INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF MAHINDRA VEHICLE MANUFACTURERS LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of **Mahindra Vehicle Manufacturers Limited** ("the Company"), which comprise the standalone balance sheet as at 31 March 2021, and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information in which are included the Returns for the nine months period ended 31 December 2020 audited by the branch auditor of the Company's branch at Michigan, United States of America (USA).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Director's report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Standalone Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

We did not audit the financial information of a branch included in the standalone financial statements of the Company whose standalone financial information reflects total assets of Rs. Nil as at 31 March 2021 and the total revenue of Rs. 26,245 lakhs for the nine months period ended 31 December 2020, as considered in the standalone financial statements. The branch has been audited by the branch auditor whose report has been furnished to us, and our opinion in so far as it relates to the amounts and disclosures included in respect of branch, is based solely on the report of such branch auditor (Also refer note 40 to the accompanying financial statements).

The financial information of the branch as referred above have been prepared in accordance with accounting principles generally accepted in their country and which have been audited by other auditors under generally accepted auditing standards applicable in their country. The Company's Management has converted the financial information of the branch located outside India from accounting principles generally accepted in their country to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Company's Management. Our opinion in so far as it relates to the balances and affairs of the branch located outside India is based on the reports of other auditors and the conversion adjustments prepared by the Management of the Company and audited by us.

Our opinion is not modified in respect of this matter.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
    a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
    b) In our opinion, proper books of account as required by law have been kept by the Company

so far as it appears from our examination of those books and proper returns adequate for the purposes of our audit have been received from the branch not visited by us.

c) The report for the nine months period ended 31 December 2020 on the accounts of the branch office of the Company audited under Section 143(8) of the Act by the branch auditor has been sent to us and has been properly dealt with by us in preparing this report.

d) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account and with the returns received from the branch not visited by us.

e) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act.

f) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

g) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure B”.

(B) With respect to the other matters to be included in the Auditors’ Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations as at 31 March 2021 on its financial position in its standalone financial statements - Refer Note 45 to the standalone financial statements.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

iv. The disclosures in the standalone financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2021.

(C) With respect to the matter to be included in the Auditors’ Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT ON STANDALONE FINANCIAL STATEMENT – 31ST MARCH, 2021

With reference to the Annexure referred to in paragraph 1 in Report on Other Legal and Regulatory Requirements of the Independent Auditors' Report to the members of the Company on the Standalone financial statements for the year ended 31 March 2021, we report that:

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) The Company has a program of physical verification of its fixed assets by which all its fixed assets are verified once in every three years, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its fixed assets. Pursuant to the program, physical verification was conducted in the financial year 2018-19. According to the information and explanation given to us, no material discrepancies were noticed on such verification.

(c) The title deeds of the immovable properties are held in the name of the Company.

(ii) The inventory, except goods in transit, has been physically verified by the management during the year in accordance with the programme of physical verification. The discrepancies noticed on verification between the physical stock and the book records were not material and have been properly dealt with in the books of account. In our opinion, the frequency of such verification is reasonable and adequate in relation to the size of the Company and the nature of its business. In respect of significant stocks lying with third parties at the year end, written confirmation from major parties have been obtained.

(iii) The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, paragraph 3(iii) of the Order is not applicable to the Company.

(iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 186 with respect to investments made during the year. According to information and explanations provided to us and on the basis of our examination of records of the Company, the Company has neither granted any loan, nor issued any guarantee or provided any security under section 186 and to any party covered under the provision of section 185.

(v) The Company has not accepted any deposits from the public in terms of directives issued by the Reserve Bank of India and the provisions of Sections 73 to 76 of the Act and the rules made there under. Accordingly, paragraph 3(v) of the Order is not applicable to the Company.

(vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government for the maintenance of cost records under section 148(1) of the Act, and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the records with a view to determine whether they are accurate or complete.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Provident fund, Employee's State Insurance, Income Tax, Duty of Customs, Goods and Service Tax and any other statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities except delays in payment of Income Tax on dividend of preferential share amounting to INR 292 lakhs and amount in connection with certain employee related dues as more fully described in note 29 to the financial statements and as explained to us, the Company do not have dues on account of Sales Tax, Service Tax, Value Added Tax and Duty of Excise.

According to the information and explanations given to us, no undisputed amounts payable in respect of Provident fund, Employee's State Insurance, Income Tax, Sales Tax, Service Tax, Duty of Customs, Goods and Service Tax and any other statutory dues were in arrears as at 31 March 2021, for a period of more than six months from the date they became payable except amount in connection with certain employee related dues as more fully described in note 29 to the financial statements.

(b) According to the information and explanations given to us, there are no dues of Income Tax, Sales Tax, Service Tax, Duty of Customs, Duty of Excise, Goods and Service Tax and Value Added Tax which have not been deposited with the appropriate authorities by the Company on account of disputes other than those stated in Appendix 1 to this Report.

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of dues to bank and debenture holders. The Company did not have any dues from financial institution or government during the year.

(ix) According to the information and explanations given to us, the Company has not raised money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. Accordingly, paragraph 3(ix) of the Order is not applicable to the Company.

(x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year.

(xi) According to the information and explanation given to us, the managerial remuneration is paid or provided in accordance with the requisite approvals mandate by the provision of section 197 read with schedule V of the Act.

(xii) According to the information and explanations given to us, the Company is not a Nidhi Company as per the Act. Accordingly, the reporting under paragraph 3(xii) of the Order is not applicable.

(xiii) In our opinion and according to the information and explanation given to us, all transactions with related parties are in compliance with section 177 and 188 of the Act, where applicable, and the details, as required by the applicable accounting standard have been disclosed in the Standalone financial statements.

(xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

(xv) According to the information and explanations given to us, the Company has not entered into any non-cash transactions with directors or persons connected with them during the year. Accordingly, the reporting under paragraph 3(xv) of the Order is not applicable.

(xvi) The Company is not required to register under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under paragraph 3(xvi) of the Order is not applicable.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF MAHINDRA VEHICLE MANUFACTURERS LIMITED FOR THE YEAR ENDED 31ST MARCH, 2021.

Report on the internal financial controls with reference to the aforesaid Standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 'g' under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra Vehicle Manufacturers Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

1 Company Overview

Mahindra Vehicle Manufacturers Limited is a Company incorporated and domiciled in India having its registered office in Mumbai (CIN : U34100MH2007PLC171151). The Company is in the business of manufacture of passenger cars, medium and heavy commercial vehicles and construction equipments.

The immediate parent Company is Mahindra & Mahindra Limited, a company incorporated in India.These financial statements correspond to the stand alone financial statements of the Company.

The Company has elected not to prepare consolidated financial statements in accordance with Ind AS 110 and Companies (Accounts) Rules 2014, as amended. The parent Company is Mahindra & Mahindra Limited, a company incorporated in Mumbai, India which is the parent of the smallest and largest group to consolidate these financial statements. Copies of the annual report of the Mahindra & Mahindra Limited can be obtained from the Company Secretary, Mahindra & Mahindra Limited, Mahindra Towers, Dr. G. M. Bhosale Marg, Worli, Mumbai, 400 018, India. List of significant investments in subsidiaries, joint ventures and associates is provided in note no. 33

2 Significant Accounting Policies:

(A) Statement of Compliance:

These financial statements have been prepared in accordance with Indian Accounting Standards as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act.

The financial statements are approved by the Board of Directors and authorised for issue on 11th May, 2021.

(B) Functional and presentation currency

The financial statements are presented in Indian Rupees (INR or 'Rs.') which is also the Company's functional currency. All values are rounded to the nearest lakhs, unless otherwise stated.

(C) Basis of preparation

These financial statements have been prepared on the historical cost basis, except for certain financial assets and liabilities which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

(D) Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values. In determining the fair value of its financial instruments, the Company uses a variety of methods and assumptions that are based on market conditions and risks existing at each reporting date. The Chief Financial Officer and persons entrusted have overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values and assessments that these valuations meet the requirements of Ind AS. The methods used to determine fair value include discounted cash flow analysis, available quoted market prices and dealer quotes. All methods of assessing fair value result in general approximation of value, and such value may never actually be realised.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(E) Use of estimations & judgements:

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimates are revised.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are included in:

Property, Plant and Equipment - Note 2 (F)

Obligations relating to employee defined benefits - Note 36

Impairment of Investment - The Company reviews its carrying value of Investments carried at Cost annually

Leases -

Ind AS 116 requires lessees to determine the lease term as the non cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by lease basis and there by assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

(F) Property plant & equipment:

(a) Property plant & equipments are carried at cost of acquisition or construction less depreciation. Cost includes financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use. When an asset is scrapped or otherwise disposed off, the cost and related depreciation are removed from the books of account and resultant profit (including capital profit) or loss, if any, is reflected in the Statement of Profit and Loss.

(b) Depreciation on assets is calculated on straight line method at the rates and in the manner prescribed in Schedule II to the Companies Act, 2013, except in respect of the following categories of assets, in whose case the life of the assets has been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc.:

(1) Certain items of plant and equipment - over their useful lives (2 years, 3 years, 5 years, 8 Years, 10 years, 20 years or 25 years as the case may be) as determined by the Company.

(2) Roads - over their useful life (15 years) as determined by the Company.

(3) Cars and Vehicles - over their useful life (5 years) as determined by the Company.

(G) Intangible Assets:

Intangible assets are initially recognised at cost.

Subsequent to initial recognition, intangible assets with indefinite useful lives are carried at cost less accumulated impairment, if any. Intangible assets with definite useful lives are amortised on a straight line basis so as to reflect the pattern in which the asset's economic benefits are consumed.

Intangible assets under development

The Company expenses cost incurred during research phase to profit or loss in the year in which they are incurred. Development phase expenses are initially recognised as intangible assets under development until the development phase is complete, upon which the amount is capitalised as intangible asset. The company has tested for impairment of intangible under development annually.

Other Intangible Assets

(a) License Fee:

The expenditure incurred is amortised over the estimated period of benefit, not exceeding five years commencing with the year of purchase of License.

(b) Technical Know-how fees:

The expenditure incurred on technical services and other project/ product related expenses are amortised over the estimated period of benefit, not exceeding five years.

(c) Software Expenditure:

The expenditure incurred is amortised over three financial years equally commencing from the year in which the expenditure is incurred.

(H) Investments in subsidiaries, associates and joint ventures:

The Company accounts for its investments in subsidiaries, associates and joint venture at cost.

(I) Financial Instruments:

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss (FVTPL)) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial Assets: All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Classification of Financial Assets:

On initial recognition, a financial assets is classified as - measured at:

- Amortised Cost; or
- Fair Value Through Other Comprehensive Income (FVTOCI)
- Fair Value Through Profit or Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

All financial assets not classified as measured at amortised cost or FVTOCI are measured at FVTPL.

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gains and loss on derecognition is recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

Impairment of financial assets: The Company applies the expected credit loss model for recognising impairment loss on financial assets.

Derecognition of financial assets: The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in the statement of profit and loss if such gain or loss would have otherwise been recognised in the statement of profit and loss on disposal of that financial asset.

Financial liabilities and equity instruments: Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments: An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company is recognised at the proceeds received, net of direct issue costs.

Financial Liabilities: All financial liabilities are measured at amortised cost using the effective interest method or at FVTPL.

Offsetting: Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

(J) Inventories:

Inventories comprise all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw materials and bought out components are valued at the lower of cost or net realisable value. Cost is determined on the basis of the weighted average method.

Finished goods produced, manufactured components and work-in-progress are carried at cost or net realisable value whichever is lower.

Stores, spares and tools other than obsolete and slow moving items are carried at cost. Obsolete and slow moving items are valued at cost or estimated net realisable value, whichever is lower.

(K) Foreign Exchange Transactions:

Transactions in foreign currencies are recorded at the exchange rates prevailing on the date of transaction. Monetary items are translated at the year-end rates. The exchange difference between the rate prevailing on the date of transaction and on the date of settlement as also on translation of monetary items at the end of the year is recognised as income or expense, as the case may be. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

(L) Revenue Recognition:

Ind AS 115 specifies a uniform, five-step model for revenue recognition, which is generally to be applied to all contracts with customers. Amounts disclosed as revenue net of customer returns, trade allowance, rebates, value added and other indirect taxes and amount collected on behalf of third parties.

Sale of Goods:

The Company recognizes revenue from sale of goods measured at the fair value of the consideration received or receivable, upon satisfaction of performance obligation which is at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods. Depending on the terms of the contract, which differs from contract to contract, the goods are sold on a reasonable credit term. As per the terms of the contract, consideration that is variable, according to Ind AS 115, is estimated at contract inception and updated thereafter at each reporting date or until crystallisation of the amount.

Sale of Services:

Sale of services are recognised on satisfaction of performance obligation towards rendering of such services.

Interest Income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable and dividend income from investments in shares is recognised when the owner's right to receive the payment is established.

(M) Government Grants:

The Company, directly or indirectly through a consortium of Mahindra Group Companies, is entitled to various incentives from government authorities in respect of manufacturing unit located in developing region. The Company accounts for its entitlement as income on an accrual basis.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Company recognises as expenses the related costs for which the grants are intended to compensate.

(N) Employee Benefits:

Defined Contribution Plan/Defined Benefit Plan/Long term Compensated Absences:

Company's contributions paid/payable during the year to Provident fund, Superannuation Fund, ESIC and Labour Welfare Fund are recognised in the Statement of Profit and Loss as and when the employee renders service.

Company's liability towards gratuity, long term compensated absences are determined by independent actuaries, using the projected unit credit method. Past services are recognised on a straight line basis over the average period until the benefits become vested. Actuarial gains and losses of gratuity liability are recognised immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Obligation is measured at the present value of estimated future cash flows using a discounted rate that is determined by reference to the market yields at the Balance Sheet date on Government Bonds where the currency and terms of the Government Bonds are consistent with the currency and estimated terms of the defined benefit obligation.

(O) Borrowing Costs:

Borrowing costs directly attributable to the acquisition or construction of assets that necessarily take a substantial period of time to get ready for their intended use, are capitalised as part of the cost of such assets. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(P) Taxes on Income:

Current tax is determined as the amount of tax payable in respect of taxable income for the year as determined in accordance with the applicable tax rates and the provisions of the Income Tax Act, 1961. Deferred tax is recognised, subject to consideration of prudence, on timing differences, being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities. Deferred tax assets are recognized to the extent that it is probable that future taxable income will be available against which the deductible temporary differences could be utilized.

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax against which the MAT paid will be adjusted.

(Q) Leases:

Transition:

Ministry of Corporate Affairs ("MCA") through Companies (Indian Accounting Standards) Amendment Rules, 2019 and Companies (Indian Accounting Standards) Second Amendment Rules, has notified Ind AS 116 Leases which replaces the existing lease standard, Ind AS 17 leases, and other interpretations. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, on-balance sheet lease accounting model for lessees. The Company has adopted modified retrospective approach where lease liability measured at present value of remaining lease payment discounted at the incremental borrowing rate at the date of initial application and right to use asset is equal to lease liability adjusted by the amount of any prepaid or accrued lease payments. The Company has adopted Ind AS 116 with effect from initially applying this standard from 1 April 2019.

At inception of a contract, the Company assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the lessor has a substantive substitution right, then the asset is not identified
- the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- the Company as a lessee has the right to direct the use of the asset. The Company has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the Company has the right to direct the use of the asset if either:
- the Company as a lessee has the right to operate the asset; or
- the Company as a lessee designed the asset in a way that predetermines how and for what purpose it will be used.
- This policy is applied to contracts entered into, or modified, on or after 1 April, 2019.

The Company as lessee:

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use assets are subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at amortised cost at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using the incremental borrowing rate.

It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Short-term leases and leases of low-value assets:

The Company has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term

The Company as lessor:

When the Company acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

The Company recognises lease payments received under operating leases as income on a straight- line basis over the lease term as part of 'other income'.

The Company as lessee :

Operating Leases :

For transition, the Company has elected not to apply the requirements of Ind AS 116 to leases which are expiring within 12 months from the date of transition by class of asset and leases for which the underlying asset is of low value on a lease-by-lease basis. The Company has also used the practical expedient provided by the standard when applying Ind AS 116 to leases previously classified as operating leases under Ind AS 17 and therefore, has not reassessed whether a contract, is or contains a lease, at the date of initial application, relied on its assessment of whether leases are onerous, applying Ind AS 37 immediately before the date of initial application as an alternative to performing an impairment review, excluded initial direct costs from measuring the right of use asset at the date of initial application and used hindsight when determining the lease term if the contract contains options to extend or terminate the lease. Single discount rate to a portfolio of leases with similar characteristics.

On application of Ind AS 116, the nature of expenses has changed from lease rent in previous periods to depreciation cost for the right-to-use asset, and finance cost for interest accrued on lease liability.

Finance Leases:

The Company has leases that were classified as finance leases applying Ind AS 17. For such leases, the carrying amount of the right-of-use asset and the lease liability at the date of initial application of Ind AS 116 is the carrying amount of the lease asset and lease liability on the transition date as measured applying Ind AS 17.

The Company as lessor:

The Company is not required to make any adjustments on transition to Ind AS 116 for leases in which it acts as a lessor, except for a sub-lease. The Company accounted for its leases in accordance with Ind AS 116 from the date of initial application. The Company does not have any significant impact on account of sub-lease on the application of this standard.

(R) Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of these cash flows (when the effect of the time value of money is material).

3 Recent accounting pronouncements

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013 revising Division I, II and III of Schedule III and are applicable from April 1, 2021. The amendments primarily relate to :

a) Change in existing presentation requirements for certain items in Balance sheet, for e.g. lease liabilities, security deposits, current maturities of long term borrowings, effect of prior period errors on Equity Share capital.

b) Additional disclosure requirements in specified formats, for eg. ageing of trade receivables, trade payables, capital work in progress, intangible assets, shareholding of promoters, etc.

c) Disclosure if funds have been used other than for the specific purpose for which it was borrowed from banks and financial institutions.

d) Additional Regulatory Information, for eg.,compliance with layers of companies, title deeds of immovable properties, financial ratios, loans and advances to key managerial personnel, etc.

e) Disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency.

The amendments are extensive and the Company is evaluating the same.

NOTE 34 – FINANCIAL INSTRUMENTS

CAPITAL MANAGEMENT

The Company's capital management objective is to maximise shareholder value, safeguard business continuity and support the growth of the Company by maintaining sound and optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio on a monthly basis. There is no change in the overall capital risk management strategy of the Company compared to last year.

The Company monitors the total capital as comprising of debt and equity. Debt includes all short term and long term debts. Equity comprises of total shareholders' equity as reported in the financial statements.

The Company is not subject to externally enforced capital regulation.

Total Capital of the Company is as follows:

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

(I) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. Financial instruments that are subject to credit risk, principally consist of trade receivables, investment in mutual funds and fixed deposits etc.

None of the financial instruments of the Company result in material concentrations of credit risks except trade receivables which mainly consists of receivable from Holding Company. There were no indications as at 31st March 2021 and 31st March 2020, that defaults in payment obligations will occur.

As the trade receivables are mainly from its holding Company, the Company does not expect any credit loss.

LIQUIDITY RISK

(I) Liquidity risk management

The Company has established an appropriate liquidity risk management framework for the management of short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and borrowing facilities, by continuously monitoring forecast and actual cash flows.

(II) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay the liabilities. The table include both interest and principal cash flows.

Rs. in Lakhs

Particulars	**Less than 1 Year**	**1-3 Years**	**3 Years to 5 Years**	**5 years and above**
Non-derivative financial liabilities

Total	**234,328**	**52,380**	**7,800**	**67,800**
31st March, 2020				
Fixed interest rate instruments	47,464	8,559	7,800	71,700
Non-interest bearing	112,716	16,445	–	–
Total	160,180	25,004	7,800	71,700

MARKET RISK:

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Future specific market movements cannot be normally predicted with reasonable accuracy.

There has been no significant changes to the company's exposure to market risk or the methods in which they are managed or measured.

Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's / Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

Details of foreign currency exposures that are not hedged by a derivative instrument or otherwise:

Particulars	Currency	Amount in foreign currency (in lakhs)		Equivalent amount (Rs. in lakhs)	
		31st March, 2021	31st March, 2020	**31st March, 2021**	31st March, 2020
Payables	USD	**63**	8	**4,641**	573
	KRW	**5,334**	7,653	**347**	473
	EURO	**35**	10	**3,024**	847
	GBP	*	*	*	*
	JPY	**3,974**	2,865	**2,638**	1,995
	CHF	*	*	*	*
	CNY	**2**	–	**22**	–
Receivables	USD	**8**	238	**552**	17,563

* amount less than 50,000

Foreign Currency Sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives and embedded derivatives. The impact on the Company's pre-tax equity is due to changes in the fair value of forward exchange contracts designated as cash flow hedges. The Company's exposure to foreign currency changes for all other currencies is not material.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is not exposed to the risk of changes in market interest rates as the Company does not have any long-term debt obligations with floating interest rates.

Other price risk

The Company is not exposed to equity price risks arising from equity investments. Equity investments are held for strategic rather than trading purposes. The Company does not actively trade these investments.

Total	–	78,851	–	78,851

NOTE 36 – EMPLOYEE BENEFITS

(A) Defined contribution plan

Amount recognised as an expense in the Statement of Profit and Loss is Rs. 1,050 Lakhs (31st March, 2020 - Rs.1084 Lakhs)

(B) Defined benefit plan

The defined benefit plans comprise of Gratuity.

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Interest Risk:

A decrease in government bond yields will increase plan liabilities.

Longevity Risk:

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary Risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

	5 Experience adjustments on plan assets	–	–	–	–	–

Rs. in Lakhs

(J)	Sensitivity of the defined benefit obligation to changes:		Change in assumption	Impact on defined benefit obligation increase/(decrease) Increase in assumption	Decrease in assumption
	1 Discount Rate	**2021**	**1%**	**(555)**	**692**
		2020	1%	(517)	644
	2 Salary Escalation (%)	**2021**	**1%**	**636**	**(524)**
		2020	1%	587	(484)
	3 Withdrawal Rate (%) (Others)	**2021**	**1%**	**(3)**	**1**
		2020	1%	(31)	36

Note:

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to previous period.

(K) Maturity profile of defined benefit obligation:

Rs. in Lakhs

	2021	2020
Within 1 year	**250**	312
1 - 2 year	**199**	208
2 - 3 year	**247**	226
3 - 4 year	**238**	277
4 - 5 year	**288**	282
5 year & Above	**1,604**	1,798

(L) The weighted average duration of the defined benefit obligation as at 31st March, 2021 is 20.95 years (31st March, 2020 - 20.91 years)

NOTE 37 –

The net difference in foreign exchange loss debited to the Statement of Profit and Loss is Rs. 169 Lakhs (31st March, 2020 - Loss of Rs. 703 Lakhs)

NOTE 38 –

Expenditure incurred on Corporate Social Responsibility (CSR) under Section 135 of the Companies Act, 2013 Rs. 1,156 lakhs (31st March 2020 : Rs. 1,276 lakhs).

NOTE 39 A –

The Company has elected to exercise the option with regards to the tax rate mentioned under section 115BAA of the Income-tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019. Accordingly, the Company has recognized Provision for Income Tax for the year ended 31 March 2020 and re-measured its Deferred Tax Liabilities basis the rate prescribed in the said section. The impact of this change amounting to Rs. 4,802 Lakhs has been recognized in the statement of Profit & Loss for the year ended 31 March 2020.

NOTE 39 B –

COVID-19, a new strain of Coronavirus, has spread globally, including India. The event significantly affects the economic activity worldwide. The impact of the COVID-19 on the Company's business will depend on future developments that cannot be reliably predicted, including actions to contain or treat the disease and mitigate its impact on the economy of the country, among others. The Company will closely monitor any material changes to future economic conditions due to this pandemic.

NOTE 39 C –

The Board of Directors of the Company at its meeting held on 29th May 2019, have approved the merger of the Company, with Mahindra & Mahindra Limited. The Appointed Date of the Scheme mentioned in the Scheme is 1st April 2019. The Hon'ble National Company Law Tribunal, Mumbai Bench ('NCLT'), basis its hearing held on 7th April,2021 and Pronouncement of Order on 26th April, 2021, has approved the Scheme of Merger. As per approval, the Scheme will be made effective upon last of the dates on which the conditions mentioned in Clause 20 (a) of the Scheme are satisfied. As conditions mentioned in the Scheme are not yet met, accordingly the Company has not given any impact of the transaction in the financial statements for the year ended 31 March 2021.

NOTE 40 – EXCEPTIONAL ITEM

(a) Exceptional items include income of Rs. 44,753 lakhs (31st March, 2020 : loss of Rs. 79,717 lakhs) towards the provision for impairment of investment in associate company measured as per the principles of Indian Accounting Standards.

(b) Exceptional items include Rs. 553 lakhs towards impairment in relation to certain capital work-in-progress which is damaged in transit net off insurance claim received.

(c) The Board of Directors of the Company vide its meeting held on 30th June 2020, had resolved to transfer the US Branch business of the Company to Mahindra Integrated Business Solutions Private Limited ('MIBS').

As mutually agreed between the Company and MIBS, the transaction has been effected on 01 January 2021 and consequently a gain of INR 4,678 lakhs on transfer of US branch has been recorded as Exceptional Item by the Company. As the overall US branch operations are not material for the Company, the same has not been disclosed as discontinued operations in the financial statements for the year ended 31 March 2021.

NOTE 41 – LEASES

Reconciliation of operating lease commitments as at March 31, 2019 with the lease liabilities recognized in the Balance Sheet as at April 1, 2019:

Particulars	Rs. in Lakhs
Operating lease commitment at March 31, 2019	1,840
Discounted using the incremental borrowing rate at April 1, 2019	1,210
Recognition exemption for:	
Short term leases, Leases of low value assets and Extension and termination options reasonably certain to be exercised	192
Lease liabilities recognised at April 1, 2019	1,017
Impact of adoption of Ind AS 116 on retained earnings:	–
Reversal of deferred rent liability as at March 31, 2019	–
Less: Reclassification of operating lease under Ind AS 17 'Leases' to right-of-use assets	–
Impact on retained earnings as at April 1, 2019	–

Rs. in Lakhs

Impact of adoption of Ind AS 116 on the statement of profit and loss	For the year ended on 31st March, 2021	For the year ended on 31st March, 2020
Interest on lease liabilities	**33**	47
Amortization on right of use assets	**758**	862
Deferred tax (credit)/Debit	**(18)**	(57)
Impact on the statement of profit and loss for the period	**773**	852

The Company has sublet few of the leased premises. Lease rental income under such non-cancellable operating lease during the year ended March 31, 2021 amounted to Rs. 536 lakhs (March 31, 2020 - Rs. 594 lakhs).

Particulars	As at 31st March, 2021	As at 31st March, 2020
Receivable – Not later than one year	**161**	166
Receivable – Later than one year and not later than five years	**18**	–

NOTE 44 – COMMITMENTS:

(a) Uncalled liability on equity shares partly paid Rs. 1,050 Lakhs (31st March, 2020 - Rs. 1,050 Lakhs)

(b) Company availed benefit under EPCG scheme worth Rs 6,471 lakhs during the financial year ended on 31st March 2021 (31st March 2020 - Rs. 2,562 Lakhs). The unfilled export obligation as at 31 March 2021 under the scheme is Rs. 54,198 lakhs (31st March 2020 - Rs. 15,372). The company expects to fulfill the export obligation within prescribed time limit as it is obliged under the scheme.

(c) Estimated amount of contracts remaining to be executed on capital account for tangible assets and not provided for Rs. 24,271 Lakhs (31st March, 2020 - Rs. 80,681 Lakhs) and intangible assets Rs. Nil (31st March 2020 - Rs. Nil)

NOTE 45 – CONTINGENT LIABILITY:

(a) Claims against the Company not acknowledged as debts - Excise duty & MSEDCL related : Rs. 4,127 lakhs (31st March 2020 - Rs. 1,836 lakhs).

NOTE 46 – SEGMENT REPORTING:

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses including revenues and expenses that relate to transactions with any of the Company's other components and for which discrete financial information is available. All operating segments' operating results are reviewed regularly by the Senior Management to make decisions about resources to be allocated to the segments and assess their performance.

The principle business of the Company is manufacture of passenger cars, medium and heavy commercial vehicles and construction equipment. Senior management of the Company monitors the operating results of the Company's business as a single segment. Accordingly in context of Ind AS 108 "Operating Segments", the principle business of the Company constitutes a single reportable segment and the major revenue is generated from manufacture of passenger cars, medium and heavy commercial vehicles and construction equipment. As per Management's perspective, the risk and returns from its sales do not materially vary geographically. Accordingly there are no other business / geographical segments to be reported under Ind AS 108.

Revenue of the Company is mainly sale of products to its holding company.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF,
MAHINDRA HEAVY ENGINES LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Mahindra Heavy Engines Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2021, and the Statement of Profit and Loss, (statement of changes in equity) and Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (the "ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors Report and the related annexures, but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial Statements, including the disclosures, and whether the financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-Section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
   (e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to financial Statements.
   (g) In our opinion, the managerial remuneration for the year ended March 31, 2021 has been paid / provided by the Company to its directors in accordance with the provisions of Section 197 read with Schedule V to the Act. Also refer paragraph (xi) of Annexure B to the Independent Auditors' Report.
   (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
      i. The Company has disclosed the impact of pending litigations on its financial position in its Financial Statements – Refer Note 29 to the Financial Statements;
      ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
      iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub-section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Mahindra Heavy Engines Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls with reference to financial statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2021, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

i. **In respect of its Fixed Assets**

a) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

b) The Company has a regular programme for physical verification of its property, plant and equipment by which the property, plant and equipment are verified by the management according to a phased programme designed to cover all the items over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment and investment properties. In accordance with the programme, the Company has physically verified certain property, plant and equipment and investment properties during the year and no material discrepancies were noticed on such verification.

c) According to the information and explanations given to us, the title deeds of immovable properties are held in the name of the Company.

ii. According to the information and explanations given to us, the inventory comprising of raw materials, work-in-progress, finished goods, stores and spares has been physically verified at reasonable intervals by the management during the year. In our opinion, coverage and procedure of such verification is appropriate and no material discrepancies for each class of inventory were noticed on such verification between the physical inventory and the book records. We have relied on confirmations and representations from third parties in case of inventory lying in their locations, wherever applicable.

iii. According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the reporting under Clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order is not applicable to the Company.

iv. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 186 of the Act with respect of unsecured loans granted by the Company. The Company has neither provided any guarantee and security nor made any investment during the year to the parties covered under Section 186 of the Act. The Company has not granted any loans to directors and hence compliance of provisions of section 185 is not applicable.

v. According to the information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under, where applicable. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

vi. The maintenance of cost records has been specified by the Central Government under sub-section (1) of Section 148 of the Act for the products of the Company. We have broadly reviewed the cost records maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended, prescribed by the Central Government under sub-section (1) of Section 148 of the Act and are of the opinion that, *prima facie*, the prescribed cost records have been made and maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

vii. (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services tax, Income Tax, Provident Fund, Employees' State Insurance, Cess and other material statutory dues have been generally regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of undisputed statutory dues in respect of Goods and Services tax, Provident fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the year for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Services Tax Service tax, Duty of Customs, Duty of Excise and Value Added Tax as at March 31, 2021, which have not been deposited with the appropriate authorities on account of any dispute. The statutory dues in respect of Income-tax, Service Tax and Sales Tax as at March 31, 2021, which have not been deposited with the appropriate authorities on account of a dispute, are as under:

Name of the statute	Nature of the dues	Amount (Rs in Lakhs)	Period to which the amount relates	Forum where dispute is pending
Income Tax Act,1961	Income Tax (Including Interest)	11.14	Assessment Year 2010-11	Assessing Officer
Finance Act, 1994	Service Tax	21.74	Financial year 2012-13 to 2016-17	Commissioner of Customs and Central Excise (Appeals)-Pune

Name of the statute	Nature of the dues	Amount (Rs in Lakhs)	Period to which the amount relates	Forum where dispute is pending
Central Sales Tax Act, 1956	Central sales tax	426.91	Financial Year 2015-16	Deputy commissioner of state tax
Central Sales Tax Act, 1956	Central sales tax	400.17	Financial Year 2016-17	Deputy commissioner of state tax

viii. According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has not taken any loans or borrowings from banks, debenture holders, financial institutions and Government. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

ix. According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) and term loans during the year. Accordingly, the reporting under Clause 3(ix) of the Order is not applicable to the Company.

x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the management.

xi. In our opinion, the managerial remuneration for the year ended March 31, 2021 has been paid / provided by the Company to its directors in accordance with the provisions of Section 197 read with Schedule V to the Act. Also refer paragraph 2(h) of Independent Auditors' Report.

xii. According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

xiii. In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures or Accounting Standard (AS) 18, Related Party Disclosures specified under Section 133 of the Act.

xiv. According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, the reporting under Clause 3(xiv) of the Order is not applicable to the Company.

xv. In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or directors of its holding company or persons connected with them during the year and hence the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

xvi. According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi) of the Order is not applicable to the Company.

Notes to the financial statements for the year ended March 31, 2021

Mahindra Heavy Engines Limited is subsidiary of Mahindra Vehicle Manufacturers Limited having Corporate Identity Number U35914MH2007PLC169753, having it's registered office at Mahindra Towers, Dr. G.M. Bhosale Marg, P.K. Kurne Road, Worli, Mumbai 400 018. The Company is in manufacturing and sales of Engines and other auto components for vehicles and Genset applications.

NOTE 1. - Significant Accounting Policies:

1.1 Statement of compliance:

The financial statements have been prepared in accordance with Ind AS as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 (the "Act").

1.2 Basis of preparation and presentation:

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

In addition, for the financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to fair value measurement in its entirety, which are described as follows:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

1.3. Property, Plant & Equipment:

Property, Plant & Equipment are carried at cost less depreciation. Cost is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of its acquisition and financing cost relating to borrowed funds attributable to the construction or acquisition of qualifying tangible assets upto the date the assets are ready for use.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in statement of profit or loss.

Depreciation is provided on straight-line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful lives. The estimated useful lives and residual values are reviewed annually and the effect of any changes in estimate is accounted for on a prospective basis.

The management's estimate of useful lives are in accordance with Schedule II to the Companies Act, 2013, other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, anticipated technological changes, manufacturers warranties and maintenance support, etc. :

Plant and Machinery	2 years, 5 years, 7 years, 8 years and 10 years
Vehicles	5 years
Roads	15 years
Assets below Rs. 5,000/-	1 year

1.4. Intangible Assets

Intangible assets acquired separately:

Intangible assets are initially recognised at cost.

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets under development

The Company expenses costs incurred during research phase to profit or loss in the year in which they are incurred. Eligible development phase expenses are initially recognised as intangible assets under development until the development phase is complete. Once the development phase is complete, the eligible development phase expenses are capitalised as intangible asset.

Technical Know-how fees:

The expenditure incurred on technical services and other project/product related expenses are amortised over the estimated period of benefit, not exceeding six years.

Software Expenditure:

The expenditure incurred is amortised over three financial years equally commencing from the year in which the expenditure is incurred.

Internally-generated intangible assets - Research and Development expenditure:

Expenditure on research activities are recognised as an expense in the period in which they are incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

Product Development Expenditure:

The expenditure incurred on product development expenditure expenses are amortised over the estimated period of benefit, not exceeding five years.

Notes to the financial statements for the year ended March 31, 2021

Derecognition of intangible assets:

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

1.5. Impairment:

The carrying amounts of assets are reviewed at each balance sheet date to determine whether there is any indication of impairment based on internal / external factors. Impairment loss is provided to the extent the carrying amount of assets exceeds their recoverable amount. Recoverable amount is the higher of an asset's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of an asset and from its disposal at the end of its useful life. Net selling price is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the cost of disposal.

1.6. Inventories:

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. In determining the cost of purchased materials moving average method is used. Cost of manufactured finished goods and work-in-progress are valued on absorption costing basis and includes appropriate proportion of overheads and, where applicable, excise duty. Stores, spares and tools are carried at cost or estimated net realisable value, whichever is lower.

1.7. Cash and cash equivalents (for purposes of Cash Flow Statement):

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short-term balances (with an original maturity of three months or less from the date of acquisition).

1.8. Investments:

Investments, which are readily realisable and intended to be held for not more than one year from the date on which such investments are made are classified as current investments. All other investments are classified as non-current investments.

1.9. Financial Instruments:

Financial assets and financial liabilities are recognised when a Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial Assets:

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place. All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets.

Financial assets at Fair value through profit or loss are measured at fair value at the end of each reporting period, with any gains or losses arising on re measurement recognised in profit or loss, The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in 'Other income'.

Financial liabilities and equity instruments:

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

1.10. Revenue Recognition:

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for rebates and other similar allowances.

Ind AS 115- Revenue from Contracts with Customers

Company adopted IND AS 115 - Revenue from contracts with customers w.e.f. 1st April 2018. In view of that, Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products or services. To recognize revenues, Company apply the following five step approach:

(1) identify the contract with a customer

(2) identify the performance obligations in the contract

(3) determine the transaction price

(4) allocate the transaction price to the performance obligations in the contract

(5) recognize revenues when a performance obligation is satisfied.

The Company applies judgement to determine whether each product or services promised to a customer are capable of being distinct, and are distinct in the context of the contract, if not, the promised product or services are combined and accounted as a single performance obligation. The Company allocates the arrangement consideration to separately identifiable performance obligation based on their selling price.

Interest income:

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding.

1.11. Goods and Services Tax :

GST duty payable on finished goods is accounted for upon transfer of goods to the customers.

1.12. Custom Duty:

Custom duty payable on imported goods is accounted for when the goods enter the Indian shores.

1.13. Government Grants and Other Incentives:

The Company, directly or indirectly through a consortium of Mahindra Group Companies, is entitled to various incentives from Government Authorities in respect of manufacturing unit located in developing region. The company accounts for it's entitlement on an accrual basis.

Government grants related to acquisition of depreciable assets are recognised as deferred revenue in the financial statements and are transferred to statement of Profit and Loss on a systematic and rational basis over the useful lives of the related assets.

1.14. Export Benefits:

Export benefits under various schemes of Government of India are accounted on accrual basis except when there is an uncertainty in respect of the entitlement.

1.15. Foreign exchange transactions:

Transactions in foreign currencies (Other than company's functional currency) are recorded at the exchange rates prevailing on the date of transaction. Monetary items are translated at the year-end rates. The exchange difference between the rate prevailing on the date of transaction and on the date of settlement as also on translation of Monetary items at the end of the year, is recognised as income or expense, as the case may be.

Notes to the financial statements for the year ended March 31, 2021

1.16. Employee Benefits:

(i) Defined Contribution Plan

The Company's contributions paid/payable during the year to Provident Fund and Superannuation Fund are considered as defined contribution plans and are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees.

(ii) Defined Benefit Plan / Leave encashment:

The Company's liability towards gratuity and leave encashment is determined using the projected unit credit method which considers each period of service as giving rights to an additional unit of benefit entitlement and measure each unit separately to build up the final obligation. Past services are recognised on straight line basis over the average period until the benefits become vested. Actuarial gains and losses are recognised immediately in the Statement of other comprehensive income as income or expense. Obligation is measured at the present value of estimated future cash flow using discounted rate i.e. determined by reference to the market yield at the Balance Sheet date on Government Bonds where the currency and terms of the Government Bonds are consistent with the currency and estimated terms of the defined benefit obligation.

(iii) Other Benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees is recognised during the period when the employee renders the service.

1.17. Borrowing Costs:

Borrowing costs that are attributable to the acquisition or construction of a qualifying asset are capitalised as part of such assets. A qualifying asset is one that necessarily takes a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised as an expense in the period in which they are incurred.

1.18. Taxes on Income:

Current tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Financial statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Current and deferred tax for the year:

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

1.19. Warranty:

Provision for warranty represents present value of management's best estimate of the future outflow of economic benefits that will be required in respect of sale of certain products, the estimated cost of which is accrued at the time of sale. Management estimates the related provision for future warranty claims based on historical warranty claim information and is adjusted regularly to reflect new information.

1.20. Segment Reporting:

The Company's business activity falls within a primary business segment namely manufacturing of Engines and other auto components and there is no reportable geographical segment.

1.21. Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Contingent liabilities are not recognised but are disclosed in the notes. Contingent assets are neither recognised nor disclosed in the financial statements.

1.22. Critical accounting judgements and key sources of estimation uncertainty :

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of useful lives of property, plant and equipment, obligations relating to employee defined benefits etc. Future results could differ due to these estimates and the differences between the actual results and the estimates are recognised in the periods in which the results are known / materialise.

1.23. Ind AS 116 Leases :

Ind AS 116 is replaced the existing leases standard, Ind AS 17 Leases. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases for both lessees and lessors. It introduces a single, onbalance sheet lessee accounting model for lessees. A lessee recognises right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. The standard also contains enhanced disclosure requirements for lessees.

Ind AS 116 substantially carries forward the lessor accounting requirements in Ind AS 17. The amendment is effective for annual periods beginning on or after 01st April 19.

*** Note:**

Represents cost reimbursed by the company towards ESOP's granted by the ultimate holding company, Mahindra & Mahindra Limited;

Certain employees of the Company are covered by Employee Stock Option Scheme (ESOP scheme) offered by Ultimate Holding Company, Mahindra & Mahindra Limited. Under the scheme, eligible employees are granted an option to purchase shares of Mahindra & Mahindra Limited, in accordance with the terms and conditions of the scheme.

The Company recognises this scheme as an equity settled share based payments arrangement in accordance with IND AS 102 - Share Based Payment. Options granted under Parent's ESOP scheme vests in

i) 5 equal instalments on the expiry of 12 Months, 24 Months, 36 Months, 48 Months and 60 Months from the date of grant.

OR

ii) 4 instalments bifurcated as 20% on the expiry of 18 months, 20% on the expiry of 30 months, 30% on the expiry of 42 months and

30% on the expiry of 54 months.

OR

iii) 3 instalments bifurcated as 33.33% on the expiry of 12 months, 33.33% on the expiry of 24 months and 33.34% on the expiry of 36 months.

The options may be exercised on any day over a period of 5 years from the date of vesting. Number of vested options exercisable is subject to a minimum of 50 or number of options vested whichever is lower.

Such ESOP expense in respect of employees of the Company is charged by the Ultimate Holding Company over the vesting period. The charge is based on fair value of options calculated using Black and Scholes Option Pricing Model. The fair value charge is recognized as share based payment expenses under Employee Benefit Expenses.

Capital management

The company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

The Concentration of credit risk is limited due to the fact that the customer base comprises largely of Mahindra group entities.

Notes to the financial statements for the year ended March 31, 2021

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following table details the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the table have been drawn up based on the non-discounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Rs. In Lakhs

Particulars	Less than 1 year	1 year to 3 years	3 years to 5 years	5 years and above
Non-derivative financial liabilities				
As at March 31, 2021				
Non-interest bearing	**19,618.30**	–	–	–
Variable interest rate instruments	–	–	–	–
Fixed interest rate instruments	–	–	–	–
	19,618.30	–	–	–
As at March 31, 2020

Variable interest rate instruments	–	–	–	–
Fixed interest rate instruments	–	–	–	–
	14,497.06	–	–	–

(iii) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Rs. In Lakhs

Particulars	Less than 1 year	1 year to 3 years	3 years to 5 years	5 years and above
Non-derivative financial assets				
As at March 31, 2021				
Non-interest bearing	**29,025.89**	21,774.28	–	5.25
Variable interest rate instruments	**1,552.59**	–	–	–
Fixed interest rate instruments	**244.17**	**79.95**	**33.49**	**10.52**
Total	**30,822.65**	**21,854.23**	**33.49**	**15.77**

Rs. In Lakhs

Particulars	Less than 1 year	1 year to 3 years	3 years to 5 years	5 years and above
As at March 31, 2020				
Non-interest bearing	14,300.54	1,022.16	–	5.25
Variable interest rate instruments	–	–	–	–
Fixed interest rate instruments	128.24	83.10	15.69	–
	14,428.78	1,105.26	15.69	5.25

The amounts included above for variable interest rate instruments for both non-derivative financial assets and liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

MARKET RISK

Currency Risk

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Company's exposure to currency risk relates primarily to the Company's operating activities when transactions are denominated in a different currency from the Company's functional currency.

The carrying amounts of the Company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows.

Rs. In Lakhs

Particulars	Currency	As at March 31, 2021	As at March 31, 2020
Trade Receivables	USD	**0.01**	0.57
	INR	**0.46**	43.16
Trade Payables	USD	**3.33**	2.99
	INR	**245.31**	225.64
	EUR	**0.25**	0.45
	INR	**21.17**	37.41
	KRW	**–**	299.12
	INR	**–**	18.49

Of the above foreign currency exposures, the following exposures are not hedged by a derivative:

Rs. In Lakhs

Particulars	Currency	As at March 31, 2021	As at March 31, 2020
Trade Receivables	USD	**0.01**	0.57
	INR	**0.46**	43.16
Trade Payables	USD	**3.33**	2.99
	INR	**245.31**	225.64
	EUR	**0.25**	0.45
	INR	**21.17**	37.41
	KRW	**–**	299.12
	INR	**–**	18.49

Foreign Currency Sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD, EUR, and KWR exchange rates, with all other variables held constant. The impact on the Company's profit before tax is due to changes in the fair value of monetary assets and liabilities including non-designated foreign currency derivatives and embedded derivatives.

Notes to the financial statements for the year ended March 31, 2021

Rs. In Lakhs

Particulars	Currency	Change in rate	Effect on profit/(loss) before tax
As at March 31, 2021	**USD**	**10%**	**(24.48)**
		(10%)	**24.48**
	EUR	**10%**	**(2.12)**
		(10%)	**2.12**
	KWR	**10%**	**–**
		(10%)	**–**
As at March 31, 2020	USD	10%	(18.25)
		(10%)	18.25
	EUR	10%	(3.74)
		(10%)	3.74
	KRW	10%	(1.85)
		(10%)	1.85

In management's opinion, the sensitivity analysis is unrepresentative of the inherent foreign exchange risk because the exposure at the end of the reporting period does not reflect the exposure during the year.

Interest rate risk

Interest rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for non-derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate loans and borrowings, as follows:

Rs. In Lakhs

Particulars	Currency	Increase/ (decrease) in basis points	Effect on profit/(loss) before tax
31-Mar-21	**INR**	**100**	**–**
	INR	**(100)**	**–**
31-Mar-20	INR	100	–
	INR	(100)	–

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Notes to the financial statements for the year ended March 31, 2021

Note No. 27 - Employee benefits

(a) Defined Contribution Plan

The Company makes Provident Fund and Superannuation Fund contributions to defined contribution plans for qualifying employees. Under the Schemes, the Company is required to contribute a specified percentage of the payroll costs to fund the benefits. Amount recognised as an expense in the Statement of Profit and Loss is Rs. 133.21 Lakhs. (Previous year Rs. 134.33 Lakhs).

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

1) Liability Risks

a. Asset-Liability Mismatch Risk:

Risk which arises if there is a mismatch in the duration of the assets relative to the liabilities. By matching duration with the defined benefit liabilities, the company is successfully able to neutralize valuations wings caused by interest rate movements. Hence companies are encouraged to adopt asset-liability management.

b. Discount Rate Risk:

Variations in the discount rate used to compute the present value of the liabilities may seem small, but in practise can have a significant impact on the defined benefit liabilities.

c. Future Salary Escalation and Inflation Risk:

Since price inflation and salary growth are linked economically, they are combined for disclosure purposes. Rising salaries will often result in higher future defined benefit payments resulting in a higher present value of liabilities especially unexpected salary increases provided at management's discretion may lead to uncertainties in estimating this increasing risk.

2) Asset Risks

All plan assets are maintained in a trust fund managed by a public sector insurer viz; LIC of India.LIC has a sovereign guarantee and has been providing consistent and competitive returns over the years.

The company has opted for a traditional fund where in all assets are invested primarily in risk averse markets. The company has no control over the management of funds but this option provides a high level of safety for the total corpus. A single account is maintained for both the investment and claims settlement and hence 100% liquidity is ensured. Also interest rate and inflation risk are taken care of.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	**As per March 31, 2021**	As per March 31, 2020
Discount rate	**6.90%**	6.85%
Expected rate of salary increase		
Officers	**9.00%**	9.00%

V. Actuarial assumptions		
1. Discount rate	**6.90%**	6.85%
2. Expected rate of return on plan assets	**6.85%**	7.80%
3. Attrition rate		
Officers	**10.00%**	11.00%
Associates	**0.00%**	0.00%
4. Medical premium inflation	**NA**	NA

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Rs. In Lakhs

Principal assumption	Year ended	Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Impact on defined benefit obligation: Decrease in assumption
Discount rate	As at March 31, 2021	1%/-1%	(366.61)	470.76
	As at March 31, 2020	1%/-1%	(376.47)	476.87
Salary growth rate	As at March 31, 2021	1%/-1%	465.33	(370.04)
	As at March 31, 2020	1%/-1%	471.38	(380.03)

Rs. In Lakhs

Principal assumption	Year ended	Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Impact on defined benefit obligation: Decrease in assumption
Withdrawal rate	As at March 31, 2021	1%/-1%	(409.70)	417.58
	As at March 31, 2020	1%/-1%	(417.81)	425.69

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

The Company expects to contribute Rs. 30 Lakhs to the gratuity trusts during the next financial year ending March 31, 2022.

Mortality : It is assumed that the active members of the scheme will experience in-service mortality in accordance with the Indian Assured Lives Mortality (2012-14) ultimate (IALM ult). A sample pick from this table is given below:

Age	Mortality rate
21	0.093%
22	0.094%
23	0.094%
24	0.093%
25	0.093%

INDEPENDENT AUDITOR'S REPORT

To the Members of Mahindra Electric Mobility Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Mahindra Electric Mobility Limited** ("the Company"), which comprises the balance sheet as at 31 March 2021, and the statement of profit and loss (including other comprehensive income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and loss and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Report of the Board of Directors, but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs, profit / loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we

are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the financial statements made by the Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. (A) As required by Section 143(3) of the Act, we report that:

   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books

   c) The balance sheet, the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows dealt with by this Report are in agreement with the books of account.

   d) In our opinion, the aforesaid financial statements comply with the Ind AS specified under section 133 of the Act.

   e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors are disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

   f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

   (B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

   i. The Company has disclosed the impact of pending litigations as at 31 March 2021 on its financial position in its financial statements - Refer Note 17 and 35 to the financial statements;

   ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

   iii. There were no amounts which were required to be transferred, to the Investor Education and Protection Fund by the Company.

   iv. The disclosures in the financial statements regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2021.

   (C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE - A TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF MAHINDRA ELECTRIC MOBILITY COMPANY LIMITED FOR THE YEAR ENDED 31 MARCH 2021

With respect to the Annexure A referred to in paragraph 1 under Report on Other Legal and Regulatory Requirements of the Independent Auditors' Report to the members of the Company on the IND AS financial statements for the year ended 31 March 2021, we report that:

(i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) The Company has a regular programme of physical verification of its fixed assets by which all fixed assets are verified in a phased manner over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, certain fixed assets were physically verified during the year. No material discrepancies were noticed on such verification. For fixed assets lying with third parties at the year end, the Company has obtained confirmations on a sample basis and no material discrepancies were observed between the confirmations and the books of accounts.

(c) In our opinion and according to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties included in property, plant and equipment are held in the name of the Company.

(ii) The inventory, except goods-in-transit, has been physically verified by the management during the year. In our opinion, the frequency of such verification is reasonable. The discrepancies noticed on verification between the physical stock and the book records were not material. For stocks lying with third parties at the year-end, written confirmations have been obtained by the management.

(iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013 ('the Act'). Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company.

(iv) According to the information and explanations given to us, there are no loans, investments, guarantees and security given in respect of which provisions of section 185 and 186 of the Act are applicable. Accordingly, the provisions of clause 3(iv) of the Order are not applicable to the Company.

(v) The Company has not accepted any deposits from the public. Accordingly, the provisions of clause 3(v) of the Order are not applicable to the Company.

(vi) The Central Government has not prescribed the maintenance of cost records under Section 148 of the Act for any of the products manufactured/services rendered by the Company.

(vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted / accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, duty of customs, goods and services tax, cess and any other material statutory dues have been generally regularly deposited during the year by the Company with the appropriate authorities.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, employee state insurance, income-tax, duty of customs, goods and services tax, cess and any other material statutory dues were in arrears, as at 31 March 2021, for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us, there are no dues of duty of customs or duty of excise which have not been deposited by the Company on account of disputes, except as mentioned in the below table. As explained to us, there were no dues of income tax or goods and service tax which have not been deposited by the Company on account of disputes.

Name of statue	Nature of dues	Amount (INR)	Period to which the amount relates	Forum where dispute is pending
Central Excise Act, 1944	Duty of Excise	5,142,000	AY 2009 -2011	High Court of Karnataka
Central Excise Act, 1944	Duty of Customs	9,600,000	AY 2016-2017	CESTAT

(viii) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of loans or borrowings to banks and Government. The Company did not have dues to financial institutions and debenture holders during the year.

(ix) According to the information and explanations given to us and based on examination of the records of the Company, the term loans were applied for the purpose for which they were obtained. The Company has not raised any money by way of initial public offer or further public offer (including debt instruments) during the year.

(x) According to the information and explanations given to us, no material fraud on the Company by its officers and employees or fraud by the Company has been noticed or reported during the course of our audit.

(xi) According to the information and explanations given to us and based on examination of the records of the Company, the Company has paid/provided managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

(xii) In our opinion and according to the information and explanations given to us, the Company is not a Nidhi Company. Accordingly, clause 3(xii) of the Order is not applicable to the Company.

(xiii) According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Act, where applicable, and details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not made preferential allotment or private placement of shares or fully or partly convertible debentures during the year.

(xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, clause 3(xv) of the Order is not applicable to the Company.

(xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Accordingly, clause 3(xvi) of the Order is not applicable to the Company.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS OF MAHINDRA ELECTRIC MOBILITY COMPANY LIMITED FOR THE YEAR ENDED 31 MARCH 2021

Report on the internal financial controls with reference to the aforesaid financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra Electric Mobility Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

 # Refer Note 33

Nature and purpose of Reserves

(a) Securities Premium

Securities premium is used to record the premium on issue of shares. The reserve is utilised in accordance with the provisions of section 52 of the Companies Act, 2013.

(b) Share options outstanding Account

The share options outstanding account is used to recognise the grant date fair value of options during the vesting period issued under Mahindra Electric Mobility Limited ESOP Scheme ('MEML ESOP - 2017').

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1. Reporting Entity

Mahindra Electric Mobility Limited ('the Company') is engaged in design and manufacture of electrically powered vehicles and design and development of related technology for end use vehicles. The marketing of the vehicles is done through a network of dealers in India and abroad.

The Company is an unlisted public limited company domiciled in India and is incorporated under the provisions of the Indian Companies Act. The registered office of the Company is located at Mahindra Tower, Dr. G.M. Bhosale Marg, P.K. Kurne Chowk, Worli, Mumbai – 400018, Maharashtra.

The Company's Holding Company is Mahindra Vehicle Manufacturers Limited ("the Holding Company) and the Ultimate Holding Company is Mahindra & Mahindra Limited ("the Ultimate Holding Company").

2.1. Statement of compliance

These IND AS financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013 ('the Act') and other relevant provisions of the Act.

In the Board of Directors meeting held on 10 May 2021, the Board has approved to issue these IND AS financial statements to shareholders of the Company.

2.2. Basis of preparation

a) Basis of measurement

The IND AS financial statements have been prepared on the historical cost convention and on an accrual basis except for the following items:

Items	Measurement basis
Certain financial assets	Fair value / Amortized cost
Liabilities for equity-settled share-based payments	Fair value
Net defined benefit liability	Present value of defined benefit obligations

b) Functional and presentation currency

These IND AS financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

c) Going concern

The Company has incurred a loss after tax of Rs. 10,713 Lakhs during the current year, incurred losses during the previous years and has resultant accumulated losses of Rs. 90,174 Lakhs as at 31 March 2021. The Company's current liabilities have exceeded its current assets by INR 3,097 Lakhs as at 31 March 2021. On 26 March 2021, the Company's Ultimate Holding Company has passed a resolution according its in-principle approval for consolidation of the Company with its Ultimate Holding Company either by way of a scheme of merger or demerger or by other appropriate means. The Company's management after considering the above indicators, has carried out an assessment of its going concern status and based on the below mentioned considerations, believe that the going concern assumption is appropriate:

i) the Company has received continued support for the past several years from the Holding Company, Mahindra Vehicle Manufacturers Limited ("MVML"), through equity infusion. The Holding Company and the Ultimate Holding Company are committed to provide continuing financial support to the Company including meeting of its debt obligation, should the need arise for a period of at least 1 year from the Balance Sheet date i.e. 31st March, 2021; and

ii) the Company or as a consolidated Division of the Ultimate Holding Company, is likely to scale up its operations in the 3-wheeler and 4-wheeler segments thereby generating additional cash flows to partially fund its requirements.

Also refer note 41.

d) Use of estimates and judgements

In preparing these IND AS financial statements, management has made judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Information about assumptions, estimation uncertainties and judgements that have a significant risk of resulting in a material adjustment in the year ended 31 March 2021 are included in the following notes:

Particular	Assumptions, estimation uncertainties and judgements
Note 2.3 (c)	- Intangible assets: whether the Company recognises the expenditure incurred on technology development as an intangible asset or as an operating expense.
Note 2.3 (b) and (c)	- Useful lives of Property, plant and equipment and intangible assets.
Note 2.3 (d)	- Impairment of financial assets and non-financial assets: key assumptions over expected credit losses associated with its assets carried at amortised cost. Assumption on discount rate.
Note 2.3 (d)	- Impairment of non-financial assets: key assumptions underlying recoverable value.
Note 2.3 (e)	- Measurement of transaction price for the contract and to ascribe the transaction price to each distinct performance obligation. Determining whether the performance obligation is satisfied at a point in time or over a period of time. Judgement to estimate the future cost-to-completion of the contracts which is used to determine the degree of completion of the performance obligation.
Note 2.3 (g)	- Measurement of defined benefit obligations: key actuarial assumptions.
Note 2.3 (h)	- Assessment of lease term and the applicable discount rate.
Note 2.3 (i)	- Recognition of deferred tax assets: availability of future taxable profit against which tax losses carried forward can be used.
Note 2.3 (k)	- recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources.

e) Measurement of fair values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values. Significant valuation issues, if any, are reported to the Company's Management.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

– Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

– Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

– Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 2.3 (g) - Share-based payment transactions.
- Note 2.3 (p) - Financial instruments.

2.3 Significant accounting policies

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b) Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. This applies mainly to components for machinery. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement, if the recognition criteria, are satisfied.

Subsequent expenditure related to an item of property, plant and equipment is added to its book value only if it increases the future benefits from its previously assessed standard of performance. All other expenses on existing property, plant and equipment, including day-to-day repair and maintenance expenditure and cost of replacing parts, are charged to the statement of profit and loss for the period during which such expenses are incurred.

Borrowing costs directly attributable to acquisition of property, plant and equipment which take substantial period of time to get ready for its intended use are also included to the extent, these relate to the period till such assets are ready to be put to use.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date are classified as capital advances under other non-current assets. Costs of assets not ready for use at the balance sheet date are disclosed under capital work-in-progress.

An item of property, plant and equipment and any significant part initially recognized is de-recognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit or loss when the Property, plant and equipment is de-recognized.

Depreciation

Depreciation is calculated on a straight-line basis over the estimated range of useful lives of the assets as follows:

Class of assets	Management estimate of useful life in years	Useful life as per Schedule II
Factory Buildings	30	30
Plant & Machinery*	5 to 15	10 to 15
Tools & Fixtures*	8	NA
Office equipment*	3 to 5	5
Computer equipment	3 to 6	3 to 6
Furniture & Fixtures	10	10
Vehicles*	5	8
Batteries*	3 to 5	NA

Leasehold improvements are amortized over the lease term or useful lives of assets, whichever is lower.

* The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of plant and machinery, tools and fixtures, office equipment, vehicles and batteries over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

c) Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost and carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

Development expenditure on an individual project is recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale;

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

- Its intention to complete and its ability and intention to use or sell the asset;
- How the asset will generate future economic benefits;
- The availability of resources to complete the asset; and
- The ability to measure reliably the expenditure during development.

During the period of development, the asset is tested for impairment annually.

Intangible assets are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

The Management estimates the useful lives for its intangible assets as follows:

Class of assets	Useful life estimated (in years)
Product development	5
Computer software	4

Derecognition

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

d) Impairment

i. Impairment of financial assets

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument.

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

Measurement of expected credit losses

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

Presentation of allowance for expected credit losses in the balance sheet

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

Write-off

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off.

ii. Impairment of non-financial assets

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU (or an individual asset) is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU (or the asset).

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in statement of profit and loss.

In respect of assets for which impairment loss has been recognised in prior periods, the Company reviews at each reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

e) Revenue recognition

The Company recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. A 5-step approach is used to recognise revenue as below:

Step 1: Identify the contract(s) with a customer.

Step 2: Identify the performance obligation in the contract.

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time. The Company considers indicators such as how customer consumes benefits as services are rendered or who controls the asset as it is being created or existence of enforceable right to payment for performance to date and alternate use of such product or service, transfer of significant risks and rewards to the customer, acceptance of delivery by the customer, etc.

Sale of goods

Revenue from the sale of goods is recognised upon transfer of control of promised goods. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. The Company provides normal warranty provisions

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

for general repairs on all its products sold, in line with the industry practice. A liability is recognised at the time the product is sold.

Rendering of services

Arrangements with customers for development of technology and engineering services are on a fixed-price and fixed-time frame basis. Revenue from these contracts, where the performance obligations are satisfied over time and where there is no uncertainty as to measurement or collectability of consideration, is recognised as per the percentage-of-completion method. When there is uncertainty as to measurement or ultimate collectability, revenue recognition is postponed until such uncertainty is resolved. Costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Revenue in excess of invoicing are classified as contract assets (referred as unbilled revenue) while invoicing in excess of revenues are classified as contract liabilities (referred as deferred revenues).

Deferred contract costs are incremental costs of obtaining a contract which are recognized as assets and amortized over the term of the contract.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. The accounting for modifications of contracts involves whether the services added to an existing contract are distinct and whether the pricing is at the standalone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract, if the additional services are priced at the standalone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the standalone selling price.

Interest income

For all debt instruments measured either at amortised cost or at fair value through other comprehensive income, interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability.

When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses. Interest income is included in other income in the statement of profit and loss.

f) Foreign currency transactions

Transactions in foreign currency are translated to the functional currency at the exchange rates at the dates of the transaction or an average rate, if the average rate approximates the actual rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency using exchange rate prevalent at the each Balance Sheet date.

Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated in to the functional currency at the exchange rate when the fair value was determined. Non-monetary assets and liabilities that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Exchange differences are recognised in statement of profit and loss of the period in which the transaction is settled.

g) Employee benefits

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

The Company operates a defined benefit gratuity plan which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined on the basis of on actuarial valuation at the year end, using the projected unit credit method.

Long-term compensated absences are provided for based on the actuarial valuation carried out at year-end using the projected unit credit method.

Gains and losses through re-measurements of the net defined benefit liability/ (asset) are recognized in other comprehensive income and are not reclassified to profit or loss in a subsequent period. Further, as required under Ind AS compliant Schedule III, the Company transfers those amounts recognised in other comprehensive income to retained earnings.

Share based payment transactions

The grant date fair value of equity settled share-based payment awards granted to employees is recognised as an employee benefit expense, with a corresponding increase in equity, over the period that the employees unconditionally become entitled to the awards. The amount recognised as expense is based on the estimate of the number of awards for which the related service are expected to be met, such that the amount ultimately recognised as an expense is based on the number of awards that do meet the related service conditions at the vesting date.

h) Leases

As a lessee

The Company recognises a right-of-use asset and a lease liability at the lease commencement date. The right of use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct cost incurred and an estimate of cost to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life or the end of the lease term. The estimated useful life of the right-of-use assets are determined on the same basis as those of property, plant and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Company's incremental borrowing rate. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payment of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the Company as lessee are classified as operating leases. Payments made under operating leases (net of

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease unless the payments are structured to increase in line with expected general inflation to compensate for the lessor's expected inflationary cost increases.

As a lessor

Lease income from operating leases, where the Company is a lessor, is recognised as income on a straight-line basis over the lease term.

Short-term leases and leases of low-value assets

The Company has elected not to recognise right-of use assets and lease liabilities for leases of low value assets and short-term leases. The Company recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

i) Income taxes

Income tax comprises current and deferred tax. It is recognised in statement of profit and loss except to the extent that it relates to a business combination or to an item recognised directly in equity or in other comprehensive income.

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. Minimum Alternative Tax ('MAT') under the provisions of the Income-tax Act, 1961 is recognised as current tax in the statement of profit and loss. The amount of current tax reflects the best estimate of the tax amount expected to be paid or received after considering the uncertainty, if any, related to income taxes. It is measured using tax rates (and tax laws) enacted or substantively enacted by the reporting date.

Current tax assets and current tax liabilities are offset only if there is a legally enforceable right to set off the recognised amounts, and it is intended to realise the asset and settle the liability on a net basis or simultaneously.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes. Deferred tax is also recognised in respect of carried forward tax losses and tax credits.

Deferred tax assets are recognised to the extent that it is probable that future taxable profits will be available against which they can be used. The existence of unused tax losses is strong evidence that future taxable profit may not be available. Therefore, in case of a history of recent losses, the Company recognises a deferred tax asset only to the extent that it has sufficient taxable temporary differences or there is convincing other evidence that sufficient taxable profit will be available against which such deferred tax asset can be realised. Deferred tax assets unrecognised or recognised, are reviewed at each reporting date and are recognised/ reduced to the extent that it is probable/ no longer probable respectively that the related tax benefit will be realised.

Deferred tax is measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on the laws that have been enacted or substantively enacted by the reporting date

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

j) Earnings/ (loss) per share

The basic earnings / (loss) per share ('EPS') is computed by dividing the net profit / (loss) after tax for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

The number of shares used in computing diluted earnings per share comprises the weighted average number of shares considered for deriving basic earnings per share and also the weighted average number of equity shares that could have been issued on the conversion of all dilutive potential equity shares. Dilutive potential equity shares are deemed converted as of the beginning of the period unless issued at a later date. In computing dilutive earning per share, only potential equity shares that are dilutive i.e. which reduces earnings per share or increases loss per share are included.

k) Provisions and contingent liabilities

General

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Warranty provision

Provisions for warranty-related costs are recognised when the product is sold or service provided to the customer.

Initial recognition is based on historical experience. The initial estimate of warranty-related costs is revised annually.

Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the IND AS financial statements.

l) Inventories

Inventories are valued at the lower of cost and net realisable value. Cost of inventories comprises purchase price, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. In determining the cost, weighted average cost is used. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs to sell. The comparison of cost and net realizable value is made on an item-by-item basis.

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

Inventories are stated net of write down or allowances on account of obsolescence, damage or slow moving items.

The method of determination of cost is as follows:

- Raw materials and components – on a weighted average basis
- Stores and spares – on a weighted average basis
- Work-in-progress – raw material costs and costs of conversion
- Finished goods – raw material costs and costs of conversion
- Goods in transit – at purchase cost

The provision for inventory obsolescence is assessed periodically and is provided as considered necessary.

m) Statement of cash flows

Cash flows are reported using the indirect method, whereby net profit / (loss) before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the Company are segregated based on the available information.

n) Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

o) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

p) Financial instruments

a. Non-derivative Financial Instruments

i. Recognition and initial measurement

Trade receivables and debt securities issued are initially recognised when they are originated. All other financial assets and financial liabilities are initially recognised when the Company becomes a party to the contractual provisions of the instrument.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue

ii. Classification and subsequent measurement

Financial assets

On initial recognition, a financial asset is classified as measured at either at amortised cost, FVTPL or fair value in other comprehensive income (FVOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI (designated as FVOCI – equity investment). This election is made on an investment by investment basis.

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Financial assets: Business model assessment

The Company makes an assessment of the objective of the business model in which a financial asset is held at investment level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for each of such investments and the operation of those policies in practice;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

- contingent events that would change the amount or timing of cash flows;

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

- terms that may adjust the contractual coupon rate, including variable interest rate features;
- prepayment and extension features; and
- terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

Financial assets: Subsequent measurement and gains and losses

Financial assets at FVTPL - These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in the statement of profit and loss.

Financial assets at amortised cost - These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in statement of profit and loss. Any gain or loss on derecognition is recognised in the statement of profit and loss.

Equity investments at FVOCI - These assets are subsequently measured at fair value. Dividends are recognised as income in the statement of profit and loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are not reclassified to the statement of profit and loss.

Financial liabilities: Classification, subsequent measurement and gains and losses

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in the statement of profit and loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in the statement of profit and loss. Any gain or loss on derecognition is also recognised in the statement of profit and loss.

iii. Derecognition

Financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

Financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire.

The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in the statement of profit and loss.

iv. Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

b. Derivative financial instruments:

The Company enters into derivative financial instruments, primarily foreign exchange forward contracts to manage its borrowing exposure to foreign exchange. The counterparty for these contracts is generally a bank.

Although the Company believes that these derivatives constitute hedges from an economic perspective, they may not qualify for hedge accounting under Ind AS 109, Financial Instruments. Any derivative that is either not designated a hedge or is so designated but is ineffective as per Ind AS 109, is categorized as a financial asset or financial liability, at fair value through profit or loss.

Derivatives not designated as hedges are initially recognized at fair value at the date, the contracts are entered into and are subsequently remeasured to their fair value at the end of each reporting period. The resulting gain/ loss is recognized in the Statement of profit and loss. Assets/ liabilities in this category are presented as current assets/current liabilities if they are either held for trading or are expected to be realized within 12 months after the balance sheet date.

2.4 Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 1, 2021.

During the year, the Company has allotted 3,75,021 (31 March 2020 : 98,090) shares pursuant to the options exercised by the eligible employees under the Mahindra Electric Mobility Limited ESOP Scheme ('MEML ESOP - 2017'). Also refer note 33.

b. Rights, preference and restrictions attached to:

Equity shares of Rs. 10 each

The Company has a single class of equity shares. Accordingly, all equity shares rank equally with regard to dividends and share in the Company's residual assets. The equity shares are entitled to receive dividend as declared from time to time. The voting rights of an equity shareholder on a poll (not on show of hands) are in proportion to its share of the paid-up equity capital of the Company. Voting rights cannot be exercised in respect of shares on which any call or other sums presently payable have not been paid.

On winding up of the Company, the holders of equity shares will be entitled to receive the residual assets of the Company, remaining after distribution of all preferential amounts in proportion to the number of equity shares held.

Share based payments

Terms attached to stock options granted to employees are described in Note 33 on 'Employee Share Based Payment Plan'.

Total	**2,419**	550

Warranties

A provision is recognised for expected warranty claims on products sold during the last three years, based on past experience of the level of repairs and claims. It is expected that these costs will be incurred within three years after the reporting date. Assumptions used to calculate the provision for warranties are based on current sales levels and current information available about claims based on the three-year warranty period for all products sold.

* It represents provision for amount linked to sales under certain technology agreement. These amounts are disputed by the Company and the quantum of actual payment is likely to be decided only upon final settlement of the matter with concerned vendor.

Financial liabilities			
Measured at amortised cost			
Borrowings	16	**35,704**	14,201
Trade Payables	18	**6,529**	6,307
Other Financial Liabilities	19	**4,511**	5,853
Total Financial Liabilities		**46,744**	26,361

Particulars	Amount	Level 1	Level 2	Level 3
Financial Liabilites at fair value through profit and loss				
Marked to market loss on forward contracts	101	–	101	–

29.01 Fair value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There have been no transfers among Level 1, Level 2 and Level 3 during the year.

The Company has not separately disclosed the fair values for financial assets and liabilities because their carrying amounts are a reasonable approximation of the fair value.

29.02 Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the risk management framework. The Company's management oversees how management monitors compliance with the risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The management is assisted in its oversight role by internal audit. Internal audit undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the Board.

29.03 Financial Risk Management Objective And Policies

The Company's principal financial liabilities comprise borrowings, trade payables and other liabilities. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade receivables and cash.

The Company is exposed to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The note presents information about the Company's exposure to each of the above risks, the Company's objectives, policies and processes for measuring and managing risk, and the Company's management of capital. Further quantitative disclosures are included throughout these Ind AS financial statements.

29.04 Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations resulting in a financial loss to the Company. Credit risk arises principally from the Company's trade receivables. Credit risk arises from cash held with banks and financial institutions as well as credit exposure to clients, including outstanding accounts receivable. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The objective of managing counterparty credit risk is to prevent losses in financial assets. The Company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

The Company's trade and other receivables are actively monitored to review credit worthiness of the customers to whom credit terms are granted and also avoid significant concentrations of credit risks.

Given below is ageing of gross trade receivable spread by period of six months:

(Rs. in lakhs)

Particulars	31 March 2021	31 March 2020
Outstanding for more than 6 months	**928**	290
Others	**1,689**	4,539
Total:	**2,617**	4,829

The Company continuously monitors receivables from customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls.

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counter-parties that have a good credit rating. The Company does not expect any losses from non-performance by these counter-parties, and does not have any significant concentration of exposures to specific industry section.

Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks and financial institutions with high credit ratings assigned by international and domestic credit rating agencies.

Information about major customers

Revenue from single external customer is approximately Rs. 6,085 lakhs (31 March 2020: Rs. 11,116 lakhs) representing 30% (31 March 2020: 41%) of Company's total revenue from operations for the year ended 31 March 2021. Receivables from single external customer is approximately Rs. 716 lakhs (31 March 2020: Rs. 3,127 lakhs) representing 48% (31 March 2020: 70%) of Company's total receivables (after allowance for external credit loss) as at 31 March 2021. Apart from the aforesaid single customer, the Company does not have a significant credit risk exposure to any other single counterparty.

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

29.05 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company has an appropriate liquidity risk management framework for the management of short, medium and long term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate cash reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Typically the Company ensures that it has sufficient cash on demand to meet expected operational expenses for a period of 60 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

As of 31 March 2021, the Company has a working capital of Rs. 3,097 lakhs (Negative) (31 March 2020: Rs. 3,331 lakhs (Negative)), including Book Overdraft of Rs. Nil (31 March 2020: Rs. 32 lakhs) and cash and cash equivalents of Rs. 247 lakhs (31 March 2020: Rs. 62 lakhs).

The table below provides details regarding the contractual maturities of significant financial liabilities as at 31 March 2021 and 31 March 2020:

(Rs. in lakhs)

Particulars	**1 year or less**	**1 year to 5 years**	**5 years or more**	**Adjustments**	**Total**

Total	**16,534**	**12,946**	–	–	**29,480**

29.06 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

– **Currency risk**

Foreign Currency Exchange risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in Foreign Currency Exchange rates. The Company's exposure to currency risk relates primarily to the Company's operating activities including anticipated sales, purchases and borrowings where the transactions are denominated in a currency other than the Company's functional currency.

Unhedged Foreign Currency Exposure as on 31 March 2021

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

– **Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company is having non current borrowings in the form of Term Loan from bank. The Company is exposed to interest rate risk associated with its term loan due to floating rates of interest.

Sensitivity Analysis of Interest Rate Risk Exposure

(Rs. in lakhs)

Particulars	31 March 2021		31 March 2020	
	100 basis points increase - Profit/(Loss)	**100 basis points decrease - Profit/(Loss)**	100 basis points increase - Profit/(Loss)	100 basis points decrease - Profit/(Loss)
Term Loan from Bank	**(282)**	**282**	(100)	100
Total	**(282)**	**282**	(100)	100

29.07 Capital Management

The objective of Company's capital management is:

– to ensure the Company's ability to continue as a going concern.

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions, requirements of the financial covenants and the risk characteristics of the underlying assets. The Company monitors capital on the basis of the carrying amount of equity including share application, securities premium and profit and loss account as presented on the face of the statement of financial position and on the basis of net debt to equity and maturity profile of overall debt portfolio of the Company.

Net debt and Equity is given in the table below

(Rs. in lakhs)

Particulars	31 March 2021	31 March 2020
Total Shareholders' Equity as reported in Balance Sheet	**25,508**	26,822
Non current borrowings (including current maturities)	**27,709**	10,876
Current borrowings	**8,170**	3,500
Less: Cash and cash equivalents	**247**	(62)
Net Debt	**36,126**	14,314
Total Capital Employed	**61,634**	41,136
Gearing Ratio	**59%**	35%

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. No change were made in the objectives, policies or processes for managing capital during the year ended 31 March 2021.

30. Leases

	220	251

31. Earnings per share

(Rs. in lakhs except per share data)

Particulars	31 March 2021	31 March 2020
Basic and Diluted Earnings per Share		
Loss for the year	**(10,713)**	(5,523)
Weighted average number of equity shares outstanding (Nos.)	**343,805,897**	320,558,707
Basic and Diluted Earnings per Share of Rs.10 each	**(3.12)**	(1.72)

32. Employee benefits

(a) Defined contribution plan

The Company's contribution to Provident Fund aggregating to Rs. 405 lakhs (31 March 2020: Rs. 394 lakhs) has been recognised in the Statement of Profit and Loss under the head Employee Benefits Expense.

(b) Defined benefit plan:

Gratuity

The Company operates one defined benefit plan, viz., gratuity, for its employees. Under the gratuity plan, every employee who has completed at least five years of service gets gratuity on departure at 15 days of last drawn salary for each completed year of service. The scheme is funded with an insurance company in the form of qualifying insurance policy.

Through the defined benefit plan the Company is exposed to the following risks:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plan holds a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

The Company has chosen a suitable plan with Insurance, which augurs well with the Company's long term strategy to manage the plan efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings.

Life expectancy

Increase in life expectancy will result in an increase in the plan's liabilities, as the inflationary increases result in higher sensitivity to changes in life expectancy.

Note: An entity shall disclose description of any plan amendments, curtailments and settlements.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	Actuarial Assumptions	
	31 March 2021	31 March 2020
Discount rate(s)	**6.53%**	6.78%
Expected rate(s) of salary increase	**7.00%**	8.00%
Average longevity	**Indian Assured Lives Mortality (2012-14) ultimate**	Indian Assured Lives Mortality (2012-14) ultimate

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

Defined benefit plan – as per actuarial valuation

(Rs. in lakhs)

Particulars	Funded Plan 31 March 2021	31 March 2020
Amounts recognised in comprehensive income in respect of the defined benefit plan are as follows:		
Service cost :		
Current service cost	**135**	136
Net interest expense	**49**	42
Expected return on assets	**(33)**	(30)
Components of defined benefit costs recognised in the Statement of Profit and Loss	**151**	147
Remeasurement on the net defined benefit liability: Actuarial (gains) / loss arising from changes in financial assumptions	**(57)**	(22)
Components of defined benefit costs / (credit) recognised in other comprehensive income	**(57)**	(22)
	94	125

(Rs. in lakhs)

		31 March 2021	31 March 2020
I.	**Net Asset/(Liability) recognised in the Balance Sheet**		
	1. Present value of defined benefit obligation	**(863)**	(775)
	2. Fair value of plan assets	**534**	499
	3. Deficit	**(329)**	(276)
	4. Current portion	**146**	146
	5. Non-current portion	**183**	130
II.	**Change in the obligation during the year**		
	1. Present value of defined benefit obligation at the beginning of the year	**775**	633
	2. Expenses Recognised in Profit or Loss		
	– Current Service Cost	**135**	136
	– Interest Expense	**49**	42
	3. Recognised in Other Comprehensive Income	–	–
	Remeasurement loss		
	– Actuarial loss/(gain) arising from:	**(55)**	2
	4. Benefit payments	**(41)**	(38)
Present value of defined benefit obligations at the end of the year		**863**	775
III.	**Change in fair value of assets during the year**		
	1. Fair value of plan assets at the beginning of the year	**499**	444
	2. Expenses Recognised in Profit and Loss		
	– Expected return on plan assets	**33**	31
	3. Recognised in Other Comprehensive Income		
	Remeasurement gains/(losses)		
	– Actual Return on plan assets in excess of the expected return	**2**	24
	4. Contributions by employer (including benefit payments recoverable)	**41**	38
	5. Benefit payments	**(41)**	(38)
Fair Value of Plan Assets at the end of the year		**534**	499
IV.	**The Major categories of plan assets**		
	– Investment with insurer	**100%**	100%

The Company's policy is driven by considerations of maximizing returns. The asset allocation for plan assets is determined by the insurance company based on investment criteria prescribed by the local regulators. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

V. The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

(Rs. in lakhs)

Principal assumption	Year	Changes in assumption	Impact on defined benefit obligation: Increase in assumption	Decrease in assumption
Discount rate	**2021**	**1.00%**	**(79)**	**93**
	2020	1.00%	(67)	78
Salary growth rate	**2021**	**1.00%**	**82**	**(75)**
	2020	1.00%	69	(64)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The method and types of assumptions used in preparing the sensitivity analyses did not change compared to the previous period.

VI. Maturity profile of defined benefit obligation:

(Rs. in lakhs)

Particulars	31 March 2021	31 March 2020
Within 1 year	**49**	50
1 - 2 years	**42**	39
2 - 3 years	**38**	35
3 - 4 years	**36**	54
4 - 5 years	**55**	29
5 - 10 years	**148**	157
Above 10 years	**497**	411
Total	**865**	775

VII. Experience adjustments :

(Rs. in lakhs)

	Gratuity 31 March 2021	31 March 2020
1. Defined benefit obligation	**863**	775
2. Fair value of plan assets	**534**	499
3. Deficit	**(329)**	(276)
4. Experience adjustment on Plan Liabilities Loss	**(55)**	2
5. Experience adjustment on Plan Assets Gain/(Loss)	**2**	24

The expected rate of return on plan assets is based on the average long term rate of return expected on investments of the fund during the estimated term of obligation. The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The Company expect to contribute Rs. 146 lakhs to gratuity fund in the next financial year.

33. Employee share based payment plan

a) Description of share-based payment arrangements

The Company has the following share-based payment arrangement for employees:

Mahindra Electric Mobility Limited ESOP Scheme ('MEML ESOP - 2017')

The MEML ESOP - 2017 plan was approved by the Board of Directors

NOTES TO THE IND AS FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

pursuant to resolution passed at its meeting held on 02 November 2017 read with special resolution passed by the shareholders at the Extraordinary General Meeting held on 10 November 2017. The plan entitles the employees with a right but not an obligation to purchase or subscribe at a future date the shares underlying the option at a pre-determined price, subject to compliance with vesting conditions; all exercised options shall be settled by physical delivery of equity shares or as provided under the MEML ESOP - 2017 plan. As per the plan, holders of vested options are entitled to purchase one equity share of Rs.10 each for every option at an exercise price of Rs. 24.90 each or Rs. 25.17 or Rs. 25.48 or Rs. 25.91 each as per ESOP offer letter.

The Company has computed the fair value of the options for the purpose of accounting for the employee stock compensation expense over the vesting period of the options.

The terms and conditions related to the grant of the share options are as follows:

		(No. of options)	
Employees entitled	**Vesting conditions**	**For the year ended 31 March 2021**	For the year ended 31 March 2020
Specified employees	One to four years of service from grant date	**9,030,753**	9,333,000
Total share options outstanding		**9,030,753**	9,333,000

For continuing employees, the options which vest would have to be exercised within a period of 5 years from the respective dates of vesting of options. No portion of the options vested can be exercised after a period of 5 years from the date of each vesting.

The number and reconciliation of the share options under the share option plan are as follows:

Particulars	**As at 31 March 2021**	As at 31 March 2020
Outstanding at the beginning	**9,333,000**	9,168,000
Granted during the year	**169,490**	1,417,940
Forfeited and expired during the year	**(96,716)**	(1,154,850)
Settled during the year	**(375,021)**	(98,090)
Outstanding at the end	**9,030,753**	9,333,000
Exercisable at the end	**3,395,379**	1,725,133

c) The fair value per option is measured based on the Black-Scholes option pricing model, which is as below:

Measurement of fair value	**Number of options**	**Range of fair value per option**
From 1 April 2020 to 31 March 2021	**9,030,753**	**Rs.10.40 - Rs.16.70**
From 1 April 2019 to 31 March 2020	9,333,000	Rs.10.40 - Rs.16.70

The fair value per options mentioned above is calculated on the grant date using the Black-Scholes option pricing model with the following assumptions:

d) Assumptions

	For the year ended 31 March 2021	For the year ended 31 March 2020
Risk free interest rate	**4.9% - 7.99%**	6.0% - 7.99%
Dividend yield	–	–
Expected volatility	**42.3% - 56.1%**	42.3% - 53.1%
Expected life	**5 years**	5 years

e) During the year, the Company recorded a share based payment expense of Rs. 218 lakhs (31 March 2020 : Rs. 250 lakhs) in the Statement of Profit and Loss.

f) The weighted average contractual life of options granted is 7.5 years (31 March 2020: 7.5 years).

34. Segment reporting

The Company currently operates in a single reportable segment i.e., design and manufacture of electrically powered vehicles and designing and development of related technology for end use vehicles. Consequently, the requirement for a separate disclosure under Ind AS 108 - "Operating Segments" is not applicable.

35. Contingent Liabilities and Commitments

Contingent Liabilities (Rs. in lakhs)

	Particulars	**31 March 2021**	31 March 2020
(a)	Central Excise/Service tax matters under dispute #	**147**	304
(b)	Bank Guarantees	**113**	77

(c) In February 2019, Hon'ble Supreme Court of India in its judgement clarified that certain special allowances should be considered to measure obligations under Employees Provident Fund Act, 1952. The Company had been legally advised that there are interpretative challenges on the application of judgement retrospectively and as such does not consider there is any probable obligations for past periods. Accordingly, based on legal advice the Company had made a provision for provident fund contribution from the date of Supreme Court order.

Commitments

(Rs. in lakhs)

	Particulars	**31 March 2021**	31 March 2020
(a)	Estimated amount of contracts remaining to be executed on capital account and not provided for	**23,559**	19,823

The Company is contesting the demands and the management believes that its position will likely be upheld in the various appellate authorities/Courts and the ultimate outcome will not have a material adverse effect on the Company's financial position and results of its operations.

36. Unrecognised Deferred Tax Assets/(Liability) (Net)

(Rs. in lakhs)

Particulars	**31 March 2021**	31 March 2020

	– Interest paid in terms of Section 16 of the MSMED Act	–	–
(c)	Amount of interest due and payable for the period of delay on payments made beyond the appointed day during the year	–	–
(d)	Further interest due and payable even in the succeeding years, until such date when the interest due as above are actually paid to the small enterprises	–	2
(e)	Amount of interest accrued and remaining unpaid	**13**	24

40. Management's assessment on impairment of Property, plant and equipment and Intangible assets:

The Company tests whether Property, plant and equipment and Intangible assets have suffered any impairment on an annual basis as at 31 March every year. The recoverable amount of a cash generating unit ('CGU') is determined based on Value-In-Use calculations by forcasting the latest cash flows of next nine years and applying a growth rate beyond approved forecast period. The growth rates used in the value-In-use calculation reflect those inherent within the Company's budgets, which is primarily a function of the Company's cycle plan assumptions, past performance, and management expectations of future market developments through to 2029-30.The calculations use pre-tax cash flow projections based on financial budgets approved by the management. An average of the range of each assumption used is mentioned below:

Assumptions	31 March 2021	31 March 2020
Revenue growth for 9 years (31 March 2020: 10 years)	**35%**	27%
Operating EBITDA to revenue % (Average)	**10%**	12%
Discount rate	**18%**	24%
Terminal growth rate	**5%**	5%

The above discount rate is based on the Weighted Average Cost of Capital (WACC) which represents the weighted average return attributable to all the assets of the CGU. These estimates are likely to differ from future actual results of the operations and cash flows. Based on the above assessment, there has been no impairment on these assets.

41. Impact of COVID-19

The spread of COVID-19 has severely impacted businesses around the globe. In many countries, including India, there has been severe disruption to regular business operations due to lock downs, disruptions in transportation, supply chain, travel bans, quarantines, social distancing and other emergency measures. The plants and offices were under nationwide lockdown since March 24, 2020. Effective middle of May 2020 as per the directives of Ministry of Home Affairs (MHA) wherein some relaxation was announced, the Company opened up its manufacturing activities in its locations across the country after putting in place the due safety precautions and standard norms and processes prescribed by the MHA and the respective State Governments. While the Company believes strongly that it has adequate capabilities to partner with customers, the impact on future revenue streams could come from reduction in customer requirements arising from overall reduction in Automotive sector.

The Company has assessed that customers in Manufacturing verticals are more prone to immediate impact due to disruption in supply chain and drop in demand. The Company has considered such impact to the extent known and available currently. However, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration.

The Company has taken steps to assess the cost budgets required to complete its performance obligations in respect of contracts and have noted that there is no significant impact of likely delays / increased cost in meeting its obligations as at 31 March 2021. The Company has also assessed the impact of any delays and inability to meet contractual commitments and has taken appropiate remedial actions to ensure that revenue recognition in such cases reflect realisable values. The Company has evaluated its liquidity position and of recoverability and carrying values of its assets and has concluded that no material adjustments are required at this stage in the Ind AS financial statements.

INDEPENDENT AUDITOR'S REPORT

To the Members of **NBS International Limited**

Report on the Standalone Ind AS Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of NBS International Limited ("the Company"), which comprise the balance sheet as at 31 March 2021, the statement of profit and loss, Statement of change in equity and statement of cash flow for the year then ended and notes to the financial statements, including summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, its loss, changes in equity and cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our Report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone Ind AS financial statements.

Information Other than the Financial Statements and Auditor's report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report but does not include the Standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the Standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act, with respect to the preparation of these Standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Ind AS financial statement, that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether

the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
   b) In our opinion, proper books of account as required by law have been kept by the Company so far, it appears from our examination of those books.
   c) The balance sheet, the statement of profit and loss, the statement of change in equity and the cash flow statement dealt with by this Report are in agreement with the books of account.
   d) In our opinion, the aforesaid Standalone Ind AS financial statements comply with the Indian Accounting Standards prescribed under Section 133 of the Act, read with Rule (7) of Companies Accounts (Rules), 2014.
   e) On the basis of written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021, from being appointed as a director in terms of Section 164(2) of the Act.
   f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B".
   g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the Company has not paid or provided remuneration to its directors during the year. Accordingly, compliance with the provision of Section 197(16) read with schedule V of the Act is not required.
   h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
      i. The Company has disclosed the impact of pending litigations on its financial position in its Ind AS financial statements - Refer Note 31 to the Ind AS Financial Statements.
      ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
      iii. There were no amounts required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date on the standalone Ind AS financial statements of NBS International Limited for the year ended 31 March 2021)

1. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of its Property, Plant and Equipment.

   (b) The Property, Plant and Equipment are physically verified by the management according to a programme of phased verification, which in our opinion as reasonable having regard to size of the Company and nature of its assets. Pursuant to the programme, a portion of Property, Plant and Equipment has been physical verified by the Management during the year and no material discrepancies had been noticed in respects of assets verified during the year.

   (c) According to information and explanations given to us, and on the basis of our examination of the records of the Company, the Company does not have any immovable properties. Accordingly, the provision of clause 3(i) (c) of the Order is not applicable to the Company.

2. According to information and explanations given to us, the inventory has been physically verified by the management at regular intervals during the year and no material discrepancies were noticed on such verification by the management.

3. According to information and explanations given to us, the Company has not granted any loan, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the provisions of clause 3(iii) of the Order are not applicable to the Company.

4. According to information and explanations given to us, the Company has not granted any loan secured or unsecured or provided any guarantee or security to the parties covered under section 185 of the Act during the year. With respect to investments provision of Section 186 of the Companies Act 2013 have been complied with.

5. In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the rules framed thereunder. Accordingly, the provision of clause 3(v) of the Order is not applicable to the Company.

6. According to the information and explanations given to us, the requirement for maintenance of cost records specified by the Central Government under Section 148(1) of the Act is not applicable to the Company during the year.

7. a) According to the information and the explanations given to us, the Company has been regular in depositing undisputed statutory dues including provident fund, employees' state insurance, income tax, goods and services tax, custom duty, cess and other applicable statutory dues with the appropriate authorities. No undisputed amounts payable in respect of aforesaid statutory dues were outstanding as on the last day of the financial year for a period of more than six months from the date they became payable.

   b) According to information and explanations given to us, and record of the Company examined by us, there were no dues on account of Income tax or sales tax service tax, goods and services tax, custom duty, excise duty, value added tax and cess which have not been deposited on account of any dispute except following:

Name of the Statue	Nature of dues	Amount* (Rs. in lakhs)	Period to which the amounts relates	Forum where dispute is pending
Income Tax Act, 1961	Income tax	93.43	AY 2012-2013	Appeal filed against order passed by DCIT

* net of amount paid under protest Rs. 50.00 lakhs

8. According to information and explanations given to us, the Company has not defaulted in repayment of dues to any financial institutions or bank as at the balance sheet date.

9. According to the information and explanations given to us, the Company has not raised moneys by way of public offer (including debt instruments) and term loan during the year and accordingly, para 3 (ix) of the order is not applicable to the Company.

10. Based upon the audit procedures performed for the purpose of reporting the true and fair view of the financial statements and according to the information and explanation given to us, we report that no material fraud by the Company or on the Company by its officers or employees has been noticed or reported during the year.

11. On the basis of examination of relevant records and according to the information and explanations given to us, the Company has not paid or provided any managerial remuneration. Accordingly, the provision of clause 3(xi) of the Order is not applicable to the Company.

12. The Company is not a Nidhi Company and hence reporting under clause 3(xii) of the Order is not applicable to the Company.

13. According to the information and explanations given to us, transactions with related parties are in compliance with Section 177 and 188 of the Act. The details of such related party transactions have been disclosed in the standalone Ind AS financial statements as required by the applicable accounting standards.

14. The Company has not made preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, the provision of clause 3(xiv) of the Order is not applicable to the Company.

15. According to the information and explanations given to us, the Company has not entered into any non-cash transactions with directors or persons connected with them during the year. Accordingly, the provisions of clause 3(xv) of the Order are not applicable to the Company.

16. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provision of clause 3(xvi) of the Order is not applicable to the Company.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2(f) under the heading 'Report on Other Legal and Regulatory Requirements' of our report of even date on the Standalone Ind AS financial statements of NBS International Limited for the year ended 31 March 2021)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of NBS International Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;(2)provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended 31 March 2021

1. **Nature of Operations:**

   NBS International Limited, a wholly owned subsidiary of Mahindra & Mahindra Limited engaged in the business of sales & servicing of motor vehicles.

2. **Significant Accounting Policies:**

   a) **Statement of compliance**

   The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended and notified under section 133 of the Companies Act,2013 (the Act) and other relevant provisions of the Act.

   The financial statements are presented in Indian Rupees (INR) which is also the Company's functional currency. All values are rounded to the nearest lakhs.

   b) **Basis of preparation and presentation**

   The financial statements have been prepared on the historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

   Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

   In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

   (i) Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

   (ii) Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly: and

   (iii) Level 3 inputs are unobservable inputs for the asset or liability.

   c) **Use of estimates and judgements**

   The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses etc. at the date of these financial statements and the reported amounts of revenues and expenses for the years presented.

   Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised, and future periods affected.

   In the process of applying the Company's accounting policies, management has made the following Judgements, estimates and assumptions which have significant effect on the amounts recognised in the financial statements:

   Provision for doubtful advances and trade receivables:

   The company is not significantly exposed, and the amount involved is not material therefore Company does not calculate any credit loss for trade receivables and advances to parties as required under IND AS 109 'Financial Instrument'. However, the company provides for doubtful advances and trade receivables based on its judgement about recoverability of amount.

   Deferred tax assets

   Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Deferred tax assets in respect of carry forward of unused tax losses or unused tax credit have been recognised to the extent of available taxable temporary differences.

   Fair value measurement of financial instruments

   When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using appropriate valuation techniques. The inputs for these valuations are taken from observable sources where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of various inputs including liquidity risk, credit risk, volatility etc. Changes in assumptions/judgements about these factors could affect the reported fair value of financial instruments.

   Actuarial Valuation

   The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. Such valuation depends upon assumptions determined after considering inflation, seniority, promotion, and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the financial statements.

   Leases

   The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

   The Company has applied the practical expedient to all rent concessions that meet the conditions in paragraph 46B & amounts recognised in the profit & loss statement for the reporting period to reflect changes in lease payments that arise from rent concessions to which the lessee has applied the practical expedient in paragraph 46A.

   d) **Current versus non-current classification:**

   The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

   The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

   An asset is treated as current when:

   — It is expected to be realised or intended to be sold or consumed in normal operating cycle

   — It is held primarily for the purpose of trading

   — It is expected to be realised within twelve months after the reporting period, or

   — It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period All other assets are classified as non-current.

   A liability is treated as current when:

   — It is expected to be settled in normal operating cycle

   — It is held primarily for the purpose of trading

   — It is due to be settled within twelve months after the reporting period, or

   — There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting

e) **Recent pronouncements on amended of Schedule III of the Companies Act, 2013.:**

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021.

f) **Revenue from contract with customer**

The Company derives revenues primarily from sale and servicing of motor vehicles.

Ind AS 115 "Revenue from Contracts with Customers" provides a control-based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

- Identify the contract(s) with a customer;
- Identify the performance obligations;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations;
- Recognise revenue when or as an entity satisfies performance obligation.

Revenue from contract with customer is recognised when control of the goods or services are transferred to the customer at an amount that reflect the consideration to which the Company expects to be entitled in exchange of the goods and services. Revenue excludes amount collected on behalf of the third parties. Revenue is net of discounts, duties, and sales tax/GST.

Sales of goods:

Sale of spares parts and accessories of vehicles (including customized) is recognised when the title is accepted by the customer.

Service Income:

Service income is recognized as per the terms of the contract when the related services are rendered.

Interest income:

Interest income is recognized on Recognised at amortised cost using effective interest rate method.

Other Income:

Income from financing vehicles, Insurance Income and other service income are accounted on accrual basis.

g) **Leases**

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

The Company as a lessee

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term and a corresponding lease liability at the lease commencement date i.e., the date at which the leased asset is available for use by the Company. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, the right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of right-of-use asset. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-to-use assets(RoU) are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease-by-lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. The company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the right-of-use asset and statement of profit and loss depending upon the nature of modification. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

The Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Contracts in which all the risks and rewards of the lease are substantially transferred to the lessee are classified as a finance lease. All other leases are classified as operating leases.

Leases, for which the Company is an intermediate lessor, it accounts for the head-lease and sub-lease as two separate contracts. The sub-lease is classified as a finance lease or an operating lease by reference to the RoU asset arising from the head-lease.

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as expense on a straight-line basis over the lease term. The respective leased assets are included in the balance sheet based on their nature.

h) **Retirement and Other Employee Benefits**

Defined contribution plans

The Company's contribution paid/payable during the year to Provident fund is recognised in profit or loss.

Defined benefit plan

For defined benefit retirement benefit plans, liability towards gratuity is determined using the projected unit credit method which considers each period of service as giving rights to an additional unit of benefit entitlement and measure each unit separately to build up the final obligation. Past services are recognized on straight line basis over the average period until the benefit becomes vested. Actuarial gains and losses are recognized immediately in the statement of profit and loss account as income or expenses. Obligation is measured at the present value of estimated future cash flow using discount rate i.e. determined by reference to market to yield at the balance sheet date on government bonds where the currency and terms of bonds are consistent with the currency and estimated terms of the defined benefit obligation.

Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements):
  - net interest expense or income; and
  - remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of expected future payments to be made in respect of services provided by employees up the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Statement of Profit and Loss.

i) Cash and Cash Equivalents

Cash and cash equivalent in the Balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

Cash flows are reported using the indirect method, as set out in Ind AS 7 whereby profit / (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows are segregated based on Operating, Investing & Financing activities of the company.

j) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

k) Taxation

(i) Current Tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

(ii) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities

Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

l) Property, Plant & equipment

Property, Plant & equipment assets are carried at cost of acquisition less depreciation less accumulated impairment, if any.

Cost of intangible assets are being amortised over a period of five years on time proportion basis.

Leasehold Improvements are amortized over the period of lease or estimated period of useful life of such improvement, whichever is lower.

Depreciation is provided on straight-line basis for property, plant and equipment so as to expense the depreciable amount, i.e. the cost less estimated residual value, over its estimated useful life.

When an asset is scrapped or otherwise disposed off the cost and relevant depreciation are removed from the books of accounts and resultant profit or loss, if any, is reflected in statement of profit and loss.

Assets costing less than or equal to Rs. 5,000 are depreciated fully in the year of purchase.

The management's estimate of useful lives is in accordance with Schedule II of the Companies Act, 2013, other than the following asset classes, based on the Company's expected usage pattern supported by technical assessment:

Asset Class		**Useful lives**
(i)	Certain items of plant and Machinery	1 - 15 years
(ii)	Office equipment	1 - 5 years
(iii)	Vehicles	5 years

m) Impairment of assets

At the end of each reporting period, the management reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the management estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

n) Inventories

Inventories comprise of all costs of purchase, conversion and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale. Spare parts & accessories are valued at moving average rate.

o) Provisions and Contingencies

A provision is recognized when an enterprise has a present obligation as a result of past event and it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. Provisions are not discounted to their present values and are determined based on management estimate required to settle the obligation at the Balance Sheet date. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events not wholly within the control of the Company.

When there is an obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

p) Financial Instruments

i) Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value (purchase value plus transaction costs that are attributable to the acquisition of the financial asset). Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income FVTOCI

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit or Loss. The losses arising from impairment are recognised in the Statement of Profit or Loss.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss

Equity investments

All equity investments in scope of Ind-AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company decides to classify the same either as at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the other comprehensive income (OCI). There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit & loss.

Derecognition

The Company derecognizes a financial asset only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

The Company assesses at each reporting date whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

ii) Non-derivative financial liabilities

Financial liabilities are classified as either "financial liabilities at fair value through profit or loss" or "other financial Liabilities".

(i) Financial liabilities are classified as "financial liabilities at fair value through profit or loss" if they are held for trading or if they are designated as financial liabilities at fair value through profit or loss. These are measured initially at fair value with subsequent changes recognized in profit or loss. Fair value is determined as per IND AS 113 'fair value measurement'.

(ii) Other financial liabilities, including loans and borrowing, are initially measured at fair value, net of directly attributable transaction costs. Subsequent to initial recognition, these are measured at amortized cost using the EIR method.

Derecognition of financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

q) Earnings per share

Basic earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) by the weighted average number of equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit / (loss) after tax (including the post tax effect of extraordinary items, if any) as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on the conversion of all dilutive potential equity shares.

r) Segment

Segment information is prepared in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole. The Company's business activity primarily falls within a single business segment, i.e. Automative as primarily segment. There is no geographical segment, thus there are no additional disclosures to be provided under Ind AS 108 - "Operating Segments". There have been no other reportable segments identified by chief operating decision makers.

Note No. 4 - Property, Plant and Equipment

Property, plant and equipment comprise of owned and leased assets that do not meet the definition of Investment property.

*** Rights, preferences and restrictions attached to equity shares**

The Company has only one class of equity shares having par value of Rs. 10 per share. Each holder of equity share is entitled to one vote per share. The company declares and pays dividend in Indian Rupees. The dividend proposed by Board of Directors is subject to approval of the shareholders in the ensuing annual general meeting. Further, the Board of Directors may also announce an interim dividend which would need to be confirmed by the shareholders at the forthcoming Annual General Meeting. In the event of liquidation, the shareholders are eligible to receive the remaining assets of the Company after distribution of all preferential amounts, in proportion to their shareholdings.

(a) Defined Contribution Plan

The Company's contribution to Provident Fund aggregating Rs. 66.57 lakhs (2020 : Rs. 86.88 lakhs) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

The Company operates a defined benefit final salary gratuity plan which is open to new entrants. The gratuity benefits payable to the employees are based on the employee's service and last drawn salary at the time of leaving. The employees do not contribute towards this plan and the full cost of providing these benefits are met by the Company. There are no minimum funding requirements for a gratuity plan in India. The Company has chosen not to fund the gratuity liabilities of the plan but instead carry a provision based on actuarial valuation in its books of accounts. The only regulatory framework which applies to such plans is if the company is covered by the Payment of Gratuity Act, 1972 then the Company is bound to pay the statutory minimum gratuity as prescribed under this Act. There are no minimum funding requirements for a gratuity plan in India. The Company has chosen not to fund the gratuity liabilities of the plan but instead carry a provision based on actuarial valuation in its books of accounts. The only regulatory framework which applies to such plans is if the company is covered by the Payment of Gratuity Act, 1972 then the Company is bound to pay the statutory minimum gratuity as prescribed under this Act. The plan is of a final salary defined benefit in nature which is sponsored by the Company and hence it underwrites all the risks pertaining to the plan. In particular, there is a risk for the Company that any adverse salary growth or demographic experience can result in an increase in cost of providing these benefits to employees in future. Since the benefits are lump sum in nature the plan is not subject to any longevity risks.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

(Currency: Indian Rupees in Lakhs)

	Valuation as at 31 March 2021	Valuation as at 31 March 2020
Discount rate(s)	4.20%	5.15%
Expected rates(s) of Salary increase	8% until year 1 inclusive, then 5%	8% until year 1 inclusive, then 5%

Basic Earnings per share		
From continuing operations	**(0.38)**	(3.29)
Total basic earnings per share	**(0.38)**	(3.29)
Diluted Earnings per share		
From continuing operations	**(0.38)**	(3.29)
Total diluted earnings per share	**(0.38)**	(3.29)

Basic earnings per share

The earnings and weighted average number of ordinary shares used in the calculation of basic earnings per share are as follows:

(Currency: Indian Rupees in Lakhs)

Particulars	For the year ended 31 March 2021	For the year ended 31 March 2020
Profit / (loss) for the year attributable to owners of the Company	**(133.05)**	(807.75)
Less: Preference dividend and tax thereon	–	–
Profit / (loss) for the year used in the calculation of basic earnings per share	**(133.05)**	(807.75)
Profit for the year on discontinued operations used in the calculation of basic earnings per share from discontinued operations	**–**	–
Profits used in the calculation of basic earnings per share from continuing operations	**(133.05)**	(807.75)
Weighted average number of equity shares	**35,180,617**	24,550,484
Earnings per share from continuing operations - Basic	**(0.38)**	(3.29)

Diluted earnings per share

The diluted earnings per share has been computed by dividing the Net profit after tax available for Equity shareholders by the weighted average number of equity shares, after giving dilutive effect of the outstanding Warrants, Stock options and Convertible bonds for the respective periods. Since, the effect of the conversion of Preference shares was anti-dilutive, it has been ignored.

(Currency: Indian Rupees in Lakhs)

Particulars	For the year ended 31 March 2021	For the year ended 31 March 2020
Profit / (loss) for the year used in the calculation of basic earnings per share	**(133.05)**	(807.75)
Add: Interest expense and exchange fluctuation on convertible bonds (net) - adjusted for attributable taxes	**–**	–
Profit / (loss) for the year used in the calculation of diluted earnings per share	**(133.05)**	(807.75)
Profit for the year on discontinued operations used in the calculation of diluted earnings per share from discontinued operations	**–**	–
Profits used in the calculation of diluted earnings per share from continuing operations	**(133.05)**	(807.75)

The weighted average number of ordinary shares for the purpose of diluted earnings per share reconciles to the weighted average number of ordinary shares used in the calculation of basic earnings per share as follows:

Capital management

The company's capital management objectives are:

– to ensure the company's ability to continue as a going concern

– to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity and borrowings as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factors.

CREDIT RISK

* The company's exposure to credit risk is limited to the carrying amount of financial assets recognised at the balance sheet date.
* The company continuously monitors defaults of customers and the other counterparties, identified either individually or by company and incorporates this information into its credit risk controls.
* The company's management considers that all the financial assets are not impaired for each of the reporting date under review, are of good credit quality, including those that are past due.
* In respect of trade and other receivables, the company is not exposed to any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. Concentration of credit risk to any counterparty did not exceed 10% of gross monetary assets at any time during the year.
* The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determinationof expected credit losses. Due to immateriality company has decided not to provide for any credit losses.

MARKET RISK

Market risk is the risk that changes in market prices – such as interest rates will affect the entity's income . The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. There has been no significant changes to the entity's exposure to market risk or the methods in which they are managed or measured.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

(Currency: Indian Rupees in Lakhs)

Particulars	Less than 1 Year INR	1-3 Years INR	3 Years to 5 Years INR	5 years and above INR
Non-derivative financial liabilities				
31-Mar-21				
Non-interest bearing	2,779.06	74.65	43.38	7.36
Fixed interest rate instruments	–	–	–	–
Variable interest rate instruments	–	–	–	–
Total	**2,779.06**	74.65	43.38	7.36
31-Mar-20				
Non-interest bearing	1,256.37	78.29	39.85	17.03
Fixed interest rate instruments	–	–	–	–
Variable interest rate instruments	2,210.70	–	–	–
Total	**3,467.07**	78.29	39.85	17.03

(iii) Financing arrangements

The Company had access to following undrawn borrowing facilities at the end of the reporting period:

(Currency: Indian Rupees in Lakhs)

Particulars	31-Mar-21 INR	31-Mar-20 INR
Unsecured Bank Overdraft facility		
– Expiring within one year	**1,500.00**	789.30
– Expiring beyond one year	**–**	–
	1,500.00	789.30

(iv) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

(Currency: Indian Rupees in Lakhs)

Particulars	Less than 1 Year INR	1-3 Years INR	3 Years to 5 Years INR	5 years and above INR
Non-derivative financial assets				
31-Mar-21				
Non-interest bearing	1,578.58	44.06	–	–
Total	**1,578.58**	**44.06**	**–**	**–**
31-Mar-20				
Non-interest bearing	577.44	49.52	–	–
Total	**577.44**	**49.52**	**–**	**–**

The amounts included above for variable interest rate instruments for both non-derivative financial assets and liabilities is subject to change if changes in variable interest rates differ to those estimates of interest rates determined at the end of the reporting period.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's long-term debt obligations with floating interest rates.

Interest rate sensitivity

The sensitivity analyses below have been determined based on exposure to interest rate for both derivative and non-derivative instruments at the end of reporting period. For floating rate liabilities, analysis is prepared assuming the amount of liability outstanding at the end of the reporting period was outstanding for the whole year.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected, after the impact of hedge accounting. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

	Increase/ decrease in basis points	Effect on profit / (loss) for the year
31-Mar-21	+100	(20.14)
	-100	20.14
31-Mar-20	+100	(20.15)
	-100	20.15

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment, showing a significantly higher volatility than in prior years.

Total	**4,527.08**	**4,527.08**	4,229.20	4,229.20

Note No. 29 - Segment information

a. The Company's businees activity falls within a single business segment viz. 'Automotive'. All other activities of the Company revolve around its main business. Hence there are no separate reportable primary segments. Company deals into trading and Servicing of Vehicles.

b. All the non-current assets of the Company are located in India.

c. Revenue from major products and services

(Currency: Indian Rupees in Lakhs)

Particulars	31 March 2021	31 March 2020
Sale and Service of Vehicles	**12,890.51**	19,281.24

d. Revenues from transactions with a single external customer does not amount to 10% or more of an entity's revenues during the year.

e. Since there is single segment there is no difference in measurement of profit & loss and measurement of assets and liabilities.

The Company has applied the practical expedient to all rent concessions that meet the conditions in paragraph 46B

Amounts recognised in the profit & loss statement for the reporting period to reflect changes in lease payments that arise from rent concessions to which the lessee has applied the practical expedient in paragraph 46A. :

Particulars	**Amount As on 31st March, 2021**
Amounts recognised in the profit & loss statement	22.71

Note No. 33- Impact of Covid 19

The operations of the company were impacted due to the national lockdown imposed by the Government/Authorities in wake of Covid-19 pandemic. The company experienced resumption of economic activity in a phased manner and was back to normal routine by start of H2.

The Company is engaged in the business of sales and servicing of motor vehicles. The showrooms and workshops have been temporarily closed which has impacted the revenue from operations till the reopening of the business. The company does not foresee any continued adverse impact in the medium to long term to its business operations.

The Company, based on internal & external sources of information, has assessed that as a result of Covid-19 outbreak, there is no significant financial impact on the financial statements for the year ended March 31, 2021 as at the date of approval of these financial statements

Note No. 34- Code on Social Security, 2020

The Indian Parliament had approved the Code on Social Security, 2020 which could impact the contributions by the Company towards Provident Fund and Gratuity. The Ministry of Labour and Employment has released draft Rules for the Code on Social Security, 2020 on November 13, 2020, and has invited suggestions from stake holders which are under active consideration by the Ministry. The Company will complete its evaluation once the Rules are notified and will give appropriate impact in the financial statements in the period in which the Code and related Rules becomes effective.

INDEPENDENT AUDITOR'S REPORT

To the members of Mahindra Automotive Australia Pty Ltd

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Mahindra Automotive Australia Pty Ltd (the Company), which comprises the statement of financial position as at 31 March 2021, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial report, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the accompanying financial report of Mahindra Automotive Australia Pty Ltd, is in accordance with the *Corporations Act 2001*, including:

(i) Giving a true and fair view of the Company's financial position as at 31 March 2021 and of its financial performance for the year ended on that date; and

(ii) Complying with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Company in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The directors are responsible for the other information. The other information obtained at the date of this auditor's report is information included in the directors' report, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards – Reduced Disclosure Requirements and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (http://www.auasb.gov.au/Home.aspx) at: http://www.auasb.gov.au/auditors_responsibilities/ar4.pdf

This description forms part of our auditor's report.

BDO Audit Pty Ltd

Randall Bryson
Director

Brisbane, 12th day of May 2021

DIRECTORS' DECLARATION FOR THE YEAR ENDED 31 MARCH 2021

In accordance with a resolution of the directors of Mahindra Automotive Australia Pty Ltd, the directors of the company declare that:

1 The financial statements and accompanying notes are in accordance with the *Corporations Act 2001* and:

  (a) comply with Australian Accounting Standards – Reduced Disclosure Requirements; and

  (b) give a true and fair view of the entity's financial position as at 31 March 2021 and of its performance for the year ended on that date.

2 In the directors' opinion, there are reasonable grounds to believe that Mahindra Automotive Australia Pty Ltd will be able to pay its debts as and when they become due and payable.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for Mahindra Automotive Australia Pty Ltd (referred hereafter as the 'Entity' or 'Company').

The financial statements were authorised for issue on 12 May 2021 by the directors of the Company.

Basis of preparation

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards - Reduced Disclosure Requirements of the Australian Accounting Standards Board (AASB) and the *Corporations Act 2001*. The company is a for profit entity for financial reporting purposes under Australian Accounting Standards.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in financial statements containing relevant and reliable information about transactions, events and conditions. Material accounting policies adopted in the preparation of the financial statements are presented below and have been consistently applied unless stated otherwise.

The financial statements, except for the cash flow information, have been prepared on an accruals basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The amounts presented in the financial statements have been rounded to the nearest dollar.

Accounting Policies

(a) Income Tax

The income tax expense for the year comprises current income tax expense and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income for the current period. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred income tax expense (income) is charged or credited outside profit or loss when the tax relates to items that are recognised outside profit or loss or arising from a business combination. Except for business combinations, no deferred income tax is recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled and their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability. With respect to non-depreciable items of property, plant and equipment measured at fair value and items of investment property measured at fair value, the related deferred tax liability or deferred tax asset is measured on the basis that the carrying amount of the asset will be recovered entirely through sale. When an investment property that is depreciable is held by the entity in a business model whose objective is to consume substantially all of the economic benefits embodied in the property through use over time (rather than through sale), the related deferred tax liability or deferred tax asset is measured on the basis that the carrying amount of such property will be recovered entirely through use.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.

Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (i) a legally enforceable right of set-off exists; and (ii) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities, where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(b) Inventory

Inventory has been valued as follows:

- Finished goods are valued at the lower of cost and net realisable value.
- Raw materials are valued at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(c) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Plant and Equipment

Plant and equipment are measured on the cost basis and are therefore carried at cost less accumulated depreciation and any accumulated impairment losses. In the event the carrying amount of plant and equipment is greater than its estimated recoverable amount, the carrying amount is written down immediately to its estimated recoverable amount and impairment losses recognised either in profit or loss or as a revaluation decrease if the impairment losses relate to a revalued asset. A formal assessment of recoverable amount is made when impairment indicators are present (refer to Note 1(g) for details of impairment).

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are recognised as expenses in profit or loss in the financial period in which they are incurred.

Depreciation

The depreciable amount of all fixed assets including capitalised lease assets is depreciated on a diminishing value basis over the asset's useful life to the entity commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

The depreciation rates used for each class of depreciable assets are:

Plant and equipment	10% – 20%	(DV)
Furniture and fixtures	10% – 20%	(DV)
Motor vehicles	20% – 30%	(DV)
Computer equipment	20% – 40%	(DV)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are recognised in profit or loss when the item is derecognised. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

(d) Leases

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company. Assets and liabilities arising from a lease are initially measured on a present value basis.

Lease Liabilities

Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable by the Company under residual value guarantees;
- the exercise price of a purchase option if the Company is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the Company exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases that relate to building premises, the entity's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Company uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received, making adjustments specific to the lease (e.g. term, country, currency and security).

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured whenever:

- The lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liabilities are remeasured by discounting the revised lease payments using a revised discount rate; and
- A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.

Right-of-use Assets

Right-of-use assets are subject to the impairment in accordance with AASB 134: *Impairment of assets*. Any identified impairment loss is accounted for inline with the Company's "impairment of non-current assets" policy.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability, and
- any lease payments made at or before the commencement date less any lease incentives received

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Extension Options

Extension options are included in a number of building premises leases across the Company. These are used to maximise operational flexibility in terms of managing the assets used in the Company's operations. The extension and termination options held are exercisable only by the Company and not by the respective lessor. When exercising lease extensions of building premises, the Company considers the following factors:

- any termination and make-good penalties;
- value of leasehold improvements;
- cost of disruption to the business to relocate, and
- availability and cost other suitable properties.

Extension options are only included in the lease term if the lease is reasonably certain to be extended.

The lease term is reassessed if an option is actually exercised (or not exercised) or the Company becomes obliged to exercise (or not exercise) it. The assessment of reasonable certainty is only revised if a significant event or a significant change in circumstances occurs, which affects this assessment, and that is within the control of the lessee.

(e) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

(f) Borrowings

Borrowings are initially recognised at fair value net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the process (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of borrowings using the effective interest rate method.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance date.

(h) Financial Assets and Liabilities

(i) Classification and measurement of financial assets

Financial assets are classified in the following measurement categories:

- Those are to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss); and
- Those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and contractual terms of the cash flows.

(ii) Impairment of financial assets

Under AASB 9 "general approach", loss allowances are measured on either of the following bases:

- 12-months Expected Credit Losses (ECLs): these are ECLs that result from possible default events within the 12 months after the reporting date; and
- Lifetime ECLs: these are ECLs that result from all possible default events over the expected life of financial instrument.

The Company measures loss allowances at an amount equal to 12-month ECLs, except for loan issued balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has increased significantly since initial recognition.

When determining whether the credit risk of a financial assets has increased significantly since initial recognition and when estimating ECLs, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company historical experience and informed credit assessment and including forward-looking information.

The Company assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

The Company considers a financial asset to be in default when:

- the borrower is unlikely to pay its credit obligation to the Company in full, without recourse by the Company to actions such as realising security (if any is held); or
- the financial asset is more than 90 days past due, but additional analysis is conducted for each such receivable and assessment is updated accordingly.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Company is exposed to credit risk. ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Company expects to receive). ECLs are discounted at the effective interest rate of the financial asset in case of long-term assets.

At each reporting date, the Company assesses whether financial assets carried at amortised cost are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. Impairment losses related to trade and other receivables are presented as part of net other operating expenses.

The accounting policies adopted for specific financial instruments are set out below:

(iii) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within short term borrowings in current liabilities on the statement of financial position.

Financial Guarantees

Where material, financial guarantees issued that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due are recognised as financial liabilities at fair value on initial recognition.

The fair value of financial guarantee contracts has been assessed using the probability weighted discounted cash flow approach. The probability has been based on:

- the likelihood of the guaranteed party defaulting during the next reporting period;
- the proportion of the exposure that is not expected to be recovered due to the guaranteed party defaulting; and
- the maximum loss exposure if the guaranteed party were to default.

Derecognition

Financial assets are derecognised when the contractual rights to receipt of cash flows expire or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised when the related obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

(g) Impairment of Non-current assets

Assets that have an indefinite useful life, including Goodwill is tested annually for impairment.

At each reporting date, the Company reviews the carrying amount of all other non-financial assets to determine whether there is any indication of impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates independent cash inflows (known as cash-generating units or CGUs). Goodwill arising from a business combination is allocated to CGUs that are expected to benefit from the synergies of the transaction.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised in profit or loss if the carrying amount of an asset or CGU exceeds its recoverable amount.

(h) Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of the entity is measured using the currency of the primary economic environment in which that entity operates. The financial statements are presented in Australian dollars which is the entity's functional and presentation currency.

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in profit or loss, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is directly recognised in other comprehensive income, otherwise the exchange difference is recognised in profit or loss.

Exchange differences arising on translation of foreign operations are transferred directly to the entities foreign currency translation reserve in the statement of financial position via other comprehensive income. The cumulative amount of these differences is reclassified into profit or loss in the period in which the operation is disposed of.

(i) Employee Benefits

Short-term employee benefit obligations

Provision is made for the entities obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages and salaries. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The entity's obligations for short-term employee benefits such as wages and salaries are recognised as part of current trade and other payables in the statement of financial position.

Other long-term employee benefit obligations

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service.

The entities obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the entity does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

(j) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

can be made of the amount of the obligation. The amount recognised as a provision is the best estimate taking into account the risks and uncertainties surrounding the obligation.

(k) Revenue and Other Income

Sales of goods revenue

Revenue from the sale of goods is recognised when the performance obligation has been satisfied and control is transferred to the customer. The performance obligation is considered to be satisfied at a point in time and control is transferred when the goods are invoiced and physically dispatched or collected.

Interest revenue

Interest revenue is recognised on a time proportional basis, taking into account the effective interest rates applicable to the financial assets.

Government subsidies

During the year, the Company received the government wage subsidy called 'Jobkeeper'. These are recognised where there is a reasonable assurance that the grant will be received and all attached conditions are complied with.

All revenue is stated net of the amount of goods and services tax.

(l) Trade and other receivables

Trade receivables are recognised initially at the transaction price, less the expected lifetime credit losses to be recognised from initial recognition of the receivables.

The Company applies the simplified approach permitted by AASB 9, which requires expected lifetime credit losses to be recognised from initial recognition of the receivables. The expected credit losses on these financial assets are estimated using a provision matrix based on the Company historical credit loss experience, as well as the credit losses that are expected in the foreseeable future.

(m) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

(n) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities, which are recoverable from or payable to the ATO, are presented as operating cash flows included in receipts from customers or payments to suppliers.

(o) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(p) New or Revised Standards and Interpretations that are first effective in the current reporting period

A new standard became applicable for the current reporting period and the Company had to change its accounting policies as a result of adopting the following standard:

AASB 2020-4 Amendments to Australian Accounting Standards - Covid-19 - Related Rent Concessions

This standard is applicable to annual reporting periods beginning on or after 1 June 2020. The standard introduces a practical expedient that permits lessees not to assess whether a rent concession that occurs as a direct consequence of the COVID-19 pandemic is a lease modification, provided all of the following criteria are met:

- Change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately prior to the change
- Any reduction in lease payments affects only payments originally due on or before 30 June 2021 (for example, a concession would meet this condition if it resulted in reduced lease payments on or before 30 June 2021 and increased lease payments that extend beyond 30 June 2021), and
- There is no substantive change to other terms and conditions of the lease.

In such cases, the concessions are accounted for as if they were not a lease modification. The adoption of this new accounting standard did not have a material impact on these financial statements.

(q) Going Concern

The financial report has been prepared on a going concern basis. This acknowledges the parent company will continue to provide support by extending working capital for a period of at least 12 months from the date of signing this financial report.

(r) New or Revised Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the annual reporting period ended 31 December 2020. The Company's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the Company, are set out below.

Conceptual Framework for Financial Reporting (Conceptual Framework)

The revised Conceptual Framework is applicable to annual reporting periods beginning on or after 1 July 2021 and early adoption is permitted. The Conceptual Framework contains new definition and recognition criteria as well as new guidance on measurement that affects several Accounting Standards. Where the Company has relied on the existing framework in determining its accounting policies for transactions, events or conditions that are not otherwise dealt with under the Australian Accounting Standards, the Company may need to review such policies under the revised framework. At this time, the application of the Conceptual Framework is not expected to have a material impact on the Company's financial statements.

AASB 2020-2 Amendments to Australian Accounting Standards - Removal of Special Purpose Financial Statements for Certain For-Profit Private Sector Entities

This standard is applicable to annual reporting periods beginning on or after 1 July 2021. AASB 2020-2 will prohibit certain for-profit entities from preparing special purpose financial statements and AASB 1060 provides a new Tier 2 reporting framework with simplified disclosures that are based on the requirements of IFRS for SMEs. The future adoption of this standard is not expected to have a material impact on the financial statements of the Company.

AASB 2020-1 Amendments to Australian Accounting Standards - Classification of Liabilities as Current or Non-current

This standard is applicable to annual reporting periods beginning on or after 1 January 2023. There are four main changes to the classification requirements:

1. The requirement for an 'unconditional' right has been deleted from paragraph 69(d) because covenants in banking agreements would rarely result in unconditional rights.
2. The right to defer settlement must exist at the end of the reporting period. If the right to defer settlement is dependent upon the entity complying with specified conditions (covenants), the right to defer only exists at reporting date if the entity complies with those conditions at reporting date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2021

3. Classification is based on the right to defer settlement, and not intention (paragraph 73), and
4. If a liability could be settled by an entity transferring its own equity instruments prior to maturity (e.g. a convertible bond), classification is determined without considering the possibility of earlier settlement by conversion to equity, but only if the conversion feature is classified as equity under IAS 32.

2. CRITICAL ACCOUNTING ESITMATES AND JUDGEMENTS

The management evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

Allowances for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience and historical collection rates.

Carrying amount of inventories

In determining the amount of write-downs of inventories, management has made judgements based on the expected net realisable value. This requires certain judgements and assumptions to be made, including but not limited to historical loss experience, inventory aging and current knowledge of the goods.

Income tax

The Company is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Company recognises liabilities for anticipated tax audit issues based on the Company's current understanding of the tax law. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Impairment

The Company assesses impairment at the end of each reporting period by evaluating the conditions and events specific to the Company that may be indicative of impairment triggers. Recoverable amounts of relevant assets are reassessed using value in use calculations which incorporate various key assumptions. No impairment to be recognised at reporting date.

Employee benefits

For the purpose of measurement, AASB 119: *Employee Benefits* defines obligations for short-term employee benefits as obligations expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service. As the Company expects that most employees will not use all of their annual leave entitlements in the same year in which they are earned or during the following 12-month period, obligations for annual leave entitlements are classified under AASB 119 as other long-term employee benefits.

Lease term

The Company included the renewal period as part of the lease term for leases of building premises, (i.e. three to five years per option). The Company has adopted the position that the extended lease term due to exercisable renewable options would not go beyond fifteen years, after which the Company is not reasonably certain of the factors listed in Note 1 (d).

Incremental borrowing rate

Where the interest rate implicit in a lease cannot be readily determined, an incremental borrowing rate (IBR) is estimated to discount future lease payments to measure the present value of the lease liability at the lease commencement date. Such a rate is based on what the Company estimates it would have to pay a third party to borrow the funds necessary to obtain an asset of a similar value to the right-of-use asset, with similar terms, security and economic environment.

The Company estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates (such as credit rating).

Coronavirus (COVID-19) Pandemic

Judgement has been exercised in considering the impacts that the Coronavirus (COVID-19) pandemic has had, or may have, on the Company based on known information. This consideration extends to the nature of the products and services offered, customers, supply chain, staffing and geographical regions in which the Company operates. Other than as addressed in specific notes, there does not currently appear to be either any significant impact upon the financial statements or any significant uncertainties with respect to events or conditions which may impact the Company unfavourably as at the reporting date or subsequently as a result of the Coronavirus (COVID-19) pandemic.

10. LEASES

The Company leases various building premises. Rental contracts are typically made for fixed periods of 1 to 5 years but may have extension options. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants other than the security interests in the leased assets that are held by the lessor.

Ordinary shares have equal rights to vote, participate in dividends and share in the distribution of surplus assets in the event of the entity winding up.

15. RELATED PARTY TRANSACTIONS

The group's main related parties are as follows:

i) Entities exercising control over the company

The ultimate parent entity is Mahindra & Mahindra Limited, a publically listed company based in Mumbai, India.

ii) Key management personnel

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity, is considered key management personnel.

Information of remuneration of directors and key management personnel is disclosed in Note 5.

iii) Transactions with Related Parties

Transactions with related parties are on normal commercial terms and conditions no more favourable than available to other parties unless otherwise stated.

The following transactions occurred with related parties:

Purchase and sale of goods and services

Mahindra & Mahindra Limited and its subsidiaries

Mahindra Automotive Australia Pty Ltd made total purchases of inventory from Mahindra & Mahindra Limited and its subsidiaries during the year of $8,922,706 (2020: $6,167,657). Sales made by the Company to Mahindra & Mahindra Limited and its subsidiaries during the year of $nil (2020: $107,640).

The Hayden Way (Aust) Pty Limited

Movement in deferred tax asset	**288,883**	–
Movement in provisions	**216,014**	(113,338)
Net cash inflow from operating activities	**1,146,700**	824,953

18. EVENTS AFTER THE REPORTING PERIOD

The COVID-19 pandemic continues to develop and has severely impacted many local economies around the globe, including India where the Company's ultimate parent is based. The ultimate parent is the primary supplier of the Company – there may be some disruption in the Company's supply chain.

Management has determined that these events are non-adjusting subsequent events. Accordingly, the financial position and results of operations as at and for the year ended 31 March 2021 have not been adjusted to reflect their impact. The duration and impact of the COVID-19 pandemic remains unclear at this time. As such, it is not possible to reliably estimate the duration and severity of these consequences, as well as their impact on the financial position and results of the Company for future periods.

INDEPENDENT AUDITORS' REPORT

Based on a report originally issued in Korean

To the Shareholders and Board of Directors of Ssangyong Motor Company

Disclaimer of Opinion

We were engaged to audit the accompanying consolidated financial statements of Ssangyong Motor Company and its subsidiaries ("the Group"), which comprise the consolidated statement of financial position as of December 31, 2020, the consolidated statements of comprehensive loss, changes in equity and cash flows for the years then ended, and notes, comprising significant accounting policies and other explanatory information.

We do not express an opinion on the accompanying consolidated financial statements of the Group. Because of the significance of the matter described in the Basis for Disclaimer of Opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these consolidated financial statements.

Basis for Disclaimer of Opinion

The accompanying consolidated financial statements have been prepared assuming that the Group will continue as a going concern and therefore the Group's assets and liabilities are accounted for on the assumption that they can be recovered or repaid at their carrying amount through the normal course of business activities. As discussed in note 34 to the consolidated financial statements, the Group has incurred operating loss of ₩ 449,389 million and a net loss of ₩ 504,341 million during the period ended December 31, 2020. As of that date, the Group's current liabilities exceed its current assets by ₩ 781,830 million and total liabilities exceed its total assets by ₩ 88,122 million.

The Group has filed for the commencement of rehabilitation under the Debtor Rehabilitation and Bankruptcy Act of Republic of Korea to the Seoul Bankruptcy Court ("the Court") on December 21, 2020. The Group has received an order from the Court to preserve corporate assets as well as a comprehensive ban on the sale of assets and is in the process of an Autonomous Restructuring Support (ARS) program for good consultation with creditors and potential investors.

These events or conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Whether the Group to continue as a going concern or not includes a material uncertainty that depends on the final results of the capital reorganization plan and business improvement plan of the Group, as discussed in note 34 to the consolidated financial statement. However, we were not able to obtain sufficient appropriate audit evidence that could reasonably estimate any adjustment of assets, liabilities and related profit or loss items that might be resulted from the outcome of this uncertainty.

In addition, as discussed in note 11, 12 to the consolidated financial statement, because of the material uncertainty on the ability to continue as a going concern described above, we were not able to obtain sufficient appropriate audit evidence to determine the adequacy of the tangible and intangible assets which amount to ₩ 1,149,028 million and related impairment losses of ₩ 128,373 million in the Group's consolidated financial statements. As a result, we were not able to determine whether those amounts need to be further adjusted.

Other Matter

The consolidated financial statement of the Group for the year ended December 31, 2019 were audited by us in accordance with Korean Standards on Auditing and our report thereon, dated March 16, 2020, expressed an unqualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with K-IFRS, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our responsibility is to audit the Group's consolidated financial statements and issue an audit report in accordance with Korean Standards on Auditing (KSAs). However, because of the significance of the matters described in the Basis for Disclaimer of Opinion section of our report, we were not able to obtain sufficient appropriate audit evidence that provide a basis for an opinion on the consolidated financial statements.

We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Republic of Korea, and we have fulfilled our ethical responsibilities in accordance with these requirements.

Seoul, Korea
March 23, 2021

KPMG Samjong Accounting Corp.

Notice to Readers

This report is effective as of March 23, 2021, the audit report date. Certain subsequent events or circumstances, which may occur between the audit report date and the time of reading this report, could have a material impact on the consolidated financial statements and notes thereto. Accordingly, the readers of the audit report should understand that the above audit report has not been updated to reflect the impact of such subsequent events or circumstances, if any.

See accompanying notes to the consolidated financial statements.

NOTES TO THE SEPARATE FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2020 AND 2019

1. General Description of the Company

(1) Organization and description of business of the Company

Ssangyong Motor Company (the "Company") was incorporated on December 6, 1962, in the Republic of Korea and listed its stocks on the Korea Stock Exchange in May 1975. The Company is headquartered in Dongsak-ro, Pyeongtaek, and its factories are located in Pyeongtaek, Gyeonggi-do, and Changwon, Gyeongsangnam-do, Republic of Korea to manufacture, sell and fix multiple types of vehicle, heavy machinery and those parts.

(2) Major shareholders

As of December 31, 2020, the Company's shareholders are as follows:

Name of shareholder	Number of shares (in shares)	Percentage of ownership
Mahindra & Mahindra Ltd.	111,855,108	74.65%
Others	37,984,894	25.35%
	149,840,002	100.00%

The consolidated financial statements comprise the Company and its subsidiaries (the "Group") and the Group's interest in associates and joint ventures.

2. Basis of Preparation and Accounting Policies

(1) Basis of translating consolidated financial statements

The consolidated financial statements are expressed in Korean won and have been translated into Indian rupees at the rate of INR 0.0674 to ₩ 1 on December 31, 2020, solely for the convenience of the reader. These translations should not be construed as a representation that any or all of the amounts shown could be converted into Indian rupees at this or any other rate.

(2) Statement of compliance

The Group has prepared its consolidated financial statements in accordance with the K-IFRS.

Major accounting policies used for the preparation of the consolidated financial statements are stated below. Unless stated otherwise, these accounting policies have been applied consistently to the consolidated financial statements for the current period and accompanying comparative period.

The accompanying consolidated financial statements have been prepared on the historical cost basis, except as described below. Historical cost is generally based on the fair value of the consideration given.

1. Derivatives measured at fair value
2. FVTPL measured at fair value
3. Defined benefit liabilities that present value of defined benefit obligation deducted by plan assets

The consolidated financial statements as of and for the year ended December 31, 2020, to be submitted at the ordinary shareholders' meeting on March 31, 2021, were authorized for issuance at the board of directors' meeting on March 15, 2021.

(3) Use of estimates and judgments

The preparation of the consolidated financial statements in conformity with K-IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The Group makes estimates and assumptions concerning the future. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The significant estimates and assumptions and those which have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities after the end of the reporting period are addressed below.

- Property, plant and equipment and Intangible assets: Assumptions for estimating recoverable amount for impairment test
- Provision for warranty for sale: Assumptions of expected expenditures based on warranty periods.
- Employee benefits: Actuarial assumptions.
- Trade and other receivables: Estimation of the possibility of impairment of receivables.
- Inventories: Estimation of the possibility of losses of inventories.
- Going concern assumption: Judgment on whether there is any significant uncertainty of going concern assumption.
- Lease term: the possibility of exercising the extension option.

With the COVID-19 pandemic, entities are experiencing conditions often associated with a general economic downturn, and so does the Group both directly and indirectly. The impact of COVID-19 continues as of the end of the reporting period, and it is unclear how long COVID-19 would last and how much its impact would be. Therefore, uncertainties exist in estimates used to measure recoverable amounts of assets held by the Group due to COVID-19.

(4) Changes in accounting policies

The Group has initially adopted amended Definition of a business (K-IFRS No. 1103 Business combinations) and Interest Rate Benchmark Reform (K-IFRS No. 1109 Financial Instruments, K-IFRS No. 1039 Financial Instruments Recognition and Measurement and K-IFRS No. 1107 Financial Instruments Disclosures) from January 1, 2020. A number of other new standards are also effective from January 1, 2020 but they do not have a material effect on the Group's financial statements.

3. Significant Accounting Policies

The significant accounting policies that we applied to the preparation of the Group's consolidated financial statements in accordance with K-IFRS are described below. Except Note 2.(4) Changes in accounting policies, the Group has consistently applied the accounting policies to the Group's consolidated financial statements for the years ended December 31, 2020 and 2019.

(1) New standards and interpretations not yet adopted

As of December 31, 2020, new standards which are amended and effective but not applied for annual periods beginning after January 1, 2020 are the followings. The Group decided not to early adopt the followings in preparation of the consolidated financial statements.

The following amendment standards and interpretation are not expected to have a significant impact on the Group's consolidated financial statements.

- K-IFRS No. 1001 Classification of Liabilities as Current or Non-current (Amendment)
- K-IFRS No. 1103 Reference to the Conceptual Framework
- K-IFRS No. 1016 Property, Plant and Equipment (Amendment)
- K-IFRS No. 1037 Onerous Contracts – Cost of Fulfilling a Contract (Amendment)
- K-IFRS No. 1116 Leases – Impact of the initial application of Covid-19-Related Rent Concessions(Amendment)
- Annual Improvements to K-IFRS Standards 2018–2020

(2) Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Group and the entities (including structured entities) controlled by the Company and its subsidiaries. Control is achieved when the Group 1) has the power over the investee; 2) is exposed, or has rights, to variable returns from its involvement with the investee; and 3) has the ability to use its power to affect its returns. The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Group has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Group considers all relevant facts and circumstances in assessing whether or not the Group's voting rights in an investee are sufficient to give it power, including:

a. the size of the Group's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;

b. potential voting rights held by the Group, other vote holders or other parties;

c. rights arising from other contractual arrangements; and

d. any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statements of comprehensive income from the date the Company gains control to the date when the Company ceases to control the subsidiary. Profit or loss and each component of other comprehensive income are attributed to the owners of the Group and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies in-line with the Group's accounting policies.

All inter-company transactions and related assets and liabilities, income and expenses are eliminated in full on consolidation. Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognized directly in equity and attributed to the owners of the Group.

When the Group loses control of a subsidiary, a gain or loss on disposal is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the previous carrying amount of the assets (including goodwill) and liabilities of the subsidiary and any non-controlling interests. When assets of the subsidiary are carried at revalued amounts or fair values and the related cumulative gain or loss has been recognized in other comprehensive income and accumulated in equity, the amounts previously recognized in other comprehensive income and accumulated in equity are accounted for as if the Group had directly disposed of the relevant assets (i.e., reclassified to profit or loss or transferred directly to retained earnings). The fair value of any investment retained in the former subsidiary at the date when control is lost is recognized as the fair value on initial recognition for subsequent accounting under K-IFRS No. 1039, Financial Instruments: Recognition and Measurement, or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

(3) Investments in joint ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a joint arrangement, whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates or joint ventures are incorporated in these consolidated financial statements using the equity method of accounting, except when the investment is classified as held for sale; in which case, it is accounted for in accordance with K-IFRS No. 1105, Non-Current Assets Held for Sale and Discontinued Operations. Under the equity method, an investment in an associate or a joint venture is initially recognized in the consolidated statements of financial position at cost and adjusted thereafter to recognize the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognizing its share of further losses. Additional losses are recognized only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

Any excess of the cost of acquisition over the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities of an associate or a joint venture recognized at the date of acquisition is recognized as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition, after reassessment, is recognized immediately in profit or loss.

Upon disposal of an associate or a joint venture that results in the Group losing significant influence over that associate or joint venture, any retained investment is measured at fair value at that date and the fair value is regarded as its fair value on initial recognition as a financial asset in accordance with K-IFRS No. 1109. The difference between the previous carrying amount of the associate or joint venture attributable to the retained interest and its fair value is included in the determination of the gain or loss on disposal of the associate or joint venture. In addition, the Group accounts for all amounts previously recognized in other comprehensive income in relation to that associate or joint venture on the same basis it would be required if that associate or joint venture had directly disposed of the related assets or liabilities. Therefore, if a gain or loss previously recognized in other comprehensive income by that associate or joint venture would be reclassified to profit or loss on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as reclassification adjustment) when it loses significant influence over that associate or joint venture.

When the Group reduces its ownership interest in an associate or a joint venture, but continues to use the equity method, it reclassifies to profit or loss the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest if that gain or loss would be reclassified to profit or loss on the disposal of the related assets or liabilities. In addition, the Group applies K-IFRS No. 1105, Non-Current Assets Held for Sale and Discontinued Operations, to a portion of investment in an associate or a joint venture that meets the criteria to be classified as held for sale.

The requirements of K-IFRS No. 1109 are applied to determine whether it is necessary to recognize any impairment loss with respect to the Group's investment in an associate or a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with K-IFRS No. 1036, Impairment of Assets, by comparing its recoverable amount (higher of value in use or fair value, less costs to sell) with its carrying amount, and any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized in accordance with K-IFRS No. 1036 to the extent that the recoverable amount of the investment subsequently increases.

The Group continues to use the equity method when an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate. There is no re-measurement to fair value upon such changes in ownership interests.

When a Group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognized in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

(4) Revenue recognition

K-IFRS No. 1115 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including K-IFRS

No. 1018 Revenue, K-IFRS No. 1011 Construction Contracts, K-IFRS No. 2113 Customer Loyalty Programs, K-IFRS No. 2115 Agreements for the Construction of Real Estate and K-IFRS No. 2118 Transfers of assets from customers.

The Group have identified distinct performance obligations for our products and merchandise contract with our customers, such as (1) sales of vehicles and merchandise, (2) transportation of vehicles, and (3) warranties. The revenue from the sale of goods under the contract is recognized when the goods are transferred to the customer and the performance obligation is transferred. In addition, The Group identified performance obligations for transportation and guarantee and deferred recognition of revenue over the time or period of performance.

Our sales contract with customers has the option of customers purchasing additional warranties. Also, depending on the sales policy, customers may be offered service warranty beyond the assurance warranty when selling a vehicle. When a customer purchases a warranty or provides a service warranty to a customer under a sales policy, sales recognition related to the performance obligations is deferred to the time the performance obligation is fulfilled and is not recognized in provision of warranties.

Transaction price of a service warranty to a customer under a sales policy is allocated by relative individual sales price that is estimated by "expected cost plus a margin approach". The consideration paid to customers defined in K-IFRS No. 1115 are recognized by deducting from related sales.

(5) Foreign currencies

The individual financial statements of each Group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each Group entity are expressed in Korean won, which is the functional currency of the entity and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

(6) Non-derivative financial assets

1) Recognition and initial measurement

Trade receivables and debt securities are recognized for the first time at the time of issue. Other financial instruments and financial liabilities are recognized only when the Group becomes a party to the financial instrument.

Except for trade receivables that do not include significant financial assets, are measured at fair value at the time of initial recognition and except for, financial assets at fair value through profit or loss or financial liabilities s at fair value through profit or loss, transaction costs directly related to the acquisition of the financial asset or the issuance of the financial liability are added to or subtracted from the fair value. Trade receivables that do not include significant financial elements are initially measured at transaction prices.

2) Classification and subsequent measurements

At initial recognition, financial assets are amortized cost, other comprehensive income - fair value debt instruments, other comprehensive income - fair value equity instruments or profit or loss - classified as measured at fair value.

Financial assets are not reclassified after initial recognition, unless the entity modifies the financial asset management model, in which case all of the financial assets impacted are reclassified on the first day of the first reporting period after the change in the business model.

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- It is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.
- Its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. This includes all derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

An assessment of whether contractual cash flows consist solely of principal and interest

The principal is defined as the fair value at the initial recognition of the financial asset. Interest consists of consideration for the time value of money, consideration for credit risk associated with the principal balance in a particular time period, as well as consideration for basic loan risk and costs (e.g., liquidity risk and operating costs) as well as profit.

When evaluating whether the contractual cash flows consist solely of payments for principal and interest, we take into account the terms and conditions of the applicable product. If a financial asset includes a contractual term that changes the timing or amount of a contractual cash flow, then the contractual terms must determine whether the contractual cash flows that may occur over the life of the financial instrument consist solely of principal payments.

When evaluating this, we consider the following:

- Conditional conditions that change the amount or timing of cash flow
- Provision to adjust contractual nominal interest rate, including variable interest rate characteristics
- Moderate repayment characteristics and maturity extension characteristics
- The terms of the contract that limit our claims for cash flows arising from a particular asset (e.g. non-property features)

A prepayment feature is consistent with solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable compensation for early termination of the contract. Additionally, for a financial asset acquired at a discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) is treated as consistent with this criterion if the fair value of the prepayment feature is insignificant at initial recognition.

Subsequent measurement and profit and loss

Financial assets at FVTPL	These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.
Financial assets at amortized cost	These assets are subsequently measured at amortized cost using the effective interest method. The amortized cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.
Debt investments at FVOCI	These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in OCI. On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.
Equity investments at FVOCI	These assets are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in OCI and are never reclassified to profit or loss.

3) Elimination

In the event that the contractual rights to cash flows of financial assets have ceased, the Group transfers the contractual rights to receive the cash flows of the financial assets and substantially transfers the risks and rewards of ownership of the transferred financial assets. Or if the Group does not control or control the financial assets without retaining or transferring substantially all the risks and rewards of ownership.

If the Group transacts a recognized asset in its statement of financial position but holds most of the risks and rewards of ownership of the transferred asset, the transferred asset is not removed.

4) Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when the Group currently has a legally enforceable right to set off the recognized amounts and there is the intention to settle on a net basis or to realize the asset and settle the liability simultaneously.

(7) Impairment of financial assets

1) Financial instruments and contract assets

The Group recognize a loss reserve for expected credit losses on the following assets:

- Financial assets measured at amortized cost
- Debt instruments measured at fair value- Other comprehensive income
- Contractual assets as defined in K-IFRS No. 1115

The Group measures loss allowances at an amount equal to lifetime ECLs, except for the following, which are measured as 12-month ECLs:

- Debt securities that are determined to have low credit risk at the reporting date; and
- Other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

The Group has elected to measure loss allowances for trade receivables and contract assets at an amount equal to lifetime ECLs.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information.

The Group considers a financial asset to be in default when:

- The borrower is unlikely to pay its credit obligations to the Group in full, without recourse by the

Group to actions such as realizing security (if any is held)

Total expected credit losses are the expected credit losses due to any default event that may occur during the expected life of the instrument. The expected 12-month credit loss is the total expected period that represents the expected credit loss due to a default event of a financial instrument that can occur within 12 months after the end of the reporting period (or a shorter period if the expected life of the instrument is less than 12 months) Part of credit loss.

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

2) Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

3) Credit-impaired financial assets

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The evidence that the credit of a financial asset is impaired includes the following observable information.

- Significant financial difficulty of the debtor
- A breach of contract such as a default or being more than 90 days past due
- The restructuring of a loan or advance by the company on terms that the company would not consider otherwise
- It is probable that the debtor will enter bankruptcy or other financial reorganization, or
- The disappearance of an active market for a security because of financial difficulties

4) Presentation of allowance for credit loss on statement of financial position

The allowance for losses on financial assets at amortized cost is deducted from the carrying amount of the asset. For debt instruments measured at FVOCI, changes in credit risk are included in profit or loss and changes in non-credit risk are recognized in other comprehensive income.

5) Write-Off

If there is no reasonable expectation of recovery of all or part of the contractual cash flows of a financial asset, the asset is removed. For individual customers, the Group assesses the timing and amount of each individual by assessing whether there is a reasonable expectation of recovery for the enterprise customer, based on historical experience with the recovery of similar assets. The Group has no expectation that the proceeds will be recovered significantly. However, deferred financial assets can be subject to collection activities in accordance with the collection procedure of the amount due.

(8) Financial liabilities and Paid-in capital

1) Paid-in capital

Common stock is classified as equity. Incremental costs directly related to capital transactions are deducted from equity as a net amount reflecting the tax effect.

Repurchase of the Group's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

2) Financial liabilities

The Group classifies financial liabilities as financial liabilities at fair value through profit or loss and other financial liabilities in accordance with the definition of the substance of contractual contracts and financial liabilities and recognizes them in the consolidated statement of financial position when becoming a party to the contract.

1) Financial liabilities at fair value through profit or loss

Financial liabilities are classified as held for trading if they are classified as held for trading, are derivatives, or are initially recognized at fair value through profit or loss. Financial liabilities at fair value through profit or loss are measured at fair value after initial recognition and changes in fair value are recognized in profit or loss. Transaction costs incurred in connection with the initial recognition are recognized in profit or loss as incurred.

2) Other financial liabilities

Non-derivative financial liabilities that are not classified as financial liabilities at fair value through profit or loss are classified as other financial liabilities. Other financial liabilities are measured initially at fair value, net of transaction costs directly attributable to the issue. Subsequently, other financial liabilities are measured at amortized cost using the effective interest method. Interest expense is recognized using the effective interest method.

3) Elimination of financial liabilities

Group only eliminates financial liabilities when the contractual obligation of the financial liability is fulfilled, cancelled or expired. The Group recognizes new financial liabilities as fair value based on new contracts and removes existing liabilities when the contractual terms of the financial liabilities change and the cash flows change substantially. When a financial liability is derecognized, the difference between the carrying amount and the consideration paid (including any transferred non-cash assets or liabilities assumed) is recognized in profit or loss.

(9) Derivative financial instruments

The Group enters into derivative financial instruments to manage its exposure to foreign exchange rate risk by foreign exchange forward contracts.

Derivatives are initially recognized at fair value at the date the derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The resulting gain or loss is recognized in profit or loss immediately, unless the derivative is designated and effective as a hedging instrument; in which case the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

At inception of designated hedging relationships, the Group documents the risk management objective and strategy for undertaking the hedge. The Group also documents the economic relationship between the hedged item and the hedging instrument, including whether the changes in cash flows of the hedged item and hedging instrument are expected to offset each other.

Cash Flow hedges

When a derivative is designated as a cash flow hedging instrument, the effective portion of change in the fair value of the derivative is recognized in OCI and accumulated in the hedging reserve. The effective portion of changes in the fair value of the derivative that is recognized in OCI is limited to the cumulative change in fair value of the hedged item, determined on a present value basis, from inception of the hedge. Any ineffective portion of changes in the fair value of the derivative is recognized immediately in profit or loss.

The Group designates only the change in fair value of the spot element of forward exchange contracts as the hedging instrument in cash flow relationships. The change in fair value of the forward element of forward exchange contracts (forward points) is separately accounted for as a cost of hedging and recognized in a cost of hedging reserve within equity.

(10) Inventories

Inventories are stated at the lower of cost or net realizable value. Cost of inventories, except for those in transit, are measured under the weighted-average method and consists of the purchase price, cost of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realizable value represents the estimated selling price for inventories, less all estimated costs of completion and costs necessary to make the sale.

When inventories are sold, the carrying amount of those inventories is recognized as an expense (cost of sales) in the period in which the related revenue is recognized. The amount of any write-down of inventories to net realizable value and all losses of inventories is recognized as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realizable value, is recognized as a reduction in the amount of inventories recognized as an expense in the period in which the reversal occurs.

(11) Property, plant and equipment

Property, plant and equipment are stated at cost, less subsequent accumulated depreciation and accumulated impairment losses. The cost of an item of property, plant and equipment is directly attributable to their purchase or construction, which includes any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. It also includes the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent costs are recognized in the carrying amount of an asset or as a separate asset if it is probable that future economic benefits associated with the assets will flow into the Group and the cost of an asset can be measured reliably. Routine maintenance and repairs are expensed as incurred.

The Group does not depreciate land. Depreciation expense is computed using the straight-line method based on the estimated useful lives of the assets as follows:

	Useful lives (Years)
Buildings	24~50
Structures	13~30
Machinery and equipment	10
Vehicles	6~10
Others	6~10

If each part of an item of property, plant and equipment has a cost that is significant in relation to the total cost of the item, it is depreciated separately.

The Group reviews the depreciation method, the estimated useful lives and residual values of property, plant and equipment at the end of each annual reporting period. If expectations differ from previous estimates, the changes are accounted for as a change in an accounting estimate.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on de-recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

(12) Intangible assets

1) Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost, less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost, less accumulated impairment losses.

2) Internally generated intangible assets - research and development expenditure

Expenditure on research activities is recognized as an expense in the period in which it is incurred.

Expenditure arising from development (or from the development phase of an internal project) is recognized as an intangible asset if, and only if, the development project is designed to produce new or substantially improved products, and the Group can demonstrate the technical and economic feasibility and measure reliably the resources attributable to the intangible asset during its development.

The amount initially recognized for internally generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria. Where no internally generated intangible asset can be recognized, development expenditure is recognized in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally generated intangible assets are reported at cost, less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

The useful life of amortization related to intangible assets is as follows.

	Useful lives (Years)
Development cost	5
Patents	5~10
Software	3
Other intangible assets	Indefinite

3) Derecognition of intangible assets

An intangible asset is derecognized on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognized in profit or loss when the asset is derecognized.

(13) Impairment of Non-financial assets

The carrying amounts of the Group's non-financial assets other than assets arising from biological assets, investment property, contract assets, employee benefits, inventories and deferred tax assets are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Intangible assets that have indefinite useful lives irrespective of whether there is any indication of impairment, Good will and intangible assets not yet available are tested for impairment annually by comparing their recoverable amount to their carrying amount.

The Group estimates the recoverable amount of an individual asset, if it is impossible to measure the individual recoverable amount of an asset, then the Group estimates the recoverable amount of cash-generating unit ("CGU"). A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets. The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell.

The value in use is estimated by applying a pre-tax discount rate that reflect current market assessments of the time value of money and the risks specific to the asset or CGU for which estimated future cash flows have not been adjusted, to the estimated future cash flows expected to be generated by the asset or CGU.

An impairment loss is recognized in profit or loss if the carrying amount of an asset or a CGU exceeds its recoverable amount.

(14) Retirement benefit costs and termination benefits

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding interest), is reflected immediately in the consolidated statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they occur. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to profit or loss. Past service cost is recognized in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are composed of service cost (including current service cost and past service cost, as well as gains and losses on curtailments and settlements), net interest expense (income) and remeasurement.

The Group presents the service cost and net interest expense (income) components in profit or loss and the remeasurement component in other comprehensive income. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognized in the consolidated statement of financial position represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognized at the earlier of when the entity can no longer withdraw the offer of the termination benefit or when the entity recognizes any related restructuring costs.

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan. When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

If the contributions are not linked to services (e.g., contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset).

If contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the entity reduces service cost by attributing the contributions to periods of service using the attribution method required by K-IFRS No. 1019 paragraph 70 for the gross benefits. For the amount of contribution that is independent of the number of years of service, the entity reduces service cost in the period in which the related service is rendered.

(15) Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, if it is probable that the Group will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material). The discount rate used is a pretax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage is recognized in profit or loss as borrowing cost.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

At the end of each reporting period, the remaining provision balance is reviewed and assessed to determine if the current best estimate is being recognized. If the existence of an obligation to transfer economic benefit is no longer probable, the related provision is reversed during the period.

(16) Lease

A contract is, or contains, a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

1) As a lessor

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this in the case, then the lease is a finance lease; if not, then it is an operating lease.

As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption, then it classifies the sub-lease as an operating lease.

2) As a lessee

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component. The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The estimated useful lives of right-of-use assets are determined on the same basis as those of property and equipment. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discounted rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- the exercise price under a purchase option that the Group is reasonably certain to exercise, lease payments in an optional renewal period if the Group is reasonably certain to exercise and extension option, and penalties for early termination of a lease unless the Group is reasonably certain not to terminate early.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use assets, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases of machinery that have a lease term of 12 months or less and lease of low-value assets, including IT equipment. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(17) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings, pending their expenditure on qualifying assets, is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

(18) Government grants

Government grants are not recognized until there is reasonable assurance that the Group will comply with the conditions attached to them and that the grants will be received.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

Government grants related to assets are presented in the consolidated statement of financial position by deducting the grant from the carrying amount of the asset. The related grant is recognized in profit or loss over the life of a depreciable asset as a reduced depreciation expense.

Government grants related to income are recognized in profit or loss on a systematic basis over the periods in which the Group recognizes as expenses the related costs for which the grants are intended to compensate. Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognized in profit or loss in the period in which they become receivable.

(19) Finance income and expenses

Finance income comprises interest income on funds invested. Interest income is recognized as it accrues in profit or loss, using the effective interest method.

Finance expenses comprise interest expenses on borrowings. Interest expense is recognized as it accrues in profit or loss, using the effective interest method.

(20) Earnings per share

The Group presents basic and diluted earnings per share(EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholdings of the Group by the weighted average number of ordinary shares outstanding during the period, adjusted for own shares held. The Group has no dilutive potential shares, therefore diluted loss per share is equal to the basic earnings(loss) per share.

(21) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

1) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the consolidated statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2) Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences.

Deferred tax assets are generally recognized for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent it is probable that there will be sufficient taxable profits against which the benefits of the temporary differences can be utilized and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset if, and only if, the Group has a legally enforceable right to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities that intend either to settle current tax liabilities and assets on a net basis or to realize the assets and settle the liabilities simultaneously in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

3) Current and deferred taxes for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case the current and deferred taxes are also recognized in other comprehensive income or directly in equity, respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

(22) Fair value

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of K-IFRS No. 1102 Share-based payment; leasing transactions that are within the scope of K-IFRS No. 1116 Leases; and measurements that have some similarities to fair value, but are not fair value, such as net realizable value in K-IFRS No. 1002 Inventories or value in use in K IFRS No. 1036 Impairment of Assets.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

a. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

b. Level 2 inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

c. Level 3 inputs are unobservable inputs for the asset or liability.

(23) Segment information

Segment information is presented in the same format as the reporting material presented to the Group's management. The Group's management is liable for the assessment of the resources to be allocated to the business segments and the performance results of the business segments.

(24) Accounting Treatment related to the Emission Rights Cap and Trade Scheme

The Group classifies the emission rights as intangible assets. Emission right allowances the government allocated free of charge are measured at ₩ 0, and emission right allowances purchased are measured at cost that the Group paid to purchase the allowances. If emission rights that the government allocated free of charge are sufficient to settle the emission rights allowances allotted for vintage year, the emissions liabilities are measured at ₩ 0. However, for the emission liabilities that exceed the allowances allocated free of charge, the shortfall is measured at best estimate at the end of the reporting period.

4. Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and in banks and highly liquid short-term financial instruments that may be easily converted into cash and whose risk of value fluctuation is not material.

5. Restricted Financial Instruments

Restricted financial Instruments as of December 31, 2020 and 2019 are as follows:

(In thousands of won and in thousands of rupee)

			Korean won			Indian rupee		
	Financial institution		**2020**	2019		**2020**	2019	**Description**
Cash and cash equivalents	Shinhan Bank	₩	**36,488**	187,494	Rs	**2,459**	12,637	Government grants
	Woori Bank and others		**8,121,902**	752,317		**547,416**	50,706	Unconfirmed reorganization debt pledged as collateral
Non-current financial instruments	Shinhan Bank and others		**4,000**	4,000		**270**	270	Bank account deposit
		₩	**8,162,390**	943,811	Rs	**550,145**	63,613	

6. Non-current Financial Assets

Non-current financial assets as of December 31, 2020 and 2019 are as follows:

(In thousands of won)

			2020			2019
	Ownership (%)		**Acquisition cost**	**Net asset value**	**Book value**	Book value
Korea Business Finance Loan(*)	**1.72**	₩	**500,000**	**736,772**	**500,000**	500,000
Korea Management Consultants Association(*)	**1.50**		**60,000**	**949,895**	**60,000**	60,000
		₩	**560,000**	**1,686,667**	**560,000**	560,000

(In thousands of rupee)

			2020			2019
	Ownership (%)		**Acquisition cost**	**Net asset value**	**Book value**	Book value
Korea Business Finance Loan(*)	**1.72**	Rs	**33,700**	**49,658**	**33,700**	33,700
Korea Management Consultants Association(*)	**1.50**		**4,044**	**64,023**	**4,044**	4,044
		Rs	**37,744**	**113,681**	**37,744**	37,744

(*) Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are measured at acquisition cost.

7. Trade and Other Receivables

(1) Details of trade and other receivables as of December 31, 2020 and 2019 are as follows:

(In thousands of won)

		2020		2019	
		Current	**Non-current**	Current	Non-current
Trade receivables	₩	**100,646,367**	**–**	121,416,355	100,000
Less: Allowance for doubtful accounts		**(92,268)**	**–**	(150,829)	(497)
Other receivables		**14,963,013**	**139,755**	7,141,943	160,679
Less: Allowance for doubtful accounts		**(3,712,208)**	**(44,250)**	(4,036,702)	(44,345)

	₩	**192,365,295**	226,131,073	Rs	**12,965,421**	15,241,234

The Group has measured inventories at the lower of cost or net realizable value. The losses on valuation of inventories amounted to ₩ 4,035,760 thousand (Rs 272,010 thousand) and ₩ 10,407,813 thousand (Rs 701,487 thousand) for the years ended December 31, 2020 and 2019 are included in cost of sales.

9. Investments in Subsidiaries and a Joint venture

(1) Details of investment in subsidiaries and a joint venture as of December 31, 2020 and 2019 are as follows:

(In thousands of won)

	Company	Location	Ownership	Closing month	Industry
Subsidiaries	Ssangyong Motor (Shanghai) Co., Ltd.	China	100%	December	Sales of automobile
	Ssangyong European Parts Center B.V.	Netherlands	100%	December	A/S and sales
	Ssangyong Australia Pty Ltd.(*1)	Australia	100%	December	Sales of automobile
Joint venture	SY Auto Capital Co., Ltd.(*2)	Korea	51%	December	Finance

(*1) The Group made additional investments of ₩ 1,116,761 thousand (Rs 75,270 thousand) for the year ended December 31, 2019.

(*2) SY Auto Capital Co., Ltd. were established under joint venture agreement as a joint venture since the Group has rights only to the net assets, and their legal structures of arrangements are separated.

(2) Changes in the carrying amounts of investments in a joint venture for the year ended December 31, 2020 is as follows:

(In thousands of won)

		Beginning balance	Share of profit of a joint venture	Changes in defined benefit plan re-measurements	Ending balance
Ssangyong Motor (Shanghai) Co., Ltd.	₩	19,053,781	2,027,166	(25,252)	21,055,695

(In thousands of rupee)

		Beginning balance	Share of profit of a joint venture	Changes in defined benefit plan re-measurements	Ending balance
Ssangyong Motor (Shanghai) Co., Ltd.	Rs	1,284,225	136,631	(1,702)	1,419,154

(3) Summarized financial information of subsidiaries and a joint venture

1) The summarized financial information of the Group's subsidiaries and joint venture as of and for the year ended December 31, 2020 is as follows:

(In thousands of won)

		2020				
		Assets	Liabilities	Equity	Sales	Net income (loss)

(*1) ₩ 76,699 million of land, buildings, and structures located in Guro-dong, Guro-gu, Seoul, and Gamjeon-dong, Sasang-gu, Busan was sold (disposal amount: ₩ 206,250 million), recognizing the related disposal gain of ₩ 115,251 million. Meanwhile, a sales and lease back agreement was signed regarding the dispose of land, buildings and structures in Guro-dong, Guro-gu, Seoul (Notes 13).

(*2) The Group determined that this is the case when there are signs of impairment to the cash-generating unit due to continuous deterioration of competitiveness and market deterioration due to the spread of COVID-19. Accordingly, the impairment assessment of the cash-generating unit was performed and ₩ 47,170 million was recognized as impairment loss for the period ended December 31, 2020. The recoverable amount of the cash flow generating unit in the impairment assessment was determined on the basis of its net fair value. Meanwhile, the Group performed an impairment assessment by calculating the value of use at the year ended December 31, 2020, but there is a material uncertainty in the cash flow of the business plan used to calculate the value of use. The ultimate impact of this uncertainty may differ from the amount of impairment losses the Group recognised.

(*3) The Group recognized ₩ 1,082 million in property, plant and equipment as impairment losses for the year ended December 31, 2020 due to the discontinuation of some development projects.

(*4) Capitalized borrowing costs in respect of construction in progress is ₩ 607,927 thousand and ₩ 160,675 thousand was transferred from inventory to vehicles during the year ended December 31, 2020. Meanwhile, the government grants of ₩ 54,838 thousand is adjusted in others.

(*1) Cash Generating Unit consists of only a single cash-generating unit. As the present value (value in use) of future cash flows expected from the use and disposal of property, plant and equipment is less than the book value at the end of this year, the book value was adjusted to recoverable value and the difference was recognized as a loss on property, plant and equipment (non-operating expenses). The discount rate used in calculating value in use is 8.6% and 1% growth rate has been applied since 2024.

(*2) Capitalized borrowing costs in respect of construction in progress is ₩ 765,291 thousand and ₩ 2,607,028 thousand was transferred from inventory to vehicles during the year ended December 31, 2019. Meanwhile, the government grants of ₩ 197,692 thousand is adjusted in others.

(*1) Rs 5,170 million of land, buildings, and structures located in Guro-dong, Guro-gu, Seoul, and Gamjeon-dong, Sasang-gu, Busan was sold (disposal amount: Rs 13,901 million), recognizing the related disposal gain of Rs 7,768 million. Meanwhile, a sales and lease back agreement was signed regarding the dispose of land, buildings and structures in Guro-dong, Guro-gu, Seoul (Notes 13).

(*2) The Group determined that this is the case when there are signs of impairment to the cash-generating unit due to continuous deterioration of competitiveness and market deterioration due to the spread of COVID-19. Accordingly, the impairment assessment of the cash-generating unit was performed and Rs 3,179 million was recognized as impairment loss for the period ended December 31, 2020. The recoverable amount of the cash flow generating unit in the impairment assessment was determined on the basis of its net fair value. Meanwhile, the Group performed an impairment assessment by calculating the value of use at the year ended December 31, 2020, but there is a material uncertainty in the cash flow of the business plan used to calculate the value of use. The ultimate impact of this uncertainty may differ from the amount of impairment losses the Group recognised.

(*3) The Group recognized Rs 73 million in property, plant and equipment as impairment losses for the year ended December 31, 2020 due to the discontinuation of some development projects.

(*4) Capitalized borrowing costs in respect of construction in progress is Rs 40,974 thousand and Rs 10,829 thousand was transferred from inventory to vehicles during the year ended December 31, 2020. Meanwhile, the government grants of Rs 3,696 thousand is adjusted in others.

(In thousands of rupee)

(5) Sales and lease back

The Group has been liquidating the land and buildings of the factory in Guro-dong, Guro-gu, Seoul to enhance asset efficiency and financial stability for the year ended December 31, 2020. The main terms of sales and lease back transactions are as the following:

	Main terms
Type	Sales and lease back
Counterparty	PIA Guro-station PFV Co., ltd.
Transaction amount	₩ 180 Billion (Rs 11 Billion)
Underlying assets	Factory land and building in Guro-dong, Guro-gu, Seoul
Lease term	2 years
Extension option	It is possible to extend the lease term up to a year (one time only) prior to 4 months by agreement between the parties.
Lessee's preemption preference	If the lessor intends to sell the lease object to a third party before the expiration of the lease term, the lessee may exercise the right to preferentially purchase the lease object (preemption preference).

The details of the Group's recognition for the year ended December 31, 2020 due to sales and lease back transactions are as the following:

- Right-of-use asset: ₩ 7,300 million (Rs 492 million) increased.
- Property, plant and equipment: ₩ 60,834 million (Rs 4,100 million) decreased.
- Gains on disposal of PPE: ₩ 104,866 million (Rs 7,068 million) increased.
- Lease deposit: ₩ 10,800 million (Rs 728 million) increased.

14. Borrowings

(1) Details of short-term borrowings as of December 31, 2020 and 2019 are as follows:

(In thousands of won and in thousands of rupee)

Creditor	Type	Interest rate (%) (*5)	Korean won 2020	Korean won 2019	Indian rupee 2020	Indian rupee 2019
Korea Development Bank	Operating fund (*1)	CD+5.10	₩ **20,000,000**	20,000,000	Rs **1,348,000**	1,348,000

Benefit paid directly	(1,321,107)	–	(1,321,107)
Ending balance	Rs 24,069,182	(64,317)	24,004,865

(3) The components of plan assets as of December 31, 2020 and 2019 are as follows:

(In thousands of won and in thousands of rupee)

	Korean won		Indian rupee	
	2020	2019	**2020**	2019
Insurance contracts	₩ **933,028**	954,268	Rs **62,886**	64,318

(4) Actuarial assumptions used related to plans as of December 31, 2020 and 2019 are as follows:

	2020	2019
Discount rate (%)	**2.40**	2.30
Rate of future salary growth (%)	**3.97**	3.96

The discount rate is the market yield at the end of the reporting year on high quality corporate bonds (AA+) that have maturity which approximates the terms of the Group's obligations and that are denominated in the same currency in which the benefits are expected to be paid. The discount rate for the calculation of the present value of defined benefit obligations is also used as expected return on plan assets.

Weighted average duration of defined benefit obligation as of December 31, 2020 and 2019 are 10.5 years and 11.1 years, respectively.

(5) The sensitivity of the defined benefit obligations to key assumptions as of December 31, 2020 is as follows:

(In thousands of won and in thousands of rupee)

	Korean won		Indian rupee	
	1% increase	**1% decrease**	**1% increase**	**1% decrease**
Discount rate	₩ **(35,247,596)**	40,600,477	Rs **(2,375,688)**	2,736,472
Future salary growth	**39,762,904**	(35,082,139)	**2,680,020**	(2,364,536)

Sensitivity analysis does not take into account the variance of all expected cash flows, but it provides an approximation of the sensitivity to the assumptions used.

19. Commitments and Contingencies

Details of commitments and contingencies as of December 31, 2020 are as follows:

(1) The Group carries product liability insurance for all products that it sells.

(2) As of December 31, 2020, the Group has agreements with Korea Development Bank and others for various borrowings, trading finance and others with limit of ₩ 355,000 million (Rs 23,927 million). With regard to the overdraft from JP Morgan, BNP Paribas and the facility fund from JP Morgan, the conditions for these loans stipulate that the largest shareholder of the Group, Mahindra & Mahindra's stake in the Group must exceed 51%.

(3) As of December 31, 2020, 5 claims as a plaintiff were filled with the claim amount of ₩ 5,801 million (Rs 391 million) and 7 claims as a defendant were filled with the claims of ₩ 978 million (Rs 66 million). The provision amounting to ₩ 8,092 million (Rs 545 million) is recognized as other payable for the foregoing lawsuits and claims, since the amounts for potential loss can be estimated and management expect that it is probable that the Group will be required to incur an outflow.

(4) Details of provisions reflected in payables as of December 31, 2020 are as follows:

(In thousands of won and in thousands of rupee)

		Korean won		Indian rupee
		2020		**2020**
Beginning balance	₩	**27,238,937**	Rs	**1,835,904**
Increase(*)		**141,957,483**		**9,567,935**
Decrease		**(44,617,894)**		**(3,007,246)**
Ending balance	₩	**124,578,526**	Rs	**8,396,593**

(*) In relation to the Korean/EU Co2 emission regulations, the Group estimated the expected payments that fall short of the standard fuel efficiency and emissions and estimated ₩ 68,422,537 thousand (Rs 4,611,679 thousand) as a provision as of December 31, 2020. In addition, the Group estimates the expected payments such as ongoing litigation cases and sales incentives as a provision.

(5) As of December 21, 2020, the Group filed for commencement of rehabilitation procedure and received a disposition of property preservation and an order of comprehensive prohibition from the courts.

20. Capital Stock

The Group's capital stock as of December 31, 2020 and 2019 are as follows:

(In thousands of won and in thousands of rupee, except for par value and share information)

		Korean won			Indian rupee	
		2020	2019		**2020**	2019
Number of shares authorized		**3,000,000,000**	3,000,000,000		**202,200,000**	202,200,000
Shares outstanding		**149,840,002**	149,840,002		**149,840,002**	149,840,002

Loss on disposal of short-term trading assets		**–**	16,792		**–**	1,132
	₩	**17,729,535**	19,030,821	Rs	**1,194,971**	1,282,677

(3) Details of the Group's financial net profit or loss for the years ended December 31, 2020 and 2019 are as follows:

(In thousands of won and in thousands of rupee)

		Korean won			Indian rupee	
		2020	2019		**2020**	2019
Financial assets/ liabilities at amortized cost	₩	**(13,949,915)**	(7,584,883)	Rs	**(940,224)**	(511,221)
Non-current financial assets		**11,000**	11,000		**741**	741
Derivatives financial assets (liabilities)		**–**	285,249		**–**	19,226
	₩	**(13,938,915)**	(7,288,634)	Rs	**(939,483)**	(491,254)

29. Losses per Share

(1) Basic losses per share for the years ended December 31, 2020 and 2019 are calculated as follows:

(In thousands of won and in thousands of rupee, except per share information)

		Korean won			Indian rupee	
		2020	2019		**2020**	2019
Loss for the year	₩	**(504,340,967)**	(341,364,140)	Rs	**(33,992,581)**	(23,007,943)
Loss contributed to common stocks		**(504,340,967)**	(341,364,140)		**(33,992,581)**	(23,007,943)
Weighted average number of common shares		**149,840,002**	149,096,397		**149,840,002**	149,096,397
Basic earnings (losses) per share(*)	₩	**(3,366)**	(2,290)	Rs	**(227)**	(154)

(*) Diluted losses per share are not calculated for the years ended December 31, 2020 and 2019, because there are no dilutive shares as of December 31, 2020 and 2019.

(2) Weighted average number of common shares outstanding for the years ended December 31, 2020 and 2019 are calculated as follows:

(In shares)

	2020			
	Outstanding period	**Common shares issued**	**Weighted-average**	**Common shares outstanding**
Beginning	**2020-01-01~2020-12-31**	**149,840,002**	**366/366**	**149,840,002**
				149,840,002

(In shares)

	2019			
	Outstanding period	Common shares issued	Weighted-average	Common shares outstanding
Beginning	2019-01-01~2019-12-31	137,949,396	365/365	137,949,396
Issuing(*)	2019-01-01~2019-12-31	1,033,976	365/365	1,033,976
Issuing	2019-01-26~2019-12-31	10,856,630	340/365	10,113,025
				149,096,397

(*) In accordance with K-IFRS No.1033, when the rights offering is less than fair value, the shares issued below the fair value are considered as free shares and the number of shares outstanding is retroactively calculated.

30. Cash Flows

(1) Details of cash flows from operating activities for the years ended December 31, 2020 and 2019 are as follows:

(In thousands of won and in thousands of rupee)

	Korean won		Indian rupee	
	2020	2019	**2020**	2019
Loss for the year	₩ **(504,340,967)**	(341,364,140)	Rs **(33,992,581)**	(23,007,943)
Adjustments for:

33. Financial Instruments

(1) Capital risk management

The Group manages capital risk in order to maximize shareholders' profit by maintaining sound or optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary.

The Group uses debt ratio as a capital management index and calculates the ratio as total liabilities divided by total equity on financial statements. The Group is not subject to externally enforced capital regulation.

Debt-to-equity ratio as of December 31, 2020 and 2019 are as follows:

(In thousands of won and in thousands of rupee)

		Korean won			Indian rupee	
		2020	2019		**2020**	2019
Debt (A)	₩	**1,856,750,687**	1,616,083,587	Rs	**125,144,996**	108,924,033
Equity (B)		**(88,122,116)**	403,123,556		**(5,939,431)**	27,170,528
Debt-to-equity ratio (A/B)(*)		**–**	400.89%		**–**	400.89%

(*) The debt to equity ratio was not calculated because the total equity is the negative amount as of December 31, 2020.

	Rs 69,076,649	–	Rs 69,076,649	69,076,649

(3) Financial risk management

The Group is exposed to credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Group operates a risk management policy and a program that performs close monitoring and responds to each risk factors.

Financial assets that are subject to the financial risk management consist of cash and cash equivalents, non-current financial assets, trade receivables, other receivables and others; financial liabilities subject to the financial risk management consist of trade payables, other payables, borrowings, and others.

1) Market risk

a. Foreign exchange risk

The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. The Group assesses, manages and reports, on a regular basis, the foreign exchange risk for its receivables and payables denominated in foreign currency.

The table below shows the sensitivity for each foreign currency when exchange rates change 10%. Sensitivity analysis only includes foreign currency monetary items that are not paid, and it adjusts the translation assuming exchange rate changes 10% as of December 31, 2020.

(In thousands of won and in thousands of rupee)

	Korean won		Indian rupee	
Currency	**10% increase**	**10% decrease**	**10% increase**	**10% decrease**
USD	₩ 1,589,797	₩ (1,589,797)	Rs 107,152	Rs (107,152)
EUR	1,288,112	(1,288,112)	86,819	(86,819)
JPY	(1,402,097)	1,402,097	(94,501)	94,501
Others	(313,518)	313,518	(21,131)	21,131
	₩ 1,162,294	₩ (1,162,294)	Rs 78,339	Rs (78,339)

b. Interest rate risk

Sensitivity analysis was conducted assuming floating rate debt current balance is the same during the whole reporting year. When reporting interest rate risk to management internally, 0.5% variation is used, representing management's assessment about reasonably possible fluctuations of interest rates.

If other variables are constant and the interest rate is lower or higher by 0.5% than the current rate, the Group's current income will decrease or increase in ₩ 1,498,219 thousand (Rs 100,980 thousand) for the year ended December 31, 2020, due to floating rate debt's interest rate risk.

2) Credit risk

Credit risk arises from transactions in the ordinary course of business and investment activities and when a customer or a transacting party fails to perform obligations defined by respective contract terms. In order to manage the aforementioned credit risk, the Group regularly assesses credit ratings of its customers and transacting parties based on their financial status and past experiences, and establishes credit limit for each customer or transacting party.

If a credit risk occurs with respect to a dealership sale, which is a major type of the Group's sales, the respective dealership bears all of the risk; the Group manages credit risk on product sales using two management index, agreed liability rate and agreed excess rate, and when the management index exceeds the agreed rate, it imposes a release restriction on the respective dealership and transfers a credit risk arising from product sales. The Group's trade receivables are usually collected within 30 days but some of the notes receivable are collected within 75 days.

The Group estimates an allowance for the receivables that are over more than 90 days, but less than one year through an individual analysis based on each transacting party; for receivables that are not subject to individual analysis, the Group estimates an allowance based on the historical loss rates.

Maximum exposure in respect of credit risk as of December 31, 2020 and 2019 are as follows:

(In thousands of won and in thousands of rupee)

	Korean won		Indian rupee	
	2020	2019	**2020**	2019
Trade and other receivables	₩ **163,500,821**	₩ 175,234,811	Rs **11,019,955**	Rs 11,810,826

3) Liquidity risk

The Group has managed liquidity risk to maintain adequate level of liquidity by periodic projecting cash outflow. To manage the risks, the Group has entered into a factoring agreement with capital financial institutions.

The contractual maturities of financial liabilities as of December 31, 2020 and 2019 are as follows:

Unused amount	**–**	117,000,000	**–**	7,885,800

(4) Fair value of financial instruments

1) The Group's management deems that the differences between carrying value and fair value of financial assets and financial liabilities recognized as amortized cost on financial statements is not significant.

2) Valuation methods and assumptions applied in fair value measurement

The fair values of financial instruments (i.e., government bonds and unsecured corporate bonds) traded on active markets are determined with reference to quoted market prices. The Group uses the closing price as the quoted market price for its financial assets

The fair values of derivatives where no active market exists or where quoted prices are not otherwise available are determined by using valuation techniques. Non-option derivatives are evaluated by discounted cash flow method using the yield curve available. Options are evaluated by option-pricing models. Foreign exchange forward contracts are determined using the yield curve derived from market interest rates with the same maturity of forward contracts. To measure interest rate swaps, the cash flows are estimated by the yield curve derived from market interest rate and discounted to calculate the present value of swaps.

3) The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, classified as Level 1, 2 or 3, based on the degree to which the fair value is observable.

Level 1 quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or in indirectly (i.e. derived from prices)

Level 3 input for the asset or liability that are not based on observable market data (unobservable inputs)

No financial instruments are measured at fair value after initial recognition as of December 31, 2020 and 2019.

34. Going concern assumption

The Group's financial statements are prepared on the assumption that it will continue as going concern, and therefore our assets and liabilities are accounted for on the assumption that they can be recovered or repaid at their carrying amount through the normal course of business activities. However, due to deteriorating financial structure, the Group has incurred operating losses of ₩ 449,389 million (Rs 30,289 million) and net losses of ₩ 504,341 million (Rs 33,993 million) as of the end of the reporting period. In addition, the Group's current liabilities exceed its current assets by ₩ 781,830 million (Rs 52,695 million) as of the end of the reporting period.

As of December 21, 2020, the Group filed for commencement of rehabilitation procedure with the Seoul Bankruptcy Court under the Debtor Rehabilitation and Bankruptcy Act of South Korea. And the Group received a disposition of property preservation and an order of comprehensive prohibition from the courts. The Group had applied for an ARS (autonomous restructuring support) program to find a new investor or rebuilds creditors' trust during the period. These events indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern.

In circumstances where material uncertainty on the ability to continue as a going concern, which is the basis for preparation of the consolidated financial statements. As a result, the Group has commenced a capital reorganization plan.

As the stabilization of operating income will depend on the success of this plan, a significant uncertainty exists. As it will be difficult for the Group to continue as a going concern if the Group fails to achieve its plan, the carrying amount of the Group's assets and liabilities may not be recoverable in the ordinary course of business. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

THE INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS AT 31 MARCH 2021

PURSUANT TO ARTICLE 14 OF LEGISLATIVE DECREE 39/2010

Opinion

We have audited the accompanying Financial Statements of Mahindra Europe S.r.l. ("the Company"), which comprises the Balance Sheet as at March 31st, 2021, and the Statement of Profit and Loss (including other comprehensive income), the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended.

In our opinion, the annual Financial Statements at 31 March 2021 comply with the provisions which discipline the criteria for the drafting of the same; they have been drawn up clearly and give a true and correct representation of the Company's equity and financial situation and economic result.

Basis for Opinion

We report that the attached Financial Statements present fairly, in all material respects, the financial position of Mahindra Europe S.r.l. as at March 31st, 2021 and of its financial performance and cash flows for the year then ended and are properly prepared in accordance with the group accounting policies and the instructions given to us and are in conformity with Group Accounting Policies and Instructions on a basis consistent with that of the preceding year.

We further state that, in our judgment and for the purpose as mentioned above, there are no other matters that need to be reported to you.

Management's Responsibility for the Financial Statements

The Company's Board of Directors are responsible for the preparation and fair presentation of the Financial Statements in accordance with the instructions received from Mahindra & Mahindra Ltd and the accounting policies set out in the group audit instructions. This responsibility also includes maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Financial Statements

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with the International Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the Financial Statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Management, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Other matters

In particular and with respect to Mahindra & Mahindra Limited and the other components in the Mahindra & Mahindra Group we are independent and comply with the applicable requirements of the International Standards on Auditing.

The Financial Statements has been prepared for purposes of providing information to Mahindra & Mahindra Limited to enable it to prepare the consolidated financial statements of Mahindra & Mahindra Group. The special purpose financial information is not a complete set of financial statements of the Company and thus not suitable for any other purpose.

"EURO amounts are translated for convenience into Indian Rupees at the exchange rate of Rs 86.13 = Euro 1 which is the average of the telegraphic transfer buying and selling rates quoted by the Mumbai Branch of State Bank of India on 31st March 2021".

A lakh is a unit in the Indian numering system equal to one hundred thousand (100.000).

This Financial Statement is in agreement with results of accountant records.

For The Board of Directors:

Arvind Mathew

Chairman

Mumbai, 27th April 2021

Notes to the financial statements at 31/03/2021

Indian Rupees at the exchange rate of INR 86.13 = Eur 1
A lakh is a unit in the Indian numeric system equivalent to one hundred thousand (100.000).

Introduction

Dear Quotaholder,

The financial statements for the fiscal year ended 31/03/2021 is submitted for your verification and approval. The fiscal year FY2021 ended with a profit equal to Euro 129,392 / INR 111.45 Lakhs, net of taxes and after depreciation and provisions for a total of Euro 170,128 / INR 146.53 Lakhs

Area of Business

Your company carries out its activities in the sector of distribution of motor vehicles and spare parts, as official importer of Mahindra vehicles in the European markets like Italy, Spain, Slovakia, Hungary, Bulgaria & other Eastern Europe countries.

Major events occurred during the company's fiscal year

The significant events that occurred during the year are as follows:

The Company had obtained from the Ministry of Transport, necessary homologation extensions with the relative derogations for the entire range of vehicles, in line with the requirements of the applicable regulations.

The Company obtained the renewal of the existing credit lines with Intesa Sanpaolo and Bank of America Merrill Lynch.

The credit lines are mainly used to finance the import of vehicles and spare parts and to finance the short-term treasury. All credit lines are regulated at market conditions and guarantee the Company adequate financial resources for the management of its business.

The Company renewed the agreement with Fiditalia to offer its customers retail financing options for supporting vehicle sales.

The global economic forecast for 2020 have been seriously compromised by the rapid spread of the SARS Covid-19 infection officially recognized as a "pandemic", in consideration of the levels of diffusivity and severity reached, on 11 March 2020 by the World Health Organization .

The entire global economic system has consequently been compromised by the prolonged restrictive measures necessary to stem the epidemiological emergency such as the interruption of a large part of production activities, limitations in trade and in the mobility of people.

Nationally, ISTAT data showed a decrease in GDP of 8.9%; on the domestic demand side, in terms of volume, there was a 9.1% drop in gross fixed investments and 7.8% in national final consumption. As for flows with foreign countries, exports of goods and services fell by 13.8% and imports by 12.6%.

The Company temporarily closed its commercial activity, in the months of April and May 2020, in order to comply with the decrees issued by the Italian Government on the COVID-19 health emergency

Layout criteria

The criteria adopted for the preparation of the financial statements at 31/03/2021 take into account the changes introduced into Italian legislation by legislative decree 139/2015, through which EU Directive 2013/34 was implemented. As a result Legislative decree 139/2015 amended the Italian accounting principles issued by the Italian Accounting Body OIC (*Organismo Italiano di Contabilità*).

It was not feasible to calculate the cumulative past effects of the change in accounting principle and the determination of the past effects was too burdensome and therefore the new accounting principle OIC 15 and OIC 19 was not applied.

The financial statements have been drawn up in accordance with arts. 2423 of the Italian Civil Code, as appears from these Notes, which have been prepared pursuant to art. 2427 of the Italian Civil Code and are an integral part of the financial statements within the meaning and for the purposes of art. 2423.

Financial statement figures are expressed in whole Euro and INR/Lakhs by rounding off the relevant amounts to the nearest whole number. Any rounding-off differences were recorded under the item "INR/Lakhs Rounding-off reserve" included among the Shareholders' equity. Pursuant to article 2423(6) of the Italian civil code, the notes were drawn up in units of thousands of Euro and INR/Lakhs/ (in whole Euro and INR/Lakhs).

The explanatory note presents the information of the balance sheet and income statement items in the order in which the related items are indicated in the respective financial statements.

Valuation criteria

(article 2427(1)(1) of the Civil Code, OIC 12)

The valuation of the items in the financial statements was made based on general criteria of prudence and competence, on going-concern basis.

The application of the prudence principle involved the individual valuation of the elements making up the individual items or items of the assets or liabilities, to avoid offsetting between losses that should have been recognized and profits that should not be recognized as unrealized.

In compliance with the accrual principle, the effect of transactions and other events has been recognized and attributed to the year to which these transactions and events refer, and not to the year in which the related cash movements take place (collections and payments).

In application of the principle of relevance, the obligations regarding recognition, evaluation, presentation and disclosure were not respected when their observance had irrelevant effects in order to give a true and correct representation.

The consistent application of accounting principles over time ensures the comparability of the company's financial statements drawn up in different fiscal years.

The recognition and presentation of the balance sheet items was made taking into account the substance of the transaction or contract.

The Company has not made use of the right to exempt from the ordinary rules relating to business continuity.

Exceptional cases pursuant to art. 2423, fifth paragraph, of the Civil Code

(article 2423 (5) of the Civil Code)

There have been no exceptional cases that have made it necessary to resort to exceptions pursuant to art. 2423 paragraph 5 of the Civil Code.

Changes in accounting principles

The Company has not changed the accounting principles.

As regards the application of the national accounting standards OIC 15 (credits) and OIC 19 (debts), relatively

the application of the amortized cost criterion and the discounting of the expected cash flow of the correspondent nominal value of the credit / debit, the company makes use of the relevant presumptions of irrelevance for credits and debts with a maturity of less than twelve months, the effects being irrelevant with respect to the results that would be obtained with the pre-reform criteria, since the sale and purchase transactions are negotiated with deferred payments at market rates and with a negligible amount of transaction costs.

Problems of comparability and adaptation

The evaluation criteria adopted in the preparation of the financial statements closed on 31/03/2021 were the same used for the preparation of the financial statements for the previous fiscal year, therefore it was not necessary to calculate the previous cumulative effect of the change in principle.

Appraisal criteria applied

(Ref. Art. 2426, first paragraph, Civil Code)

Fixed assets

Intangible assets

These have been recorded at their historical purchase cost net of the relevant yearly amortisation charged to the individual items.

The costs relating to industrial patent rights and intellectual property rights, licenses, concessions and trademarks whose effects regard several different years are depreciated over a period of 5 business years, while the costs for the approval of vehicles are amortized over a period of 3 business years.

Software licenses were recorded in the assets and are amortized over a period of 2 business years.

Improvements to third party assets are amortized with rates depending upon the duration of the contract.

In the event that, regardless of the depreciation booked, a permanent loss of value occurs, the asset is written down accordingly. If in the following years the reasons for the write-down cease to exist, the original value, adjusted by depreciation, is restored.

The Company has not made use of the right to suspend the depreciation rates for the 2020 financial year provided for in Article 60, paragraphs 7-bis to 7-quinquies of Law Decree 104/2020 (converted by Law 126/2020).

The Company has not made use of the right to revalue intangible assets as required by Article 110 of the Law Decree 104/2020 (converted by Law 126/2020).

Tangible assets

These have been recorded at their purchase cost and are adjusted by the relevant accumulated depreciation.

The book value includes any ancillary costs and the costs incurred for the use of the asset, less any trade discounts and any significant cash discounts.

The depreciation charged to profit and loss account has been calculated on the basis of the remaining useful life of the assets, taking into account their use, destination and economic-technical life, which we believe are well reflected by the following rates, unchanged compared to the previous fiscal year and halved in the year in which the asset has entered operation:

Type of Asset	**% Depreciation**
Specific Plants & Equipments	15%
Generic Systems	10%
Electronic Machines	20%
Passenger Vehicles	25%
Commercial Vehicles	20%
Office furniture & equipments	12%
Others	10%

In the event that, regardless of the depreciation booked, a permanent loss of value occurs, the fixed assets are written down accordingly. If in the following years the reasons for the write-down cease to exist, the original value, adjusted by depreciation, is restored.

The company has not made use of the right to suspend the depreciation rates for the 2020 financial year provided for in Article 60, paragraphs 7-bis to 7-quinquies of Law Decree 104/2020.

The company has not made use of the right to revalue tangible fixed assets as required by Article 110 of Law Decree 104/2020 (converted by Law 126/2020).

Finance lease transactions

Finance lease transactions are shown in the financial statements using the net asset method, by charging the lease payments to the profit and loss account on an accruals basis. The additional information required by the law on the representation of finance lease agreements under the financial method is contained in a specific section of the notes.

The Company did not take advantage of the suspension of the payment of leasing fees as provided for in Article 56, paragraph 2, letter c), of Law Decree no. 18/2020 (converted by law no.27 of 24 April 2020), therefore the Company has not rescheduled the duration of the financial lease.

Accounts receivable

The amortised cost method was not applied since its effects are immaterial for the purpose of giving a true and fair view. Therefore, accounts receivable have been recorded at their presumed realisable value, without prejudice for the possibility to apply time discounting. The adjustment of the nominal value of receivables to the assumed realizable value is obtained through a reserve for bad debts, taking into consideration the general and industrial economic conditions and country risk.

Accounts receivable recorded in the financial statements before the fiscal year starting 1 January 2016 have been recorded at their presumed realisable value since, as provided by accounting principle OIC 15, it was decided not to apply the amortised cost method and time discounting.

The nominal value of the accounts receivable was adjusted to the presumed realisable value by a bad debt reserve, having regard also to any indicators of permanent impairment.

Accounts receivable originally due within one year and subsequently transformed into long-term receivables were recorded in the balance sheet among financial assets.

Accounts receivable are written off when the contractual rights to receive the relevant cash flows have been extinguished or when the risks in connection with the payment of the receivables have been transferred.

Accounts payable

The amortised cost method was not applied since its effects are immaterial for the purpose of giving a true and fair view. Therefore, accounts payable have been recorded at their nominal value, without prejudice for the possibility to apply time discounting.

Accounts payable recorded in the financial statements before the fiscal year starting 1 January 2016 have been recorded at their nominal value since, as provided by accounting principle OIC 19, it was decided not to apply the amortised cost method and time discounting.

Accrued income/liabilities – pre payments / deferred income

These have been determined on an accruals basis.

With regard to accrued income / liabilities and prepayments/deferred income of a duration exceeding one year, we checked the conditions for their original entry and adopted any necessary changes.

Inventory

Raw materials, auxiliary materials and finished products have been recorded at the lower of purchase or manufacturing cost and realisable value as inferred from market trend, applying the weighted average cost method for spare parts and the specific cost method for vehicles.

Production cost includes the direct and indirect costs incurred during production, which are necessary for stocks to be in the current place and conditions.

On 31/03/2021 the company has not goods-in-process and work-in-progress goods.

The value thus obtained is then adjusted by the "provision for stock obsolescence" in order to take into account those goods which are expected to be realised at a value lower than cost.

Any stocks which were written down but in respect of which in subsequent years the reasons for the write-down to their realisation value ceased to exist, were restored to their original value.

Securities

The company does not hold any securities.

Shareholdings

The company does not hold any shareholdings in subsidiary and affiliated .

The shareholdings included among current assets, which do not represent a long-term investment, have been valued at the lower of purchase cost and realisable value as inferred from market trend.

Treasury shares

The company does not hold any treasury shares.

Derivative financial instruments

The company does not hold any derivative financial instruments.

Provisions for contingent liabilities and charges

These provisions are set aside for the coverage of losses or liabilities that are certain or likely to arise, but whose amount or date of occurrence could not be determined at the year-end.

The provisions have been measured on a prudential and accruals basis and no generic funds without economic justification were created.

Any potential liabilities were carried to the financial statements and recorded in the relevant provisions as they were considered likely to arise and their amount could be reasonably estimated.

Provision for employees' leaving indemnity (TFR)

This consists of the amounts actually accrued in favour of the employees pursuant to the law and the current collective bargaining agreements, taking into account any elements of remuneration paid on a continuous basis.

The provision includes the total payments accrued for employees at the year-end net of any advances paid, and assuming termination of their employment relationship at such date.

The provision does not include any amounts accrued starting from 1 January 2007 that have been paid into complementary pension schemes pursuant to legislative decree no. 252 dated 5 December 2005 (or transferred to the special-purpose fund managed by the Italian social security authority - INPS).

Income taxes

The provision for taxes has been set aside on an accruals basis and includes the following:

- accruals in respect of the taxes paid or to be paid for the year, determined at the current rates and in accordance with the rules in force;
- the amount of deferred tax assets or liabilities in respect of temporary differences which arose or were written off in the year;
- any adjustments to the balance of deferred taxes to account for changes in the tax rates occurred/for the introduction of the new tax during the year.

Deferred IRES assets and liabilities are calculated on the temporary differences between the assets and liabilities determined in accordance with civil code principles and the corresponding tax values, solely with regard to the company.

Current IRAP and any deferred IRAP assets and liabilities are determined solely with regard to the company.

Recognition of income

Proceeds from sales are recognised at the time of the transfer of ownership which usually coincides with the delivery or forwarding of the goods;

Financial income and income from the provision of services is recognised on an accruals basis.

Revenue and proceeds, costs and charges related to transactions in foreign currency are determined at the exchange rate in force at the date when the relevant transaction takes place.

Only the accrued portion of the income and costs related to buy/sell-back transactions, including the difference between the spot price and the forward price, is recognised.

Adjustment criteria

The company not applied the adjustment criteria.

Criteria for the translation of accounts in foreign currency

Accounts payable and receivable denominated in foreign currency and recorded at the exchange rates in force on the date of the transaction, are retranslated at the exchange rates ruling at the year-end as determined by Bank of Italy.

In particular, assets and liabilities which constitute assets and liabilities in foreign currency are recorded at the spot exchange rate ruling at the year-end and the relevant exchange gains and losses have been taken to the Profit and Loss Account under item 17bis “Exchange gains and losses”.

Any net gain deriving from the adjustment of the items in foreign currency to the year-end exchange rates is included in the result for the year and, at the time of the financial statements approval and appropriation of the operating result to the legal reserve, the part which is not offset against the loss for the year, if any, is apportioned to a reserve which is not distributable until the gain is realised.

Non-current assets and liabilities in foreign currency are recorded at the exchange rate ruling at the time of purchase.

No significant effects of the changes to the exchange rates occurred between the year-end and the financial statements preparation date. (article 2427(1)(6-bis) of the Civil Code).

Commitments, guarantees and potential liabilities

Commitments, which are not recorded in the balance sheet, consist of obligations assumed by the company vis-à-vis third parties and arising from legal arrangements with mandatory effects but not yet implemented by either party. Commitments include both commitments in respect of which both the relevant execution and amount is known (for instance, on buy/sell-back transactions) and commitments which are definitely going to be executed but whose amount is unknown (for example, agreement with a price adjustment clause). The amount of the commitments is their nominal value as inferred from the relevant documentation.

The company didn’t provide guarantees include personal guarantees and collaterals.

The financial statements do not include financial fixed assets whose amount is higher than their fair value.

C) Current assets

I. Inventory

EUR

Balance at 31/03/2021	Balance at 31/03/2020	Difference
4.156.856	11.997.644	(7.840.788)

INR

Balance at 31/03/2021	Balance at 31/03/2020	Difference
3,580.30	10,333.57	(6,753.27)

Accounting policies have been applied consistently with the prior year as explained in the introduction to these notes.

The adopted assessment does not significantly differ from the one using the current cost approach.

The value of inventories is composed of:

EUR

Description	Amount at 31/03/2021	N. vehicles
Vehicles in stock	**2.460.492**	302
Vehicles km 0	**78.661**	6
Vehicles in transit	**0**	0
Spare parts and accessories	**1.547.002**	N/A
Spare parts devaluation	**(96.600)**	N/A
Equipment and advertising	**166.821**	N/A
Total	**4.156.856**	308

INR

Description	Amount at 31/03/2021	N. vehicles
Vehicles in stock	**2,119.22**	302
Vehicles km 0	**67.75**	6
Vehicles in transit	**–**	0
Spare parts and accessories	**1,332.43**	N/A
Spare parts devaluation	**(83.20)**	N/A
Equipment and advertising	**143.68**	N/A
Total	**3,580.30**	308

The decrease in vehicles in stock is majorly due to sales of the KUV100 model, while vehicles at Km. 0 are related to the XUV500 W6, W10 E6b models.

The item vehicles in stock refers to cars in storage at the Ariccia headquarters, at the depository company located in Spain and at the depository company located in Livorno.

There are no commitments contractually undertaken for works and services still to be performed at year end

The Company has not used its stock obsolescence provision, which was amounting to INR/Lakhs 0 at 31/03/2021.

Any contractual undertakings in respect of works and services to be carried out at the year-end.

The Company has not entered the inventory obsolescence provision but has written down the obsolete inventory spare parts (not moved for more than five years) whose realizable value is lower than cost, adjusting the inventory value as at 31/03/2021.

Cash and cash equivalents	5.39	0.10	**5.48**
Rounding off	389.87	602.49	**992.36**

The balance reflects the cash-in-hand, cash-at-bank and cash equivalents at the year-end.

D) Accrued income/prepayments

EUR

31/03/2021	31/03/2020	Difference
114.021	144.390	(30.369)

INR

Balance at 31/03/2021	Balance at 31/03/2020	Difference
98.21	124.36	(26.16)

They constitute the adjustment to costs and income pertaining to more than one fiscal year, incurred and earned before actual payment or collection and calculated on an accrual basis.

The criteria adopted for the recognition and translation of items in foreign currency have been reported in the first part of these notes.

At 31/03/2021, there were no accrued income/prepayments of a duration exceeding five years.

EUR

	Accrued income	Prepayments	Total
Opening balance		144.390	**144.390**
Changes during the year		(30.369)	**(30.369)**
Closing balance		114.021	**114.021**

INR

B) Provision for contingent liabilities and charges

(article 2427(1)(4) of the Civil Code)

EUR

Balance at 31/03/2021	Balance at 31/03/2020	Difference
27.863	27.863	

INR

Balance at 31/03/2021	Balance at 31/03/2020	Difference
24.00	24.00	

EUR

	Provision for pension and similar benefits	Provision for taxes, including deferred taxes	Derivative financial instruments	Other provisions companies	Total
Value at the beginning of the year				27.863	27.863
Changes in the year:					
Increases as a result of changes in the fair value				14.944	14.944
Decreases as a result of changes in the fair value				14.944	14.944
Total changes					
Value at the end of the year				27.863	27.863

INR

	Provision for pension and similar benefits	Provision for taxes, including deferred taxes	Derivative financial instruments	Other provisions companies	Total
Value at the beginning of the year				24.00	24.00
Changes in the year:				–	–
Increases as a result of changes in the fair value				12.87	12.87
Decreases as a result of changes in the fair value				12.87	12.87
Total changes				–	–
Value at the end of the year				24.00	24.00

The increases are in connection with the accrual for the year, while decreases consist of amounts used in the year.

The item "Other provisions" at 31/03/2021, of INR/Lakhs 24.00 Eur 27,863 is composed as follows: (article 2427(1)(7) of the civil code).

Description	**EUR As at 31/03/2021**
Fund for warranties	**27.863**
Fund for tax assessment	**0**
TOTAL	**27.863**

Description	**INR As at 31/03/2021**
Fund for warranties	**24.00**
Fund for tax assessment	**0**
TOTAL	**24.00**

The accrual to these provisions was justified by the fact that (i) the other provisions were made to the Warranty fund, because it has been considered not adequate to cover contract discrepancies between what has been acknowledged by the Company and what has been received by the Parent company.

During the year, the value of the provision for warranty was reinstated for a value deemed appropriate.

C) Indemnity for Employees leaving the Company
(article 2427(1)(4) of the Civil Code)

EUR

Balance at 31/03/2021	Balance at 31/03/2020	Difference
166.594	155.870	10.724

INR

Balance at 31/03/2021	Balance at 31/03/2020	Difference
143.49	134.25	9.24

The difference can be described as follows.

EUR

	Indemnity for Employees leaving company
Value at the beginning of the year	**155.870**
Changes in the year:	**–**
Increases as a result of changes in the fair value	**10.724**
Total changes	**10.724**
Value at the end of the year	**166.594**

INR

	Indemnity for Employees leaving company
Value at the beginning of the year	**134.25**
Changes in the year:	**–**
Increases as a result of changes in the fair value	**9.24**
Total changes	**9.24**
Value at the end of the year	**143.49**

The provision consists of the amounts payable at 31/03/2021 to the employees on the company's payroll at that date, net of any advances paid.

This consists of the amounts actually accrued in favour of the employees pursuant to the law and the current collective bargaining agreements, taking into account any elements of remuneration paid on a continuous basis.

The provision includes the total amounts accrued at 31 December 2006 for employees at the year-end, net of any advances paid, and assuming termination of their employment relationship at such date.

The provision does not include any amounts accrued starting from 1 January 2007 that have been paid into complementary pension schemes pursuant to legislative decree no. 252 dated 5 December 2005 (or transferred to the special-purpose fund managed by the Italian social security authority - INPS).

In the year after 31/03/2021 employees are not expected to receive a estimated employees' leaving indemnity as a result of incentivised dismissals and corporate reorganisation plans.

D) Accounts payable
(article 2427(1)(4) of the Civil Code)

EUR

Balance at 31/03/2021	Balance at 31/03/2020	Difference
8.867.756	19.940.282	(11.072.526)

INR

Balance at 31/03/2021	Balance at 31/03/2020	Difference
7,637.80	17,174.56	(9,536.77)

The balance can be broken down by due date as follows (article 2427(1)(6) of the Civil Code):

EUR

	Value at the beginning of the year	**Changes in the year**	**Value at the end of the year**	**Falling due within one year**	**Falling due after more than one year**	**Due after more than five years**
Accounts payable to banks	3.991.644	1.865.387	5.857.031	5.857.031		
Accounts payable to suppliers	2.205.815	(976.206)	1.229.609	1.229.609

Total	**19.940.282**	**(11.072.526)**	**8.867.756**	**8.867.756**		

INR

	Value at the beginning of the year	**Changes in the year**	**Value at the end of the year**	**Falling due within one year**	**Falling due after more than one year**	**Due after more than five years**
Accounts payable to banks	3,438.00	1,606.66	5,044.66	5,044.66		
Accounts payable to suppliers	1,899.87	(840.81)	1,059.06	1,059.06		
Accounts payable to controlling companies	11,583.47	(10,761.41)	822.06	822.06		
Taxes payable	13.13	431.44	444.57	444.57		
Accounts payable to social security institutions	42.46	2.36	44.82	44.82		
Other accounts payable	197.64	24.99	222.63	222.63		
Total	**17,174.56**	**(9,536.77)**	**7,637.80**	**7,637.80**		

The balance of the accounts payable to banks at 31/03/2021, in an amount of INR/Lakhs 5,044.66

Eur 5.857.031 including bank loans, corresponds to the full payable including principal amount, interest and ancillary charges which have come to maturity and can be collected.

The item "Advances" includes any advances from customers on goods and services not yet supplied or rendered; this item includes advance payments, as earnest money or otherwise, received in connection with the sale of tangible, intangible and financial fixed assets.

Accounts payable from suppliers are recognised at their nominal value of net of trade discounts; cash discounts are recorded upon payment. The nominal value of these payables has been adjusted in case of returns or allowances (invoice adjustments) by the corresponding amount agreed with the other party.

The company took advantage of the possibility not to follow the amortised cost method and/or not to time discount accounts payable since 2016.

The company adopted the following accounting policies: no time discounting of accounts payable due within one year; no time discounting of accounts payable if the effective interest rate does not significantly differ from market rate; no adoption of the amortised cost method for accounts payable due within one year, no adoption of the amortised cost method if transaction costs, commission fees and any other difference between initial value and value on expiry are of negligible amount.

With regard to the accounts payable to controlled companies and undertakings under control by the controlling companies, we note that they refer to vehicles' and spare parts' supplies under normal market conditions.

The item "Tax liabilities" only includes the actual taxes payable, while any likely tax liabilities or tax liabilities whose amount or date of occurrence is doubtful or deferred tax liabilities, are recorded in item B.2 of the liabilities section of the balance sheet (Provision for taxes).

The accounts payable falling due within one year not include accounts payable backed by covenants.

No significant changes occurred in the amount of Tax liabilities.

In the tax payables item are registered IRAP tax debt € 10.005 INR/Lakhs 8.62 net of advances paid during the year for € 20.667 INR/Lakhs 17.80

Breakdown of the accounts payable by geographical area

The following table shows a breakdown of the accounts payable at 31/03/2021 by geographical area (article 2427(1)(6) of the Civil Code).

Total	**8.14**

They constitute the adjustment to costs and income calculated on an annual basis.

The criteria adopted for the recognition and translation of items in foreign currency have been reported in the first part of these notes.

At 31/03/2021, there were no accrued liabilities/deferred income of a duration exceeding five years.

Profit and loss account

For the purposes of the correct interpretation of the financial statements closed on 31/12/2021 and the assessment of their possible comparability with the financial statements for the previous year, it is highlighted that the emergency situation deriving from the SARS Covid-19 infection made it necessary the adoption of specific measures to support the activity and the workers involved, with a consequent effect on the documents making up the financial statements and in particular the Income Statement.

In detail, the Company deemed it appropriate:

1. not to charge the depreciation rates for the year relating to tangible and intangible assets to a reduced extent;
2. make use of social safety nets to deal with the fall in demand;
3. request the deduction of social security contributions;
4. not to pay the 2019 IRAP balance and the first 2020 prepaid account.

A) Revenue

Costs of raw materials, subsidiary materials, consumables and goods and costs of services

They are closely related to the information provided in the Directors' report and to point A (Revenue) of the Profit and loss account.

Personnel costs

This item includes all employee costs, including bonuses, promotions, cost-of-living increases, untaken holidays and the provisions made pursuant to the law and the national collective bargaining agreements.

During the financial year the Company used the following help from Government to mitigate the adverse economic effect related to Covid-19:

- extraordinary redundancy fund (C.I.G.S.);
- benefit from holiday season;
- de-contribution of social charge.

Depreciation of tangible assets

Depreciation has been calculated on the basis of the useful life of the assets and their contribution to the production process.

The Company accrued the depreciation related the financial year closed as at 31/03/2021.

Other write-downs of fixed assets

The item is not reflected in the present financial statements.

Write-downs of accounts receivable included among current assets and of liquid assets

The Company has accrued provisions to the credit collection fund equal to Euro 23,000.

Accruals to provisions for contingent liabilities and charges

The Company has accrued provisions to the warranty fund equal to Euro 14,944.

Other accruals

The item is not reflected in the present financial statements.

Miscellaneous running costs

They refer to taxes other than income tax, subscriptions and other charges.

The company has not entered expenses for exceptional amount or incidence.

Pursuant to article 2427(1)(14) of the civil code, we set out below the required information on deferred tax assets and liabilities:

Deferred tax assets and liabilities

Deferred tax assets have been recorded since in the years in which the underlying deductible temporary differences are going to be reversed there is reasonable certainty that taxable income not lower than the amount of the differences to be reversed is going to be realized.

The main temporary differences that have given rise to deferred tax assets and liabilities and their effects are shown in the following table.

Recording of deferred tax assets and liabilities and relevant effects:

tax losses carried forward recoverable with reasonable certainty	719.43	24	172.66	881.56	24	211.57

Pre-paid taxes were not recognized for provisions for warranties, due to the elimination of the temporary reabsorbable differences in subsequent years.

Deferred tax assets in an amount of INR/Lakhs 38.91 Eur 45.176 in connection with tax losses for the year or loss carryovers of prior years have been recorded since the conditions required by the accounting principles for the recognition of the future benefit were met, with particular regard to the reasonable certainty that in future the company will generate sufficient taxable income to offset the losses.

On the basis of the information available also taking into account the contents of the budget for the next financial year being approved, the directors consider the assumption of going concern to be appropriate.

Employee information

(article 2427(1)(15) of the Civil Code)

Compared to the previous year the personnel broken down by category has changed as shown below:

Staff	31/03/2021	31/03/2020	Change
Executives	**1**	1	0
Middle Manager	**2**	2	0
Employees	**8**	8	0
Labourers	**4**	4	0
Others	**0**	1	(1)
	15	**16**	**(1)**

The national collective bargaining agreement for companies in the commercial sector applies.

The decrease is due to the termination of an administrative employee with a supply contract in April 2020.

Industrial relations are good and there are no litigations with employees still working or dismissed.

Information concerning the Auditor's fees

(article 2427(1)(16-bis) of the civil code)

As required by law, we set out below the amount of fees charged for services rendered by the audit company firm and by entities that are members of its network:

Description	EUR Fee
Audit of annual accounts	10.111
Total fees due to the auditor or audit company	10.111

Description	INR Fee
Audit of annual accounts	8.71
Total fees due to the auditor or audit company	8.71

The members of the Board of Directors renounced the remuneration due for the position held in the Mahindra group companies.

Information on significant events which occurred after the end of the financial year

As sadly known, the emergency situation resulting from the SARS Covid-19 infection has not yet ended. Only with the completion of the vaccination campaign, currently underway, will it be possible to overcome this moment of extreme difficulty and hope for a solid and constant recovery of the economic system.

The Company has taken the following actions in 2021 to maintain and strengthen its position on the market:

- The Company has adopted measures to ensure the safety of its employees in compliance with local regulations and the activation of smart-working where possible.
- The Company has also taken steps to ensure that employees are as productive as possible while fulfilling their duties to customers and other business partners, despite the Company having made use of the Salary Supplement Fund for the months of April and May 2020.

In light of the information provided in these notes and in the Directors' Report, the Board of Directors believes that the events relating to Covid-19 will not affect the Company's ability to continue as a going concern over the next 12 months.

Information on the company which prepares the consolidated financial statements for the larger/smaller set of companies which the company is a member of in a capacity as controlled undertaking

A) Revenue	6,115.47	5,601.60
B) Expenses	5,400.21	4,960.12
C) Financial income and costs	(12.54)	(12.45)
D) Value adjustments to financial assets	(3.29)	48.11
Taxes on income for the year	169.07	193.78
Profit (loss) for the year	530.35	483.36

Appropriation of the profit for the year

We hereby suggest that the general meeting appropriate the loss for the year as follows:

		EUR
Forward the loss for the year at 31/03/2021	EUR	129.392
5% to the legal reserve		6.470
To the extraordinary reserve		122.922
To dividends		

		INR
Forward the loss for the year at 31/03/2021	INR/Lakhs	111.45
5% to the legal reserve		5.57
To the extraordinary reserve		105.87
To dividends		

Final considerations

These financial statements, composed of the balance sheet, profit and loss account and notes, are a true and fair view of the company's state of affairs and economic result for the year and are in accordance with the underlying accounting records.

We invite the QuotaHolder to approve the financial statements in their current form and all the single items, year.

The Chairman of the Board of Directors
Arvind Mathew

INDEPENDENT AUDITORS' REPORT

Report on the Financial Statements to the shareholder of Mahindra and Mahindra South Africa Proprietary Limited

Opinion

We have audited the annual financial statements of Mahindra and Mahindra South Africa Proprietary Limited (the company) set out on pages herein which comprise the statement of financial position as at 31 March 2021, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the annual financial statements, comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the annual financial statements present fairly, in all material respects, the financial position of Mahindra and Mahindra South Africa Proprietary Limited as at 31 March 2021, and its financial performance and cash flows for the year then ended in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the annual financial statements section of our report. We are independent of the company in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of annual financial statements in South Africa. We have fulfilled our other ethical responsibilities in accordance with the IRBA code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The directors are responsible for the other information. The other information comprises the information included in the document titled "Mahindra and Mahindra South Africa Proprietary Limited annual financial statements for the year ended 31 March 2021", which includes the Directors' Report as required by the Companies Act of South Africa. The other information does not include the annual financial statements and our auditor's report thereon.

Our opinion on the annual financial statements does not cover the other information and we do not express an audit opinion or any form of assurance conclusion thereon.

In connection with our audit of the annual financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Annual Financial Statements

The directors are responsible for the preparation and fair presentation of the annual financial statements in accordance with International Financial Reporting Standards and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the Annual Financial Statements

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements.

As part of an audit in accordance with International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the annual financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the annual financial information of the entity or business activities to express an opinion on the annual financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS

ACCOUNTING POLICIES

1. Significant accounting policies

The principal accounting policies applied in the preparation of these annual financial statements are set out below.

1.1 Basis of preparation

The annual financial statements have been prepared on the going concern basis in accordance with, and in compliance with, International Financial Reporting Standards ("IFRS") and International Financial Reporting Interpretations Committee ("IFRIC") interpretations issued and effective at the time of preparing these annual financial statements and the Companies Act of South Africa, as amended.

These annual financial statements comply with the requirements of the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and the Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council.

The annual financial statements have been prepared on the historic cost convention, unless otherwise stated in the accounting policies which follow and incorporate the principal accounting policies set out below. They are presented in South Africa Rands, which is the company's functional currency.

These accounting policies are consistent with the previous period.

1.2 Significant judgements and sources of estimation uncertainty

The preparation of annual financial statements in conformity with IFRS requires management, from time to time, to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Critical judgements in applying accounting policies

The critical judgements made by management in applying accounting policies, apart from those involving estimations, that have the most significant effect on the amounts recognised in the financial statements, are outlined as follows:

Lease classification

The company is party to leasing arrangements, both as a lessee and as a lessor. The treatment of leasing transactions in the annual financial statements is mainly determined by whether the lease is considered to be an operating lease or a finance lease. In making this assessment, management considers the substance of the lease, as well as the legal form, and makes a judgement about whether substantially all of the risks and rewards of ownership are transferred.

Key sources of estimation uncertainty

Impairment testing

The company reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. When such indicators exist, management determine the recoverable amount by performing value in use and fair value calculations. These calculations require the use of estimates and assumptions.

Useful lives and depreciation of property, plant and equipment

Management assess the appropriateness of the useful lives of property, plant and equipment at the end of each reporting period. The useful lives of all assets are determined based on company replacement policies for the various assets. Individual assets within these classes, which have a significant carrying amount are assessed separately to consider whether replacement will be necessary outside of normal replacement parameters.

Contract liabilities

The fair value of contract liabilities from service plans is management's best estimate of the company's future income and cost based on the estimated service cost that would occur for the selected models over a period of three to five years adjusted for inflation and possible price increases in parts and labour used in the service of the selected model.

Provision for warranties

Warranty provisions are management's best estimate of the company's liability (after the expected reimbursement from the manufacturer) on vehicles under two, three or five year warranties based on the current year warranty claims occurred. The cost per day calculated on those claims is used to estimate the future cost for the remaining warranty days under consideration.

The warranty provision has been discounted to present value and the incremental amount pertaining to the current financial year has been adjusted in cost of sales.

Fair value estimation

The fair values of financial instruments measured at amortised cost are disclosed should it be determined that the carrying value of these instruments do not reasonably approximate their value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability; or

In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities; or
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable; or
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Recoverability of receivables

The company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix is based on historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current and forecast direction of conditions at the reporting date, including the time value of money, where appropriate. Management has incorporated the effect of COVID-19 into the assessment of the recoverability of trade receivables.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

Determination of net realisable value of inventory

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale. The write down is included in cost of sales.

1.3 Property, plant and equipment

An item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the company, and the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost. Cost includes all of the expenditure which is directly attributable to the acquisition or construction of the asset, including the capitalisation of borrowing costs on qualifying assets and adjustments in respect of hedge accounting, where appropriate.

Property, plant and equipment is subsequently stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation of an asset commences when the asset is available for use as intended by management. Depreciation is charged to write off the asset's carrying amount over its estimated useful life to its estimated residual value, using a method that best reflects the pattern in which the asset's economic benefits are consumed by the company. Leased assets are depreciated in a consistent manner over the shorter of their expected useful lives and the lease term. Depreciation is not charged to an asset if its estimated residual value exceeds or is equal to its carrying amount. Depreciation of an asset ceases at the earlier of the date that the asset is classified as held for sale or derecognised.

The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Depreciation method	Average useful life
Computer equipment	Straight line	4 years
Computer software	Straight line	5 years
Furniture and fixtures	Straight line	3 years
Leasehold improvements	Straight line	3 years
Motor vehicles	Straight line	4 years
Motor vehicles - Held for rental	Straight line	4 years
Office equipment	Straight line	6 years
Plant and machinery	Straight line	3 years

The residual value, useful life and depreciation method of each asset are reviewed at the end of each reporting year. If the expectations differ from previous estimates, the change is accounted for prospectively as a change in accounting estimate.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation charge for each year is recognised in profit or loss unless it is included in the carrying amount of another asset.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its continued use or disposal. Any gain or loss arising from the derecognition of an item of property, plant and equipment, determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item, is included in profit or loss when the item is derecognised.

1.4 Financial instruments

Financial instruments held by the company are classified in accordance with the provisions of IFRS 9 Financial Instruments. Broadly, the classification possibilities, which are adopted by the company, as applicable, are as follows:

Financial assets which are debt instruments:

- Amortised cost. (This category applies only when the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on principal, and where the instrument is held under a business model whose objective is met by holding the instrument to collect contractual cash flows); or
- Fair value through other comprehensive income. (This category applies only when the contractual terms of the instrument give rise, on specified dates, to cash flows that are solely payments of principal and interest on principal, and where the instrument is held under a business model whose objective is achieved by both collecting contractual cash flows and selling the instruments); or
- Mandatorily at fair value through profit or loss. (This classification automatically applies to all debt instruments which do not qualify as at amortised cost or at fair value through other comprehensive income); or
- Designated at fair value through profit or loss. (This classification option can only be applied when it eliminates or significantly reduces an accounting mismatch).

Financial liabilities:

- Amortised cost; or
- Mandatorily at fair value through profit or loss. (This applies to contingent consideration in a business combination or to liabilities which are held for trading); or
- Designated at fair value through profit or loss. (This classification option can be applied when it eliminates or significantly reduces an accounting mismatch; the liability forms part of a group of financial instruments managed on a fair value basis; or it forms part of a contract containing an embedded derivative and the entire contract is designated as at fair value through profit or loss).

Note 29 Financial instruments and risk management presents the financial instruments held by the company based on their specific classifications.

Trade and other receivables

Classification

Trade and other receivables, excluding, when applicable, VAT and prepayments, are classified as financial assets subsequently measured at amortised cost.

They have been classified in this manner because their contractual terms give rise, on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding, and the company's business model is to collect the contractual cash flows on trade and other receivables.

Recognition and measurement

Trade and other receivables are recognised when the company becomes a party to the contractual provisions of the receivables. They are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost.

The amortised cost is the amount recognised on the receivable initially, minus principal repayments, adjusted for any loss allowance.

Application of the effective interest method

For receivables which contain a significant financing component, interest income is calculated using the effective interest method, and is included in profit or loss in finance income.

The application of the effective interest method to calculate interest income on trade receivables is dependent on the credit risk of the receivable as follows:

- The effective interest rate is applied to the gross carrying amount of the receivable, provided the receivable is not credit impaired. The gross carrying amount is the amortised cost before adjusting for a loss allowance.
- If a receivable is a purchased or originated as credit-impaired, then a credit-adjusted effective interest rate is applied to the amortised cost

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

in the determination of interest. This treatment does not change over the life of the receivable, even if it is no longer credit-impaired.

- If a receivable was not purchased or originally credit-impaired, but it has subsequently become credit-impaired, then the effective interest rate is applied to the amortised cost of the receivable in the determination of interest. If, in subsequent periods, the receivable is no longer credit impaired, then the interest calculation reverts to applying the effective interest rate to the gross carrying amount.

Trade and other receivables denominated in foreign currencies

When trade and other receivables are denominated in a foreign currency, the carrying amount of the receivables are determined in the foreign currency. The carrying amount is then translated to the Rand equivalent using the spot rate at the end of each reporting period. Any resulting foreign exchange gains or losses are recognised in profit or loss in other operating gains (losses).

Details of foreign currency risk exposure and the management thereof are provided in the financial instruments and risk management note.

Impairment

The company recognises a loss allowance for expected credit losses on trade and other receivables, excluding VAT and prepayments. The amount of expected credit losses is updated at each reporting date.

The company measures the loss allowance for trade and other receivables at an amount equal to lifetime expected credit losses (lifetime ECL), which represents the expected credit losses that will result from all possible default events over the expected life of the receivable.

Measurement and recognition of expected credit losses

The company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix is based on historic credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and an assessment of both the current and forecast direction of conditions at the reporting date, including the time value of money, where appropriate.

An impairment gain or loss is recognised in profit or loss with a corresponding adjustment to the carrying amount of trade and other receivables, through use of a loss allowance account. The impairment loss is included in other operating expenses in profit or loss as a movement in credit loss allowance.

Write off policy

The company writes off a receivable when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Receivables written off may still be subject to enforcement activities under the company recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Credit risk

Details of credit risk are included in the trade and other receivables note and the financial instruments and risk management note.

Derecognition

Refer to the derecognition section of the accounting policy for the policies and processes related to derecognition.

Any gains or losses arising on the derecognition of trade and other receivables is included in profit or loss in the derecognition gains (losses) on financial assets at amortised cost line item.

Trade and other payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Classification

Trade and other payables, excluding VAT and amounts received in advance, are classified as financial liabilities subsequently measured at amortised cost.

Recognition and measurement

They are recognised when the company becomes a party to the contractual provisions, and are measured, at initial recognition, at fair value plus transaction costs, if any.

They are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

If trade and other payables contain a significant financing component, and the effective interest method results in the recognition of interest expense, then it is included in profit or loss in interest paid.

Trade and other payables expose the company to liquidity risk and possibly to interest rate risk. Refer to note 29 for details of risk exposure and management thereof.

Trade and other payables denominated in foreign currencies

When trade payables are denominated in a foreign currency, the carrying amount of the payables are determined in the foreign currency. The carrying amount is then translated to the Rand equivalent using the spot rate at the end of each reporting period. Any resulting foreign exchange gains or losses are recognised in profit or loss in the other operating gains (losses).

Details of foreign currency risk exposure and the management thereof are provided in the financial instruments and risk management note.

Derecognition

Refer to the "derecognition" section of the accounting policy for the policies and processes related to derecognition.

Cash and cash equivalents

Cash and cash equivalents are stated at carrying amount which is deemed to be fair value and are subsequently measured at amortised cost.

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These are initially and subsequently recorded at fair value.

Bank overdrafts

Bank overdrafts are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Derecognition

Financial assets

The company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the company retains substantially all the risks and rewards of ownership of a transferred financial asset, the company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

Financial liabilities

The company derecognises financial liabilities when, and only when, the company obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

1.5 Tax

Current tax assets and liabilities

Current is based on taxable profit for the year.

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

Current tax liabilities (assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the tax authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities

A deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. A deferred tax asset is not recognised when it arises from the initial recognition of an asset or liability in a transaction at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

A deferred tax asset is recognised for the carry forward of unused tax losses to the extent that it is probable that future taxable profit will be available against which the unused tax losses can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Tax expenses

Current and deferred taxes are recognised as income or an expense and included in profit or loss for the period, except to the extent that the tax arises from:

- a transaction or event which is recognised, in the same or a different period, to other comprehensive income, or
- a business combination.

Current tax and deferred taxes are charged or credited to other comprehensive income if the tax relates to items that are credited or charged, in the same or a different period, to other comprehensive income.

Current tax and deferred taxes are charged or credited directly to equity if the tax relates to items that are credited or charged, in the same or a different period, directly in equity.

1.6 Leases

The company assesses whether a contract is, or contains a lease, at the inception of the contract.

A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

In order to assess whether a contract is, or contains a lease, management determine whether the asset under consideration is "identified", which means that the asset is either explicitly or implicitly specified in the contract and that the supplier does not have a substantial right of substitution throughout the period of use. Once management has concluded that the contract deals with an identified asset, the right to control the use thereof is considered. To this end, control over the use of an identified asset only exists when the company has the right to substantially all of the economic benefits from the use of the asset as well as the right to direct the use of the asset.

In circumstances where the determination of whether the contract is or contains a lease requires significant judgement, the relevant disclosures are provided in the significant judgments and sources of estimation uncertainty section of these accounting policies.

Company as lessee

A lease liability and corresponding right-of-use asset are recognised at the lease commencement date, for all lease agreements for which the company is a lessee, except for short-term leases of 12 months or less, or leases of low value assets. For these leases, the company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Details of leasing arrangements where the company is a lessee are presented in the Lease liability note.

Lease liability

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the company uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed lease payments, including in-substance fixed payments, less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the company under residual value guarantees;
- the exercise price of purchase options, if the company is reasonably certain to exercise the option;
- lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option; and
- penalties for early termination of a lease, if the lease term reflects the exercise of an option to terminate the lease.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability (or right-of-use asset). The related payments are recognised as an expense in the period incurred and are included in operating expenses.

The lease liability is presented as a separate line item on the Statement of Financial Position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect lease payments made. Interest charged on the lease liability is included in interest paid.

The company remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) when:

- there has been a change to the lease term, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;
- there has been a change in the assessment of whether the company will exercise a purchase, termination or extension option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate;

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

- there has been a change to the lease payments due to a change in an index or a rate, in which case the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used);
- there has been a change in expected payment under a residual value guarantee, in which case the lease liability is remeasured by discounting the revised lease payments using the initial discount rate;
- a lease contract has been modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised payments using a revised discount rate.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of- use asset, or is recognised in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

Right-of-use assets

Right-of-use assets are presented as a separate line item on the Statement of Financial Position.

The right-of-use asset is initially measured at cost which comprise the following:

- the initial amount of the corresponding lease liability;
- any lease payments made at or before the commencement date;
- any initial direct costs incurred;
- any estimated costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, when the company incurs an obligation to do so, unless these costs are incurred to produce inventories; and
- less any lease incentives received.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. However, if a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. Depreciation starts at the commencement date of a lease.

For right-of-use assets which are depreciated over their useful lives, the useful lives are presented in the following table:

Item	Depreciation method	Average useful life
Buildings and infrastructure	Straight line	Over the lease term

The residual value, useful life and depreciation method of each asset are reviewed at the end of each reporting year. If the expectations differ from previous estimates, the change is accounted for prospectively as a change in accounting estimate. Each part of a right-of-use asset with a cost that is significant in relation to the total cost of the asset is depreciated separately.

The depreciation charge for each year is recognised in profit or loss unless it is included in the carrying amount of another asset.

Company as lessor

Leases for which the company is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases. Lease classification is made at inception and is only reassessed if there is a lease modification.

Operating leases

Lease payments from operating leases are recognised on a straight-line basis over the term of the relevant lease, or on another systematic basis if that basis is more representative of the pattern in which the benefits form the use of the underlying asset are diminished. Operating lease income is included in other operating income.

Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and are expensed over the lease term on the same basis as the lease income.

Modifications made to operating leases are accounted for as a new lease from the effective date of the modification. Any prepaid or accrued lease payments relating to the original lease are treated as part of the lease payments of the new lease.

1.7 Inventories

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

The cost of inventories comprises of all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

The cost of inventories is assigned using the weighted average cost formula. The same cost formula is used for all inventories having a similar nature and use to the entity.

1.8 Impairment of assets

The company assesses at each end of the reporting period whether there is any indication that an asset may be impaired. If any such indication exists, the company estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the company also:

- tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period and at the same time every period.
- tests goodwill acquired in a business combination for impairment annually.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash-generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in profit or loss.

An entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets other than goodwill may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset other than goodwill attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation other than goodwill is recognised immediately in profit or loss.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

1.9 Share capital and equity

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities.

Ordinary shares are classified as equity.

1.10 Employee benefits

Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of profit sharing and bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

Defined contribution plans

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

1.11 Provisions and contingencies

Provisions are recognised when:

- the company has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the present value of the expenditure expected to be required to settle the obligation.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement shall be recognised when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement shall be treated as a separate asset. The amount recognised for the reimbursement shall not exceed the amount of the provision.

Provisions are not recognised for future operating losses.

If an entity has a contract that is onerous, the present obligation under the contract shall be recognised and measured as a provision.

A constructive obligation to restructure arises only when an entity:

- has a detailed formal plan for the restructuring, identifying at least:
  - the business or part of a business concerned;
  - the principal locations affected;
  - the location, function, and approximate number of employees who will be compensated for terminating their services;
  - the expenditures that will be undertaken; and
  - when the plan will be implemented; and
- has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

After their initial recognition contingent liabilities recognised in business combinations that are recognised separately are subsequently measured at the higher of:

- the amount that would be recognised as a provision; and
- the amount initially recognised less cumulative amortisation.

Contingent assets and contingent liabilities are not recognised.

1.12 Revenue from contracts with customers

Revenue comprises consideration received or receivable on contracts entered into with customers for the sale of goods and services in the ordinary course of the entities' activities. The performance obligation is identified as the distinct goods and services as agreed in the contract(s). Revenue is shown net of trade discounts, volume rebates and value added tax and is recognised when the entity satisfies its' performance obligations as set out in the contracts entered into with its customers. Revenue is recognised at the amount of the transaction price that is allocated to each performance obligation and this is determined at the amount as depicted in the contract for the exchange of the goods and services. Where a contract has multiple performance obligations, the transaction price is allocated to the performance obligations in the contract by reference to their relative standalone selling prices.

The principles of IFRS 15 are applied using the following five-step model:

- Identify the contract(s) with a customer
- Identify the performance obligations in the contract
- Determine the transaction price
- Allocate the transaction price to the performance obligations in the contract
- Recognise revenue when (or as) the entity satisfies a performance obligation.

Revenue streams

- Sale of spares
- Sales of vehicles
- Sale of service plan
- Sale of agricultural produce
- Sale of construction equipment
- Commission income

Revenue is recognised when an entity satisfies a performance obligation as control is passed, either over time or at a point in time. The above revenue is recognised at a point in time, except for Service plans which is recognised over time. Service Plan is recognised by reference to the stage of completion of the transaction at the end of the reporting period.

Contract liabilities relates to Service Plan Revenue and is reflected under Liabilities in the Statement of Financial Position. Amounts not yet invoiced, for which revenue has been recognised are reflected under trade and other receivables.

Costs incurred on assembly of vehicles which do not yet meet the revenue recognition criteria are capitalised to inventories as work-in-progress and are expensed when the five principles of IFRS 15 are met

Interest is recognised, in profit or loss, using the effective interest rate method.

1.13 Cost of sales

When inventories are sold, the carrying amount of those inventories is recognised as an expense in the period in which the related revenue is recognised. The amount of any write-down of inventories to net realisable value and all losses of inventories are recognised as an expense in the period the write-down or loss occurs. The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The related cost of providing services recognised as revenue in the current period is included in cost of sales.

1.14 Borrowing costs

Borrowing costs are recognised as an expense in the period in which they are incurred. No borrowing costs were capitalised to any assets during the financial year.

NOTES TO THE ANNUAL FINANCIAL STATEMENTS (Contd.)

1.15 Translation of foreign currencies Foreign currency transactions

A foreign currency transaction is recorded, on initial recognition in Rands, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

At the end of the reporting period:

- foreign currency monetary items are translated using the closing rate;
- non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction; and
- non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous annual financial statements are recognised in profit or loss in the period in which they arise.

Cash flows arising from transactions in a foreign currency are recorded in Rands by applying to the foreign currency amount the exchange rate between the Rand and the foreign currency at the date of the cash flow.

1.16 Levies

IFRIC 21 addresses the issue of when to recognise a liability to pay a levy. The Interpretation defines a levy, and specifies that the obligating event that gives rise to the liability is the activity that triggers the payment of the levy, as identified by legislation. The Interpretation provides guidance on how different levy arrangements should be accounted for, in particular, it clarifies that neither economic compulsion nor the going concern basis of financial statements preparation implies that an entity has a present obligation to pay a levy that will be triggered by operating in a future period. The company has inventory stored in a bonded warehouse where duties, levies and taxes are due once the inventory leaves the bonded warehouse, or 24 months, whichever are earlier.

2. New Standards and Interpretations

2.1 Standards and interpretations effective and adopted in the current year

In the current year, the company has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• Definition of a business - Amendments to IFRS 3	01 January 2020	The impact of the amendment is not material.
• Presentation of Financial Statements: Disclosure initiative	01 January 2020	The impact of the amendment is not material.
• Accounting Policies, Changes in Accounting Estimates and Errors: Disclosure initiative	01 January 2020	The impact of the amendment is not material.

2.2 Standards and interpretations not yet effective

The company has chosen not to early adopt the following standards and interpretations, which have been published and are mandatory for the company's accounting periods beginning on or after 01 April 2021 or later periods:

Standard/ Interpretation:	Effective date: Years beginning on or after	Expected impact:
• Classification of Liabilities as Current or Non-Current - Amendment to IAS 1	01 January 2023	Unlikely there will be a material impact
• Annual Improvement to IFRS Standards 2018-2020: Amendments to IFRS 1	01 January 2022	Unlikely there will be a material impact
• Reference to the Conceptual Framework: Amendments to IFRS 3	01 January 2022	Unlikely there will be a material impact
• Annual Improvement to IFRS Standards 2018-2020: Amendments to IFRS 9	01 January 2022	Unlikely there will be a material impact
• Property, Plant and Equipment: Proceeds before Intended Use: Amendments to IAS 16	01 January 2022	Unlikely there will be a material impact
• Onerous Contracts - Cost of Fulfilling a Contract: Amendments to IAS 37	01 January 2022	Unlikely there will be a material impact
• Annual Improvement to IFRS Standards 2018-2020: Amendments to IAS 41	01 January 2022	Unlikely there will be a material impact
• Interest Rate Benchmark Reform - Phase 2: Amendments to IFRS 4	01 January 2021	Unlikely there will be a material impact
• Interest Rate Benchmark Reform - Phase 2: Amendments to IFRS 7	01 January 2021	Unlikely there will be a material impact
• Interest Rate Benchmark Reform - Phase 2: Amendments to IFRS 9	01 January 2021	Unlikely there will be a material impact
• Interest Rate Benchmark Reform - Phase 2: Amendments to IFRS 16	01 January 2021	Unlikely there will be a material impact
• Interest Rate Benchmark Reform - Phase 2: Amendments to IAS 39	01 January 2021	Unlikely there will be a material impact
• COVID-19 - Related Rent Concessions - Amendment to IFRS 16	01 June 2020	Unlikely there will be a material impact

Property, plant and equipment encumbered as security

The property, plant and equipment have been encumbered as security per note 30.

4. Right-of-use assets

The company leases various buildings as the need arises. Lease contracts are typically made for fixed periods between 3 years to 5 years. Lease contracts are negotiated on an individual basis and contain a wide range of different terms and conditions.

The company does not have the option to purchase the plant at a nominal amount on completion of the lease term. The lease contracts do not impose any covenants.

Details pertaining to leasing arrangements, where the company is lessee are presented below:

	2021			2020		
	Gross carrying amount	Accumulated depreciation	Net carrying amount	Gross carrying amount	Accumulated depreciation	Net carrying amount
Buildings and infrastructure	10,796,970	(4,213,572)	6,583,398	10,522,727	(2,308,498)	8,214,229

5. Investment in subsidiary

Name of company	% holding 2021	% Holding 2020	Carrying Amount 2021	Carrying Amount 2020
199,999 shares held in Mahindra West Africa Limited	99.99%	99.99%	3,014,200	3,014,200
			3,014,200	3,014,200
Impairment of investment in subsidiary			(3,014,200)	–
			–	3,014,200

The company has a subsidiary in Nigeria named Mahindra West Africa Limited. The subsidiary focuses on market development in the Automotive and Farm Sector apart from business development of Powerol Gensets and Heavy commercial vehicles in the western African region. Post COVID-19 pandemic, Mahindra India decided to discontinue their presence in the West Africa market. They terminated the service agreement in June 2020. Mahindra West Africa, thereafter, worked on relocation of its employees and cost reductions. A decision was then taken by the Mahindra West Africa board of directors to voluntarily liquidate the company. Accordingly, actions are being initiated. Resultant to this, the investment of Mahindra West Africa is impaired in Mahindra South Africa in the current financial period. The investment has been impaired to Rnil as management foresee a very limited cash balance and thus, repatriation of the investment amount is expected to be insignificant.

6. Retirement benefits

Defined contribution plan

It is the policy of the company to provide retirement benefits to all its employees. A defined contribution provident fund which is subject to the Pensions Fund Act exists for this purpose. The scheme is funded by company and employee contributions only, which are charged to the income statement as they are incurred. The total company contributions to such scheme in 2021 was R2 153 983 (2020: R1 207 270).

The company is under no obligation to cover any unfunded benefits.

7. Deferred tax

NOTES TO FINANCIAL STATEMENTS (Contd.)

Reconciliation of deferred tax asset

	2021 R	2020 R
At beginning of year	**18,923,193**	18,164,167
Taxable / (deductible) temporary difference on interest on deferred revenue	**(339,314)**	(383,615)
Taxable / (deductible) temporary difference on lease liabilities	**(286,974)**	2,028,294
Taxable / (deductible) temporary difference on prepaid expenses	**29,948**	43,828
Taxable / (deductible) temporary difference on property, plant and equipment	**(262,958)**	485,098
Taxable / (deductible) temporary difference on provisions	**6,712,859**	518,036
Taxable / (deductible) temporary difference on right-of-use assets	**368,015**	(1,932,615)
	25,144,769	**18,923,193**

The deferred tax assets and the deferred tax liability relate to income tax in the same jurisdiction, and the law allows net settlement. Therefore, they have been offset in the statement of financial position.

Management expects sufficient future taxable income in the company to enable the company to realise the deferred tax asset.

8. Inventories

	2021 R	2020 R
Agricultural produce	**3,912,354**	6,236,979
Goods in transit	**44,596,877**	23,432,934
Motor vehicles	**55,003,497**	291,449,441
Spares	**52,898,161**	46,466,465
Work in progress	**–**	17,159,419
	156,410,889	384,745,238
Provision for write down of inventories to net realisable value - motor vehicles, spares and agricultural produce	**(10,577,309)**	(11,469,078)
	145,833,580	**373,276,160**

Inventory pledged as security

Inventories were pledged as security for overdraft facilities of the company. Refer to note 30 for full details on the facilities granted to the company.

9. Trade and other receivables

	2021 R	2020 R
Financial instruments:		
Trade receivables	**41,917,990**	42,771,350
Deposits	**1,205,040**	1,233,675
Non-financial instruments:		
Prepayments	**9,120,564**	5,850,585
VAT	**420,379**	31,211,107
Total trade and other receivables	**52,663,973**	81,066,717

Financial instrument and non-financial instrument components of trade and other receivables

	2021 R	2020 R
At amortised cost	**43,123,030**	44,005,025
Non-financial instruments	**9,540,943**	37,061,692
	52,663,973	81,066,717

Trade and other receivables pledged as security

Trade and other receivables were pledged as security for overdraft facilities of the company. Refer to note 30 for full details on the facilities granted to the company.

Exposure to credit risk

Trade receivables inherently expose the company to credit risk, being the risk that the company will incur financial loss if customers fail to make payments as they fall due.

In order to mitigate the risk the company deals with reputed banks and customers and also demands bank guarantees or purchase credit insurance where applicable.

There have been no significant changes in the credit risk management policies and processes since the prior reporting period.

The average credit period on trade receivables is 11 days (2020: 15 days). No interest is charged on outstanding trade receivables.

The Company makes use of a provision matrix as a practical expedient to the determination of expected credit losses on trade and other receivables. The provision matrix has been applied to appropriate groupings of receivables based on shared credit risk characteristics. There is no material expected credit losses on application of the provision matrix for the businesses. The negative outlook and cash flow difficulties experienced by customers as a result of COVID-19 has been factored into the entity's forecasts of future conditions.

Furthermore, the company writes off a receivable where there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery. Receivables written off may still be subject to enforcement activities under the company recovery procedure, considering legal advice where appropriate. In the current year there has been no receivables that have been written-off.

Fair value of trade and other receivables

The fair value of trade and other receivables approximates their carrying amounts.

10. Cash and cash equivalents

	2021 R	2020 R
Cash and cash equivalents consist of:		
Cash on hand	**92,033**	166,732
Bank balances	**234,961,925**	47,175,151
Bank overdraft	**–**	(24,742,437)
	235,053,958	22,599,446
Current assets	**235,053,958**	47,341,883
Current liabilities	**–**	(24 742 437)
	235,053,958	22,599,446

There is a cession amounting to R125 139 relating to the First National Bank Account (Account number: 74865277774).

The carrying amount of cash and cash equivalents reasonably approximates its fair value.

All cash balances are placed with reputable financial institutions which have positive credit ratings. Therefore, there is no significant credit risk associated with cash and cash equivalents.

11. Share capital

	2021 R	2020 R
Authorised		
70,000,000 Ordinary shares with no par value	**70,000,000**	70,000,000

NOTES TO FINANCIAL STATEMENTS (Contd.)

	2021	2020
	R	R
Reconciliation of number of shares issued:		
Reported as at 01 April 2020	**52,000,000**	52,000,000
Issued		
52,000,000 Ordinary shares with no par value	**52,000,000**	52,000,000

12. Foreign currency translation reserve

The Kenya Branch operations in Shilling has been translated to ZAR based on the exchange rate. The foreign currency reserve is a result of the foreign currency translation.

	2021	2020
	R	R
Kenya Branch operations	**(16,524,103)**	(17,447,284)

13. Lease liabilities

	2021	2020
	R	R
The maturity analysis of lease liabilities is as follows:		
- within one year	**2,372,851**	2,396,394
- in second to fifth year inclusive	**4,918,671**	6,205,671
	7,291,522	8,602,065
The lease liability classification at year end is as follows:		
Non-current liabilities	**4,918,671**	6,205,671
Current liabilities	**2,372,851**	2,396,394
	7,291,522	**8,602,065**

The lease liability relates to the right-of-use assets disclosed under note 4.

The company leases various buildings as the need arises under operating leases.

Lease contracts are typically made for fixed periods between 3 years and 5 years.

Interest is based on the incremental borrowing rate of 10.25%.

An incremental borrowing rate of 9.30% was applied to leases that have been modified.

	2021	2020
	R	R
Analysis of movement in lease liabilities		
Balance on 01 April 2020	**8,602,065**	–
New leases	–	10,522,727
Lease modifications	**1,423,403**	–
Foreign Currency Translation Reserve	**(228,547)**	–
Capital repayments	**(2,505,399)**	(1,920,662)
- Lease payments	**(3,214,033)**	(2,612,712)
- Interest charges	**708,634**	692,050
Balance on 31 March 2021	**7,291,522**	8,602,065

For details of the exposure to liquidity risk related to finance lease liabilities, as well as the maturity analysis of the gross amounts payable, refer to note 29.

14. Contract liabilities

	2021	2020
	R	R
Summary of contract liabilities		
Service plan	**116,583,415**	106,647,706
Reconciliation of contract liabilities		
Opening balance	**106,647,706**	86,837,370
Raised in current year	**53,561,544**	58,311,914
Revenue in current year	**(43,625,835)**	(38,501,578)
	116,583,415	106,647,706
Split between non-current and current portions		
Non-current liabilities	**73,426,556**	68,019,362
Current liabilities	**43,156,859**	38,628,344
	116,583,415	**106,647,706**

Nature: Certain vehicles are sold with a service plan. This service plan then covers certain services for a predetermined number of years and kilometres travelled. The income from these service plans is deferred and recognised as these services are performed.

Assumptions: The fair value of contract liabilities from service plans is management's best estimate of the company's future income and cost based on the estimated service cost that would occur for the selected models over a period of three to five years adjusted for inflation and possible price increases in parts and labour used in the service of the selected model.

15. Provisions

Reconciliation of provisions – 2021

	Opening balance	Additions	Utilised during the year	Change in discount factor	Total
Provision for warranty claims	**55,053,637**	**44,272,035**	**(23,854,706)**	**1,484,272**	**76,955,238**

Reconciliation of provisions – 2020

	Opening balance	Additions	Utilised during the year	Change in discount factor	Total
Provision for warranty claims	53,379,402	43,931,548	(41,963,347)	(293,966)	55,053,637
Non-current liabilities				45,074,838	33,327,014
Current liabilities				31,880,400	21,726,623
				76,955,238	**55,053,637**

Nature: This provision is raised due to the fact that certain vehicles, Gensets and Tractors sold are sold under a warranty, thus this provision estimates cost that would occur in the future for repairs under warranties.

Assumptions: Warranty provisions are managements best estimate of the company's liability (after the expected reimbursement from the manufacturer) on vehicles under two or three year warranties based on three years actual historical sales and warranty claims occurred.

NOTES TO FINANCIAL STATEMENTS (Contd.)

The arranty period for Gensets and Tractors being a twelve month period from date of sale.

Further, the warranty provision has been discounted to present value and the incremental amount pertaining to the current financial year has been adjusted in cost of sales.

16. Financial liabilities

	2021	2020
	R	R
At fair value through profit (loss)		
ICICI Bank	–	30,242,900

The financial liability was settled during the financial year.

17. Trade and other payables

	2021	2020
	R	R
Financial instruments:		
Accrued expenses	**35,405,528**	23,682,089
Accrued leave pay	**2,345,662**	1,557,601
Other payables	**1,710,349**	1,189,843
Provision for vehicle buy back	–	35,366,928
Sundry payables	**515,375**	327,700
Trade payables	**151,163,316**	239,449,607
	191,140,230	301,573,768

Fair value of trade and other payables

The fair value of trade and other payables approximates their carrying amounts.

18. Revenue

	2021	2020
	R	R
Revenue from contracts with customers		
Sale of goods	**1,443,166,075**	1,632,027,742
Commissions received	**21,198,492**	13,327,647
	1,464,364,567	1,645,355,389
Disaggregation of revenue from contracts with customers		
The amount included in revenue arising from exchanges of goods or services included in revenue are as follows:		
Sale of spares	**151,591,386**	182,194,463
Sale of vehicles	**1,214,741,318**	1,397,539,217
Sale of service plan	**43,625,835**	38,501,578
Sale of agricultural produce	**306,148**	12,629,272
Sale of construction equipment	**12,025,360**	269,640
Sale of farm equipment	**20,876,028**	893,572
Commissions received	**21,198,492**	13,327,647
	1,464,364,567	1,645,355,389
Timing of revenue recognition:		
At a point in time	**1,420,738,732**	1,606,853,811
Over time	**43,625,835**	38,501,578
	1,464,364,567	1,645,355,389

Transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the reporting date

The transaction price which has been allocated to performance obligations which are unsatisfied or partially unsatisfied at the reporting date are presented below, together with the expected timing of satisfying the performance obligations:

2021

	1 year	2 years	3-5 years
Transaction price allocated to:			
Service plan	**43,156,879**	**34,001,530**	**39,425,026**

2020

	1 year	2 years	3-5 years
Transaction price allocated to:			
Service plan	38,625,837	31,420,942	36,600,928

19. Cost of sales

	2021	2020
	R	R
Sale of goods	**1,329,149,550**	1,482,365,522
Write down of inventories to net realisable value	**(410,987)**	(5,892,239)
	1,328,738,563	1,476,473,283

20. Operating profit (loss)

Operating profit (loss) for the year is stated after charging (crediting) the following, amongst others:

Auditors' remuneration - external

	2021	2020
	R	R
Audit fees	**584,200**	552,000
Adjustment for previous year	–	20,000
TTax and secretarial services	**13,470**	117,859
	597,670	689,859

Leases

Short term leases

	2021	2020
	R	R
Premises	**759,854**	1,368,274

Other operating gains (losses)

	2021	2020
	R	R
(Profit) loss on exchange differences	**(6,374,333)**	4,030,891
Profit on sale of property, plant and equipment	**(10,292,932)**	(2,232,029)

Expenses by nature

The total cost of sales, selling and distribution expenses, marketing expenses, general and administrative expenses, research and development expenses, maintenance expenses and other operating expenses are analysed by nature as follows:

	2021	2020
	R	R
Depreciation, amortisation and impairment	**13,978,912**	16,853,964
Employee costs	**46,708,999**	51,550,991
Movement in credit loss allowance	–	13,835,086

NOTES TO FINANCIAL STATEMENTS (Contd.)

21. Investment income

	2021 R	2020 R
Interest income		
From investments in financial assets:		
Bank	**5,346,305**	3,607,914

22. Interest paid

	2021 R	2020 R
Bank and other	**1,772,125**	6,992,620
Vehicle purchase credit	**3,691,324**	5,850,928
Lease liabilities	**708,634**	692,050
Total finance costs	**6,172,083**	13,535,598

23. Taxation

Major components of the tax expense

	2021 R	2020 R
Current		
Local income tax – current period	**16,562,347**	6,989,578
Deferred		
Deferred tax – current period	**(6,221,576)**	(759,026)
	10,340,771	6,230,552

Reconciliation of the tax expense

Reconciliation between accounting profit and tax expense.

	2021 R	2020 R
Accounting profit	**34,301,195**	(19,115,040)
Tax at the applicable tax rate of 28% (2020: 28%)	**9,604,335**	(5,352,211)
Tax effect of adjustments on taxable income		
Non-taxable/deductible items	**879,708**	6,623,804
Non-taxable/deductible operations - Kenya	**(143,272)**	5,116,349
Non taxable/deductible operations - Egypt	**–**	(157,390)
	10,340,771	6,230,552

24. Cash generated from operations

	2021 R	2020 R
Profit before taxation	**34,301,195**	(19,115,040)
Adjustments for:		
Depreciation and amortisation	**13,978,912**	16,853,964
Profit on sale of assets	**(10,292,932)**	(2,232,029)
Interest income	**(5,346,305)**	(3,607,914)
Interest paid	**6,172,083**	13,292,697
Movements in provisions	**21,901,601**	1,674,235
Impairment of investment	**3,014,200**	–
Changes in working capital:		
Inventories	**227,442,580**	(94,805,213)
Trade and other receivables	**28,402,744**	62,532,596
Trade and other payables	**(109,510,328)**	203,601,392
Contract Liabilities	**9,935,709**	19,810,336
	219,999,459	198,005,024

The presentation of the comparative figures in this note has been improved by not presenting the foreign currency translation reserve movement as an adjustment to profit before tax but rather incorporating it into the relevant changes in working capital.

25. Tax paid

	2021 R	2020 R
Balance at beginning of the year	**4,039,522**	2,861,611
Current tax for the year recognised in profit or loss	**(16,562,347)**	(6,989,578)
Balance at end of the year	**4,884,562**	(4,039,522)
	(7,638,263)	(8,167,489)

26. Commitments

Short term leases

	2021 R	2020 R
Minimum lease payments due		
– within one year	**1,058,451**	516,837

Operating lease payments represents rentals payable by the company for short term leases of its premises (residential and office properties). Short term leases are leases with a lease term of 12 months or less. No contingent rent is payable.

Operating leases – as lessor (income)

	2021 R	2020 R
Minimum lease payments due		
– first year	–	499,762

Certain of the company's vehicles were held to generate rental income under operating leases. Under these agreements vehicles were sold to the lessee at the initial lease date. After a period of 12 months the company repurchases these vehicles at a discounted price. The difference between the sales price and repurchase price has been recognised as lease income on a straight line basis of the period of the lease. The operating lease agreements have come to an end in the 2021 financial and thus no rental yields are expected to be generated in future periods.

27. Related parties

Capital risk management

The company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders

  by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of the statement of financial position.

The company sets the amount of capital in proportion to its overall financing structure, i.e. equity and financial liabilities. The company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

Financial risk management

Credit risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations.

The company's exposure to credit risk is limited to the carrying amount of financial assets recognised at the balance sheet date.

The maximum exposure to credit risk is presented in notes 9 and 10.

Liquidity risk

The company manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash-outflows due in day-to-day business. Liquidity needs are monitored in various time bands, on a day- to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Short-term liquidity needs for a 120-day or less are identified monthly.

NOTES TO FINANCIAL STATEMENTS (Contd.)

Funding in regards to long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities.

The company has contractual maturities which are summarised below:

31 March 2021	Current	Within 6 months	Within 1 year	2 - 5 years
Trade and other payables	191,140,251	189,381,005	–	–
Lease liabilities contractual maturities...	–	–	4,196,921	6,133,897
	191,140,251	**189,381,005**	**4,196,921**	**6,133,897**

31 March 2020	Current	Within 6 months	Within 1 year	2 - 5 years
Trade and other payables	301,573,760	300,405,559	–	–
Lease liabilities contractual maturities...	–	–	7,922,482	8,715,659
	301,573,760	**300,405,559**	**7,922,482**	**8,715,659**

The above contractual maturities reflect the gross cash flows, which may differ to the carrying values of the liabilities at the reporting date.

Foreign currency risk

Most of the company's transactions are carried out in Rands. Exposure to currency exchange rates arise from the operations in Kenya, as well as the company's overseas purchases and sea freight, which are primarily denominated in US Dollars.

Foreign currency denominated financial assets and liabilities, translated in Rands at the closing rate, are as follows:

Foreign currency exposure at the end of the reporting period

	2021 R	2020 R
Assets (Included in Trade and other receivables and Cash and cash equivalents)		
Mahindra and Mahindra Limited (2021: USD 433,954; 2020: USD 761,475)	**6,476,026**	13,660,635
Bank balance (2021: USD 692,353 EGP 280,000 KES 63,367; 2020: USD 44,390, EGP 280,000)	**11,059,067**	1,113,597
SsangYong Motor Company (2021: USD 0; 2020: USD 27,591)	–	494,976
Mahindra Europe (2020: USD 13,924)	–	249,796
Ameriworld International Limited (2021: USD 227,721)	**3,398,341**	–
Liabilities (Included in Trade and other payables)		
Bank balance (2020: KES 145,487,684)	–	24,742,383
Bidvest Panalpina (2021: USD 135,700; 2020: USD 106,450)	**2,025,092**	1,909,681
Mahindra and Mahindra Limited (2021: USD 211,064; 2020: USD 1,787,636)	**3,149,768**	32,069,661
Savino Del Bene (2021: USD 300; 2020: USD 1,890)	**4,474**	33,913
Hoegh Autoliners (2021: USD 96,487)	**1,439,900**	–

Foreign currency sensitivity

The following table illustrates the sensitivity of the net result for the year and equity in regards to the company's financial assets and financial liabilities and the US Dollar Rand exchange rate.

It assumes a +13.56% and 9.71% change of the Rand / US Dollar exchange rate for the year ended 31 March 2021 (2020: +12.54% and 4.89%). This has been determined based on the average market volatility in exchange rates in the previous 12 months. The sensitivity analysis is based on the company's foreign currency financial instruments held at balance sheet date and also takes into account forward exchange contracts that offset effects from changes in currency exchange rates.

If the Rand had weakened against the US Dollar by 13.56% (2020: 12.54%) then this would have had the following impact:

	2021 R	2020 R
Net results for the year	**1,944,712**	5,421,447

If the Rand had strengthened against the US Dollar by 9.71% (2020: 4.89%) then this would have had the following impact:

	2021 R	2020 R
Net results for the year	**(1,389,995)**	**(2,115,619)**

Exposure to foreign exchange rates vary during the year depending on the volumes of overseas transactions. Nonetheless, the analysis above is considered to be representative of the company's exposure to currency risk.

Interest rate risk

The following table illustrates the sensitivity of the net result for the year and equity to a reasonably possible change in interest rates of +2% and 2% (2020: +1% and 1%), with effect from the beginning of the year. These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on the company's financial instruments held at each balance sheet date. All other variables are held constant.

	2021	2021	2020	2020
Net results for the year	**1,805,887**	**(1,805,887)**	1,173,542	(1,173,542)

30. Banking facilities

The company avails credit facilities from ICICI Bank which has sanctioned a ZAR facility of R 100 million (2020: R 30 million with ICICI Bank) for working capital borrowings. At the year end, the company has utilised R Nil of the facility from ICICI Bank. (2020: 30 million).

The above facility has been secured as follows:

- General notarial bond on all present and future moveable assets of the Company including inventory, whether in company's showroom, warehouse or in transit but excluding book debts.
- An unrestricted cessation of all present and future book debts due or to become due.

31. Going concern

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business. Despite the effect of COVID-19 as discussed in note 33, the entity maintains a net asset position and holds sufficient funds to finance future operations.

32. Events after the reporting period

The directors are not aware of any material event which occurred after the reporting date and up to the date of this report.

NOTES TO FINANCIAL STATEMENTS (Contd.)

33. COVID-19

The year started with COVID-19 pandemic and nationwide complete lockdown. In mid-May 2020, the auto industry was allowed to service vehicles and then sell vehicles. This opened up business for the auto sector. Gradually the South African Government lowered restrictions to level 1 as COVID-19 situation improved. Government has taken various measures to boost the economic growth. The Prime Lending Rate and Repo Rate remain stable. Inflation is under control. Currency has recovered against the USD, especially towards end of 2020 and continues to remain strong. The rolling out of vaccination program will go a long way in ensuring the safety of all and continued economic activities.

We started the year with sufficient inventory. Supplies from our parent company in India started in May 2020. All our operations of SKD Plant, SFC Centre and dealer network started with the easing of restrictions with the opening of ports, removal of restrictions on movement of goods and people. At MSA, we extensively did work from home to ensure safety and security of our staff. A great focus was kept on deliverables and tasks to ensure that business operations are continued, and total support is provided to our business associates and channel partners. Extensive communications were made with business associates and channel partners working out strategies and informing about supplies, targets, and incentive schemes.

Overall, compared to previous financial year our vehicle sales volumes dropped by 22,3% on wholesale while it was 16,5% lower in retail business by channel partners. Bakkie segment showed high demand with a healthy order book.

During the current year, we remained among the 3 top performing auto brands. In the bakkie segment we achieved 4% market share and emerged as the number 5 player. In Single Cab we achieved 9% market share and emerged as the number 3 player in South Africa.

Inventory Management, Cash Management and Cost Management that aligned with business has ensured strong financial performance with higher profit after tax and good Cashflow.

Management has also assessed the impact of COVID-19 on the key judgements and sources of estimation uncertainty (as disclosed in the accounting policy), the measurement of inventory, employee benefits, impairment assessments and expected credit loss assessments. No significant impact was identified, and none is expected. Furthermore, management expect to collect revenue in the normal course of operations with little to no impact caused by COVID-19.

We see a strong demand for our product, especially in the Bakkie segment. The order book is healthy. However, the impact of the COVID-19 pandemic is still being seen in Global Supply Chain as different countries continue to face pandemic recurrences. In the near future, we expect supply chain to be under stress and at times, may result in interrupted supply situations. Our parent company in India is also facing similar situation of pandemic recurrence and challenges in supply of parts, affecting production and thereby, impacting their supplies to various markets including South Africa. We are in continuous dialogue with our parent company to get the right quantum of supplies for our business.

At present, we are in a healthy financial position. We are better prepared to handle the pandemic and resultant uncertainty. Our product positioning and pricing reflects a healthy order book that we carry. We also intend to introduce newer variants of our products lines, at an appropriate time in the coming year. We have reserves, a healthy cash position and an unutilized line of credit that we can fall back on. It is therefore reasonable to assume that our business will continue as a Going Concern as it will be able to settle debts as and when they become due and payable.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Mahindra West Africa Limited

Report on the Audit of the Financial Statements

Qualified Opinion

We have audited the financial statements of **Mahindra West Africa Limited** (the Company), which comprise the statement of financial position as at **31 December 2020**, statement of profit or loss, statement of changes in equity and statement of cash flows for the nine (9) months then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at **31 December 2020**, and of its financial performance and its cash flows for the nine (9) months then ended in accordance with International Financial Reporting Standards (IFRSs), the Financial Reporting Council of Nigeria Act No. 6, 2011 and the provision of the Companies and Allied Matters Act 2020.

Basis for Qualified Opinion

The Company's revenue is measured in the statement of profit or loss at N34,487,096. Management has not stated the revenue at the full amount earned in the period then ended, which should be 11% plus margin on total applicable expenses. This constitutes a departure from IFRSs and is inconsistent with the application of the Company's revenue recognition policies. The Company's records indicate that, had management stated the revenue at the full amount earned in the period, an amount of N72,109,119 would have been required to write the revenue up to the full amount. Accordingly, net income for the period would have been N15,313,959, and trade receivable, total assets, and shareholders' equity would have all been increased N72,109,119.

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

i) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

ii) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstance, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

iii) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

iv) Conclude on the appropriateness of management's use of the going concern of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

v) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transaction and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

The Companies and Allied Matters Act 2020 requires that in carrying out our audit we consider and report to you on the following matters. We confirm that:

i) We have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.

ii) In our opinion, proper books of account have been kept by the company; and

iii) The Company's Statement of Financial Position and Statement of Profit or Loss are in agreement with the books of account.

NOTES TO THE FINANCIAL STATEMENTS FOR THE 9 MONTHS PERIOD ENDED 31 DECEMBER 2020

1 Nature of Operation

The principal activity of the company is to develop business, assemble, buy, sell, distribute two, three or four wheeled vehicles, trucks, buses and any other vehicles of every kind and description, engines, generators, tractors (including implements), and construction equipment.

2 General Information, statement of compliance with IFRS and discontinue of operation

The company was incorporated in Nigeria under the Companies and Allied Matters Act 2004 as a Private Limited Liability Company on 20 May 2016. It commenced full operation in May 2016. Its Authorized Share Capital was 200,000 ordinary shares of N196.10 each. The company is substantially owned by Mahindra & Mahindra South Africa. The company deals in business development of automobile and farm equipment

The company's ultimate parent, Mahindra & Mahindra South Africa announced that it had decided to cease the operations of the company by the end of the 2020 calendar year.

The financial statements have been prepared on a basis other than going concern, which is described as the break-up basis. The break-up basis requires the carrying value of the assets to be at the amounts they are expected to realize, and liabilities include any amounts which have crystallized as a result of the decision to wind up the company.

Company's ultimate parent undertaking, Mahindra & Mahindra South Africa announced that the company would wind-down operations by the end of the calendar year. This has resulted in the financial statements being prepared on a break-up basis as of 31 December 2020. As a result, non-current assets are classified as held for sale and measured at the lower of its carrying amount and fair value less costs to sell. The directors have also made appropriate provisions in order to bring about the orderly winddown of the company and its operations.

The financial statements for the 9 Months Period Ended 31 December 2020 (including comparatives) were approved and authorized for issue by the board of directors of Mahindra West Africa Limited on 16 April 2021.

3 New or Revised Standards or Interpretations

3.1 Standards, amendments and interpretations to existing standards adopted as at 1 April 2020

The Company adopted the following standards and amendments that are effective for the first time in 01 April 2020:

- Conceptual Framework for Financial Reporting
- Definition of Material (Amendments to IAS 1 and IAS 8)
- Amendments to IAS 1 presentation of financial statements
- Amendments to IAS 8 Accounting policies, changes in accounting estimates and errors
- Amendments to IFRS 7 Financial instruments: disclosures – Interest rate benchmark reform
- Amendments to IFRS 9 Financial instruments

These amendments do not have a significant impact on these financial statements and therefore the disclosures have not been made. However, they do not affect these financials statements.

3.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Company.

At the date of authorization of these financial statements, certain new IFRS standards, amendments and interpretations to existing standards have been published by the IASB but are not yet effective, and have not been adopted early by the company. Management anticipates that all of the relevant pronouncements will be adopted in the company's accounting policies for the first period beginning after the effective date of the pronouncement.

Information on new standards, amendments and interpretations that are expected to be relevant to the company's financial statements is provided below. Certain other new standards and interpretations have been issued but are not expected to have a material impact on the company's financial statements.

3.2.1 IFRS 17, 'Insurance Contracts ', Issued: May 2018 (Effective 1 January 2021)

IFRS 17, "Insurance Contracts" In May 2018, the IASB issued IFRS 17 "Insurance Contracts," which replaces an interim standard IFRS 4 "Insurance Contract" and related interpretations. The standard sets out the requirements that a company should apply in reporting information about insurance contracts.

The standard provides update of information about the obligations, risk and performance of insurance contracts, increases transparency in financial information reported by insurance companies, which will give investors and analysts more confidence in understanding the insurance industry, and introduces a consistent accounting for all insurance contracts based on a current measurement model. IFRS 17 requires that a company update the measurement of insurance obligations at each reporting date, using current estimates of the amount, timing and uncertainty of cash flows and of discount rate.

3.2.2 The amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors (the amendments) to align the definition of 'material' across the standards and to clarify certain aspects of the definition. ', Issued: October 2018 (Effective 1 January 2021

In October 2018, the International Accounting Standards Board (IASB or the Board) issued amendments to IAS 1 Presentation of Financial

Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors (the amendments) to align the definition of 'material' across the standards and to clarify certain aspects of the definition.

New definition of material

The new definition states that "information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity."

4 Significant Accounting Policies

The accounting policies set out below have been applied consistently to all years presented in the financial statements.

4.1 Basis of preparation

The Company's financial statements have been prepared on an accrual basis and under the historical cost convention. Monetary amounts are expressed in Nigerian currency Naira (₦)

4.1.1 Functional and Presentation currency

These Financial Statements are presented in Nigeria Naira which is the company's functional currency.

4.2 Revenue

Revenue in the current year represents total expenses plus a markup of 11% on the expenses excluding exchange loss and interest on bank loan, generated for Mahindra & Mahindra Ltd. (India) from its businesses in West African Countries.

To determine whether to recognize revenue, the Company follows a 5-step process:

1 Identifying the contract with a customer

2 Identifying the performance obligations

3 Determining the transaction price

4 Allocating the transaction price to the performance obligations

5 Recognizing revenue when/as performance obligation(s) are satisfied.

The Company often enters into transactions involving services provided to customers on-behalf of Mahindra India. In all cases, the total transaction price for a contract is allocated amongst the various performance obligations based on their relative stand-alone selling prices.

Revenue is recognized either at a point in time or over time, when (or as) the Company satisfies performance obligations by transferring the promised services to the customers.

The company recognizes contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the statement of financial position. Similarly, if the Company satisfies a performance obligation before it receives the consideration, the Company recognizes either a contract asset or a receivable in its statement of financial position, depending on whether something other than the passage of time is required before the consideration is due.

4.3 Administrative expenses

Administrative expenses are recognized in profit or loss upon utilization of the service or at the date of their origin.

4.4 Employee Benefits

4.4.1 Pension fund obligations

A defined contribution plan is a pension plan under which the company pays fixed contributions into a separate entity - Pension Fund Administrators (PFA) and has no legal or constructive obligations to pay further contributions. Obligations for contribution plans are recognized as personnel expenses in profit or loss in the periods during which related expenses are rendered. Contributions to a defined contribution plan that are due for more than 12 months after the end of the reporting period in which the employees render the service are discounted to their present value.

4.4.2 Short-term employee benefits

The cost of short-term employee benefits (those payable within 12 months after service is rendered) such as paid vacation, leave pay, sick leave and bonuses are recognized in the period in which the service is rendered and is not discounted. The expected cost of short-term accumulating compensated absences is recognized as an expense as the employees render service that increases their entitlement or, in the case of non-accumulating absences, when the absences occur. The expected cost of bonus payments is recognized as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

Provisions for leave pay and bonuses are recognized as a liability in the financial statements.

4.5 Taxation

4.5.1 Tax Expense

The tax expense represents the sum of the current and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to items recognized directly in equity or in other comprehensive income.

4.5.2 Current Tax

The current tax is based on taxable profit for the year. Taxable profit differs from net profit as reported in the statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting year, and any adjustment to tax payable in respect of the previous years.

4.5.3 Deferred Tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the company expects, at the end of the reporting year, to recover or settle the carrying amount of its assets and liabilities. For investment property that is measured at fair value, the presumption that the carrying amount of the investment property will be recovered through sale has not been rebutted.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

A deferred tax asset is recognized for unused tax losses, tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which it can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

4.5.4 Tax Exposure

In determining the amount of current and deferred tax, the company takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. This assessment relies on estimates and assumptions and may involve a series of judgments about future events. New information may become available that caused the company to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the year that such a determination is made.

4.6 Cash and Cash Equivalents

Cash and Cash Equivalents comprise of notes and coins on hand, demand deposits and other short term, highly liquid financial assets with original maturities of three months or less that are convertible to a known amount of cash which are subject to insignificant risk of changes in value, all of which are available for use by the company unless otherwise stated. In the statement of financial position, company overdrafts are included in current liabilities.

4.7 Trade Receivables

Trade receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and that the company does not intend to sell immediately or in the near term.

4.8 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period of time that is necessary to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed in the period in which they are incurred and reported in finance costs.

4.9 Property, Plant and Equipment

4.9.1 IT equipment and other equipment

4.9.1.1 Recognition and measurement

Items of property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self- constructed assets includes the following:

- The cost of material and direct labour;
- Any other costs directly attributable to bringing the assets to a working condition for their intended use;
- When the company has an obligation to remove the asset or restore the site, an estimate of the cost of dismantling and removing the items and restoring the site on which they are located; and
- Capitalized borrowing cost.

Purchased software that is integral to the functionality of the related equipment is capitalized as part of that equipment.

When parts of an item of property have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property and equipment (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognized within other income in profit or loss.

When parts of an item of property have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property and equipment (calculated as the difference between the net proceeds

from disposal and the carrying amount of the item) is recognized within other income in profit or loss.

4.9.1.2 Subsequent costs

Subsequent expenditure is capitalized only when it is probable that the future economic benefits of the expenditure will flow to the company. On-going repairs and maintenance are expensed as incurred.

4.9.1.3 Depreciation

Items of property and equipment are depreciated from the date they are available for use or, in respect of self-constructed assets, from the date that the assets are completed and ready for use. Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line basis over their estimated useful lives. Depreciation is recognized in profit or loss. Leased assets under finance leases are depreciated over the shorter of the lease term and their useful lives.

The estimated useful life for the current and comparative years of significant items of property, plant and equipment are as follows:

- Motor Vehicles 4 years
- Furniture and Fittings 2 – 4 years
- Household equipment 4 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

4.10 Share Capital

4.10.1 Ordinary Shares

Ordinary shares are classified as equity and (share capital) are recorded at the proceeds received net of incremental external costs directly attributable to the issue.

4.11 Financial Instruments

4.11.1 Recognition and derecognition

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the financial instrument.

Financial assets are derecognized when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and substantially all the risks and rewards are transferred. A financial liability is derecognized when it is extinguished, discharged, cancelled or expires.

4.11.2 Classification and initial measurement of financial assets

Except for those trade receivables that do not contain a significant financing component and are measured at the transaction price in accordance with IFRS 15, all financial assets are initially measured at fair value adjusted for transaction costs (where applicable). Financial assets, other than those designated and effective as hedging instruments, are classified into the following categories:

- amortised cost
- fair value through profit or loss (FVTPL)
- fair value through other comprehensive income (FVOCI).

In the periods presented the corporation does not have any financial assets categorized as FVOCI.

The classification is determined by both:

- the entity's business model for managing the financial asset
- the contractual cash flow characteristics of the financial asset.

All income and expenses relating to financial assets that are recognized in profit or loss are presented within finance costs, finance income or other financial items, except for impairment of trade receivables which is presented within other expenses.

4.11.3. Subsequent measurement of financial assets

4.11.3.1 Financial assets at amortised cost

Financial assets are measured at amortized cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows.
- the contractual terms of the financial assets give rise to cash flows that are solely payments of its contractual cash flows principal and interest on the principal amount outstanding

4.11.3.2 Financial assets at amortised cost

After initial recognition, these are measured at amortized cost using the effective interest method. Discounting is omitted where the effect of discounting is immaterial. The Company's cash and cash equivalents, trade and most other receivables fall into this category of financial instruments as well as listed bonds that were previously classified as held-to-maturity under IAS 39.

4.11.3.3 Financial assets at fair value through profit or loss (FVTPL)

Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorized at fair value through profit or loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. All derivative financial instruments fall into this category, except for those designated and effective as hedging instruments, for which the hedge accounting requirements apply.

Assets in this category are measured at fair value with gains or losses recognized in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.

4.11.3.4 Financial assets at fair value through other comprehensive income (FVOCI)

The Company accounts for financial assets at FVOCI if the assets meet the following conditions:

- they are held under a business model whose objective it is "hold to collect" the associated cash flows and sell and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Any gains or losses recognized in other comprehensive income (OCI) will be recycled upon derecognition of the asset.

Financial assets classified as available for sale (AFS) under IAS 39 (comparative periods) AFS financial assets are non-derivative financial assets that are either designated to this category or do not qualify for inclusion in any of the other categories of financial assets (FVTPL or held to maturity and loans and receivables).

Within equity, except for interest and dividend income, impairment losses and foreign exchange differences on monetary assets, which are recognized in profit or loss. When the asset was disposed of or was determined to be impaired, the cumulative gain or loss recognized in other comprehensive income was reclassified from the equity reserve to profit or loss. Interest calculated using the effective interest method and dividends were recognized in profit or loss within finance income.

4.11.4 impairment of financial assets

IFRS 9's impairment requirements use more forward-looking information to recognize expected credit losses – the 'expected credit loss (ECL) model'. This replaces IAS 39's 'incurred loss model'. Instruments within the scope of the new requirements included loans and other debt-type financial assets measured at amortized cost and FVOCI, trade receivables, contract assets recognized and measured under IFRS 15 and loan commitments and some financial guarantee contracts (for the issuer) that are not measured at fair value through profit or loss.

Recognition of credit losses is no longer dependent on the Company first identifying a credit loss event. Instead the Company considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cashflows of the instrument.

In applying this forward-looking approach, a distinction is made between:

Stage 1: Financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk

Stage 2: Financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low

'Stage 3' would cover financial assets that have objective evidence of impairment at the reporting date.

'12-month expected credit losses' are recognized for the first category while 'lifetime expected credit losses' are recognized for the second category.

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

4.11.5 Previous financial asset impairment under IAS 39

In the prior year, the impairment of trade receivables was based on the incurred loss model. Individually significant receivables were considered for impairment when they were past due or when other objective evidence was received that a specific counterparty will default. Receivables that were not considered to be individually impaired were reviewed for impairment in groups, which are determined by reference to the industry and region of the counterparty and other shared credit risk characteristics. The impairment loss estimate was then based on recent historical counterparty default rates for each identified group.

4.11.6 Trade and other receivables and contract assets

The Company makes use of a simplified approach in accounting for trade and other receivables as well as contract assets and records the loss allowance as lifetime expected credit losses. These are the expected shortfalls in contractual cash flows, considering the potential for default at any point during the life of the financial instrument. In calculating, the Company uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses using a provision matrix.

The Company assess impairment of trade receivables on a collective basis as they possess shared credit risk characteristics, they have been grouped based on the days past due.

4.11.7 Classification and measurement of financial liabilities

As the accounting for financial liabilities remains largely the same under IFRS 9 compared to IAS 39, the Company's financial liabilities were not impacted by the adoption of IFRS 9. However, for completeness, the accounting policy is disclosed below.

The Company's financial liabilities include borrowings, trade and other payables and derivative financial instruments.

Financial liabilities are initially measured at fair value, and, where applicable, adjusted for transaction costs unless the Company designated a financial liability at fair value through profit or loss. Subsequently, financial liabilities are measured at amortized cost using the effective interest method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognized in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments). reported in profit or loss are included within finance costs or finance income.

Subsequently, financial liabilities are measured at amortized cost using the effective interest method except for derivatives and financial liabilities designated at FVTPL, which are carried subsequently at fair value with gains or losses recognized in profit or loss (other than derivative financial instruments that are designated and effective as hedging instruments).

All interest-related charges and, if applicable, changes in an instrument's fair value that are reported in profit or loss are included within finance costs or finance income.

4.12 Provisions

Provisions are liabilities of uncertain timing or amount and are recognized when the company has a present obligation as a result of a past event, and it is probable that the company will be required to settle that obligation. Provisions are measured at the director's estimate of the expenditure required to settle that obligation at the end of each reporting period, and are discounted (at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability) to present value where the effect is material.

Provisions are not recognized for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect of any item included in the same class of obligations may be small.

4.13 Foreign Currency Transactions and Balances

Foreign Currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. The functional currency is the currency of the primary economic environment in which the entity operates, which is the Nigerian Naira.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end closing exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in profit or loss.

At the end of each reporting year, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items of historical cost in a foreign currency are not retranslated.

4.14 Significant management judgment in applying accounting policies and estimation uncertainty

When preparing the financial statements, management undertakes a number of judgments, estimates and assumptions about the recognition and measurement of assets, liabilities, income and expenses.

The following are significant management judgments in applying the accounting policies of the entity that have the most significant effect on the financial statements.

4.14.1 Provisions for liabilities

The Company exercises judgement in measuring and recognizing provisions for liabilities relating to the winding up. Judgement is necessary in assessing the likelihood that a liability will arise, and to qualify the possible range of the financial settlement. Because of the inherent uncertainty in this evaluation process, actual losses may be different from the originally estimated provision.

4.14.2 Recognition of deferred tax assets

The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the company's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgment is required in assessing the impact of any legal or economic limits or uncertainties in various tax jurisdictions.

4.14.3 Impairment

In assessing impairment, management estimates the recoverable amount of each asset or cash- generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rates.

4.14.4 Useful lives of depreciable assets

Management reviews its estimate of the useful lives of depreciable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical obsolescence that may change the utility of certain software and IT equipment.

5 Financial Risk Management

5.1 Introduction

The company uses its financial skills to provide competitive product pricing and delivery to a broad range of customers.

Risk Management is essential to help ensure business sustainability thereby providing customers and the shareholders with a long-term value proposition.

Key elements of risk management are:

- Strong corporate governance including relevant and reliable management information and internal control processes;
- Ensuring significant and relevant skills and services are available consistently to the company;
- Influencing the business and environment by being active participants in the relevant regulatory and business forums; and
- Keeping abreast of technology and consumer trends and investing capital and resources where required.

The overall company focus within an appropriate risk framework is to give value to the customers through effective and efficient execution of transactions.

The board of directors acknowledges its responsibility for establishing, monitoring and communicating appropriate risk and control policies.

5.2 Significant Risks

The company has exposure to Significant Risks which are categorized as follows:

- Regulatory (capital adequacy, legal, accounting and taxation);
- Business environment (reputation and strategic);
- Operational (people, information technology and internal control processes);
- Market (equity prices, interest rate and currency); and
- Liquidity

Detailed Discussion of Significant Risks

5.2.1. Regulatory Risk

Regulatory risk is the risk arising from a change in regulations in any legal, taxation and accounting pronouncements or specific industry that pertain to the business of the Company. In order to manage this risk, the Company is an active participant in the IT industry and engages in discussions with policy makers and regulators.

5.2.1,1 Legal Risk

Legal risk is the risk that the company will be exposed to contractual obligations which have not been provided for.

The company has a policy of ensuring all contractual obligations are documented and appropriately evidenced to agreements with the relevant parties to the contract.

All significant contracted claims are reviewed by independent legal resources and amounts are provided for if there is consensus as to any possible exposure. At 31 December 2020, the directors are not aware of any significant obligation not provided for.

5.2.1.2 Taxation Risk

Taxation risk is the risk of suffering a loss, financial or otherwise, as a result of an incorrect interpretation and application of taxation legislation or due to the impact of new taxation legislation on existing products.

Taxation risk occurs in the following key areas:

- Transactional risk;
- Operational risk;

– Compliance risk; and
– Financial accounting risk.

5.2.1.2.1 Transactional Risk

The risk which concerns specific transactions entered into by the company, including restructuring projects and reorganizations.

5.2.1.2.2 Operational Risk

The underlying risks of applying tax laws, regulations and decisions to the day-to-day business operations of the company.

5.2.1.2.3 Compliance Risk

The risk associated with meeting the company's statutory obligations.

5.2.1.2.4 Financial Accounting Risk

The risk relates to the inadequacy of proper internal controls over financial reporting, including tax provisioning.

In managing the company's taxation risk, the company tax policy is as follows:

The company will fulfill its responsibilities under tax law in each of the jurisdictions in which it operates, whether in relation to compliance, planning or client service matters. Tax law includes all responsibilities which the company may have in relation to company taxes, personal taxes, capital gains taxes, indirect taxes and tax administration.

Compliance with this policy is aimed at ensuring that:

– All taxes due by the company are correctly identified, calculated, paid and accounted for in accordance with the relevant tax legislation;
– The company continually reviews its existing operations and planned operations in this context; and
– The company ensures that, where clients participate in company products, these clients are either aware of the probable tax consequences, or are advised to consult with independent professionals to assess these consequences, or both.

The identification and management of tax risk is the primary objective of the company tax function, and this objective is achieved through the application of a formulated tax risk approach, which measures the fulfillment of tax responsibilities against the specific requirements of each category of tax to which the company is exposed, in the context of the various types of activities the company conducts.

5.2.1.3 Accounting Risk

Accounting Risk is the risk that the company fails to explain the current events of the business in the financial statements.

Accounting risk can arise from the failure of management to:

– Maintain proper books and records, accounting system and to have proper accounting policies;
– Establish proper internal accounting controls;
– Prepare periodic financial statements that reflect an accurate financial position; and be transparent and fully disclose all important and relevant matters.

Measures to control accounting risk are the use of proper accounting systems, books and records based on proper accounting policies as well as the establishment of proper internal accounting controls. Proposed accounting changes are researched by accounting resources, and if required external resources, to identify and advise on any material impact on the company.

Financial statements are prepared in a transparent manner that fully discloses all important and relevant matters as well as accurately reflecting the financial position, results and cash flows of the company.

5.2.2 Business Environment

5.2.2.1 Reputational Risk

Reputational risk is the risk of loss caused by a decline in the reputation of the company or any of its specific business units from the perspective of its stakeholders, shareholders, customers, staff, business partners or the general public.

Reputational risk can both cause and result from losses in all risk categories such as market or credit risk.

5.2.2.2 Strategic Risk

Strategic Risk is the risk of an unexpected negative change in the company value, arising from the adverse effect of executive decisions on both business strategies and their implementation.

This risk is a function of the compatibility between strategic goals, the business strategies developed to achieve those goals and the resources deployed to achieve those goals. Strategic risk also includes the ability of management to effectively analyze and react to external factors, which could impact the future direction of the relevant business units.

Company risk identifies and assesses both those risks qualitatively as part of a quarterly evaluation. On the basis of this evaluation, company risk creates an overview of local and global risks which also includes reputational risks, analyses the risk profile of the company and regularly informs directors and management.

5.2.3 Operational Risk

Operational Risk is the risk of direct or indirect loss resulting from inadequate or failed internal processes, people and systems or from external events.

The initiation of all transactions and their administration is conducted on the foundation of segregation of duties that has been designed to ensure materially the completeness, accuracy and validity of all transactions. These controls are augmented by management and executive review of control accounts and systems, electronic and manual checks and controls, back-up facilities and contingency planning. The internal control systems and procedures are also subjected to regular internal audit reviews.

5.2.4 Market Risk

Market risk includes asset liability matching risk, currency risk, interest rate risk and equity price risk.

The company is exposed to market risk through its financial assets and financial liabilities. The most important components of this risk are interest rate risk and market price risk. These risks arise from open positions in interest rate, currency and equity products, all of which are exposed to general and specific market movements.

5.2.4.1 Interest Rate and Market Price Risk

These risks have very different impacts on the various categories of business used in the company's Assets and Liabilities Management framework. Interest rate and market price risk have been discussed together since they interact on certain types of liabilities.

5.2.4.2 Interest Rate Risk

Interest rate risk is the risk that the value and cash flow of a financial instrument will fluctuate due to changes in market interest rates.

5.2.4.3 Equity Price Risk

Equity price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices.

5.2.4.4 Foreign Currency Risk

In respect of other monetary assets and liabilities held in currencies other than the Naira, the company ensures that the net exposure is kept to an acceptable level, by buying or selling foreign currencies at spot rates, where necessary, to address short-term balances.

5.2.4.4.1 Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a loss to the other party by failing to discharge an obligation.

Key areas where the company is exposed to credit risk are:

* Certain classes of financial assets such as bonds, term deposits, cash and cash equivalent; and
* Certain accounts within trade and other receivables.

5.2.4.4.2 Other Receivables

Investment sale debtors are protected by the security of the underlying investment not being transferred to the purchaser prior to payment.

5.2.5 Liquidity Risk

Liquidity risk is the risk that the company will encounter difficulty in raising funds to meet commitments associated with financial instruments.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities and the ability to close out market positions. Due to the dynamic nature of the underlying businesses, Company Treasury maintains flexibility in funding by keeping committed credit lines available.

5.2.5.1 Sensitivities

Management applies a number of sensitivity tests to the earnings of the company to better understand the exposure to and importance of each of the main drivers of profitability.

IFRS 7 requires management to report on the changes in the net income after tax following "reasonable possible" changes in each of the factors to which the company is exposed. Management has set the upside and downside movements for each factor at a level which represents the amount by which management believes that factor could reasonably change over the year following the valuation date. These opinions have been informed by an analysis of historical one-year changes in those factors. The upper and lower limits have been set at the 75th and 25th percentiles of observed changes as these bound and interval which may be expected to contain 50% of the changes in the coming year. Management believes this represents in some sense what is "reasonably possible", though it is important to note that this opinion is based on past experience and the tested range is not sensitive to all the relevant information in the market at the reporting date.

Management has considered the impact of upside and downside movements in foreign exchange rates. In relation to these sensitivities:

* The earnings are sensitive to changes in both the shape and level of the yield curve.

  Management has not considered changes in the shape of the yield curve due to several constraints although this may be reviewed in the following year.

* The foreign exchange movements have been considered together in the same sensitivity. Observed historic negative correlations between factors would tend to dampen the effects presented. These correlations are not very large, and they have not been adjusted for. This treatment has resulted in the presentation of a slightly more extreme view of what could reasonably occur over the following year.

Future rates of expense inflation, catastrophes and tax assumptions were considered but no sensitivities are presented as it is unlikely, in management's opinion that, these assumptions will change over the following year.

It should be noted that each impact on profit after tax is shown individually for each sensitivity being changed, keeping all other assumptions constant. In practice this is unlikely to occur, as changes in some of the variables may be correlated.

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Mahindra North America Technical Center, Inc.

We have audited the accompanying balance sheets of Mahindra North America Technical Center, Inc. ('the Company') as of March 31, 2021 and March 31, 2020, and the related statements of loss, stockholder's equity and cash flows for the years ended and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of the Company as of March 31, 2021 and March 31, 2020, and the results of its operations and cash flows for the years then ended, in accordance with the accounting principles generally accepted in the United States of America.

Other matter

The presentation of financial information in Indian rupees in the financial statements is not a required part of the basic financial statements. We have verified the arithmetic accuracy of the presentation based upon exchange rate provided by the Company's management. We did not audit and do not express an opinion on such information, and our opinion is not modified with respect to this matter.

NOTES TO FINANCIAL STATEMENTS

NOTE A – ORGANIZATION AND NATURE OF OPERATIONS

Mahindra North American Technical Center, Inc. (hereinafter referred to as the "Company") was incorporated in the state of Delaware on December 18, 2013 and is a wholly owned subsidiary of Mahindra Automotive North America, Inc. ("MANA"). The Company engineers, designs, develops, assembles, and delivers parts and vehicles to the global automotive market, both for on and off-road use, as an Original Equipment Manufacturer ("OEM") headquartered in Auburn Hills, MI.

Ownership of the Company changed on April 30, 2017 when 100% of its stock was acquired by MANA from Mahindra USA, Inc. ("MUSA").

In Michigan, when engaged in automotive manufacturing activities, the Company does business as ("d/b/a") Mahindra Automotive North America Manufacturing ("MANAM"). MANAM produces ROXOR, an off-road side-by-side vehicle. MANAM shipped 669 vehicles during the fiscal year ended March 31, 2021.

The Company was engaged in litigation with FCA US, LLC over FCA's claims relating to unregistered "trade dress" of FCA's Jeep branded vehicles both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company's ROXOR off-road utility vehicle violated the "trade dress" of FCA's Jeep branded vehicle. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease and desist order was effective from August 11, 2020.

The cease-and desist order relates to the prohibition of marketing, sale, importation and manufacturing of the model year 2018, 2019 and 2020 ROXOR off-road vehicle by the Company in the United States of America ("US"). The impact of the order on the operations of the Company was significant. The Company was unable to market, import, build or sell ROXORs in the US beginning on or about August 12, 2020. However, the Company could sell ROXORs in Canada since the limited exclusion order prohibited the Company from sale of its vehicles only in the US. Given the impact of the ruling on the operations, the Company did not pursue most of the opportunities since the cost incurred to sell the product would have been too high. Due to the pause in the business along with the onset of COVID-19, the Company furloughed employees and also terminated relationships with few other stakeholders. Per the cease-and desist order since the Company could not carry out marketing activities as well, it had to engage in significant efforts to modify its website and notify its marketing partners for not honoring few contracts.

During the year, the Company performed and prepared expedited proceedings to allow a significantly re-designed ROXOR to be excluded from the cease-and desist order. On October 20, 2020, the Administrative Law Judge ("ALJ") found that the re-designed ROXOR does not violate any trade dress and recommended that the re-designed ROXOR be excluded from the cease-and desist order. On December 22, 2020, the ITC agreed with the ALJ and ruled that the re-designed ROXOR is excluded from the cease-and desist order. The Company is reviving its operations and plans to launch the re-designed ROXOR by the end of October 2021. FCA in February 2021, shared the "notice to appeal" to the court for review of the final determination of the ITC's exclusion of re-designed ROXOR from the cease-and-desist order. The management believes that the chances of FCA prevailing over the appeal against the ITC's exclusion of re-designed ROXOR from the cease-and-desist order are remote.

NOTE B – ASSET PURCHASE AGREEMENT

On September 30, 2020, the Company purchased the inventory and property and equipment from Mahindra Tractors Assembly Inc. ("MTAI" or "GenZe"). The Company also receives a royalty free license to use GenZe's trademark, patent copyright, trade secrets or proprietary rights of MTAI to the extent owned by MTAI or licensed by MTAI from the third parties. The Company is also authorized to access and operate websites owned and operated by GenZe. The aggregate purchase amount paid by MANA was USD 200,000 (INR 14,718,000). When accounting for transfers of assets between entities under common control, using the provisions of FASB ASC 805-50-30, the entity that receives the net assets is required to measure the recognized assets and liabilities transferred at their carrying amounts in the accounts of the transferring entity at the date of the transfer.

NOTE C – GOING CONCERN EVALUATION

During the year ended March 31, 2021, due to the cease-and desist order, the Company could not conduct any sale of ROXOR along with its kit and assemblies in the US from August 12, 2020. This resulted in the Company incurring losses for the year ended March 31, 2021. Additionally, the Company has an accumulated deficit of $ 47,577,465 (INR 3,501,225,665) as at March 31, 2021. Although, these events and condition cast significant doubt on the Company's ability to continue as a going concern, in view of the continued support from the ultimate parent company, the management considers that it is appropriate to prepare these financial statements on a going concern basis, which assumes that the Company will continue in operational existence for the foreseeable future. The Company has received funding from its parent company amounting to USD 33,350,000 (INR: 2,454,226,500) during the current year in the form of loan and later converted to equity, for meeting the cash flow requirements, for meeting the cash flow requirements. Also, the management has plans to mitigate the adverse effects, including:

1) Reviving its business operations through organizational restructuring and right sizing.
2) New business development plans for launch of model year 2022 ROXOR and to make the Company business profitable.
3) Obtain capital financing from 'Mahindra Overseas Investment Company Mauritius Limited', the parent company, to meet near term working capital requirements;
4) Obtain a commitment from the parent company to continue to provide financial support and honor the Company's future obligations.

Based on the above mitigating factors, the financial statements have been prepared on the basis that the Company is a going concern and that no adjustments are required to the carrying value of assets and liabilities.

NOTE D – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. *Basis of preparation*
   a. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ("US GAAP") to reflect the financial position, results of operation and cash flows of the Company.
   b. The financial statements are for the fiscal years ended March 31, 2021 and March 31, 2020.
   c. Financial information in this report is in US dollars ("USD") and in Indian rupees ("INR"). For the fiscal years ended March 31, 2021 and March 31, 2020, dollar amounts are translated for convenience into Indian rupees at an exchange rate of 73.59 INR per dollar as on March 31, 2021. Within the notes to the financial statements, Indian rupee amounts are shown parenthetically following the U.S. dollar amounts.
   d. Certain reclassifications, regroupings and reworking have been made in the financial statements of prior year to conform to the classifications used in the current year. These changes had no impact on previously reported net loss or stockholder's equity.
   e. The management has prepared future projections supported by business plans and business developmental activities to be undertaken. The Company depends on continued support from its parent company to meet is liquidity contingency.

2. *Use of estimates*

   The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affects the amounts reported in the financial statements. Significant items subject to such estimates and assumptions include the useful lives of plant, property and equipment, provision for inventory obsolescence, slow moving and non-moving items, valuation allowance for deferred tax assets and other contingencies. Management believes that the estimates used in the preparation of the financial statements are reasonable. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the financial statements.

3. *Cash and cash equivalents*

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate per bank of USD 250,000 (INR 18,397,500). The Company believes it is not exposed to any significant risk on cash and cash equivalents.

4. *Inventories*

Raw materials, work in progress and finished goods inventories are stated at the lower of cost and net realizable value, with cost being determined on a weighted average basis. The measurement of inventories includes the direct cost of materials and labor as well as indirect costs (variable and fixed). A provision is made for obsolete and slow-moving raw materials, finished goods, spare parts and other supplies based on their expected future use and realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs for sale and distribution.

The Company makes additional adjustments to its inventory reserves based on the identification of specific situations and increases its inventory reserves accordingly. As further changes in future economic or industry conditions occur, the Company will revise the estimates that were used to calculate its inventory reserves. During the year ended March 31, 2021, due to the cease and desist order, the Company was prohibited from selling its 2018, 2019 and 2020 ROXOR model in the US, and considering this the Company has created additional inventory reserve as at March 31, 2021.

5. *Income taxes*

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due, plus deferred taxes related primarily to differences between the basis of certain assets and liabilities for financial and tax reporting. The deferred taxes represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled, respectively.

The Company has determined whether any tax positions have met the recognition threshold and has measured the Company's exposure to those tax provisions. Management believes that the Company has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state taxing authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties from federal and state taxing authorities were recorded in the accompanying financial statements.

6. *Revenue recognition*

Sale of manufactured goods

The Company recognizes revenues from sale of manufactured ROXOR off-road side by side vehicles and their related accessories.

Revenue is recognized when control of the vehicles, parts or accessories have been transferred and the Company's performance obligation to the customer have been satisfied. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transfer of goods. The timing of when the Company transfers the goods to the customer may differ from the timing of the customer's payment.

When the Company gives the customer the right to return eligible goods, the Company estimates the expected returns based on an analysis of historical experiences.

The Company has determined that the customer is its affiliate company for the sale of vehicles and service parts. Transfer of control, and therefore revenue recognition, generally corresponds to the date when the vehicles or service parts are made available to the customer, or when the vehicles or service parts are released to the carrier responsible for transporting them to the customer. This is also the point at which invoices are issued, with payment terms for vehicles and for service parts. For component part sales, revenue recognition is consistent with that of service parts.

Revenue from contracts with customers

Effective April 1, 2019, the Company has adopted Financial Accounting Standards Board ("FASB") issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), with a date of initial application of April 1, 2019 using the modified retrospective method.

7. *Property, plant and equipment*

Property, plant and equipment are stated at cost less accumulated depreciation and impairment. Cost of items of property, plant and equipment comprise cost of purchase and other costs necessarily incurred to bring it to the condition and location necessary for its intended use.

The Company depreciates property, plant and equipment over the estimated useful life using the straight-line method except for production tools. Upon retirement or disposal of assets, the cost and accumulated depreciation will be eliminated from the accounts and the resulting gain or loss will be credited or charged to operations.

The estimated useful life used to determine depreciation is:

Particulars	**Useful life**
Computers	3 years
Furniture	7 years
Leasehold improvements	15 years
Machinery & equipment	5 years
Tooling	5 years

The cost of property, plant and equipment not ready for use before such date are disclosed under capital work-in-progress.

The Company expenses all capital expenses below $5,000. Expenditures for maintenance and repairs are charged to expense. Property, plant and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value of the asset may not be recoverable.

8. *Intangible assets*

Intangible assets are comprised of computer software which has been recognized at cost and amortized over a period of 3 years or its estimated useful life. Subsequent expenditure is capitalized only when it increases the future economic benefit from the specific assets to which it relates.

9. *Government incentives*

The Company receives incentives from the Michigan Economic Development Corporation ("MEDC") in the form of business development grants. These grants are recognized at their fair values in the statement of income where there is a reasonable assurance that all grant conditions have been complied with and the grant will be received.

10. *Fair value measurements and financial instruments*

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Some of Company's financial instruments, including cash and cash equivalents, accounts receivable and accounts payable are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

11. *Leases*

Accounting Standard Update ("ASU") 2016-02, Leases

The Company adopted Accounting Standards Codification 842 and all the related amendments ("new lease standard") using the modified retrospective method. The Company does not expect the adoption of the new lease standard to have a material impact to net income on an ongoing basis.

The new lease standard requires all leases to be reported on the balance sheet as operating lease right-of-use assets and lease obligations. The Company elected the practical expedients permitted under the transition guidance of the new standard that retained the lease classification and initial direct costs for any leases that existed prior to adoption of the standard.

Right-of-use assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of revenue or general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in cost of revenue. Interest expense for finance leases is recognized using the effective interest method. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

12. *Accounts receivable & allowance for doubtful debts*

Accounts receivable represent amounts due related to sale of goods and services. Accounts receivable are reduced by an estimate of the amount that will ultimately be uncollectible. Management determines the allowance for doubtful accounts by a review of the outstanding amounts on a monthly basis. The allowance is determined by identifying troubled accounts, by using historical experience applied to an aging of accounts. Allowance for doubtful accounts is included in selling, general and administrative expenses in the consolidated statement of loss. The Company charges off uncollectable amounts against the reserves in the period in which it determines they are uncollectable.

13. *Commitments and contingencies*

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

NOTE E – CASH AND CASH EQUIVALENTS

The cash and cash equivalents of the Company comprise of:

NOTE L – LINE OF CREDIT

In June 2017, the Company obtained a line of credit with a bank with a maximum permissible withdrawal limit of USD 10,000,000 (INR: 735,900,000). The line of credit limit was subsequently increased to USD 29,500,000 (INR 2,170,905,000). As at March 31, 2020 the Company had made withdrawals to the tune of USD 29,500,000 (INR: 2,170,905,000). The line of credit has been paid in full as at March 31, 2021.

Interest on the line of credit is payable at LIBOR plus 1.75% per annum, calculated at monthly intervals. The weighted average rate of interest for the years ended March 31, 2021 and March 31, 2020 was 3.3% and 3.67% per annum, respectively. As of March 31, 2020, the applicable rate of interest on the outstanding line of credit was 3.00% per annum.

Total interest expense on the line of credit for the year ended March 31, 2021, is USD 1,139,612 (INR: 83,864,047) (March 31, 2020: USD 1,027,725 (INR 75,630,283).

NOTE M – RELATED PARTY LOAN

The Company during the year ended March 31, 2018, issued a loan to its parent, Mahindra Automotive North America, Inc. at an interest rate of 5.00% per annum. MANA repaid this loan during the current year. The loan amount receivable at March 31, 2021 is USD NIL (INR: NIL) (March 31, 2020: USD 7,442,675 (INR: 547,706,453). Interest is calculated based on a 365-day annual term and payable along with the principal. The loan is repayable on demand. Interest receivables as at March 31, 2021 was USD NIL (INR: NIL) (March 31, 2020: USD 19,337 (INR 1,423,010).

The Company during the fiscal year 2021, obtained a loan from its parent, Mahindra Automotive North America, Inc. at an interest rate of 5.00% per annum. Interest is calculated based on a 365-day annual term and payable along with the principal. Subsequently, this loan along with accrued interest of USD 33,392,729 (INR 2,457,370,927) was converted in equity by issuance of common stock.

Interest income for the year ended March 31, 2021 was USD 80,196 (INR:5,901,589) (March 31,2020: USD 417,742 (INR: 30,741,634).

Interest expense for the year ended March 31, 2021 and March 31, 2020 amounted to USD 54,931 (INR:4,042,372) and USD NIL (INR NIL), respectively.

NOTE N – LEASES

The Company has entered various facility and equipment operating leases with varying terms. In most circumstances, management expects that in the normal course of business, leases will be renewed or replaced by other leases.

General description of the leases

The Company has entered into noncancelable operating lease agreements related to facility, office equipment, machinery and equipment and vehicles with varying terms.

Non-lease components: Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements.

Package of practical expedients: The Company will not reassess whether any expired or existing contracts are leases or contain leases, the lease classification for any expired or existing leases or any initial direct costs for any expired or existing leases as of the transition date.

The Company used the following policies and/or assumptions in evaluating the lease population:

Lease determination: The Company considers a contract to be or to contain a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration.

Discount rate: When the lease contracts do not provide a readily determinable implicit rate, the Company uses the estimated incremental borrowing rate based on information available at the inception of the lease. The discount rate is determined by asset class.

Variable payments: The Company includes payments that are based on an index or rate within the calculation of right of use leased assets and lease liabilities, initially measured at the lease commencement date. There are variable payments in the nature of origination fees for office equipment, machinery and equipment and therefore are not treated as a part of lease payments.

Purchase options: Certain leases include options to purchase the office equipment. The depreciable life of assets are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

Renewal options: Most leases include one or more options to renew, with renewal terms that can extend the lease term from one or more years. The exercise of lease renewal options is at the Company's sole discretion.

Residual value guarantees, restrictions, or covenants: The lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Short-term leases: Leases with an initial term of 12 months or less are not recorded on the balance sheet; the Company recognizes lease expense for these leases on a straight-line basis over the lease term and expense the associated operating lease costs to administrative expenses on the statements of income.

The table below presents the classification of leasing assets and liabilities as reported on the balance sheet as of March 31, 2021 and March 31, 2020.

	USD		**INR**	
	As at March 31,		**As at March 31,**	
Particulars	**2021**	2020	**2021**	2020
Assets				
Operating lease right-of-use assets	**5,020,508**	6,349,083	**369,459,184**	467,229,018
Total lease assets	**5,020,508**	6,349,083	**369,459,184**	467,229,018
Liabilities				
Current				
Operating lease liabilities	**1,336,946**	1,335,958	**98,385,848**	98,313,223
Long term				
Operating lease liabilities	**3,677,627**	4,992,439	**270,636,599**	367,393,586
Total lease liabilities	**5,014,573**	6,328,397	**369,022,447**	465,706,809

The table below presents the classification of lease related expenses as reported in the statements of income.

	USD		**INR**	
	For the year ended March 31,		**For the year ended March 31,**	
Particulars	**2021**	2020	**2021**	2020
Operating lease expenses*	**1,705,445**	1,834,027	**125,503,698**	134,966,047
Total lease expense	**1,705,445**	1,834,027	**125,503,698**	134,966,047

* Operating lease expenses are included in administrative expenses in the statements of loss. Operating lease expense include short-term leases, variable lease costs and leases which did not meet the capitalization requirement of the Company.

Future minimum lease payments as of March 31, 2021, for operating leases having an initial or remaining non-cancelable lease term in excess of one year are as follows:

	Amount	
Year ended March 31,	**USD**	**INR**
2022, 2023 and 2024	4,378,139	322,190,193
2025 and 2026	1,041,966	76,678,278
2027 onwards	–	–
Total minimum lease payments	5,420,105	398,868,471
Less: Interest	(405,532)	(29,846,024)
Present value of lease payments	5,014,573	369,022,447

Contract balances

The Company's contracts with customers are comprised of purchase orders along with standard terms and conditions. These contracts with customers typically consist of sale of products which represent performance obligations that are satisfied upon transfer of control of the product to the customer at a point in time.

The following table provides information about contract assets and liability balances as of March 31, 2021 and March 31, 2020:

	USD		INR	
	As at March 31,		As at March 31,	
Particulars	**2021**	2020	**2021**	2020
Accounts receivable	**9,105**	–	**670,004**	–
Accounts receivable, related parties	**676,577**	2,233,271	**49,789,307**	164,346,413

NOTE P – INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company is subject to federal taxation and in the State of Michigan. The provision for income tax expense (benefit) expense is as follows:

	USD		INR	
	Year ended March 31,		Year ended March 31,	
Particulars	**2021**	2020	**2021**	2020
Deferred tax expense (benefit)	**7,619,577**	(1,400,643)	**560,724,671**	(103,073,318)
Income tax expense (benefit)	**7,619,577**	(1,400,643)	**560,724,671**	(103,073,318)

The tax effects of significant temporary differences that resulted in deferred tax assets and liabilities and a description of the items that create such differences is as follows:

	USD		INR	
	Year ended March 31,		Year ended March 31,	
Particulars	**2021**	2020	**2021**	2020
Deferred tax asset (liability)				
Net operating loss	**10,095,608**	7,326,694	**742,935,797**	539,171,411
Research and development credit	**499,422**	491,884	**36,752,465**	36,197,744
State net operating loss	**610,522**	497,983	**44,928,314**	36,646,569
Inventory	**875,618**	60,908	**64,433,859**	4,482,220
Accrued expenses	**266,920**	142,638	**19,642,642**	10,496,583
Prepaid expenses	**(50,127)**	(48,269)	**(3,688,846)**	(3,551,969)
Property, plant and equipment	**(707,872)**	(852,261)	**(52,092,300)**	(62,717,887)
Foreign tax credit	**1,206,071**	1,206,071	**88,754,765**	88,754,765
Valuation allowance	**(12,796,162)**	(1,206,071)	**(941,666,696)**	(88,754,765)
Total	**–**	7,619,577	**–**	560,724,671

In assessing the realization of deferred tax assets, the likelihood of whether it is more likely than not that some portion or all the deferred tax assets will not be realized must be considered. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary difference becomes deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. Due to the cease-and-desist order, which prohibited the management from selling ROXOR model, resulting in decline in the current year sales and future projections for future taxable income for which the deferred tax assets were deductible. The management believes that it is more likely than not that the deferred tax assets may not be realized and accordingly, a valuation allowance of USD 12,796,162 (INR 941,666,696) is recognized as at March 31, 2021 (March 31, 2020 USD 1,206,071 (INR 88,754,765)).

The Company has federal net operating losses ("NOLs") carryforwards of USD 46,141,085 (INR: 3,395,522,445) as at March 31, 2021 (March 31, 2020: USD 34,116,554 (INR: 2,510,637,209). Out of the total NOLs of USD 46,141,085 (INR: 3,395,522,445), if unutilized, NOLs of USD 29,355,508 (INR: 2,160,271,834) will begin to expire from the year 2035, whereas the remaining NOLs will be carried forward indefinitely.

The Company has state net operating losses carryforwards of USD 12,880,211 (INR: 947,854,727) as at March 31, 2021 (March 31, 2020: USD 10,505,962 (INR: 773,133,744), which, if unutilized will begin to expire from the year 2026.

The Company recognizes the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination.

The tax years 2017, 2018, 2019 and 2020 remains subject to examination by the taxing authorities.

NOTE R – COMMITMENTS AND CONTINGENCIES

Litigation

The Company was engaged in litigation over violation of “trade dress” of FCA’s Jeep branded vehicles with FCA US, LLC both at the International Trade Commission and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company’s ROXOR off-road utility vehicle violated the “trade dress” of FCA’s Jeep Wrangler SUV. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease-and-desist order was effective from August 11, 2020.

In December 2020, the Company received confirmation that they can proceed with selling the post-2020 ROXOR model. However, the ITC’s decision for allowing the Company to sell post-2020 ROXOR is in appeals. There is also a federal action which remains pending in which FCA US, LLC is seeking disgorgement of profits and also a claim for False Advertising relating to one commercial that had a military style vehicle. Both matters are ongoing. The Company believes it has strong defense to violate the claims. At this time no liability has been incurred and the amount of any future loss or award associated with these matters cannot be estimated reasonably. A final determination is yet to be made by the higher authorities.

NOTE S – EMPLOYEE BENEFIT PLANS

The Company has voluntary 401(k) retirement plans. The Company may make annual contributions to the plans equal to a uniform percentage of participant compensation. The cost of the Company’s contributions charged to expense related to 401(k) contributions was USD 32,390 (INR 2,383,580) and USD 72,069 (INR 5,303,558) for the years ended March 31, 2021 and March 31, 2020, respectively.

NOTE T – COMMON STOCK

Common stock

The authorized share capital of the Company as of March 31, 2021 and March 31, 2020 was 1,000,000 shares of $ 25 each. As at March 31, 2021 and March 31, 2020, total shares issued and outstanding was 2,307,709 and 971,000 shares respectively.

The authorized share capital of the Company as of March 31, 2021 and March 31, 2020 was 100,000 shares of $ .10 each. As at March 31, 2021 and March 31, 2020, total shares issued and outstanding was 1,000 shares

The Company has issued 1,306,709 shares in excess of the authorized capital. The Company shall at a later date amend the authorized share capital.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holder of common stock shall be entitled to receive all the remaining assets of the Company.

NOTE U – GOVERNMENT INCENTIVE AND CREDITS

Michigan Economic Development Incentive (MEDC)

The Company, during the year ended March 31, 2019, had recorded government grant incentive income received from MEDC amounting to USD 531,250 (INR 39,094,688). The Company had received this incentive on account of creation of 50 qualified jobs in State of Michigan. During the year ended March 31, 2021, due to the onset of COVID-19 and cease-and desist order, the Company furloughed 86 employees and also terminated few employees. Due to these uncertain circumstances, the management believes that it could have potentially violated the conditions stipulated based on which the Company had received the grant in the FY 2018-19 and are currently evaluating its exposure. The Company has therefore recognized an accrual amounting to USD 531,250 (INR 39,094,688) as at March 31, 2021 for MEDC incentive received in FY 2018-19.

Deferral of employment taxes

Section 2302 of the CARES Act provides that employers may defer the deposit and payment of the employer's portion of Social Security taxes. The payroll tax deferral period begins on March 27, 2020 and ends December 31, 2020. Section 2302(a)(2) of the CARES Act provides that deposits of the employer's share of Social Security tax that would otherwise be required to be made during the payroll deferral period may be deferred until the applicable date. The Company has deferred the employment taxes amounting to USD 77,529 (INR 5,705,359) as on March 31, 2021.

Employee retention credit

During the year the Company availed the benefit under the ERC (employee retention credit) scheme, a benefit given by the Federal government under the COVID stimulus package which allows businesses to take credit of the wages paid to employees on furlough and not working. The total ERC credit received by the Company for the year March 31, 2021 amounts to USD 114,873 (INR 8,453,504) and $ Nil as at March 31, 2020. The Company is currently evaluating whether it is eligible for such credits and believes that there is reasonable probability that it will have to repay this credit back to the IRS and on a conservative basis, the Company has recorded an accrual to pay back the credits received amounting to USD 114,873 (INR 8,453,504) as of March 31, 2021.

NOTE V – RISK AND UNCERTANITIES

The Company's future results of operations involve several risks and uncertainties. Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes; the ability to attract and retain qualified employees and the Company's ability to execute on its business plan.

NOTE W – SUBSEQUENT EVENTS

The Company evaluated all events and transactions that occurred after March 31, 2021 through the date the financial statements were issued. Based on the evaluation, the Company is not aware of any events or transactions that would require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT

Board of Directors

Mahindra Automotive North America, Inc.

We have audited the accompanying balance sheets of Mahindra Automotive North America, Inc. ("the Company") as of March 31, 2021 and March 31, 2020, the related statements of loss, stockholder's equity and cash flows for the years ended March 31, 2021 and March 31, 2020 and the related notes to the separate parent company financial statements.

Management's responsibility for the separate parent company financial statements

Management is responsible for the preparation and fair presentation of these separate parent company financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of separate parent company financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these separate parent company financial statements based on our audits. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the separate parent company financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate parent company financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the separate parent company financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the separate parent company financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the separate parent company financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis of qualified opinion

As discussed in Note D. 1(a) to the separate parent company financial statements, the Company reports investment in its wholly owned subsidiaries, Mahindra North American Technical Center, Inc. and Mahindra Vehicle Sales and Service, Inc., on cost basis.

a) Accounting principles generally accepted in the United States of America require that all majority owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of these subsidiaries had been consolidated with those of the Company, total assets would have decreased by USD 121,566,434 (INR: 8,946,073,878) and USD 27,897,626 (INR: 2,052,986,224) as on March 31, 2021 and March 31, 2020, respectively; total liabilities would have increased by USD 12,288,527 (INR: 904,312,702) and USD 49,135,126 (INR 3,615,853,922) as on March 31, 2021 and March 31, 2020, respectively; stockholder's equity would have decreased by USD 133,854,961 (INR:9,850,386,580) and USD 77,032,751 (INR: 5,668,840,146) as on March 31, 2021 and March 31, 2020, respectively and net loss would have increased by USD 56,822,209 (INR: 4,181,546,360) and USD 37,707,672 (INR: 2,774,907,582) for each of the years then ended.

b) The Company has not reviewed its investments in Mahindra North American Technical Center, Inc. and Mahindra Vehicle Sales and Services, Inc as of March 31, 2021 for impairment. We have not been able to obtain sufficient and appropriate evidence over the recoverable amounts of those investments as of March 31, 2021. Consequently, we were unable to determine whether any adjustments to these amounts were necessary.

Opinion

In our opinion, except for the effects of not consolidating the wholly owned subsidiaries and except for the possible effects of the impairment adjustments to the carrying amount as discussed in the Basis of qualified opinion paragraph, the separate parent company financial statements referred to above present fairly, in all material respects, the financial position of the Company as of March 31, 2021 and March 31, 2020 and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other matter

The presentation of financial information in Indian rupees in the separate parent company financial statements is not a required part of the basic separate parent company financial statements. We have verified the arithmetic accuracy of the presentation based upon exchange rate provided by the Company's management. We did not audit and do not express an opinion on such information, and our opinion is not modified with respect to this matter.

NOTES TO SEPARATE PARENT COMPANY FINANCIAL STATEMENTS

NOTE A - ORGANIZATION AND NATURE OF OPERATIONS

Mahindra Automotive North America, Inc. (hereinafter referred to as the “Company”) was incorporated in the state of Delaware on March 27, 2017 and is a wholly owned subsidiary of Mahindra Overseas Investment Company Mauritius, Limited (“MOICML”). Both, the Company and MOICML are consolidated subsidiaries of Mahindra and Mahindra Limited (“M&M”). The Company engineers, designs, develops, assembles and delivers parts and vehicles to the global automotive market for off-road use, as an Original Equipment Manufacturer (“OEM”) headquartered in Auburn Hills, MI.

The Company owns 100% of two separate business units (“Group”); Mahindra Vehicle Sales and Service, Inc. (“MVSS”) which is engaged in the sales of off-road recreational vehicles and Mahindra North American Technical Centre, Inc. (“MNATC”) which is involved in the manufacture of off-road vehicles as well as the development of prototype on road vehicles. The Company’s vehicle brand, ROXOR, is an off-road side-by-side vehicle.

NOTE B - SUBSIDIARIES OPERATIONS

On April 30, 2017, the Company acquired all the stock of MNATC from Mahindra USA, Inc., another wholly owned subsidiary of M&M.

On January 15, 2018, MNATC began producing ROXOR vehicles from its facility in Auburn Hills, MI. In Michigan, when engaged in automotive manufacturing activities, MNATC does business as “d/b/a” Mahindra Automotive North America Manufacturing (“MANAM”).

MVSS was formed on May 13, 2017 to function as the sales and distribution business unit for ROXOR. MVSS purchases the ROXORs manufactured by MANAM and wholesales them to MVSS’s 363 dealerships.

The Group was engaged in litigation with FCA US, LLC over FCA’s claims relating to unregistered “trade dress” of FCA’s Jeep branded vehicles both at the International Trade Commission (“ITC”) and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company’s ROXOR off-road utility vehicle violated the “trade dress” of FCA’s Jeep branded vehicle. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Group. The cease and desist order was effective from August 11, 2020.

The cease-and desist order relates to the prohibition of marketing, sale, importation and manufacturing of the model year 2018, 2019 and 2020 ROXOR off-road vehicle by the Group in the United States of America (“US”). The impact of the order on the operations of the Company was significant. The Company was unable to market, import, build or sell ROXORs in the US beginning on or about August 11, 2020. However, the Group could sell ROXORs in Canada since the limited exclusion order prohibited the Group from sale of its vehicles only in the US. Given the impact of the ruling on the operations, the Company did not pursue most of the opportunities since the cost incurred to sell the product would have been too high. Due to the pause in the business along with the onset of COVID-19, the Group furloughed employees and also terminated relationships with few other stakeholders. Per the cease-and desist order since the Group could not carry out marketing activities as well, it had to engage in significant efforts to modify its website and notify its marketing partners for not honoring few contracts.

During the year, the Group performed and prepared expedited proceedings to allow a significantly re-designed ROXOR to be excluded from the cease-and desist order. On October 20, 2020, the Administrative Law Judge (“ALJ”) found that the re-designed ROXOR does not violate any trade dress and recommended that the re-designed ROXOR be excluded from the cease-and desist order. On December 22, 2020, the ITC agreed with the ALJ and ruled that the re-designed ROXOR is excluded from the cease-and desist order. The Group is reviving its operations and plans to launch the re-designed ROXOR by the end of October 2021. FCA in February 2021, shared the “notice to appeal” to the court for review of the final determination of the ITC’s exclusion of re-designed ROXOR from the cease-and-desist order. The management believes that the chances of FCA prevailing over the appeal against the ITC’s exclusion of re-designed ROXOR from the cease-and-desist order are remote.

NOTE C - GOING CONCERN EVALUATION

During the year ended March 31, 2021, due to the cease-and desist order, the Group could not conduct any sale of ROXOR along with its kit and assemblies in the US from August 11, 2020. This resulted in the Company incurring losses for the year ended March 31, 2021. Additionally, the Company has an accumulated deficit of USD 22,740,563 (INR 1,673,478,031) as at March 31, 2021. Although, these events and condition cast significant doubt on the Company’s ability to continue as a going concern, in view of the continued support from the ultimate parent company, the management considers that it is appropriate to prepare these financial statements on a going concern basis, which assumes that the Company will continue in operational existence for the foreseeable future. The Company has received funding from its parent company amounting to USD 65,900,000 (INR: 4,849,581,000) during the current year in the form of equity infusion, for meeting the cash flow requirements. Also, the management has plans to mitigate the adverse effects, including:

1) Reviving its business operations through organizational restructuring and right sizing.
2) New business development plans for launch of model year 2022 ROXOR and to make the Company business profitable.
3) Obtain capital financing from ‘Mahindra Overseas Investment Company Mauritius Limited’, the parent company, to meet near term working capital requirements.
4) Obtain a commitment from the parent company to continue to provide financial support and honor the Company’s future obligations.

Based on the above mitigating factors, the separate parent company financial statements have been prepared on the basis that the Company is a going concern and that no adjustments are required to the carrying value of assets and liabilities.

NOTE D - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. Basis of preparation

a. The accompanying separate parent company financial statements are prepared under the historical cost convention on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America (‘US GAAP’) to reflect the financial position, results of operations and cash flows of the Company. The Company reports investment in its wholly owned subsidiary, Mahindra North American Technical Center, Inc. and Mahindra Vehicle Sales and Service, Inc., on cost basis. Accounting principles generally accepted in the United States of America require that all majority owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of this subsidiary had been consolidated with those of the Company, total assets would have decreased by USD 121,566,434 (INR: 8,946,073,878) and USD 27,897,626 (INR: 2,052,986,224) as on March 31, 2021 and March 31, 2020, respectively; total liabilities would have increased by USD 12,288,527 (INR: 904,312,702) and USD 49,135,126 (INR 3,615,853,922) as on March 31, 2021 and March 31, 2020, respectively; stockholder’s equity would have decreased by USD 133,854,961 (INR:9,850,386,580) and USD 77,032,751 (INR: 5,668,840,146) as on March 31, 2021 and March 31, 2020, respectively and net loss would have increased by USD 56,822,209 (INR: 4,181,546,360) and USD 37,707,672 (INR: 2,774,907,582) for each of the years then ended.

b. The separate parent company financial statements are for the years ended March 31, 2021 and March 31, 2020.

c. Financial information in the separate parent company financial statements is shown in U.S. dollars (“USD”) and in Indian rupees (“INR”). For the fiscal years ended March 31, 2021 and March 31, 2020, dollar amounts are translated for convenience into Indian rupees at an exchange rate of 73.59 INR per dollar on March 31, 2021. Within the notes to the financial statements, Indian rupee amounts are shown parenthetically following the U.S. dollar amounts.

d. Certain reclassifications, regroupings and reworking have been made in the separate parent company financial statements of prior year to conform to the classifications used in the current year. These changes had no impact on previously reported separate parent company net loss or stockholder’s equity.

2. Use of estimates

The preparation of separate parent company financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the separate parent company financial statements. Significant items subject to such estimates and assumptions include the useful lives of property and equipment, valuation allowance for deferred tax assets, and other contingencies. Management believes that the estimates used in the preparation of the separate parent company financial statements are reasonable. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the separate parent company financial statements.

3. Revenue recognition

Revenue of the Company comprise of fees for services rendered to its ultimate parent company and its subsidiaries. These fees have been accrued as the related services have been performed.

Interest for loan to its wholly owned subsidiary is presented with interest expense in the statements of loss. Interest is recognized on time proportion basis considering the amount outstanding and the applicable rate.

Revenue is recognized upon transfer of control of services promised to customers in an amount that reflects the consideration the Company expects to receive in exchange for these products or services.

Effective April 1, 2019, the Company has adopted Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, Revenue from Contracts with Customers (Topic 606), with a date of initial application of April 1, 2019 using the modified retrospective method

4. Cash and cash equivalents

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate per bank of USD 250,000 (INR 18,397,500). The Company believes it is not exposed to any significant risk on cash and cash equivalents.

5. Property and equipment

Property and equipment are stated at cost less accumulated depreciation. Cost of items of property and equipment comprises cost of purchase and other costs necessarily incurred to bring it to the condition and location necessary for its intended use.

The Company depreciates property and equipment over the estimated useful life using the straight-line method. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is credited or charged to statement of loss.

The estimated useful life used to determine depreciation is:

Buildings	40 years
Leasehold improvements	7 years or the lease period
Furniture	5-7 years

Expenditures for maintenance and repairs are charged to statement of loss. Property and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value of the asset may not be recoverable.

The cost of property and equipment not ready for use before such date are disclosed under capital work-in-progress

6. Income taxes

Income taxes are provided for the tax effects of transactions reported in the separate parent company financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of certain assets and liabilities for financial and tax reporting. The deferred taxes represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled, respectively.

The Company has determined whether any tax positions have met the recognition threshold and has measured the Company's exposure to those tax provisions. Management believes that the Company has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state taxing authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties from federal and state taxing authorities were recorded in the accompanying separate parent company financial statements.

7. Investments

Investments are carried at fair value. Acquisition related expenditure if any, is expensed in the year of incurring the same.

8. Unbilled receivables

Unbilled receivables represent value of services performed in accordance with the contract terms but not billed.

9. Leases

Accounting Standard Update ("ASU") 2016-02, Leases. On April 1, 2019, the Company early adopted Accounting Standards Codification 842 and all the related amendments ("new lease standard") using the modified retrospective method. The comparative information has not been restated and continues to be reported under the lease accounting standard in effect of those periods. The Company does not expect the adoption of the new lease standard to have a material impact to net income on an ongoing basis. The new lease standard requires all leases to be reported on the balance sheet as operating lease right-of-use assets and lease obligations. The Company elected the practical expedients permitted under the transition guidance of the new standard that retained the lease classification and initial direct costs for any leases that existed prior to adoption of the standard.

Leases are classified as operating leases, which are included in operating lease right-of-use assets and operating lease liabilities in the balance sheet.

Right-of-use assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in selling, general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in cost of revenue. Interest expense for finance leases is recognized using the effective interest method. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

As a result of the Company's adoption of ASC 842, the Company recognized operating lease right-of-use of assets and lease liabilities amounting to $1,305,644 (INR: 96,082,342) and $1,347,544 (INR: 99,165,763), respectively.

10. Commitments and contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the separate parent company financial statements.

10. Fair value measurements and financial instruments

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Some of Company's financial instruments, including cash and cash equivalents, accounts receivable and accounts payable are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

NOTE E - CASH AND CASH EQUIVALENTS

The cash and cash equivalents of the Company comprise:

	USD		INR	
	As at March 31,		As at March 31,

NOTE J - LEASES

General description of the lease

The Company has entered into noncancelable operating lease agreements related to facility, office equipment, machinery and equipment and vehicles with varying terms.

Non-lease components: Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements.

Package of practical expedients: The Company will not reassess whether any expired or existing contracts are leases or contain leases, the lease classification for any expired or existing leases or any initial direct costs for any expired or existing leases as of the transition date.

Additional transition method: The Company adopted the standard using a modified retrospective approach, applying the standard's transition provisions at the beginning of the period of adoption and maintain previous disclosure requirements for comparative periods.

The Company used the following policies and/or assumptions in evaluating the lease population:

Lease determination: The Company considers a contract to be or to contain a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration.

Discount rate: When the lease contracts do not provide a readily determinable implicit rate, the Company uses the estimated incremental borrowing rate based on information available at the inception of the lease. The discount rate is determined by asset class.

Variable payments: The Company includes payments that are based on an index or rate within the calculation of right of use leased assets and lease liabilities, initially measured at the lease commencement date. There are variable payments in the nature of origination fees for office equipment, machinery and equipment and therefore are not treated as a part of lease payments.

Purchase options: Certain leases include options to purchase the office equipment. The depreciable life of assets are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

Renewal options: Most leases include one or more options to renew, with renewal terms that can extend the lease term from one or more years. The exercise of lease renewal options is at the Company's sole discretion.

Residual value guarantees, restrictions, or covenants: The lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Short-term leases: Leases with an initial term of 12 months or less are not recorded on the balance sheet; the Company recognizes lease expense for these leases on a straight-line basis over the lease term and expense the associated operating lease costs to administrative expenses on the statements of income.

The table below presents the classification of leasing assets and liabilities as reported on the balance sheet as of March 31, 2021 and March 31, 2020.

	USD		INR	
	As at March 31,		As at March 31,	
Particulars	**2021**	**2020**	**2021**	**2020**
Assets				
Operating lease right-of-use assets	1,082,183	1,195,949	79,637,847	88,009,887
Total lease assets	**1,082,183**	**1,195,949**	**79,637,847**	**88,009,887**
Liabilities				
Current

Total lease expense	**302,022**	**232,988**	**22,225,799**	**17,145,587**

*Operating lease expense are included in administrative expenses in the statements of loss. Operating lease expense include short-term leases, variable lease costs and leases which did not meet the capitalization requirement of the Company.

Future minimum lease payments as of March 31, 2021, for operating leases having an initial or remaining non-cancelable lease term in excess of one year are as follows.

Year ended March 31	**Amount (USD)**	**Amount (INR)**
2022, 2023 and 2024	517,197	38,060,527
2025 and 2026	366,707	26,985,968
2027 onwards	534,258	39,316,046
Total minimum lease payments	**1,418,162**	**104,362,542**
Less: Interest	(216,718)	(15,948,278)
Present value of lease payments	**1,201,444**	**88,414,264**

The following table presents the weighted-average remaining lease term and discount rates as of March 31, 2021.

Weighted-average remaining lease term (years)	
Operating leases	7.76
Weighted-average discount rate	
Operating leases	4.31%

The following table presents supplemental information for operating leases for the year ended March 31, 2021 and March 31, 2020.

	USD		INR	
	Year ended March 31		Year ended March 31	
Supplemental information	**2021**	**2020**	**2021**	**2020**
Cash paid for amounts included in the measurement of lease liabilities				
Operating cash flows used in operating leases	164,059	93,781	12,073,102	6,901,344

NOTE K - INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company is subject to taxation in the United States and the State of Michigan. The income tax (benefit) expense is as follows:

	USD		INR	
	Year ended March 31,		Year ended March 31,	
	2021	**2020**	**2021**	**2020**
Deferred tax (benefit) expense	3,594,208	(1,609,064)	264,497,767	(118,411,020)
Income tax (benefit) expense	**3,594,208**	**(1,609,064)**	**264,497,767**	**(118,411,020)**

The tax effects of significant temporary differences that resulted in deferred tax assets and liabilities and a description of the items that create such differences is as follows:

	USD		INR	
	Year ended March 31,		Year ended March 31,	
	2021	**2020**	**2021**	**2020**
Deferred tax asset (liability)				
Net operating loss	4,613,355	3,145,756	339,496,795	231,496,258
State net operating loss	194,192	146,294	14,290,589	10,765,775
Interest expense limitation	–	245,914	–	18,096,811
Accrued expenses	138,615	115,717	10,200,678	8,515,614
Accrued merit pay	46,895	30,157	3,451,003	2,219,254
Property and equipment	(8,170)	(46,840)	(601,230)	(3,446,956)
Operating right-of-use assets	–	25,479	–	1,875,000
Prepaid expenses	(45,474)	(68,270)	(3,346,432)	(5,023,989)
Total	**4,939,413**	**3,594,208**	**363,491,403**	**264,497,767**
Less: valuation allowance	(4,939,413)	–	(363,491,403)	
Total deferred tax assets	**–**	**3,594,208**	**–**	**149,560,750**

In assessing the realization of deferred tax assets, the likelihood of whether it is more likely that not that some portion or all the deferred tax assets will not be realized must be considered. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary difference become deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. Due to the cease-and desist order, the management has been prohibited from selling ROXOR model, resulted in decline in the current year sales and the future projections for future taxable income for which the deferred tax assets were deductible. Thus, the management believes that it is more likely than not that the deferred tax assets may not be realized and accordingly, a valuation allowance of USD 4,939,413 (INR 363,491,403) is recognized as at March 31, 2021 (March 31, 2020 USD Nil (INR Nil)).

The company has federal NOLs carryforwards of USD 21,020,920 (INR: 1,546,929,503) and USD 15,022,601 (INR: 1,105,513,208) as at March 31, 2021 and March 31, 2020, respectively, which if unutilized, will be carried forward indefinitely.

The Company has state net operating losses carryforwards of USD 4,096,886 (INR: 301,489,841) and USD 2,909,731 (INR: 214,127,104) as at March 31, 2021 and March 31, 2020, respectively, which if unutilized will begin to expire from the year 2028.

The tax years 2017, 2018, 2019 and 2020 remains subject to examination by the taxing authorities.

NOTE L - RELATED PARTY LOAN

Loan transaction with Mahindra North American Technical Center, Inc.

The Company in 2018, obtained a loan from its subsidiary, Mahindra North American Technical Centre, Inc. at an interest rate of 5.00% per annum. The loan amount payable at March 31, 2021 was USD Nil (INR: Nil) (March 31, 2020: USD 7,442,675 (INR: 547,706,453). During the year, the amount outstanding as of March 31, 2020 amounting to USD 7,442,675 (INR: 547,706,453) was repaid. Interest is calculated based on a 365-day annual term and payable along with the principal. The loan is repayable on demand. Interest payable as at March 31, 2021 was USD Nil (INR: Nil) (March 31, 2020: USD 19,337(INR 1,423,010). Interest expense for the year ended March 31, 2021 and March 31, 2020 amounted to USD 80,196 (INR:5,901,624) and USD 417,742 (INR 30,741,634), respectively.

The Company during the fiscal year 2021, provided a loan to its subsidiary, Mahindra North American Technical Center, Inc. at an interest rate of 5.00% per annum. Interest is calculated based on a 365-day annual term and receivable along with the principal. The loan amount of USD 33,392,729 (INR 2,457,370,927) including accrued interest was converted into an investment. Interest income for the year ended March 31, 2021 and March 31, 2020 amounted to USD 54,931 (INR:4,042,339) and USD NIL (INR NIL), respectively.

Loan transaction with Mahindra Vehicle Sales and Services, Inc.

The Company during the year ended March 31, 2021, provided loan amounting to USD 21,090,000 (INR: 1,552,013,100) to its related party, Mahindra Vehicle Sales and Services, Inc. at an interest rate of 5.00% per annum. The entire loan amount along with interest receivable as at March 31, 2021, was converted into an investment.

During the year ended March 31, 2020, the Company provided a loan of USD 30,629,979 (INR: 2,254,060,155) at an interest rate of 5.00% per annum. Loan balance to the tune of USD 250,000 (INR: 18,397,500) and entire interest was repaid in the previous year. Remaining loan balance amounting to USD 30,379,979 (INR: 2,235,662,655) was converted into an investment.

The loan amount receivable as at March 31, 2021 and March 31, 2020 was USD Nil (INR: Nil) and USD Nil (INR: Nil), respectively. Interest was calculated based on a 365-day annual term and payable along with the principal.

Interest income for the year ended March 31, 2021 and March 31, 2020 amounted to USD 635,244 (INR: 46,747,606) and USD 451,993 (INR: 33,262,165), respectively.

Loan transaction with Mahindra Overseas Investment Company Mauritius Limited

The Company during the fiscal year ended March 31, 2019, obtained multiple loans from its parent company, Mahindra Overseas Investment Company Mauritius Limited with interest rates ranging from 4.51% - 4.87% per annum. The loan amount payable at March 31, 2021 was USD Nil (INR: Nil) (March 31, 2020: USD 9,400,000 (INR: 691,746,000)).

During the year ended March 31, 2021, the outstanding principal balance plus interest totaling to $ 10,793,430 was converted to equity in March 2021.

Interest is calculated based on a 365-day annual term and payable along with the principal. The loan is repayable on demand. Interest payable as at March 31, 2021 was USD Nil (INR Nil) (March 31, 2020: USD: 1,005,722 (INR: 74,011,082)).

Interest expense for the year ended March 31, 2021 was USD 387,708 (INR 28,531,432) (March 31, 2020: USD: 441,861 (INR: 32,516,551)).

NOTE N - COMMITMENTS AND CONTINGENCIES

Litigation

The Company was engaged in litigation over violation of “trade dress” of FCA’s Jeep Wrangler SUV with FCA US, LLC both at the International Trade Commission (ITC) and at the United States District Court, Eastern District of Michigan. “Trade dress” consists of the unique characteristics that make a product stand apart and is generally accepted as identified with that product by the public. The ITC in its ruling dated June 11, 2020, stated that the Company’s ROXOR off-road utility vehicle violated the “trade dress” of FCA’s Jeep Wrangler SUV. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease-and-desist order was effective from August 11, 2020.

In December 2020, the Company received confirmation from that they can proceed with selling the post-2020 ROXOR model. However, the ITC's decision for allowing the Company to sell post-2020 ROXOR is in appeals. There is a federal action as well which remains pending in which FCA US, LLC is seeking disgorgement of profits and a claim for False Advertising relating to one commercial that had a military style vehicle. Both matters are ongoing. The Company believes it has strong defense to violate the claims. At this time no liability has been incurred and the amount of any future loss or award associated with these matters cannot be estimated reasonably. A final determination is yet to be made by the higher authorities.

NOTE O - STOCKHOLDER'S EQUITY

Common stock

The authorized share capital of the Company as of March 31, 2021 and March 31, 2020 was 6,700,000 shares and 4,500,000 share, respectively, of $ 25 each. As at March 31, 2021 and March 31, 2020 total shares issued and outstanding was 6,817,737 and 3,750,000 shares, respectively.

As at March 31, 2021, the Company has issued 117,737 shares in excess of the authorized capital. The Company has at a later date amended the authorized share capital to 8,000,000 shares.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holder of common stock shall be entitled to receive all the remaining assets of the Company.

NOTE P - RISKS AND UNCERTAINITIES

The Company's future results of operations involve several risks and uncertainties.

Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes; the ability to attract and retain qualified employees and the Company's ability to execute on its business plan.

Contract assets

The Company's contracts with customers with dealer agreements and purchase orders. These contracts with customers typically consist of sale of products which represent performance obligations that are satisfied upon transfer of control of the product to the customer at a point in time.

The following table provides information about contract assets as at March 31, 2021 and March 31, 2020:

	USD		INR	
	As at March 31, 2021	**As at March 31, 2020**	**As at March 31, 2021**	**As at March 31, 2020**
Accounts receivable	561,492	3,250,463	41,320,196	239,201,572
Unbilled receivable	316,863	–	23,317,948	–

NOTE R - EMPLOYEE BENEFIT PLANS

The Company has voluntary 401(k) retirement plans. The Company may make annual contributions to the plans equal to a uniform percentage of participant compensation. The cost of the Company's contributions charged to expense related to 401(k) contributions was USD 48,747 (INR: 3,587,292) (March 31, 2020: USD 72,085 (INR: 5,304,735)).

NOTE S - GOVERNMENT INCENTIVE AND CREDITS

Employee retention credit

During the year the Company availed the benefit under the ERC (employee retention credit) scheme, a benefit given by the Federal government under the COVID stimulus package which allows businesses to take credit of the wages paid to employees on furlough and not working. The total ERC credit received by the Company for the year ended March 31, 2021 amounts to $ 570,596 (INR 41,990,160) and $ Nil as at March 31, 2020. The Company is currently evaluating whether it is eligible for such credits and believes that there is reasonable probability that it will have to repay this credit back to the IRS and on a conservative basis, the Company has recorded an accrual to pay back the credits received amounting to USD 570,596 (INR 41,990,160) as of March 31, 2021.

Deferral of employment taxes

Section 2302 of the CARES Act provides that employers may defer the deposit and payment of the employer's portion of social security taxes. The payroll tax deferral period began on March 27, 2020 and ended December 31, 2020. Section 2302(a)(2) of the CARES Act provides that deposits of the employer's share of social security tax that would otherwise be required to be made during the payroll deferral period may be deferred until the "applicable date. The Company has deferred the employment taxes amounting to USD 113,598 (INR 8,359,677) as on March 31, 2021.

NOTE T - ADVERTISING AND MARKETING EXPENSE

Advertising costs are presented as part of selling, general and administrative expenses in the consolidated statement of loss. Advertising costs are expensed as incurred. The amount of advertising and marketing cost incurred by the Company for the year ended March 31, 2021 and March 31, 2020 is USD 87,376 (INR 6,430,000) and USD 351,991 (INR: 25,903,018), respectively.

NOTE U - SUBSEQUENT EVENTS

The Company evaluated all events or transactions that occurred after March 31, 2021 up to the date of the separate parent company financial statements were issued. Based on this evaluation, the Company is not aware of any events or transactions that should require recognition or disclosure in the consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT

Board of Directors

Mahindra Vehicle Sales and Services, Inc.

We have audited the accompanying balance sheets of Mahindra Vehicle Sales and Services, Inc. ("the Company") as of March 31, 2021 and March 31, 2020, the related statements of loss, stockholder's equity (deficit) and cash flows for the years then ended and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of the Company as of March 31, 2021 and March 31, 2020 and the results of its operations and cash flows for the years then ended, in accordance with the accounting principles generally accepted in the United States of America.

Other matter

The presentation of financial information in Indian rupees in the financial statements is not a required part of the basic financial statements. We have verified the arithmetic accuracy of the presentation based upon exchange rate provided by the Company's management. We did not audit and do not express an opinion on such information, and our opinion is not modified with respect to this matter.

NOTES TO FINANCIAL STATEMENTS

NOTE A - ORGANIZATION AND NATURE OF OPERATIONS

Mahindra Vehicle Sales and Services, Inc. (hereinafter referred to as the "Company") was incorporated in the state of Delaware on April 19, 2017 and is a wholly owned subsidiary of Mahindra Automotive North America, Inc. ("MANA"). The Company delivers parts and vehicles primarily to the North American automotive market for off-road use.

The Company sells and distributes parts and vehicles to distributors and dealers (collectively "dealerships"), the majority of which are independently owned. As at March 31, 2021, the Company has contractual relationships in North America with approximately 363 dealerships. The only vehicle sold by the Company to dealerships is the ROXOR, an off-road side-by-side vehicle manufactured by Mahindra North American Technical Center, Inc. d/b/a Mahindra Automotive North America Manufacturing ("MANAM"). The Company shipped 669 vehicles during the fiscal year ended March 31, 2021.

The Company was engaged in litigation with FCA US, LLC over FCA's claims relating to unregistered "trade dress" of FCA's Jeep branded vehicles both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company's ROXOR off-road utility vehicle violated the "trade dress" of FCA's Jeep branded vehicle. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease and desist order was effective from August 11, 2020.

The cease-and desist order relates to the prohibition of marketing, sale, importation and manufacturing of the model year 2018, 2019 and 2020 ROXOR off-road vehicle by the Company in the United States of America ("US"). The impact of the order on the operations of the Company was significant. The Company was unable to market, import, build or sell ROXORs in the US beginning on or about August 11, 2020. However, the Company could sell ROXORs in Canada since the limited exclusion order prohibited the Company from sale of its vehicles only in the US. Given the impact of the ruling on the operations, the Company did not pursue most of the opportunities since the cost incurred to sell the product would have been too high. Due to the pause in the business along with the onset of COVID-19, the Company furloughed employees and also terminated relationships with few other stakeholders. Per the cease-and desist order as the Company could not carry out marketing activities, it had to engage in significant efforts to modify its website and notify its marketing partners for not honoring few contracts.

During the year, the Company performed and prepared expedited proceedings to allow a significantly re-designed ROXOR to be excluded from the cease-and desist order. On October 20, 2020, the Administrative Law Judge ("ALJ") found that the re-designed ROXOR did not violate any trade dress and recommended that the re-designed ROXOR be excluded from the cease-and desist order. On December 22, 2020, the ITC agreed with the ALJ and ruled that the re-designed ROXOR is excluded from the cease-and desist order. The Company is reviving its operations and plans to launch the re-designed ROXOR by the end of October 2021. FCA in February 2021, shared the "notice to appeal" to the court for review of the final determination of the ITC's exclusion of re-designed ROXOR from the cease-and-desist order. The management believes that the chances of FCA prevailing over the appeal against the ITC's exclusion of re-designed ROXOR from the cease-and-desist order are remote.

NOTE B - GOING CONCERN

With effect from August 11, 2020, due to the cease-and-desist order, the Company could not conduct any sale of ROXOR along with its kit and assemblies in the US. This has resulted into the Company incurring further losses during the year ended March 31, 2021. Additionally, the Company has an accumulated deficit of USD 86,387,612 (INR 6,357,264,368) as at March 31, 2021. Although, these events and condition cast significant doubt on the Company's ability to continue as a going concern, in view of the continued support from the ultimate parent company, the management considers that it is appropriate to prepare these financial statements on a going concern basis, which assumes that the Company will continue in operational existence for the foreseeable future. The Company has received funding from its parent company amounting to USD 21,090,000 (INR: 1,552,013,100) during the current year in the form of a short-term loan, later converted to equity, for meeting the cash flow requirements. Also, the management has plans to mitigate the adverse effects and management is in the process of the following:

1) Reviving its business operations through organizational restructuring and right sizing.
2) New business development plans for launch of model year 2022 ROXOR and to make the Company business profitable;
3) Obtain capital financing from 'Mahindra Overseas Investment Company Mauritius Limited', the parent company, to meet near term working capital requirements;
4) Obtain a commitment from the parent company to continue to provide financial support and honor the Company's future obligations.

Based on the above mitigating factors, the financial statements have been prepared on the basis that the Company is a going concern and that no adjustments are required to the carrying value of assets and liabilities.

NOTE C - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. *Basis of preparation*
   a. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ("US GAAP") to reflect the financial position, results of operation and cash flows of the Company.
   b. The financial statements are for the fiscal years ended March 31, 2021 and March 31, 2020.
   c. Financial information in this report is in U.S. dollars ("USD") and in Indian rupees ("INR"). For the fiscal year ended March 31, 2021 and March 31, 2020, dollar amounts are translated for convenience into Indian rupees at an exchange rate of 73.59 INR per dollar on March 31, 2021. Within the notes to the financial statements, Indian rupee amounts are shown parenthetically following the U.S. dollar amounts.
   d. Certain reclassifications, regroupings and reworking have been made in the financial statements of prior year to conform to the classifications used in the current year. These changes had no impact on previously reported net loss or statement of stockholder's equity.
2. *Use of estimates*

   The preparation of financial statements in accordance with US GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements. Significant items subject to such estimates and assumptions include the useful lives of property and equipment, warranties, volume incentives, rebates, and co-operative advertising programs, valuation allowance for deferred tax assets and other contingencies. Management believes that the estimates used in the preparation of the financial statements are reasonable. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any changes in estimates are adjusted prospectively in the financial statements.
3. *Operating leases*

   Accounting Standard Update ("ASU") 2016-02, Leases. On April 1, 2019, the Company early adopted Accounting Standards Codification ("ASC") 842 and all the related amendments ("new lease standard") using the modified retrospective method. The new lease standard requires all leases to be reported on the balance sheet as operating lease right-of-use assets and lease obligations. The Company elected the practical expedients permitted under the transition guidance of the new standard that retained the lease classification and initial direct costs for any leases that existed prior to adoption of the standard.

   The Company's leases are classified as operating leases, which are included in operating lease right-of-use assets and operating lease liabilities in the balance sheet.

   Right-of-use assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

   The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

   Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of revenue or general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in cost of revenue.

NOTES TO THE FINANCIAL STATEMENTS

Interest expense for finance leases is recognized using the effective interest method. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

4. *Revenue recognition*

<u>*Sale of manufactured goods*</u>

The Company recognizes revenues from sale of manufactured ROXOR off-road side by side vehicles and their related accessories.

Revenue is recognized when control of the vehicles, parts or accessories have been transferred and the Company's performance obligation to the customers have been satisfied. Revenue is measured as the amount of consideration the Company expects to receive in exchange for transfer of goods. The timing of when the Company transfers the goods to the customer may differ from the timing of the customer's payment.

When the Company gives the customers the right to return eligible goods, the Company estimates the expected returns based on an analysis of historical experiences.

The Company has determined that the customers from the sale of vehicles and service parts are generally dealers and distributors. Transfer of control, and therefore revenue recognition, generally corresponds to the date when the vehicles or service parts are made available to the customer, or when the vehicles or service parts are released to the carrier responsible for transporting them to the customer. This is also the point at which invoices are issued, with payment terms for vehicles and for service parts vary with the dealers. For component part sales, revenue recognition is consistent with that of service parts.

The Company sponsors certain sales incentive programs and accrues liabilities for estimated sales promotion expenses when products are sold to the dealerships to the extent that it is probable. The cost of incentives, if any, is estimated at the inception of a contract at the expected amount that will ultimately be paid. Sales promotion incentive programs include volume incentives, cash discounts, retail financing programs, and co-operative advertising programs. Sales promotions and incentives are recognized as a reduction to sales at the time of sale to the dealership. If the estimate of the incentive changes following the sale to the customer, the change in estimate is recognized as an adjustment to revenue in the period of the change.

Shipping and handling services

The Company also performs shipping and handling activities for its customers which is treated as a separate performance obligation as these activities are performed after the customer obtains control of the goods. The Company acts as an agent for shipping and handling services and recognize revenue on net basis.

Revenue from contracts with customers

Effective April 1, 2019, the Company adopted Financial Accounting Standards Board ("FASB") issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), with a date of initial application of April 1, 2019 using the modified retrospective method.

5. *Product warranty*

The Company provides a limited warranty for ROXOR for a period of two years or 12,000 miles whichever is lesser. The warranty reserve is established at the time of sale to the distributorship based on management's best estimate using historical rates and trends. These amounts are recorded as a liability in the balance sheet until they are ultimately paid. Accrued warranty liability was USD 1,149,524 (INR: 84,593,471) at March 31, 2021 (March 31, 2020: USD 1,184,095 (INR: 87,137,551)).

6. *Product liability*

The Company is subject to product liability claims in the normal course of business. Adequate insurance coverage is carried for catastrophic product liability claims. The Company self-insures product liability claims up to the purchased catastrophic insurance coverage. The estimated costs resulting from uninsured losses are charged to operating expenses when it is probable a loss has been incurred and the amount of the loss is reasonably determinable.

7. *Cash and cash equivalents*

The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate per bank of USD 250,000 (INR: 18,397,500)). The Company believes it is not exposed to any significant risk on cash and cash equivalents.

8. *Inventories*

Inventory comprises of demonstration vehicles placed at dealer locations and with sales representative. Inventories are stated at the lower of cost and market value. Cost is the purchase price of the vehicle and attributable direct costs. Inventories are reviewed on a periodic basis for identification and write-down based on physical condition of the vehicle and considering the historical sales experience.

9. *Property and equipment*

Property and equipment are stated at cost less accumulated depreciation. Cost of items of property and equipment comprises cost of purchase and other costs necessarily incurred to bring it to the condition and location necessary for its intended use.

The Company depreciates property and equipment over the estimated useful life using the straight-line method. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is credited or charged to operations.

The estimated useful life used to determine depreciation is:

Leasehold improvements	7 years or the lease period
Equipment	5 years
Furniture & fixtures	5 - 7 years
Computers	3 years
Vehicles	5 years

Expenditures for maintenance and repairs are charged to expense. Property and equipment is reviewed for impairment whenever events or changes in circumstances indicate the carrying value of the asset may not be recoverable.

10. *Intangible assets*

Intangible assets are comprised of computer software which has been recognized at cost and amortized over a period of 3 years or its estimated useful life. Subsequent expenditure is capitalized only when it increases the future economic benefit from the specific assets to which it relates.

11. *Government incentives*

The Company receives incentives from the Michigan Economic Development Corporation in the form of business development grants. These grants are recognized at their fair values in the consolidated statement of loss where there is a reasonable assurance that all grant conditions have been complied with and the grant will be received.

12. *Accounts receivable & allowance for doubtful debts*

Accounts receivable represent amounts due related to sale of goods and services. Accounts receivable are reduced by an estimate of the amount that will ultimately be uncollectible. Management determines the allowance for doubtful accounts by a review of the outstanding amounts on a monthly basis. The allowance is determined by identifying troubled accounts, by using historical experience applied to an aging of accounts. Allowance for doubtful accounts is included in selling, general and administrative expenses in the statement of loss. The Company charges off uncollectable amounts against the reserves in the period in which it determines they are uncollectable.

13. *Income taxes*

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of certain assets and liabilities for financial and tax reporting. The deferred taxes represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled, respectively.

The Company has determined whether any tax positions have met the recognition threshold and has measured the Company's exposure to those tax provisions. Management believes that the Company has adequately addressed all relevant tax positions and that there are no unrecorded tax liabilities. Federal and state taxing authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest or penalties from federal and state taxing authorities were recorded in the accompanying financial statements.

14. *Fair value measurements and financial instruments*

Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs

NOTES TO THE FINANCIAL STATEMENTS

used to measure their fair value. Hierarchical levels which are directly related to the amount of subjectivity associated with the inputs to the valuation of these assets or liabilities are as follows:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Some of Company's financial instruments, including cash and cash equivalents, accounts receivable and accounts payable are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

15. *Commitments and contingencies*

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred. Contingent liabilities are not recognized but are disclosed in the notes. Contingent assets are neither recognized nor disclosed in the financial statements.

NOTE D - CASH AND CASH EQUIVALENTS

The cash and cash equivalents of the Company comprise:

	USD		INR	
	As at March 31,		As at March 31,	
Particulars	**2021**	**2020**	**2021**	**2020**
Bank balances	**480,485**	228,932	**35,358,891**	16,847,106
Total	**480,485**	228,932	**35,358,891**	16,847,106

NOTE E - ACCOUNTS RECEIVABLE

Accounts receivable comprise the following:

	USD		INR	
	As at March 31,		As at March 31,	
Particulars	**2021**	**2020**	**2021**	**2020**
Accounts receivable	**133,740**	441,863	**9,841,927**	32,516,699

Accrued state taxes	**76,867**	536,443	**5,656,643**	39,476,840
Co-op liability	–	208,271	–	15,326,663
Buyback liability*	**338,882**	–	**24,938,326**	–
Dealership closure liability	**262,500**	–	**19,317,375**	–
Withholding payroll taxes	**56,566**	46,126	**4,162,692**	3,394,412
Others	**580,107**	8,400	**42,690,074**	618,156
Total	**4,188,874**	7,154,794	**308,259,238**	526,521,290

*Due to the cease-and desist order (Refer Note A), the Company was unable to carry out business in the United States of America. The Company observed that there are 21 units of unsold ROXORs lying with the dealers. The Company estimates the liability for buy-back and disposal of these units to be USD 338,882 (INR: 24,938,326) as at March 31, 2021.

NOTE K - SHORT TERM BORROWING – RELATED PARTY

The Company during the year ended March 31, 2021, obtained loan amounting to USD 21,090,000 (INR: 1,552,013,100) from its related party, Mahindra Automotive North America, Inc. ("MANA") at an interest rate of 5.00% per annum. The entire loan amount along with interest payable as at March 31, 2021, was converted to equity.

During the year ended March 31, 2020, the Company obtained loan amounting to USD 30,629,979 (INR: 2,254,060,155) from MANA at an interest rate of 5.00% per annum. Loan amount of USD 250,000 (INR: 18,397,500) was repaid and balance outstanding of USD 30,379,979 (INR: 2,235,662,581) was converted to equity.

The loan amount payable at March 31, 2021 and March 31, 2020 was USD Nil (INR: Nil) and USD Nil (INR: Nil). Interest was calculated based on a 365-day annual term and payable along with the principal.

Interest expense for the year is USD 635,244 (INR: 46,747,606) (March 31, 2020: USD 451,994 (INR: 33,262,238)).

NOTE L - LEASES

General description of the lease

The Company has entered into noncancelable operating lease agreements related to facility, office equipment, machinery and equipment and vehicles with varying terms.

Non-lease components: Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements.

Package of practical expedients: The Company will not reassess whether any expired or existing contracts are leases or contain leases, the lease classification for any expired or existing leases or any initial direct costs for any expired or existing leases as of the transition date.

The Company used the following policies and/or assumptions in evaluating the lease population:

Lease determination: The Company considers a contract to be or to contain a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration.

Discount rate: When the lease contracts do not provide a readily determinable implicit rate, the Company uses the estimated incremental borrowing rate based on information available at the inception of the lease. The discount rate is determined by asset class.

Variable payments: The Company includes payments that are based on an index or rate within the calculation of right of use leased assets and lease liabilities, initially measured at the lease commencement date. There are variable payments in the nature of origination fees for office equipment, machinery and equipment and therefore are not treated as a part of lease payments.

Purchase options: Certain leases include options to purchase the office equipment. The depreciable life of assets are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

Renewal options: Most leases include one or more options to renew, with renewal terms that can extend the lease term from one or more years. The exercise of lease renewal options is at the Company's sole discretion.

Residual value guarantees, restrictions, or covenants: The lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Short-term leases: Leases with an initial term of 12 months or less are not recorded on the balance sheet; the Company recognizes lease expense for these leases on a straight-line basis over the lease term and expense the associated operating lease costs to administrative expenses on the statements of income.

The table below presents the classification of leasing assets and liabilities as reported on the balance sheet as of March 31, 2021 and March 31, 2020.

	USD		INR	
	As at March 31,		As at March 31,	
Particulars	2021	2020	2021	2020
Assets				
Operating lease right-of-use assets	**105,717**	661,582	**7,779,714**	48,685,819
Total lease assets	**105,717**	661,582	**7,779,714**	48,685,819
Liabilities				
Current				
Operating lease liabilities	**84,359**	454,539	**6,207,979**	33,449,525

Accounts receivable (Refer Note E)	**163,869**	1,507,306	**12,059,120**	110,922,649

NOTE N - INCOME TAXES

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company is subject to taxation in the United States of America and the State of Michigan. The Company is a member of the federal consolidated tax group of its parent company, MANA.

The provision for income tax expense (benefit) for the current year is as follows:

	USD		INR	
	Year ended March 31,		Year ended March 31,	
	2021	**2020**	**2021**	**2020**
Current tax expense (benefit)	–	–	–	–
Deferred tax expense (benefit)	**15,061,620**	(7,679,663)	**1,108,384,616**	(565,146,400)
Income tax expense (benefit)	**15,061,620**	(7,679,663)	**1,108,384,616**	(565,146,400)

The tax effects of significant temporary differences that resulted in deferred tax assets and liabilities and a description of the items that create such differences is as follows:

	USD		INR	
	As at March 31,		As at March 31,	
	2021	**2020**	**2021**	**2020**
Deferred tax asset (liability)				
Net operating loss	**17,797,425**	14,112,245	**1,309,712,506**	1,038,520,110

Property and equipment	**(10,321)**	(84,179)	**(759,522)**	(6,194,733)
Valuation allowance	**(18,878,690)**	–	**(1,389,282,797)**	–
Total	–	15,061,620	–	1,108,384,616

In assessing the realization of deferred tax assets, the likelihood of whether it is more likely than not that some portion or all the deferred tax assets will not be realized must be considered. The ultimate realization of deferred tax assets is dependent on the generation of future taxable income during the periods in which temporary difference becomes deductible. Management considers the projected future taxable income and tax planning strategies in making this assessment. Due to the cease-and-desist order, the management was prohibited from selling the 2018, 2019 and 2020 ROXOR model, resulting in decline in the current year sales and future projections for future taxable income for which the deferred tax assets were deductible. Thus, the management believes that it is more likely than not that the deferred tax assets may not be realized and accordingly, a valuation allowance of USD 18,878,690 (INR 1,389,282,797) is recognized as at March 31, 2021 (March 31, 2020 USD Nil (INR Nil)).

The Company has federal net operation losses (“NOLs”) carry forwards of USD 81,081,175 (INR: 5,966,763,668) as at March 31, 2021 (March 31, 2020: USD 66,964,131 (INR: 4,927,890,400). Out of the total NOLs of USD 81,081,175 (INR: 5,966,763,668), if unutilized, NOLs of USD 6,721,616 (INR: 494,643,721) will begin to expire from the year 2037, whereas the remaining NOLs will be carried forward indefinitely.

The Company has state net operating losses carry forwards of USD 16,252,705 (INR: 1,196,036,561) as at March 31, 2021 (March 31, 2020: USD 14,131,255 (INR: 1,039,919,055)), which if unutilized will begin to expire from the year 2027.

The Company recognizes the financial statement impact of a tax position when it is more likely than not that the position will be sustained upon examination.

The tax years 2017, 2018, 2019 and 2020 remain subject to examination by the taxing authorities.

NOTES TO THE FINANCIAL STATEMENTS

NOTE P - COMMITMENT AND CONTINGENCIES

Litigation

The Company was engaged in litigation over violation of "trade dress" of FCA's Jeep branded vehicles with FCA US, LLC both at the International Trade Commission ("ITC") and at the United States District Court, Eastern District of Michigan. The ITC in its ruling dated June 11, 2020, stated that the Company's ROXOR off-road utility vehicle violated the "trade dress" claimed by FCA. The ITC then issued a limited exclusion order prohibiting sale or import of the infringing vehicles and parts, as well as a cease-and desist order to the Company. The cease-and desist order was effective from August 11, 2020.

In December 2020, the Company received confirmation that they can proceed with selling the post-2020 ROXOR model. However, the ITC's decision for allowing the Company to sell post-2020 ROXOR is under appeal. There is also a federal action which remains pending in which FCA US, LLC is seeking disgorgement of profits and also a claim for false advertising relating to one commercial that displayed a military style vehicle. Both matters are ongoing. The Company believes it has strong defense against the claims. At this time no liability has been incurred and the amount of any future loss or award associated with these matters cannot be estimated reasonably. A final determination is yet to be made by the adjudicating authorities.

NOTE Q - RISK AND UNCERTANITIES

The Company's future results of operations involve several risks and uncertainties. Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes; the ability to attract and retain qualified employees and the Company's ability to execute on its business plan.

NOTE R - ADVERTISING AND MARKETING EXPENSE

Advertising costs are presented as part of selling, general and administrative expenses in the statement of loss. Advertising costs are expensed as incurred. The amount of advertising and marketing cost incurred by the Company for the year ended March 31, 2021 and March 31, 2020 is USD 3,416,071 (INR: 251,388,665) and USD 13,683,291 (INR: 1,006,953,385), respectively.

NOTE S - COMMON STOCK

Common stock

The authorized share capital of the Company as of March 31, 2021 and March 31, 2020 was 3,000,000 shares of $ 25 each. As at March 31, 2021 and March 31, 2020 total shares issued and outstanding was 3,300,631 and 2,453,441 shares, respectively.

As at March 31, 2021, the Company has issued 300,631 shares in excess of the authorized capital. The Company shall at a later date amend the authorized share capital.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holder of common stock shall be entitled to receive all the remaining assets of the Company.

NOTE T - EMPLOYEE BENEFIT PLANS

The Company has voluntary 401(k) retirement plans covering substantially all employees. The Company may make annual contributions to the plans equal to a uniform percentage of participant compensation. The cost of the Company's contributions charged to expense related to 401(k) contributions was USD 55,351 (INR: 4,073,280) and USD 109,711 (INR: 8,073,632) for the year ended March 31, 2021 and year ended March 31, 2020, respectively.

NOTE U - GOVERNMENT INCENTIVE AND CREDITS

Employee retention credit

During the year the Company availed the benefit under the ERC (employee retention credit) scheme, a benefit given by the Federal government under the COVID stimulus package which allows businesses to take credit of the wages paid to employees on furlough and not working. The total ERC credit received by the Company for the year ended March 31, 2021 amounts to USD 351,982 (INR 25,902,355) and USD Nil (INR: Nil) for the year ended March 31, 2020. The Company is currently evaluating whether it is eligible for such credits and believes that there is reasonable probability that it will have to repay this credit back to the IRS and on a conservative basis, the Company has recorded an accrual to pay back the credits received amounting to USD 351,982 (INR 25,902,355) as of March 31, 2021.

Deferral of employment taxes

Section 2302 of the CARES Act provides that employers may defer the deposit and payment of the employer's portion of Social Security taxes. The payroll tax deferral period begins on March 27, 2020 and ends December 31, 2020. Section 2302(a)(2) of the CARES Act provides that deposits of the employer's share of Social Security tax that would otherwise be required to be made during the payroll deferral period may be deferred until the "applicable date. The Company has deferred the employment taxes amounting to USD 112,587 (INR 8,285,277) as on March 31, 2021.

NOTE V - SUBSEQUENT EVENTS

The Company evaluated all events and transactions that occurred after March 31, 2021 through the date the financial statements were issued. Based on the evaluation, the Company is not aware of any events or transactions that would require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT

Audit Opinions

We have audited the annual financial statements of Automobili Pininfarina GmbH, Munich, which comprise the balance sheet as at 31 March 2021, and the statement of profit and loss for the financial year from 1 April 2020 to 31 March 2021, and notes to the financial statements, including the presentation of the recognition and measurement policies. In addition, we have audited the management report of Automobili Pininfarina GmbH, Munich, for the financial year from 1 April 2020 to 31 March 2021.

In our opinion, on the basis of the knowledge obtained in the audit,

- the accompanying annual financial statements comply, in all material respects, with the requirements of German commercial law applicable to business corporations and give a true and fair view of the assets, liabilities and financial position of the Company as at 31 March 2021 and of its financial performance for the financial year from 1 April 2020 to 31 March 2021 in compliance with German Legally Required Accounting Principles, and
- the accompanying management report as a whole provides an appropriate view of the Company's position. In all material respects, this management report is consistent with the annual financial statements, complies with German legal requirements and appropriately presents the opportunities and risks of future development.

Pursuant to section 322 paragraph 3 sentence 1 HGB, we declare that our audit has not led to any reservations relating to the legal compliance of the annual financial statements and of the management report.

Basis for the Audit Opinions

We conducted our audit of the annual financial statements and of the management report in accordance with section 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer [Institute of Public Auditors in Germany] (IDW). Our responsibilities under those requirements and principles are further described in the "Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report" section of our auditor's report. We are independent of the Company in accordance with the requirements of German commercial and professional law, and we have fulfilled our other German professional responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions on the annual financial statements and on the management report.

Responsibilities of the Executive Directors for the Annual Financial Statements and the Management Report

The executive directors are responsible for the preparation of the annual financial statements that comply, in all material respects, with the requirements of German commercial law applicable to business corporations and that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles. In addition, the executive directors are responsible for such internal control as they, in accordance with German Legally Required Accounting Principles, have determined necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, the executive directors are responsible for assessing the Company's ability to continue as a going concern. They also have the responsibility for disclosing, as applicable, matters related to going concern. In addition, they are responsible for financial reporting based on the going concern basis of accounting, provided no actual or legal circumstances conflict therewith.

Furthermore, the executive directors are responsible for the preparation of the management report that as a whole provides an appropriate view of the Company's position and is, in all material respects, consistent with the annual financial statements, complies with German legal requirements, and appropriately presents the opportunities and risks of future development. In addition, the executive directors are responsible for such arrangements and measures (systems) as they have considered necessary to enable the preparation of a management report that is in accordance with the applicable German legal requirements, and to be able to provide sufficient appropriate evidence for the assertions in the management report.

Auditor's Responsibilities for the Audit of the Annual Financial Statements and of the Management Report

Our objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and whether the management report as a whole provides an appropriate view of the Company's position and, in all material respects, is consistent with the annual financial statements and the knowledge obtained in the audit, complies with the German legal requirements and appropriately presents the opportunities and risks of future development, as well as to issue an auditor's report that includes our audit opinions on the annual financial statements and on the management report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with section 317 HGB and in compliance with German Generally Accepted Standards for Financial Statement Audits promulgated by the Institut der Wirtschaftsprüfer (IDW) will always detect a material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements and this management report.

We exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the annual financial statements and of the management report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our audit opinions. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal control relevant to the audit of the annual financial statements and of arrangements and measures (systems) relevant to the audit of the management report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an audit opinion on the effectiveness of these systems of the Company.
- Evaluate the appropriateness of accounting policies used by the executive directors and the reasonableness of estimates made by the executive directors and related disclosures.
- Conclude on the appropriateness of the executive directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor's report to the related disclosures in the annual financial statements and in the management report or, if such disclosures are inadequate, to modify our respective audit opinions. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to be able to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements present the underlying transactions and events in a manner that the annual financial statements give a true and fair view of the assets, liabilities, financial position and financial performance of the Company in compliance with German Legally Required Accounting Principles.
- Evaluate the consistency of the management report with the annual financial statements, its conformity with German law, and the view of the Company's position it provides.
- Perform audit procedures on the prospective information presented by the executive directors in the management report. On the basis of sufficient appropriate audit evidence we evaluate, in particular, the significant assumptions used by the executive directors as a basis for the prospective information, and evaluate the proper derivation of the prospective information from these assumptions. We do not express a separate audit opinion on the prospective information and on the assumptions used as a basis. There is a substantial unavoidable risk that future events will differ materially from the prospective information.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES AS OF 31/03/2021

General details relating to the financial statements

The company was formed based on the articles of association dated 05/02/2018.

The financial statements have been prepared in accordance with the provisions of the German Commercial Code [*Handelsgesetzbuch - HGB*] applicable to business corporations and the Limited Liability Companies Act [*GmbH-Gesetz - GmbHG*].

According to the size classes defined in Sec. 267 HGB the company falls into the category of a medium-sized corporation.

As in the prior year, the statement of profit and loss for the financial year 2020/2021 is prepared according to the nature of expense method pursuant to Section 275 (2) HGB.

The exemption options for medium-sized corporations pursuant to Sections 286 and 288 (2) HGB were exercised in part.

Details relating to the identification of the company according to the Court of Registration

Business name acc. to Court of Registration:	Automobili Pininfarina GmbH
Registered office acc. to Court of Registration:	Munich
Register entry:	Commercial Register
Registrar of Companies:	Munich Local Court
Register number:	HRB 239596

Details relating to accounting policies

Accounting policies

Purchased intangible fixed assets are recognised at acquisition cost and, if they have a limited life, are amortized subject to straight-line depreciation.

Internally generated assets are valued at manufacturing cost according to Sec. 255 (2a) HGB, i.e. included as assets in the balance sheet with the expenses incurred as of development. After completion and from the beginning of sales, they are amortised over the expected useful life using the straight-line method. The expected useful life is determined based on the sales period of the developed vehicles. The Company did not make use of the option regarding the capitalisation of costs according to Sec. 255 (2) sentence 3 HGB.

The Company does not engage in basic research. Hence, a separation of research and development is not required. Occasionally, feasibility studies are conducted before the development of a vehicle which are not capitalised. After completion of the feasibility study, development costs recorded if the following criteria are fulfilled:

- It is very probable that the planned intangible asset is created
- The development costs can be attributed reliably to the specific intangible asset
- No prohibition within the sense of Sec. 248 (2) sentence 2 HGB

The Company starts capitalising the development costs as soon as these criteria are met.

Property plant and equipment were recognised at acquisition costs subject to straight-line depreciation. Straight-line regular depreciation was applied pro rata basis in accordance with the expected useful life.

Low-value assets with acquisition costs of up to EUR 800 are expensed as incurred in the year of their acquisition, assuming that it is disposed of in the year of acquisition.

Financial assets were valued at acquisition cost.

If the value of fixed assets as determined based on the principles mentioned above is expected to exceed the fair value as of reporting date permanently, this is taken into account by an impairment.

Receivables and other assets are valued at nominal value and reflect all identifiable risks.

Prepayments and accrued income include expenditures before the reporting date representing costs for a certain time after this date.

The option for recognising an asset for deferred tax assets according to Sec. 274 (1) sentence 2 HGB was exercised.

Deferred tax assets and liabilities are recognised in the balance sheet. They were valued based on the individual tax rate applicable as of time of the reversal of differences.

Other provisions were created for all identifiable risks and contingent liabilities and are recognised at the settlement amount required, according to prudent commercial judgement.

Assets and liabilities denominated in foreign currencies are translated at the closing rate on the reporting date in accordance with Sec. 256a HGB.

Liabilities were reported at the settlement amount.

Notes to the balance sheet

Development of assets for individual fixed assets items

The depreciation applicable to the individual items for the financial year can be derived from the development of assets.

Immediate depreciation of low-value assets is recognised as additions and disposals. Therefore, the depreciation for the financial year does not include these amounts.

Accumulated depreciation includes immediate depreciation in the amount of: EUR 76,135.58.

NOTES AS OF 31/03/2021

Research and development expenditure

The development expenditure incurred in the financial year was capitalised. It concerns the internally generated intangible assets described in the following. In the financial year, no research costs incurred.

Internally generated intangible assets

Expenses for internally generated intangible assets were capitalised at manufacturing costs. The manufacturing costs amount to a total of EUR 101,966,600.24 (prior year: EUR 72,621,475.96).

Due to a permanent impairment within the sense of Sec. 253 (3) sentence 5 HGB as of reporting date, a extraordinary amortization of internally generated intangible assets in the amount of EUR 74,600,00.00 was recognised.

As of reporting date, capitalised internally generated intangible assets therefore amount to EUR 27,366,600.24 (prior year: EUR 72,621,475.96).

Other liabilities - Customer advances

Repayable contributions by customers are recognised as other liabilities. The contributions do not constitute advances within the sense of German Commercial Law as they do not relate to a binding order. Advances made amount to a total of EUR 1,479,269.13 (prior year: EUR 3,183,177.83). Other liabilities include liabilities to affiliated companies in the amount of EUR 509,966.00 (prior year: EUR 0.00).

Share capital

The Company's share capital registered in the Commercial Register as of 31/03/2021 amounts to EUR 119,475,000.00.

The share capital paid but not yet registered in the Commercial Register amounts to EUR 10,825,062.00.

Authorized capital

The nominal amount of the authorised capital (resolutions of general meeting on 07/07/2020 with addendum dated 08/07/2020) is EUR 37,299,938.00. The authorised capital may be used until 06/11/2025 by issuance of new shares once or multiple times up to the nominal amount.

After partial use, the authorised capital amounts to EUR 19,324,938.00. In the financial year, the management requested an additional EUR 3,324,938.00 of this amount which was not yet paid as of reporting date.

Amount not available for distribution

The total amount not available for distribution in accordance with Sec. 268 (8) HGB is EUR 27,366,600.24.

In detail, the total amount is divided as follows:

Total amount not available for distribution	**EUR**
Capitalisation of internally generated intangible fixed assets	27,366,600.24
Capitalisation of deferred taxes	9,024,136.43
less deferred tax liabilities	(9,024,136.43)
Total amount	**27,366,600.24**

Notes on provisions

Other provisions amount to a total of EUR 2,308,237.78 (prior year: EUR 4,226,028.21). They mainly include provisions for outstanding invoices and provisions for personnel.

Remaining maturities

Payables due within one year amount to EUR 12,048,469.92 (prior year: EUR 19,724,162.49). Trade receivables and other assets have a remaining maturity of up to one year EUR 1,555,940.16, (prior year: EUR 1,474,242.13).

Deferred taxes

Deferred taxes are a result of the following differences:

Deferred taxes for Germany are recorded at a tax rate of 32.975 %. As of end of the financial year, deferred tax assets amounted to EUR 8,884,101.57 (prior year: EUR 28,863,741.94) and are a result of loss carryforwards. As of end of the financial year, deferred tax liabilities amounted to EUR 9,024,136.43 (prior year: EUR 23,422,156.42) and are a result of capitalised development costs.

Deferred taxes for Italy are recorded at a tax rate of 24.00 % for the Italy branch. Deferred tax liabilities for Italy amounted to EUR 0.00 (prior year: EUR 12,942.19). The deferred taxes of the prior year were the result of capitalised development costs. Due to the depreciation of capitalised development costs, no deferred tax liabilities are recorded in the financial year for the branch. Deferred tax assets for Italy in the amount of EUR 140,034.86 (prior year: EUR 0.00) relate to provisions for bonuses.

The decrease in deferred tax liabilities is due to the extraordinary impairment of internally generated intangible assets. Tax income for the financial year from the release of deferred tax liabilities amounts to EUR 14,410,962.18.

The decrease in deferred tax assets is due to the fact that the loss carryforwards can only be used in part in the next five years. Tax expenses for the financial year from the reversal of deferred tax assets amount to EUR 19,839,605.51.

Notes to the income statement

Notes on income and expenses in exceptional amounts or of exceptional significance

Expenses in exceptional amounts or of exceptional significant within the meaning of

Sec. 285 No. 31 HGB include in detail:

- Advertising costs of different service providers in the amount of EUR 824,469.17 (prior year: EUR 1,565,560.73)
- Event expenses in the amount of EUR 797,323.41 (prior year: EUR 4,632,367.98).
- External services in the amount of EUR 713,468.80 (prior year: EUR 2,656,546.24)
- Impairment of internally generated intangible assets in the amount of EUR 74,600,000.00 (prior year: EUR 0.00)
- Other own work capitalised is recorded in the amount of EUR 3,989,679.00 (prior year: EUR 4,405,848.00)

Income from currency translation is recorded in the statement of profit and loss under “Other operating income” in the amount of EUR 75,831.82 (prior year: EUR 52,509.46). Expenses from currency translation are recorded separately under “Other operating expenses” in the amount of EUR 37,779.27 (prior year: EUR 84,586.22).

Other information

Average number of staff employed in the financial year

The average number of staff employed by the company during the financial year was 108.50 (prior year: 68.75).

Munich, 26th April 2021 Per Svantesson

INDEPENDENT AUDITOR'S REPORT

Board of Directors

Automobili Pininfarina Americas Inc.

We have audited the accompanying balance sheets of Automobili Pininfarina Americas Inc. ('the Company') as at March 31, 2021 and March 31, 2020 and the related statements of profit (loss), changes in stockholder's equity, the cash flows for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly in all material respects, the financial position of the Company as of March 31, 2021 and March 31, 2020 and the results of its operations and the cash flow for the years then ended, in accordance with the accounting principles generally accepted in the United States of America.

Notes to Financial Statements

NOTE A – NATURE OF OPERATIONS

Automobili Pininfarina Americas Inc. (hereinafter referred to as "APA" or "the Company") was converted to a Delaware corporation on January 23, 2019 through the conversion of a Delaware Limited Liability Company, under the name of Harkey Acquisition, LLC. The Company is a wholly owned subsidiary of Automobili Pininfarina GmbH (hereinafter referred to as "the Parent Company").

The Parent Company acquired 100% membership interest of Harkey Acquisition, LLC (hereinafter referred to as "the LLC") on January 15, 2019 from Oakland Standard Co., LLC ("the Seller"). No capital contribution was made by the Seller in the LLC. Post acquisition, a plan of conversion to a Corporation was adopted and the LLC was converted and renamed as "Automobili Pininfarina Americas Inc.".

The Company is engaged directly or indirectly in designing, developing, manufacturing, selling, distributing, servicing and promoting automobiles globally (including electric vehicles) and spare parts as well as all activites in connection thereto.

The Company is in the start-up phase and is yet to start revenue generating activities. The Parent Company plans to manufacture and distribute, directly or indirectly, to retail customers, a luxury vehicle known as the Battista. Distribution in the United states will be through the Company. In lieu of the above the Company entered into a contract with a buyer/customer pursuant to which the Company will sell to the buyer, a Batistta built to standard specifications, with special customizations ordered by the buyer.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. *Basis of preparation*

   a) The accompanying financial statements are prepared under the historical cost convention on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ('US GAAP') to reflect the financial position, results of operations and cash flows of the Company.

   b) The financial statements are for the year April 1, 2020 to March 31, 2021 and April 1, 2019 to March 31, 2020. All amounts are stated in US Dollars, unless specified otherwise. The LLC and the Company did not conduct any business operations between September 25, 2017, the date the LLC was first formed and March 31, 2019. The Company opened a banking account on June 17, 2019.

2. *Use of estimates*

   The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The management's estimates for realization of deferred tax assets and accruals at the balance sheet date represent certain of these particularly sensitive estimates. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Any revision in accounting estimates are recognized prospectively in the current and future periods.

3. *Cash and cash equivalents*

   Cash equivalents consist of highly liquid investments with a maturity of three months or less on the date of purchase. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments. Cash balances in bank accounts are insured by the Federal Deposit Insurance Corporation up to $ 250,000 for each insured bank for each account per depositor.

4. *Leases*

   Lease rent expenses on operating leases are charged to expense over the lease term. Certain operating lease agreements may provide for scheduled rent increases over the lease term. Rent expense for such leases is recognized on a straight-line basis over the lease term.

5. *Income taxes*

   In accordance with the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 740 "Income Taxes," income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The deferred tax asset is reduced by a valuation allowance if it is more likely than not that some portion or all of the asset will not be realized.

   The Company has adopted Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2015-17 Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes. The guidance requires that all deferred tax assets and liabilities, along with any related valuation allowance, be classified as non-current on the

Notes to Financial Statements

statement of financial position. The guidance however does not change the existing guidance that prohibits offsetting deferred tax liabilities from one jurisdiction against deferred tax assets of another jurisdiction.

6. *Fair value measurements and financial instruments*

   Assets and liabilities recorded at fair value in the financial statements are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels, which are directly related to the amount of subjectivity, associated with the inputs to the valuation of these assets or liabilities are as follows:

   Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities that the Company has the ability to access as of the measurement date.

   Level 2 – inputs other than quoted prices included within Level 1 that are directly observable for the asset or liability or indirectly observable through corroboration with observable market data.

   Level 3 – unobservable inputs for the asset or liability only used when there is little, if any, market activity for the asset or liability at the measurement date.

   This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

   The Company's financial instruments consist of cash and cash equivalents and other current liabilities. The estimated fair value of cash and cash equivalents and other current liabilities approximate their carrying amounts due to the short-term nature of these instruments. None of these instruments is held for trading purposes.

7. *Commitments and contingencies*

   Liabilities for loss contingencies arising from claims, assessments, litigations, fines, penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

8. *Recently issued and adopted accounting standards*

   In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230) - Classification of Certain Cash Receipts and Cash Payments. The new guidance applies to all entities that are required to present a statement of cash flows under Topic 230 and addresses specific cash flow items to provide clarification and reduce the diversity in presentation of these items. The guidance is effective for annual periods beginning after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019. Early adoption is permitted. The ASU 2016-15 is effective for the Company beginning April 1, 2019.

9. *Recently issued accounting standard not yet adopted*

   In February 2016, the FASB issued ASU No. 2016-02, Leases. Under the new guidance, lessees are required to recognize a right-of-use asset and a lease liability on the balance sheet for all leases, other than those that meet the definition of a short-term lease. This update will establish a lease asset and lease liability by lessees for those leases classified as operating under current GAAP. Leases will be classified as either operating or finance under the new guidance. Operating leases will result in straight-line expense in the income statement, similar to current operating leases, and finance leases will result in more expense being recognized in the earlier years of the lease term, similar to current capital leases. This ASU is effective for the Company beginning January 1, 2021. The Company is currently evaluating the impact of this standard on its financial statements.

NOTE C – COMMITMENTS AND CONTINGENCIES

Premises

On July 31, 2019, the Company entered into a sub-lease arrangement with Issimi Inc. (hereinafter referred to as "Sub-lessor"). The lease arrangement consisted of approximately 600 square feet of warehouse space and 210 square feet of office space for a period of 2 years commencing from October 1, 2019. In accordance with the agreement, the Company shall share all the common area operating expenses with the Sub-lessor in addition to the lease rentals of $ 2,025 per month. The lease rentals for the year ended March 31, 2020 amounted to $ 12,150. The common area operating expenses for the year ended March 31, 2020 amounted to $ 1,725.

On October 1, 2020, the agreement was terminated with the Sub-lessor and accordingly, the provisions pertaining to the lease obligations and related payments amounting to $ 13,875 were reversed during the year.

NOTE D – OTHER CURRENT LIABILITIES

Other current liabilities include the following:

	As at March 31, 2021	As at March 31, 2020
Accrued rent *(Refer note C)*	**–**	13,875
Professional fees	**4,150**	3,000
Accured taxes	**1,180**	–
Bank service fees	**490**	485
Total	**5,820**	17,360

Notes to Financial Statements

NOTE E – INCOME TAXES

For the year ended March 31, 2021, the Company will file federal and state tax returns as per regulations applicable to Chapter C corporations in the United States.

The components of the provision for income taxes are as follows:

	Year ended March 31, 2021	Year ended March 31, 2020
Current taxes		
Federal tax	**380**	–
State	**1,600**	–
Provision for income taxes	**1,980**	–

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. No deferred tax assets were recorded as at March 31, 2021 and March 31, 2020.

Accounting for uncertain tax position

The Company recognizes the benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority. The Company has no unrecognized tax positions as at March 31, 2021 and March 31, 2020.

The tax years of 2018 and 2019 remain subject to examination by the taxing authorities.

NOTE F – RELATED PARTY TRANSACTION

Automobili Pininfarina GmbH- Parent Company

Pursuant to the agreement dated March 23, 2021 between the Company and the buyer, the Company will sell a luxury vehicle Batistta to the buyer. The vehicle will be manufactured by the Parent Company and sold to the Company. The Company in turn will sell the vehicle to the buyer through a dealer. Prior to the aforesaid arrangement the customer paid an advance directly to the Parent Company in the year 2019 amounting to $ 599,960 which is recorded as advance from customer as liability, thereby creating corresponding asset as receivable from related party outstanding as of March 31, 2021.

NOTE G – COMMON STOCK

Common stock authorized, issued and outstanding

The authorized share capital of the Company consists of 2,000 common shares of par value $ 25 each as at March 31, 2021.

At March 31, 2020 the Company had issued 1,040 common shares of par value $ 25 each. On January 23, 2019, the Parent Company subscribed to 40 common shares of the Company. The subscription amount of $ 1,000 towards these common shares was paid by the Parent Company on August 28, 2019 on issuance of the share certificate. On September 30, 2019, the Parent Company subscribed and paid $ 25,000 for the issuance of remaining 1,000 common shares of the Company.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holders of common stock shall be entitled to receive all of the remaining assets of the Company, after distribution of all preferential amounts, if any. Such amounts will be in proportion to the number of equity shares held by the shareholders.

NOTE H – FAIR VALUE MEASUREMENT

Financial assets and liabilities held by the Company are not measured at fair value on a recurring basis but are recorded at amounts that approximate fair value due to their liquid or short-term nature.

NOTE I – RISK AND UNCERTAINTIES

The Company has evaluated the possible effect of COVID – 19 on the financial statement of the Company and believes that the current COVID-19 scenario is not/will not materially impact the Company for the year ended on March 31, 2021. The Company will continue to monitor developments to identify significant uncertainties surrounding COVID-19 and its impact on performance of the Company for future periods.

NOTE J – SUBSEQUENT EVENTS

The Company evaluated all events and transactions that occurred after March 31, 2021 through April 15, 2021, the date the financial statements are issued. Based on the evaluation, the Company is not aware of any events or transactions that would require recognition or disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS OF

MAHINDRA BANGLADESH PVT. LTD.

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **Mahindra Bangladesh Pvt. Ltd.** ("the Company"), which comprise the statement of financial position as at 31 March 2021, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 31 March 2021, and of its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Bangladesh, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation of the financial statements that give a true and fair view in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

In accordance with the Companies Act 1994, we also report the following:

(a) we have obtained all the information and explanation which to the best of our knowledge and belief were necessary for the purpose of our audit and made due verification thereof;

(b) in our opinion, proper books of account as required by law have been kept by the Company so far as it appeared from our examination of those books; and

(c) the statement of financial position and statement of profit or loss and other comprehensive income dealt with by the report are in agreement with the books of account.

Cash and cash equivalents at the ending of year/ period	13	**25,615,074**	**35,485,153**

The notes on pages herein are an integral part of these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

1. Reporting entity

Mahindra Bangladesh Pvt. Ltd. ("the Company") was incorporated as a private limited Company on 12 September 2019 under the Companies Act, 1994. It is a subsidiary of Mahindra & Mahindra Ltd, a Company registered in India. The registered office of the company is at 4th Floor, Taj Casilina, SW (1) 4, 25 Gulshan Avenue Dhaka - 1212 Bangladesh.

The principal activities of the Company are to carry on the businesses of trading, distributing, supplying, storing, exporting, importing, servicing, repairing, manufacturing, developing, assembling, leasing, selling on hire-purchase or instalment systems, research & development, of all kinds of passenger, transportation and utility vehicles including but not limited to tankers, tractors, agricultural machinery, multi-utility vehicles, trailers, lorries, trucks, buses, motor cars, motor cycles, three-wheelers or other motor vehicles of all kinds and descriptions.

2. Basis of accounting

These financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs). They were authorised for issue by the Company's board of directors on 29 April 2021.

The title and format of financial statements follow the requirements of IFRSs which are to some extent different from the requirement of Companies Act 1994. However, such differences are not material and, IFRSs format as mentioned in IAS 1 gives a better presentation to the shareholders.

Details of the company's accounting policies are included in Notes 24, 25 and 28.

3. Functional and presentation currency

These financial statements are presented in Bangladesh Taka (Taka/Tk), which is the company's functional currency. All amounts have been rounded to the nearest taka, unless otherwise indicated.

4. Use of estimates and judgments

In preparing financial statements, management has made judgments and estimates that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively. However, no material revisions to accounting estimates took place during the reporting period.

A. Judgements

Management has made no such judgement in applying accounting policies that have significant effects on the amounts recognised in the financial statements of this period.

B. Assumptions and estimation uncertainties

No significant assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31 March 2021 made by management of the Company.

5. Revenue

See accounting policies in note 25(A)

In Taka	2021	2020
Gross Sales	**5,622,750**	3,230,095
Value Added Tax (VAT)	**(267,750)**	(421,317)
	5,355,000	2,808,778

6. Cost of sales

In Taka	Note	2021	2020
Opening stock in trade		**4,910,435**	–
Purchase of stock in trade		**–**	7,373,861
Closing stock in trade		**–**	(4,910,435)
Warehouse expenses	6(A)	**31,747**	
		4,942,182	2,463,426

A. Warehouse expenses

In Taka	2021	2020
Fuel expenses	**1,369**	–
Security guard bill	**30,378**	–
	31,747	–

7. Administrative expenses

In Taka	Note	2021	2020
Bank charges		**48,825**	17,130
Salary and allowance of expatriate employees		**–**	879,653
Salary and allowance of local employees		**–**	322,580
Rent expenses		**–**	505,621
Professional fees	7(A)	**1,560,802**	1,015,738
Membership fees		**35,842**	11,472
Renewal of registration expenses		**47,923**	–
		1,693,392	2,752,193

The Company has entered into an intercompany administrative expenses chargeback agreement effective from 1 April 2020 to 31 August 2021 with Bangladesh Liaison Office of Mahindra and Mahindra Limited (M&M), in order to charge back certain administrative expenses incurred by the Company on behalf of M&M, to facilitate business of M&M in Bangladesh. During FY 2020-2021, the Company raised debit notes on M&M to take reimbursement of actual administrative expenses incurred by the Company on behalf of M&M. The recovery of expenses incurred 'on behalf of' does not have any element of mark-up. The same does not fall within the ambit of revenue under IFRS 15. Hence, the charge back of the expenses has been netted off against respective heads of expenses.

A. Professional fees

In Taka	2021	2020
Audit fee	**171,063**	171,063
Tax services	**931,400**	810,175

B. Financial risk management

The Company has exposure to the following risks arising from financial instrument:

- Credit risks (See (B)(ii))
- Liquidity risks (See (B)(iii))
- Market risks (See (B)(iv))

i. Risk management framework

A risk management framework is the structured process used to identify potential threats to the company and to define the strategy for eliminating or minimising the impact of these risks, as well as the mechanisms to effectively monitor and evaluate this strategy. The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

ii. Credit risk

Credit risk is the risk of a financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from its customers and investments in bank deposits.

The maximum exposure to credit risk (note (a)) is represented by the carrying amount of each financial asset in the statement of financial position.

(a) Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure.

Financial assets

In Taka	**Note**	**2021**	2020
Intercompany receivable	11	**16,443,476**	–
Interest on Fixed Deposit Receipt (FDR) receivables	11	**28,082**	–
Cash at bank	13	**25,615,074**	35,485,153
		42,086,632	35,485,153

(b) Ageing of financial assets

In Taka	**Note**	**2021**	2020
Intercompany receivable	11	**16,443,476**	–
Interest on Fixed Deposit Receipt (FDR) receivables	11	**28,082**	–
		16,471,558	–

The ageing of intercompany receivable and interest on Fixed Deposit Receipt (FDR) receivables at 31 March is zero to thirty days.

(c) Impairment losses

There is no impairment loss to be recognised on the any financial assets during the year.

iii. Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or other financial asset. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation.

NOTES TO THE FINANCIAL STATEMENTS

Typically, the company ensures that it has sufficient cash and cash equivalents to meet expected operational expenses, including financial obligations through preparation of the cash flow forecast, based on time line of payment of the financial obligation and accordingly arranging for sufficient liquidity/ fund to make the expected payment within due date.

The followings are the contractual maturities of non-derivative financial liabilities:

				Contractual cash flows				
In Taka	**Note**	**Carrying amount**	**Total**	**6 months or less**	**6-12 months**	**1-2 years**	**2-5 years**	**More than 5 years**

		85,915	85,915	85,915	–	–	–	–

iv. Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates and interest rates, will affect the company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

iv(a) Currency risk

The Company is exposed to transactional foreign currency risk to the extent that there is a mismatch between the currencies in which sales, purchases, receivables and borrowings are denominated. The company's foreign currency transactions are denominated in USD.

20. Commitments

There is no outstanding commitments as at 31 March 2021 for the Company.

21. Contingencies

There is no contingent liabilities as at 31 March 2021 for the Company.

22. Related party disclosures

During the year, the Company carried out transactions with related parties in the normal course of business. The name of the related party and nature of the transactions have been set out below in accordance with the provisions of IAS 24 Related party disclosures.

NOTES TO THE FINANCIAL STATEMENTS

23. Number of employees

The number of employees engaged for the whole year/ period or part thereof who received a total remuneration of Taka 36,000 and above was 6 (2020: 6).

24. Basis of measurement

These financial statements have been prepared on accrual basis following going concern concept under historical cost convention.

25. Significant accounting policies

The Company has applied the following accounting policies to be presented in these financial statements.

Set out below is an index of the significant accounting policies, the details of which are available on the pages that follow.

A. Revenue from contract with customer

General information

The Company recognises as revenue the amount that reflects the consideration to which the Company expects to be entitled in exchange for goods or services when (or as) it transfers control to the customer. To achieve that core principle, the Company follows the five-step model as below :

- Identify the contract with a customer;
- Identify the performance obligations in the contract;
- Determine the transaction price;
- Allocate the transaction price to the performance obligations in the contract; and
- Recognise revenue when (or as) the entity satisfies a performance obligation.

Considering the five steps model, the Company recognises revenue when (or as) the Company satisfies a performance obligation by transferring a promised good to a customer. Goods is considered as transfer when (or as) the customer obtains control of that goods. Then the Company recognises the net revenue from sale of goods in its financial statement.

Net Revenue is defined as the amount invoiced to external customers during the year and comprises, as required by IFRS 15, gross sales net of trade spend, customer allowances for credit notes, returns and consumer coupons. The methodology and assumptions used to estimate credit notes, returns and consumer coupons are monitored and adjusted regularly in the light of contractual and legal obligations, historical trends, past experience and projected market conditions. Value-added tax and other sales taxes are also excluded from revenue.

Certain recovery of costs incurred on behalf of M&M Liaison office has been netted off against administrative expenses. The same does not fall within the ambit of revenue under IFRS 15.

Methods of revenue recognition

Sale of goods

The Company recognizes revenue from sale of goods upon satisfaction of performance obligation which is at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods. Depending on the terms of the contract, which differs from contract to contract, the goods are sold on a reasonable credit term. As per the terms of the contract, consideration that is variable, according to IFRS 15, is estimated at contract inception and updated thereafter at each reporting date or until crystallisation of the amount.

Sale of services

Sale of services are recognised on satisfaction of performance obligation towards rendering of such services.

B. Foreign currency

Transactions in foreign currencies are translated into the respective functional currencies of the Company at the exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Foreign currency differences are generally recognised in profit or loss and presented other expense.

C. Employee benefits

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

D. Income tax

Income tax expenses comprises current and deferred tax. It is recognised in profit or loss except to the extent that its relates to an item recognised directly in equity or in other comprehensive income (OCI).

i. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date. Current tax also includes any tax arising from dividends.

Current tax assets and liabilities are offset only if certain criteria are met.

ii. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

a) Temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that effects neither accounting nor taxable profit or loss.

b) Temporary differences related to investment in subsidiaries and joint arrangements to the extent that it is probable that they will not reverse in the foreseeable future, and

c) Taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for the Company. Deferred tax assets are

NOTES TO THE FINANCIAL STATEMENTS

reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it becomes probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

The measurement of deferred tax reflects the consequences that would follow from the manner in which the Company expects, at reporting date, to recover or settle the carrying amounts of its assets and liabilities.

Deferred tax assets and liabilities are offset only if certain criteria are met.

E. Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of inventories is based on the above and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost to completion and selling expenses.

F. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

The Company initially recognises receivables and deposits on the date that they are originated. All other financial assets are recognised initially on the trade date, which is the date that the Company becomes a party to the contractual provisions of the instrument.

Financial assets comprise trade and other receivables, cash and cash equivalents.

i. Cash and cash equivalents

Cash and cash equivalents comprise cash balances and all cash deposits with maturities of three months or less from the acquisition date that are subject to an insignificant risk of changes in their fair value, and are used by the Company in the management of its short-term commitments.

ii. Trade and other receivables

Trade and other receivables are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

Bad debts are written off on consideration of the status of individual debtors.

b. Financial liabilities

Financial liability includes trade and other payables.

i. Trade and other payables

The Company recognises financial liabilities when its contractual obligations arising from past events are certain and the settlement of which is expected to result in an outflow from the entity of resources embodying economic benefits.

G. Provisions

A provision is recognised in the statement of financial position when the Company has a legal or constructive obligation as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provision is ordinarily measured at the best estimate of the expenditure required to settle the present obligation at the date of statement of financial position. Where the effect of time value of money is material, the amount of provision is measured at the present value of the expenditures expected to be required to settle the obligation.

H. Share capital

Only ordinary shares are classified as equity. Incremental cost directly attributable to the issue of ordinary shares are recognised as a deduction from equity, net of any tax effects. Holders of ordinary shares are entitled to receive dividends as declared by the Company.

I. Reporting period

The financial period covers one year from 1 April to 31 March (2021) and for the comparative 12 September to 31 March (2020) as it was the first period.

J. Going concern

The financial statements of the Company are prepared on a going concern basis. As per management assessment there are no material uncertainties related to events or conditions which may cast significant doubt upon Company's ability to continue as a going concern.

K. Contingencies

i. Contingent liability

Contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

Contingent liability should not be recognised in the financial statements, but may require disclosure. A provision should be recognised in the period in which the recognition criteria of provision have been met.

ii. Contingent asset

Contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity.

A contingent asset must not be recognised. Only when the realisation of the related economic benefits is virtually certain should recognition take place provided that it can be measured reliably because, at that point, the asset is no longer contingent.

L. Statement of cash flows

Cash flows from operating activities are presented under indirect method as per IAS 7: *Statement of Cash Flows*.

On 11 March 2020, COVID-19 has been declared a pandemic by the World Health Organization. Subsequent The global economy is still going through the outbreak of coronavirus disease (COVID-19). Likewise many countries of the world, in recent weeks, Bangladesh Government has enacted protection measures against the outbreak of COVID-19, with a significant impact on the daily life, production and supply chain of goods. The evolution of COVID-19 as well as its impact on the global economy, and more specifically, on the Company's activities, is hard to estimate at this stage. The Company is monitoring the situation to ensure the safety of its staff as well as to adapt its services and operations.

There is no any other significant events after balance sheet date that may affect financial statements of the Company for the year ended 31 March 2021.

NOTES TO THE FINANCIAL STATEMENTS

27. Comparative information

The Company has been incorporated at 12 September 2019. Therefore, the comparative is the first year of the financial statements which is from 12 September 2019 to 31 March 2020. The comparative has been presented consistently.

28. Standards issued but not yet effective

A number of new standards are effective for annual periods beginning after 1 January 2020 and earlier application is permitted; however, the Company has not early adopted the new or amended standards in preparing these financial statements.

A. Onerous contracts – Cost of Fulfilling a Contract (Amendments to IAS 37)

The amendments specify which costs an entity includes in determining the cost of fulfilling a contract for the purpose of assessing whether the contract is onerous. The amendments apply for annual reporting periods beginning on or after 1 January 2022 to contracts existing at the date when the amendments are first applied. At the date of initial application, the cumulative effect of applying the amendments is recognised as an opening balance adjustment to retained earnings or other components of equity, as appropriate. The comparatives are not restated. The Company has no such onerous contract.

B. Interest Rate Benchmark Reform – Phase 2 (Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16)

The amendments address issues that might affect financial reporting as a result of the reform of an interest rate benchmark, including the effects of changes to contractual cash flows or hedging relationships arising from the replacement of an interest rate benchmark with an alternative benchmark rate. The amendments provide practical relief from certain requirements in IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 relating to:

– changes in the basis for determining contractual cash flows of financial assets, financial liabilities and lease liabilities; and

– hedge accounting.

i. Change in basis for determining cash flows

The amendments will require an entity to account for a change in the basis for determining the contractual cash flows of a financial asset or financial liability that is required by interest rate benchmark reform by updating the effective interest rate of the financial asset or financial liability.

ii. Hedge accounting

The amendments provide exceptions to the hedge accounting requirements. The Company has no such hedging item, so the changes requirements are not applicable for the entity.

iii. Disclosure

The amendments will require the Company to disclose additional information about the entity's exposure to risks arising from interest rate benchmark reform and related risk management activities.

iv. Transition

The entity plans to apply the amendments from 1 April 2021. Application will not impact amounts reported for 2020.

C. Other standards

The following new and amended standards are not expected to have a significant impact on the Company's financial statements.

– COVID-19-Related Rent Concessions (Amendment to IFRS 16).b

– Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16).

– Reference to Conceptual Framework (Amendments to IFRS 3).

– Classification of Liabilities as Current or Non-current (Amendments to IAS 1).

– IFRS 17 Insurance Contracts and amendments to IFRS 17 Insurance Contracts.

INDEPENDENT AUDITORS' REPORT

To

The Members of

GROMAX AGRI EQUIPMENT LIMITED

Report on the audit of the Financial Statements

Opinion

We have audited the accompanying Financial Statements of **Gromax Agri Equipment Limited** ("the Company"), which comprise the Balance Sheet as at March 31 2021, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information (herein after referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its loss and total comprehensive income, its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

Information Other than the Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors' Report and the related annexures, but does not include the Financial Statements and our Auditors' Report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-Section (11) of Section 143 of the Act and on the basis of such checks of the books and records of the Company as we considered appropriate and according to the information and explanations given to us, we give in Annexure B, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this report are in agreement with the relevant books of account.
   (d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act.
   (e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls with reference to the Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate report in Annexure A. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to the Financial Statements.

(g) The Company has not paid any remuneration to managerial personnel as defined in the Act. Accordingly, the provisions of Section 197 of the Act related to the managerial remuneration are not applicable. Also refer paragraph (xi) of Annexure B to the Independent Auditors' Report.

(h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:

(i) The Company does not have any pending litigations which would impact its financial position;

(ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and

(iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

[Referred to in paragraph 2(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

Report on the Internal Financial Controls with reference to financial statements under Clause (i) of sub section (3) of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of **Gromax Agri Equipment Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to financial statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2021, based on the criteria for internal financial control with reference to financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT

[Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date]

i. (a) According to the information and explanations given to us, the Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

(b) The Company has a regular program for physical verification of its property, plant and equipment by which the property, plant and equipment are verified by the management according to a phased program designed to cover all the items over a period of three years. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its property, plant and equipment. In accordance with the program, the Company has physically verified certain property, plant and equipment during the year and no material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us, the title deeds of immovable properties are held in the name of the Company.

ii. According to the information and explanations given to us, the inventory comprising of raw materials, work-in-progress and finished goods has been physically verified at reasonable intervals by the management during the year. In our opinion, coverage and procedure of such verification is appropriate and no material discrepancies for each class of inventory were noticed on such verification between the physical inventory and the book records. We have relied on confirmations and representations from third parties in case of inventory lying in their locations, wherever applicable.

iii. According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 189 of the Act. Accordingly, the reporting under Clauses 3(iii)(a), 3(iii)(b) and 3(iii)(c) of the Order is not applicable to the Company.

iv. According to the information and explanations given to us, the Company has not granted any loans or made any investments or provided any guarantees or security to the parties covered under Section 185 and 186 of the Act. Accordingly, the reporting under Clause 3(iv) of the Order is not applicable to the Company.

v. According to the information and explanations given to us, the Company has not accepted any deposits from the public within the meaning of Sections 73 to 76 or any other relevant provisions of the Act and the rules framed there under, where applicable. Accordingly, the reporting under Clause 3(v) of the Order is not applicable to the Company.

vi. The Central Government has not prescribed the maintenance of cost records under sub-section (1) of Section 148 of the Act for any of the products of the Company. Accordingly, the reporting under Clause 3(vi) of the Order is not applicable to the Company.

vii. (a) According to the information and explanations given to us and on the basis of our examination of records of the Company, the amounts deducted / accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Cess and other material statutory dues have been regularly deposited during the year by the Company with the appropriate authorities. According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no undisputed statutory dues payable in respect of Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax.

According to the information and explanations given to us and on the basis of our examination of records of the Company, there were no arrears of undisputed statutory dues in respect of Goods and Services Tax, Provident Fund, Employees' State Insurance, Income-tax, Sales tax, Service tax, Duty of Customs, Duty of Excise, Value Added Tax, Cess and other material statutory dues as on the last day of the year for a period of more than six months from the date they became payable.

(b) According to the information and explanations given to us and on the basis of our examination of records of the Company, there are no statutory dues in respect of Goods and Services Tax, Sales tax, Service tax, Duty of Customs, Duty of Excise and Value Added Tax as at March 31, 2021, which have not been deposited with the appropriate authorities on account of any dispute. The statutory dues in respect of Income-tax as at March 31, 2021, which have not been deposited with the appropriate authorities on account of a dispute, are as under:

Name of the statute	Nature of the dues	Amount (Rs. in lakhs)	Period to which the amount relates	Forum where the dispute is pending
The Income Tax Act, 1961	Income Tax	66.73	Assessment Year 2014-2015	Commissioner of Income Tax (Appeals)

viii. According to the information and explanations given to us and on the basis of our examination of records of the Company, the Company has not defaulted in the repayment of loans or borrowings to banks. The Company has neither taken any loans or borrowings from financial institutions and Government nor issued any debentures.

ix. According to the information and explanations given to us, the Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) and term loans during the year. Accordingly, the reporting under Clause 3(ix) of the Order is not applicable to the Company.

x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the management.

xi. According to the information and explanations given to us, the Company has not paid any remuneration to managerial personnel as defined in the Act. Accordingly, the reporting under Clause 3(xi) of the Order is not applicable to the Company. Also refer paragraph 2(g) of Independent Auditors' Report.

xii. According to the information and explanations given to us, the Company is not a Nidhi company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, the reporting under Clause 3(xii) of the Order is not applicable to the Company.

xiii. In our opinion and according to the information and explanations given to us, the Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required by Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified under Section 133 of the Act.

xiv. According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year. Accordingly, the reporting under Clause 3(xiv) of the Order is not applicable to the Company.

xv. In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with them during the year and hence the provisions of Section 192 of the Act are not applicable to the Company. Accordingly, the reporting under Clause 3(xv) of the Order is not applicable to the Company.

xvi. According to the information and explanations given to us, the Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under Clause 3(xvi) of the Order is not applicable to the Company.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

All amounts are in Rupees Lakhs unless otherwise stated

Note Nos. 1 and 2 : Summary of Significant Accounting Policies

1. Corporate Information

"Gujarat Tractor Corporation Limited (GTCL) a Public Limited Company domiciled in India and incorporated on 31st March, 1978 under the provisions of the Companies Act, 1956 (CIN : U34100GJ1978PLC003127) and a Government of Gujarat Undertaking. As a part of Disinvestment by Government of Gujarat, the Mahindra & Mahindra Limited. acquired 60% stake in Equity Shares of the Company in 1999-2000. The name of the Company changed to Mahindra Gujarat Tractor Limited (MGTL / the Company) in the year 2000. The name of company further changed to Gromax Agri Equipment Limited with effect from 24th August, 2017.

Currently Mahindra Group holds 60% and Government of Gujarat holds 40% Equity in the Company. The Company is mainly engaged in the Manufacture and Sale of Tractors under the brand name "Shaktimaan"", ""Hindustan"", ""Farm Plus"", "Trakstar" and spares of the same. The Company carries out its business activities in India and Nepal. The Factory and Registered Office of the Company is located at Vishwamitri, Vadodara, Gujarat and Sales and Distribution Offices and Yards in major States of India."

2. Significant Accounting Policies

2.1 Statement of compliance

The financial statements have been prepared taking into consideration all material aspects with Indian Accounting Standards (Ind-AS) notified under section 133 of the Companies Act, 2013 (the "Act") [Companies (Indian Accounting Standards) Rules, 2015,as amended] and the other relevant provisions of the Act.

2.2 Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the value paid for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 116, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

The financial statements have been prepared on historical convention except Defined benefit plans.

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and

Level 3 inputs are unobservable inputs for the asset or liability.

The principal accounting policies are set out below:

2.3 Revenue recognition

The Company has applied Ind AS 115 – 'Revenue from Contracts with customers' ("hereinafter referred to as Ind AS 115"), using modified retrospective approach for the purpose of transition. The application of Ind AS 115 did not have any material impact on the financial results of the Company.

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances. Upon satisfaction of performance obligation which is at a point in time when control of the goods is transferred to the customer, generally on delivery of the goods. Depending on the terms of the contract, which differs from contract to contract, the goods are sold on a reasonable credit term. The Revenue is excluding taxes and after deducting various Dealer Incentives and Discounts.

2.3.1. Sale of goods

1) Timing of recognition- Sales are recognized when control parameters as laid down in IND AS 115 are satisfied. Control means customer has accepted the product, legal title has been transferred, transfer of significant risk and rewards, right to receive the payment and transfer of physical possession. Sales are recognised at a point in time based on the revenue recognition standard.

2) Measurement of revenue:-

A) Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Company recognises revenue when it transfers control of a product.

B) Any change resulting in increase or decrease in estimated revenue or cost are reflected in the profit or loss in the period in which the circumstances that give rise to the revision become known by Management.

C) Transaction price is the amount of consideration expected to be entitled to in exchange for transferring of goods and services excluding the amount collected from third party.

D) Revenue from sales is based on the price specified in the sales contracts, net of the estimated volume discounts and returns at the time of sale. Accumulated experience is used to estimate and provide for the discounts and returns. The volume discounts are assessed based on anticipated annual purchases

2.3.2 Royalties

Royalty revenue is recognised on an accrual basis in accordance with the substance of the relevant agreement (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably). Royalties determined on a time basis are recognised on a straight-line basis over the period of the agreement. Royalty arrangements that are based on production, sales and other measures are recognised by reference to the underlying arrangement.

2.3.3 Dividend and interest income

Dividend income from investments is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.4 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.5 Employee benefits

2.5.1 Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- remeasurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

2.5.2 Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

2.5.3 Contributions from employees or third parties to defined benefit plans

Discretionary contributions made by employees or third parties reduce service cost upon payment of these contributions to the plan.

When the formal terms of the plans specify that there will be contributions from employees or third parties, the accounting depends on whether the contributions are linked to service, as follows:

If the contributions are not linked to services (e.g. contributions are required to reduce a deficit arising from losses on plan assets or from actuarial losses), they are reflected in the remeasurement of the net defined benefit liability (asset).

If contributions are linked to services, they reduce service costs. For the amount of contribution that is dependent on the number of years of service, the Company reduces service cost by attributing the contributions to periods of service using the attribution method required by Ind AS 19.70 for the gross benefits. For the amount of contribution that is independent of the number of years of service, the Company reduces service cost in the period in which the related service is rendered / reduces service cost by attributing contributions to the employees' periods of service in accordance with Ind AS 19.70.

2.6 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

2.6.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

2.6.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

2.6.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

2.6.4 Minimum Alternate Tax

Minimum alternate tax is recognised only when and to the extent there is convincing evidence that Company will pay normal Income-Tax during the specified period. The carrying amount of MAT Credit asset is reviewed at each Balance Sheet date.

2.7 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Freehold land is not depreciated.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under lease are depreciated over the lease term of the ROU (Right of use).

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

On transition to Ind AS, the company has elected to continue with the carrying value of all its property, plant and equipment recognised as at April 1, 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment which will be depreciated over its remaining useful life.

2.7.1 Useful lives of tangible assets

Depreciation is calculated using the straight-line method to allocate their cost, net of their residual values, over their estimated useful lives as prescribed in Part C of Schedule II of the Companies Act, 2013

Particulars	Life (Years)
Building -Non Factory	60
Building - Factory	30
Plant & Machineries, Jig& Fixtures and Pattern & Moulds	15
Furniture & Fixtures, Electrical Installation	10
Motor Vehicles- Cars & Tractors	8
Computer-Servers and Network	6
Office Equipment	5
Computer-End-use devices (Desktop, Laptop, Printer etc.)	3
Assets Value < Rs.5000	1

2.8 Intangible assets

2.8.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Under IND AS First time adoption Exemptions company has adopted historical cost as carrying amount for various tangible assets

2.8.2 Internally-generated intangible assets - research and development expenditure

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- the intention to complete the intangible asset and use or sell it;
- the ability to use or sell the intangible asset;
- how the intangible asset will generate probable future economic benefits;
- the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognised, development expenditure is recognised in profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets that are acquired separately.

2.8.3 Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows:

Particulars	Life (Years)
Development Expenditure	5
Software	3

2.9 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest Company of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.10 Inventories

Inventories are stated at the lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Costs of inventories are determined on a weighted average basis. Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

Cost of raw material and traded goods comprises of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of Inventories also include all other cost incurred in bringing the inventories to their present location and condition. Cost of purchase inventory are determined after deducting rebates and discounts.

2.11 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions are not recognised for future operating losses.

2.11.1 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.11.2 Warranties

Provisions for the expected cost of warranty obligations under local sale of goods legislation are recognised at the date of sale of the relevant products, at the directors' best estimate of the expenditure required to settle the Company's obligation.

2.11.3 Contingent liabilities acquired in a business combination

A disclosure for a contingent liability is made where there is a possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from the past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

2.12 Financial instruments

Financial assets and financial liabilities are recognised when a entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

2.12.1 Cash and cash equivalents:-

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents.

2.13 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

2.13.1 Classification of financial assets

Debt instruments that meet the following conditions are subsequently measured at amortised cost (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest income is recognised in profit or loss for FVTOCI debt instruments. For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income and accumulated under the heading of 'Reserve for debt instruments through other comprehensive income'. When the investment is disposed of, the cumulative gain or loss previously accumulated in this reserve is reclassified to profit or loss.

All other financial assets are subsequently measured at fair value.

2.13.2 Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Income is recognised on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognised in profit or loss and is included in the "Other income" line item.

2.13.3 Financial assets at fair value through profit or loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Debt instruments that do not meet the amortised cost criteria or FVTOCI criteria (see above) are measured at FVTPL. In addition, debt instruments that meet the amortised cost criteria or the FVTOCI criteria but are designated as at FVTPL are measured at FVTPL.

A financial asset that meets the amortised cost criteria or debt instruments that meet the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Company has not designated any debt instrument as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on remeasurement recognised in profit or loss. The net gain or loss recognised in profit or loss incorporates any dividend or interest earned on the financial asset and is included in the 'Other income' line item. Dividend on financial assets at FVTPL is recognised when the Company's right to receive the dividends is established, it is probable that the economic benefits associated with the dividend will flow to the entity, the dividend does not represent a recovery of part of cost of the investment and the amount of dividend can be measured reliably.

2.13.4 Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments at FVTOCI, lease receivables, trade receivables, other contractual rights to receive cash or other financial asset, and financial guarantees not designated as at FVTPL.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls), discounted at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). The Company estimates cash flows by considering all contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) through the expected life of that financial instrument.

The Company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. If the credit risk on a financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses. 12-month expected credit losses are portion of the life-time expected credit losses and represent the lifetime cash shortfalls that will result if default occurs within the 12 months after the reporting date and thus, are not cash shortfalls that are predicted over the next 12 months.

If the Company measured loss allowance for a financial instrument at lifetime expected credit loss model in the previous period, but determines at the end of a reporting period that the credit risk has not increased significantly since initial recognition due to improvement in credit quality as compared to the previous period, the Company again measures the loss allowance based on 12-month expected credit losses.

When making the assessment of whether there has been a significant increase in credit risk since initial recognition, the Company uses the change in the risk of a default occurring over the expected life of the financial instrument instead of the change in the amount of expected credit losses. To make that assessment, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition and considers reasonable and supportable information, that is available without undue cost or effort, that is indicative of significant increases in credit risk since initial recognition.

For trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 11 and Ind AS 18, the Company always measures the loss allowance at an amount equal to lifetime expected credit losses.

Further, for the purpose of measuring lifetime expected credit loss allowance for trade receivables, the Company has used a practical expedient as permitted under Ind AS 109. This expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The impairment requirements for the recognition and measurement of a loss allowance are equally applied to debt instruments at FVTOCI except that the loss allowance is recognised in other comprehensive income and is not reduced from the carrying amount in the balance sheet.

2.14 Financial Liabilities

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2.14.1 Classification of financial liabilities

The company classifies all financial liabilities as subsequently measured at amortised cost.

2.14.2 Initial recignition of financial liabilities

Financial liabilities are carried at amortised cost using the effective interest method.

2.14.3 Subsequent measurement of financial liabilities

The measurement of financial liabilities depends on their classification (Refer Note 29)

2.15 Leases

The Company has applied IND AS 116 Determining whether an Arrangement contains a Lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

2.15.1 Initial Recognition:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement. For arrangements entered into prior to April 1, 2016, the Company has determined whether the arrangement contain lease on the basis of facts and circumstances existing on the date of transition.

2.15.2 Company as a lessee:

Leases, other than short term lease and low value assets, of property, plant and equipment are classified as finance leases. Finance leases are capitalized at the lease's inception at the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in borrowings or other financial liabilities as appropriate. Each lease payment is allocated between the liability and finance cost. The finance cost is charged to the profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

2.16 EPS

The Company reports basic and diluted earnings per share in accordance with Ind AS 33 on Earnings per share. Basic earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period. Diluted earnings per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all years presented for any share splits and bonus shares issues including for changes effected prior to the authorization for issue of the financial statements by the Board of Directors.

2.17 Cash flow statement

The Cash Flow Statement is prepared by the indirect method set out in Ind AS 7 on Cash Flow Statements and presents cash flows by operating, investing and financing activities of the Company.

2.18 Rounding off amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III, unless otherwise stated.

2.19 Current v/s Non-Current classification:-

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

a) Expected to be realized or intended to be sold or consumed in normal operating cycle

b) Held primarily for the purpose of trading

c) Expected to be realized within twelve months after the reporting period, or

d) Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

a) It is expected to be settled in normal operating cycle

b) It is held primarily for the purpose of trading

c) It is due to be settled within twelve months after the reporting period, or

d) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents.

The Company has identified twelve months as its operating cycle for the purpose of current and non-current classification of assets and liabilities

2.20 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2.1 to 2.18, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed.

Detailed information about each of these estimates and judgements included in relevant notes together with information about the basis of calculation of each different line item in the financial statements.

Areas involving judgements and estimations:

1) Provision for warranty and service coupon

2) Provision for ECL

3) Provision for Employee Benefits

Statement of changes in Equity for the year ended 31st March 2021

All amounts are in Rupees Lakhs unless otherwise stated

A. Equity share capital

Particulars	**Amount**
As at 1st April, 2019	**5,430.20**
Changes in equity share capital during the year	–
As at 31st March, 2020	**5,430.20**
Changes in equity share capital during the year	–
As at 31st March, 2021	**5,430.20**

Note:

During the Financial Year 2016-2017, Company has raised fund through right issue of equity shares 3,90,00,000 of Rs. 10 each to existing equity shareholders in their shareholding ratio.

Utilisation of proceeds from right equity issue:

	e) Lease Liability	**4.96**	24.48
	f) Others	**29.36**	30.86
	Total Other Current Financial Liabilities	**2,342.59**	**1,971.25**

Note:

5,000,000 8.5% Cumulative Redeemable Preference Shares of Rs. 10 each issued solely to Government of Gujarat (GOG) as fully paid up on 23rd May, 2000 consequent upon conversion of loan of Rs. 50,000,000.

These shares were redeemable at par at the end of fours years from the date of allotment i.e. 22nd May, 2004 and the terms of the issue of the shares can be varied with the express consent of the Company and the holders of the shares at any time during the period the shares are outstanding.

The Preference Shares issued have right to receive dividend from year to year as decided by terms of Issue i.e. 8.5% per annum from the date of allotment.

The Preference share holders will not be entitled to any of the rights and privileges available to the members of the company including right to receive notice of or to attend and vote at general meeting or to receive annual reports of the company. If, however any resolution affecting the rights attached to the share is placed before the member of the Company , such resolution will first be placed before the Preference shareholders for their consideration.

Considering book losses, the Board of Directors had not declared dividend on preference share since allotment. Thus no provision was made for 8.5% dividend, amounting to Rs. 631.46 lakhs on preference shares for the period from 23rd May, 2000 (being the date of allotment) to the year ended 31st March, 2015 and additional tax thereon as per the accounting treatment under IGAAP.

Under IND AS, accrued Dividend on Preference Shares is defined as Other Current Financial Liabilities under Unpaid Dividends and are currently excluding taxes.

Note No. 17 - Provisions

	As at 31st March, 2021		As at 31st March, 2020

Note No. 27 - Earnings/(loss) per Share

Particulars	Year Ended on 31st March, 2021	Year Ended on 31st March, 2020
Basic Earnings/(loss) per share		
From continuing operations	**(0.14)**	(0.40)
Total basic earnings/(loss) per share	**(0.14)**	(0.40)
Diluted Earnings/(loss) per share		
From continuing operations	**(0.14)**	(0.40)
Total diluted earnings/(loss) per share	**(0.14)**	(0.40)

Basic earnings/(loss) per share

The earnings/(loss) and weighted average number of ordinary shares used in the calculation of basic earnings/(loss) per share are as follows:

Particulars	Year Ended on 31st March, 2021	Year Ended on 31st March, 2020
Profit / (loss) for the year attributable to owners of the Company	**(76.39)**	(219.37)
Profit/(loss) used in the calculation of basic earnings/(loss) per share	**(76.39)**	(219.37)
Weighted average number of equity shares	**543.02**	543.02
Nominal value of Shares	**10.00**	10.00
Earnings/(loss) per share from continuing operations - Basic	**(0.14)**	(0.40)

Diluted earnings/(loss) per share

Particulars	Year Ended on 31st March, 2021	Year Ended on 31st March, 2020
Profit / (loss) for the year used in the calculation of basic earnings per share	**(76.39)**	(219.37)
Add: Interest expense and exchange fluctuation on convertible securities	**–**	–
Profit/(loss) used in the calculation of diluted earnings per share	**(76.39)**	(219.37)

The weighted average number of ordinary shares for the purpose of diluted earnings/(loss) per share reconciles to the weighted average number of ordinary shares used in the calculation of basic earnings/(loss) per share as follows:

Particulars	Year Ended on 31st March, 2021	Year Ended on 31st March, 2020
Weighted average number of equity shares used in the calculation of Basic EPS	**543.02**	543.02
Add:		
ESOPs	**–**	–
Convertible bonds	**–**	–
Weighted average number of equity shares used in the calculation of Diluted EPS	**543.02**	543.02

Note:

The Company reports basic and diluted earnings/(loss) per share in accordance with Ind AS 33 on Earnings per share. Basic earnings/(loss) per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period. Diluted earnings/(loss) per share is computed by dividing the net profit or loss for the period by the weighted average number of equity shares outstanding during the period as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all years presented for any share splits and bonus shares issues including for changes effected prior to the authorization for issue of the financial statements by the Board of Directors.

Note No. 28 - Financial Instruments

Capital management

The Company manages capital risk in order to maximize shareholders' profit by maintaining optimal capital structure through monitoring of financial ratios, such as debt-to-equity ratio and net borrowings-to-equity ratio on a monthly basis and implements capital structure improvement plan when necessary. There is no change in the overall capital risk management strategy of the Company compared to last year.

The Company uses debt ratio as a capital management index and calculates the ratio as total liabilities divided by total equity. Total liabilities and total equity are based on the amounts stated in the separate financial statements.

The Company is not subject to externally enforced capital regulation.

Debt-to-equity ratio is as follows:

	As at 31st March, 2021	As at 31st March, 2020
Debt (A)	**1,553.37**	2,561.31
Equity (B)	**2,302.73**	2,382.31
Debt Ratio (A / B)	**0.67**	1.08

Financial Risk Management Framework

The Company's activities expose it to credit risk. In order to manage the aforementioned risk, the Company operates a risk management policy and a program that performs close monitoring of and responding to risk factors.

CREDIT RISK

(i) Credit risk management

Credit risk arises when a counterparty defaults on its contractual obligations to pay resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral (As on 31 March 2021: INR 359.10 Lakhs, 31 March 2020: INR 490.40 Lakhs), where appropriate, as a means of mitigating the risk of financial loss from defaults. Credit exposure is controlled by counterparty limits that are reviewed and approved by the risk management committee periodically.

Trade receivables consist of a large number of customers, spread across diverse geographical areas. Ongoing credit evaluation is performed on the financial condition of accounts receivable. In case of Exports to Nepal credit guarantee insurance cover is purchased.

In addition, the Company is exposed to credit risk in relation to financial guarantees given to banks provided by the Company. The Company's maximum exposure in this respect is the maximum amount the Company could have to pay if the guarantee is called on. As at 31 march 2021, an amount of INR 266.77 Lakhs (31 March 2020: INR 181.54 Lakhs) has been recognised as contingent.

The Company applies the simplified approach to providing for expected credit losses prescribed by Ind AS 109, which permits the use of the lifetime expected loss provision for all trade receivables. The company has computed expected credit losses based on a provision matrix which uses historical credit loss experience of the Company and individual receivable specific provision where applicable. Forward-looking information (including macroeconomic information) has been incorporated into the determination of expected credit losses. The Company has taken dealer deposit and bank guarantees of Dealer which is considered as collateral and these are considered in determination of expected credit losses, where applicable.

The financial instruments of the company mainly consist of trade receivables carried at amortised cost after providing for expected credit loss based on historical credit loss experience and adjusted for forward looking information. None of the assets are marked to active market thereby relieving the company from market uncertainties arising out of COVID-19

In calculating expected credit loss, the Company has also considered other related credit information for its customers to estimate the probability of default in future and has taken into account estimates of possible effect from the pandemic relating to COVID -19.

There is no change in estimation techniques or significant assumptions during the reporting period.

The loss allowance provision is determined as follows:

		As at 31st March 2021	
	Less than 6 months past due	**More than 6 months past due**	**Total**
Expected loss rate	**–**	**0.67**	**0.29**
Gross carrying amount (Unsecured)	**2,154.32**	**1,580.42**	**3,734.74**
Loss allowance provision	–	**1,066.02**	**1,066.02**

		As at 31st March 2020	
	Less than 6 months past due	More than 6 months past due	Total
Expected loss rate	–	0.45	0.18
Gross carrying amount (Unsecured)	2,884.13	1,985.83	4,869.96
Loss allowance provision	–	892.32	892.32

Reconciliation of loss allowance provision for Trade Receivables

Particulars	As at 31st March, 2021	As at 31st March, 2020
Balance as at beginning of the year	**892.32**	560.07
As per ECL in Opening Provisions	**–**	–
Impairment losses recognised in the year based on lifetime expected credit losses		
- On receivables originated in the year	**620.64**	644.20
Amounts written off during the year as uncollectible	**(446.94)**	(311.94)
Balance at end of the year	**1,066.02**	892.32

The loss allowance provision has changed during the period due to amounts written off as uncollectible.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short, medium and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
Non-derivative financial liabilities				
As at 31st March, 2021				
Non-interest bearing	**4,799.27**	–	–	–
Fixed interest rate instruments	**1,386.45**	–	–	–
Total	**6,185.72**	–	–	–
As at 31st March, 2020				
Non-interest bearing	6,472.70	–	–	–
Fixed interest rate instruments	1,343.95	–	–	–
Total	7,816.65	–	–	–

(iii) Financing arrangements

The Company had access to following undrawn borrowing facilities at the end of the reporting period:

Particulars	As at 31st March, 2021	As at 31st March, 2020
Secured Cash Credit facility		
- Expiring within one year	**2,000.00**	2,100.00
Secured Letter of Credit facility		
- Expiring within one year	**–**	50.00
Secured Bank Guarantee facility		
- Expiring within one year	**–**	50.00
Working Capital Facilities with Bank	**2,000.00**	2,200.00
Commercial Card Facility		
Continuing Agreement till Termination	**–**	–
Credit Card Facility	**–**	–

(iv) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

Particulars	Less than 1 Year	1-3 Years	3 Years to 5 Years	5 years and above
Non-derivative financial assets				
As at 31st March, 2021				
Non-interest bearing	**3,013.65**	–	–	–
Total	**3,013.65**	–	–	–
As at 31st March, 2020				
Non-interest bearing	4,500.77	–	–	–
Total	4,500.77	–	–	–

(v) Unhedged Foreign Currency Exposure

Pursuant to the RBI guidelines on "Capital and Provisioning Requirements for Exposures to entities with Unhedged Foreign Currency Exposure" issued vide circular DBOD.No.BP.BC.85/21.06.200/2013-14 dated January 15, 2014, clarifications issued by RBI subsequently vide circular DBOD.No.BP.BC.116/21.06.200/2013-14 dated June 3, 2014 and RBI circular RBI/15-16/431 permitting writing of options dated June 23, 2016 The Company, as on March 31, 2021, does not have any Unhedged Foreign Currency Exposure (UFCE), as defined in the above mentioned RBI circulars. Further company does not have any foreign currency transactions during financial year 2020-21.

Note No. 29 – Fair Value Measurement

Fair value of financial assets and financial liabilities that are not measured at fair value:

Particulars	As at 31st March, 2021		As at 31st March, 2020	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Financial assets				
Financial assets carried at Amortised Cost:				
1) Trade and other receivables	**2,668.72**	**2,668.72**	3,977.64	3,977.64
2) Loans	**217.06**	**217.06**	162.81	162.81
3) Deposits and similar assets	**1,735.49**	**1,735.49**	1,700.48	1,700.48
Financial liabilities				
Financial liabilities held at amortised cost:				
1) Bank loans	**166.92**	**166.92**	1,217.36	1,217.36
2) Loans from Related Party	**–**	**–**	–	–

Note No. 30 - Segment information

Revenue from Major Geographic Location

Particulars	Year Ended on 31st March, 2021	Year Ended on 31st March, 2020
Revenue from India		
Revenue from External Customers	**13,536.06**	13,190.74
Revenue from Related Parties	**554.88**	215.11
	14,090.94	13,405.85
Outside India		
Nepal	**663.97**	288.30
Total revenue as per profit or loss	**14,754.91**	13,694.15

Revenue from major products and services

The following is an analysis of the company's revenue from continuing operations from its major products and services:

Particulars	Year Ended 31st March, 2021	Year Ended 31st March, 2020
Manufactured Goods	**14,238.56**	13,339.26
Traded Goods	**516.35**	354.89
Total	**14,754.91**	13,694.15

Extent of the reliance on its major customers:

There is no Dealer whose revenue is more then 10% as against the total turnover of the company for the Financial Year 2020-2021.

Note No. 31 - Employee benefits

(a) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Asset volatility

The plan liabilities are calculated using a discount rate set with references to government bond yields; if plan assets under perform compared to the government bonds discount rate, this will create or increase a deficit. The defined benefit plans hold a significant proportion of equity type assets, which are expected to outperform government bonds in the long-term while providing volatility and risk in the short-term.

As the plans mature, the Company intends to reduce the level of investment risk by investing more in assets that better match the liabilities.

However, the Company believes that due to the long-term nature of the plan liabilities and the strength of the supporting group, a level of continuing equity type investments is an appropriate element of the Company's long term strategy to manage the plans efficiently.

Changes in bond yields

A decrease in government bond yields will increase plan liabilities, although this is expected to be partially offset by an increase in the value of the plans' bond holdings and interest rate hedging instruments.

Inflation risk

Some of the Company's pension obligations are linked to inflation, and higher inflation will lead to higher liabilities (although, in most cases, caps on the level of inflationary increases are in place to protect the plan against extreme inflation). The plans hold a significant proportion of assets in index linked gilts, together with other inflation hedging instruments and also assets which are more loosely correlated with inflation. However an increase in inflation will also increase the deficit to some degree.

Life expectancy

The majority of the plan's obligations are to provide benefits for the life of the member, so increases in life expectancy will result in an increase in the plan's liabilities. This is particularly significant in the Company's defined benefit plans, where inflationary increases result in higher sensitivity to changes in life expectancy.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

Particulars	Valuation as at 31-Mar-21	31-Mar-20
Discount rate	**6.90%**	6.88%
Expected rate of salary increase	**5.00%**	5.00%
Average Longevity	**20**	19

Defined benefit plans – as per actuarial valuation on 31st March, 2021

Particulars	Unfunded Plan Gratuity 2021	2020
Amounts recognised in comprehensive income in respect of these defined benefit plans are as follows:		
Service Cost:		
Current Service Cost	**14.47**	14.60
Net interest expense	**8.87**	11.18
Components of defined benefit costs recognised in profit or loss	**23.33**	25.78
Remeasurement on the net defined benefit liability:		
Actuarial gains and loss arising from changes in Demographic Assumptions	**–**	–
Actuarial gains and loss arising from changes in financial assumptions	**(0.20)**	7.97
Actuarial gains and loss arising from experience adjustments	**3.40**	(9.58)
Components of defined benefit costs recognised in other comprehensive income	**3.20**	(1.61)
Total	**26.53**	**24.17**
I. Net Asset/(Liability) recognised in the Balance Sheet as at 31st March 2020		
1. Present value of defined benefit obligation as at 31st March 2020	**130.97**	153.31
2. Fair value of plan assets as at 31st March 2020	**–**	–
3. Surplus/(Deficit)	**130.97**	153.31
4. Current portion of the above	**15.49**	24.81
5. Non current portion of the above	**115.48**	128.50
II. Change in the obligation during the year ended 31st March 2020		
1. Present value of defined benefit obligation at the beginning of the year	**153.31**	162.82
2. *Expenses Recognised in Profit and Loss Account*		
– Current Service Cost	**14.47**	14.60
– Interest Expense (Income)	**8.87**	11.18
3. *Recognised in Other Comprehensive Income*		
Remeasurement gains/(losses)		
– Actuarial Gain (Loss) arising from:		
i. Demographic Assumptions	**–**	–
ii. Financial Assumptions	**(0.20)**	7.97
iii. Experience Adjustments	**3.40**	(9.58)
4. Benefit payments	**(48.86)**	(33.68)
5. Present value of defined benefit obligation at the end of the year	**130.97**	153.31
III. Actuarial assumptions		
1. Discount rate	**6.90%**	6.88%

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal assumption	Year	Changes in assumption	Impact on defined benefit obligation	
			Increase in assumption	Decrease in assumption
Discount rate	**2021**	**1.00%**	**-6.60%**	**7.70%**
	2020	1.00%	-5.50%	6.40%
Salary growth rate	**2021**	**1.00%**	**8.30%**	**-7.20%**
	2020	1.00%	7.10%	-6.30%
Withdrawal Rate	**2021**	**1.00%**	**0.90%**	**-1.00%**
	2020	1.00%	1.10%	-1.30%

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous period.

Maturity profile of defined benefit obligation:

Particulars	2021	2020
Within 1 year	**15.49**	24.81
1 - 2 year	**19.49**	15.41
2 - 3 year	**15.85**	23.07
3 - 4 year	**15.91**	15.69
4 - 5 year	**14.82**	15.73
5 - 10 years	**27.78**	45.15

The Company's policy is driven by considerations of maximizing returns while ensuring credit quality of the debt instruments. The asset allocation for plan assets is determined based on investment criteria prescribed under the Indian Income Tax Act, 1961, and is also subject to other exposure limitations. The Company evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Company compares actual returns for each asset category with published benchmarks.

The weighted average duration of the defined benefit obligation as at 31 March 2021 is 13.66 years (2020: 12.76 years)

Experience Adjustments :

Particulars	Gratuity Period Ended 2021	2020	2019	2018	2017
1. Defined Benefit Obligation	**130.97**	153.31	162.82	199.11	227.53
2. Fair value of plan assets	**–**	–	–	–	–
3. Surplus/(Deficit)	**130.97**	153.31	162.82	199.11	227.53
4. Experience adjustment on plan liabilities [(Gain)/ Loss]	**3.20**	(1.61)	(24.44)	(2.60)	11.86
5. Experience adjustment on plan assets [Gain/(Loss)]	**–**	–	–	–	–

The estimate of future salary increases, considered in actuarial valuation, takes account of inflation, seniority, promotion and other relevant factors, such as supply and demand in the employment market.

The current service cost and the net interest expense for the year are included in the employee benefits expense in profit or loss of the expense for the year.

Note No. 32 - Related Party Transactions

Note No. 34 - Effect of COVID-19 on Financial Statements

From December 2019, COVID-19, has spread globally, including India. This event has significantly affected economic activity globally and in India and as a result could / would impact the operations and financial results of the Company. The Company has performed an assessment of the likely impact this would have on the operations of the Company and its financial performance in the coming year.

For Financial Year 20-21 financial reporting, the Company has used the principles of prudence in applying judgments, estimates and assumptions in significant areas like inventory valuation, estimating the remaining useful life of the tangible and intangible assets, cost to complete provision for long term contracts, evaluating the long term contracts for any onerous elements, recoverability of receivables including unbilled receivables, provision for receivables under ECL model, provision for warranties, recoverability of contract assets and contract costs, projection used to test goodwill and investments for impairment, evaluation of financial implications of probable cancellations of any long term commitments, impact of cancellation or modifications to the terms of the revenue contracts, cancellation or deferment of revenue contracts, penalties due to non-fulfillment of service legal obligations, fair valuation of financial assets and liabilities etc.

The Company has considered internal and external information up to the date of approval of these financial statements including credit reports and economic forecasts. The Company has performed sensitivity analysis on the assumptions used and based on current indicators of future economic conditions, the Company expects to recover the carrying amount of these assets.

The impact of the global health pandemic may be different from that estimated as at the date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

The Company has also evaluated the cash flows for Financial Year 21-22 and based on the present estimate of the management, the Company does not foresee any impact on its ability to meet the statutory dues and creditors payment on due dates and honouring its loan repayment and forward contract contractual commitments. There has been no downgrade in ratings of the existing borrowing facilities of the Company. The Company also has undrawn sanctioned limits and this could be availed to meet the obligations. Accordingly based on the projected cash flows for the next twelve months, the management is of the view that the use of going concern assumption in preparing these financial statements is appropriate.

Note No. 35 - Contingent liabilities and commitments

Contingent liabilities (to the extent not provided for)

	Particulars	As at 31st March, 2021	As at 31st March, 2020
	Contingent liabilities		
1	Bank guarantees	**113.40**	113.50
2	Bills discounted but not matured	**153.37**	68.04
3	Claims against the company not acknowledged as debt	**42.25**	42.25
4	Outstanding Demand of Income Tax Against Company		
(i)	Assessment Year 2014-2015	**66.73**	66.73
	Note: Already filed with CIT Appeals for further assessment being aggrieved with the disallowance of right bad debts claimed in the year		
(ii)	TDS mismatch	**10.17**	10.17

5 The Company is anticipating to enter into an agreement / MoU for Settlement with various non Hire Purchase Industrial Co-Operative Societies and Ancillaries within Company's Premises, therefore may require to pay Compensation to Co-Operative Societies or its members. Amount of such Compensation is not yet quantified.

6 The Company has entered into an agreement/MoU with Private Sector Banks and NBFCs for retail funding for providing loan to customer who buy company's Tractors. The said MOU also contains a clause on loss sharing in case of default in repayment by customer or loss incurred in case of repossession of asset and its resale. Anticipated loss from these agreements/ MoUs are not quantified as of now. The Company is obtaining undertaking from its dealers to ensure no default in terms of these agreements.

Commitments

INDEPENDENT AUDITOR'S REPORT

To the Members of Trringo.com Limited

Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS Financial Statements of **Trringo.Com Limited** ("the Company"), which comprise the Balance Sheet as at 31st March 2021, and the statement of Profit and Loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its loss, and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS Financial Statements in accordance with the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 (the Act) (SAs). Our responsibilities under those Standards are further described in the 'Auditors' Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the Ind AS Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS Financial Statements.

Information Other than the Ind AS Financial Statements and Auditors' Report thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Directors Report, but does not include the Ind AS Financial Statements and our Auditors' Report thereon.

Our opinion on the Ind AS Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Ind AS Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standard on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken based on these Ind AS financial statements.

As part of an audit in accordance with Standard on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that are sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Ind AS Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Ind AS Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-B", a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
   (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
   (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
   (c) The Balance Sheet, the Statement of Profit and Loss, the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
   (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
   (e) On the basis of the written representations received from the directors as on 31st March, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2021 from being appointed as a director in terms of Section 164 (2) of the Act.
   (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
   (g) In our opinion and to the best of our information and according to the explanations given to us, the Company has not paid any remuneration to its directors.
   (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
      i. The company does not have any pending litigations which will impact its financial positions.
      ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
      iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Trringo.Com Limited** ("the Company") as of March 31, 2021 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing whether the risk of a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Ind AS financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Ind AS financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE B TO THE AUDITOR'S REPORT

Referred to in paragraph 9 of our report of even date on the financial statements of **Trringo.Com Limited** for the year ended March 31, 2021

<u>Annexure to the Auditor's Report referred to in our report of even date:</u>

1) i) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.

   ii) Fixed assets have been physically verified by the management during the year and no material discrepancies were noted on such verification.

   iii) The Company does not have immovable property.

2) According to the information and explanations given to us, the Company does not have inventory, therefore the provisions of para 3(ii) of the Order are not applicable to the Company.

3) The company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other related parties covered in the register maintained under section 189 of the Act.

4) The Company has not granted any loan, made investments or given guarantees during the year. Hence, the provisions of section 185 and section 186 of the Act are not applicable to the Company. We are informed that the company has not given any security during the year.

5) In our opinion and according to the information and explanations given to us, the Company has not accepted any deposits under the provisions of section 73 to 76 of the Act and the Rules framed thereunder.

6) We have been informed that the Central Government has not prescribed maintenance of Cost records under section 148(1) of the Act.

7) i) According to the records of the Company, the Company has been generally regular in depositing with appropriate authorities undisputed statutory dues including Provident Fund, Income Tax, Service Tax, Value Added Tax, GST and other statutory dues applicable to it. According to information and explanation given to us, no undisputed amounts in respect of the above were outstanding, as on March 31, 2021 for a period of more than 6 months from the date they become payable.

   ii) There are no dues of income tax, sales tax, service tax, duty of customs, and duty of excise or value added tax, GST and cess which have not been deposited on the account of any dispute.

8) The Company has not defaulted in repayment of loans or borrowing to a financial institution, bank or Government. The Company has not raised any money through debentures.

9) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) and the money raised by the Company by the way of term loans were applied for the purpose for which those are raised.

10) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing principles in India, and according to the information and explanations given to us, we have neither come across any instance of fraud on or by the Company, noticed or reported during the year, nor have we been informed of such case by the management.

11) According to the information and explanations given to us, the Company has not paid any remuneration to managerial personnel as defined in the Act and accordingly the provisions of para 3(xi) of the Order are not applicable to the Company.

12) The Company, not being a Nidhi Company, the provisions of para 3(xii) of the Order are not applicable to the Company.

13) According to the information and explanations given to us, all transactions with related parties are in compliance with sections 177 and 188 of the Companies Act, 2013 and the details of the same have been disclosed in the financial statements as required by the applicable accounting standards.

14) The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Hence, the provisions of para 3(xiv) of the Order are not applicable to the Company.

15) According to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or persons connected with him. Hence, the provisions of para 3(xv) are not applicable to the Company.

16) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, the provisions of para 3(xvi) of the Order are not applicable to the Company.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

1. **Corporate Information**

Trringo.com Limited is a 100% subsidiary of Mahindra and Mahindra Limited and incorporated on 23rd May, 2016 under the provisions of the Companies Act, 2013 (CIN: U01409MH2016PLC281449). The Company is in the business of organized farm equipment rentals through a franchisee based model.

2. **Significant accounting policies**

(A) Statement of compliance

The financial statements of the Company have been prepared in accordance with Ind AS notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended.

(B) Basis of preparation and presentation

The financial statements have been prepared on the historical cost basis, presented in Indian rupees and rounded off to nearest lacs.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of Ind AS 102, leasing transactions that are within the scope of Ind AS 17, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 or value in use in Ind AS 36.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

(C) Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

(D) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

(E) Intangible assets

Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Derecognition of intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in profit or loss when the asset is derecognised.

Useful lives of intangible assets

Estimated useful lives of the intangible assets are as follows:

IT Software 3 to 6 years

(F) Impairment of tangible and intangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2021

have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

(G) Foreign exchange gains and losses

The fair value of financial assets denominated in a foreign currency is determined in that foreign currency and translated at the spot rate at the end of each reporting period.

- For foreign currency denominated financial assets measured at amortised cost and FVTPL, the exchange differences are recognised in profit or loss except for those which are designated as hedging instruments in a hedging relationship.
- Changes in the carrying amount of investments in equity instruments at FVTOCI relating to changes in foreign currency rates are recognised in other comprehensive income.

For the purposes of recognising foreign exchange gains and losses, FVTOCI debt instruments are treated as financial assets measured at amortised cost. Thus, the exchange differences on the amortised cost are recognised in profit or loss and other changes in the fair value of FVTOCI financial assets are recognised in other comprehensive income.

(H) Financial instruments

Financial assets and financial liabilities are recognised when a Company entity becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets

Impairment of financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, trade receivables, other contractual rights to receive cash and other financial asset.

Expected credit losses are the weighted average of credit losses with the respective risks of default occurring as the weights. Credit loss is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive (i.e. all cash shortfalls).

Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party. If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss if such gain or loss would have otherwise been recognised in profit or loss on disposal of that financial asset.

Financial liabilities

All financial liabilities are subsequently measured at amortised cost using the effective interest method or at FVTPL.

Financial liabilities subsequently measured at amortised cost

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost at the end of subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest method. Interest expense that is not capitalised as part of costs of an asset is included in the 'Finance costs' line item.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired.

(I) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable.

Sale of Services

Revenue from the rental services is recognised when the service is delivered and completed, all the following conditions are satisfied:

- the Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the services rendered;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the Company; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding.

(J) Government Grants

The Company directly or indirectly is entitled to incentives from government authorities in respect of custom hiring and service centers. The Company accounts for its entitlement as income on accrual basis.

Government grants are recognized in profit or loss on a systematic basis over the periods in which the Company recognizes as expenses the related costs for which the grants are intended to compensate. When the grants relates to an asset, it is recognized as income in equal amounts over the useful life of the related asset.

NOTES TO FINANCIAL STATEMENTS FOR THE YEAR ENDED 31ST MARCH, 2020

(K) Employee benefits

Retirement benefit costs and termination benefits

Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined benefit retirement benefit plans, the cost of providing benefits is determined using the projected unit credit method. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in profit or loss in the period of a plan amendment. Defined benefit costs are categorised as follows:

- service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- net interest expense or income; and
- re-measurement

The Company presents the first two components of defined benefit costs in profit or loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

Short-term and other long-term employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

(L) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(M) Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year:

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

(N) Leasing

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks & rewards of ownership to the leases. All other leases are classified as operating leases.

The Company as lessee:

The assets held under finance leases are initially recongnised as assets of the company at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the balance sheet as a finance lease obligation. Lease payments are apportioned between finance expense and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policies on borrowing cost. Contingent rentals are recognized as expense in the period in which they are incurred.

Rental expense from the operating lease is generally recognized on a straight line basis over the term of the relevant lease. Where the rentals are structured solely to increase in line with expected general inflation to compensate for the lessors expected inflationary cost increases, such increases are recognized in the year in which such benefits accrue.

(O) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

Capital management

The company's capital management objectives are:

- to ensure the company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The company monitors capital on the basis of the carrying amount of equity as presented on the face of the statement of financial position.

The capital structure is monitored on the basis of debt to equity and maturity profile of overall debt portfolio of the Company.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk . In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

CREDIT RISK

Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from cash and cash equivalents, investments carried at amortised cost, deposits with banks and financial institutions as well as credit exposures to customers including outstanding receivables.

Trade Receivables:

The Companys trade receivables include receivables on sale of residential flats. As per the Company's flat handover policy, a flat is handed over to a customer only upon payment of entire amount of consideration. Thus, the Company is not exposed to any credit risk on receivables from sale of residential flats.

Balances with Banks, mutual funds and other financial assets:

For banks and financial institutions, only high rated banks/institutions are accepted. The Company holds cash and cash equivalents with bank and financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its cash and cash equivalents have low credit risk based on external credit ratings of the counterparties.

For other financial assets, the Company assesses and manages credit risk based on reasonable and supportive forward looking information. The Company does not have significant credit risk exposure for these items.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-, medium- and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period. The contractual maturity is based on the earliest date on which the Company may be required to pay.

Other Financial Liabilities	16.81	–	–
Total	35.96	–	–

(iv) Maturities of financial assets

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk and other price risk such as equity price risk and commodity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

INDEPENDENT AUDITOR'S REPORT

To the Stockholder and the Board of Directors,

Mahindra USA, Inc.

We have audited the accompanying separate parent company financial statements of Mahindra USA, Inc. ('the Company); a Texas corporation, which comprise the balance sheets as at March 31, 2021 and March 31, 2020, and the related statements of comprehensive loss, changes in stockholder's equity (deficit) and cash flows for the years then ended and the related notes to the separate parent company financial statements.

Management's responsibility for the separate parent company financial statements

Management is responsible for the preparation and fair presentation of these separate parent company financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of separate parent company financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express an opinion on these separate parent company financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the separate parent company financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate parent company financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the organization's preparation and fair presentation of the separate parent company financial statements to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the separate parent company financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for qualified opinion

As discussed in Note B.1 to the separate parent company financial statements, the Company reports its investment in its wholly owned subsidiary at cost. In our opinion, accounting principles generally accepted in the United States of America require that all majority-owned subsidiaries be accounted for as consolidated subsidiaries. If the financial statements of the subsidiary had been consolidated with those of Mahindra USA, Inc., total assets and liabilities would have increased by $2,385,442 as at March 31, 2021 (March 31, 2020: $4,892,884) and net loss would have increased by $1,139,530 (March 31, 2020: $6,016,021), for the year ended March 31, 2021 (March 31, 2020).

Qualified opinion

In our opinion, except for the effects of not consolidating the wholly-owned subsidiary as discussed in the basis for qualified opinion paragraph, the separate parent company financial statements referred to in the first paragraph present fairly, in all material respects, the financial position of Mahindra USA, Inc. as at March 31, 2021 and March 31, 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO SEPARATE PARENT COMPANY FINANCIAL STATEMENTS

NOTE A – NATURE OF OPERATIONS

Mahindra USA, Inc. (the "Company") ("MUSA") was incorporated on June 8, 1994 in the State of Texas and commenced business on March 15, 1995. The Company is owned by Mahindra and Mahindra Ltd. ("M&M"). M&M is a publicly traded corporation, headquartered in Mumbai, India, which, among other activities, manufactures farming equipment and automobiles. The Company sells tractors, parts, attachments, and accessories in North America under wholesale distribution agreements.

The Company formed a subsidiary on August 9, 2016, Mahindra Mexico S de. R.L. de. C.V. ("MML"), to assemble and sell tractors, parts, attachments and accessories in Mexico and Latin America. MML commenced commercial operations in July 2018.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies are detailed below:

1. Basis of preparation

a. The accompanying separate parent company financial statements (or "financial statements") are prepared under the historical cost convention on the accrual basis of accounting in accordance with the accounting and reporting requirements of generally accepted accounting principles in the United States of America ('US GAAP'), except for investments in its wholly owned subsidiary. The Company reported its investment in Mahindra Mexico S de. R.L. de. C.V. ("MML") using the cost basis for the reporting requirements of its ultimate parent company and shareholder; Mahindra and Mahindra Ltd.

b. All amounts are stated in United States Dollars (USD), except as otherwise specified.

c. The financial statements are presented for the years ended March 31, 2021 and March 31, 2020.

d. Certain reclassifications, regroupings and reworking have been made in the financial statements of prior periods to conform to the classifications used in the current year. These changes had no impact on previously reported net loss or stockholder's deficit.

2. Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management's estimates for determination of useful lives for property, plant & equipment, and long-lived assets for impairment, revenue recognition, allowance for incentives and warranties, legal and tax contingencies, provision for doubtful debts, accounting for leases and inventory valuation at the balance sheet date represent certain of these particularly sensitive estimates. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates prospectively in the current and future periods.

3. Cash and cash equivalents

The Company's cash and cash equivalents comprise of cash and bank balances. The Company does not have any cash equivalents. The carrying value of cash and cash equivalents approximates fair value because of the short maturities of those financial instruments. Cash balances in US bank accounts are insured by the Federal Deposit Insurance Corporation up to an aggregate of $ 250,000. The Company believes it is not exposed to any significant risk on cash and cash equivalents.

4. Revenue recognition

Adoption of ASC 606

Financial Accounting Standards Board ('FASB') issued Accounting Standards Codification ('ASC') 606 – Revenue from Contracts with Customers in May 2014. The Company early adopted the standard during the year ended March 31, 2019 using modified retrospective method of transition to change its accounting policies.

Revenue from sale of tractors, parts, attachments and accessories is recognized when each of the following criteria is met:

1. The Company and an independent dealer approve a contract with commercial substance.
2. The sales price is determinable, and collectability of the payment is probable based on the terms outlined in the contract
3. Control of the goods is transferred to the dealer when the ordered goods are invoiced to the dealer after credit approval and when the ordered items are ready for shipment.

Transfer of control, and therefore revenue recognition is recorded at a point in time on the date when the tractors, parts, attachments or accessories are made available to the dealers.

The Company participates in various retail sales incentives with its dealers. The Company records the estimated retail sales incentive programs offered to dealers as a reduction to revenue at the time of sale to the dealer. The estimate is based on historical data, announced incentive programs, field inventory levels, and retail sales volumes.

Product warranties

The Company establishes reserves for product warranties at the time the related sale is recognized. The Company issues product warranties under which the performance of products delivered is generally guaranteed for a certain term. The accrual for product warranties includes the expected costs of warranty obligations imposed by law or contract, as well as the expected costs for policy coverage.

5. Accounts receivable and allowance for doubtful debts

Accounts receivable are stated at the amount invoiced to the dealers. The Company follows the specific identification method for recognizing allowance for doubtful debts. All amounts deemed to be uncollectible are charged against the allowance for doubtful debts in the period that determination is made. The Company charges off uncollectable amounts against the allowance for doubtful debts in the period in which it determines they are uncollectable. Allowance for doubtful debts is included in other selling, general and administrative expenses in the statements of comprehensive loss.

6. Inventories

Inventories are stated at moving average price or net realizable value whichever is lower. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Net realizable value is the estimated selling price less applicable selling expenses. The Company writes-down obsolete or otherwise unmarketable inventory to its estimated realizable value.

7. Investment in subsidiary

The Company accounts for its investment in subsidiary using the cost method. During the year ended March 31, 2021, the Company has fully impaired the value of investment in the wholly owned subsidiary considering the series of operating losses of the subsidiary, thereby resulting in absence of an ability to recover the carrying amount of the investment.

8. Property, plant and equipment, net

Property, plant and equipment are stated at cost less accumulated depreciation and impairment. Cost of items of property, plant and equipment comprise cost of purchase, improvements and other costs necessarily incurred to bring it to the condition and location necessary for its intended use. Depreciation is provided over the useful lives of the related assets using the straight-line method for financial reporting and the modified accelerated cost recovery method for tax purposes. Leasehold improvements are amortized over the shorter of the lease term or their respective estimated useful lives.

The estimated useful life used to determine depreciation is:

Buildings and building improvements	7-10 Years
Furniture and fixtures	3-7 Years
Office equipment	3-7 Years
Computer and software	3-5 Years
Vehicles	5 Years

Deposits paid towards the acquisition of property, plant and equipment outstanding as of each balance sheet date and the cost of property, plant and equipment not ready for use before such date are disclosed under capital work-in-progress. Upon retirement or disposal of assets, the cost and accumulated depreciation are eliminated from the accounts and the resulting gain or loss is a part of net operating loss.

Development costs related to internally generated software are capitalized once a project has progressed beyond a conceptual, preliminary stage to that of the application development stage. Costs of significant improvements on existing software for internal use, both internally developed and purchased, are also capitalized. Costs related to the preliminary project stage, data conversion and post-implementation/operation stage of an internal use software development project are expensed as incurred.

9. Leases

Accounting Standard Update ("ASU") 2016-02, Leases. On April 1, 2020, the Company early adopted Accounting Standards Codification 842 and all the related amendments ("new lease standard") using the modified retrospective method. The comparative information has not been restated and continues to be reported under the lease accounting standard in effect of those periods. The Company does not expect the adoption of the new lease standard to have a material impact to net income on an ongoing basis. The new lease standard requires all leases to be reported on the balance sheet as operating lease right-of-use assets and lease obligations. The Company elected the practical expedients permitted under the transition guidance of the new standard that retained the lease classification and initial direct costs for any leases that existed prior to adoption of the standard. The Company has not applied the recognition and measurement requirements of ASC 842 to certain assets on lease where the Management believes it to be immaterial.

The Company's leases are classified as operating leases, which are included in operating lease right-of-use assets and operating lease liabilities in the Company's balance sheet.

Right-of-use ("ROU") assets and lease liabilities are recognized based on the present value of the future minimum lease payments over the lease term at the commencement date for leases exceeding 12 months. Minimum lease payments include only the fixed lease component of the agreement, as well as any variable rate payments that depend on an index, initially measured using the index at the lease commencement date. Lease terms may include options to renew when it is reasonably certain that the Company will exercise that option.

The Company estimates its incremental borrowing rate for each lease based on the respective weighted average term of the agreements. This estimation considers the market rates of the Company's outstanding collateralized borrowings and interpolations of rates outside of the terms of the outstanding borrowings, including comparisons to comparable borrowings of similarly rated companies with longer term borrowings.

Operating lease expense is recognized on a straight-line basis over the lease term and is included in cost of revenue or general and administrative expense. Amortization expense for finance leases is recognized on a straight-line basis over the lease term and is included in cost of revenue. Interest expense for finance leases is recognized using the effective interest method. Leases with a lease term of 12 months or less from the commencement date that do not contain a purchase option are recognized as an expense on a straight-line basis over the lease term.

As a result of the Company's adoption of ASC 842, the Company recognized operating lease right-of-use of assets and lease liabilities amounting to $ 25,351,196.

<u>Operating leases as per old standard - ASC 840</u>

The Company leases certain facilities and equipment. Lease rent expenses on operating leases are charged to statement of income over the lease term. Certain of the Company's leases contain renewal options, rent escalation clauses, and/or landlord incentives. Renewal terms generally reflect market rates at the time of renewal. Rent expense for non-cancelable operating leases with scheduled rent increases and/or landlord incentives is recognized on a straight-line basis over the lease term, including any applicable rent holidays, beginning with the lease commencement date, or the date the Company takes control of the leased space, whichever is sooner. The excess of straight-line rent expense over scheduled payment amounts, and landlord incentives is recorded as a deferred rent liability. The company followed the accounting policy to account for leases for the year ended March 31, 2020.

<u>Capital leases</u>

Capital leases, which effectively transfer substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease payments are apportioned between finance charges and reduction of the lease liability based on the implicit rate of return.

10. Income taxes

In accordance with the provisions of FASB ASC Topic 740 "Income Taxes," income taxes are accounted for using the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. The deferred tax asset is reduced by a valuation allowance if it is more likely than not that some portion or all of the assets will not be realized.

11. Foreign currency transactions

Transactions in foreign currencies are translated into the functional currency at the rates of exchange prevailing at the date of the transaction. Monetary items denominated in foreign currency remaining unsettled at the end of the year are translated at the closing rates as at the last day of the year. Gains or losses, if any, on account of exchange difference either on settlement or translation are recognized in statements of comprehensive loss, except those relating to acquisition of fixed assets which are adjusted to the cost of the respective asset.

12. Fair value measurements and financial instruments

The fair value hierarchy requires the use of observable market data when available. In instances where the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest level input significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability. The following table sets forth by level within the fair value hierarchy, the Company's financial assets and liabilities that are accounted for at fair value on a recurring basis at March 31, 2021 and 2020, according to the valuation techniques the Company used to determine their fair values.

- Level 1 – Quoted prices in active markets for identical assets or liabilities.
- Level 2 – Observable inputs other than quoted prices include in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3 – Unobservable inputs that are support by little or no market activity. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

The fair value of the interest rate swaps is the estimated amount that the Company would receive or pay to terminate such agreements, taking into account market interest rates and the remaining time to maturities or using market inputs with mid-market pricing as a practical expedient for bid-ask spread.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

The Company's financial instruments consist of cash and cash equivalents, accounts receivable, accounts payable and related party dues. The estimated fair value of cash, accounts receivable, accounts payable and related party dues approximate their carrying amounts due to the short-term nature of these instruments. The Company has entered into cash flow hedge so as to protect the variability of the cash flow stemming from the floating rate interest payments on facility arrangement. None of these instruments are held for trading purposes.

13. Interest rate swaps

The Company has interest rate swaps with counterparties to reduce its exposure to variability in cash flows relating to interest payments on portion of its notes payable in an aggregate principal amount of $ 25 million. The Company applies hedge accounting and has designated these instruments as cash flow hedges of the risk associated with floating interest rates on designated future monthly interest payments. Management assumes the hedge is highly effective and therefore changes in the value of the hedging instrument are recorded in accumulated other comprehensive loss in the balance sheets. Any ineffectiveness is recorded in earnings. Amounts in accumulated other comprehensive loss are reclassified into earnings in the same period during which the hedged transactions affect earnings, or upon termination of the hedging relationship.

14. Derivative financial instruments

The Company has obtained floating rate borrowings which are linked to 1 months revolving LIBOR. For managing the interest rate risk arising from changes in LIBOR on such borrowings, the Company has entered into interest rate swap (IRS) for the loan liability amounting to $ 25 million. The Company has designated the IRS (hedging instrument) and the floating rate financial liability (hedged item) into a hedging relationship and applies hedge accounting.

Under the terms of the IRS, the Company pays interest at the fixed rate to the swap counterparty in USD and receives the floating interest payments based on LIBOR in USD. As the critical terms of the hedged item and the hedging instrument (notional, interest periods, underlying and fixed rates) are matching and the interest cashflows are off setting, an economic relationship exists between the two. This ensures that the hedging instrument and hedged item have values that generally move in the opposite direction.

Hedge effectiveness testing is assessed at designation date of the hedging relationship, and on an ongoing basis. The ongoing assessment is performed at a minimum at each reporting date or upon a significant change in circumstances affecting the hedge effectiveness requirements, whichever comes first.

15. Advertising and marketing expenses

The Company subsidizes product advertising carried on by dealers within each dealer's local market and conducts dealer conferences. The Company also advertises in trade magazines, at trade shows and uses various other means of promotion, including product brochures and digital media to increase brand awareness and sale of products in the market. Expenditures without extended advertising value are expensed in the year accrued. The amount of advertising and marketing costs incurred by the Company for the year ended March 31, 2021 amounts to $2,203,482 (March 31, 2020: $9,734,389).

16. Shipping and handling cost

The Company generally classifies freight billed to dealers as sales revenue, which is generally included in the list price to the dealer. Shipping and handling activities are fulfillment activities and are not considered to be a separate performance obligation.

17. Commitments and contingencies

Liabilities for loss contingencies arising from claims, assessments, litigation, fines, and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount can be reasonably estimated. Legal costs incurred in connection with loss contingencies are expensed as incurred.

18. Liquidity

As on March 31, 2021, the Company has positive net worth of $22,601,969, pursuant to additional equity funding received from the parent company during the year amounting to $107,600,000. The Company believes that cash flow from operations and the current credit line from the banks will be sufficient to meet the Company's current anticipated cash needs for at least the next twelve months, including working capital needs and various contractual obligations.

NOTE C – CASH AND CASH EQUIVALENTS

Cash and cash equivalents include the following:

	As at	
	March 31, 2021	March 31, 2020
Balances with banks	**12,262,369**	12,545,874
Cash in hand	**561**	645
Total	**12,262,930**	12,546,519

NOTE D – ACCOUNTS RECEIVABLE, NET

Accounts receivable, net, include the following:

	As at	
	March 31, 2021	March 31, 2020
Accounts receivable	**21,745,766**	35,665,724
Less: allowance for doubtful debts	**(3,676,396)**	(2,383,824)
Accounts receivable, net of allowances	**18,069,370**	33,281,900

Accounts receivable as at March 31, 2021 and March 31, 2020 are stated net of provision for doubtful debt and other allowances. The Company follows the specific identification method for recognizing allowance for doubtful debts. Accordingly, the Company maintains an allowance for doubtful debts on accounts receivable, based on present and prospective financial condition of the dealer and ageing of accounts receivable after considering historical experience and the current economic environment.

NOTE E – INVENTORIES, NET

Major classes of inventory include the following:

	As at	
	March 31, 2021	March 31, 2020
Tractors	**56,560,664**	123,665,402
Parts, accessories, and others	**71,610,217**	89,609,334
Total	**128,170,881**	213,274,736

NOTE F – PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment, and intangibles include the following:

	As at	
	March 31, 2021	March 31, 2020
Building and building improvements	**5,321,012**	4,937,549
Vehicles	**63,467**	28,132
Furniture and fixtures	**1,891,122**	1,752,497
Office equipment	**1,329,112**	1,103,598
Computers and software	**10,107,224**	8,911,579
Less: accumulated depreciation and amortization	**(9,405,319)**	(6,163,472)
Property, plant and equipment, and intangible assets	**9,306,618**	10,569,883
Capital work-in-progress	**55,192**	1,283,007
Property, plant and equipment, and intangible assets net	**9,361,810**	11,852,890

Depreciation expense for the year ended March 31, 2021 is $3,242,711 and for the year ended March 31, 2020 is $ 2,368,801.

During the year ended March 31, 2021 and March 31, 2020, capital work-in-progress of $1,979,651 and $ 5,929,642, respectively, was completed and capitalized to computer and software, building and building improvements and the other property, plant and equipment.

NOTE G – NOTES PAYABLE

As at March 31, 2021 the total loan outstanding amounts to $52,999,292 from Bank of America N.A., J. P. Morgan Chase Bank N.A. and HDFC Bank. The Company has fund based and non-fund-based facilities from Bank of America N.A., J P Morgan Chase Bank N.A and HDFC Bank. The average interest rate during the year on these loans was 2.7%. The maturity dates for all the loans are in April 2021 and June 2021. Neither of the facilities from banks carry any restrictive covenants. The Company has a line of credit of $85,000,000 from Bank of America N.A, $40,000,000 from JP Morgan Chase Bank N.A. and $25,000,000 from HDFC Bank.

As at March 31, 2020 the total loan outstanding amounts to $172,041,658 from Bank of America N.A. and J. P. Morgan Chase Bank N.A. The Company has fund based and non-fund-based facilities from Bank of America N.A. and J P Morgan Chase Bank N.A. The average interest rate during the year on these loans was 3.92%. The maturity dates for all the loans are in April 2020. Neither of the facilities from Bank of America N.A. or JP Morgan Chase Bank N.A. carry any restrictive covenants. The Company has a line of credit of $110,000,000 from Bank of America N.A and $65,000,000 from JP Morgan Chase Bank N.A.

As at March 31, 2021, Bank of America N.A. has issued an irrevocable standby letter of credit for $12,000,000 on behalf of the Company as a credit enhancement to De Lage Landen Financial Services, Inc., an organization that offers financing to the Company's dealers in USA, Canada and also to dealers of related entities in Mexico and Brazil

As at March 31, 2020, Bank of America N.A. has issued an irrevocable standby letter of credit for $20,000,000 on behalf of the Company as a credit enhancement to De Lage Landen Financial Services, Inc., an organization that offers financing to the Company's dealers in USA, Canada and also to dealers of related entities in Mexico and Brazil.

	As at	
	March 31, 2021	March 31, 2020
Current portion		
Notes payable	**52,999,292**	172,041,658
Total	**52,999,292**	172,041,658

NOTE H – ACCOUNTS PAYABLE

	As at	
	March 31, 2021	March 31, 2020
Trade payables	**26,701,216**	54,907,438
Total	**26,701,216**	54,907,438

NOTE I – OTHER CURRENT LIABILITIES

Other current liabilities comprise of:

	As at	
	March 31, 2021	March 31, 2020
Accrued payables	**52,221,836**	74,409,375
Current obligations under capital leases	**10,450**	421,074
Total	**52,232,286**	74,830,449

Expenses accrued for the years ending March 31, 2021 and March 31, 2020 include advertising, marketing program costs, retail rate buy-downs, cash discounts, state franchise taxes, payroll and payroll taxes, employee bonuses, salesmen and customer bonuses, legal fees, property taxes, insurance deductibles and warranty reserves. The Company participates in various retail incentives with its dealers and has accrued for the costs of these programs in effect as of the date of these separate parent company financial statements.

NOTE J – DERIVATIVE FINANCIAL INSTRUMENTS

The following tables summarize the gross fair values of the financial instruments as of March 31, 2021 and March 31, 2020:

	As at	
	March 31, 2021	March 31, 2020
Derivatives designated as hedging instruments		
Interest rate swap	**404,256**	533,910
Total derivatives designated as hedging instruments	**404,256**	533,910
Total derivatives not designated as hedging instruments	**–**	–
Total derivative fair value	**404,256**	533,910

The fair value of the derivative instruments and their location in the financial statements of the Company is summarized in the table below:

	As at	
	March 31, 2021	March 31, 2020
Other current liabilities	**404,256**	533,910
Total	**404,256**	533,910

Gain (loss) recognition

There was no gain recognized with respect to fair value of derivative instruments not designated as hedges and ineffectiveness of designated derivative recognized in other income, net.

The following table summarizes the impact on accumulated other comprehensive income and earnings of derivative instruments designated as cash flow hedges and the amount of gain recognised in other comprehensive income for the year ended March 31, 2021 and March 31, 2020.

	Before-tax amount	**Tax (expense) or benefit**	**Net of tax Amount**
Opening balance as of March 31, 2020	533,910	–	533,910
Net losses reclassified into statement of income on completion of hedged transactions	(129,654)	–	(129,654)
Loss on cash flow hedging derivatives, net	–	–	–
Closing balance as of March 31, 2021	**404,256**	**–**	**404,256**

NOTE K – FAIR VALUE MEASUREMENT

The following table presents liabilities as of March 31, 2021 and March 31, 2020 that are measured and recognized at fair value on a recurring basis:

	Quoted price in active markets for identical assets (Level 1)	Significant other observable inputs (Level 2)	Significant other unobservable inputs (Level 3)
Balance as on March 31, 2020	–	533,910	–
Interest rate swap	–	(129,654)	–
Balance as of March 31, 2021	**–**	**404,256**	**–**

The fair value of the interest rate swaps is the estimated amount that the Company would receive or pay to terminate such agreements, taking into account market interest rates and the remaining time to maturities or using market inputs with mid-market pricing as a practical expedient for bid-ask spread.

NOTE L – LEASES

General description of the lease

The Company has entered into noncancelable operating lease agreements related to facility, office equipment, and vehicles with varying terms.

Non-lease components: Leases that contain non-lease components are accounted for as a single component and recorded on the balance sheet for certain asset classes including equipment. Non-lease components include, but are not limited to, common area maintenance and service arrangements.

Package of practical expedients: The Company will not reassess whether any expired or existing contracts are leases or contain leases, the lease classification for any expired or existing leases or any initial direct costs for any expired or existing leases as of the transition date. The Company has not applied the recognition and measurement requirements of ASC 842 to certain assets on lease where the Management believes it to be immaterial.

Additional transition method: The Company adopted the standard using a modified retrospective approach, applying the standard's transition provisions at the beginning of the period of adoption and maintain previous disclosure requirements for comparative periods.

The Company used the following policies and/or assumptions in evaluating the lease population:

Lease determination: The Company considers a contract to be or to contain a lease if the contract conveys the right to control the use of identified property, plant, or equipment (an identified asset) for a period of time in exchange for consideration.

Discount rate: When the lease contracts do not provide a readily determinable implicit rate, the Company uses the estimated incremental borrowing rate based on information available at the inception of the lease. The discount rate is determined by asset class.

Variable payments: The Company includes payments that are based on an index or rate within the calculation of right of use leased assets and lease liabilities, initially measured at the lease commencement date. There are variable payments in the nature of origination fees for office equipment, machinery and equipment and therefore are not treated as a part of lease payments.

Purchase options: Certain leases include options to purchase the office equipment. The depreciable life of assets are limited by the expected lease term, unless there is a transfer of title or purchase option reasonably certain of exercise.

Renewal options: Most leases include one or more options to renew, with renewal terms that can extend the lease term from one or more years. The exercise of lease renewal options is at the Company's sole discretion.

Residual value guarantees, restrictions, or covenants: The lease agreements do not contain any material residual value guarantees or material restrictive covenants.

Short-term leases: Leases with an initial term of 12 months or less are not recorded on the balance sheet; the Company recognizes lease expense for these leases on a straight-line basis over the lease term and expense the associated operating lease costs to administrative expenses on the statements of income.

Right of use (ROU) asset relating to capital lease of $ 661,656 as of March 31, 2021 is included in "property, plant and equipment, net" and lease liability relating to capital lease of $10,450 is included in "other current liabilities".

The table below presents the classification of lease related expenses as reported in the statements of comprehensive loss.

	For the year ended	
Particulars	**March 31, 2021**	March 31, 2020
Amortization of ROU asset on capital lease (a)	**370,869**	–
Interest on capital lease liability (b)	**6,522**	–
Operating lease expense (c)	**3,714,098**	–
Total lease expense	**4,091,489**	–

(a) Amortization of ROU asset relating to capital lease is included in 'other selling, general and administrative expenses' in the statement of comprehensive loss.

(b) Interest on capital lease liability is included in 'finance cost' in the statement of comprehensive loss.

(c) Operating lease expenses are included in 'other selling, general and administrative expenses' in the statements of comprehensive loss. Operating lease expense include short-term leases, variable lease costs and leases which did not meet the capitalization requirement of the Company.

Future minimum lease payments as of March 31, 2021, for operating and capital leases having an initial or remaining non-cancelable lease term in excess of one year are as follows.

Year ended March 31,	Operating lease	Capital lease
2022, 2023 and 2024	9,286,239	10,659
2025 and 2026	6,104,967	–
2027 onwards	13,037,221	–
Total minimum lease payments	**28,428,427**	**10,659**
Less: Interest	5,127,881	209
Present value of lease payments	**23,300,546**	10,450

The following table presents the weighted-average remaining lease term and discount rates as of March 31, 2021.

Weighted-average remaining lease term (years)	
Operating leases	8.66
Capital leases	0.5
Weighted-average discount rate	
Operating leases	4.5%
Capital leases	6.8%

The following table presents supplemental information for operating leases for the year ended March 31, 2021.

Supplemental cash flow information	Amount (USD)
Cash paid for amounts included in the measurement of lease liabilities	
Operating cash flows from operating leases	3,522,389
Financing cash flows from capital leases	421,074
Operating cash flows from capital leases	6,522
Non-cash lease assets obtained in exchange for new lease liabilities	
Operating leases	25,351,196

Long term capital lease obligation is calculated as:

	As at	
	March 31, 2021	March 31, 2020
Total capital lease obligation	**10,450**	431,524
Less: Current portion	**(10,450)**	(421,074)
Long term capital lease obligation	**–**	10,450

Disclosure related to year prior to adoption of the new lease standard

The Company entered into a lease covering a 98-month period for an office and warehouse on August 30, 2017. Total rent expense for all operating leases for the year ended March 31, 2020 was $3,607,857. The Company entered into a master lease agreement for their vehicle fleet.

Future minimum lease payments under the non-cancelable operating leases with initial or remaining terms of one year or more are as follows:

Year ending March 31,	Equipment and others
2021	3,739,438
2022	3,424,234
2023	2,852,738
2024	2,919,770
2025	3,007,373
Thereafter	1,791,075
Total	**17,734,628**

Future minimum lease payments under the finance lease with initial or remaining terms of one year or more are as follows:

Year ending March 31,	Others
2021	442,823
2022	10,659
Total	**453,482**
Less: imputed interest	(21,958)
Total capital lease obligation	**431,524**

NOTE M – INCOME TAXES

The Company files state tax returns and federal tax returns at the standalone level. The components of the provision for income tax expense are as follows:

	For the year ended	
	March 31, 2021	March 31, 2020
Current income tax expense		
State	**102,580**	369,052
Total	**102,580**	369,052

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

As of March 31, 2021, the Company has net deferred tax assets of $59,525,437. This is mainly attributable to two components, deferred tax on accrued dealer incentive of $7,022,320 and on net operating losses $42,076,331. Other components refer to deferred taxes on various expenses, including slow moving inventory, warranty reserves, allowance for uncollectible accounts receivable and other comprehensive loss related items such as cash flow hedge reserve. Out of total deferred tax assets, the Company has recognized deferred tax assets of $37,365,938 and created valuation allowance on the remaining balance of $22,159,498.

As of March 31, 2020, the Company has net deferred tax assets of $55,108,252. This is mainly attributable to two components, deferred tax on accrued dealer incentive of $11,285,453 and on net operating losses $36,535,064. Other components refer to deferred taxes on various expenses, including slow moving inventory, warranty reserves, allowance for uncollectible accounts receivable and other comprehensive loss related items such as cash flow hedge reserve. Out of total deferred tax assets, the Company has recognized deferred tax assets of $37,365,938 and created valuation allowance on the remaining balance of $17,742,313.

Realization of net deferred tax assets is dependent upon generation of sufficient taxable income in future years, benefit from the reversal of taxable temporary differences and tax planning strategies. Management assesses the available positive and negative evidence to estimate whether sufficient future taxable income will be generated to permit use of the existing deferred tax assets. The amount of net deferred tax assets considered realizable is subject to adjustment in future periods if estimates of future taxable income change.

Based on the evaluation of positive and negative evidences, the Company has determined that the entire amount of deferred tax assets may not be realizable in near future and accordingly created a valuation allowance of $ 22,159,498 and $17,742,313 as of March 31, 2021 and March 31, 2020, respectively.

The Company has federal net operating losses of $168,862,581 and $ 131,980,852 as at March 31, 2021 and March 31, 2020, respectively. These net operating losses generated will be carried forward indefinitely and are also available for carryback to five preceding years. The Company has state net operating loss carryforwards of approximately $ 107,138,742 and $ 84,726,666 as at March 31, 2021 and March 31, 2020, which if unutilized will expire based on the statutes of various states.

Accounting for uncertain tax position

The Company recognizes the benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement with the relevant tax authority. The Company has no unrecognized tax positions as at March 31, 2021 and March 31, 2020.

The tax years 2017 to 2019 remain subject to examination by the taxing authorities.

NOTE N – EMPLOYEE BENEFIT PLANS

The Company adopted a 401(k)-retirement plan effective April 1, 1998. All of the Company's employees who are at least 18 years of age are eligible at the beginning of the following month upon completion of 6 months of employment after their hire date to participate in a 401(k)-profit sharing plan (the "Plan"). In most cases, qualified rollovers are accepted before an employee reaches eligibility. Eligible employees may make annual contributions up to the maximum limit prescribed by the Internal Revenue Service (IRS). The Plan provides for matching contributions by the Company in an amount equal to the employee contributions for the first 3% of eligible contributions and 50% for the percentages 4 and 5 for a maximum of 4% employer matching. Employee contributions and employer matching contributions are invested in mutual funds. The total expense for employee retirement contribution plans for the year ended March 31, 2021 was $788,076 (March 31, 2020 – $838,241). The amounts have been included in other selling, general and administrative expenses.

The Company's purchases of tractors and parts from M&M Ltd. and Mitsubishi Mahindra Agricultural Machinery Co. Ltd. for the years ended March 31, 2021 and March 31, 2020 were $ 84,826,880 and $ 111,336,054, respectively. The dealers of Mahindra USA, Inc. avail financing facility from Mahindra Finance USA LLC.

NOTE P – FINANCIAL INSTRUMENTS AND CONCENTEATION OF CREDIT RISK

Financial instruments that potentially subject the Company to significant credit risk consist principally of cash and accounts receivable. Risks associated with cash are mitigated by banking with financial institutions that management believes to be of high credit quality. The Company performs ongoing credit evaluations of its dealers and maintains reserves for potential credit losses. To date, such losses have been within management's expectations.

NOTE Q – RISK AND UNCERTAINTIES

The Company's future results of operations involve several risks and uncertainties.

Factors that could affect the Company's future operating results and cause actual results to vary materially from expectations include, competitive factors, including but not limited to pricing pressures; deterioration in general economic conditions; the Company's ability to effectively manage operating costs and increase operating efficiencies; declines in revenues; technological and market changes; the ability to attract and retain qualified employees and the Company's ability to execute on its business plan.

The effects of coronavirus (COVID) and the related actions of governments and other authorities to contain COVID continue to affect the Company's operations, results, cash flows, and forecasts. The future financial effects of COVID are unknown due to many factors. The extent of the impact of coronavirus (COVID 19) outbreak on operations of the Company will depend on future developments, including the duration and spread of the outbreak, related advisories and restrictions, government actions, the impact on financial markets and the overall economy, all of which are highly uncertain and cannot be predicted.

NOTE R – ASSEMBLY AND SERVICE AGREEMENT

The Company has entered into agreements with third party assemblers in Bloomsburg and Olivehurst. (collectively the "Assemblers") for the final assembly of tractors imported from various manufacturers overseas, including M&M. These agreements stipulate that assemblers are to assemble the tractors in accordance with procedures provided by the Company so that the tractors are ready for sale to dealers. The assemblers store inventory owned by the Company in a secure location.

The assemblers are paid based on a piecemeal basis at various rates depending on the respective model and related accessories. These rates are reviewed and negotiated at regular intervals.

The Company has closed its assembly facility in Lyons and Kansas during the fiscal year ended March 31, 2020. Additionally, the Company has closed its assembly facility in Chattanooga and Adstock during the fiscal year ended March 31, 2021.

NOTE S – STOCKHOLDER'S EQUITY

Authorized common stock

The authorized Class A common stock is 460,000,000 shares with a par value of $ 0.25 as at March 31, 2020.

During the year ended March 31, 2021, the Company authorized additional Class B common stock of 693,750,000 shares with a par value of $ 0.16 per share.

Common stock issued

Class A common stock issued and outstanding as at March 31, 2021 and March 31, 2020 was 456,000,000 shares at $ 0.25 par value each.

During the year ended March 31, 2021, the Company issued additional 672,500,000 Class B common shares at $0.16 par value each amounting to $107,600,000.

Voting

Each holder of common stock is entitled to one vote in respect of each share held by him in the records of the Company for all matters submitted to a vote.

Liquidation

In the event of liquidation of the Company, the holders of common stock shall be entitled to receive all of the remaining assets of the Company, after distribution of all preferential amounts, if any. Such amounts will be in proportion to the number of equity shares held by the shareholders.

NOTE T – SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date at which financial statements were issued. There are no material effects of the same on the financial statements as on March 31, 2021.

NOTE U – COMMITMENTS AND CONTINGENT LIABILITIES

The Company is involved in various proceedings which are considered ordinary litigation incident to its business. In management's opinion, adequate provisions have been made for the contingencies and none of the current litigation will have a materially adverse effect on the Company's financial position.

As of March 31, 2021, and March 31, 2020, the Company did not have any capital commitment outstanding.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of

Mahindra México, S. de R. L. de C. V

(A 99.99 % wholly owned Subsidiary of Mahindra USA Inc.)

Opinion

1. We have audited the financial statements of **Mahindra Mexico, S. de R. L. de C. V.** , (the Company), which comprise the statements of financial position as of March 31, 2021, and 2020 the statements of income, statements of changes in Stockholders' equity and the related statements of cash flows for the years then ended as well the notes to the financial statements, including a summary of significant accounting policies.

2. In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of **Mahindra Mexico, S. de R. L. de C. V** as of March 31, 2021, and 2020, and its financial performance and its cash flows for the years then ended in accordance with Mexican Financial Reporting Standards (MFRS).

Basis for Opinion

3. We have conducted our audits in accordance with International Standards on Auditing (ISA). Our responsibilities under these standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of this report. We are independent from the Company in accordance with the "Code of Ethics for Professional Accountants of the International Ethics Standards Board for Accountants" (Code of Ethics of the "IESBA"), together with the ethical requirements that are applicable to our audits. of the financial statements in Mexico by the "Code of Professional Ethics of the Mexican Institute of Public Accountants" ("Code of Ethics of the IMCP") and we have complied with the other ethical responsibilities in accordance with those requirements and with the Code of Ethics of the IESBA. We believe that the audit evidence we have obtained provides a sufficient and appropriate basis for our opinion.

Material uncertainty related to going concern.

4. As mentioned in Note 13 to the accompanying financial statements, as of March 31, 2021, the Company has suffered annually losses, the cumulative net losses until March 31, 2021 hare more than 240 million pesos. Furthermore, the Company has lost more than two of the third parts of the total of its capital stock and, in accordance with Mexican law this may be cause for its dissolution, at the legal request of any interested. Furthermore, Administration considers the probability to do not continue the Mexican operation and close activities or transfer the activities to third part. Probable this will made in a short time. Therefore, Mahindra Mexico, S. de R. L. de C. V. financial statements have included some adjustments for the outcome of this uncertainty. This adjustment was made principally to the inventory value, account receivables and intercompany operations.

   These situations generate uncertainty about the Company's ability to continue operating as a going concern.

Other Matters.

5. As mention Note 2 g) These financial statements are issued for legal and statutory purposes only seems they are stated in the recording currency of the Company, which is the Mexican Peso and have not been translated to its functional currency which is the USD in accordance with MFRS B-15 "Conversion of Foreign Currency's".

6. As mention Note 3 g) as of March 31, 2021 and 2020, the principal purchases was made by the Company with their related parties, which demonstrates a dependence on the supply of the products that Company commercialize, our opinion has not been modified in relation to this situation.

Responsibilities of the Administration and those charged with governance in relation to the financial statements.

7. Management is responsible for the preparation and fair presentation of the financial statements in accordance with MFRS and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

8. In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern including the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

9. Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements.

10. The objectives of our audits are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

11. As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- We Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- We conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- We evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR THEN ENDED AT MARCH 31, 2021 AND 2020

NOTE 1.- ACTIVITY OF THE COMPANY

Mahindra Mexico, S. de R. L. de C. V., (the Company) was incorporated on August 8, 2016 in accordance with Mexican law by public deed number 128,847 in México City, the Company's activities, among others: purchase and sale of all types of tractors, distribution, sale tools for transverse vehicles, as well as accessories and components. The main sales point is in the City of Aguascalientes, Mexico.

Mahindra Mexico, S. de R. L. de C. V., is a 99.99% wholly owned subsidiary of Mahindra USA Inc. a company incorporated in the United States of America (USA).

NOTE 2.- BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

a) The Authorization - On April 30, 2021, C.P. Juan Eduardo Mendez Enguilo, Accounting Manager, approved the issuance of the accompanying financial statements and related notes thereto. In accordance with the General Corporations Law and the bylaws of the Company the stockholders´ are empowered to modify the financial statements after issuance. The accompanying financial statements will be submitted to the next Stockholders' Meeting for approval. a) The Company prepares its financial statements in accordance with Mexican Financial Reporting Standards (MFRS) which are mandatory for all for-profitable entities. These financial reporting standards are issued by the Mexican Council of Financial Information Standards, A.C. (CINIF for its acronym in Spanish).

b) Monetary unit of the financial statements – financial statements and notes as of 31 March 2021 and 2020 and for the years then ended, include balances and transactions in Mexican pesos of different purchasing power.

c) The accumulated inflation of the three previous years at March 31, 2021 has been less than 26%, so in accordance with the Mexican Financial Reporting Standards, corresponds to a non-inflationary economic environment in both years and consequently, the effects of inflation are not recognized in the financial statements.

d) Use of estimates and judgments. - The preparation of financial statements requires Management to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

e) Statement of comprehensive income presentation

The Company presents comprehensive income in a single statement of net income entitled "Statement of Income" given that the Company did not generate Other Comprehensive Income (OCI) during the current year or the preceding year, which is presented for comparative purposes.

f) Statement of cash flows. The Company prepares this financial statement using the indirect method, the operating activities cash flows are determined based on utility or loss before tax income; This amount increased or decreased by the effects of the items associated with investment activities, financing activities and changes that have occurred in the period related to the working capital.

g) Functional and reporting currency. The aforementioned financial statements are presented in Mexican pesos reporting currency, which is the same as the local currency but different from the functional currency and were not remeasured or translated into the functional currency because, such financial statements are issued only for legal and tax purposes.

NOTE 3. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies followed the Company in the preparation of these pre-operating stage financial statements, are in accordance with NIF, and are as follows:

a) Cash and cash equivalents -

Cash in banking accounts in Mexican pesos are expressed at their nominal value. The amounts of cash equivalents denominated in foreign currency are expressed at the current exchange rate.

b) Financial risk management -

The Company has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

Financial risk management policies

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

Credit risk

Accounts receivable, other accounts receivable and accounts receivable with related parties. The Company's exposure to credit risk maybe significant, however the credit policies do not permit ensure the costumers can pay.

Company has a credit policy this apply for each customer this establishing purchase limits, which represent the maximum open amount that does not require special approval. The Company has established criteria based on customer collection expectations to determine the creation of reserves for uncollectible accounts. Personnel from the Corporate Offices take part in the determination of the reservation.

Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing its liquidity consists of ensuring, insofar as possible, that it will have sufficient liquidity to settle its liabilities at the date of maturity, both in normal situations and in extraordinary conditions, without incurring unacceptable losses or jeopardize the reputation of the Company. The principal liabilities are with related parties. The corporative administration reviews the behavior of the operation in Mexico and determine if it should support liquidity.

Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates and interest rates will can affect the Company's income. Prices are determined by Corporate Administration and special discounts too. The corporative administration reviews the behavior of the operation in Mexico and determine if it should support liquidity.

Currency risk

The exchange rate risk arises when the Company carries out operations and maintains monetary assets and liabilities in currencies other than its functional currency. Corporate Administration periodically evaluate the effects and take action if its necessary.

Interest rate risk

Fluctuations in interest rates mainly impact the loans contracted by the Company, as well as long term Accounts Receivable. Management does not have a formal policy to determine how much of the Company's exposure should be at a fixed or variable rate. The principal issue is the interest rate associate with related with related parties' loans, "thin capitalization".

c) Accounts receivable and revenue recognition -

Sale of tractors and spare parts. The Company recognizes enforceable rights derived from the sale and transfer of the risks and benefits of products, which regularly happens to the delivery or shipment them to customers or related parties.

Revenue and receivables are recorded net of estimates for returns and doubtful accounts, respectively.

The Company have a politics to establish an estimate for credit losses in order to cover the balances of the accounts that are considered of doubtful collection taking into account the historical experience and the specific identification of the balances.

The Management in the main offices has evaluated the need to recognize and register a reservation on the discounts that are granted to the costumers when selling tractors used for the demonstration or those that are returned by the clients.

d) Inventories and cost of sales.

Inventories are stated at lower of cost and net realizable value. Cost is comprised of acquisition cost, import duties, transport, handling and storage cost. Cost of inventories (tractors) are determinate by using the identified cost method.

The Company have a politics to establish an estimate for obsolete inventory or damaged inventory. The basis for determine the estimate consider physical condition of the tractors and considering the historical sales experience.

e) Furniture equipment and depreciation.

Depreciation and amortization are calculated by the straight-line method based on estimated the useful lives of the assets, estimated by the Company:

	%
Equipment	10
Office equipment	10
Computer equipment	30

f) Lease. -

The classification of leases as financial or operating depends on the substance of the transaction rather than the form of the contract.

Accounting policy that applies from January 1, 2019

The Company considers a lease to be operational when it does not transfer substantially all the risks and benefits inherent in the ownership of the underlying asset (asset subject to a lease, whose right of use has been granted by a lessor to a tenant).

Short-term leases and low-value asset leases

The Company has decided not to recognize right-of-use assets and lease liabilities for low-value assets and short-term leases. The Company recognizes the lease payments associated with these leases as an expense during the lease term.

g) Business concentration. -

As of March 31, 2021 and 2020, the principal purchases was made by the Company with their related parties, which demonstrates a dependence on the supply of the products that Company commercialize, our opinion has not been modified in relation to this situation.

h) Accruals. -

Are determined and recorded when the Company has a present obligation as a result of a past event, which is likely to result in the outflow of economic resources and which can reasonably be estimated.

i) Income Taxes. -

Income Tax (ISR for its acronym in Spanish) is recorded in results in the year incurred. The deferred income tax is recognized under the asset and liability method.

Deferred tax is calculated by applying the corresponding rate to the temporary differences resulting from comparing the accounting and tax values of assets and liabilities, and if applicable, benefits from tax loss carryforwards and certain tax credits are included.

The deferred tax assets is recorded only when there is a high probability of recovery.

j) Prepaid expenses. -

Mainly includes advances for the purchase of services that are received after the date of the statement of financial position and in the ordinary course of operations.

k) Foreign currency transactions. -

Foreign currency transactions are recorded at the exchange rate at the date on which they are carried out. Foreign currency denominated assets and liabilities are stated in local currency at the current exchange rate at the closing date.

Foreign exchange differences resulting from exchange rate fluctuations between the dates on which transactions are carried out and the dates on which they are liquidated or valued at the balance sheet date are charged as income of the year.

INDEPENDENT AUDITORS' REPORT ON THE FINANCIAL STATEMENTS

To the
Officers of
Mahindra do Brasil Industrial Ltda.
Dois Irmãos – RS

Opinion

We have verified the financial statements of **Mahindra do Brasil Industrial Ltda**., which comprise the balance sheet as of March 31st, 2020 and the related income statements, statements of changes in stockholders' equity and cash flows for the year then ended, as well as the summary of the main accounting practices and other explanatory notes.

In our opinion, the financial statements referred above present properly, in all material respects, the equity and financial position of **Mahindra do Brasil Industrial Ltda.** on March 31st, 2021, the performance of its operations and cash flows for the year then ended, in accordance with accounting practices adopted in Brazil.

Basis for opinion

Our audit was conducted in accordance with Brazilian and international audit standards. Our liabilities, in accordance with such standards, are described in the following section named "Auditor's Liabilities for an audit of financial statements." We are independent of the company, in accordance with the relevant ethical principles set forth in the Professional Code of Ethics of the Accountant and the professional standards issued by the Federal Accounting Council, and we comply with the other ethical liabilities in accordance with such standards. We believe that the audit evidence obtained is enough and proper to substantiate our opinion.

Another Subjects

Prior year audit

The financial statements of Mahindra do Brasil Industrial Ltda. for the year ended March 31st, 2020 were verified by us and our report was issued on April 15th, 2020 without modifications and emphasis.

Board and governance liabilities as to the financial statements

The board is liable for the preparation and proper presentation of the financial statements in accordance with the accounting practices adopted in Brazil, and for the internal controls that it has determined as required to enable the preparation of financial statements free of material misstatement, whether caused by fraud or error.

In preparing the financial statements, the board is liable for assessing the Company's ability to remain operating, disclosing, as applicable, the matters related to its operational continuity and the use of this accounting basis in the financial statements preparation, unless the board intends to liquidate the Company or cease its operations, or has no practical alternative to avoid closing the operations.

The people in charge of the Company's governance are those liable for supervising the financial statements preparation process.

Liabilities of the auditor for the financial statements audit

Our purposes are to obtain a reasonable security that the financial statements, taken as a whole, are free from material misstatement, whether caused by fraud or error, and to issue an audit report containing our opinion. Reasonable security is a high level of security, but not a guarantee that the audit carried out in accordance with Brazilian and international audit standards will always find any relevant material misstatements. Distortions may occur due to fraud or error, and are considered relevant when, jointly or severally, might influence, within a reasonable perspective, the economic decisions of the users taken based on the said financial statements.

As part of the audit carried out in accordance with Brazilian and international audit standards, we exercise a professional judgment and keep a professional skepticism during the audit. In addition:

- We identify and assess the risks of material misstatement in the financial statements, whether caused by fraud or error, plan and perform audit procedures in response to such risks, and obtain a proper and enough audit evidence to substantiate our opinion. The risk to fail to find a material misstatement resulting from fraud is higher than the risk resulting from error, since fraud may involve the circumvent of internal controls, collusion, falsification, omission or false intentional representations.
- We obtain an understanding of the relevant internal controls to the audit, in order to plan the proper audit procedures to the circumstances, but not for the purpose to express an opinion on the efficiency of the Company's internal controls.
- We assess the adequacy of the accounting policies used and the reasonability of the accounting estimates and respective disclosures carried out by the board.
- We conclude on the adequacy of the use, by the board, of the accounting basis for operational continuity and, based on the audit evidence obtained, that there is a material uncertainty regarding events or conditions that may raise significant doubts regarding the Company's operational continuity ability. If we conclude that there is material uncertainty, we should emphasize in our audit report the respective disclosures in the financial statements or include any change in our opinion, in case the disclosures are proper. Our conclusions are based on the audit evidence obtained until the date of our report. However, future events or conditions may cause the Company to refrain to continue its operations.
- We assess the overall presentation, structure and contents of financial statements, including disclosures, and that the financial statements represent the related transactions and events in a manner consistent with the proper purpose of the presentation.

We communicate with the people in charge of the governance about, among others, the planned scope, audit timing and significant audit findings, including any significant weaknesses in the internal controls identified by us during our work.

Porto Alegre, RS, April 23, 2021.

BOARD'S EXPLANATORY NOTES FOR THE FINANCIAL STATEMENTS

FOR THE YEARS ENDED ON MARCH 31ST, 2021 AND 2020

IN THOUSANDS OF BRAZILIAN REAIS

1. Operational Context

Mahindra do Brasil Industrial Ltda is a Brazilian company with principal place of business in Dois Irmãos, RS, at Rua 10 de Setembro, 1097, Downtown. The company was incorporated on January 14th, 2016.

The company's main purpose is the Manufacture of Agricultural Tractors, Parts and Accessories, as well as the wholesale of new and used automobiles, vans and utility vehicles; retail trade of new automobiles, vans and utility vehicles; retail trade of parts and accessories used for motor vehicles; wholesale of machinery, devices and equipment for agricultural use; parts and pieces; maintenance and mechanical repair services of motor vehicles; installation of industrial machinery; manufacture of other equipment and devices not specified before; wholesale of new parts and accessories for motor vehicles; other private-equity firms, except holding companies; Other service activities rendered mainly to companies not specified above; Motor vehicle headlamp and hopper and painting services.

2. Summary of main accounting policies

The main accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied in all years presented, unless otherwise stated.

These financial statements were approved by the board of directors on March 31st, 2021.

2.1 Basis for preparation

The preparation of financial statements requires the use of certain critical accounting estimates and the judgment by the board in the process of applying the Company's accounting policies. Those areas requiring a higher level of judgment and more complex areas, as well as the areas in which assumptions and estimates are significant for the financial statements, are disclosed in Note 2.15.

(a) Financial Statements

The financial statements were prepared in accordance with accounting practices adopted in Brazil, including pronouncements, guidelines and interpretations issued by NBC TG in accordance with Laws 6.404/1976 and 11.638/2007.

2.2 Exchange of foreign currency

Functional currency and presentation currency

The items included in the Company's financial statements are measured using the currency of the main economic environment where the Company operates ("the functional currency"). The financial statements are presented in Reais (BRL, which is the Company's functional currency.

Foreign currency transactions

Foreign currency transactions are exchanged to Brazilian Real by the exchange rates of the transaction dates. Monetary assets and liabilities denominated and assessed in foreign currencies in the presentation date are exchanged to the functional currency in the exchange rate calculated on that date. The exchange gain or loss on monetary items is the difference between the amortized cost of the functional currency at the beginning of the period, adjusted for interest and actual payments during the period, and the amortized cost in foreign currency in the exchange rate at the end of the presentation period. Foreign currency differences resulting from the new exchange are recognized in income.

2.3 Income assessment

The income of operations is assessed in accordance with the accounting method basis.

2.4 Cash and cash equivalents

They are comprised of the financial resources held in cash, banks, current accounts and financial investments. The financial investments are assessed at cost, plus earnings obtained until the balance sheet date. These financial instruments are used for trading and recorded in realizable values (Note 4).

2.5 Financial instruments

Classification and measurement

The Company classifies its financial assets under the following categories: loans and receivables are measured in the fair value through the income. The classification depends on the purpose for which the financial assets were acquired. The board determines the classification of its financial assets in the initial recognition.

Loans and receivables

Included in this category are the receivables that are non-derivative financial assets with fixed or determinable payments not quoted in an active market. They are included in current assets, except for those with a maturity higher than 12 months as of the balance sheet base date (these are classified in non-current assets). The Company's receivables comprise accounts receivable from customers, other accounts receivable and cash and cash equivalents, except for short-term investments. The receivables are recorded on the amortized cost using the effective interest rate method.

Financial assets measured in the fair value through the income

The financial assets measured in the fair value through the income are financial assets held for an active and frequent trading. The assets of this category are classified in current assets. Gains or losses arising from variations in the fair value of financial assets measured in the fair value through the income are presented in the income statement under "Financial income" in the period in which they occur. They refer primarily to short-term financial investments.

2.6 Non-derivative financial liabilities

The Company recognizes debt securities issued and subordinated liabilities initially on the date that they are originated. All other financial liabilities are initially recognized on the trade date on which the Company becomes a party to the contract provisions of the instrument. The Company writes-off a financial liability when it has its contract obligations are withdrawn, canceled or expired.

Financial assets and liabilities are offset, and the net amount is presented in the balance sheet only when the Company is legally entitled to offset the value and intends to settle on a net basis or to realize the asset and pay the liability simultaneously. The Company has the following non-derivative financial liabilities: loans with related parties, suppliers, loans and other accounts payable.

Such financial liabilities are initially recognized in the fair value plus any attributable transaction costs. After the initial recognition, such financial liabilities are measured on the amortized cost using the effective interest method.

2.7 Inventory

The cost of inventories is based on the weighted average principle and includes expenses incurred in the acquisition of inventories, production and transformation costs and other costs incurred in bringing them to their existing locations and conditions.

Net realizable value is the estimated sale price in the ordinary course of business, less estimated costs of completion and sale expenses.

BOARD'S EXPLANATORY NOTES FOR THE FINANCIAL STATEMENTS

FOR THE YEARS ENDED ON MARCH 31ST, 2021 AND 2020

IN THOUSANDS OF BRAZILIAN REAIS

2.8 Fixed Assets

(a) Recognition and measurement

The Company chose to reassess the fixed assets in the deemed cost on October 31st, 2016. The effects of the attributed cost decreased the fixed assets corresponding to the net equity, net of tax effects (Note 10).

After the transition of the NBC TG's, the items of fixed asset are measured according to the history cost of acquisition or construction, less accumulated depreciation and accumulated impairment losses.

The cost includes expenses that are directly attributable to the acquisition of an asset. The purchased software that is an integral part of the functionality of an equipment is capitalized as part of that equipment.

Gains and losses on the sale of an item of the fixed asset are determined by comparing the proceeds from the sale with the book value of fixed asset and are recognized net of other revenues in the statement of income.

(b) Subsequent costs

The replacement cost of a component of the fixed asset is recognized in the book value of the item if it is probable that the economic benefits incorporated into the component will flow to the Company and that its cost can be reliably measured. The book value of the component been replaced by a third party is write-off. The maintenance costs of the fixed asset are recognized in the income statement as incurred.

(c) Depreciation

The depreciation is recognized in the statement of income based on the straight-line method concerning the estimated useful lives of each part of an item of the fixed asset, since this method is the one that closely reflects the consumption pattern of future economic benefits incorporated in the asset.

2.9 Impairment

The Company analyzes the existence of evidence that the book value of an asset will not be recovered. If any evidence is identified, the Company estimates the recoverable amount of the asset. The recoverable value of an asset is the higher between: (a) its fair value less costs that would be incurred to sell it, and (b) its use value. The use value is equivalent to the discounted cash flows (before taxes) derived from the continuous use of the asset until the end of its useful life.

When the remaining book value of the asset exceeds its recoverable amount, the Company recognizes a reduction in the book value of this asset (impairment). For the assets recorded on cost, the impairment is recorded in the income statement for the period. If the recoverable amount of an asset is not determined individually, it is carried out the analysis of the recoverable value of the cash-generating unit to which the asset belongs.

2.10 Provisions

A provision is recognized based on a past event and whether the Company has a legal or constructive obligation that can be reliably estimated, and it is probable that an economic resource is required to settle the obligation. Provisions are cleared by discounting expected future cash flows in a pre-tax rate reflecting current market assessments as to the value of money in time and specific risks for liabilities.

Financial liabilities are classified as financial liabilities in a fair value through the income, as the case may be. The Company determines the classification of its financial liabilities at the time of its initial recognition. The Company's financial liabilities include accounts payable to suppliers, tax and labor obligations.

2.11 Stock capital

All shares are paid-in and classified as net equity. The mandatory minimum dividends, as applicable, as defined in the articles of organization are recognized as liabilities.

2.12 Operational revenue

The operational revenue from the sale of goods in the ordinary course of business is measured in the fair value of the consideration received or receivable. The operational revenue is recognized when there is a convincing evidence that: i) the most significant risks and benefits inherent to the ownership of the assets have been transferred to the buyer, which, in the case of the Company, is at the time that the products are delivered to its customers; ii) it is probable that the financial economic benefits will flow to the Company; iii) that the associated costs and possible return of goods can be reliably estimated, iv) that there is no continuous involvement with the goods sold, v) and that the operational revenue value can be reliably measured. If it is probable that discounts will be granted and the amount can be reliably measured, then the discount is recognized as an operational revenue decrease as the sales are recognized.

2.13 Revenues and financial expenses

The financial revenues basically comprise the revenues of income, discounts, earnings from financial investments and gains from exchange variation.

The financial expenses include interest expenses, financial expenses and loans and financing, as well as the respective exchange variations in liabilities.

2.14 Income tax and social contribution

The current and deferred income tax and social contribution are calculated based on the rates of 15%, plus an additional 10% on exceeding taxable profit of BRL 240 thousand for income tax and 9% on taxable income for social contribution. Their calculation considers the offset of tax losses and negative basis of social contribution, limited to 30% of the actual profit.

2.15 Critical accounting estimates and judgments

The accounting estimates and judgments are continuously assessed and are based on the history experience and other factors, including expectations of future events, which are considered reasonable for the circumstances.

Based on such assumptions, the Company carries out estimates on the future. By definition, the resulting accounting estimates will rarely be equal to their actual incomes. Estimates and assumptions presenting a significant risk, with a probability of causing a material adjustment in the book values of assets and liabilities for the next fiscal year, are contemplated below.

3. Cash and Cash Equivalents

	03/31/2021	03/31/2020
Cash	**1**	5
Current account	**38**	83
Financial investments	**4,035**	1,058
	4,074	1,146

The Company carries out financial investments in large financial institutions aiming at creating financial earnings while resources are not used. The investments in Brazilian Real are carried out in CDB's issued by the bank and buyback operations; the buyback is an investment in debentures of the bank leasing with daily liquidity, and guarantees the repurchase by the bank.

13. Contingency

The Company is part of labor and civil procedures. For those actions which loss was considered as probable, if applicable, the respective provision for losses was fully registered. For a possible loss, 50% of the estimated value was provisioned.

The civil provisions refer mainly to the causes with representatives, while the labor provisions refer substantially to labor procedures of several former employees of the Company.

On March 31st, 2021, the company has the amount of BRL 723.2 in actions of labor and civil nature, involving the risk of a possible loss, as classified by the board and its legal advisors.

The company holds the process No. 5016813-20.2019.4.04.7108 against the Brazilian National Revenue Service, concerning the exclusion of ICMS of the PIS/COFINS tax base. In 2018, its appeal was judged in December, with the action applicability, upon publication of the Appellate Decision on January 2019, the action did not become final yet. The board is not using the right to use such credits, since there is still points to be clarified on the calculation manner.

14. Tax Losses and Negative Basis

The company's balance is BRL 53.254 for tax loss and negative basis of social contribution, such credits represent the right to constitute the differed tax credits in the amount of BRL 18.106, which are activated, based on the expectation to create a future tax income. Such credits are realized by the compensation of its basis, limited to 30% of the taxable profits in the subsequent years. Taxable credits were not constituted on the temporary tax differences, and those are the provision for losses in inventory, provision for guarantees, several provisions and long-term provisions.

On an annual basis, the board assesses such expectation of future taxable profits and, when it identifies its recoverability, it shall proceed with the adjustments required to bring the value of the said credits registered to their probable realization value. The deductible temporary differences do not prescribe the agreement with the current tax legislation.

15. Net equity

a) Stock Capital

On March 31st, 2021, the paid-in capital was represented by 60,975,100 stocks, with a par value of BRL 1.00 (one Brazilian Real) each, shared between the partners as follows:

	03/31/2021	03/31/2020
Mahindra & Mahindra Ltd.	**60,911**	23,974
Mahindra Overseas Investment Company (Mauritius)	**64**	64
	60,975	24,038

b) Adjustments to the equity valuation

The reserve for adjustments to the equity valuation includes adjustments for the adoption of the attributed cost of assets at the transition date.

c) Dividends

The Company's Articles of Organization determine the distribution of dividends in the proportion approved by the partners holding the majority of the capital stock. The Company had no dividends payable in the year, because it had losses.

16. Revenues

	03/31/2021	03/31/2020

21. Insurances

The board of the companies adopts the policy to execute insurance contracts for your the headquarters of the Companies, which coverage are considered enough by Board and insurance agents to deal with the competition of insurance claims, and the board is liable for defining the risk assumptions adopted.

22. Financial risk management

(a) Overview

The Company is exposed to the following risks arising from the use of financial instruments:

- Credit risks
- Liquidity risks
- Market risks
- Currency risk
- Operational risks

We present information on the Company's exposure to each of the risks mentioned above, the Company's purposes, policies and processes for measurement and risk management, and the Company's capital management. Additional quantitative disclosures are included over these financial statements.

(b) Risk management structure

The board is globally liable for the establishment and supervision of the Company's risk management structure. The risk management policies are established to identify and analyze the risks faced by the Company, to define proper risk limits and controls, and to monitor risks and adherence to limits. The risk management policies and systems are often reviewed to reflect the changes in market conditions and in the Company's activities. The Company, through its training and management standards and procedures, has the purpose to develop a disciplined and constructive control environment where all employees understand their roles and obligations.

(c) Credit risks

Credit risk is the risk of the Company's financial loss if a customer or counterparty of a financial instrument fails to comply with its contract obligations, which arise mainly from customer receivables and investment bonds.

Receivables accounts from customers and other credits

The Company's exposure to the credit risk is mainly influenced by the individual characteristics of each customer. However, board also considers the demographics of the customer base, including the credit risk of the region where clients operate, since these factors may influence the credit risk.

The Board has established a credit policy in which all new customers have their credit capacity individually analyzed before the Company's terms and conditions of payment and delivery are provided. The analysis includes external evaluations, when available, including prior analysis of the bank registration carried out by the financial institutions. The purchase limits are set for each customer, guaranteed by the financial institutions, which represent the maximum outstanding amount without requiring prior approval, these limits are periodically reviewed. Customers who fail to meet the established credit limit may only operate with the Company on an advanced payment basis. Once the transaction is approved by the financial institution, the sale is carried out and the risk becomes entirely on the financial institution.

In the Customers' credit risk monitoring, they are grouped according to their credit characteristics, including geographic location, maturity and previous financial difficulties.

(d) Liquidity risks

Liquidity risks is the Company's risk to find difficulties to comply with its obligations associated with its financial liabilities that are settled with payments on demand or another financial asset. The Company's approach as to the liquidity management is to ensure as much as possible that it always has enough liquidity to meet its obligations to mature, under normal and stressful conditions, without causing unacceptable losses or risks to damage the Company's reputation.

BOARD'S EXPLANATORY NOTES FOR THE FINANCIAL STATEMENTS

FOR THE YEARS ENDED ON MARCH 31ST, 2021 AND 2020

IN THOUSANDS OF BRAZILIAN REAIS

Based on the calculation of the Liquidity indexes, the current liquidity index corresponds to 0.96 on March 31st, 2021, and such result shows a balance in a possible liquidation on short-term obligations.

(e) Market risks

Market risk is the risk that changes in market prices, such as exchange rates, interest rates and stock prices, may impact the Company's gain or the value of its ownerships in financial instruments. The purpose of the market risk management is to manage and control exposures to market risks, within acceptable parameters, while the return is optimized.

The Company complies with financial obligations to manage market risks. All these operations are conducted within the guidelines established by the Board.

(f) Currency risks

The Company is subject to currency risk in purchases and loans and financing denominated in a currency other than its functional currency, the Brazilian Real (BRL). The currency in which these transactions are primarily denominated is the US dollar.

With respect to other monetary assets and liabilities denominated in foreign currency, the Company guarantees that its net exposure is maintained within an acceptable level to handle with short-term instabilities.

(g) Operational risks

Operational risks are the risks of direct or indirect losses arising from a variety of causes associated with processes, staff, technology and infrastructure of the Company, as well as external factors, except for credit, market and liquidity risks, such as those arising from legal and regulating requirements and generally accepted standards of business behavior. Operating risks arise from all operations of the Company.

The Company's purpose is to manage operational risks, in order to avoid the occurrence of financial losses and damages to its reputation, as well as to seek cost efficiency and to avoid control procedures that restrict the initiative and creativity.

The main liability for the development and implementation of controls to handle with operational risks is assigned to senior management. The liability is supported by the development of the Company's general standards for the management of operational risks in the following areas:

- Requirements for proper segregation of duties, including independent authorization of operations;
- Requirements for the reconciliation and monitoring of operations;
- Compliance with regulating and legal requirements;
- Documentation of controls and procedures;
- Requirements for the periodic assessment of operational risks faced and the adequacy of controls and procedures to handle with identified risks;
- Requirements to report operational losses and corrective actions proposed;
- Development of contingency plans;
- Professional training and development;
- Ethical and commercial standards;
- Risk mitigation, including insurance when effective.

(h) Capital management

The Board has been monitoring the loss created by the operation, in order to mitigate its causes and to create returns on capital, which the Company defines as results of operational activities divided by total net equity.

The shareholders provide payments in advance for future capital increases when necessary and/or contributions to maintain the cash flow and keep the investments, whichever is more profitable for the Company.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Hisarlar Makina Sanayi ve Ticaret A.Ş.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Hisarlar Makina Sanayi ve Ticaret A.Ş. ("the Company") and its subsidiary ("the Group"), which comprise the consolidated statement of financial position as at 31 December 2020, and the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2020, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

Without qualifying our opinion, as described in Note 2.3 to the consolidated financial statements, we draw attention to the fact that the Group has completed the period ended 31 December 2020 with a net loss of TL 46.198.063 (31 December 2019: TL 57.089.186), accumulated losses has reached TL 148.008.701 (31 December 2019: TL 250.919.518. The actions taken by the management in 2020, regarding the aforementioned fact and the plans for the future periods are explained in detail in Note 2.3.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Issues	How the Issues Dealt with in the Audit
Recording Revenue Revenue is accounted under the 5-stage model defined by IFRS 15. The main element in recording the revenue is the invoicing according to the contract and all performance obligations determined by the Group. In accordance with the periodicity of sales principle, it has been determined as a key audit issue that the revenues of product sales that have not yet been sold are not recorded in the correct period. The Group's revenue for 2020 is TL 238.704.539 (2019: TL 197.133.387). Explanations on the Group's accounting policies and amounts regarding revenue are included in Footnote 2 and Footnote 17.	During our audit, the following audit procedures have been applied regarding the recording of revenue: - The design and implementation of the controls applied by the Management in the process of recording the revenue in the correct period and the risk of correct invoicing has been tested. - Provisions regarding product delivery in sales transactions with customers have been examined and the timing of the revenue to be included in the financial statements has been evaluated. - Substantive verification procedures focused on the assessment of whether the income was billed correctly and whether it was recorded in the correct period. The list of the customers to whom the Group sells products has been obtained from the relevant departments. Tests have been completed to check the completeness and accuracy of these lists. - In addition, within the scope of the above-mentioned special accounting, we evaluated the appropriateness of the information provided in the financial statements and the explanatory footnotes regarding this issue, and the adequacy of the explanations made.

Other Matters

The audit of the financial statements of the Group, prepared in accordance with TAS for the accounting period of 1 January-31 December 2019, was conducted by another independent audit firm and positive opinion was given in the independent audit report dated 30 September 2020.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

The accompanying notes are an integral part of these consolidated financial statements.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2020

Amounts are expressed in Turkish Lira (TL)

1. ORGANIZATION AND OPERATIONS OF THE GROUP

Hisarlar Makina Sanayi ve Ticaret A.Ş. (the “Company” or “Hisarlar Makina”) was established in 1973. The address of Hisarlar Makina’s registered office is: Eskişehir - Bursa Yolu 20. km. 26550 M. Çukurhisar, Eskişehir, Turkey.

Following the production of the tractor safety cab in Turkey in 1974, the first serial production has started in 1977. Hisarlar Makina started its first export activities of safety cabs to Netherlands in 1985 and to Austria in 1987. Hisarlar Makina realizes export sales over Hisarlar Pazarlama. In 2006, shareholders established Hisarlar Kabin in order to carry out production of tractor safety cabs and agricultural machines within the newly established company. After this demerge, Hisarlar Makina started to specialize in the production of welded components. As of 2 January 2012, Hisarlar Makina has been remerged with Hisarlar Kabin. Hisarlar Makina’s customers include manufacturers operating mainly in agriculture, construction, textile and automotive sectors. Additionally, Hisarlar Makina provides engineering support, design, prototyping, serial production, painting and final assembly to its customers.

As of 18 December 2012 the Company and its shareholders signed a loan agreement with European Bank for Reconstruction and Development (“EBRD”) and Nakina Finance S.A.R.L. (“Nakina”) (together the “Investors”). Depending upon this loan agreement, the shareholders of the Company has transferred 15.7% of their shares in the Company to EBRD and Nakina. According to the shareholders agreement signed between the parties, Investors have put option in order to transfer back the shares in the period starting from 1 January 2020 to 31 May 2020 when the repayments of the loans are finalized and the annual financial statements for the year ending 31 December 2019 are delivered to the Investors. The Group was experiencing liquidity problems due to the delays on its collections. Accordingly, as of 31 August 2016, the Group was unable to pay its cheques. Subsequently, some banks have recalled their loans commencing September 8th, 2016. Together with the recall of the loans, notification has been sent to all suppliers and customer in accordance with Article 89/1 of the Execution and Bankruptcy Law. Some suppliers have started to apply legal follow-up. Following all these developments, the Group was involved in the strategic partnership process and signed a Letter of Interest. During 2017, the Group has completed strategic partnership agreement with Mahindra Overseas Investment (“Mahindra”). Following the completion of this agreement, all borrowings including EBRD and Nakina loans that were subject to covenants are paid on 30 March 2017. Also Mahindra became new ultimate controlling party for the Group with 75% shares.

The Company has acquired 90% of the shares of Hisarlar Pazarlama İthalat ve İhracat A.Ş. (“Hisarlar Pazarlama”) from the shareholders of the Company on 14 August 2012. Hisarlar Pazarlama was under common control by the Company since the beginning of its operations until March 2017. In March 2017, the Company has acquired remaining 10% of Hisarlar Pazarlama shares. In addition, Hisarlar Kabin has been merged with Hisarlar Makina on 2 January 2012 as stated above.

Hisarlar Pazarlama started its operations in 2003 and operates in the import and export, marketing and market research activities of the products of Hisarlar Makina. Hisarlar Pazarlama mainly makes exports of different vehicles, machines and components to Europe and other continents of the world. Hisarlar Pazarlama’s customers include firms producing agricultural machines, construction machines, material handling equipments, special purpose vehicles, textile machines, medical equipment and automotives manufacturers. The address of the Hisarlar Pazarlama’s registered office is: Eskişehir - Bursa Yolu 20. km. 26550 M.Çukurhisar, Eskişehir, Turkey.

As of 31 December 2020, the Group employed 578 people (31 December 2019: 575).

The financial statements for the period January 01 - December 31, 2020 were signed Board of Directors on May 20, 2021. The General Assembly has the authority to change financial statements.

2. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

2.1 Basis of Presentation

The consolidated financial statements have been prepared on the historical cost basis except for the fair measurement of certain non-current assets.

In order to determine the historical cost, the fair values paid for assets are considered.

2.2 Statement of Compliance

The consolidated financial statements have been prepared in accordance International Financial Reporting Standards (“IFRS”).

2.3 Going Concern Assumptions and Management Plans

The consolidated financial statements of the Group are prepared on a going concern basis, which presumes the realization of assets and settlement of liabilities in the normal course of operations and in the foreseeable future. As of 31 December 2020, the Group’s short-term liabilities has not exceed its current assets (31 December 2019: TL 89.740.060) based on the accompanying consolidated financial statements. In addition, the Group has completed the period ended 31 December 2020 with a net loss of TL 46.198.063 (31 December 2019: TL 57.089.186), total accumulated losses has reached TL 148.008.701 (31 December 2019: TL 250.919.518). Together with the effect of the accumulated losses and period loss, total of capital and restricted profit reserves is unsecured in accordance with Article 376 of Turkish Commercial Law. As of 31 December 2016, the Group had experienced liquidity problems due to the negative impact of the increase in foreign exchange rates on its loans and the negative operating income due to the maturity increases in sales transactions. Meanwhile, some loans of the Group were subject to certain covenants due to the contracts. According to these covenants, Group shall achieve some performance criterion and shall satisfy spesific qualitative and quantitative criterion. As of 31 December 2016, the Group was in breach regarding certain loan covenants and no waiver letter had been provided regarding these breaches. Some creditors also had recalled their loans since the Group could not fulfill its payment obligations. The Group was involved in the strategic partnership process and signed a Letter of Interest. During 2017, the Group has completed strategic partnership agreement with Mahindra Overseas Investment (“Mahindra”). Following the completion of this agreement, all borrowings including EBRD and Nakina loans that were subject to covenants are closed on 30 March 2017. Mahindra became new ultimate controlling party for the Group with 75,1% ownership. Also, in 2018, the Group’s paid-in capital has increased by TL 70.000.000 (2017: TL 63.732.770) and Mahindra’s ownership has increased to 77,18%. Meanwhile there was an increase in paid-in capital of the Group amounting to TL 120.000.000 during 2019 and Mahindra’s ownership has increased to 86,8%. In addition, there was an increase of TL 120.000.000 simultaneously with the reduction of the Group’s capital by TL 160.000.000 in 2020, and the share of Mahindra reached 93.28%. The revenues of the Group was TL 177.726.620 in 2018, TL 197.133.387 in 2019 and TL 227.467.451 in 2020. The group has increasing orders from customers in Metal Fabrication and Agriculture Machinery. As a results of these developments, the Group Management believes that the financial indicators of the Group will be positive and it can continue for the forseable future. The Group foresees an increase of 70% in exports and 30% in the domestic market with new countries and projects added to its portfolio in the 2021 sales budget.

2.4 Functional Currency

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in Turkish Lira, which is the functional, and presentation currency of the Company and the reporting currency for the consolidated financial statements.

2.5 Comparative Information and Restatement of Prior Period Consolidated Financial Statements

Consolidated financial statements of the Group have been prepared comparatively with prior period in order to give information about financial position and performance trends. If the presentation or classification of the financial statements is changed, in order to maintain consistency, financial statements of the prior periods are also reclassified in line with the related changes. The Group do not have any material reclassifications and corrections in current year.

2.6 Basis of Consolidation

As of 31 December 2020 and 31 December 2019, details of the Company's subsidiary are as follows:

Subsidiary	Group's proportion of ownership and voting power held (%) 2020	2019	Place of incorporation and operation	Principle activity
Hisarlar Pazarlama	100	100	Eskişehir	Trading

The accompanying consolidated financial statements include the financial statements of the Company and entity controlled by the Company (its subsidiary). Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

When the Company has less than a majority of the voting rights of an investee, it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Company considers all relevant facts and circumstances in assessing whether or not the Company's voting rights in an investee are sufficient to give it power, including:

- the size of the Company's holding of voting rights relative to the size and dispersion of holdings of the other vote holders;
- potential voting rights held by the Company, other vote holders or other parties;
- rights arising from other contractual arrangements; and
- any additional facts and circumstances that indicate that the Company has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings.

Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Company gains control until the date when the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiary is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

Where necessary, adjustments are made to the financial statements of subsidiary to bring their accounting policies into line with those used by other members of the Group.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

2.7 Changes in the Accounting Policies

The signficant changes that were made on accounting policies applied retrospectively and the financial statements of preceding period are restated. No changes has been observed at the accounting policies of the Group in the current year.

2.8 Changes in Accounting Estimates and Errors

If changes in accounting estimates are related to only one period, the changes are applied prospectively in the current period in which changes are made. If changes in accounting estimates are related to future periods, the changes are applied prospectively both in the current period in which changes are made and also in future periods. No changes has been observed at the accounting estimates of the Group in the current year.

The accounting misstatements which are identified are applied retrospectively and consolidated financial statements of preceding period are restated. No material misstatement has been observed in order to restate the financial statements of the Group in the current year.

2.9 New and Amended International Financial Reporting Standards

a) Standards, amendments and interpretations applicable as at 31 December 2020:

Amendments to IAS 1 and IAS 8 on the definition of material; effective from Annual periods beginning on or after 1 January 2020. These amendments to IAS 1, 'Presentation of financial statements', and IAS 8, 'Accounting policies, changes in accounting estimates and errors', and consequential amendments to other IFRSs:

i) use a consistent definition of materiality throughout IFRSs and the Conceptual Framework for Financial Reporting;

ii) clarify the explanation of the definition of material; and

iii) incorporate some of the guidance in IAS 1 about immaterial information.

Amendments to IFRS 3 - definition of a business; effective from Annual periods beginning on or after 1 January 2020. This amendment revises the definition of a business. According to feedback received by the IASB, application of the current guidance is commonly thought to be too complex, and it results in too many transactions qualifying as business combinations.

Amendments to IFRS 9, IAS 39 and IFRS 7 – Interest rate benchmark reform; effective from Annual periods beginning on or after 1 January 2020. These amendments provide certain reliefs in connection with interest rate benchmark reform. The reliefs relate to hedge accounting and have the effect that IBOR reform should not generally cause hedge accounting to terminate. However, any hedge ineffectiveness should continue to be recorded in the income statement. Given the pervasive nature of hedges involving IBOR-based contracts, the reliefs will affect companies in all industries.

Amendment to IFRS 16, 'Leases' – Covid-19 related rent concessions; effective from Annual periods beginning on or after 1 June 2020. As a result of the coronavirus (COVID-19) pandemic, rent concessions have been granted to lessees. Such concessions might take a variety of forms, including payment holidays and deferral of lease payments. On 28 May 2020, the IASB published an amendment to IFRS 16 that provides an optional practical expedient for lessees from assessing whether a rent concession related to COVID-19 is a lease modification. Lessees can elect to account for such rent concessions in the same way as they would if they were not lease modifications. In many cases, this will result in accounting for the concession as variable lease payments in the period(s) in which the event or condition that triggers the reduced payment occurs.

b) Standards, amendments and interpretations that are issued but not effective as at 31 December 2020:

IFRS 17, 'Insurance contracts'; effective from annual periods beginning on or after 1 January 2023. This standard replaces IFRS 4, which currently permits a wide variety of practices in accounting for insurance contracts. IFRS 17 will fundamentally change the accounting by all entities that issue insurance contracts and investment contracts with discretionary participation features.

Amendments to IAS 1, Presentation of financial statements' on classification of liabilities; effective from 1 January 2022. These narrow-scope amendments to IAS 1, 'Presentation of financial statements', clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Classification is unaffected by the expectations of the entity or events after the reporting date (for example, the receipt of a waiver or a breach of covenant). The amendment also clarifies what IAS 1 means when it refers to the 'settlement' of a liability.

A number of narrow-scope amendments to IFRS 3, IAS 16, IAS 17 and some annual improvements on IFRS 1, IFRS 9, IAS 41 and IFRS 16; effective from Annual periods beginning on or after 1 January 2022.

Amendments to IFRS 3, 'Business combinations' update a reference in IFRS 3 to the Conceptual Framework for Financial Reporting without changing the accounting requirements for business combinations.

Amendments to IAS 16, 'Property, plant and equipment' prohibit a company from deducting from the cost of property, plant and equipment amounts received from selling items produced while the company is preparing the asset for its intended use. Instead, a company will recognise such sales proceeds and related cost in profit or loss.

Amendments to IAS 37, 'Provisions, contingent liabilities and contingent assets' specify which costs a company includes when assessing whether a contract will be loss-making.

Annual improvements make minor amendments to IFRS 1, 'First-time Adoption of IFRS', IFRS 9, 'Financial instruments', IAS 41, 'Agriculture' and the Illustrative Examples accompanying IFRS 16, 'Leases'.

2.10 Summary of Significant Accounting Policies

Related Parties

A related party is a person or entity that is related to the entity that is preparing its financial statements

a) A person or a close member of that person's family is related to a reporting entity if that person:

(i) has control or joint control over the reporting entity;

(ii) has significant influence over the reporting entity; or

(iii) is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.

(b) An entity is related to a reporting entity if any of the following conditions applies:

(i) The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).

(ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).

(iii) Both entities are joint ventures of the same third party.

(iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

(v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.

(vi) The entity is controlled or jointly controlled by a person identified in (a).

(vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

Revenue

The core principle of revenue recognition is that the Group should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the Standard introduces a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

Accordingly, Revenue is recognized when (or as) a performance obligation is satisfied, i.e. when 'control' of the goods or services underlying the particular performance obligation is transferred to the customer.

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties. The Group recognizes revenue when it transfers control of a product or service to a customer.

The Group evaluates the agricultural machinery, welded components and cabins that it has committed in each contract with the customers and determines each commitment to transfer the said products or services as a separate performance obligation. For each performance obligation, it is determined at the beginning of the contract that the performance of the performance obligation will be satisfied in time or at a point of time. If the Group transfers the control of a goods or service over time and thus fulfills the performance obligations related to the related sales over time, it measures the progress of the satisfaction of the performance obligations in full and takes the proceeds to the financial statements.

The Group, as it satisfies the performance obligation by transferring a committed product or service to its customer, records the transaction price corresponding to this performance obligation as revenue in consolidated financial statements. The goods or services are transferred when the goods or services are checked (or passed) by the customers. The Group evaluates the transfer of control of the goods or services sold to the customer,

- ownership of the Group's right to collect goods or services,
- the ownership of the property of the customer,
- transfer of the ownership of the goods or services,
- the ownership of significant risks and rewards arising from the ownership of the property of the customer,
- takes into account the customer's acceptance of goods or services.

Rent Income

Rental income is recognized in the financial statements on a monthly basis.

Dividend and interest income

Dividend income from equity investments is recognized when the shareholders' right to receive dividends is established (as long as the Company can obtain economic benefits and the revenue can be measured reliably).

Interest income from financial assets is recognized when it is probable that the Company will obtain economic benefits and that the revenue can be measured reliably. Interest income is accrued in the relevant period at the effective interest rate that reduces the estimated cash inflows from the financial asset to the carrying amount of the asset during the expected life of the remaining principal amount.

Inventories

Inventories are stated at the lower of cost or net realizable value. The cost of inventories is determined on a weighted average basis. Net realizable value represents the estimated selling price less all estimated costs of completion and costs necessary to make a sale. When the net realizable value of inventory is less than cost, the inventory is written down to the net realizable value and the expense is included in statement of income/(loss) in the period the write-down or loss occurred. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in net realizable value because of changed economic circumstances, the amount of the write-down is reversed. The reversal amount is limited to the amount of the original write-down.

Property, plant and equipment

Land, buildings, plant, machinery and equipment are stated in the balance sheet at their revalued amounts, being the fair value at the date of revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. The fair value at the date of revaluation is the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction. Fair value determination is based on the market and cost approaches using quoted market prices for similar items when available and in some cases, using replacement cost when appropriate.

Any revaluation increase arising on the revaluation of such land, buildings and plant, machinery and equipment is credited in equity to the properties revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognized in profit or loss, in which case the increase is credited to profit or loss to the extent of the decrease previously charged. A decrease in carrying amount arising on the revaluation of such land, buildings and plant, machinery and equipment is charged to profit or loss to the extent that it exceeds the balance, if any, held in the properties revaluation reserve relating to a previous revaluation of that asset.

Depreciation on revalued buildings and plant, machinery and equipment is charged to profit or loss. On the subsequent sale or retirement of a revalued property, the related revaluation surplus remaining in the properties revaluation reserve is transferred directly to retained earnings. No transfer is made from the revaluation reserve to retained earnings except when an asset is derecognized.

Properties in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognized impairment loss. Cost includes professional fees. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Freehold land is not depreciated. Motor vehicles, furniture and fixtures, and leasehold improvements are carried at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is charged so as to write off the cost or valuation of assets, other than land and properties under construction, over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

Leasing

The Group has applied IFRS 16 using the cumulative catch-up approach and therefore comparative information has not been restated and is presented under IAS 17. The details of accounting policies under both IAS 17 and IFRS 16 are presented separately below.

Policies applicable from 1 January 2019

The Group as lessee

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- fixed lease payments (including in-substance fixed payments), less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- the lease term has changed or there is a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- the lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using the initial discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- a lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate at the effective date of the modification

The Group did not make any such adjustments during the periods presented.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets are presented as a separate line in the consolidated statement of financial position.

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy.

Variable rents that do not depend on an index or rate are not included in the measurement of the lease liability and the right-of-use asset. The related payments are recognised as an expense in the period in which the event or condition that triggers those payments occurs and are included in 'Other expenses' in profit or loss.

As a practical expedient, IFRS 16 permits a lessee not to separate non-lease components, and instead account for any lease and associated non-lease components as a single arrangement. The Group has not used this practical expedient. For a contracts that contain a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components.

The Group as lessor

The Group enters into lease agreements as a lessor with respect to some of its investment properties. The Group also rents equipment to retailers necessary for the presentation and customer fitting and testing of footwear and equipment manufactured by the Group.

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Group is an intermediate lessor, it accounts for the head lease and the sublease as two separate contracts. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

Amounts due from lessees under finance leases are recognised as receivables at the amount of the Group's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the Group's net investment outstanding in respect of the leases.

When a contract includes lease and non-lease components, the Group applies IFRS 15 to allocate the consideration under the contract to each component.

Leasing Policy Applied Until 31 December 2018

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

The Group as lessor

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized on a straight-line basis over the lease term.

The Group as lessee

Assets held under finance leases are initially recognized as assets of the Group at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance expenses and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance expenses are recognized immediately in profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Group's general policy on borrowing costs.

Operating lease payments are recognized as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognized as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognized as a liability. The aggregate benefit of incentives is recognized as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

Intangible assets

Computer software

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized over their estimated useful lives (3-5 years).

Internally-generated intangible assets – research and development expenditure

Expenditure on research activities is recognized as an expense in the period in which it is incurred.

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognized if, and only if, all of the following have been demonstrated:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale;
- The intention to complete the intangible asset and use or sell it;
- The ability to use or sell the intangible asset;
- How the intangible asset will generate probable future economic benefits;
- The availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- The ability to measure reliably the expenditure attributable to the intangible asset during its development

The amount initially recognized for internally-generated intangible assets is the sum of expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no internally-generated intangible asset can be recognized, development expenditure is charged to profit or loss in the period in which it is incurred.

Subsequent to initial recognition, internally-generated intangible assets are reported at cost less accumulated amortization and accumulated impairment losses, on the same basis as intangible assets acquired separately.

Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

Financial assets

At initial recognition, Group measures a financial asset at its fair value plus or minus, in the case of a financial asset not at fair value through profit or loss, *transaction costs* that are directly attributable to the acquisition or issue of the financial asset. When the Group uses settlement date accounting for an asset that is subsequently measured at amortised cost, the asset is recognised initially at its fair value on the trade date.

The Group reclassifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

a) the Group's business model for managing the financial assets and

b) the contractual cash flow characteristics of the financial asset.

When, and only when, the Group changes its business model for managing financial assets, it reclassifies all affected financial assets. The Group applies the reclassification prospectively from the reclassification date. The Group does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

<u>Financial assets measured at amortised cost</u>

A financial asset is measured at amortised cost if both of the following conditions are met:

(a) the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and

(b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Interest revenue of financial assets measured at amortised cost is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

(a) purchased or originated credit-impaired financial assets. For those financial assets, the Group applies the credit-adjusted effective interest rate to the amortised cost of the financial asset from initial recognition.

(b) financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become *credit-impaired financial assets*. For those financial assets, the Group applies the effective interest rate to the amortised cost of the financial asset in subsequent reporting periods.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset and recognises a *modification gain or loss* in profit or loss.

The Group directly reduces the gross carrying amount of a financial asset when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

IAS 39 and IFRS 9 comparison based on the classification for financial assets and liabilities are given in Note 2.9

<u>Financial assets measured at fair value through other comprehensive income</u>

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

(a) the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and

(b) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A gain or loss on a financial asset measured at fair value through other comprehensive income is recognised in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognised or reclassified. When the financial asset is derecognised the cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment. If the financial asset is reclassified out of the fair value through other comprehensive income measurement category, the Group accounts for the cumulative gain or loss that was previously recognised in other comprehensive income in consolidated financial statements. Interest calculated using the effective interest method is recognised in profit or loss.

At initial recognition, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument that is not held for trading.

<u>Financial assets measured at fair value through profit or loss</u>

A financial asset shall be measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income.

<u>Impairment</u>

The Group recognises a loss allowance for *expected credit losses* on financial assets that are measured at amortized cost or fair value through other comprehensive income.

The Group applies the impairment requirements for the recognition and measurement of a loss allowance for financial assets that are measured at fair value through other comprehensive income. However, the loss allowance is recognised in other comprehensive income and does not reduce the carrying amount of the financial asset in the consolidated statement of financial position.

At each reporting date, the Group measures the loss allowance for a financial instrument at an amount equal to the *lifetime expected credit losses* if the credit risk on that financial instrument has increased significantly since initial recognition.

If, at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the Group measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses except for purchased or originated credit impaired financial assets. For purchased or originated credit-impaired financial assets, the Group only recognises the cumulative changes in lifetime expected credit losses since initial recognition as a loss allowance at the reporting date.

The Group measures the loss allowance at an amount equal to lifetime expected credit losses for trade receivables and other receivables that do not contain a significant financing component, which is referred as simplified approach.

<u>Measurement and recognition of expected credit losses</u>

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date. For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

Derivative financial instruments

The Group enters into a variety of derivative financial instruments to manage its exposure to foreign exchange rate risks with foreign exchange forward contracts.

Derivatives are recognised initially at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability. Derivatives are not offset in the financial statements unless the Group has both legal right and intention to offset. A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Financial liabilities

At initial recognition, the Group measures a financial liability at its fair value plus or minus, in the case of a financial liability not at fair value through profit or loss, *transaction costs* that are directly attributable to the issue of the financial liability.

The Group classifies all financial liabilities as subsequently measured at amortised cost, except for:

(a) financial liabilities at fair value through profit or loss: Such liabilities, including derivatives that are liabilities, are subsequently measured at fair value.

(b) financial liabilities that arise when a transfer of a financial asset does not qualify for derecognition or when the continuing involvement approach applies. If a transfer does not result in derecognition because the Group has retained substantially all the risks and rewards of ownership of the transferred asset, the Group continues to recognise the transferred asset in its entirety and recognises a financial liability for the consideration received. In subsequent periods, the Group recognises any income on the transferred asset and any expense incurred on the financial liability.

(c) contingent consideration recognised by an acquirer in a business combination to which IFRS 3 applies. Such contingent consideration is subsequently be measured at fair value with changes recognised in profit or loss.

The Group does not reclassify any financial liability.

Foreign currency transactions

The individual financial statements of each Group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in TL, which is the functional currency of the Group, and the presentation currency for the consolidated financial statements.

In preparing the financial statements of the individual entities, transactions in currencies other than TL (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Gains and losses arising on settlement and translation of foreign currency items are included in the consolidated statement of comprehensive income.

Exchange differences are recognised in profit or loss in the period in which they arise except for:

- Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets where they are regarded as an adjustment to interest costs on those foreign currency borrowings;

- Exchange differences on transactions entered into in order to hedge certain foreign currency risks (see below for hedging accounting policies); and

- Exchange differences on monetary items receivable from or payable to a foreign operation for which settlement is neither planned nor likely to occur, which form part of the net investment in a foreign operation, and which are recognised in the foreign currency translation reserve and recognised in profit or loss on disposal of the net investment.

Events after the reporting period

Events after the reporting period are those events that occur between the balance sheet date and the date when the financial statements are authorized for issue, even if they occur after an announcement related with the profit for the year or public disclosure of other selected financial information.

The Group adjusts the amounts recognized in its financial statements if adjusting events occur after the balance sheet date.

Provisions, Contingent Assets and Liabilities

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation.

When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation, including property under construction for such purposes. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value. Gains or losses arising from changes in the fair values of investment properties are included in the profit or loss in the year in which they arise.

The Group's investment properties are valued by external, independent valuation companies on a periodic basis. The fair values are based on market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction and discounted cash flows expected to be received. In arriving at an estimate of cash flows, the Group considers its occupancy rate, lease commitment factors and the economic life of the investment property.

When the use of a property changes such that it is reclassified as property, plant and equipment, its fair value at the date of reclassification becomes its cost for subsequent accounting.

If owner occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under "Property, Plant and Equipment" up to the date of change in use.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in profit or loss in the year of retirement or disposal. Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use. No assets held under operating lease have been classified as investment properties.

Taxation and deferred income taxes

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the comprehensive income statement because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases which is used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets are recognized to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilized.

Such deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the balance sheet date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realized. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity.

Current and deferred tax for the period

Current and deferred tax are recognized as in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity.

Employment benefits

Termination and retirement benefits

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Company. Such payments are considered as being part of defined retirement benefit plan as per International Accounting Standard No. 19 (revised) "Employee Benefits" ("IAS 19").

The retirement benefit obligation recognized in the consolidated financial statements represents the present value of the defined benefit obligation. Calculated whole actuarial gains and loses are recognized in other comprehensive income.

Statement of cash flows

Current period statement of cash flows is categorized and reported as operating, investing and financing.

Share capital and dividends

Common shares are classified as equity. Dividends on common shares are recognised in equity in the period in which they are approved and declared.

2.11 Critical accounting judgments and key sources of estimation uncertainty

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is discussed below:

Useful lives of property, plant and equipment and intangible assets

The Group reviews the estimated useful lives of its property, plant and equipment and intangible assets at the end of each reporting period. The Group takes into consideration the intended use of the property, plant and equipment and intangible assets, the advancement in technology related to the particular type of property, plant and equipment as well as other factors that may require management to extend or shorten the useful lives and the assets' related depreciation.

The Group considers the useful lives of property, plant and equipment and intangible assets as described in Note 9 and 10.

Determination of fair values of property, plant and equipment

The fair values of property, plant and equipment are based on valuations, performed by independent valuers, who hold recognized and relevant professional qualifications. The valuations are based primarily on comparable fair market value of lands and, estimating costs to rebuild the building in the new economic conditions.

Calculation for loss allowance

When measuring ECL the Group uses reasonable and supportable forward looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

Probability of default constitutes a key input in measuring ECL. Probability of default is an estimate of the likelihood of default over a given time horizon, the calculation of which includes historical data, assumptions and expectations of future conditions.

Judgements in determining the timing of satisfaction of performance obligations

Management takes into account the detailed conditions stated in IFRS 15, in particular the control of goods and services, to the customer regarding the fulfillment of the performance obligations and the recording of the allocated transaction costs as revenue.

Internally-generated intangible assets

An internally-generated intangible asset arising from development (or from the development phase of an internal project) is recognized only if the technical feasibility and the intention to complete the intangible asset, the ability to use or sell the intangible asset are demonstrated, how the intangible asset will generate probable future economic benefits is determined, adequate technical, financial and other resources to complete the development and to use or sell the intangible asset is available and the expenditure attributable to the intangible asset during its development can be reliably measured. Other development expenditures that do not meet these criteria are recognized as expense when incurred. The Group Management considers that the internally-generated intangible assets will generate economic benefits and management is confident that the carrying amount of the assets will be recovered in full.

Deferred taxes

Deferred tax assets and liabilities are recorded using substantially enacted tax rates for the effect of temporary differences between book and tax bases of assets and liabilities. Based on available evidence, both positive and negative, it is determined whether it is probable that all or a portion of the deferred tax assets will be realized. If based on the weight of all available evidence, it is the Group's belief that taxable profit will not be available sufficient to utilize some portion of these deferred tax assets, then some portion of or all of the deferred tax assets is not recognized.

3. INTERESTS IN OTHER ENTITIES

Subsidiaries

Details of the Group's material subsidiaries as of 31 December 2020 and 2019 are as follows:

Name of subsidiary	Operation	Place of incorporation and operation	Proportion of ownership interest and (%) 31 December 2020	31 December 2019
Hisarlar Pazarlama	Trade	Eskişehir	**100**	100

The summarised financial information below represents amounts before intragroup eliminations.

	2020 Hisarlar Pazarlama	2019 Hisarlar Pazarlama
Current assets	**21.486.705**	19.437.023
Non current assets	**363.140**	93.466
Current liabilities	**(5.241.039)**	(4.302.612)
Equity attributable to owners of the Company	**(16.608.806)**	(15.227.877)
Revenue	**115.481.627**	123.083.218
Expenses	**(114.100.693)**	(123.909.378)
Profit/loss for the year	**1.380.934**	(826.160)

4. RELATED PARTY TRANSACTIONS

The non-trade receivables from related parties arise mainly from financial needs of the related parties and are due in 60 days. The receivables are unsecured in nature and bear no interest.

The trade payables to related parties arise mainly from purchase transactions and are due two months after the date of purchase. The payables bear no interest and are payable under normal terms.

The non-trade payables to related parties arise mainly from financial needs of the Group and are due in 120 days. The payables are unsecured in nature and bear no interest.

5. TRADE RECEIVABLES AND PAYABLES

a) Trade Receivables:

As at the balance sheet date, trade receivables of the Group are summarized below:

	31 December 2020	31 December 2019
Current trade receivables		
Trade receivables	**18.985.717**	15.678.105
Notes receivable	**32.199.991**	12.178.576
Rediscount from notes receivable (-)	**(5.108.690)**	(1.070.221)
Trade receivables from related parties (Note 4)	**11.422.954**	2.562.957
Expected credit losses (-)	**–**	(526.206)
Doubful receivables	**13.199.097**	17.080.870
Allowance for doubtful receivables (-)	**(13.199.097)**	(17.080.870)
	57.499.972	28.823.211

The average credit period is 75 days (31 December 2019: 122 days). No interest is charged for the overdue trade receivables. No collateral is received for trade receivables.

As of 31 December 2020, trade receivables of TL 13.199.097 (31 December 2019: TL 17.080.870) were considered as impaired and a provision was provided for these trade receivables.

Movement in the allowance for doubtful receivables are as follows:

	1 January- 31 December 2020	1 January- 31 December 2019
Balance at beginning of the year, 1 January	**17.080.870**	13.770.495
Period charge (Note: 18)	**103.615**	3.318.142
Collections	**(2.947.638)**	(7.767)
Waived receivables	**(1.037.750)**	–
Closing balance, 31 December	**13.199.097**	17.080.870

Explanations on nature and level of risks of trade receivables are disclosed in Note 24.

b) Trade Payables:

As of balance sheet date, the details of the Group's trade payables are as follows:

Short term trade payables	**31 December 2020**	31 December 2019
Trade payables	**37.513.341**	28.626.620
Notes payables	**–**	–
Trade payables to related parties (Note: 4)	**473.707**	329.403
Expense accruals	**–**	2.342.751
	37.987.048	31.298.774

The average credit period on purchases of goods and services is 74 days and no interest is charged by vendors on the outstanding balance (31 December 2019: 77 days).

6. OTHER RECEIVABLES AND PAYABLES

a) Other Receivables:

Other Current Receivables	**31 December 2020**	31 December 2019
Deposits and guarantees given	**627.237**	540.975
Due from personnel	**269.327**	73.064
Receivables from tax office	**3.106.685**	–
Other current receivables	**1.887**	2.629.752
	4.005.136	3.243.791

Other Non-current Receivables	**31 December 2020**	31 December 2019
Deposits and guarantees given	**67.133**	61.216
	67.133	61.216

b) Other Payables:

The following useful lives are used in the calculation of depreciation:

	Useful Life
Buildings	50 years
Plant, machinery and equipment	5-12 years
Motor vehicles	5 years
Furniture and fixtures	3-10 years
Leasehold improvements	12-15 years

Depreciation expense of TL 5.289.875 has been charged to cost of sales (31 December 2019: TL 6.427.711), TL 91.119 to selling and marketing expenses (31 December 2019: TL 110.718), TL 1.620.561 to general administrative expenses (31 December 2019: TL 1.969.139) and TL 272.402 to the research and development expenses (31 December 2019: TL 330.995).

An independent valuation on the Group's land, buildings and machinery was done by Vera Gayrimenkul Değerleme ve Danışmanlık A.Ş..Vera Gayrimenkul Değerleme ve Danışmanlık A.Ş., independent valuers not connected with the Group, on 8 December 2016. Vera Gayrimenkul Değerleme ve Danışmanlık A.Ş. is one of the accredited independent valuers by the Capital Markets Board of Turkey. Fair values of the Group's land were estimated based on valuation techniques which conform to International Valuation Standards in main principles which take into account comparable fair market value of land that share similar characteristics to the Group's assets. For the determination of fair value of buildings, cost method has been applied. Cost method includes estimating the costs to rebuild the building in the new economic conditions. Physical condition, maintenance, performance, position in the sector and storage capacity factors which may effect the fair value are considered, detailed market research is performed and current economic conditions for the country is considered for property, plant and equipment. The fair value hierarchy level of these lands and buildings are level 2.

Defined benefit obligations	**–**	–
	2.687.349	1.426.678

Long-term provisions for employee benefits

	31 December 2020	31 December 2019
Defined benefit obligations	**6.718.679**	8.813.847
	6.718.679	8.813.847

Defined Benefit Obligations

Under Turkish Labor Law, the Group is required to pay termination benefits to each employee who has completed certain years of service and whose employment is terminated without due cause, is called up for military service, dies or achieves the retirement age (58 for women and 60 for men).

The amount payable consists of one month's salary limited to a maximum of TL 7.117,17 (2019: TL 6.379,86) for each period of service at 31 December 2020.

Retirement pay liability is not subject to any kind of funding legally. Provision for retirement pay liability is calculated by estimating the present value of probable liability amount arising due to retirement of employees. IAS 19 *Employee Benefits* stipulates the development of company's liabilities by using actuarial valuation methods under defined benefit plans. In this direction, actuarial assumptions used in calculation of total liabilities are described as follows:

The principal assumption is that the maximum liability for each year of service will increase parallel with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the anticipated effects of future inflation. Consequently, in the accompanying financial statements as at 31 December 2020, the provision has been calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees. The provisions at the respective balance sheet dates have been calculated with the assumption of an annual inflation rate of 14,6% and a discount rate of 17%, resulting in a real discount rate of approximately 2,09% (31 December 2019: discount rate of approximately 4,17%). Estimated amount of retirement pay not paid due to voluntary leaves and retained in the Company is also taken into consideration. The rate of voluntary leaves and retained in the Company is taken between %7,73 for 0-15 years employee and %0 for more than 16 years employees. Ceiling for retirement pay is revised semi-annually. Ceiling amount of TL 7.638,69 (1 January 2019: 6.730,15) which is in effect since 1 January 2021 is used in the calculation of Group's provision for retirement pay liability.

Movement of provisions for employee benefits

	1 January-31 December 2020	1 January-31 December 2019
Provision at 1 January	**8.813.847**	7.890.523

Deferred tax		
Arising on income and expense taken directly to equity:		
– Actuarial gains and losses	**(680.451)**	(326.972)
Total deferred tax recognised directly in equity	**(680.451)**	(326.972)

Corporate Tax

The Group is subject to Turkish corporate taxes. Provision is made in the accompanying financial statements for the estimated charge based on the Group's results for the years and periods. Turkish tax legislation does not permit a parent company and its subsidiary to file a consolidated tax return. Therefore, provisions for taxes, as reflected in the accompanying consolidated financial statements, have been calculated on a separate-entity basis.

Corporate tax is applied on taxable corporate income, which is calculated from the statutory accounting profit by adding back non-deductible expenses, and deducting exempt income, non-taxable income and other incentives (previous years losses, if any, and investment incentives utilized, if preferred).

The effective tax rate in 2020 is 22% (2019: 22%).

In Turkey, advance tax returns are filed on a quarterly basis. Advance corporate income tax rate applied in 2020 is 22% (2019: 22%). Losses can be carried forward for offset against future taxable income for up to 5 years. However, losses cannot be carried back for offset against profits from previous periods.

Furthermore, there is no procedure for a final and definitive agreement on tax assessments. Companies file their tax returns between 1-25 April following the close of the accounting year to which they relate. Tax authorities may, however, examine such returns and the underlying accounting records and may revise assessments within five years.

The Law numbered 7061 on Amendment of Certain Taxes and Laws and Other Acts was published on the Official Gazette dated December 5, 2017 and numbered 30261. Article 5 entitled "Exceptions" of the Corporate Tax Law has been amended in Article 89 of the Law. In accordance with (a) clause in the first paragraph of the Article, the exemption of 75% applied to gains from the sales of lands and buildings held by the entities for two full years has been reduced to rate of 50%. This regulation has been effective from 5 December 2017.

Income Witholding Tax

In addition to corporate taxes, companies should also calculate income withholding taxes and funds surcharge on any dividends distributed, except for companies receiving dividends who are Turkish residents and Turkish branches of foreign companies. Income withholding tax applied in between 24 April 2003 – 22 July 2006 is 10% and commencing from 22 July 2006, this rate has been changed to 15% upon the Council of Minister's' Resolution No: 2006/10731. Undistributed dividends incorporated in share capital are not subject to income withholding tax.

Withholding tax at the rate of 19,8% is still applied to investment allowances relating to investment incentive certificates obtained prior to 24 April 2003. Subsequent to this date, the investments without investment incentive certificates do not qualify for tax allowance.

Deferred tax:

The Group recognizes deferred tax assets and liabilities based upon temporary differences arising between its financial statements as reported for IFRS purposes and its statutory tax financial statements. These differences usually result in the recognition of revenue and expenses in different reporting periods for IFRS and tax purposes and they are given below.

Tax rate used in the calculation of deferred tax assets and liabilities was %22 over temporary timing differences expected to be reversed in 2018, 2019 and 2020, and %20 over temporary timing differences expected to be reversed in 2021 and the following years (2019: 22%). The management does not expect to recover the deferred tax amount of TL 16.377.658.

Deferred tax assets/(liabilities):	**31 December 2020**	31 December 2019
Restatement and depreciation/ amortization differences of property, plant and equipment and other intangible assets	**–**	3.297.583
Provision for employment termination benefits	**–**	1.762.769
Provisions for legal cases	**–**	194.858
Provision for doubtful receivables	**–**	574.796
Unused vacation liabilities	**–**	285.336

Inventories	**(505.369)**	–
Customers	**783.831**	
Other	**–**	398.616
	363.140	6.638.402

Movement of deferred tax assets/(liabilities) for year ended 31 December 2020 and 31 December 2019 are as follows:

Movement of deferred tax (asset)/ liabilities:	**1 January- 31 December 2020**	1 January- 31 December 2019
Opening balance as of 1 January	**6.638.402**	4.187.009
Charged to income	**(6.275.262)**	2.124.421
Charged to equity	**–**	326.972
Closing balance at 31 December	**363.140**	6.638.402

Current period tax reconciliation is as follows:

Tax Reconciliation:	**1 January- 31 December 2020**	1 January- 31 December 2019
Profit/(loss) for the period	**(39.922.801)**	(59.213.607)
Tax at the domestic income tax rate of 22% (2019:22%)	**(8.783.016)**	(13.026.994)
Tax effects of:		
– expenses that are not deductible	**939.158**	2.091.194
– unrecognized deferred tax assets over tax losses	**12.456.663**	12.530.340
– other	**1.662.457**	(471.896)
– non taxable adjustments	**–**	(3.247.065)
	(6.275.262)	(2.124.421)

Expiration schedule of carry forward tax losses is as follows:

	31 December 2020	31 December 2019
Expiring in 2020	**4.385.057**	–
Expiring in 2021	**32.781.718**	32.781.718
Expiring in 2022	**28.444.091**	29.145.507
Expiring in 2023	**64.202.778**	65.064.698
Expiring in 2024	**56.621.195**	56.956.091
	186.434.839	183.948.014

23. FINANCIAL INSTRUMENTS

Financial Liabilities

The detail of borrowings of the Group as of 31 December 2020 and 31 December 2019 is as follows:

Financial Liabilities	**31 December 2020**	31 December 2019
a) Bank Borrowings	**59.509.488**	132.279.439
b) Obligations Under Finance Leases	**7.851.564**	673.924
c) Other Financial Liabilities	**38.136**	–
	67.399.188	132.953.363

a) Bank Borrowings:

The detail of borrowings is as follows:

		31 December 2020	
Currency Type	Weighted Average Effective Interest Rate	**Current**	**Non-current**
TL	16,49%	**59.509.488**	**–**
		59.509.488	**–**

		31 December 2019	
Currency Type	Weighted Average Effective Interest Rate	Current	Non-current
TL	13,09%	132.279.439	–
		132.279.439	–

The redemption schedule of the borrowings as of 31 December 2020 and 31 December 2019 is as follows:

The borrowings are repayable as follows:

	31 December 2020	31 December 2019
To be paid within 1 year	**59.509.488**	132.279.439
	59.509.488	132.279.439

As of 31 December 2020 and 31 December 2019, the movement of bank borrowings is as follows:

			Non-Cash Changes			
	1 January 2020	**Net Cash Flow**	**Change in Interest Accrual**	**Foreign exchange differences**	**Debt conversion into capital**	**31 December 2020**
Bank Borrowings	**132.279.439**	**(74.403.263)**	**1.633.312**	**–**	**–**	**59.509.488**
	132.279.439	**(74.403.263)**	**1.633.312**	**–**	**–**	**59.509.488**

			Non-Cash Changes			
	1 January 2019	Net Cash Flow	Change in Interest Accrual	Foreign exchange differences	Debt conversion into capital	31 December 2019
Bank Borrowings	193.752.574	(65.404.394)	2.790.476	1.140.783	–	132.279.439
	193.752.574	(65.404.394)	2.790.476	1.140.783	–	132.279.439

b) a) Obligations Under Finance Leases:

	Minimum lease payments		**Present value of minimum lease payments**	
	31 December 2020	31 December 2019	**31 December 2020**	31 December 2019
<u>Finance Lease Payables</u>				
Amounts payable under finance leases	**7.851.564**	696.421	**7.851.564**	673.924
Within one year	**3.488.390**	696.421	**3.488.390**	673.924
In the second to fifth years	**4.363.174**	–	**4.363.174**	–
Less : Future finance charges	**–**	(22.497)	**–**	–
Present value of finance lease obligations	**7.851.564**	673.924	**7.851.564**	673.924
Less: Amounts due to settlement within twelve months (shown under current liabilities)			**(3.488.390)**	(673.924)
Amounts due for settlement after 12 months			**(4.363.174)**	–

The interest rates of the finance leases are fixed for all lease periods at the contract date. The weighted average effective contractual interest rate is approximately 6% for TL and 8% for EUR (31 December 2019: 6% for TL and 13% for EUR)

24. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

<u>a) Capital risk management</u>

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximizing the return to stakeholders through the optimization of the debt and equity balance.

The Group controls its capital using the net debt/total capital ratio. This ratio is calculated as net debt divided by the total capital amount. Net debt is calculated as total liability amount less cash and cash equivalents. Total capital is calculated as shareholders' equity plus the net debt amount as presented in the balance sheet.

As of 31 December 2020 and 31 December 2019 net debt/total capital ratio is as follows:

	1 January-31 December 2020	1 January-31 December 2019
Total Debts (Note: 23)	**67.399.188**	132.953.363
Less: Cash and Cash Equivalents (Note: 27)	**(46.733.520)**	(2.070.344)
Net Debt	**20.665.668**	130.883.019
Total Equity	**84.360.895**	7.156.704
Total Capital	**105.026.563**	138.039.723
Total Debt/Total Capital Ratio	**20%**	96%

b) Financial risk factors

The risks of the Group, resulted from operations, include market risk, credit risk and liquidity risk. The Group's risk management program generally seeks to minimize the effects of uncertainty in financial market on financial performance of the Group.

b.1) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Group. Financial instruments of the Group that will result in concentration of credit risk mainly include cash and cash equivalents and trade receivables. The Group's maximum exposure to credit risk is the same as the amounts recognized in the consolidated financial statements.

The Group has cash and cash equivalents at several financial institutions. The Group manages this risk by continuously evaluating the reliability of these financial institutions.

Credit risk arising from trade receivables is limited due to the large number of customers and the policy of the Group to limit the credit amount of customers. The Group generally prefers to collect cheques to increse the credit limits of its customers except its dealers.

Credit risk of financial instruments			**Receivables**		
	Trade Receivables		**Other Receivables**		
31 December 2020	**Third Party**	**Related Party**	**Third Party**	**Related Party**	**Bank Deposits**

Explanations on the credit quality of financial assets

Credit quality of financial assets that are past due but not impaired, which is evaluated based on external evaluations and retrospective internal evaluations, is as follows:

Aging of overdue receivables is as follows:

31 December 2020		**Receivables**	
	Trade receivables	**Other receivables**	**Total**
Up to 1 year	**52.810**	**–**	**52.810**
Past due 1-5 year	**20.805**	**–**	**20.805**
Total past due receivables	**73.615**	**–**	**73.615**
Secured portion of receivables by gurantees, etc.	**–**	**–**	**–**

31 December 2019	**Receivables**		
	Trade receivables	**Other receivables**	**Total**
Up to 1 year	3.288.534	–	3.288.534
Past due 1-5 year	43.843	–	43.843
Total past due receivables	3.332.377	–	3.332.377
Secured portion of receivables by gurantees, etc.	–	–	–

b.2) Liquidity risk management

Ultimate control for liquidity risk management rests with the Board of Directors, which aims to maintain an appropriate liquidity risk management framework for the Company's short, medium and long-term funding and liquidity management requirements.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows.

The maturities of the financial liabilities determined with respect to the contracts including the expected interest payments as of 31 December 2020 and 2019 is as follows:

31 December 2020

Contructual maturity analysis	**Net book value**	**Net cash outflows (I+II+III)**	**1-3 months (I)**	**3 months-1 year (II)**	**1-5 years (III)**
Non- derivative

Total liabilities	164.252.137	165.520.516	157.833.599	7.686.917	–

b.3.1) Market risk management

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. Foreign currency risk is managed through balancing the liabilities and receivables in foreign currencies.

Market risk exposures of the Group are measured using sensitivity analysis.

There has been no change to the Group's exposure to market risks or the manner in which it manages and measures the risk.

b.3.2) Foreign currency risk management

Transactions in foreign currencies expose the Group to foreign currency risk. Foreign currency risk is managed by balancing the liabilities and receivables in foreign currencies.

As of 31 December 2020 and 2019 the foreign currency denominated assets and liabilities of monetary and non-monetary items are as follows:

	31 December 2020			
	USD	**Euro**	**Gbp**	**Total TL Equivalent**
Cash and Cash Equipment	**278**	**2.074**	**5**	**20.773**
Trade Receivable	**848.299**	**1.828.401**	**–**	**22.696.992**
Bank Borrowings	**–**	**–**	**–**	**–**
Obligation Under Finance Leases	**–**	**(866.913)**	**–**	**(7.809.069)**
Trade Payables	**(457.490)**	**(537.860)**	**(6.744)**	**(8.270.255)**
Net Foreign Currency Position	**391.087**	**425.702**	**(6.739)**	**6.638.441**

31 December 2019

	USD	**Euro**	**Total TL Equivalent**
Cash and Cash Equivalents	754	153.688	1.026.595
Trade Receivables	399.680	1.904.958	15.043.291
Bank Borrowings	4.915	527.340	3.536.322
Obligation Under Finance Leases	–	(42.616)	(283.419)
Trade Payables	(1.719.000)	(458.498)	(13.260.492)
Net Foreign Currency Position	(1.313.651)	2.084.872	6.062.297

The following table details the Group's sensitivity to a 20% increase and decrease in USD, and EURO. 20% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 20% change in foreign currency rates. A negative number indicates an decrease in profit or loss.

	USD Effect		**EUR Effect**		**Gbp Effect**	
	2020	2019	**2020**	2019	**2020**	2019
Profit or Loss	**574.155**	(1.560.670)	**766.936**	2.773.130	**(13.402)**	–

b.3.3) Interest rate risk management

The Group is exposed to interest rate risk as entities in the Group borrow funds at both fixed and floating interest rates. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings. The related risks are managed through natural methods which are resulting from the netting of receivables and liabilities dependent to interest rates. The interest rates of financial assets and liabilities are stated in the related notes.

Interest rate sensitivity

The sensitivity analysis of financial instruments is presented below:

Interest Position Table

	31 December 2020	31 December 2019
Financial Instruments with Fixed Interest Rate		
Financial Borrowings	**59.509.488**	103.679.439
Other Financial Liabilities	**7.889.700**	673.924
Financial Instruments with Floating Interest Rate		
Financial Borrowings	**–**	28.600.000

The sensitivity analyses below have been determined based on the exposure to interest rates for both derivatives and non-derivative instruments at the balance sheet date. For floating rate liabilities, the analysis is prepared assuming the amount of liability outstanding at the balance sheet date was outstanding for the whole year. A 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

(*) Group, considers that the book value of financial instruments reflects their fair values.

Fair Values of Financial Instruments:

The fair value of financial assets and liabilities are determined as follows:

- First level: Financial assets and liabilities are valued at stock exchange prices traded in active markets for identical assets and liabilities.
- Second level: Financial assets and liabilities are valued over the inputs used to find the directly or indirectly observable price in the market other than the stock market price of the relevant asset or liability specified in the first level.
- Third level: Financial assets and liabilities are valued with inputs that are not based on data observable in the market, used to find the fair value of the asset or liability.

The fair values of financial assets shown with their fair values are as follows:

Financial Assets	**31 December 2020**	Second Level	Total
Investment Properties	**1.643.000**	1.643.000	1.643.000

NOTES FOR THE CALENDAR YEAR 2020

1. **General Declarations**

- The Books of Accounts of Hisarlar İthalat İhracat Pazarlama Anonim Şirketi (Hispa) are not required to be audited as per Turkish Commercial Code as it does not satisfy the minimum criteria set for Independent audit. Consequently, the Books of Accounts are maintained under Turkish Tax Procedure Law (VUK).
- The financial year is identical to the calendar year.
- The income statement has been prepared according to the nature of expense method.
- The functional currency of the company is measured using the currency of the economic environment in which the company operates.

2. **Accounting and Valuation Principles**

2.1 Inventories

Trade Goods are balanced at acquisition cost. Write-downs to the lower market value have been made where necessary.

2.2 Receivables, other assets and liquid funds

Trade Receivables, other assets and liquid funds are balanced at face value.

2.3 Liabilities

Trade payables are shown at their repayment values.

2.4 Currency Translation

All foreign currency balances are restated at the closing forex buy rate as indicated by Türkiye Cumhuriyet Merkez Bankası.

2.5 Revenues

Export revenues are recorded once the goods clear the Turkey Customs.

3. **Parent Company**

Hispa is a wholly owned subsidiary of HİSARLAR MAKİNA SANAYİ VE TİCARET A.Ş.

INDEPENDENT AUDITORS REPORT

To the Shareholders of Erkunt Traktör Sanayii Anonim Şirketi;

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Erkunt Traktör Sanayii Anonim Şirketi (the "Company"), which comprise the statement of financial position as at December 31, 2020, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2019, and its financial performance and its cash flows for the year then ended in accordance with Turkish Financial Reporting Standards ("TFRS"s).

Basis for opinion

Our audit was conducted in accordance with the Standards on Independent Auditing (the "SIA") that are part of Turkish Standards on Auditing issued by the Public Oversight Accounting and Auditing Standards Authority (the "POA"). Our responsibilities under those standards are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We here by declare that we are independent of the Company in accordance with the Ethical Rules for Independent Auditors (the "Ethical Rules") and the ethical requirements regarding independent audit in regulations issued by POA that are relevant to our audit of the financial statements. We have also fulfilled our other ethical responsibilities in accordance with the Ethical Rules and regulations. We believe that the audit evidence we have obtained during the independent audit provides a sufficient and appropriate basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. Key audit matters were addressed in the context of our independent audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	
Recoverability of trade receivables Trade receivables amounting to TL 142,568,294 constitute a significant portion of the assets of the Company as of December 31, 2020. Furthermore, the assessment of the recoverability of these assets involves significant level of management estimates. Such estimation includes considering the following for each customer- the amount of guarantees/collateral held, past collection performance, creditworthiness and aging of receivables. The outcome of such estimates is very sensitive to changes in market conditions. Therefore, recoverability of trade receivables is a key matter for our audit.	**How our audit addressed the key audit matter** We performed the following procedures in relation to the recoverability of trade receivables: Understanding the business process for collections from customers, evaluating the operational effectiveness of controls embedded in the business process and testing of selected controls, Comparing trade receivable turnover days to the prior period, Testing collections in the subsequent period from selected customers, Inquiries with management in relation to any disputes with customers and written inquiries with the Company's legal counsels on outstanding litigation in relation to trade receivables, Testing receivables by obtaining confirmation letters from customers and reconciling them to the Company's accounting records.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the Company audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other matter

The financial statements of the Company, prepared in accordance with the accounting policies applied by the Branch as of 31 December 2019, were audited by another firm whose independent auditor's report thereon dated February 5, 2020 expressed an unqualified opinion.

E. Cash and cash equivalents at the end of the year		**18,629,530**	9,484,462

NOTES TO THE FINANCIAL STATEMENTS AS OF DECEMBER 31, 2020
(Currency – TL unless otherwise indicated)

1. Organization and nature of activities

Erkunt Traktör Sanayii Anonim Şirketi ("Erkunt" or the "Company") was established on November 12, 2013.

The main activity of the Company is the production, sales, maintenance and repair of agricultural machinery, engine and transmission units, machinery and equipment.

The registered address of Company is Organize Sanayi Bölgesi, Batı Hun Caddesi, No: 2, Sincan, Ankara.

As of December 31, 2020, the number of personnel working within the Company is 265 (December 31, 2019: 327).

2. Basis of preparation of financial statements and significant accounting policies

2.1. Basis of preparation

The Company and its subsidiary maintain its books of account and prepare its statutory financial statements in accordance with accounting principles in the Turkish Commercial Code ("TCC") and tax legislation.

The accompanying financial statements are prepared in accordance with Turkish Accounting Standards/Turkish Financial Reporting Standards ("TAS/ TFRS") and its addendum and interpretations issued by Public Oversight Accounting and Auditing Standards Authority ("POA").

The financial statements are prepared in accordance with Turkish Accounting Standards for the purpose of fair presentation with booking of additional adjustments and reclassifications issued by Public Oversight Accounting and Auditing Standards Authority ("POA"). These adjustments consist of warranty provision, calculation of severance payment, useful lives and prorate of depreciation of tangible assets, provision accounting, provision of impaired inventories accounting, doubtful trade receivables and rediscount of trade payables.

Approval of financial statements

These financial statements have been approved and authorized to be published by the Board of Directors on March 17, 2021. The Board of Directors has the authority to revise the financial statements after issuance.

Functional and presentation currency

The Company's financial statements are prepared and presented in Turkish Lira ("TL"), which is the currency of the primary economic environment in which the entity operates.

Comparative information and amendments on past year financial statements

The accompanying financial statements are prepared comparatively with the previous period in order for the determination of the Company's financial position, performance, and cash flow trends. When there is a change in the presentation and reclassification of the items of the financial statements, the Company reclassifies the financial statements of the previous period to conform the comparability and discloses information related to these matters.

Classifications:

Without any adjustment on past year financial statements, the reclassifications made in statement of financial position and profit or loss of the Company as of December 31, 2019 are as follows:

- Financial component amounting TL 3,632,427 that was previously classified in other operations income has been reclassified to sales.
- Financial component amounting TL 4,879,351 that was previously classified in other operations expenses has been reclassified to cost of sales
- Taxes and fund payables amonunting TL 503,959 TL that was previously classified in employee benefit obligations has been reclassified to other current liabilities.
- Revaluation fund decrease amounting TL 2,216,910 was previously classified in deferred tax assets and have been offset from revaluation fund in equity.

Going concern

The financial statements of the Company are prepared under the assumption that the Company will benefit from the presence of assets derived from the natural flow of activities and fulfill their obligations for the next one-year in accordance with the going concern basis.

The shareholder Mahindra Overseas Investment Company is the ultimate shareholder of the Company and is always ready to take necessary actions to support the Company financially. In this matter, the paid-in share capital of the Company was increased by TL 65,000,000 at December 2020 and will be increased by TL 100,000,000 within 2021.

2.1 The new standards, amendments and interpretations

The accounting policies adopted in preparation of the financial statements as at 31 December 2020 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of 1 January 2020. The effects of these standards and interpretations on the Company's financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at 1 January 2020 are as follows:

Definition of a Business (Amendments to TFRS 3)

In May 2019, the POA issued amendments to the definition of a business in TFRS 3 Business Combinations standards. The amendments are intended to assist entities to remove the assessment regarding the definition of business.

The amendments:

- clarify the minimum requirements for a business;
- remove the assessment of whether market participants are capable of replacing any missing elements;
- add guidance to help entities assess whether an acquired process is substantive;
- narrow the definitions of a business and of outputs; and
- introduce an optional fair value concentration test.

The amendments to TFRS 3 are effective for annual reporting periods beginning on or after 1 January 2020 and apply prospectively.

The amendments did not have an impact on the financial position or performance of the Company.

Amendments to TFRS 9, TAS 39 and TFRS 7- Interest Rate Benchmark Reform

The amendments issued to TFRS 9 and TAS 39 which are effective for periods beginning on or after January 1, 2020 provide reliefs which enable hedge accounting to continue. For these reliefs, it is assumed that the benchmark on which the cash flows of hedged risk or item are based and/or, the benchmark on which the cash flows of the hedging instrument are based, are not altered as a result of IBOR reform. in connection with interest rate benchmark reform. Reliefs used as a result of amendments in TFRS 9 and TAS 39 is aimed to be disclosed in financial statements based on the amendments made in TFRS 7.

Definition of Material (Amendments to TAS 1 and TAS 8)

In June 2019, the POA issued amendments to TAS 1 Presentation of Financial Statements and TAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to align the definition of 'material' across the standards and to clarify certain aspects of the definition. The new definition states that, 'Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general-purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The amendments clarify that materiality will depend on the nature or magnitude of information, or both. An entity will need to assess whether the information, either individually or in combination with other information, is material in the context of the financial statements.

The amendments to TAS 1 and TAS 8 are required to be applied for annual periods beginning on or after 1 January 2020. The amendments must be applied prospectively, and earlier application is permitted.

Amendments to TFRS 16 – Covid-19 Rent Related Concessions

In June 5, 2020, the POA issued amendments to TFRS 16 Leases to provide relief to lessees from applying TFRS 16 guidance on lease modifications to rent concessions arising a direct consequence of the Covid-19 pandemic. A lessee that makes this election accounts for any change in lease payments related rent concession the same way it would account for the change under the standard, if the change were not a lease modification.

The practical expedient applies only to rent concessions occurring as a direct consequence of the Covid-19 pandemic and only if all of the following conditions are met:

- The change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change.
- Any reduction in lease payments affects only payments originally due on or before 30 June 2021
- There is no substantive change to other terms and conditions of the lease.

A lessee will apply the amendment for annual reporting periods beginning on or after 1 June 2020. Early application of the amendments is permitted.

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the financial statements are as follows. The Company will make the necessary changes if not indicated otherwise, which will be affecting the financial statements and disclosures, when the new standards and interpretations become effective.

TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)

In December 2017, POA postponed the effective date of this amendment indefinitely pending the outcome of its research project on the equity method of accounting. Early application of the amendments is still permitted.

TFRS 17 - The new Standard for insurance contracts

The POA issued TFRS 17 in February 2019, a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. TFRS 17 model combines a current balance sheet measurement of insurance contract liabilities with the recognition of profit over the period that services are provided. Certain changes in the estimates of future cash flows and the risk adjustment are also recognised over the period that services are provided. Entities will have an option to present the effect of changes in discount rates either in profit and loss or in OCI. The standard includes specific guidance on measurement and presentation for insurance contracts with participation features. TFRS 17 will become effective for annual reporting periods beginning on or after 1 January 2023; early application is permitted.

Amendments to TAS 1- Classification of Liabilities as Current and Non-Current Liabilities

On March 12, 2020, the POA issued amendments to TAS 1 Presentation of Financial Statements. The amendments issued to TAS 1 which are effective for periods beginning on or after 1 January 2023, clarify the criteria for the classification of a liability as either current or non-current. Amendments must be applied retrospectively in accordance with TAS 8 Accounting Policies, Changes in Accounting Estimates and Errors. Early application is permitted.

Amendments to TFRS 3 – Reference to the Conceptual Framework

In July 2020, the POA issued amendments to TFRS 3 Business combinations. The amendments are intended to replace to a reference to a previous version of the Conceptual Framework (the 1989 Framework) with a reference to the current version issued in March 2018 (the Conceptual Framework) without significantly changing requirements of TFRS 3. At the same time, the amendments add a new paragraph to TFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date. The amendments issued to TFRS 3 which are effective for periods beginning on or after 1 January 2022 and must be applied prospectively. Earlier application is permitted if, at the same time or earlier, an entity also applies all of the amendments contained in the Amendments to References to the Conceptual Framework in TFRS standards (March 2018).

Amendments to TAS 16 – Proceeds before intended use

In July 2020, the POA issued amendments to TAS 16 Property, plant and equipment. The amendment prohibits entities from deducting from the cost of an item of property, plant and equipment (PP&E), any proceeds of the sale of items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and costs of producing those items, in profit or loss. The amendments issued to TAS 16 which are effective for periods beginning on or after 1 January 2022. Amendments must be applied retrospectively only to items of PP&E made available for use on or after beginning of the earliest period presented when the entity first applies the amendment.

There is no transition relief for the first-time adopters.

Amendments to TAS 37 – Onerous contracts – Costs of Fulfilling a Contract

In July 2020, the POA issued amendments to TAS 37 Provisions, Contingent Liabilities and Contingent assets. The amendments issued to TAS 37 which are effective for periods beginning on or after 1 January 2022, to specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making and also apply a “directly related cost approach”. Amendments must be applied retrospectively to contracts for which an entity has not fulfilled all of its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Earlier application is permitted and must be disclosed.

Interest Rate Benchmark Reform – Phase 2 – Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16

In December 2020, the POA issued Interest Rate Benchmark Reform – Phase 2, Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16 to provide temporary reliefs which address the financial reporting effects when an interbank offering rate (IBOR) is replaced with an alternative nearly risk-free rate (RFR, amending the followings. The amendments are effective for periods beginning on or after 1 January 2021.Earlier application is permitted and must be disclosed.

Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform

The amendments include a practical expedient to require contractual changes, or changes to cash flows that are directly required by the reform, to be treated as changes to a floating interest rate, equivalent to a movement in a market rate of interest. Under this practical expedient, if the interest rates applicable to financial instruments change as a result of the IBOR reform, the situation is not considered as a derecognition or contract modification; instead, this would be determined by recalculating the carrying amount of the financial instrument using the original effective interest rate to discount the revised contractual cash flows.

The practical expedient is required for entities applying TFRS 4 Insurance Contracts that are using the exemption from TFRS 9 Financial Instruments (and, therefore, apply TAS 39 Financial Instruments: Classification and Measurement) and for TFRS 16 Leases, to lease modifications required by IBOR reform.

Relief from discontinuing hedging relationships

- The amendments permit changes required by IBOR reform to be made to hedge designations and hedge documentation without the hedging relationship being discontinued.
- Amounts accumulated in the cash flow hedge reserve are deemed to be based on the RFR.
- For the TAS 39 assessment of retrospective hedge effectiveness, on transition to an RFR, entities may elect on a hedge-by-hedge basis, to reset the cumulative fair value changes to zero.
- The amendments provide relief for items within a designated group of items (such as those forming part of a macro cash flow hedging strategy) that are amended for modifications directly required by IBOR reform. The reliefs allow the hedging strategy to remain and not be discontinued.
- As instruments transition to RFRs, a hedging relationship may need to be modified more than once. The phase two reliefs apply each time a hedging relationship is modified as a direct result of IBOR reform.

Separately identifiable risk components

The amendments provide temporary relief to entities from having to meet the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

Additional disclosures

Amendments need additional TFRS 7 Financial Instruments disclosures such as;

How the entity is managing the transition to RFRs, its progress and the risks to which it is exposed arising from financial instruments due to IBOR reform, quantitative information about financial instruments that have yet to transition to RFRs and If IBOR reform has given rise to changes in the entity's risk management strategy, a description of these changes. The amendments are mandatory, with earlier application permitted. While application is retrospective, an entity is not required to restate prior periods.

2.2 Summary of significant accounting policies

The accounting policies applied in the preparation of these financial statements have been presented below.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, cash in banks, other cash and cash equivalents, short-term deposits, highly liquid short-term investments and investments which has insignificant risk of change in fair value with maturity less than three months.

Related parties

a) A person or a member of that person's immediate family is related to reporting entity under the following conditions:

If the person;

i. Has control or joint control over the reporting entity;

ii. Has a significant impact on the reporting entity;

iii. The reporting entity or the entity reporting the case of a member of the key management personnel of the parent company

b) In the presence of any one of the following conditions entity related to the reporting entity:

i. If a firm and reporting entity are member of the same Company.

ii. If the firm is other entity's (or other entity of a member of a Company is a member), subsidiary, or the joint venture.

iii. Both entities are joint ventures of the same third party.

iv. One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

v. The entity, reporting entity or the entity which is in relation to the reporting entity or an entity associated with operating employees reporting if the post-employment benefit plans is provided in. If the reporting entity has such a plan, the sponsoring employers are also related to the reporting entity.

vi. Entity is jointly controlled by a person identified in the event (a).

vii. (a) event (ii) the presence or a significant impact on a person's business as defined in the company (or of a parent of the entity) is a member of the key management personnel.

Trade receivables

Trade receivables are recognized at original invoice amount less an allowance for any uncollectible-amount and recorded at amortized cost. The amount of imputed interests is calculated by considering the effective interest rates in line with the maturity of the receivables. When the Company will not be able to collect its receivable, the estimation for provision for doubtful receivable is recognized. Provision is set when doubtful receivables have been identified. When the receivable become uncollectible, it is written-off.

Trade payables

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method. Maturity differences related with trade payables are presented in other income/expense from main operations.

Prepaid expenses

Prepaid expenses are the amounts generally made to suppliers and which will be transferred to expense and cost accounts in the following period or periods.

Inventories

Inventories are valued at the lower of cost or net realizable value less costs to sell. Cost is determined by the most recent purchase method. Net realizable value represents the estimated selling price less all estimated costs of completion and costs necessary to make the sale. When the net realizable value of inventory is less than cost, the inventory is written down to the net realizable value and the expense is included in statement of income in the period the write-down or loss occurred. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in net realizable value because of changed economic circumstances, the amount of the write-down is reversed. The reversal amount is limited to the amount of the original write-down.

Impairment of financial assets

The Company assesses at each balance sheet date whether a financial asset is impaired. If there is objective evidence that an impairment loss on assets carried at amortized cost has been incurred, the amount of the loss is measured as the difference between the assets' carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through use of an allowance account. The amount of the loss is recognized in the statement of income. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized, the previously recognized impairment loss is reversed, to the extent that the carrying value of the asset does not exceed its amortized cost at the reversal date. Provision for impairment is provided when there is an objective evidence of non-collectability of trade receivables. Reserve is provided for the overdue uncollectible receivables. Also, portfolio reserve is provided for the not due receivables based on certain criteria. The carrying amount of the receivable is reduced through use of an allowance account. Changes in provision account are recorded under the comprehensive income statement.

Offsetting

Financial assets and liabilities are offset, and the net amount reported in the balance sheet when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously.

Property, plant and equipment

Property, plant and equipment is stated at cost less accumulated depreciation and accumulated impairment loss. Depreciation is provided on cost or revalued amount of property and equipment except for land and construction in progress on a straight-line basis. For the property plant and equipment that has fixed useful life, depreciation period and method is investigated at least once a year by Company management.

The depreciation periods for property, plant and equipment, which approximate the estimated economic useful lives of such assets, are as follows:

Accounts	Useful lives
Buildings	10–50
Machinery and equipment	3–15
Motor vehicles	3–6
Furniture and fixtures	2–25
Leasehold improvements	5–15

Assets that are subject to depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable and an asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The recoverable amount is the higher of the asset's fair value less cost to sell and value in use.

The costs of major renovations are included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the entity. All other repairs and maintenance are charged to the statement of profit or loss during the financial period in which they are incurred.

Gains or losses on disposals of property, plant and equipment are included in the other income and expense accounts, as appropriate.

Intangible assets

Intangible assets mainly comprise of software licenses, research and development cost and are measured initially at cost. Intangible assets are recognized if it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise; and the cost of the asset can be measured reliably. After initial recognition, intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses.

Intangible assets with finite lives are amortized on a straight-line basis over the best estimate of their useful live. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year-end.

The depreciation periods for licenses and software, which approximate the estimated economic useful lives of such assets, are as follows:

	Useful life
Licenses and software	3 – 10 year

Research and development expenses

Research expenses are recorded in the income statement in the incurred period. Expenses resulting from development activities (relating to the design and testing of new or improved products), are recorded as intangible assets when the following conditions are all met:

- It is technically feasible to complete the intangible asset so that it will be available for use;
- Management intends to complete the intangible asset and use or sell it;
- There is an ability to use or sell the intangible asset;
- It can be demonstrated how the intangible asset will generate probable future economic benefits;
- Adequate technical, financial and other resources to complete the development and to use or sell the intangible asset are available; and
- The expenditure attributable to the intangible asset during its development can be reliably measured.

Other development expenditures that do not meet these criteria are recognized as an expense as incurred. Development costs previously recognized as an expense are not recognized as an asset in a subsequent period. Capitalized development costs are recorded as intangible assets and amortized from the point at which the asset is ready for use on a straight-line basis over its useful life, not exceeding five years.

Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets:

- cash
- a contractual right to receive cash or another financial asset from another enterprise
- a contractual right to exchange financial instruments from another enterprise under conditions that are potentially favorable,
- an equity instrument of another enterprise

A financial liability that is a contractual obligation:

- to deliver cash or another financial asset to another enterprise,
- to exchange financial instruments with another enterprise under conditions that are potentially unfavorable

A financial asset or financial liability is calculated with the given (for financial asset) and uncovered (financial obligations) fair value on transaction costs by adding transaction expenses (deducting the financial liability) if any.

Fair value of financial instruments

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced sale or liquidation. It is best evidenced by a quoted market price, if one exists.

Impairment of assets

Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the statements of comprehensive income.

On the other hand; the recoverable amount of property, plant and equipment is the greater of fair value less cost to sell and value in use. Value in use is assessed by discounting future cash flows to their present value using a pre-tax discount rate that reflects current market conditions and the risks specific to the asset.

Current income taxes and deferred tax

Tax expense for the period comprises current and deferred tax. Current taxes on income comprise tax payable calculated on the basis of expected taxable income for the period using the tax rates enacted at the balance sheet date and any adjustment in taxes payable for previous periods.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred income tax is determined using tax laws that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax liabilities are recognized for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Provisions are reviewed in every period end and necessary changes performed to the best estimates of Management.

Contingent assets and liabilities

Possible assets or obligations that arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not totally within the control of the Company are disclosed as contingent assets or liabilities.

Employee benefits

Employee termination benefit

In accordance with existing social legislation in Turkey, the Company is required to make lump-sum termination indemnity payments to each employee who has completed over one year of service and whose employment is terminated due to retirement or for reasons other than resignation or misconduct.

The Company has calculated the provision for employment termination benefits using the "Projection method" and based on the Company's past experience in personnel's completion of service time and entitlement to employment termination rights, and recognized its discounted value as of the balance sheet date. All actuarial gains and losses calculated have been reflected to the statement of other comprehensive income.

Unused vacation

Unused vacation rights accrued in the financial statements represents estimated total provision for potential liabilities related to employees' unused vacation days and daily gross as of the balance sheet date. These amounts are reflected in the personnel expenses when incurred.

Wages and deductions

These are the amounts owed as the scope of benefits provided to employees during the period which are wages, salaries and social security contributions. These amounts are reflected in the personnel expenses when incurred.

Foreign currency transactions

Transactions in foreign currencies during the period have been translated at the exchange rates prevailing at the dates of such transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Turkish Lira at the Central Bank of the Republic of Turkey's buying exchange rates prevailing at the balance sheet dates.

Exchange rate differences arising on reporting monetary items at rates different from those at which they were initially recorded or on the settlement of monetary items or are recognized in the comprehensive income statement in the period in which they arise. The foreign currency gain/loss related to the Company's trade payables and receivables shown in operating income/loss account and the other foreign currency gain/loss except the Company's operations shown in financial gain/loss account.

Revenue recognition

Company performs manufacturing and assembling of raw materials, spare parts and work-in progress of any vehicles, cars, truck, bus, tow truck, tractors, refrigerated vehicle, ambulance, forklift, railway wagon, rail vehicles, locomotives, any vehicles related with the automotive industry, all kinds of sea, air, land and rail vehicles within its own manufacturing plant and performs import, export, marketing, sales and purchasing at the same time. Agreements with customers are generally made after tenders have been won. The Company provides repair and maintenance services for the customers covered by the warranty during the period of 2 years for the vehicles for which the Company has sold. Income related to services that are not yet completed when they are billed accounted as deferred income.

Revenues are recognized on an accrual basis at the time deliveries or acceptances are made, the amount of the revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the Company, at the fair value of consideration received or receivable. Net sales represent the invoiced value of goods shipped less sales returns and commission and excluding sales taxes.

Other revenues

Other revenues earned by the Company consist of rent income and interest income which is recognized on an accrual basis.

Loans

Loans are recognized initially at fair value and at directly attributable transaction costs after initial recognition. Loans are subsequently measured at amortized cost by using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the income statement over the period of the financial liabilities.

Financial leases

Assets acquired under finance lease agreements are capitalized at the inception of the lease at the fair value of the leased asset, net of grants and tax credits receivable, or at the present value of the lease payment, whichever is the lower. Lease payments are treated as comprising capital and interest elements, the capital element is treated as reducing the capitalized obligation under the lease and the interest element is charged as expense to the statement of income. Depreciation on the relevant asset is also charged to the statement of income over its useful life.

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognized in the statement of income/(loss) in the period in which they are incurred. Borrowing costs include other costs related to interest and funding.

Significant accounting judgments, estimates and assumptions

The preparation of the financial statement requires Company management to make judgments, estimates and assumptions that are reflected in the measurement of income and expense in the income statement and in the carrying value of assets and liabilities in the balance sheet. The actual future results from operations may be different than those estimated. Estimates are reviewed periodically, and adjustments become necessary, they are reported in the income statement in which they become known. However, the actual results may be different than those estimated.

The key assumptions concerning the future and other key resources of estimation at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year and the significant judgments with the most significant effect on amounts recognized in the financial statements are as follows:

a) Provisions for employment termination benefits have been calculated according to various actuarial assumptions (discount rate, estimated future wage increase, and rate of retirement of the employees).

b) Provision for doubtful receivables is an estimated amount that management believes to reflect for possible future losses on existing receivables that have collection risk due to current economic conditions. During the impairment test for the receivables, the debtors, other than the key accounts and related parties, are assessed with their prior year performances, their credit risk in the current market, their performance after the balance sheet date up to the issuing date of the financial statements and furthermore, the renegotiation conditions with these debtors are considered.

c) Provisions for lawsuits are determining by the management with support of Company's legal advisers that can result a cash outflow for the Company in every period at the date of preparation of financial statements.

d) The Company management made significant assumptions on the useful economic lives of the tangible assets according to experiences of technical team, especially in buildings and equipment.

e) Research expenses are recorded as expense when realized. Costs incurred in development projects (related to the design and testing of new or improved products) are recorded as intangible assets if the conditions described in Note 2.3 are met.

Statement of cash flows

Cash flow for the period shown in the cash flow statements is based on operating, investing and financing activities which are classified and reported. Cash flows generated from operating activities consist of cash flows that fare generated from the Company's main operating activities. Cash flows related to investing activities consist of the Company's cash flows used and obtained in the investment activities (asset investments & financial investments).

Cash flows related to financing activities consist of the resources used in financing activities of the Company and the repayment of these sources.

Cash and cash equivalents include cash on hand, deposits at banks, short-term deposits, highly liquid short-term investments and investments which has insignificant risk of change in fair value with maturity less than three months.

Subsequent events

The Company recognizes the subsequent events that require adjustment which provide additional information to the status of the Company at the balance sheet date on its financial statements. If non-adjusting events after the balance sheet date have certain significance, then, they are disclosed in the notes to the financial statements.

3. Cash and cash equivalents

	December 31, 2020	December 31, 2019
Cash	**12,126**	17,299

Net book value	**27,674,313**			**–**

The recoverable amount of intangible fixed assets as of December 31, 2020 has been compared with the amounts calculated by discounting cash flows within the framework of financial budget projections covering the next five years and approved by the Company management, and it has been determined that the recoverable amount is lower than the current value. For this reason, the company has allocated a provision for impairment for the entire intangible assets.

Movement of intangible assets and accumulated amortization between the dates of January 1, 2019 and December 31, 2019 is as follows:

	January 1, 2019	Additions	Transfers	Disposals	December 31, 2019

Additional provisions/ (releases), net	329,232	98,881
December 31,	1,639,437	1,310,205

b) Long term provisions for employee benefits

Under the Turkish Labour Law, the Company is required to pay termination benefits to each employee who has completed one year of service and whose employment is terminated without due cause, is called up for military service, or who retires or resigns. The indemnity is one month's salary for each working year and is limited to TL 6,730,15 as of December 31, 2020 (December 31, 2019: TL 6,017,60).

The Company reflected a liability calculated using the Projected Unit Credit Method and based upon factors derived using their experience of personnel terminating their services and eligible to receive retirement pay and discounted by using the current market yield on government bonds at the statement of financial position date. This provision is calculated by expecting the present value of the future liability which will be paid for the retired personnel.

	December 31, 2020	December 31, 2019
Provision for employee termination benefits	2,575,408	1,760,521

27. Taxation

Current and deferred income tax

The tax expense for the year comprises current and deferred tax. Tax is recognised in the income statement, except to the extent that it relates to items recognised directly in equity. In such case, the tax is also recognised in shareholders' equity.

The current income tax charge is calculated in accordance with the tax laws enacted or substantively enacted at the balance sheet date in the countries where the subsidiaries and associates of the Company operate. Under the Turkish Tax Code, companies having head office or place of business in Turkey are subject to corporate tax.

Under the Turkish taxation system, tax losses can be carried forward to be offset against future taxable income for five years. Tax losses cannot retrospectively offset against the profits of previous years.

Furthermore, provisional corporate taxes are paid at 20% (will be applied as 22% for 2018, 2019 and 2020 tax periods) over profits declared for interim periods in order to be deducted from the final corporate tax.

As of December 31, 2020 and 2019, income tax provisions have been accrued in accordance with the prevailing tax legislation.

Deferred income tax is provided in full, using the liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Currently enacted tax rates are used to determine deferred income tax at the balance sheet date.

Deferred tax liabilities are recognized for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.

Provided that deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority and it is legally eligible, they may be offset against one another.

Corporation tax

The Company is subject to taxation in accordance with the tax regulation and the legislation effective in Turkey.

In Turkey, the corporate tax rate is 22%. However, in accordance with the addition of temporary 10th article to the Corporate Tax Law, 22% corporate tax rate will be applied to the profits of the entities related to their 2018, 2019 and 2020 tax periods (for the entities with special accounting period, tax periods commenced in the related year) rather than 20%. This rate is applicable to the tax base derived upon exemptions and deductions stated in the tax legislation and by addition of disallowable expenses to the commercial revenues of the companies with respect to the tax legislation. Corporate tax is required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid by the end of the fourth month.

The tax legislation provides for a temporary tax of 20% (will be applied as 22% for 2018, 2019 and 2020 tax periods) to be calculated based on earnings generated for each quarter. Temporary tax is declared by the 14th day of the second month following each quarter and corresponding tax is payable by the 17th day of the same month. The amounts thus calculated and paid are offset against the final corporate tax liability for the year. If there is excess temporary tax paid even if it is already offset, this amount may be refunded or offset.

Corporate tax losses can be carried forward for a maximum period of 5 years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

15% withholding applies to dividends distributed by resident real persons, those who are not liable to income and corporation tax, non-resident real persons, non-resident corporations (excluding those that acquire dividend through a permanent establishment or permanent representative in Turkey) and non-resident corporations exempted from income and corporation tax.

Dividend distribution by resident corporations to resident corporations is not subject to a withholding tax. Furthermore, in the event the profit is not distributed or included in capital, no withholding tax shall be applicable.

Tax amounts recognized in the income statement as of December 31, 2020 and 2019 are as follows:

	January 1 – December 31, 2020	January 1 – December 31, 2019
Current year corporate tax expenses (-)	**–**	–
Deferred tax income/ (expenses)	**(16,131,651)**	9,470,673
Total tax expenses	**(16,131,651)**	9,470,673

As of 31 December 2020 and 2019, the details of temporary differences and deferred tax assets and liabilities are as follows;

Deferred tax asset/ liability – net	**63,052,652**	72,103,737	**15,197,058**	16,102,253

Deferred tax liability or asset is determined by calculating the tax effects of the temporary differences between the amounts of assets and liabilities shown in the financial statements and the amounts considered in the calculation of the legal tax base according to the balance sheet method, considering. While deferred tax liabilities are calculated for all taxable temporary differences, deferred tax assets consisting of deductible temporary differences are calculated on the condition that it is highly likely to benefit from these differences by obtaining taxable profit in the future. As the company does not expect to generate taxable profit in the next 5 years in the current period, it has been evaluated that it is not possible to benefit from these differences and the deferred tax has not been recorded in the financial statements.

Movement of deferred tax assets are as follows:

	2020	2019
January 1	**13,337,272**	6,579,454
Recognized in the statement of comprehensive income	**2,794,379**	52,126
Recognized in the statement of profit or loss	**905,195**	9,470,673
December 31	**15,197,058**	16,102,253
Reversal	**(15,97,058)**	–
Total	**–**	16,102,253

As of December 31, 2020, the reported tax provision is different from the amount calculated using the statutory tax rate on profit before tax. The relevant memorandum of understanding is as follows:

	2020	2019
Loss before tax	**(61,412,387)**	(54,117,711)
Theoretical tax charge at statutory rate (%22)	**13,510,725**	11,905,896
Current year losses on which no deferred tax assets recognized	**(3,485,544)**	(11,958,131)
Non-deductible expenses	**(911,659)**	(410,658)
Tax reversals	**(9,113,523)**	(2,435,223)
Other	**–**	462,892
Income tax (expense)/ income for the year	**(16,131,651)**	9,470,673

28. Earnings per share

Earnings per share ("EPS") are determined by dividing the net comprehensive income by the weighted average number of shares that have been outstanding during the year.

Earnings per share as of December 31, 2020 and 2019:

	December 31, 2020	December 31, 2019
Net comprehensive income or loss attributable to the equity holders of the parent	**(79,702,523)**	(44,647,038)
Weighted average number of share certificates (piece)	**265,000**	200,000
Earnings per share, (0,001)	**(301)**	(223)

30. Financial instruments and nature and extent of risks arising from financial instruments

The Company's principal financial instruments are comprised of bank loan, liabilities under finance lease, other financial liabilities, cash and short-term bank deposits. The main purpose of these financial instruments is to raise finance for the Company's operations. The Company has various other financial instruments such as trade receivables and trade payables, which arise directly from its operations.

The main risks arising from the Company's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The Company management reviews and agrees policies for managing each of the risks as summarized below. The Company also monitors the market price risk arising from all financial instruments.

Capital risk management

The management of the Company considers the cost of capital and the risks associated with each class of capital. The Company's capital structure consists of payables, cash and short-term deposits, and shareholder's equity components mentioned in Note 19 such as issued capital, capital reserves, and profit reserves for its net debt to equity ratio analysis.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may incur new payables or repay the existing payables and adjust the dividend payment to shareholders or the shareholders may make a direct cash contribution of the needed working capital to the Company.

The Company follows equity by using the rate of liabilities/equity. This ratio is calculated by division of net liabilities to total equities. Net debt is calculated by excluding the cash and cash equivalents from total debt amount (financial liabilities include trade and other payables and short term and long-term other liabilities like as indicated on financial statement).

	December 31, 2020	December 31, 2019
Financial liabilities (Note 4)	**121,826,318**	111,778,818
Less: Cash and cash equivalents (Note 3)	**18,629,530**	9,484,462
Net debt	**103,196,788**	102,294,356
Total equity	**94,048,142**	111,590,476
Debt/equity balance	**9,148,646**	(9,296,120)
Net debt/total equity ratio	**%110**	%92

Foreign currency risk

The Company is exposed to foreign exchange risk arising from denominated foreign currency transactions. The Company exposed to foreign exchange risk primarily to USD and EUR bank loans. These exposures are managed by balancing interest rate sensitive assets and liabilities.

The Company's net foreign currency position as of December 31, 2020 and 2019 is presented below:

In totals;	**December 31, 2020**	December 31, 2019
A. Foreign currency assets	**31,665,832**	71,975,163
B. Foreign currency liabilities	**(47,894,462)**	(24,265,092)
Net foreign exchange position (A+B)	**(16,228,630)**	47,710,071

As of December 31, 2020 and 2019, details of foreign currency positions of the Company are as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation who has invested in financial instruments. The Company manages its credit risk by restricting its transactions that are carried out by third parties and reviewing those third parties credit risks continuously.

Concentrations of credit risk arise when a number of counterparties are engaged in similar business activities or activities in the same geographic region or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

The Company seeks to manage its credit risk exposure through diversification of sales activities to avoid undue concentrations of risks with individuals or Companies of customers in specific locations or businesses. The maximum credit risk the Company exposure is reflected by presenting all financial assets from carrying amount on financial statements.

Liquidity risk

Liquidity risk is the risk of the Company not meeting its net funding requirements. Liquidity risk is managed by cash inflows and outflows which are balanced by credit institutions in scope of the pre-determined credit limits. Remaining period to maturity as of the balance sheet date is taken into consideration when presenting the breakdown of financial liabilities according to their maturities. The following table presents the maturity analyses of the Company's financial liabilities' contractual undiscounted cash outflows as of December 31, 2020 and 2019.

December 31, 2020

Maturities according to the agreements	Book value	Total contract based cash outflow (I+II+III)	Up to 3 months (I)	3 months to 1 year (II)	1 to 5 years (III)
Financial liabilities (Note 4)	119,826,318	119,889,113	22,378,113	97,511,000	–

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Erkunt Sanayi Anonim Şirketi;

A) Report on the Audit of the Financial Statements

1) Opinion

We have audited the financial statements of Erkunt Sanayi A.Ş. (the "Company"), which comprise the statement of financial position as at December 31, 2020, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Company as at December 31, 2020, and its financial performance and its cash flows for the year then ended in accordance with the Turkish Accounting Standards ("TAS").

2) Basis for opinion

We conducted our audit in accordance with Independent Auditing Standards ("IAS"s). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code") together with the ethical requirements that are relevant to our audit of the financial statements in Turkey, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

3) Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	How key audit matters addressed in the audit
<u>**Trade Receivables**</u> Trade receivables are significant for the Company as it represents approximately 30% of the Company's total assets. The collectability of trade receivables is one of the most important elements of the Company's working capital management. The Company's management has used certain estimates and assumptions in the calculation of the provision for doubtful trade receivables related to trade receivables. Due to the reasonableness of the size of the amounts and the collectability of trade receivables, the existence and collectability of trade receivables is considered as a key audit matter.	– Evaluating the process regarding the collection follow-up of the Company's trade receivables and the operational effectiveness of the relevant internal controls. – Understanding, evaluating and testing the effectiveness of internal controls regarding financial reporting for credit risk – Examining the aging table of receivables analytically. – Testing trade receivable balances by sending confirmation letters through sample selections. – Testing the collections made in the subsequent period through sample selections. – Testing the collaterals received for receivables by sampling and evaluating their ability to be converted to cash – Evaluating the compliance of the applied accounting policies with TFRS 9, the company's past performance, local and global practices, – Investigating the disputes and lawsuits related to the receivables in order for the auditing appropriateness of the special provisions and obtaining a confirmation letter from the legal advisors regarding the ongoing lawsuits. – Evaluating the adequacy of the explanations regarding the impairment of trade receivables and their compliance with TFRS. We also tested management's periodicity testing procedures and selected samples independently to test segments of revenue and purchases with verification of invoices. Details on trade receivables are given in Note 4.

Key audit matters	How key audit matters addressed in the audit
Property, plant and equipment As of December 31, 2020, property, plant and equipment amounting to TL 108.152.550 represents significant part of total assets in the statement of financial position. Property, plant and equipment is considered as key audit matter due to their size as of the statement of financial position date.	– The appropriateness of the estimated useful lives of the tangible assets is evaluated by considering the expected economic benefits associated with each asset. – Supporting documents for the movements of tangible assets were obtained and material accuracy tests were carried out. – Whether the depreciation methodology reflects the profile of expected future economic benefits in the best way/accurate way was evaluated and the current year depreciation expenses were tested. Details on tangible fixed assets are given in Note 11.

4) Other matter

The financial statements of the Company for the year ended December 31, 2019, were audited by another auditor who expressed an unmodified opinion on March 5, 2020.

5) Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TASs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so Those charged with governance are responsible for overseeing the Company's financial reporting process.

6) Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with IASs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with IASs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

– Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

– Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

– Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

– Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

– Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Company Management, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

B) Other legal and regulatory requirements

1) In accordance with paragraph 4 of Article 402 of the TCC, no significant matter has come to our attention that causes us to believe that the Company's bookkeeping activities for the period January 1 - December 31, 2020 and financial statements are not in compliance with laws and provisions of the Company's articles of association in relation to financial reporting.

2) In accordance with paragraph 4 of Article 402 of the TCC, the Board of Directors submitted to us the necessary explanations and provided required documents within the context of audit.

The name of the engagement partner who supervised and concluded this audit is Yaşar Emin Taylan.

EXPLANATORY NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED AT DECEMBER 31, 2020

(Amounts expressed in Turkish Lira (“TL”), unless otherwise indicated.)

1. Organization and operations of the Company

Erkunt Sanayi A.Ş. (the “Company”) was established in 1961 and its main activity is to manufacture and trade all kinds of parts, machined parts and main products based on casting technology for automotive, tractors and construction equipment.

The Company has Casting-1 and Machining-1 facilities in Etimesgut Ankara, which is its headquarters, as well as Casting-2 established in Sincan Ankara “Organized Industrial Zone” in 1996 and Processing-2 facilities at the same location.

The Company’s share capital consists of 1.512.000.000 units of shares with the nominal value of TL 0.01.

The shareholders of the Company and their shareholding structures as of December 31, 2020 and 2019 are as follows:

	December 31, 2020		**December 31, 2019**	
Shareholders	**Amount in TL**	Share (%)	Amount in TL	Share (%)
Mahindra Overseas Investment Company Ltd.	**9,633,788**	**63.7**	9,633,788	63.7
Erkunt Traktör Sanayii A.Ş.	**5,288,795**	**35.0**	5,288,795	35.0
Bürge Ceylan Kaleli	**110,950**	**0.7**	110,950	0.7
Ahmet Nalbur	**15,120**	**0.1**	15,120	0.1
Rezzan Oral	**147**	**0.0**	147	0.0
Other	**71,200**	**0.5**	71,200	0.5
Total	**15,120,000**	**100.0**	15,120,000	100.0

Total number of employees of the Company as of December 31, 2020 is 1,342 (December 31, 2019: 1,287).

2. Basis of presentation of financial statements and summary of accounting policies

2.1 Basis of presentation

The financial statements have been prepared under the historical cost convention. In determining the historical cost, generally the fair value of the price paid for the assets is taken as basis.

The accompanying financial statements of the Company have been prepared in accordance with the principles of Turkish Accounting Standards (“TAS”), as issued by the Public Oversight Accounting and Auditing Standards Authority (“POA”).

Financial statements and footnotes are presented in accordance with the financial statement examples and user guide announced by the POA with the principle decision dated April 15, 2019.

The financial statements of the Company have been prepared in Turkish Lira, which is the functional currency, and expressed in Turkish Lira, which is the presentation currency.

The accompanying financial statements have been approved by the board of directors on March 11, 2021.

Going concern basis

The Company has prepared its financial statements under the assumption that it will continue its operations in the foreseeable future.

2.2 The new standards, amendments and interpretations

The accounting policies adopted in preparation of the financial statements as at December 31, 2020 are consistent with those of the previous financial year, except for the adoption of new and amended TFRS and TFRIC interpretations effective as of January 1, 2020. The effects of these standards and interpretations on the Company’s financial position and performance have been disclosed in the related paragraphs.

i) The new standards, amendments and interpretations which are effective as at 1 January 2020 are as follows:

- Definition of a Business (Amendments to TFRS 3)
- Amendments to TFRS 9, TAS 39 and TFRS 7- Interest Rate Benchmark Reform
- Definition of Material (Amendments to TAS 1 and TAS 8)
- Amendments to TFRS 16 – Covid-19 Rent Related Concessions

The amendments did not have a significant impact on the financial position or performance of the Company.

ii) Standards issued but not yet effective and not early adopted

Standards, interpretations and amendments to existing standards that are issued but not yet effective up to the date of issuance of the consolidated financial statements are as follows. The Company will make the necessary changes if not indicated otherwise, which will be affecting the financial statements and disclosures, when the new standards and interpretations become effective.

- TFRS 10 and TAS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments)
- TFRS 17 - The new Standard for insurance contracts
- Amendments to TAS 1- Classification of Liabilities as Current and Non-Current Liabilities
- Amendments to TFRS 3 – Reference to the Conceptual Framework
- Amendments to TAS 16 – Proceeds before intended use
- Amendments to TAS 37 – Onerous contracts – Costs of Fulfilling a Contract
- Interest Rate Benchmark Reform – Phase 2 – Amendments to TFRS 9, TAS 39, TFRS 7, TFRS 4 and TFRS 16

The Company is in the process of assessing the impact of the amendments on financial position or performance of the Company.

2.3 Comparative information and amendments on past year financial statements

The accompanying financial statements are prepared comparatively with the previous period in order for the determination of the Group's financial position, performance, and cash flow trends. When there is a change in the presentation and reclassification of the items of the financial statements, the Group reclassifies the financial statements of the previous period to conform the comparability and discloses information related to these matters.

2.4 Summary of significant accounting policies

The preparation of financial statements in accordance with those requirements of TFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial position. Actual results may vary from the current estimates. These estimates are reviewed periodically, and, as adjustments become necessary, they are reported in earnings in the periods in which they become known. Main judgments, estimates and assumptions used are generally related to the percentages of completion projects and provisions and explained in related parts of disclosures.

Cash and cash equivalents

Cash and cash equivalents are cash in hand, demand deposits and other short-term investments with a maturity of 3 months or less than 3 months, which are easily convertible into cash and do not carry a significant risk of change in value. Bank deposits with a maturity of longer than 3 months and less than 1 year are classified as short-term financial investments.

Related parties

Parties are considered related to the Company if:

a) A person or a close member of that person's family is related to a reporting entity if that;

The related person or entity that is related to the entity preparing its financial statements (for this note will be named as reporting entity'):

(i) Has control or joint control over the reporting entity;

(ii) Has significant influence over the reporting entity; or

(iii) Is a member of the key management personnel of the reporting entity or of a parent of the reporting entity

(b) An entity is related to a reporting entity if any of the following conditions applies:

(i) The entity and the reporting entity are members of the same company (which means that each Parent, subsidiary and fellow subsidiary is related to the others).

(ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a company of which the other entity is a member).

(iii) Both entities are joint ventures of the same third party.

(iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.

(v) The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.

(vi) The entity is controlled or jointly controlled by a person identified in (a).

(vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

A related party transaction is a transfer of resources, services or obligations between a reporting entity and a related party, regardless of whether a price is charged.

Trade payables

Trade payables are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method. Measured at the original invoice amount unless the effect of imputing interest is significant. Interest related with trade payables are shown in other operating income/ expense account.

Inventories

Inventories are valued at the lower of cost at the financial statement date or net realizable value. Cost is determined by the weighted average method. Costs are calculated over most recent acquisition amount. Net realizable value represents the estimated selling price less all estimated costs of completion and costs necessary to make the sale. When the net realizable value of inventory is less than cost, the inventory is written down to the net realizable value and expensed in statement of income/(loss) in the period that loss occurred. When the circumstances that previously caused inventories to be written down below cost no longer exist or when there is clear evidence of an increase in net realizable value because of changed economic circumstances, the amount of the write-down is reversed. The reversal amount is limited to the amount of the original write-down.

Offsetting

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or realize the asset and settle the liabilities simultaneously.

Revenue

The Company recognize revenue to depict the transfer of promised services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. This core principle is delivered in a five-step model framework:

– Identify the contracts with a customer,
– Identify the performance obligations in the contract,
– Determine the transaction price,
– Allocate the transaction price to the performance obligations in the contract,
– Recognize revenue when (or as) the entity satisfies a performance obligation,

The Company evaluates the products it has committed in each contract with customers and determines each commitment it has made to transfer the said goods or services as a separate performance obligation. Whether the performance obligation for each contract will be realized at a certain time or over time is evaluated at the beginning of the contract. If the Company realizes the transfer of control of its goods and services over time and fulfills its performance obligation over time, it measures the progress in fulfilling the performance obligation and records the revenues in the financial statements.

Property, plant and equipment

Property, plant and equipment are carried at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated and carried at cost less accumulated impairment.

Properties in the course of construction for production, supply or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognized impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalized in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognized so as to write off the cost or valuation of assets, other than freehold land and properties under construction, less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

	Useful life
Building	50 years
Machinery and equipment	2-33 years
Vehicles	5 years
Furniture and fixtures	2-50 years
Leasehold improvements	4-15 years

Intangible assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortization and accumulated impairment losses. Amortization is recognized on a straight-line basis over their estimated useful lives. The estimated useful life and amortization method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis. Intangible assets with indefinite useful lives that are acquired separately are carried at cost less accumulated impairment losses.

Trademarks and licenses

Acquired trademarks and licenses are shown at historical cost. Trademarks and licenses have a finite useful life and are carried at cost less accumulated amortization. Amortization is calculated using the straight-line method to allocate the cost of trademarks and licenses over their estimated useful lives (3 years).

Computer software

Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized over their estimated useful lives (3 years).

Costs associated with developing or maintaining computer software programs are recognized as an expense as incurred. Costs that are directly associated with the development of identifiable and unique software products controlled by the Company, and that will probably generate economic benefits exceeding costs beyond one year, are recognized as intangible assets. Costs include the software development employee costs and an appropriate portion of relevant overheads.

Computer software development costs recognized as assets are amortized over their estimated useful lives (not exceeding 3 years).

Investment properties

Investment properties are properties held to earn rentals and/or for capital appreciation, including property under construction for such purposes. Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at fair value.

When the use of a property changes such that it is reclassified as property, plant and equipment, its fair value at the date of reclassification becomes its cost for subsequent accounting.

An investment property is derecognized upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognized.

No assets held under operating lease have been classified as investment properties.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit or loss [statement of profit or loss and other comprehensive income] because of items of income or expense that are taxable or deductible in other years and it excludes items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases which are used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such deferred tax assets and liabilities are not recognized if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax liabilities are recognized for taxable temporary differences associated with investments in subsidiaries and associates, and interests in joint ventures, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognized to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax

Current and deferred tax are recognized as in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

Employee termination benefits

Under Turkish law and union agreements, lump sum payments are made to employees retiring or involuntarily leaving the Company. Such payments are considered as being part of defined retirement benefit plan as per TAS19 (Revised) "Employee Benefits" ("TAS 19").

The retirement benefit obligation recognized in the balance sheet represents the present value of the defined benefit obligation. The actuarial gains and losses are recognized in other comprehensive income.

Foreign currency transactions

Transactions in foreign currencies during the year have been translated at the exchange rates prevailing at the dates of such transactions. Monetary assets and liabilities denominated in foreign currencies are translated into Turkish Lira at the Central Bank of Republic of Turkey buying exchange rates prevailing at the balance sheet dates.

Exchange rate differences arising on reporting monetary items at rates different from those at which they were initially recorded or on the settlement of monetary items or are recognized in the comprehensive income statement in the period in which they arise. The foreign currency gain/ loss related to the Company's trade payables and receivables shown in operating income/ expense account and the other foreign currency gain/ loss except Company's operations shown in financial gain/ loss account.

Financial assets

Classification

The Company classifies its financial assets in three categories of financial assets measured at amortized cost, financial assets measured at fair value through other comprehensive income and financial assets measured at fair value through profit of loss. The classification of financial assets is determined considering the entity's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets. The appropriate classification of financial assets is determined at the time of the purchase. Financial assets are not reclassified after initial recognition unless the business model that the Company uses in the management of financial assets has changed; In the event of a change in business model, the financial assets are reclassified on the first day of the following reporting period.

Recognition and measurement

"Financial assets measured at amortized cost", are non-derivative assets that are held within a business model whose objective is to hold assets in order to collect contractual cash flows and the contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company's financial assets measured at amortized cost comprise "cash and cash equivalents", "trade receivables" and "financial investments". Financial assets carried at amortized cost are measured at their fair value at initial recognition and by effective interest rate method at subsequent measurements. Gains and losses on valuation of non-derivative financial assets measured at amortized cost are accounted for under the statement of income.

"Financial assets measured at fair value through other comprehensive income", are non-derivative assets that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Gains or losses on a financial asset measured at fair value through other comprehensive income is recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses until the financial asset is derecognized or reclassified. When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified to retained earnings. The Company may make an irrevocable election at initial recognition for particular investments in equity instruments that would otherwise be measured at fair value through profit or loss, to present subsequent changes in fair value in other comprehensive income. In such cases, dividends from those investments are accounted for under the statement of income.

"Financial assets measured at fair value through profit or loss", are assets that are not measured at amortized cost or at fair value through other comprehensive income. Gains and losses on valuation of these financial assets are accounted for under the statement of income.

Derecognition

The Company derecognized a financial asset when the contractual rights to the cash flows from the asset expired, or it transferred the rights to receive the contractual cash flows in a transaction in which substantially all the risks and rewards of ownership of the financial asset were transferred. Any interest in such transferred financial assets that was created or retained by the Company was recognized as a separate asset or liability.

Impairment

Impairment of the financial and contractual assets measured by using "expected credit loss model" ("ECL"). The impairment model applies for amortized financial and contractual assets.

Provision for loss measured as below;

- 12- Month ECL: results from default events that are possible within 12 months after reporting date.
- Lifetime ECL: results from all possible default events over the expected life of financial instrument

Lifetime ECL measurement applies if the credit risk of a financial asset at the reporting date has increased significantly since 12 month ECL measurement if it has not.

The Company may determine that the credit risk of a financial asset has not increased significantly if the asset has low credit risk at the reporting date. However lifetime ECL measurement (simplified approach) always apply for trade receivables and contract assets without a significant financing.

Trade receivables

Trade receivables, generated by the Company by providing goods or services to a buyer, are presented as netted off unaccrued financing income. Trade receivables that are not accrued after the unearned financing income are calculated by discounting the amounts to be obtained in the subsequent periods from the original invoice amount. Short-term receivables with no stated interest rate are measured at the cost value unless the effect of the original effective interest rate is significant.

In case there is objective evidence that there is no possibility of collection, the Company provides provision for doubtful receivables for trade receivables. The amount of this provision is the difference between the carrying amount of the receivable and the amount that can be collected. The amount that can be collected is the discounted value of all cash flows, including the amounts collected from guarantees and collateral, based on the original effective interest rate of the trade receivable.

After the collection of doubtful receivable, in case of collecting all or part of the doubtful receivable amount, the collected amount is deducted from the provisioned doubtful receivable and recorded in other income.

For the purpose of calculating the depreciation of trade receivables, which are accounted for at amortized cost and which do not include a significant financing component (less than a year), the simplified approach is implemented. In cases where the trade receivables are not impaired due to certain reasons (except fort he realized impairment losses), the provision for losses related to trade receivables are measured by an amount equal to the expected loan losses.

Financial liabilities

Financial liabilities are measured at fair value at initial recognition. Transaction costs directly attributable to the burden of related financial liability are also added to the fair value. Financial liabilities are classified as equity instruments and other financial liabilities.

Financial liabilities are recognized initially at the proceeds received, netted off transaction costs incurred. Financial liabilities are followed in the financial statements with their discounted values calculated with effective interest rate.

Other financial liabilities

Other financial liabilities, including borrowings and trade and other payables, are initially measured at fair value, net of transaction costs.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method, with interest expense recognized on an effective yield basis.

The effective interest method is a method of calculating the amortized cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in profit or loss.

Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset shall be capitalized as part of the cost of that asset. Such borrowing costs are capitalized as part of the cost of the asset when it is probable that they will result in future economic benefits to the entity and the costs can be measured reliably. Other borrowing costs are recognized as an expense in the year in which they are incurred. There is no capitalized borrowing cost at related year.

Post reporting date events

In the case that events occur requiring an adjustment, the Company adjusts the amount recognized in its financial statements to reflect the adjustments after the balance sheet date.

2.5 Critical accounting judgments and key sources of estimation uncertainty

The preparation of financial statements requires estimates and assumptions to be made regarding the amounts for the assets and liabilities at the balance sheet date, and explanations for the contingent assets and liabilities as well as the amounts of income and expenses realized in the reporting period. These estimates and assumptions are reviewed regularly, taking into account past experiences and factors expected to arise in the future under certain conditions. Uncertainty about these estimates and assumptions may require significant adjustments in the carrying values of assets and liabilities. Actual results may differ from estimates and assumptions.

Comments that may have a significant impact on the amounts reflected in the financial statements and the significant assumptions and evaluations made by considering the main sources of the estimates that may or may occur at the balance sheet date are as follows:

a) Provisions for employment termination benefits have been calculated according to the (discount rate, estimated future wage increase, and rate of retirement of the employees) based on actuarial assumptions.

b) Provision for doubtful receivables is an estimated amount that management believes to reflect for possible future losses on existing receivables that have collection risk due to current economic conditions. During the impairment test of the receivables, the debtors, other than the key accounts and related parties, are assessed in accordance with their prior year performances, their credit risk in the current market, their performance after the balance sheet date up to the issuing date of the financial statements and furthermore, the renegotiation conditions with these debtors are considered.

c) Provisions for lawsuits are determined by the management with support of the Company's legal advisers that can result a cash outflow for the Company in every period at the date of preparation of financial statements.

d) The Company's management has made certain important assumptions based on experiences of their technical personnel in determining useful economic life of the property, plant and equipment.

e) The Company reviews its assets for any possible impairment if there is an indication of assets cannot be sold at their book value in accordance with current developments and changing circumstances. In case of such an indication and book value of assets exceed their estimated recoverable values, assets and cash providing units are stated at estimated recoverable values. The recoverable value of assets is stated at greater of net selling price or value in use.

f) Deferred tax asset can be recorded if it is probable to get taxable revenue in next years. In the case of that any probable taxable revenue occur, deferred tax asset is calculated over the carried and unused accumulated loss and all temporary differences.

2.6 Significant changes in the current period

The necessary actions have been taken by the Group management to minimize the possible effects of COVID-19, which originates in China, spreads to various countries around the world, and causes potentially fatal respiratory infections, on the Company's activities and financial status. The Company evaluated the possible effects of the COVID-19 outbreak on the financial statements and reviewed the estimates and assumptions used in the preparation of the financial statements, while preparing the financial statements dated December 31, 2020. In this context, no impairment has been identified in the amounts of the assets included in the financial statements dated December 31, 2020.

3. Cash and Cash Equivalents

The Company's Cash and Cash Equivalents as of December 31, 2020 and 2019 are as follows:

Account Name	December 31, 2020	December 31, 2019
Cash on hand	**12,242**	13,620
Cash in banks:		
– Time deposit	**1,982,000**	–
– Demand deposit	**22,826,800**	8,458,023
Total	**24,821,042**	8,471,643

The details of the time deposits as of December 31, 2020 are as follows:

	Maturity	Interest rate (%)	December 31, 2020
TL	January 2021	**17**	**1,982,000**
Total			**1,982,000**

The details of the demand deposits as of December 31, 2020 are as follows:

	December 31, 2020	December 31, 2019
EUR	**13,541,636**	7,015,018
GBP	**9,111,881**	1,385,270
USD	**165,665**	43,851
TL	**7,618**	13,884
Total	**22,826,800**	8,458,023

As of December 31, 2020, there are no blockage, pledges or mortgages on cash and cash equivalents (December 31, 2019: None).

4. Trade receivables and payables

a) Short-term trade receivables

As at the balance sheet date, trade receivables of the Company are as follows:

	December 31, 2020	December 31, 2019
Trade receivables	**67,685,299**	41,602,836
Doubtful receivables	**329,806**	329,806
Trade receivables from related parties (Note 26)	**25,930,754**	7,333,801
	93,945,859	49,266,443
Minus: Provision for doubtful receivables	**(329,806)**	(329,806)
Minus: Expected credit loss		
Third parties	**(495,947)**	(50,553)
Related parties	**(1,307,303)**	(8,912)
Total	**91,812,803**	48,877,172

The maturity of the Company's trade receivables varies depends on the contracts signed. However, the average maturity for the trade receivables as of December 31, 2020 is 69 days (2019: 50 days). As of December 31, 2020, there was no calculation of unearned finance income as it had no significant influence on trade receivables.

Significant portion of doubtful trade receivables are related to customers who have unexpected financial difficulty and not expected to be collected.

The movement of the Company's provision for doubtful receivables as of December 31, 2020 and 2019 is as follows:

	2020	2019
January 1	**(329,806)**	(329,806)
Charge during the year (Note 23)	**–**	–
Provision no longer required (Note 22)	**–**	–
December 31	**(329,806)**	(329,806)

The movement of the Company's expected credit loss as of December 31, 2020 and 2019 is as follows:

	2020	2019
January 1	**(59,465)**	(314,083)
Charge during the year (Note 23)	**(1,803,250)**	(59,465)
Provision no longer required (Note 22)	**59,465**	314,083
December 31	**(1,803,250)**	(59,465)

b) Short-term trade payables

As at the balance sheet date, trade payables of the Company are as follows:

	December 31, 2020	December 31, 2019
Trade payables	**51,131,008**	33,447,222
Trade payables to related parties (Note 26)	**719,666**	200,861
Total	**51,850,674**	33,648,083

The maturity of the Company's trade payables varies depends on the contracts signed. However, the average maturity for the trade payables as of December 31, 2020 is 50 days (2019: 50 days).

5. Other receivables and payables

a) Other receivables

Short-term other receivables	December 31, 2020	December 31, 2019
Other receivables	**79,090**	163,774
Other receivables from related parties (Note 26)	**46,092**	7,080
Total	**125,182**	170,854

Long-term other receivables	December 31, 2020	December 31, 2019
Deposits and guarantees given	**481,305**	389,650
Total	**481,305**	389,650

b) Other payables

Short-term other payables	December 31, 2020	December 31, 2019
Other payables	**918,621**	523,772
Other payables to related parties (Note 26)	**8,525**	15,594
Total	**927,146**	539,366

Other payables mainly consist of accruals related to insurance companies and other purchases.

6. Inventories

	December 31, 2020	December 31, 2019
Raw materials and supplies	**30,621,983**	25,698,392
Work in process	**16,161,433**	16,383,369
Finished goods	**8,095,093**	4,307,531
Goods in transit	**239,195**	–
Total	**55,117,704**	46,389,292

The amount of insurance cover on inventories is Eur 2,000,000 for the year ended December 31, 2020.

7. Prepaid expenses and deferred income

a) Prepaid expenses

Short-term prepaid expenses	December 31, 2020	December 31, 2019
Advances given	**430,972**	1,604,702
Prepaid expenses for next months	**1,204,657**	968,111
Total	**1,635,629**	2,572,813

b) Deferred income

Short-term deferred income	December 31, 2020	December 31, 2019
Income related to future months (*)	**1,221,924**	599,062
Advances received	**1,235,286**	72,898
Total	**2,457,210**	671,960

(*) Delivered duty paid ("DDP") is a delivery agreement whereby the seller assumes all of the responsibility, risk, and costs associated with transporting goods until the buyer receives or transfers them at the destination port. Income related to future months consist of sales which are not recorded as revenue due to delivery method.

8. Financial liabilities

	December 31, 2020	December 31, 2019
Short-term financial liabilities		
Short-term bank loans	**7,903,316**	5,220,877
Current portion of long-term operation lease liabilities	**2,743,280**	3,292,216
Other financial liabilities (*)	**348,011**	276,265
Long-term financial liabilities		
Long-term operation lease liabilities	**12,105,352**	14,733,193
Total	**23,099,959**	23,522,551

(*) Other financial liabilities consist of credit card payables.

Movements of bank loans as follows:

	December 31, 2020	December 31, 2019
January 1	**5.220.877**	28.347.592
Addition	**100.733.176**	634.758.025
Principal paid	**(98.050.737)**	(657.884.740)
December 31	**7.903.316**	5.220.877

9. Investment accounted for using the equity method

Investment accounted for using the equity method as of December 31, 2020 and 2019 is as follows:

	December 31, 2020	December 31, 2019
Kumsan Döküm ve Malz. San. ve Tic A.Ş.	**6,371,562**	5,420,189
Total	**6,371,562**	5,420,189

As of December 31, 2020, share capital of Kumsan Döküm ve Malz. San. ve Tic. A.Ş. is TL 1,200,000 (2019: TL 1,200,00)

Details of share of profit/ (loss) of investments accounted for using the equity method for the periods ended December 31, 2020 and 2019 are as follows:

	December 31, 2020	December 31, 2019
January 1	**5,420,189**	5,123,775
Profit for the year	**1,101,973**	296,414
Dividend payment	**(150,600)**	–
December 31	**6,371,562**	5,420,189

10. Investment properties

Movement of investment properties and accumulated amortization for the year ended December 31, 2020 and 2019 are as follows:

	January 1, 2020	**Additions**	**December 31, 2020**
Cost:			
Building	**721,459**	**–**	**721,459**
Total cost	**721,459**	**–**	**721,459**
Accumulated amortization:			
Buildings	**311,438**	**14,469**	**325,907**
Total accumulated amortization	**311,438**	**14,469**	**325,907**
Net book value	**410,021**		**395,552**

	January 1, 2019	Additions	December 31, 2019
Cost:			
Building	721,459	–	721,459
Total cost	721,459	–	721,459
Accumulated amortization:			
Buildings	296,969	14,469	311,438
Total accumulated amortization	296,969	14,469	311,438
Net book value	424,490		410,021

The Company included the amortization expenses from investment properties for the year ended December 31, 2020 amounting to TL 14,469 under the general administration expenses (2019: TL 14,469).

Investment properties consist of 3,550 m2 of administrative buildings with an area of 15,461 m2 in Ankara Sincan Organized Industrial Zone Batıhun Street.

11. Property, plant and equipment

Movement of property, plant and equipment and accumulated depreciation between January 1 - December 31, 2020 are as follows:

Cost	Land	Land improvements	Buildings	Plant, machinery and equipment	Vehicles	Furniture and fixtures	Other tangible fixed assets	Leasehold improvements	Construction in progress	Total
Opening Balance as of January 1, 2020	1,386,469	7,150,380	15,052,767	293,365,420	802,382	5,838,558	5,246,250	61,375	16,426,757	345,330,358
Additions	–	283,353	16,830	260,900		3,246,476	125,933	287,079	12,470,179	16,690,750
Disposals (-)	–	–	–	(49,091)	(353,011)	–	–	–	(6,727,316)	(7,129,418)

b) Long-term provisions for employee benefits

	December 31, 2020	December 31, 2019
Provision for employee termination benefits	**31,012,525**	19,809,395
Total	**31,012,525**	19,809,395

Under the Turkish Labor Law, the Company is required to pay employment termination benefits to each employee who has qualified for such benefits as the employment ended. Also, employees entitled to a retirement are required to be paid retirement pay in accordance with Law No: 2422 dated 6 March 1981 and No: 4447 dated 25 August 1999 and the amended Article 60 of the existing Social Insurance Code No: 506. Some transitional provisions related with retirement prerequisites have been removed due to the amendments in the relevant law on May 23, 2002. The amount payable consists of one month’s salary limited to a maximum of TL 7,117,17 for each period of service as of December 31, 2020 (December 31, 2019: TL 6,379,36).

Liability of employment termination benefits is not subject to any funding as there isn’t an obligation. Provision is calculated by estimating the present value of the future probable obligation of the Company arising from the retirement of the employees. IAS 19 “Employee Benefits” requires actuarial valuation methods to be developed to estimate the Company’s obligation under the defined benefit plans.The Company has reflected the employee termination liability in the financial statements by using the Projection Method in accordance with IAS 19 and the actuary method and assumptions based on the calculations made by the professional actuary. All actuarial gains and losses are recognized as other comprehensive expenses in equity.

The communiqué requires actuarial valuation methods to be developed to estimate the company’s provision for employee termination benefits.

	2020	2019
Inflation rate (%)	**9,00**	15,00
Interest rate (%)	**13,25**	19,50
Turnover rate for the probability of retirement (%)	**92,77**	92,58

As of December 31, 2020 and 2019, movements of the provision for employee termination benefits are as follows:

	2020	2019
January 1	**19,809,395**	10,867,580
Service cost	**1,445,111**	4,192,514
Interest cost (Note 25)	**2,624,745**	1,852,646
Payments (-)	**(2,636,649)**	(3,759,794)
Actuarial loss	**9,769,923**	6,656,449
December 31	**31,012,525**	19,809,395

As of 31 December 2020, the sensitivity analysis of the significant assumptions used in the calculation of provision for employment termination benefits is as follows:

	Net discount rate		**Turnover rate for the probability of retirement**	
Sensitivity level	**%0,5 decrease**	**%0,5 increase**	**%0,5 decrease**	**%0,5 increase**
Rate	(1.1)	8.9	87.77	97.77
Employment termination benefit	55,833,422	20,017,668	27,829,252	36,102,650

16. Other short-term provisions

	December 31, 2020	December 31, 2019
Provisions for lawsuits	**671,036**	485,142
Total	**671,036**	485,142

As of December 31, 2020 and 2019, provisions for lawsuits consist of employee lawsuits.

Movements of provisions for lawsuits as follows:

	2020	2019
January 1	**485,142**	311,692
Charge during the year (Not 23)	**491,946**	291,450
Provision no longer required (Not 22)	**(306,052)**	(118,000)
December 31	**671,036**	485,142

17. Other current assets

Tax expense and deferred tax

Tax expense includes current tax expense and deferred tax expense. The tax is included in the income statement, provided that it is not directly related to an operation accounted under equity. Otherwise, the tax is accounted under equity as well as the related transaction.

Current tax expense is calculated by taking into account the tax laws applicable in the countries where the Company's subsidiaries and investments accounted for using the equity method are active as of the date of statement of financial position. According to Turkish tax legislation, legal or business centers institutions in Turkey, the corporation is subject to tax.

In the Turkish taxation system, tax losses can be offset against future taxable income for the next five years and are not deductible (retrospectively) from previous years' earnings.

Since the applicable tax rate has been changed to 22% for the 3 years beginning from 1 January 2018, 22% tax rate is used in the deferred tax calculation of 31 December 2019 for the temporary differences expected to be realized/closed within a year (for the year 2020). However, since the corporate income tax rate after 2020 is 20%, 20% tax rate is used for the temporary differences expected to be realized/closed after 2020.

As of December 31, 2020 and 2019, income tax provisions have been accrued in accordance with the prevailing tax legislation.

75% of the income derived by the Company from the sale of participation shares, preferential rights, founders' shares and redeemed shares and 50% of the income derived by the Company from the sale of immovable property which are carried in assets for at least for two years is exempt from corporate tax with the condition that the relevant income should be added to the share capital or kept under a special reserve account under equity for 5 years in accordance with the Corporate Tax Law.

Deferred tax liabilities are recognized for all taxable temporary differences, where deferred tax assets resulting from deductible temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary difference can be utilized.

Provided that deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority and it is legally eligible, they may be offset against one another.

There is no agreement with the tax authorities on the tax payable in Turkey. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years

Corporation tax

The Company is subject to the applicable tax legislation and practice in Turkey.

In Turkey, the corporate tax rate is 20%. However, in accordance with the addition of temporary 10th article to the Corporate Tax Law, 22% corporate tax rate will be applied to the profits of the entities related to their to 2018, 2019 and 2020 tax periods (for the entities with special accounting period, tax periods commenced in the related year) rather than 20%. This rate is applicable to the tax base derived upon exemptions and deductions stated in the tax legislation and by addition of disallowable expenses to the commercial revenues of the companies with respect to the tax legislation. Corporate tax is required to be filed by the twenty-fifth day of the fourth month following the balance sheet date and taxes must be paid by the end of the fourth month.

The tax legislation provides for a temporary tax of 20% (will be applied as 22% for 2018, 2019 and 2020 tax periods) to be calculated based on earnings generated for each quarter. Temporary tax is declared by the 14th day of the second month following each quarter and corresponding tax is payable by the 17th day of the same month. The amounts thus calculated and paid are offset against the final corporate tax liability for the year. If there is excess temporary tax paid even if it is already offset, this amount may be refunded or offset. Corporate tax losses can be carried forward for a maximum period of 5 years following the year in which the losses were incurred. The tax authorities can inspect tax returns and the related accounting records for a retrospective maximum period of five years.

15% withholding applies to dividends distributed by resident real persons, those who are not liable to income and corporation tax, non-resident real persons, non-resident corporations (excluding those that acquire dividend through a permanent establishment or permanent representative in Turkey) and non-resident corporations exempted from income and corporation tax.

Dividend distribution by resident corporations to resident corporations is not subject to a withholding tax. Furthermore, in the event the profit is not distributed or included in capital, no withholding tax shall be applicable.

The breakdown of cumulative temporary differences and the resulting deferred tax assets/ liabilities provided using effective tax rates as of December 31, 2020 and 2019 are as follows:

27. Nature and level of risks arising from financial instruments

The primary financial instruments of the Company consist of cash and short-term deposits. The main objective of the related financial instruments is to finance Company's business activities.

a) Capital risk management

The Company manages its capital to ensure that it will be able to continue as a going concern while maximizing the return to shareholders through the optimization of the equity balance.

The Company monitors capital on the basis of the net financial debt/ shareholder's equity ratio. Net financial debt calculated as total financial liabilities (including short and long-term bank borrowings) less cash and cash equivalents. This ratio is calculated as net financial debt divided by total shareholders' equity.

	December 31, 2020	December 31, 2019
Financial liabilities	**23,099,959**	23,522,551
Less: Cash and cash equivalents	**24,821,042**	8,471,643
Net (cash)/ debt	**(1,721,083)**	15,050,908
Total equity	**186,691,532**	171,594,530
Net debt/ total equity rate	**(0,009)**	0,088

b) Financial risk factors

The Company's activities expose it to a variety of financial risks: foreign exchange risk, credit risk and liquidity risk. Company Management and Board of Directors examines and approves the policies on the management of risks stated below. In addition, Company also considers the market risk of all of its financial instruments.

b.1) Credit risk management

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. Financial instruments of the Company that will result in concentration of credit risk mainly include cash and cash equivalents and trade receivables. The Company's maximum exposure to credit risk is the same as the amounts recognized in the financial statements.

The Company has cash and cash equivalents at several financial institutions. The Company manages this risk by continuously evaluating the reliability of these financial institutions.

The credit risk from trade receivables is limited due to the high volume of customer and limited amount of credit practiced to the customer by the Company's management.

b.2) Liquidity risk management

Liquidity risk is the risk of Company not meeting its net funding requirements.

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The table includes both interest and principal cash flows.

Contractual Maturity Analysis December 31, 2020	**Carrying Value**	**Total Cash Outflow According To Contract (I+II+III+IV)**	**Less Than 3 Months (I)**	**3-12 Months (II)**	**1-5 Years (III)**	**More Than 5 Years (IV)**

b.3) Market risk management

As the details can be seen below, the Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

Market risk exposures are supplemented by sensitivity analysis.

b.3.1) Foreign currency risk management

The Company is exposed to foreign exchange risk arising from foreign currency transactions.

As of December 31, 2020 and 2019, details of foreign currency positions of assets and liabilities of the Company are as follows:

	Current period			
Foreign exchange position	**TL Equivalent**	**USD**	**EUR**	**GBP**
1. Monetary financial assets (including cash and bank)	22,828,513	22,694	1,503,507	917,003
2. Trade receivables	57,326,349	205,341	3,906,806	2,074,350

AUDITOR'S REPORT

To the Annual General Meeting of Sampo-Rosenlew Oy

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Sampo-Rosenlew Oy (business identity code 0773638-7) for the year ended 31 March, 2021. The financial statements comprise the balance sheet, income statement, cash flow statement and notes.

In our opinion, the financial statements give a true and fair view of the company's financial performance and financial position in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements.

Basis for Opinion

We conducted our audit in accordance with good auditing practice in Finland. Our responsibilities under good auditing practice are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the company in accordance with the ethical requirements that are applicable in Finland and are relevant to our audit, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of the Board of Directors and the Managing Director for the Financial Statements

The Board of Directors and the Managing Director are responsible for the preparation of financial statements that give a true and fair view in accordance with the laws and regulations governing the preparation of financial statements in Finland and comply with statutory requirements. The Board of Directors and the Managing Director are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors and the Managing Director are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting. The financial statements are prepared using the going concern basis of accounting unless there is an intention to liquidate the company or cease operations, or there is no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with good auditing practice will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with good auditing practice, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the Board of Directors' and the Managing Director's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events so that the financial statements give a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Reporting Requirements

Other Information

The Board of Directors and the Managing Director are responsible for the other information. The other information comprises the report of the Board of Directors. Our opinion on the financial statements does not cover the other information.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. Our responsibility also includes considering whether the report of the Board of Directors has been prepared in accordance with the applicable laws and regulations.

In our opinion, the information in the report of the Board of Directors is consistent with the information in the financial statements and the report of the Board of Directors has been prepared in accordance with the applicable laws and regulations.

If, based on the work we have performed, we conclude that there is a material misstatement of the report of the Board of Directors, we are required to report that fact. We have nothing to report in this regard.

NOTES TO THE FINANCIAL STATEMENT 31 MARCH 2021

A. Basis of preparation

1. Valuation Principles

Valuation of Fixed Assets:
Fixed assets are carried at direct purchase cost with deduction of planned depreciations. Depreciation according to plan has been computed according to either the total useful lives of the fixed assets goods or with maximum reducing balance method. The depreciation principles are given in the notes in item B(4).

Valuation of Inventories:
Inventories have been entered at the amount of the acquisition cost or at a sales price if likely to be lower than the acquisition cost. Variable manufacturing expenses of goods have been included in the acquisition costs of inventories.

Receivables and Payables in Foreign Currencies:
Receivables and payables in foreign currencies have been converted into EUR using the average exchange rates of fiscal year closing date. With minor transactions, the rate of the recording date is used.

Research and Development Expenses:
The R&D expenses are entered in the year incurred.

2. Financial Statements

Sampo-Rosenlew Oy has also branch in Sweden and joint venture in Algeria. The figures for the Swedish branch have been combined with those of Sampo-Rosenlew.

Due to the merger during last fiscal year, the company will not prepare consolidated financial statements. The merger gain is recognized in other operating income.

B. Notes to Profit and Loss Account

1. Sales by market

	2021	2020
Market areas

Separate Auditor's report has today been given regarding audit performed.

Independent Auditors' Report

To the Members of
Mahindra & Mahindra Financial Services Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the standalone financial statements of Mahindra & Mahindra Financial Services Limited ("the Company"), which comprise the standalone balance sheet as at 31 March 2021 and the standalone statement of profit and loss (including other comprehensive income), standalone statement of changes in equity and standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2021, and profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the *Auditors' Responsibilities for the Audit of the Standalone Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Description of Key Audit Matters

Key audit matter	How the matter was addressed in our audit
Impairment loss allowance *Refer to the accounting policies in "Note 2.5 to the standalone financial statements: Impairment of Standalone Financial Statements and Estimation uncertainty relating to the global health pandemic from COVID-19 and current Macro-economic scenario", "Note 7 to the standalone financial statements: Loans", "Note 51.2 to the standalone financial statements: Credit Risk Management"*	
The Company has recorded an impairment loss allowance of Rs. 4,653.61 crores as at 31 March 2021 and has recognized a charge of Rs. 3,734.82 crores for the year ended 31 March 2021 in its statement of profit and loss. Under Ind AS 109, Financial Instruments, allowance for loan losses are determined using expected credit loss (ECL) model. The estimation of impairment loss allowance on financial instruments involves significant judgement and estimates. The key areas where we identified greater levels of management judgement and therefore increased levels of audit focus in the Company's estimation of ECLs are: • Data inputs - The application of ECL model requires several data inputs. This increases the risk that the data that has been used to derive assumptions in the model, which are used for ECL calculations, may not be complete and accurate.	Our key audit procedures included: • Performed end to end process walkthroughs to identify the key systems, applications and controls used in the impairment loss allowance processes. We tested the relevant manual (including spreadsheet controls), general IT and application controls over key systems used in the impairment loss allowance process. • Assessed the design and implementation of controls in respect of the Company's impairment allowance process such as the timely recognition of impairment loss, the completeness and accuracy of reports used in the impairment allowance process and management review processes over the calculation of impairment allowance and the related disclosures on credit risk management. • Testing management's controls over authorisation and calculation of post model adjustments and management overlays.

<table>
<tr><th>Key audit matter</th><th>How the matter was addressed in our audit</th></tr>
<tr><td colspan="2">Impairment loss allowance
Refer to the accounting policies in “Note 2.5 to the standalone financial statements: Impairment of Standalone Financial Statements and Estimation uncertainty relating to the global health pandemic from COVID-19 and current Macro-economic scenario”, “Note 7 to the standalone financial statements: Loans”, “Note 51.2 to the standalone financial statements: Credit Risk Management”</td></tr>
<tr><td>• Model estimations – Inherently judgmental models are used to estimate ECL which involves determining Exposures at Default (“EAD”), Probabilities of Default (“PD”) and Loss Given Default (“LGD”). The PD and the LGD are the key drivers of estimation complexity in the ECL and as a result are considered the most significant judgmental aspect of the Company’s modelling approach.
• Economic scenarios – Ind AS 109 requires the Company to measure ECLs on an unbiased forward-looking basis reflecting a range of future economic conditions. Significant management judgement is applied in determining the economic scenarios used and the probability weights applied to them especially when considering the current uncertain economic environment arising from COVID-19.
• Qualitative adjustments/management overlays – Adjustments to the model-driven ECL results as overlays are recorded by management to address known impairment model limitations or emerging trends as well as risks not captured by models. As at 31 March 2021, overlays represent approximately 21% of the ECL balances. These adjustments are inherently uncertain and significant management judgement is involved in estimating these amounts especially in relation to economic uncertainty as a result of COVID-19.
The underlying forecasts and assumptions used in the estimates of impairment loss allowance are subject to uncertainties which are often outside the control of the Company. The extent to which the COVID-19 pandemic will impact the Company’s current estimate of impairment loss allowances is dependent on future developments, which are highly uncertain at this point. Given the size of loan portfolio relative to the balance sheet and the impact of impairment allowance on the financial statements, we have considered this as a key audit matter.
Management has also taken consideration of RBI’s expectation to bring down the net NPA ratio below 4% and recorded an additional provision of Rs. 1,320 crores on Stage 3 loans, which is over and above the model determined ECL provision/overlays.
Disclosures:
The disclosures regarding the Company’s application of Ind AS 109 are key to explaining the key judgements and material inputs to the Ind AS 109 ECL results.</td><td>• Evaluated whether the methodology applied by the Company is compliant with the requirements of the relevant accounting standards and confirmed that the calculations are performed in accordance with the approved methodology, including checking mathematical accuracy of the workings.
• Sample testing over key inputs, data and assumptions impacting ECL calculations to assess the completeness, accuracy and relevance of data and reasonableness of periods considered, economic forecasts, weights, and model assumptions applied.
• Test of details on post model adjustments, considering the size and complexity of management overlays with a focus on COVID-19 related overlays, in order to assess the reasonableness of the adjustments by challenging key assumptions, inspecting the calculation methodology and tracing a sample of the data used back to source data.
• Testing the ‘Governance Framework’ over validation, implementation and model monitoring in line with the RBI guidance. Discussed with and read the relevant correspondences that the Company has exchanged with the RBI with respect to the RBI’s expectation to bring the net NPA ratio below 4%.
• Verified the mathematical accuracy of the workings required to bring down the net NPA ratio below 4%.
• Assessed whether the disclosures (including arising from the RBI expectation to bring down the net NPA ratio below 4%) on key judgements, assumptions and quantitative data with respect to impairment loss allowance in the financial statements are appropriate and sufficient.
Involvement of specialists - we involved financial risk modelling specialists for the following:
• Evaluating the appropriateness of the Company’s Ind AS 109 impairment methodologies and reasonableness of assumptions used (including management overlays).
• The reasonableness of the Company’s considerations of the impact of the current economic environment due to COVID-19 on the impairment loss allowance determination.</td></tr>
</table>

Key Audit Matters *(Continued)*

IT Systems and Controls	
The key audit matter	**How the matter was addressed in our audit**
Company's financial accounting and reporting processes are dependent on information systems including automated controls in systems, such that there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being misstated. In addition, the prevailing COVID 19 situation has caused the required IT systems to be made accessible on a remote basis and at the same time there are increasing challenges to protect the integrity of the Company's systems and data. We have identified 'IT systems and controls' as key audit matter because of the high level automation, number of systems being used by the management, current remote working situation and the inherent risks/complexity of the IT architecture.	We have involved IT specialists in performing the following key audit procedures: • Performed control testing on user access management, change management, segregation of duties, system reconciliation controls and system application controls over key financial accounting and reporting systems. • Tested key controls operating over information technology in relation to financial accounting and reporting systems, including system access and system change management, program development and computer operations. • Tested the design and operating effectiveness of key controls over user access management which includes granting access/right, new user creation, removal of user rights and preventive controls designed to enforce segregation of duties. • For a selected group of key controls over financial and reporting systems, we independently perform procedures to determine that these control remained unchanged during the year or were changed following the standard change management process. • Other areas that were tested include password policies, security configurations, system interface controls, controls over changes to applications and databases and controls to ensure that developers and production support did not have access to change applications, the operating system or databases in the production environment. • Assessment of data security controls in the context of a large population of staff working from remote location at the year end.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises information included in the Company's annual report, but does not include the financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's and Board of Directors' Responsibility for the Standalone Financial Statements

Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to preparation of these standalone financial statements that give a true and fair view of the state of affairs, profit/loss and other comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an Auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by Management and Board of Directors.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditors' report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our Auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2016 ("the Order") issued by the Central Government in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. (A) As required by Section 143(3) of the Act, we report that:
   a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
   b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
   c) The standalone balance sheet, the standalone statement of profit and loss (including other comprehensive income), the standalone statement of changes in equity and the standalone statement of cash flows dealt with by this Report are in agreement with the books of account;
   d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under section 133 of the Act.

e) On the basis of the written representations received from the directors as on 31 March 2021 taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2021 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(B) With respect to the other matters to be included in the Auditors' Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations as at 31 March 2021 on its financial position in its standalone financial statements - Refer Note 45 to the standalone financial statements;

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 49 to the standalone financial statements;

iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company; and

iv. The disclosures regarding holdings as well as dealings in specified bank notes during the period from 8 November 2016 to 30 December 2016 have not been made in these financial statements since they do not pertain to the financial year ended 31 March 2021.

(C) With respect to the matter to be included in the Auditors' Report under section 197(16):

In our opinion and according to the information and explanations given to us, the remuneration paid by the company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.

ANNEXURE A TO THE INDEPENDENT AUDITORS' REPORT - 31 MARCH 2021

The Annexure referred to in Independent Auditors' Report to the members of the Company on the standalone financial statements for the year ended 31 March 2021, we report that:

i. (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.

(b) The fixed assets are physically verified by the management according to a programme of phased verification, which in our opinion is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, the fixed assets have been physically verified by management during the year and no material discrepancies were noticed on such verification.

(c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties are held in the name of the Company which are included in the head property, plant and equipment.

ii. The Company does not hold any inventory. Accordingly, paragraph 3(ii) of the Order is not applicable to the Company.

iii. According to the information and explanations given to us and based on the audit procedures conducted by us, the Company has not granted any loans, secured or unsecured to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act. Accordingly, paragraph 3(iii) of the Order is not applicable to the Company.

iv. According to the information and explanations given to us and based on the audit procedures conducted by us, the provisions of section 185 of the Act are not applicable to the Company. The Company has complied with the provisions of section 186 of the Act, to the extent applicable.

v. According to the information and explanations given to us, the Company has not accepted any deposits from the public to which the directives issued by the Reserve Bank of India and the provisions of Section 73 to 76 or any other relevant provisions of the Act and the Rules framed there under apply. Accordingly, the provision of clause 3(v) of the Order is not applicable to the Company.

vi. According to the information and explanations given to us, the Central Government has not prescribed the maintenance of cost records under section 148(1) of the Act, for any activities conducted/services rendered by the Company. Accordingly, paragraph 3(vi) of the Order is not applicable to the Company.

vii. (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, goods and service tax, cess and other material statutory dues have generally been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, the Company does not have any dues on account of sales tax, service tax, duty of customs, duty of excise and value added tax. According to the information and explanations given to us and on the basis of our examination of the records of the Company, no undisputed amounts payable in respect of provident fund, employees' state insurance, income-tax, goods and service tax, cess and other material statutory dues were in arrears as at 31 March 2021 for a period of more than six months from the date they become payable.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the following dues have not been deposited by the Company on account of any disputes.

Name of the statute	Nature of dues	Amount (Rs. in crores)	Period to which the amount relates	Forum where dispute is pending
The Income Tax Act, 1961	Income Tax	2.60	2002-2003	Commissioner of Income Tax (Appeals)
The Income Tax Act, 1961	Income Tax	13.28	2016-2017	Commissioner of Income Tax (Appeals)
Finance Act, 1994	Service Tax	75.06	2007-2012	Customs, Excise And Service Tax Appellate Tribunal (CESTAT)
Finance Act, 1994	Service Tax	2.74	2012-13	Customs, Excise And Service Tax Appellate Tribunal (CESTAT)
Finance Act, 1994	Service Tax	0.64	2013-14	Customs, Excise And Service Tax Appellate Tribunal (CESTAT)
Finance Act, 1994	Service Tax	0.09	2014-15	Customs, Excise And Service Tax Appellate Tribunal (CESTAT)

viii. According to the information and explanations given to us and based on our examination of the records, the Company has not defaulted in the repayment of loans or borrowings to financial institutions, banks, or debenture holders during the year. The Company did not have any borrowings from the government during the year.

ix. According to the information and explanations given to us and based on our examination of the records, the Company has utilised the money raised during the year by way of rights issue and terms loans, for the purpose for which they were raised. During the year, the Company has not raised moneys by way of initial public offer or further public offer.

x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or any instance of material fraud on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of such case by management.

xi. According to the information and explanations give to us and based on our examination of the records of the Company, the Company has paid/provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

xii. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable to the Company.

xiii. According to the information and explanations given to us and on the basis of our examination of the records of the Company, transactions with the related parties are in compliance with section 177 and 188 of the Act where applicable and the details of such transactions have been disclosed in the financial statements, as required by the applicable accounting standards.

xiv. According to the information and explanations given to us and based on our examination of the records, the Company has not made preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and accordingly, paragraph 3(xiv) of the Order is not applicable to the Company.

xv. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with directors or persons connected with them. Accordingly, paragraph 3(xv) of the Order is not applicable to the Company.

xvi. According to the information and explanations given to us, the Company has registered as required, under Section 45-IA of the Reserve Bank of India Act, 1934.

ANNEXURE B TO THE INDEPENDENT AUDITORS' REPORT ON THE STANDALONE FINANCIAL STATEMENTS OF MAHINDRA & MAHINDRA FINANCIAL SERVICES LIMITED FOR THE YEAR ENDED 31 MARCH 2021

Report on the internal financial controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

(Referred to in paragraph 2(A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date

Opinion

We have audited the internal financial controls with reference to financial statements of Mahindra & Mahindra Financial Services Limited ("the Company") as of 31 March 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at 31 March 2021, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to the financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 (hereinafter referred to as "the Act").

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

Meaning of Internal Financial controls with Reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.
