 'The Effect of Changes in Foreign Exchange Rates', Ind AS 28 - 'Investments in Associates and Joint Ventures' and Ind AS 40 - 'Investment Property'. These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB). The amendments are effective from accounting periods beginning from 1st April, 2018.

Ind AS 115 – 'Revenue from Contracts with Customers':

This standard establishes a single comprehensive model for accounting of revenue arising from contracts with customers. Ind AS 115 will supersede the current revenue recognition guidance under Ind AS 11 Construction Contracts and Ind AS 18 Revenue. The Company is currently assessing the impact of application of Ind AS 115 on Company's financial statements.

Amendment to Ind AS 12 – 'Income Taxes':

The amendments clarify the requirement for recognising deferred tax assets on unrealised losses on debt instruments that are measured at fair value. The amendment also clarify certain other aspects of accounting for deferred tax assets. The changes will not have any material impact on the financial statements of the Company.

Amendment to Ind AS 21 – 'The Effect of Changes in Foreign Exchange Rates':

This amendment clarifies translation of advance payments denominated in foreign currency into functional currency at the spot rate on the day of payment. The guidance aims to reduce diversity in practice. The changes will not have any material impact on the financial statements of the Company.

Amendment to Ind AS 28 - 'Investments in Associates and Joint Ventures':

The amendment clarifies accounting options in consolidated financial statements of a venture capital or similar entity and investment entity. These amendments are not applicable to the Company's standalone financial statements.

Amendment to Ind AS 40 – 'Investment Property':

The amendments clarify transfers of investment property to or from the portfolio in the case of a change of use. The changes will not have any material impact on the financial statements of the Company.

Ind AS 116 Leases

The Ministry of Corporate Affairs notified Ind AS 116 "Leases" in respect of accounting periods commencing on or after April 1, 2019 superseding Ind AS 17 "Leases".

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lessee accounting model for lessees. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognize a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognize the interest expense on the lease liability and the depreciation expense on the right-of-use asset.

Lessees will be also required to remeasure the lease liability upon the occurrence of certain events (e.g., a change in the lease term, a change in future lease payments resulting from a change in an index or rate used to determine those payments). **The lessee will generally recognize the amount of the remeasurement of the lease liability as an adjustment to the right-of-use asset.**

Lessor accounting under Ind AS 116 is substantially unchanged from today's accounting under Ind AS 17. Lessors will continue to classify all leases using the same classification principle as in Ind AS 17 and distinguish between two types of leases: operating and finance leases.

The Company will adopt IND AS 116, effective annual reporting period beginning April 1, 2019. **The Company has chosen the modified retrospective application of IND AS 116. Consequently, the Company will not restate the comparative information, instead, the cumulative effect of initially applying this Standard will be recognized as an adjustment to the opening balance of retained earnings as on April 1, 2019.**

The Company will make use of the practical expedient available on transition to IND AS 116 not to reassess whether a contract is or contains a lease. **Accordingly, the Company will therefore not apply the standard to contracts that were not previously identified as containing a lease applying Ind AS 17 before April 1, 2019.**

The Company will elect to use the exemptions proposed by the standard on lease contracts for which the lease terms ends within 12 months as of the date of initial application, and lease contracts for which the underlying asset is of low value. The Company has leases of certain office equipment that are considered of low value.

Note No. 30 – Comparatives

The figures for previous year have been regrouped wherever necessary to conform to current year's classification.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF, MAHINDRA "ELECTORAL TRUST" COMPANY

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the financial statements of **Mahindra "ELECTORAL TRUST" Company** ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Income and Expenditure, (statement of changes in equity) and statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and deficit, (changes in equity) and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The company's Board of Directors is responsible for the other information. The other information comprises the Board report.

Our opinion on financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional **skepticism** throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that are sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. The Company is licensed to operate under Section 8 of the Act. Therefore on facts, Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, is not applicable to the Company.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Income and Expenditure, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
   (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
   (e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
   (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
      i. The company does not have any pending litigations which will impact its financial positions.
      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra "ELECTORAL TRUST" Company** ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTES TO THE FINANCIAL STATEMENTS FOR YEAR ENDED 31ST MARCH, 2020

(Currency: Indian Rupees)

NOTE 1: Significant Accounting Policies

Nature of Operations

Mahindra 'Electoral Trust' Company, a subsidiary of Mahindra & Mahindra Ltd, was incorporated in India as a section 25 Company (under Companies Act, 1956) on 30th December 2013. The main object of the company is to distribute, allocate or solely utilize the contributions, payments, funds or donations received or gathered by the company to/for the use of the political parties which are registered under section 29A of the Representation of People Act, 1951.

1. Significant Accounting Policies

a) Basis of Preparation of Financial Statements

The financial statements are prepared and presented under the historical cost convention, on the accrual basis of accounting and in accordance with the provisions of the **Companies Act, 2013** ('the Act'), and the accounting principles generally accepted in India and comply with the accounting standards prescribed in the Companies (Accounting Standards) Rules, 2006 issued by the Central Government, in consultation with the National Advisory Committee on Accounting Standards, to the extent applicable.

The financial statement are prepared and presented in the form set out in Schedule III of the Act, so far as they are applicable thereto.

These financial statements are presented in Indian rupees.

b) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles in India (Indian GAAP) requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and disclosure of contingent liabilities on the date of the financial statements. The estimates and assumptions used in the accompanying financial statements are based upon management's evaluation of the relevant facts and circumstances as of the date of financial statements which in management's opinion are prudent and reasonable. Actual results may differ from the estimates used in preparing the accompanying financial Statements. Any revision to accounting estimates is recognised prospectively in current and future periods.

c) Revenue Recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

- *Interest income*

  Interest income is recognized on time proportion basis.

d) Taxation

Current tax

Provision for current tax is made for the tax liability payable on taxable income after considering tax allowances, deductions and exemptions determined in accordance with the prevailing tax laws.

e) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share are calculated after adjusting effects of potential equity shares (PES).PES are those shares which will convert into equity shares at a later stage. Profit / loss is adjusted by the expenses incurred on such PES. Adjusted profit/loss is divided by the weighted average number of ordinary plus potential equity shares.

f) Provisions and Contingencies

A provision is recognised when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present values and are determined based on management estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events not wholly within the control of the Company.

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

g) The company has not received any intimation, from "suppliers" regarding their status under the Micro, Small and Medium Enterprises Development Act, 2006 and hence disclosures, if any, relating to amounts unpaid as at the year-end together with interest paid/ payable as required under the said Act have not been given.

h) Previous year figures have been regrouped/reclassified wherever applicable.

INDEPENDENT AUDITOR'S REPORT

To the Members of, **Mahindra eMarket Limited**

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of **Mahindra eMarket Limited** ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and profit, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013("the Act"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these Ind AS financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that are sufficient and appropriate to provide a basis for our opinion. The

risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

   (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

   (e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

   (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

   In our opinion and to the best of our information and according to the explanations given to us, the Company has not paid any remuneration to its directors during the year.

   (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

      i. The company does not have any pending litigations which will impact its financial positions.

      ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra eMarket Limited** ("the Company") as of March 31, 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ("the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE “B” TO THE AUDITOR’S REPORT

Referred to in paragraph under “Report on Other Legal and Regulatory Requirements” section of our report of even date)

Annexure to the Auditor’s Report referred to in our report of even date:

i. a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.

b) The fixed assets were physically verified during the year by the management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals, According to the information and explanation given to us, no material discrepancies were noticed on such verification.

c) The Company does not have any immovable property as on March 31, 2020. Hence clause 3(i) (c) is not applicable.

ii. The inventory has been physically verified by the management during the year. in our opinion, the frequency of verification is reasonable. No material discrepancies were noted on such physical verification.

iii. The company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other related parties covered in the register maintained under section 189 of the Act.

iv. According to the information and explanations given to us, the Company has not granted any loans, made investments or provided guarantees and hence reporting under clause (iv) of the CARO 2016 is not applicable.

v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits under the provisions of section 73 to 76 of the Act and the Rules framed thereunder.

vi. The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any of the services rendered by the Company.

vii. i) According to the records of the Company, the Company has been generally regular in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Income Tax, Sales Tax, GST and other statutory dues applicable to it. According to information and explanation given to us, no undisputed amounts in respect of the above were outstanding, as on March 31, 2020 for a period of more than 6 months from the date they become payable.

ii) There are no dues of income tax, sales tax, service tax, duty of customs, and duty of excise or value added tax, GST and cess which have not been deposited on the account of any dispute.

viii. The Company does not have any loans/dues towards any financial institution, bank or Government. The Company has not raised any money through debentures during the year.

ix. The Company has not raised money by way of initial public offer or further public offer (including debt instruments) or term loans and hence reporting under this clause is not applicable.

x. To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

xi. According to the information and explanations given to us, the Company has not paid any remuneration to managerial personnel as defined in the Act and accordingly the provisions of para 3(xi) of the Order are not applicable to the Company.

xii. The Company, not being a Nidhi Company, the para 3(xii) of the Order is not applicable to the Company.

xiii. According to the information and explanations given to us, all transactions with related parties are in compliance with sections 177 and 188 of the Companies Act, 2013 and the details of the same have been disclosed in the financial statements as required by the applicable accounting standards.

xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under audit. Hence, the provisions of para 3(xiv) of the Order are not applicable to the Company.

xv. According to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or persons connected with him. Hence, the provisions of para 3(xv) are not applicable to the Company.

xvi. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, the provisions of para 3(xvi) of the Order are not applicable to the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

1 Corporate information:

Mahindra E-Market Limited is a public limited company incorporated in Mumbai, India under the Companies Act 2013. The Company is engaged, inter-alia, in the business of facilitating sales of vehicles, Merchandise, Car Spares, accessories and related products & services through an online portal. The company operates under the brand name M2all.com

2 Significant Accounting Policies followed by the Company:

2.1 Statement of compliance and basis of preparation and presentation of financial statements:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by Companies (Indian Accounting Standards) Rules 2016.

All assets and liabilities are classified as current if it is expected to realise or settle within 12 months after the Balance Sheet date.

The financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency.

2.2 Financial Assets and Financial Liabilities:

Financial Instruments:

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial Assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial Liabilities and Equity Instruments:

Equity instruments issued by the Company are classified as equity in accordance with the substance of the contractual agreements and the definitions of an equity instrument.

Equity Instrument:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Financial Liabilities:

All the financial liabilities are subsequently measured at either amortised cost using the effective interest method or at fair value through profit and loss, depending on the classification of the financial liabilities.

2.3 Property, plant and equipment:

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and accumulated impairment, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use.

Depreciation is provided on straight-line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the Statement of Profit and Loss.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013, other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:

Certain items of Plant and machinery individually costing more than Rs. 5,000 – over useful lives (3 years, 5 years, 6 years, 10 years).

2.4 Inventories:

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Stores, spares and tools other than obsolete and slow-moving items are carried at cost. Obsolete and slow-moving items are valued at cost or estimated net realizable value, whichever is lower.

2.5 Employee benefits:

(i) Defined Contribution Plan:

The Company’s contributions paid/payable during the year to Provident Fund and Superannuation Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees.

(ii) Defined Benefit Plan/Leave encashment:

The Company’s liability towards gratuity and leave encashment is determined using the projected unit credit method which considers each period of service as giving rights to an additional unit of benefit entitlement and measure each unit separately to build up the final obligation. Past services are recognised on straight line basis over the average period until the benefits become vested. Actuarial gains and losses are recognised immediately in the Statement of other comprehensive income as income or expense. Obligation is measured at the present value of estimated future cash flow using discounted rate i.e. determined by reference to the market yield at the Balance Sheet date on Government Bonds where the currency and terms of the Government Bonds are consistent with the currency and estimated terms of the defined benefit obligation.

(iii) Other Benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the period when the employee renders the service.

2.6 Leases:

Ind AS 116 is replaced the existing leases standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on balance sheet lessee accounting model for lessees. A lessee recognises right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard also contains enhanced disclosure requirements for lessees.

Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17. The amendment is effective for annual periods beginning on or after 01st April 19.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

2.7 Revenue Recognition:

In view of INDAS 115, Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, Company apply the following five step approach:

(1) identify the contract with a customer

(2) identify the performance obligations in the contract

(3) determine the transaction price

(4) allocate the transaction price to the performance obligations in the contract

(5) recognize revenues when a performance obligation is satisfied.

The Company applies judgement to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation based on their selling price.

2.8 Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

2.9 Taxes on Income:

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the period. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year:

Current and deferred tax are recognized in the Statement of Profit or Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

2.10 Measurement of fair values:

The company's accounting policies and disclosures require the measurement of fair values. In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.11 Use of estimates and judgements:

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

2.12 Cash and cash equivalents:

Cash comprises demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.13 Cash flow statement:

Cash flows are reported using the indirect method, whereby profit/(loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.14 Earnings per share:

Basic earnings per share is computed by dividing the profit/(loss) after tax by the weighted average number of equity shares outstanding during the period.

Note No. 21 - Financial Instruments

Capital management

The company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk and liquidity risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties. The Company's exposure are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable.

Three largest Trade Receivable constitute more than 10% of outstanding exposure and together more than 50% of the outstanding exposure.

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses.

There is no change in estimation techniques or significant assumptions during the reporting period.

The loss allowance provision is determined as follows:

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

(iv) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Total				

The fair values of the financial assets and financial liabilities included in the level 2 and level 3 categories above have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Note No. 23 - Employee Benefit Expenses

(A) Defined Contribution Plan

Amount recognised as an expense in the Statement of Profit and Loss is Rs. 6.10 lakhs (31st March,2019 - Nil).

(B) Defined benefit plan:

The defined benefit plan comprise of gratuity

The company operates a gratuity plan covering qualifying employees . The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act or the company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. The current service cost and the net interest expense for the year are included in the employee benefits and expenses during the year provided is Rs. 6.10 lakhs (31st March,2019 - NIL).

Through its defined benefit plans the company is exposed to a number of risks, the most significant of which are detailed below :

Discount Rate Risk:

A decrease in government bond yields will increase plan liabilities.

Longevity Risk:

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk:

The present value of defined benefit plan liability is calculated by reference to the future salaries plan participants. As such, an increase in the salary of the plan participants will increase the plans's liability.

Note No. 27 - Segment Reporting

The company business activity falls within a single business segment. All other activities of the company revolve around its main business . Hence, there are no separate reportable primary segments.

Note No. 28 - The Company has used certain significant accounting estimates which have been disclosed in the financial statements.

These includes valuation of inventories, fair valuation of financial and non-financial assets and liabilities, going concern assessment etc. requiring significant management judgement in estimating the same. Considering the continuing COVID-19 pandemic, the results in upcoming period may significantly vary and may affect the recoverability of assets and settlement of liabilities.

The Company, based on internal & external sources of information including market research, economic forecast and other information, has assessed that as a result of Covid-19 outbreak, there is no significant financial impact on the financial statements for the year ended March 31, 2020 as at the date of approval of these financial statements.

Note No.29- Previous period's figures are regrouped/reclassified wherever necessary to conform with those of the current year.

INDEPENDENT AUDITORS' REPORT

To the Members of Mahindra MSTC Recycling Private Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Mahindra MSTC Recycling Private Limited ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Directors report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether

the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's and Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(A) As required by Section 143(3) of the Act, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under Section 133 of the Act.

e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company does not have any pending litigations which would impact its financial position.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act read with Schedule V of the act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

Annexure A to the Independent Auditor's Report – 31 March 2020

With reference to the Annexure A referred to in the Independent Auditor's Report to the members of the Company on the financial statements for the year ended 31 March 2020, we report the following:

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) All fixed assets have been physically verified by the management during the year in accordance with regular programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.

(c) According to the information and explanations given by the management, the Company does not own any immovable properties. In respect of leasehold lands, we have verified the lease agreements are duly registered with appropriate authorities.

(ii) The inventories have been physically verified by management at reasonable intervals during the year. In our opinion, frequency of verification is reasonable. No material discrepancies were noticed on such physical verification, discrepancies noted have been suitably dealt with in the books of account.

(iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, paragraph 3 (iii) of the Order is not applicable to the Company.

(iv) According to the information and explanations given to us, the Company has not granted any loan or made any investment or given any guarantee or security during the year. Accordingly, paragraph 3 (iv) of the Order is not applicable to the Company.

(v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of Section 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, paragraph 3 (v) of the Order is not applicable to the Company.

(vi) According to the information and explanation given to us, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the products/services of the Company.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the books of account of the Company, the Company is regular in depositing undisputed statutory dues accrued/ deducted including, Provident Fund, Employees' State Insurance, Income-Tax, Goods and Service Tax and other material statutory dues with the appropriate authorities. Further as informed to us, the Company did not have any dues on account of Sales-tax, Service tax, Customs Duty, Excise Duty, Value Added Tax and Cess.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-Tax, Goods and Service Tax and other material statutory dues were in arrears as at 31 March 2020 for a period of more than six months from the date they became payable. Further as informed to us, the Company did not have any dues on Sales-tax, Service tax, Customs Duty, Excise Duty, Value Added Tax and Cess.

(b) According to the information and explanations given to us, there are no dues of Income Tax, Sales-Tax, Service Tax, Customs duty, Excise duty, Value Added Tax, Goods and Service Tax and Cess which have not been deposited with the authorities on account of any dispute.

(viii) In our opinion and according to the information and explanations given to us by the management, the company has not taken any loans or borrowings from a financial institutions, banks or government nor has issued any debentures during the year. Accordingly, paragraph 3 (viii) of the Order is not applicable to the Company.

(ix) According to the information and explanations given to us by the management, the Company did not raise money by way of term loan, initial public offer or further public offer (including debt instruments) during the year. Accordingly, paragraph 3 (ix) of the Order is not applicable to the Company.

(x) To the best of our knowledge and according to the information and explanations given to us, no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.

(xi) According to the information and explanations given by the management, managerial remuneration has been paid or provided is in accordance with the requisite approvals mandated by the provisions of Section 197 read with schedule V of the Act.

(xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, paragraph 3(xii) of the Order is not applicable to the Company.

(xiii) According to the information and explanations given to us by the management, the Company has entered into transactions with related parties in compliance with the provisions of Section 177 and Section 188 of the Act, where applicable and the details of such related party transaction have been disclosed in the Ind AS financial statements as required by Ind AS 24 Related Party Disclosures specified under Section 133 of the Act.

(xiv) According to the information and explanations given to us by the management, during the year the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under paragraph 3 (xiv)of the Order is not applicable to the company.

(xv) According to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company.

(xvi) According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3(xvi) of the Order is not applicable to the Company.

Annexure B to the Independent Auditors' report on the financial statements of Mahindra MSTC Recycling Private Limited for the period ended 31 March 2020

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra MSTC Recycling Private Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

1 Corporate information

Mahindra MSTC Recycling Private Limited is a private limited company incorporated in Mumbai, India on 16 December, 2016 under the Companies Act 2013. The registered office of the company is located at Mahindra Towers, P. K. Kurne Chowk, Worli, Mumbai - 400018.

The Company's main activity is carrying on the business of setting up, owning, maintenance and operation of shredding plants and facilities for purchase, storage, collection, segregating, processing, recycling and importing of end of life vehicles and end of life white goods and other materials and sale there from of shredded ferrous and non-ferrous metal scrap and all other types of scrap including E-waste scrap, plastics, rubber, spare parts and any other disposable items, within and outside India.

2 Significant accounting policies:

2.1 Statement of Compliance and Basis of preparation and presentation:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act 2013 (the 'Act') and other relevant provisions of the act.

All assets and liabilities are classified as current if it is expected to realise or settle within 12 months after the Balance Sheet date.

The financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency.

The financial statements were approved by the Board of Directors and authorised for issue on May 14, 2020.

2.2 Use of estimates and judgments:

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

2.3 Property, plant & equipment:

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation less accumulated impairment, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use. The estimated useful lives, residual values, are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the Statement of Profit and Loss.

Depreciation is calculated on Straight Line method over the estimated useful life of all assets. These lives are in accordance with Schedule II to the Companies Act, 2013, other than the following asset class based on the Company's expected usage pattern:

(a) Building - over the lease period
(b) Plant & Machinery - 5 to 20 years
(c) Vehicles - 5 years

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet is classified as capital advances and cost of assets not ready for use at the balance sheet date are disclosed under capital work-in-progress.

2.4 Intangible asset:

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

Advances paid towards the acquisition of intangible assets outstanding at each balance sheet is classified as capital advances and cost of assets not ready for use at the balance sheet date are disclosed under Intangible asset under development.

2.5 Impairment of assets:

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing the value in use, the estimated future cash flows are discounted at their present value using the pre-tax discount rate that reflects current market assessment of time value of money and the risks specific to the assets for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Statement of Profit and Loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Profit and Loss.

2.6 Inventories:

Inventories are valued at the lower of cost (on weighted average basis) and the net realisable value after providing for obsolescence and other losses, where considered necessary.

Cost comprises of all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Net Realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, taxes.

2.7 Foreign exchange transactions and translations:

Transactions in currencies other than the Company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in the Statement of Profit and Loss in the period in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest cost on those foreign currency borrowings.

2.8 Financial assets and Financial liabilities:

Financial instruments:
Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the Statement of Profit and Loss.

Financial assets:
All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Derecognition of financial assets:
The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in the Statement of Profit and Loss if such gain or loss would have otherwise been recognised in the Statement of Profit and Loss on disposal of that financial asset.

Equity instrument:
An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all its liabilities. Equity instrument issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instrument is recognised and deducted directly in equity. No gain or loss is recognised in the Statement of Profit and Loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Financial liabilities:
All the financial liabilities are subsequently measured at amortised cost using the effective interest method or at fair value through profit and loss.

Derecognition of financial liabilities:
The Company derecognises financial liabilities when, and only when, the Company's obligation are discharged, cancelled or have expired. An exchange between the lender of debt instrument with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the term of an existing liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in the Statement of Profit and Loss.

2.9 Revenue recognition:

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company assesses promises in the contract that are separate performance obligations to which a portion of transaction price is allocated.

Revenue is measured based on the transaction price as specified in the contract with the customer. It excludes taxes or other amounts collected from customers in its capacity as an agent. In determining the transaction price, the Company considers:

Significant financing component - Generally, the Company receives short-term advances from its customers. Using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be one year or less.

The accounting policies for specific revenue streams of the company is summarised below:

Sale of goods: Customers obtain control of the goods when the goods are delivered to and have been accepted.

Sale of Services: Service income is recognized over time based on as and when service is performed.

Other income:
Interest income is accounted on time proportionate basis.

2.10 Employee benefits:

Retirement benefit costs and termination benefits:
Payment to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the return of plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in the other comprehensive income is reflected immediately in retained earnings and is not reclassified to Statement of profit and loss. Past service cost is recognised in Statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the defined benefit liability or asset. Defined benefit costs are categorised as follows

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in the Statement of Profit and Loss in the line item "Employee benefits expense". Curtailment gains and losses are accounted for as past service cost.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for the termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Short-term and other long-term employee benefits:
A liability is recognised for benefits accruing to the employees in respect of wages and salaries and annual leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange of that service.

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange of related service.

Liabilities recognized in respect of other long-term employee benefits are measured at present value of the estimated future cash outflows expected to be made by the company in respect of services provided by employee upto the reporting date.

2.11 Borrowing costs:

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in the Statement of Profit and Loss in the period in which they are incurred.

2.12 Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

Provisions for the expected cost of warranty obligations are recognised at the time of sale of the relevant products, at the best estimate of the expenditure required to settle the Company's obligation.

2.13 Taxes on income:

Income Tax expense represents the sum of the tax currently payable and deferred tax.

Current Tax:
The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred Tax:
Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year:
Current and deferred tax are recognized in the Statement of Profit and Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

2.14 Cash and cash equivalents:

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value. Bank overdrafts are shown within borrowings in other financial liabilities.

2.15 Cash Flow Statement:

Cash flows are reported using the indirect method, whereby profit/(loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating investing and financing activities of the Company are segregated based on the available information.

2.16 Earnings per share:

Basic earnings per share is computed by dividing the profit/loss after tax by the weighted average number of equity shares outstanding during the year.

2.17 Leases:

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee:
At commencement or on modification of a contract that contains a lease component, the Company allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices. However, for the leases of property the Company has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Company by the end of the lease term or the cost of the right-of-use asset reflects that the Company will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The Company presents right-of-use assets that do not meet the definition of investment property in 'property and equipment' and lease liabilities in the statement of financial position.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the term of the relevant lease.

3 Significant changes in accounting policies:

The Company has adopted Ind AS 116 'Leases' from 1 April 2019 using the modified retrospective method Accordingly, comparatives for the year ended 31 March 2019 have not been retrospectively adjusted.

A. Definition of lease

Previously, the Company determined at contract inception whether an arrangement was or contained a lease under IFRIC 4 Determining whether an Arrangement contains a Lease. The Company now assesses whether a contract is or contains a lease based on the definition of a lease, as explained in significant accounting policy.

On transition to Ind AS 116, the Company elected to apply the practical expedient to grandfather the assessment of which transactions are leases. The Company applied Ind AS 116 only to contracts that were previously identified as leases. Contracts that were not identified as leases under IAS 17 and 'Appendix C' were not reassessed for whether there is a lease under Ind AS 116. Therefore, the definition of a lease under Ind AS 116 was applied only to contracts entered into or changed on or after 1 April 2019.

i. Leases classified as operating lease under IAS 17

Previously, the Company classified property leases as operating leases under IAS 17. On transition, for these leases, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Company's incremental borrowing rate as at 1 April 2019. Right-of-use assets are measured at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments.

The Company has tested its right-of-use assets for impairment on the date of transition and has concluded that there is no indication that the right-of-use assets are impaired.

The Company used following practical expedients when applying IFRS 16 to leases previously classified as operating leases under IAS 17:

- did not recognise right-of-use assets and liabilities for leases for which the lease term ends within 12 months of the date of initial application; and
- did not recognise right-of-use assets and liabilities for leases of low value assets

ii. Leases classified as finance leases under IAS 17

The leases which were classified as finance leases under IAS 17, the carrying amount of the right-of-use asset and the lease liability at 1 April 2019 were determined at the carrying amount of the lease asset and lease liability under IAS 17 immediately before transition date.

iii. Impact on financial statements

On transition date the Company recognised Right-of-Use asset and lease liability, the impact is as follows:

		Amount (Rs.)
1)	Right-of-Use assets: Property, plant & equipment	57,648,915
2)	Lease liabilities	55,483,594

4 Recent Indian Accounting Standards (Ind AS):

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

Note No. 5 - Property, plant and equipment

(ii) The Company has not allotted any equity shares for consideration other than cash, bonus shares, nor have any shares been bought back since its incorporation (i.e. 16 December, 2016).

Terms and rights attached to equity shares

The Company has only one class of equity share having a par value of Rs. 10/- per share. Each shareholder has the following voting rights (i) On a show of hands: one vote for a member present in person and (ii) On a poll: in proportion to his share in the paid up equity share capital of the Company. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing annual general meeting, except in case of interim dividend. In the event of winding up, the liquidator may, with the sanction of a special resolution of the Company and any other sanction required by the Act, divide amongst the members, in specie or kind, the whole or any part of the assets of the company, whether they shall consist of property of the same kind or not.

As laid down in Articles of Association of the Company, there is a restriction on transfer of Company's shares for a lock-in period of 3 years from the date of issue of share certificate(s) of the Memorandum of Association, during which period Shares of the Company cannot be transferred by the Parties. After the expiry of the Lock-in Period, the shareholders may transfer the shares in accordance with the provisions of the Articles of Association.

Note No. 26 - Employee benefits

(a) Defined contribution plan:

The Company has recognized, in the statement of profit and loss for the year ended, an amount of Rs 1,051,162 (2019: 840,479) pertaining to defined contribution plans.

Amount (Rs)

Particulars	For the year ended 31 March, 2020	For the year ended 31 March, 2019
Provident Fund	**731,155**	638,515
Pension Fund	**320,007**	201,964
Total	**1,051,162**	840,479

(b) Defined benefit plan:

(i) GRATUITY

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employees. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Nature of benefits:

The gratuity benefits payable to the employees are based on the employee's service and last drawn salary at the time of leaving. The employees do not contribute towards this plan and the full cost of providing these benefits are met by the Company.

Regulatory framework:

There are no minimum funding requirements for a gratuity plan in India. The trustees of the gratuity fund have a fiduciary responsibility to act according to the provisions of the trust deed and rules. Since the fund is income tax approved, the Company and the trustees have to ensure that they are at all times fully compliant with the relevant provisions of the income tax and rules. Besides this if the Company is covered by the Payment of Gratuity Act, 1972 then the Company is bound to pay the statutory minimum gratuity as prescribed under this Act.

Governance of plan:

The Company has setup an income tax approved irrevocable trust fund to finance the plan liability. The trustees of the trust fund are responsible for the overall governance of the plan. The plan is funded under Group Gratuity Scheme which is administered by LIC. The Company makes annual contribution to the plan.

Inherent risk

The plan is of a final salary defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the Company that any adverse salary growth or demographic experience or inadequate returns on underlying plan assets can result in an increase in cost of providing these benefits to employees in future. Since the benefits are lump sum in nature the plan is not subject to any longevity risks.

(ii) POST RETIREMENT MEDICAL BENEFITS

The Company provides post retirement medical cover to select grade of employees to cover the retiring employee and their spouse upto a specified age through mediclaim policy on which the premiums are paid by the Company. The eligibility of the employee for the benefit as well as the amount of medical cover purchased is determined by the grade of the employee at the time of retirement.

Nature of benefits:

The Company operates a defined benefit post-retirement medical plan. The benefits payable to the employees are post their retirement from the Company. The employees do not contribute towards this plan and the full cost of providing these benefits are met by the Company.

Regulatory framework:

There are no minimum funding requirements for such a post-retirement medical plan in India. The Company has chosen not to fund the post-retirement benefit liabilities of the plan but instead carry a provision based on actuarial valuation in its books of accounts.

Governance of plan:

The Company is responsible for the overall governance of the plan. Since the plan is unfunded, the governance of the plan is limited to employees being paid the benefits as per the terms of the plan.

Inherent risk

The plan is of a defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the Company that any adverse increase in healthcare costs or demographic experience can result in an increase in cost of providing these benefits to employees in future. The benefits are also paid post retirement upto a specified age of the beneficiary and plan carries the longevity risks.

Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

Note No. 26 - Employee benefits
Defined benefit plans – as per actuarial valuation as on 31 March, 2020

Particulars				Amount (Rs)

4. Rate of increase in compensation levels	**7.00%**	**7.00%**	10.00%	10.00%
5. Mortality table	**IALM(2012–14) ult**	**IALM(2012–14) ult**	IALM(2012-14) ult	IALM(2012-14) ult

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

(viii) Sensitivity analysis:

Gratuity

Gratuity is a lump sum plan and the cost of providing these benefits is typically less sensitive to small changes in demographic assumptions. The key aerial assumptions to which the benefit obligation results are particularly sensitive to are discount rate and future salary escalation rate. The following table summarizes the impact on the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 100 basis points.

These sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analysis.

The sensitivity of the gratuity benefits to changes in the weighted principal assumptions is:

Amount (Rs)

Principal assumption	Year	Changes in assumption	Impact on defined benefit obligation	
			Increase in assumption	Decrease in assumption
Discount rate	**31 March, 2020**	1%	2,201,267	2,598,416
	31 March, 2019	1%	3,346,151	3,944,325
Salary growth rate	**31 March, 2020**	1%	2,595,276	2,200,446
	31 March, 2019	1%	3,933,506	3,349,727

Post retirement medical benefits

The benefit obligation results for the cost of paying future hospitalization premiums to insurance company in future for the employee / beneficiaries during their lifetime is sensitive to discount rate and future increase in healthcare costs.

The following table summarizes the impact on the reported defined benefit obligation at the end of the reporting period arising on account changes in these three key parameters:

These sensitivities have been calculated to show the movement in defined benefit obligation in isolation and assuming there are no other changes in market conditions at the accounting date. There have been no changes from the previous periods in the methods and assumptions used in preparing the sensitivity analysis.

The sensitivity of the post retirement medical benefit obligation to changes in the weighted principal assumptions is:

Amount (Rs)

Principal assumption	Year	Changes in assumption	Impact on defined benefit obligation	
			Increase in assumption	Decrease in assumption
Discount rate	31 March, 2020	1%	305,941	426,302
	31 March, 2019	1%	272,383	366,549
Medical inflation rate	31 March, 2020	1%	425,960	305,243
	31 March, 2019	1%	366,814	271,458

(ix) Expected contributions for the next year:

The expected contribution payable to the plan next year is Rs. 500,000.

(x) Maturity profile:

* excludes provision for gratuity and compensated absences, which is determined on the basis of actuarial valuation done on overall basis for the Company.

Note:
1. The sales/provision of services to and purchases/provision of services from related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash. There have been no guarantees provided or received for any related party receivables or payables.

Note No. 28 - Financial instruments

[I] Capital management

The company's capital management objectives are:

– to ensure the company's ability to continue as a going concern

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The capital structure of the Company consists of total equity of the Company.

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

Amount (Rs)

	31 March, 2020	31 March, 2019
Equity	**223,948,201**	277,425,146
Less:- Cash and cash equivalents	**(40,048,379)**	(46,988,816)
	183,899,822	230,436,330

[II] Financial risk management framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk . In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

(A) CREDIT RISK

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument leading to a financial loss. The Company is exposed to credit risk from its operating activities and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

Trade and other receivables

As at 31 March 2020, the Company had receivables majorly from its related parties only. The Company does not expect any credit loss.

Financial instruments and cash deposits:

Credit risk from balances with banks and financial institutions is managed by the Company in accordance with the Company's policy. Investments of surplus funds are made only with banks and within credit limits assigned to each counterparty.

(B) LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

Amount (Rs)

	Less than 1 Year	1-3 Years	3-5 Years	5 Years and above	Total	Carrying amount
Non-derivative financial liabilities						
31 March 2020						
Non-interest bearing	**10,799,888**		–	–	**10,799,888**	**10,799,888**
Fixed interest rate instruments	**15,253,995**	**29,727,969**		–	**44,981,964**	**44,981,964**
Total	**26,053,883**	**29,727,969**	–	–	**55,781,852**	**55,781,852**
31 March 2019						
Non-interest bearing	8,060,700	–	–	–	8,060,700	8,060,700
Total	8,060,700	–	–	–	8,060,700	8,060,700

(iii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Amount (Rs)

	Less than 1 Year	1-3 Years	3-4 Years	5 Years and above	Total	Carrying value
Non-derivative financial assets						
31 March 2020						
Non-interest bearing	**25,284,492**	–	**4,663,125**	–	**29,947,617**	**29,947,617**

31 March 2019						
Non-interest bearing	9,918,056	–	–	–	9,918,056	9,918,056
Fixed interest rate instruments	94,500,000	–	–	–	94,500,000	94,500,000
Total	104,418,056	–	–	–	104,418,056	104,418,056

(iv) Financing arrangements

The Company had access to following undrawn borrowing facilities at the end of the reporting period:

Amount (Rs)

	31 March, 2020	31 March, 2019
Working Capital Non-Fund Based facility: (LC, BG, LUT, LER)		
Expiring beyond one year (unsecured)	**1,000,000**	1,000,000

(C) MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

Note No. 29 - Fair value measurement

Fair Valuation Techniques and Inputs used

This section explains the judgment and estimates made in determining the fair value of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair value are disclosed in financials statements. To provide an indication about the reliability of the inputs used in determining the fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standards.

Level 1 inputs

Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date. A quoted market price in an active market provides the most reliable evidence of fair value and is used without adjustment to measure fair value whenever available, with limited exceptions. If an entity holds a position in a single asset or liability and the asset or liability is traded in an active market, the fair value of the asset or liability is measured within Level 1 as the product of the quoted price for the individual asset or liability and the quantity held by the entity, even if the market's normal daily trading volume is not sufficient to absorb the quantity held and placing orders to sell the position in a single transaction might affect the quoted price.

Level 2 inputs

Level 2 inputs are inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 2 inputs include:

- quoted prices for similar assets or liabilities in active markets
- quoted prices for identical or similar assets or liabilities in markets that are not active
- inputs other than quoted prices that are observable for the asset or liability, for example-interest rates and yield curves observable at commonly quoted interval
- implied volatilities
- credit spreads
- inputs that are derived principally from or corroborated by observable market data by correlation or other means ('market-corroborated inputs')

Level 3 inputs

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs are used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date. An entity develops unobservable inputs using the best information available in the circumstances, which might include the entity's own data, taking into account all information about market participant assumptions that is reasonably available.

The fair values of the financial assets and financial liabilities included in the level 2 categories above have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties.

Fair value of financial assets and financial liabilities that are not measured at fair value

The Company considers that the carrying amount of financial assets and financial liabilities recognised in financial statements approximates their fair value.

Note No. 30 - Segment reporting

Segment Information

The company has identified 'Processing of End of life vehicles (ELVs) and Industrial steel scrap' as its only primary reportable segment. The Chief Operating Officer of the Company has been identified as the Chief Operating Decision Maker (CODM) as defined under Ind AS 108. CODM reviews overall financial information of the Company together for performance evaluation and allocation of resources and does not review any discrete information to evaluate performance of any individual product or geography.

Geographical Information

All customers of the Company are located within India.

The Company operates and has its processing facilities based out at Greater Noida and Chennai in India.

There are no customers who are individually contributing to more than 10% of the Company's revenue.

Note No. 33

In March 2020, World Health Organization have declared Covid-19 as a pandemic. Escalation of Covid-19 has the potential to impact the global economic growth and business developments. The countrywide lockdown declared by Government of India covered a part of March 2020 and continued until April 2020. Whilst overall impact is still uncertain, the Company has carried out an assessment for any possible impact on performance of the Company due to Covid outbreak. Based on the current situation, the Company does not expect operations and performance for next year to get very significantly impacted. The Company will continue to monitor the situation as it evolves in coming months.

Note No. 34

Previous year's figures have been regrouped/reclassified wherever necessary.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF MAHINDRA AIRWAYS LIMITED

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of **Mahindra Airways Limited ("the Company"),** which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The company's Board of Directors is responsible for the other information. The other information comprises the Board report.

Our opinion on Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS Ind AS financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these Ind AS financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures

INDEPENDENT AUDITORS' REPORT

responsive to those risks, and obtain audit evidence that are sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

   (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

   (e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

   (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

      i. The company does not have any pending litigations which will impact its financial positions.

      ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Airways Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 9 of our report of even date on the financial statements of Mahindra Airways Limited for the year ended March 31, 2020

Annexure to the Auditor's Report referred to in our report of even date:

i. a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.

b) The fixed assets were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals, According to the information and explanation given to us, no material discrepancies were noticed on such verification.

c) The Company does not have any immovable property as on March 31, 2020.

ii. In our opinion and according to the information and explanations given to us, the Company has not dealt in any inventory during the year & does not hold any inventory at the end of the year.

iii. The company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other related parties covered in the register maintained under section 189 of the Act.

iv. The Company has not granted any loans, made investments or provide guarantees and hence reporting under clause (iv) of the CARO 2016 is not applicable.

v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits under the provisions of section 73 to 76 of the Act and the Rules framed thereunder.

vi. The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any of the services rendered by the Company.

vii. i) According to the records of the Company, the Company has been generally regular in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Income Tax, Sales Tax, GST and other statutory dues applicable to it. According to information and explanation given to us, no undisputed amounts in respect of the above were outstanding, as on March 31, 2020 for a period of more than 6 months from the date they become payable.

ii) There are no dues of income tax, sales tax, service tax, duty of customs, and duty of excise or value added tax, GST and cess which have not been deposited on the account of any dispute.

viii The Company has not defaulted in repayment of loans or borrowing to a financial institution, bank or Government. The Company has not raised any money through debentures.

ix The Company has not raised money by way of initial public offer or further public offer (including debt instruments) and the money raised by the Company by the way of Buyer's credit term loans were applied for the purpose for which those are raised.

x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing principles in India, and according to the information and explanations given to us, we have neither come across any instance of fraud on or by the Company, noticed or reported during the year, nor have we been informed of such case by the management.

xi. According to the information and explanations given to us, the Company has not paid any remuneration to managerial personnel as defined in the Act and accordingly the provisions of para 3(xi) of the Order are not applicable to the Company.

xii. The Company, not being a Nidhi Company, the para 3(xii) of the Order is not applicable to the Company.

xiii. According to the information and explanations given to us, all transactions with related parties are in compliance with sections 177 and 188 of the Companies Act, 2013 and the details of the same have been disclosed in the financial statements as required by the applicable accounting standards.

xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Hence, the provisions of para 3(xiv) of the Order are not applicable to the Company.

xv. According to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or persons connected with him. Hence, the provisions of para 3(xv) are not applicable to the Company.

xvi. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, the provisions of para 3(xvi) of the Order are not applicable to the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2020

1. General Information

Mahindra Airways Limited is a Limited Company incorporated and domiciled in India. The Company's registered office is at Mahindra Towers, P K Kurne Chowk, Worli, Mumbai, Maharashtra, India. These financial statements correspond to the stand alone financial statements of the Company. The Company is primarily involved in Providing Helicopter Chartering Services under Non Scheduled Operators Permit (NSOP) issued by Director General Civil Aviation.

Significant Accounting Policies

a. Statement of compliance and basis of preparation

These financial statements of Mahindra Airways Limited have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

b. Functional and presentation currency

These financial statements are presented in Indian Rupees ('INR' or 'Rs.') which is also the Company's functional currency. All amounts are rounded-off to the nearest lakhs, unless otherwise indicated.

c. Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values.

d. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has established policies and procedures with respect to the measurement of fair values.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

e. Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income, expenses and the disclosures of contingent assets and liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to estimates are recognised prospectively.

Following are areas that involved a higher degree of estimate and judgement or complexity in determining the carrying amount of some assets and liabilities.

- useful life of property, plant and equipment
- estimation of defined benefit obligation
- income taxes - current and deferred taxes
- fair value of unlisted securities

Detailed information about each of these estimates and judgements that have a significant risk of resulting in material adjustment within the next financial year is included in relevant notes for the above items.

Estimates and judgements are evaluated based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

f. Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

g. Cash Flow statement

Cash flows are reported using the indirect method, whereby profit/(loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

h. Property, Plant and equipment

Property, Plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and accumulated impairment, if any.

Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use.

Depreciation is provided on straight line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the Statement of Profit and Loss.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013, other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:

Asset Class	Useful Lives
Furniture & Fixtures	10 years
Computer	3 years

Assets costing less than or equal to Rs. 5,000 are depreciated fully in the year of purchase.

i. Impairment of Assets

The Company assesses at each Balance Sheet date whether there is any indication that an asset or a group of assets (cash generating unit) may be impaired. If any such indication exists, the Company estimates the recoverable amount of the asset or a group of assets. The recoverable amount of the asset (or where applicable, that of the cash generating unit to which the asset belongs) is estimated as the higher of its net selling price and its value in use. If such recoverable amount of the asset or the recoverable amount of the cash-generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the Statement of Profit and Loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

Value in use is the present value of estimated future cash flow expected to arise from the continuing use of the assets and from its disposal at the end of its useful life.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2020

If at the Balance Sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciable historical cost.

j. Revenue Recognition

The Company has applied Ind AS 115 'Revenue from Contracts with customers' ("hereinafter referred to as Ind AS 115") effective from 01 April 2018, using modified retrospective approach for the purpose of transition. Accordingly, comparatives for the previous period have not been restated. The application of Ind AS 115 did not have any material impact on the financial results of the Company.

- Service Income

  Income from Chartering Services are recognised on satisfaction of performance obligation towards rendering of such services.

- Interest income

  Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably.

- Dividend Income

  Dividend from investments are recognised in profit or loss when the right to receive payment is established.

k. Investments

Investments are classified under Non-current and current categories.

Non-current Investments' are carried at acquisition /amortized cost. A provision is made for diminution other than temporary on an individual basis.

Current Investments' are carried at fair value on an individual basis

l. Employee Benefits

Defined Contribution schemes

Company's contributions to the Provident Fund are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due.

Defined benefits plans

The Company's gratuity benefit scheme is a defined benefit plan.

m. Taxation

Current tax

Current tax is determined as the amount of tax payable in respect of taxable income for the year. The Company's current tax is calculated using tax rate that have been enacted and substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax liability or asset is recognized for timing differences between the profits/losses offered for income tax and profits/losses as per the financial statements. Deferred tax assets and liabilities are measured using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax asset are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary difference could be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

n. Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with requirements under Ind AS 16 for cost model.

o. Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

p. Investments in equity instruments at FVTOCI

On initial recognition, the Company can make an irrevocable election (on an instrument-by-instrument basis) to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments. This election is not permitted if the equity investment is held for trading. These elected investments are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

A financial asset is held for trading if:

–it has been acquired principally for the purpose of selling it in the near term; or

–on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking.

The Company has equity investments which are not held for trading. The Company has elected the FVTOCI irrevocable option for these investments.

Dividend on these investments in equity instruments are recognised in profit or loss when the Company's right to receive the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably. Dividends recognised in profit or loss are included in the 'Other income' line item.

q. Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

r. Provisions and Contingencies

A provision is recognized when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present values and are determined based on management estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events not wholly within the control of the Company.

Standards issued but not yet effective:

In March 2019, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2019 and Companies (Indian Accounting Standards) (Second Amendment) Rules, 2019 notifying Ind AS 116 - 'Leases' and making amendments to various other Ind AS

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2020

standards viz. Ind AS 12 - 'Income Taxes', Ind AS 19 - 'Employee benefits', Ind AS 23 - 'Borrowing Cost', Ind AS 28 - 'Investments in Associates and Joint Ventures', Ind AS 111 - 'Joint Arrangements', Ind AS 103 - 'Business Combinations' and Ind AS 109 - 'Financial Instruments'. These amendments are in accordance with the recent amendments made by International Accounting Standards Board (IASB). The amendments are effective from accounting periods beginning from 1st April 2019.

Ind AS 116 – 'Leases':

This standard will supersede Ind AS 17 'Leases'. It abolishes for lessees the previous classification of leasing agreements as either operating or finance leases. Instead, Ind AS 116 introduces a single lessee accounting model, requiring lessees to recognise assets for right to use assets and lease liability representing its obligation to make lease payments. This means that leases which were previously not reported in the balance sheet will have to be reported in subsequent reporting periods. The depreciation expenses will include amortisation of right to use asset and finance cost will include interest expense on lease liability. Ind AS 116 also provides exception from recognition of right to use asset and lease liability where lease term is less than 12 months or leases for which underlying asset is of low value. In such cases, lease payments are recognised as an expenses over lease term either on straight-line basis unless another systematic basis is representative of time pattern of the user's benefit.

The Company has appropriately accounted the lease of Helicopter as per Ind As 116 and our financial statement reflects the same as per standard.

Amendments to Ind AS 12 – 'Income Taxes':

The amendment relating to income tax consequences of dividend clarify that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events. Further, the amendment to Appendix C specifies that when an entity is uncertain how tax laws applies to a particular transaction or circumstance until the relevant tax authorities or a court takes a decision in future and it is not probable that taxation authorities may accept entities tax position then entity is required to estimate effect of such uncertain position on income tax and deferred tax.

The Company is currently assessing the impact of application of these amendments made to Ind AS 12 on the Company's consolidated financial statements.

Amendments to Ind AS 19 – 'Employee Benefits':

The amendment clarify that if a plan amendment, curtailment or settlement occurs, it is mandatory that the current service cost and the net interest for the period after the re-measurement are determined using the assumptions used for the re-measurement. In addition, amendment has been included to clarify the effect of a plan amendment, curtailment or settlement on the requirements regarding the asset ceiling.

The Company is currently assessing the impact of application of the amendment made to Ind AS 19 on the Company's financial statements.

Amendments to Ind AS 23 – 'Borrowing Cost':

The standard clarifies that borrowing costs (related to specific borrowings) that remain outstanding after the related qualifying asset is ready for intended use or sale would subsequently be considered as part of general borrowing costs of an entity.

The Company has not borrowed any funds hence the amendment does not have any impact on the Company's financial statement.

Amendments to Ind AS 28 - 'Investments in Associates and Joint Ventures':

The amendments specify that entity shall apply Ind AS 109 'Financial Instruments' before applying Ind AS 28 to long term interest in associate and joint venture that form part of net investment in associate and joint venture but to which equity method is not applied.

The amendment is not applicable to the Company's standalone financial statement.

Amendments to Ind AS 103 – 'Business Combination and Ind AS 111 Joint Arrangements':

The amendments to Ind AS 103 relating to re-measurement clarify that when an entity obtains control of a business that is a joint operation, then the entity considers such an acquisition as a business combination achieved in stages and accounts for it accordingly ie it re-measures previously held interests in that business.

The amendment to Ind AS 111 clarify that when an entity obtains joint control of a business that is a joint operation, the entity does not re-measure previously held interests in that business.

These amendment are not applicable to the Company's standalone financial statement.

Amendments to Ind AS 109 – 'Financial instruments':

The amendments relate to the existing requirements in Ind AS 109 regarding termination rights in order to allow measurement at amortised cost (or, depending on the business model, at fair value through other comprehensive income) even in the case of negative compensation payments.

The amendment is not expected to have impact on the Company's financial statement.

Note No. 12 Financial Instruments

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk <list all such risks as applicable>. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collatarel , where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company only transacts with entities that are rated the equivalent of investment grade and above. This information is supplied by independent rating agencies where available and, if not available, the Company uses other publicly available financial information and its own trading records to rate its major customers. The Company's exposure and credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties. Credit exposure is controlled by counterpaty limits that are reviewed and approved by the risk management committee annually.

Trade receivables consist of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable, and where appropraite, credit guarantee insurance cover is purchased.

Apart from Company A, the largest customer of the Company, the Company does not have significant credit risk exposure to any single counterparty. Concentration of credit risk related to Company A did not exceed 20% of gross monetary assets at any time during the year. Concentration of credit risk to any other counterparty did not exceed 10% of gross monetary assets at any time during the year.

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks with high credit-ratings assigned by international credit-agencies.

In addition, the Company is exposed to credit risk in relation to financial gurantees given to banks provided by the Company. The Company's maximum exposure in this respect is the maximum amount the Company could have to pay if the guarantee is called on. As at 31 march 2018, an amount of INR NIL(31 March 2017: INR NIL)) has been recognised in the Consolidated Balance Sheet as financial liabilities.

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses. The Company has taken dealer deposit of INR XX and bank guarantees of INR XX which is considered as collateral and these are considered in determination of expected credit losses, where applicable. <Provide details on any other type of collateral and its effect on ECL allowance>.

There is no change in estimation techniques or significant assumptions during the reporting period.

The loss allowance provision is determined as follows:

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

(iii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Particulars Note No. 11 - Financial Instrument	Less than 1 Year INR	1-3 Years INR	3 Years to 5 Years INR	5 years and above INR
Non-derivative financial assets				
31-Mar-20				
Non-interest bearing	13.73	–	–	–
Variable interest rate instruments	135.01	–	–	–
Total	**148.74**	**–**	**–**	**–**

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH 2020

The amounts included above for variable interest rate instruments for both non-derivative financial assets and liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. The Company uses derivatives to manage market risks. Derivatives are only used for economic hedging purposes and not as speculative investments. All such transactions are carried out within the guidelines set by the Board of Directors and Risk Management Committee.

There has been no significant changes to the company's exposure to market risk or the methods in which they are managed or measured.

Note No. 13 - Fair Value Measurement

Fair value of financial assets and financial liabilities that are not measured at fair value

This section explains the judgement and estimates made in determining the fair value of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair value are disclosed in financials statements. To provide an indication about the reliability of the inputs used in determining the fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standards.

Level 1 Inputs:

Level 1 inputs are quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date. A quoted market price in an active market provides the most reliable evidence of fair value and is used without adjustment to measure fair value whenever available, with limited exceptions. If an entity holds a position in a single asset or liability and the asset or liability is traded in an active market, the fair value of the asset or liability is measured within Level 1 as the product of the quoted price for the individual asset or liability and the quantity held by the entity, even if the market's normal daily trading volume is not sufficient to absorb the quantity held and placing orders to sell the position in a single transaction might affect the quoted price.

Level 2 Inputs:

Level 2 inputs are inputs other than quoted market prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 2 inputs include:

_ quoted prices for similar assets or liabilities in active markets

_quoted prices for identical or similar assets or liabilities in markets that are not active

_inputs other than quoted prices that are observable for the asset or liability, for example-interest rates and yield curves observable at commonly quoted interval

_ implied volatilities

_ credit spreads

_inputs that are derived principally from or corroborated by observable market data by correlation or other means ('market-corroborated inputs')

Level 3 Inputs

Level 3 inputs are ubobservable inputs for the asset or liability. Unobservable inputs are used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measuremnet date. An entity develops unobservable inputs using the best information available in the circumstances, which might include the entity's own data, taking into account all information about market participation assumptions that is reasonably available.

Fair value of financial assets and financial liabilities that are not measured at fair value

	Fair value hierarchy as at 31st March 2020			
Particulars	**Level 1**	**Level 2**	**Level 3**	**Total**
Financial assets				
Financial assets carried at Amortised Cost	–	–	–	–

	Fair value hierarchy as at 31st March 2020			
Particulars	**Level 1**	**Level 2**	**Level 3**	**Total**
– investments	–	**135.01**	–	**135.01**
– cash & cash equivalents	–	**13.73**	–	**13.73**
Total	–	**148.73**	–	**148.73**

The fair values of the financial assets and financial liabilities included in the level 2 and level 3 categories above have been determined in accordance with generally accepted pricing models based on a discounted cash flow analysis, with the most significant inputs being the discount rate that reflects the credit risk of counterparties.

INDEPENDENT AUDITOR'S REPORT
To The Members of Mahindra Logistics Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Mahindra Logistics Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	**Completeness of revenue recognised for Supply Chain Management:**	**We have performed following procedures:**
	The Company engages external fleet owners for providing onward transportation services to the customers. The Company recognises 'Revenue' from rendering of services upon: 1. Receiving of actual invoice from vendor along with customer acknowledged Proof of Delivery (POD) of completed services; OR 2. An estimate of 'Trips' that would have been completed using the 'Expected Lead Time' (ELT)	➢ Tested the design and implementation of internal controls on judgements exercised over the following as well as their operating effectiveness: ✓ Controls over determination of ELT used as well as their operating effectiveness by: i. validating the basis of ELT, and

Sr. No.	Key Audit Matter	Auditor's Response
	Determining completion of performance obligation and recording 'Revenue' using the ELT method at the reporting date requires management to exercise significant judgments. Given the involvement of significant judgments around estimations of ELT in the recognition of 'Revenue' with respect to Supply Chain business, it is considered to be a key audit matter. (Refer Significant Accounting Policy 3(a).iv and note no. 9 and 21 to the financial statements)	ii. testing 'Unbilled Revenue' for an interim period against actual POD's received subsequently; ✓ Tested samples of relevant direct costs to ensure that all expenses have been booked corresponding to revenue.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report and Annexures to Board's Report, Management Discussion and Analysis, Corporate Governance Report and Business Responsibility Report, but does not include the standalone financial statements and our auditor's report thereon.

- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
   d) In our opinion, the aforesaid standalone financial statements comply with the IndAS specified under Section 133 of the Act.
   e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164(2) of the Act.
   f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
   g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
   h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
      i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements.
      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Mahindra Logistics Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE "B" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

(i) a. The Company has maintained proper records showing full particulars, including quantitative details and situation of the property, plant and equipment.

b. The Company has a program of verification of Property, Plant and Equipment to cover all the items in a phased manner over a period of three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.

c. According to the information and explanations given to us and the records examined by us and based on the examination of the registered sale deed provided to us, we report that, the title deed comprising the immovable property of land is held in the name of the Company as at the balance sheet date. In respect of immovable properties of buildings that have been taken on lease and disclosed as Property, Plant and Equipment in the financial statements, the lease agreements are in the name of the Company, where the Company is the lessee in the agreement.

(ii) The Company does not have any inventory and hence reporting under clause (ii) of the Order is not applicable.

(iii) According to the information and explanations given to us, the Company has granted loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013, in respect of which

(a) The terms and conditions of the grant of such loans are, in our opinion, prima facie, not prejudicial to the Company's interest.

(b) The schedule of repayment of principal and payment of interest has been stipulated and repayments or receipts of principal amounts and interest have been regular as per stipulations.

(iv) In our opinion and according to the information and explanation given to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of grant of loans, making investments and providing guarantees and securities, as applicable.

(v) According to the information and explanations given to us, the Company has not accepted any deposit during the year within the meaning of the provisions of Sections 73 and 76 or any other relevant provisions of the Companies Act, 2013.

(vi) Having regard to the nature of Company's business / activities, reporting under clause (vi) of the Order is not applicable.

(vii) According to the information and explanations given to us and according to the books and records as produced and examined by us, in our opinion:

a. The Company has been generally regular in depositing undisputed statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax and other material statutory dues as applicable to it with the appropriate authorities.

b. There were no undisputed amounts payable in respect of Provident Fund, Employees' State Insurance, Income-tax, Goods and Service Tax Act and other material statutory dues in arrears as at March 31, 2020, for a period of more than six months from the date they became payable.

c. As at March 31, 2020, the following are the particulars of dues on account of Income Tax, Sales Tax, Service Tax, Custom Duty, Excise Duty and Value Added Tax matters that have not been deposited on account of any dispute:

Name of Statute	Nature of Dues	Forum where Dispute is pending	Period to which the Amount Relates	Amount involved (Rs. in Crores)
Bihar Value Added Tax	Value Added Tax	Joint Commissioner – Commercial Tax	2013-14	0.02
Service Tax Laws	Service Tax	High Court	2001-02	0.48
Service Tax Laws	Service Tax	High Court	2002-03	0.35
Service Tax Laws	Service Tax	Commissioner Customs, Central Excise and Service Tax, Nagpur	2008-09	1.02

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to financial institutions, banks and government. The Company has not issued any debentures.

(ix) The Company has not raised moneys by way of Initial public offer or further public offer (including debt instruments) or term loans and hence reporting under clause (ix) of the Order is not applicable to the Company.

(x) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

(xi) In our opinion and according to the information and explanations given to us, the Company has paid / provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.

(xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) During the year the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures and hence reporting under clause (xiv) of the Order is not applicable to the Company.

(xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or directors of its holding, subsidiaries or associate company or persons connected with them and hence provisions of section 192 of the Companies Act, 2013 are not applicable.

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

NOTES ACCOMPANYING FINANCIAL STATEMENTS

1. Corporate information

Mahindra Logistics Limited is a public limited company incorporated on 24th August, 2007 under the Companies Act, 1956. The address of its registered office are disclosed in the introduction to the Annual Report. The Company is a 3PL service provider mainly engaged in transportation, warehousing, supply chain management and people logistics services.

The Financial Statements for the year ended 31st March, 2020 are approved for issue in accordance with a resolution of the directors on 20th May, 2020.

2. Significant accounting policies

2.1. Statement of compliance

The Financial Statements have been prepared in accordance with Indian Accounting Standard as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 (the 'Act'). The Financial Statements are separate Financial Statements.

2.2. Basis of preparation and presentation

The Financial Statements have been prepared on accrual basis and the historical cost basis as a going concern except for certain financial instruments that are measured at fair values or at amortised cost, wherever applicable, at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in this financial statement is determined on such basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The Financial Statements are prepared in Indian Rupee (INR) and denominated in crores.

The principal accounting policies are set out below.

2.3. Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

2.4. Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

2.4.1. Rendering of services

Incomes from logistics services rendered are recognised on the completion of the services as per the terms of contract. Revenue is recognized at the fair value of consideration received or receivable, to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

2.4.2. Dividend and interest income

Dividend income from investments is recognised when the right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.4.3. Sale of Goods

Sale of products are recognised when the products are dispatched which coincides with the transfer of control to the buyer of products. Sales are exclusive of Sales Tax/ Goods and Service Tax & sales returns.

2.5. Leasing

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the lessor has a substantive substitution right, then the asset is not identified
- the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Company as a lessee has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:
  a) the Company as a lessee has the right to operate the asset; or
  b) the Company as a lessee designed the asset in a way that predetermines how and for what purpose it will be used.

This policy is applied to contracts entered into, or modified, on or after 1st April, 2019.

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain re-measurements of the lease liability.

The lease liability is initially measured at amortised cost at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using the incremental borrowing rate.

It is re -measured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term

As a lessor

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term as part of 'other income'.

Transition

The Company has adopted Ind AS 116 using the modified retrospective approach with effect from initially applying this standard from 1st April, 2019. Accordingly, the information presented for previous year ended 31st March, 2019 has not been restated and continues to be reported under IAS 17.The Company has adopted modified retrospective approach where lease liability measured at present value of remaining lease payment discounted at the incremental borrowing rate at the date of initial application and right to use asset is equal to lease liability adjusted by the amount of any prepaid or accrued lease payments.

As a lessee

Operating leases

For transition, the Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Company has also used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease. Single discount rate to a portfolio of leases with similar characteristics.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-to-use asset, and finance cost for interest accrued on lease liability.

2.6. Foreign currencies

i. Initial recognition

In preparing the Financial Statements of the company, transactions in currencies other than the entity's functional currency of Indian Rupees (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions.

ii. Conversion

a. Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

b. Non-monetary items, if any are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

iii. Exchange differences

The Company accounts for exchange differences arising on translation/settlement of foreign currency monetary items as below:

a. Realized gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

b. Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

2.7. Borrowing costs

Borrowing Cost that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue in the year of incurrence.

2.8. Employee benefits

2.8.1. Retirement benefit costs and termination benefits

i. Defined Contribution Plan:

Company's contributions paid/payable during the year to the Superannuation Fund, ESIC, Provident Fund and Labour Welfare Fund are recognised in the Statement of Profit and Loss.

ii. Defined Benefits Plan:

For defined retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the Balance Sheet with a charge or credit recognised in Other Comprehensive Income in the period in which they occur. Remeasurement recognised in Other Comprehensive Income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

a. Service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);

b. Net interest expense or income; and

c. Remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the Balance Sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

2.8.2. Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

2.9. Share-based payment arrangements

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. Details regarding the determination of the fair value of equity-settled share-based transactions are set out in note no. 24.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the equity-settled employee benefits reserve.

2.10. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.10.1. Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'Profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.10.2. Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.10.3. Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in Other Comprehensive Income or directly in equity, in which case, the current and deferred tax are also recognised in Other Comprehensive Income or directly in equity respectively.

2.11. Property, plant and equipment

All items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost of acquisition is inclusive of purchase price, levies and any directly attributable cost of bringing the assets to its working condition for the intended use. Subsequent costs are included in the asset's carrying amount or recognised as separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the company and cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to Statement of Profit and Loss during the reporting period in which they are incurred.

Depreciation on tangible assets is charged by the Straight Line Method (SLM) in accordance with the useful lives specified in Part – C of Schedule II of the Companies Act, 2013 on a pro-rata basis except in the case of:

i. Certain items of Plant & Machinery individually costing more than ₹ 5,000 - over their useful lives ranging from 2 years to 10 years as estimated by the company and also based on the contractual arrangements wherever applicable.

ii. Certain items of Plant & Machinery individually costing less than Rs. 5,000 shall be depreciated over a period of 1 year.

iii. Mobile Phones (included in Office Equipment) in 2 years.

iv. Motor Cars (included in Vehicles) in 5 years

v. Assets capitalised which are attached to the leasehold office premises shall be depreciated upto 75% of its value over the lease period assuming a realisable value of 25% after the end of original lease period.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

2.12. Intangible assets

2.12.1. Intangible assets acquired separately

The useful lives of intangible assets are assessed as either finite or infinite. Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

2.12.2. Useful lives of intangible assets

The expenditure incurred is amortised over three financial years equally commencing from the year in which the expenditure is incurred.

2.13. Impairment of tangible and intangible assets

The management of the Company assesses at each Balance Sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the management estimates the recoverable amount of the asset. If such recoverable amount of the asset is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and recognised in the Statement of Profit and Loss. If at the Balance Sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost. A reversal of an impairment loss is recognised immediately in profit or loss.

2.14. Provisions, Contingent Liabilities & Contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

2.14.1. Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

A contingent asset is disclosed where an inflow of economic benefits is probable.

2.15. Financial instruments

Financial assets and financial liabilities are recognised when a company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.16. Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

2.16.1. Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

i. the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and

ii. the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the impairment policy on financial assets measured at amortised cost, refer note no 2.16.4

Investments in subsidiaries: All investments in subsidiaries are valued at cost.

All other financial assets are subsequently measured at fair value.

2.16.2. Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the “Other income” line item.

2.16.3. Financial assets at Fair value through Profit and Loss

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in Other Comprehensive Income for investments in equity instruments which are not held for trading.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the ‘Other Income’ line item. Dividend on financial assets at FVTPL is recognised when the Company’s right to receive the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of dividend can be measured reliably.

2.16.4. Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

2.16.5. Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in Other Comprehensive Income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in Other Comprehensive Income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in Other Comprehensive Income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

2.16.6. Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in Other Comprehensive Income.
- For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in Other Comprehensive Income.

2.17. Financial liabilities and equity instruments

2.17.1. Classification as debt or equity

Debt and equity instruments issued by a company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.17.2. Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a company entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.17.3. Compound financial instruments

The component parts of compound financial instruments (convertible notes) issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recognised as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound financial instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. When the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to retained earnings. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

2.17.4. Financial liabilities

All financial liabilities are subsequently measured at amortised cost.

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

2.18.Segment Accounting:

The CEO monitors the operating results of the business segments separately for the purpose of making decisions about the allocation of resources and performance assessment. Segment performance is measured based on profit or loss and is measured consistently with profit or loss in Financial Statements

2.18.1. Identification of Operating Segments

The operating segments have been identified based on its services and has two reportable segments, as follows:

i. **Supply Chain Management-** Goods transportation service including warehouse management service.

ii. **People Logistics-** People transportation service

2.18.2. Accounting of Operating Segments

Accounting policies adopted for segment reporting are in line with the accounting policies of the Company. Revenue and expenses have been identified to segments on the basis of their relationship to the operating activities of the segment. Revenues and expenses, which relate to the enterprise as a whole and are not allocable to segments on a reasonable basis and inter-segment revenue and expenses, have been included under "Unallocated Corporate Expenses/Eliminations".

2.19.Earnings Per Share:

Basic and diluted earnings per share is computed by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year, in accordance with Ind AS 33.

3 (a). Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Useful lives of Property, plant and equipment

As described in note 2.11 above, the Company reviews the estimated useful lives of property, plant and equipment at the end of each annual reporting period.

(ii) Defined Benefit Plans

The cost of the defined benefit plans and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making assumptions that may differ from actual developments in the future. These include the determination of discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

(iii) Fair Value of financial assets and liabilities and investments

The Company measures certain financial assets and liabilities on fair value basis at each balance sheet date or at the time they are assessed for impairment. Fair value measurement that are based on significant unobservable inputs (Level 3) requires estimates of operating margin, discount rate, future growth rate, terminal values etc. based on management's best estimate about future developments.

(iv) Estimated Lead Time for determining completion of performance obligation

The company also determines completion of performance obligation with respect to transportation service based on Estimated Lead Time (ELT) to deliver based on standard past performance and to that extent it involves management judgments for estimating delivery time to destination.

(v) Leases

Ind AS 116 requires lessees to determine the lease term as the non- cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by lease basis and there by assesses whether tis reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

(vi) Estimation of uncertainties relating to the global health pandemic from COVID-19 (COVID-19)

The operations of the Company were suspended following countrywide lockdown announced due to onslaught of COVID-19. The Company has since obtained required permissions and started its operations partially in respect of essential commodities as and when the same was allowed gradually across the country. Based on the immediate assessment of impact of COVID-19 on the operations of the Company and ongoing discussions with the customers, vendors and service providers, the Company is positive of serving customer orders pertaining to logistics services after resumption of the operations. The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of current assets including trade receivables. In assessing recoverability of trade receivables, the Company has considered subsequent recoveries, past trends, credit risk profiles of the customers based on their industry, macroeconomic forecasts and internal and external information available up to the date of issuance of these financial statements. Based on this assessment, the Company is of the view that carrying amounts of trade receivables are expected to be realisable. The impact of COVID-19 may be different from that estimated as at the date of approval of these financial statements, and the Company will continue to closely monitor the developments.

(vii) Trade receivables

The Company determines the allowance for credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. The Company has considered subsequent recoveries, past trends, credit risk profiles of the customers based on their industry, macroeconomic forecasts and internal and external information available to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID-19.

(viii) Revenue from Contracts with Customers

The Company has evaluated the impact of COVID-19 resulting from (i) the possible constraints to continue its operations and revisions in costs to fulfill the pending obligations (ii) onerous obligations (iii) penalties, if any, relating to breaches of agreements and (iv) termination or deferment of contracts by customers. The Company has concluded that the impact of COVID-19 is not material based on these estimates. Due to the nature of the pandemic, the Company will continue to monitor developments to identify significant uncertainties relating to revenue in future periods.

3 (b). Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from 1st April, 2020.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

Total	**462.32**	**13.20**	481.22	6.82

Notes:

i) Refer Note 29 (III) for disclosures related to credit risk, impairment of trade receivables under expected credit loss model and related disclosures.

ii) The company applies the simplified approach to provide for expected credit losses prescribed by IND AS 109, which permits the use of the lifetime expected credit loss provision for all trade receivables. The company has expected credit losses based on a provision matrix which uses historical credit loss experience of the Company.

iii) Trade Receivables are hypothecated to Banks against working capital facility.

iii) Share based payment

The Company has introduced a MLL - Key Executives Stock Option Scheme, 2012 ("Plan") as approved at its Board Meeting held on 27th April, 2012 and subsequently amended on 5th February, 2014, 27th October, 2015 and 3rd August, 2017. The plan provides that eligible employees and the Partners' Enterprise (Formerly, Mahindra Partners Employees Options Trust (the Trust)) as defined in the Plan are granted options to acquire equity shares of the Company that vests in a graded manner. The vested options can be exercised within a specified period from the date on which the shares of the Company get listed on a recognized stock exchange or on happening of an event as specified in the Plan. The number of options granted is calculated in accordance with the performance- based formula approved by the Board as recommended by the then ESOP committee.

The Company has granted 1,80,313 (One Lakh Eighty Thousand Three hundred and Thirteen) Restricted Stock Units (RSU's) under Company's Restricted Stock Unit Plan 2018 to its identified employees. This grant is effective from 4th November 2019, 1st February 2020 and 4th February 2020 for 1,28,313, 40,000 & 12,000 RSUs respectively. These shall vest as per the vesting schedule approved by the board of governance, Nomination and Remuneration Committee (NRC) and can be exercised over the exercise period as approved by NRC in their meeting held on 4th November 2019. Personnel Cost mentioned above includes ₹ 1.21 crores for the year towards the said grants.

iv) Information in respect of options outstanding:

III. Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk and liquidity risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

A) Credit risk management

Trade receivables and deposits

(i) Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties. The Company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends and analysis of historical bad debts and ageing of accounts receivable. Credit exposure is controlled by counterparty credit period which is monitored through an approved policy.

(ii) Trade receivables consist of a large number of customers, spread across diverse industries and places across India.

(iii) Apart from one large customers of the Company, the Company does not have significant credit risk exposure to any single customer and concentration of credit risk related to a single company did not exceed 15% of trade receivables at the end of the year.

(iv) The Company applies the simplified approach in providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The Company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable.

(v) There is no change in estimation techniques or significant assumptions during the reporting year.

(vi) The loss allowance for expected credit losses for trade receivables for different ageing periods are as follows:

₹ in Crores

Others	**230.61**	**0.12**	**–**	**–**
Total	**719.21**	**27.43**	**7.74**	**1.84**

As at 31st March, 2019

Particulars	Less than 1 Year	1 Years to 3 Years	3 Years to 5 Years	5 years and above
Non-derivative financial assets				
Trade Receivables	481.22	4.53	2.29	–
Security Deposits	10.80	16.73	2.56	0.36
Loan to related party	15.00	–	–	–
Others	212.03	0.03	–	–
Total	**719.05**	**21.29**	**4.85**	**0.36**

The above table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

C) Market Risk Management

The Company does not have significant market risk at the respective reporting dates.

Note No. 30 – Fair Value Measurement

Note No. 31 – Segment information

i) The management of the Company has chosen to organise the Company on the basis of nature of services. No operating segments have been aggregated in arriving at the reportable segments of the Company.

ii) Specifically, the Company's reportable segments and the type of product or service from which they derive income are:

a) Supply Chain Management (SCM) - Goods transportation service, including warehouse management service.

b) Enterprise Mobility Services - People transportation service

iii) The CEO monitors the operating results of the business segments separately for the purpose of making decisions about the allocation of resources and performance assessment.

(iv) The segmental disclosures are as follows :-

The revenues of the Company from holding company and group of customers under common control of the holding company amounts to 53.90% (Previous year: 58.53%) for the year ended 31st March, 2020 of its total revenues.

Note No. 32 – Leases

Operating Lease

The Company has adopted Ind AS 116 'Leases' with the date of initial application being 1st April, 2019. Ind AS 116 replaces Ind AS 17 – Leases and related interpretation and guidance. The Company has applied Ind AS 116 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings as at 1st April, 2019. As a result, the comparative information has not been restated. In adopting Ind AS 116, the Company has applied the below practical expedients:

The Company has applied a single discount rate to a portfolio of leases with reasonably similar characteristics

The Company has treated the leases with remaining lease term of less than 12 months as if they were "short term leases"

The Company has excluded the initial direct costs from measurement of the right-of-use asset at the date of transition

The Company has used hindsight, in determining the lease term if the contract contains options to extend or terminate the lease

On transition to Ind AS 116, the Company recognised right-of-use assets amounting to Rs. 111.81 crore, Net Investment in sublease of ROU of Rs. 1.76 crore, and a corresponding lease liabilities amounting to Rs. 121.36 crore by adjusting retained earnings of Rs. 5.07 crore (including the impact of defferred tax created of Rs. 2.72 crore). The Company has discounted lease payments using the applicable incremental borrowing rate as at 1st April, 2019 which is 8.70% for measuring the lease liability.

Reconciliation of operating lease commitments as at 31st March, 2019 with the lease liabilities recognized in the Balance Sheet as at 1st April, 2019:

₹ in Crores

Particulars	Year ended 31st March, 2020
A. Operating lease commitments disclosure as per Ind AS 17 as at 31st March, 2019	**56.06**
Weighted average incremental borrowing rate	**8.70%**
B. Present value using incremental borrowing rate as on 1st April, 2019	**88.58**
Recognition exemption for:	
Short term leases	**(1.64)**
Leases of low value assets	**–**
Extension and termination options reasonably certain to be exercised	**34.42**
Lease liabilities recognised at 1st April, 2019	**121.36**

Balance as at 31st March, 2020	**133.29**

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

The following is the movement in lease liabilities during the year ended 31st March, 2020:

₹ in Crores

Particulars	Year ended 31st March, 2020
Lease liabilities recognised at 1st April, 2019	121.36
Additions	97.68
Finance cost accrued during the period	13.98
Deletions	(12.64)
Payment of lease liabilities	(55.53)
Balance as at 31st March, 2020	**164.85**

The following is the break-up of current and non-current lease liabilities as at 31st March, 2020:

₹ in Crores

Particulars	As at 31st March, 2020
Non-current lease liabilities	119.45
Current lease liabilities	45.40
Total	**164.85**

The table below provides details regarding the contractual maturities of lease liabilities as at 31st March, 2020 on an undiscounted basis:

₹ in Crores

Particulars	2020
Less than one year	57.14
One to Three years	93.01
Three to five years	30.86
More than five years	13.05
Total undiscounted lease liabilities at Balance sheet date	**194.06**

Rental expense recorded for short-term leases was ₹ 37.46 crore for the year ended 31st March, 2020.

The following is the movement in the net investment in sublease of ROU asset during the year ended 31st March, 2020:

₹ in Crores

Particulars	Year ended 31st March, 2020
Net investment in sublease in ROU recognised at 1st April, 2019	1.76
Additions	19.84
Finance Income on net investment in sublease in ROU	1.21
Deletions	–
Rental Income on net investment in sublease in ROU	(2.34)
Balance as at 31st March, 2020	**20.47**

The table below provides details regarding the contractual maturities of net investment in sublease of ROU asset on an undiscounted basis:

₹ in Crores

Particulars	2020
Less than one year	3.35
One to Three years	6.97
Three to five years	6.44
More than five years	11.60
Total	**28.36**

Impact of adoption of Ind AS 116 on retained earnings:

₹ in Crores

Particulars	Amount
Reclassification of operating lease under Ind AS 17 'Leases' to right-of-use assets	5.07
Impact on retained earnings as at 1st April, 2019	**5.07**

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

Impact of adoption of Ind AS 116 on the statement of profit and loss:

₹ in Crores

Particulars	Year ended 31st March, 2020
Finance Income on Net investment in Lease	1.21
Upfront notional gain on sub-lease arrangement	0.94
Rental Income on Sub-Lease	(2.34)
Interest on lease liabilities	(13.98)
Depreciation of Right-of-use assets	(47.59)
Unrealised gain on reversal of ROU	0.80
Payment of lease liabilities	55.53
Impact of Ind AS 116 (on profit and loss before Tax)	(5.43)

Leases not yet commenced to which Company is committed amounts to ₹ 11.10 crore for a lease term ranging from 3 years to 5 years.

Note No. 33 – Employee benefits

a) Defined Contribution Plan

The Company's contribution to Provident Fund, superannuation Fund and other funds aggregating Rs.14.63 crore (2019: Rs.12.68 crore) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

b) Defined Benefit Plans

Gratuity

a) The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

b) Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

(1) Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The funds of the defined benefit plans are held with LIC.

As the plans mature, the Company intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

(2) Change in bond yields

A decrease in government bond yields will increase plan liabilities.

(3) Inflation risk

Defined benefit obligations are linked to inflation, and higher inflation will lead to higher liabilities (although caps on the level of inflationary increases are in place to protect the plan against extreme inflation).

(4) Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

(c) Significant Actuarial Assumptions

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Particulars		Valuation	
		As at 31st March, 2020	As at 31st March, 2019
a)	Discount rate(s)	6.60%	7.40%
b)	Expected rate(s) of salary increase	5% for first 3 years and 7% thereafter	8.00%
c)	Mortality rate during employment	IALM (2012-14) Ultimate	IALM(2006-08) Ultimate

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

e) **The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:**

Principal assumption		**Impact on defined benefit obligation**			
		As at 31st March, 2020		As at 31st March, 2019	
	Changes in assumption	**Increase in assumption**	**Decrease in assumption**	Increase in assumption	Decrease in assumption
a) Discount rate	1.00%	**18.97**	**21.96**	15.37	17.82
b) Salary growth rate	1.00%	**21.92**	**18.97**	17.77	15.39
c) Rate of employee turnover	1.00%	**20.23**	**20.52**	16.37	16.66

Notes:

i) The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance Sheet.

ii) The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous year.

iii) The weighted average duration of the defined benefit obligation as at 31st March, 2020 is 7 years

f) **Maturity profile of defined benefit obligation:**

The tables include both discounted value as well as unwinding of interest.

Particulars	**2020**	2019
Within 1 year	**2.22**	1.72
1 - 2 years	**2.28**	1.74
2 - 3 years	**2.47**	1.86
3 - 4 years	**2.24**	2.08
4 - 5 years	**2.15**	1.84
5 - 10 years	**9.06**	8.04
More than 10 years	**16.52**	15.59

g) **Plan Assets**

The fair value of Company's plan asset by category are as follows:

₹ in Crores

Particulars	**As at 31st March, 2020**	As at 31st March, 2019
Asset category:		
Deposits with Insurance companies	**16.41**	13.00
	100%	100%

h) **Experience Adjustments:**

					₹ in Crores
Particulars	**As at 31st March, 2020**	**As at 31st March, 2019**	**As at 31st March, 2018**	**As at 31st March, 2017**	**As at 31st March, 2016**
	Gratuity				
1. Defined Benefit Obligation	**(20.37)**	(16.51)	(13.76)	(9.52)	(6.60)
2. Fair value of plan assets	**16.41**	13.00	9.87	6.67	4.58
3. Surplus/(Deficit)	**(3.96)**	(3.51)	(3.89)	(2.85)	(2.02)
4. Experience adjustment on plan liabilities [(Gain)/Loss]	**0.77**	(0.02)	1.50	0.22	0.18
5. Experience adjustment on plan assets [Gain/(Loss)]	**0.16**	0.05	0.22	0.03	0.02

i) The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

j) The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

k) The current service cost and the net interest expense for the year are included in the employee benefits expense in profit or loss of the expense for the year.

INDEPENDENT AUDITOR'S REPORT

To the Members of **2 X 2 LOGISTICS PRIVATE LIMITED**

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of **2 X 2 Logistics Private Limited** ("the Company"), which comprise the balance sheet as at 31st March, 2020, and the statement of Profit and Loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and its financial performance including other comprehensive income, changes in equity 2020 and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The company's Board of Directors is responsible for the other information. The other information comprises the Board report.

Our opinion on Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

That Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-A", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

   (c) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

   (d) On the basis of the written representations received from the directors as on 31st March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

   (e) Section 143(3)(i) mandates the auditor to comment on whether the company has an adequate internal financial controls over financial reporting of the company and the operating effectiveness of such controls. In terms of paragraph 5 of Ministry of Corporate Affairs notification number G.S.R. 583 (E) dated June 13, 2017, and as amended from time to time, exemption has been provided to private limited companies fulfilling certain criteria mentioned in the notification, from the applicability of the requirement of reporting in terms of Section 143(3)(i). As the Company meets the relevant criteria specified in the said notification for the Financial Year 2019-20, the requirement of Section 143(3)(i) is not applicable to the Company and accordingly no report has been made under the said clause.

   (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company does not have any pending litigations;

      ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE AUDITOR'S REPORT

Referred to in paragraph 1 of our report of even date on the financial statements of **2 X 2 Logistics Private Limited** for the year ended 31st March 2020

Annexure to the Auditor's Report referred to in our report of even date:

I. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant & Equipment's.

(b) These Property, Plant & Equipment's were physically verified by the Management during the year at reasonable intervals and discrepancies noticed during the verification were not material and have been properly dealt with in the books of accounts.

(c) The Company has no immovable properties and hence Clause 3(i)(c) is not applicable to the Company.

II. The Company is in the business of rendering services, and consequently, does not hold any inventory. Therefore, the provisions of Clause 3(ii) of the said Order are not applicable to the Company.

III. According to the information and explanations given to us, the Company has neither granted nor taken any loans, secured or unsecured to or from companies, firms or other parties covered in the register maintained under Section 189 of the Act, and accordingly provisions of clause 3 (iii) are not applicable to the Company

IV. The Company has not granted any loans or made any investments or provided any guarantees or securities to the parties covered under Section 185 & 186 of the Companies Act, 2013. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the company.

V. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public. Consequently, no order has been passed by the Company Law Board or National Company Law Commission or Reserve Bank of India or any court or any other tribunal on the Company. The clause 3(v), therefore is not applicable to the Company.

VI. On facts, clause 3(vi) relating to maintenance of cost records is not applicable to the Company.

VII. (a) According to the records of the Company and information and explanations given to us, the Company is generally regular in depositing with the appropriate authorities undisputed statutory dues including Provident Fund, Employees' State Insurance, Income Tax, Goods and Service Tax, Customs Duty, value added tax, and other statutory dues applicable to it with the appropriate authorities.

(b) According to the information and explanations given to us and records of the Company examined by us, there are no disputed dues of income tax or sales tax, wealth tax, service tax, duty of customs, duty of excise value added tax and cess which have not been deposited on account of any dispute.

VIII. Based on the records examined by us and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to any financial institution or bank as at the Balance Sheet date.

IX. On the basis of examination of relevant records and according to the information and explanations given to us, the Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) and term loans during the year, and accordingly, Para 3(ix) of the Order is not applicable to the Company.

X. On the basis of our examination of the relevant records of the Company, carried out in accordance with generally accepted auditing practices and according to the information and explanations given to us, no material fraud by the Company or any material fraud on the Company by its officers or employees has been noticed or reported during the year.

XI. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

Section 197 of the Companies Act 2013 is not applicable to a private limited company, hence reporting requirements of section 197(16) does not apply to the Company.

XII. The Company is not a 'Nidhi Company'; therefore, clause 3(xii) of the Companies (Auditor's Report) Order, 2016 is not applicable to the Company.

XIII. On the basis of examination of relevant records and according to the information and explanations given to us, all transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable. The Company has disclosed the details of transactions with related parties in the Financial Statements as required by the applicable accounting standards.

XIV. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under audit; therefore, clause 3(xiv) of the Companies (Auditor's Report) Order, 2016 is not applicable to the company.

XV. On the basis of examination of relevant records and according to the information and explanations given to us, in our opinion, the Company has not entered into any non-cash transactions with directors or persons connected with them.

XVI. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provision of Clause 3(xvi) of the Order are not applicable to the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

Notes to Accounts – Part A

Corporate Information

2 X 2 Logistics Private Limited is a deemed public limited company incorporated on 22nd October, 2012 under the Companies Act, 1956. The Company is engaged in providing logistics services to its Customers. The financial statements for the period ended 31st March, 2020 were approved for issue in accordance with a resolution of the directors on 16th May, 2020.

1. Significant accounting policies

1.1 Statement of compliance

The financial statements have been prepared in accordance with the provisions of Companies Act, 2013 and the Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016, specified under Section 133 of the Act. The financial statements are separate financial statements.

1.2 Basis of preparation and presentation

The financial statements have been prepared on accrual basis and the historical cost basis as a going concern except for certain financial instruments that are measured at fair values or at amortised cost, wherever applicable, at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in this financial statement is determined on such basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

Assets and Liabilities are classified as Current or Non Current as per the provisions of Schedule III to the Companies Act, 2013 and Company's Normal Operating Cycle. Based on the nature of business, the Company has ascertained its operating cycle as 12 months for the classification of assets and liabilities.

The financial statements are prepared in Indian Rupee(INR) and denominated in lakhs.

The principal accounting policies are set out below.

1.3 Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

1.3.1 Rendering of services

Incomes from logistics services rendered are recognised on the completion of the services as per the terms of contract. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

1.3.2 Dividend and interest income

Dividend income from investments is recognised when the right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

1.4 Leasing

The Company's significant operating leasing arrangements are in respect of office premises and IT related equipments. Lease rentals are recognised as per the terms of lease.

Rental expense from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognised in the year in which such benefits accrue.

1.5 Borrowing costs

Borrowing Cost that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue in the year of incurrence.

1.6 Employee benefits

1.6.1 Retirement benefit costs and termination benefits

Defined Contribution Plan:

Company's contributions paid/payable during the year to the Superannuation Fund, ESIC, Provident Fund and Labour Welfare Fund are recognised in the Statement of Profit and Loss.

Defined Benefits:

For defined retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

1.6.2 Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

1.7 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1.7.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

1.7.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

1.7.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

1.8 Property, plant and equipment

All fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost of acquisition is inclusive of purchase price, levies and any directly attributable cost of bringing the assets to its working condition for the intended use. Subsequent costs are included in the assets carrying amount or recognised as separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the company and cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to Statement of profit and loss during the reporting period in which they are incurred.

Depreciation on tangible assets is charged by the Straight Line Method (SLM) in accordance with the useful lives specified in Part – C of Schedule II of the Companies Act, 2013 on a pro-rata basis except for following assets in order to reflect the actual usage of the assets:

- Horse portion of a Vehicle is depreciated over five years based on the management experience of handling similar kind of asset.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

1.9 Intangible assets

1.9.1 Intangible assets acquired separately

The useful lives of intangible assets are assessed as either finite or infinite. Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

1.9.2 Useful lives of intangible assets

The expenditure incurred is amortised over three financial years equally commencing from the year in which the expenditure is incurred.

1.10 Impairment of tangible and intangible assets other than goodwill

The Management of the Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the management estimates the recoverable amount of the asset. If such recoverable amount of the asset is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and recognised in the Statement of Profit and Loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

1.11 Provisions, Contingent Liabilities & Contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

A contingent asset is disclosed where an inflow of economic benefits is probable.

1.12 Financial instruments

Financial assets and financial liabilities are recognised when a company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

1.13 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

1.13.1 <u>Classification of financial assets</u>

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the impairment policy on financial assets measured at amortised cost, refer Note 1.13.3

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments.

All other financial assets are subsequently measured at fair value.

1.13.2 <u>Effective interest method</u>

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the “Other income” line item.

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the ‘Other income’ line item. Dividend on financial assets at FVTPL is recognised when the Company’s right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity and the amount of dividend can be measured reliably.

1.13.3 <u>Impairment of financial assets</u>

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

1.13.4 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognise under continuing involvement, and the part it no longer recognises on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognised and the sum of the consideration received for the part no longer recognised and any cumulative gain or loss allocated to it that had been recognised in other comprehensive income is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognised in other comprehensive income is allocated between the part that continues to be recognised and the part that is no longer recognised on the basis of the relative fair values of those parts.

1.14 Financial liabilities and equity instruments

1.14.1 Classification as debt or equity

Debt and equity instruments issued by a company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

1.14.2 Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a company entity are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

1.14.3 Compound financial instruments

The component parts of compound financial instruments (convertible notes) issued by the Company are classified separately as financial liabilities and equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument. A conversion option that will be settled by the exchange of a fixed amount of cash or another financial asset for a fixed number of the Company's own equity instruments is an equity instrument.

At the date of issue, the fair value of the liability component is estimated using the prevailing market interest rate for similar non-convertible instruments. This amount is recognised as a liability on an amortised cost basis using the effective interest method until extinguished upon conversion or at the instrument's maturity date.

The conversion option classified as equity is determined by deducting the amount of the liability component from the fair value of the compound financial instrument as a whole. This is recognised and included in equity, net of income tax effects, and is not subsequently remeasured. In addition, the conversion option classified as equity will remain in equity until the conversion option is exercised, in which case, the balance recognised in equity will be transferred to other component of equity. When the conversion option remains unexercised at the maturity date of the convertible note, the balance recognised in equity will be transferred to retained earnings. No gain or loss is recognised in profit or loss upon conversion or expiration of the conversion option.

1.14.4 Financial liabilities

All financial liabilities are subsequently measured at amortised cost or at FVTPL.

1.14.4.1 Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognised by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

- it has been incurred principally for the purpose of repurchasing it in the near term; or
- on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognised by the Group as an acquirer in a business combination to which Ind AS 103 applies, may be designated as at FVTPL upon initial recognition if:

- such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
- the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
- it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

1.14.4.2 Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

1.15 Segment Accounting:

The Company has single reportable segment "Supply chain management" for the purpose of Segment reporting.

1.16 Earnings Per Share:

Basic and diluted earnings per share is computed by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year.

2A. Critical accounting judgements and key sources of estimation uncertainty

2A. In the application of the Company's accounting policies, which are described in note 1, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

2A.1.1 Useful lives of Property, plant and equipment

As described in note 2 above, the Company reviews the estimated useful lives of property, plant and equipment at the end of each annual reporting period.

2A.1.2 Defined Benefit Plans:

The cost of the defined benefit plans and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making assumptions that may differ from actual developments in the future. These include the determination of discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

2B. COVID-19:

The Company has accounted significant accounting estimates which have been disclosed in the financial statements.

These includes fair valuation of financial assets, testing of impairment of assets, going concern assessment etc. requiring significant management judgement in estimating the same. Considering the continuing COVID-19 pandemic, the results in upcoming period may significantly vary and may affect the recoverability of assets. However, this will depend upon future developments including actions taken to contain or treat the disease and to mitigate its impact on the economy.

The Company, based on internal & external sources of information, has assessed that as a result of Covid-19 outbreak, there is no significant financial impact on the financial statements for the year ended March 31, 2020 as at the date of approval of these financial statements.

d) Expenses not allowed for tax purpose	**–**	–
Income tax expense recognised In profit or loss.....	**(46.89)**	48.85

Note:

The tax rate used in reconciliations above is the corporate tax rate of 25% (plus surcharge and cess as applicable) on taxable profits under Income Tax Act, 1961.

Note No. 26 - Earnings Per Share

Rs. in Lakhs

Particulars	Year ended 31st March 2020	Year ended 31st March 2019
A. Basic Earnings Per Share (in Rs.) (face value in Rs. 10/- per share)	**(1.35)**	1.41
B. Diluted Earnings Per Share (in Rs.) (face value in Rs. 10/- per share)	**(1.35)**	1.41

Notes:

i) Basic Earnings Per Share

The earnings and weighted average number of ordinary shares used in the calculation of basic earnings per share are as follows:

Rs. in Lakhs

Particulars	Year ended 31st March 2020	Year ended 31st March 2019
Profit / (loss) for the period attributable to owners of the Company	**-121.37**	126.70
Profit / (loss) for the period used in the calculation of basic earnings per share	**-121.37**	126.70
Weighted average number of equity shares	**90.10**	90.10
Earnings per share from continuing operations - Basic (in Rs.)	**(1.35)**	1.41

ii) Diluted Earnings Per Share

The diluted earnings per share has been computed by dividing the Net profit after tax available for Equity shareholders by the weighted average number of equity shares, after giving the effect of the dilutive potential ordinary shares for the respective years.

Rs. in Lakhs

Particulars	Year ended 31st March 2020	Year ended 31st March 2019
a) Profit / (loss) for the period used in the calculation of basic earnings per share	**-121.37**	126.70
b) Add: adjustments on account of dilutive potential equity shares	**–**	–
Profit / (loss) for the period used in the calculation of diluted earnings per share	**-121.37**	126.70

iii) Reconciliation of weighted average number of equity shares

The weighted average number of equity shares for the purpose of diluted earnings per share reconciles to the weighted average number of equity shares used in the calculation of basic earnings per share as follows:

Rs. in Lakhs

Particulars	Year ended 31st March 2020	Year ended 31st March 2019
Weighted average number of equity shares used in the calculation of Basic EPS	**90.10**	90.10
Add: Effect of ESOPs	**–**	–
Weighted average number of equity shares used in the calculation of Diluted EPS	**90.10**	90.10

Note No. 27- Financial Instruments

I. Capital management Policy

a) The Company's capital management objectives are:

– to ensure the Company's ability to continue as a going concern.

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

b) For the purpose of Company's capital management, capital includes issued share capital, equity and all other equity reserves. The Company monitors capital on the basis of the carrying amount of equity as presented on the face of the statement of financial position. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

c) The following table shows the components of capital:

		Rs. in Lakhs
Particulars	**As at 31st March 2020**	As at 31st March 2019
Equity	**909.56**	1,031.28
Capital	**909.56**	1,031.28

Note:

The above capital management disclosures are based on the information provided internally to key management personnel.

The Company is not subject to externally enforced capital regulation.

II. Categories of financial assets and financial liabilities

b) Current Maturities of long term Debt	918.18	–	–	918.18
c) Short Term Borrowing	555.05	–	–	555.05
d) Other Financial Liabilities	–	–	–	–
Total	2,482.14	–	–	2,482.14

III) Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk and liquidity risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

A) Credit risk management

Trade receivables and deposits

(i) Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties. The company yearically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Credit exposure is controlled by counterpaty credit year which is monitored through an approved policy.

(ii) Trade receivables consist of a small number of customers.

(iii) One of the customer of the Company, which is also a group company accounts for more than 10% of total outstanding exposure. However since such customer is also a group company, the Company does not anticipate any credit risk.

(iv) The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses.

(v) There is no change in estimation techniques or significant assumptions during the reporting year.

(vi) During the year, the company has not made any write off on trade receivable and advances. These trade receivables and advances are not subject to enforcement activity.

b) Liquidity risk management

(i) The company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the company's net liquidity position through rolling forecasts on the basis of expected cash flows.

(ii) Maturities of financial liabilities

Table showing maturity profile of financial liabilites

Rs. in Lakhs

Particulars	**As at 31st March 2020** Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
A) Non-derivative financial liabilities				
a) Trade Payables	**1,365.43**	–	–	–
b) Long term debt	–	**231.09**	–	–
c) Current maturities of long term debt	**657.60**	–	–	–
d) Employee Dues	–	–	–	–
e) Short Term Borrowings	**602.89**	–	–	–
Total	**2,625.92**	**231.09**	–	–

Particulars	As at 31st March 2019 Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
A) Non-derivative financial liabilities				
a) Trade Payables	1,008.91	–	–	–
b) Long term debt	–	856.34	32.35	–
c) Current maturities of long term debt	918.18	–	–	–
d) Employee Dues	–	–	–	–
e) Short Term Borrowings	555.05	–	–	–
Total	2,482.14	856.34	32.35	–

The above table details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

The contractual maturity is based on the earliest date on which the Company may be required to pay.

(iii) Financing arrangements

The Company has access to following undrawn borrowing facilities at the end of the reporting year:

Rs. in Lakhs

Particulars	**As at 31st March 2020**	As at 31st March 2019
a) Unsecured Bank Overdraft facility		
- Expiring within one year	**97.11**	144.95
- Expiring beyond one year	–	–

(iv) Maturities of financial assets

Table showing maturity profile of financial assets

Rs. in Lakhs

Particulars	**As at 31st March 2020** Less than 1 Year In Rs. Lakhs	1-3 Years In Rs. Lakhs	3 Years to 5 Years In Rs. Lakhs	5 years and above In Rs. Lakhs
Non-derivative financial assets				
Trade Receivables	174.97	–	–	–
Security Deposits	1.31	–	–	–
Others	327.49	–	–	–
Total	503.77	–	–	–

Rs. in Lakhs

Particulars	Less than 1 Year In Rs. Lakhs	1-3 Years In Rs. Lakhs	3 Years to 5 Years In Rs. Lakhs	5 years and above In Rs. Lakhs
	As at 31st March 2019			
Non-derivative financial assets				
As at 31st March 2019				
Trade Receivables	587.76	–	–	–
Security Deposits	1.31	–	–	–
Others	385.79	–	–	–
Total	974.86	–	–	–

The above table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

c) Market Risk Management

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

There has been no significant changes to the company's exposure to market risk or the methods in which they are managed or measured.

Interest rate risk

								Rs. in Lakhs
Nature of Liability	**Nature of Borrowing**	**Type of Interest**	**Rate of interest**	**Loan amount outstanding as at year end**	**Increase in Base Rate**	**Sensitivity Impact on P&L (pre-tax)**	**Decrease in Base Rate**	**Sensitivity Impact on P&L (pre-tax)**
As at 31st March, 2020	**Bank Overdraft**	**Floating**	**8.20%**	**602.89**	**1.00%**	**(6.03)**	**1.00%**	**6.03**
As at 31st March, 2019	Bank Overdraft	Floating	8.75%	555.05	1.00%	(5.55)	1.00%	5.55

Note No. 28 - Fair Value Measurement

a) Fair value of financial assets and financial liabilities that are measured at amortised cost:

Rs. in Lakhs

Particulars	31st March 2020 Carrying amount	31st March 2020 Fair value	31st March 2019 Carrying amount	31st March 2019 Fair value

i) Trade payables	14.66 (2.85)	2.42 (7.07)
j) Trade receivables & others	112.00 (444.27)	62.27 (140.81)
k) Loan Payable	– –	– –

iii) All the outstanding balances, whether receivables or payables(Except Loan payable) are unsecured.

iv) All the Previous year balances are shown in Bracket.

Note No. 30 - Employee benefits

i) Defined Contribution Plan

The Company's contribution to Provident Fund, Superannuation Fund and other Funds aggregating Rs. 6.02 lakhs (2018 : Rs. 5.68 lakhs) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

ii) Defined Benefit Plans:

Gratuity

a) The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

b) Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

(1) Change in bond yields

A decrease in government bond yields will increase plan liabilities.

(2) Inflation risk

Defined benefit obligations are linked to inflation, and higher inflation will lead to higher liabilities (although caps on the level of inflationary increases are in place to protect the plan against extreme inflation).

(3) Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

c) **Significant Actuarial Assumptions**

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Rs. in Lakhs

Particulars	Valuation **As at 31st March 2020**	 As at 31st March 2019
a) Discount rate(s)	**6.60%**	7.50%
b) Expected rate(s) of salary increase	**8.00%**	8.00%
c) Mortality rate during employment	**IALM(2012-14) Ultimate**	IALM(2006-08) Ultimate

d) **Defined benefit plans – as per actuarial valuation**

Particulars	Non Funded Plan - Gratuity **As at 31st March 2020**	 As at 31st March 2019
I. Amounts recognised in comprehensive income in respect of these defined benefit plans are as follows:		
a) Current Service Cost	**2.27**	1.37
b) Past service cost and (gains)/losses from settlements	–	–
c) Net interest expense	–	–
Components of defined benefit costs recognised in profit or loss	**2.27**	1.37
Remeasurement on the net defined benefit liability		
a) Return on plan assets (excluding amount included in net interest expense)	–	–
b) Actuarial (gains)/loss arising form changes in financial assumptions	–	–
c) Actuarial (gains)/loss arising form changes in demographic assumptions	–	–
d) Actuarial (gains)/loss arising form experience adjustments	–	–
Components of defined benefit costs recognised in other comprehensive income	–	–
Total	**2.27**	1.37

Particulars	Non Funded Plan - Gratuity **As at 31st March 2020**	 As at 31st March 2019
II. Net Asset/(Liability) recognised in the Balance Sheet as at 31st March		
a) Present value of defined benefit obligation	**5.74**	3.47
b) Fair value of plan assets	–	–
c) Surplus/(Deficit)	**5.74**	3.47
d) Current portion of the above	–	–
e) Non current portion of the above	**5.74**	3.47
III. Change in the obligation during the year ended 31st March		
a) Present value of defined benefit obligation at the beginning of the period	**3.47**	2.10
b) Add/(Less) on account of Scheme of Arrangement/ Business	–	–
c) Transfer	–	–
d) *Expenses Recognised in Profit and Loss Account*		
- Current Service Cost	**1.53**	1.31
- Past Service Cost	–	–
- Interest Expense (Income)	**0.26**	0.16
e) *Recognised in Other Comprehensive Income*		
Remeasurement gains/(losses)		
- Actuarial Gain (Loss) arising from:		
i. Financial Assumptions	**0.41**	0.06
ii. Demographic Assumptions	–	–
iii. Experience Adjustments	**0.07**	(0.16)
f) Benefit payments	–	–
g) Present value of defined benefit obligation at the end of the period	**5.74**	3.47
IV. Change in fair value of assets during the year ended 31st March		
i) Fair value of plan assets at the beginning of the period	–	–
ii) *Expenses Recognised in Profit and Loss Account*		
- Expected return on plan assets	–	–
iii) *Recognised in Other Comprehensive Income*		
Remeasurement gains/(losses)		
- Actual Return on plan assets in excess of the expected return	–	–
iv) Contributions by employer (including benefit payments recoverable)	–	–
v) Benefit payments	–	–
vi) Fair value of plan assets at the end of the period	–	–
V. The Major categories of plan assets		
- Insurance Funds	–	–
VI. Actuarial assumptions		
a) Discount rate	**6.60%**	7.50%
b) Expected rate of return on plan assets	**6.60%**	7.50%
c) Attrition rate	**11.00%**	11.00%

e) **The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:**

Principal assumption	Changes in assumption	Impact on defined benefit obligation As at 31st March 2020 Increase in assumption	 Decrease in assumption	 As at 31st March 2019 Increase in assumption	 Decrease in assumption
a) Discount rate	1.00%	**(0.45)**	**0.53**	(0.28)	0.33
b) Salary growth rate	1.00%	**0.51**	**(0.45)**	0.32	(0.29)
c) Rate of employee turnover	50.00%	**(0.34)**	**0.57**	(0.32)	0.38

Notes:

i) The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

ii) The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

iii) The weighted average duration of the defined benefit obligation as at 31st March 2020 is 9 years

f) **Maturity profile of defined benefit obligation:**

The tables include both discounted value as well as unwinding of interest.

Particulars	**2020**	2019
Within 1 year	**0.45**	0.01
2-5 years	**2.23**	1.52
6-10 years	**2.72**	1.97
More than 10 years	**6.24**	4.48

g) **Experience Adjustments:**

Rs. in Lakhs

Particulars	**As at 31st March 2020**	As at 31st March 2019
	Gratuity	
1. Defined Benefit Obligation	**(5.74)**	(3.47)
2. Fair value of plan assets	–	–
3. Surplus/(Deficit)	**5.74**	3.47
4. Experience adjustment on plan liabilities [(Gain)/Loss]	–	–
5. Experience adjustment on plan assets [Gain/(Loss)]	–	–

h) The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation.

i) The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

j) The current service cost and the net interest expense for the period are included in the employee benefits expense in profit or loss of the expense for the year.

All amounts are in Rs. Lakhs unless otherwise stated

Note No. 31 - MSME disclosures

(i) Disclosures required under Section 22 of the Micro, Small and Medium Enterprises Development Act, 2006

Particulars	**Year ended 31st March 2020**	Year ended 31st March 2019
i. Principal amount remaining unpaid to any supplier as at the end of the accounting year	**22.81**	25.71
ii. Interest due thereon remaining unpaid to any supplier as at the end of the accounting year	–	–
iii. The amount of interest paid along with the amounts of the payment made to the supplier beyond the appointed day	–	–
iv. The amount of interest due and payable for the year	–	–
v. The amount of interest accrued and remaining unpaid at the end of the accounting year	–	–
vi. The amount of further interest due and payable even in the succeeding year, until such date when the interest dues as above are actually paid	–	–

Dues to micro and small enterprises have been determined to the extent such parties have been identified on the basis of information collected by the management. This has been relied upon by the auditors.

The accompaying notes 1 to 31 are integral part of these financial statement.

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying financial statements of **LORDS FREIGHT (INDIA) PRIVATE LIMITED** ("the Company"), which comprise the balance sheet as at March 31, 2020, and the statement of profit and loss (including other comprehensive income), the statement of cash flows and the statement of changes in equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and its financial performance including other comprehensive income, changes in equity 2020 and its cash flows for the year ended on that date

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The company's Board of Directors is responsible for the other information. The other information comprises the Board report.

Our opinion on Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014 (as amended).

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

INDEPENDENT AUDITOR'S REPORT

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-I", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
   (e) On the basis of the written representations received from the directors as on 31st March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure II".

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company does not have any pending litigations;

ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE I TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in Paragraph 9 of our report of even date on the financial statements of LORDS FREIGHT (INDIA) PRIVATE LIMITED for the year ended March 31, 2020.

Annexure to the Auditor's Report referred to in our report of even date:

I. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of the fixed assets.

(b) These fixed assets were physically verified by the Management during the year at reasonable intervals and discrepancies noticed during the verification were not material and have been properly dealt with in the books of accounts.

(c) There is no immovable property held by Company.

II. The company has no inventories hence Clause 3 (ii) is not applicable to the Company

III. The Company has not granted any loans to parties covered in the register maintained under section 189 of Companies Act, 2013. Therefore, clause 3(iii) (a), (b) & (c) of the Companies (Auditor's Report) Order, 2016 is not applicable to the company.

IV. The Company has not granted any loans or made any investments, or provided any guarantees or securities to the parties covered under Section 185 & 186 of the Companies Act, 2013. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the company.

V. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public. Consequently, no order has been passed by the Company Law Board or National Company Law Commission or Reserve Bank of India or any court or any other tribunal on the Company. The clause 3(v), therefore is not applicable to the company.

VI. As informed to us maintenance of cost records Under Section 148(1) of the Companies Act, 2013 is not prescribed to the Company.

VII. (a) According to the records of the Company and information and explanations given to us, the Company has been regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income tax, sales tax, service tax, goods & service tax, duty of customs, duty of excise, value added tax, cess and other applicable statutory dues with the appropriate authorities

(b) According to the information and explanations given to us and records of the Company examined by us ,there are no disputed dues of income tax or sales tax, wealth tax, service tax, duty of customs, duty of excise value added tax and cess which have not been deposited on account of any dispute.

VIII. Based on the records examined by us and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to any financial institution or bank as at the Balance Sheet date.

IX. On the basis of examination of relevant records and according to the information and explanations given to us, the Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) and term loans during the year, and accordingly, Para 3(ix) of the Order is not applicable to the Company.

X. To the best of our knowledge and according to the information and explanations given to us, Bangalore branch had done excess revenue accruals (in form of unbilled revenue) in Q1 and Q2, People who were involved have been asked to resigned with immediate effect.

XI. As the company is a private limited company hence Section 197 read with Schedule V to the Companies Act, 2013 is not applicable to company.

XII. The Company is not a 'Nidhi Company'; therefore, clause 3(xii) of the Companies (Auditor's Report) Order, 2016 is not applicable to the Company.

XIII. On the basis of examination of relevant records and according to the information and explanations given to us, all transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable. The Company has disclosed the details of transactions with related parties in the Financial Statements as required by the applicable accounting standards.

XIV. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under audit; therefore, clause 3(xiv) of the Companies (Auditor's Report) Order, 2016 is not applicable to the company.

XV. On the basis of examination of relevant records and according to the information and explanations given to us, in our opinion, the Company has not entered into any non-cash transactions with directors or persons connected with them.

XVI. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

ANNEXURE II TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **LORDS FREIGHT (INDIA) PRIVATE LIMITED** ("the Company") as of March 31, 2020 in conjunction with our audit of the financial statements of the Company for year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls with reference to financial statements issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that operate effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls With reference to financial statements (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2020, based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls With reference to financial statements issued by the Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended 31st March, 2020

1. Corporate information

LORDS Freight (India) Pvt Ltd is a private limited company incorporated on 25th April, 2011 under the Companies Act, 1956. The Company's main activities are freight forwarding including transportation of goods via sea & air.

The financial statements for the year ended 31st March, 2020 are approved for issue in accordance with a resolution of the directors on 15th May, 2020.

2. Significant accounting policies

2.1. Statement of compliance

The financial statements have been prepared in accordance with the provisions of Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016, specified under Section 133 of the Act. The financial statements are separate financial statements.

2.2. Basis of preparation and presentation

The financial statements have been prepared on accrual basis and the historical cost basis as a going concern except for certain financial instruments that are measured at fair values or at amortized cost, wherever applicable, at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in this financial statement is determined on such basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realizable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

The financial statements are prepared in Indian Rupee (INR) and denominated in lakhs. The principal accounting policies are set out below.

2.3. Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

2.3.1. Rendering of services

Incomes from logistics services rendered are recognized on the completion of the services as per the terms of contract. Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

2.3.2. Dividend and interest income

Dividend income from investments is recognized when the right to receive payment has been established (provided that it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably).

Interest income from a financial asset is recognized when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.4. Leasing

The Company's significant operating leasing arrangements are in respect of office premises, warehouse, warehouse equipments and IT related equipments. Lease rentals are recognized as per the terms of lease.

Rental expense from operating leases is generally recognized on a straight-line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases, such increases are recognized in the year in which such benefits accrue.

2.5. Foreign currencies

The Financial statement are presented in rupees in lacs, which is also Company's functional currency.

i. Initial recognition

Transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions.

ii. Conversion

a. Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognized in the Statement of Profit and Loss.

b. Non-monetary items, if any are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

iii. Exchange differences

The Company accounts for exchange differences arising on translation/settlement of foreign currency monetary items as below:

a. Realized gains and losses on settlement of foreign currency transactions are recognized in the Statement of Profit and Loss.

b. Foreign currency monetary assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognized in the Statement of Profit and Loss.

2.6. Borrowing costs

Borrowing Cost that are attributable to the acquisition or construction of qualifying assets are capitalized as part of the cost of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are charged to revenue in the year of incurrence.

2.7. Employee benefits

2.7.1. Retirement benefit costs and termination benefits

i. Defined Contribution Plan :

Company's contributions paid/payable during the year to the Superannuation Fund, ESIC, Provident Fund and Labour Welfare Fund are recognized in the Statement of Profit and Loss.

ii. Defined Benefits Plan:

For defined retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognized in other comprehensive income

in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorized as follows:

a. service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);

b. net interest expense or income; and

c. remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognized in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

2.7.2. Short-term and other long-term employee benefits

A liability is recognized for benefits accruing to employees in respect of wages and salaries.

Liabilities recognized in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognized in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

2.8. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.8.1. Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.8.2. Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognized if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.8.3. Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

2.9. Property, plant and equipment

All items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost of acquisition is inclusive of purchase price, levies and any directly attributable cost of bringing the assets to its working condition for the intended use. Subsequent costs are included in the assets carrying amount or recognized as separate asset, as appropriate, only when it is probable that the future economic benefits associated with the item will flow to the company and cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of profit and loss during the reporting period in which they are incurred. Depreciation on tangible assets is charged by the Straight Line Method (SLM) in accordance with the useful lives specified in Part – C of Schedule II of the Companies Act, 2013 on a pro-rata basis except in the case of:

I. Assets costing less than Rs.5000/- which are fully depreciated in the year of purchase.

The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

2.10. Intangible assets

2.10.1. Intangible assets acquired separately

The useful lives of intangible assets are assessed as either finite or infinite. Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

2.10.2. Useful lives of intangible assets

The expenditure incurred is amortized over ten financial years equally commencing from the year in which the expenditure is incurred.

2.11. Impairment of tangible and intangible assets other than goodwill

The management of the Company assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the management estimates the recoverable amount of the asset. If such recoverable amount of the asset is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and recognized in the Statement of Profit and Loss. If at the balance sheet date there is an indication that if a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of depreciated historical cost.

2.12. Provisions, Contingent Liabilities & Contingent assets

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

A contingent asset is disclosed where an inflow of economic benefits is probable.

2.13. Financial instruments

Financial assets and financial liabilities are recognized when a company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

2.14. Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a settlement date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognized financial assets are subsequently measured in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

2.14.1. Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortized cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

i. the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and

ii. the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the impairment policy on financial assets measured at amortized cost, refer Note 2.14.3

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

i. the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and

ii. the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognized in profit or loss for FVTOCI debt instruments.

All other financial assets are subsequently measured at fair value.

2.14.2. Effective interest method

The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that

form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognized on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognized in profit or loss and is included in the "Other income" line item.

2.14.3. Impairment of financial assets

The Company applies the expected credit loss model for recognizing impairment loss on financial assets measured at amortized cost, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

2.14.4. Derecognition of financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

On derecognition of a financial asset other than in its entirety (e.g. when the Company retains an option to repurchase part of a transferred asset), the Company allocates the previous carrying amount of the financial asset between the part it continues to recognize under continuing involvement, and the part it no longer recognizes on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognized and the sum of the consideration received for the part no longer recognized and any cumulative gain or loss allocated to it that had been recognized in other comprehensive income is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset. A cumulative gain or loss that had been recognized in other comprehensive income is allocated between the part that continues to be recognized and the part that is no longer recognized on the basis of the relative fair values of those parts.

2.14.5. Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortized cost and FVTPL, the exchange differences are recognized in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognized in other comprehensive income.
- For the purposes of recognizing foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortized cost. Thus, the exchange differences on the amortized cost are recognized in profit or loss and other changes in the fair value of FVTOCI financial assets are recognized in other comprehensive income.

2.15. Financial liabilities and equity instruments

2.15.1. Classification as debt or equity

Debt and equity instruments issued by a company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.15.2. Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a company entity are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

2.15.3. Financial liabilities

All financial liabilities are subsequently measured at amortized cost or at FVTPL.

i. Financial liabilities at FVTPL

Financial liabilities are classified as at FVTPL when the financial liability is either contingent consideration recognized by the Company as an acquirer in a business combination to which Ind AS 103 applies or is held for trading or it is designated as at FVTPL.

A financial liability is classified as held for trading if:

a. it has been incurred principally for the purpose of repurchasing it in the near term; or
b. on initial recognition it is part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or
c. it is a derivative that is not designated and effective as a hedging instrument.

A financial liability other than a financial liability held for trading or contingent consideration recognized by the Group as an acquirer in a business combination to which Ind AS 103 applies, may be designated as at FVTPL upon initial recognition if:

a. such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise;
b. the financial liability forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Group's documented risk management or investment strategy, and information about the grouping is provided internally on that basis; or
c. it forms part of a contract containing one or more embedded derivatives, and Ind AS 109 permits the entire combined contract to be designated as at FVTPL in accordance with Ind AS 109.

ii. Financial liabilities subsequently measured at amortized cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortized cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortized cost are determined based on the effective interest method. Interest expense that is not capitalized as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

2.16. Segment Accounting:

The VP/Whole Time Director monitors the operating results of the business segments separately for the purpose of making decisions about the allocation of resources and performance assessment. Segment performance is measured based on profit or loss and is measured consistently with profit or loss in financial statements.

2.17. Earnings per Share:

Basic and diluted earnings per share is computed by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of Equity Shares outstanding during the year.

2.18. First-time adoption – mandatory exceptions, optional exemptions

2.18.1. Overall Principle

The Company has prepared the opening balance sheet as per Ind AS as of 1 April 2015 (the transition date) by recognizing all assets and liabilities whose recognition is required by Ind AS, not recognizing items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognized assets and liabilities. However, this principle is subject to the certain exception and certain optional exemptions availed by the Company as detailed below.

2.18.2. Deemed cost for property, plant and equipment, investment property, and intangible assets

The Company has not opted the exemption of using previous GAAP carrying value of all its Property, Plant and Equipment, and Intangible Assets recognized as of 1 April 2015 (transition date) as deemed cost.

2.18.3. Determining whether an arrangement contains a lease

The Company has applied Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

2.18.4. Derecognition of financial assets and financial liabilities

The company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after 1 April 2015 (the transition date).

2.18.5. Impairment of financial assets

The entity has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognized in order to compare it with the credit risk at the transition date. Further, the entity has not undertaken an exhaustive search for information when determining, at the date of transition to Ind AS, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

3.1. Defined Benefit Plans:

The cost of the defined benefit plans and other post-employment benefits and the present value of such obligation are determined using actuarial valuations. An actuarial valuation involves making assumptions that may differ from actual developments in the future. These include the determination of discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

4. Ind AS 116 – 'Leases':-

The Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings, furniture & fixtures and vehicles. The company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the company assesses whether: (1) the contract involves the use of an identified asset (2) the company has substantially of the economic benefits from use of the asset throughout the period of the lease and (3) the company has the right to direct the use of the asset throughout the period of use.

At the date of commencement of the lease, the company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements include the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Transition

Effective April 1, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the lessee's incremental borrowing rate at the date of initial application.

On transition, the adoption of the new standard resulted in recognition of 'Right of Use' asset of ₹75.37 lakhs and a lease liability of ₹75.37 lakhs. The cumulative effect of applying the standard, amounting to ₹20.28 lakhs was debited to retained earnings, net of taxes. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The following is the summary of practical expedients elected on initial application:

1. Applied a single discount rate to a portfolio of leases of similar assets in similar economic environment with a similar end date.
2. Applied the exemption not to recognize right-of-use assets and liabilities for leases with less than 12 months of lease term on the date of initial application.
3. Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application.
4. Applied the practical expedient to grandfather the assessment of which transactions are leases. Accordingly, Ind AS 116 is applied only to contracts that were previously identified as leases under Ind AS 17.

The difference between the lease obligation recorded as of March 31, 2019 under Ind AS 17 disclosed under Note No. 24 of annual financial statements forming part of 2019 Annual Report and the value of the lease liability as of April 1, 2019 is primarily on account of inclusion of extension and termination options reasonably certain to be exercised, in measuring the lease liability in accordance with Ind AS 116 and discounting the lease liabilities to the present value under Ind AS 116.

The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2019 is 8.85%.

Note No. 5 - Property, Plant and Equipment

For the year ended 31st March, 2020

Note No. 26 – Earnings per Share

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
	Per Share	Per Share
A. Basic Earnings per share	**6.36**	3.67
Total basic earnings per share	**6.36**	3.67
B. Diluted Earnings per share	**6.36**	3.67
Total diluted earnings per share	**6.36**	3.67

Notes:

i) Basic earnings per share

The earnings and weighted average number of ordinary shares used in the calculation of basic earnings per share are as follows:

₹ in lacs

Particulars	For the year ended 31st March, 2020	For the year ended 31st March, 2019
a) Profit/(loss) for the year attributable to owners of the Company	**150.36**	86.65
b) Less: Preference dividend and tax thereon	–	–
Profit/(loss) for the year used in the calculation of basic earnings per share	**150.36**	86.65
Total number of equity shares	**2,362,509**	2,362,509
Earnings per share from continuing operations – Basic	**6.36**	3.67

ii) Diluted Earnings Per Share

The diluted earnings per share has been computed by dividing the Net profit after tax available for Equity shareholders by the weighted average number of equity shares, after giving the effect of the dilutive potential ordinary shares for the respective periods.

Particulars	As at 31st March, 2020	As at 31st March, 2019
a) Profit/(loss) for the year used in the calculation of basic earnings per share	**150.36**	86.65
b) Add: adjustments on account of dilutive potential equity shares	–	–
Profit/(loss) for the year used in the calculation of diluted earnings per share	**150.36**	86.65

iii) Reconciliation of weighted average number of equity shares

The weighted average number of equity shares for the purpose of diluted earnings per share reconciles to the weighted average number of equity shares used in the calculation of basic earnings per share as follows:

Particulars	As at 31st March, 2020	As at 31st March, 2019
Weighted average number of equity shares used in the calculation of Basic EPS	**2,362,509.00**	2,362,509.00
Add: Effect of Adjustments	–	–
Weighted average number of equity shares used in the calculation of Diluted EPS	**2,362,509.00**	2,362,509.00

Note No. 27 – Financial Instruments

I. Capital management Policy

a) The company's capital management objectives are:

– to ensure the company's ability to continue as a going concern.

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

b) For the purpose of company's capital management, capital includes issued share capital, equity as well as preference and all other equity reserves. The company monitors capital on the basis of the carrying amount of equity as presented on the face of the statement of financial position. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

c) The following table shows the components of capital:

Particulars	As at 31st March, 2020	As at 31st March, 2019
Equity	**962.08**	811.72
Capital	**962.08**	811.72

Note:

The above capital management disclosures are based on the information provided internally to key management personnel.

III. Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk and liquidity risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

A) Credit risk management

Trade receivables and deposits

(i) Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties. The company periodically assesses the financial reliability of customers, taking into account the financial condition, current economic trends, and analysis of historical bad debts and ageing of accounts receivable. Credit exposure is controlled by counterpaty credit period which is monitored through an approved policy.

(ii) Trade receivables consist of a large number of customers, spread across diverse industries and places across India.

(iii) Apart from one large customer of the company, the company does not have significant credit risk exposure to any single customer. Concentration of credit risk related to a single company did not exceed 15 % of gross monetary assets at any time during the year.

(iv) The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses.

(v) There is no change in estimation techniques or significant assumptions during the reporting period.

(vi) The loss allowance provision is determined as follows:

As at 31st March, 2020

Particulars	Not due	Less than 6 months past due	More than 6 months past due	Total
a) Gross carrying amount	**2,790.64**	**2,884.45**	**572.38**	**6,247.47**
b) Loss allowance provision	**43.25**	**44.71**	**151.50**	**239.46**

As at 31st March, 2019

Particulars	Not due	Less than 6 months past due	More than 6 months past due	Total
a) Gross carrying amount	1,795.78	1,706.14	259.07	3,760.99
b) Loss allowance provision	36.16	34.36	122.74	193.26

(vii) Reconciliation of loss allowance provision for Trade Receivables

₹ in lacs

Particulars	31st March, 2020	31st March, 2019
a) Balance as at beginning of the year	**193.27**	95.71
b) Impairment losses recognised in the year based on lifetime expected credit...		
– On receivables originated in the year	**94.87**	106.18
– Other receivables	–	–
c) Impairment losses reversed/written back	**48.68**	8.62
d) Balance at end of the year	**239.46**	193.27

(viii) During the period, the company has made write off of Rs.48.68 lacs (31 March, 2019: Rs. 8.63 lacs) of trade receivable. These trade receivables and advances are not subject to enforcement activity.

Cash and Cash equivalents

As at 31st March, 2020 the company held cash and cash equivalents of Rs.2.92 Lacs (As at 31st March, 2019 Rs. 1.84 Lacs). The cash and cash equivalents are held with banks with good credit rating.

B) Liquidity risk management

(i) The company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the company's net liquidity position through rolling forecasts on the basis of expected cash flows.

(ii) Maturities of financial liabilities

Table showing maturity profile of financial liabilities:

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
A) Non-derivative financial liabilities				
As at 31st March 2020				
a) Trade Payables	**3,464.14**	–	–	–
b) Security Deposits	–	–	–	–
c) Borrowings	**2,097.45**	**26.52**	–	–
d) Employee Dues	–	–	–	–
Total	**5,561.59**	**26.52**	–	–
As at 31st March 2019				
a) Trade Payables	2,071.38	–	–	–
b) Security Deposits	–	–	–	–
c) Borrowings	1,407.93	–	–	–
d) Employee Dues	–	–	–	–
Total	3,479.31	–	–	–

The above table details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

The contractual maturity is based on the earliest date on which the Company may be required to pay.

(iii) Financing arrangements

The Company has access to following undrawn borrowing facilities at the end of the reporting period:

₹ in lacs

Particulars	As at 31st March, 2020	As at 31st March, 2019
a) Secured Cash credit facility		
– Expiring within one year	**102.55**	292.07
– Expiring beyond one year	–	–

(iv) Maturities of financial assets

Table showing maturity profile of financial assets

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
	In Rs. Lacs	In Rs. Lacs	In Rs. Lacs	In Rs. Lacs
Non-derivative financial assets				
As at 31st March 2020				
Trade Receivables	**6,008.01**	–	–	–
Security Deposits	**23.64**	**29.40**	–	–
Others	**2.92**	–	–	–
Total	**6,034.57**	**29.40**	–	–
As at 31st March 2019				
Trade Receivables	3,567.73	–	–	–
Security Deposits	42.22	19.25	–	–
Others	1.84	–	–	–
Total	3,611.79	19.25	–	–

The above table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

C) Market Risk Management

Market Risk

"Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

There has been no significant changes to the company's exposure to market risk or the methods in which they are managed or measured.

Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

The carrying amounts of the Company's unhedged foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Particulars	Currency	31st March, 2020	31st March, 2019
Trade Receivables	USD	**652,169**	225,522
	EUR	**2,402**	1,019
	SGD	**3,447**	3,447
	GBP	**1,542**	2,118
	HKD	**7,486**	24,957
Trade Payables	USD	**2,575,706**	7,949
	HKD	**1,345,425**	752,393
	EUR	**238,511**	28,710
	GBP	**176,763**	47,421
	SGD	**8,726**	10,298
	CAD	**2,234**	–
	CHF	–	450
	AUD	–	600
	DKK	–	1,434
	JPY	**156,058**	1,363,976
	AED	–	4,238
	SEK	**16,655**	16,655
	NOK	–	–

The Company does not enter into hedge transactions for either trading or speculative purposes. The outstanding forward contracts at the year end their maturity profile and sensitivity analysis are as under.

Fair value of forward contracts designated as Fair Value hedges of USD-INR as at 31 March 2020 and 31 March 2019 was NIL and 10.43 Cr respectively Outstanding number of contracts as at 31 March 2020 were NIL and 31 March 2019 were 23.

Following table demonstrate the Notional value of forward contracts designated as fair value hedges in lakhs

Currency	As at 31st March, 2020		As at 31st March, 2019	
	Amount in foregeign Currency	Amount in INR	Amount in foregeign Currency	Amount in INR
USD - INR	–	–	15.00	1,043.00
HKD - INR	–	–	6.00	53.00
GBP- INR	–	–	0.40	37.00
Euro - INR	–	–	0.60	47.00

The foreign exchange forward contracts designated as Fair Value hedges mature maximum within 3 months.

The following tables demonstrate the sensitivity to a reasonably possible change in USD exchange rates, with all other variables held constant. The Company's exposure to foreign currency changes for all other currencies is not material.

Particulars	Currency	Change in rate	Effect on profit before tax	Effect on pre-tax equity
31-Mar-20	**USD**	**+10%**	**144.98**	**144.98**
	USD	**-10%**	**(144.98)**	**(144.98)**
	HKD	**+10%**	**13.00**	**13.00**
	HKD	**-10%**	**(13.00)**	**(13.00)**
	EUR	**+10%**	**19.62**	**19.62**
	EUR	**-10%**	**(19.62)**	**(19.62)**
	GBP	**+10%**	**16.45**	**16.45**
	GBP	**-10%**	**(16.45)**	**(16.45)**
31-Mar-19	USD	+10%	(15.07)	(15.07)
	USD	-10%	15.07	15.07
	HKD	+10%	6.42	6.42
	HKD	-10%	(6.42)	(6.42)
	EUR	+10%	2.15	2.15
	EUR	-10%	(2.15)	(2.15)
	GBP	+10%	4.09	4.09
	GBP	-10%	(4.09)	(4.09)

Interest Risk

The following tables demonstrate the sensitivity to a reasonably possible change in Interest rates, with all other variables held constant.

Particulars	Name of borrowing	Type of Interest	Rate of interest	Loan amount outstanding as at year end	Increase in Base Rate	Sensitivity Impact on P&L (pre-tax)	Decrease in Base Rate	Sensitivity Impact on P&L (pre-tax)
As at 31st March, 2020	Cash Credit	Floating	7.93%	2,097.45	1.00%	-20.97	1.00%	20.97
As at 31st March, 2019	Cash Credit	Floating	9.35%	1,407.93	1.00%	-14.08	1.00%	14.08

Note No. 28 – Fair Value Measurement

a) Fair value of financial assets and financial liabilities that are measured at amortized cost:

Particulars	31st March, 2020 Carrying amount	31st March, 2020 Fair value	31st March, 2019 Carrying amount	31st March, 2019 Fair value
A) Financial assets				
a) Financial assets carried at amortized Cost				
i) Trade and other receivables	**6,008.01**	**6,008.01**	3,567.73	3,567.73
ii) Deposits given	**53.04**	**53.04**	61.47	61.47
iii) Cash and cash equivalents	**2.92**	**2.92**	1.84	1.84
Total	**6,063.97**	**6,063.97**	3,631.04	3,631.04
B) Financial liabilities				
b) Financial liabilities held at amortized cost				
i) Borrowings	**2,097.45**	**2,097.45**	1,407.93	1,407.93
ii) Trade and other payables	**3,464.14**	**3,464.14**	2,071.38	2,071.38
Total	**5,561.59**	**5,561.59**	3,479.31	3,479.31

Note No. 29 – Segment information

i) The management of the company has chosen to organise the company on the basis of nature of services. No operating segments have been aggregated in arriving at the reportable segments of the group.

ii) The Company has only one operating segment i.e. "Freight Forwarding.

iii) The VP/ Whole time director monitors the operating results of the business segments separately for the purpose of making decisions about the allocation of resources and performance assessment.

(iv) Geographic information

Particulars	Year Ended 31st March, 2020	Year Ended 31st March, 2019
Revenue from external customers		
India	**19,729.26**	16,883.45
Outside India	**738.73**	533.69
Total Revenue as per statement of Profit or Loss	**20,467.99**	17,417.14

v) Non-current operating assets

Particulars	As at 31st March, 2020	As at 31st March, 2019
India	**98.22**	56.52
Outside India	–	–
Total	**98.22**	56.52

Non-current assets for this purpose consist of property, plant and equipment, and intangible assets.

The revenues of the company from a group of customers under common control amounts to around 8.84% of its total revenues.

(vi) The company had set up its internal reporting based on Ind AS, ahead of Ind AS adoption for statutory reporting. Hence, the VP/Whole time director was already using Ind AS information for economic decision making. This implies that the company's internal reporting is already set up to report in accordance with Ind-AS.

Note No. 30 – Leases

Operating Lease

i) The Company has entered into operating lease arrangements for commercial premises. The leases are non-cancellable and are for period as specified in the agreement and may be renewed based on mutual agreement of the parties.

Particulars	For the year ended 31 March, 2020	For the year ended 31st March, 2019
i) Future Non-Cancellable minimum lease commitments		
a) not later than one year	–	–
b) later than one year and not later than five years	–	–
c) later than five years	–	–
ii) Expenses recognised in the Statement of Profit and Loss		
a) Minimum Lease Payments	–	–

Note No. 31 – Employee benefits

i) Defined Contribution Plan

The Company's contribution to Provident Fund aggregating Rs. 55.26 lacs (2019 : Rs. 44.71 lacs) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

ii) Defined Benefit Plans:

Gratuity

a) The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

b) Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

(1) Change in bond yields

A decrease in government bond yields will increase plan liabilities.

(2) Inflation risk

Defined benefit obligations are linked to inflation, and higher inflation will lead to higher liabilities (although, caps on the level of inflationary increases are in place to protect the plan against extreme inflation).

(3) Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

(c) Significant Actuarial Assumptions

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	Valuation as at 31st March, 2020	31st March, 2019
a) Discount rate(s)	**6.55%**	7.30%
b) Expected rate(s) of salary increase	**7.00%**	6.00%
c) Mortality rate during employment	**IALM(2012-14) Ultimate**	IALM(2006-08) Ultimate

(d) Defined benefit plans – as per actuarial valuation

Particulars	Unfunded Plan – Gratuity 2020	2019
I. Amounts recognised in comprehensive income in respect of these defined benefit plans are as follows:		
a) Current Service Cost	**13.49**	10.85
b) Past service cost and (gains)/ losses from settlements	–	–
c) Net interest expense	**2.37**	1.54
Components of defined benefit costs recognised in profit or loss	**15.86**	12.39
a) Remeasurement on the net defined benefit liability	–	–
b) Return on plan assets (excluding amount included in net interest expense)	–	–
c) Actuarial (gains)/loss arising form changes in demaographic	**0.20**	
d) Actuarial (gains)/loss arising form changes in financial assumptions	**5.45**	0.61
e) Actuarial (gains)/loss arising form experience adjustments	**(2.56)**	8.94
Components of defined benefit costs recognised in other comprehensive income	**3.09**	9.55
Total	**18.95**	21.94

Particulars		Unfunded Plan – Gratuity 2020	2019
II.	**Net Asset/(Liability) recognised in the Balance Sheet as at 31st March**		
a)	Present value of defined benefit obligation	**(50.11)**	(32.37)
b)	Fair value of plan assets	**–**	–
c)	Surplus/(Deficit)	**(50.11)**	(32.37)
d)	Current portion of the above	**(2.84)**	(2.90)
e)	Non current portion of the above	**(47.27)**	(29.47)
III.	**Change in the obligation during the year ended 31st March**		
a)	Present value of defined benefit obligation at the beginning of the year	**32.37**	20.35
b)	Add/(Less) on account of Scheme of Arrangement/Business	**–**	–
c)	Transfer	**–**	–
d)	*Expenses Recognised in Profit and Loss Account*		
	– Current Service Cost	**13.49**	10.85
	– Past Service Cost		
	– Interest Expense (Income)	**2.37**	1.54
e)	*Recognised in Other Comprehensive Income*		
	Remeasurement gains/(losses)		
–	Actuarial Gain (Loss) arising from:		
	i. Demographic Assumptions	**0.20**	
	ii. Financial Assumptions	**5.45**	0.61
	iii. Experience Adjustments	**(2.56)**	8.94
f)	Benefit payments	**(1.21)**	(9.92)
g)	**Present value of defined benefit obligation at the end of the year**	**50.11**	32.37
IV.	**Change in fair value of assets during the year ended 31st March**		
i)	Fair value of plan assets at the beginning of the year	**–**	–
ii)	*Expenses Recognised in Profit and Loss Account*		
	– Expected return on plan assets	**–**	–
iii)	*Recognised in Other Comprehensive Income*	**–**	–
	Remeasurement gains/(losses)		
–	Actual Return on plan assets in excess of the expected return	**–**	–
iv)	Contributions by employer (including benefit payments recoverable)	**–**	–
v)	Benefit payments	**–**	–
vi)	**Fair value of plan assets at the end of the year**	**–**	–
V.	**The Major categories of plan assets**		
–	Insurance Funds	**–**	–
VI.	**Actuarial assumptions**		
a)	Discount rate	**6.55%**	7.30%
b)	Expected rate of return on plan assets	**–**	–
c)	Attrition rate	**12.00%**	12.00%

f) The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption			Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Decrease in assumption
a)	Discount rate	2020	1.00%	46.65	54.01
		2019	1.00%	30.39	34.58
b)	Salary growth rate	2020	1.00%	53.95	46.63
		2019	1.00%	34.59	30.35
c)	Rate of employee turnover	2020	0.50%	45.55	55.48
		2019	0.50%	30.16	34.47
d)	Rate of Mortality	2020	0.10%	50.11	50.11
		2019	0.00%	32.38	32.36

Notes:

i) The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

ii) The weighted average duration of the defined benefit obligation as at 31 March 2020 is 7 years (2019: 6 years)

f) Maturity profile of defined benefit obligation:

The tables include both discounted value as well as unwinding of interest.

Particulars	2020	2019
Within 1 year	**2.84**	2.90
2 – 5 year	**25.07**	16.66
6 – 10 year	**24.13**	16.28

g) The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

h) The current service cost and the net interest expense for the year are included in the employee benefits expense in profit or loss of the expense for the year.

Note No 35:- Covid-19 Disclosure

The Company has accounted significant accounting estimates which have been disclosed in the financial statements.

These includes fair valuation of financial assets, testing of impairment of assets, going concern assessment etc. requiring significant management judgement in estimating the same. Considering the continuing COVID-19 pandemic, the results in upcoming period may significantly vary and may affect the recoverability of assets. However, this will depend upon future developments including actions taken to contain or treat the disease and to mitigate its impact on the economy.

The Company, based on internal & external sources of information, has assessed that as a result of Covid-19 outbreak, there is no significant financial impact on the financial statements for the year ended March 31, 2020 as at the date of approval of these financial statements.

INDEPENDENT AUDITORS' REPORT

To the Members of Mahindra Aerospace Private Limited

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of Mahindra Aerospace Private Limited ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as Ind AS Financial Statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements section* of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Ind AS Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are

appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

   (A) As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid Ind AS financial statements comply with the Ind AS specified under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

   (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its Ind AS financial statements - Refer Note 23 to the Ind AS financial statements;

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company; and

   iv. The disclosures in the Ind AS financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these Ind AS financial statements since they do not pertain to the financial year ended 31 March 2020.

   (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

   In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

With reference to the Annexure A referred to in the Independent Auditor's Report to the members of the Company on the Ind AS financial statements for the year ended 31 March 2020, we report the following:

(i) (a) The Company has maintained proper records showing full, including quantitative details and situation of property, plant and equipment.

(b) According to the information and explanations given to us, the Company has a regular programme of physical verification of its property, plant and equipment, by which all property, plant and equipment are verified once in a year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. During the year, the Company has written off entire property, plant and equipments and has not carried out any physical verification of property, plant and equipment during the year.

(c) According to the information and explanations given to us and on the basis of our examination of the records, the Company did not have any immovable property. Therefore, the provision of clause 3(i) (c) of the said Order is not applicable to the company.

(ii) According to the information and explanations given to us, the Company did not have any inventory. Therefore, the provision of clause 3(ii) of the said Order is not applicable to the company

(iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us, the Company has not given any loans, or provided any guarantee or security as specified under section 185 and 186 of the Companies Act, 2013. Moreover, in respect of the investments made by the Company, requirements of section 186 of the Companies Act, 2013 have been complied with.

(v) The Company has not accepted any deposits from the public within the meaning of the directives issued by the Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder.

(vi) The Central Government has not prescribed the maintenance of cost records under Section 148 of the Act for any of the services rendered by the Company.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including, Income-tax, Goods and Services tax, and other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of Provident fund, Employees' State Insurance, duty of excise, sales tax, service tax and value added taxes, duty of Customs and Cess.

According to the information and explanations given to us, no undisputed amounts payable in respect of Income-tax, and Goods and Services tax, Cess and other material statutory dues were in arrears as at 31 March 2020, for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of Income tax, Sales tax, Goods and Service tax, Value added tax, Service tax, duty of Customs and duty of excise which have not been deposited by the Company on account of disputes, except for the following:

Name of the Statute	Nature of the Dues	Amount Rs. in lakhs	Period	Forum where dispute is pending*
Service tax	Service tax	98.96	2011-12	Commissioner of Service tax
Income Tax Act 1961	Income Tax	3.67	AY 2011-12	Commissioner of Income Tax (Appeals)
Income Tax Act 1961	Income Tax	5.08	AY 2013-14	Commissioner of Income Tax (Appeals)
Income Tax Act 1961	Income Tax	79.24	AY 2014-15	Commissioner of Income Tax (Appeals)

* Read with Note 23(c) and 23 (d) to the financial statements

(viii) According to the information and explanations given to us, the Company did not have any outstanding loans or borrowings from any financial institution or bank or government or dues to debenture holders during the year.

(ix) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year.

(x) According to the information and explanations given to us, no fraud on the Company by its officers and employees or fraud by the Company has been noticed or reported during the year.

(xi) In our opinion and according to the information and explanations given to us and based on examination of the records of the Company, the Company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

(xii) According to the information and explanations given to us, in our opinion, the Company is not a Nidhi Company as prescribed under Section 406 of the Act.

(xiii) According to the information and explanations given to us and based on our examination of the records of the Company, all transactions with the related parties are in compliance with 188 of the Act, where applicable, and details of such transactions have been disclosed in the Ind AS financial statements as required by the applicable accounting standards. According to the information and explanations given to us, we understand that the provisions of Section 177 to the Act are not applicable to the Company.

(xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable to the Company.

(xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company.

(xvi) According to the information and explanation given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE IND AS FINANCIAL STATEMENTS OF MAHINDRA AEROSPACE PRIVATE LIMITED FOR THE YEAR ENDED 31 MARCH 2020

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph (1 A (f)) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra Aerospace Private Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR MARCH 31, 2020

1. **Corporate Information**

Mahindra Aerospace Private Limited (the 'Company') is a company domiciled in India, with its registered office situated at Mahindra Towers, P.K Kurne Chowk, Worli, Mumbai - 400018. The Company was incorporated on February 28, 2008 under the provisions of the Indian Companies Act, 1956. Presently the Company is holding investments in subsidiaries engaged in the business of manufacturing aircrafts and Aerostructures and design and development of 5 seater aircrafts. Also the company is exporting design services.

2. **Basis of preparation and Significant accounting policies:**

2.1 Basis of preparation

A. Statement of compliance

The financial statements of the company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015, as amended and notified under section 133 of the Companies Act, 2013 (The 'Act') and other relevant provisions of the Act.

The financial statements were authorised for issue by the Company's Board of Directors on 08 May 2020.

Details of the Company's accounting policies are included in Note 2.2

B. Functional and presentation currency

These financial statements are presented in Indian Rupees (Rs.), which is also the Company's functional currency. All amounts have been rounded-off to two decimal places to the nearest lakhs, unless otherwise indicated.

C. Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value

D. Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

Note 3A - leases: whether an arrangement contains a lease and lease classification

Assumptions and estimation uncertainties:

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2020 is included in the following notes:

Note 20 – measurement of defined benefit obligations: key actuarial assumptions; key actuarial assumptions;

Note 23 - recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;

Note 29 - recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;

Note 3 - useful life of property, plant and equipment

Notes 4 and 5 - impairment of financial assets.

E. Measurement of fair values

Certain accounting policies and disclosures of the Company require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into a different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in the measuring fair values is included in the following notes:

- Note 22 - financial instruments.

2.2 Significant accounting policies

a) Property Plant and Equipment

i. Recognition and measurement

Items of property, plant and equipment, are measured at cost (which includes capitalised borrowing costs, if any) less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment includes its purchase price, duties, taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour and any other costs directly attributable to bringing the item to its intended working condition and estimated costs of dismantling, removing and restoring the site on which it is located, wherever applicable.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value using straight line method over the useful lives of assets estimated by the Company based on an internal technical evaluation performed by the management and is recognised in the statement of profit and loss. Depreciation for assets purchased/sold during the period is proportionately charged.

The range of estimated useful lives of items of property, plant and equipment are as follows:

Asset	Useful life
Plant and Machinery, Office equipment, furniture & fixtures	2 years, 5 years, 10 years, 15 years
Vehicles	5 years

The Company believes the useful lives as given above best represent the useful lives of these assets based on internal assessment where necessary, which is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

b) Intangible Assets

Internally generated: Research and development

Expenditure on research activities is recognised in the Statement of Profit and Loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and any accumulated impairment losses.

Others:

Other intangible assets including those acquired by the Company in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation:

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight - line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Useful life
Computer software	3-5 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

c) Impairment of assets

i. Financial Assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to life time ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12- month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at life time ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

ii. Non-financial assets

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

d) Investment in subsidiaries

The company accounts for its investment in subsidiaries at cost less accumulated impairment, if any.

e) Revenue Recognition

Effective April 1, 2018, the Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information in the statement of profit and loss is not restated – i.e. the comparative information continues to be reported under Ind AS 18 and Ind AS 11.The adoption of the standard did not have any material impact to the financial statements of the Company.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

f) Other Income

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit and Loss.

g) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight line method from the commencement date over the shorter of lease term or useful life of right of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

Transition to Ind AS 116

Ministry of Corporate Affairs (“MCA”) through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, modified retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 1, 2019). Accordingly, the Company has not restated the comparative information.

As a lessee:

For transition, the Company has elected not to apply the requirements of Ind AS 116 leases for which the underlying asset is of low value on a lease-by-lease basis. The Company has used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

On transition, the Company recognised a lease liability measured at the present value of the remaining lease payments. The right-of-use asset is recognised at its carrying amount as if the standard had been applied since the commencement of the lease, but discounted using the lessee’s incremental borrowing rate as at April 1, 2019.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-to-use asset, and finance cost for interest accrued on lease liability.

The difference between the future minimum lease rental commitments towards non-cancellable operating leases reported as at March 31, 2019 compared to the lease liability as accounted as at April 1, 2019 is primarily due to inclusion of present value of the lease payments for the cancellable term of the leases, reduction due to discounting of the lease liabilities as per the requirement of Ind AS 116 to which the Company has chosen to apply the practical expedient as per the standard.

h) Financial Instruments

A. Recognition and initial measurement

The Company initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition. .

B. Classification and subsequent measurement

i. Financial assets carried at amortized cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii. Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii. Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

iv. Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

Investment in subsidiaries, joint venture and associates

Investment in subsidiaries, joint venture and associates is carried at cost in the financial statements.

C. De-recognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the Statement of Profit and Loss.

D. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

i) Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax:

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

ii. Deferred tax:

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax is not recognised for:

– temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction.

– temporary differences related to investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax assets recognised or unrecognised are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Company offsets, the current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

j) Foreign currencies:

Transactions in foreign currencies are initially recorded by the Company at their functional currency spot rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rates are recognised as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

k) Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate.

l) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in Statement of profit or loss in the period in which they are incurred.

m) Business combination

Business combinations arising from transfers of interest in entities that are under the control of the shareholder that controls the Company are accounted for as if the acquisition had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose comparatives are revised. The assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved and they appear in the financial statements of the Company in the same form in which they appeared in the financial statements of the acquired entity. The difference, if any, between the value of net assets and the consequent reduction in value of investment held by the Company is transferred to the capital reserve or to the accumulated balance of profit and loss.

n) Provisions and contingent liabilities

i. General:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

ii. Contingent liabilities:

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

iii Onerous contracts:

Provision for onerous contracts. i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

o) Segment reporting

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Company's chief operating decision maker is the Managing Director.

Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue is accounted on the basis of transactions which are primarily determined based on market/fair value factors. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on a reasonable basis have been included under "unallocated revenue/expenses/assets/liabilities".

p) Employee benefits

i. Short-term employee benefits

All employee benefits falling due wholly within twelve months of rendering the services are classified as short-term employee benefits, which include benefits like salaries, wages, short-term compensated absences and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

ii. Post-employment benefits

Contributions to defined contribution schemes such as Provident Fund, employee state insurance scheme, Pension Fund, etc., are considered as defined contribution plans and are recognised as expenses in the period in which the employee renders the related service.

The Company also provides for post-employment defined benefit in the form of gratuity and medical benefits. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each balance sheet date. Remeasurement of the net benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interests) and the effect of the assets ceiling (if any, excluding interest) are recognised in other comprehensive income. The effect of any plan amendments are recognised in net profit in the Statement of Profit and Loss.

iii. Other long-term employee benefits

All employee benefits (other than post-employment benefits and termination benefits) which do not fall due wholly within twelve months after the end of the period in which the employees render the related services are determined based on actuarial valuation or discounted present value method carried out at each balance sheet date. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary as at 31 March every year using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

q) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

r) Earnings per share

Basic Earnings Per Share ('EPS') is computed by dividing the net profit/(loss) attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit/(loss) by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented in case of share splits.

s) Cash flow statement

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

t) Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

Notes:

1) Out of the total equity shares, 674,370,306 (2019: 612,870,326) equity shares are held by Mahindra and Mahindra Ltd., the holding company, Including shares held jointly with nominees.

2) Details of shareholders holding more than 5% equity shares in the Company:

Name of the Shareholder	As at March 31, 2020		As at March 31, 2019	
	Nos	**%**	Nos	%
Mahindra and Mahindra Limited and its nominees*	**674,370,306**	**89.78%**	612,870,326	88.87%
Kotak Mahindra Trustee Limited (Trustee of Kotak India Growth Fund II)	**55,478,722**	**7.39%**	55,478,722	8.04%

* Includes 8 shares (2019: 8 shares) held by nominees jointly with Mahindra and Mahindra Limited

3) Rights, preferences and restrictions attached to shares:

a) Equity Shares:

The company has one class of equity shares having a par value of Rs. 10 per share. Each shareholder is eligible for one vote per share held. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting, except in case of interim dividend. In the event of liquidation, the equity shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholding.

b) 5% Non-Cumulative Compulsorily Convertible Preference shares (compound financial instruments):

50,00,000, 5% Non-Cumulative Compulsorily Convertible Preference shares (NCCCPS) of Rs.10 each were issued in March 2015 to the holding Company, Mahindra & Mahindra Ltd. The NCCCPS holders will not entitled to any of the rights and privileges available to the members of the company including the right to receive notices of or to attend and vote at General Meetings or to receive annual reports of the company. The NCCCPS holders shall not have the rights of participation in surplus assets and profits, on winding up which may remain after the entire capital has been repaid. The NCCCPS of Rs. 10 each shall have a preferential right to payment of divided and repayment, in the case of winding up or repayment of capital. The NCCCPS are convertible in to equity shares within a period of 3 years at a price to be determined as per terms of the issue.

During the year ended 31 March 2018, the company had extended the tenure of preference shares for the period of 3 years. The preference shares shall be compulsorily convertible into equity shares on or before March 30, 2021 at a price/rate which is discount of 18% to the price at which the above mentioned next round of funding happens. The IRR discount of 18% shall be adjusted to the extent of the dividend paid to the NCCCPS holders. In the event of equity infusion does not happen on or before March 30, 2021, then these NCCCPS shall be compulsorily converted into equity shares at par on March 30, 2021.

The other terms of the issue of these NCCCPS shall remain same.

4A) During the preceding previous year ended 31 March 2018, the company has made a rights issue offer of 44,000,000 equity shares of Rs. 10 each for cash at par. The offer period was initially from 22 February 2018 to 12 March 2018 (both days inclusive) and further extended till 27 March 2018. After the expiry of the time specified in this offer as aforesaid, or on receipt of intimation declining the said offer, the Board of Directors may offer such shares to the other existing shareholder of the Company.

During the previous year ended 31 March 2019, the Board of Directors in their meeting held on 3 May 2018, approved the cancellation of the said unsubscribed shares.

4B) During current year the company has made a rights issue offer of 62,500,000 equity shares of Rs. 10 each for cash at par. The offer period was from 26 August 2019 to 03 September 2019 (both days inclusive). After the expiry of the time specified in this offer as aforesaid, or on receipt of intimation declining the said offer, the Board of Directors may offer such shares to the other existing shareholder of the Company. The Board of Directors in their meeting held on 09 September 2019, approved the cancellation of the said unsubscribed shares.

5) The Company has not allotted any fully paid equity shares by way of bonus shares nor has bought back any class of equity shares during the period of five years immediately preceding the balance sheet date nor has issued shares for consideration other than cash.

Note 20: Employee benefits

(a) Defined Contribution Plan:

The Company's contribution to Provident Fund and others aggregating Rs. NIL (2019: Rs. 1.13 Lakhs) has been recognised in the Statement of Profit or Loss under the head employee benefits expense.

(b) Defined Benefit Plans:
Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is calculated as per the Payment of Gratuity Act, 1972 . The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund. However, during the year, the company did not had any eligible employees to whom the gratuity was payable and accordingly, no actuarial valuation was carried out. The receivable from the Gratuity trust of the Company has been recognised in these financial statements under Note 9, as the Company has right to recover the surplus available in the trust.

CCCPS	12	–	–	–	–	–	–	–	–	–
		–	–	–	608.40	608.40	–	–	–	–

The fair value of cash and cash equivalents, bank balance other than cash and cash equivalents, borrowings, trade payables, other current financial assets and liabilities approximate their carrying amount largely due to the short-term nature of these instruments. The Company's long-term debt has been contracted at market rates of interest. Accordingly, the carrying value of such long-term debt approximates fair value.

Investment in equity shares of subsidiaries are not appearing as financial asset in the table above being investment in subsidiaries accounted under Ind AS 27, Separate Financial Statements which is scoped out under Ind AS 109.

There have been no transfers among Level 1, Level 2 and Level 3 during the period.

B Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the risk management framework. The Company's management oversees how management monitors compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

C Financial risk management objectives and policies

The Company's principal financial liabilities comprise NCCPs, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, other receivables, deposits and cash and cash equivalents that derive directly from its operations.

The Company is exposed to the following risks from its use of financial instruments:

– Market risk

– Credit risk

– Liquidity risk

The note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these financial statements.

(i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings. The sensitivity analyses in the following sections relate to the position as at 31 March 2020 and 31 March 2019. The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies. The analyses exclude the impact of movement in market variables on: the carrying values of gratuity and other post retirement obligations and provisions.

The following assumptions have been made in calculating the sensitivity analyses:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2020 and 31 March 2019.

a. Interest rate risk

The company doesn't have borrowings. Hence interest rate risk is not applicable.

b. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's does not have any exposure to the risk of changes in foreign exchange rates as there are no operations being carried out (revenue or expense is denominated in a foreign currency) by the company.

c. Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD and AUD exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives and embedded derivatives. The Company's exposure to foreign currency changes for all other currencies is not material.

Rs in lakhs

	31-Mar-20		31-Mar-19	
Particulars	**Increase / decrease in basis points**	**Effect of profit before tax-Rs**	Increase / decrease in basis points	Effect of profit before tax-Rs
AUD	**+50**	**–**	+50	0.50
USD	**+50**	**–**	+50	–
AUD	**-50**	**–**	-50	(0.50)
USD	**-50**	**–**	-50	–

The movement in the pre-tax effect is a result of a change in the fair value of monetary assets and liabilities denominated in US dollars, where the functional currency of the entity is a currency other than US dollars.

(ii) Credit risk

Company does not have any operations and hence credit risk is not applicable.

Financial Instrument and Cash Deposit

Credit risk from balances with banks and financial institutions is managed by the Company's operation department in accordance with the Company's policy. Investments of surplus funds are made only with approved Banks within the limits assigned. These limits are reviewed by the Company's Board of Directors as and when required. The limits are set to minimise the concentration of risks and therefore mitigate financial loss and potential failure to make payments. The Company's maximum exposure to credit risk for the components of the statement of financial position at 31st March 2020 and 2019 is the carrying amounts.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the company's financial liabilities based on contractual undiscounted payments.

Rs in lakhs

Borrowings (NCCPS)	–	–	500.00	–	–	500.00
Trade payables	–	108.40	–	–	–	108.40
	–	**108.40**	**500.00**	**–**	**–**	**608.40**

D Capital management:

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern.
- to provide an adequate return to shareholders by pricing products

The Company monitors capital on the basis of the carrying amount of equity and profit and loss account as presented on the face of the statement of financial position.

The Company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. The Company is not subject to externally enforced capital regulation. The Company's capital requirements are substantially met through the issue of equity to the holding companies.

There is no change in the overall capital risk management strategy of the Company compared to last year.

23. Contingent liabilities:

(a) Corporate Guarantees issued in respect of borrowings availed by subsidiary company – Rs. 9,500 Lakhs (2019: Rs. 9,500 Lakhs)

(b) The Company has committed financial support to GippsAero Pty Ltd and Mahindra Aerospace Australia Pty Ltd (collectively, the 'GippsAero Group'), for 12 months from the signing of their 31 March 2020 audited financial statements, stating that the Company will not call in any amounts provided to the GippsAero Group prior to the expiration of the period of support, other than as required in the normal course of business or as required by appropriate and applicable exchange control or other Indian regulatory requirements. The Company will provide an appropriate level of support to GippsAero Group to meet its liabilities and obligations as and when they fall due set out in budgeted forecasts under the approved business plan for the period of support and that are incurred in the normal course of business.

(c) Service tax matters under appeal Rs. Nil (2019: Rs. 98.96 Lakhs). The Company during the year has opted Sabka Vishwas - (Legacy Dispute Resolution) Scheme 2019, a one time amnesty scheme for central taxes, which provided that eligible persons shall declare the tax dues and pay the same in accordance with the provisions of the Scheme. It further provided for certain immunities including penalty, interest or any other proceedings under the Central Excise Act, 1944 or Chapter V of the Finance Act, 1944 to those persons who pay the declared tax dues. Pursuant to the scheme the Company has paid Rs. 49.48 Lakhs towards the service tax matter under litigation, the Company yet to receive discharge certificate for designated authorities.

(d) Income tax matters under appeal Rs. Nil (2019: Rs. 88.00 Lakhs). The Company during the year decided to opt for Vivad se Viswas Act 2020, a one time amnesty scheme for direct taxes, which provided that eligible persons shall declare the tax dues and pay the same in accordance with the provisions of the Scheme. It further provided for certain immunities including penalty, interest or any other proceedings under the Income Tax Act, 1961 to those persons who pay the declared tax dues. Pursuant to the scheme the Company has created a provision of Rs. 54.89 Lacs towards the Income tax matter under litigation.

(e) In February 2019, Supreme Court of India in its judgement clarified that certain special allowances should be considered to measure obligation under Employees Provident Fund Act, 1952. The Company has been legally advised that there are interpretive challenges on the application of judgement retrospectively and as such does not consider there any probable obligations for past periods. Accordingly, based on legal advice the company has made provision for provident fund contribution form the date of Supreme court order. The probable obligation for past periods amounting to Rs. 0.30 Lakhs has been considered by the Company as contingent liability.

(f) The estimated amount of contracts remaining to be executed on Capital account and not provided for Rs.Nil (2019: Rs. Nil).

Note: The Company is contesting the demands and the management believes that its position will likely be upheld in the various appellate authorities/courts and the ultimate outcome will not have a material adverse effect on the Company's financial position and results of operations.

24. Earnings per share

Basic earnings per share amounts are calculated by dividing the profit/(loss) for the year attributable to equity holders by the weighted average number of Equity Shares outstanding during the year.

Rs in Lakhs

Sr. No.	Particulars	March 2020	March 2019
(a)	Earnings attributable to equity shareholders	**(31,937.70)**	(17,974.58)
(b)	Weighted average number of equity shares outstanding during the year	**724,170,711.66**	662,763,188.64
(c)	Basic Earnings per share (Rs.)	**(4.41)**	(2.71)
(d)	Diluted Earnings per share (Rs.)	**(4.41)**	(2.71)

Weighted average no of shares (basic & diluted)

Sr. No.	Particulars	For the year ended 31 March 2020	For the year ended 31 March 2019
(a)	Opening Balance	**689,629,627**	558,879,627
(b)	Effect of fresh issue of shares	**34,541,085**	103,883,562
(c)	Weighted average no of shares	**724,170,712**	662,763,189

The weighted average number of ordinary shares for the purpose of diluted earnings per share reconciles to the weighted average number of equity shares used in the calculation of basic earnings/(loss) per share as follows:

Particulars	For the year ended 31 March 2020	For the year ended 31 March 2019
Weighted average number of equity shares used in the calculation of Basic EPS	**724,170,712**	662,763,189
Add: Effect of potential equity shares	**–**	–
Weighted average number of equity shares used in the calculation of Diluted EPS	**724,170,712**	662,763,189

25. Dues to micro and small enterprises

There are no micro and small enterprises to which the Company owes dues, which are outstanding for more than 45 days as at 31 March, 2020. This information as required under the Micro, Small and Medium Enterprises Development Act, 2006 has been determined to the extent such parties have been identified on the basis of information available with the Company.

26. NM5 Project

During November 2008, erstwhile M/S. Plexion Technologies India Pvt. Ltd., which was later on merged with Mahindra Engineering Services Limited (MESL), had entered into a Collaboration Agreement with Council of Scientific Industrial Research (CSIR), represented by National Aerospace Laboratories (NAL) for Joint Development, Commercial Production and Marketing of a 4-Seater Aircraft (NM 5 Project). By virtue of a Deed of Assignment dated 28th May, 2008, signed between MESL, the Company and Council of Scientific Industrial Research (CSIR), the rights, obligations and benefits of MESL under the said Collaboration Agreement was assigned to the Company by MESL and duly affirmed by CSIR. As per the Collaboration Agreement, the Company jointly owns the Intellectual Property Rights arising from joint development of the aircraft. Such Intellectual Property Rights arising from joint development of the aircraft will be a jointly held intangible asset. The Company has built a prototype of the aircraft which has carried out a successful test flight.

The Company had so far incurred an expenditure of Rs. 274.63 Lakhs (till 2019 : Rs. 274.63 Lakhs) on tools and jigs and Rs. 2,098.63 Lakhs (till 2019 : Rs. 2,098.63 Lakhs) towards the design & development and building one prototype aircraft and these are included under 'Capital work in progress' and 'Intangible assets under development' respectively.

The Management has evaluated the carrying value of above mentioned assets based on the projections of the project and recognized a cumulative impairment of Rs. 2,373.26 Lakhs (till 2019: Rs. 2,373.26 Lakhs).

27. The Company's Management assesses the operations of the subsidiaries, including the future projections, to identify indications of diminution, other than temporary, in the value of the investments recorded in the books of account. The Company based on market conditions and business projections, assessed the recoverable amount for investment in Mahindra Aerospace Australia PTY Ltd (wholly owned subsidiary in Australia) and Mahindra Aerostructures Limited, which individually represents cash generating unit (CGU).

Accordingly during the year ended March 31, 2020, the Company established a provision of Rs. 28,966.67 Lakhs (previous year Rs 9,059.15 Lakhs) for diminution in value of investment in Mahindra Aerospace Australia PTY Ltd, and Rs 2,800 Lakhs (previous year Rs 8,891 Lakhs) in value of investment in Mahindra Aerostructures Private Limited, both being 100% subsidiary of the company.

28. Segment Reporting:

The Chief Operating Decision Maker (CODM) evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by industry classes. Accordingly, segment information has been presented for industry classes.

The operating segment of the Company is identified to be " design, development and manufacturing of aircrafts and Aerostructures" as the CODM reviews business performance at an overall Company level as one segment.

Note 29 Income taxes

The Company has carried out its deferred tax computation in accordance with Ind AS 12 'Income Taxes' notified under the Companies (Indian Accounting Standards) Rules, 2015.

Significant components & classification of deferred tax assets and liabilities are as follows:

Particulars	As at March 31, 2020	As at March 31, 2019

INDEPENDENT AUDITOR'S REPORT

To the Members of Mahindra Aerostructures Private Limited

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of Mahindra Aerostructures Private Limited ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as Ind AS Financial Statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Ind AS financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Ind AS Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether

the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

(A) As required by Section 143(3) of the Act, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

d) In our opinion, the aforesaid Ind AS financial statements comply with the Ind AS specified under section 133 of the Act.

e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its Ind AS financial statements - Refer Note 30 to the Ind AS financial statements;

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company; and

iv. The disclosures in the Ind AS financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these Ind AS financial statements since they do not pertain to the financial year ended 31 March 2020.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

With reference to the Annexure A referred to in the Independent Auditor's Report to the members of the Company on the Ind AS financial statements for the year ended 31 March 2020, we report the following:

(i) (a) The Company has maintained proper records showing full, including quantitative details and situation of property, plant and equipment.

(b) According to the information and explanations given to us, the Company has a regular programme of physical verification of its property, plant and equipment, by which all property, plant and equipment are verified once in a year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, property, plant and equipment were physically verified during the year and no material discrepancies were noticed on such verification. The discrepancies noticed on such verification have been properly adjusted in the books of account.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, with respect to immovable property taken on lease, the lease agreement are in the name of the Company.

(ii) The inventory, except goods-in-transit, has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. The discrepancies noticed on verification between the physical stock and the book records were not material and have been properly dealt with in the books of account.

(iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company.

(iv) In our opinion and according to the information and explanations given to us, the Company has not granted any loans or made investments, to parties covered under the register of sections 185 and 186 of the Act. Accordingly, paragraph 3(iv) of the Order is not applicable to the Company.

(v) The Company has not accepted any deposits from the public within the meaning of the directives issued by the Reserve Bank of India, provisions of Section 73 to 76 of the Act, any other relevant provisions of the Act and the relevant rules framed thereunder. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.

(vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act, 2013 in respect of certain products manufactured by the Company. We have broadly reviewed the books of accounts maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Act in respect of its manufactured goods and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not carried out a detailed examination of the records with a view to determine whether these are accurate or complete.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including Provident fund, Employees' State Insurance, Income-tax, Goods and Service tax, duty of Customs, Cess and other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of duty of excise, sales tax, service tax and value added taxes.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident fund, Employees' State Insurance, Income-tax, Goods and Service tax, duty of Customs, Cess and other material statutory dues were in arrears as at 31 March 2020, for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of Income tax, Sales tax, Goods and Service tax, Value added tax, Service tax, duty of Customs and duty of excise which have not been deposited by the Company on account of disputes, except for the following:

Name of the Statute	Nature of the Dues	Amount Rs. in lakhs	Period	Forum where dispute is pending
Custom duty	Custom Duty and Penalty	2,598.85 (232.14)*	2014-15	Custom, Excise and Service Tax Appellate Tribunal
Custom duty	Custom Duty (excluding interest)	41.36 (45.33)*	2014-15	Joint Commissioner of Customs
Income Tax Act 1961	Income Tax	99.88**	AY 2012-13	Income-tax Appellate Tribunal, Mumbai
Income Tax Act 1961	Income Tax	61.24**	AY 2013-14	Commissioner of Income Tax (Appeals)
Income Tax Act 1961	Income Tax	644.15**	AY 2014-15	Commissioner of Income Tax (Appeals)

* The amount in parenthesis represent the payment made under protest.

** Represents the additions made to the taxable income of the Company by the tax authorities which have been disputed by the Company. No demand has been raised by the tax authorities as any additions to the income will be adjusted against the brought forward losses and unabsorbed depreciation. The Company has decided to opt for dispute resolution scheme under the Vivad Se Vishwas Act, 2020 ('the VSV Act').

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in the repayment of loans or borrowings to financial institution and banks. The Company did not have any outstanding loans or borrowings from government and there are no dues to debenture holders during the year.

(ix) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. In our opinion and according to the information and explanations given to us, the term loans have been applied for the purpose for which they were obtained.

(x) According to the information and explanations given to us, no fraud on the Company by its officers and employees or fraud by the Company has been noticed or reported during the year.

(xi) In our opinion and according to the information and explanations given to us and based on examination of the records of the Company, the Company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

(xii) According to the information and explanations given to us, in our opinion, the Company is not a Nidhi Company as prescribed under Section 406 of the Act.

(xiii) According to the information and explanations given to us and based on our examination of the records of the Company, all transactions with the related parties are in compliance with 188 of the Act, where applicable, and details of such transactions have been disclosed in the Ind AS financial statements as required by the applicable accounting standards. According to the information and explanations given to us, we understand that the provisions of Section 177 to the Act are not applicable to the Company.

(xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3(xiv) of the Order is not applicable to the Company.

(xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company.

(xvi) According to the information and explanation given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE IND AS FINANCIAL STATEMENTS OF MAHINDRA AEROSTRUCTURES PRIVATE LIMITED FOR THE YEAR ENDED 31 MARCH 2020

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph (1 A (f)) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra Aerostructures Private Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

1. Corporate Information

Mahindra Aerostructures Private Limited (the 'Company') is a company domiciled in India, with its registered office situated at Mahindra Towers, P.K Kurne Chowk, Worli, Mumbai – 400 018. The Company was incorporated on January 27, 2011 under the provisions of the Indian Companies Act, 1956. The Company is primarily involved in the business of manufacture and sale of aircraft components, assemblies and Aerostructures.

2. Basis of preparation and Significant accounting policies:

2.1 Basis of preparation

A. Statement of compliance

The financial statements of the company have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015, as amended and notified under section 133 of the Companies Act, 2013 (The 'Act') and other relevant provisions of the Act.

The financial statements were authorised for issue by the Company's Board of Directors on 08 May 2020.

Details of the Company's accounting policies are included in Note 2.2

B. Functional and presentation currency

These financial statements are presented in Indian Rupees (Rs.), which is also the Company's functional currency. All amounts have been rounded-off to two decimal places to the nearest lakhs, unless otherwise indicated.

C. Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain financial assets and liabilities	Fair value
Net defined benefit (asset)/ liability	Fair value of plan assets less present value of defined benefit obligations

D. Use of estimates and judgements

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

Note 3A – leases: whether an arrangement contains a lease and lease classification

Assumptions and estimation uncertainties:

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2020 is included in the following notes:

Note 27 – measurement of defined benefit obligations: key actuarial assumptions; key actuarial assumptions;

Note 30 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;

Note 36 – recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used;

Note 3 – useful life of property, plant and equipment

Notes 7, 8 and 10 – impairment of financial assets.

E. Measurement of fair values

Certain accounting policies and disclosures of the Company require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

– Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

– Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

– Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into a different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

Further information about the assumptions made in the measuring fair values is included in the following notes:

– Note 29 – financial instruments.

2.2 Significant accounting policies

a) Property Plant and Equipment

i. Recognition and measurement

Items of property, plant and equipment, are measured at cost (which includes capitalised borrowing costs, if any) less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment includes its purchase price, duties, taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials, direct labour and any other costs directly attributable to bringing the item to its intended working condition and estimated costs of dismantling, removing and restoring the site on which it is located, wherever applicable.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii. Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

iii. Depreciation

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual value using straight line method over the useful lives of assets estimated by the Company based on an internal technical evaluation performed by the management and is recognised in the statement of profit and loss. Depreciation for assets purchased/sold during the period is proportionately charged.

The range of estimated useful lives of items of property, plant and equipment are as follows:

Asset	Useful life
Buildings – Roads, Compound Wall*	5 years to 30 years
Plant and Machinery*	2 years, 5 years, 10 years, 15years
Production and Assembly Tools	3 years
Vehicles	5 years

* The Company believes the useful lives as given above best represent the useful lives of these assets based on internal assessment where necessary, which is different from the useful lives as prescribed under Part C of Schedule II of the Companies Act, 2013.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year-end and adjusted prospectively, if appropriate.

b) Intangible Assets

Internally generated: Research and development

Expenditure on research activities is recognised in the Statement of Profit and Loss as incurred.

Development expenditure is capitalised as part of the cost of the resulting intangible asset only if the expenditure can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the Company intends to and has sufficient resources to complete development and to use or sell the asset. Otherwise, it is recognised in profit or loss as incurred. Subsequent to initial recognition, the asset is measured at cost less accumulated amortisation and any accumulated impairment losses.

Others:

Other intangible assets including those acquired by the Company in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortisation and any accumulated impairment losses.

Amortisation:

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight - line method, and is included in depreciation and amortisation in Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset	Useful life
Compute software	3-5 years

Amortisation method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

c) Impairment of assets

i. Financial Assets

The Company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to life time ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12- month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at life time ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized is recognized as an impairment gain or loss in profit or loss.

ii. Non-financial assets

Intangible assets and property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the Statement of Profit and Loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortisation or depreciation) had no impairment loss been recognised for the asset in prior years.

d) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight line method from the commencement date over the shorter of lease term or useful life of right of-use asset. The estimated useful lives of right-of-use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments.

The Company recognises the amount of the re-measurement of lease liability as an adjustment to the right-of-use asset. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has adopted Ind AS 116, effective annual reporting period beginning April 1, 2019 and applied the standard to its leases, modified retrospectively, with the cumulative effect of initially applying the Standard, recognised on the date of initial application (April 1, 2019). Accordingly, the Company has not restated the comparative information.

As a lessee:

For transition, the Company has elected not to apply the requirements of Ind AS 116 leases for which the underlying asset is of low value on a lease-by-lease basis. The Company has used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

On transition, the Company recognised a lease liability measured at the present value of the remaining lease payments. The right-of-use asset is recognised at its carrying amount as if the standard had been applied since the commencement of the lease, but discounted using the lessee's incremental borrowing rate as at April 1, 2019.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-to-use asset, and finance cost for interest accrued on lease liability.

The difference between the future minimum lease rental commitments towards non-cancellable operating leases reported as at March 31, 2019 compared to the lease liability as accounted as at April 1, 2019 is primarily due to inclusion of present value of the lease payments for the cancellable term of the leases, reduction due to discounting of the lease liabilities as per the requirement of Ind AS 116 to which the Company has chosen to apply the practical expedient as per the standard.

e) Inventories

Inventories are valued at the lower of cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition) and estimated net realisable value, after providing for obsolescence, where appropriate. The comparison of cost and net realisable value is made on an item-by-item basis. The net realisable value of materials in process is determined with reference to the selling prices of related finished goods. Raw materials, packing materials and other supplies held for use in production of inventories are not written down below cost except in cases where material prices have declined, and it is estimated that the cost of the finished products will exceed their net realisable value.

The provision for inventory obsolescence is assessed regularly based on estimated usage and shelf life of products.

Raw materials and stores and spares are valued at cost computed on moving weighted average basis. The cost includes purchase price, inward freight and other incidental expenses net of refundable duties, levies and taxes, where applicable.

Stock-in-trade is valued at the lower of net realisable value and cost (including prime cost, non-refundable taxes and duties and other overheads incurred in bringing the inventories to their present location and condition), computed on a moving weighted average basis.

Finished goods and work in progress: cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity. Finished goods are valued at cost or net realisable value whichever is lower.

f) Financial Instruments

A. Recognition and initial measurement

The Company initially recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities that are not at fair value through profit or loss are added to the fair value on initial recognition.

B. Classification and subsequent measurement

i. Financial assets carried at amortized cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

ii. Financial assets at fair value through other comprehensive income

A financial asset is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

iii. Financial assets at fair value through profit or loss

A financial asset which is not classified in any of the above categories are subsequently fair valued through profit or loss.

iv. Financial liabilities

Financial liabilities are subsequently carried at amortised cost using the effective interest method. For trade and other payables maturing within one year from the balance sheet date, the carrying amounts approximate fair value due to the short maturity of these instruments.

C. De-recognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the right to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial assets are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and a new financial liability with modified terms is recognised in the Statement of Profit and Loss.

D. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or realise the asset and settle the liability simultaneously.

g) Revenue Recognition

Effective April 1, 2018, the Company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The Company has adopted Ind AS 115 using the cumulative effect method. The effect of initially applying this standard is recognised at the date of initial application (i.e .April 1, 2018). The standard is applied retrospectively only to contracts that are not completed as at the date of initial application and the comparative information in the statement of profit and loss is not restated – i.e. the comparative information continues to be reported under Ind AS 18 and Ind AS 11. The adoption of the standard did not have any material impact to the financial statements of the Company.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Unearned and deferred revenue ("contract liability") is recognised when there is billings in excess of revenues.

In accordance with Ind AS 37, the Company recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

Contracts are subject to modification to account for changes in contract specification and requirements. The Company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation a cumulative adjustment is accounted for.

Product development income is recognized once the first articles are approved by the customers or achievement of mile stones as per customer contract.

Job work Income: Revenue from the rendering of services is recognised upon the delivery of service to the customers. In contracts involving the rendering of services, revenue is recognised pro-rata over the period contract as and when services are rendered.

h) Other Income

For all financial instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR), which is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in other income in the Statement of Profit and Loss.

i) Income tax

Income tax comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax:

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

ii. Deferred tax:

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. Deferred tax is not recognised for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of transaction.
- temporary differences related to investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used.

Deferred tax assets recognised or unrecognised are reviewed at each reporting date and are recognised/reduced to the extent that it is probable/no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Company offsets, the current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

j) Foreign currencies:

Transactions in foreign currencies are initially recorded by the Company at their functional currency spot rates at the date of the transaction. Monetary assets and liabilities denominated in foreign currency are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences that arise on settlement of monetary items or on reporting at each balance sheet date of the Company's monetary items at the closing rates are recognised as income or expenses in the period in which they arise. Non-monetary items which are carried at historical cost denominated in a foreign currency are reported using the exchange rates at the date of transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

k) Government Grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to revenue, it is recognised in the statement of profit and loss on a systematic basis over the periods to which they relate.

l) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in Statement of profit or loss in the period in which they are incurred.

m) Provisions and contingent liabilities

i. General:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

ii. Contingent liabilities:

A disclosure for contingent liabilities is made where there is a possible obligation or a present obligation that may probably not require an outflow of resources. When there is a possible or a present obligation where the likelihood of outflow of resources is remote, no provision or disclosure is made.

iii. Onerous contracts:

Provision for onerous contracts. i.e. contracts where the expected unavoidable cost of meeting the obligations under the contract exceed the economic benefits expected to be received under it, are recognised when it is probable that an outflow of resources embodying economic benefits will be required to settle a present obligation as a result of an obligating event based on a reliable estimate of such obligation.

n) Segment reporting

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the chief operating decision maker, in deciding how to allocate resources and assessing performance. The Company's chief operating decision maker is the Director - Operations.

Segment revenue, segment expenses, segment assets and segment liabilities have been identified to segments on the basis of their relationship to the operating activities of the segment. Inter segment revenue is accounted on the basis of transactions which are primarily determined based on market/fair value factors. Revenue, expenses, assets and liabilities which relate to the Company as a whole and are not allocable to segments on a reasonable basis have been included under "unallocated revenue/expenses/assets/liabilities".

o) Employee benefits

i. Short-term employee benefits

All employee benefits falling due wholly within twelve months of rendering the services are classified as short-term employee benefits, which include benefits like salaries, wages, short-term compensated absences and performance incentives and are recognised as expenses in the period in which the employee renders the related service.

ii. Post-employment benefits

Contributions to defined contribution schemes such as Provident Fund, employee state insurance scheme, Pension Fund, etc., are considered as defined contribution plans and are recognised as expenses in the period in which the employee renders the related service.

The Company also provides for post-employment defined benefit in the form of gratuity and medical benefits. The cost of providing benefit is determined using the projected unit credit method, with actuarial valuation being carried out at each balance sheet date. Remeasurement of the net benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interests) and the effect of the assets ceiling (if any, excluding interest) are recognised in other comprehensive income. The effect of any plan amendments are recognised in net profit in the Statement of Profit and Loss.

iii. Other long-term employee benefits

All employee benefits (other than post-employment benefits and termination benefits) which do not fall due wholly within twelve months after the end of the period in which the employees render the related services are determined based on actuarial valuation or discounted present value method carried out at each balance sheet date. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary as at 31 March every year using projected unit credit method on the additional amount expected to be paid/availed as a result of the unused entitlement that has accumulated at the balance sheet date. Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

p) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, demand deposits with banks, other short-term highly liquid investments with original maturities of three months or less.

q) Earnings per share

Basic Earnings Per Share ('EPS') is computed by dividing the net profit/(loss) attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the net profit/(loss) by the weighted average number of equity shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the year, unless issued at a later date. In computing diluted earnings per share, only potential equity shares that are dilutive and that either reduces earnings per share or increases loss per share are included. The number of shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented in case of share splits.

r) Cash flow statement

Cash flows are reported using indirect method, whereby net profits before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments and items of income or expenses associated with investing or financing cash flows. The cash flows from regular revenue generating (operating activities), investing and financing activities of the Company are segregated.

s) Recent accounting pronouncement

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

Note 27: Employee benefits

(a) Defined Contribution Plan

The Company's contribution to Provident Fund and others aggregating Rs. 99.23 lakhs (2019 : Rs. 84.32 lakhs) has been recognised in the Statement of Profit or Loss under the head employee benefits expense.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit is payable as per the Payment of Gratuity Act, 1972. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Plan Assets:

The details with respect to the investment made by Fund manager (Life Insurance Corporation) into major categories of plan assets have not been disclosed, as the same has not been provided by the Fund manager to the Company.

Actuarial Assumptions:

The principal assumptions used in determining defined benefit obligations and fair value of asset for gratuity and leave encashment are:

Particulars	31-Mar-20	31-Mar-19
Discount rate	**6.59%**	7.71%
Future salary increases	**6.00%**	8.00%
Attrition rate	**11.12%**	9.02%
Estimated rate of return on plan assets	**6.59%**	7.71%
Mortality	Indian Assured Lives Mortality (2012-14) (Ultimate)	Indian Assured Lives Mortality (2006-08) (Ultimate)

A quantitative Sensitivity analysis for significant assumption as at 31 March 2020 are as below

	Gratuity						
Assumptions	**Discount Rate**		**Further Salary Increase**		**Attrition**		**Mortality**
Sensitivity Level	1% Increase	1% Decrease	1% Increase	1% Decrease	1% Increase	1% Decrease	10% Up
Impact on defined benefit obligation - Gratuity (Rs.in Lakhs)	(13.26)	15.74	15.31	(13.10)	(0.64)	0.62	0.0043
Percentage change	(9.55%)	11.33%	11.02%	(9.43%)	(0.46%)	0.45%	0.00%

A quantitative Sensitivity analysis for significant assumption as at 31 March 2019 are as below

	Gratuity						
Assumptions	**Discount Rate**		**Further Salary Increase**		**Attrition**		**Mortality**
Sensitivity Level	1% Increase	1% Decrease	1% Increase	1% Decrease	1% Increase	1% Decrease	10% Up
Impact on defined benefit obligation - Gratuity (Rs.in Lakhs)	(13.30)	16.06	15.62	(13.16)	(2.03)	2.27	(0.04)
Percentage change	(11.49%)	13.87%	13.49%	(11.37%)	(1.75%)	1.96%	0.04%

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The following payments are expected contributions by the Company to the defined benefit plan in future years:

		Rs. In lakhs
	Gratuity	
Particulars	**31-Mar-20**	31-Mar-19
Within the next 12 months	**5.86**	3.32
Between 2 and 5 years	**24.53**	14.07

Other financial liabilities	**16.75**	**16.75**	2,412.95	2,412.95	–	–	–	–

Fair value hierarchy

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The fair value of cash and cash equivalents, trade receivables, loans, bank balance other than cash and cash equivalents, borrowings, trade payables, other current financial assets and liabilities approximate their carrying amount largely due to the short-term nature of these instruments. The Company's long-term debt has been contracted at market rates of interest. Accordingly, the carrying value of such long-term debt approximates fair value. Based on this evaluation, the Company records allowance for estimated losses on these receivables. As of March 31, 2020 and March 31, 2019, the carrying value of such receivables, net of allowances approximates the fair value.

There have been no transfers among Level 1, Level 2 and Level 3 during the period.

B Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the risk management framework. The Company's management oversees how management monitors compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company.

C Financial risk management objectives and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Company is exposed to the following risks from its use of financial instruments:

– Market risk

– Credit risk

– Liquidity risk

The note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these financial statements.

(i) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include loans and borrowings. The sensitivity analyses in the following sections relate to the position as at 31 March 2020 and 31 March 2019. The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies. The analyses exclude the impact of movement in market variables on: the carrying values of gratuity and other post retirement obligations and provisions.

The following assumptions have been made in calculating the sensitivity analyses:

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2020 and 31 March 2019.

a. Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

b. Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Particulars	Average Interest Rate	Increase/ decrease in base points	Effect of profit before tax
March 31, 2020			
Interest Rates increased by 50 bps	9.80%	+50	Increase in interest by Rs. 6.69 Lakhs
Interest Rates reduced by 50 bps	9.80%	-50	Reduction in interest by Rs. 6.69 Lakhs
March 31, 2019			
Interest Rates increased by 50 bps	9.44%	+50	Increase in interest by Rs. 46.64 Lakhs
Interest Rates reduced by 50 bps	9.44%	-50	Reduction in interest by Rs. 46.64 Lakhs

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

c. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency).

The following table gives details in respect of outstanding foreign exchange forward contracts in relation to Sell Contracts:

Rs. In lakhs

Particulars	**As at March 31, 2020**		As at March 31, 2019	
	in Foreign Currency in lakhs	**Rs. In lakhs**	in Foreign Currency in lakhs	Rs. In lakhs
In USD	–	–	0.64	45.75

The foreign exchange forward contracts will mature within 12 months. The table below analyzes the derivative financial instruments sell contracts into relevant maturity groupings based on the remaining period as on the balance sheet date:

Rs. In lakhs

Particulars	**As at March 31, 2020**	As at March 31, 2019
Less than 1 month	**–**	**45.75**

d. Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, GBP, AUD ,EUR and SGD exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non–designated foreign currency derivatives and embedded derivatives. The Company's exposure to foreign currency changes for all other currencies are not material.

Rs. In lakhs

Particulars	31-Mar-20 Increase / decrease in basis points	31-Mar-20 Effect on profit before tax	31-Mar-19 Increase / decrease in basis points	31-Mar-19 Effect on profit before tax-
AUD	**+50**	**–**	+50	0.00
EUR	**+50**	**(0.46)**	+50	0.23
GBP	**+50**	**(0.00)**	+50	(0.07)
USD	**+50**	**11.29**	+50	5.66
SGD	**+50**	**0.02**	+50	–
AUD	**(50)**	**–**	(50)	(0.00)
EUR	**(50)**	**0.46**	(50)	(0.23)
GBP	**(50)**	**0.00**	(50)	0.07
USD	**(50)**	**(11.29)**	(50)	(5.66)
SGD	**(50)**	**(0.02)**	(50)	–

The movement in the pre-tax effect is a result of a change in the fair value of monetary assets and liabilities denominated in US dollars, where the functional currency of the entity is a currency other than US dollars.

(ii) Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions, foreign exchange transactions and other financial instruments.

a. Trade Receivable

Trade Receivables: The average credit period on sale of goods is 30 to 90 days. No interest is charged on trade receivables. The company's customers are reputed Aerospace industry companies having good financial position and there is no past default experience of the counter parties.

Trade receivables disclosed below includes the amounts that are past due at the end of the reporting period for which the company has not recognised an allowance for doubtful debts because there has not been a significant change in credit quality and amounts are still considered recoverable.

Rs. In lakhs

Particulars	31-Mar-20	31-Mar-19
Not Due	**1,809.31**	1,279.26
< 30 days	**79.68**	164.16
30-60 days	**32.44**	127.41
61-180 days	**5.93**	84.14
181-360 days	**–**	3.32
> 360 days	**–**	0.00
Total	**1,927.36**	1,658.29

Information about major customers:

Revenue from single external customer is approximately Rs. 2,587.84 lakhs (2019: Rs. 2,671.96 lakhs) representing 30% (2019: 41%) of Company's total revenue from operations for the year ended 31 March 2020. Receivables from single external customer is approximately Rs. 452.13 Lakhs (2019: Rs. 468.33 Lakhs) representing 23% (2019: 28%) of Company's total receivables as at 31 March 2020. Apart from the aforesaid single customer, the Company does not have a significant credit risk exposure to any other single counterparty.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the company's financial liabilities based on contractual undiscounted payments.

Rs. In lakhs

	On demand	Less than 1 year	1 to 2 Year	2 to 5 year	More than 5 Years	Total
Year ended 31 March 2020						
Borrowings	**565.06**	**–**	**–**	**–**	**–**	**565.06**
Trade payables	**–**	**887.75**	**–**	**–**	**–**	**887.75**
Other financial liabilities	**–**	**16.75**	**–**	**–**	**–**	**16.75**
	565.06	**904.50**	**–**	**–**	**–**	**1,469.56**
Year ended 31 March 2019						
Borrowings	1,135.48	2,320.00	29.32	–	–	3,484.80
Trade payables	–	1,361.43	–	–	–	1,361.43
Other financial liabilities	–	2,412.95	–	–	–	2,412.95
	1,135.48	6,094.38	29.32	–	–	7,259.18

Financial assets carried at amortised cost as at March 31, 2020 is 2,095.65 Lakhs.

Financial assets of Rs. 168.29 Lakhs as at March 31, 2020 carried at amortised cost is in the form of cash and cash equivalents, bank deposits, earmarked balances with banks, security deposits etc. where the Company has assessed the counterparty credit risk. Trade receivables of Rs. 1,927.36 Lakhs as at March 31, 2020 forms a significant part of the financial assets carried at amortised cost which is valued considering provision for allowance using expected credit loss method (if any). In addition to the historical pattern of credit loss, we have considered the likelihood of increased credit risk and consequential default considering emerging situations due to COVID-19. This assessment is not based on any mathematical model but an assessment considering the impact immediately seen in the demand outlook and the financial strength of the customers in respect of whom amounts are receivable. The Company has specifically evaluated the potential impact with respect to Aerospace Sector. The Company closely monitors its customers who are being impacted.

Basis this assessment, the Management believes Company is not required to provide for doubtful trade receivables as at March 31, 2020.

D Capital management

For the purpose of the company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the parent. The primary objective of the company's capital management is to maximise the shareholder value.

		Rs. In lakhs	% change
	31 March 2020	31 March 2019	2019-20
Total equity (A)	**16,636.91**	14,482.42	14.88
Current loans and borrowings	**565.06**	1,135.48	
Non current loans and borrowings	**–**	29.32	
Current maturities of long-term loans	**–**	2,320.00	
Total loans and borrowings (B)	**565.06**	3,484.80	(83.79)
Total capital (loans and borrowings and equity) (C)	**17,201.97**	17,967.22	
As percentage of total capital (B/C)	**3.28**	19.40	
Total loans and borrowings as percentage of Total equity (B/A)	**3.40**	24.06	

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Ultimate Holding/ Parent company will provide financial support in the future to enable them to settle their obligation as and when they fall due and operate as a going concern.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2020 and 31 March 2019.

30. Commitments and contingent liabilities

a) The Company entered into a lease-cum-sale agreement ('Agreement') for a period of 10 years with KIADB for 20 acres of land allotted in Narasapura Industrial area, Kolar District, Karnataka, for the setting up of aerospace component manufacturing facility. The title of the land will be transferred to the Company during the current lease term or at the end of 10 year or extended period, if any, after fulfilling all conditions stipulated in the said Agreement.

During the year ended March 31, 2012, the company incurred Rs. 870.51 Lakhs towards allotment consideration and other related expenses in connection with the said lease-cum-sale agreement. The said amount is disclosed under non-current assets.

As per the agreement, an amount of Rs. 134.00 lakhs is payable to KIADB towards implementation of water supply scheme. However, during 2015 the KIADB raised a demand for Rs. 410.00 lakhs i.e. an increase of Rs. 276.00 lakhs. The Company disputed the amount and the same is pending with KIADB.

b) The estimated amount of contracts remaining to be executed on Capital account and not provided for Rs. 174.62 lakhs (2019: Rs. 51.09 lakhs)

c) Customs duty and penalty of Rs. 2,598.85 lakhs (2019: 2,598.85 lakhs) along with the applicable interest payable against the order issued by the Commissioner of Customs in the matter of import of certain pre-owned equipment. The Company has filed an appeal and the same is pending with the CESTAT.

d) Customs duty of Rs. 41.36 lakhs along with the applicable interest (2019: Rs. 41.36 lakhs) payable against the Demand Cum show cause notice issued by the Directorate of Revenue Intelligence in the matter of certain imports relating to installation of certain equipment, for which the company has submitted reply and the same is pending with Joint Commissioner of Customs.

e) In February 2019, Supreme Court of India in its judgement clarified that certain special allowances should be considered to measure obligation under Employees Provident Fund Act, 1952. The company has been legally advised that there are interpretive challenges on the application of judgement retrospectively and as such does not consider there any probable obligations for past periods. Accordingly, based on legal advice the company has made provision for provident fund contribution form the date of Supreme court order. The probable obligation for past periods amounting to Rs. 83.75 Lakhs has been considered by the Company as contingent liability.

Note: The Company is contesting the demands and the management believes that its position will likely be upheld in the various appellate authorities/courts and the ultimate outcome will not have a material adverse effect on the Company's financial position and results of operations.

31. Dues to micro and small enterprises

The information as required under the Micro, Small and Medium Enterprises Development Act, 2006 has been determined to the extent such parties have been identified on the basis of information available with the Company. This information has been relied upon by the Auditors. The disclosures relating to Micro, Small and Medium Enterprises as at March 31, 2020 are as under: -

			Rs. in Lakhs
Sr. No.	**Particulars**	**2019-20**	2018-19
A	The principal amount remaining unpaid to supplier as at the end of the year	25.69	62.62
B	The interest due thereon remaining unpaid to supplier as at the end of the year	0.01	0.20
C	Interest paid in terms of Section 16 of the Act along with the amount of payment made to the supplier beyond the appointed day during the year		
	– Principal paid beyond the appointed date	536.69	507.42
	– Interest paid in terms of the Section 16 of the Act	–	–
D	The amount of interest due and payable for the period of delay in making payment (which have been paid but beyond the appointed day during the year) but without adding the interest specified under this Act	–	–
E	Further interest due and payable even in the succeeding year, until such date when the interest due as above are actually paid to the small enterprises	20.64	17.28
F	The amount of interest accrued during the year and remaining unpaid at the end of the year	3.36	4.99

32. Earnings Per Share:

Basic earnings per share amounts are calculated by dividing the profit/loss for the year attributable to equity holders by the weighted average number of Equity Shares outstanding during the year.

			Rs. in Lakhs
Sr. No.	**Particulars**	**31-Mar-20**	31-Mar-19
(a)	Earnings attributable to equity shareholders	**(861.65)**	(1,958.92)
(b)	Weighted average number of equity shares outstanding during the year	**415,544,932**	383,140,822
(c)	Basic Earnings per share (Rs.)	**(0.21)**	(0.51)
(d)	Dilutive Earnings per share (Rs.)	**(0.21)**	(0.51)

Weighted average no of shares (basic & diluted)

Rs. In lakhs

Particulars	**For the year ended 31 March 2020**	For the year ended 31 March 2019
(a) Opening Balance	**398,860,000**	322,360,000
(b) Effect of fresh issue of shares	**16,684,932**	60,780,822
(c) Weighted average no of shares	**415,544,932**	383,140,822

The weighted average number of ordinary shares for the purpose of diluted earnings per share reconciles to the weighted average number of equity shares used in the calculation of basic earnings/(loss) per share as follows:

Rs. In lakhs

Particulars	**For the year ended 31 March 2020**	For the year ended 31 March 2019
Weighted average number of equity shares used in the calculation of Basic EPS	**415,544,932**	383,140,822
Add: Effect of potential equity shares	**–**	–
Weighted average number of equity shares used in the calculation of Diluted EPS	**415,544,932**	383,140,822

33. **Impairment of capital work-in-progress**

During the year 2016-17, the Management had evaluated impairment for certain assets recorded as capital work in progress and as at Balance sheet date has provided an impairment loss of Rs. 325.00 lakhs.

34. **Segment Reporting:**

The Company primarily operates in the aerospace segment. The Activities of the Company includes "Sale of aircraft components and sub assemblies".

The Director (Operations) of the Company, who has been identified as being the chief operating decision maker (CODM), evaluates the Company's performance, allocate resources based on the analysis of the various performance indicator of the Company as a single unit.

Therefore, based on the guiding principles given in Ind AS 108 on 'Operating Segments', the Company's business activity fall within a single operating segment, namely aerospace segment. Accordingly, the disclosure requirements of Ind AS 108 are not applicable.

Entity wide disclosure details as per Ind AS 108 on Operating segments are given below:

Revenue from Operations

	Domestic	**Overseas**	**Total**
2019-20	**204.00**	**8,568.33**	**8,772.33**
2018-19	355.68	6,224.47	6,580.15

a) Domestic segment includes Component sales and job work services to customers located in India.

b) Overseas segment includes Component sales made to customers located outside India.

c) There are no assets located outside India.

d) Customers contributing 10% or more of Company's revenue (4 customers amounting to Rs 7,107.11 Lakhs in 2019-20 and 3 customers amounting to Rs. 5,129.79 Lakhs in 2018-19)

34A. Due to the transition method chosen in applying Ind AS 115, comparative information has not been restated to reflect the new requirements.:

A. Revenue streams:

The Company is primarily involved in manufacturing and sale of aircraft components, assemblies and aerostructures. Other sources of revenue include income from Job work services, trading of goods, government grants and incentives and scrap sales.

Particulars	**For the year ended 31 March 2020**	For the year ended 31 March 2019
Sale of goods and services	**8,772.33**	6,580.15
Other operating revenue	**313.66**	404.14
Total revenue	**9,085.99**	6,984.29

B. Disaggregation of revenue from contracts with customers:

In the following table, revenue from contracts with customers is disaggregated by primary geographical market

Rs. In lakhs

Particulars	**For the year ended 31 March 2020**	For the year ended 31 March 2019
India	**204.00**	355.68
Others	**8,568.33**	6,224.47
Total revenue	**8,772.33**	6,580.15

Impact of COVID-19

While the Company believes strongly that it has a rich portfolio of capabilities to partner with customers, the impact on future revenue streams could come from

- Reduction in customer requirement arising from overall reduction from Aerospace sector
- prolonged lock-down situation resulting in its inability to deploy resources at different locations due to restrictions in mobility

The Company has assessed that customers in Manufacturing verticals are more prone to immediate impact due to disruption in supply chain and drop in demand. The Company has considered such impact to the extent known and available currently. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration.

The Company has taken steps to assess the cost budgets required to complete its performance obligations in respect of contracts and have noted that there is no significant impact of likely delays/increased cost in meetings its obligations as at 31 March 2020. The Company has also assessed the impact of any delays and inability to meet contractual commitments and has taken actions such as engaging with the customers to agree on revised SLAs in light of current crisis, invoking of force-majeure clause etc., to ensure that revenue recognition in such cases reflect realisable values.

35. The Company has incurred losses in current and earlier years. The Company expects growth in its operations in coming years and is taking measures to improve its operational efficiency. Basis the continued financial support provided by the shareholders, undrawn borrowing facilities from the banks and cash flow projections, the use of going concern assumption has been considered appropriate in preparation of financial statements of the company. The Company's current assets exceed its current liabilities as at 31 March 2020.

Note 36: Income taxes

The Company has carried out its deferred tax computation in accordance with Ind AS 12 'Income Taxes' notified under the Companies (Indian Accounting Standards) Rules, 2015.

Significant components & classification of deferred tax assets and liabilities are as follows:

Rs. In lakhs

Particulars	As at March 31, 2020	As at March 31, 2019
Deferred tax liabilities		
Related to depreciation of fixed assets	**768.07**	788.84
Total deferred tax liability (a)	**768.07**	788.84
Deferred tax assets		
Provision for gratuity	**8.64**	9.74
Provision for leave encashment	**22.85**	19.67
Provision for inventory	**61.10**	74.42
Provision for service tax credit	**327.29**	327.29
Provision for Duty drawback receivable	**14.52**	–
Unabsorbed Depreciation	**2,689.20**	2,542.91
Carry forward losses	**3,897.28**	4,129.99
Others	**10.53**	32.46
Total deferred tax assets (b)	**7,031.41**	7,136.49
Net deferred tax assets/ (liabilities) (b-a)	**6,263.34**	6,347.65

Having regard to the accumulated losses, the Company has not recognised the net deferred tax assets in the absence of reasonable certainty at this stage that there will be sufficient future taxable income available to realize such assets.

(b) Reconciliation of effective tax rate:

Particulars	As at March 31, 2020		As at March 31, 2019	
Profit/(loss) before tax		**(861.65)**		(1,958.92)
Income tax expense calculated at domestic tax rates applicable to profits	**26.00%**	**(224.03)**	26.00%	(509.32)
Tax effects of:				
Permanent difference	**(0.24%)**	**2.08**	(0.17%)	3.23
Change in tax rate impact	**0.00%**	**–**	2.88%	(56.37)
Adoption of dispute resolution scheme	**(24.30%)**	**209.37**	0.00%	–
Others	**(11.24%)**	**96.89**	(1.07%)	21.06
Deferred tax asset not recognised in statement of profit and loss		**84.31**		(541.40)

(c) Tax losses

Particulars	March 31, 2020	Expiry date	March 31, 2019	Expiry date
Loss from business	**14,989.53**	31 March 2020 to 31 March 2029	15,884.57	31 March 2020 to 31 March 2028
Unabsorbed depreciation	**10,343.09**	Carried forward indefinitely	9,780.43	Carried forward indefinitely
Total	**25,332.62**		25,665.00	
Potential tax benefit	**6,586.48**		6,672.90	

37. The Company has established a comprehensive system of maintenance of information and documents as required by the transfer pricing legislation under Sections 92-92F of the Income-tax Act. Since the law requires existence of such information and documentation to be contemporaneous in nature, the Company is in the process of updating the documentation for the international as well as specified domestic transactions entered into with the associated enterprise during the financial year and expects such records to be in existence latest by the end of the stipulated timeline, as required by law. The Management is of the opinion that its international as well as specified domestic transactions are at arm's length so that the aforesaid legislation will not have any impact on the financial statements, particularly on the amount of tax expenses and that of provision for taxation.

38. During the year ended 31 March 2020, no material foreseeable loss (2019: Nil) was incurred for any long-term contract including derivative contracts.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF MAHINDRA AEROSPACE AUSTRALIA PTY LTD

Report on the Audit of the Financial Report

Opinion

We have audited the financial report, being a special purpose financial report of Mahindra Aerospace Australia Pty Ltd, "the Company", which comprises the statement of financial position as at 31 March 2020, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of Mahindra Aerospace Australia Pty Ltd, is in accordance with the *Corporations Act 2001*, including**:**

(a) giving a true and fair view of the Company's financial position as at 31 March 2020 and of its financial performance for the year then ended; and

(b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* "the Code" that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter - Basis of Accounting

We draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared to assist Mahindra Aerospace Australia Pty Ltd to meet the requirements of *Corporations Act 2001*. As a result, the financial report may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusio**n,** forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty

exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

AUDITOR'S INDEPENDENCE DECLARATION

TO THE DIRECTORS OF MAHINDRA AEROSPACE AUSTRALIA PTY LTD

In relation to the independent audit for the year ended 31 March 2020, to the best of my knowledge and belief there have been:

(i) no contraventions of the auditor independence requirements of the *Corporations Act 2001;* and

(ii) no contraventions of APES 110 *Code of Ethics for Professional Accountants (including Independence Standards).*

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The directors have determined that the company is not a reporting entity on the basis that, in the opinion of the directors, there are unlikely to exist users of the financial report who are unable to command the preparation of reports tailored so as to satisfy, specifically, all of their information needs. Accordingly, this financial report is a special purpose financial report, which has been prepared to satisfy the financial reporting requirements of the *Corporations Act 2001*.

The financial report covers Mahindra Aerospace Australia Pty Ltd as an individual entity. Mahindra Aerospace Australia Pty Ltd is a company limited by shares, incorporated and domiciled in Australia. Mahindra Aerospace Australia Pty Ltd is a for-profit entity for the purpose of preparing the financial statements.

The financial report was approved by the directors as at the date of the directors' report.

The financial report has been prepared in accordance with the *Corporations Act 2001*, the recognition and measurement requirements specified by all Australian Accounting Standards and Interpretations, and the disclosure requirements of:

AASB 101:	Presentation of Financial Statements
AASB 107:	Statement of Cash Flows
AASB 108:	Accounting Policies, Changes in Accounting Estimates and Errors
AASB 1054:	Australian Additional Disclosures

The following specific accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of this financial report:

(a) Basis of preparation of the financial report

Historical Cost Convention

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets and liabilities as described in the accounting policies.

Significant accounting estimates and judgements

The preparation of the financial report requires the use of certain estimates and judgements in applying the company's accounting policies. Those estimates and judgements significant to the financial report are disclosed in Note 2 to the financial statements.

(b) Revenue

Interest revenue is recognised when it become receivable on a proportional basis taking into account the interest rates applicable to the financial assets.

All revenue is measured net of the amount of goods and services tax (GST).

(c) Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks.

(d) Financial instruments

Trade and other receivables

Trade and other receivables arise from the company's transactions with its customers and are normally settled within 30–90 days.

Consistent with both the company's business model for managing the financial assets and the contractual cash flow characteristics of the assets, trade and other receivables are subsequently measured at amortised cost, except when the effect of discounting is not material, in which case the financial asset is carried at its nominal amount. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are subsequently measured at amortised cost using the effective interest rate method.

(e) Investments in subsidiaries

Non-current investments are recorded at cost. The carrying amount of the investments is reviewed annually by directors to ensure it is not in excess of the recoverable amount of these investments.

(f) Impairment of non-financial assets

Goodwill, intangible assets not yet ready for use and intangible assets with indefinite useful lives are not subject to amortisation and are therefore tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

For impairment assessment purposes, assets are generally grouped at the lowest levels for which there are largely independent cash flows ('cash generating units'). Accordingly, most assets are tested for impairment at the cash-generating unit level. Because it does not generate cash flows independently of other assets or groups of assets, goodwill is allocated to the cash generating unit or units that are expected to benefit from the synergies arising from the business combination that gave rise to the goodwill.

Assets other than goodwill, intangible assets not yet ready for use and intangible assets with indefinite useful lives are assessed for impairment whenever events or circumstances arise that indicate the asset may be impaired.

An impairment loss is recognised when the carrying amount of an asset or cash generating unit exceeds the asset's or cash generating unit's recoverable amount. The recoverable amount of an asset or cash generating unit is defined as the higher of its fair value less costs to sell and value in use (where 'value in use' is determined as the present value of the future cash flows expected to be derived from an asset or cash-generating unit).

Impairment losses in respect of individual assets are recognised immediately in profit or loss unless the asset is measured at a revalued amount, in which case the impairment loss is treated as a revaluation decrease and is recognised in other comprehensive income to the extent that it does not exceed the amount in the revaluation surplus for the same asset. Impairment losses in respect of cash generating units are allocated first against the carrying amount of any goodwill attributed to the cash generating unit with any remaining impairment loss allocated on a pro rata basis to the other assets comprising the relevant cash-generating unit.

A reversal of an impairment loss for an asset measured at cost is recognised in profit or loss. A reversal of an impairment loss for an asset measured at a revalued amount is treated as a revaluation increase and is recognised in other comprehensive income, except to the extent that an impairment loss on the same asset was previously recognised in profit or loss, in which case a reversal of that impairment loss is also recognised in profit or loss.

(g) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current period disclosures.

NOTE 2: SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

Certain accounting estimates include assumptions concerning the future, which, by definition, will seldom represent actual results. Estimates and assumptions based on future events have a significant inherent risk, and where future events are not as anticipated there could be a material impact on the carrying amounts of the assets and liabilities discussed below:

(a) Investment in Subsidiaries

All investments in subsidiaries are assessed for impairment by evaluating whether indicators of impairment exist in relation to their carrying values.

For the purposes of impairment assessment, investments in subsidiaries is regarded as a single cash generating unit (CGU).

The recoverable amount of the carrying value of investments in subsidiaries has been assessed on the basis of projected cash flows approved by management covering a period of 3 years (2019: 10 years).

NOTE 3: ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

The AASB has issued a number of new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods, some of which are relevant to the company. The company has decided not to early adopt any of these new and amended pronouncements. Management has assessed that none of these standards will have a material impact on the company's financial statements in the period of initial application.

DIRECTORS' DECLARATION

The directors have determined that the entity is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies outlined in Note 1 to the financial statements.

The directors of the entity declare that:

1. In the directors opinion, the financial statements and notes, as set out on pages herein, are in accordance with the *Corporations Act 2001*, including:
   (a) complying with Accounting Standards in Australia as detailed in Note 1 to the financial statements and the *Corporations Regulations 2001*; and
   (b) giving a true and fair view of the financial position as at 31 March 2020 and performance for the year ended on that date of the entity in accordance with the accounting policies described in Note 1 to the financial statements.
2. In the directors' opinion there are reasonable grounds to believe that the entity will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This financial report is a special purpose financial report prepared for use by the directors and members of the company. The directors have determined that the company is not a reporting entity. Nomad TC Pty Ltd is a for profit entity for the purpose of preparing the financial statements.

The financial report was approved by the directors as at the date of the directors' report.

The financial report has been prepared in accordance with the recognition and measurement criteria of all applicable Accounting Standards, with the exception of the disclosure requirements of:

AASB 101: Presentation of Financial Statements

AASB 112: Income Taxes

AASB 124: Related Party Disclosures

AASB 1054: Australian Additional Disclosures

The following specific accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of this report:

(a) Basis of preparation of the financial report

Historical Cost Convention

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets and liabilities as described in the accounting policies.

(b) Going concern

The financial report has been prepared on a going concern basis.

The company incurred a loss from ordinary activities of $350 during the year ended 31 March 2020 (2019: $350), and as at that date the company's total liabilities exceeded total assets by $ Nil (2019: $10,050).

The company is dependent on the ongoing financial support of its ultimate parent entity to meet its financial obligations at 31 March 2020. At this time, there is no reason for the directors to believe that the ongoing financial support of the ultimate parent entity will not be continued.

(c) Foreign currency translations and balances

Functional and presentation currency

The financial statements are presented in Australian dollars which is the company's functional and presentation currency.

(d) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF GIPPSAERO PTY LTD

Report on the Audit of the Financial Report

Opinion

We have audited the financial report, being a special purpose financial report of GippsAero Pty Ltd, "the Company", which comprises the statement of financial position as at 31 March 2020, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of GippsAero Pty Ltd, is in accordance with the *Corporations Act 2001*, including:

(a) giving a true and fair view of the Company's financial position as at 31 March 2020 and of its financial performance for the year then ended; and

(b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* "the Code" that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of Accounting

We draw attention to Note 1 to the financial report, which describes the basis of accounting. The financial report has been prepared to assist GippsAero Pty Ltd to meet the requirements of *Corporations Act 2001*. As a result, the financial report may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Date: 4th May 2020

DIRECTORS' DECLARATION

The directors have determined that the company is not a reporting entity and that this special purpose financial report should be prepared in accordance with the accounting policies outlined in Note 1 to the financial statements.

The directors of the company declare that:

1. In the directors opinion, the financial statements and notes, as set out on pages herein, are in accordance with the *Corporations Act 2001*, including:

    (a) complying with Accounting Standards in Australia as detailed in Note 1 to the financial statements and the *Corporations Regulations 2001*; and

    (b) giving a true and fair view of the financial position as at 31 March 2020 and performance for the year ended on that date of the company in accordance with the accounting policies described in Note 1 to the financial statements.

2. In the directors' opinion there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The directors have determined that the company is not a reporting entity on the basis that, in the opinion of the directors, there are unlikely to exist users of the financial report who are unable to command the preparation of reports tailored so as to satisfy, specifically, all of their information needs. Accordingly, this financial report is a special purpose financial report, which has been prepared to satisfy the financial reporting requirements of the *Corporations Act 2001*.

The financial report covers GippsAero Pty Ltd as an individual entity. GippsAero Pty Ltd is a company limited by shares, incorporated and domiciled in Australia. GippsAero Pty Ltd is a for-profit entity for the purpose of preparing the financial statements.

The financial report was approved by the directors as at the date of the directors' report.

The financial report has been prepared in accordance with the Corporations Act 2001, the recognition and measurement requirements specified by all Australian Accounting Standards and Interpretations, and the disclosure requirements of:

AASB 101: Presentation of Financial Statements

AASB 107: Statement of Cash Flows

AASB 108: Accounting Policies, Changes in Accounting Estimates and Errors

AASB 1054: Australian Additional Disclosures

The following specific accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of this financial report:

(a) Basis of preparation of the financial report

Historical Cost Convention

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets and liabilities as described in the accounting policies.

Significant accounting estimates and judgements

The preparation of the financial report requires the use of certain estimates and judgements in applying the company's accounting policies. Those estimates and judgements significant to the financial report are disclosed in Note 2.

(b) Going concern

The financial report has been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

The company incurred a loss from ordinary activities of $22,926,199 (2019: $20,038,047) during the year ended 31 March 2020, and as at that date the company's current liabilities exceeded current assets by $6,574,110 (2019: $1,463,431 net current assets).

The company is dependent on ongoing financial support at 31 March 2020. As at the date of signing the company has recieved confirmation of ongoing support from its immediate parent company in India.

The going concern basis above assumes the continued support of its immediate parent company in India, the ability to source alternative finance if required. If the going concern basis is found to no longer be appropriate the recoverable amounts of the assets shown in the Statement of Financial Position are likely to be significantly less than the amounts disclosed and the extent of the liabilities may differ significantly from those reflected.

At this time, directors believe that the ongoing financial support of the immediate parent company in India will be continued.

(c) Foreign currency transactions and balances

Functional and presentation currency

The financial statements are presented in Australian dollars which is the company's functional and presentation currency.

Transactions and Balances

Transactions undertaken in foreign currencies are recognised in the company's functional currency, using the spot rate at the date of the transaction.

Foreign currency monetary items that are outstanding at the reporting date (other than monetary items arising under foreign currency contracts where the exchange rate for that monetary item is fixed in the contract) are restated to the spot rate at the reporting date.

Except for certain foreign currency hedges, all exchange gains or losses are recognised in profit or loss for the period in which they arise.

(d) Revenue from contracts with customers

Revenue from contracts with customers

The company derives revenue from the sale of aircraft and spare parts and the provision of aircraft hire services. Revenue is recognised as, or when, goods or services are transferred to the customer, and is measured at an amount that reflects the consideration to which the company expects to be entitled in exchange for the goods or services.

Revenue from the sale of aircraft and spare parts

Revenue from the sale of aircraft and spare parts is recognised at the point in time when control of the goods is transferred to the customer, which generally occurs when the beneficial ownership passes to the customer. Customers have no right to return purchased goods. Revenue is measured net of any discounts, rebates and other price concessions. Customers are required to pay for all goods purchased in line with the terms of contract of sale.

Revenue from the provision of aircraft hire services

The company provides aircraft hire services to customers. Revenue from the provision of aircraft hire is recognised on the basis of flight hours. Recognising revenue on the basis of flight hours is considered an appropriate method as it is consistent with the manner in which the services are provided to the customer. Estimates of revenues, costs or extent of progress toward achievement of performance obligations are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known. Customers are generally invoiced on a monthly basis, and outstanding invoices are due for payment within 30 days of the invoice date.

Consideration included in the measurement of revenue

The consideration to be received from customers includes fixed amounts. Where the contract includes a right to variable consideration, the company estimates the amount of variable consideration using the most likely amount approach on a contract-by-contract basis. Variable consideration is included in the measurement of revenue only to the extent that it is highly probable, based on flight hours, that a significant reversal of the cumulative amount recognised will not occur when the uncertainty associated with the variability is subsequently resolved.

Interest

Interest revenue is recognised when it becomes receivable on a proportional basis taking in to account the interest rates applicable to the financial assets.

All revenue is measured net of the amount of goods and services tax (GST).

Warranty obligations

The company provides a general warranty for all goods sold, as required by law. The company does not provide customers with the option to purchase an additional or extended warranty. Warranty obligations are recognised as a provision, and are measured at the company's estimate of the expenditure required to fulfil its warranty obligations at the reporting date. The company updates the measurement of the warranty provision at the end of each reporting period for changes in expectations.

(e) Income tax

Current income tax expense or revenue is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities.

Deferred tax assets and liabilities are recognised for temporary differences at the applicable tax rates when the assets are expected to be recovered or liabilities are settled. Deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not recognised if it arises from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

(f) Cash and cash equivalents

Cash and cash equivalents include cash on hand and at banks, short-term deposits with an original maturity of three months or less held at call with financial institutions, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

(g) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of manufactured products includes direct material, direct labour and a proportion of manufacturing overheads based on normal operating capacity. Inventories include raw materials, work in progress and finished goods.

Raw materials are valued at a moving average cost price.

Work in progress ("WIP") is valued at cost, which includes both variable and fixed costs relating to specific items, and those costs that are attributable to the WIP activity in general that can be allocated on a reasonable basis.

(h) Financial instruments

Classification of financial assets

Financial assets recognised by the company are subsequently measured in their entirety at either amortised cost or fair value, subject to their classification and whether the company irrevocably designates the financial asset on initial recognition at fair value through other comprehensive income (FVtOCI) in accordance with the relevant criteria in AASB 9.

Financial assets not irrevocably designated on initial recognition at FVtOCI are classified as subsequently measured at amortised cost, FVtOCI or fair value through profit or loss (FVtPL) on the basis of both:

(a) the company's business model for managing the financial assets; and

(b) the contractual cash flow characteristics of the financial asset.

Classification of financial liabilities

Financial liabilities include trade payables, other creditors and loans from third parties including inter company balances and loans from or other amounts due to director-related entities. Non-derivative financial liabilities are subsequently measured at amortised cost, comprising original debt less principal payments and amortisation. Financial liabilities are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

Trade and other receivables

Receivables from contracts with customers

A receivable from a contract with a customer represents the company's unconditional right to consideration arising from the transfer of goods or services to the customer (i.e., only the passage of time is required before payment of the consideration is due). Subsequent to initial recognition, receivables from contracts with customers are measured at amortised cost and are tested for impairment.

Trade and other receivables arise from the company's transactions with its customers and are normally settled within 30-90 days.

Consistent with both the company's business model for managing the financial assets and the contractual cash flow characteristics of the assets, trade and other receivables are subsequently measured at amortised cost, except when the effect of discounting is not material, in which case the financial asset is carried at its nominal amount. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Loans and receivables are subsequently measured at amortised cost using the effective interest rate method.

The company has chosen to apply the simplified approach under AASB 9 to measuring impairment provisions for receivables, including lease receivables. Under the AASB 9 Financial Instruments simplified approach, the company determines the impairment provision for receivables on the basis of the lifetime expected credit losses of the receivable. Lifetime expected credit losses represent the expected credit losses that are expected to result from default events over the expected life of the receivable.

(i) Property, plant and equipment

Each class of plant and equipment is measured at cost or fair value less, where applicable, any accumulated depreciation and any accumulated impairment losses.

Plant and equipment

Plant and equipment is measured on a cost basis.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from those assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the assets employment and subsequent disposal.

Depreciation

The depreciable amount of all property, plant and equipment is depreciated over their estimated useful lives commencing from the time the asset is held available for use, consistent with the estimated consumption of the economic benefits embodied in the asset.

Class of fixed asset	Depreciation rates	Depreciation basis
Hanger at cost	5 - 20%	Straight line
Leasehold improvements at cost	9 - 11%	Straight line
Plant and equipment at cost	6 - 21%	Straight line
Aircrafts at cost	10%	Straight line
Motor vehicles at cost	5 - 13%	Straight line
Computer equipment at cost	22 - 100%	Straight line

(j) Intangible assets

Goodwill

Goodwill represents the future economic benefits arising from other assets acquired in a business combination that are not individually identifiable or separately recognised.

Goodwill is not amortised, but is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less any accumulated impairment losses.

Intangible assets

Except for indefinite useful life intangible assets, which are not amortised but are tested annually for impairment, intangible assets are amortised over their estimated useful lives commencing from the time the asset is available for use. The amortisation method applied to an intangible asset is consistent with the estimated consumption of economic benefits of the asset.

Patents

Patents are recognised at cost and are not amortised, but are tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and are carried at cost less any accumulated impairment losses.

(k) Research and development expenditure

Expenditure on research activities is recognised as an expense when incurred.

Development costs are capitalised when the company can demonstrate all of the following: the technical feasibility of completing the asset so that it will be available for use or sale; the intention to complete the asset and use or sell it; the ability to use or sell the asset; how the asset will generate probable future economic benefits; the availability of adequate technical, financial and other resources to complete the development and to use or sell the asset; and the ability to measure reliably the expenditure attributable to the asset during its development. Capitalised development costs are amortised over their estimated useful lives commencing from the time the asset is available for use. The amortisation method applied to capitalised development costs is consistent with the estimated consumption of economic benefits of the asset. Subsequent to initial recognition, capitalised development costs are measured at cost, less accumulated amortisation and any accumulated impairment losses.

Other development expenditure is recognised as an expense when incurred.

Project expenses are capitalised as incurred once identified as relating to a project that will deliver future economic benefits that can be measured reliably.

(l) Impairment of non-financial assets

Goodwill, intangible assets not yet ready for use and intangible assets with indefinite useful lives are not subject to amortisation and are therefore tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired.

For impairment assessment purposes, assets are generally grouped at the lowest levels for which there are largely independent cash flows ('cash generating units'). Accordingly, most assets are tested for impairment at the cash generating unit level. Because it does not generate cash flows independently of other assets or groups of assets, goodwill is allocated to the cash generating unit or units that are expected to benefit from the synergies arising from the business combination that gave rise to the goodwill.

Assets other than goodwill, intangible assets not yet ready for use and intangible assets with indefinite useful lives are assessed for impairment whenever events or circumstances arise that indicate the asset may be impaired.

An impairment loss is recognised when the carrying amount of an asset or cash generating unit exceeds the asset's or cash generating unit's recoverable amount. The recoverable amount of an asset or cash generating unit is defined as the higher of its fair value less costs to sell and value in use (where 'value in use' is determined as the present value of the future cash flows expected to be derived from an asset or cash generating unit).

Impairment losses in respect of individual assets are recognised immediately in profit or loss unless the asset is measured at a revalued amount, in which case the impairment loss is treated as a revaluation decrease and is recognised in other comprehensive income to the extent that it does not exceed the amount in the revaluation surplus for the same asset. Impairment losses in respect of cash generating units are allocated first against the carrying amount of any goodwill attributed to the cash generating unit with any remaining impairment loss allocated on a pro rata basis to the other assets comprising the relevant cash generating unit.

A reversal of an impairment loss for an asset measured at cost is recognised in profit or loss. A reversal of an impairment loss for an asset measured at a revalued amount is treated as a revaluation increase and is recognised in other comprehensive income, except to the extent that an impairment loss on the same asset was previously recognised in profit or loss, in which case a reversal of that impairment loss is also recognised in profit or loss.

(m) Provisions

Provisions are recognised when the company has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Warranty obligations

The company provides a two-year warranty or 2,000 flight hours for all aircraft. Warranty obligations are recognised as a provision, and are measured at the company's estimate of the expenditure required to fulfil its warranty obligations at the reporting date. The company updates the measurement of the warranty provision at the end of each reporting period for changes in expectations.

(n) Leases

Accounting policy applied to the information presented for the current period under AASB 16 Leases:

At the commencement date of a lease (other than leases of 12-months or less and leases of low value assets), the group recognises a lease asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments.

Lease assets

Lease assets are initially recognised at cost, comprising the amount of the initial measurement of the lease liability, any lease payments made at or before the commencement date of the lease, less any lease incentives received, any initial direct costs incurred by the group, and an estimate of costs to be incurred by the group in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease, unless those costs are incurred to produce inventories.

Subsequent to initial recognition, lease assets are measured at cost (adjusted for any remeasurement of the associated lease liability), less accumulated depreciation and any accumulated impairment loss.

Lease assets are depreciated over the shorter of the lease term and the estimated useful life of the underlying asset, consistent with the estimated consumption of the economic benefits embodied in the underlying asset.

Lease liabilities

Lease liabilities are initially recognised at the present value of the future lease payments (i.e., the lease payments that are unpaid at the commencement date of the lease). These lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined, or otherwise using the group's incremental borrowing rate.

Subsequent to initial recognition, lease liabilities are measured at the present value of the remaining lease payments (i.e., the lease payments that are unpaid at the reporting date). Interest expense on lease liabilities is recognised in profit or loss (presented as a component of finance costs). Lease liabilities are remeasured to reflect changes to lease terms, changes to lease payments and any lease modifications not accounted for as separate leases.

Variable lease payments not included in the measurement of lease liabilities are recognised as an expense when incurred.

Leases of 12-months or less and leases of low value assets

Lease payments made in relation to leases of 12-months or less and leases of low value assets (for which a lease asset and a lease liability has not been recognised) are recognised as an expense on a straight line basis over the lease term.

Accounting policy applied to the information presented for the prior period under AASB 117 Leases:

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Finance leases

Leases of fixed assets, where substantially all of the risks and benefits incidental to ownership of the asset, but not the legal ownership, are transferred to the group are classified as finance leases. Finance leases are capitalised, recording an asset and liability equal to the fair value or, if lower, the present value of the minimum lease payments, including any guaranteed residual values. The interest expense is calculated using the interest rate implicit in the lease, if this is practicable to determine; if not, the group's incremental borrowing rate is used. Interest expense on finance leases is included in finance costs in the statement of profit or loss and other comprehensive income. Lease assets are depreciated on a straight line basis over their estimated useful lives where it is likely the group will obtain ownership of the asset, or over the term of the lease. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period in accordance with the effective interest method.

(o) Employee benefits

(i) Short-term employee benefit obligations

Liabilities arising in respect of wages and salaries, annual leave and other employee benefits (other than termination benefits) expected to be settled wholly before twelve months after the end of the reporting period are measured at the (undiscounted) amounts based on remuneration rates which are expected to be paid when the liability is settled. The expected cost of short-term employee benefits in the form of compensated absences such as annual leave is recognised in the provision for employee benefits. All other short-term employee benefit obligations are presented as payables in the statement of financial position.

(ii) Long-term employee benefit obligations

The provision for other long-term employee benefits, including obligations for long service leave and annual leave, which are not expected to be settled wholly before twelve months after the end of the reporting period, are measured at the present value of the estimated future cash outflow to be made in respect of the services provided by employees up to the reporting date. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee turnover, and are discounted at rates determined by reference to market yields at the end of the reporting period on high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms approximating to the terms of the related obligation. For currencies in which there is no deep market in such high quality corporate bonds, the market yields (at the end of the reporting period) on government bonds denominated in that currency are used. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the change occurs.

Other long-term employee benefit obligations are presented as current liabilities in the statement of financial position if the company does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur. All other long-term employee benefit obligations are presented as non-current liabilities in the statement of financial position.

(p) Borrowing costs

Borrowing costs include interest expense calculated using the effective interest method, finance charges in respect of lease arrangements, and exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.

Borrowing costs are expensed as incurred, except for borrowing costs incurred as part of the cost of the construction of a qualifying asset, in which case the costs are capitalised until the asset is ready for its intended use or sale.

(q) Goods and services tax (GST)

Revenues, expenses and purchased assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

(r) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures.

(s) New and revised accounting standards effective at 31 March 2020

The company has applied all new and revised Australian Accounting Standards that apply to annual reporting periods beginning on or after 1 July 2019, including AASB 16 Leases (AASB 16).

AASB 16: Leases

AASB 16 replaces AASB 117 Leases and introduces a single lessee accounting model that requires a lessee to recognise right-of-use assets and lease liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Right-of-use assets are initially measured at cost and lease liabilities are initially measured on a present value basis. Subsequent to initial recognition:

(a) right-of-use assets are accounted for on a similar basis to non-financial assets, whereby the right-of-use asset is accounted for on a cost basis unless the underlying asset is accounted for on a revaluation basis, in which case if the underlying asset is:

  i. investment property, the lessee applies the fair value model in AASB 140 Investment Property to the right-of-use asset; or

  ii. property, plant or equipment, the applies the revaluation model in AASB 116 *Property, Plant and Equipment* to all of the right-of-use assets that relate to that class of property, plant and equipment; and

(b) lease liabilities are accounted for on a similar basis to other financial liabilities, whereby interest expense is recognised in respect of the lease liability and the carrying amount of the lease liability is reduced to reflect the principal portion of lease payments made.

AASB 16 substantially carries forward the lessor accounting requirements of the predecessor standard, AASB 117. Accordingly, under AASB 16 a lessor continues to classify its leases as operating leases or finance leases subject to whether the lease transfers to the lessee substantially all of the risks and rewards incidental to ownership of the underlying asset, and accounts for each type of lease in a manner consistent with the current approach under AASB 117.

In accordance with the transition requirements of AASB 16, the company has elected to apply AASB 16 retrospectively to those contracts that were previously identified as leases under the predecessor standard, with the cumulative effect, if any, of initially applying the new standard recognised as an adjustment to opening retained earnings at the date of initial application (i.e., at 1 July 2019). Accordingly, comparative information has not been restated.

The company has also elected to apply the following practical expedients to the measurement of right-of-use assets and lease liabilities in relation to those leases previously classified as operating leases under the predecessor standard:

- to recognise right-of-use asset at the date of initial application at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the statement of financial position immediately before the date of initial application;
- to not recognise a right-of-use asset and a lease liability for leases for which the underlying asset is of low value;
- to not recognise a right-of-use asset and a lease liability for leases for which the lease term ends within 12 months of the date of initial application;
- to apply a single discount rate to a portfolio of leases with reasonably similar characteristics;
- to adjust each right-of-use asset at the date of initial application by the amount of any provision for onerous leases recognised in the statement of financial position immediately before the date of initial application;
- to exclude initial direct costs from the measurement of each right-of-use asset at the date of initial application; and
- to use hindsight, such as in determining the lease term if the contract contains options to extend or terminate the lease.

The application of AASB 16 resulted in the recognition of right-of-use assets with an aggregate carrying amount of $67,413 (referred to in these financial statements as "lease assets") and corresponding lease liabilities with an aggregate carrying amount of $68,073. The weighted average incremental borrowing rate applied in the calculation of the initial carrying amount of lease liabilities was 3.94%.

NOTE 2: SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

Certain accounting estimates include assumptions concerning the future, which, by definition, will seldom represent actual results. Estimates and assumptions based on future events have a significant inherent risk, and where future events are not as anticipated there could be a material impact on the carrying amounts of the assets and liabilities discussed below:

(a) Intangible assets

All intangible assets are assessed for impairment by evaluating whether indicators of impairment exist in relation to their carrying values.

For the purposes of impairment assessment, intangible assets are regarded as a single cash generating unit (CGU), relating primarily to the manufacturing and sale of aircraft.

The recoverable amount of the carrying value of investment in subsidiaries has been assessed on the basis of projected cash flows approved by management covering a period of 3 years (2019: 10 years). The present value of the future cash flows has been calculated using the following key assumptions:

- average growth rate of 40% for the sale price of aircraft (2019: 0% to 2% growth);
- average cost of sales growth rate of 41% (2019: 0% to 2% growth);

- terminal value growth rate of 2.5% (2019: 2.5%);
- the USD/AUD exchange rate to be at 0.75 throughout the projection period (2019: 0.75);
- discount rate to be 16.6%, (2019: 16.6%).

NOTE 3: ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

The AASB has issued a number of new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods, some of which are relevant to the company. The company has decided not to early adopt any of these new and amended pronouncements. Management has assessed that none of these standards will have a material impact on the company's financial statements in the period of initial application.

NOTE 4: REVENUE FROM CONTRACTS WITH CUSTOMERS

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

This financial report is a special purpose financial report prepared for use by the directors and members of the company. The directors have determined that the company is not a reporting entity. Airvan Flight Services Pty Ltd is a for-profit entity for the purpose of preparing the financial statements.

The financial report was approved by the directors as at the date of the directors' report.

The financial report has been prepared in accordance with the recognition and measurement criteria of all applicable Accounting Standards, with the exception of the disclosure requirements of:

AASB 101: Presentation of Financial Statements

AASB 112: Income Taxes

AASB 124: Related Party Disclosures

AASB 1054: Australian Additional Disclosures

The following specific accounting policies, which are consistent with the previous period unless otherwise stated, have been adopted in the preparation of this report:

(a) Basis of preparation of the financial report

Historical Cost Convention

The financial report has been prepared under the historical cost convention, as modified by revaluations to fair value for certain classes of assets and liabilities as described in the accounting policies.

(b) Going concern

The financial report has been prepared on a going concern basis.

The company incurred a loss from ordinary activities of $350 during the year ended 31 March 2020 (2019: $350, and as at that date the company's total liabilities exceeded total assets by Nil (2019: $8,398).

The company is dependent on the ongoing financial support of its parent entity to meet its financial obligations at 31 March 2020. At this time, there is no reason for the directors to believe that the ongoing financial support of the parent entity will not be continued.

(c) Foreign currency translations and balances

Functional and presentation currency

The financial statements are presented in Australian dollars which is the company's functional and presentation currency.

(d) Comparatives

Where necessary, comparative information has been reclassified and repositioned for consistency with current year disclosures.

INDEPENDENT AUDITOR'S REPORT

To the Members of
Mahindra Waste to Energy Solutions Limited
Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of **Mahindra Waste to Energy Solutions Limited** ("the Company"), which comprise the Balance sheet as at 31st March 2020, and the Statement of Profit and Loss (including Other Comprehensive Income), Statement of changes in equity and Statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013 ("the Act"). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that are sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure-B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
   (e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
   (g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
      i. The company does not have any pending litigations which will impact its financial position;
      ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
      iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph under "Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra Waste to Energy Solutions Limited** ("the Company") as of March 31, 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ("the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE AUDITOR'S REPORT

Referred to in paragraph 2 under "Report on Other Legal and Regulatory Requirements" section of our report of even date)

i. a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.

b) The fixed assets were physically verified during the year by the Management in accordance with a regular programme of verification which, in our opinion, provides for physical verification of all the fixed assets at reasonable intervals, According to the information and explanation given to us, no material discrepancies were noticed on such verification.

c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company.

ii. the inventory has been physically verified by the management during the year. in our opinion, the frequency of verification is reasonable. no material discrepancies were noted on such physical verification.

iii. The Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other related parties covered in the register maintained under section 189 of the Act.

iv. According to the information and explanations given to us, the Company has not granted any loans, made investments or provided guarantees and hence reporting under clause (iv) of the CARO 2016 is not applicable.

v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits under the provisions of section 73 to 76 of the Act and the Rules framed thereunder.

vi. The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any of the services rendered by the Company.

vii. i) According to the records of the Company, the Company has been generally regular in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Income Tax, Sales Tax, GST and other statutory dues applicable to it. According to information and explanation given to us, no undisputed amounts in respect of the above were outstanding, as on March 31, 2020 for a period of more than 6 months from the date they become payable.

ii) There are no dues of income tax, sales tax, service tax, duty of customs, and duty of excise or value added tax, GST and cess which have not been deposited on the account of any dispute.

viii. The Company does not have any loans/dues towards any financial institution, bank or Government. The Company has not raised any money through debentures during the year.

ix. The Company has not raised money by way of initial public offer or further public offer (including debt instruments) or term loans and hence reporting under this clause is not applicable.

x. To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company and no material fraud on the Company by its officers or employees has been noticed or reported during the year.

xi. According to the information and explanations given to us, the company has not paid any remuneration to managerial personnel as defined in the Act and accordingly the provisions of para 3(xi) of the Order are not applicable to the Company.

xii. The Company, not being a Nidhi Company, the para 3(xii) of the Order is not applicable to the Company.

xiii. According to the information and explanations given to us, all transactions with related parties are in compliance with sections 177 and 188 of the Act and the details of the same have been disclosed in the financial statements as required by the applicable accounting standards.

xiv. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has made a private placement of equity shares during the year in compliance with the requirements of Section 42 of the Act. The funds have been utilised for the purpose for which they were raised.

xv. According to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or persons connected with him. Hence, the provisions of para 3(xv) are not applicable to the Company.

xvi. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, the provisions of para 3(xvi) of the Order are not applicable to the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

1 Corporate information:

Mumbai Waste to Energy Solutions Limited is a public limited company incorporated in Mumbai, India under the Companies Act 2013. The company is a subsidiary of Mahindra & Mahindra Limited as on 31st March, 2020. The company is engaged, inter alia in the business of construction, operation and maintenance of the biogas plants and sale of biogas and manure generated from the biogas plants

2 Significant Accounting Policies followed by the Company:

2.1 Statement of compliance and basis of preparation and presentation of financial statements:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by Companies (Indian Accounting Standards) Rules 2016.

All assets and liabilities are classified as current if it is expected to realise or settle within 12 months after the Balance Sheet date.

The financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency.

2.2 Financial Assets and Financial Liabilities:

Financial Instruments:

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial Assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial Liabilities and Equity Instruments:

Equity instruments issued by the Company are classified as equity in accordance with the substance of the contractual agreements and the definitions of an equity instrument.

Equity Instrument:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Financial Liabilities:

All the financial liabilities are subsequently measured at either amortised cost using the effective interest method or at fair value through profit and loss, depending on the classification of the financial liabilities.

2.3 Property, plant and equipment:

Property, plant and equipment are stated at cost of acquisition or construction less accumulated depreciation and accumulated impairment, if any. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use.

Depreciation is provided on straight-line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit or loss, if any, is reflected in the Statement of Profit and Loss.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013, other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:

Certain items of Plant and machinery individually costing more than Rs. 5,000 – over useful lives (2 years, 3 years, 5 years, 8 years, 10 years, 15 years, 20 years or 25 years as the case may be), Vehicles 5 years, Assets below Rs. 5,000/- 1 year as determined by the company.

2.4 Inventories:

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials and bought out components are valued at the lower of cost or net realizable value. Cost is determined on the basis of the weighted average method.

Finished goods produced, manufactured components are carried at cost or net realizable value whichever is lower.

Stores, spares and tools other than obsolete and slow-moving items are carried at cost. Obsolete and slow-moving items are valued at cost or estimated net realizable value, whichever is lower.

2.5 Employee benefits:

(i) Defined Contribution Plan:

The Company's contributions paid/payable during the year to Provident Fund and Superannuation Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees.

(ii) Defined Benefit Plan/Leave encashment:

The Company's liability towards gratuity and leave encashment is determined using the projected unit credit method which considers each period of service as giving rights to an additional unit of benefit entitlement and measure each unit separately to build up the final obligation. Past services are recognised on straight line basis over the average period until the benefits become vested. Actuarial gains and losses are recognised immediately in the Statement of other comprehensive income as income or expense. Obligation is measured at the present value of estimated future cash flow using discounted rate i.e. determined by reference to the market yield at the Balance Sheet date on Government Bonds where the currency and terms of the Government Bonds are consistent with the currency and estimated terms of the defined benefit obligation.

(iii) Other Benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the period when the employee renders the service.

2.6 Leases:

Ind AS 116 is replaced the existing leases standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on balance sheet lessee accounting model for lessees. A lessee recognises right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard also contains enhanced disclosure requirements for lessees.

Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17. The amendment is effective for annual periods beginning on or after 01st April 19.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

2.7 Revenue Recognition:

In view of INDAS 115, Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, companies apply the following five step approach:

(1) identify the contract with a customer

(2) identify the performance obligations in the contract

(3) determine the transaction price

(4) allocate the transaction price to the performance obligations in the contract

(5) recognize revenues when a performance obligation is satisfied.

The Company applies judgement to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation based on their selling price.

2.8 Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

2.9 Taxes on Income:

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the period. Taxable profit differs from ‘profit before tax’ as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company’s current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year:

Current and deferred tax are recognized in the Statement of Profit or Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

Minimum Alternate Tax:

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax against which the MAT paid will be adjusted

2.10 Measurement of fair values:

The company’s accounting policies and disclosures require the measurement of fair values. In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.11 Use of estimates and judgements:

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognized in the period in which the estimate is revised and future periods affected.

2.12 Cash and cash equivalents:

Cash comprises demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.13 Cash flow statement:

Cash flows are reported using the indirect method, whereby profit/(loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.14 Earnings per share:

Basic earnings per share is computed by dividing the profit/(loss) after tax by the weighted average number of equity shares outstanding during the period.

2.15 Interest Income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding.

29.1 Capital management

The company's capital management objectives are:

– to ensure the company's ability to continue as a going concern

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a program that performs monitoring of and responding to risk factors.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. Financial instruments that are subject to credit risk, principally consists of trade receivables and investment in fixed deposits etc. The Company has adopted a policy of only dealing with creditworthy counterparties. Credit risk does not arise on investment in fixed deposits, as they are currently placed with corporate banks having high net worth and good credit ratings and hence management does not anticipate any credit risk.

LIQUIDITY RISK

(i) Liquidity risk management

The company has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

MARKET RISK

Market risk is the risk value that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk : currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to mange and control market risk exposure within acceptable parameters, while optimising the return. Future specific market movements cannot be normally predicted with reasonable accuracy.

(i) Currency risk

The Company has not undertaken transactions denominated in foreign currencies; consequently, no exposures to exchange rate fluctuations arise.

The carrying amounts of the company's foreign currency denominated monetary assets and monetary liabilities at the end of the year is Rs. Nil (31st March, 2019 :Rs. Nil)

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The company is not exposed to the risk of changes in market interest rates as the company does not have any long term debt obligations with floating interest rate.

(iii) Other price risk

The company is not exposed to equity price risks.

Note 31 - Employee Benefits

(A) Defined Contribution Plan

Amount recognised as an expense in the Statement of Profit and Loss is Rs. 6,05,644 (31st March,2019 Rs. 5,37,226).

(B) Defined benefit plan:

The defined benefit plan comprise of gratuity

The company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act or the company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. The current service cost and the net interest expense for the year are included in the employee benefits and expenses during the year provided is Rs. 4,80,131 (31st March,2019 Rs. 3,83,362).

Through its defined benefit plans the company is exposed to a number of risks, the most significant of which are detailed below:

Discount Rate Risk:

A decrease in government bond yields will increase plan liabilities.

Longevity Risk:

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk:

The present value of defined benefit plan liability is calculated by reference to the future salaries plan participants. As such, an increase in the salary of the plan participants will increase the plans's liability.

INDEPENDENT AUDITOR'S REPORT

To the Members of,
Mahindra Telecom Energy Management Services Limited

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of **Mahindra Telecom Energy Management Services Limited** ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and, Loss changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director report, but does not include the financial statements and our auditor's report thereon.

Our opinion on Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these Ind AS financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that are sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. As required by Section 143(3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

(e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The company does not have any pending litigations which will impact its financial positions.

ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra Telecom Energy Management services Limited** ("the Company") as of March 31, 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in paragraph 9 of our report of even date on the financial statements of **Mahindra Telecom Energy Management Services Limited** for the year ended March 31, 2020

<u>Annexure to the Auditor's Report referred to in our report of even date:</u>

i. a) The Company does not hold any fixed assets during the year. Accordingly, clause 3(i)(a), 3(i)(b), 3(i)(c) is not applicable.

ii. In our opinion and according to the information and explanations given to us, the Company has not dealt in any inventory during the year & does not hold any inventory at the end of the year.

iii. The company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other related parties covered in the register maintained under section 189 of the Act.

iv. The Company has not granted any loans, made investments or provide guarantees and hence reporting under clause (iv) of the CARO 2016 is not applicable.

v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits under the provisions of section 73 to 76 of the Act and the Rules framed thereunder.

vi. The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any of the services rendered by the Company.

vii. i) According to the records of the Company, the Company has been generally regular in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Income Tax, Sales Tax, GST and other statutory dues applicable to it. According to information and explanation given to us, no undisputed amounts in respect of the above were outstanding, as on March 31, 2020 for a period of more than 6 months from the date they become payable.

ii) There are no dues of income tax, sales tax, service tax, duty of customs, and duty of excise or value added tax, GST and cess which have not been deposited on the account of any dispute.

viii. The Company has not defaulted in repayment of loans or borrowing to a financial institution, bank or Government. The Company has not raised any money through debentures.

ix. The Company has not raised money by way of initial public offer or further public offer (including debt instruments) and the money raised by the Company by the way of Buyer's credit term loans were applied for the purpose for which those are raised.

x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing principles in India, and according to the information and explanations given to us, we have neither come across any instance of fraud on or by the Company, noticed or reported during the year, nor have we been informed of such case by the management.

xi. According to the information and explanations given to us, the Company has not paid any remuneration to managerial personnel as defined in the Act and accordingly the provisions of para 3(xi) of the Order are not applicable to the Company.

xii. The Company, not being a Nidhi Company, the para 3(xii) of the Order is not applicable to the Company.

xiii. According to the information and explanations given to us, all transactions with related parties are in compliance with sections 177 and 188 of the Companies Act, 2013 and the details of the same have been disclosed in the financial statements as required by the applicable accounting standards.

xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Hence, the provisions of para 3(xiv) of the Order are not applicable to the Company.

xv. According to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or persons connected with him. Hence, the provisions of para 3(xv) are not applicable to the Company.

xvi. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, the provisions of para 3(xvi) of the Order are not applicable to the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

1 Corporate information:

Mumbai Telecom Energy Management Services Limited is a public limited company incorporated in Mumbai, India on 25 June, 2017 under the Companies Act 2013. The company is wholly owned subsidiary of Mahindra & Mahindra Limited as on 31st March, 2020. The company is engaged, inter alia in the business of energy management services of telecom towers.

2 Significant Accounting Policies followed by the Company:

2.1 Statement of compliance and basis of preparation and presentation of financial statements:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by Companies (Indian Accounting Standards) Rules 2016.

All assets and liabilities are classified as current if it is expected to realise or settle within 12 months after the Balance Sheet date.

The financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency.

2.2 Financial Assets and Financial Liabilities:

Financial Instruments:

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Financial Assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial Liabilities and Equity Instruments:

Equity instruments issued by the Company are classified as equity in accordance with the substance of the contractual agreements and the definitions of an equity instrument.

Equity Instrument:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all its liabilities. Equity instruments issued by the Company are recognized at the proceeds received, net of direct issue costs.

Financial Liabilities:

All the financial liabilities are subsequently measured at either amortised cost using the effective interest method or at fair value through profit and loss, depending on the classification of the financial liabilities.

2.3 Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

2.4 Taxes on Income:

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the period. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the carrying values of assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the period:

Current and deferred tax are recognized in the Statement of Profit or Loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

Minimum Alternate Tax:

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax against which the MAT paid will be adjusted.

2.5 Cash and cash equivalents:

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

2.6 Cash flow statement:

Cash flows are reported using the indirect method, whereby profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

2.7 Earnings Per Share:

Basic earnings per share is computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the period.

2.8 Use of estimates and judgements:

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a program that performs monitoring of and responding to risk factors.

Credit Risk

(i) Credit risk management

Credit risk arises when a counter party defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties.

Liquidity Risk

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the management, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

(iii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management on net assets basis.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

CURRENCY RISK

The Company has not undertaken transactions denominated in foreign currencies; consequently, no exposures to exchange rate fluctuations arise.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting year is Nil

Note No. 12 - Deferred Tax Asset/ Liabilites

Deferred tax asset/liability has not been recognized during the current period.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF,

MAHINDRA CONSTRUCTION COMPANY LIMITED

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the Ind AS financial statements of **Mahindra Construction Company Limited** ("the Company"), which comprise the balance sheet as at 31st March 2020, and the statement of Profit and Loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, and profit, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Materiality Uncertainty Related to Going Concern

We draw attention to Note 25 in the financial statements, as on 31st March 2020 date, the Company's current liabilities exceeded its total assets by Rs. 2243.61 lakhs. As stated in Note 25, these events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Other Information

The company's Board of Directors is responsible for the other information. The other information comprises the Board report.

Our opinion on Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Ind AS Ind AS financial statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these Ind AS financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that are sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

   (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

   (e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".

(g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The company has disclosed impact of pending litigation on its financial position in Note No. 21

ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;

iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Mahindra Construction Company Limited** ("the Company") as of March 31, 2020 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE AUDITOR'S REPORT

Referred to in paragraph 9 of our report of even date on the financial statements of **Mahindra Construction Company Limited** for the year ended March 31, 2020

Annexure to the Auditor's Report referred to in our report of even date:

i. a) The Company does not hold any fixed assets during the year. Accordingly, clause 3(i)(a), 3(i)(b), 3(i)(c) is not applicable.

ii. In our opinion and according to the information and explanations given to us, the Company has not dealt in any inventory during the year & does not hold any inventory at the end of the year.

iii. The company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other related parties covered in the register maintained under section 189 of the Act.

iv. The Company has not granted any loans, made investments or provide guarantees and hence reporting under clause (iv) of the CARO 2016 is not applicable.

v. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits under the provisions of section 73 to 76 of the Act and the Rules framed thereunder.

vi. The Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any of the services rendered by the Company.

vii. i) According to the records of the Company, the Company has been generally regular in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Income Tax, Sales Tax, GST and other statutory dues applicable to it. According to information and explanation given to us, no undisputed amounts in respect of the above were outstanding, as on March 31, 2020 for a period of more than 6 months from the date they become payable.

ii) There are no dues of income tax, GST and other relevant taxes which have not been deposited with the relevant authority except as stated below:

Name of Statute	Nature of Dues	Forum where dispute is pending	Period to which amount relates	Amount Involved (Rs. In Lakhs)	Amount unpaid (Rs. In Lakhs)
Income Tax Act, 1961	penalty u/s 271(1)(C) relating to assessment year 2005-06	Income Tax Apellate Tribunal	2005-06	31.88	31.88
Income Tax Act, 1961	Income Tax Demand related to assessment year 2014-2015	Income Tax Apellate Tribunal	2014-15	4.13	4.13

viii. The Company has not defaulted in repayment of loans or borrowing to a financial institution, bank or Government. The Company has not raised any money through debentures.

ix. The Company has not raised money by way of initial public offer or further public offer (including debt instruments) and the money raised by the Company by the way of Buyer's credit term loans were applied for the purpose for which those are raised.

x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing principles in India, and according to the information and explanations given to us, we have neither come across any instance of fraud on or by the Company, noticed or reported during the year, nor have we been informed of such case by the management.

xi. According to the information and explanations given to us, the Company has not paid any remuneration to managerial personnel as defined in the Act and accordingly the provisions of para 3(xi) of the Order are not applicable to the Company.

xii. The Company, not being a Nidhi Company, the para 3(xii) of the Order is not applicable to the Company.

xiii. According to the information and explanations given to us, all transactions with related parties are in compliance with sections 177 and 188 of the Companies Act, 2013 and the details of the same have been disclosed in the financial statements as required by the applicable accounting standards.

xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Hence, the provisions of para 3(xiv) of the Order are not applicable to the Company.

xv. According to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or persons connected with him. Hence, the provisions of para 3(xv) are not applicable to the Company.

xvi. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, the provisions of para 3(xvi) of the Order are not applicable to the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

1 Company overview

Mahindra Construction Company Limited is a Limited Company incorporated and domiciled in India. The Company's registered office is at Mumbai, Maharashra, India. These financial statements correspond to the stand alone financial statments of the Company.

2 Basis of preparation

a. Statement of compliance and basis of preparation

These financial statements have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The Company's financial statements upto and for the year ended 31 March 2016 were prepared in accordance with the Standards as per Companies (Accounting Standards) Rules, 2006, notified under Section 133 of the Act and other relevant provisions of the Act which was the previous GAAP (IGAAP).

The financial statements were approved by the Company's Board of Directors and authorised for issue on 19 April 2019.

b. Functional and presentation currency

These financial statements are presented in Indian Rupees ('INR' or 'Rs.') which is also the Company's functional currency. All amounts are rounded-off to the nearest lakhs, unless otherwise indicated.

c. Basis of measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values.

d. Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income, expenses and the disclosures of contingent assets and liabilities. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

Following are areas that involved a higher degree of estimate and judgement or complexity in determining the carrying amount of some assets and liabilities.

- useful life of property, plant and equipment and intangible assets
- estimation of define benefit obligation
- provision for warranty claims
- income taxes - current and deferred taxes
- fair value of unlisted securities
- impairment of trade receivables

Detailed information about each of these estimates and judgements that have a significant risk of resulting in material adjustment within the next financial year is included in relevant notes for the above items.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

e. Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The Chief Financial Officer and persons entrusted have overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values and assessments that these valuations meet the requirements of Ind AS. The methods used to determine fair value include discounted cashflow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilties.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset ot liability that are not based on observable market data (unobservable inputs).

4 Significant accounting policies

a. Revenue Recognition

- Dividend and interest income

  Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably).

  Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

b. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the consolidated statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

For the impairment policy on financial assets measured at amortised cost

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of ‘Reserve for debt instruments through other comprehensive income’. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

For the impairment policy on debt instruments at FVTOCI

All other financial assets are subsequently measured at fair value

Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the “Other income” line item.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(i) *Credit risk management*

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company.

The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings assigned.

LIQUIDITY RISK

(i) *Liquidity risk management*

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

(ii) *Maturities of financial liabilities*

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

The contractual maturity is based on the earliest date on which the Company may be required to pay.

The tax rate used for the 31 March 2020 and 31 March 2019 reconciliations above is the corporate tax rate of 30.90% payable by corporate entities in India on taxable profits under Indian Income Tax Laws.

Note 24: Investment in New Tirupur Development Corporation Limited

The Capital of New Tirupur Area Development Corporation Limited (NTADCL) as on 31st March 2018 has been almost fully eroded by past losses. It was exploring the option of supplying substantial volume of industrial water to a textile park proposed to be set up by the State Government which would have contributed substantially to its topline. Information forthcoming in the last few months suggest that there are likely to be delays and the possibility of NTADCL recovering its past losses does not seem very promising. In view of this, the Company has provided for its entire investment of Rs.7,00,00,000 in the equity shares of NTADCL during the year.

Note 25:

Accumulated losses of the company as on 31st March 2020 exceeds the paid up share capital of the company. Though the Company has made a provision in respect of its investment in NTADCL, there is no intention of disposing off these investments. Presently, the company is actively pursuing claims and litigations in respect of projects completed and is hopeful of recovering the claims made by it against the parties, which will be recognised as revenue in the year of receipt. The Company is exploring various business opportunities including restructuring. Supported by its Parent Company, in the opinion of the management, the company will be able to continue as going conern for the foreseeable future.

Having regard to the above factors, the accounts are prepared on going concern basis.

Note 26:

The 10% Non-Cumulative Redeemable Participating Preference Shares ("The Shares") were redeemable at par on 13th March 2015. The Company has continued to incur losses during the year and, as on 31st March 2020, its accumulated losses exceeded the paid up share capital and free reserves of the Company. The Company is not in a position to redeem The Shares.

Note 27:

The Company had taken unsecured loans of Rs.994.42 lakhs in earlier years. Based on the Letters for waiver of interest issued by the lenders from year to year, since 2005 the Company was not for interest payable on these loans. On 1st April 2014 the lenders of the aforesaid unsecured loans opted to call for repayment of the principal amount. Further, the lenders are not agreeable to renew the unsecured loans, despite the Company expressing its inability to repay the same because of its financial situation. Since the unsecured loans have not been renewed, no provision has been made in the accounts for interest of Rs.84.14 lakhs for the year payable on these loans.

INDEPENDENT AUDITOR'S REPORT

To the Members of
Mahindra Finance CSR Foundation.
Report on the Audit of the Financial Statements

Opinion

We have audited the Ind AS financial statements of **Mahindra Finance CSR Foundation.** ("the Company"), which comprise the balance sheet as at 31st March, 2020, and the statement of Income & Expenditure, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and its financial performance, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

The company's Board of Directors is responsible for the preparation of the other information. The other information comprises the Board report.

Our opinion on Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management

The Company's Board of Directors is responsible for the matters stated in section 134(5) the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance of the Company in accordance with the accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Section 143(3)(i) mandates the auditor to comment on whether the company has an adequate internal financial controls over financial reporting of the company and the operating effectiveness of such controls. In terms of paragraph 5 of Ministry of Corporate Affairs notification number G.S.R. 583 (E) dated June 13, 2017, and as amended from time to time, exemption has been provided to private limited companies fulfilling certain criteria mentioned in the notification, from the applicability of the requirement of reporting in terms of Section 143(3)(i). As the Company meets the relevant criteria specified in the said notification for the Financial Year 2019-20, the requirement of Section 143(3)(i) is not applicable to the Company and accordingly no report has been made under the said clause.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As requirements by the Companies (Auditor's Report) Order, 2016, issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act (the "Order"), is not applicable to the Company, no comment on report specified in paragraphs 3 and 4 of the Order has been made.

2. As required by Section 143(3) of the Act, we report that:

   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   (c) The Balance Sheet, the Statement of Income and Expenditure, Cash Flow Statement dealt with by this Report are in agreement with the books of account.

   (d) In our opinion, the aforesaid financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

   (e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

   (f) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

      i. The Company does not have any pending litigations;

      ii. The Company did not have any long-term contracts including derivative contracts for which there are any material foreseeable losses that needs provision;

      iii. The Company is not required to transfer any amount to the Investor Education and Protection Fund.

Notes Forming part of the financial statements for the year ended 31st March, 2020

1 COMPANY INFORMATION

Mahindra Finance CSR Foundation ('the Company'), incorporated in India, is a public limited company, headquartered in Mumbai dated April 2, 2019. The Company has received license under Section 8 (1) of the Companies Act, 2013. The Company is established to undertake, by itself or joining, collaborating with, or participating in, projects that, support, promote and enhance: education, including special education, especially among children, women, elderly and the differently abled; employment, vocational skills, and sustainable livelihood; curative and preventive healthcare measures; sanitation and availability of safe drinking water; measures eradicating hunger, poverty and malnutrition; sustainability environmental and ecological balance; protection of flora and fauna, animal welfare, agro forestry; conservation of natural resources; maintenance of quality of soil, air and water; including but not limited to, rehabilitation efforts prior, during and or after natural disasters. The objective of the Company is to work, contribute towards all activities outlined by, but not restricted to, Section 135, Schedule VII of the Companies Act, 2013, the related rules and the amendments thereto from time to time.

Further, the company received its registration under section 12AA of the Income Tax Act 1961 on 29 November, 2019 and certificate under section 80G of the Income Tax Act,1961 on 24 December, 2019 valid from 3 June, 2019.

None of the objects of the Company will be carried out on commercial basis. The Company is a subsidiary of Mahindra & Mahindra Financial Services Limited.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Basis of accounting

These financial statements are the company's first Ind–AS financial statement. The financial statements have been prepared on a historical cost convention and on an accrual basis.

2.2 Functional and presentation currency

These financial statements are presented in Indian Rupees ('INR' or 'Rs.') which is also the Company's functional currency. All amounts are rounded-off to the nearest rupee, unless otherwise indicated.

2.3 Revenue recognition

The revenue is measured on actual receipt basis of donations received.

2.4 Provisions

Provisions are recognised when there is a present obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Notes forming part of the Financial Statements as at 31 March 2020

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF

MAHINDRA BANGLADESH PVT. LTD.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Mahindra Bangladesh Pvt. Ltd.** ("the Company"), which comprise the statement of financial position as at 31 March 2020, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2020, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act 1994, we also report the following:

(a) we have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;

(b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books; and

(c) the statement of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account.

NOTES TO THE FINANCIAL STATEMENTS

1. Reporting entity

Mahindra Bangladesh Pvt. Ltd. ("the Company") was incorporated as a private limited Company on 12 September 2019 under the Companies Act, 1994. It is a subsidiary of Mahindra & Mahindra Ltd, a Company registered in India. The registered office of the company is at 4th Floor, Taj Casilina, SW (1) 4, 25 Gulshan Avenue Dhaka - 1212 Bangladesh.

The principal activities of the Company are to carry on the businesses of trading, distributing, supplying, storing, exporting, importing, servicing, repairing, manufacturing, developing, assembling, leasing, selling on hire-purchase or instalment systems, research & development, of all kinds of passenger, transportation and utility vehicles including but not limited to tankers, tractors, agricultural machinery, multi-utility vehicles, trailers, lorries, trucks, buses, motor cars, motor cycles, three-wheelers or other motor vehicles of all kinds and descriptions.

2. Basis of accounting

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs).

They were authorised for issue by the Company's board of directors on 29 April 2020.

Details of the company's accounting policies are included in Notes 25 and 26.

3. Functional and presentation currency

These financial statements are presented in Bangladesh Taka (Taka/Tk), which is the company's functional currency. All amounts have been rounded to the nearest taka, unless otherwise indicated.

4. Use of estimates and judgments

In preparing financial statements, management has made judgments and estimates that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively. However, no such revisions to accounting estimates took place during the reporting period.

A. Judgements

Management has made no such judgement in applying accounting policies that have significant effects on the amounts recognised in the financial statements of this period.

B. Assumptions and estimation uncertainties

No significant assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2020 made by management of the Company.

5. Revenue

See accounting policies in Note 26(A).

18. Earnings per share

A. Basic earnings per share

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

i. Profit attributable to ordinary shareholders (basic)

In Taka	Note	2020
Net profit after tax for the year		(2,745,737)
Profit/(loss) attributable to ordinary shareholders		(2,745,737)

ii. Weighted-average number of ordinary shares (basic)

Issued ordinary shares at 31 March	13	420,001
Weighted-average number of ordinary shares at 31 March		420,001
Basic earnings per share (BEPS)		(6.54)

B. Diluted earnings per share

The calculation of diluted earnings per share has been based on the following profit attributable to ordinary shareholders and weighted average number of ordinary shares outstanding.

i. Profit attributable to ordinary shareholders (diluted)

In Taka	Note	2020
Net profit after tax for the year		(2,745,737)
Profit/(loss) attributable to ordinary shareholders		(2,745,737)

ii. Weighted-average number of ordinary shares (diluted)

Issued ordinary shares at 31 March	13	420,001
Weighted-average number of ordinary shares at 31 March		420,001
Diluted earnings per share (DEPS)		(6.54)

NOTES TO THE FINANCIAL STATEMENTS

19. Financial instruments - Fair values and risk management

A. Accounting classifications and fair values

The following table shows the carrying amounts and fair values of financial assets and financial liabilities. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

31 March 2020 In Taka	Note	Carrying amount Fair value - hedging instruments	Mandatorily at FVTPL - Others	FVOCI - debt instruments	FVOCI - equity instruments	Financial assets at amortised cost	Other financial liabilities	Total
Financial assets measured at fair value		–	–	–	–	–	–	–
		–	–	–	–	–	–	–
Financial assets not measured at fair value								
Cash and cash equivalents	12	–	–	–	–	35,485,153	–	35,485,153
		–	–	–	–	35,485,153	–	35,485,153
Financial liabilities measured at fair value		–	–	–	–	–	–	–
		–	–	–	–	–	–	–
Financial liabilities not measured at fair value								
Trade payables	15(A)						85,915	85,915
		–	–	–	–	–	85,915	85,915

B. Financial risk management

The Company has exposure to the following risks arising from financial instrument:

- Credit risks (See (B)(ii))
- Liquidity risks (See (B)(iii))
- Market risks (See (B)(iv))

i. Risk management framework

A risk management framework is the structured process used to identify potential threats to the company and to define the strategy for eliminating or minimising the impact of these risks, as well as the mechanisms to effectively monitor and evaluate this strategy.The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

ii. Credit risk

Credit risk is the risk of a financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's trade receivables from its customers and investments in debt securities.

The maximum exposure to credit risk (note (a)) is represented by the carrying amount of each financial asset in the statement of financial position.

(a) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The company has no exposure to credit risk at the end of this reporting period.

(c) Impairment losses

There is no impairment loss to be recognised on the any financial assets during the year.

iii. Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial asset. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation.

Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, based on time line of payment of the financial obligation and accordingly arranging for sufficient liquidity/fund to make the expected payment within due date.

The followings are the contractual maturities of non-derivative financial liabilities:

In Taka	Note	Carrying amount	Contractual cash flows Total	6 months or less	6-12 months	1-2 years	2-5 years	More than 5 years
At 31 March 2020								
Trade payables	15(A)	85,915	85,915	85,915	–	–	–	–
Other payables	15(B)	226,641	226,641	226,641	–	–	–	–
		312,556	312,556	312,556	–	–	–	–

NOTES TO THE FINANCIAL STATEMENTS

iv. Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates, will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

iv(a). Currency risk

The Company is exposed to transactional foreign currency risk to the extent that there is a mismatch between the currencies in which sales, purchases, receivables and borrowings are denominated. The company's foreign currency transactions are denominated in USD.

20. Commitments

There is no outstanding commitments as at 31 March 2020 for the Company.

21. Contingencies

There is no contingent liabilities as at 31 March 2020 for the Company.

22. Related party disclosures

During the year, the Company carried out transactions with related parties in the normal course of business. The name of the related party and nature of the transactions have been set out below in accordance with the provisions of IAS 24 Related party disclosures.

In Taka	Transaction values for the year ended 31 March 31 March 2020	Balance outstanding as at 31 January 31 March 2020
Purchase of goods		
Mahindra & Mahindra Ltd.	**7,712,756**	–
	7,712,756	–

23. Events after the reporting period

On 11 March 2020, COVID-19 has been declared a pandemic by the World Health Organization. Subsequent to the balance sheet date, the global economy is still going through the outbreak of coronavirus disease (COVID-19). Likewise many countries of the world, in recent weeks, Bangladesh Government has enacted protection measures against the outbreak of COVID-19, with a significant impact on the daily life, production and supply chain of goods. The evolution of COVID-19 as well as its impact on the global economy, and more specifically, on the Company's activities, is hard to estimate at this stage. The Company is monitoring the situation to ensure the safety of its staff as well as to adapt its services and operations."

There is no any other significant events after balance sheet date that may affect financial statements of the Company for the period ended 31 March 2020.

24. Number of employees

The number of employees engaged for the whole period or part thereof who received a total remuneration of Taka 36,000 and above per year was 6.

25. Basis of measurement

These financial statements have been prepared on accrual basis following going concern concept under historical cost convention.

26. Significant accounting policies

The Company has applied the following accounting policies to be presented in these financial statements.

Set out below is an index of the significant accounting policies, the details of which are available on the pages that follow.

A. Revenue from contract with customer

General information

The Company recognises as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange for goods or services when (or as) it transfers control to the customer. To achieve that core principle, the Company follows the five-step model as below :

- Identify the contract with a customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and
- Recognise revenue when (or as) the entity satisfies a performance obligation.

Considering the five steps model, the Company recognises revenue when (or as) the Company satisfies a performance obligation by transferring a promised good to a customer. Goods is considered as transfer when (or as) the customer obtains control of that goods. Then the Company recognises the net revenue from sale of goods in its financial statment.

Net Revenue is defined as the amount invoiced to external customers during the year and comprises, as required by IFRS 15, gross sales net of trade spend, customer allowances for credit notes, returns and consumer coupons. The methodology and assumptions used to estimate credit notes, returns and consumer coupons are monitored and adjusted regularly in the light of contractual and legal obligations, historical trends, past experience and projected market conditions. Value-added tax and other sales taxes are also excluded from revenue.

Methods of revenue recognition

Sale of goods

The Company recognizes revenue from sale of goods upon satisfaction of performance obligation which is at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods. Depending on the terms of the contract, which differs from contract to contract, the goods are sold on a reasonable credit term. As per the terms of the contract, consideration that is variable, according to IFRS 15, is estimated at contract inception and updated thereafter at each reporting date or until crystallisation of the amount.

Sale of services

Sale of services are recognised on satisfaction of performance obligation towards rendering of such services.

B. Foreign currency

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Foreign currency differences are generally recognised in profit or loss and presented other expense.

NOTES TO THE FINANCIAL STATEMENTS

C. Employee benefits

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

D. Income tax

Income tax expenses comprises current and deferred tax. It is recognised in profit or loss except to the extent that its relates to an item recognised directly in equity or in other comprehensive income (OCI).

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

a) Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that effects neither accounting nor taxable profit or loss.

b) Temporary differences related to investment in subsidiaries and joint arrangements to the extent that it is probable that they will not reverse in the foreseeable future, and

c) Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it becomes probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the consequences that would follow from the manner in which the Company expects, at reporting date, to recover or settle the carrying amounts of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met.

E. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the above and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost to completion and selling expenses.

F. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

The Company initially recognises receivables and deposits on the date that they are originated. All other financial assets are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

Financial assets comprise trade and other receivables, cash and cash equivalents.

a (i) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and all cash deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

a (ii) Trade and other receivables

Trade and other receivables are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

Bad debts are written off on consideration of the status of individual debtors.

b. Financial liabilities

Financial liability includes long term inter-Company payable/ trade and other payables.

b (i) Share capital

Only ordinary shares are classified as equity. Incremental cost directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects. Holders of ordinary shares are entitled to receive dividends as declared by the Company.

b (ii) Trade and other payables

The Company recognises financial liabilities when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.

G. Provisions

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settle the present obligation at the date of statement of financial position. Where the effect of time value of money is material, the amount of provision is measured at the present value of the expenditures expected to be required to settle the obligation.

NOTES TO THE FINANCIAL STATEMENTS

H. Reporting period

These financial statements cover from 12 September 2019 to 31 March 2020

I. Going concern

The financial statements of the Company are prepared on a going concern basis. As per management assessment there are no material uncertainties related to events or conditions which may cast significant doubt upon Company's ability to continue as a going concern.

J. Contingencies

i. Contingent liability

Contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent liability should not be recognised in the financial statements, but may require disclosure. A provision should be recognised in the period in which the recognition criteria of provision have been met.

ii. Contingent asset

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent asset must not be recognised. Only when the realisation of the related economic benefits is virtually certain should recognition take place provided that it can be measured reliably because, at that point, the asset is no longer contingent.

K. Statement of cash flows

Cash flows from operating activities are presented under indirect method as per IAS 7: Statement of Cash Flows.

L. Events after the reporting period

Events after the reporting period that provide additional information about the Company's position at the reporting date or those that indicate the going concern assumption is not appropriate are reflected in the financial statements. Events after the reporting period that are not adjusting events are disclosed in the notes when material.

27. Comparative information

The Company has been incorporated at 12 September 2019. Therefore, this is the first year of financial statements. For this reason there is no comparative information to be presented in these financial statements.

28. Standards issued but not yet effective

A number of new standards are effective for annual periods beginning after 1 January 2019 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

The following amended standards and interpretations are not expected to have a significant impact on the Company's financial statements.

- *Amendments To References To Conceptual Framework in IFRS Standards.*
- *IFRS 17 Insurance Contracts.*
- *Definition of Material (Amendments to IAS 1 and IAS 8)*
- *Definition of a Business (Amendments to IFRS 3)*

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDER OF MSPL INTERNATIONAL DMCC

Opinion

We have audited the financial statements of **MSPL International DMCC** (the "Company'') which comprise the statement of financial position as at 31 March 2020, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the period for the period from 8 October 2019 to 31 March 2020, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements of the Company for the period ended 31 March 2020 are prepared in all material respects, in accordance with the basis of preparation set out in Note 2(a) to the financial statements.

Basis for Opinion

We conducted our audit in accordance with International Standard on Auditing 805 (Revised), Special Considerations – Audits of Single Financial Statements and Specific Elements, Accounts or Items of a Financial Statement. This standard requires that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements present fairly. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphases of Matter

We draw attention to Note 2 (a) to the financial statements, which states that Under a resolution of Board of Directors dated ____, the Parent Company has absorbed the Branch's accumulated losses as at 7 October 2019 and accordingly, these financial statements only include assets, liabilities, revenue, expenses and cashflows of the Company for the period from 8 October 2019 to 31 March 2020 and no comparative information is presented. As a result, the financial statements may not be suitable for another purpose. Our report is intended solely for the Company and the ultimate parent company and should not be distributed to or used by parties other than the Company or ultimate parent company.

Our opinion is not qualified with respect to the above matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for preparation and fair presentation of the Financial Statements in accordance with the basis of preparation described in Note 2; this includes determining that the basis of preparation is an acceptable basis for the preparation of the Financial Statements in the circumstances, and for such internal control as management determines is necessary to enable the preparation of the Financial Statements that is free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this Financial Statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related notes made by management.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the notes thereto, and whether the Financial Statements represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2020

1. LEGAL STATUS AND BUSINESS ACTIVITY

a) **MSPL International DMCC** (the "Company"), a company registered with DMCC Authority, Dubai, was incorporated on 8 October 2019. The Parent Company was operating in Dubai, UAE through a branch (the "Branch") which was registered with DMCC Authority on 9th April 2018. Effective 8 October 2019, the Branch was deregistered and the Company was incorporated, however, recognising the fact that the parent company is common, DMCC Authority considered this as a conversion of Branch to subsidiary company.

b) The principal activity of the Company is renewable energy consultancy and trading of solar energy system and components.

c) The immediate parent company of the Company is Mahindra Susten Private Limited, India, intermediate parent company is Mahindra Holdings Limited and the ultimate parent company is Mahindra & Mahindra Limited, India.

2. BASIS OF PREPARATION

a) Under a resolution of Board of Directors dated ____, the Parent Company has absorbed the Branch's accumulated losses as at 7 October 2019 and accordingly, these financial statements only include assets, liabilities, revenue, expenses and cashflows of the Company for the period from 8 October 2019 to 31 March 2020 and no comparative information is presented. As a result, the financial statements may not be suitable for another purpose.

b) **Basis of measurement**

The financial statements are prepared using historical cost.

Historical cost is based on the fair value of the consideration given to acquire the asset or cash or cash equivalents expected to be paid to satisfy the liability.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

c) **Going concern**

The financial statements are prepared on a going concern basis.

When preparing the financial statements, management makes an assessment of the Company's ability to continue as a going concern. Financial statements are prepared on a going concern basis unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company incurred a loss of AED 5,670,415 for the period ended 31 March 2020 and at that date, it had a it had a deficit of AED 5,620,415 in shareholder's equity and a net deficit of AED 1,709,049 in shareholder's funds. These events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. However, the shareholder has agreed to continue with the operations of the Company and has agreed to provide continuing financial support to enable the Company to discharge its liabilities as and when they fall due. Accordingly, these financial statements have been prepared on a going concern basis.

In March 2020, the World Health Organisation declared the outbreak of a novel coronavirus (COVID-19) as a pandemic. Given the uncertainty of the situation, the duration of business disruption and related financial impact, if any cannot be reasonably estimated as of the date of the financial statements.

Accordingly, these financial statements have been prepared on a going concern basis.

d) **Adoption of new International Financial Reporting Standards**

Standards and interpretations effective for the current period

The International Financial Reporting Standards, amendments thereto and interpretations that became effective for the current reporting period are as follows:

- IFRS 16: Leases
- Amendments to IFRS 9: Prepayment Features with Negative Compensation and Modification of financial liabilities
- Annual Improvements 2015-2017 Cycle:
- IAS 23 Borrowing Costs
- Amendments to IAS 19: Employee Benefits Plan Amendment, Curtailment or

The above standard, amendments, improvements and interpretation did not have any significant impact on the Company's financial statements

New and revised IFRSs in issue but not yet effective

The following International Financial Reporting Standards, amendments thereto and interpretations that are assessed by management as likely to have an impact on the financial statements, have been issued by the IASB prior to the date the financial statements were authorised for issue, but have not been applied in these financial statements as their effective dates of adoption are for future accounting periods.

- Amendments to IAS 1 and IAS 8: Definition of Material (1 January 2020)
- The Conceptual Framework for Financial Reporting (1 January 2020)

e) **Functional and presentation currency**

The financial statements are presented in UAE Dirhams ("AED") which is also the Company's functional currency.

3. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted, and which have been consistently applied, are as follows:

a) **Property, plant and equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. The cost less estimated residual value, where material, is depreciated from the date the asset is available for use until it is derecognised, using the straight-line method over the estimated useful lives of three year

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset as appropriate only when it is probable that future economic benefits associated with the expenditure will flow to the Company and such cost can be measured reliably. Such cost includes the cost of replacing part of the property, plant and equipment. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognise such parts as individual assets with specific useful lives and depreciate them accordingly. The carrying amount of replaced parts is derecognised.

All other repairs and maintenance costs are charged to profit or loss during the financial period in which they are incurred.

An assessment of depreciation method, useful lives and residual values is undertaken at each reporting date and, where material, if there is a change in estimate, an appropriate adjustment is made to the depreciation charge.

b) **Impairment of tangible assets**

At the reporting date, the management reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss if any. Where it is not possible to estimate the recoverable amount of an individual asset, the acquirer estimates the recoverable amount of the cash-generating unit to which the asset belongs.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2020

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Staff end-of-service benefits

Provision is made for end-of-service benefits payable to the employees at the reporting date in accordance with the local labour laws.

c) **Leases**

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). Lease payments on short-term leases are recognised as expense on a straight-line basis over the lease term.

d) **Cash and cash equivalents**

Cash and cash equivalents comprise cash and bank current accounts, which are subject to an insignificant risk of changes in value.

e) **Foreign currency transactions**

Transactions in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling on the date of the transactions.

Monetary assets and liabilities expressed in foreign currencies are translated into UAE Dirhams at the rate of exchange ruling at the reporting date.

Gains or losses resulting from foreign currency transactions are taken to profit or loss.

f) **Borrowing costs**

Borrowing costs are recognised as an expense in the period in which they are incurred.

g) **Provisions**

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of receivable can be measured reliably.

Current versus non-current classification

The Company presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle.
- Held primarily for the purpose of trading.
- Expected to be realised within twelve months after the reporting period. or,
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle.
- It is held primarily for the purpose of trading.
- It is due to be settled within twelve months after the reporting period. or,
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

i) **Financial instruments**

Classification

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value through other comprehensive income ("FVTOCI") – debt investment; FVTOCI – equity investment; or fair value through profit or loss ("FVTPL").

The classification of financial assets at initial recognition depends the financial assets' contractual cash flow characteristics and the Company's business model for managing them.

In order for a financial asset to be classified and measured at amortised cost or FVTOCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrumental level.

The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cashflows, selling the financial assets, or both.

Financial liabilities are classified as financial liabilities at FVTPL or at amortised cost. The Company determines the classification of its financial liabilities at initial recognition.

Recognition

Financial assets and financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the instrument.

Derecognition

Financial assets are de-recognised when, and only when,

- The contractual rights to receive cash flows expire or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either
    - (a) the Company has transferred substantially all the risks and rewards of the asset,
      or

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2020

(b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Financial liabilities are de-recognised when, and only when, they are extinguished i.e. when obligation specified in the contract is discharged, cancelled or expired.

Measurement

A financial asset (unless it is a trade receivable without a significant financing component that is initially measured at the transaction price) is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

All financial assets not classified as measured at amortised cost or FVTOCI as described above are measured at FVTPL.

The following accounting policies apply to the subsequent measurement of financial assets:

Financial assets at amortised cost

Financial assets that meet the following conditions are subsequently measured at amortised cost less impairment loss and deferred income, if any using the effective interest method. All other financial assets are subsequently measured at fair value.

1. the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
2. the contractual terms of the instrument give rise to cash flows on specified dates that are solely payments of principal and profit on the principal amount outstanding.

Foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

The financial assets at amortised cost comprise of deposits, due from related parties, other financial assets, and cash and cash equivalents.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities at amortised cost comprise of sundry payables, due to related parties, shareholder’s loan and current accounts.

Impairment of financial assets

Expected credit losses (ECLs) are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The Company measures loss allowances on 12-month ECLs: ECLs that result from possible default events within 12 months after the reporting date.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportive information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company’s historical experience and informed credit assessment and including forward looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 45 days past due.

The Company considers a financial asset to be in default when the financial asset is more than 45 days past due.

At the reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is ‘credit-impaired’ when one or more events that have a detrimental impact on the estimated future cash flows of the financial assets have occurred.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the asset.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Equity

Share capital is recorded at the value of proceeds received towards interest in share capital of the Company.

i) Fair value measurement

The Company discloses the fair value of financial instruments measured at amortised cost.

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The fair value of an asset or a liability is measured using assumptions that the market participants would use when pricing the asset or liability, assuming that the market participants act in their best economic interests.

4. SIGNIFICANT JUDGMENTS EMPLOYED IN APPLYING ACCOUNTING POLICIES

The significant judgments made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements are as follows:

Classification of financial assets

The classification of financial assets at initial recognition depends on the financial asset’s contractual cash flow characteristics and the Company’s business model for managing them.

Impairment

At each reporting date, management conducts an assessment of property, plant, equipment, to determine whether there are any indications that they may be impaired. In the absence of such indications, no further action is taken. If such indications do exist, an analysis of each asset is undertaken to determine its net recoverable amount and, if this is below its carrying amount, a provision is made.

The Company applies expected credit loss (ECL) model to measure loss allowance in case of financial assets on the basis of 12-month ECLs depending on credit risk characteristics and how changes in economic factors affect ECLs, which are determined on a probability-weighted basis.

5. KEY SOURCES OF ESTIMATION UNCERTAINTY

Key assumptions made concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are as follows:

Carrying values of property, plant and equipment

Residual values are assumed to be zero unless a reliable estimate of the current value can be obtained for similar assets of ages and conditions that are reasonably expected to exist at the end of the assets’ estimated useful lives.

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 31 MARCH 2020

Impairment

Assessments of net recoverable amounts of property, plant, equipment are based on assumptions regarding future cash flows expected to be received from the related assets.

Impairment of financial assets

The loss allowance for financial assets are based on assumptions about the risk of default and expected loss rates. The management have not used judgement in making these assumptions and selecting the inputs to the impairment calculations based on the past history, existing market conditions as well as forward looking estimates at the end of the reporting period.

Staff end-of-service benefits

The Company compute the provision for the liability to staff end-of-service benefits stated at AED 54,657, assuming that all employees were to leave as of the reporting date. The management is of the opinion that no significant difference would have arisen had the liability been calculated on an actuarial basis as salary inflation and discount rates are likely to have approximately equal and opposite effects.

6. PROPERTY, PLANT AND EQUIPMENT

	Leasehold improvements	Furniture, fixtures, and office equipment	Total
	AED	AED	AED
Cost			
At 8 October 2019	–	–	–
Transfer by the shareholder	230,266	213,679	443,945

Sundry payables	**1,313,188**
Amount due to related parties	**592,125**
	5,816,679

Management of risk

The management conducts and operates the business in a prudent manner, taking into account the significant risks to which the business is or could be exposed.

The primary risks to which the business is exposed comprise credit risk liquidity risk and fair value risk.

Credit risk is managed by assessing the creditworthiness of counter parties and the potential for exposure to the market in which they operate, combined with regular monitoring and follow-up.

Exposures to the aforementioned risks are detailed below:

Credit risk

Financial assets that potentially expose the Company to concentrations of credit risk comprise principally cash and cash equivalents, deposits with banks and outstanding receivables.

The bank account is placed with a high credit quality financial institution.

Liquidity risk

The Company is provided funds on an on-going basis by the Parent Company to manage its liquidity risk.

Fair values

The fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of the Company's financial assets and financial liabilities which are required to be stated at cost or at amortised cost approximate to their carrying values.

19. CONTINGENTLIABILITIES

	31.3.2020
	AED
Bankers' letters of guarantee (refer note 9)	**76,322**

20. COMPARATIVE INFORMATION

As stated in note 2 (a) these financial statements only include assets, liabilities, revenue, expenses and cashflows of the Company for the period from 8 October 2019 to 31 March 2020 and no comparative information is presented.

20. EVENTS AFTER THE REPORTING PERIOD

Subsequent to the year end, there was an outbreak of Covid-19 (Coronavirus) across the globe, causing disruptions to economic activity and business operations. As at the date of approval of the financial statements, management is in the process of assessing the impact of this event. Since the Company considers this to be a non-adjusting event, management has not adjusted the impact, if any of this event on the financial statements for the year ended 31 March 2020. [refer Note 2(c)].

MANAGER

INDEPENDENT AUDITOR'S REPORT

To The Members of Meru Travel Solutions Private Limited
Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Meru Travel Solutions Private Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2020, the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone financial statements.

Emphasis of matter

We draw your attention to Note 17 to the standalone financial statements for year ended 31 March 2020 which describes the outbreak of Coronavirus (COVID19) on the business operations of the Company. The management believes that no adjustments are required in the financial statements as it does not impact the current financial year. In view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent periods is highly dependent upon circumstances as they evolve.

Our opinion is not modified in respect of this matter.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual Report, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act, for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. (A) As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The standalone balance sheet, the standalone statement of profit and loss, and standalone statement of cash flows dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

   (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position.

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

   iv. The disclosures regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these standalone financial statements since they do not pertain to the financial year ended 31 March 2020.

   (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

   In our opinion and according to the information and explanation given to us, the Company has not paid any remuneration to its directors and thus the provisions of Section 197 of the Act are not applicable to the Company. Accordingly, reporting under section 197 (16) of the Act is not applicable in case of the Company.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE STANDALONE FINANCIAL STATEMENTS

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph (2) (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Meru Travel Solutions Private Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Note

(i) Equity component of preference shares

During the year ended March 31, 2013, the Company issued 31,489 cumulative redeemable preference shares (CRPS) of INR 10 each fully paid-up at a premium of INR 25,000 per share to True North Trusteeship Company Private Limited formerly known as 'IVF Trustee Company Private Limited') as nominee shareholder of True North Fund IIIA (formerly known as 'India Value Fund IIIA'). The preference shares carry cumulative dividend @ 0.01% p.a. The dividend proposed by the Board of Directors is subject to the approval of the shareholders in the ensuing Annual General Meeting. Holders of the cumulative redeemable preference shares have no voting rights with respect to any matters which may be brought for shareholders action in connection with the business and affairs of the Company, except in respect of matters which directly affect the rights of redeemable preference shareholders subject to the provisions of the Act.

The cumulative redeemable preference shares were redeemable at a premium of INR 53,414 per share on December 31, 2016, During the previous year ended March 31, 2017, the redemption period of these preference shares was extended by 1 year to December 31, 2017 at a premium of INR 61,427 per share or at such earlier date and at such value (representing fair market value prevailing at that relevant point in time) as may be decided by the Board of Directors.

During the previous year ended March 31, 2018, the 0.01% Cumulative redeemable preference shares were converted into 0.01% Optionally convertible optionally redeemable preference shares (the option being with the Board of Directors of the Company) and extended the redemption period of these preference shares by 10 years to December 31, 2027 at the same redemption price i.e. INR 61,427 per share or at such earlier date and at such value as may be decided by the Board of Directors. In case Board of Directors decides to convert the preference shares to equity, such conversion shall be based on fair market value prevailing at that relevant point in time. The 0.01% Optionally convertible optionally redeemable preference shares is classified as a financial liability subsequently measured at amortised cost. It has been recorded at fair value on initial recognition and the difference between fair value and the book value is recorded under Other equity as 'Equity component on preference shares'.

During the year ended March 31, 2020, 31,489 0.01% Optionally convertible optionally redeemable preference shares (the option being with the Board of Directors of the Company) was converted into 1,489 (one thousand four hundred eighty nine), Equity Shares of the Company of face value INR 10 (Rupees Ten only), ranking pari passu with all the then existing Equity Shares of the Company and 30,000 Redeemable Optionally Convertible Non-Cumulative Redeemable Preference Shares ("OCRPS") of the Company for a period of 6 years from Dec 5, 2019.

The redemption amount of these OCRPS will be decided based on the outcome of the ongoing proceedings during its term. If as per the decision of ongoing proceedings no amount is payable to the Company, these preference shares will be redeemed at face value subject to applicable laws or they will be converted into 1 equity share of the Company. If as per the decision of ongoing proceedings, any amount is received by the Company, the Company shall redeem these OCRPS at face value + Premium, where premium will the amount received minus any cost and taxes payable on the amount received.

(ii) Securities premium: Securities premium is credited when shares are issued at a premium. The securities premium can be utilized as per the provisions of the Companies Act, 2013 for specified purposes such as to issue bonus shares, to provide for premium on redemption of shares or debentures etc.

(iii) Retained earnings: Retained earnings represents the amount of accumulated earnings at each Balance Sheet date of the Company.

(iv) Share warrants: During the year ended March 31, 2017, the Company has entered into a Share cum Warrant Subscription Agreement ('Warrant Agreement') and Advertisement Agreement with Bennett, Coleman & Co. Ltd. ('BCCL').

Through the Advertisement Agreement, BCCL has extended a Line of Credit ('LOC') to Company and its subsidiaries/affiliates (collectively referred to as 'the Group'). As part of the said Advertisement Agreement, the Group gains access to various advertising properties owned by BCCL. The Group needs to make only part payment for advertisement expenses incurred as and when it places advertisements in BCCL owned media. The remaining unpaid amount owed to BCCL (i.e. the LOC to the extent utilised), will be settled out of the money to be received as warrant exercise price on exercise of warrants to subscribe to equity shares of Company by BCCL, only if BCCL decides to exercise the said warrants of Company. Hence, the amount of LOC to the extent utilised by the Company is added to the amount of share warrants recorded under other equity; further, since the amount of LOC as at March 31, 2019 relates to expenses incurred/LOC utilised by its subsidiary, the corresponding debit impact has been added to the investment in subsidiaries as a deemed investment.

	March 31, 2020	March 31, 2019
Partly paid-up share warrant:		
Nil share warrants (March 31,2019 - 5) of Rs. 150,000,000 each, Rs 15,000,000 paid up	–	75,000,000
Add: Line of credit ('LOC') availed by subsidiary	–	60,207,690
	–	135,207,690

During the year ended March 31, 2017, the Company has entered into Share cum Warrant Subscription Agreement ('Warrant Agreement') and Advertisement Agreement with Bennett, Coleman & Co. Ltd. ('BCCL') as more fully described above. In accordance with these agreements, the Company has issued 5 share warrants, the terms of which are as follows:

Particulars	**Warrant agreement**
Date of Grant	August 6, 2016
No of options granted	Based on the ad utilisation over 3 to 5 years
Vesting period	Based on the ad utilisation over 5 years
Exercise period	Sep 1, 2017 onwards based on usage of Line of credit
Exercise price	Multiple of FY 2017 consumer revenue or base valuation whichever is higher

During the year ended March 31, 2020, the BCCL and the Company, executed share subscription and shareholders' agreement ("BCCL SSHA") and the Company agreed to issue and allot to BCCL, on a preferential basis, the 6,03,372 (Six Lakh Three Thousand Three Hundred and Seventy Two)], face value of Rs 10 each, fully paid-up equity at value of Rs 14.02 per share, in lieu of cancellation of share warrants of the Company issued to BCCL.

As a result of this transaction, the share warrant and Line of credit ('LOC') availed by subsidiary, has been extinguished against the equity shares issued. The balance amount of Rs 60,207,690 has been adjusted against the deemed investment recognised previously and Rs 66,540,728 has been transferred to capital reserve

(v) Capital reserve:

(i) Capital reserve is created out of transaction between the Company and BCCL on account of issue of shares and cancellation of share warrants and Line of credit ('LOC') availed by subsidiary Rs. 66,540,728.

(ii) Capital reserve is created on the conversion of financial liability component of 0.01% Optionally convertible optionally redeemable preference shares to 0.01% Redeemable Optionally Convertible Non-Cumulative Preference Shares ("OCRPS") of Rs 892,426,944/-

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

1. Company information

Meru Travel Solutions Private Limited ('the Company') is incorporated in India as a private limited company under the Companies Act, 1956 on December 4, 2006, having registered office at F-17, 4th Floor, Pinnacle Business Park, Shanti Nagar, Mahakali Caves Road, Andheri (East), Mumbai 400 093, India. These financial statements were authorized for issue in accordance with a Board resolution of May 14, 2020.

On November 19, 2014, the name of the Company was changed to Meru Travel Solutions Private Limited and on January 13, 2015 the Company was converted to a Public Limited Company and the name of the Company was changed to Meru Travel Solutions Limited. Subsequently on July 23, 2015, the Company was converted back to Private Limited Company and the name changed to Meru Travel Solutions Private Limited. The Company is a deemed public company as per definition of the Companies Act with effect from 5 December 2019

The Company operates through its three subsidiaries, to undertake business of owning, operating and maintaining vehicle fleets for transportation of passengers in form of tourist vehicles, radio taxis and to acquire and operate similar existing business.

2. Significant accounting policies

(a) Basis of preparation:

These financial statements of the Company have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs under Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

(b) Functional and presentation currency:

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency.

(c) Basis of measurement:

The financial statements have been prepared on the historical cost basis

2.1 Summary of significant accounting policies

a) Borrowing costs

Borrowing costs include interest and amortisation of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

b) Income taxes

Tax expense comprises of current and deferred tax.

Current income tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

c) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of equity shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

d) Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit or loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

e) Contingent liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources would be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

f) Cash and cash equivalents

Cash and cash equivalents in the Balance Sheet comprise cash at banks and on hand and short-term deposits, if any, with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above.

g) Investment in subsidiaries

Investment in subsidiaries are recorded at cost as defined in Ind AS 27.

h) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

i. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

ii. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables. For more information on receivables, refer to Note 8.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

i. The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

ii. The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Equity investments

The Company has accounted for its investments in subsidiaries at cost as per Ind AS 27 and accordingly, the Ind AS 109 is not applied to the investments in subsidiaries.

All other equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets:

In accordance with Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

a) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115

b) Other financial assets such as deposits, other receivables etc.

The company follows 'simplified approach' for recognition of impairment loss allowance for Trade receivables.

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

– All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument

– Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

On that basis, Company creates 100% provision for debtors outstanding for more than 360 days as at the reporting date.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L. The balance sheet presentation for various financial instruments is described below:

– Financial assets measured as at amortised cost - ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the company does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis and considers historical experience, credit assessments and forward looking information.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables.

Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss. The company has not designated any financial liability as at fair value through profit and loss.

De-recognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

i) Current versus non-current classification:

The Company presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to sold or consumed in the normal operating cycle

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period

  Or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period

  Or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

j) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability

Or

In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

k) Measurement of EBITDA

The Company has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The company measures EBITDA on the basis of profit / (loss) from continuing operations. In its measurement, the company does not include depreciation and amortization expense, interest income, finance costs and tax expense. Any amount described as unusual or exceptional is classified by nature, in the same way as non-exceptional amounts. Their inclusion or exclusion in EBIDTA will depend on the nature of income/ expense described as exceptional. Impairment loss / reversal on property plant and equipment is disclosed under Depreciation, amortisation and impairment expenses, and not considered for calculation of EBIDTA.

l) Recent Indian Accounting standard (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

2.2 Significant accounting judgements, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of asset or liability affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Following are the significant accounting judgements, estimates and assumptions:

i) Impairment of investment in subsidiary

The Company performs impairment testing for investment in subsidiaries where there are indicators of impairment. If such an indicator exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. The recoverable amount is the higher of value in use and fair value less costs of disposal. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Company's

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency: Indian Rupees)

Statement of profit and loss. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of the recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately as a credit to the Company's Statement of profit and loss.

During the year, the Company has recorded impairment of investments in V-Link Fleet Solutions Private Limited ('VFSPL'). Refer notes 3 and 14 for further details.

Note 3: Investment in subsidiaries

	As at March 31, 2020	As at March 31, 2019

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency: Indian Rupees)

Note 12: Financial instruments

A] Accounting classification of financial instruments

The following table summarises the accounting classification and carrying amounts of financial instruments.

Particulars	Notes	Carrying value\Fair Value	
		March 31, 2020	March 31, 2019
Financial assets carried at amortised cost			
Cash and cash equivalents	4	**188,887**	291,930
Total		**188,887**	291,930
Financial liabilities carried at amortised Cost			
Liability portion of Preference shares			
Non-current portion	6	**300,000**	839,777,481
Trade and other Payables	7	**4,085,836**	2,607,823
Total		**4,385,836**	842,385,304

B] Fair Value Measurement

The management assessed that cash and cash equivalents, current liability portion of preference shares and trade payables approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair values of the Company's preference shares is determined by using DCF method using the Company's incremental borrowing rate and the fair value determined on initial recognition is categorised as Level 2 in the fair value hierarchy.

There were no transfers between level 1, 2 and 3 for recurring fair value measurements during each of the reporting period. The Company's policy is to recognise transfers into and transfer out of fair value hierarchy levels at the end of the reporting period.

C] Financial risk management objectives and policies

The Company has exposure to the following risks arising from its financial instruments:

– Liquidity risk

The Company's senior management is responsible for the management of these risks with oversight of the Company's Board of Directors.

(i) Liquidity risk

The Company's liquidity risk mainly arises from preference shares issued to the parent company and insignificant routine expenses which are paid by Company's subsidiaries on its behalf as and when required. Subsequently, on receipt of funds by Company from its Parent on issue of equity shares for onward investment in its subsidiaries, Company generally settles the inter-company payables first and invests balance amounts in its Subsidiaries when needed. With regard to its preference shares, Company re-negotiates the terms of preference shares with its Parent company depending upon its financial condition on each redemption date.

The Company did not have drawn or undrawn borrowing facilities as at each reporting date.

The table below summarises the maturity profile of the Companys' financial liabilities based on contractual undiscounted payments.

	On demand	Less than 3 months	3 to 12 months	1 to 5 years	> 5 years	Total
Year ended - March 31, 2020						
0.01% Redeemable Optionally Convertible Non-Cumulative Preference Shares	–	–	–	–	300,000	**300,000**

Other trade payables	298,223	–	–	–	–	**298,223**
	2,607,823	**–**	**–**	**–**	**1,934,274,803**	**1,936,882,626**

D] Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, preference shares, securities premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximise the shareholder's value. Since Company is non-revenue generating entity, Company monitors its capital considering requirements at Group level after including all subsidiaries' capital requirements as mentioned below.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may issue new shares. The Company manages its capital, considering the net debt position and rolling cash flows as at each period end and identify need for additional funding from the existing / new share holders to meet the outstanding commitments and future cash flow requirements to meet the business plan for 1 year to 3 years. The Company includes within net debt, interest bearing loans and borrowings (excluding redeemable preference share), less cash and cash equivalents (Including intercorporate deposits & liquid mutual fund units).

NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency: Indian Rupees)

As at March 31, 2018, the Company had co-applied for vehicle loans taken by its subsidiaries and there are no covenants attached to such vehicle loans co-applied which needs to be complied with. These are secured by tangible assets and corporate guarantee/comfort letter from the ultimate parent. As at March 31, 2019, these loans have been fully repaid.

No changes were made in the objectives, policies or processes for managing capital during the years ended March 31, 2020 and March 31, 2019

Note 13: Earnings per share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the parent by the weighted average number of Equity shares outstanding during the year.

The following reflects the income and share data used in the basic and diluted EPS computations:

	March 31, 2020	March 31, 2019
(Loss) attributable to equity holders	**(102,873,891)**	(2,239,414,150)
Number of Shares outstanding at the beginning of the year	**54,562,678**	54,562,678
Add: Shares issued during the year	**32,495,018**	–
Number of Shares outstanding at the end of the year	**87,057,696**	54,562,678
Weighted average number of Equity shares for basic EPS	**65,064,003**	54,562,678
Basic and diluted EPS	**(1.58)**	(41.04)

Note 14: Impairment in value of Investment in subsidiary

During the year ended March 31, 2020, the Company has recorded an impairment charge in respect of the investment in one of its subsidiaries, V-Link Fleet Solutions Private Limited ('VFSPL') basis the significant reduction in revenues and profits and considering significant curtailment in the future business plans of VFSPL. The same has been fully impaired.

During the year ended March 31, 2019, the Company has recorded an impairment charge in respect of the investment in one of its subsidiaries, Meru Mobility Tech Private Limited ('MMTPL'). The impairment charge was determined based on a valuation agreed as per a Share Subscription and Shareholder Agreement ('the Agreement') entered into with Mahindra & Mahindra Limited ('M&M') for subscribing upto 55% of Equity share capital in the Company post the balance sheet date. The recoverable amount of the investment has been determined based on value in use considering a discount rate of 18.48% p.a.

Note 15: Segment reporting

The Company operates through its subsidiaries and does not have any operational business activity. Hence the requirements of the Indian Accounting Standard 108 – "Operating Segments", are not applicable to the Company.

Note 16: Going Concern

As at March 31, 2020, the Company has accumulated losses of INR 4,880.36 million (March 31, 2019: INR 4,777.49 million) and a positive net worth of INR 1,108.87 million (March 31, 2019: negative net worth of INR 67.59 million). During the year, the shareholder of the Company entered into a Share subscription and Shareholder Agreement ('the Agreement') with Mahindra and Mahindra Limited ('M&M'). M&M has acquired 36.63% stake in the Company in first tranche investment. As per the terms of the Agreement, M&M would acquire a 55% stake in the Company by investing second tranche of ~ INR 530 million. The Ultimate Holding Company Mahindra & Mahindra Limited has committed to provide continuing financial and/or operational support to the Group for its continued operations for the foreseeable future.

In view of the foregoing, the going concern assumption has been considered appropriate in preparing these financial statements.

Note 17: Other Matters

The outbreak of coronavirus (COVID 19) pandemic globally is causing a slowdown of economic activity. Measures are being taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered disruptions to business worldwide, resulting in an economic slowdown and uncertainties pertaining to future operations.

The Company has made a detailed assessment of its liquidity position for next one year and the recoverability and carrying value of its assets which is majorly Investment in subsidiaries as at the Balance sheet date and has concluded that no material adjustments are required in the financial statements. Management believes that it has taken into account all possible impacts of known events arising from COVID 19 pandemic in preparation of these financial statements.

The impact of coronavirus on the business will depend on future developments that cannot be reliably predicted. The impact of global health pandemic, might be different from that estimated as at the date of approval of these financial statements depending on how long the pandemic lasts and time period taken for the economic activities to return to normalcy.

Note 18: Subsequent Events

There are no significant subsequent events that would require adjustments or disclosures in the financial statements as on the balance sheet date.

Note 19: Information with the regard to other matters specified in Schedule III to the Act is either Nil or not applicable to the Company for the year ended 31 March 2020.

INDEPENDENT AUDITOR'S REPORT

To the Members of
Meru Mobility Tech Private Limited
(formerly known as Meru Cab Company Private Limited)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Meru Mobility Tech Private Limited** *(formerly known as Meru Cab Company Private Limited)* ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Emphasis of matter

We draw your attention to Note 32 to the financial statements for year ended 31 March 2020 which describes the outbreak of Coronavirus (COVID19) on the business operations of the Company. The management believes that no adjustments are required in the financial statements as it does not impact the current financial year. In view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent periods is highly dependent upon circumstances as they evolve.

Our opinion is not modified in this matter.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting

a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. (A) As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

   (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its financial statements - Refer Note 29 to the financial statements;

   ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

   iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.

   (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT - 31 MARCH 2020

(Referred to in our report of even date)

(i) a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property plant and equipment.

b) The Company has a regular programme of physical verification of fixed asset by which all the property, plant and equipment are verified in a phased manner over a period of 3 years. In our opinion, this periodicity of physical verification is reasonable having regards to the size of the company and nature of its assets. In our opinion and according to the information and explanation given to us, no material discrepancies were noticed on such verification.

c) According to the information and explanations given to us and on the basis of our examination of books of accounts and records of the Company, the Company did not have any immovable properties. Accordingly, paragraph 3 (i) (c) of the order is not applicable to the Company.

(ii) The Company is primarily engaged in the business of owning, operating and maintaining vehicle fleet for transportation of passengers in form of Taxis, providing taxi aggregator services and to acquire and operate similar existing business. Accordingly, it does not hold any physical inventories hence, paragraph 3 (ii) is not applicable.

(iii) In our opinion and according to the information and explanations given to us, the Company has granted loan to the Managing Director and fellow subsidiary company covered in the register maintained under Section 189 of the Act. There are no loans granted to firms, Limited Liability Partnerships or other parties listed in the register maintained under section 189 of the Companies Act, 2013.

a) In our opinion and according to the information and explanations given to us, the terms and conditions of the loan granted to Managing Director and a fellow subsidiary company are not prejudicial to the company's interest.

b) The schedule of repayment of principal and payment of interest has been stipulated for the loans granted to the Managing Director. The loan granted to fellow subsidiary company is interest free and repayable on demand.

c) There are no overdue amounts in respect of the loan given to Managing Director and fellow subsidiary company.

(iv) In our opinion and according to the information and explanations given to us, in respect of loans, investments, guarantee and security given the provisions of section 185 and 186 of the Companies Act 2013 have been complied with by the Company.

(v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public to which the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 of the Act, and the rules framed thereunder apply. Accordingly, paragraph 3(vi) of the Order is not applicable to the Company.

(vi) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the services rendered by the Company. Accordingly, paragraph 3(vi) of the Order is not applicable to the Company.

(vii) (a) According to the information and explanations given to us and records of the Company examined by us, in our opinion, the Company is generally regular in depositing the undisputed statutory dues in respect of, Provident fund, Employees' State Insurance, Income-tax with the appropriate authorities. The provisions relating to Value Added tax, Sales Tax Duty of customs, Duty of excise is not applicable to the Company.

According to the information and explanations given to us, no undisputed amounts payable in respect of Income tax, Provident fund, Employee State's Insurance, and any other material statutory dues were in arrears as at 31 March 2020 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of income-tax, sales tax, service tax, duty of customs, duty of excise, value added tax, and which have not been deposited with the appropriate authorities on account of any dispute.

(viii) In our opinion and according to the information and explanations given by the management, the Company has not defaulted in repayment of loans or borrowing to a financial institution, bank. The Company did not have any outstanding loans or borrowings from debentures holders or government.

(ix) According to the information and explanation given to us, the Company has utilized the money raised by way of term loans for the purpose for which they were raised. The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year.

(x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.

(xi) According to the information and explanations given by the management, the managerial remuneration has been paid/ provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.

(xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, transactions with the related parties are in compliance with Section 188 of the Act. The details of such related party transactions have been disclosed in financial statements as required by the applicable accounting standards. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act, and accordingly, to this extent, the provision of clause 3 (xiii) of the Order is not applicable to the Company.

(xiv) According to the information and explanations given by the management, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

(xv) According to the information and explanations given to us and based on our examination of the records, the Company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company.

(xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3(xvi) of the Order is not applicable to the Company.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph (2) (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of **Meru Mobility Tech Private Limited** *(formerly known as Meru Cab Company Private Limited)* ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As at March 31, 2020 (I+IV+V+VI)	1.48	3,004.23	4.84	(2,762.02)	–	247.05	248.53

a. **Securities premium:** The amount received in excess of face value of the equity shares is recognised in Securities premium. The securities premium can be utilized as per the provisions of the Companies Act, 2013.

b. **Retained earnings:** Retained earnings represents the amount of accumulated earnings at each Balance Sheet date of the Company.

c. **General reserve:** General reserve is in the nature of a free reserve and can be utilised inter-alia for distribution of dividends subject to compliance of the provisions of the Companies Act, 2013.

d. **Capital reserve:** During the year ended March 31, 2017, the parent entity of the Company i.e. Meru Travel Solutions Private Limited ('MTSPL') has entered into a Share cum Warrant Subscription Agreement ('Warrant Agreement') and Advertisement Agreement with Bennett, Coleman & Co. Ltd. ('BCCL').

Through the Advertisement Agreement, BCCL has extended a Line of Credit ('LOC') to MTSPL and its subsidiaries/affiliates (collectively referred to as 'the Group'). As part of the said Advertisement Agreement, the Group gains access to various advertising properties owned by BCCL. The Group needs to make only part payment for advertisement expenses incurred as and when it places advertisements in BCCL owned media. The remaining unpaid amount owed to BCCL (i.e. the LOC to the extent utilised), will be settled out of the money to be received as warrant exercise price on exercise of warrants to subscribe to equity shares of MTSPL by BCCL, only if BCCL decides to exercise the said warrants of MTSPL. Hence, the amount of LOC to the extent utilised by the Company is disclosed as capital reserve.

During the current year, the Company has cancelled the Advertisement agreement with BCCL and basis the same as per the terms of the cancellation agreement the Deposit paid to BCCL along with taxes payable is debited to Capital reserve and retained earnings.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

1. Company information

Meru Mobility Tech Private Limited ('the Company') is registered as a private limited company domiciled in India having its registered office at F-17, 4th Floor, Pinnacle Business Park, Shanti Nagar, Mahakali Caves Road, Andheri (East), Mumbai 400 093, India. The Company is a deemed public company as per definition of the Companies Act with effect from 5 December 2019. The Company is mainly engaged in the business of owning, operating and maintaining vehicle fleet for transportation of passengers in form of taxis, providing taxi aggregator services and to acquire and operate similar existing businesses.

On May 29, 2018, the name of the Company was changed from Meru Cab Company Private Limited to Meru Mobility Tech Private Limited.

These financial statements were authorized for issue in accordance with a Board resolution of May 14, 2020.

2. Significant accounting policies

(a) Basis of preparation:

These financial statements of the Company have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs under Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

(b) Functional and presentation currency:

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded off to nearest 1,000,000 (million) (Abbreviated as "mn") for the purpose of reporting in these financial statements, unless otherwise stated.

(c) Basis of measurement:

The financial statements have been prepared on the historical cost basis except for following assets and liabilities and measured at fair value:

- certain financial instruments which are measured at fair value (refer accounting policy 2(n))
- Defined benefit plans. (Note 28)

2.1 Summary of significant accounting policies

a) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

An item of property, plant and equipment is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains and losses arising from de-recognition of assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is de-recognised.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part have a cost which is significant to the total cost of the asset having useful life that is materially different from that of the remaining asset. These components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset. Such cost includes the cost of replacing parts of the property, plant and equipment if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Subsequent expenditure is capitalized if an only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Depreciation on Property, plant and equipment

Depreciation is calculated on a Straight-Line basis using the rates arrived at based on the useful life of the assets estimated by the management. The estimated useful life considered for depreciation of property, plant and equipment is as follows:

Asset description	Useful lives estimated by management (in years)
Computers and peripherals	3
Motor vehicles - fleet	3 – 5
Motor vehicle – mobile data terminal	6
Electric Chargers	7
Office car	4 – 5
Furniture and fittings	3 – 5
Office equipment	3
Leasehold Improvements	Over the period of lease or useful life of the asset, whichever is lower

Except Computers and peripherals, useful lives of above property, plant and equipment are different from those prescribed under schedule II. These lives are based on estimates supported by internal technical evaluation.

b) Intangible assets and amortisation

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

Taxi permits (Leased):

Taxi permits are amortised using the straight-line method over a period of 8 years or contractual life whichever is lower.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Software:

ERP software is amortised using the straight-line method over a period of 5 years and other software are amortised using the straight-line method over a period of 3 years or contractual life, whichever is lower.

The residual values, useful lives and methods of amortisation of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

c) Impairment of Property, plant and equipment and intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available.

If no such transactions can be identified, an appropriate valuation model is used. Impairment losses are recognised in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

d) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Where the Company is lessee:

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

Where the Company is Lessor:

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognizes lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognized over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue from contracts with customers to allocate the consideration in the contract.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

The Company has applied Ind AS 116 initially on April 1, 2019, using the modified retrospective approach. Therefore, the cumulative effect of adopting Ind AS 116 is being recognized as an adjustment to the opening balance of retained earnings at April 1, 2019, with no restatement of comparative information. The Company has applied Ind AS 116 to all contracts entered into before April 1, 2019 and identified as leases in accordance with Ind AS 17.

e) Borrowing costs

Borrowing costs include interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes as substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

f) Revenue recognition

Effective April 1, 2018, the Company adopted Ind AS 115 “Revenue from Contracts with Customers” using the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. The effect on adoption of Ind AS 115 was insignificant.

The Revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control – at a point in time or over time requires judgement.

Revenue includes only the gross inflows of economic benefits. It is measured based on the consideration specified in the contracts with customers. Amounts collected on behalf of third parties such as goods and services taxes and value added taxes are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenue.

The Company assesses its revenue arrangements to determine if it is acting as principal or agent. The Company has concluded that it is acting as an agent in case of its revenue from taxi aggregator services arrangements.

The following specific recognition criteria must also be met before revenue is recognized.

<u>**Income from services:**</u>

i. Revenue from taxi services, convenience fees, airport charges, services

Revenue from taxi services represents revenue earned from transportation of passengers as part of metered tax operations. Revenue from taxi services is measured as per the contractual terms and is recognised on completion of each trip. Convenience fees are charged to customer for facilitating booking of taxi services through the Company. Convenience fees are recognised as revenue at completion of trip. Airport charges are recovered from customers towards the airport charges incurred at airports as per the contractual terms. Airport charges are recognised as revenue at completion of trip.

ii. Revenue from taxi aggregator services

Revenue from taxi aggregator services is recognised net off the share of revenue paid to drivers, as and when the services are rendered as per the terms of the contract. Taxi aggregator services involve the Company providing a platform to facilitate booking of taxi services by passengers with third party independent taxi service providers.

iii. Revenue from employee transportation

Revenue from employee transportation represents revenue earned from providing taxi services to corporates for employee transportation. Revenue is measured as per the contractual terms and recognised as and when the service is renderedas per contract terms.

iv. Revenue from car rental services

Revenue from car rental services represents revenue earned from letting cars on hire to customers for specific period of time (generally short periods of time ranging from a few hours to a day). Revenue is measured as per the contractual terms and is recognized on completion of each trip.

v. Advertisement revenue

Revenue from advertisement contracts are recognised pro-rata over the period of contract as and when services are rendered. Revenue is measured as per the contractual terms

The Company generally does not offer a credit period in respect of its billing to drivers. In respect of corporate customers, the Company credit period offered generally ranged from 30 days to 90 days.

Interest income:

For all financial assets measured at amortised cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in finance income in the statement of profit and loss.

g) Foreign currencies

i. Transactions - Initial recognition

Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rate at the date the transaction first qualifies for recognition.

ii. Balances

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date. Differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

Non-monetary items which are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of initial transaction. Non-monetary items, which are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value in the item (i.e., the translation differences on items whose fair value gain or loss is recognised in OCI or statement of profit and loss are also recognised in OCI or statement of profit and loss, respectively).

h) Retirement and other employee benefits

i. Provident fund and ESIC

Retirement benefit in the form of provident fund and ESIC are defined contribution schemes. The Company has no obligation, other than the contribution payable to these schemes. The Company recognises contribution paid/payable during the year to these schemes in the statement of profit and loss.

ii. Gratuity

The Company operates a defined benefit gratuity plan for its employees. This benefit is unfunded. The cost of providing benefits under the defined benefit plans is determined by independent actuaries using the projected unit credit method. Re-measurements, comprising of actuarial gains and losses, are recognised immediately in the statement of financial position with a corresponding debit or credit to retained earnings through OCI in the period in which they occur and are not reclassified to profit or loss in subsequent periods.

iii. Compensated Absences

The liability towards Long term compensated absences is determined by independent actuaries using the projected unit credit method. Re-measurements, comprising of actuarial gains and losses, are recognised immediately in the statement of financial position with a corresponding debit or credit to Statement of profit and loss in the period in which they occur.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond 12 months, as long term employee benefit for measurement purposes. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end.

i) Income taxes

Tax expense comprises of current and deferred tax.

Current income tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

j) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of equity shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

k) Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

l) Contingent liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non- occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources would be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

m) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

n) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified as measured at:

- Amortised cost
- Fair value through other comprehensive income (FVTOCI) – debt investment
- Fair value through other comprehensive income (FVTOCI) – equity investment
- Fair value through profit or loss (FVTPL)

Financial assets at amortised cost

A financial asset is measured at amortised cost if both the following conditions are met:

i. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

ii. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in profit or loss. The losses arising from impairment are recognised in profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI

A debt instrument is classified as at the FVTOCI if both of the following criteria are met:

i. The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

ii. The asset’s contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in profit or loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Equity investments at FVTOCI

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment’s fair value in OCI (designated as FVTOCI – equity investment). This election is made on an investment by investment basis.

Fair value through profit or loss (FVTPL)

FVTPL is a residual category for financial assets. All financial assets not classified as measured at amortised cost of FVTOCI, as described above are classifed as at FVTPL. This includes all derivative financial assets. In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as ‘accounting mismatch’). The Company has not designated any debt instrument as at FVTPL.

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in profit or loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company’s balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company’s continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets:

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

a) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

b) Other financial assets such as deposits, other receivables etc.

The company follows ‘simplified approach’ for recognition of impairment loss allowance for Trade receivables. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head ‘other expenses’ in the P&L.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis and considers historical experience, credit assessments and forward looking information.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at amortised cost or FVTPL.

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not at FVTPL, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables and loans and borrowings including bank overdrafts.

Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on financial liabilities at FVTLP including interest expense are recognised in the profit or loss.

Other financial liabilities

Financial liabilities other that FVTPL instruments are subsequently measured at amortised cost using effective interest method. Interest expense and foreign exchanges gains or losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

De-recognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

o) Current versus non-current classification:

The Company presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period

  Or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period

  Or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

p) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability

Or

In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

q) Segment reporting

An operating segment is a component of the company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relates to transactions with any of the company other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance. Operating EBITDA is the Management's measure of the segment results.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

r) Recent Indian Accounting standard (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

s) Measurement of EBITDA

The Company has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The Company measures EBITDA on the basis of profit/(loss) from continuing operations. In its measurement, the company does not include depreciation and amortization expense, interest income, finance costs and tax expense. Any amount described as unusual or exceptional is classified by nature, in the same way as non-exceptional amounts. Their inclusion or exclusion in EBIDTA will depend on the nature of income/ expense described as exceptional. Impairment loss/reversal on property plant and equipment is disclosed under Depreciation, amortisation and impairment expenses, and not considered for calculation of EBIDTA.

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of asset or liability affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Following are the significant accounting judgements, estimates and assumptions:

2.2 Significant accounting judgements, estimates and assumptions

I. Revenue:

The Company assesses in accordance with Ind AS 115 as to whether it is acting as principal or agent in respect of the revenue arrangements entered. The Company has assessed that it is acting as an agent in case of revenue from taxi aggregator services arrangements and dealing on principal to principal basis for revenue from other services in terms of the principles of Ind AS 115.

II. Contracts with Driver - Whether the arrangement with drivers contains a lease:

Significant judgement is required to apply lease accounting rules under Appendix C of Ind AS 17 - Determining whether an arrangement contains a lease. In assessing the applicability to arrangements entered into by the Company, management has exercised judgement to evaluate the right to use the underlying assets, substance of the transaction including legally enforceable arrangements and other significant terms and conditions of the arrangements to conclude whether the arrangements meet the criteria under Appendix C.

III. Useful lives of intangibles and property, plant and equipment:

The Company reviews the useful life and residual value of property, plant and equipment and intangible assets at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation in future periods.

IV. Defined benefit plans

The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

V. Impairment of non-financial assets

The Company performs impairment testing for intangible assets and property, plant and equipment where there are indicators of impairment. If such an indicator exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. The recoverable amount is the higher of value in use and fair value less costs of disposal. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Company's Statement of profit and loss. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of the recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately as a credit to the Company's Statement of profit and loss.

** Short-term borrowings	**302.12**	180.88

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR millions)

(i) Vehicle loan from Banks

The loans are secured against hypothecation of vehicles as a first charge and corporate guarantee given by the fellow subsidiary. The rate of interest on these loans ranges from 8.20% p.a. to 9.45% p.a. The loans are repayable in 48 equal monthly instalments. Refer note 27[C](iii) 'Liquidity risk' for maturity profile of future instalments. These loans will be fully repaid by March 15, 2024. As at 31 March 2020, vehicle loan from banks includes outstanding loan from ICICI Bank of Rs. 203.97 million (31 March 2019: Rs. 84.84 million). While the Company has hypothecated relevant vehicles as a security against the said loan taken from ICICI Bank based on the contractual terms agreed with the Bank, the Company is in the process of registering the charge on the assets (vehicles) with the Registrar as required under the Companies Act, 2013.

(ii) Vehicle loan from NBFCs

The loans are secured against hypothecation of vehicles as a first charge and corporate guarantee given by the fellow subsidiary. The rate of interest on these loans ranges from 9.30% p.a. to 11.50 % p.a. The loans are repayable in 36 to 48 equal monthly installments. Refer note 27[C](iii) 'Liquidity risk' for maturity profile of future instalments. These loans will be fully repaid by December 15, 2023.

Note 16 : Provisions

	As at March 31, 2020	As at March 31, 2019
Non Current		
Provision for employee benefits		
Provision for gratuity *(Refer note 28)*	**9.26**	7.74
Other provisions		
Provision for contingencies*	**116.23**	76.50
Total Non current	**125.49**	84.24
Current		
Provision for employee benefits		
Provision for gratuity *(Refer note 28)*	**3.75**	3.26
Provision for leave encashment	**6.81**	5.19
Total current	**10.56**	8.45

* The Company has created provision towards various disputed legal matters that arise in the ordinary course of business on a best estimate basis. These provisions have not been discounted as it is not practicable for the Company to estimate the timing of the provision utilization and cash out flows, if any, pending resolution.

Particulars	**As at March 31, 2020**	As at March 31, 2019
At the beginning of the year	**76.50**	77.61
Arising during the year	**39.98**	–
Reversed during the year	**(0.25)**	(1.11)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR millions)

Note 27: Financial instruments

A] Accounting classification of financial instruments

The following table summarises the accounting classification and carrying amounts (net off any provision for impairment) of financial instruments.

Particulars	Notes	Carrying value/ Fair Value	
		March 31, 2020	March 31, 2019
Financial assets carried at amortised cost			
Security deposits	5	**54.79**	96.97
Loans to related parties - Inter-corporate deposits	5	**168.86**	84.89
Loans to Key managerial personnel	5	**3.00**	–
Loans to employees	5	**0.85**	0.12
Balances with banks held as margin money (non-current)	6	**3.70**	3.79
Advances recoverable in cash	6	**6.35**	5.19
Accrued interest	6	**0.15**	0.10
Receivables towards assets given on finance lease	6	**21.56**	–
Trade Receivables	10	**133.51**	80.19
Cash and cash equivalents and other bank balances	11, 12	**15.02**	31.16
Financial assets classified at FVTPL			
Investments	9	**357.48**	–
Total		**765.27**	302.41
Financial liabilities carried at amortised cost			
Borrowings	15	**481.46**	245.83
Current Maturities of long term Borrowings	18	**72.71**	26.56
Other financial liabilities	18	**142.75**	113.52
Trade payables	17	**72.67**	57.77
Total		**769.59**	443.69

B] Fair Value Measurement

The management assessed that cash and cash equivalents, trade receivables, loans, other financial assets trade payables, borrowings and other financial liability approximate their carrying amounts largely due to the short-term maturities of these instruments.

Investments in mutual funds are recorded at fair value. The fair value is determined at the amount at which the instruments could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Fair value of investments in mutual fund units is based on Net Asset Value (NAV) on the balance sheet date as published by the mutual fund. The fair value is categorised as Level 2 in the fair value measurement hierarchy.

There were no transfers between level 1, 2 and 3 for recurring fair value measurements during each of the reporting period. The Company's policy is to recognise transfers into and transfer out of fair value hierarchy levels at the end of the reporting period.

C] Financial risk management objectives and policies

The Company has exposure to the following risks arising from its financial instruments: - Market risk - interest rate risk - Credit risk - Liquidity risk

The Company's senior management is responsible for the management of these risks with oversight of the Company's Board of Directors.

i] Market risk - interest risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any exposure to interest rate risks since its borrowings are all in fixed rate instruments and there is no investments that is exposed to interest rates.

ii] Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables), liquid mutual fund units, inter corporate deposits, cash deposits and other financial instruments.

Trade receivables

The Company's Management divides its customers primarily into following two categories for purposes of monitoring credit risk:

Trade receivables from subscribers

Credit risk relating to subscribers is managed in accordance with the Company's established policy, procedures and controls relating to driver credit risk management. Trade receivables are non-interest bearing. Outstanding receivables are regularly monitored. The Company recognises impairment of trade receivables from drivers based on outstanding receivable, its historical experience and its expectation of credit losses in the future except to the extent the trade receivables are secured by way of deposits received from customers.

	March 31, 2020	March 31, 2019
Gross Trade receivables from subscribers	**70.98**	65.91
Less: Impairment allowance doubtful trade receivables	**(30.34)**	(27.82)
Net Trade receivables from subscribers	**40.64**	38.09
Security deposits received from above subscribers held as at the respective reporting dates	**36.00**	38.09

Trade receivables from other customers

Credit risk relating to other customers is managed in accordance with the Company's established policy, procedures and controls relating to other customer credit risk management. Trade receivables are non-interest bearing. Outstanding customer receivables are regularly monitored. For the purpose of measuring impairment allowance for trade receivables from other customers, the Company estimates irrecoverable amounts based on the ageing of the outstanding receivables, its historical experience and its expectation of credit losses in the future.

	March 31, 2020	March 31, 2019
Gross Trade receivables from other customers	**114.63**	64.09
Less: Impairment allowance doubtful trade receivables	**(21.76)**	(21.98)
Net Trade receivables from other customers	**92.87**	42.11
Ageing of gross trade receivables relating to other customers:		
Less than 6 months	**92.87**	42.11
More than 6 months	**21.76**	21.98
	114.63	64.09

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR millions)

Other financial assets

Financial assets other than trade receivables are neither past due nor impaired. Management believes that the amounts are collectible in full, based on its assessment including considering the historical payment behavior. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 27A. The Company has assessed the concentration risk with respect to trade receivables as low for its business.

iii] Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company's principal sources of liquidity are cash flows generated from its operations including deposits received from drivers.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

* The carrying amount of borrowings is net of transaction costs including bank fees.

D] Capital management

For the purpose of capital management, the Company considers capital to include issued equity capital, securities premium and all other equity reserves attributable to the equity holders of the Company. The primary objective of the Company's capital management is to maximize the shareholder's value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the loan covenants. To maintain or adjust the capital structure, the Company may issue new shares. The Company manages its capital, considering the net debt position and rolling cash flows as forecasts at each period end and identifies need for additional funding from the share holders to meet the outstanding commitments and future cash flow requirements to meet the business plans. The Company includes within net debt, interest bearing loans and borrowings less cash and cash equivalents and liquid mutual fund units.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR millions)

Particulars	March 31, 2020	March 31, 2019
Borrowings	**297.21**	105.98
Less: Cash and Cash Equivalent and liquid mutual fund units	**372.50**	31.16
Net Debt	**(75.29)**	74.82

Note 28: Employee benefits

a. Defined contribution plans

The Company makes contributions determined as a specified percentage of employees' salary in respect of qualifying employees towards Provident Fund and Employees' State Insurance (ESI) which are defined contribution plans. The Company has no obligations other than to make the specified contributions. The contributions are charged to statement of profit and loss as they accrue. The Company has recognised the following amount as an expense and included in the Note 23 under "Contribution to provident and other funds":

Particulars	March 31, 2020	March 31, 2019
Contribution to employees provident fund	**7.11**	5.42
Contribution to ESI	**0.69**	0.83
Total	**7.80**	6.25

b. Defined benefit plans

The Company operates one post-employment defined benefit plan (unfunded plan) that provides gratuity. The gratuity plan is governed by the Payment of Gratuity Act, 1972. The gratuity plan entitles an employee, who has rendered at least five years of continuous service, to receive one-half month's salary for each year of completed service at the time of retirement.

Liability recognised in the Balance Sheet in respect of Gratuity

	March 31, 2020	March 31, 2019
Present value of the defined benefit obligation at the end of the year	**13.01**	11.00
	13.01	11.00

Changes in the present value of the defined benefit obligation are as follows :

	March 31, 2020	March 31, 2019
Defined benefit obligation at beginning of the year	**11.00**	9.61
Current service cost	**1.81**	1.50
Interest cost	**0.76**	0.67
Past Service cost	**–**	–
Sub-total included in statement of profit and loss	**2.57**	2.17
Remeasurement (gains)/losses recorded in OCI		
Actuarial changes arising from changes in demographic assumptions	**(0.32)**	**(0.11)**
Actuarial changes arising from changes in financial assumptions	**0.67**	**0.14**
Sub-total included in OCI	**0.35**	**0.03**
Acquisition Adjustment	**1.75**	**–**
Benefits paid	**(2.66)**	**(0.81)**
Defined benefit obligation at the end of the year	**13.01**	**11.00**

Following table summarises the principal assumptions used for actuarial valuation of gratuity obligation for each reporting period:

	March 31, 2020	March 31, 2019
Discount rate	**5.15%**	6.60%
Future salary increases	**8.00%**	8.00%
Attrition rate (% p.a.)	**refer note below**	refer note below

Note : Call center – 60%, Non Call center – 35%, Management committee –10%

The estimates of future salary increases considered in actuarial valuation take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Demographic Assumptions : Mortality in Service: Indian Assured Lives Mortality 2012-18 (March 31, 2019: Mortality in Service: Indian Assured Lives Mortality 2006-08) Mortality in Retirement : 58 Years

A quantitative sensitivity analysis for significant assumptions as at each reporting date is as shown below:

	Discount rate assumption	
	March 31, 2020	March 31, 2019
Gratuity plan:		
Impact of increase of 1% p.a. on defined benefit obligation	**(0.48)**	(0.39)
Impact of decrease of 1 % p.a. on defined benefit obligation	**0.51**	0.42

	Future salary increase assumption	
	March 31, 2020	March 31, 2019
Gratuity plan:		
Impact of increase of 1% p.a. on defined benefit obligation	**0.39**	0.33
Impact of decrease of 1 % p.a. on defined benefit obligation	**(0.40)**	(0.32)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The average duration of the defined benefit plan obligation at the end of the reporting period is 3 years (March 31, 2019: 3 years).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR millions)

The following are expected contributions over the future years (valued on undiscounted basis):

	March 31, 2020	March 31, 2019
Within the next 1 year (next annual reporting period)	**3.75**	3.26
Between 2 to 5 years	**7.49**	6.72
Between 6 to 10 years	**2.81**	3.13
Beyond 10 years	**2.11**	1.40
Total expected payments	**16.16**	14.51

C. Other employee benefits

Compensated absences are payable to employees at the rate of basic salary for each day of accumulated leave on death or resignation or upon retirement. The charge towards compensated absences for the year ended 31 March 2020 INR 1.52 Millions (March 31, 2019: INR 1.63 Millions).

Note 29: Commitments and contingencies

A. Leases

a. Lease commitments

Effective April 1, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended March 31, 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our financial statement for year ended March 31, 2019.

On transition, the adoption of the new standard resulted in recognition of 'Right of Use' asset and lease liability of INR 2.93 million. The effect of this adoption is insignificant on the loss before tax and earnings per share. Ind AS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments.

The weighted average incremental borrowing rate applied to lease liabilities as at April 1, 2019 is in the range of 12.45% -11.65% p.a.%

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2020

Particulars	ROU Assets Building	Total
Balance as at April 1, 2019	**2.93**	2.93
Additions	**1.15**	1.15
Deletions	**–**	–
Balance as at March 31, 2020	**4.08**	4.08

The following is the movement in lease liabilities for the year ended March 31, 2020

Particulars	March 31, 2020
Balance at the beginning	**2.93**
Additions	**1.15**
Finance cost accrued during the period	**0.29**
Deletions	**–**
Payment of lease liabilities	**(2.41)**
Balance at the end	**1.96**

Depreciation on right-of-use assets is as follow	**Year ended March 31, 2020**
Depreciation	
Building	**2.21**
Total	**2.21**

During the year ended March 31, 2020, the Company has paid INR 27.60 million (March 31, 2019: INR 26.05 million) towards short-term lease payments. This has been recorded under Rent expense in the statement of profit and loss.

b. Finance lease - where the Company is lessor

The Company has taken taxi permits on finance lease by paying the consideration upfront as a onetime payment.

The Company has leased out 51 vehicles (March 31, 2019 : Nil) on finance lease. The lease term is for 3 - 4 years and is non-renewable, after which the legal title is passed to the lessee. There is no escalation clause in the lease agreement.

Gross investments	March 31, 2020	March 31, 2019
Within one year	**8.29**	
After one year but not more than five years	**16.79**	–

(Currency in INR millions)

B. Commitments

[I] Capital commitments

	As at March 31, 2020	As at March 31, 2019
Estimated amount of contracts remaining to be executed on capital account and not provided for, (net of advances)		
– towards leasehold improvement	**6.80**	–
– towards purchase of vehicles	**29.75**	–
	36.55	–

[II] Other commitments

The Company has entered into License Agreements/Contracts with Airport authorities at some locations. These agreements are for periods of 3 to 4 years and include non-cancellable period of 1 to 2 years. Under the contracts, the Company guarantees a certain minimum payment to the airports each month. Management believes that it would perform its obligations for the entire period of these contracts taking into account the past experience and management's intent and future business plans. Management has disclosed contractual commitments under these contracts below based on the total contractual period.

Particulars	**As at March 31, 2020**	As at March 31, 2019
Minimum commitment to Airports		
Delhi Airport Terminal 1	**3.45**	10.73
Delhi Airport Terminal 2	**1.12**	3.47
Delhi Airport Terminal 3	**24.98**	57.46
Bangalore Airport	**51.92**	94.45
Hyderabad Airport	**200.28**	30.60
	281.74	196.69

C] Contingent liabilities

Particulars	**As at March 31, 2020**	As at March 31, 2019
Claims against the Company not acknowledged as debts (Refer note a below)	**18.78**	35.45
Advertisement tax	**5.54**	5.54
Guarantees and counter guarantees given by the Company (disclosed to the extent of outstanding loan balance) (Refer note b below)	**0.29**	1.50
	24.61	42.48

Note:

a) Claims against the Company pertain to various legal claims filed against the Company by customers/ third parties. The Company has contested these claims and the same are pending adjudication at various judicial forums. The timing of any possible cash outflows with regard to the aforesaid matters depends upon the final outcome of the respective litigations and exhaustion of remedies available to the Company under the law and hence the Company is not able to reasonably ascertain the timing of the possible outflow, if any.

b) The guarantees given have been used for acquisition of property, plant and equipment by a fellow subsidiary. Total loan amount drawn for which guarantee is given was INR 2.45 million (March 31, 2019: INR 2.45 million), of which outstanding loan balance is disclosed above.

Note 30: Income Taxes

* less than Rs. 5,000

Terms and conditions of transactions with related parties

All the related party transaction during the year were in ordinary course of business. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash. The loans receivable and payable are all repayable on demand.

Note 32:

The outbreak of coronavirus (COVID 19) pandemic globally is causing a slowdown of economic activity. Measures are being taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered disruptions to business worldwide, resulting in an economic slowdown and uncertainties pertaining to future operations.

The Company has made a detailed assessment of its liquidity position for next one year and the recoverability and carrying value of its assets including Property, Plant and Equipment, Trade receivables and Investment as at the Balance sheet date and has concluded that no material adjustments are required in the financial statements. Management believes that it has taken into account all possible impacts of known events arising from COVID 19 pandemic in preparation of these financial statements.

The impact of coronavirus on the business will depend on future developments that cannot be reliably predicted. The impact of global health pandemic, might be different from that estimated as at the date of approval of these financial statements depending on how long the pandemic lasts and time period taken for the economic activities to return to normalcy.

Note 33: Operating Segments Reporting

A. Basis for segmentation

An operating segment is a component of the company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relates to transactions with any of the company other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance. Operating EBITDA is the Management's measure of the segment results.

The Group has two reportable segments, as described below, which are the Group's strategic business units. These business units offer different services and are managed separately because they require different technologies and marketing strategies. For each of the business units the CODM reviews internal management reports on monthly basis.

The following summary describes the operations in each of the company reportable segments:

a. **Taxi services (includes taxi aggregator services):** Provide taxi services to retail passengers (which includes taxi aggregator services).

b. **Employee transport service:** Provides employee transportation and rent a cab services to corporate customers.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR millions)

Note 34: Earnings per share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the parent by the weighted average number of Equity shares outstanding during the year.

The following reflects the income and share data used in the basic and diluted EPS computations:

	March 31, 2020	March 31, 2019
Profit/(Loss) attributable to equity holders	**(106.44)**	54.32
Number of Shares outstanding at the beginning of the year	**84,786**	84,786
Add: Shares issued during the year	**63,409**	–
Number of Shares outstanding at the end of the year	**148,195**	84,786
Weighted average number of Equity shares for basic EPS and diluted	**105,229**	84,786
Basic and diluted EPS calculations	**(1,011.51)**	640.69

Note 35: As at March 31, 2020, the Company has accumulated losses of INR 2,762.02 million (March 31, 2019: INR 2,639.51 million) and a positive net worth of INR 248.53 million (March 31, 2019 a negative net worth of INR 8.74 million). The ultimate holding Company Mahindra & Mahindra Limited has committed to provide continuing financial and/or operational support to the Company for its continued operations for the foreseeable future.

In view of the foregoing, the going concern assumption has been considered appropriate in preparing these financial statements.

Note 36: Based on the contracts with taxi operators under the taxi aggregator services, the Company's revenue is determined as a share of the total passenger revenue of INR 600.64 million (March 31, 2019: INR 595.56 million) generated by these taxi operators.

Note 37: There are no significant subsequent events that would require adjustments or disclosures in the financial statements as on the balance sheet date.

Note 38: Information with the regard to other matters specified in Schedule III to the Act is either Nil or not applicable to the Company for the year ended 31 March 2020.

Note 39: All amounts disclosed in the financial statements and notes has been rounded off to the nearest millions as per the requirement of Schedule III, unless otherwise stated.

INDEPENDENT AUDITOR'S REPORT

To the Members of
V-Link Automotive Services Private Limited

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the financial statements of V-Link Automotive Services Private Limited ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Emphasis of matter

We draw your attention to Note 31 to the standalone financial statements for year ended 31 March 2020 which describes the outbreak of Coronavirus (COVID19) on the business operations of the Company. The management believes that no adjustments are required in the financial statements as it does not impact the current financial year. In view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent periods is highly dependent upon circumstances as they evolve.

Our opinion is not modified in respect of this matter.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/ loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. (A) As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books

   c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

   (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company has disclosed the impact of pending litigations as at 31 March 2020 on its financial position in its financial statements - Refer Note 24 B to the financial statements;

ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the Company has not paid any remuneration to its directors during the current year and hence the provisions of Section 197 of the Act are not applicable to the Company.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT - 31 MARCH 2020

(Referred to in our report of even date)

(i) a) The Company has maintained proper records showing full particulars, including quantitative details and situation of property plant and equipment.

b) The Company has a regular programme of physical verification of property plant and equipment by which all the property plant and equipment are verified in a phased manner over a period of 3 years. In our opinion, this periodicity of physical verification is reasonable having regards to the size of the company and nature of its assets. In our opinion and according to the information and explanation given to us, no material discrepancies were noticed on such verification.

c) According to the information and explanations given to us and on the basis of our examination of books of accounts and records of the Company, the Company did not have any immovable properties. Accordingly, paragraph 3 (i) (c) of the order is not applicable to the company.

(ii) The Company is primarily engaged in the business of providing taxi and taxi aggregator services. Accordingly, it does not hold any physical inventories. Accordingly, paragraph 3 (ii) is not applicable.

(iii) In our opinion and according to the information and explanations given to us, the Company has granted a loan to a fellow subsidiary covered in the register maintained under Section 189 of the Act.

a) In our opinion and according to the information and explanations given to us, the terms and conditions of the grant on which loans are granted is not prejudicial to the company's interest.

b) The loan granted to fellow subsidiary is interest free and repayable on demand.

c) There are no overdue amounts in respect of the loan granted to fellow subsidiary.

iv) In our opinion and according to the information and explanations given to us, in respect of loans, investments, guarantee and security given the provisions of section 185 and 186 of the Companies Act 2013 have been complied with by the Company.

v) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits from the public to which the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 of the Act, and the rules framed thereunder apply. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.

vi) To the best of our knowledge and as explained, the Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the services rendered by the Company. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.

vii) (a) According to the information and explanations given to us and records of the Company examined by us, in our opinion, the Company is generally regular in depositing the undisputed statutory dues in respect of Income-tax, Provident fund, Employees' State Insurance and Professional tax with the appropriate authorities. The provisions relating to Value Added tax, Sales Tax, Duty of Customs duty and Duty of excise is not applicable to the Company.

According to the information and explanations given to us, no undisputed amounts payable in respect of Income tax, Provident fund, Employees' State Insurance and Professional tax were in arrears as at 31 March 2020 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of income-tax, sales tax, service tax, Duty of customs, Duty of excise, value added tax and goods and service tax which have not been deposited with the appropriate authorities on account of any dispute.

viii) The Company did not have any outstanding loans or borrowing dues in respect of a financial institution or bank or to government or dues to debenture holders during the year. Accordingly, paragraph 3(viii) of the Order is not applicable to the Company.

(ix) The Company has not raised any money by way of initial public offer, further public offer (including debt instruments) and term loans during the year. Accordingly, the provisions of paragraph 3(ix) of the Order are not applicable to the Company.

(x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.

(xi) According to the information and explanations given by the management, the Company was not a deemed public company till 4 December 2019 and no managerial remuneration has been paid w.e.f. 5 December 2019, and accordingly, the provision of clause 3 (xi) of the Order is not applicable to the Company.

(xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanations given to us, transactions with the related parties are in compliance with Section 188 of the Act. The details of such related party transactions have been disclosed in financial statements as required by the applicable accounting standards. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act, and accordingly, to this extent, the provision of clause 3 (xiii) of the Order is not applicable to the Company

(xiv) According to the information and explanations given by the management, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

(xv) According to the information and explanations given to us and based on our examination of the records, the Company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company.

(xvi) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3(xvi) of the Order is not applicable to the Company.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph (1) (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of V-Link Automotive Services Private Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes:

Securities premium: Securities premium is credited when shares are issued at a premium. The securities premium can be utilized as per the provisions of the Companies Act, 2013 for specified purposes such as to issue bonus shares, to provide for premium on redemption of shares or debentures etc.

Retained earnings: Retained earnings represents the amount of accumulated earnings at each Balance Sheet date of the Company.

Capital Reserve: Capital Reserve represents the fair value in respect of financial guarantee provided by the holding company in favour of the Company recognised on transition to Ind AS as at April 1, 2016 amounting to INR 3,750,000 with a corresponding debit to financial guarantee assets recorded under Other Assets. These financial guarantee assets have been amortised as expenses in the Statement of Profit and Loss over the period of the guarantee and the unamortised portion as at March 31, 2020 amounts to INR Nil.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

1. **Company information**

V-link Automotive Services Private Limited ('the Company') is registered as a private limited company domiciled in India having its registered office at F-17, 4th Floor, Pinnacle Business Park, Shanti Nagar, Mahakali Caves Road, Andheri (East), Mumbai 400 093, India. The Company is a deemed public company as per definition of the Companies Act with effect from 5 December 2019. The Company is mainly engaged in the business of owning, operating and maintaining vehicle fleet for transportation of passengers in form of taxis, providing taxi aggregator services and to acquire and operate similar existing businesses.

These financial statements were authorized for issue in accordance with a Board resolution of May 14, 2020.

2. **Significant accounting policies**

(a) Basis of preparation:

These financial statements of the Company have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs under Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

(b) Functional and presentation currency:

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency.

(c) Basis of measurement:

The financial statements have been prepared on the historical cost basis except for following assets and liabilities and measured at fair value:

- certain financial instruments which are measured at fair value (refer accounting policy 2(n))
- Defined benefit plans. (Note 23)

2.1 Summary of significant accounting policies

a) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

An item of property, plant and equipment is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains and losses arising from de-recognition of assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is de-recognised.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part have a cost which is significant to the total cost of the asset having useful life that is materially different from that of the remaining asset. These components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset. Such cost includes the cost of replacing parts of the property, plant and equipment if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Subsequent expenditure is capitalized if an only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress"

Depreciation on Property, plant and equipment

Depreciation is calculated on a Straight-Line basis using the rates arrived at based on the useful life of the assets estimated by the management. The estimated useful life considered for depreciation of property, plant and equipment is as follows:

Asset description	Useful lives estimated by management (in years)
Computers and peripherals	3
Motor vehicles - fleet	3 – 6
Furniture and fittings	3 – 6
Office equipment	3

Except Computers and peripherals, useful lives of above property, plant and equipment are different from those prescribed under schedule II. These lives are based on estimates supported by internal technical evaluation.

b) Intangible assets and amortisation

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Software:

ERP software is amortised using the straight-line method over a period of 5 years and other software are amortised using the straight-line method over a period of 3 years or contractual life, whichever is lower.

The residual values, useful lives and methods of amortisation of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

c) Impairment of Property, plant and equipment and intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available.

If no such transactions can be identified, an appropriate valuation model is used. Impairment losses are recognised in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

d) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Where the Company is lessee:

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-ofuse assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised

Where the Company is Lessor:

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognizes lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognized over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue from contracts with customers to allocate the consideration in the contract.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

Transition to Ind AS 116

Ministry of Corporate Affairs (“MCA”) through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has applied Ind AS 116 initially on April 1, 2019, using the modified retrospective approach. Therefore, the cumulative effect of adopting Ind AS 116 is being recognized as an adjustment to the opening balance of retained earnings at April 1, 2019, with no restatement of comparative information. The Company has applied Ind AS 116 to all contracts entered into before April 1, 2019 and identified as leases in accordance with Ind AS 17.

e) Borrowing costs

Borrowing costs include interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes as substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

f) Revenue recognition

Effective April 1, 2018, the Company adopted Ind AS 115 “Revenue from Contracts with Customers” using the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. The effect on adoption of Ind AS 115 was insignificant.

The Revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control – at a point in time or over time requires judgement.

Revenue includes only the gross inflows of economic benefits. It is measured based on the consideration specified in the contracts with customers. Amounts collected on behalf of third parties such as goods and services taxes and value added taxes are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenue.

The Company assesses its revenue arrangements to determine if it is acting as principal or agent. The Company has concluded that it is acting as an agent in case of its revenue from taxi aggregator services arrangements.

The following specific recognition criteria must also be met before revenue is recognized.

Income from services:

i. Revenue from taxi aggregator services, convenience fees and airport charges

Revenue from taxi aggregator services is recognised net off the share of revenue paid to drivers, as and when the services are rendered as per the terms of the contract. Taxi aggregator services involve the Company providing a platform to facilitate booking of taxi services by passengers with third party independent taxi service providers. Convenience fees are charged to customer for facilitating booking of taxi services through the Company. Convenience fees are recognised as revenue at completion of trip. Airport charges are recovered from customers towards the facilitating booking of taxi services at airport counter. Airport charges are recognised as revenue at completion of trip

ii. Revenue from car rental services

Revenue from car rental services represents revenue earned from letting cars on hire to customers for specific period of time (generally short periods of time ranging from a few hours to a day). Revenue is measured as per the contractual terms and is recognized on completion of each trip.

iii. Advertisement revenue

Revenue from advertisement contracts are recognised pro-rata over the period of contract as and when services are rendered. Revenue is measured as per the contractual terms

The Company generally does not offer a credit period in respect of its billing to drivers. In respect of corporate customers, the Company credit period offered generally ranged from 30 days to 90 days.

Interest income:

For all financial assets measured at amortised cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in finance income in the statement of profit and loss.

g) Foreign currencies

i. Transactions - Initial recognition

Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rate at the date the transaction first qualifies for recognition.

ii. Balances

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date. Differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

Non-monetary items which are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of initial transaction. Non-monetary items, which are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value in the item (i.e., the translation differences on items whose fair value gain or loss is recognised in OCI or statement of profit and loss are also recognised in OCI or statement of profit and loss, respectively).

h) Retirement and other employee benefits

i. Provident fund and ESIC

Retirement benefit in the form of provident fund and ESIC are defined contribution schemes. The Company has no obligation, other than the contribution payable to these schemes. The Company recognises contribution paid / payable during the year to these schemes in the statement of profit and loss.

ii. Gratuity

The Company operates a defined benefit gratuity plan for its employees. This benefit is unfunded. The cost of providing benefits under the defined benefit plans is determined by independent actuaries using the projected unit credit method. Re-measurements, comprising of actuarial gains and losses, are recognised immediately in the statement of financial position with a corresponding

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

debit or credit to retained earnings through OCI in the period in which they occur and are not reclassified to profit or loss in subsequent periods.

iii. Compensated Absences

The liability towards Long term compensated absences is determined by independent actuaries using the projected unit credit method. Re-measurements, comprising of actuarial gains and losses, are recognised immediately in the statement of financial position with a corresponding debit or credit to Statement of profit and loss in the period in which they occur.

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond 12 months, as long term employee benefit for measurement purposes. Such long term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end.

i) Income taxes

Tax expense comprises of current and deferred tax.

Current income tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

j) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of equity shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

k) Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

l) Contingent liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non- occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources would be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

m) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

n) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified as measured at:

- Amortised cost
- Fair value through other comprehensive income (FVTOCI) – debt investment
- Fair value through other comprehensive income (FVTOCI) – equity investment
- Fair value through profit or loss (FVTPL)

Financial assets at amortised cost

A financial asset is measured at amortised cost if both the following conditions are met:

i. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

ii. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in profit or loss. The losses arising from impairment are recognised in profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI

A debt instrument is classified as at the FVTOCI if both of the following criteria are met:

i. The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

ii. The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in profit or loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Equity investments at FVTOCI

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVTOCI – equity investment). This election is made on an investment by investment basis.

Fair value through profit or loss (FVTPL)

FVTPL is a residual category for financial assets. All financial assets not classified as measured at amortised cost of FVTOCI, as described above are classifed as at FVTPL. This includes all derivative financial assets. In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in profit or loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets:

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

a) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

b) Other financial assets such as deposits, other receivables etc.

The company follows 'simplified approach' for recognition of impairment loss allowance for Trade receivables. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis and considers historical experience, credit assessments and forward looking information.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at amortised cost or FVTPL.

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not at FVTPL, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables and loans and borrowings including bank overdrafts.

Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on financial liabilities at FVTLP including interest expense are recognised in the profit or loss.

Other financial liabilities

Financial liabilities other that FVTPL instruments are subsequently measured at amortised cost using effective interest method. Interest expense and foreign exchanges gains or losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

De-recognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

o) Current versus non-current classification:

The Company presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period

Or

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period

Or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

p) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability

Or

In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

q) Segment reporting

An operating segment is a component of the company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relates to transactions with any of the company other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance. Operating EBITDA is the Management's measure of the segment results.

r) Recent Indian Accounting standard (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

s) Measurement of EBITDA

The Company has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The Company measures EBITDA on the basis of profit / (loss) from continuing operations. In its measurement, the company does not include depreciation and amortization expense, interest income, finance costs and tax expense. Any amount described as unusual or exceptional is classified by nature, in the same way as non-exceptional amounts. Their inclusion or exclusion in EBIDTA will depend on the nature of income/ expense described as exceptional. Impairment loss / reversal on property plant and equipment is disclosed under Depreciation, amortisation and impairment expenses, and not considered for calculation of EBIDTA.

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of asset or liability affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Following are the significant accounting judgements, estimates and assumptions:

2.2 Significant accounting judgements, estimates and assumptions

I. Revenue:

The Company assesses in accordance with Ind AS 115 as to whether it is acting as principal or agent in respect of the revenue arrangements entered. The Company has assessed that it is acting as an agent in case of revenue from taxi aggregator services arrangements and dealing on principal to principal basis for revenue from other services in terms of the principles of Ind AS 115.

II. Contracts with Driver - Whether the arrangement with drivers contains a lease:

Significant judgement is required to apply lease accounting rules under Appendix C of Ind AS 17 - Determining whether an arrangement contains a lease. In assessing the applicability to arrangements entered into by the Company, management has exercised judgement to evaluate the right to use the underlying assets, substance of the transaction including legally enforceable arrangements and other significant terms and conditions of the arrangements to conclude whether the arrangements meet the criteria under Appendix C.

III. Useful lives of intangibles and property, plant and equipment:

The Company reviews the useful life and residual value of property, plant and equipment and intangible assets at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation in future periods.

IV. Defined benefit plans

The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

V. Impairment of non-financial assets

The Company performs impairment testing for intangible assets and property, plant and equipment where there are indicators of impairment. If such an indicator exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. The recoverable amount is the higher of value in use and fair value less costs of disposal. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Company's Statement of profit and loss. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of the recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately as a credit to the Company's Statement of profit and loss.

(Currency in INR)

Note 22: Financial Instruments

A] Accounting classification of financial instruments

The following table summarises the accounting classification and carrying amounts (net off any impairment provisions) of financial instruments

Particulars	Notes	Carrying value March 31, 2020	Carrying value March 31, 2019
Financial assets carried at amortized cost			
Security Deposits	4	**1,132,662**	1,152,662
Loans to related parties - Inter-corporate deposit	4	**302,136,514**	180,883,975
Other loans - Inter-corporate deposit	4	**–**	110,000,000
Trade receivables	7	**6,183,930**	7,203,388
Term deposit with bank	5	**210,000**	210,000
Cash and cash equivalents	9	**806,367**	4,686,623
Advance recoverable in cash	5	**5,078**	5,078
Accrued Interest	5	**59,258**	44,297
Total		**310,533,809**	304,186,023
Financial liabilities carried at amortized cost			
Other financial liabilities	14	**10,796,081**	11,042,432
Trade payables	13	**3,354,275**	3,105,810
Total		**14,150,356**	14,148,242

B] Fair Value Measurement

The management assessed that cash and cash equivalents, trade receivables, trade payables, security deposits and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

There were no transfers between level 1, 2 and 3 for recurring fair value measurements during each of the reporting period. The Company's policy is to recognise transfers into and transfer out of fair value hierarchy levels at the end of the reporting period.

C] Financial risk management objectives and policies

The Company has exposure to the following risks arising from its financial instruments:

- Market risk - interest rate risk
- Credit risk
- Liquidity risk

The Company's senior management is responsible for the management of these risks with oversight of the Company's Board of Directors.

i] Market risk - interest risk

Market risk in the case of the Company relates to interest rate risk i.e. the risk that a change in market interest rates could affect the futures cash flows of the Company. The Company does not have any exposure to floating interest rates. The Company has given intercorporate deposits to the external parties at fixed interest rate. The Company has given interest free inter corporate deposits to fellow subsidiaries which has not been considered in the below table. Further The Company does not have any exposure to interest rate risks since there is no borrowings and investments are fixed rate instruments.

ii] Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables), liquid mutual fund units, inter corporate deposits, cash deposits and other financial instruments.

Trade receivables

The Company's Management divides its customers primarily into following two categories for purposes of monitoring credit risk:

Trade receivables from Subscribers

Trade receivables from subscriber credit risk is managed in accordance with the company established policy, procedures and controls relating to driver credit risk management. Trade receivables are non-interest bearing. Outstanding customer receivables are regularly monitored. The Company recognises impairment of trade receivable from drivers based on outstanding receivable net of corresponding deposit.

	March 31, 2020	March 31, 2019
Gross trade receivables from subscribers	**9,799,398**	32,201,012
Less: Impairment allowance for doubtful trade receivables	**(6,346,322)**	(27,361,065)
Net trade receivables from subscribers	**3,453,076**	4,839,947
Security deposits received from above subscribers held as at the respective reporting dates	**3,461,121**	4,839,947

Trade receivables from other customers

Credit risk relating to other customers is managed in accordance with the Company's established policy, procedures and controls relating to corporate customer credit risk management. Trade receivables are non-interest bearing. Outstanding customer receivables are regularly monitored. For the purpose of measuring impairment allowance for trade receivables from other customers, the Company estimates irrecoverable amounts based on the ageing of the outstanding receivables, its historical experience and its expectation of credit losses in the future.

	March 31, 2020	March 31, 2019
Gross Trade receivables from other customers	**3,011,038**	2,458,082
Less: Impairment allowance for doubtful trade receivables	**(280,184)**	(94,641)
Net Trade receivables from other customers	**2,730,854**	2,363,441
Ageing of gross trade receivables relating to other customers:		
Within 6 months	**2,730,854**	2,363,441
More than 6 months	**280,184**	94,641
	3,011,038	2,458,082

Other financial assets

Financial assets other than trade receivables are neither past due nor impaired. Management believes that the amounts are collectible in full, based on its assessment including considering the historical payment behaviour.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR)

iii] Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company's principal sources of liquidity are cash flows generated from its operations including deposits received from drivers.

The table below summarises the maturity profile of the company financial liabilities based on contractual undiscounted payments.

		Undiscounted amount				
Year ended - March 31, 2020	**Carrying Value**	**Payable within 1 year**	**Payable within 1 to 2 years**	**Payable within 2 to 3 years**	**Payable within 3 to 4 years**	**Total**

Trade Payables	3,105,810	3,105,810	-	–	–	3,105,810
	14,148,242	14,148,242	-	–	–	14,148,242

D] Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the company capital management is to maximize the shareholder's value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the company may issue new shares. The company manages its capital, considering the net debt position and rolling cash flows as at each period end and identify need for additional funding from the shareholders to meet the outstanding commitments and future cash flow requirements to meet the future business plans. The company includes within net debt, interest bearing loans and borrowings less cash and cash equivalents (Including intercorporate deposits), excluding discontinued operations.

Particulars	**March 31, 2020**	March 31, 2019
Borrowings	**–**	–
Less: Cash and Cash Equivalent (Including intercorporate deposits)	**303,152,881**	295,780,597
Net Debt/(Surplus funds)	**(303,152,881)**	(295,780,597)

Note 23: Employee benefits

a. Defined contribution plans

The Company makes contributions determined as a specified percentage of employees' salary in respect of qualifying employees towards Provident Fund and Employees' State Insurance (ESI) which are defined contribution plans. The Company has no obligations other than to make the specified contributions. The contributions are charged to statement of profit and loss as they accrue. The Company has recognised the following amount as an expense and included in the Note 18 under "Contribution to provident and other funds":

Particulars	**March 31, 2020**	March 31, 2019
Contribution to employees provident fund	**216,628**	238,591
Contribution to ESI	**41,671**	49,002
Total	**258,299**	287,593

b. Defined benefit plans

The Company operates one post-employment defined benefit plan (unfunded plan) that provides gratuity. The gratuity plan is governed by the Payment of Gratuity Act, 1972. The gratuity plan entitles an employee, who has rendered at least five years of continuous service, to receive one-half month's salary for each year of completed service at the time of retirement.

Liability recognised in the Balance Sheet in respect of Gratuity

Particulars	**March 31, 2020**	March 31, 2019
Present value of the defined benefit obligation at the end of the year	**338,328**	246,170
Total	**338,328**	246,170

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR)

Changes in the present value of the defined benefit obligation are, as follows:

	March 31, 2020	March 31, 2019
Defined benefit obligation at beginning of the year	**246,170**	279,308
Current service cost	**60,184**	55,186
Interest cost	**16,281**	19,397
Sub-total included in statement of profit and loss	**76,465**	74,583
Remeasurement losses recorded in OCI		
Actuarial (gains)/losses arising from changes in demographic assumptions	**1**	–
Actuarial (gains)/losses arising from changes in financial assumptions	**13,593**	2,422
Experience adjustments	**2,099**	52,809
Sub-total included in OCI	**15,693**	55,231
Benefits paid	**–**	(162,952)
Defined benefit obligation at the end of the year	**338,328**	246,170

Following table summarises the key assumptions used for actuarial valuation of gratuity obligations for each reporting period:

Actuarial assumptions	March 31, 2020	March 31, 2019
Discount rate	**5.15%**	6.60%
Future salary increases	**8.00%**	8.00%
Attrition	**35%**	35%

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Demographic Assumptions:

Mortality in Service: Indian Assured Lives Mortality 2012-18 (March 31, 2019: Mortality in Service: Indian Assured Lives Mortality 2006-08)

Mortality in Retirement : 58 Years

A quantitative sensitivity analysis for significant assumption as at each reporting date is as shown below:

	Discount rate assumption	
Gratuity plan:	**March 31, 2020**	March 31, 2019
Impact of increase of 1% p.a. on defined benefit obligation	**10,044**	(6,796)
Impact of decrease of 1 % p.a. on defined benefit obligation	**(9,492)**	7,185

	Future salary increase assumption	
Gratuity plan:	**March 31, 2020**	March 31, 2019
Impact of increase of 1% p.a. on defined benefit obligation	**9,680**	7,023
Impact of decrease of 1 % p.a. on defined benefit obligation	**(9,332)**	(6,772)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The average duration of the defined benefit plan obligation at the end of the reporting period is 3 years (March 31, 2019: 3 years).

The following are expected payments over the future years (valued on undiscounted basis):

Gratuity plan:	March 31, 2020	March 31, 2019
Within the next 1 year (next annual reporting period)	**109,791**	**89,067**
Between 2 to 5 years	**221,538**	**159,346**
Between 6 to 10 years	**54,942**	45,263
Beyond 10 years	**10,864**	8,947
Total expected payments	**397,135**	302,623

C. Other employee benefits

Compensated absences are payable to employees at the rate of basic salary for each day of accumulated leave on death or resignation or upon retirement. The charge towards compensated absences for the year ended 31 March 2020 INR 72,865 (March 31, 2019: INR 50,158)

Note 24: Commitments and contingencies

A] Lease commitments

During the year, the adoption of the new standard resulted in recognition of 'Right of Use' asset of and lease liability of Rs 2,720,907. The effect of this adoption is insignificant on profit for the period and earnings per share. IndAS 116 will result in an increase in cash inflows from operating activities and an increase in cash outflows from financing activities on account of lease payments. The weighted average incremental borrowing rate applied to lease liabilities as at 12.45% p.a.

Following are the changes in the carrying value of right of use assets for the year ended March 31, 2020

Particulars	ROU Assets Building	Total
Balance as at April 1, 2019	**–**	**–**
Additions	**2,720,907**	**2,720,907**
Deletions	**–**	–
Balance as at March 31, 2020	**2,720,907**	2,720,907

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR)

The following is the movement in lease liabilities for the year ended March 31, 2020

	March 31, 2020
Balance at the beginning	**–**
Additions	**2,720,907**
Finance cost accrued during the period	**236,441**
Deletions	**–**
Payment of lease liabilities	**(2,079,059)**
Balance at the end	**878,289**

Depreciation on right-of-use assets is as follow

	Year ended March 31, 2020
Depreciation	
Building	**1,917,243**
Total	**1,917,243**

During the year ended March 31, 2020, the Company has paid INR 96,876 (March 31, 2019: INR 483,421) towards short term lease payments. This has been recorded under Rent expense in the statement of profit and loss.

B] Contingent liabilities

	March 31, 2020	March 31, 2019
Claims against the Company not acknowledged as debts	**1,915,000**	1,915,000
Guarantees and counter guarantees given by the Company (disclosed to the extent of outstanding loan balance)	**123,159,793**	91,876,061
	125,074,793	93,791,061

Note:

Claims against the Company pertain to various legal claims filed against the Company by customers/third parties. The Company has contested these claims and the same are pending adjudication at various judicial forums. The timing of any possible cash outflows with regard to the aforesaid matters depends upon the final outcome of the respective litigations and exhaustion of remedies available to the Company under the law and hence the Company is not able to reasonably ascertain the timing of the possible outflow, if any.

Note 25: Income Taxes

The major components of income tax expense for the years ended

	March 31, 2020	March 31, 2019

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR)

	Statement of Profit and Loss	
	March 31, 2020	March 31, 2019
Tax effect of items constituting deferred tax liabilities		
Difference in property, plant and equipment and intangibles as compared to tax base of respective assets	**–**	–
Tax effect of items constituting deferred tax assets		
Provisions (Doubtful debts/Impairment/Advances)	**5,415,592**	(143,821)
Impact of expenditure charged to the statement of profit and loss in the current year but allowed for tax purposes on payment basis	**(27,344)**	11,386
Carry forward Tax Loss		
Unabsorbed depreciation	**35,757,900**	(1,717,191)
Unabsorbed business losses	**22,911,538**	307,718
Difference in WDV of Fixed assets	**841,086**	894,799
Provision for contingencies	**–**	–
Deferred tax (income) / expense	**64,898,772**	(647,109)

The Company has a net deferred tax asset position as at March 31, 2020 and March 31, 2019. However, in terms of Ind AS 12, the Company has not recognised the net deferred tax assets as there is no reasonable certainty supported by convincing evidence that the Company will have adequate taxable profits in the future against which the carried forward tax losses/ unabsorbed depreciation may be offset.

The Company has following carried forward tax losses/unabsorbed depreciation which arose in India that are available for offsetting against future taxable profits.

	March 31, 2020	March 31, 2019
Losses that expire - Carry forward short-term capital losses*	**27,184,158**	27,184,158
Losses that expire - Carry forward business losses*	**1,083,128,336**	1,171,249,636
Losses that never expire - Unabsorbed depreciation	**2,431,281**	139,961,664

*These carry forward losses would expire beginning from the financial year FY 2020-2021 upto FY 2026-2027.

All the related party transaction during the year were in ordinary course of business. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash. The loans receivable and payable are all repayable on demand.

Note 27: Operating Segments Reporting

A. Basis for segmentation

An operating segment is a component of the company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relates to transactions with any of the company other components, and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated to the segments and assess their performance. Operating EBITDA is the Management's measure of the segment results.

The Company has two reportable segments, as described below, which are the Company's strategic business units. These business units offer different services and are managed seperately because they require different technologies and marketing strategies. For each of the business units the CODM reviews internal management reports on monthly basis.

The following summary describes the operations in each of the company reportable segments:

a. **Taxi services (includes taxi aggregator services): Provide taxi services to retail passengers (which includes taxi aggregator services).**

b. **Rent a cab services: Provides employee transportation and rent a cab services to corporate customers.**

B. Information about reportable segments

Information regarding the results of each reportable segments is included below.

Note 28: Earnings per share (EPS)

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the parent by the weighted average number of Equity shares outstanding during the year.

The following reflects the income and share data used in the basic and diluted EPS computations:

	March 31, 2020	March 31, 2019
Profit attributable to equity holders	**8,469,233**	18,488,080
Number of Shares outstanding at the beginning of the year	**13,294**	13,294
Add: Shares issued during the year	**–**	–
Number of Shares outstanding at the end of the year	**13,294**	**13,294**
Weighted average number of Equity shares for basic and diluted EPS	**13,294**	**13,294**
Basic and diluted EPS	**637.07**	**1,390.71**

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2020

(Currency in INR)

Note 29: Based on the contracts with taxi operators under the taxi aggregator services, the Company's revenue is determined as a share of the total passenger revenue of INR 95,302,244 (Previous Year INR 140,668,969) generated by these taxi operators.

Note 30: Subsequent Events

There are no significant subsequent events that would require adjustments or disclosures in the financial statements as on the balance sheet date.

Note 31: Other Matters

The outbreak of coronavirus (COVID 19) pandemic globally is causing a slowdown of economic activity. Measures are being taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered disruptions to business worldwide, resulting in an economic slowdown and uncertainties pertaining to future operations.

The Company has made a detailed assessment of its liquidity position for next one year and the recoverability and carrying value of its assets including Property, Plant and Equipment, Trade receivables as at the Balance sheet date and has concluded that no material adjustments are required in the financial statements. Management believes that it has taken into account all possible impacts of known events arising from COVID 19 pandemic in preparation of these financial statements.

The impact of coronavirus on the business will depend on future developments that cannot be reliably predicted. The impact of global health pandemic, might be different from that estimated as at the date of approval of these financial statements depending on how long the pandemic lasts and time period taken for the economic activities to return to normalcy.

Note 32: Information with the regard to other matters specified in Schedule III to the Act is either Nil or not applicable to the Company for the year ended 31 March 2020.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
V-LINK FLEET SOLUTIONS PRIVATE LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of V-Link Fleet Solutions Private Limited ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Emphasis of matter

We draw your attention to Note 30 to the financial statements for year ended 31 March 2020 which describes the outbreak of Coronavirus (COVID19) on the business operations of the Company. The management believes that no adjustments are required in the financial statements as it does not impact the current financial year. In view of the highly uncertain economic environment, a definitive assessment of the impact on the subsequent periods is highly dependent upon circumstances as they evolve.

Our opinion is not modified in this matter.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design

and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. (A) As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

   c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

   (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company does not have any pending litigations which would impact its financial position;

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

   iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.

   (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

   In our opinion and according to the information and explanations given to us, the Company has not paid any remuneration to its directors during the current year and hence the provisions of Section 197 of the Act are not applicable to the Company.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT – 31 MARCH, 2020

(Referred to in our report of even date)

i (a) The Company has maintained proper records showing full particulars including quantitative details and situation of Property, plant and equipment.

(b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. In our opinion and according to the information and explanations given to us, no material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us and on the basis of our examination of the books of account and records of the Company, the Company does not have any immovable properties. Accordingly, paragraph 3 (i) (c) of the Order is not applicable to the Company.

ii The Company is engaged in the business of employee transportation and operates a fleet of vehicles which are aggregated from third parties and it does not hold any physical inventories. Accordingly, paragraph 3 (ii) of the Order is not applicable to the Company.

iii According to the information and explanations given to us, there was an outstanding balance of Rs 84.41 lakhs on 31 March 2019 given to an erstwhile key management person covered in the register maintained under Section 189 of the Act that was due for repayment on 7 November 2018. During the year this loan has been repaid by the erstwhile key management person along with the interest due till the date of repayment. The Company has not granted any loans secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act.

iv In our opinion and according to the information and explanations given to us, the Company has not granted any loan, given any guarantee, provided any security or made an investment under Section 185 and 186 of the Act. Accordingly, paragraph 3 (iv) of the Order is not applicable to the Company.

v In our opinion, and according to the information and explanations given to us, the Company has not accepted deposits covered under the directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed thereunder. Accordingly, paragraph 3 (v) of the Order is not applicable to the Company.

vi As informed to us, the Central Government has not prescribed the maintenance of cost records under Section 148 (1) of the Act for any of the services rendered by the Company. Accordingly, paragraph 3(vi) of the Order is not applicable to the Company.

vii (a) According to the information and explanations given to us and records of the Company examined by us, in our opinion, the Company is generally regular in depositing the undisputed statutory dues in respect of Income-tax, Provident fund, Employees' State Insurance, Goods and Services tax and professional tax with the appropriate authorities. The provisions relating to Value Added tax, Sales Tax, Duty of Customs duty and Duty of excise is not applicable to the Company.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident fund, Employees' State Insurance, Income tax, Goods and Services tax, and Professional tax were in arrears as at 31 March 2020 for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of Income tax, Sales tax, Value added tax, Service tax, Goods and Services tax, Duty of Customs, Duty of Excise and Cess which have not been deposited with the appropriate authorities on account of any disputes.

viii In our opinion and according to the information and explanations given to us, there is no default in repayment of loan or borrowings to any financial institutions and banks by the Company during the year ended 31 March 2020. The Company did not have any loans or borrowings from debenture holders or government.

ix The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) or term loans during the year. Accordingly, paragraph 3 (ix) of the Order is not applicable to the Company.

x According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.

xi According to the information and explanations given by the management, the Company was not a deemed public company till 4 December 2019 and no managerial remuneration has been paid with effect from 5 December 2019, and accordingly, the provision of clause 3 (xi) of the Order is not applicable to the Company.

xii In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, paragraph 3 (xii) of the Order is not applicable to the Company.

xiii In our opinion and according to the information and explanations given to us, transactions with the related parties are in compliance with Section 188 of the Act. The details of such related party transactions have been disclosed in financial statements as required by the applicable accounting standards. Further, the Company is not required to constitute an Audit Committee under Section 177 of the Act, and accordingly, to this extent, the provision of clause 3 (xiii) of the Order is not applicable to the Company.

xiv According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, paragraph 3 (xiv) of the Order is not applicable to the Company.

xv According to the information and explanations given to us, the Company has not entered into any non-cash transactions with directors or persons connected with them. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company.

xvi According to the information and explanations given to us and based on our examination of the records of the Company, the Company is not required to be registered under Section 45 IA of the Reserve Bank of India Act, 1934. Accordingly, paragraph 3(xvi) of the Order is not applicable to the Company.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph (2) (A) (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of V-Link Fleet Solutions Private Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

1. Company information

V-Link Fleet Solutions Private Limited ('the Company') is registered as a private limited company domiciled in India having its registered office at F-17, 4th Floor, Pinnacle Business Park, Shanti Nagar, Mahakali Caves Road, Andheri (East), Mumbai 400 093, India. The Company is a deemed public company as per definition of the Companies Act with effect from 5 December 2019. The Company is mainly engaged in the business of employee transportation and operates a fleet of vehicles which are aggregated from third parties.

These financial statements were authorized for issue in accordance with a Board resolution of May 14, 2020.

2. Significant accounting policies

(a) Basis of preparation:

These financial statements of the Company have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate Affairs under Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time and other relevant provisions of the Act.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements.

(b) Functional and presentation currency:

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency.

(c) Basis of measurement:

The financial statements have been prepared on the historical cost basis except for following assets and liabilities and measured at fair value:

- certain financial instruments which are measured at fair value (refer accounting policy 2(n))
- Defined benefit plans. (Note 26)

2.1 Summary of significant accounting policies

a) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met.

An item of property, plant and equipment is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains and losses arising from de-recognition of assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is de-recognised.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part have a cost which is significant to the total cost of the asset having useful life that is materially different from that of the remaining asset. These components are depreciated over their useful lives; the remaining asset is depreciated over the life of the principal asset. Such cost includes the cost of replacing parts of the property, plant and equipment if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the Company recognizes such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

Subsequent expenditure is capitalized if an only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Depreciation on Property, plant and equipment

Depreciation is calculated on a Straight-Line basis using the rates arrived at based on the useful life of the assets estimated by the management. The estimated useful life considered for depreciation of property, plant and equipment is as follows:

Asset description	Useful lives estimated by management (in years)
Computers and peripherals	3
Vehicles	4 – 5
Furniture and fittings	5
Office equipment	3
Leasehold Improvements	Over the period of lease or useful life of the asset, whichever is lower

Except Computers and peripherals, useful lives of above property, plant and equipment are different from those prescribed under schedule II. These lives are based on estimates supported by internal technical evaluation.

b) Intangible assets and amortisation

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over their useful economic lives and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss in the expense category consistent with the function of the intangible assets.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

Software:

ERP software is amortised using the straight-line method over a period of 5 years and other software are amortised using the straight-line method over a period of 3 years or contractual life, whichever is lower.

The residual values, useful lives and methods of amortisation of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

c) Impairment of Property, plant and equipment and intangible assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available.

If no such transactions can be identified, an appropriate valuation model is used. Impairment losses are recognised in the statement of profit and loss. After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

d) Leases

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Where the Company is lessee:

The Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract and allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term at the lease commencement date. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-ofuse assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

Where the Company is Lessor:

At the inception of the lease the Company classifies each of its leases as either an operating lease or a finance lease. The Company recognizes lease payments received under operating leases as income on a straight- line basis over the lease term. In case of a finance lease, finance income is recognized over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Company applies the exemption described above, then it classifies the sub-lease as an operating lease. If an arrangement contains lease and non-lease components, the Company applies Ind AS 115 Revenue from contracts with customers to allocate the consideration in the contract.

Transition to Ind AS 116

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees.

The Company has applied Ind AS 116 initially on April 1, 2019, using the modified retrospective approach. Therefore, the cumulative effect of adopting Ind AS 116 is being recognized as an adjustment to the opening balance of retained earnings at April 1, 2019, with no restatement of comparative information. The Company has applied Ind AS 116 to all contracts entered into before April 1, 2019 and identified as leases in accordance with Ind AS 17.

e) Borrowing costs

Borrowing costs include interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings. Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes as substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.

f) Revenue recognition

Effective April 1, 2018, the Company adopted Ind AS 115 "Revenue from Contracts with Customers" using the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. The effect on adoption of Ind AS 115 was insignificant.

The Revenue is recognised when a customer obtains control of the goods or services. Determining the timing of the transfer of control – at a point in time or over time requires judgement.

Revenue includes only the gross inflows of economic benefits. It is measured based on the consideration specified in the contracts with customers. Amounts collected on behalf of third parties such as goods and services taxes and value added taxes are not economic benefits which flow to the entity and do not result in increases in equity. Therefore, they are excluded from revenue.

The Company assesses its revenue arrangements to determine if it is acting as principal or agent. The Company has concluded that it is acting as an agent in case of its revenue from taxi aggregator services arrangements.

The following specific recognition criteria must also be met before revenue is recognized.

Income from services:

i. Revenue from employee transportation

Revenue from employee transportation represents revenue earned from providing taxi services to corporates for employee transportation. Revenue is measured as per the contractual terms and recognised as and when the service is rendered as per contract terms.

In respect of corporate customers, the Company credit period offered generally ranged from 30 days to 90 days.

Interest income:

For all financial assets measured at amortised cost, interest income is recorded using the effective interest rate (EIR). The EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset. Interest income is included in finance income in the statement of profit and loss.

g) Foreign currencies

i. Transactions - Initial recognition

Transactions in foreign currencies are initially recorded by the Company at the functional currency spot rate at the date the transaction first qualifies for recognition.

ii. Balances

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date. Differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Non-monetary items which are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of initial transaction. Non-monetary items, which are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of gain or loss on change in fair value in the item (i.e., the translation differences on items whose fair value gain or loss is recognised in OCI or statement of profit and loss are also recognised in OCI or statement of profit and loss, respectively).

h) Retirement and other employee benefits

i. Provident fund and ESIC

Retirement benefit in the form of provident fund and ESIC are defined contribution schemes. The Company has no obligation, other than the contribution payable to these schemes. The Company recognises contribution paid / payable during the year to these schemes in the statement of profit and loss.

ii. Gratuity

The Company operates a defined benefit gratuity plan for its employees. This benefit is unfunded. The cost of providing benefits under the defined benefit plans is determined by independent actuaries using the projected unit credit method. Re-measurements, comprising of actuarial gains and losses, are recognised immediately in the statement of financial position with a corresponding debit or credit to retained earnings through OCI in the period in which they occur and are not reclassified to profit or loss in subsequent periods.

iii. Compensated Absences

The liability towards Long term compensated absences is determined by independent actuaries using the projected unit credit method. Re-measurements, comprising of actuarial gains and losses, are recognized immediately in the statement of financial position with a corresponding debit or credit to Statement of profit and loss in the period in which they occur.

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond 12 months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year end.

i) Income taxes

Tax expense comprises of current and deferred tax.

Current income tax

Current income tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit and loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

j) Earnings per share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of equity shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

k) Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event; it is

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

l) Contingent liability

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non- occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources would be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

m) Cash and cash equivalents

Cash and cash equivalents in the statement of financial position comprise cash at banks and on hand and short-term deposits with a maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

n) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

<u>Initial recognition and measurement</u>

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

<u>Subsequent measurement</u>

For purposes of subsequent measurement, financial assets are classified as measured at:

- Amortised cost
- Fair value through other comprehensive income (FVTOCI) – debt investment
- Fair value through other comprehensive income (FVTOCI) – equity investment
- Fair value through profit or loss (FVTPL)

<u>Financial assets at amortised cost</u>

A financial asset is measured at amortised cost if both the following conditions are met:

i. The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and

ii. Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in profit or loss. The losses arising from impairment are recognised in profit or loss. This category generally applies to trade and other receivables.

<u>Debt instrument at FVTOCI</u>

A debt instrument is classified as at the FVTOCI if both of the following criteria are met:

i. The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and

ii. The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in profit or loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

<u>Equity investments at FVTOCI</u>

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVTOCI – equity investment). This election is made on an investment by investment basis.

<u>Fair value through profit or loss (FVTPL)</u>

FVTPL is a residual category for financial assets. All financial assets not classified as measured at amortised cost of FVTOCI, as described above are classifed as at FVTPL. This includes all derivative financial assets. In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Financial assets included within the FVTPL category are measured at fair value with all changes recognized in profit or loss.

De-recognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets:

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

a) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115.

b) Other financial assets such as deposits, other receivables etc.

The company follows 'simplified approach' for recognition of impairment loss allowance for Trade receivables. The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the P&L.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis and considers historical experience, credit assessments and forward looking information.

Financial liabilities

<u>Initial recognition and measurement</u>

Financial liabilities are classified, at initial recognition, as financial liabilities at amortised cost or FVTPL.

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities not at FVTPL, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables and loans and borrowings including bank overdrafts.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on financial liabilities at FVTLP including interest expense are recognised in the profit or loss.

Other financial liabilities

Financial liabilities other that FVTPL instruments are subsequently measured at amortised cost using effective interest method. Interest expense and foreign exchanges gains or losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

De-recognition:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

o) Current versus non-current classification:

The Company presents assets and liabilities in the statement of financial position based on current/non-current classification. An asset is current when it is:

- Expected to be realised or intended to sold or consumed in the normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period

Or

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period

Or

- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current. Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

p) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability

Or

In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

At each reporting date, the Management analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

q) Recent Indian Accounting standard (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2020.

r) Measurement of EBITDA

The Company has elected to present earnings before interest, tax, depreciation and amortization (EBITDA) as a separate line item on the face of the statement of profit and loss. The Company measures EBITDA on the basis of profit / (loss) from continuing operations. In its measurement, the company does not include depreciation and amortization expense, interest income, finance costs and tax expense. Any amount described as unusual or exceptional is classified by nature, in the same way as non-exceptional amounts. Their inclusion or exclusion in EBIDTA will depend on the nature of income/ expense described as exceptional. Impairment loss / reversal on property plant and equipment is disclosed under Depreciation, amortisation and impairment expenses, and not considered for calculation of EBIDTA.

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of income, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of asset or liability affected in future periods. The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur. Following are the significant accounting judgements, estimates and assumptions:

2.2 Significant accounting judgements, estimates and assumptions

I. Useful lives of intangibles and property, plant and equipment:

The Company reviews the useful life and residual value of property, plant and equipment and intangible assets at the end of each reporting period. This re-assessment may result in change in depreciation and amortisation in future periods.

II. Defined benefit plans

The cost of the defined benefit plans and the present value of the defined benefit obligation are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

III. Impairment of non-financial assets

The Company performs impairment testing for intangible assets and property, plant and equipment where there are indicators of impairment. If such an indicator exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. The recoverable amount is the higher of value in use and fair value less costs of disposal. If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the Company's Statement of profit and loss. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of the recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately as a credit to the Company's Statement of profit and loss.

Note 5a: Loans

The Company had granted a loan amounting to INR 5,000,000 on November 08, 2013 to the erstwhile Managing Director of the Company who was also the Director of the Holding Company, under the scheme for granting of loan to a Managing Director or Whole Time Director. As per the scheme, the loan was repayable along with interest after a period of 5 years. Subsequently, the concerned person vacated the post of the Managing Director but continues to be the Director of the Holding Company and also the employee of the Company. As at March 31, 2019 the total amount of loan outstanding amounts to INR 8,441,979 including accrued interest of INR 3,441,979.

During the current year, the Company has recovered the loan along with the accrued interest.

At the beginning of the year	12,050	120,500	12,050	120,500
Issued during the year	–	–	–	–
Outstanding at the end of the year	12,050	120,500	12,050	120,500

b) Terms/rights attached to equity shares

The Company has only one class of equity shares having par value of Rs. 10 per share. Each holder of equity shares is entitled to one vote per share. No dividend has been declared during the year ended March 31, 2020 (March 31, 2019: Nil). No dividend has been proposed for the year ended 31 March 2020.

In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

c) Shares held by holding company

Out of the equity shares issued by the Company, shares held by its holding company are as below:

	As at March 31, 2020	As at March 31, 2019
Meru Travel Solutions Private Limited, the holding company (including nominees)		
No of shares	12,050	12,050
Amount	120,500	120,500

d) Details of shareholders holding more than 5% shares in the company

	As at March 31, 2020		As at March 31, 2019	
	No.	% holding	No.	% holding
Equity shares of Rs. 10 each fully paid				
Meru Travel Solutions Private Limited, the holding company (including nominees)	12,050	100%	12,050	100%

As per records of the Company, including its register of shareholders / members, the above shareholding represents legal and beneficial ownership of shares.

Note 13: Borrowings

	As at March 31, 2020	As at March 31, 2019
Non-current		
(a) Term Loans-Secured		
(i) Vehicle loans from bank	244,904	1,671,660
(ii) Vehicle loan from NBFC	61,017	871,712
Total Non-Current borrowings	305,921	2,543,372
Current maturities of long-term borrowings		
(a) Term Loans-Secured:		
(i) Vehicle loan from bank *	1,426,755	2,439,850
(ii) Vehicle loan from NBFC *	229,554	623,693

Note 25: Financial instruments

A] Accounting classification of financial instruments

The following table summarises the accounting classification and carrying amounts (net off any provision for impairment) of financial instruments.

		Carrying value	
Particulars	**Notes**	**March 31, 2020**	March 31, 2019
Financial assets measured at amortized cost			
Security Deposits	5	**425,800**	1,139,800
Loans to related parties	5	–	5,000,000
Receivables towards assets given on finance lease	6	**1,472,219**	5,780,077
Loans to employees	5	**122,940**	80,584
Interest accrued on loan to related party (Refer Note 29)	6	–	3,441,979
Recoverable from employees	6	**299,106**	670,003
Trade receivables	9	**35,763,438**	77,115,304
Cash and cash equivalents	10	**12,835,091**	83,721
Total Financial Asset measured at amortized cost		**50,918,594**	93,311,468

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

(Currency in INR)

Particulars	Notes	Carrying value **March 31, 2020**	 March 31, 2019
Financial liabilities measured at amortized cost			
Borrowings	12, 14, 16	**170,822,101**	158,830,796
Employee benefits payable	17	**191,873**	418,846
Trade payables	16	**22,600,271**	60,834,168
Interest accrued but not due on borrowings	17	**9,723**	31,404
Total Financial liability measured at amortized cost		**193,623,969**	220,115,214

B] Fair Value Measurement

The management assessed that cash and cash equivalents, trade receivables, trade payables and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

There were no transfers between level 1, 2 and 3 for recurring fair value measurements during each of the reporting period. The company's policy is to recognise transfers into and transfer out of fair value hierarchy levels at the end of the reporting period.

C] Financial risk management objectives and policies

The Company has exposure to the following risks arising from its financial instruments:

– Market risk - interest rate risk

– Credit risk

– Liquidity risk

The Company's senior management is responsible for the management of these risks with oversight of the Company's Board of Directors.

i] Market risk - interest risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any exposure to interest rate risks since its borrowings are all in fixed rate instruments and there is no investments that is exposed to interest rates.

The interest rate profile of the Company's interest-bearing financial instruments is as follows:

	As at March 31, 2020	As at March 31, 2019
Fixed-rate instruments		
Financial assets	–	5,000,000
Financial liabilities	**(1,962,230)**	(5,606,915)
Total	**(1,962,230)**	(606,915)
Variable-rate instruments		
Financial liabilities	–	(68,335,041)
Total	–	(68,335,041)

Interest rate sensitivity

The following table demonstrates the sensitivity of the Company's variable-rate financial instruments based on reasonably possible change in interest rates assuming all other variables to be constant.

	Increase/ (decrease) in basis points	**Effect on profit before tax**
March 31, 2020	**0.5%**	–
March 31, 2020	**-0.5%**	–
March 31, 2019	0.5%	(341,675)
March 31, 2019	-0.5%	341,675

ii] Credit risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables), inter corporate deposits, cash deposits and other financial instruments.

Trade receivables from customers

Credit risk relating to customers is managed in accordance with the Company's established policy, procedures and controls relating to customer credit risk management. Trade receivables are non-interest bearing. Outstanding customer receivables are regularly monitored. For the purpose of measuring impairment allowance for trade receivables from customers, the Company estimates irrecoverable amounts based on the ageing of the outstanding receivables, its historical experience and its expectation of credit losses in the future.

	March 31, 2020	March 31, 2019
Gross Trade receivables from customers	**49,645,878**	94,427,438
Less: Provision for doubtful receivables	**(13,882,440)**	(17,312,134)
Net Trade receivables from customers	**35,763,438**	77,115,304
Ageing of gross trade receivables relating to customers:		
Within 6 months	**35,763,438**	77,115,303
More than 6 months	**13,882,440**	17,312,134
	49,645,878	94,427,437

Other financial assets

Financial assets other than trade receivables are neither past due nor impaired. Management believes that the amounts are collectible in full, based on its assessment including considering the historical payment behavior and future expectations.

iii] Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company's principal sources of liquidity are cash flows generated from its operations.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

(Currency in INR)

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

		Undiscounted amount

Interest accrued but not due on borrowings	31,404	31,404	–	–	–	31,404
	220,115,214	217,902,703	2,242,401	445,527	–	220,590,631

D] Capital management

For the purpose of the Company's capital management, capital includes issued equity capital, securities premium and all other equity reserves attributable to the equity holders of the parent. The primary objective of the company capital management is to maximize the shareholder's value.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the company may issue new shares. The Company manages its capital, considering the net debt position and rolling cash flow forecasts as at each period end and identifies need for additional funding from the share holders to meet the outstanding commitments and future cash flow requirements to meet the future business plans. The Company includes within net debt, interest bearing loans and borrowings less cash and cash equivalents, trade receivables and unbilled revenue.

Particulars	**March 31, 2020**	March 31, 2019
Borrowings	**170,822,101**	158,830,796
Less: Cash and Cash Equivalent (Including Trade receivables less Trade payable)	**25,998,258**	16,364,857
Net Debt	**144,823,843**	142,465,939

Note 26: Employee benefits

A. Defined contribution plans

The Company makes contributions determined as a specified percentage of employees' salary in respect of qualifying employees towards Provident Fund and Employees' State Insurance (ESI) which are defined contribution plans. The Company has no obligations other than to make the specified contributions. The contributions are charged to statement of profit and loss as they accrue. The Company has recognised the following amount as an expense and included in the Note 21 under the head "Contribution to provident fund".

Particulars	**Year ended March 31, 2020**	Year ended March 31, 2019
Contribution to employees provident fund	**1,211,777**	1,500,283
Contribution to ESI	**175,799**	360,580
Total	**1,387,576**	1,860,863

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

(Currency in INR)

B. Defined benefit plans

The Company operates one post-employment defined benefit plan (unfunded plan) that provides gratuity. The gratuity plan is governed by the Payment of Gratuity Act, 1972. The gratuity plan entitles an employee, who has rendered at least five years of continuous service, to receive one-half month's salary for each year of completed service at the time of retirement.

i) Liability recognised in the Balance Sheet in respect of Gratuity

	As at March 31, 2020	As at March 31, 2019
Present value of the defined benefit obligation at the end of the year	**950,477**	2,790,908
Total	**950,477**	2,790,908

ii) Changes in the present value of the defined benefit obligation are as follows :

	Year ended March 31, 2020	Year ended March 31, 2019
Defined benefit obligation at beginning of the year	**2,790,908**	2,121,546
Current service cost	**220,447**	221,935
Interest cost	**270,688**	148,403
Past Service cost	–	–
Sub-total included in statement of profit and loss	**491,135**	370,338
Remeasurement losses \ (gains) recorded in OCI		
Actuarial changes arising from changes in demographic assumptions	**(7)**	–
Actuarial changes arising from changes in financial assumptions	**42,235**	29,185
Experience adjustments	**(580,032)**	1,436,791
Sub-total included in OCI	**(537,804)**	1,465,976
Transfer of liability to fellow subsidiary	**(1,746,505)**	–
Benefits paid	**(47,257)**	(1,166,952)
Defined benefit obligation at the end of the year	**950,477**	2,790,908

iii) Following table summarises the principal assumptions used for actuarial valuation of gratuity obligations for each reporting period:

Actuarial assumptions	**Year ended March 31, 2020**	Year ended March 31, 2019
Discount rate	**5.15%**	6.60%
Future salary increases	**8.00%**	8.00%
Attrition	**35.00%**	35.00%

The estimates of future salary increases, considered in actuarial valuation, take account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

Demographic Assumptions :

Mortality in Service: Indian Assured Lives Mortality 2012-14 [March 31, 2019: Indian Assured Lives Mortality 2006-08]

Mortality in Retirement : 58 Years

A quantitative sensitivity analysis for significant assumption as at each reporting date is as shown below:

	Discount rate assumption	
Gratuity plan:	**Year ended March 31, 2020**	Year ended March 31, 2019
Impact of increase of 1% p.a. on defined benefit obligation	**(29,523)**	(71,798)
Impact of decrease of 1 % p.a. on defined benefit obligation	**31,348**	75,634

	Future salary increase assumption	
Gratuity plan:	**Year ended March 31, 2020**	Year ended March 31, 2019
Impact of increase of 1% p.a. on defined benefit obligation	**30,208**	33,708
Impact of decrease of 1 % p.a. on defined benefit obligation	**(29,027)**	(32,432)

The sensitivity analyses above have been determined based on a method that extrapolates the impact on defined benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

The average duration of the defined benefit plan obligation at the end of the reporting period is 3 years (March 31, 2019: 3 years).

The following are expected contributions over the future years (valued on undiscounted basis):

	Year ended March 31, 2020	Year ended March 31, 2019
Within the next 1 year (next annual reporting period)	**264,865**	1,051,731
Between 2 to 5 years	**637,157**	1,816,902
Between 6 to 10 years	**194,761**	437,904
Beyond 10 years	**38,699**	70,952
Total expected payments	**1,135,482**	3,377,489

C. Other employee benefits

Compensated absences are payable to employees at the rate of basic salary for each day of accumulated leave on death or resignation or upon retirement. The charge towards compensated absences for the year ended 31 March 2020 Rs 765,229 (March 31, 2019: Rs 979,163).

Terms and conditions of transactions with related parties

All the related party transaction during the year were in ordinary course of business. Outstanding balances at the year-end are unsecured and interest free and settlement occurs in cash. The outstanding loans payable are repayable on demand. The Group has not recorded any impairment of receivables relating to amounts owed by related parties as at each reporting period. This assessment is undertaken each financial year through examining the financial position of the related party and the market in which the related party operates.

Note 30:

The outbreak of coronavirus (COVID 19) pandemic globally is causing a slowdown of economic activity. Measures are being taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered disruptions to business worldwide, resulting in an economic slowdown and uncertainties pertaining to future operations.

The Company has made a detailed assessment of its liquidity position for next one year and the recoverability and carrying value of its assets including Property, Plant and Equipment, Trade receivables as at Balance sheet date and has concluded that no material adjustments are required in the financial statements. Management believes that it has taken into account all possible impacts of known events arising from COVID 19 pandemic in preparation of these financial statements.

The impact of coronavirus on the business will depend on future developments that cannot be reliably predicted. The impact of global health pandemic, might be different from that estimated as at the date of approval of these financial statements depending on how long the pandemic lasts and time period taken for the economic activities to return to normalcy.

Note 31: Segment reporting

In accordance with the requirements of Indian Accounting Standard 108 – “Operating Segments”, the Company has determined that it operates only in one operating segment i.e. provision of transportation services. Thus, the financial statements reflect the results of only one operating segment. The Company’s operations are based only in India.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

(Currency in INR)

Note 32: Earnings per share

Basic EPS amounts are calculated by dividing the profit for the year attributable to equity holders of the parent by the weighted average number of Equity shares outstanding during the year.

The following reflects the income and share data used in the basic and diluted EPS computations:

	March 31, 2020	March 31, 2019
Loss attributable to equity holders	**(28,095,883)**	(26,090,621)
Number of Shares outstanding at the beginning of the year	**12,050**	12,050
Add: Shares issued during the year	–	–
Number of Shares outstanding at the end of the year	**12,050**	
Weighted average number of Equity shares for basic EPS	**12,050**	12,050
Basic and diluted EPS calculations	**(2,331.61)**	(2,165.20)

Note 33: As at March 31, 2020, the Company has accumulated losses of INR 161,999,860 (March 31, 2019: INR 134,441,781) and a negative net worth of INR 120,811,936 (March 31, 2019 INR 93,253,857). The shareholder of the Company, Meru Travel Solutions Private Limited ('MTSPL') and a fellow subsidiary, Meru Mobility Tech Private Limited, have committed to provide continuing financial and/or operational support to the Company for its continued operations for the foreseeable future.

In view of the foregoing, the going concern assumption has been considered appropriate in preparing these financial statements.

Note 34: There are no significant subsequent events that would require adjustments or disclosures in the financial statements as on the balance sheet date.

Note 35: Information with the regard to other matters specified in Schedule III to the Act is either Nil or not applicable to the Company for the year ended 31 March 2020.

INDEPENDENT AUDITORS' REPORT

TO THE MEMBERS OF
FIFTH GEAR VENTURES LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Fifth Gear Ventures Limited ("the Company"), which comprise the Balance Sheet as at 31 March 2020, and the Statement of Profit and Loss (including Other comprehensive income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (together referred to as "the financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2020, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's board report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Director's Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   c) The Balance Sheet, the Statement of Profit and Loss (including Other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.
   e) On the basis of the written representations received from the directors as on 31 March 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2020 from being appointed as a director in terms of Section 164(2) of the Act.
   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

   (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
   i. The Company does not have any pending litigation as on 31 March 2020 which could impact its financial position.
   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses
   iii. The Company does not have any dues on account of Investor Education and Protection Fund.
   iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2020.

   (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

   According to the information and explanation given to us, the Company has not paid any managerial remuneration during the current year and accordingly the requirement as stipulated by the provisions of Section 197(16) of the act are not applicable to the Company.

Annexure A referred to in our Independent Auditor's Report of even date to the members of Fifth Gear Ventures Limited on the financial statements for the year ended 31 March 2020.

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified once in three years. In accordance with this programme, certain fixed assets were verified during the year. As informed to us the discrepancies noticed on such verification were not material and have been properly dealt with in the books of accounts. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.

(c) According to the information and explanations given to us, the Company does not hold any immovable property in its name. Accordingly, paragraph 3(i)(c) of the Order is not applicable to the Company.

(ii) According to the information and explanations given to us, the Company does not hold any physical inventory. Accordingly, paragraph 3(ii) of the Order is not applicable.

(iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of paragraph 3 (iii) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us, the Company has not entered into any transaction related to any loans, investments, guarantees, and securities to which the provisions of section 185 and 186 of the Companies Act, 2013 are applicable. Accordingly, the provisions of paragraph 3 (iv) of the Order are not applicable to the Company.

(v) As per the information and explanations given to us, the Company has not accepted any deposits as mentioned in the directives issued by the Reserve Bank of India and the provisions of section 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules framed there under. Accordingly, paragraph 3(v) of the Order is not applicable.

(vi) According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under sub-section (1) of section 148 of the Companies Act, 2013, for any of the services rendered by the Company. Accordingly, paragraph 3(vi) of the Order is not applicable.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, income-tax, goods and services tax, cess and other statutory dues have generally been regularly deposited by the Company with the appropriate authorities. As explained to us, the Company did not have any dues on account of duty of customs and employees' state insurance.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, income-tax, goods and services tax, cess and other statutory dues were in arrears as at 31 March 2020, for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of income tax and goods and services tax which have not been deposited with the appropriate authorities on account of any dispute. The company did not have any dues in respect of duty of customs.

(viii) According to the information and explanations given to us, the Company did not have any outstanding dues to any financial institutions, government or debenture holders during the year. Accordingly, paragraph 3 (viii) of the Order is not applicable.

(ix) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. Accordingly, paragraph 3 (ix) of the Order is not applicable.

(x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.

(xi) According to information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not paid any managerial remuneration as stipulated under the provisions of Section 197 of the Companies Act, 2013. Accordingly, paragraph 3(xi) of the Order is not applicable.

(xii) According to the information and explanations given to us, the Company is not a nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.

(xiii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, transactions with the related parties are in compliance with Section 177 and 188 of the Act, where applicable and the details of such transactions have been disclosed in the financial statements, as required by the applicable accounting standards.

(xiv) According to the information and explanation given to us and on the basis of our examination of the records of the Company, the Company has made preferential allotment or private placement of equity shares during the period in accordance with the requirements of section 42 of the Act and the amount raised have been used for the purpose for which the funds were raised.

(xv) According to the information and explanations given to us, the Company has not entered into any non-cash transactions with directors or persons connected with him covered by Section 192 of the Act. Accordingly, paragraph 3(xv) of the Order is not applicable.

(xvi) According to the information and explanations given to us, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934.

Annexure B to the Independent Auditor's report on the financial statements of Fifth Gear Ventures Limited for the year ended 31 March 2020

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Fifth Gear Ventures Limited ("the Company") as of 31 March 2020 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2020, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Reporting entity

Fifth Gear Ventures Limited (the Company) is a public limited company incorporated in India on 1 September 2015, under the provisions of the Companies Act, 2013 with its registered office situated in New Delhi.

The Company maintains and operates carandbike.com, an e-commerce marketplace platform, which keeps its users updated with the latest information and reviews from the global automotive industry. Besides making online booking of new cars and bikes under marketplace model, the users can buy and sell used cars.

In January 2020, the Company and its beneficiary shareholders have entered into an agreement ("share purchase agreement") dated 17 January 2020 for sale of entire stake held by the beneficiary shareholders to Mahindra First Choice Wheels Limited ("the purchaser") for a total consideration of INR 304.5 million. The details of the beneficiary shareholders are as below;

1. New Delhi Television Limited
2. NDTV Convergence Limited
3. Autobyte Private Limited
4. Praveen Venkatraman Loganathan
5. Hirokazu Mashita
6. Ashley Menezes
7. Pramod Bhasin
8. Manvinder Singh Banga
9. Arun Uppuswamy

Note 1. Basis of preparation

a. Statement of compliance

These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as notified by Ministry of Corporate Affairs Pursuant to section 133 of the Companies Act, 2013 ("Act") read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act.

The Company has incurred losses in current and previous year and has a negative net worth as at 31 March 2020. The current liabilities exceed the current assets by INR 25,069,354 as at 31 March 2020. The Company has been acquired by Mahindra First Choice Wheels Limited ("the Holding Company") and based on the current business plan and projections prepared by the management and approved by the Board of directors of the Company, operational profits are expected in the subsequent year. The Holding Company has also provided an undertaking to the Company, for providing financial and other support as is necessary, for the next twelve months to enable the Company to continue its operations and to meet its financial obligations. In view of the above, the use of going concern assumption has been considered appropriate in the preparation of these financial statements and assets and liabilities have been recorded on the basis that the entity will be able to realize its assets and discharge its liabilities in the normal course of business.

The financial statements were authorized for issue by the Company's Board of Directors on 9 May 2020

b. Functional and presentation currency

The financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest rupee, unless otherwise indicated.

c. Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items:

Items	Measurement basis
Certain Financial assets	Fair value

d. Use of estimates and judgements

In preparing the financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

(i) <u>Judgements:</u>

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management exercises judgement in applying the Company's accounting policies.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

(ii) <u>Assumptions and estimation uncertainties:</u>

The areas involving critical estimates are:

- Recognition and measurement of provisions and contingencies;
- Estimation of defined benefit obligation;
- Estimated useful life of intangible assets;
- Impairment test of non-financial assets; and
- Impairment of trade receivables and other financial assets.

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

e. Current versus non-current classification:

The Company presents assets and liabilities in the Balance Sheet based on the current / non current classification.

An asset is treated as current when:

- It is expected to be realized or intended to be sold or consumed in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is expected to be realized within twelve months after the reporting period; or
- It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Current assets include the current portion of non-current financial assets. The Company classifies all other assets as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Current liabilities include current portion of non-current financial liabilities. The Company classifies all other liabilities as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle for the purpose of current / non-current classification of assets and liabilities.

f. Measurement of fair values

A number of accounting policies and disclosures require the measurement of fair values for both financial and non-financial assets and liabilities.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

The Company has an established control framework with respect to the measurement of fair values. This includes a finance team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the Chief Financial Officer.

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognize transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further the information about the assumptions made in measuring fair values is included in the note on financial instruments.

Note 2. Significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of standalone financial statements. The accounting policies adopted are consistent with those of the previous financial year, except if mention otherwise.

a. Foreign currency

Foreign currency transactions:

Transactions in foreign currencies are translated into the functional currency of Company at the exchange rate at the dates of the transactions or an average rate if the average rate approximates the actual rate at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognized in profit or loss.

b. Financial instruments

Financial instrument is any contract that gives rise to a financial asset of the entity and a financial liability or equity instrument of another entity.

(i) <u>Recognition and initial measurement:</u>

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

(ii) <u>Classification and subsequent measurement:</u>

Financial assets

On initial recognition, a financial asset is classified as measured at:

- amortized cost;
- FVOCI – fair value through other comprehensive income
- FVOCI – debt investment;
- FVOCI – equity investment;
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

– the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and

– the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI, if it meets both of the following conditions and is not designated as at FVTPL:

– the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and

– the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment by investment basis.

All financial assets not classified as measured at amortized cost or fair value through other comprehensive income (FVOCI) are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses, if any. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is also recognized in the profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income under the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are not reclassified to profit or loss.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

(iii) Derecognition:

Financial assets

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognized on its Balance Sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognized.

Financial liabilities

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognizes a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognized at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognized in the profit or loss.

(iv) Offsetting:

Financial assets and financial liabilities are offset and the net amount presented in the Balance Sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

c. Property, plant and equipment

(i) Recognition and measurement:

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and accumulated impairment losses, if any.

Cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use and estimated costs of dismantling and removing the item and restoring the site on which it is located.

The cost of a self-constructed item of property, plant and equipment comprises the cost of materials and direct labour, any other costs directly attributable to bringing the item to working condition for its intended use, and estimated costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure:

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iii) Depreciation:

Depreciation is calculated on cost of items of property, plant and equipment less their estimated residual values over their estimated useful lives using the straight-line method, and is generally recognized in the Statement of Profit and Loss.

The useful lives as estimated for tangible assets are in accordance with the useful lives as indicated in Schedule II of the Companies Act, 2013 except for the following classes of assets where different useful lives have been used:

Asset Class	Useful life (in years)
Computers	5
Office equipments	3
Furniture and fixtures	8

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate. Based on technical evaluation and consequent advice, the management believes that its estimates of useful lives as given above best represent the period over which management expects to use these assets.

Depreciation on additions (disposals) is provided on a pro-rata basis i.e. from (upto) the date on which asset is ready for use (disposed of).

d. Intangible assets

(i) Recognition and measurement:

Intangible assets including those acquired by the Company in a business combination are initially measured at cost. Such intangible assets are subsequently measured at cost less accumulated amortization and any accumulated impairment losses.

(ii) Subsequent expenditure:

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in profit or loss as incurred.

(iii) Amortization:

Amortization is calculated to write off the cost of intangible assets less their estimated residual values over their estimated useful lives using the straight-line method, and is included in depreciation and amortization in the Statement of Profit and Loss.

The estimated useful lives are as follows:

Asset Class	Useful life (in years)
Computer Software	6
Website	6
Trade Mark	3
Copy Rights	3

Amortization method, useful lives and residual values are reviewed at the end of each financial year and adjusted if appropriate.

e. Impairment

(i) Impairment of financial instruments

The Company recognizes loss allowances for expected credit losses on:

- financial assets measured at amortized cost; and
- financial assets measured at FVOCI.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

At each reporting date, the Company assesses whether financial assets carried at amortized cost are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being past due for 180 days or more;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a security because of financial difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for trade receivables are measured at an amount at least equal to the lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

Measurement of expected credit

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the Balance Sheet:

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets.

Write-off:

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

(ii) Impairment of non-financial assets

The Company's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

The Company's corporate assets (e.g., central office building for providing support to various CGUs) do not generate independent cash inflows. To determine impairment of a corporate asset, recoverable amount is determined for the CGUs to which the corporate asset belongs.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognized in the Statement of Profit and Loss. Impairment loss recognized in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets of the CGU (or group of CGUs) on a pro rata basis.

In respect of assets for which impairment loss has been recognized in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

f. Employee benefits

(i) Short-term employee benefits:

Short-term employee benefit obligations are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognized for the amount expected to be paid e.g., under short-term cash bonus, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the amount of obligation can be estimated reliably.

(ii) Defined contribution plan:

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. The Company makes specified monthly contributions towards government administered provident fund scheme. Obligations for contributions to defined contribution plans are recognized as an employee benefit expense in profit or loss in the periods during which the related services are rendered by employees.

(iii) Defined benefit plan:

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount.

The calculation of defined benefit obligation is performed annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, are recognized in OCI. The Company determines the net interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability , taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

expense and other expenses related to defined benefit plans are recognized in the profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service ('past service cost' or 'past service gain') or the gain or loss on curtailment is recognized immediately in profit or loss. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iv) Termination benefits:

Termination benefits are expensed at the earlier of when the Company can no longer withdraw the offer of those benefits and when the Company recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

(v) Employee share based payments:

The grant date fair value of equity settled share-based payment awards granted to employees is recognized as an employee benefits expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognized as expense is based on the estimate of the number of awards for which the related service conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that do meet the related service and non-market vesting conditions at the vesting date.

g. Provisions

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost. Expected future operating losses are not provided for.

h. Revenue from contracts with customers - Policy applicable from 1 April 2018:

The Company has adopted Ind AS 115 "Revenue from Contracts with Customers" from 1 April 2018 which resulted in changes in accounting policies. Ind AS 115 replaces Ind AS 18-"Revenue" and Ind AS-11 "Construction Contracts". The standard is applied retrospectively only to contracts that are not completed as at the date of initial application. In accordance with the transition provisions in Ind AS 115, the Company has adopted modified retrospective approach. The adoption of the new standard did not have any impact on opening balance of retained earnings as at 1 April 2018, and also on the current year financial statements.

The Company earns revenue primarily from advertisement, affiliate income model and commission income.

Revenue is recognised upon transfer of control of promised services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those services.

- Advertisement revenue - the Company recognizes revenue from the display of graphical advertisements ("display advertising") on the website as "impressions" are delivered. An "impression" is delivered when an advertisement appears in pages viewed by users. The Company recognizes revenue from the display of text based links to the websites of its advertisers ("search advertising") which are placed on the website. Search advertising revenue is recognized as "click through" occur. A "click-through" occurs when a user clicks on an advertiser's listing.
- Affiliate revenue is recognized as per the terms of the contract with customers once the services are rendered.
- Commission from online booking under marketplace model is recognized when the product is delivered to the buyer.

Revenue is measured based on the transaction price, which is the consideration and excludes taxes collected from customers.

Revenue from holding company is recognised based on transaction price which is at arm's length.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

Contract liabilities primarily relate to the consideration received from customers in advance for the Company's performance obligations which is classified as advance from customers and deferred revenue which is recognised when there is billings in excess of revenues.

i. Lease

(i) Determining whether an arrangement contains a lease:

At inception of an arrangement, it is determined whether the arrangement is or contains a lease.

At inception or on reassessment of the arrangement that contains a lease, the payments and other consideration required by such an arrangement are separated into those for the lease and those for other elements on the basis of their relative fair values. If it is concluded for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognized at an amount equal to the fair value of the underlying asset. The liability is reduced as payments are made and an imputed finance cost on the liability is recognized using the incremental borrowing rate.

(ii) Assets held under leases:

Leases of property, plant and equipment that transfer to the Company substantially all the risks and rewards of ownership are classified as finance leases. The leased assets are measured initially at an amount equal to the lower of their fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to similar owned assets.

Assets held under leases that do not transfer to the Company substantially all the risks and rewards of ownership (i.e. operating leases) are not recognized in the Company's Balance Sheet.

(iii) Lease payments:

Payments made under operating leases are generally recognized in profit or loss on a straight-line basis over the term of the lease unless such payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases. Lease incentives received are recognized as an integral part of the total lease expense over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Lease (policy applicable from 1 April 2019)

The Company's lease asset classes primarily consist of lease for building. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a leases if the contract conveys the right to use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assess whether: (1) the contract involves the use of an identified asset (2) the Company has substantially all of the economic benefit from use of the asset through the period of the lease and (3) the group has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangement in which it is a lessees, except for leases with a term of twelve month or less (short-term leases) and low value leases, For these short-term and low value leases, the Company recognizes the lease payment as an operating expense on a straight-line basis over the term of the lease.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Impact: There is no impact of IND AS 116 on financials of the Company as on assessment of lease contract, none of the lease has term period more than 12 month which requires recognition of right-to-use asset ("ROU") and corresponding lease liability. For all short-term leases, the Company recognizes the lease payment as an operating expense on a straight-line basis over the term of the lease.

j. Recognition of interest income or expense

Interest income or expense is recognized using the effective interest method.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortized cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortized cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortized cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest income reverts to the gross basis.

k. Income tax

Income tax comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to a business combination or to an item recognized directly in equity or in other comprehensive income.

(i) Current tax:

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognized amounts, and it is intended to realize the asset and settle the liability on a net basis or simultaneously.

(ii) Deferred tax:

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognized in respect of carried forward tax losses and tax credits.

Deferred tax is not recognized for:

- temporary differences arising on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss at the time of the transaction;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognizes a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realized. Deferred tax assets – unrecognized or recognized, are reviewed at each reporting date and are recognized/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realized.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

l. Cash and cash equivalent

For the purpose of presentation in the Statement of Cash Flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the Balance Sheet.

m. Earnings per share

(i) Basic earnings per share:

Basic earnings per share is calculated by dividing:

- the profit / (loss) attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

(ii) Diluted earnings per share:

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

n. Contingent liabilities and contingent assets

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Contingent assets are not recognized, however, are disclosed in the financial statements where an inflow of economic benefit is probable. Contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

As at 31 March 2020	**92,185**	9,21,850

B. Rights, preferences and restrictions attached to equity shares

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid. Failure to pay any amount called up on shares may lead to forfeiture of the shares. On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company in proportion of the number of equity shares held.

C. Details of shareholders holding more than 5% shares in the Company

In Indian Rupees

	As at 31 March 2020		As at 31 March 2019

Impact of COVID-19 (Global Pandemic)

While the Company believes that, Carandbike, being one of the trusted brands and 100% digital automobile platform, the impact on future revenue streams could come from

1. the inability of our customers to continue their businesses due to financial resource constraints or their services no-longer being availed by their customers
2. customers postponing their marketing spend due to change in priorities

Undoubtedly, the coronavirus pandemic outbreak has shaken the Indian automobile industry in many dimensions, but a very encouraging news from all OEMs ("Original Equipment Manufactures") is that they are all looking to adopt digital models very seriously and are gearing up to newer ways for customers to experience and consume products. Carandbike, could potentially see a huge surge as a go-to platform for most of the OEMs to advertise and test out the new digital transaction model. Considering these facts, we foresee that, though there might be a slump in traffic and revenue due to the lockdown and post lockdown effect, the potential to grow and scale as per the proposed business plan and the budget is highly possible.

Note: 27. Share based payment

Description of share-based payment arrangements

As at 31 March 2020 the Company has the following share-based payment arrangement.

'Fifth Gear Ventures Limited - Employee Stock Option Plan 2016 ('the 2016 plan')

In 2016, the Company approved the 2016 Plan. The plan entitles key management personnel and senior employees of the Company to purchase the common shares of the Company at the fair value on the grant date, subject to compliance with vesting conditions. All exercised options shall be settled by allotment of shares. Upon vesting, the employees can acquire one common share of the Company for every option.

The terms and conditions related to the grant of the share options are as follows :

Grant date / employees entitled	Number of options granted	Vesting conditions	Contractual life of options
Options outstanding as at 1 April 2018	10,790		
Less : Options forfeited during the year ended 31 March 2019	(1,070)		
Options outstanding as at 31 March 2019	**9,720**	Refer note below	13 years
Less : Options surrendered during the year ended 31 March 2020	(9,720)		
Options outstanding as at 31 March 2020	–		

Note:

For options granted total vesting period is 36 months. 50% of the options granted will vest after the completion of 24 months of the continuous service from the grant date and the balance 50% will vest after completion of 36 months of the continuous service from the grant date.

Reconciliation of outstanding share options

The number and weighted average exercise prices of share options under employee share based payment plan are as follows:

Particulars	As at 31 March 2020		As at 31 March 2019	
	No. of options	Weighted average exercise price (amount in INR)	No. of options	Weighted average exercise price (amount in INR)
Outstanding at the beginning of the year	**9,720**	**35,640**	10,790	35,640
Surrendered/ Forfeited during the year	**9,720**	**35,640**	1,070	35,640
Outstanding at the end of the year	–	–	9,720	35,640
Exercisable at the end of the year	–	–	9,720	35,640

There are no options outstanding as at 31 March 2020. The options outstanding as at 31 March 2019 had an exercise price in the range of INR 35,640 and a weighted average contractual life of 9.92 years.

During the year ended 31 March 2020 share based payment expense recognized under employee benefits expenses (refer note 23) amounted to INR Nil (previous year INR 18,027,290).

During the current year, pursuant to the sale of stake held by NDTV Convergence Limited and New Delhi Television Limited in the Company to Mahindra First Choice Wheels Limited, the holders of share based awards have surrendered their vested awards to the Company. In lieu of surrender of vested awards by ex-employees of the Company, ex-gratia payments of INR 30.45 million to such ex-employees has been made by New Delhi Television Limited and NDTV Convergence Limited. Consequently, the balance in Share based Payment Reserve related to such share based awards has been transferred to the General Reserve.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Note 28. Capital management

Equity share capital and other equity are considered for the purpose of Company's capital management. The Company's objective for capital management is to manage its capital so as to safeguard its ability to continue as a going concern and to support the growth of the Company. The capital structure of the Company is based on management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investors, creditors and market confidence. The funding requirements are met through equity and operating cash. The Company is not subject to any externally imposed capital requirements.

Financial liabilities - current								
Trade payables*	16	–	–	3,00,92,466	3,00,92,466	–	–	3,00,92,466
Payable to employees*	17	–	–	33,94,287	33,94,287	–	–	33,94,287
Payable against fixed assets*	17	–	–	4,47,848	4,47,848	–	–	4,47,848
Interest payable on loans and others*	17	–	–	1,21,476	1,21,476	–	–	1,21,476
Total		–	–	3,40,56,077	3,40,56,077	–	–	3,40,56,077

* The carrying amounts of security deposit, trade receivables, cash and cash equivalents, receivable against fixed assets, bank balances other than cash and cash equivalents mentioned above, interest accrued on fixed deposit, trade payables, payable against fixed assets, payable to employees and interest payable on loan and others approximates the fair values due to their short-term nature.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

There has been no transfers between Level 1, Level 2 and Level 3 for the year ended 31 March 2020 and for the previous year ended 31 March 2019.

Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the fair value of the remaining financial instruments is determined using discounted cash flow method.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

B. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk - interest rate

(i) Risk management framework

The Company's key management has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risks limits and controls and to monitor risks and adherence to limits. Risk management policies are reviewed regularly to reflect changes in market condition and the Company's activities. The Company through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which employees understand their roles and obligations.

(ii) Credit risk

The maximum exposure to credit risks is represented by the total carrying amount of these financial assets in the Balance Sheet

Particulars	As at 31 March 2020	As at 31 March 2019
Security deposits	–	20,000
Trade receivables	**4,05,53,900**	1,98,71,465
Cash and cash equivalents	**19,87,641**	96,22,212
Bank balances other than cash and cash equivalents mentioned above	**6,11,179**	–
Other financial assets	**6,797**	2,16,599

Credit risk is the risk of financial loss to the Company if a customer or counter-party fails to meet its contractual obligations. Credit risk encompasses both, the direct risk of default and the risk of deterioration of credit worthiness as well as concentration of risks.

Credit risk on cash and cash equivalents and bank deposits is limited as the Company generally deals with banks with high credit ratings assigned by domestic credit rating agencies.

The Company uses expected credit loss model to assess the impairment loss. The Company uses a provision matrix to compute the expected credit loss allowance for trade receivables. The provision matrix takes into account available internal credit risk factors such as the Company's historical experience for customers. Based on the business environment in which the Company operates, management considers that the trade receivables are in default (credit impaired) if the payments are more than 180 days past due.

Trade receivables as at year end includes INR 40,219,562 (previous year INR 15,792,129) as amount recoverable from others and INR 334,338 (previous year INR 4,079,336) recoverable from related parties.

The movement in the allowance for impairment in respect of trade receivables is as follows:

Particulars	As at 31 March 2020	As at 31 March 2019
Balance as at beginning of the year	–	–
Loss allowance on trade receivables	**1,29,976**	–
Balance as at the end of the year	**1,29,976**	–

The impairment provisions for financial assets disclosed above are based on assumptions about risk of default and expected loss rates. The company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

(iii) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to manage liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company aims to maintain the level of its cash and cash equivalents and other highly marketable equity investments at an amount in excess of expected cash outflows on financial liabilities (other than trade payables) over the next six months. The Company also monitors the level of expected cash inflows on trade receivables together with expected cash outflows on trade payables and other financial liabilities.

Exposure to liquidity risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The contractual cash flow amounts are gross and undiscounted.

As at 31 March 2020	Carrying amount	Less than one year	Between one and three years	More than three years	Contractual cash flows
Trade payables	**4,72,86,908**	**4,72,86,908**	–	–	**4,72,86,908**
Other financial liabilities	**74,80,194**	**74,80,194**	–	–	**74,80,194**
	5,47,67,102	**5,47,67,102**	–	–	**5,47,67,102**

As at 31 March 2019	Carrying amount	Less than one year	Between one and three years	More than three years	Contractual cash flows
Trade payables	3,00,92,466	3,00,92,466	–	–	3,00,92,466
Other financial liabilities	39,63,611	39,63,611	–	–	39,63,611
	3,40,56,077	3,40,56,077	–	–	3,40,56,077

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

(iv) Market risk

Market risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises two types of risk namely: currency risk and interest rate risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

(a) Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to such risk as the Company does not have any floating interest rate financial investment.

Note 30. Earnings / (loss) per equity share ('EPS')

The calculations of profit / (loss) attributable to equity shareholders and weighted average number of equity shares outstanding for purposes of earnings / (loss) per share calculations are as follows:

Particulars	For the year ended 31 March 2020	For the year ended 31 March 2019
Loss for the year - (A)	**(2,87,42,343)**	(3,42,40,004)
Calculation of weighted average number of equity shares		
Number of equity shares at the beginning of the year	**89,838**	69,131
Number of equity shares outstanding at the end of the year	**92,185**	89,838
Weighted average number of shares outstanding during the year - (B)	**91,066**	82,897
Face value of each equity share (INR)	**10**	10
Basic and diluted loss per equity share (INR) - (A)/(B)	**(315.62)**	(413.04)

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Note 32. Employee Benefits

(i) Gratuity

Gratuity is payable to all eligible employees of the Company on retirement or separation from the Company. The following table sets out the status of the defined benefit plan as required under IND AS 19 - Employee Benefits:

(a) Changes in present value of defined benefit obligation:

Particulars	Present value of obligation
Balance as at 1 April 2018	4,23,831
Current service cost	2,17,296
Interest expense / (income)	33,035
Total amount recognized in profit or loss	**2,50,331**
Remeasurements:	
(Gain) / loss from change in financial assumptions	7,162
Experience (gains) / losses	(1,03,418)
Total amount recognized in other comprehensive income	**(96,256)**
Benefit payments	–
Balance as at 31 March 2019	**5,77,906**
Current service cost	3,06,376
Interest expense / (income)	44,593
Total amount recognized in profit or loss	**3,50,969**
Remeasurements:	
(Gain) / loss from change in demographic assumptions	(2,36,717)
(Gain) / loss from change in financial assumptions	11,18,895
Experience (gains) / losses	1,66,056
Total amount recognized in other comprehensive income	**10,48,234**
Benefit payments	–
Balance as at 31 March 2020	**19,77,109**

The net liability disclosed above relates to unfunded plans are as follows:

Particulars	As at 31 March 2020	As at 31 March 2019
Present value of obligations	**19,77,109**	5,77,906
Deficit of gratuity plan	**19,77,109**	5,77,906

The Company has a defined benefit gratuity plan in India, governed by the Payment of Gratuity Act, 1972. Plan entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen days wages for every completed year of service or part thereof in excess of six months, based on the rate of wages last drawn by the employee concerned.

(b) Assumptions:

1. Economic assumptions

Particulars	As at 31 March 2020	As at 31 March 2019
Discount rate	**6.65%**	7.70%
Salary growth rate	**10.00%**	5.00%

The discount rate is based on the prevailing market yields of high quality corporate bonds as at the balance sheet date for the estimated term of the obligations.

The salary escalation rate is based on estimates of salary increases, which takes into account inflation, promotion and other relevant factors.

2. Demographic assumptions:

Particulars	As at 31 March 2020	As at 31 March 2019
Withdrawal rate, based on age	**10%**	5%
Mortality rate (% of IALM 06-08)	**100%**	100%
Retirement age (years)	**58**	58

(c) Sensitivity analysis - pending

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Impact on defined benefit obligation					
	Change in assumption		Increase in assumption		Decrease in assumption	
Particulars	As at 31 March 2020	As at 31 March 2019	As at 31 March 2020	As at 31 March 2019	As at 31 March 2020	As at 31 March 2019
Discount rate	**1%**	1%	**2,76,887**	(66,190)	**(2,28,697)**	79,240
Salary growth rate	**1%**	1%	**(1,79,680)**	80,634	**1,93,342**	(68,338)
Attrition rate	**50%**	50%	**2,99,202**	9,599	**(1,97,753)**	(27,009)
Mortality rate	**10%**	10%	**614**	485	**(611)**	(487)

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Note 33. Lease commitments

A. Non-cancellable operating leases

The Company has taken a commercial premises under cancellable operating lease. The rental expense for the current year, in respect of operating leases is INR 2,819,196 (previous year INR 2,099,080). The future minimum lease payments in respect of such leases is Nil.

Note 34. Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker ("CODM") as required under Ind AS 108. The CODM is considered to be Board of Directors who makes strategic decisions and is responsible for allocating resources and assessing performance of the operating segments. The principal activities of the Company comprises of e-commerce market place connecting buyers and sellers in respect of products related to cars and bikes, accordingly, the Company has one reportable segment.

Note 35. Taxation

A) The reconciliation of estimated income tax to income tax expense is as follows:

Particulars	For the year ended 31 March 2020		For the year ended 31 March 2019	
Loss before taxes		**(1,37,85,054)**		(3,42,40,004)
Tax using the Company's applicable tax rate	25.17%	(34,69,423)	26.00%	(89,02,401)
Tax effect of :				
Surrender of share based award previously claimed as deduction	–128.59%	1,77,25,956	0.00%	–
Non deductible expenses	–1.85%	2,55,113	–0.81%	2,77,972
Change in temporary differences	–3.23%	4,45,643	–0.72%	2,47,543
Current year losses for which no deferred tax asset was recognized	0.00%	–	–24.47%	83,76,886
Effective tax rate	**–109%**	**1,49,57,289**	–	–

B) Unrecognized deferred tax assets

Deferred tax assets have not been recognized in respect of following items:

Particulars	As at 31 March 2020	As at 31 March 2019
Deferred tax liability		
- Property, plant and equipment and intangible assets	**(4,96,502)**	–
Deferred tax assets		
- Tax loss carry forwards	–	5,83,22,299
- Deductible temporary differences	**5,30,311**	1,50,256
Total deferred tax assets	**33,810**	5,84,72,555

As at 31 March 2020 and 31 March 2019, the Company did not recognize deferred tax assets on tax losses and other temporary differences because a trend of future profitability is not yet clearly discernible. In January 2020, the Company and its beneficiary shareholders have entered into an agreement ("share purchase agreement") dated 17 January 2020 for sale of entire stake held by the beneficiary shareholders to Mahindra First Choice Wheels Limited ("the purchaser").

As per Section 79 of the Income tax act 1961,"no loss shall be carried forward and set off against the income of the previous year, unless at least 51% of the voting power of the company are beneficially held (on the last day of the previous year in which the loss is sought to be set off) by the same person(s) who held at least 51% of the shares on the last day of the financial year in which the loss was incurred. As per the above provision, the Company shall not carry forward the losses incurred in the past.

C) Recognized deferred tax assets and liabilities

Deferred tax assets and liabilities are attributable to following:

Particulars	As at 31 March 2020	As at 31 March 2019
Deferred tax liabilities		
- Property, plant and equipments and intangible asset	**(4,96,502)**	(8,39,452)
Total deferred tax liabilities	**(4,96,502)**	(8,39,452)
Deferred tax assets		
- Deductible temporary differences	**4,96,502**	8,39,452
- Deductible temporary differences	**5,30,311**	1,50,256
Total deferred tax assets	**4,96,502**	8,39,452
Net deferred tax assets / (liability)	–	–

D) Movement in deferred tax assets / (liabilities) during the year:

Movement in deferred tax assets during the year	Balance as at 1 April 2018	Recognized in profit or loss	Balance as at 31 March 2019	Recognized in profit or loss	Balance as at 31 March 2020
- Property, plant and equipments and intangible asset	(10,12,082)	1,72,630	(8,39,452)	3,42,950	(4,96,502)
- Tax loss carry forwards	10,12,082	(1,72,630)	8,39,452	(3,42,950)	4,96,502
Total	–	–	–	–	–

Note 36. Contingent liabilities

On 28 February 2019, a judgement of the Supreme Court of India interpreting certain statutory defined contribution obligations of employees and employers altered historical understandings of such obligations, extending them to cover additional portions of the employee's income. However, the judgement isn't explicit if such interpretation may have retrospective application resulting in increased contribution for past and future years. Based on management's assessment, there are numerous interpretative challenges on the retrospective application of the judgment which results in impracticability in estimation of and timing of payment and amount involved. As a result of lack of implementation guidance and interpretative challenges involved, and also in view of certain stakeholders' request to reevaluate the pronouncement itself, the Company is unable to reliably estimate the amount involved. Accordingly, the Company shall evaluate the amount of provision, if any, on obtaining further clarity on the matter.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH, 2020

Note 37. Change in classifications

During the year ended 31 March 2020, the Company modified the classification of “Current Income tax assets (net)” classified in “current assets” to “Non-current Income tax assets (net)” to reflect more appropriately the nature of such current assets. Comparative amount in the notes to the financial statements were reclassified for consistency. As a result INR 1,389,140 for the year ended 31 March 2019 was reclassified from “Current Income tax assets (net)” classified in “current assets” to “Non-current Income tax assets (net)”.

Note 38. Subsequent event

As at 31 December 2019, a limited number of cases of a virus, known as COVID-19, had been reported to the World Health Organisation (“WHO”). Following the subsequent worldwide spread of the virus, on 11 March 2020, the WHO declared the COVID-19 outbreak as pandemic. Based on our assessment of the evolving situation of progressive lifting of lock down in response to the pandemic, the Company does not foresee any large-scale contraction in demand which could result in significant impact on the business and believes that the probability of impact on their business due to the COVID-19 pandemic is not significant.

INDEPENDENT AUDITOR'S REPORT
PURSUANT TO ART. 14 OF LEGISLATIVE DECREE N. 39 DATED JANUARY 27, 2010
(Translation from the original Italian text)

To the Sole Shareholder of
Graphic Research Design S.r.l. in liquidazione

REPORT ON THE AUDIT OF THE FINAL FINANCIAL STATEMENTS OF THE WINDING UP PROCEDURE

Opinion

We have audited the final financial statements of the winding up procedure of the Graphic Research Design S.r.l. in liquidazione (the Company), drawn up in abbreviated form pursuant to art. 2435-bis of the Civil Code, which comprise the balance sheet at March 11th 2020, the income statement for the period then ended and the related explanatory notes.

In our opinion, the final financial statements of the winding up procedure give a true e fair view of the financial position of the Company at March 11th 2020, of the economic result and of the cash flow statement for the period then ended in accordance with the Italian rules governing the drafting criteria.

Basis for opinion

We conducted our audit in accordance with international standards on auditing (ISA Italia). Our responsibilities under those standards are described in detail in the section of this report titled *Auditor's responsibilities for the audit of the Final Financial Statements of the winding up procedure*. We are independent of the Company in accordance with the regulations and standards on ethics and independence applicable to audits of financial statements under Italian law. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw attention to the following:

- At the beginning of the *Explanatory notes* the liquidator points out that as a result of the winding up procedure, the going concern assumption on which certain accounting principles of the financial statements are based, is no longer valid; furthermore there are objective uncertainties in relation to the assets realization, on the occurrence of any other liquidation charges and if any contingencies occur;
- At the beginning of the *Explanatory notes* it is highlighted that the company has availing itself of the exemption from the preparation of the report on the management of the liquidator, and the reasons are explained;
- as illustrated by the liquidator in the relevant section of the financial statements for the closing of the winding up procedure, the *Final Distribution* Plan shows a net liquidation surplus of Euro 60.027, represented by cash and cash equivalents of 9.301 Euros and tax receivables for Euro 50.726 that will be requested as a refund at the presentation of the respective tax returns by the liquidator.

Our opinion is not modified with regard to the aspects mentioned above.

Other matters

The Company, as required by law, has included in the explanatory notes the main data of the last financial statements of the company exercising on it management and coordination activities. The opinion on the final financial statements of the winding up procedure of Graphic Research Design S.r.l. does not extend to such data.

Responsibilities of the directors for the final financial statements of the winding up procedure

The directors are responsible for the preparation of the final financial statements of the winding up procedure that give a true and fair view in accordance with the Italian rules governing the drafting criteria and, in the terms prescribed by law, for such internal control as the directors determine is necessary to enable the preparation of the final financial statements of the winding up procedure that are free from material misstatement, whether due to fraud or error.

Auditor's responsibilities for the audit of the final financial statements of the winding up procedure

Our objectives are to obtain reasonable assurance about whether the final financial statements of the winding up procedure as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance that, but is not a guarantee that an audit performed in accordance with international standards on auditing (ISA Italia) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on basis of these financial statements.

As part of the audit in accordance with international standards on auditing (ISA Italia), we exercised professional judgement and maintained professional skepticism throughout the audit. Furthermore:

- We identified and assessed the risks of material misstatement of the final financial statements of the winding up procedure, whether due to fraud or error; we designed and performed audit procedures in response to those risks; we obtained sufficient and appropriate audit evidence on which to base our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control;

- We obtained an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control;
- We evaluated the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors;
- We evaluated the overall presentation, structure and content of the final financial statements of the winding up procedure, including the disclosures, and whether the final financial statements of the winding up procedure represent the underlying transactions and events in such a manner as to give a true and fair view;

We communicated to those charged with governance, identified at an appropriate level as required by ISA Italia, among other matters, the scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identified during our audit.

Turin, Italy

SUMMARY OF THE NOTES TO THE ACCOUNTS FOR THE PERIOD 01/04/2019 - 11/03/2020

We submit to the Shareholders' attention the following Notes to the Accounts for the period 01.04.2019 – 11.03.2020, date of the closing of the winding up procedure.

With the Extraordinary Shareholders' Meeting of 30 September 2019, registered with the Turin Company Register on October 8th, 2019, Notary Colavincenzo Alessandra from Marino, the Company has been put into voluntary liquidation.

During the year ended at 31st March 2019, the Company sold its Engineering Business branch to PF Engineering S.r.l. Consequently, the Board of Directors of the company, in order to evaluate the associated effects and the effective possibility to continue the activity, has delayed the decision for the successive definite course of action to September 2019. The proved inability to continue the activity has then led the Board of Director to put the Company into voluntary liquidation.

These financial statements thus depict the final balance of the company at the end of the winding up procedure. It should be noted that these final liquidation financial statements have been prepared in accordance with Art. 2490 of the Civil Code with the application of evaluation criteria specific to the liquidation procedure and in accordance with the accounting records.

Considering the limited duration of the winding up procedure, it was not deemed necessary to draw up the liquidator's report since all information regarding the performance, principles and criteria adopted during the liquidation period have been provided in the relevant sections of this explanatory notes, which forms an integral part of the balance sheet at the closing date of the liquidation procedure together with the allocation plan.

Accounts have been prepared in accordance with article 2423 of the Italian Civil Code and by new Italian GAAP (OIC).

The accounts have been prepared in accordance with the Law in order to provide a true and fair description of the financial situation of the company and of the economic result for the period 01.04.2019 – 11.03.2020.

Balance sheet and profit and loss account have been prepared in accordance with articles 2424 and 2425 of the Italian Civil Code.

The company exploited the possibility granted by Law to prepare the accounts in the “short” format in accordance with article 2435-bis of the Italian Civil Code.

Pursuant to and for the purposes of art. 2428, numbers 3) and 4), it should be noted that the company does not hold either own shares or shares or holdings in parent companies, also through trust companies or third parties. This disclosure enables the company not to prepare the management report.

Basis of preparation

The following financial statements have been prepared in accordance with articles 2423 et seq of the Italian Civil Code, as reported in these notes, which have been drawn up in compliance with article 2427 of the Italian Civil Code, and, under article 2423, constitute an integral part of the financial statements for the period between the closing date of the previous financial statements and the closing date of the winding-up procedure.

The valuation criteria applied to items and adjustments in the financial statements comply with the provisions of the Italian Civil Code and with the guidance issued by the Italian Accounting Board.

The financial statements are presented in Euros and the amounts have been rounded. Any rounding differences have been recorded in the “Euro rounding reserve” within Shareholders' Equity and as “Euro rounding differences” within item “extraordinary income and costs” in the Profit and loss account.

In accordance with article 2423, paragraph 6, of the Italian Civil Code, the notes to the accounts have been prepared in Euros.

The financial statements have been drawn up in abbreviated form in accordance with article 2435-bis of the Italian Civil Code.

Valuation Criteria

Following the beginning of the winding up procedure started as at 30th September 2019, these closing financial statements are intended to summarize the liquidation procedure and have been drawn up in compliance with the legal provisions and accounting principles of the Italian GAAP 5. Operating criteria have been abandoned, and the assessments have been made in view of the liquidation of the company, therefore applying different criteria with respect to those envisaged by Art. 2426 C.C.

Assets have been valued based on the presumed realizable value net of any related charges.

Liabilities have been valued at their extinction value net of any related charges.

The Liquidator also specifies that, due to the state of liquidation, the assumption of the going concern was no longer applicable and that there are objective uncertainties with respect to the realization of assets, the occurrence of additional charges and upon the occurrence of additional contingencies.

Structure and contents of the financial statement

The Balance Sheet, P&L Account and accounting disclosures contained in these Explanatory Notes comply with the accounting entries from which they are directly obtained.

In accordance with article 2423 ter of the Italian Civil Code, it should be noted that all financial statement items are comparable with the previous fiscal year; therefore, it was necessary to adjust any items of the previous fiscal year.

With reference to the indications reported in the introduction of these Explanatory Notes, we declare that, in accordance with article 2423, 3rd paragraph of the Italian Civil Code, if the disclosures required by specific legal provisions are not sufficient for giving a truthful and fair representation of the company's situation, additional disclosures will be provided if considered necessary for the purpose.

Measurement policies

The criteria used to evaluate the financial statements' items and to adjust the values comply with the provisions of the Italian Civil Code and with the instructions found in the accounting principles issued by the Italian Accounting Board. In addition, said values changed due to the application of liquidation criteria consequent to the winding up procedure started in 2019.

The criteria applied to measure the financial statement items and in value adjustments comply with the provisions of the Italian Civil Code and instructions contained in the accounting standards issued by the Italian Accounting Board (Italian GAAP 5). They have changed compared to the previous fiscal year, moving from operational criteria to liquidation criteria.

In accordance with article 2427, paragraph 1, n° 1 of the Italian Civil Code, the most significant valuation criteria adopted in observance of the provisions of art. 2426 of the Italian Civil Code are shown, with special reference to the balance sheet items for which the law allows several valuation and adjustment criteria or for which no specific criteria are provided.

Based on application of the provision introduced with the company law reform, the accounting amounts expressed in foreign currency were entered, after conversion into euro according to the current exchange rate at the time of their assessment, or at the exchange rate, if lower, as at the date of closing of the financial year, if the reduction in value is lasting.

Other information

Assets and liability in foreign currency

If present, they have been converted into Euro to the exchange rate at the date of the transaction or at the exchange rate as at 11th March 2020 in accordance to OIC 26.

Transaction with re-conveyance obligation

The company did not carry any transaction subject to re-conveyance

CHANGES IN ASSETS

INTANGIBLE ASSETS

Description	Balance as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Intangible assets	1,910	(1,910)	–
Total	**1,910**	**(1,910)**	**–**

Intangible assets are recorded at historical acquisition cost and shown net of accumulated amortisation charged directly to the individual items.

Rights to use intellectual property are amortised at an annual rate of 20%. These relate only to the software. Annual fees for the use of graphic licenses are recognised on an accrual basis in the Profit and loss account. Consequent to the winding up procedure, the company has not renewed the related licenses and the software has been dismissed.

In the event that, regardless of the amortisation already recorded, an impairment loss occurs, the fixed asset is written down accordingly. If in subsequent years the reasons for the write-down should cease to apply then the original value is reinstated, adjusted for the relevant amortisation.

As at 11th March 2020 no intangible asset is included in the Balance sheet.

The changes in intangible assets occurred in the period ending as at 11th March 2020 are shown in the following table:

Description	Cost	Acc. Amortisation as at 31.03.2019	Book value as at 31.03.2019	Decreases due to disposals	Decreases due to elimination	Reversal of Acc. Amort.	Cost	Value as at 11.03.2020
Industrial patent rights and right to use intellectual property	492,720	490,810	1,910	(1,668)	(491,052)	490,810	–	–
Total	**492,720**	**490,810**	**1,910**	**(1,668)**	**(491,052)**	**490,810**	**–**	**–**

TANGIBLE ASSETS

Description	Balnce as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Tangible assets	42,418	(42,418)	–
Total	**42,418**	**(42,418)**	**–**

Tangible assets are recorded at acquisition cost and shown net of accumulated depreciation.

The carrying amounts take into account incidental costs and costs sustained for the use of the fixed asset, less any material trade or cash discount.

The depreciation rates charged to the profit and loss account have been calculated bearing in mind the use, destination, and the economic and technical life of the assets, based on the criterion of remaining useful life.

In the event that, regardless of the depreciation already recorded, an impairment loss occurs, the fixed asset is written down accordingly.

No assets have been discretionarily or voluntarily revalued and, if any, the valuations carried out have been determined objectively based on the use of the assets in question.

As at 11th March 2020 no tangible asset is included in the Balance sheet. Because of the winding up procedure, indeed, the company has sold or eventually dismissed all its remaining assets.

The changes in tangible assets occurred in the period ending as at 11th March 2020 are shown in the following table:

Description	Cost	Acc. Amortisation as at 31.03.2019	Book value as at 31.03.2019	Decreases due to disposals	Decreases due to elimination	Cost	Reversal. Amort. As at 11.03.2020	Book value as at 11.03.2020
Industrial and commercial equipment	33,060	32,272	788	(33,060)	–	–	(32,272)	–
Plant and machinery	3,970	3,970	–	–	(3,970)	–	(3,970)	–
Other tangible assets	200,360	158,720	41,640	(58,162)	(142,198)	–	(158,720)	–
Total	**237,390**	**194,962**	**42,428**	**(91,222)**	**(146,168)**	**–**	**(194,962)**	**–**

DISCLOSURES RELATING TO FINANCE LEASE TRANSACTIONS

Finance lease transactions (leasing)

At the closing date of the winding up procedure there are no finance leases.

RECEIVABLES

Receivables are recorded at their estimated realisable value net of any additional charges.

Receivables are derecognised in the financial statements when the rights to the cash flows from the assets expire or when the assets are sold, and all the risks connected to them are transferred.

Description	Balance as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Receivables	190,188	(139,462)	50,726
Total	**190,188**	**(139,462)**	**50,726**

The changes in receivables occurred during the period were the following:

Description	Balance as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Receivables from clients included in current assets	15,548	(15,548)	–
Receivables from parent companies included in current assets	121,517	(121,517)	–
Tax Credit included in current assets	35,446	15,280	50,726
Other receivables included in current assets	17,677	(17,677)	–
Total	**190,188**	**(139,462)**	**50,726**

Receivables from parent company" are receivables related to transactions concluded under normal market conditions. All receivables have been collected in due course of the winding up procedure.

The Tax Credit of Euro 50.726 will be claimed in refund in the respective Tax Returns.

LIQUID ASSETS

The balance represents the liquid assets, cash and cash equivalents on hand as at 11th March 2020.

Description	Balance as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Bank and postal deposit	61,893	(52,841)	9,052
Cash	964	(715)	249
Total	**62,857**	**(53,556)**	**9,301**

PREPAYMENTS AND ACCRUED INCOME

Accrued income and prepaid expenses have been determined in accordance with the accrual concept.

For long term accruals and prepayments, the conditions that determined their initial recognition have been verified and any necessary changes made.

Accruals and prepayments include income and expenses whose impact on profit or loss comes before or after their actual cash payment and/or documentary support; regardless of the date of payment or collection of the income or expenses, they relate to two or more financial years and are allocated over time.

As at 11/03/2020 there are no accrued expenses; there are no accruals and prepayments with a duration of more than five years.

Description	Balance as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Other accrued incomes	471	(471)	–
Other accrued expenses	8,635	(8,635)	–
Total	**9,106**	**(9,106)**	**–**

SHAREHOLDER'S EQUITY

Description	Balance as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Shareholder's equity	64,133	(4,106)	60,027
Total	**64,133**	**(4,106)**	**60,027**

Changes in Shareholder's equity

The changes in net equity items during the period were the following:

Description	Balance as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Share Capital	579,528	(515,395)	64,133
Legal reserve	–	–	–
Other Reserves	1,450,000	(1,364,194)	85,806
Profit (Loss) for the Period	(1,965,395)	1,875,483	(89,912)
Total	**64,133**	**(4,106)**	**60,027**

Movements in equity relates to:

– Waiver of Shareholder Loan for Euro 50,805 to increase Reserves in order to offset the loss of the period closing as at 31st March 2019;

– Loss for the period ended at 11th March 2020, Euro 89,912.

Share capital

The share capital of € 64.133 consists of a single share. Following Art.2482-bis of the Civil Code, the loss for the period ending as at 31st March 2019 has reduced the share capital below the one-third threshold. Consequently, as requested by the same Art.2482-bis c.4 C.C, the Board of Directors has approved the corresponding reduction.

On the 9th March 2020 the Shareholders made a transfer of Euro 35,000 to offset remaining liabilities.

Availability and use of shareholder's equity

The components of shareholders' equity are broken down as follows by origin, permitted use and amount available for distribution.

	Amount	Permitted Use	Amount available
Share Capital	64,133	B	
Other reserves	85,806	A;B;C	–
Loss for the Period	(89,912)		
Total	**60,027**		**–**

(*) A: to increase capital; B: to cover losses; C: for distribution to shareholders

In accordance with article 2427 of the Italian Civil Code we point out that the company has not issued shares or other securities or equity instruments.

ACCOUNTS PAYABLES

Description	Balance as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Accounts payable	242,347	(242,347)	–
Total	**242,347**	**(242,347)**	**–**

Accounts payable are recorded at their nominal value can be broken down as follows:

Description	Balance as at 31.03.2019	Change during the year	Balance as at 11.03.2020
Shareholder loan	50,230	(50,230)	–
Towards Suppliers	174,384	(174,384)	–
Parent Suppliers	1,300	(1,300)	–
Tax payables	5,090	(5,090)	–
Towards Banks	309	(309)	–
Other Payables	11,034	(11,034)	–
Total	**242,347**	**(242,347)**	**–**

ACCRUED LIABILITIES AND DEFERRED INCOME

As at 11/03/2020 there are no deferred income and deferrals.

COMMITMENTS ARISING FROM OFF BALANCE SHEET AND MEMORANDUM ACCOUNTS

Disclosures relating to agreements not disclosed in the balance sheet

The company has no agreements that are not disclosed in the Balance Sheet.

PROFIT AND LOSS ACCOUNT

PRODUCTION VALUE

Recognition of revenues

Revenues from product sales are recognised upon transfer of ownership, which normally coincides with the delivery or shipment of goods.

Revenues from services are recognised on an accrual basis.

All revenues from sales have been realized towards India and amounts to Euro 6,687.

PRODUCTION COSTS

The costs and charges are attributed on accrual basis of accounting and according to their nature, net of returns, allowances, discounts, and premiums, in compliance with the principle of correlation with the revenues; they are entered in the respective items as required by accounting standard OIC 12. The costs incurred to purchase goods are entered when the substantive, not the formal transfer of the ownership title occurs; the reference parameter for the substantive transfer is the transfer of the risks and benefits. When services are purchased, the related costs are entered when the service is received, thus, when the service has been performed; in case of ongoing services, the related costs are entered for the portion accrued.

FINANCIAL INCOME AND EXPENSES

Balance as at 31.03.2019	Change	Balance as at 11.03.2020
(383)	**(759)**	**(1,142)**

Financial expenses, amounting to Euro 1,080, relates to interest on Shareholders' loan (Euro 576) and interest for late payments (Euro 505).

During the year, currency losses of Euro 62 were also recorded.

CURRENT AND DEFERRED TAXES

Income Taxes

Taxes are accounted for on an accruals basis and therefore represent:

- provisions for taxes paid or to be paid for the year, determined in accordance with the rates and regulations in force
- the amount of taxes deferred or paid in advance in respect of temporary differences arising or reversed during the year

Tax payable are recorded under tax payables net of payments on account, withholding taxes and, generally, of tax credits.

Deferred IRES is calculated on the temporary differences between the carrying amounts of assets and liabilities determined according to statutory criteria and the corresponding tax values.

Deferred IRES is calculated on the temporary differences between the carrying amounts of assets and liabilities determined according to statutory criteria and the corresponding tax values solely with reference to the company.

Current and deferred IRAP is determined solely with reference to the company.

Deferred Taxes

Deferred tax assets have been recognised to the extent that there is a reasonable certainty that in the years in which the temporary differences against which deferred tax assets were recognised are reversed, the company will have a taxable income that is no lower than the amount of the differences to be offset.

As at 11th March 2020 there are no current taxes nor deferred taxes.

TRANSACTIONS WITH GRANT BACK OBLIGATIONS

In accordance with art. 2427, n° 6-ter, the company certifies that, during the fiscal year, the company did not perform any transaction subject to the grant back obligation.

FINAL RESULT OF THE WINDING UP PROCEDURE

The Sole Shareholder will receive the VAT credit and the Corporate Tax credit claimed by the Company; the liquidator will proceed with the request for the related reimbursement and will therefore make the associated payment to the shareholder as soon as the amount will be made available by the Financial Administration.

Cash and cash equivalents present in the Bank account and cash values will be transferred to the current account communicated by the Shareholder.

The Sole Shareholder charges Sir. Niccolò Bisceglia to complete the procedures for requesting the reimbursement of tax receivables, to collect the related sums and then to proceed at the related payment to the Shareholder.

We thus invite you to approve the final liquidation balance sheet as of 11 March 2020 and the related allocation plan.

The above financial statements are true and real and correspond to the accounting records.

Milan, March 11, 2020
